## Announcing the New HSC PolicyManager Platform

by David Lucero on December 7th, 2020 | [0 Comments](#)

Special Policy Announcement from UNM

### Health Sciences

We are pleased to announce, in January 2021, we will be kicking off PolicyManager™ at UNM Health Sciences. The new policy platform will be enterprise-wide! All of Health Sciences, Academics, Research, UNM Hospitals and SRMC are joining Medical Group and the Cancer Center on one policy platform called PolicyManager™.

Over 3,000 healthcare facilities worldwide use this comprehensive, electronic policy management system. PolicyManager™ will create a streamlined, collaborative, and reliable method of creating, accessing and maintaining our policies and procedures.

In today's ever-changing regulatory environment, it is critical to have a policy management system that can adjust and adapt to the needs of an organization. Simply having a set of policies is not enough to protect patients, employees, and facilities. Healthcare organizations must ensure policies guiding patient care, research, and student learning are in compliance with regulatory agencies and are quickly and easily accessible to all.

We are excited to be on the leading edge of policy compliance in healthcare. With the implementation of PolicyManager™, we reduce risk, while providing the best possible care to our patients.

You will learn more in the days ahead about the new policy platform coming soon!
