**COURTESY**  
Courtesy has been defined as:  
Treating a customer like a rich  
uncle, so that you may extract his  
coin, is not courtesy—that's fore-  
sight.

Offering your seat to a man who  
enters your office is not courtesy—  
that's duty.

Listening to the grumblings,  
growlings, and groanings of a bore  
without remonstrance is not cour-  
tesy—that's forbearance.

Helping a pretty girl across the  
street, holding her umbrella, carry-  
ing her poodle—none of these are  
courtesy. The first two are a plea-  
sure, and the last is politeness.

Courtesy is doing that which  
nothing under the sun makes you  
do but human kindness. Courtesy  
springs from the heart; if the  
mind prompts the action,  
there is a reason; if there is a  
reason, it is not courtesy, for  
courtesy has no reason. Courtesy  
is good-will, and good-will is  
prompted by the heart full of love  
to be kind.

Only a generous man is truly  
courteous. He gives freely with-  
out a thought of receiving any-  
thing in return. The generous  
man has developed kindness to  
such an extent that he considers  
everyone as good as himself—  
treats others not as he should be  
treated but as he ought to be  
treated.

Who Could Resist?  
Mrs. Ethel Thomas, Editor of  
the Shuttle, published in the cot-  
ton mill town of LaGrange, G.,  
has circulated a unique blotter a-  
mong the business men of her ter-  
ritory presenting this argument:  
PUSH, PLUCK, PERSEVER-  
ANCE, ENERGY, ENTHUSIASM,  
GRIT, GUMPTION!

When every spot is sizzling hot  
And energy is lacking,  
When "I-don't-care" lurks every-  
where  
And trade has lost its backing:  
Why, then's the time true worth  
will shine

In all its lovely splendor—  
'Tis then true grit and ready wit  
Will harvest legal tender.

The man who knows where money  
is good at calculating  
And why do invent money  
to keep circulating.

He'll advertise in space some size  
He never thinks of stopping,  
And people know just where to go  
To do their daily shopping.

The man who whines and sits and  
moans  
And swears that trade is "rot-  
ten"  
Would be more wise to advertise  
And have his staff all "bough-  
ten"

The cheerful grin will always win;  
The growler—all will shun him,  
Except his creditors, of course,  
Who once a week will dun him.

Then do not melt; just hitch your  
belt a little bit the tighter,  
Just advertise in space good size,  
And show that you're a fighter.  
The shuttle clicks with busy picks  
For those who furnish lining—  
'Twill weave for you a bolt or two  
Of success—if you are willing.

**A TEST OF CHARACTER.**  
The way a man uses money—makes it,  
saves it, spends it—is perhaps one of the  
best tests of character.

Money should not be regarded as the prin-  
cipal end of life, nor should it be regarded  
with contempt, for it represents to a great  
extent the means of mental and physical  
comfort.

The finest qualities of human nature are re-

honesty, justice and self-sacrifice.

DISARMAMENT CALL TO WORLD

FORMAL INVITATION IS SENT TO GREAT POWERS TO MEET IN GENERAL CONFERENCE.

PRINCIPLES DEFINED

NOTES ARE SENT TO GREAT BRITAIN, FRANCE, ITALY JAPAN AND CHINA.

(Western Newspaper Union News Service.)

Washington.—Putting into definite terms its proposals for a disarmament conference, the United States invited the great powers to unite in "a practical effort to remove the causes of misunderstanding" and so facilitate reduction of the world's enormous outlay for the materials of war.

Informal identic notes of invitation forwarded to Great Britain, France, Italy and Japan, the American government pledged its own unstinted cooperation in such an effort and further defined as follows as its own conceptions of the principles involved:

That there can be no hope for peace or stability until the tax burden resulting from heavy armament had been reduced.

That such a reduction is possible only if troublesome international problems are solved by common consent.

That among these problems the Pacific and Far Eastern questions occupy a position of "unquestioned importance."

That although there is no intention to dictate the scope of the conference, the discussions should touch upon matters "which have been" of international concern as well as those now admittedly controversial; and

That the question of naval armaments might well be considered first though there should be no barrier to a full consideration of armaments of every sort.

Coincidentally with the dispatch of the invitations to the four great powers, China was asked to send a delegation to take part in those discussions of the conference which relate to the Pacific and the Far East. All five nations thus invited have indicated informally that they would accept.

The note of invitation follows the principles previously defined by this government in its informal conversations with other powers, but particular attention was attracted by the suggestion that a solution of the Far Eastern situation should include "common understandings with respect to matters which have been and are of international concern."

State Department officials would not interpret the text of the note, but the general assumption here was that under this definition a way would be found to discuss such questions as Yip and Shantung, which "have been" of international concern, but which Japan now is inclined to regard as closed incidents.

Liquor Coming from Canada.

Windsor, Ontario.—Canadian prohibition officials expect liquor will pour across the border into the United States in greater streams than ever before, because of the court ruling here that the Ontario temperance act does not prohibit exportation of intoxicants to a foreign country. Disagreeing with American custom officials, who stated in Detroit that they did not look for increased run-running, the Canadians said that orders from the United States already were reaching breweries and distilleries in this district, and that owners of these plants said they would fill orders.

Investigating Debs Case.

Washington.—Attorney General Daugherty has begun drafting his recommendations to the President in regard to the proposed pardon for Eugene V. Debs, the Socialist leader, now confined in the federal prison at Atlanta. Daugherty said he hoped to complete his report "sometime this month," and indicated that there probably would be some action in the Debs case before Labor day.

Mobs Preacher for Remarks.

Oskaloosa, Iowa.—Aroused by alleged unpatriotic remarks concerning American dead in France, a mob, said to have included a number of ex-servicemen, seized the Rev. W. L. Wilford, an evangelist preacher at a tent meeting, forced the man into an automobile and carried him out in the country to apply tar and feathers. As the tar was being poured over his head, the man is said to have promised to leave town and was released without further punishment.

Special Care of Baby. That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases. Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food. A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived. Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups. WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."—Mrs. A. KELLER, Afton, Tenn.

Mrs. Mary Lister of Adrian, Mich., adds her testimony to the value of Lydia E. Pinkham's Vegetable Compound to carry women safely through the Change of Life. She says: "It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms. Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or dizzy spells are all symptoms of a nervous condition, and indicate the need for a special medicine. Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Y. W. C. A. in Constantinople. In the presence of a large number of distinguished guests both in political and educational circles, a new service center was opened recently in Stamboul, the old city of Constantinople, by the Y. W. C. A. Speeches were made in both English and Turkish. The house and garden obtained for the center are both attractive and well adapted to their new use, as well as conveniently situated. Another meeting and recreation place which the Y. W. C. A. has provided for Constantinople girls is a spacious garden on the beautiful sea of Marmora. It has been rented from a wealthy pasha to serve as a summer camp.

Steady Young Feller. "They tell me that your boy, Josh, has grown to be a middlin' wild young feller since he come back from traveling around with them marines," said Farmer Brown to his neighbor. "Wad-I," drawled the father, "he ain't exactly what I'd call wild. He's been goin' to the movies a couple times a week, smoked cigarettes, drinks a right smart lot of lemon soda, and has started to collect pictures of them show actresses. But I reckon the boy ain't had—he's just sown' his wild oats."—The Leatherneck.

POSSIBLY HER LAST CHANCE

At All Events, the Object of His Affections Perfectly Agreed With Her Fiance.

For several minutes the young man did not speak. His heart was too full. It was enough for him to know that this glorious creature loved him; that she had promised to share his fate.

With a new and delightful sense of ownership he feasted his eyes once more upon her beauty, and as he realized that henceforth it would be his privilege to provide for her welfare and happiness, he could have almost wept with joy.

His good fortune seemed incredible. Finally he whispered tenderly: "How did it ever happen, darling, that such a bright, shining angel as yourself fell in love with a dull, stupid fellow like me?"

"Godness knows," she murmured absently; "I must have a screw loose somewhere."

A Celebrity Arrives. "Great excitement in the local room." "What's happened?" "A beautiful woman has just shot a married man who wasn't married to her. The city editor has issued orders to get all her photographs available from her babyhood to the one taken yesterday, and two men have been sent to arrange for exclusive publication of her diary. He has also called up a friend who is in the motion-picture business who is on the lookout for new stars."—Birmingham Age-Herald.

Ups and Downs. Two men, strangers to each other, sat side by side in a suburban train. Finally, one turned to the other and became confidential. "I," he said impressively, "am a starter of elevators in a city skyscraper. When I signal them to go up, they go up. And your line is?" "I," said the other, "am an undertaker. When I signal them to go down, they go down."—The American Legion Weekly.

Western Canada Land of Prosperity offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms Fertile Land at \$15 to \$30 an Acre—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living. Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. ## No Woman Qualified For Disarmament Meet Says Congresswoman

WASHINGTON, Aug. 16.—Representative Alice Robertson, of Oklahoma, the only woman member of congress, took particular pains when she called at the white house today to make it plain that her visit was not to urge appointment of a woman on the American delegation to the disarmament conference.

"Show me a woman in the United States who is qualified," said Miss Robertson, "and I might urge her appointment."

She added that in order to qualify a woman not only would have to be an international lawyer versed in diplomatic practices, familiar with foreign languages and conditions, and have an assured social standing and a wide acquaintance but would have to have the faculty of "listening a great deal and saying little."

## Fatal Shooting Over Water Right in the Las Cruces District

Saturday Las Cruces Citizen reports a fatal shooting in Mesilla valley Friday when George J. Malloy, aged 50, farmer residing in the Piercho district, was shot through the abdomen with buckshot, dying shortly after.

Wesley Stewart, 45, his neighbor, is held in connection with the shooting.

Malloy and Stewart own adjoining farms and a quarrel which led to the shooting started when Malloy cut off the water leading to Stewart's farm, according to Sheriff J. R. Lucero of Dona Ana county.

Both farms are irrigated and Malloy, according to the sheriff, stated that he had been ordered by the water commissioners to cut off the supply to Stewart's farm. Stewart, the officer stated claimed that Malloy was without authority to cut off the water.

The men were alone at the time of the shooting, which took place on the line between the two farms. A shot gun was used.

Mr. Stewart is in jail pending a preliminary hearing the date of which has not been set.
