GOVERNOR WILL SOON RETURN

Acting Governor Jaffa Receives Message From Hon. W. J. Mills

CORPORATION AT CARLSBAD

People's Mercantile Company Is Capitalized at \$150,000.

Acting Secretary Jaffa has received a telegram from Governor Mills who is in Washington stating that he expects to return to Santa Fe in a few days.

Game and Fish Warden Thomas P. Gable is expected to return today from Springer where he has procured some small trout for stocking the lakes of the territory.

Acting Governor Jaffa appointed one notary public: M. E. Hickey at Albuquerque, Bernalillo county.

Articles of incorporation were filed today in the office of the secretary of the Territory by the People's Mercantile Company, at Carlsbad, Eddy county, with a capital stock of \$150,000, there being 1500 shares at \$100 each. The company will commence with a working capital of \$50,000 and will do a general real estate business besides building houses, roads, digging wells and attending to other enterprises. A. J. Crawford, who holds 150 shares, is named as the New Mexico agent with office at Carlsbad. All of the stockholders are of Carlsbad and the duration of the company is given as fifty years.

Engineers Sullivan, Neel and Myers in company with Mr. Flick and Hart made a trip down to La Bajada hill yesterday in Mr. Flick's large automobile to test the turns on the switchbacks. This big automobile came from the bottom of the hill to the top, a distance of over a mile and a half, in eight minutes making all of the completed turns with great ease. The party returned to Santa Fe in an hour and two minutes.

Good road work on the La Bajada hill has been practically completed. This road comes up the La Bajada hill on a maximum grade of seven and eight-tenths per cent and in order to maintain this grade it was necessary to make a number of switchbacks. The road bed itself is made of the material found along the line of the road.

It is probable that the convict camp will be moved from La Bajada hill to the mountains in a short time as the heat is becoming oppressive and the water supply inadequate.

HAND-CUFFED CONVICT LEAPS FROM TRAIN.

Makes Good His Escape While Being Taken to Canon City Penitentiary From Denver.

Pueblo, Colo., June 21.—Charles McGrath, aged 30, sentenced from Denver for life charged with assault, made a daring escape when he was being taken to the Canon City penitentiary by Deputy Sheriff Danbaugh of Denver, near Goodnight, at 2 o'clock this morning. McGrath leaped head first through the window of the train coach and though handcuffed successfully eluded the posse.

IRATE FATHER FAILED TO STOP DAUGHTER'S ELOPEMENT.

But Receives Two Bullet Wounds From Bridegroom Who Managed to Escape.

Mason City, Iowa, June 21.—In an attempt to stop the elopement of his daughter Marie, with Michael Grosop, Samuel Rotrock, the girl's father, was shot twice by Grosop last night. Rotrock is not dangerously hurt. Grosop made his escape.

WILL TAKE OFF ALL OPEN STREET CARS.

San Antonio, Texas, June 21.—Because the open street car has cost the traction company of this city a great deal of money in the way of damage suits won by those who had been careless enough to stick their limbs beyond the line of safety, all cars of that type will be built into pay-as-you-enter vehicles. Some months ago the traction company partly overcame this trouble by covering the cars on one side with a stout wire netting making it impossible for careless passengers to stick their arms and heads out. Since then everybody has been falling off the running board on the open side and now it will be a case of pay-as-you-enter so that the conductor may be able to assist everybody on and off the car.

SON OF GOV. MILLS WINS PRIZE IN HISTORY.

New Haven, Conn., June 21.—Among the recipients of prizes in the Yale-Sheffield scientific school is William Mills, of Santa Fe, in history. He is a son of Governor W. J. Mills of New Mexico.

URGES POSTAL SAVINGS BILL

Taft Gives Up Trip to New Haven to Assure Its Passage

HE IS THOROUGHLY AROUSED

Any Efforts to Filibuster in Senate Will Be Fought Vigorously.

Washington, June 21.—Receiving information from the Senate today, that a filibuster was proposed there by some insurgents against the postal savings bank bill President Taft decided to abandon his trip to New Haven, where he expected to see his son graduate from Yale tomorrow. The President said he would remain in Washington to look after legislation and that he would stay all summer if necessary to take the postal bank measure through in satisfactory form. It is his desire that the House bill be adopted by the Senate without amendment. Early today he sent for several recalcitrant Senators, and had a long earnest talk with them. The President said that he is thoroughly aroused over the situation.

Moody Retirement Bill Passes.
Washington, June 21.—The House bill authorizing the retirement of Justice Moody of the supreme court because of protracted illness, was passed by the Senate today, without the formality of a conference. The measure now goes to the President.

General Deficiency Bill Passes.
Washington, June 21.—The general deficiency bill, the last of the regular supply measures, received the approval of both Houses of Congress at the present session, being passed by the Senate today. It carries appropriations aggregating nearly \$8,000,000 an increase of \$1,300,000 over the House measure.

Chamizal Zone Treaty.
Washington, June 21.—Secretary Knox and Senor De Labarra, the Mexican ambassador, today arranged all details of the treaty for a definition of the respective rights of the United States and Mexico in the Chamizal zone, El Paso, Texas with the single exception of the selection of arbitrators. These will be named tomorrow.

NEVADA'S GOVERNOR WILL NOT STOP FIGHT.

The Law Permits and He is Also Friend of Tex Rickard, the Promoter.

Ogden, Utah, June 21.—Governor Dickerson of Nevada, who is in Ogden today, declared he will not interfere with the Jeffries-Johnson fight. He told a representative of the Associated Press today, that Nevada laws license prize fighting, and the executive therefore is without authority to stop the big fight.

"Though if there is any evidence of a fake fight," said the governor, "I shall stop it, but I am convinced that the contest is on its merits. Be certain to qualify that statement as to a fake fight, for Tex Rickard is a personal friend of mine and I know he would not lend his name to such deception."

Reno Gets the Fight.

Reno, Nev., June 21.—Rickard definitely announced shortly after noon today that Reno had been selected for the Jeffries-Johnson fight. Preparations for building an arena were begun at once.

Reno, Nev., June 21.—Although a committee representing the citizens of Goldfield offered Rickard a guarantee of \$200,000, Rickard chose Reno in order not to compel patrons to make a 12 hour ride across the desert to get to the scene of the battle. Reno's offer consists of an agreement to build a grand stand, furnish the site and pay a license fee of \$1,000 involving no greater expenditure than \$25,000 in all.

DISASTROUS FIRE IN CHICAGO TANNING FACTORY.

Two Firemen Were Injured and Many Employees Had Narrow Escapes—Loss Quarter Million.

Chicago, June 21.—Two firemen were injured and eight employees escaped by jumping from the windows into the river below, when fire attacked the plant of the Grease Pfleger Tanning Company here today. Four hundred employees escaped in haste owing to the rapid spread of the flames. Those who jumped into the river were good swimmers and reached shore safely. The plant was destroyed and the loss is \$250,000.

BREWER KILLED IN AN AUTOMOBILE ACCIDENT.

Omaha, Neb., June 21.—William Krug, vice president and general manager of the Fred Krug Brewing Company, was killed in an automobile accident here today.

STUPID BLUNDER DISCLOSES CRIME

Bleeding Body of Wealthy Man Found in Wrongly Routed Trunk

ARREST OF SUSPECTS MADE

These Were Drunk and on Their Way From House of Ill Fame

Portland, Ore., June 21.—The blunder of murderers in wrongly routing a trunk containing the body of their victim, late yesterday disclosed the ghastly murder of the victim, William Johnson, who, with his wife and seven year old son arrived here on Monday in company with a man who went by the name of A. C. Powers. Powers registered as from Nome, Alaska. The Johnsons did not give their residence. Powers and Mrs. Johnson were arrested at an uptown lodging house early today. The three were located through finding a little boy, and were apprehended as they were returning from an automobile trip to a suburban resort. Both, though badly intoxicated, denied all knowledge of the crime. When the trunk containing the body arrived at the Union depot it was found that it could not be shipped as the instructions read. It was then set aside and it was later discovered that blood was oozing from it. It was broken open and the body found. The police set to work immediately. Mrs. Johnson had a large sum of money on her person, which she said her husband, who had sold a farm had given her to keep.

APPRAISAL OF THE PUBLIC DOMAIN.

Classification and Valuation in Public Coal, Oil and Phosphate Lands, Water Power Withdrawals.

Washington, June 21.—While legislation is under consideration by Congress looking to a more effective conservation policy by the government than is now possible, Uncle Sam meantime is making the most of his present opportunities and is pushing vigorously ahead in the real work of securing the best development of natural resources. What is known as the "land classification" office-report of the Geological Survey for the month of May contains some live statements.

During the month the survey reported on 1,097,261 acres of coal land withdrawals of which 329,334 acres were classified as noncoal lands. The coal lands were valued, by 40-acre units according to the estimated tonnage, and the aggregate price fixed was \$58,508,120. Under the minimum price fixed by law, which obtained in the disposal of coal lands until within the past few years, the price of these lands would have been but \$13,320,390, a difference of \$45,000,000 as a result of one month's work. Heretofore coal land valuations have been based entirely upon the field work of survey geologists but of the above mentioned acreage 14,962 acres of California lands, with a valuation of \$585,086, were priced on the basis of a report by a special agent of the general land office. This tract of land is the first California land to be classified as coal. New withdrawals of lands, containing more or less coal and subject to future classification and valuation, were made covering 179,561 acres.

Withdrawals Covering Water Power Sites.

Temporary withdrawals were made covering 27,889 acres along western rivers designed to reserve and protect federal water power sites subject to revision after field examination and to further final disposition following legislation by Congress. Restorations were also made covering 25,512 acres of land withdrawn on account of power sites, which was found upon further examination to be non-essential to the government control of the power. The policy of the survey in making withdrawals and restorations is stated to be that withdrawals of land for all purposes of protection of different resources are made to include as little public land as is deemed necessary to fully protect the government at the time of the withdrawals, while as fast as subsequent examination of available data or field investigation shows withdrawn areas to be unnecessary to the government protection such areas are restored to public entry.

Oil and Phosphate Classification.
An oil land withdrawal was made in New Mexico covering 419,901 acres, while in Utah 23,040 acres were restored which field examination showed to be nonoil land.

In Florida, where there is still some public land, a phosphate withdrawal was made covering 2,400 acres based on recent field examination by a survey geologist detailed to the general land office and similar work is being

(Continued on Page Eight.)

UNREST ALONG MEXICAN BORDER

Government Expected Revolutionary Attack on Naco, Sonora, Last Night

TROOPS HURRIED TO SCENE

However Fears of the Authorities Appeared to Be Groundless and Quiet Reigns.

Bisbee, Ariz., June 21.—The Mexican customs house and postoffice in Naco, Sonora, was last night guarded by Mexican customs guards in anticipation of an attack from revolutionists. The Mexican customs collector came across the line to Naco, Arizona, bringing customs money and went to the home of the Italian consul which was guarded by American deputy sheriffs. Yesterday afternoon, Mexican Consul Torres at Naco, Arizona, received information that an attack was planned on Naco, Sonora. The city of Mexico was communicated with and troops were ordered to the scene. A company is due to arrive from Cananea this morning.

Uncle Sam May Send Troops to Border.

El Paso, Texas, June 21.—That the Mexican government views seriously the threatened uprising in the state of Sonora was made evident today when it became known that Mexico has appealed to the United States to protect its frontier, two troops of the Eighth cavalry, at Fort Huachuca, Arizona, have orders it is said, to move at the first sign of trouble.

UPTON SELLS HIS INTEREST IN MIMBRES CANNERY.

Four Hundred Acre Orchard and Farm Went into the Bargain—Quarter Million Labels.

Deming, N. M., June 21.—Charles E. Napp has bought out the interest of Senator J. N. Upton in the cannery now in course of construction on the Mimbres twenty miles north of Deming. Mr. Napp also bought the farm of Senator Upton consisting of 450 acres of farming lands and orchard. The construction work on the cannery will be pushed forward with all possible expedition. All the machinery for this cannery as well as the machinery for making the cans is on the ground. A hundred thousand cans are also on the ground and 250,000 labels, so that the cannery can begin operations just as soon as the machinery is installed. The capacity of this cannery is 250,000 cans in a season.

J. A. Kidd of Waco, Texas, has accepted a position in the office of Major James R. Waddill.

W. W. Barracks of Las Cruces, has moved to Deming, and will begin improving his land which lies a few miles south of town.

Mrs. J. A. Lorentzen, of El Paso, is visiting her cousin, Mrs. L. R. Taylor of this place.

POET CHOOSES SPECTACULAR METHOD OF SUICIDE.

Rides Into the Storm Tossed Sea as He Sends Bullet Crashing Through His Heart.

Athens, June 21.—Pericles Ianopolos, a Greek poet, compared by Mme. Leblanc-Maeterlinck to Hermes for his personal beauty, has committed suicide in melodramatic fashion.

At a banquet to which he had summoned all his friends he showed them a trunkful of manuscripts that were to be destroyed.

"Tomorrow I am going on a journey," he said, as they left him. The next morning each of them received by post an exquisite statuette of a horse.

At the same time Ianopolos rode out of the city to Mount Aegaleos, gathered a garland of flowers and then made a dash for the sea. At the time a violent storm was raging. Ianopolos, driving his spurs into the horse's flanks, urged the maddened beast into the foaming waters of the bay, and shot himself through the heart.

In a letter written to a relative the poet wrote: "I am giving my dead body to the sea to cleanse it. If the sea gives up, cast me back again."

CO-OPERATION AND PROTECTION OF CHRISTIAN UNITY.

Fruitful Topic of Discussion at Well Attended Session of World's Missionary Conference.

Edinburgh, Scotland, June 21.—Again today a large audience applauded and discussed the views advanced by the world's missionary conference. The report of the commission on the "Co-operation and Promotion of Unity" was presented and read by the Chairman, Sir Andrew H. L. Fraser, formerly lieutenant governor of Bengal.

DROUTH AND STORM DAMAGE

Wheat Pit Boiling Over With Excitement on Account of Bad News

DAKOTAS, MINNESOTA SUFFER

Lightning Strikes Men and Buildings on Upper Manhattan Island.

Chicago, June 21.—There is still no rain in the northwest. This was the burden of messages from the Dakotas and Minnesota today, and as a result the wheat pit of the board of trade fairly boiled with excitement. The spring wheat of the country is said to be scorching with a temperature averaging over 90 degrees. September wheat showed opening bids at 23-1 cent up from yesterday's close.

Chicago, June 21.—The closing spurt based on the fact that trading today came to an end without the needed rain sent September to 98-1-4 @1-4, and at the close it was at 97-7-8 @1-4.

Damage in New York By Electric Storm.

New York, June 21.—A severe electrical storm swept the upper part of Manhattan island and Bronx today, lightning striking several buildings and doing extensive damage. Several men were shocked into unconsciousness when the bolt struck.

MONSIEUR D'ALBERT WAS RATHER SECRETIVE.

Has Hotel Clerks Guessing as to His Identity and His Present Whereabouts.

Did H. T. D'Albert, who registered at the Claire hotel Sunday June 5, take "French leave" Sunday June 12 or has he met foul play? That is the question asked around the hotel and which has been put to Captain Fornoff of the mounted police.

It may take some time to be answered for if there ever was a man with a mysterious bump "Monsieur D'Albert" apparently had it and had it well developed.

He is described as a young man under 30 years of age, 5 feet 7 inches in height, weighing 140 pounds and dressed in a fine suit of dark material. He carried a leather suitcase. He registered backhand and carelessly left the apostrophe which was intended to go between the D and the A somewhere near the b in Albert. He was clean shaven and taciturn, so the hotel clerk says. Beyond an exchange of matutinal greetings, it appears the hotel clerks had no conversation with their guest who was registered in room 29.

"Monsieur" was out of his room a good deal and came to the hotel between train hours. He also departed when no bus was running.

He left in his room three neckties, made in Brooklyn, 14 collars, size 14, four negligee shirts, size 14-1-2, some winter underwear from which his initials were cut with a knife, a pajama nightshirt, a few toilet articles, and a box of cold cream, the name of the pharmacist selling it having been torn off. He also left a pair of low shoes, No. 5. Not a letter of the alphabet was found to give away his identity, and the only clue to his occupation was a package of artist crayons and a draughtsman's fine pen.

He also left the vest of the suit he wore, but the inside pocket which may have had his name on it, was cut out.

The mystery of his disappearance has fascinated a number of semi-professional "sleuths" in the city and Monsieur's relics have been carefully gone over. "He was probably murdered," said one sleuth. "He simply took French leave owing the Claire a week's rent," said another. "It is a great mystery," said a third.

And that is what a clerk at the Claire hotel thinks and wishes the mystery were solved.

LONG DRAWN OUT CAPITAL CONTEST IN OKLAHOMA.

Guthrie, Okla., June 21.—Arriving here late yesterday afternoon, Federal Judge Campbell began the hearing on the petition to enjoin Governor Haskell and other state officials from removing the capital of the state from Guthrie to Oklahoma City.

Court adjourned at 10 o'clock last night until today when the hearing of arguments will continue.

Judge Campbell indicated a disposition to allow the arguments to take a wide range. The arguments therefore, will hardly be concluded before late Tuesday night and probably not until Wednesday.

TEXAS MOB BURNS NEGRO AT THE STAKE.

Rusk Texas, June 21.—Leonardo Johnson, a negro charged with killing Miss Maud Redding, a young white woman, was burned at the stake by a mob last night.

HE TRAVELS ON HORSES

Albuquerque Youth Despises Maxims of Hobo "A No. 1"

DOESN'T CARE FOR TRAINS

But Views Country While In the Saddle—May See Reformatory.

That he has traveled all around the country and that he has not made his trips in pilgrim fashion on foot, or riding on trains, emulating the example of Hobo A No. 1, but that he has sat in a comfortable saddle on the back of a good horse was the declaration made by William Mallette, the Albuquerque boy now in the lock-up pending an investigation of some of his equestrian experiences.

Mallette, who is said to be fifteen years of age and one of six children of G. W. Mallette, who four or five years ago ran a hotel at Jemez Springs and who is well known in the Duke City, has amazed the local police officials by his "line of talk" and by the consummate nerve he displayed in removing a mare and her colt from the stables of Banker J. W. Norment of this city Sunday night.

It appears the young horseman (and lover of other people's horses) came up from the Duke City some days ago and sought work at the home of Mr. Norment. He was allowed to care for the horses. This care-taking developed into such a fondness for horseflesh that some time Sunday night Mallette is said to have taken a handsome mare from Mr. Norment's stable and the colt with her, riding the mare to Tesque. He apparently enjoyed the ride, but it seems he felt embarrassed having a colt tagging at his mount's heels. How to get rid of a colt without suspicion might have puzzled an older head than Willie's but at Tesque the youthful equestrian saw a horse blanket that appealed to his fancy. He quickly traded the colt for the blanket, feeling that he had benefited all concerned by the transaction.

Then, after a needed rest for man and beast, Willie pushed on toward Espanola.

Sunday morning when Mr. Norment went into his stable to prepare for a horseback ride he found his favorite animal and her colt gone. So was Willie. Then the sheriff was notified and with Mr. Closson, Mr. Norment went in hot pursuit. It appears they got wind of how the colt was separated from the mare at Tesque, the horse blanket being the "separator" and they also got wind of the direction in which Willie was traveling.

Espanola the lad was caught by Sheriff Closson and was brought back to Santa Fe by Captain Fornoff of the Mounted Police the captain having met Mr. Closson and Mr. Norment at Espanola.

Willie Talks.

Said to have chatted freely about the escapade and to have admitted that he had "traveled extensively" over the United States.

"And how did you cover so much ground, a mere boy like you?" was asked.

"Horses took me, sir," was the reply.

To Captain Fornoff Willie told a tale of trouble at home and said that he had a dispute with his father because he, Willie, insisted that one of his younger brothers should not emulate his own example of cigarette smoking.

It is thought that Willie will be sent to a reform school to take him away from the temptation of riding other people's horses without their permission.

BOSTON WOOL MARKET IS STILL STAGNANT.

Scarcely Ten Per Cent of New Clip Has Been Acquired—Dealers Want to Force Down Prices.

Boston, June 21.—The wool market is stagnant. There has been little movement in new wools. Some Idaho and Oregon clip found customers but sales are not heavy. The growers are still asking prices which the local dealers believe are too high, with the result that while the ordinarily 25 per cent of the new clip has been purchased at this time of the year, it is stated that scarcely ten per cent has been acquired.

EL PASO LOSES SOME OF ITS CITIZENS.

Opium Smugglers Now Make Their Headquarters at Nogales, Ariz., Because of Arrests.

Nogales, Ariz., June 21.—Customs officials have discovered that the headquarters of opium smuggling operations have been transferred from El Paso where numerous arrests were made recently to this point.

THE DAILY ROUND UP.

TO DELEGATE ANDREWS.

What's the news, O fair New Mexico.
Happy news, can it be true?
Is your star to be discovered
On the proud, red, white and blue?

With such patience have you waited,
With such pleadings, all in vain,
But today, O glorious memory,
Will be held in sacred name.

So rejoice, this day has come
When your bright star will be found
And from mountains, hills and valleys
Let the happy news resound.

Through the brave, unceasing efforts
Of our honored delegate,
You have conquered in your battle
And have raised to higher fame.

Lift your head, oh, land of sunshine,
Let your fame to all be known,
For the longed-for bill of statehood
Has been signed at Washington.

—MRS. JOSEFITA A. ROMERO.

Ninety-two in the Shade. It was
92 in the shade at Las Vegas on Sun-
day according to the Optic.

Scarlet Fever at Albuquerque.—
William McLain Spargo, aged ten
years, died at Albuquerque of scarlet
fever.

Thirty Days for Larceny.—Pedro
Martinez was given thirty days in
the county jail at Albuquerque for
larceny.

Marriage License Issued.—A mar-
riage license was issued yesterday at
Las Vegas to Luisa C. Baca, aged 30,
and Joseph Wiggins, aged 42.

New Paper at Mora.—Benedicto
Sandoval, formerly in Presbyterian
Mission work at Las Vegas, is issuing
a new paper, El Mensajero, at Mora,
the first copy of which has been re-
ceived by the New Mexican.

Will Wed Tomorrow. Miss Kath-
erine Marsh, popular in Las Vegas so-
ciety, has gone to Arkansas City, Kan-
sas, to be married tomorrow, to Wil-
liam Alvin Hasty, formerly of Las
Vegas.

Bride Came From Italy for Her
Marriage.—John Bianchi of San An-
tonio, Socorro county, was married
at Albuquerque, to a young woman
who came from Italy for her wedding.
The couple will reside at San An-
tonio.

Charged With a Curious Crime.—
Joseph H. Malone, charged with des-
troying the building belonging to A.
Montoya near Roy Mora county, has
been arrested at Cimarron, Colfax
county, and was lodged in jail at Las
Vegas.

Arrested for Breaking Down Fence.—
Manuel G. Martinez was arrested at
Las Vegas for breaking down a fence
around a piece of property belonging
to the Santa Fe Railway. He said he
cut the wire to let in his mule
which was bawling after the green
grass within the enclosure.

Union County Man Killed in Mine.—
William Bradley who had just ar-
ranged to return to his farm near
Clayton, Union county, was killed by
falling rock in the coal mines at Pri-
mero, Colorado, where he had been
working the past four months. He
leaves a wife and daughter.

Deaths at Albuquerque.—The follow-
ing deaths are reported in last even-
ing's Albuquerque Tribune Citizen:
Mrs. Delia J. Harkins of Sheldon, Ia.,
aged 32 years, who had been at Albu-
querque eight months. Mrs. Dolores
Salas, sister of Daniel Padilla. She
was aged 32. Her death is the twelfth
in the family in three years and the
third in the past five months. Miss
Mary A. Anderson of Bellefontaine,
Ill., who had been in Albuquerque
eighteen months.

MINOR CITY TOPICS

Denver, Colo., June 21.—
The forecast is fair weather
tonight and Wednesday with
stationary temperature.

See Who'll Win My Heart at the
Elks' tonight.

Dislocated Arm.—Vincent Clancy,
son of Mr. and Mrs. H. S. Clancy, yes-
terday afternoon dislocated his arm
while playing.

Cafeteria Supper.—Preparations are
nearly completed for holding a cafe-
teria supper at library hall Thursday
night. The Woman's Aid Society of
the First Presbyterian church will be
in charge.

Hot in Denver.—In Denver, 94 in
the shade was recorded on Sunday.
Pueblo and Grand Junction reported
98. In Denver the range in tempera-
ture during the day was 55 degrees
which helped to make the heat more
unbearable.

District Court at Tierra Amarilla.—
District court at Tierra Amarilla,
Rio Arriba county, is expected to ad-
journ in a few days. The grand jury
has been kept very busy. The Con-
over murder case has been postponed.
The assailant of Miss Ferran, was
found guilty of assault with a dead-
ly weapon and sentenced from eight-
een months to two years in the ter-
ritorial penitentiary.

Maximum Was 83.—The maximum
was 83 degrees yesterday, which was
several degrees lower than Sunday.
The minimum was 56 degrees and the
relative humidity was 26 per cent.
The precipitation was 0.01 of an inch
of rain for the 24 hours ending at 6
o'clock this morning. Showers short-
ly after the dinner hour yesterday
made Santa Feans with straw hats
seek shelter. A year ago today the
maximum was 81 and the minimum
was 50 per cent with 100 per cent of
sunshine.

It is a Change of pictures at the
Elks' tonight. The program for the
night is as follows: The Cold Spider;
The Prince of Jealousy; A Sailor's
Friendship and Who'll Win My Heart.

(Continued on Page Eight.)

The Conservation of Nature's Re-
sources.

Applies as well to our physical state
as to material things. C. J. Budlong,
Washington, R. I., realized his condi-
tion, and took warning before it was
too late. He says: "I suffered severely
from kidney trouble, the disease be-
ing hereditary in our family. I have
taken four bottles of Foley's Kidney
Remedy, and now consider myself
thoroughly cured. This should be a
warning to all not to neglect taking
Foley's Kidney Remedy until it is too
late. Sold by Stripling Burrows Co.

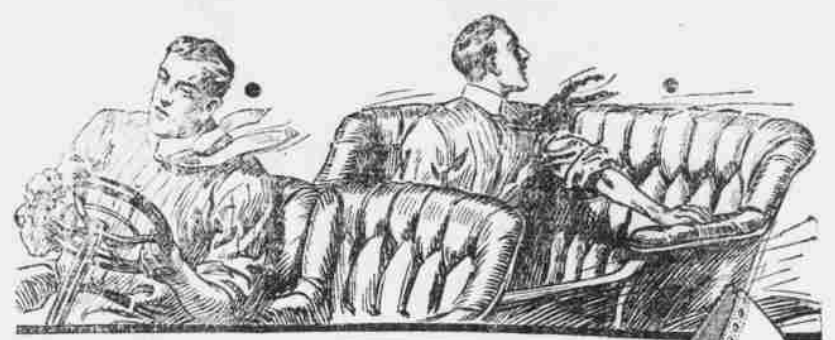

THE FORUM.

Praise for Santa Fe Agent at Lamy.

Mr. Editor—During my recent visit
to our suburb (Lamy) I had the pleas-
ure to make the acquaintance of E.
L. Goff, the local agent there, who in
addition to being a polite gentleman,
is a warm friend of Santa Fe. He
was perfectly posted on all our im-
provements and took great pleasure
in talking about them. After all we
have heard about the employees of the
Santa Fe railroad sneering at the
good old town and discouraging pass-
engers from coming up to visit it, it
was very pleasing to meet an em-
ployee like Mr. Goff who will do all
in his power to encourage all the
passengers he comes in contact with,
to edify themselves by visiting the
most interesting city in the United
States. It will pay the Santa Fe to
keep such gentlemen in its employ-
ment. A. L. MORRISON.

MEXICO'S MOST FAMOUS
BAND TO PLAY IN TEXAS.

El Paso, Texas, June 21.—For the
first time in its history Mexico's fa-
mous artillery band "Los Zapadores"
will give a series of concerts abroad
being booked as the main musical at-
traction of the coming San Antonio in-
ternational fair. The band is the
best in all Mexico as well as one of
the largest military bands anywhere.

In the compounding of the prescriptions our reputation and integrity are at stake
a fact so thoroughly impressed on our minds that "eternal vigilance" is our
watchword; hence your frequent and insistent specification of having your pres-
cription compounded at ZOOK'S PHARMACY, is sure to be followed by satisfactory
results.

WHY SO WEAK?

Kidney Troubles May Be Sapping Your Life Away. Santa Fe People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backaches, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is a Santa Fe testimonial to prove it.

J. T. Sandoval, 115 Ortiz street, Santa Fe, N. M., says: "I have used Doan's Kidney Pills off and on for two years and they have done me a world of good. A dull pain in the small of my back, sometimes extending into my bladder caused me a great deal of suffering, particularly when I took cold. I was bothered mostly in the winter. In addition to the pain in my back, there were symptoms of inflammation of the bladder. The kidney secretions were highly colored and when passed were attended with a scalding pain. I never used a remedy that acted as satisfactory as Doan's Kidney Pills. They proved to be just the medicine my case required and the complete cure they brought has led me to recommend them on more than one occasion."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HENRY KRICK, Proprietor

ROUGH RIDERS TAKE
NEW YORK BY STORM.

Made Headquarters at the Buckingham and Held Re-Union—Names of Men Helping to Make History in Southwest.

Every time a broad-shouldered, long-limbed stranger swaggered into the Hotel Buckingham and leaned heavily on the smooth marble desk, the clerk would bow, remove the long pen from behind his ear, and say in his most engaging manner:

"And what may I do for you—er—Major?"

"Saay," would come the reply, "don't you major me, boy. Never was a major in m'life. Here, have a keyard. That's my name. Call me Lieutenant if you want to, but cut out the major. Lieutenant—Troop G, San Antonio. If you don't mind, I'll take a room. And, saay, where's the boys? I'm dyin' to see 'em again."

Usually, by the time he had got that far the stranger felt a slap on the back that shook his broad-brimmed felt hat over his eyes. Turning he found himself surrounded by a group of friendly faces. As many hands were outstretched to greet him.

"Well, if it isn't Joe."

"Put it there, old boy."

"Mighty glad to see you."

"How are you, anyway?"

In an instant the reunion was well under way. Twelve years ago these same men spent a few weeks in New York after they had been mustered out on Montauk Point. Since then, they haven't seen very much of each other. But now that their colonel is coming back, every mother's son of them who can make the journey is here to greet the home-comer. Need it be said that they are the Rough Riders?

An Unusual Round-Up.

Small wonder that the brass-buttoned bellboys of the staid old Buckingham stared open-eyed at the gathering. It isn't often that a round-up of this sort is held in the corridors of a Fifth avenue hotel. As a setting for the occasion, American flags had been draped on the walls, chandeliers and windows of the place. Wherever the veteran fighters went they saw the national colors hanging overhead.

Those who got in this morning represented only a handful of the entire delegation that is to escort Colonel Roosevelt up Broadway and Fifth avenue on Saturday. Two big delegations from the far west are expected to drop into town this evening. But a score or more of them reached headquarters this morning, and got things ready for the arrival of "the bunch."

There were Lieut. D. J. Leahy, now United States district attorney in Las Vegas, N. M., and Captain George Curry, who has just resigned the governorship of New Mexico; and Colonel W. H. H. Llewellyn, district attorney in Las Cruces, N. M.; Captain Fred Muller, and Colonel Jack Greenway; and Trooper Ben N. Daniels of Tucson, Ariz.; to mention only a few of the more important ones, all of whom are mentioned more than once in Colonel Roosevelt's book, "The Rough Riders."

One of the first men they ran into in the hotel corridor was General Cooper, U. S. A., the man who swore in the four New Mexico troops when they left for the front. General Cooper just "happened in" by accident, but as soon as Lieut. Leahy caught sight of him there was a friendly salute.

Remembered Capt. Leahy.

"I don't suppose you remember me," Captain Leahy told him as they shook hands in the hall. "But I remember you well. You're General Cooper. I was one of the boys you swore in when we started for Cuba."

"Well, I guess I do remember you," said the general. "I remember your face, even though I can't somehow recall your name. Leahy? Of course. Glad to see you."

While they were talking in walked a short, wiry man, with black curly hair and a suit of clothes that plainly had spent several hours in the rain.

"Ed Piper! Well, I'll be —," said some one.

Look up the roll-call of the Rough Riders, and you will find that Edward G. Piper of El Paso, Texas, was trumpeter of Troop G. Piper came all the way by boat from New Orleans accompanied by another trooper named Smith, who had charge of one of the Colt's guns in the attack on San Juan hill. After Piper had shaken hands all around, he explained that the trip up the coast on the Comus had been rainy all the way, and that last night the Comus ran into a fog bank that soaked everything and everybody on board.

"Gee, I hope it clears up soon," said the newcomer. "This weather costs money. Came up from the pier in a taxi, and—well I won't be able to stand many more such rides. It's back to El Paso for me if the sun don't come out quick."

Everybody rushed to salute a late-comer who answered to the name of "Ben." "What," they would say when you asked who Ben was, "you sure have heard of Ben Daniels! Col.

Roosevelt called him the bravest man he ever saw, under fire." So it may be well to reprint just what the colonel did say about him.

"Some of our best recruits came from Colorado. One, a very large, hawk-eyed man, Benj. Franklin Daniels, had been marshal of Dodge City when the pleasant town was probably the toughest abode of civilized man to be found anywhere on the continent. In the course of the exercise of his rather lurid functions as peace-officer he had lost half of one ear—'bitten off.' It was explained to me. Naturally he viewed the dangers of battle with philosophic calm. Such a man was, in reality, a veteran even in his first fight, and was a tower of strength to the recruits in his part of the line."

Daniels has held several important western posts since the war. For several years he was a United States marshal in Arizona, but he resigned that office last August to take charge of the Menominee Indian reservation in Wisconsin, but that, too, he gave up last March. Just now he is an ex-trooper with leisure to recall the days of San Juan Hill.

Another man whose name appears on every other page of the colonel's book was Capt. Llewellyn, who stood in the center of the group in the hotel talking over old times and laying plans for the reception to their homecoming colonel. If you wish to know what part he took in the Cuban campaign you will have to go to the book, for he will not tell you.

"Capt. Llewellyn," the colonel wrote, "was a large, heavy man, who had a grown-up son in the ranks. On the march he had frequently carried the load of some man who had weakened, and he was not feeling well on the morning of the fight (battle of Santiago). Nevertheless, he kept at the head of the troop all day. In the charging and rushing he not only became very much exhausted, but finally fell, wrenching himself terribly, and though he remained with us all night, he was so sick by morning that we had to take him behind the hill into an improvised hospital."

TESTIMONIAL TO BOYS IN BLUE.

Syracuse, N. Y., June 21.—The orator of the day at the unveiling here today of the monument to the soldiers of the Civil War was Vice President James Sherman.

As he looked upon the fresh granite and newly molded bronze of the impressive monument just unveiling, the Vice President pronounced it to be a fitting recognition of the passionate patriotism which held together the states of the Union.

"This is but one form of testimonial to the Boys in Blue," said the Vice President, "and its value and meaning are multiplied and intensified because there is not lacking other forms of expression of the people's gratitude to the nation's preservers."

For the veterans still living, he pointed out that nearly half a hundred soldier's homes offered care and comfort to nearly forty thousand maimed and infirm who have suffered from the wounds and hardships of war. A generous government with lavish hand had made provision, he said, to aid the living and help or succor the dear survivors of the hero dead by pensions.

"Neither the monuments we dedicate," said he, "nor the soldier homes and pensions the nation provides is a charity. All are acknowledgments of just debts, the payment of sacred obligations. They are decorations, badges of heroism, more nobly earned than the ribbon of the French legion of honor, or the garter of British knighthood."

"The people of today have no fear of too generous treatment to the soldiers of the sixties. Their just merits are to be measured by the grandeur of the nation which they preserved, by what it was, by what it is, by what in all the years to come it will be."

"The greatest, the most beautiful, the most perfect monument that could be raised to our soldiers," he said, "they themselves built in the Union they saved."

"With the constitution as its cornerstone, the states as its buttresses and its ornaments, 'law and order' inscribed on either side and wingless liberty sublime on its summit, awe and reverence dedicate it to these most worthy among mankind."

"All monuments the republic itself, point not alone to the past; they rest in the present and are prophets and teachers to the millions of sons and daughters, heirs of the priceless inheritance secured for them by the men of '61 to '65."

"Not by sloth and neglect can we lay claim to the great estate. Virtue, uprightness, self-sacrifice and devotion to the public well, heroic purpose, practical effort for the purest and highest ideals must be the title deed to share in this precious patrimony. Who dare add a word to such oracles? Who dare venture a note in such anthem? Surely spirits of heroes rise from the dead to urge anew the appeals of their own lives that we all should walk in the path of patriotic duty and each do well his full share of the labor of mind and soul, and body to preserve and hand to posterity the legacy we have enjoyed."

Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley Kidney Pills." In a yellow package. Sold by Stripling Burrows Co.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascades and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken or Gripes. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. C. Guaranteed to cure or your money back.

COMMISSION WILL ARBITRATE MEXICO'S CHAMIZAL CLAIM.

United States is Exercising Jurisdiction Over Disputed Strip of Land in Pass City.

Washington, June 21.—Mexico has agreed to settle the Chamizal boundary dispute by arbitration. A convention providing the details proposed by the United States is now being arranged by telegraph in the hope of getting it before the Senate before the adjournment of Congress.

By its terms a Canadian jurist is to hold the balance in the arbitration. He will act as an umpire to the international boundary commission and will be chosen by the United States and Mexico. If they fail to agree on a man the Canadian government will be asked to name him.

The Chamizal tract, which was of comparatively little value when claimed first by Mexico in 1894 has greatly increased in value by the growth of the city of El Paso, which it adjoins. It is estimated to be worth from one to five millions of dollars. The United States always has exercised criminal and civil jurisdiction and has maintained a customs house there. Many questions of international title to property in the tract are now held in abeyance in the federal courts, pending a settlement of the dispute.

Pending the arbitration the United States agrees to continue the 'say of proceedings against settlers claiming prima facie Mexican title who were in actual occupation on March 15. No others are to receive protection. That provision is intended to cover the cases of squatters who have taken advantage of the dispute to take up territory. The state department will appoint an agent to examine the genuine Mexican titles and decide which are entitled to protection of this government.

AFRICAN BUFFALO IS A WORTHY FOE OF THE LION.

Kernit also shot three buffalo bulls, Tarlton helping him to finish them off for they are tough animals, tenacious of life and among the most dangerous of African game. One turned to charge, but was disabled by the bullets of both of them before he could come on. Tarlton, whose experience in the hunting field against dangerous game had been large, always maintained that, although lion hunting was the most dangerous sport because a hunted lion was far more apt to charge than any other animal, yet that when a buffalo did charge he was more dangerous than a lion, because harder to kill or turn. Where zebra and other game are abundant, as on the Athi plains, lions do not meddle with such formidable quarry as buffalo; on Heatley's farm lions sometimes made their lairs in the same papyrus swamp with the buffalo, but never molested them. In many places, however, the lion preys largely, and in some places chiefly, on the buffalo. The hunters of wide experience with whom I conversed, men like Tarlton, Cuninghame, and Horne, were a unit in stating that where a single lion killed a buffalo they had always found that the buffalo was a cow or immature bull, and that whenever they had found a full grown bull thus killed, several lions had been engaged in the job. Horne had once found the carcass of a big bull which had been killed and eaten by lions, and near by a dead lioness with a great rip in her side, made by the buffalo's horn in the fight in which he succumbed. Even a buffalo cow, if pitted against a single lion, would probably stand an even chance; but of course the fight never is fair, the lion's aim being to take his prey unawares and get a death grip at the outset; and then, unless his hold is broken, he cannot be seriously injured.

Tell some deserving Rheumatic sufferer, that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. This book will make it entirely clear how Rheumatic pains are quickly killed by Dr. Shoop's Rheumatic Remedy—liquid or tablets. Send no money. The test is free. Surprised some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis. Sold by Stripling Burrows Co.

NOTICE OF ADMINISTRATION. The undersigned was appointed by the probate court in and for the county of Santa Fe, on the second day of May, 1910, administrator of the estate of Wm. H. Hough deceased, and as such administrator hereby notifies all parties who may have claims against the estate to present them to me within the time required by law. All persons indebted to said estate are requested to settle their indebtedness forthwith otherwise suit will be brought against them.

JAMES B. READ, Administrator.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

SHALL THIS CONTINUE?

An old timer in the Las Vegas Optic, reads the capital of New Mexico the following lesson which is not from a new text but being given by an outsider may have the effect of bringing local people to the realization of how their petty, dirty little squabbles and attacks on public men which seem never to cease, look to an unprejudiced outsider:

"Of all the historic places on the old trail none exceed in interest its western terminus—Santa Fe where is still standing the Old Fonda, the Exchange hotel; here it was that F. X. Aubrey lost his life in his duel with Major Weighman and in the same building Chief Justice Slough was slain by Colonel Ryerson. This old hotel is the real finish of the old trail; its great corral was the destination of these great caravans of the American desert. It was the rendezvous of scouts, trappers, plainsmen, soldiers and travelers of great note from the time of Pike's expedition, in 1806. Here were gaming tables, upon which were piled heaps of gold and silver in plain view, a lure to those who ever had the gambling instinct. The citizens of Santa Fe do not appreciate the sentimental value of the historical spots in the capital. The old Fonda is fast going to ruin; the walls are cracked, the old corral has been torn or has tumbled down and a general clean-up of the corner upon which it is located will probably result in the construction at no late date of a modern building; but the site should be marked with a proper memorial. If Santa Fe and its citizens will not properly mark the places of historic interest found there, the territory should do it for them. Possibly that is what they are waiting for. Quien sabe?"

"If Santa Fe expects to retain the capitol when New Mexico is admitted it behooves her citizens to make the city attractive to visitors, not only from outside our boundaries, but from points in the territory. The old city has every advantage of location, climate and railroad facilities. What it seems to lack is men of push, spirit and energy. It is well supplied with statesmen and politicians; there are too many cliques and too many "knockers" and too many whose principal occupation seems to be the criticizing of those of her citizens who are willing to try and do something to make New Mexico's capitol what it ought to be, the most beautiful and attractive residence city in all the Rocky mountain region.

"The terminus of the old trail, every spot and corner the scene of some great historical event, our capitol leads every American city in wealth of historic features; no city on the Atlantic coast can compare with it, and it is much to be regretted that the people there do not take advantage of conditions and put the city on the map as the one place in the great southwest which must not be missed or overlooked by the great American tourist.

"Cheyenne has its 'Frontier Day,' Rocky Ford has its 'Melon Day.' If the people of the Ancient City would awaken from their Rip Van Winkle slumbers and establish and properly celebrate a 'Santa Fe Trail Day' all other 'days' in the west, so far as celebrations are concerned would dwindle into nothingness compared with the attractive forms of entertainment which could be provided at our capitol. In two or three years at the most a 'Santa Fe Trail Day,' in the hands of a few hustling young men, who can see farther than the present whereabouts of a dollar and a half in coin of the realm, would bring to the capitol to assist in celebrating, more people than all the railroad trains now running in New Mexico could accommodate in a week. The railroads carry into Cheyenne on 'Frontier Day' as many as 20,000 people. If Santa Fe only appreciated the fact it would not be long before at least one-half that number would come to see her and celebrate the day devoted to perpetuating the scenes and memories of the 'Old Santa Fe Trail.'

Postmaster General Frank H. Hitchcock furnished one of the pens with which President Taft signed the statehood bill. Postmaster General Hitchcock was given the pen as a souvenir; Postmaster General Hitchcock was the only cabinet officer present when the bill was signed; Postmaster General Hitchcock had more to do with New Mexico and Arizona now being on the way to statehood than most people will ever know. It is a pity that history is seldom written as it happens. It would often be much more interesting reading than it really is.

A LECTURE TO NURSES.

To the school boys of twenty years ago the poem of "Bingen on the Rhine," was quite familiar and in it occurs a line: "There was lack of woman's nursing," which was meant to describe the very essence of forsakenness. In towns like Santa Fe there is often lack of a trained nurse, however, just at a time when most needed and the thought has often suggested itself why is there no training school of nurses in connection with St. Vincent's hospital, such as may be found in connection with almost every large hospital in the cities of the east and the middle west? The legislature could appropriate money for no worthier purpose and the lack of woman's nursing has been felt keenly in the mining camps and even the growing towns of the commonwealth. Says the Youth's Companion: "Among the numerous commencement exercises which mark this season of the year, not the least important are those of the training schools for nurses. They are usually chronicled briefly, and seldom attract much attention or draw large crowds; yet the graduates of such institutions come into more intimate relations with the communities in which they live than any one else except the doctor and the minister.

"In one of the great city hospital training schools the graduating class this year listened to what may be called a medical baccalaureate. It was delivered by a wise old physician, who both in his private practice and as head of the surgical department of the hospital has been distinguished for his skill, sincerity cultivation and moral force. The things he said are applicable to a wider audience.

"The necessity of preserving family secrets and any other knowledge that comes in the course of work was placed first in importance. Gossip has no place in the nurse's life; and in order that temptation to it may be lessened, the nurse should read widely and well, so that she may have something to talk about.

"A knowledge of simple games is useful and worth cultivating, in order to help entertain the convalescent. So, too, is the ability to arrange flowers tastefully. Music is a gift, but if one possesses it, study and employment of it is a duty.

"The nurse must keep in mind constantly that her profession shows her life at the ebb. She should therefore cultivate charity of judgment and kindness of speech. She has learned cleanliness of body; she must also preserve cleanliness of mind and spirit.

"She must remember, too, that in private practice conveniences and methods she has known in the hospital may not always be possible. She must use tact, and be reasonable and considerate.

"The saving of money is a moral necessity. Employment at nursing is generously paid, but is irregular. There should be a steady setting aside of something for the rainy day, in order that those who practice this profession may preserve their independence and retire before age impairs their usefulness."

THE NEW BUREAU OF MINES.

For the maintenance of the new Bureau of Mines, which will be put in operation on July 1, the general appropriation bill provides \$546,050. As will be seen by an analysis of the division of the appropriation, the metal-mining interests, which were the real factors in the establishment of the new bureau, are to receive the benefit from only a small portion of the appropriation, the major portion going to the coal-mining branch of the industry. Much of the allowance will be spent in bettering conditions in coal mines in relation to safe-guarding the lives of miners. It is hoped, however, that future appropriations will include a more liberal division of funds in favor of the metal mining interests.

For the general expenses of the Bureau of Mines, including the pay of the director and the necessary assistants, clerks and other employees in the office at Washington, and in the field, and for every other expense requisite for and incident to the general work of the Bureau of Mines in Washington, D. C., and in the field to be expended under the direction and at the discretion of the secretary of the interior, \$54,000 is appropriated. For the analyzing, testing and treatment of coals, lignites, ores and other mineral fuel substances, \$100,000 is authorized.

For investigation as to causes of mine explosions, methods of mining, especially in relation to the safety of miners, the appliances best adapted to prevent accidents, the possible improvement of conditions under which

mining operations are carried on, the use of explosives and electricity, the prevention of accidents, and other inquiries and technologic investigations pertinent to the mining industry, \$200,000 is to be expended.

For dismantling and removing chemical laboratories equipment and office furniture from the office of the Geological Survey to the office of the Bureau of Mines in Washington and reinstalling and equipping the laboratories in the office of the Bureau of Mines, \$14,700 is provided.

For making public report of the work, investigations and information obtained by said Bureau of Mines, with the recommendations of such bureau, \$5,000; for the investigation of structural materials, \$150,000. For salaries of two mine inspectors, authorized by the act approved March 3, 1891, for the protection of the lives of miners in the territories, at \$2,000 per annum each, \$4,000. In addition \$3,350 is set aside to pay the per diem expenses of inspectors.

Other items are: For rent of offices in the city of Washington, and for furnishing the same together with such books, records stationery and appliances as the secretary of the interior may provide, \$15,000. It is to be hoped that the hopes of usefulness predicted for the measure will be realized.

WHY NOT A HISTORIC PAGEANT.

The Century Magazine makes the same suggestion for a sane Fourth of July celebration that the New Mexican has advocated in Santa Fe, that is, to celebrate the day with a historic pageant. In this old city, especially, such a pageant would be appropriate and it would be just as much fun to young and old as the cruder and violent forms of amusement. The article in the Century Magazine on "The New Fourth of July" contains valuable suggestions regarding reforms in the celebration of Independence day. It is thought compelling and offers constructive criticism that will be of untold benefit to future celebrants.

In the past it has been easy to criticize the present methods of celebrating the Fourth, to complain of the noise, to become horrified at the toll of human life exacted. Most of the criticisms have stopped here. They would take away the accustomed diversions of old and young, but have offered nothing that would meet the need for patriotic expression.

The Century writer, Percy Mackaye spends little time finding fault with present methods, except to point out their folly. Rather he devotes his article to offering a sound idea that may be followed by communities desiring to celebrate the Fourth without the necessity of attending a funeral the next day or taxing the capacity of its hospitals. His solution is contained in the suggestions of pageants. If developed in keeping with his ideas they may be made impressive and enjoyable, and create a familiarity with facts in early history.

Pageants would undoubtedly lend themselves readily to the enthusiasm of childhood. They contain great possibilities of depicting numerous chapters in our history in the most realistic fashion.

It is probable that Mr. Mackaye's suggestions will be slow of general acceptance, but we believe they contain much that is practical for freeing Fourth of July celebrations of their deadly aftermath.

The influence of the passage of the statehood bill upon the political complexion of the territory is already very notable. Says the Las Vegas Optic:

"Several loyal Democrats, having seen the Republicans make good their platform pledge to make New Mexico a state, have decided to come into the fold of the Grand Old Party according to Secundino Romero, chairman of the Republican county central committee. Mr. Romero says the men are all well known in the county and have been Democrats from their youth up. Indications are that the new state will be straight Republican from top to bottom."

The New Mexican also knows of quite a number of such in this county, especially among the native born people who will henceforth vote for the party that gave them statehood and gives protection to their principal industries.

An erroneous impression has been abroad among imperfectly informed people that a part, at least of the expense of the Roosevelt expedition was defrayed by government money. As a fact no appropriation was asked of or made by any branch of the government for the purposes of his travels. Not one cent of government money was expended from start to finish of the journey. The expedition, although for scientific purposes for the benefit of the whole people, was made at Mr. Roosevelt's own expense except for a fund subscribed for the purpose by personal admirers anxious to advance the scientific objects of the trip. Thus the people, through the Smithsonian, will get the benefit of this large expenditure of money, this vast expenditure of intelligence and energy, without any payment from the public treasury.

The Las Vegas Optic has joined the New Mexican in an energetic campaign for greater local interest in the Santa Fe Trail and the completion of the Scenic Highway across the Pecos forest. The present outside interest in the Trail might be made a great asset for both towns.

The claim of Mexico to the El Chamisal strip in El Paso, estimated to be worth from a million to five million dollars is to be arbitrated. Here's hoping that the award Mexico will get is not to be paid with the remaining waters of the Rio Grande.

NATIONAL GUARD ORDERS

The target season for the National Guard of New Mexico for the current year will begin on June 20 and end on September 10.

PRELIMINARY INSTRUCTION.

The period from June 20 to July 20 will be devoted to the preliminary instruction prescribed in "Provisional Small Arms Firing Manual, 1909," pages 23 to 48 inclusive. It is very important that all men be given instruction in "Sighting Drills" and "Position and Aiming Drills" before being allowed to fire on the range. Company Commanders will allow no man to fire on the range who has not attended at least two drills for preliminary instruction.

TARGET COURSE.

The Target Course for 1st Infantry will be "Special Course 'C'"; paragraphs 156 to 165 inclusive, "Provisional Small Arms Firing Manual, 1909."

Light Battery "A" will follow the "Revolver Course" prescribed in par. 163, Firing Manual.

The 1st Infantry will have no revolver practice during current year, owing to the fact that the War Department no longer furnishes ammunition for old design Colt's Revolvers, Cal. 45.

Each member of the National Guard will first take the Marksman's Course, firing five (5) scores (25 shots) at each of the ranges 200, 300, and 500 yards. From the five (5) scores fired at each range the two (2) best (not necessarily consecutive) will be selected as the man's record at that range. Those men who qualify as Marksman by making 98 out of a possible 150 in Marksman's Course will then take the Sharpshooter's Course. Those men who qualify as Sharpshooters will then take the Expert Rifleman's Course. No man will be allowed to take the Sharpshooter's Course who has not previously qualified as a Marksman nor to take the Expert Rifleman's Course unless he has previously qualified as a Sharpshooter.

In the Sharpshooter's and Expert Rifleman's Courses only the number of shots prescribed in the Firing Manual will be allowed, viz.:

Sharpshooter's Course.....42 shots
Expert Rifleman's Course.....24 shots
Two sighting shots are always allowed at the ranges of 500, 600, 800, and 1,000 yards.

GALLERY PRACTICE.

Owing to the shortness of the target season made necessary by the delay in securing target material, gallery practice will be conducted during the months of November and December. For purpose of gallery practice each Company Commander will be furnished the following, viz.:

2 Targets, Iron, Gallery Practice.
2 Gallery Practice Rifles, Model 1903.
10 Cartridge Holders for Gallery Practice Rifle.
4,000 Gallery Practice Cartridges, Cal. 22.
1 Ramrod for Gallery Practice Rifle.

Gallery practice will be conducted under the supervision of an officer of the company and a proper record of same kept as prescribed for range practice.

TARGET MATERIAL.

Funds for purchase of target material will not be available until July 1. The requisition for same is now in the hands of the War Department and prompt shipment is promised as soon as funds for payment are available.

Each Company Commander will be furnished the following, in addition to the regular target material, viz.:

30 oz. Ammonium per Sulphate.
15 oz. Ammonium Carbonate.
180 oz. Ammonia, 28%.

2 Aiming Devices, Belgian.
The use of the Belgian Aiming Device is explained on p. 7, "Provisional Small Arms Firing Manual," and p. 26, ordnance publication 1923 "Description and Rules for the Management of the United States Magazine Rifle." The ammonium solution is used for removing metallic fouling from rifle barrels. The amount furnished each company is sufficient to clean 65 rifles ten (10) times each. Full instructions for the preparation and use of the solvent will be issued with the material. The carbonate and per sulphate will be issued in bottles each containing 15 ounces. The ammonia will be issued in bottles containing 30 ounces. Each Company Commander will be allowed to expend 110 Ball Cartridges, Cal. 30, for each man who takes the regular target course. In addition to rifle ammunition issued for use in target practice, each Company Commander will be issued 2,400 Ball Cartridges, Cal. 30, which will be stored and kept for use in emergencies.

TARGET RANGES.

In case of those companies which are not now provided with suitable target ranges, the Company Commander will endeavor to secure a suitable range, by renting or otherwise. An estimate of the amount necessary to place the range in proper condition for firing will be submitted to the Adjutant General. No expense whatever will be incurred by Company Commander for target ranges unless the estimate for same has first been approved. Two sliding targets, one 6'x6' and one 6'x12' will be furnished each company. In selecting a target range, each Company Commander will endeavor to secure one which fulfills as far as practicable the conditions prescribed in paragraphs 243 to 263 inclusive, "Small Arms Firing Manual." For the proper protection of citizens who may live, or be temporarily, within the vicinity of the range, Company Commanders will not allow any promiscuous firing and will see that the danger signals are displayed at all times when firing is going on, one at each end of the range.

TARGET REPORT.

In order that an accurate record may be kept of all target practice, Company Commanders will only allow practice on the range when the same is had under their personal supervision or under the supervision of an officer of the company especially designated by them to conduct the firing. The target record will be kept in a blank book properly ruled for the purpose. The officer who supervises the target practice will place his initials after each score fired under his supervision. The target report, on the proper blanks, will be submitted as soon after the close of the target season as practicable and in no case later than October 30.

INSIGNIA.

At the close of the target season, organization Commanders will submit, with their target reports, a separate certificate showing names of members of their commands who have qualified as Marksmen, Sharpshooters or Expert Riflemen in order that proper badges may be issued.

EMPTY CARTRIDGE CASES.

At the close of the target season the zinc-lined packing boxes for ball cartridges, the empty cartridge cases, clips and bandoleers will be shipped by freight, charges collect, to the Adjutant General, Santa Fe. As soon as practicable after the completion of the firing, decap the cartridge cases and throw them into water. The cleaning will be much facilitated if this is done immediately after firing. Then thoroughly clean the interior of each case with a brush wiper or a piece of rag on the end of a wiping stick, dry, and pack loosely in empty ammunition boxes.

For use in decapping empty cartridge cases each Company Commander will be furnished the following, viz.:

1 Priming tool without spindle.
2 Primer Extracting Spindles.
5 Primer Extracting Pins.

JAFFA CUP.

The silver loving cup, known as the Mid Range trophy, presented to the National Guard of New Mexico by the Hon. Nathan Jaffa, in 1907, will be contested for under conditions prescribed in G. O. No. 22, 1907, as amended by G. O. No. 4, 1908, Adjutant General's office. Each organization will be allowed to expend 96 rounds of ammunition for purpose of conducting this contest in addition to regular allowance.

BUDECKE CUP.

The silver loving cup, known as the Long Range trophy, presented to the National Guard of New Mexico, by Mr. A. W. Buddecke in 1908, will be contested for under conditions prescribed in G. O. No. 4, Adjutant General's office, 1908. Each organization Commander will be allowed to expend 96

rounds of ammunition for purpose of conducting this contest in addition to regular allowance.

The contests for both the Mid Range and Long Range trophies will be conducted under the personal supervision of Company Commanders on the home ranges, between the dates of Sept. 2 and Sept. 5, and result certified to the Adjutant General not later than Sept. 7. A commissioned officer will be present in the pit while contests for the trophies are being conducted.

In reporting the result of these contests to the Adjutant General both the Company Commander and the officer who was in the pit during the contest will certify, on honor, that the contests were conducted fairly and that all orders relating to said contest were strictly complied with. Any company found guilty of using unfair methods to secure a trophy will be debarred from all such competitions for the period of five years. The reports of these contests will show names of members of teams and result of each shot, including sighting shots.

NATIONAL MATCH.

For the year 1910 the National Matches will be held at Camp Perry, Ottawa County, Ohio, commencing Monday August 22. The conditions governing the matches are published in General Orders No. 26, C. S. War Department. The National Matches will be preceded by two days' preliminary team practice, Friday August 19, and Saturday August 20, are designated as the dates for the preliminary team practice. The Territory of New Mexico will be represented at the National Match by a team consisting of 1 team captain, 1 team coach, 1 team spotter, 12 principals, 3 alternates and 1 range officer. The team captain, coach, spotter and range officer will be designated by the Adjutant General. For the purpose of selecting the 12 principals and 3 alternates, not more than 36 members of the National Guard will be assembled at the target range at Las Vegas on August 9 for the purpose of conducting a contest for places on the team. The contest will be under the supervision of the team captain and will be conducted in accordance with instructions given by the Adjutant General. Each organization Commander will submit to the Adjutant General not later than August 2nd the names of three members of his command whom he desires ordered to Las Vegas to compete for places on the team. Not more than one of these three will be a commissioned officer.

War Department orders require that each member of a team competing in the National Matches shall have done 75 per centum of the military duty required of him during the twelve months preceding the competition. By the term "Military Duty" above referred to, is meant parades, drills, inspections, encampments and other duties of a similar nature. No member of the National Guard will be allowed to compete for a place on this team who was not present at the last annual inspection by an officer of the regular army, except in cases where a doctor's certificate was furnished, showing that the man was actually too sick to attend inspection.

In submitting names of men to be sent to Las Vegas, Company Commanders will certify that the men so recommended are eligible for places on the team under above conditions.

The team, under command of the team captain, will leave Las Vegas for Camp Perry on August 16. Those who fail to obtain a place on the team will return to their home stations on same date. The team spotter will act as Quartermaster and the team coach as Commissary, of the camp at Las Vegas.

Company Commanders will see that each rifle is cleaned and oiled immediately after being used on the range and before it has been returned to the armory. Cosmoline and sperm oil will be furnished each Company Commander for use on the rifles.

By command of the Acting Governor:

A. S. BROOKES,
Adjutant General.

Official:

A. S. BROOKES,
Adjutant General.

20 YEARS AGO TODAY

1890. a

From the New Mexican of this date
Business in all lines is picking up.
Santa Fe will celebrate the Fourth
in great style but the committees
must move at once.

Incorporation, good and clean
streets, and a few gas lamps lighted
at night would be of great benefit to
this city and ought to be secured.

Mrs. Neill B. Field is here from Albuquerque spending the heated term. She is the guest of Mrs. F. W. Clancy.

Mr. and Mrs. D. H. Smith returned yesterday from Canon de Chama and are guests at St. Vincent's Sanitarium for a few days.

R. E. Twitchell and family had a gay time trout fishing up the canon yesterday. Mr. Twitchell hooked 27 this time.

Not a word has been received from the Albuquerque fans in reply to a challenge sent them recently by Lieut. Van Vleet some weeks ago. Perhaps they may muster up courage enough to brave the Santa Fe boys and if so, July 4 would be a good time for them to come here. Let us hear from the Duke City fans!

Any lady reader of this paper will receive, on request, a clever "No-Drop" Coffee Strainer Coupon privilege from Dr. Shoop, Racine, Wis. It is silver-plated, very pretty, and positively prevents all dripping of tea or coffee. The Doctor sends it, with his new free book on "Health Coffee" simply to introduce this clever substitute for real coffee. Dr. Shoop's Health Coffee is gaining its great popularity because of: First, its exquisite taste and flavor; second, its absolute healthfulness; third, its economy—1 1/2 lb. 25c; fourth, its convenience. No tedious 20 to 30 minutes boiling, "Made in a minute" says Dr. Shoop. Try it at your grocer's, for a pleasant surprise. Sold by Frank Andrews.

NOTICE.

Territory of New Mexico, County of Santa Fe, ss:

No. 6004.

In the District Court of the First Judicial District of the Territory of New Mexico, within and for the County of Santa Fe.

Charles A. Siringo, plaintiff, vs. W. P. Cox and C. C. Rushing, and the unknown claimants of interests in the premises hereinafter described, adverse to the plaintiff, and the unknown claimants of interests in the promissory note hereinafter described, defendants.

The said defendants W. P. Cox and C. C. Rushing, and the unknown claimants of interests in the premises hereinafter described, adverse to the plaintiff, and the unknown claimants of interests in the promissory note hereinafter described, are hereby notified

that a complaint has been filed against them in the district court of the First Judicial District of the Territory of New Mexico, within and for the County of Santa Fe, that being the court in which said cause is pending, by said plaintiff, Charles A. Siringo, the general object of said action being:

On account of a certain contract entered into by said plaintiff and said defendants, wherein said plaintiff agreed to pay said defendants a certain sum of money for the purchase of a crude oil burner, designated as the 20th Century Crude Oil Burner. That on account of said contract said plaintiff made and executed his promissory note and gave a mortgage on his ranch, for the payment of said amount. On account of misrepresentations, etc., on the part of the said defendants to the said plaintiff in re-said Crude Oil Burner, said plaintiff prays that: 1. That the said promissory note may be declared null and void and required to be surrendered up, unless found in the hands of some innocent purchaser for value before maturity; 2. That the holder or holders of said promissory note when found may be made a party defendant to this suit; 3. That the said mortgage with the record thereof, may be ordered cancelled, set aside and vacated; 4. That the said plaintiff may have such other relief in equity as may be just and proper and that he may recover his costs in this suit expended, as will more fully appear by reference to the complaint filed in said cause. And that unless you enter your appearance in said cause on or before the 7th day of August, A. D. 1910, judgment will be rendered against you in said cause by default. The name and address of plaintiff's attorney are: Renehan & Davies, Santa Fe, New Mex.

In Witness Whereof I have hereunto set my hand and the seal of said District Court at Santa Fe, New Mexico, this 16th day of May, A. D. 1910. (Seal.) FRANK W. SHEARON, Clerk.

By EDW. L. SAFFORD, Deputy.

In sickness, if a certain nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed out to the vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by Stripling Burrows Co.

The Prince of Jealousy is a beautifully told story. See it at the Elks' tonight.

Stop and see the Electric Wash Tub in operation. S. F. Water & Light Co.

A Sailor's Friendship is worth the price of admission. Beautifully colored from start to finish. See it at the Elks' tonight.

Statehood Mass Meeting—Both Albuquerque and Roswell last night celebrated the signing of the statehood bill by President Taft.

Mr. Trancito Romero is representing and taking orders for the Marvelous Career of Theodore Roosevelt and the story of his African Trip.

All owing bills to Mrs. J. P. Lyng will please settle with Miss Lucy Sena at the old stand, 220 San Francisco St. Mrs. Lyng.

Cafeteria Supper—The Woman's Aid Society of the First Presbyterian church will give a cafeteria supper at library hall Thursday, June 23, beginning at 6 o'clock.

That Gun Accident Again—A. C. Gear, Jr., son of A. C. Gear, was killed near Otis, Eddy county, by the accidental discharge of a big caliber gun that fell from the wagon seat on which Gear was riding.

If your house needs cleaning phone us and we will do the rest. S. F. Water & Light Co.

High Altitude Cook Books for Sale—The Woman's Aid Society of the First Presbyterian church have placed a number of their high altitude cook books on sale at the Winter Grocery Co., and Frank Andrews. Price 25 cents.

Commencement Tonight—St. Michael's college will hold its commencement exercises at 8 o'clock tonight in Lofetto auditorium. His Grace, the Archbishop, will be present. The address will be delivered by the Hon. A. L. Morrison.

Office Hours of Attorney Read—From today on parties who have business to transact with Benj. M. Read during the afternoon hours will have to call at his home as he will only be in his office during the forenoon of each day.

Alamogordo Water Works Plant Sold—W. R. Eldson and W. T. Van Brunt closed a deal for the sale of the Alamo water works company at \$180,000. The Alamogordo Improvement Company takes over the water works company property.

Sole and exclusive agents for Richmond Electric Suction Cleaner. S. F. Water & Light Co.

Judge Fall's Home on Fire—Saturday night at 8 o'clock the Mesa fire company and the automobile from the Central station were summoned to the residence of Judge A. B. Fall on Golden Hill, El Paso, says the El Paso Herald. Some clothing in the basement

had caught fire but little damage was done.

Do away with "Blue Monday" and have your washing done by electricity. S. F. Water & Light Co.

Marriage Licenses—The following marriage licenses have been issued at the probate clerk's office: Anita Martinez, aged 24, and Pablo Duran, aged 25, both of Santa Fe; and to Camilo de Lollo, aged 22 and Constantina Masclarelle, aged 27 years, both of Cerrillos.

Murder Caused By the Races—The tragedy at El Paso last Friday in which E. Kohlberg was slain by his tenant, John Leech, was directly traceable to the Juarez races. The slayer had played his money off at the races and was therefore unable to pay his rent, hence the notice of dispossession served by the owner of the property and the killing of the owner by the enraged tenant.

The C. S. is Busy—The welcome initials or monograms "C. S." were the cynosure of all eyes this afternoon. It was the monster city sprinkler and my, how well it laid the dust. The dust at this season of the year when the wind is so busy plays havoc with the bronchial tubes of mortals and makes lots of work for the doctors. But C. S. is putting the dust to the bed and there is a sigh of relief from dust-battered humanity.

Any one using brooms can afford Electric Suction Cleaner. Phone us and our representative will call and explain. S. F. Water & Light Co.

Boy Killed at Cloudcroft—Sam Wood Whitmer, 13 year old son of Mrs. Victoria Whitmer, fell from the S. or reverse curve bridge near Cloudcroft, Otero county, a distance of 60 feet at 6 p. m. Sunday and was instantly killed. His neck was broken, his thigh broken and he sustained internal injuries. Sam, his 19 year old brother Alfred and Jolly Tuttle were playing on the bridge, when Sam slipped and fell to his death on the jagged rocks beneath the bridge.

Human Skeleton Found—While excavating in the old building recently purchased by Prof. Sylvanus G. Morley on Washington avenue, workmen found a human skeleton which may have been under the house for a century or more. A hole in the forehead suggested that the man had come to his death by a bullet wound. The house is only a stone's throw from the Spanish fort, La Garita, and was at one time used as a saloon. It is thought that during a drunken brawl a soldier may have been killed and that his body was hurriedly interred under the floor of the saloon.

Warranty Deeds—Two warranty deeds were recorded in the office of Probate Clerk Armijo, one was from Charles A. Wheelon to his wife, Philomena Lamy Wheelon, for the brick house in precinct 18, bounded on the north by the Arroyo Salis; the south by Palace avenue, the east by the property of L. O. Moore, and the west by the property of Frank Delgado. The consideration was \$1. The

other deed was from Marcelino Garcia y Segura and wife, to B. F. Pankey, for land in precinct 12, in the village of Ojo de la Vaca, the consideration being \$100.

We clean your house thoroughly without removing anything, with experienced men who understand the business, for the small price of one dollar an hour. S. F. Water & Light Co.

Killed By Policeman at El Paso—Jose Hernandez, 21 years old, was shot and killed at El Paso, near the corner of Tenth and South Stanton streets. Policeman Ygnacio Gutierrez was arrested and a charge of murder docketed against him at the police station. He was released by Justice E. B. McClintock, after furnishing an appearance bond in the sum of \$1,000 signed by Santiago Cooper, Jose Padilla and Frank Alderete as sureties.

APPRAISAL OF THE PUBLIC DOMAIN.

(Continued From Page One.)

prosecuted in that state with the prospect of future withdrawals. The Florida phosphate field, while probably not first in tonnage, comprises the most available source of the country's phosphate supply, owing to the character of the deposits and the comparative ease under which mining operations can be conducted.

Lands Designated for Dry Farming Entry.

Under the enlarged homestead or 320-acre homestead act, 1,288,906 acres of land were recommended for designation as non-irrigable and subject to entry under this act in the states of Washington, Montana, Wyoming, New Mexico and Oregon. A prior designation of 47,640 acres in Wyoming was canceled. Since the passage of this law in February, 1909, over 176,000,000 acres have been designated as subject to entry in 320-acre tracts; of which 173,000,000 acres have been so designated under the present administration.

This land classification work shows May as the banner month for coal classification work as regards area classified as coal although second in point of value of the coal lands involved. The second highest month in point of area was July, 1909, with 695,456 acres, the total value of which however, was \$63,248,397, the record value being reached that month, with an average valuation per acre of approximately \$90.

The Geological Survey land classification work for May shows, among other things: The record coal land classification as regards area.

The record coal land classification as regards value with one exception. The first coal land withdrawal and classification work in California.

The first oil land withdrawal in New Mexico.

The first phosphate land withdrawal in Florida.

WHY SANTA FE FLYER WAS LATE YESTERDAY.

The belated Santa Fe train No. 3, which struck an open switch at Joliet, Ill., Saturday evening arrived at 4 o'clock yesterday afternoon, five hours late. The train carried a considerable number of passengers, all of whom were more or less inclined to talk about their miraculous escape from death when the smash came. Several of the travelers exhibited bruised elbows and cuts about their faces and hands as the result of the accident, but the majority of the passengers were unharmed.

The engineer, fireman and a barber were all seriously injured, the fireman dying several hours after being taken to a hospital. The engine, mail car, composite car and dining car left the track and turned over.

The limited was pounding along at a rate of forty miles an hour when it struck an open switch east of Joliet, causing the smashup. Fresh equipment was sent out from Chicago and the passengers were transferred to practically a new train, making the journey to Lamy without further mishap.
