40,000 LIE IN SINGLE GRAVE IN POLAND PRIEST SAYS

Trench Four Miles Long Receives Austrian Bodies Three Deep, Fruit of a Single Day of Slaughter.

LONDON NO LONGER LOOKS FOR LET UP

Comparative Quiet on Belgian Field Looked Upon as Merely Preparatory to Fresh German Assault.

Amsterdam, via London, Nov. 17 (8 a.m.)—The Nieuwe Rotterdamsche Courant quotes a letter from a Galician priest, stating that 40,000 Austrians have been buried in one day in a grave six and one-half feet wide and a little more than four miles long. The bodies, the letter says, were laid in three layers. These men were killed, it is said, during a battle lasting only a few hours.

London, Nov. 17 (11:49 a.m.)—Germany's remarkable persistent offensive in Flanders except Flanders and stability after her hard defense along her eastern frontier, were issues, the outcome of which still was undecided today in the great European war.

In Flanders, the allied line remains to yield, while in the east, the Russians continue to push forward. The outside line in France seems for the time being forgotten and the actions there probably will continue to be of a mobile nature until the allies in Flanders prove conclusively that they cannot be battered in or until the Germans prove that they can.

A month of static fighting entailed losses, the extent of which perhaps never will be fully known, has not convinced German leaders that the French coast towns are unassimilable; while snow, rain, wind and cold have tried the troops severely.

How valiantly the Germans have been meeting death in what to date has been a hopeless task is recognized by the British army's official eye witness at the front, Colonel Swinton, who, describing the recent fighting around Ypres, said:

Their dogged perseverance claims our whole-hearted admiration."

This tribute was not qualified, as heretofore, by the query whether discipline or sheer bravery prompted the men so to die, for the troops referred to were the guard corps, the pick of the German army, which has, according to Colonel Swinton, "retained the contempt for death," which it showed in the Franco-Prussian war.

Reporters that Cracow was in flames after a Russian onslaught; the papalities of both East Prussia and Silesia was being and that the Serians had been driven farther into their own country by the Austrians, figured in the dispatches received in London today from the east, and though what finally happened at Cracow is not known here, the trend of the news would seem to indicate that the Germans and the Austrians are, for the moment, the bottom.

Berlin is interpreting the retreat of the German forces from Warsaw as a strategic masterpiece, much the same as the allied government hailed General Joffre's retirement in the early stages of the German invasion of France, but the German people, according to travelers reaching here, are expressing widespread chagrin at the retreat.

It will be recalled that similar optimism was voiced when the French and English armies continued to fall back. That this was strategically a proper move subsequently was proved, and according to those who recently have been at the German capital, the German army in the east most similarly justify its action if its retreat from Warsaw is not to go down in history as a defeat.

ARTILLERY ALONE REMAINS ACTIVE IN THE WEST

Paris, Nov. 17 (12:49 p.m.)—There was given out in Paris this afternoon the following official communication:

Today's War Summary

Storms and floods, the enormous loss of life and the strain of incessant fighting have taxed to the limit of human endurance the opposing forces which are facing each other in the death struggle in Belgium and northern France. Another hill has come in the great battle, which presumably is but the prelude to one more desperate effort. Today's reports from the front indicate that assaults by infantry and cavalry have been abandoned for the moment, except for minor engagements, and that only the artillery is continuing operations with vigor undiminished.

Meanwhile the fighting continues on many other fields. The Russian invasion of Turkish territory from the Caucasus has been halted. The great campaign of the Russians against the Austro-German armies proceeds with varying fortunes in different localities, with chief interest now centering on the new German offensive movement against the Russian center.

In Serbia the Austrian advance is being carried on, according to Vienna reports, with further success.

Accounts of the fighting in Belgium, official and otherwise, dwell upon the frightful hardships which the men in the water-soaked trenches are called upon to endure, and the great loss of life. Regarding this latter phase, official reports have little to say and although private accounts of the extent of the slaughter must be accepted with reserve, it is evident that both the Germans and their foes have suffered greatly.

One such report comes from a British correspondent, who estimates the German casualties in the last four days at \$100,000.

If similar reports from the east are to be credited, the slaughter in that territory is no less terrible. A letter written by a Galician priest describes a "grave more than four miles long. In it, says the letter, 40,000 Austrians, the dead from one day's fighting, were buried.

The most that is being accomplished in the west by this sort of warfare as the less British communications indicate, is that the allies have been able to hold their lines in the main, with here and there small retirements before the German assault. The British losses, it is acknowledged, are very heavy. An official narrative of the fighting given out in London today pays an unreserved tribute to the bravery of the Germans.

The French official communication today, after impressing the violent character of the cannonading now in progress, mentions a few localities in Belgium and along the Aisne where German infantry attacks were made. These attacks, it is said, were repulsed.

The fighting along the eastern boundary of Germany is of a different character. There is nothing there to correspond with the endless lines of trenches which stretch across France. Troops are more mobile and the main line is shifting constantly. In France an advance of a few yards is worthy of mention.

In Galicia, Russian Poland and East Prussia, they measure movements by scores of miles.

Little news of an official character was received from the Russian fields of battle.

Private advices from Petrograd, however, despite the German claims to success in Russian Poland, assert that the German offensive movement has failed. The Russian squadron is said to have left Helsingfors, Finland, with the supposed intention of engaging the German Baltic fleet.

Russia admits the truth of recent Turkish statements that the invaders from the north had been driven back. The Russian advance guard, it is announced officially has been forced to halt its march of Ereum, the Turkish town near the eastern end of the Black sea.

British claims to victory in fighting with Turks at Erum, a town on the Persian gulf, are dispute at Constantinople, where it is officially announced that the English were repulsed with a loss of 1,000 men.

The latest Austrian announcement concerning the fighting in Serbia is that the advance on Serbian territory is being continued with success and that 8,000 prisoners were taken in one bat-

tle.

General Christian De Wet, one of the rebel leaders in British South Africa, is reported to have been wounded in the head. His followers, it is said, lack arms and are dispirited.

DESCRIBES TEN DAYS KILLING BEFORE YPRES

Col. Swinton, British Official Observer Brings His Narrative of Battle in Belgium Up to November 13th.

PAYS TRIBUTE TO GERMAN BRAVERY

Terrible Losses He Says, Fail to Daunt Kaiser's Troops Whose Offensive Goes on Steadily.

London, Nov. 17 (11:49 a.m.)—Colonel E. D. Swinton, the official observer at the British headquarters gives today a further chapter in his narrative of operations at the front, bringing up his account to November 13. His latest report describes the fierce attack of the Prussian guards on the British lines in the neighborhood of Ypres.

Colonel Swinton's report, issued through the official press bureau follows:

"The diminution in the force of the German rush to the west has not lasted long. The section of the front to the north of our forces was the first to meet the resistance of violence in the shape of an attack in the neighborhood of Dixmude and Bixmude.

"Our own came next. After eight days of comparative relaxation, we were under constant pressure from Tuesday, November 13, to Tuesday, the tenth. The next day saw a repetition of the attempt of the Germans to break through our lines to the French.

"A simultaneous effort made to the south failed entirely. The fighting to a great extent was carried on at close quarters. It was most desperate and confused. Scattered bodies of the enemy who had penetrated into the woods in the rear of our position could neither go backward nor forward, and were nearly all killed or captured.

Scattered bodies of the enemy who had penetrated into the woods in the rear of our position could neither go backward nor forward, and were nearly all killed or captured.

"The portion of the line to the southeast of Ypres held by us was heavily shelled, but did not undergo any very serious infantry attack. That occupied by the French, however, was hit by machine guns and driven back to the line of trenches, a certain portion of which they succeeded in holding. The number of dead left in the woods behind our lines alone amounted to 700.

COST OF LIVING ON DINING CARS IS GOING UP

Santa Fe Will Put Up Price of Table d'Hote on Limited to \$1.25; Report De Luxe Prices Also Advanced.

Chicago, Nov. 17.—After Sunday, table d'hote in all dining cars and eating stations on railroads throughout the country will cost 75 cents each. The railroads have just entered into an agreement to this effect.

While dining cars in which table d'hote meals are served are not numerous, thousands of railroad dining rooms have been serving meals for 50 cents. Special trains also have served table d'hote meals for less than 75 cents.

On three of the roads west of Chicago the rate will be advanced from \$1 to \$1.25. Dining cars serving coarse dinners at this price are operated between Chicago and St. Paul northbound by the Chicago & North-Western and Milwaukee & St. Paul roads. To the southwest the Santa Fe will advance the price from \$1 to \$1.25 on its limited train between Chicago and Los Angeles, and a similar advance will be made when the once-a-week de luxe train between Chicago and California goes on in January.

Representatives of the railroads say dining car service on every first class road is a just proposal, but that it must be maintained.

STRIKERS MEET IN SESSION WITH CROWD OF NON-UNION MEN

Lafayette, Colo., Nov. 17.—Strikers and non-union miners met in harmonious session last night, with other citizens of this coal mining town, to discuss public finances. As a result of conditions growing out of the strike and the loss of salaried incomes during the period of enforced prohibition, the municipality has run deeply into debt. At the meeting it was decided to levy an assessment which will bring the total tax paid by property owners up to 77.9-19 mills, the highest rate in the state. It was decided also to discharge the police force, reduce the street lighting by half, and abolish the town clerk's salary.

The first announcement was a gift of \$2,000 by Joshua W. Rockwood, president of the First National Bank of Albuquerque and El Paso. Mr. Rockwood did not make his gift in cash. He gave his equity in Albuquerque real estate in the value of \$2,000, to form the company's offices in the new city.

The second was \$250 from F. J. Martini of El Paso.

An Albuquerque business man who asked that his name be withheld, increased his subscription from \$100 to \$1,000.

There were other increased subscriptions. The committee turned in about their usual daily sum.

It was taken altogether, a rather inspiring sum, though it ended in the largest burst of enthusiasm yet seen in the campaign and the climax came when the crowd marched to the corner to salute the clash and a paroxysm of enthusiasm struck his fist through the fire alarm glass and burst the central station equipment to the corner of the east.

Tonight the ladies in charge of the sanitary department proposed to serve a chicken dinner at headquarters. The idea is to feed the team which no man who would venture to predict defeat would probably be headed.

"I don't know how we're going to do it" was the last comment of Mr. Bishenner this afternoon when the men returned to work, "but we're going to do it to our best balance by midnight."

That, it may be said, is the feeling of every worker in the game.

BRESHNAHAN SAYS ALL DEALS FOR HIS FUTURE ARE OFF

Chicago, Nov. 17.—Roger Breshnan announced today that two deals regarding his future—one by which he would have become manager of the Brooklyn Federals and another by which he hoped to own the Cleveland association franchise and transfer it to Toledo, are off. He is now, he said, "just a catcher of the Chicago Nationals."

As far as rumors that he might succeed Henry O'Day as club manager, Breshnan said he had not conferred with President Thomas.

WAR

(Continued from Page One.)

Filled by the waters,

Two attacks of German infantry, one to the south of Bixschoote and the other to the south of Ypres, resulted in failure. On our side we have made progress between Bixschoote and the canal. Between Armentieres and Laboissiere there has been an artillery duel conducted with great spirit.

"In the Aisne certain German detachments which endeavored to cross the river in the vicinity of Vally were either driven back or destroyed.

"On our positions on the right bank of the Aisne, up at "Vaux" from Vally there has been violent cannonading. This applies also to the Chemin des Dames and several shells have fallen on the city of Rheims.

"In the Argonne there have not been any infantry engagements. We blew up with mines a certain number of German trenches. On the heights of the Meuse, to the south of Verdun, we have made advances at several points.

"In the region of St. Mihiel we have taken possession of the first houses of the village of Chauvourcourt.

"These houses served as barracks for the St. Mihiel garrison. This village of Chauvourcourt is the only point of support still held by the Germans on the left bank of the river Meuse in this locality.

"On the rest of the front there has been nothing of importance to report."

GERMAN REPORT SAYS MONDAY A "QUIET DAY"

Berlin, Nov. 17.—By wireless to London, 1:07 p. m.—German army headquarters gave out an official report this afternoon, as follows:

"Generally speaking, yesterday passed quietly in the western arena of the war. To the south of Verdun and to the northeast of Cirey the French made several attacks which, however, were unsuccessful.

"Operations in the eastern arena made further favorable progress, but detailed reports are not yet at hand."

TURKS CLAIM VICTORY OVER ENGLISH IN PERSIAN GULF

London, Nov. 17 (7:15 p. m.)—A report from Constantinople, via Amsterdam, to Reuter's Telegram company gives an official communication issued by the Turkish war office. It says:

"Yesterday we attacked the English near Fao on the coast of the province of Basra in the Persian gulf. They lost about a thousand dead."

"The revolutionary leader Abdur Resul crossed the frontier with 300 men to assist the Russians but was dispersed by our troops and many of his followers were killed."

"A Russian standard was captured."

WHOLE NORTH SEA IN THE MILITARY AREA

London, Nov. 17 (3:15 p. m.)—Premier Asquith stated in the house of commons today that the British government had decided to declare the whole of the North Sea to be in the military area.

All subjects of the enemy found on neutral vessels, the prime minister said, would be liable to detention as prisoners of war.

Mr. Asquith also announced that oil and copper would be declared contraband of war.

Referring to mines, the premier said the Germans had resorted to indiscriminate mine laying in the North Sea without regard to peaceful shipping and without warning. This purpose clearly was the furtherance of no definite military operations, but to endanger British trade. These mines unquestionably had been laid by mining vessels disguised as neutral, the premier said. "These mines were not so constructed as to become harmless

when loosed from their moorings, neither were they kept under observation. No steps had been taken to warn peaceful shipping of this danger. Consequently the terms of the Hague convention of 1907 have been violated.

After a number of neutral fishing and merchant vessels and many lives had been destroyed by these German mines, Mr. Asquith said, the government had been forced to adopt counter measures to cope with this German policy of mine laying combined with submarine activities.

"A mine field was therefore laid across the southern portion of the North sea," said Premier Asquith, "in such a way as to guard the approaches to the English channel. One public warning was given in accordance with the Hague convention. The last week of October the Germans succeeded in laying a mine field on the north coast of Ireland, on the main trade route from America to Liverpool, via the north of Ireland. More peaceful merchant ships were blown and more lives were lost."

"These mines could not have been laid by any German ship of war or by any vessel flying the German flag. They could only have been laid by some merchant vessel under a neutral flag, which must have come along the trade route as if for the purpose of peaceful commerce."

"The menace to peaceful shipping presented by these wholly illegal methods of waging war is so great that the government has been compelled to adopt the only possible means of protection, namely, to declare the whole North Sea a military area and to restrict all shipping crossing it to a narrow passage along which the strictest supervision can be exercised. Access to the coasts of Great Britain and neutral countries has thus been made as safe as is in the power of the British navy to make it."

"His Majesty's government is fully aware of the anxiety prevailing in the United States and other neutral countries on these subjects and it trusts that its policy will be fully understood. It is confident that public opinion in neutral countries will appreciate its earnest desire that there shall be no interference with neutral trade. Any interference by the British navy is solely to prevent goods from reaching the enemy which would increase its power in the war against the British and allied forces."

"The garrison at Smyrna at present consists of 25,000 Turkish soldiers."

RUSSIANS REPORT ANOTHER ADVANCE IN EAST PRUSSIA

Petrograd, Nov. 17 (via London, 2:20 p. m.)—Heavy fighting is reported to have taken place in East Prussia in the vicinity of Niedenburg and Siedau, and the advantage is declared here to have been entirely with the Russians.

GERMAN CRUISER BERLIN DISARMS AT TRONDHJEM

Christians, Norway, Nov. 17 (via London, 4:30 p. m.)—It was officially announced here today that the disarmament of the German cruiser Berlin which has put in at Trondhjem, a seaport of Norway, has been commenced.

The Berlin appeared at Trondhjem, which is on the northwestern coast of Norway, and well outside of the North sea, yesterday. It was then reported that she was endeavoring to escape from the North sea to act as a commerce raider in the Atlantic, very much as the cruiser Endre did in the Indian ocean.

The Berlin, with a crew of 450 men, arrived at Trondhjem yesterday. Her commander was given the choice of putting to sea within 24 hours or of submitting to disarmament. He chose the latter, apparently preferring to have his ship disarmed, rather than risk going out to sea.

GOVERNO OF WARSAW AND STAFF TAKE PRISONERS

London, Nov. 17 (4:30 p. m.)—Among the Russian prisoners captured by the Germans in the battle of Kutno were the governor of Warsaw and his staff, according to a Berlin telegram forwarded to Reuter's Telegraph company from Amsterdam.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diaperin" Ends All Stomach Distress in Five Minutes.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stomach bumps; head dizzy and a bit; belly gassy and acidic and eructate undigested food, breath foul, tongue-coated—just take a little Pape's Diaperin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diaperin occasionally keeps this delicate organ relaxed and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal diet without rebellion, if your food is a damage instead of a help, remember the quickest, easiest, most harmless relief is Pape's Diaperin, which costs only cents for a large case at drug stores. It's truly wonderful! It digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake don't go on and on with a weak, distressed stomach—it's so unnecessary.

SIGNPOSTING CAR DUE TO ARRIVE TOMORROW

Poles Suggested for Central Avenue at First and Fourth Streets; Party to Be Entertained at Dinner.

The signposting truck sent out by the southern California automobile club is due in this city tomorrow morning. It was reported between Bernal and Los Lunas last night. It is coming up the river along the proposed Camino Real of Isleta and across the Barcas bridge.

The car is in the charge of Douglas Mitchell, assistant secretary of the southern California club. It is thoroughly equipped, not only for putting up the steel guide posts, but for touring. It is a home of whine, more or less. The party aboard are independent of hotels or towns.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rushing sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

GALENA KING MINE PROMINENT MOOSE IN SANDIAS IS LEADER HERE IN OPERATION TOMORROW

Property Now Well Past Prospect Stage to Be Opened Up on Big Scale With Mill in Immediate Prospect.

SUCCESS FOR OWNERS MEANS MINING DISTRICT

After a suspension of two months, work was resumed on the Galena King Mining Co.'s prospect south of Coyote Springs today. The mine has practically passed the prospect stage and the indications are that the work which was started this morning will in a short time bring the mine to such a stage of development that a mill can be put in and the company can turn out lead ore in large and paying quantities.

The Galena King is one of a number of prospect mines being worked in the Sandia mountains east of Albuquerque. This mine has gone through the vicissitudes which generally befall every prospecting company. The mine was located and worked first by the Octonion company. It was succeeded about three years ago by the Galena King Mining Co., which has been carrying on the work since. It is not a stock jobbing proposition. Such stock as is out is held by Albuquerque people, who paid fair for it. The company has proceeded along the same line of "pay as you go." This has several times necessitated the shutting down of work, but has left the property free of debts, several tons of high grade ore and one hundred tons of low grade ore are on the dump now, and the company expects soon to go to shipping.

Two tunnels have been dug into the mountain, one about 175 feet above the other. A fissure of ore averaging three feet in thickness has been uncovered. The work which was started today was on a contract to extend the lower tunnel 100 feet further into the mountain. When this is completed the company can compute the exact amount of ore they have in the fissures between the two tunnels. They will then know what size mill to put in and will proceed accordingly. The old company shipped two carloads of high-grade ore which netted them over \$1300.00.

The work which is going on in the several prospect mines in the mountains east of here means much to Albuquerque. Success at any one of these mines would mean an immediate development on a large scale of the mining industry in the Sandia mountains adjacent to Albuquerque.

Precise indications are that the Galena King will in the very near future make good all that its promoters have hoped for it. H. N. McLokey, president of the company, made a trip to the mine yesterday to see that everything was in shape for the starting of work today.

It would be well for the council to send a committee to Santa Fe to work for the passage of a statute requiring persons with damage claims against municipalities for injuries sustained to notify authorities within a short time after the accident so that their condition might be observed by representatives of the municipality.

N. M. E. A. NOTICE.
During the N. M. E. A. last year the citizens of Albuquerque responded generously to a call from the local committee to throw their homes open to the teachers, and since a much larger number of visitors is expected this year, an even more generous response is necessary for the comfort and pleasure of our guests.

All who can possibly assist in the entertainment are requested to telephone the secretary of the Commercial Club, No. 42, or the high school building, No. 1626, giving the prices of rooms and the numbers that can be accommodated.

PROMINENT MOOSE LEADER HERE TOMORROW

James J. Davis, Head of Mooseheart Governors Wants Chance to Talk to Local Moose and Albuquerque People.

Hon. James J. Davis of Pittsburgh, Pa., director general of the Loyalty Order of Moose, and chairman of the board of governors of the Mooseheart institution for children in Illinois, will be in Albuquerque tomorrow morning for half an hour, during the stay of the California limited here. Mr. Davis is on his way to California. He has asked that local members of the Moose meet him at the train as he wishes to address them, and also has asked that Albuquerque people interested be present.

Mr. Davis probably will have something of interest to say concerning the Moose, tuberculosis sanitarium and President Cushman of the Commercial club suggested this morning that members of the Commercial club and others specially interested in bringing the institution to this city should be present to welcome Mr. Davis. All members of the Moose lodge are expected to be at the station.

Mr. Cushman has arranged for a short conference with Mr. Davis on the sanitarium matter.

Deferred to 1915.

The Herald this morning received a telegram from City Clerk Tom Hughes from Denver, stating that while he arrived in Denver too late to attend the Moose executive council meeting, he had been assured that nothing definite had been done concerning the location of the sanitarium and that members had gone to their homes with the understanding that action would be deferred promptly until the July 1915 convention to be held in San Diego.

Justimano Gutierrez has filed a complaint against John Seth and Edgar Furman, charging assault with intent to kill. The charge is technical. What Furman and Seth are actually alleged to have done was to run into Gutierrez's nephew, 12-year-old Augustino Zamora, with a motorcycle. The boy was only slightly hurt.

Millen Says Mrs. Hutzel Urged Johnson on as the Latter Thumped Him; Defendant Says Plaintiff Ran.

F. H. Millen appeared in police court today against Emil Johnson and Mrs. Jessie E. Hutzel, a nurse. He charged Johnson with disturbing the peace and Mrs. Hutzel with being an accessory to the disturbance. Millen and Mrs. Hutzel, according to the police, were close friends, but it is felt developed between them, and Mrs. Hutzel says Millen annoyed her on several occasions.

Mrs. Hutzel and Johnson were passing down South Second street the other evening, and the subject of Millen's alleged annoyance arose.

"Then," Mrs. Hutzel says she said, "he is now."

Johnson turned to confront Millen and Johnson differ as to what happened. Millen says Johnson punched him, while Mrs. Hutzel stood by and urged on the attack. That is why she names her as an accessory to the disturbance.

Johnson says he merely told Millen to "beat it," whereupon Millen, he says, ran as fast as his legs could carry him.

The hearing was continued by Judge Craig to Friday morning.
