Need help finding the full text of an article for your research? Check out HSLIC's [Finding Full Text Research Guide](#).

This guide covers how to access resources off campus and how to find full text in Pubmed, Google Scholar, and CINAHL & EBSCO Databases. Having trouble accessing those resources? There is also a section on troubleshooting common access issues. If you have any questions or still have trouble finding what you are looking for, feel free to [contact the library for help](#).
