## REVENUE FROM LANDS

STATE LAND COMMISSIONER HAS SUM OF \$415,000.

Amount Will Be Distributed by the State Treasurer Among School and Institutional Funds.

Western Newspaper Union News Service.

Santa Fe.—The sum of \$415,000 will be turned over to the state treasurer on Dec. 1 by Land Commissioner R. P. Erlen, to be distributed among the different school and institutional funds. This represents the income for the past month from leases and sales of state lands and is far beyond the fondest dreams of those who secured for the state the land grants in the Ferguson act. Already the lands of the state are worth \$50,000,000, the income from which helps to lighten the tax burden and to provide school and institutional facilities.

The land grant of the State University now amounts to an endowment of more than a million dollars and the income from it, added to the regular appropriations, now gives that institution something like \$100,000 annually, while the State College of Agriculture has an income from various sources amounting to about \$100,000 annually and will soon reach the \$200,000 mark. At the same time the public schools have a fund endowment that even today is worth \$200,000 in gold cash and will soon amount to twice as much.

Make Reduction in Taxes.

East Las Vegas.—The county commissioners have made a reduction in the tax levy for county purposes to 55 mills. The state had made a cut of 50 mills, making a total saving to citizens of San Miguel county of taxes this year of 85 mills. The total levy for state, county and East Las Vegas is 15.25 mills, which is 85 mills less than last year. In the town of Las Vegas the total tax burden is 85 mills less than in past years. For the past seven years the county commissioners have been able to make a reduction in the levy each succeeding year. In spite of this fact, San Miguel county has built a large number of bridges and made extensive road improvements.

Arrested on White Slave Charge.

Santa Fe.—Manuel Aguirre was arrested by Deputy U. S. Marshal Fred Delgado on the charge of violating the Mann white slave act by bringing 15-year-old Maggie Hernandez from El Paso to Deming. He also lodged in jail at Deming, Vernon Williams, charged with having killed a girl friend at Fort Bayard. At Gallup Frank Marquez was arrested for selling liquor in Arizona.

Montgomery Dies from Wounds.

Socorro.—Young Montgomery, who was brought here badly wounded as a result of a fight with two of the Madril brothers in western Socorro county, is dead. Warrants are out for the two Madril brothers, alleged to have been responsible for the killing. Both of these men are confined to their beds by wounds inflicted upon them by Montgomery during the fight.

Land Office Holds Auction.

Santa Fe.—The state land office sold almost 100,000 acres at the court house at Silver City, the minimum bids being \$3 per acre. The largest parcel sold covers 29,431 acres and the smallest 4 acres. One parcel had 11,000 acres and four parcels had each over 5,000 acres, while one parcel had upon it \$50,000 worth of improvements in the way of fencing, wells and barns.

Three Luna County Prison Recruits.

Santa Fe.—Luna county sent three recruits to the penitentiary, they being brought in by Sheriff W. C. Simpson: Jose F. Torres, to serve eighteen months to three years for larceny; Charles Supel, eighteen months to three years for assault with a deadly weapon, and Thomas Murphy, one to three years for larceny.

Prisoner Kills Self in Jail.

Socorro.—A most horrible case of suicide occurred here in the county jail when John S. Davis, brought here some time ago from the Mogollon country charged with murder, killed himself by taking an electric light globe and crushing it into fine bits and then swallowing the powdered glass.

Arrested for Attempted Assault.

Albuquerque.—Apolino Gallo of San Jose was held for the grand jury by Justice of the Peace McClellan in \$500 bond on a charge of attempted assault with a deadly weapon. It is alleged by the authorities that Gallo was stopped in the act of cutting a woman's throat with a razor.

Entrenching Tools Reach Columbus.

Columbus.—The arrival of large shipments of entrenching tools, picks, shovels and sandbags here for the punitive expedition in Mexico has caused much comment among army officers at this army base. The arrival of these shipments, which have been unusually heavy, is taken here to indicate the possibility of a renewal of the field campaign, as many of these articles would not be needed at the field headquarters if the expeditionary force was to remain there.

## VILLISTAS CUT EARS OF ENEMIES

ACCORDING TO A MEXICAN CIVILIAN REFUGEE WHO REACHED JIMINEZ, CHIHUAHUA.

## SANTA ROSALIA LOOTED

WOMAN SAID TO HAVE BEEN SHOT BY BANDIT WHEN THEY HELD UP TRAIN.

Western Newspaper Union News Service.

El Paso, Tex.—Villa bandits are again cutting the ears from captured Carranza soldiers and then sending them back to their comrades as a warning to the other Carranza soldiers, a Mexican civilian refugee who reached here from Jimenez, Chihuahua, reported. He came to El Paso by way of Torreon, Coahuila, and from there to El Paso, Tex., as the Mexican Central railroad was cut between Jimenez and Chihuahua city.

He claimed to have seen sixteen Carranza soldiers at Jimenez with their ears severed from their heads. He said the sight was revolting as the ears had been cut off with military sabers and, in many instances, the skin of the face had been mutilated, and that the soldiers were suffering great agony and the wounds had become infected.

The refugee said he had been told by one of the mutilated soldiers that a total of eight Carranza soldiers had had their ears cut off by Villa bandits at Santa Rosalia. These sixteen soldiers, he said, had reached Jimenez from Santa Rosalia, en route to Torreon, and they reported that Villa bandits had looted Santa Rosalia and had impressed many citizens of that town.

Passengers arriving from Chihuahua city on the delayed passenger train brought additional details of the robbery of the Mexican Central passenger train which left Juarez Oct. 29. They said three passengers were shot by the bandits when they fired into the passenger train, one being a Mexican woman. It was not known whether or not these passengers were killed. The conductor who was shot was Carlos Pais, whose father is an American. He was shot in the hip by the bandits when he attempted to replace a rail which had been removed by the bandits to wreck the passenger train. The engine and tender were derailed, the passengers stated, but the passenger coaches did not leave the rails.

Dr. S. Hafner told a graphic story of the holdup and robbery of the train at Laguna station and of the execution which accompanied the train from Juarez.

Dr. Hafner was told by one of the Villa chiefs in command of the bandits that Villa troops had captured Santa Rosalia, Jimenez, and would take Chihuahua city within ten days, after the railroad to Juarez had been destroyed.

Hot noon lunches for children in the one and two-teacher country schools of Texas is one of the aims of Miss Minerva Lawrence, Extension worker in the University of Texas. She makes trips over the state and speaks and gives demonstrations among the patrons and teachers of Texas rural schools.

A crowd of one hundred and fifty children and parents greeted her recently at a county school taught by two teachers and located 12 miles from a railroad. When she explained the advantages to the country schools of the arrangements for a hot lunch, the trustees were so favorably impressed with the plan that they pledged financial support immediately. "More

children suffer from lack of nutrition than from overwork in school" is the theory of the Home Economics workers, and an organized effort is being made to improve the conditions by arrangements for hot luncheons. Teachers are supplied with free printed instructions concerning food preparation so that no special training is necessary. Equipment for the preparation of the food can be had for about \$7.50. The children then bring uncooked food such as raw eggs, potatoes, milk, etc., and nourishing soups and hot drinks can be prepared by the pupils good training in domestic science.
