LINING UP FOR CAMPAIGN

Republican and Democratic Territorial Central Committee in Session

NON-PARTISAN CONVENTION

Plenty of Oratory on Tap All Day and Again Tonight.

Both the Republican and the Democratic central committees of the Territory met this forenoon at Albuquerque. The former was presided over by Hon. H. O. Bursum who made a rousing and patriotic address. Others spoke and the general sentiment seemed to be that a non-partisan convention is impractical although there were earnest expressions in favor of minority representation, that is an exchange of delegates between counties conceded to be Democratic and counties conceded to be Republican. The committee convened again at 2 o'clock but at the time of the New Mexican's going to press had taken no definite action.

The Democratic committee was presided over by Attorney James G. Fitch. Addresses were made by Hon. H. B. Ferguson, Judge N. B. Laughlin, R. M. Dougherty and Judge McGill of La Lande, the latter opposing a non-partisan convention because he did not believe the Republicans would carry out in good faith any agreement made. Nevertheless a committee of five was appointed to confer with the Republicans and having power to act to reach an agreement for a non-partisan convention. This evening the Republicans will hold a monster mass meeting at which a number of addresses will be made by visitors.

PASSING OF THE U. S. RECLAMATION SERVICE.

Way is Being Paved for Turning Entire Work Over to Army Engineers.

Washington, D. C., July 11.—Although no official statement was given out at the department of the interior it can be stated authoritatively that Secretary R. A. Ballinger and the President have made definite arrangements for the separation of F. H. Newell, director of the reclamation division from the government service. The friction between Ballinger and Newell has been no secret for a long time. The secretary has contended that Newell was not the man to run reclamation work, and Newell has not tried to hide his hostility to Ballinger. But Newell will not resign. He has let his friends in Washington know that if he goes out of the service he will have to be put out. For a long time he has had a flattering offer to enter the service of a big concern, but he has preferred to remain in the government service until ousted. Following the removal of Newell, the Taft-Ballinger policy of handing the reclamation service over to the army engineers will be gradually and surely worked out.

When your correspondent called, Ballinger declined to discuss any details of the removal of Newell. It was said that the resignations of Newell and Davis, one of the prominent field engineers, had been drawn up in the interior department awaiting the psychological moment. Newell made it clear today that if he is to go he will have to be discharged. "I will not resign," was the short, emphatic statement with which Newell met all queries on this point made by your correspondent.

The changes in the reclamation service will probably begin when the new army board convenes in this city about July 20. Davis had a long consultation with Ballinger and it is believed details for the retirement of Davis were then arranged. Davis said that Ballinger was the one to give out any particulars.

It will take the army officers about a year to get in touch with all the details of the various reclamation projects and then, it is believed that such absurd departmental orders as that placing an embargo on the waters of the upper Rio Grande and its tributaries under the plea that they are needed at the Engle Dam although they never reach it, will be revoked. There is the greatest uneasiness and anxiety among all in the reclamation bureau as to who will be dropped and who, if any, will remain.

The new army board will at once take over one of the most important functions of the reclamation service, that of deciding upon which projects the \$20,000,000 bond issue is to be spent. Besides the board, General Marshall, newly appointed consulting engineer of the service, will act as Ballinger's personal representative in matters relating to the service, and it is expected that in this capacity he

(Continued on Page Eight.)

NEWARK MUST OBEY LAWS

Judge Pronounces Scathing Denunciation of the Ohio Town

LYNCHING IS TO BE PROBED

Governor Harmon Suspends the Mayor and Receives Charges Against Sheriff.

Newark, Ohio, July 11.—Formal charges against Sheriff Linke for failure to stop the lynching of Detective Etherington last Friday, were made today, the papers being signed by Common Pleas Judge Charles Seward, and others. The charges were immediately forwarded to Governor Harmon. Judge Seward has issued a venire for a special grand jury to meet next Monday to investigate the lynching. "This city has been for years in the hands of lawbreakers," said Judge Seward today, "and high officials of the city and county openly connive at violation of the law and have defied the courts. The law-abiding element has determined to see the lynchers punished."

Mayor Atherton Suspended. Columbus, Ohio, July 11.—Governor Harmon at noon suspended Mayor Herbert Atherton of Newark for thirty days pending an investigation of his action during the rioting on Friday night which resulted in the lynching of Carl Etherington, a "dry" detective.

Governor Sees For Himself. Newark, O., July 11.—The sudden arrival of Governor Harmon late yesterday afternoon, wrought consternation among the city and county officials who are threatened with impeachment as a result of Friday night's lynching.

Governor Harmon, Adjutant Weybrecht, Secretary Lord and Lieutenant Ben Chamberlain of the governor's staff arrived at the county jail in an automobile at 3:15. Their arrival was absolutely unheralded and the officials were taken completely by surprise. The governor demanded to be taken over the battered jail and for thirty minutes he and his staff examined the structure minutely. Sheriff William Linke explaining in detail every step of the mob. The governor personally tested the bars and examined locks.

Linke Will Also Be Suspended. Columbus, O., July 11.—It is expected that the governor will also suspend Sheriff Linke immediately on receipt of the charges against him which are on the way from citizens of Newark.

FOREST FIRES DO THREE MILLION DOLLAR DAMAGE.

Homes of Three Hundred Families Destroyed by Fire Last Week and Much Suffering Results.

Eau Claire, Wis., July 11.—More than three million dollars damage have been done by forest fires in northern Wisconsin, the last three weeks. So far as known there was no loss of life, but the homes of more than three hundred families were destroyed last week, and there is much suffering.

Famous Trees Out of Danger. Washington, D. C., July 11.—The forest fires which have been raging in the Sequoia National Park, California, the last few days, are now believed to be under control and the famous giant trees are out of danger.

AMARILLO, TEXAS, SHOWS BIG POPULATION INCREASE.

Grew From Less Than 1,500 Ten Years Ago to Almost 10,000 in Present Census.

Washington, D. C., July 11.—Amarillo, Texas, showed a big increase of population since last year according to figures given out by Census Director Durand today. It grew from 1,442 in 1900, to 9,957 this year.

Texas Census Figures. Washington, D. C., July 11.—Census returns, Texas counties: Bowie 34,827; Knox 9,625; Nolan 11,999; Uvalde 11,233.

MRS. HELEN GOULD WEDS RALPH THOMAS TODAY.

Honeymoon Will Be Spent in England in an Automobile—Ceremony to Be Private.

New York, July 11.—Plans were completed today for the wedding of Mrs. Helen Kelly Gould, the former wife of Frank J. Gould, to Ralph Hill Thomas, nephew of Washington B. Thomas, president of the American Sugar Refining Company. The ceremony probably will take place late today. Only a few personal friends will be in attendance. The honeymoon will be spent touring England in an automobile.

SWELTERING HEAT IN THE EAST

Suffocating Temperature in New York and Vicinity Is Unbroken

ATLANTIC SEA BOARD SUFFERS

Scores of Prostrations and Many Deaths Reported by Metropolis.

New York, July 11.—A suffocating heat wave still hangs over New York City, causing scores of prostrations. Twelve persons have died from the heat, the last twenty-four hours. Nearly a million persons visited the beaches on Sunday. The whole Atlantic seaboard is in the clutches of the hot weather.

Shocked to Death. New York, July 11.—The government thermometer showed only 85 degrees as against 92 degrees at one o'clock yesterday, but on the streets it is still blazing hot. One man was prostrated while working on the Sixth avenue elevated and fell against a power rail, where he was shocked to death.

Heat Prostration at Boston. Boston, July 11.—Half a dozen prostrations from heat in Boston and vicinity early in the day were reported by the police and hospitals.

Driven Crazy By Heat. New York, July 11.—Yesterday was the hottest day of the year in New York. Three persons went mad with the heat and eight others died of it. The list of prostrations was long. At 12:30 p. m. the temperature was 92 degrees, one degree hotter than Saturday's maximum at 4 p. m.

Hot Wave at El Paso. El Paso, Texas, July 11.—The hottest period of eight days ever recorded by the government weather station here, was broken last night by a heavy rain and decided fall in temperature. During the eight days the temperature averaged 99-100. The Rio Grande river at this point is entirely without water.

Philadelphia Reports Many Prostrations.

Philadelphia, July 11.—Ten deaths and many prostrations occurred here as a result of the heat. The humidity was 85 during the morning hours and the mean temperature for the day was 84. The maximum temperature was 93.

Hundred and Two Degrees at Washington.

Washington, July 11.—The national capitol sweltered in torrid heat which caused one death and four prostrations. One Pennsylvania avenue thermometer registered 102 degrees.

Two Dead; Score Drop.

Boston, July 11.—Yesterday was the hottest day of the year in Boston, the official temperature being 93 degrees at 2 o'clock. Two deaths and a score of prostrations were reported. For the first time in Boston electric fans were used in some churches yesterday.

Electrical Storm at Trinidad. Trinidad, Colo., July 11.—A severe electrical storm last night put telephone and telegraph lines out of service and partially crippled the electric light service.

WEALTHY PHYSICIAN WALKS OFF PULLMAN CAR.

Meets Death in Singular Manner From a Colorado Southern Train Between Walsenburg and Colorado Springs.

Trinidad, Colo., July 11.—Dr. R. T. Wiley, a wealthy resident of Mineral Wells, Texas, walked off a Pullman car while asleep last night, near Rameyville, on the Colorado and Southern railroad. His body was found today. Dr. Wiley was missed at Walsenburg and later a freight crew reported having heard cries while passing near Rameyville. Wiley, with his wife, were enroute to Colorado Springs.

Was Awake. Trinidad, July 11.—Mrs. Wiley has wired authority from Colorado Springs to make a thorough investigation of her husband's death. She says he was awake and went to the rear of the train to get a breath of air. Dr. Wiley was 73 years of age.

FATAL WRECK ON NEW YORK CENTRAL.

Three Trainmen Killed and Train Load of Passengers Given Shaking Up Near Hudson.

New York, July 11.—Three trainmen were killed and a train load of passengers badly shaken up when the northern and western express on the New York Central was wrecked this morning near Newton Hook, nine miles north of Hudson. The wreck was caused by the engine striking the door of a freight car that had fallen on the track.

HARVARD ATHLETE ISSUES CHALLENGE

Anxious to Contest With Johnson for Pugilistic Championship

LIVES ON DOLLAR A WEEK

Owes His Strength to Scientific Selection of Cheap Foods.

Cambridge, Mass., July 11.—Earl V. M. Long, substitute center on the Harvard Varsity eleven last fall and one of the best developed men the college has had for years has the pugilistic fever. He wants to meet Jack Johnson in the ring and thinks he can wrest the title from the world's champion. Long is nearly as big as Johnson and always has been in perfect condition, due, he claims, to his scientific selection of food, which costs him not more than a dollar a week.

Johnson Parade Prohibited. New York, July 11.—A hundred negroes gathered at the Grand Central station today to welcome Jack Johnson, but the Twentieth Century limited hearing the champion was delayed several hours by a wreck near Albany. The crowd however, remained. The police would not permit a parade and Johnson will be taken to a west side hotel, where he will be given a reception by friends.

Pictures Forbidden in Manila. Manila, July 11.—In fear of the effect which they might have on the Filipinos, the municipal board of Manila has prohibited the exhibition of Jeffries-Johnson pictures.

Crush at the Station. New York, July 11.—Hours before the time for the train to arrive, thousands of negroes were massed in the waiting room of the Grand Central station and the streets nearby. So great was the crush that a number were knocked down and trampled upon.

FULL RECOUNT IS ORDERED IN DALZELL'S DISTRICT.

Close Fight is Being Made on Pennsylvania's Stand Patter Congressional Leader—Will Be Close Shave.

Pittsburg, July 11.—After weeks of wrangling a full recount of the 172 ballot boxes in the thirtieth congressional district was begun today. In the recent primary election returns, Congressman Dalzell had a majority of 197 over Dr. Robert J. Black. Black's adherents say that the recount will show Black has a majority of nearly 30 or more.

22,000 WOMEN ENDORSE SPANISH GOVERNMENT.

Religious Strife in Spain Runs High Between the Anti-Clericals and Catholic Church.

Madrid, July 11.—Anti-clerical meetings continue to be held at Madrid, Saragosa, Tarragon and Toledo. At Barcelona a petition signed by 22,000 women was presented to the governor of that city endorsing the government's religious policy. At Granada in Andalusia, a gathering of Catholics was attacked by anti-clericals.

LOEB VISITS TAFT AT BEVERLY

Political Situation in General and Tariff in Particular Are Discussed

MESSAGE FOR ROOSEVELT

Collector of Port Is to Counteract Insurgent Talk at Oyster Bay.

Beverly, Mass., July 11.—A brand new angle is given to the visit of William Loeb, Jr., to Beverly today. It was reported that his talk with President Taft this afternoon would be on the general political situation, "and would include a discussion of the Payne-Aldrich tariff bill. The President, it is believed, is anxious that Colonel Roosevelt should make a careful study of the new law before committing himself anyway. The colonel undoubtedly has had the "insurgent view" of the tariff pretty well drilled into him by Senators Beveridge, Brewster, La Follette, and Mr. Taft, so the story goes, wants the colonel to have the administration view.

MEDICAL BOARD IN SESSION

Nineteen Applicants for Licenses Appeared for Examination

NEW WOOL AND HIDE COMPANY

Bar Examiners Will Meet at Capitol on Monday, July 18.

The absence of Governor Mills, Territorial Secretary Nathan Jaffa, Captain of the Mounted Police Fred Fornoff, Traveling Auditor Charles V. Safford and Territorial Treasurer M. A. Otero, to attend the meeting of the Republican central committee, at Albuquerque, made things rather quiet at the capitol today. Superintendent of Public Instruction James E. Clark being still at Boston, Land Commissioner R. P. Ervien at Clayton, Assistant Superintendent of Public Instruction Acasio Gallegos at Bernalillo, Assistant Traveling Auditor John Joerns at Albuquerque, and a number of clerks and other employees being away on their vacation.

Medical Board in Session.

The territorial board of health met this forenoon in the hall of Representatives in quarterly meeting. Only nineteen applicants for licenses appeared before the board this forenoon but a number of others were expected to arrive this afternoon and evening. Drs. Pearce, Massie, Moir and Radcliffe were the members present at the morning session.

Incorporation.

Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by the New Mexico Wool and Hide Company of Hagerman, Chaves county. The capitalization is \$25,000 divided into 250 shares; the paid up capital is \$6,000 and the incorporators and directors are: Harold Hurd, Clark A. Baker and William A. Bryant, 20 shares each. David E. Bryant is named as the New Mexico agent.

Supreme Court.

All applicants for admission to the bar should report at the office of Supreme Court Clerk Jose D. Sena on July 19, 10 a. m. The board of Bar examiners will meet on the day before. Chief Justice Pope writes that he expects the vacancies on the bench all to be filled by July 19, the day that the Supreme Court convenes. There are 58 cases on the docket and they will all be heard.

County Institutes.

This morning the Curry county teachers' institute convened at Clovis, with W. A. Poor of Clovis as conductor; and the Roosevelt county institute convened at Portales with T. W. Conway of Raton as conductor.

Water Applications Granted.

Territorial Engineer Vernon L. Sullivan today granted the water rights application No. 392 of Alonzo C. Loveless of Clayton, Union county, for three second feet of Corrupe Arroyo to reclaim 300 acres; and application No. 357 of the Denver and Rio Grande Railroad Company for 14.54 second feet of the Rio de la Petaca, to be stored in a reservoir covering 3.18 acres and to supply two pipe lines, one 3,000 feet long and the other 4,055 feet long, the water to be used for engines and municipal purposes at Tres Piedras.

ANOTHER INCIPENT CUBAN REBELLION SNUFFED OUT

Colored Colonel and Six Others Arrested With Incriminating Documents on Their Person.

Havana, July 11.—What is believed to have been an attempt at a widespread rebellion against the government was frustrated today by the arrest of Colonel Jorge Valera, a mulatto, and six other persons, most of them colored men who were arrested on their way to Vieja Bermeja, in the province of Matanzas, to which place a trunk containing arms and ammunition and dynamite had been shipped from Havana. Letters and documents found on the prisoners are believed to implicate many others.

RIVER STEAMER STRIKES SNAG AND SINKS.

St. Louis, Mo., July 11.—The steamer Cape Girardeau struck a snag and sank to the bottom of the Mississippi river early today at Turley Island, 50 miles south of here. Ninety passengers were aboard and all were taken ashore safely.

The boat was returning from Commerce, Mo. Many passengers were women and children. They were asleep when the boat hit the obstruction, but the alarm was instantly given.

As soon as the boat hit the snag, the pilots headed her toward the shore. The boat sank close to the bank after the passengers had crowded ashore on a gang plank.

WHAT IT COSTS TO EDUCATE

Professor Wood Finds Per Capita Expense is \$31 to \$42.05 Per Year

TOTAL ENROLLMENT WAS 469

But More Than a Thousand Other Pupils Are in Private Schools.

That the yearly cost per capita to educate a pupil in the public schools based on the total enrollment is \$31, on the average daily attendance \$42.05, were statements made by Superintendent of Public Schools J. A. Wood in statistics he read at the meeting of the board of education held here a few days ago. A feature of Mr. Wood's report was the statement that the total enrollment of public school pupils for the year had been 469 but in view of the fact that there are several private schools and educational institutions in the city this small enrollment is easily explained. It is said on good authority that more than 1,000 pupils in Santa Fe are in other schools besides the public schools which would bring the total of school going boys and girls in Santa Fe above 1,500, as educators say it should be.

The Report.

Professor Wood's report is as follows:

The total enrollment for the year was 469; the average enrollment was 338, and the average daily attendance was 322. The total enrollment in the high school was 65. Number of teachers employed in the schools, 14, and janitors 2.

The annual report of the treasurer of the board of education dated May 1st 1910, showed the following figures for the past year:

Building Fund.	
Balance May 1st, 1909,	\$1,773.67.
Receipts from all sources \$2,366.50.	
Total \$4,140.17.	
Expenditures \$2,558.	
Balance May 1st, 1910,	\$1,581.44.
General Fund.	
May 1st, 1910, balance	\$1,779.59
Receipts, rents and tuition	461.25
Taxes	5,186.85
Liquor licenses	1,594.65
Poll taxes	553.00
Fines, Justice of the Peace	14.40
Apportionments	3,368.40
Interest on \$2,000	100.00
Other sources	24.06
Total	\$13,081.20
Expenditures	11,426.86
Balance May 1st, 1910	\$1,654.34
Interest Fund.	
May 1st, 1909, balance	104.44
Receipts	1,490.51
Total	\$1,594.95
Expense, interest and commissions	1,401.75
May 1st, 1910, balance	193.20
Sewer Fund.	
May 1st, 1909, balance	\$480.00
Receipts	125.00
Total	\$605.00
Expenditures	41.38
May 1st, 1910, balance	\$563.62

The treasurer holds also in his possession a time certificate of deposit of the Bank of Commerce, Albuquerque, N. M., \$2,000.00 of the building fund at 5 per cent interest, payable annually or semi-annually.

The secretary's report showed warrants drawn from May 1st, 1909, to May 1st, 1910, for the following purposes and for the following amounts:

Salaries.	
Teachers	\$8,401.25
Janitors	\$97.00
Treasurer	50.04—\$ 9,348.29
Fuel.	
Wood	\$ 39.35
Coal	325.54— 364.89
Supplies	414.43
Water and light	222.76
Printing	24.85
Telephone service	20.00
Improvements	1,539.00
Miscellaneous	206.65
Interest on school bonds	1,400.00

Total expenditures during the year \$13,540.87

Loans which have been paid back 875.00

Total \$14,415.87

ELKS OPEN FORTY-SIXTH ANNUAL REUNION.

Antlered Herd Takes Possession of City of Detroit—Formal Sessions Began Today.

Detroit, Mich., July 11.—The forty-sixth annual reunion of Elks which was officially opened here last night, was formally begun today, with ceremonies incident to the formal opening of the grand lodge.

CHILDREN.

Oh little people from the hills of
Dawn,
What set a-straying hitherward your
feet,
Still rosy from your wanderings on
her peaks,
Still dewy from her vales of asphodel,
And all the lucene of God's unweaved
morn
Still shining in your confident, clear
eyes?

Was it some new-spiced flower farther
down
The western slope, whose gaudy tints
allured?
Some nodding, dusty daisy whose
frank glance
Ouvied the breathless, stirless purity
Of asphodels that, like unnoted stars,
Slow whiten on the windless fields
elysian?

So soon the dust upon the tender feet
That slow and slower trudge, the
strain-eyes,
The reaching hands, grow tired of
plucking now,
Yet clasping to the end some wayside
weed,
—Charles T. Rogers in Century.

Forest Fire in Colfax County—Val-
uable timber is being destroyed east
of Green Mountain, Colfax county, by a
forest fire.

Mails Rifled—A postoffice inspector
is investigating the alleged rifling of
mail on the star route between Santa
Rosa and Fort Sumner.

**Elected Principal of Santa Rosa
Schools**—T. E. Parsons, principal of
high school at West Baden, Ind., has
been elected superintendent of the
Santa Rosa public schools.

Pascual Herrera Acquitted—Pas-
cual Herrera was acquitted at Las
Vegas of the charge of stealing prop-
erty belonging to the Santa Fe rail-
road. The hearing took place before
Justice of the Peace D. R. Murray.

**East Las Vegas Wrestles With Au-
tomobile Ordinance**—The East Las
Vegas city council will on Wednesday
act upon an ordinance regulating au-
tomobiles. A maximum speed of ten
miles an hour for the business dis-
trict and fifteen miles an hour in the
residence district is proposed.

Constitutional Mass Meeting—The
Stanley Index has the following sig-
nificant call in its last issue: "A mass
meeting has been called for Saturday
July 9th, to the settlers of south San-
ta Fe county, in order that some im-
portant questions connected with the
forthcoming constitutional convention
can be discussed. The first meeting
will be held in the school house at
Venus. Let every settler in this part
of the valley, who can possibly do so,
make arrangements to be present."

Albuquerque Water Conditions—
From all parts of the territory come re-
ports that owing to the lack of rain,
the drinking water supply has become
stagnant. At Albuquerque, according
to a communication in the Tribune-
Citizen: "One resident was obliged to
step out of the kitchen until the water
in the kettle had boiled for some time
on account of the stench. Last Mon-
day morning no water would run from
his kitchen faucet till late in the day
when a tiny stream trickled into the
sink. Investigation disclosed the de-
caying flesh of a water dog that was
recognizable by the legs and head at-
tached to a musky mass of pus-like
substance that was oozing through the
sprinkler."

**Trouble Over Finances at Albuquer-
que**—City Treasurer O. A. Matson of
Albuquerque, refuses to obey the
order of the city council to deposit the
city's funds in the State National
bank and will probably be served with
an alternative writ of mandamus to
explain why he does not obey the or-
dinance.

Catarrh Cannot Be Cured
with LOCAL APPLICATION, as they
cannot reach the seat of the disease.
Catarrh is a blood or constitutional
disease, and in order to cure it you
must take internal remedies. Hall's
Catarrh Cure is taken internally, and
acts directly on the blood and mucous
surfaces. Hall's Catarrh Cure is not
a quack medicine. It was prescribed
by one of the best physicians in this
country for years and is a regular pre-
scription. It is composed of the best
tonics known, combined with the best
blood purifiers, acting directly on the
mucous surfaces. The perfect com-
bination of the two ingredients is
what produces such wonderful results
in curing Catarrh. Send for testimo-
nials free.

MINOR CITY TOPICS

Denver, Colo., July 11.—The
forecast is local showers to-
night or Tuesday with station-
ery temperature.

Suit for Back Taxes—District At-
torney Klock has brought suit against
the Jemez Land Company for \$4,740
back taxes.

Saloon License at Socorro \$1,000—
The city council of Socorro has raised the
saloon license to \$1,000 a year.
The vote stood 7 to 1.

Carlsbad Has a Fire—The bottling
works of J. A. Pauba at Carlsbad were
seriously damaged by a fire last week,
the first fire in Carlsbad for three
months.

School Census of Socorro County—
The school census of Socorro county
shows 4,450 persons between the ages
of five and twenty-one years, a gain
of 27 since last year. The report also
shows \$2,439.17 poll tax collected.

Brings Home Statehood Blotter—
James C. Chavez, assistant secretary
to Delegate W. H. Andrews, is at Ros-
well on a visit and brought with him
the blotter with which Speaker Can-
non blotted his name after attaching it
to the statehood bill.

Rains Badly Needed—From Taos
county, from the upper Pecos and from
other sections come complaints of
drouth. Rain is badly needed and the
grass is practically all gone.

Shipped 1910 Wool Clip—The Sal-
ado Livestock Company, of which ex-
Governor M. A. Otero of this city, is
one of the principal stockholders, last
week shipped its 1910 clip of wool,
amounting to 100,000 pounds.

Just 110 in the Shade—It was 110
in the shade Friday at El Paso and
the temperature has exceeded 100
each day for over a week. The nights
too, are unusually warm, the minimum
being about 85 or 86, or just about the
same as the maximum has been in this
city.

Yesterday Cool and Pleasant—The
maximum temperature yesterday was
75 degrees and the minimum 53, while
the humidity was 62 per cent. There
was a thunderstorm in the afternoon
with a good deal of rain which was
welcomed. A year ago today the max-
imum was 89 degrees while the min-
imum was 58 with 100 per cent of
sunshine. Not a cloud was visible
throughout the entire day, which was
one of the hottest of the season.

Boy Fatally Burned—Pouring coal
oil into a stove to revive the sparks of
a fire, Frank Fessler, the ten year
old son of Joseph Fessler at Carls-
bad, was fatally burned in the result-
ing explosion. The father burned his
arms badly in trying to save the boy.
The latter suffered excruciating agony.

**Claud Hutto Takes Up Himself a
Wife**—Claude Hutto, for several years
stenographer with the New Mexican
Printing Company and now manager
of an irrigation company at Albuquer-
que, was married Saturday evening to
Miss Constance Wagner of Hammond,
Ind., by Justice of the Peace W. W.
McClellan of the Duke City.

Rio Grande is Dry—Despite the ul-
timate of the reclamation service
that the waters of the upper Rio
Grande and its tributaries reaches the
Engle dam site, the Rio Grande is
reported dry at Albuquerque, much to
the embarrassment of irrigation farm-
ers who need moisture at this particu-
lar time in order to save their crops.

**Additions to School of Mines Fac-
ulty**—Professor Edgar G. Tuttle, of
Philadelphia, has been appointed to
the chair of mining and metallurgy,
made vacant by the resignation of
Professor R. V. Smith at the New
Mexico School of Mines at Socorro. J.
F. Barkley was appointed to the in-
structorship held last year by Robert
I. Kirchner. He is a graduate of the
Michigan School of Mines.

Cashier Davis Buys Farm—Says the
Carlsbad Argus: "W. S. Davis, of
Santa Fe, who was in Carlsbad about
ten days ago, has bought the SW. 1-4
of Sec. 11, which is a part of what
used to be known as the Lower
Greene farm, now owned by I. S. Os-
borne. Mr. Davis expects to move to
his farm later and has already
made arrangements to have most of
his land planted to alfalfa this year.
This 160 acres was recently purchas-
ed by H. F. Stevens, of Santa Fe, who
expected to move here and develop
his farm, but was unable to carry out
his plans and sold to Mr. Davis."

WHY SO WEAK?

Kidney Troubles May Be Sapping Your Life Away, Santa Fe People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backaches, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is a Santa Fe testimonial to prove it.

J. T. Sandoval, 115 Ortiz street, Santa Fe, N. M., says: "I have used Doan's Kidney Pills off and on for two years and they have done me a world of good. A dull pain in the small of my back, sometimes extending into my bladder caused me a great deal of suffering, particularly when I took cold. I was bothered mostly in the winter. In addition to the pain in my back, there were symptoms of inflammation of the bladder. The kidney secretions were highly colored and when passed were attended with a scalding pain. I never used a remedy that acted as satisfactory as Doan's Kidney Pills. They proved to be just the medicine my case required and the complete cure they brought has led me to recommend them on more than one occasion."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

PROGRAM FORMULATED FOR IRRIGATION CONGRESS.

Session This Fall to Be Most Important One—Home Building Principal Object of Organization.

Pueblo, Colo., July 11.—Most important for the welfare of the nation is a wise, safe, progressive, constructive policy in dealing with those questions which affect the material prosperity and development of the west and south, as well as the financial and industrial prosperity of the north and east. This is being kept constantly in mind in framing the program for the meeting of the Eighteenth National Irrigation Congress in Pueblo, September 26-30, announces Arthur Hooker, secretary of the congress.

The board of governors of the National Irrigation Congress met in Pueblo recently, at which time, acting on behalf of the executive committee they gave much time to the consideration of matters affecting the program. The report of the program committee was received and after careful consideration a tentative, preliminary draft was outlined. This program is being elaborated upon by the members of the board of governors who will be prepared to make a full report when the executive committee convenes a few days previous to the congress. The program does not become official until approved by the executive committee.

Events of the past few years have caused more people than ever before to consider seriously questions vital to the development of our country, questions concerning which great minds agree as to their importance, while differing as to their solution. Particularly important at present is a campaign of education which will result in more clearly formulating in the immediate future a definite constructive policy. Home building is today more than ever a question of national importance.

The friends of irrigation have had much over which they might rejoice the past few months. Early in its session the national congress amended the census act authorizing the collection of irrigation statistics. The census bureau has been and is busy on these as well as other figures and before many months the country will have irrigation information of the greatest value, never before available.

KEEP COOL—KEEP HEALTHY "BATHASWEET"

When tired, warm or run down, shake a little BATHASWEET in the tub when bathing. BATHASWEET softens and perfumes the water instantly. 25 bathers in 25 cent can.

IT'S WORTH A TRIAL
BATCHELLER IMPORTING CO., NEW YORK

Along the national congress amended the census act authorizing the collection of irrigation statistics. The census bureau has been and is busy on these as well as other figures and before many months the country will have irrigation information of the greatest value, never before available.

In 1902 the government, through the reclamation act, did more than authorize the digging of ditches and diversion of water. The government through that act placed the seal of approval on irrigation which has made possible, not only the reclamation work of the government, but also enabled private enterprise to secure capital for worthy undertakings on a scale never previously possible. And in the closing days of its session the national congress still further encouraged irrigation work by authorizing the issue of \$20,000,000 worth of certificates to complete the reclamation projects now under construction.

The Eighteenth National Irrigation Congress will meet at Pueblo in September under auspicious circumstances for its work to "save the forests, store the floods, reclaim the deserts, make homes on the land." Its work will be influenced by the expression of their views by the President of the United States and members of his cabinet, the secretary of agriculture, the secretary of the interior, and the secretary of commerce and labor, as well as leading citizens of the country.

Expert in irrigation, drainage and forestry, statesmen whose views are important on legislation, scientists,

men who are powerful in industrial and financial circles, will be among the speakers. The problems of the irrigation companies, of the settlers who raise the products and of the railroads who haul them will be considered. The views and methods of foreign governments will be explained by the foreign delegates and one session will be turned over to the governors of our own states. And through the entire program will run the endeavor to find out those policies which consistently carried out will be productive of the greatest good to the greatest number of American citizens.

PYRAMIDING OF LOANS IS TO BE PREVENTED.

National Bank Examiners Will Keep Track of Large Borrowers and Will Check Them Up.

Denver, Colo., July 11.—To insure the standing of state, national and private financial institutions, national bank examiners have evolved a system to prevent the "pyramiding" of loans by borrowers by making lists of such borrowers for financial protection. State bank examiners are to work in conjunction with the national inspectors.

The idea is to include in the list of bank examiners hereafter lists of borrowers whose headquarters are outside the district covered in the report. The extent of their line of credit given by different banks be constantly checked and they will not be allowed to make numerous loans from different banks so as to endanger the liability of any bank.

This system will place data concerning the real financial condition of borrowers, whether corporations or private individuals, in the hands of national and state examiners. Publicity has been given to the subject on the order of the comptroller of the treasury. This data will not be made public.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

GOOD WISHES ON THE WAY.

The mere fact that Congress passed an enabling act has caused the press of the country to look upon New Mexico with much more kindly eye than it ever has before. Columns upon columns of free advertising have been given the territories the past few weeks in practically every paper of the country and millions who had never given a thought to New Mexico before, are now informed as to its resources, its outlook and its promises. The heartiest welcome comes from the newspapers of the west and the following from the Denver Times is typical:

"Look your last upon territories, unless you desire to journey to Alaska or the islands of the sea."

"Arizona and New Mexico are leaving that class which Cleveland called 'dangerous communities,' and entering the rank of what he designated as 'undesirable states.' And with their worthy and glorious coming into sovereignty, Congress relinquishes its exclusive jurisdiction over the domain which the map-makers call the 'United States proper'—except the District of Columbia."

"We ought to celebrate this event; for it is very unlikely that there will be another territorial admission within this generation."

"There are two more smiles on the face of the far west; and two more sneers upon the lips of New England. We would not encourage a sectional spirit. On the contrary, we would eradicate it. And the way to wipe it out is for the west to have more strength in Congress! Rhode Island, for instance, has been very superior toward the 'small' new states. The only cure for New England condescension is for the west to acquire a voting strength which shall enforce respect for equal rights."

"The territories of the United States, in their progress toward statehood, have learned self-control, fortitude, patriotism. After the fifty years of waiting, Arizona and New Mexico are in the third generation of wardship to the nation. Thousands of their people have lived their strong and useful lives, and have died vainly hoping for a full citizenship in the republic. The benefaction which comes at this late day is all the more precious, perhaps, to the communities which now have reached freedom's full stature."

"We of the west know the yearning for statehood; we know the long and loyal waiting; and we know with what a sense of consecration to the country's highest ideals, a new state enters upon its national life. May every hope of these young sisters be fulfilled; may every patriotic duty be achieved."

IMPORTANCE OF DAIRY INDUSTRY.

According to the last year book of the department of agriculture there are 21,720,000 milch cows in the United States, and these are worth \$702,945,000. The magnitude of the industry can perhaps be best understood when it is considered that these cows produce yearly about \$1,000,000,000 worth of dairy products.

There is no other branch of diversified agriculture so important to the progress of a community. The fertility of the soil can best be maintained by the liberal use of barnyard manure and the dairy herd not only makes this possible, but dairying is also more remunerative than other branches of farming when properly carried on.

Dairying has made wonderful progress since the advent of the modern creamery and the consumer of butter has not only been benefited by being furnished a more wholesome and palatable article of food, but the wife in the farm home has been relieved of the drudgery incident to making butter on the farm. Where formerly the cream was ripened and churned into butter under conditions not conducive to fine quality in the finished product and in the majority of cases by unskilled hands, now the most of the milk or cream is delivered to a modern creamery where conditions are suited to the purpose of making butter, and the result has been a wonderful improvement in the quality of our dairy products. As the quality has improved consumption has increased and the progress of dairying has been remarkable during the past decade.

The perpetuity of the country's greatness depends upon increasing the production of farm products from year to year, a result which not only furnishes our people with food but maintains the prosperity of our farming communities. Increase in production can only come through improved

methods of agriculture and soil improvement. When it is considered that the dairy cow is the foundation for soil improvement and farming prosperity, her importance is best understood, and interest in her should not be confined to her owner. She is an important factor in the development and prosperity of our country.

THE PLEDGES WERE KEPT.

"The west has little cause for complaint in its treatment by Congress this year," says the Spokesman-Review in an editorial under the heading, "Millions for the Pacific northwest," adding:

"Arizona and New Mexico received permission to be admitted to the Union. The seals of Alaska were protected. A bureau of mines and mining was established. Sixty million acres underlaid with coal, which is withdrawn or classified, were made available for agriculture also by putting them, as to the surface, under the homestead law. Irrigation was allotted \$20,000,000. Western territories and states were enabled to secure and fill out their grants of land to them by the authorization for the secretary of the interior to withdraw public lands temporarily for that purpose."

"Coming closer home, the inland Empire fared well. The Columbia received \$25,000 for improvements. Appropriations were also made for the improvement of Chehalis, Cowlitz, Lewis, Snohomish, Skagit and Willapa rivers. The Puget Sound and Lake Washington canal obtained \$2,275,000 for a lock, if King county should build the canal."

"Bridges, harbor improvements, light houses, public buildings and surveys were lavished, generously but wisely. Alaska even received \$60,000 for aids to navigation and \$100,000 for roads. Yakima's Indians actually had \$285,000 set apart for their several requirements, while Colville reservation in its southern half is to be allotted to the Indians in tracts not exceeding 160 acres of grazing land."

"Critics of Congress and the President as do-nothings are out of a job. President Taft has always held that platform pledges are intended to be kept. He has steadily done his part toward fulfilling them. No Republican can hesitate to stand on the party's progressive record. Every Republican should be proud of this march in the van of progress. All who want more of progressive legislation in the interest of the people will next November vote for Republican representatives."

The great Civil war army is rapidly melting away. A few more years and the survivors will be reduced to a few thousand. Civil war pensioners are now dying at the rate of about ninety a day, according to pension bureau information.

There is no pensioner of the Revolution or of the war of 1812 on the pension roll. The last old survivor of the Revolution on the pension rolls was Daniel F. Brakeman, who died at Freedom, Cattaraugus county, N. Y., April 5, 1869, aged 109 years 6 months and 8 days. The last pensioner of the Revolutionary war was Esther Damon of Plymouth Union, Vt., who died November 11, 1906, aged 92 years.

There is now only one pensioner on account of the Revolutionary war on the roll—Mrs. Phoebe M. Palmer, aged 89 years old, of Brookfield, N. Y., pensioned by special act of Congress as the daughter of Jonathan Woolley, of New Hampshire.

The last surviving pensioned soldier of the war of 1812 was Hiram Cronk of Ava, N. Y., who died May 13, 1905, aged 105 years and 16 days.

The names of 395 widows of the war of 1812 remained on the pension roll June 30, 1909.

Let's quit writing it "Territory" and write it "State." The sooner we get accustomed to our new clothes the better; and the sooner we get the people outside to forget we are a territory and think of us as a state the better. On every envelope leaving the offices of the Bureau of Immigration at Albuquerque, these days, appears this legend, printed in red ink: "Ask about New Mexico, the new State; the Land of Opportunity." It is a good scheme and if every business house in New Mexico would have this legend printed on its envelopes it would make one of the best and most extensive advertisements the new state could have. The extra cost for printing would not exceed \$1.50 on a thousand envelopes and it is worth \$1.50 to any man to extend the invitation "Ask about New Mexico, the new State" to a thousand people who ought to know about it.

WATCH THE WATER SUPPLY.

An Albuquerque paper last week stated that there were twenty-three cases of scarlet fever in the Duke City at that time. Last week's Carri-zozo Outlook tells of four cases of typhoid fever caused by the drinking of contaminated well water. Each season has epidemics of its own, but they can all be traced to lack of public sanitation or cleanliness. Filth is at the bottom of all epidemics. In Santa Fe, there lurks danger in the wells on account of the lack of a general sewer system and the impregnation of the soil with unspeakable filth. This filth seeps into the underground water courses and reservoirs from which the wells dip their water. There is this much about the water from the Santa Fe river and the reservoir, no matter how murky or how much it has come in contact with vegetable matter, it is absolutely uncontaminated from organic filth or disease germs, for along the entire watershed of the river, from the source on Lake Peak, 12,000 feet above sea level, to the main receiving reservoir, there is not a single human habitation nor a single sinkhole, not one source of contamination. There is this caution to water consumers, that no matter how clean and cold the water from a well may be, well water in a settled community is never above suspicion; and that no matter how murky or full of vegetable matter the supply from a flowing stream may be, as long as the watershed of that stream is free from human habitations, it can not well be a cause of typhoid or other illness, caused by germs and human filth.

At a recent election at Clovis, the Democratic bulwark of the Democratic county of Curry, the Republicans elected their candidates for justice of the peace and constable by handsome majorities. There are other straws which show the way the wind is blowing in eastern New Mexico. After much advertising and advance shouting, a so-called Democratic rally was pulled off at Roswell, which was to unite the numerous Democratic factions of Chaves county and to sound the keynote for the constitutional delegate campaign. Here is what the Democratic Roswell Daily Record says of the meeting: "The attendance was not at all what it should be and what was hoped for." When the votes are counted in September, the Democratic vote will not be what the Democrats think it ought to be or what they had hoped for. With the Republicans nominating men like Judge W. E. Lindsey in Roosevelt county; C. H. McLenathan in Eddy county; Judge Havenner in Curry county, they can expect to carry those counties just as easily as their candidates for justice of the peace and constable carried the day in Curry county. It's worth the effort and success will come very near making the constitutional convention unanimously Republican."

The San Luis Southern now being built across the Costilla Estate holdings in southern Colorado, is headed for Santa Fe, according to the Questa Gazette. It is now nearing Mesta, a new town on the New Mexico-Colorado border and which is to be the gateway to the rich valley lands of the Latir, the Cerro and Questa country in northern Taos county. From there south to Taos and the Penasco valleys a new road would pick up enough traffic to make it pay from the start and thence to the Santa Cruz and Nambe valleys and Tesuque and Santa Fe, seems to be the natural course for a railroad that would be a good investment and commercial proposition. Of course, it is the Denver & Rio Grande that is behind the San Luis Southern, and its plan to build a new broad gauge line into Santa Fe may be of far reaching consequence not only to this city but to the entire southwest.

A very gratifying report, showing the optimism of the farmers under the Carlsbad irrigation project, New Mexico, has been received at the Washington office of the reclamation service. The Pecos Water Users' Association has transmitted to the land office at Roswell \$6,225.50, which pays practically all delinquent charges due from this project, the total sum paid during June for delinquent charges being \$7,284.25. The Water Users' Association also has on hand \$13,000 paid by owners of excess lands and by non-resident owners. Of this sum approximately \$9,200 are for building charges and \$3,800 for operation and maintenance.

The slates for the Santa Fe delegates to the constitutional convention have been made. The voters have the right to write their O. K. on them or to smash them, but they should not come after the primaries and complain. The time to complain and to act is before and at the primaries. Every citizen should take an active interest now in the political movements that will culminate in the writing of a fundamental law for the Territory, a fundamental law which it will not be easy to change after it has once been adopted and approved.

Whatever may be the decision of the territorial central committee of the Republican party at Albuquerque today, it behooves every Republican to get into the game and to play it with all his might. Not only are senatorships and state offices at stake, but the welfare of business and industry and the future of what ought to be one of the leading commonwealths of the Union.

The crusade against the fight pictures has been a magnificent advertisement for them and means half a million dollars more in the pockets of the promoters. There is a justifiable suspicion that this crusade has been inaugurated and is being kept alive by the owners of the picture films.

Notice for Publication.
(06888, Not Coal.)
Department of the Interior,
U. S. Land Office at Santa Fe, N. M.
June 22, 1910.

Notice is hereby given that Jose Alifres de Lamy, N. M., who, on July 21, 1905, made homestead entry (serial 06888), No. 8416, for E 1-2 SW 1-4 and lot 4, Sec. 7, and Lot 1, Section 18, Township 14 N., Range 10 E. N. M. P. Meridian, has filed notice of intention to make final five year proof to establish claim to the land above described, before Register and Receiver, U. S. Land Office, at Santa Fe, N. M., on the 18th day of August, 1910. Claimant names as witnesses: Alberto Sanchez, Jose Dolores Sanchez, Juan Sanchez and Francisco Analla, all of Lamy, N. M.

HER PALM

Denotes the Highest Tragic and Artistic Powers and Talents.

Prof. Grant Chesterfield, the celebrated palmist, has added a number of imprints to his famous collection of palmographs since his stay in town and among the number is that of a certain young lady whose palm denotes a career most flattering; at

least that is what Chesterfield says. The young lady in question is now studying hard, fitting herself for the stage, and if Chesterfield's predictions and the hopes of her numerous friends are realized, she certainly will move in brilliancy. It is said that he tells the condition of your health, what ails you and whether or not you can be cured. If you will soon make changes in your business conditions; if your home life is or will be happy; if you will be fortunate in your love affairs; if you will win your lawsuit; if absent friends will return; if you will travel, and if you wish he will also tell you when you are to die.

It is said by the most prominent men and women of Santa Fe that he performs marvels in reading the palm and in his clairvoyant readings he actually tells your name in full—age and date of your birth.

His parlors remain open evenings until 8:30. They are on the north-west corner of Lincoln and Palace avenues. The entrance is on Palace avenue.

MINES AND MINING

Lincoln County—The west drift in the main shaft of the Commercial Metals Company, working near Carrizozo, has become so hard that only three inches of shaft can be drilled. In the east drift a body of ore has been leased for a period of seven years. A new set of machinery is to be erected.

Lordsburg—Ten carloads of ore were shipped last week from Lordsburg, the shippers being the Eighty-Five Company, S. W. Maltbie and Cook & Leber. The Orion Mining Company has discovered that some ore has been shipped from its mine, the Dundee, without permission of its officers.

Magdalena—The different leases of the Old Kelley stope are all shipping good zinc ore. The new tunnel known as "Sleeper" tunnel is in about 600 feet, but is still in the sedimentary rocks. The Tri-Bullion Smelting and Developing Company has its new roaster in operation.

Rosedale—J. P. Worrell of Valparaiso, Ind., is the principal owner of the Rosedale Milling and Mining Com-

pany. L. R. Babcock of Kelly, is the general manager and J. J. McInnis has charge of the mill and engine room. The mill has just shipped its monthly gold brick, worth \$4,000 to \$5,000 to the mint at New Orleans. The mill has twenty stamps and in a busy season employs 40 men. The Golden Bell Mining Company is doing assessment work and is planning further development. A 300 yard tunnel has been completed which connects with the old tunnel through a shaft. Charles Capul is the manager and D. M. Farson of Chicago, the principal owner.

Geological Exploration in the Sandias—Representatives of the Yale University Museum will study the geology of the Sandia mountains, 40 miles south of Santa Fe this summer. The geology of the Sandias is in some respects the most striking to be found in the United States.

Mutual Placer Company—J. A. Caruth, of Santa Fe, of the Mutual Placer Company, received a request a short time ago from B. B. Wilson, editor of "Mines and Minerals," published by the International Correspondence Schools of Scranton, Pa., for an article about the company and the country it is in. As this paper has the largest circulation of any mining paper in the United States it was considered quite a compliment to the company to be asked to furnish such an article. It will be illustrated, make about four pages and will be in the September number. The company has received quite a number of very encouraging inquiries lately from eastern men who want to become interested in it. Evidently the tide in the east is setting in in favor of mining investments at present.

Tularosa—The Tularosa Copper Company, whose property is at Bent, 13 miles from Tularosa, Otero county, in the Sacramento mountains, is systematically drilling the ground proved during the past year by means of Cyclone core and churn drills to be practically continuous for 2300 feet. The company has enlarged its plant and ditch. The new mill, nearly completed will have a capacity of from 240 to 300 tons.

Organ—It is reported that W. H. Skidmore of El Paso, Texas, in sinking for coal 10 miles north of Organ, Dona Ana county, has struck oil. J. T. McCullough of Las Cruces states that the Bennett Stephenson Mining & Milling Company, of which he is secretary, organized to take over the Bennett Stephenson mines in the Organ mountains, will soon begin operations on a larger scale than ever, and as soon as sufficient ore is extracted the 200-ton concentrating mill will be started. A new exploration shaft will be sunk 200 feet to open up new ore bodies.

Kelly—The Ozark Zinc Company is operating its 100-ton mill and shipping concentrates east. The Tri-Bullion Company is operating double shift and shipping zinc concentrates to the Kansas smelters. The German Mining Company is also operating full shifts.

Mogollon—A twelve horse freight team started from Silver City for Mogollon, Socorro county, with a large air receiver for the Little Fannie mine. The ninety miles will be covered in one week.

White Oaks—A gold strike is reported on the Rita between the Old Abe and North Homestake mines at White Oaks, Lincoln county. It was made in a cross-cut from an old shaft at a depth of 50 feet. The mineralized matter is three and a half feet wide and two feet of it runs \$2,000 to the ton. The property is owned by John W. Harrison of St. Louis, but is at present under lease.

EL PASO SMUGGLER MAKES CONFESSION.

El Paso, Tex., July 11.—Through the confession of J. C. Hall, with many aliases, and information obtained here by officials, the arrests of almost a dozen people, charged with opium smuggling, have been made in several parts of the country. The action it is expected, will break up one of the biggest organized bands of opium traffickers the country has known.

The arrests made to date, either here or on information wired from here by federal officials, that opium had been shipped from El Paso, include:

C. D. Stevenson, alias Elijah Moore, Los Angeles; Frank Welch, Los Angeles; R. S. Flynn, C. S. Young and Thillie Hall, San Francisco; Ethel Jackson, El Paso; C. Chisholm, Atlanta, Ga.; and two Chinamen named Wong, at Atlantic City. All were caught either taking opium from an express office or sending it, and several have been indicted by federal grand juries.

NEWSPAPER MAN LEAVES HIS SAVINGS FOR A HOLY CAUSE.

Pittsburg, July 11.—The will of Nicholas Dale, a former newspaper man, who has lived for years a hermit-like life on 65 cents a week as he boasted, was filed directing that \$1,350 which he had saved be forwarded to the Holy Land to the Sorrowful Mother and Blessed Virgin church erected 1500 years ago in the path of the cross.

He wrote that he had long desired that all his worldly goods "be left in the last footsteps of Our Divine Lord on his last journey while yet in the flesh and blood."

As a writer he was once well known here for his intimate acquaintance with the steel industry and its leaders, including Andrew Carnegie,

It's a wise nickel that buys the **OWL CIGAR, 5c**

considering how many chances it has to get less value. No nickel brand has ever equaled the Owl in steady patronage. "Three millions a week." The quality improves with age. Always the foremost and never so good as now. Successfully better for thirty years. **Now made in two shapes. The Perfecto you know. The Corona is new.**

RECEIVER IS ASKED FOR COLORADO LAND CONCERN.

Denver, Colo., July 11.—Through its attorney, I. B. Melville, the Colorado Land and Water Supply Company, in charge of the Ignacio land project in La Plata county, asked for a receiver by permission of the state land board during a lengthy hearing before that body yesterday afternoon.

The land board listened to complaints from some of the land holders under the project for three hours. The latter want their money back, and their spokesman, Dr. George B. Whitney, said that many of the landholders want to break up the plans of the company, whether they get their money or not.

The complaints in substance are that the company's plans were never anything but paper plans and bluffs; that the company never secured reserved rights it claimed would be secured, has done no construction work and is a year overtime on its promise to turn water on the lands.

DAUGHTER OF MILLIONAIRE FIGHTS BILL OF DENTIST.

Chicago, July 11.—Miss Nellie Anheuser of the wealthy St. Louis family of that name arrived in Chicago to contest the suit of Dr. Robert Good, a dentist, for \$500 for work done for the defendant.

While Miss Anheuser was here for the grand opera last winter, the gowns which she expected to wear were attached at the instance of the dentist. The defendant has refused to pay the bill on the grounds that the rate of \$25 an hour charged by Dr. Good is excessive for work which she declares she was compelled to have done over by another practitioner.

NEW SORT OF RECORD IN POSTOFFICE LINES.

San Antonio, Texas, July 11.—For cities its size San Antonio, holds the 1909-10 record on undelivered mail matter. Letters and packages found to be non-delivered by the postoffice during the last fiscal year reached the tremendous total of 42,495 pieces. Of these 26,525 had no return address and for this reason had to be sent to the dead letter office. Most of the pieces were letters, though there were also

many packages and several postal money orders.

This almost phenomenal showing in misdirected mail is thought to be due to the fact that many tourists and winter residents neglect to notify their correspondents of their removal from here.

COMPLETE COUNTERFEITING OUTFIT DISCOVERED.

Police Arrest August Norment at San Antonio Under Very Damaging Circumstances.

San Antonio, Texas, July 11.—A complete counterfeiting outfit was found in a room in the city, said to have been occupied by August Norment, who was arrested a few days ago. In the room was also found \$132 worth of counterfeit coin and a large quantity of stolen goods, mostly clothing and cigars. The paraphernalia taken consisted of two copper dies for molding American half and quarter dollars, considerable quantities of tin, copper, silver and other metals, crucibles, melting screens, plaster-of-paris, and several chemicals, among them cyanide of potassium. Several boxes containing dross showed that the operator had turned out considerable quantities of the "queer." The coins made are pronounced by the authorities to be the best imitations seen in some time, both in ring and execution. The arrests were made through the detective service of the city after the federal secret service had been following all sorts of clues for over a year.

FLOOD SWEEPS EIGHT MEN DOWN STEEP HILLSIDE.

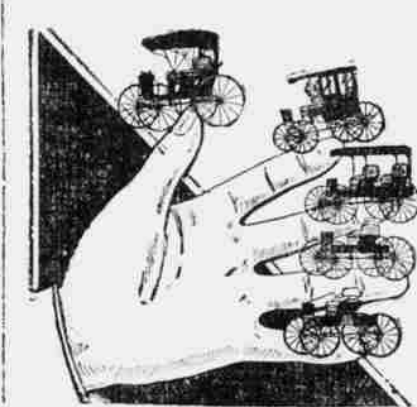

Durango, Colo., July 11.—The large water tank of the American Smelting Company, located on the mountain side above the smelter, collapsed while eight men were making some repairs in the way of new iron bands. The men were swept down the mountain with the deluge of water and thrown against the rocks.

William Ballreich, in charge of the work, was seriously injured, several ribs and one arm being broken.

A Mexican known as Tonny was seriously bruised and his shoulder dislocated, while the six others were slightly injured.

NOTICE.

All persons are herewith forbidden to enter upon the lands of the Santa Fe Water and Light Company for the purpose of fishing in the large reservoir of said company, this notice being given under Section 4, Chapter 83, of the Session Laws of 1909, which provides that "it shall be unlawful for any person to enter upon said premises or enclosure for the purpose of hunting or fishing, or to kill or injure any birds, animals or fish within such enclosure or pasture at any time without the permission of such owner or lessee."

TAKE YOUR CHOICE.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Bloomdale, Ohio.—"I suffered from terrible headaches, pains in my back and right side, and was tired all the time and nervous. I could not sleep, and every month I could hardly stand the pain. Lydia E. Pinkham's Vegetable Compound restored me to health again and made me feel like a new woman. I hope this letter will induce other women to avail themselves of this valuable medicine."—Mrs. E. M. FREDERICK, Bloomdale, Ohio.

Backache is a symptom of female weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

S. S. S. A BOTANICAL BLOOD REMEDY

Nature in her wisdom and beneficence has provided, in her great vegetable kingdom, a cure for most of the ills and ailments of humanity. Work and study have perfected the compounding of these botanical medicines and placed them at our disposal. We rely on them first because of their ability in curing disease, and next because we can use them with the confidence that such remedies do not injure the system as do the strong mineral concoctions. Among the very best of these botanical preparations is S. S. S., a medicine made entirely of roots, herbs and barks in such combination as to make it the greatest of all blood purifiers and safest of all tonics. It does not contain the least particle of harmful mineral to injuriously affect any of the delicate parts of the system. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Skin Diseases, Contagious Blood Poison, or any blood affection or disease even reaching down and cleansing the circulation of all inherited blood troubles. As a tonic S. S. S. is unequalled. It builds up the system in the proper way, by purifying the blood and supplying a sufficient amount of vigor and nourishment to the body. If you are suffering with any blood trouble, or are in any way run-down in health, you could not do better than take S. S. S., a purely botanical blood remedy. It cures without ever leaving any unpleasant or injurious effects. It is perfectly safe for young or old. Book on the blood free to all who write.

Sweet Peas, any shade at a popular price, McConvery, 415 Palace Ave.

Remember one big laugh from start to finish at the Elks' tonight. See Auntie at the boat race also Romeo and Juliet in our town. They will keep you laughing.

New Bank Building—The Citizens' bank of Des Moines, Union county, has let the contract for a stone bank building.

See Max make a touch, and "Poor But Proud" at the Elks' tonight.

New Time Table on New Mexico Central—On July 13, a new time table is to go into effect on the New Mexico Central. The passenger train is to leave at 7:30 in the morning and will arrive at 8 o'clock in the evening.

It's a real boat race between Yale and Harvard at the Elks' tonight.

New School House at Carrizozo—The board of education of Carrizozo not only advertises an issue of \$6,000 in bonds but also asks for bids to construct a three room concrete addition to the present school house.

Change of Ad.—Attention is called to the change of advertisement in this issue for the Wagner Furniture Company who offer a special sale on Princess Dressers, Osteomoor Mattresses, etc.

New Court House at Tierra Amarilla—The New Mexican today publishes an advertisement asking for bids for the construction of a new court house at Tierra Amarilla, Rio Arriba county.

Woman's Home Missionary Society—The Woman's Home Missionary Society of the M. E. church will hold their regular social and devotional meeting Tuesday, 2:30 p. m., at the home of Mrs. Sloan on Hillside avenue.

Who's Who in America—A letter addressed to the publishers of "Who's Who in America," is in the letter-morgue at the local postoffice. No postage was put on the letter and the postal officials now are asking "Who?"

Train From South Late—Train No. 10 from the west and south on the Santa Fe, has run into a streak of chronic lateness. It was two hours late today, enabling the Flyer, No. 3 from the east, to come in ahead of time.

Marriage License—George D. Foster, aged 46, and Louise Padilla, aged 40, both of Galisteo, took out a marriage license. Juanita Narvalz, aged 18, and Florence Garcia, aged 20, both of Madrid also procured a marriage license.

It is to Laugh—Two Santa Feans, who are intimate friends, were seated in an ice cream parlor discussing the speed limit. Said one: "This 75 mile an hour pace out on the road to the penitentiary will have to stop. Last night I was driving in a carriage and one of those Haller-comet motorcycles

raised a dust storm and I had to drive way out of the road and wait until the cycle and its cloud had passed by. I'd like to shoot the man who was on that machine." And his companion, who had been "practicing" on the motorcycle that had caused the disturbance, ordered a dish of ice cream to stop the hiccough-attack that then seized him.

Back From New York—George Martin, recently appointed superintendent of the Spanish Normal school, has just returned from New York City, where he spent some weeks on educational matters. He also visited Washington, D. C., and other cities.

Sells Mining Interest—A deed was recorded in the office of the probate clerk from M. D. Herington and his wife of Dickinson, Kan., to Eugenio Romero for their 8-40th interest in the J. I. C. mine in San Pedro, N. M. The consideration was \$400.

Board of Trade Meeting—Tomorrow evening a meeting of the Board of Trade will be held in the offices of the Santa Fe Water and Light Company. Important matters will come up and every business man and property owner is urged to attend.

Show at the Elks' starts at 8 o'clock tonight, get in early and don't miss any of the first pictures. They are all good and worth seeing.

Samuel Romero Commits Suicide—Samuel Romero, a sheep herder, committed suicide four miles south of Grande, Union county, by hanging himself. He was found hanging with his knees almost touching the floor. He was married a week ago to a daughter of Leandro Hurtado. The deceased was 26 years old.

Warranty Deed—A warranty deed was recorded in Probate Clerk Armijo's office from Henry C. Tarr and S. Douglas to J. C. Chapin for a lot in Stanley, the consideration being \$50. Another deed was from the Capital Land and Townsite Company of this city to E. D. Rook of Sayre, Okla., for a lot on Bishop's Heights, the consideration being \$20.

Santa Fe's Superiority—Word was received today by a Santa Fean that the mercury has been playing pranks in Montana and reached 106 degrees in places which are supposed to be delightfully cool in June and July. But Santa Fe, which so many easterners have an idea is in the "tropical belt" has not seen higher than 86 on its thermometers this year.

Pretty Warm at Las Vegas—According to the Optic, it was 97 in the shade at Las Vegas and "the humidity was high and everybody who did any work or walking perspired freely." At Santa Fe, the highest temperature recorded thus far this year has been 86 degrees and at no time has the relative humidity been oppressive.

Roped a Big Wolf—After an exciting chase, John Cammack while out with August Coots of Naravisa, Quay county, roped a big wolf, that measured 33 inches in height, weighed 133 pounds and was almost white. The animal was known as the celebrated

"three-toed loafer" and had committed many depredations the past five years, so that bounties aggregating \$100 had been placed on his head.

Silver City's First Mayor is Dead—Robert Black, first mayor of Silver City, and for thirty years a contractor and builder in that town, died last Thursday afternoon at his home, death resulting from a stroke of apoplexy. He was a native of Cambridge, Mass., and was 70 years of age. He came to Silver City in 1872. He served in the legislature in 1880 and wrote the first public school law of the territory. For 21 years he was president of the Silver City board of education. His second wife and son by his first marriage survive him. He was a prominent Mason.

Auto Turns Turtle—An automobile while at high speed turned turtle yesterday near the Fairview cemetery, the accident being caused by one of the front tires bursting. It is a wonder that the three occupants escaped death.

LOCKJAW VICTIMS DIE AT PITTSBURG, PA.

Pittsburg, July 11.—Blank cartridge wounds received on the Fourth of July claimed the first fatality in this section. Edward Mullaney died of tetanus and Adam Bovitch of blood poisoning from wounds in the hand.

PASSING OF THE U. S. RECLAMATION SERVICE.

(Continued from Page One.)

will slowly take over the bulk of Newell's authority.

There is a good deal of speculation in the service as to how long Newell can stand up under this undermining process. All that can be said today is that he is still resolved to "stick it out." Ballinger is on his way to inspect many reclamation projects including the Roosevelt and Engle dams. He will also visit the different Indian agencies on his way home to Seattle.

MARKET REPORT**MONEY AND METALS.**

Sheep — Receipts 4,000. Market twenty-five lower. Native \$4.50@7.50; western \$2.60@4.40; yearlings \$4.50 @5.35; lambs native \$4.50@7.50; western \$4.60@7.25.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Board of County Commissioners of Rio Arriba county, Tierra Amarilla, N. M., up to 4 o'clock p. m. the 15th day of August, 1910, for the construction of a county court house to be built at Tierra Amarilla, New Mexico, according to the plans and specifications prepared by I. H. and W. M. Rapp Company, a certified check made payable to the Board of County Commissioners of Rio Arriba county, amounting to 3 per cent of the amount of the proposal must accompany each bid as a guarantee that the contractor will enter into the contract and furnish a surety bond in the sum of 5 per cent of the amount of the contract.

The Board of County Commissioners reserves the right to reject any and all bids.

Plans and specifications can be seen at the office of the probate clerk at Tierra Amarilla, and at the office of I. H. and W. M. Rapp Company, at Santa Fe, New Mexico, and Trinidad, Colorado.

MARTIN LOPEZ,

Chairman of the Board of County Commissioners Rio Arriba county, New Mexico.
Attest: ELISEO LUCERO, Clerk

THE BIG STORE

Just About Now

As we get along toward midsummer, in the clothing business, we begin to look forward to the coming fall; the new goods are ordered for you for fall and winter; that means we ought to clean up our spring and summer stocks and dispose of all the goods we have on hands. Now that means that we must offer some sort of extra inducement that will make it worth while to buy, even if you have already bought summer clothes; you'll never have more than enough of our kind.

HART SCHAFFNER & MARX

clothes are always bargains at the prices we ask for them; they're worth the money, the value is in them. That makes a reduced price all the more attractive on such clothes, its like finding money.
