HSLIC's Biomedical Informatics Seminar Series presents: Jonathan Pringle, MAS

by Tamara Wheeler on September 14th, 2020 | [o Comments](#)

You are invited to join us on **Thursday, 9/17/2020 from 10 – 11 AM** for a virtual seminar by Jonathan Pringle, MAS.

[CLICK HERE TO REGISTER](#)

As HSLIC's Scholarly Communications and Digital Librarian, Jonathan will present on *Trends in Archives*. Stemming from a broad-level survey of archives and current research and practices within the archival field, this presentation will segue to focus on the theory and methodology that underpins the profession, and how this is applied in myriad applications at HSC.

By attending this seminar, attendees will have a better understanding of the boundaries of professional responsibility for archivists within the records lifecycle (i.e. biomedical informatics); new

or recent directions for the profession; and the application of professional archival work at HSC.

The University of New Mexico School of Medicine designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
