SCHOOL NOTES

(By Supt. E. E. Cole)

The Home Economics class took up their sewing directly after the first of the year and have been progressing rapidly. Their ambition is to have an exhibit worth while when they are asked to put their work on display in the spring.

The girls are now finishing their "sack aprons," the fifth of the required number of articles. They are so proud of what they have accomplished that they want to have an "Apron Day" just as soon as the weather becomes warm enough so that they may all wear their new aprons.

On Friday, March 18, the eighth grade took four of the examinations sent out by the State Board of Education. The set will be finished next month. These are the examinations for admittance to the high school. We hope all will pass the test and enter the high school next September.

Two cars of Camp Fire girls went on a hike last Tuesday afternoon. The hiking did not begin until the destination was reached and then girls might be seen leaving the cars for the hills, either in pairs or groups. About six o'clock all gathered around the camp fire and never was supper more welcome.

Mrs. Vaughn, the genial teacher of the fifth grade, was absent from school last week on account of illness. She returned to her duties this week looking as if the illness had done her good. Mrs. J. B. French substituted in her absence.

One of our teachers, Miss Ivy Lindsay, has written the following poem for the Camp Fire Girls, and has set the same to music. The poem shows real merit and has been adopted as the song of the Camp Fire girls:

Seeking beauty, giving service,
This our aim, our law and guide;
When you find us you will notice
That our duties we don't hide.

All together we are working
For the good of all so dear;
Worthy of the trust placed in us,
Never doubting, never fear.

Chorus:
We are the Camp Fire Girls so happy,
Ever so willing and so true;
Giving service where'er needed,
Just as all our sisters do.

Pursuing knowledge, what is nobler?
All will win if they but try;
Hold to health the great endroty;
None must shirk, but all say "Aye."

Glorifying work is ours,
A banner we with pride unfurl;
We are honored by the keeping
These the laws of the Camp Fire Girls.

Only Appropriation for Maintenance Allowed State Institutions.

Santa Fe, March 24.—All state institutions looked alike in the majority of the members of the fifth legislature in considering the needs to be provided for in the general appropriations for the 10th and 11th fiscal years, the first of which begins on Dec. 1, 1921. No allowance was made to any institutions for anything other than maintenance and deficiencies, except that the system for the insane, East Las Vegas, received \$5,000 for cover additional insurance, \$5,000 for much needed repairs; while the school for the deaf and dumb, Santa Fe, received \$10,000 for land and equipment. This latter was allowed for the reason that a larger amount had been given to the institution some time previously, but not used by the board.

Institute for Blind Treated Better.
The Institute for the Blind at Albuquerque, was treated more liberally than other institutions. It received a substantial increase in the maintenance appropriation, a deficiency of \$11,612 for the 8th fiscal year and another deficiency of \$7,000 to cover maintenance deficiency the current fiscal year.

The Agricultural College, Las Cruces, was voted three deficiency appropriations of \$20,000 each, spread over the 9th, 10th and 11th fiscal years. Gov. Mechem, however, cut out the deficiency for the 10th and 11th years, leaving available only the \$20,000 for this year. These were the only items stricken from the bill by the governor.

The state departments and the state institutions are provided for as follows:

PRESIDENT MAKES CALL FOR A SPECIAL SESSION OF CONGRESS TO CONVENE APRIL 11, 1921

Washington, D. C., March 23.—A proclamation convening congress in a special session at noon April 11, to receive such communications as may be made by the executive, was issued today by President Harding.

Many Questions Will Come Up.
Tariff and tax revision will be the principal subject before the new congress, but many other important subjects, including the transportation problem, regulation of packing and seal industries and immigration restriction are expected to be taken up.

None of the subjects to be considered are mentioned in the call for the session, the text of which call is as follows:

"Whereas, public interests require that the congress of the United States should be convened, in extra session, at 12 o'clock noon, on the 11th day of April, 1921, to receive such communications as may be made by the executive;

"Now, therefore, I, Warren G. Harding, president of the United States of America, do hereby proclaim and declare that an extraordinary session requires the congress of the United States to convene in extra session at the capital, in the city of Washington, on the 11th day of April, 1921, at 12 o'clock noon, of which all persons who shall at that time be entitled to act as members, thereof, are hereby required to take notice."

Governor, a total of \$16,000, which includes \$1,500 to cover cost of an institutional survey, needed to put an effective budget system into operation; \$500 to pay expenses of the lieutenant governor.

Secretary of state, a total of \$8,900, including \$500 to cover cost of canvassing elections for the 10th year only.

Attorney general, a total of \$11,800, which includes a raise in pay for the assistant. In former years there have been two assistants.

Traveling auditor, a total of \$24,200, including addition to staff and increases in pay.

Educational auditor, salary of \$2,000, traveling and contingent expenses of \$2,000. This is a new office created. A deficiency appropriation provides for the current year.

Treasurer, a total of \$7,500, including an increase for one employee.

Superintendent of public instruction, a total of \$32,350, including raises to pay for assistant superintendent and several employees.

Department of public welfare, the newly created institution to handle the public health department bureau and the child welfare bureau, a total of \$40,000.

The state corporation commission, a total of \$24,200, including small raises for some employees.

State banking department, a total of \$18,800, including raises for practically all on the payroll. A deposit in this department took takes extra in the insurance work.

State engineer, a total of \$16,000. Board of water commissioners, six members, \$1,200.

Inspector of mines, salary and expenses, \$4,400.

The national guard, \$11,251.

Public buildings at capital, \$20,000.

Supreme court, \$20,000; law library, \$1,000; district courts, \$10,000.

Agricultural college, Las Cruces, \$20,000, including extension work, but not including the deficiency of \$20,000.

School of mines, Socorro, \$22,000.

Normal school, Silver City, \$51,000.

Normal university, El Las Vegas, \$25,500.

Spanish American normal, El Paso, \$13,000.

Military institute, Roswell, \$50,000 and \$8,000 for building cavalry studios.

School for the deaf and dumb, Santa Fe, \$25,000.

Institute for the blind, Alamogordo, \$27,000.

Asylum for the insane, El Las Vegas, \$25,000.

Penitentiary, Santa Fe, \$24,700, plus earnings of prisoners.

Reformatory school, Springer, \$20,000.

Miners' hospital, Raton, \$5,000.

Museum of New Mexico, Santa Fe, \$25,000.

Girls' welfare board, Albuquerque, \$10,000.

There are emergency deficiency appropriations for nearly all of the departments and institutions.

Family Badly Injured In Wreck Near Capitan

A serious accident occurred in a queer manner on Tuesday afternoon at the Salado Gap, about one mile east of Capitan. A. H. Hearn, night foreman at the E. P. & S. W. shops was returning from Fort Stanton with his family, where they had been visiting relatives when, on entering the gap, they met Robert Hurt, who was riding out to his ranch. As the car bearing the Hearn family approached Mr. Hurt, the latter's horse shied, throwing itself directly in front of the car.

The collision killed the horse, wrecked the car which following the mix up, rolled over the embankment, dropping a distance of thirty feet, a tangled mass of wreckage and injured human beings. Mr. Hurt was fortunate; as

the horse fell, he was hurled to a ledge of rock several feet below the brow of the gulch and in that position, escaped contact with the car, it passing completely over him. Dr. Price of Capitan was summoned but being absent on a call, Dr. Neal of Lincoln was called, but as he hurried to the scene, his car met with an accident and the doctor somewhat injured, say reports. The victims of the wreck, seven in number, were taken to the Fort Stanton Hospital where nearly all were found to have bones broken. To the actual extent of their injuries, we are unable to give an account at this writing, other than to say, their conditions are critical.

INTERESTING PROGRAM FOR STOCKMEN AT ALBUQUERQUE

Albuquerque, N. M., March 21.—The complete program for the seventh annual convention of the New Mexico Cattle & Horse Growers' Association in Albuquerque, March 29, 30 and 31, was announced today by the secretary of the association, who states that inquiries for rooms, etc., indicate a large attendance at the convention. Association committee meetings will be held Monday, March 28, at the association's offices in the Chamber of Commerce building. The convention sessions will be held in the federal court room, post-office building, 4th street and Gold Avenue. Addresses of welcome will be delivered Tuesday morning by Governor Merritt Mechem and Walter M. Connell, mayor of Albuquerque. The response for the association will be by Hugh L. Hodge of Silver City. The annual address of the president, T. E. Mitchell, and an address by C. M. O'Donel, first vice-president of the American National Livestock association, on "Current Topics," will complete the morning program.

At the afternoon session United States Senator Holm O. Bursum will open the program with an address on "Problems of the Livestock Man," in which it is expected that Senator Bursum will outline the policies he thinks should be pursued by congress for the strengthening of the livestock industry in the nation. Col. W. B. Greeley, United States Forester, will also speak at this session, and Victor Johnson, of Silver City, will deliver his report of the delegates to the American National Livestock convention. A feature of the Tuesday afternoon session will be consideration of his new constitution and by-laws of the association, which have been under consideration by a special committee during the past year.

The second day's session will include addresses by E. H. Crabb, president of the Ariz. & Calif. Cattle Growers' association on "Future Markets," by R. A. Jauriga of Albuquerque, who is chairman of the Stockmen's committee of the American National Livestock Association, by Frank C. W. Butler, United States District Forester, and by George H. Webster, of Chisnol.

The Wednesday afternoon session will be of special interest as it will include a complete discussion of legislation affecting the livestock industry by the recent legislature. J. S. Vankirk, of Deming, attorney for the association, will speak on "New Laws Regarding Livestock Interests." State Senator E. M. Brinkley, of Carrizozo, will discuss relations between the banker and the stockmen, and State Senator O. L. Phillips, of Raton, will speak on "What the Livestock Industry Means to the State of New Mexico."

Speakers on the Thursday morning program will include T. W. Tomlinson, secretary of the American National Livestock Association, Hon. R. F. Pinkney, J. E. Saint, chairman State Tax Commission; Dr. G. E. Piper, of the United States Biological Survey; Dr. O. E. Troy, of Raton. The afternoon session Thursday will be the annual business session, including adoption of resolutions and election of officers.

There will be no evening session of the convention, but special amusement events for the stockmen have been arranged by the Albuquerque Chamber of Commerce for each evening of the convention.

For Sale.—One Ford Touring car, one Maxwell Touring car, one Ford light truck. These cars are in good running condition. Inquire TAYLOR Garage.

The Forester is accompanied by Assistant Forester Ray Headley in charge of Operation, Assistant Forester E. E. Carter, in charge of Forest Management, and Inspector Kelley in charge of Forest Fire organization, all of Washington, D. C.

GOVERNOR ISSUES QUARANTINE ORDERS TO PREVENT SPREAD OF INSECT PESTS

Santa Fe, N. M., March 23.—In order to prevent the introduction and spread of the alfalfa weevil, the sweet weevil and pink boll worm, insects which may become very serious pests in this state if they once get a firm foothold, Governor Mechem has issued three quarantine orders which can be summarized briefly as follows, and which should be strictly observed. The Board of Regents of the Agricultural College are designated to enforce the orders.

Quarantine Order No. 1.—In order to restrict the chances of introducing the alfalfa weevil, the importation into the state of New Mexico of hay, straw, grain, alfalfa seed, nursery stock, vegetables or fruit from the states of Utah and Idaho; the counties of Uinta, Lincoln, and Sweetwater in Wyoming; Delta, Gunnison and Montrose counties in Colorado; and Clatsop and Baker counties in Oregon.

Quarantine Order No. 2.—In order to prevent the introduction of sweet potato weevil, the introduction of sweet potatoes and of sweet potato plants is prohibited from the states of Texas, Louisiana, Florida, Mississippi, Georgia and Alabama.

Quarantine Order No. 3.—In order to prevent the introduction and dissemination of the cotton boll weevil and pink boll worm, the introduction into the state of New Mexico of cotton bolls, linters, waste, sweepings, and samples of cotton seed, seed cotton, cottonseed hulls, cotton ginning and milling machinery, cotton bagging and cotton pickers' sacks, and all other things and materials which have been used in connection with growing harvesting, baling, or manufacturing of cotton lint or cotton seed is prohibited from all states and foreign countries except Arizona and California. It also prohibits the importation of cotton in the shell or Spanish moss from any state where cotton boll weevil exists and prohibits the transportation of cotton seed or seed cotton from any county in New Mexico where either of these pests have been found, into another county.

NEW GAMBLING LAW FOR NEW MEXICO ENFORCEABLE ON

The new anti-gambling law which goes into effect in New Mexico on June 15 is quite drastic in its provisions and as it fixes a penalty on the owners of buildings in which gambling is carried on and gives the court power to close any such building and put the same under bond, it will be easy to enforce.

It expressly prohibits all games of chance played with dice, cards, punch boards, slot machines or any other gaming device for money or anything of value.

The new law expressly prohibits playing any game of chance for drinks.

The penalty for playing a game of chance for anything of value is a fine of \$25 to \$500 and not less than 30 days in jail, or both. For running a game permitting gambling in a building the fine is not less than \$500 or more than \$1000, or imprisonment for from 2 to 6 months.

The court or any officer is authorized to subpoena witnesses and to compel them to testify as to any violations of this act.

The filing of an affidavit with the district judge by any person that gambling is being carried on in any premises makes it the duty of the officers to enter in and search those premises to arrest all persons found gambling and to confiscate all gaming devices.

Poker is evidently under the ban but there seems a possibility that bridge whist could be played for money, that being a game of skill rather than a game of chance. However it might be well for any person who indulges in bridge to sound out the district attorney and the justice of the peace and the sheriff and the neighbors before placing themselves liable to six months in jail and confiscation of the cards and score books and the cancellation of the lease of the building in which they live and a few other decidedly unpleasant eventualities.

Draw and stud will soon be as dead as Pharoah and a world of poker talent is going to be lying around idle. The law prohibiting gambling couldn't kill these kingly sports but, wifey, armed as this new law arms her, will do the deed. When hubby sits into a game against orders or don't come home when he promised all she has to do is to call the sheriff. It is his duty to enter the building, arrest all persons therein, confiscate everything in sight and close the building until the owner puts up a bond that it will not be used for such purpose again. Poker has been dealt a death blow.

EDUCATIONAL NOTES

The program arranged for the Lincoln Teachers' Association promises to be a very interesting one. In addition to a number of local educators, we shall have addresses from J. V. Conway, State Supt., Public Instruction; Earl Douglass, Assistant Supt.; Mrs. Ruth C. Miller, State Director Vocational Education; Dr. Frank H. H. Roberts, President Las Vegas Normal University; Dean Frank Carson, Normal University; R. S. Tipton; Dr. W. O. Hall, President Silver City Normal School; Supt. D. N. Pope, Roswell and Supt. C. E. Payment of grazing fees on national forests has been extended until Sept. 1 without interest, according to a message received in Albuquerque by the district forest office from the Washington headquarters.

Governor Thomas E. Campbell signed a Senate bill providing for the appointment by the governor of a representative from Arizona on a commission composed of representatives of California, Nevada, New Mexico, Utah, Wyoming, Arizona and the federal government to consider the use and distribution of the waters of the Colorado river and its tributaries. The bill also carries an appropriation for the work.

The teachers' salary bill, asked by the New Mexico Educational Association, was passed after the minimum limit for first grade teachers had been stricken out. As approved by the association the bill fixed \$1,200 as the first grade teachers. The maximum limits for second and third grade teachers were cut down to \$510. The draft approved by the association made the first figure \$1,080 and the second \$750.

The resignation of United States Senator Fall was officially announced in the New Mexico House and Senate in a message from Governor Mechem. Representative R. L. Bacon, Santa Fe, moved that a committee be appointed to draft a suitable resolution of congratulation in the new secretary of the interior, and Speaker Clancy named the Santa Fe county representative, Harrell, Democrat, and Representative Wade, Republican.

Henry C. Keene, examiner, has recommended to the Interstate Commerce Commission in Washington that passenger rates between points in Arizona, New Mexico and Nevada, be found not unreasonable, unjustly discriminatory or unduly prejudicial. Complaint was made of the rates in effect by the Arizona Corporation Commission, the Public Service Commission of Nevada, and the State Corporation of New Mexico.

Frank L. Hanson, nephew of the late Jake L. Hanson of Ashcroft, Okla., and former husband of Clara South Hanson, who is charged with having killed Jake Hanson, has been granted a divorce from his second wife, Gertrude Walker Hanson, in Superior Court of Phoenix. Mrs. Gertrude Hanson now is in Sacramento, Calif. The plaintiff charged the defendant with cruelty. The suit was uncontested. The two were married in Tucson, Ariz., Aug. 14, 1918.

Committees from the northern Arizona and Yavapai Bar associations asked the county board of supervisors to petition the governor to name a second superior judge for the county, as provided for in a bill recently passed by the Legislature. The committees, consisting of twenty-five attorneys, told the supervisors that the additional judge not only would expedite business in the courts of the county, but would save the taxpayers more than enough in pay his salary by reducing fees and mileage payments to jurors and witnesses. The supervisors took the matter under advisement.

Angry because a legislative committee failed to condemn his parole after convicting the penitentiary at Santa Fe, Charles Kennedy, convict, serving life for kidnaping and a conviction of three years, snatched two pieces of boiling wire several inches long, a nail, a safety pin, and a steel drill three-eighths long.

The Senate of the Arizona State Legislature passed Governor Thomas E. Campbell's rich administration bill which would reimburse the state government along the lines of the plan adopted in Illinois. The bill would allow with thirty-eight hours and consultations, counting in their state right departments, each under a director. The vote on the measure was along party lines.

Oil prospectors in Pima valley, Arizona, are still fighting water and caving holes, but there is little trouble in getting drilling material, this formerly being the cause of many delays. Short of casing to carry out their tests and all other material is being shipped promptly so that there will be little trouble this spring in the progress of the work.

The negotiations for the reopening of the Glendale, Arizona, State Bank still continue, with all indications pointing to a favorable conclusion. Several matters which might cause an unfavorable decision are being threshed out by the committee and the possible purchasers.

It has been learned that Paula Gonzalez, president of Agua Prieta, has started the work of constructing a good wagon and automobile road from Agua Prieta to a connection with the Neco-Chanene road at a point ten miles south of Neco.

BRITAIN SIGNS WITH RUSSIA

COMMERCIAL RELATIONS TO BE
REOPENED UNDER NEW
AGREEMENT.

NATIONS RESUME TRADE

SOVIETS AGREE TO REFRAIN
FROM STIRRING ASIATIC PEOPLE
TO REBELLION.

(Wherever Source of News Is Indicated)

London, March 17.—The trade agreement under which commercial relations will be resumed by Great Britain and Russia was signed here by representatives of the governments of the two countries.

The agreement is essentially the same as the draft taken to Moscow by Leonid Krasnin, soviet minister of trade and commerce, in January, the most important terms of which follow.

Each party agrees to refrain from hostile action or propaganda outside its borders against the other's institutions or giving assistance or encouragement to any propaganda outside its own borders. The soviet government particularly agrees to refrain from any encouragement of Asiatic peoples to action against British interests, especially in Asia Minor, Persia, Afghanistan and India.

Each agrees not to impose any form of blockade against the other or any discriminations against trade not imposed on other foreign countries.

Ships in each other's harbors shall receive the treatment usually accorded foreign merchant ships by commercial nations.

A renewal of telegraphic and postal facilities, including parcels post, will be arranged.

With regard to Russian gold exported from Russia as payment for imports, the British government does not concede the soviet claim that such gold should be regarded as immune from seizure to pay British claims. The agreement leaves this as a matter to be settled by ordinary court procedure.

In the arrangement the soviet government is termed the "government of the Russian Socialist federal soviet republic."

The governments agree that neither shall be prevented from regulating trade in arms and ammunition under the general provisions of law.

In lieu of the usual consular arrangements, the agreement provides for the appointment of "official agents to reside and exercise their function in the territories of the other."

Schoolboy Peddled Drugs.

New York.—Charged with paying money to vend drugs, Paul Spofora, a 15-year-old schoolboy, was arrested in a Bowery alley by members of the narcotic squad, who said they saw him sell "cheeks" of drugs for \$1 each. Confined in his school books, the police said, they found a supply of narcotics. Later the boy took them to a place on the lower East Side, removed a book from an old wall and exposed his cache.

Five Killed in Pullman Fire.

Denver.—A fire destroyed the Pullman Standard sleeping car "German" on the southbound Denver & Rio Grande train for Alamosa at Road, Colo., 100 miles from Denver, and caused the death of five of the eight persons in the car. One passenger escaped by leaping through a window. The Pullman porter and the train baggage man also escaped.

Deny Monopoly Charge.

New York.—Sixty-nine of the seven-year corporations and all of the forty individuals indicted March 1 by the federal grand jury on a charge of violating the Sherman antitrust law by conspiring to monopolize the production and distribution of Portland cement, pleaded not guilty. Indictments were returned in \$5,000 bail each.

Ships Collide in Fog.

New York.—In a dense fog off Little Egg inlet, N. J., the shipping board steamship Ingham, bound for New York, collided with the cargo transport Malawaska, bound from Manila, damaging the transport severely and necessitating radio calls for immediate assistance. The Malawaska, carrying passengers, was struck amidships.

Bandits Get Thirty Thousand Dollars.

Uniontown, Kan.—While residents fired occasional shots at them, bandits dynamited the vault of the state bank here, packed practically all the currency and securities into sacks and escaped in a motor car. The loot is estimated at between \$30,000 and \$40,000.

Mormons Expel Fifty Members.

Salt Lake City, Utah.—Through official church announcements of the excommunication and dis-fellowshipping of a number of the men and women members of the Mormon church it became known that a colony of fifty men and women have been practicing a number of new doctrines, among them one called "the doctrine of wife sacrifice," under which it is said that in a number of instances husbands have taken the wives of other members of the colony and vice versa.

TOO BAD ABOUT HER MEMORY

And Really Opera Goers Should Not
Be Expected to Remember Details
That Are Trifling.

"You were at the opera last evening?"
"Yes, perfectly delightful time!"
"What did you hear?"
"Henry! Oh—Madame Gray is engaged at last, and the Billy Hews are going to get a divorce, and Berrie Basky has lost all his money in Wall Street, and Sue Caffaro has a baby, and Mrs. Sylve was lunking with another man while her husband was out of town, and—"
"But—you don't understand! What did you see?"
"See? Why, that Kate Kady has turned her old rose gown, and that these wonderful Van Gruber diamonds we read of are only paste, and that the Adkys are larky on speaking terms, even in public, and—"
"But—last—what was the name of the opera?"
"Name of the opera? Oh—why, I did see it on the program, but really I've forgotten—I've such a poor memory for details; really it is quite a cross!"

STRICTLY ACCORDING TO RULE

No One Could Deny That Candidate,
in His Entrance Examination,
Made 50 Per Cent.

An examination story from the London Morning Post: They wanted him badly at the college, but unfortunately there was an entrance examination from which not even the most promising of Rugby three-quarters could claim complete exemption. It was only an oral questioning—and yet one had to get 50 per cent to pass. The matter was left in the hands of a sporting young don, and his proteges got through. Later on it appeared that only two questions had been asked. "The first," said the examiner, "was the date of Trafalgar; he got that wrong. Then I asked him what the chemical formula for sulphuric acid was. He said, 'I don't know—really I don't.' Well, that was right, for it was obvious that he didn't know. So I passed him with 50 per cent."—Christian Register.

Range Cows and Coyotes
Enjoy National Forest Trail

Albuquerque, N. M., March 16.—That others besides stockmen and forest rangers appreciate the trails built by the Forest Service in the wilds of the National Forests, is attested in the story recently related by Forest Ranger Geo. Mutz of the Cave Creek District of the Prescott Forest in central Arizona. Cattle, coyotes, deer and other animals, wild and domesticated, says Mutz, seem to take delight in traveling the smooth tread of a trail recently constructed through a rough portion of this region which is described as being so rugged that travel is only comfortably achieved by airplanes and mountain goats.

"This is the first trail work done in this portion of the Forest," says Ranger Mutz, "and it is apparently a great event for all of us residents here, both four footed and two footed creatures. Often it is impossible to drive cattle from the trail and they will jog along ahead of one's horse for several miles, seemingly taking delight in the unusually easy travel. Occasionally I see a deer disappear around the bend ahead of me; and coyotes—well, at night they literally patrol the trails in bands. Must be social proposition with them and often they gather at the end of the trail near my station, giving us a big serenade. However, we don't especially delight in their demonstration and would just as soon take their appreciation for granted."

Pershing Pleads With Veterans
To Wage Fight On Illiteracy

(Capital News Service)
Washington, March 16, 1921.—Denouncing as a "crime, a shame and a disgrace" the conditions that permitted more than 30 per cent of the young men of the draft age to be classified as illiterate, Gen. John J. Pershing, in a talk to the soldier patients at Walter Reed army hospital, Washington, made an appeal for such action as would impress upon communities the obligations the latter owed to the youth of the United States in education. His startling disclosures also constitute one of the strongest arguments for compulsory education, at least up to a certain age. This appeal by Gen. Pershing and the illiteracy to which he called attention, it is pointed out, emphasizes the importance of a federal department of education, one which would give moral and financial support to the states in their campaigns against ignorance.

The Washington Post, in an editorial discussing the report of the House Committee on Education, through Chairman Fess, recommending the passage of the Department of Education measure, drives home some of the facts with respect to illiteracy contained in the report.

Baptist Church Notes

A special vote of thanks is hereby issued to all those who contributed to that great surprise, with all those good things, one night last week. Interest continues to grow in every department of our work. Our Sunday School, especially, is doing excellent work, it continues to grow in numbers as well as in interest.

SPECIAL ANNOUNCEMENT

Instead of the regular Sunday morning church services, the Sunday School will render an Easter program. Subject for the pastor's evening address will be, "The Foundation of Christianity."—Don't fail to hear this address—COME.

"Purina" Made the Difference!

EQUAL in laying ability. But the hen on the right was fed a common grain ration while the other was fed Purina Chicken Chowder and Purina Hen Chow. Grains have lots of material for yolks, but far too little for whites. As they can't lay yolks only, grain-fed hens lay fewer eggs.

Purina Poultry Chow

form a complete ration, containing material for an equal number of whites and yolks. They get the most out of your feed, and cut the feeding cost per dozen eggs.

Methodist Church Notes

The large number at the Farewell
 reception tendered Mr. R. T. Cribb at
 the First Methodist Church last Mon-
 day evening was an eloquent tribute to
 the high esteem in which this good man
 who for the past seven years lived the
 apostolic life and wrought among us in
 Christian work is held. Short address-
 es were as follows:

Senator E. M. Brickley, one of our
 local bankers, spoke on "Mr. Cribb as
 a Business Man." Mrs. C. A. Hooper,
 of the Sunday School, on "Mr. Cribb
 in the Sunday School." D. A. Donald-
 son, chairman of the Church Board, on
 "Mr. Cribb as a Church Official." W.
 J. Langston of the I. O. O. F., on "Mr.
 Cribb as an Odd Fellow." Miss Florence
 Spence, president of the Epworth
 League, on "Mr. Cribb and the Ep-
 worth League." Miss Warren Moss, an
 actress in the Epworth League, on "Miss
 Cribb as a Working Woman." Rev. C.
 C. Hughes for the church, on "Mr. Cribb
 as a Preacher." On behalf of the
 church, the pastor presented a hand-
 some traveling bag, as a loving token
 of esteem and appreciation.

Our prayers and best wishes go with
 you as you enter the new field of labor
 in the holy calling of the Christian Min-
 istry.

Immediately after taking of class
 records at about 9:15 next Sunday
 morning, the children of the Sunday
 school will render an Easter program
 to which all who are not duty bound
 elsewhere are cordially invited. Upon
 the conclusion of this program, the
 pastor will bring an Easter Message.
 We will have the Pageant in the even-
 ing, as planned. We will have special
 Easter music all of which will be in
 keeping with the occasion.

You'll save Money
by remodeling now

You who have been waiting for lower prices
 before you laid that new floor, renewed those
 old walls and ceilings, re-roofed the house or
 barn, or built the residence—this message is
 directed to you.

Do you know that lumber and building
 material prices are down to average of forty
 per cent?

Do you know that you can repair or re-
 model cheaper than at any time in the past
 five years?

Do you realize that every day you wait not
 only inconveniences you but costs you real
 money?

Building material prices may come down
 more—we think not—but every day you delay
 in getting the new house deprives you of the
 use of it, and causes you to pay out money for
 house rent.

Every day you delay roofing the barn and
 the home, makes your property more liable to
 damage from storm. Every day you put off
 inside repairs the trouble increases and the total
 expense becomes greater.

Do your repairing and remodeling at the
 present lower prices and get the benefit now.

Come in today and let us figure your job.

DISEASE KILLS CLOVER WEEVIL

Natural Enemy of Parasite Prevents It Developing Into Serious Menace.

INSECT EXACTS LARGE TOLL

Pest Is Found in Practically Every Section of Country Where Clover Is Grown—Larvae Most Numerous During Spring.

(Prepared by the United States Department of Agriculture)

If it were not for an ever-present fungus disease, which is a powerful natural enemy of the clover-leaf weevil, this pest would develop into a serious menace to one of America's most important crops—clover. The clover-leaf weevil, even with this handicap, is one of the most dangerous of clover pests and exacts a large annual toll. The larvae of the weevil usually are checked by the fungus disease, which spreads rapidly and reduces their numbers to a negligible quantity in a remarkably short time.

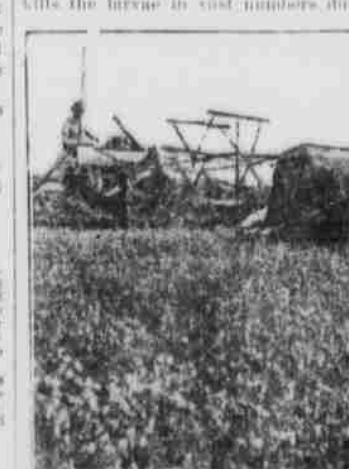

Brought From Europe.

Like many pests now present in this country, the clover-leaf weevil was introduced accidentally from Europe, where it is well known. The first record of its occurrence as a pest in the United States was in 1881, when a severe outbreak occurred at Harrington, N. J. It is now found in practically every section of the country where clover is grown. Its chief food crop is clover, but it also feeds on alfalfa and sweet clover.

The adult weevil lays its eggs on the stems of the clover plant, and in early spring the larvae hatch and begin to feed as soon as the clover starts its growth. Larvae are most numerous during April, but beginning with May there is a gradual falling off in numbers, and by the end of that month or the middle of June, practically all have completed their growth and spun their pupal cocoons. The adult weevils, or beetles, emerge in from 5 to 10 days, and feed steadily on the clover plant for about two weeks, after which they become sedentary, or remain inactive until early in September. At this time they again become active and feed for about a month, during which the eggs are laid.

Hides During the Day.

Both the larvae and adult weevils feed during the night, and conceal themselves in the day under rubbish or in cracks in the ground. Usually they work on the underside of the leaves where they eat small holes and are not seen except by the careful observer. The most important check on the pest is the fungus disease, which kills the larvae in vast numbers during the day.

Harvesting a Good Crop of Clover for May.

me the middle of April and May, and again in October and November. This disease is epidemic and common so rapid and thorough that in from two to four weeks it is almost impossible to find living individual clover weevils where previously there were thousands. This disease is well distributed in the United States and attacks in numerous other insects. Wild birds and mammals, especially robbers and chucks, are natural enemies of the insect and devour both the larvae and beetles.

Control measures consist in pasturing the clover in the fall or clipping it in the spring. Plowing under the second year's crop in the fall is recommended, but only to hinder the increase of the insect, but in control others which attack clover.

MAKE FARM HOMES PLEASING

Shrubs Should Be Used in Abundance to Hide Foundation Lines—Trees Give Shade.

Softable plantings are necessary to unite the parts of a farmstead into a pleasing, homelike whole. Trees are used for windbreaks, as frames for the buildings or a background for them, and to give shade. Shrubs are needed in abundance to hide partially the foundation lines of buildings, support their corners, give reasons for turns in drives or walks and to screen unsightly objects. Native trees and shrubs and those known by trial to thrive in the locality are the best to use.

GIVE BEEF BREEDING ANIMALS GOOD CARE

Success Depends Much on Management During Winter.

Barns Should Be Built With Plenty of Light and Ventilation—Provide Ample Yard Space for Necessary Exercise.

Livestock men at University farm believe that winter care of the beef breeding herd deserves more careful study than most breeders give it. Under Minnesota conditions, the success of the business depends largely upon the success of the system of management in winter quarters. A few fundamentals are thus laid down by J. S. Montgomery of the agricultural extension division.

There is no need to be as warm for beef breeding animals as for dairy cows, yet should be built with plenty of light and have good ventilation. Walls, windows, floors and gutters should be of such material as to be

mit of thorough and easy cleaning. Well drained clay floors have many good points in their favor.

A barn with two rows of stalls, feeding a center feeding alley for the cows, and with pens for calves and young stock directly back of the rows and next to the outer walls, is probably the most practical arrangement. This makes for a minimum of labor in handling the calves.

Ample yard space should be provided adjacent to the barn, for the cow herd needs plenty of exercise and should be turned out every day for at least a few hours. Small calves also need exercise, yet should not be required to withstand too much exposure. For open heifers and dry cows a cheaply constructed shed which provides shelter from wind and storm and a dry place to lie down and so arranged as to ensure economical feeding, is all that is necessary. These animals should not be handled in large bunches, but should be divided and grouped according to size and condition.

FAVORS PUREBRED SIRE

One Farmer's Opinion of Purebred Sires.

"Over 300 farmers in this county (Pulaski county, Virginia) have pledged themselves to breed their stock only to purebred sires and have distributed good bulls over the county. In three years our cattle have improved from 50 to 75 per cent. The same can be said of sheep, hogs and poultry."

A. L. INGLETS.

IN STARTING EARLY PLANTS

Box of Any Convenient Size May Be Used for Cabbage, Lettuce, Tomatoes and Pepper.

A method is not necessary in starting early plants to be transplanted to the garden. Cabbage, lettuce, tomato, pepper and eggplant can be started in any convenient size of box, which may be placed in a warm room. Before being planted in the garden the seedlings should be hardened off by placing the box out in the open during the day and on nights when no frost is expected.

ESSENTIAL FOR GOOD HEALTH

Fruits and Vegetables Play Important Part in Diet of Human Family—Grow a Variety.

People are coming to realize that fruits and vegetables play a very important part in the health of the human family. Some of the vegetables which do not have much food value are very important for maintaining health. A wide variety of fruits and vegetables should be grown in every home garden this year.

BREAK BROODY TURKEY HENS

Confine Them in Slat-Bottomed Coop for Two or Three Days—Will Mate Soon Afterward.

Turkey hens can easily be broken of their broodiness by confining them for two or three days to a coop with a slat bottom. They will mate soon after being let out of the coop and begin laying in about a week.

What Detained Him.
"Thought you were going out to be shaved?" said the boss.
"Yes, sir, I've been shaved," replied the clerk.
"But you've been gone an hour?"
"Yes, sir."
"Take no more to shave you?"
"Oh, no, sir; but I had to wait 'til the barber finished his story, sir."

A Nightmare.
"I dreamed last night," said the landlord, "that I owned the earth."
"That must have been a pleasant dream."
"Quite the contrary. People were all the time moving out, and as for my rule against taking in babies, it wouldn't work at all."—Boston Transcript.

What to Do for SICK HEADACHE

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. A few doses restore your organs to their proper functions and the Headache and the causes of it pass away. In the same manner they regulate the bowels and prevent Constipation.

Eruptions of the Skin Cause Torturous Itching

If you are afflicted with any form of skin disorder, you are well acquainted with the flaming, burning, itching that these diseases produce.

Skin diseases are caused by an impurity or disorder in the blood, and there is no real and genuine relief within your reach until such impurities are removed.

S.S.S. has given great satisfaction in the treatment of these disorders, because it is such a thoroughly satisfactory blood purifier. It cleanses the blood of all impurities, and thus counteracts the effects of the germs that attack the skin.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical adviser will give you expert advice without charge. Address: Chief Medical Adviser, 158 Swift Laboratory, Atlanta, Ga.

S. J. Smith and family came in this week from Washburn, Illinois and were motored up to Parsons, where they will take up their residence, Mr. Smith being employed by the Lincoln Light & Power Company.

The approaching springtime and the love for outdoor sport, causes many of our people to ask the question: What about baseball this summer? Let us hear from some of the fans on this matter.

Mr. and Mrs. J. B. French, daughter Evelyn and son Miller, motored out to their ranch in the Red Lake district, last Sunday. Mr. French says that without the recent snow and rainfall, his stock could have done nicely for the next forty days.

Mrs. E. H. Sweet and daughter Louise have arrived from Socorro to join proprietor Sweet at the Carrizozo Eating House. Miss Louise is enrolled in our school and the Sweets are now permanent residents. The Outlook extends the hand of welcome.

Judge Edwin Meehem, District Attorney Benson J. Newell, Attorney R. L. Hitt, Court Stenographer P. A. Brinegar and A. H. Clancy, Speaker of the New Mexico House of Representatives, spent Wednesday here, attending to some minor court matters.

Mr. and Mrs. Paul N. Mayer left last week for Douglas, Arizona, where Mr. Mayer will engage in the automobile business. Mr. Mayer had been assistant cashier at the First National Bank for the past year. The many friends of the family regret their departure.

R. T. Cribb, sister and baby daughter, left Thursday for Stanton, Arkansas, where Mr. Cribb will enter the ministry, having a charge awaiting him to which he was called a short time ago. The community in general will regret his departure and wish him success in his new field.

To Push Gold Production

To show mining needs a western campaign is to open in behalf of the McFadden bill.

The McFadden bill provides a premium on gold used for other purposes than coinage. W. J. Loring, recently chosen head of the American Mining Congress, will organize headquarters in San Francisco for disseminating knowledge regarding the mining industry.

He will be aided by Fletcher Hamilton, State Mineralogist, and other leaders in the production of gold.

Many mines have been compelled to shut down owing to the increasing cost of production.

The miners wish to get the backing of the public in their plan to raise the price of gold for commercial purposes \$10 a ounce. The mint price they propose to have as it is, so the monetary system of the country will be unaffected.

A Continuous Performance

THE man who speaks of life as being made up of "just one thing after another" as though it were simply a series of unwelcome and disconnected events, is mentally near-sighted. He fails to recognize the importance and necessity of viewing life as a whole. Success is a matter of properly valuing and emphasizing the various activities of living. Work and play, earning and spending and saving, all have their place in worth while living; and all are closely related one to the other.

This bank offers helpful encouragement to anyone who wishes to increase his savings, but its service is not by any means confined to that field. There are very few persons in the community whom this bank cannot help in one way or another. It is our policy to be personally helpful to every depositor and to make each one feel that he is a friend as well as a customer.
