SOUTHERNERS PLAN RECONSTRUCTION

IN EUROPE—WORK IS TO BE OPENED IN BELGIUM AT ONCE.

Commission Abroad To Study the Situation.—Extensive Program Is Planned—Church Busy In Other Lands.

Nashville Tenn. (Special Correspondence).—On August 29th a commission composed of Bishop James Atkins, of North Carolina, John R. Pepper, of Tennessee, Dr. Belle H. Bennett, of Kentucky, and Mrs. Luke G. Johnson, of Georgia, sails for Europe to arrange for the opening of extensive religious and philanthropic work in Belgium, France and other war-torn countries.

They represent the Centenary Commission and the Board of Missions of the Methodist Episcopal Church, South, which have set aside \$5,000,000 of Centenary funds for religious reconstruction in Europe.

They go with authority to purchase property and open work at once in Belgium and to make a careful survey of the needs in other countries and recommend an adequate program. Orphanages, schools, social centers, religious literature and direct evangelism will be the methods employed.

In some of the countries to be entered the work will be conducted in co-operation with the Methodist Episcopal Church, which is already operating in France, Italy and the Balkans, and is planning to expand its work greatly as a result of the Centenary, which in the two churches brought missionary pledges aggregating more than \$150,000,000.

Mary Pickford, Movie Actress, Given Divorce

Reno, Nev., March 3.—Mary Pickford, motion picture star, was granted a divorce from Owen Moore, on grounds of desertion. She has been at the Campbell ranch at Genoa, near by, since February 15. She was accompanied to the court room by her mother, Mrs. Smith, and she wept freely while testifying. Owen Moore was not in court, though he was at Minden at lunch on Monday. He was represented by his attorney in the proceedings. Miss Pickford was dressed in very old clothes. She is still at Genoa.

Miss Pickford told the court that Moore deserted her on several occasions and had only returned in response to her pleas, but that a year ago he left her and has ever since refused to return. Immediately after obtaining the decree she went back to the ranch where she has been living. She said she was seeking a quiet place to live and intended to stay near Minden for a long time and to make the State her permanent home.

Moore arrived at Virginia City on Sunday night with a cameraman, saying he intended to take snow pictures for a coming picture, but he could find no hotel accommodations, so he drove down to Minden in a machine and was served with the papers while at lunch the next day. The ranch where Miss Pickford is staying is on the outskirts of the deserted town of Genoa, first settled by the Mormons in 1847 but now with scarcely an inhabitant. The ranch house is at the very base of the Sierra Nevada mountains that here rise sheers from the valley floor and are now covered with snow. The Campbell home is one of the most beautiful in Nevada. Miss Pickford is out of reach of the telephone.

Money Grant to Soldiers Means a Tax Increase

Washington, March 3. — Appeals for financial relief for former service men were countered today before the house ways and means committee by statements that any money grant, necessitating further bond issues would be an additional burden on taxpayers.

Representative Hull, democrat, Tennessee, said \$800,000,000 increased taxes must be raised to meet present war expenditures without granting a cent to the service men.

"With a bonus which would be forced to establish the most oppressive system of taxes in the world" he added.

Representative Garner, democrat, of Texas, said a bond issue in the immediate future would decrease ten per cent the market value of present government obligations.

"This alone would result in an actual loss of \$2,000,000 in the value of property held by millions of people," he said.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you
Darken Gray, Faded Hair
with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Senator Kellogg, of Minnesota, in discussing maladministration of railroads by the Government, said:

"There never was a Government operation that was not wasteful and inefficient. It is inevitable under our organization that it should be so. It is not the province or the prerogative of a Democracy like ours, instituted for the best Government on the face of the earth, to manage the business of the country."

IT PAYS TO THINK

Are the great stock yards of Chicago, Kansas City, Omaha and elsewhere hotbeds of monopolistic control which succeeds in mulcting the farmer on the one hand, and the consumer who buys meat, on the other hand? This will be one of the questions threshing over in the discussion of the Kenyon bill now before a committee of the Senate.

If these big markets, where millions upon millions of dollars change hands, have any sort of a stranglehold on our food resources, few there would be who would not say, rout them. Yet equally few, perhaps, could give you any sort of a vivid word-picture of what takes place in these markets through which flows much of our farm wealth.

Separate From Packing Plants.

The "stock yards" are synonymous in the minds of many people with all packingdom. This is error number one. They are operated as corporations wholly distinct from the packing plant companies that cluster around them.

The stock yards perform two functions: they are unloading, feeding and resting stations for live stock; and markets for buying and selling. As buying and selling places, they are among the most interesting spots in the world—places where one may see a nation at its bartering. Huge auction stations where a fraction of a point counts, and where the most notable examples will receive in a day anywhere from 30,000 to 80,000 cattle, not to mention hogs and sheep. These would represent shipments by many farmers. Each farmer puts his cattle into the hands of a commission firm who acts as agent. The "stock in trade" of the commission firm is a satisfied clientele among the farmers—the better bargainers they are for a long price, the more the farmer is disposed to patronize them.

A Game for Experts. It is a titanic game, and one for experts. On the one side are arrayed the commission firms, and on the other the buyers representing packing concerns, brokers and others. Both sides know their business, which is to say that they know full well what the receipts of the day are and their relation to the requirements, and they know cattle.

The big auction begins. Not from a block, but an auction for all that. Buyers, mounted on ponies, swing hither and thither, making a bid on one lot here and on another lot there. The commission man will hold the lot in abeyance, dicker for a few points higher price and awaiting the arrival of another man on a pony who may make him a better offer. Every commission man is a competitor of all the other commission men; and every buyer is a competitor of all the other buyers.

We say that all of these men know cattle. A steer is not a standardized commodity. Nature makes him what he is. The contour of his hump, the build of his body and his makeup to general have everything to do with

what he is worth as a beef animal. No one can determine his value but the men in the pens,—the commission men and the buyers.

Buyers Represent Many Firms.

Many think that these cattle are all purchased by the big packers, which is far from being the case. Besides the buyers for the big packers there are always in the Chicago yards from a hundred to a hundred and fifty other buyers on the scene, many of them representing firms that are not located near the stock yards or even in the same city. All told, the large packers do only 44 per cent of the meat animal slaughtering of the entire country.

The penalty which awaits the buyer who will not bid up to true values is that the other buyers take the cattle away from him and his firm will be without its requirements. On the other hand the commission men cannot stick it out for an exorbitant price; for the buyers would cut down on the amounts of their purchases. There are some people who will buy meat at any price, but the majority of people reduce their meat purchases precisely as the prices mount upward. The buyers in the stock yards reflect this attitude of the general public almost as accurately as a thermometer indicates the temperature.

The Arena of Supply and Demand.

In other words, the stock yards are the meeting places of two tremendous powers of the economic world,—Supply and Demand. Any one who visits one of these places, even as the most casual observer, and watches what occurs there, will give up any illusion he may have about monopoly or control. Too many buyers and sellers are involved, and judging the value of an individual steer or a pen full of steers is altogether too complicated a matter to cover by any sort of agreement in advance.

The Kenyon bill would make it illegal for any packers to have financial holdings in stock yards corporations. Common sense rightly asks, "Why?" How such holdings, which, where they exist, are nothing more than financial backing of a worthy enterprise, can control the men in the pens who are hired to use their judgment, is too deep to be seen at a glance. The advocates of the bill should be forced to explain. And how a lack of such holdings would prevent control or monopoly if such things were possible, is another thing which the proponents of the bill should be able to elucidate.

SMALL PACKERS OPPOSE LICENSE

Cincinnati meat packers in drawing resolutions against the licensing of all packers doing interstate business, brought attention to the fact that the proposed legislation embodied in the Kenyon and Kendrick bills, if enacted, would have a tendency to drive hundreds of small packing firms out of the field of interstate operations. This would be the preference forced upon them as against operating under a licensing system which would be a continued menace of interference.

The First Thousand Is Hard To Get

When a man gets \$1,000.00 saved up there are always opportunities for a good investment. It is hard to place much less than that. That is why wealthy men who are self-made advise young men to begin early and save the first thousand.

Until we went to war, it was hard to get started toward that \$1,000.00 unless at least one dollar could be put away at a time. Small change was restless and acrobatic and kept jumping out of our pockets into somebody else's.

Now, however, there is an easy way to get that first thousand. The answer is Thrift Stamps. They cost only a quarter apiece and can be converted into War Savings Stamps. The Government of the United States backs these War Savings Stamps with a guarantee of 4 per cent interest, compounded quarterly. Save and Succeed.

Have you bought your Thrift Stamp today?

Who Is Best Man To Do Your Work?

The best way to have anything is—do it yourself. The best way to get ahead in the world is—save regularly and invest wisely. Your children may be buying Thrift Stamps but the nickels and dimes and quarters they are able to save won't buy a home or a new automobile or a new cultivator. The money to do that will not be saved—unless you save it.

It's easy enough to save if you do it the W. S. S. way. Quarters planted in Thrift Stamps grow into War Savings Stamps and the interest makes them grow like rain does a summer weed. Save for that happy opportunity. If you're not in a War Savings Society—get in one. Be with the crowd. Save.
