OLDEST AND LEADING NEWSPAPER IN CIRCULATION IN THE COUNTY OF LINCOLN, NEW MEXICO

VOLUME 20

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, SEPTEMBER 19, 1919

NUMBER 38

## CARRIZOZO SCHOOL NOTES

SUPV. R. E. COLE

Mr. Ed Kelley, official scout master of the Carrizozo Troop of Boy Scouts, has appointed E. E. Cole as assistant scout master, and has asked him to help as far as possible in the work of the organization.

On Monday of last week the superintendent made the round of the school rooms, speaking of the benefits of the Boy Scout movement and inviting all boys who are at least twelve years of age to join the Carrizozo troop.

At 3:30 that afternoon twenty-six boys assembled in Room 9, and Mr. Cole talked to them for half an hour. On Tuesday afternoon thirty-four boys met in the same place wishing to join the troop. Every boy in the school, from the sixth to the twelfth grades, who is above twelve years of age, has expressed a desire to join the troop. This will make a troop of thirty-two scouts, which is the largest number allowed in a troop, unless special permission is given by the national council. This will make a fine working number.

The Boy Scout movement no longer needs explanation or justification. It is similar to the Y. M. C. A. movement. It is for the making of men. It neither promotes nor discourages military training, its chief concern being the development of character and personal efficiency of teen-age boys.

The scout oath is: "On my honor I will do my best—

1. To do my duty to God and my country, and to obey the scout law;

2. To help other people at all times;

3. To keep myself physically strong, mentally awake, and morally straight."

The scout law is: "A scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent."

Surely every parent should be glad to have his boy trained along these lines.

## A Gifted Entertainer

On Thursday evening of last week Miss Mae Shumway Enderly, reader, impersonator and monologist, gave an evening's entertainment in the Methodist church, under the auspices of the Epworth League. Miss Enderly was especially pleasing in the bridal costumes of the different nations, singing their songs with accompaniment of the Irish harp. The young people of the Epworth League are to be commended for bringing an entertainment of such high character to Carrizozo.

## Ex-Soldiers, Attention!

Any man that was honorable discharged from the regular army of the United States, may reenlist for the same organization, providing that organization is within the continental limits of the United States. Here is your chance for you to join your old outfit if you wish to do so. Here are a few more good opportunities that the Signal Corps is offering to men that want to learn to be radio and telephone operators. And all of its branches. All that you need is common school education, no experience required.

Men with previous service may now reenlist for one year for the A. E. F. France and Siberia. For further information call or write to the Army Recruiting Station, Room 342 Federal Building, Roswell, N. M.

## The Size of the U. S. Army

(NEW YORK TRIBUNE)

General Wood's opinion that our standing army ought to be limited in size to 250,000 will carry great weight. That was the figure generally agreed on before we entered the war as sufficient for peace-time police purposes. The Hay act provided a maximum standing army of less than 200,000, and by April, 1917, the actual strength of the regulars was only about 120,000. An establishment of 250,000 can easily take care of our outlying possessions and guard our borders. The war department's estimate for an army of more than 500,000 is apparently based on an assumption of overseas mandatory duties which congress is not likely to accept and which public opinion would resent an attempt to discharge.

If we retain a standing army it ought to be limited to actual police needs. The war taught us that the true military ideal for a democracy is universal service. All able-bodied young men should be trained to bear arms and then be assigned to the national army reserve. That reserve is the main thing. The standing army should be only a machine through which in an emergency the real defence force can be mobilized.

A regular army of 500,000 or more would be unwieldy for the proper work of a regular establishment, it would be over-officered, as well as over-manned. And its disproportionate size would tend to discharge the extension of military training and the creation of the great army of 4,000,000 men which should constitute our real defence in war time.

It is far wiser to spend our military appropriations on a reserve than on an over-expanded regular army.

## New Mexico's Crop Record

A recent U. S. report states that New Mexico crops will be the largest on record. The figures for the state are: 5,750,000 bushels of wheat, 6,076,000 bushels of corn, oats 1,950,000 bushels, beans 969,680 bushels. Other crops proportionately large, except potatoes, which the government estimates give as 850,000 bushels, there being but 10,000 devoted to the Irish tubers in the state. New Mexico has been singularly blessed this year with favorable seasons, which insures her the largest crop production in the history of the state.

## State Convention of the American Legion

A state convention of the American Legion has been called, to be held at Albuquerque on the 16th and 17th days of October, for the purpose of electing delegates to represent New Mexico in the National Convention of the Legion at Minneapolis, on Nov. 10, 11 and 12. Representation to the state convention will be on a basis of one delegate to every 100 men who entered the military service of the United States from each county, between April 6, 1917 and November 11, 1918. In addition each county will be entitled to two delegates-at-large. Lincoln county's quota to the state convention is eight delegates, which will be elected at a post meeting to be called later. The call has been issued by authority of the state central committee of the American Legion.

## New Mexico Getting Ready For More "Flue."

Santa Fe New Mexican.—In view of the reports that there is likely to be a second influenza wave this winter, less intense perhaps than that of last year, which killed 500,000 people and caused life insurance companies in this country and Canada to make distributions of over \$1,115,000,000, New Mexico is already preparing for the catastrophe. Health Commissioner C. E. Waller today addressed the following letter to doctors to ascertain what medical aid will be available in case of an epidemic:

"Dear Doctor—The department has received a request from the surgeon general of the United States public health service for the names of physicians in the state of New Mexico who would be willing to accept temporary appointment at a salary of \$200 per month, with a per diem allowance of \$4 for subsistence, while on duty, together with railroad fare, in time of emergency, such as occurred during the recent influenza epidemic. The public health service would utilize these men in the state of New Mexico and so far as possible in their own communities. The idea is to prepare for the providing of medical attention for the general public at times when, as a result of overwhelming epidemics, it is impossible for many persons to receive medical attention unless some such provision is made. Where such relief might be urgently needed in some particular portion of the state, physicians could be sent in from other communities where no emergency might exist.

"By accepting such an appointment you would render a patriotic service to your state and to the United States. It is hoped that we may have a favorable reply from you."

## Phil Flint Drowned

Phil Flint was drowned Sunday in the Colorado river in Arizona, according to a letter received by Mrs. A. Ziegler, from Mrs. Sidney Parker, El Paso.

It appears that Mr. Flint went to the rescue of his little daughter and in saving her lost his life. Some of the particulars are lacking. The body will be brought to El Paso for interment.

The deceased lived in White Oaks a number of years ago, and has often returned to this county, having served as stenographer for the district court at various times. He married Miss Edith Parker, who spent her girlhood in White Oaks, and two children are left with the mother to mourn the death of husband and father. The untimely death of Phil Flint is regretted by a large circle of friends in Lincoln county, by whom he was held in high esteem, and the deepest sympathy of the same friends are with the bereaved family.

## A Drastic Law

The New Mexico legislature at its session held early this year enacted a drastic prohibition law, the purpose of which is to stop the illegal sale of intoxicating liquor in the state. The new law has not been given much publicity and therefore few know of its existence. The law provides a jail sentence for the first offense and a penitentiary sentence for subsequent offenses. District judges, in case of conviction, cannot suspend sentence.

## American Legion Opens Drive

Lincoln County's Quota 125

This patriotic organization has started its "drive" to secure 1,000,000 members in the organization. Each state and each county, have had their apportionment made out. The quota for Lincoln county is 125 members, and the quota for the state, 3,222.

There will be a meeting of B. I. Berry Post No. 11 at the Crystal Theatre Thursday evening, Oct. 2, immediately after the show, for the purpose of electing a post commander and other officers; also to elect delegates to the state convention at Albuquerque, which has been called for next month. Each member is expected to answer his name at this meeting, and is expected to bring at least one more ex-soldier with him.

There never was a time in the history of the country when an organization like the American Legion, conceived for patriotic purposes, was more necessary. The organizers of this association of men who have served their country in a military way, conceived the idea of a league for the purpose of offsetting the spread of Bolshevism and to see to it that men of foreign birth who made claim of immunity from military service on the grounds of their birth, are not permitted in times of peace to surrender their claim of exemption and take an active part in the future government of this country.

It is a fact that at the present time those most insistent for recognition by the government are classes of our citizens who stayed at home, drew big wages and salaries, filling the place of the man who answered the call.

You "did your bit" when called upon. Don't leave yourself open to be called "a slacker" now. Send your name to the post commander, or any officer of the legion, and show your Americanism. There can be no excuse for the man who wore a U. S. uniform, not claiming comradeship with a million other brothers in the American Legion.

## Lands Open for Entry

Roswell, N. M., Sept. 12.—Notice is hereby given that there has this day been received in this office, for filing, the approved plats of the official survey of the following townships: Townships 6 and 7, South, Range 9 East, and Township 6 South, Range 10 East, N. M. P. M.

Said plats will be officially filed at 9 a. m., October 15, 1919, at which time the land in said townships, not previously appropriated or withdrawn, will become subject to entry or selection.

Applications to enter or select lands in said townships, when accompanied by the required fee and commissions, will be accepted by this office on and after September 25, 1919, but all applications received before the time of filing said plats will be held and considered as if filed simultaneously with those presented at the hour of filing said plats.

EMMETT PATTON, Register.  
W. G. COWAN, Receiver.

## Test Well at Oscuro

The Canadian-American Oil Leasing association, of Vancouver, Canada, has recently acquired 20,000 acres of oil lands in New Mexico, including 10,000 acres in the Tularosa Basin. The company is putting down a test well at Oscuro, eighteen miles south of Carrizozo, and are hopeful of getting oil.

## The Red Cross Drive

During the first part of this coming November Lincoln county will be asked to subscribe her quota to the Red Cross, simultaneously a drive will be made for membership.

In apportioning to each precinct its quota, the total resources of the precinct will be taken into consideration and the total amount for the county will be apportioned to the precinct accordingly.

I have been asked to take charge of the coming drive in the capacity of Roll Call chairman. I have consented on condition that all who are interested will hold themselves in readiness to accept the work I assign them and those in charge of the Red Cross organization in this county allow me a free hand in the management of the "Drive."

The details with regard to the "drive" will be announced in the local papers from time to time, and every one is asked to watch for these announcements. Whether the ladies will be asked to work with the men or to work as a separate organization has yet to be decided upon.

In times past when precinct workers have been appointed for any work they have written back that they are too busy, that some other person was better qualified, etc. The success of this "drive" will depend largely upon the precinct chairmen and their workers. No one who will be called upon to assist works any harder than I do, and if an appointment is tendered it is for the reason that that party is wanted, so it will not be necessary to write back a long letter about why the position cannot be accepted. The appointees are urged to simply get down to business, do the best they can, or have the manager of the drive to "lick" at first meeting. All are encouraged to write for suggestions and instructions.

E. M. BRICKLEY.

## Coming Soon

The biggest thing that the people of Carrizozo have been able to enjoy in their home city since their trunk arrived. The Methodist Church has been able to secure the Redpath Lyceum course for season of 1919 and 1920. Five entertainments distributed about one month apart. All high class, instructive entertainments. Posters will be placed over town in a few days, solicitors will call on you and see that every one secures season tickets to assist us in making the venture a success.

## She'll Wear Suspenders

"The timbers were rotten  
And the bridge fell in,  
"We'll go home by wather,"  
Says Brian O'Lynn."

One of the lady clerks who arrived late one morning this week at a big store that was preparing for a clean-up sale was upbraided by the manager. She gave as an excuse for her tardiness the rains, the muddy condition of the street and added that the bridges were down. "If your bridges are down or your bridges up, you be on hand after this," shouted the irate manager. Now, the manager is of Teutonic extraction, judging by his lingo, very recent, and, of course the word bridges didn't have the American sound. So, somewhat abashed, the lady mentally resolved to always wear suspenders in the future while on the job.

## PARSONS NEWS NOTES

The first frost of the season occurred here Saturday night! Instead of clearing up the weather it was followed by two days' steady rain, and a steady down-East rain is an unusual occurrence in this corner of the world, but we are not surprised at anything in the line of unusual weather the past year or two.

Ole Olson, who has been here for several months, returned to Chicago the last of the week. He was accompanied as far as Carrizozo by his wife and children.

Mr. and Mrs. Thomas Grafton and family left last week for California to visit their daughter Mrs. Baird, of Sanger, and to make the acquaintances of the three grandchildren whom they have never seen. The Graftons left here in their car, and were accompanied by Mr. and Mrs. Lute Skinner in theirs. There has been so much rain since they left that their friends are anxious to know whether they made the trip clear through all right.

On account of the rain the election at Angus Tuesday was poorly attended by the voters in this neighborhood.

Tom Jennings is here visiting friends, and trying to sell his father's ranch on the Bonito.

Joe Sheridan, the coal mine inspector for New Mexico, spent several days here the first of the week.

W. G. Wells is on the sick list again, and there are others along the Bonito who are about sick over the grain down in the fields. The grain was cut when it was thought the weather was good, and now it is in danger of being spoiled on account of too much rain.

Mrs. Rice has returned from Fort Stanton, where she has been visiting her daughter, Mrs. Weber for the past week.

A Sunday school has been organized in the school house. The session opens at three o'clock every Sunday, and every one is cordially invited to attend.

The Weber family of Fort Stanton drove up to Parsons Saturday to spend their ninth anniversary with the Rice family.

## A Happy Marriage

A quiet marriage took place at the Methodist parsonage Thursday afternoon, the Rev. R. H. Lewelling performing the ceremony. The contracting parties are both from Alto. The bride, Miss Babe Broocke, is a daughter of W. I. Broocke, a progressive farmer and stockman, and the groom, Ellis E. Marr, is a son of W. K. Marr, a stockman and farmer also in the same neighborhood. The young couple are well thought of by their acquaintances, having grown from childhood on the Mesa. The groom is 1 1/2 years of age, and the bride three days younger. Immediately after the ceremony, the happy couple and some friends motored to the Bonito, where they will make their home on the Broocke place.

The "old folks," who by the way are both comparatively young men, on the sunny side of forty, were present, and like their children, were reared on adjoining farms in Texas, being close friends through life, coming of good southern stock.

The News extends best wishes to the happy couple, and congratulations to their parents.

### The Words That Shattered Autocracy

(NEW YORK WORLD)

Few tributes to the power of moral forces in war equal those sentences from the memoirs of Grand Admiral von Tirpitz appearing in *The World*:

"To my mind, our great crisis did not come at the Marne, or Verdun, at the Somme or in fact in any great land engagement. The Sussex note [the reply to President Wilson on the sinking of the Channel steamer *Sussex*] was the decisive turning point of the war. It was the beginning of our capitulation. Once determined upon ruthless submarine war we should have held our ground and insisted upon its legality under international law against every pressure brought to bear. Instead of that, by promising to indemnify the families of the victims of the torpedoing of the *Sussex* we showed the world that we were going down before America."

The *Sussex* was the Channel boat wantonly torpedoed by a German submarine March 24, 1916, responsibility for which was at first denied by Foreign Secretary von Jagow. When, after some preliminary correspondence, the truth was admitted, President Wilson denounced the deed as a violation of "the principles of humanity, the incontrovertible rights of neutrals and the sacred immunities of non-combatants," and warned the Imperial government that if it persisted in warfare of this description the United States would sever diplomatic relations with Germany at once.

In response to this warning von Jagow offered many excuses and indulged in the usual crimination of Great Britain, but before closing gave the United States assurance that in view of its representations the orders to submarine commanders had been changed, and that thereafter, in obedience to international law, merchant vessels would not be sunk "without warning and without saving human life." This was the substance of the note which, in the opinion of von Tirpitz, precipitated in Germany a crisis greater than any that followed the Marne, at Verdun, and at the Somme. It "showed the world that we were going down before America." It was a calamitous surrender to "Wilson's knavish note."

When the president's *Sussex* note was despatched it was the fashion in this country to sneer at the patient man whose missiles were only words. We now have an admission from one of their victims that they were deadly.

### The World Does Move

Do you remember, — it is only a few short years ago — when the Mesa and other farmers signed on three days for a trading trip to Carrizozo, one day coming, one day trading and one day returning. They now unload the driver, send into Carrizozo, transact their business, and get home in time for supper. Of course the gas costs money, also repairs; but in the old days there was a livery bill, a hotel bill, and food for the team whether in use or not, and feeding a team at present is an expensive item. The driver discounts the team.

And, say, do you remember the good old days, after work, (of course, you do,) when you hitched up the team to take your best girl to a dance, or maybe a buggy ride, and draped the reins around the whip, and allowed the team to jog along peaceful and quiet,

**CHECKING UP EXPENSES** is really a pleasant occupation, and a very simple thing to do when you deposit your money in a commercial account at this bank, and pay all bills by check.

Upon the stubs of your check book are the records of your expenditures, and the returned canceled checks are unfailing proofs of payment.

You will find your money goes further when you put it all in the bank, handling your transactions through a check book, and since you probably are as anxious to keep a portion, at least, of the money you receive for your business efforts as we could possibly be to have you, this suggestion may be helpful.

We will be very glad to explain this form of account.

reasonably sure there was not another team within a mile or two—just you and your girl and the team. Now, when you take your girl for a ride, you crank the old driver, breeze into Carrizozo, see a picture show, and buzz home again at a seasonable hour. Things have changed. But listen! Have you ever stopped to figure out where we will land twenty-five or thirty years from now if we keep up our present speed? The world does move.

Billie Ferguson was down from the Mesa Wednesday, arranging for the disposition of his apple crop. He expects to pick two car loads of apples from the Sexton orchard this season.

Lieut. and Mrs. Harry Dixon returned yesterday from New York City. They were absent three weeks and came home earlier than they intended when they left, because Lieut. Dixon expects to go to Douglas soon to resume his position with the railroad company as chief dispatcher.

Heavy rains along the Carrizozo-Roswell mail line has seriously interfered with the transportation of the mails the past week. In fact, some days the mail failed to get through to each end of the line, and was carried as far as Capitan on the train. A number of culverts were washed out along the line, and the drivers say the road is worse than it has been for months.

### Amendments to State Constitution Believed Defeated

#### A VERY LIGHT VOTE CAST

Three amendments were voted on by the people of New Mexico Tuesday, 16th, and from all the information obtainable all three were defeated. The proposition to allow absent soldiers to vote got the greatest support, but is supposed to be defeated along with the other two.

The two amendments, one authorizing the issue of road bonds and to consolidate all state institutions of learning under a central board, were overwhelmingly defeated.

Little interest was taken in the election in this county and a very light vote was cast. No definite reports have been received from the various precincts, as the ballot boxes have not been opened, and the result will not be known until the commissioners meet. In this precinct only 24 votes were cast, and they were practically all against the amendments.

#### THE HIGH COST OF LIVING

The high cost of living is becoming a problem both for the merchant and consumer. The prevailing maximum of service commensurate with the minimum cost, have caused this condition.

In order to meet this demand and give entire satisfaction the undersigned merchants have decided to inaugurate an incorporate delivery system. Two deliveries of merchandise will be made each business day beginning October 1st. One in the morning and one in the afternoon.

The morning delivery will start at 9:30 a. m. The afternoon delivery will start at 3:30 p. m.

All orders received before 9:00 a. m. will be delivered in the morning, those received between 9:00 a. m. and 3:00 p. m. will be delivered in the afternoon.

Orders of \$1.50 or more will be delivered free; those of less than \$1.50 the nominal sum of ten cents for each delivery will be made.

This will enable the merchants to sell at the lowest price possible and give the public the advantage of this condition.

**COAST TO COAST  
 U. S. FOR LEAGUE**

MILLIONS ACCLAIM WILSON AS  
 HE SPEEDS ACROSS  
 THE LAND.

**FEW ASK FOR CHANGES**

Majority Feel That President's Guidance Should Be Held—He Regards Past As Sure to Come Soon.

(By Mt. Clemens News Bureau)  
 Aboard President Wilson's Special Train—From the Capital at Washington to the far Pacific coast the President of the United States has journeyed on the most unusual expedition ever undertaken by a chief executive of the nation.

To discuss national questions, many presidents have toured the land; but Mr. Wilson is laying before America a question which affects the whole world—the question of whether or not we are to join in the League of Nations; whether we are to forget our former isolation and share with the other peoples of the earth the responsibilities of maintaining civilization and preventing, as he says we can do, future warfare.

Between the capital and the coast the president made fifteen speeches and half a dozen brief talks. All of 100,000 fellow citizens listened to him. Several millions had the chance to see him, and apparently everyone wanted to see him, from those who thronged the streets of the cities and towns where he stopped, to those who came to the railroads or stood at little flag stations in remote places, knowing their only reward could be a fleeting glimpse and a wave of the hand.

He has met and talked to all types of citizens—to men big in the business, financial and professional worlds, to farmers and mechanical workers, to Indians and cowboys and foreign-born herders and rangers, to soldiers and to mothers who lost soldier-sons in the late war.

What do they all tell him? unambiguously they say they want peace definitely settled, they want no more wars, they want the League of Nations, and most of the American people, it may be fairly said, tell the President they want the League just as it is, without the reservations or amendments which certain senators have insisted upon. The majority of citizens say to those who interview them on this tour:

"Woodrow Wilson guided us rightly before and during the war with Germany. We entered that war, every one agrees, to end all wars. He says the league can do that. We want to do that, so let us keep on trusting him and get the league into operation as soon as possible. Forget politics."

Most Americans encountered on the tour have forgotten politics. Republican Governors and Mayors have introduced the President to his audience; the Major part of the local committees which have met him have been Republicans. They have all said: "We are nothing but Americans, Mr. President."

Mr. Wilson's arguments for the league, briefly summarized, are these: There can be no peace, either now or in the future, without it. There can only be a regrouping of nations and a new "Balance of Power," which is certain to lead to war. There can be no war in the future, with the league in existence, because no single nation would defy the united rest of mankind, and if it did, it could be brought to terms by an economic boycott, and without the use of arms.

There can be no reduction in the cost of living until the league is established, for nations will not go ahead with peace time production until they know that peace is definitely assured and that production of war material is no longer necessary.

There can be wonderful prosperity, with league in existence, for relations of labor and capital all over the world will be made closer and more friendly, and the worker will receive a fairer share of what he produces.

These declarations of the president, logically and eloquently put, have left his hearers thinking and thinking deeply. And then Mr. Wilson has pointed out, the people themselves, as differentiated from senators and politicians, seem to want just what the president wants, which is America for leadership.

Quite as unusual as the purpose of the cross country tour is the manner in which it is being carried out and the completeness of the arrangements on the nine car train which is bearing the party.

At the rear is the private car Mayflower, occupied by the President and Mrs. Wilson. Next is a compartment car for the secretary Tumulty, Admiral Grayson, Mr. Wilson's Physician, four stenographers, the chief executive clerk and seven secret service men. Beyond are three compartment cars which house twenty-one correspondents, five movie men, and a telegraphic and a railroad expert. Then there is a dinner, a club car, and two baggage cars, one of them converted into a business office. The train was exactly on time at every stop between Washington and the Coast.

**Bankers Declare These Very Best Securities That Money Can Buy**

Hundreds of banks over the Eleventh Federal District have already invested in the new \$1,000 Registered Treasury Savings Certificates and more orders for them are being received every day by the Federal Reserve Bank at Dallas. Bankers are practically unanimous in declaring these new \$100 and \$1,000 Registered Treasury Savings Certificates the best securities the Government has ever offered.

Individuals, corporations, cities, counties and school districts are also buying these Registered Certificates in large numbers. The State of Texas was one of the first purchasers. State Treasurer John W. Baker getting \$100 worth for each of two State funds. The law does not permit more than \$1,000 (worth, maturity value), to be held in any one name, but each member of a family or firm, each director in a bank or corporation may hold that amount.

The \$100 Certificates may be purchased at all first and second class postoffices and from all banks and trust companies, while the \$1,000 Certificates are obtainable from banks and trust companies only. Each Certificate is registered in the buyer's name when issued and the buyer's name is also inscribed on the face of the Certificate.

Bearing interest at 4 per cent, compounded every 90 days, and maturing January 1, 1934, these Registered Treasury Savings Certificates form an ideal investment. They are exempt from taxation, insured by the Government against loss and may be cashed on ten days' notice. War Savings Stamps of the last issue may be converted into these Certificates at desired.

The cost price for the \$100 Registered Certificates is as follows: August, \$83.00; September, \$83.00; October, \$83.00; November, \$84.40; December, \$84.60.

The cost of the \$1,000 Registered Certificate is only \$975 for August; September, \$975; October, \$975; November, \$984; December, \$984.

The Government will pay the full face value of these Registered Treasury Savings Certificates on January 1, 1934, or the amount invested with accrued interest if the holder wants to cash them before that date.

Be wise, invest in the new Registered Treasury Savings Certificates.  
 —W. B. R.—

**Take Active Part In Fight Against High Living Cost.**

Fight the high cost of living by avoiding waste, buying carefully, saving what you can and investing this saving in Registered Treasury Savings Certificates or War Savings Stamps. Work and save! This is doubly wise at this time as not only is the money being saved put to work making interest, but dollars with low purchasing power now are being invested with a certainty that they will buy more later on.

The dollar today will buy less in groceries, clothing and other necessities than at any time since the Civil War. There is every indication, however, that prices will be more normal in a few years. The dollars invested in these new Registered Treasury Savings Certificates which have just been issued by the U. S. Government or War Savings Stamps will not only buy more five years from now, but will bring the interest earned with them when returned to their owners. Have all you can and put the dollar you save to work for you. You will find you are making good progress this way in giving old "H. C. L." its death blow.

**Get a Hand Grenade; Is Rarest Souvenir of Great World War**

Remember the Hun line until it bent and broke, bending? K. K. and his class down to high school did all the American soldiers shot and won on in greater numbers than any other. It was a weapon they had never used before, one that had been used in for centuries—the hand grenade—when the brave old Hun line broke. A. sent the old "gizmo" to school called, spinning into one of our old box, the only teacher remaining in the ground were the only to be kept.

Grenades were known to have been used five centuries ago. In 1300, at the siege of the Castle of Orléans, the French used a primitive grenade made of a glass bottle filled with powder. For a time, grenades were made out of heavy paper, then out of glass and then out of metal. With the close of the eighteenth century, the grenade began to be discarded and little use had been made of it until the Russo-Japanese war in 1904.

It remained for the Great World War to see the grenade developed into its present efficiency. The grenades used by the American doughboys were as carefully manufactured as their rifles, but the end of hostilities found a limited supply on hand and these were turned over to the Savings Division of the Treasury Department, the explosives remained and they have been made over into savings banks.

Thus a weapon of war has been transformed into a "weapon of peace." Instead of being used to battle the Hun, it is now being used in the fight against the High Cost of Living and the arch enemy, Thriftlessness. Any boy or girl can secure a grenade by purchasing a 10 War Savings Stamp, any adult by investing in three or more War Savings Stamps. These must have been bought after July 16, 1919. These hand grenades will be distributed through local banks and by a few merchants.

If you want a grenade, get busy. Make arrangements with your banker immediately. Only a limited number of these rare and unique weapons at the World War could be secured and when they are gone there will be no chance of obtaining one. You don't have to wait until the grenade is received to begin saving. Do that now. Then when the grenade arrives you will have that much of its work toward owning it. Ask your banker about it today.

Buy War Savings Stamps regularly. After you get your grenades, keep on buying. Don't let your "weapon of peace" remain idle.

## URGE SENATE TO HASTEN PEACE

Leaders in Forty States. Regard-  
less of Party, Sign Ringing  
Appeal.

### TREATY WITHOUT AMENDMENT

Say Every Day of Delay Puts World  
in Imminent Peril of New  
War—Point to National  
Unrest.

New York.—(Special.)—Two hundred and fifty leading Americans, Republicans and Democrats representing forty different states and every prominent activity, have joined in a non-partisan effort to bring about the ratification of the Peace Treaty "without amendment and without delay." Their names are attached to an address to the United States Senate, which was made public today, through the League to Enforce Peace, after it had been sent to every member of the Senate.

The signers, almost without exception, are men and women of national reputation. They include such prominent citizens as ex-President Taft, George W. Wickersham, Attorney General, A. Lawrence Lowell, president of Harvard, Charles C. Moore of San Francisco, president of the Panama Exposition, Judge George Gray of Wilmington, Del.; President Samuel Gompers of the American Federation of Labor, Harry A. Wheeler of Chicago, retiring president of the Chamber of Commerce of the United States; Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association; Cyrus H. K. Curtis, the Philadelphia publisher; President Herbert J. Grant of the Mormon Church, and Spurgeon, leader of the Socialists who supported the war.

The signers declare that every day of delay in ratifying the treaty puts the world in "imminent peril of new war."

Their statement follows:  
In the Senate at Washington, now that the committee on foreign relations has reported the treaty, the lines are sharply drawn between the immediate ratification of the treaty of peace with Germany, and its amendment with a re-opening of the conference and a reopening of negotiations that would bring great delay and prolonged uncertainty in settling the great issues of the peace. No partisan plea can be made. Party lines are already broken.

Standing at a distance from the conflict in the Senate chamber, we plead for immediate ratification without delay. Our land requires it. A state of nervous strain, tension and unrest exists manifesting itself in disturbances, which in some cases have no self evident connection with the war, but which are, in fact, its aftermath. The world is put in imminent peril of new wars by the lapse of each day. Dissensions between us and our former allies are being sown. We firmly believe and solemnly declare that the states and cities in which we dwell desire immediate peace.

The waging of war steepled and united the American people. Peace will bring prosperity and prosperity content. Today in the Senate postponing ratification in this uncertain period of another peace war has resulted in indecision and doubt, tired strife and quickened the cupidities of those who sell the daily necessities of life and the fears of those whose daily wage no longer fills the daily market basket.

We beseech the Senate to give the land peace and certainty by a ratification which will not keep us longer in the shadows of possible wars, but give the whole world the light of peace. Reservations in the nature of clarifications in the meaning of the treaty, not inconsistent with its terms, will not require the reopening of the negotiations with Germany and with our associates in the war, which we all and each united to win.

But there is no possibility of doubt that amendment of the treaty, as is now proposed by the Senate Committee on Foreign Relations, would require negotiation and a reopening of all the questions decided at Peace Month of delay would follow. The peace of the present would become the deadly dangers of the near future. All the doubt suspended would add the plots for violent revolution in this and other lands. The issues here and elsewhere between capital and labor, the conspiracy of speculator and profiteer, would all grow and become more perilous.

This cannot be. The American people cannot, after a victorious war, permit the government to petition Germany, which has accepted the treaty, for the changes in the treaty. Yet if the United States should amend the treaty for its own purpose and policy, Germany would have full right to ask for concessions, their army has agreed to make no claim in regard to enemy property seized in this country in an amount of seven hundred million dollars. Our recent foe could ask for a reopening of this issue and of the Lusitania claims. It could raise every question open before hostilities in regard to submarine warfare and the treatment of its nationals in this country. All the provisions for our trade in Germany raised by the economic clauses of the

treaty, many of them vital to our industries and our farms, as in dye patents, dye supplies and fertilizers, the working of the Reparation Commission, which superintends the trade of all with Germany, could all be brought up by Berlin for readjustment by our negotiators, acting for the United States alone and no longer associated with other victorious powers or supported by a victorious American army on the German border.

Peace itself, the peace of the world, is delayed until ratification comes. And any amendment postpones peace. Germany and England alone of the principal powers have ratified. The other principals necessarily await our action, influential and powerful as we are today in the world's affairs. The ravages of war on more than a score of fighting fronts are continued by any needless delay. Let the Senate give the world peace by ratification without amendment.

Even the amendment for which most can be said, the provision in regard to Shantung, will secure nothing which cannot be gained if China, backed by the powerful advocacy of the United States, addresses itself to the machinery for righting international wrongs and meeting just claims created by the league between nations. China, after eighty years of oppressive treaties and despoiled rights, by which all the great powers have profited directly or indirectly, has for the first time, in this covenant and treaty, the means and method to secure justice and the removal of the oppressive economic interference of stronger nations whose citizens are within her gates, protected by a long succession of international agreements. Moreover, it should be remembered that the clause regarding Shantung was made upon the statement by Japan that she will return the territory to China and, therefore, upon that condition, compliance with which promise the league can require.

The peace of the present, and the righteousness of the future can be best secured by the ratification of the covenant and treaty without amendment. Let the Senate take no action that will give any party to the treaty, and especially Germany, ground for maintaining that the ratification of the United States is not complete and that changes requiring a resumption of conference and negotiations have been made in it.

Among the signers in Colorado, New Mexico, Nebraska, Kansas and Wyoming:

Colorado.  
Mrs. James H. Baker, Educator.  
L. Ward Bannister, Lawyer.  
Mrs. Mary C. C. Bradford, State Superintendent Public Instruction.  
C. A. Dunaway, President Colorado College.  
J. C. Ginter, ex-Governor.  
Francis J. McConnell, Methodist Bishop.  
James M. Pershing, Lawyer.  
John Franklin Shafroth, ex-U. S. Senator.  
S. Harrison White, formerly Justice Supreme Court.  
New Mexico.  
Nell H. Field, Lawyer.

## For Young Men and Women THE STATE UNIVERSITY OF NEW MEXICO A ALBUQUERQUE

Will Open October 1, 1919

REGISTRATION DAYS

Monday, September 29

Tuesday, September 30

DAVID S. HILL, Ph. D., LL. D., President

### LEADERSHIP

The world today needs trained, loyal leaders. Notwithstanding that less than one half of one per cent of the population of the United States is enrolled in colleges and universities, college men and women have predominated remarkably in leadership. College and university enrollment should be doubled for the good of the country. The University of New Mexico invites ambitious young men and women to prepare for leadership.

### OPPORTUNITIES

The University is undergoing reorganization and betterment. Special attention will be devoted to the conservation of the health of students. A new Department of Hygiene, supported in part by Federal Appropriation, will be in operation. Nearing completion is the new building for Practical Mechanics. Instruction is offered in Mathematics, Biology, Chemistry, Physics, Geology, History, Political Science, Economics, Business Administration, Home Economics, Education, Hygiene, Psychology, Philosophy, Physical Training, Music and Languages, including English, Spanish, French, Italian, Latin and Greek. Courses preparatory to Law, Medicine and Mechanical Engineering. Curriculum in Chemical, Electrical, Civil and Geological Engineering.

Regular Courses leading to the Degrees:

Bachelor of Arts  
Bachelor of Science  
Master of Arts

### RESERVATIONS

Residential accommodations are limited. Prospective students should immediately address inquiries and requests for reservations to:

# Camel

## CIGARETTES

18 cents a package

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in attractively sealed packages of 20 cigarettes, or ten packages of 200 cigarettes, in a distinctive paper-lined carton. We strongly recommend this carton for the home or office supply as when you travel.

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or that wonderful mellow-mild smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full of satisfaction you marvel that so much delight could be put into a cigarette!

Camels' expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

## GULF COAST TORNADO

Corpus Christi, Tex., Sept. 17.—The list of known dead in Corpus Christi and environs is now nearing the 200 mark and is being swelled almost hourly.

It is now feared that the death toll will reach far into the hundreds as reports reaching here from across Nueces bay in the vicinity of Portland, White Point and Rosita and other towns in that section tell a uniform story of heavy casualties.

According to reports received from that section today, the receding waters have left bodies strewn along the entire north shore of the bay. Burial parties are being sent out from here to scour all the lowlands along Nueces bay and bury them in the most expeditious manner as practically all hope of identifying any of the bodies has been abandoned.

The temporary morgue opened in the Corpus Christi court house was closed today and all bodies now are being carried directly to the cemeteries where they are buried with simple rites by waiting clergymen. Pieces of clothing, jewelry and other keepsakes found on the bodies of the victims.

A military airplane circled over Corpus Christi and over Port Aransas yesterday afternoon and reported that many bodies could be discerned at Port Aransas, but that a landing was impossible because of the high water.

Fifteen additional storm victims were brought to the temporary morgue here early today, bringing the known dead list in this city up to 62 as a result of the tropical hurricane which swept this section last Sunday. The total known dead then exceeded 160, including 50 at Portland, 30 at White Point and 14 at Rockport, according to reports here.

The most reliable estimates here today place the loss of life at Corpus Christi, Port Aransas and Aransas Pass at about 250. The bodies being recovered today are in such condition that identification will be almost impossible.

Estimates of the property loss varied from \$10,000,000 to \$15,000,000.

Seventy-seven bodies, all blackened and bruised, were reported to have been washed ashore last night on the northern side of Nueces bay, upon which Corpus Christi is situated. Of the 77 bodies, the report said, 38 were taken from Portland, 29 from White Point and nine from Sinton and one from Odem. Other points also reported the washing ashore of bodies during the night.

Military officials were exerting every resource today to ascertain the fate of 20 or more soldiers who were washed out into the bay while the storm was its height and of whom there has been found no trace. The men, members of company I, 37th infantry, and other regiments on border duty, were at the government rest camp here for a week-end furlough when the camp was washed away.

**SUMMARY OF TORNADO'S TOLL**  
Corpus Christi—Property loss put at \$10,000,000. Bodies of 57 victims recovered.

Portland—Town badly wrecked; 56 reported dead.

Rockport—Town wiped out and three reported dead.

Aransas Pass—Town destroyed and four reported dead.

Port Aransas—Town demolished; dead estimated at four.

Odem—Town wrecked; 175 refugees rescued.

Port Lavaca—Property loss put at \$10,000,000.

Port O'Connor and Sea Drift—Towns badly damaged but no known loss of life.

Sinton—Bodies of 29 victims are buried.

Geo. W. McGhee returned Sunday morning from the Red River country, in northern New Mexico, where he had gone to investigate some mining property for eastern parties.

## One More Soldier Returns

Sgt. Milton G. Lesnet arrived here Tuesday, having been discharged at Fort Bliss the same day. He left next morning for Roswell to see his mother. He enlisted at Carrizozo in April, 1918, and was assigned to a mechanical repair unit. In August of the same year he landed in France, was engaged in the truck transportation service at the front until the armistice and retained in the service in France and Germany until last month, landing in America the first of September. He returned in fine health, had many varied experiences, acquired flesh and the French language, and while enjoying his stay in the land of Johnny Crapood, notwithstanding the hardships, is glad to get home and has no desire to again cross the big pond.

### Local Man President

T. E. Kelley, of the firm of Kelley & Son, attended a meeting of the New Mexico Funeral Directors at Albuquerque this week. At a business session held yesterday Mr. Kelley was elected president for the coming year.

### Notice to Teachers

Examinations for certification of teachers, and reading circle work will be held in the office of the County Superintendent of Schools, Carrizozo, N. M., the first Friday and Saturday in October—3rd and 4th, 1919.

### May Drill a Test Well

W. W. Blankenship, a geologist, who visited here in the early summer, and later spent a month looking over the county north of the Gallinas, returning to El Paso, is again exploiting the country south of Corona. It is said he is leasing lands from individuals and the state for a western company, and the people in that district are anticipating a test well for oil one of these days.

### Old Soldiers and Young

When the Grand Army of the Republic held its fiftieth yearly encampment in Washington in 1915 it was the opinion of many who witnessed the parade of aged men that it would be the last. The veteran organization has just held its reunion in Columbus, Ohio, and the attendance, mostly of families and friends, of course, was unusually large.

It is fitting that such survivors of the war for the Union as are able to take part in these gatherings should be heartened in all their ceremonies by the presence of the young. In that conflict there were 2,778,000 enlistments and re-enlistments at the North, three-fourths of them of men under twenty-one years of age. The Grand Army enrollment in 1918 had fallen to 120,000 and the death rate is now more than 10 per cent. Soon only a few of the exceptionally vigorous will be able to participate actively in a function which once commanded national attention.

Great old boys they were and are, and great were the armies whose ranks they filled. Professional militiamen in Europe belittled them, just as a half-century later it underestimated their successors of the American Expeditionary Forces, but there is reason to believe that Sheridan was right when in 1870, at Prussian headquarters, he compared the Army of the Potomac favorably with the best that he had witnessed in the military machine created by von Moltke. In their day the citizen soldiers of the sixties had no superiors, and this is true also of the men of the same type who in 1918 broke the back of autocracy.

Although we are soon to have new and mightier conclaves of former soldiers than the G. A. R.

### Notice for Publication

001594

DEPARTMENT OF THE INTERIOR

U. S. Land Office at Roswell, New Mexico

August 27, 1919

Notice is hereby given that William O. Wells, of Parsons, New Mexico, who, on February 4th, 1909, made homestead entry, No. 00101, for 20 1/2 acres, (notes and boundary survey) in Section 2, Township 10 N., Range 1 E., N. M. P. Meridian, has filed notice of intention to make five year proof, to establish claim to the land above described, before C. J. Merland, U. S. Commissioner, at Carrizozo, N. M., on the 31st day of October, 1919.

Claimant names as witnesses:

## LOCAL AND PERSONAL

Henry Lutz and son, Henry, went to Roswell Sunday to attend to some business matters.

It will be the talk of the state. Something is going to happen. Watch your step.—Trading Co.

R. G. Crisp is having a residence built. W. J. Langston is in charge of the work.

For thirteen days "The Greatest Money Saving Sale" ever held in Carrizozo.—Trading Co.

Judge John Y. Hewitt was here yesterday from White Oaks.

On the Alter of Sacrifice—The largest stock of staple and fancy groceries in Carrizozo.—Trading Company.

Lincoln county will compare favorably this year with the best agricultural counties in the state.

"Old Homestead" flour \$6.50, "Diamond" flour \$6.25 per cwt. at Humphrey Bros. 9-5-11.

Attorney C. A. Perkins returned yesterday from a week's sojourn in the country.

A death blow to the high cost of living. September 20th at 9 a. m.—Trading Co.

Will Owen was here this week from Corona. He is moving with his family to White Oaks, where they will reside in the future.

The greatest "Money Saving Event" ever staged in Carrizozo. You will be able to buy groceries at almost your own price.—Trading Company.

W. I. Broecke, of Alto, passed through yesterday on a visit to his former home in Texas.

We meet all competition. Write for our prices. Western Garage.

W. T. Crabtree, of Corona, and Sam Wells, of Gallinas, both prominent stockmen, were in Carrizozo this week on business.

Try a Spirella corset. Mrs. G. T. McQuillen, phone 1. 3-1411

Isidoro Armijo, a prominent citizen of Las Cruces, has spent the past week in Lincoln county, looking after business matters.

Norwalk Inner Tubes and Republic Casings. Both guaranteed. Western Garage.

O. T. Nye and William A. Franklin are down in the Tinnie-Picacho country, looking after their oil interests.

Cars washed at Western Garage.

Richard Anderson and George Myler were down Wednesday from Coyote station, laying in supplies.

All repair work guaranteed at Western Garage.

At the State Bankers' convention at Albuquerque last week Geo. L. Ulrick of Carrizozo was elected president of the association.

Mrs. Anna Brazel was here Monday from her farm near Capitan. Mrs. Brazel reports good crops in her section and a bountiful harvest is expected.

J. D. Luttrell arrived this week from Benton Harbor, Michigan to look after his mining interests here. He is interested in the Vera Cruz mining operations, and is hopeful of good results from its development.

Milton Lesnet passed through Carrizozo Wednesday. He had been overseas, and was mustered out during the past week. He took the Roswell stage to visit his mother.

Col. G. W. Prichard, of the firm of Prichard & Merchant, will be here the 26th to give attention to legal matters and other business affairs in Lincoln county.

The real moonshiners of the Ozarks, without the false touch of modern fiction, are shown in Harold Bell Wright's own film version of his great novel, "The Shepherd of the Hills." Wash Gibbs and his gang of roughnecks run wild throughout the entire ten reels. At the Crystal, Saturday, September 27.

G. B. Sommers, of Corona, rancher and small stock owner, was in Carrizozo the first of the week. Mr. Sommers is a comparatively new man in the Corona district, and says he is well pleased with the country and its future.

Samuel Wells was here Monday from the Capitan iron mines, where he has been doing some development on iron properties. He went to Jicarilla the same afternoon to look into some properties there.

The days are getting noticeably shorter, the daylight saving law belongs to the past, and in future the sun will rise and set at the time God ordained long ago it should, and not as congress legislated.

In Harold Bell Wright's own 10-reel film version of his widely read novel of the Ozarks, "The Shepherd of the Hills," there is told, through the lives of the typical mountain characters, the world-old story of love, sin and suffering. There is hate inexorable, fear of man and spirit, vengeance that has burned a lifetime, love, human and divine, all in a swiftly moving panorama that make this wonderful picture drama one of the most emotionally effective produced in some time. Crystal, Saturday, Sept. 27.

The battle in the heart of the farmer boy, who longs for the attractions of the great city, and how he found his greatest contentment in rural scenes is told in "The Shepherd of the Hills," the 10-reel super-film of Harold Bell Wright's great story. At the Crystal Saturday, September 27.

Mrs. G. A. Garvin, who has a home near the Nogal lake and has lived there for several years, will leave in a day or two for El Paso where she will make her home for the winter. She may return next spring.

The grocers of the town will install a combined delivery system beginning October 1, making two deliveries each day. When patrons become accustomed to the new plan it will serve as well as the old and should result in a slight saving to each family.

Ed C. Pungsten was down from his home on the Mesa a few days ago. Crops are very gratifying in his community this year, but he says the farmers up there have been delayed in threshing their grain, and the past two weeks' rain interfered very seriously with that kind of work.

All Hands from Everywhere Will be Here

Saturday Morning, SEPT. 20 9 a. m.
