Access to Micromedex

by Robyn Gleasner on August 11th, 2020 | [0 Comments](#)

Micromedex can now be accessed anywhere, anytime!

Authentication to [Micromedex](#) has been changed so that you will be prompted to authenticate using your NetID and password when off campus. Access should be seamless when you are on campus or using VPN and you should not be prompted to log in. Previously, access was only available from HSLIC, Med 2, and the College of Nursing and Pharmacy buildings. We will continue to have access to three Micromedex apps including Micromedex Free Drug Reference, Drug Interactions, and IV Compatibility. If you are interested in downloading an app, please see our [Mobile Apps Guide](#) for the username and password.

If you have any trouble accessing this resource, please send us an email at hsc-remote@salud.unm.edu.

IBM Micromedex®

The screenshot displays the IBM Micromedex website interface. At the top, there is a navigation bar with tabs for Home, Drug Interactions, IV Compatibility, Drug ID, Drug Comparison, CareNotes, NeoFax® / Pediatrics, and Other Tools. Below the navigation bar is a search bar with the text "Search Drug, Disease, Toxicology, and more" and a "Keyword search" input field. To the right of the search bar is the "Ask Watson" chatbot interface, which includes a search bar for "Search Micromedex drug information" and a "Type a quick question..." input field. Below the search bar are three main content categories: "Latest News" (with links to Breztri Aerosphere(TM) for COPD, COVID-19 News, MDX COVID-19 Resources, 1st Cell-Based Gene MCL Therapy, and Xywav(TM) for Narcolepsy), "Support & Training" (with links to Citing Micromedex, Clinical Consulting & Services, Integrated Content Options for MU & More, Product User Tips & Quick Answers, Training Center, and User Guide), and "Resources" (with links to Black Box Warnings, Comparative Tables, Do Not Confuse Drug List, Drug Classes, Drug Consults, and REMS). The bottom right corner of the screenshot shows the time "4:37 PM".
