HAPPENINGS IN CITY AND VALLEY.

S. W. Newbanks moved into the hotel Monday.

C. A. Norvell of bard was up after a load of coal Monday.

A. H. Jewel and wife were Tucumcari visitors several days this week.

WANTED
Some second hand barbed wire. Enquire at Sentinel office.

Bring your contest work to this office.

W. V. Willis purchased two fine cockerels of Mrs. J. T. White Tuesday, to head his flock of poultry.

Mr. and Mrs. W. A. Bartles were San Jon business visitors Thursday and Friday.

Clyde Goforth was in after new seats for the Foster School house, which they have enlarged and are reseating with new seats.

C. O. Armstrong and J. A. Atkins have been helping Z. T. McDaniel, move into his new store-room, the past few days.

There will be no service at the Methodist Church next Sunday February 20th.

J. A. Kelly, Pastor.
We have a brand new, "NEW HOME" sewing machine to sell or trade. Machine has never been used. Enquire at Sentinel office.

J. A. Atkins, R. M. Wernet, and Alex Aston were Tucumcari business visitors Monday making the trip in the latter's car.

G. F. Nelson celebrated his 60th birthday on February 9th at his son's D. H. Nelson. A nice time reported there being thirty in attendance.

Price and John Cresap loaded a car of baled grain at this place the first of last week for shipment to Tucumcari. This makes the third car they have shipped this winter.

W. L. Scott and daughter Thelma were San Jon business visitors Saturday. Mr. Scott joined our large list of subscribers, paying in advance. He filed on a quarter section of land north of Bard, which he had won by contest.

TEACHERS OF THE SAN JON DISTRICT TEACHERS ASSOCIATION

At our last meeting we did not set any time or place for the next meeting, and anyone who is interested in the place of meeting, please find out what place wants it and let me know soon, so I can have the program published.

I do not feel like naming the place of meeting and wishing to have another meeting as soon as conditions are favorable, I hope some one will make it known where they want the next meeting held.

Respectfully yours,
Ira Stempic,
Dist. Chairman.

Born to Mr. and Mrs. H. M. Perkins a baby girl Tuesday February 15th. Mother and child doing nicely.

Messrs. Crecelius and Rodgers of the plains loaded a car of thrashed Maize the first of the week for shipment to the M. B. Goldenberg Co. of Tucumcari.

DEMOCRATIC STATE CONVENTION SET FOR MAY 24.

Judge Laughlin was elected chairman to fill out the unexpired term of J. H. Paxton. The convention will be held at Alderquero Wednesday May 24th.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Tucumcari, N. M. February 14, 1916.

Notice is hereby given that Jesse Brown, of Puerto, New Mexico, who, on July 26, 1913, made Enlarged Homestead Entry, No. 015671, for South Half, Section 35, Township 9N, Range 32E, N. M. P. Meridian, has filed notice of intention to make final three year proof, to establish claim to the land above described, before the Register and Receiver of the U. S. Land Office, at Tucumcari New Mexico, on the 23rd day of March 1916.
Claimant names as witnesses:
Valmy L. Morford, of Puerto, N. M.

R. P. Donohoo, Register.

CONTEST NOTICE

Serial No. 011397
Contest No. 5803
Department of the Interior U. S. Land Office at Tucumcari, New Mexico January 21, 1916.

To Mrs. Mattie Fairchild, widow of Jasper C. Fairchild, deceased, of Okfuskee, Oklahoma, and San Jon New Mexico, Contestee:

You are hereby notified that William R. Page who gives San Jon, New Mexico, as his post-office address, did on December 23, 1915, file in this office his duly corroborated application to contest and secure the cancellation of your Add'l. Homestead Entry Serial No. 011397 made May 13, 1909, for S½SE¼ Sec. 10 and W½NE¼ Sec. 15, Township 9N., Range 34E., N. M. P. Meridian, and as grounds for his contest he alleges that said entryman or his heirs or legal representatives have wholly abandoned the said entry for more than three years last past and next prior to this date, in that they have not cultivated any land on the said entry, or the claimants Original Entry during this time or kept up the improvements thereon, and said abandonment still exists and has not been cured, nor has patent to the said entry been earned either under the three or five year law.

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be canceled thereunder without your further right to be heard therein, either before this office or on appeal, if you fail to file in this office, within twenty days after the FOURTH publication of this notice as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant, either in person or by registered mail. If this service is made by the delivery of a copy of your answer to the contestant in person, proof of such service must be either by the said contestant's written acknowledgment of his receipt of the copy, showing the date of its receipt, or the affidavit of the person by whom the delivery was made stating when and where the copy was delivered; if made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed, stating when and the postoffice to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the postoffice to which you desire future notices to be sent to you.

R. P. Donohoo, Register.

THE PRAETORIANS WILL BE ORGANIZED IN SAN JON

—It is with pleasure we announce that THE PRAETORIANS will be organized in San Jon, Tuesday night February 22nd 1916.

DISTRICT MANAGER J. H. WOODRUFF.

—J. H. Woodruff, District Manager, of Clovis, is now in San Jon and will organize a good Lodge.

TWENTY YEAR PAY POLICY

—The MODERN ORDER OF PRAETORIANS is a Fraternal Order; but different from the ordinary Fraternal Order. The PRAETORIANS sell a 20 year paid up policy: Accident benefits in each policy with-out extra cost.

WOMEN ADMITTED

—Women are admitted on the same basis as men. All meet in the same Lodge Room. A man and his wife can both join.

Let Mr. Woodruff explain OUR different plans and special benefits to you.

THE PRAETORIANS HOME OFFICE, Dallas, Tex

C. B. Gardner, President. L. Blaylock, Vice President.

SAN JON DRUG STORE

Superintendent of schools E. Pack was a San Jon visitor Tuesday. Mr. Pack has been visiting the schools in the east part of the county and as our schools were closed he promised to visit here at a later date.

Mr. Homer Burton is down with pneumonia and his brother Leo has typhoid fever following an attack of pneumonia. They are making their home for the present with Fred Starkey, who lives on the D. H. Jones place. Dr. Boggs also reports Herbert Freeman, Harold Reynolds, and three children of Patricio Sanchez down with pneumonia.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHERRY & CO., Toledo, O.
Sold by all Druggists. Take Hall's Family Pills for constipation.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sunative Wash I am fully convinced that I am entirely cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

Tutt's Pills

enable the dyspeptic to eat whatever he wishes. They cause the food to assimilate and nourish the body, give appetite, and DEVELOP FLESH.

TAKES OFF DANDRUFF HAIR STOPS FALLING

Girls! Try This! Makes Hair Thick, Glossy, Fluffy, Beautiful—No More Itching Scalp.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any store, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. Adv.

Favors are seldom satisfactory. The best way is not to need them.

To quickly cool burns and take the fire out use Hanford's Balsam. Adv.

You learn to live when you begin to live and learn.

Makes Hard Work Harder

A bad back makes a day's work twice as hard. Backache usually comes from weak kidneys, and if headaches, dizziness or urinary disorders are added, don't wait—get help before the kidney disease takes a grip—before dropsy, gravel or Bright's disease sets in. Doan's Kidney Pills have brought new life and new strength to thousands of working men and women. Used and recommended the world over.

An Oklahoma Case

W. D. Carter, Co. 1st Regt., Okla., says: "I suffered years ago from kidney trouble. My back ached and I was lame and often the attacks were so bad that I couldn't bend over to lace my shoes. Mornings, I was as stiff as a board. My kidneys acted too freely, too. Doan's Kidney Pills restored me to good health and for a year, I have been free from kidney complaint."

OUTLAW REVISITS SCENE OF BATTLE

Tom Jones, Survivor of Doolin-Dalton Gang, Revives His Great Fight.

REFORMED IN PRISON

Finds Town Where Gang Made Headquarters Now Deserted—With One Exception He is Only Survivor of Famous Band.

Ingalls, Okla.—Tom Jones came back to this little town the other day and saw a lot of ghosts. He was a member of the Dalton gang in the old days, and took part in the fight here between 17 deputy United States marshals and six outlaws.

Tom Jones, known as Arkansas Kid, is the only survivor of the bandits in that battle. He served more than seven years in the penitentiary for his part of it. He was scarcely twenty years of age when he was captured. Because of the high standing of his family and the fact that he had been an outlaw only a short time he was finally pardoned. He became deeply religious while in prison and has lived an exemplary life since his release.

When the Cherokee Strip was opened to settlement in 1893 the inland town of Ingalls, in eastern Payne county, had hopes of becoming a city. The outlaw gang headed by Bill Doolin and Bill Dalton passed much of their time at Ingalls.

Place is Now Deserted. They had been cowboys on ranches in that part of Oklahoma long before the country was opened to settlement. Many of their old-time friends lived in Ingalls and in the surrounding country.

In their home communities the outlaws paid for all they got, respected social amenities, suppressed disorder, helped the poor and the sick, and in most instances were true to their friends. They let it be known, however, that any attempt at their betrayal would be punished by death.

Tom Jones shivered when he looked over the deserted townsite of Ingalls. Even the hotel from which he directed his Winchester fire upon the officers was gone—moved to Stillwater, where it is now occupied as a residence.

On that day Tom Jones saw Bill Dalton, Bill Doolin, Bitter Creek (George Newcombe), Dynamite Dick (right name unknown) and Tulsa Jack (Bill Blake), all in their prime. Looking southward toward Wilson creek, at

Curbed Their Plunging Horses to Fire More Deliberately.

the edge of the town, his fancy still possibly enabled him to see his desperate companions as they curbed their plunging horses to fire more deliberately at the deputy marshals from whose Winchester the white smoke was curling in the streets in Ingalls. The outlaws were escaping, leaving Jones surrounded in the hotel.

Taken by Surprise. Doolin, Dalton and their four companions had been in Ingalls nearly a month when the fight took place. On the day of the fight they were preparing to ride to the Cherokee country and get a large sum of money that had been brought from Washington for a tribal payment. Shrewd as they were, they were surprised by the deputy marshals who went from Guthrie and Stillwater to capture them.

As the toll of the dead and injured was taken after the escape of five of the outlaws, it became apparent that some person friendly to the outlaws had been shooting from an unknown point of vantage. A woman whispered to the officers that she had seen puffs of smoke coming from the roof of the Pierce hotel.

Standing on a table Tom Jones had punched a hole in the shingle with his Winchester. The hotel was north-east of the deputies in the streets. Jones had free range. His friends still deny that he killed any of the officers, and this, with his youth, was offered in his behalf at his trial.

He was tried and sentenced to 50 years in the penitentiary. With the exception of Emmett Dalton, Jones today is the only survivor of the Doolin-Dalton outlaw organization in Oklahoma.

No Boss. He—You always seem so self-possessed. She—Yes; I don't believe in getting married.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, spur bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at your druggist or from the store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.—Adv.

If a man was hurt every time he is scared he would never live to reach three score and ten.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

His Natural Tendency. "Dobbins, the big promoter, is going to spend the summer vacation at Gibraltar."

"I thought he couldn't be easy, even in his rest, away from some big bluff."

SALTS IF BACKACHE OR KIDNEYS TROUBLE YOU

Eat Less Meat if Your Kidneys Aren't Acting Right or if Back Hurts or Bladder Bothers You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

No Boss. He—You always seem so self-possessed. She—Yes; I don't believe in getting married.

AS SALADS SHOULD BE EVERY DETAIL MUST BE CAREFULLY LOOKED TO.

Smallest Thing That is Forgotten May Completely Mar the Savoriness of Preparations When They Go to the Table.

Salad depends for its savoriness on the minutest details of its seasoning. To be sure, the greens of which it is made must be fresh and crisp. But given crisp, fresh lettuce, watercress, escarole, endive or any other salad greens, the cook who understands the blending of seasonings can produce a savory salad at slight expense of time or money.

To begin with, vinegar holds many possibilities. It should be bland. Then, with a foundation of bland vinegar, the experienced salad maker concocts different flavored vinegars. In one bottle she puts a tablespoonful of celery seed, and fills the bottle with vinegar. After this has stood for a week it has a very good flavor. A few cloves of garlic are put into another bottleful of vinegar. A bay leaf is soaked in still another.

When mixing French dressing these various vinegars are used to give different flavors. They can also be used in mayonnaise.

A little crushed mint can be soaked in vinegar, just before it is used for French dressing.

Lemon juice, instead of vinegar, occasionally makes a delicious dressing when mixed with olive oil and seasoned with salt, pepper and cayenne. Add mace occasionally to French dressing.

Put a slice of onion under a little slice of bread in the bottom of the dish in which salad stands. This method keeps the onion from touching the salad and at the same time the onion flavor permeates the whole mass.

Add Worcestershire sauce to French dressing for a flavoring much liked by the English.

A little Roquefort cheese creamed into French dressing gives a rich flavor that some people like.

Chintz as an Armor in Household. The vogue for chintz in dress has led a young matron who does her own housework—and likes to look well while doing it—into making a set of work aprons and caps out of this decorative material.

The firm weave of chintz makes it an admirable dust-proof protection for gown and hair and keeps a fresh look. Chintz does not wrinkle easily, and if a gay all-over design be chosen, it will not look spotted for a long while. Dressed in her chintz apron and cap to match, the young matron looks pretty to a degree—more as though arrayed for some fancy dress affair than for mere work; a fact that makes work go gayly.

Her aprons cover her gowns entirely. They are tightly belted in at the waist and furnished with a commodious pocket. An apron and a cap striped in inch bars of dark blue alternating with a pattern of green leaves and yellow flowers on white background make her favorite chintz armor against dust and soil.

Best Fat for Cooking. Chicken, turkey and duck fat cannot be surpassed as a substitute for oil or butter in cooking. The large flakes from fat poultry, or the fat that rises to the top in making broth, should be saved and rendered. When ice cold, it closely resembles butter in looks and flavor. The skillful Italian and French cooks always use this fat when making the crust for chicken pie and in Italy one eats cauliflower that has been dipped in butter and then fried crisp and brown in this delectable fat.

Jellied Plum Pudding. Soak half a box of gelatin in cold water, dissolved, then add a cupful of scalded milk, half a cupful of sugar and strain. When cold beat till frothy and add the stiffly beaten whites of two eggs and a cupful of candied fruits cut in small pieces and soaked for an hour in rum. Drain the fruits before adding to the jelly. As the jelly stiffens fold in half a pint of whipped cream and a tablespoonful of sherry or brandy. Pour into a wet mold and chill.

Roast Beef East Indian Style. Fry an onion in a little butter till a golden brown, add a chopped green pepper and half a teaspoonful of curry powder. Then pour in the gravy or a cupful of tomato juice, also a few drops of Worcestershire sauce. Season to taste with salt and pepper. Cut the meat in neat squares and heat in the sauce. Do not allow it to boil, merely become heated through.

Smoked Salmon Canapes. Cut the salmon to fit small rounds of buttered toast, season with pepper and heat thoroughly. Serve with a garnish of watercress. It is well to cover the canapes while heating them, otherwise the salmon may become too brown. They are good appetizers.

Salmon Grab. One can salmon, one-half cupful milk, two eggs, one-half cupful cracked crumbs, salt and pepper. Beat yolks of eggs and then add the other ingredients, adding the beaten whites last. Bake one-half hour. Slice cold and serve with or without mayonnaise dressing.

No Time to Spare. "Now that the football season is over and it's rather too early for baseball, I guess our boy at college will be able to do a little studying," said Mrs. Dubwaite. "I'm afraid not," answered Mr. Dubwaite. "He writes me that his social duties have been sadly neglected."

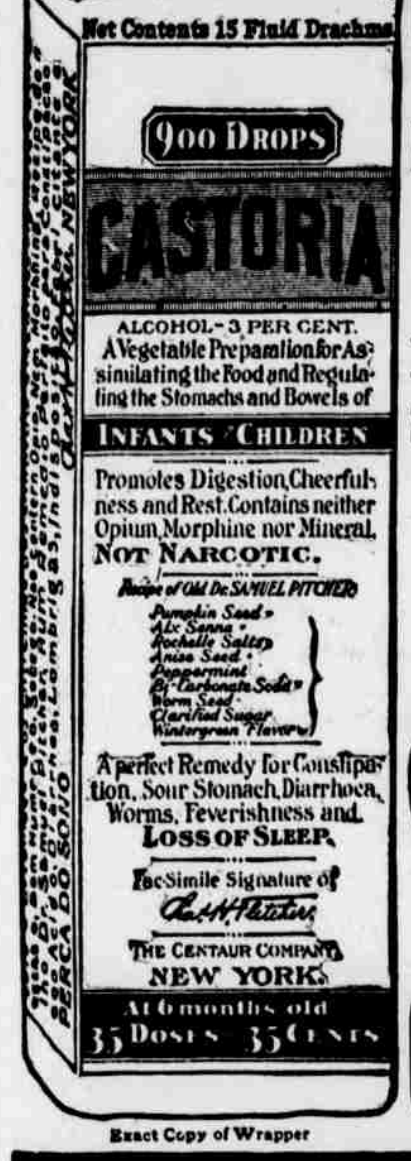

FOR BABY RASHES

Cuticura Soap is Best Because So Soothing and Cooling. Trial Free.

If baby is troubled with rashes, eczemas, itchings, chafings or hot, irritated skin follow Cuticura Soap bath with light application of Cuticura Ointment to the affected part. Nothing so soothing, cooling and refreshing when he is fretful and sleepless.

Free sample each by mail with Book. Address postal, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Good Advice. "Keep your eyes on the sky—not on the ground." "You mean that it is better to be a skyscraper than a muckraker?"

The Reason. Mrs. Jones—I haven't heard you speak of going to the mountains next summer; but then your lungs are not weak this year. Mrs. Smith—No, and they're not likely to be, unless my husband's business greatly improves.

PREPAREDNESS. Prepare for next washday by taking home Red Cross Ball Blue. Ask any good grocer. Red Cross Ball Blue imparts a clear white; makes you smile when you see the basket of beautiful, snowy white clothes. Red Cross, the blue that's true blue.—Adv.

Naturally. She—He looks prosperous, and yet you say he lives from hand to mouth. He—Yes; he's a dentist.

Ec-Zene Kills Eczema. Let us prove it. Accept no substitute. If your Druggist does not have it, write to Ec-Zene Co., St. Paul, Minn.—Adv.

Being a horn leader may have its advantages, but the man in the rear has a better opportunity to get away.

Exaggerated Peace. "Of course, you are in favor of peace." "Certainly. But I don't want to be equipped with nothing but arguments in case I meet the kind of man whose one idea of peace is to have all his enemies stowed away in a graveyard."

RECIPE FOR GRAY HAIR. To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any drug store can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and remove dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

Lots of men go where duty calls and stand around with their hands in their pockets after they get there.—Washington Star.

For sprains and bruises apply Hanford's Balsam thoroughly. Put it on and rub it in. Adv.

A bachelor says the best pet dog come in glass cases.

Mothers! Your cares in comforting the aches and pains of the family from youth to old age, are lessened when you use this old and trust-worthy remedy—

Sloan's Liniment

Bruises—Rheumatism—Neuralgia

Mothers: "Keep a bottle in your home"

Price 25c., 50c. and \$1.00

AMERICAN AIRMEN WHO AID FRANCE

Left to right: Sergt. Elliott Cowdin, Sergt. Norman Prince of Boston and Lieut. William Thaw, three American birdmen who, for daring deeds on the battlefields of France, have been decorated for bravery, and came back to the United States to spend Christmas with their folks at home. Each has received the military medal and the war medal, the latter being the French equivalent of the Iron Cross of Germany. Already they have returned to their duty at the front.

HITS POLAND HARD

Land of Graves Shows War's Greatest Desolation.

More Depressing Than Belgium or East Prussia is Picture of Ruin and Destruction Over Vast Area of Country.

Warsaw.—Even more depressing than parts of Belgium and East Prussia, the worst parts, is Poland—a land of graves and trenches, of ruin and destruction on a scale that has been wrought nowhere else by the war. The conflict has been waged back and forth across the ancient kingdom so long that agriculture has had but little chance, and, except in those sections where the German forces have been in control for some time, the fields are barren and unutilized, scarred by miles upon miles of earthworks.

From the East Prussian boundary to approximately the old Rawka positions there is visible the maximum amount of order and peaceful quiet. At the Rawka, however, the interminable graves with their helmet adorned crosses, the deep slashes in the earth that once were trenches but now are the temporary "homes" of countless refugees, the maze of partly destroyed barbed wire entanglements and the succession of burned and ruined villages begin.

For miles, between Alexandrovo on the boundary and Warsaw, and between Warsaw and Lodz, the old trenches line the railroad, while graves, individual and common, line the trenches. Eastward of Warsaw, however, the trenches virtually stop, for the Russians moved fast once they abandoned the capital of Poland. The trenches stop, but the devastated villages do not. Rather they increase in number, and there is scarcely a railroad station—and no bridges—left standing.

The Poles from time immemorial have been accustomed to building their thatched cottages—huts would be a better word—close together. Accordingly, it was necessary only to set fire to one structure in order to burn them all. In consequence, countless villages have been reduced to forlorn rows of chimneys, which, being of brick and stoutly built, resisted the flames.

Unlike the cities of Poland, the country seems to have been stripped of young men. One sees little else than peasant women, barefoot, ill clad, who struggle under bundles of wood through the mud, and who generally avert their eyes as strangers pass.

The Germans, partly for their own benefit, partly to give employment to the Poles, have done much to put the notoriously bad roads in shape. They have also altered the railroad from the Russian to the German gauge—a stupendous work, for all the main lines are now double track, and at important points huge yards have had to be built to conform to military needs.

The destruction in many parts of Poland is so general that village after village has no single house standing. Both soldiers and the civil population have had to rely on their inventiveness to obtain shelter, and all along the railroad lines freight cars, Russian and German, are being used as houses. In the case of the Russian cars the wheels have been removed, the cars have been set flat on the ground and the interiors fitted up with some degree of comfort.

Carried Baby 250 Miles on Back. South Bethlehem, Pa.—Joseph Danzko has arrived here after a remarkable trip from a northern Canadian town. Danzko carried his ten-month-old baby 250 miles on his back, Indian style, and sustained its life by feeding it with crackers and water.

LIVE LIKE ADAM AND EVE

Spend Two Months in Maine Woods to Prove Man Can Survive in Wilderness.

Boston.—The weather sometimes gets cold in the Maine woods. In fact, it is said the mercury hibernates in the thermometer bulbs when the spruce trees start popping. And there are wild animals there, too—deer, porcupine, rabbits and even bears. There is no steam heat and there is not a delicatessen about the place.

But all these things did not prevent Walter F. Estes and his 114-pound wife from proving to their friends that they could live in the woods for two months, kill their own food and provide their own clothing, and come out in better health than when they went in.

The lives of Omg and his mate Ik of the paleozoic age were copied by the Estes couple. In the warmer weather when they first entered the forest their clothing was made of leaves and vines. Then came winter's blast and snow and ice. They wore then the skins of deer and other smaller animals they had caught in deadfalls. Mrs. Estes, by the way, was responsible for the first deer capture. One had run afoul of their trap and, when she discovered it, the animal was about to escape. Mrs. Estes flung her arms about its neck in true primitive style and hung on, too, until her mate arrived.

The flesh of the animals they trapped, with fish, nuts and herbs, made up their menu for the two months. Mrs. Estes came back to civilization—centered in Boston in this case—heavier, and insisting that woman can stand hardships today just as well as her "superior" mate.

SPELLING CAUSES HER GRIEF

Never Having Used Final "e" in Spelling "Corps" Woman Misunderstands Message.

Portland, Ore.—Never having used the final "e" in her own spelling of the word "corps," Mrs. Marceline Germain of Donaldson, Mich., was prostrated with grief upon receipt of an official communication announcing the fact that her brother, Joseph Eli Jollicœur, had joined the United States marine corps and had named her as next of kin to be notified in case of death.

"If my brother is a corps, of what did he die?" she wrote to Capt. H. T. Swain in charge of the local recruiting station of the United States marine corps, who had enlisted the man and was responsible for the notification. The recruiting officer, by return mail, made the sorrowing sister cease mourning, and assured her that the "corps" to which her brother had lately attached himself was the "livest" kind of an organization.

IN DARING ESCAPE

Interned British Naval Officer Flees From Denmark.

Takes Back Promise Not to Try to Escape, Then Makes Get-Away While Doubly Guarded Day and Night.

London.—Lieutenant Commander Layton, a British naval officer who was interned at Copenhagen, has just made his escape in exciting circumstances, and arrived here.

At first he was allowed by the Danes a fair amount of liberty on parole, but a few days after his internment began he went to the commandant of the barracks and told him he wished to take back the word of honor he had given not to try to escape.

The commandant, interpreting this as an intimation that he would endeavor to escape, told Layton that he would have to have him very closely watched. His quarters were placed under double guard, and there always seemed to be three or four sentries watching his movements. The prospect of escape seemed small, and, to make matters worse, Dayton was seized with a violent influenza cold, which prostrated him for the time being.

Two sentries stood at the door of his room, and they never seemed to relax their vigilance. They were constantly looking through the peepholes in the door of Layton's room, to see that matters were all right.

They did it as usual on the particular evening that he escaped. Things were apparently quite in order, and their prisoner was apparently lying on the bed. As a matter of fact, he was not, and at a moment when the attention of one of the sentries was engaged and the other had been sent on an errand, Layton opened the door and slipped into another room, where he found a thick serge civilian suit. In due course he found himself at a window overlooking the street, and with a rope which he had discovered he lowered himself into a street.

The barracks were on an island, and for better security patrols had been placed everywhere. The escaping officer met two of them, but succeeded by a ruse in passing them.

His next obstacle was the canal. The night was dark and bitterly cold, there being several degrees of frost, but, clothed as he was, Layton took the most direct course, and swam for it. In spite of the fact that he was still suffering from influenza he did this successfully, and having got to land, he took off his clothes and wrung them out, so as to show no obvious signs of water.

On the ferry boat he turned himself into a porter, and managed to get a job of carrying a passenger's bag to the station. There he boarded a train, and in due course reached the dockside, where he caught a train to Christiania.

He used several disguises during the remainder of his voyage to Christiania, just succeeded in escaping detection, and finally sailed from Bergen to England. On the boat to England a passenger asked him if it was true that he was an American. He replied that he was, whereupon his fellow-traveler remarked:

"If you were not so darned sure about it, I should say you were a British naval officer."

When the travel-stained young Englishman, without money, presented himself before a transport officer at the British port, he was not unnaturally looked upon with suspicion, but he was soon able to establish his identity.

INSISTS KAISER HAS CANCER

Matin Says Artificial Palate Was Considered by French Specialists Before War.

Paris.—The Matin revives the story that the kaiser is suffering from cancer. The paper says a telegram displayed at Zurich on December 24 said that the court physicians at Berlin were of the opinion that the kaiser's illness is due to a fresh manifestation of cancer.

The Matin adds that a practitioner living in Paris was consulted by the German emperor three months before the war concerning the manufacture of an artificial palate if a serious operation on the kaiser's throat were necessary.

SILVER DOLLARS BY MAIL

Ten, Sent One Year Apart, Have Gone Through to Destination Without a Mishap.

Federalburg, Md.—About ten years ago Henry P. Wright of Aberdeen began sending to his sister here, Mrs. Mary Fleetwood, a silver dollar through the mail as a Christmas present. Recently the annual dollar arrived with Mrs. Fleetwood's address on one side and a two-cent stamp on the other. In the ten years that Wright has been sending these unique remembrances to his sister not one has been lost or stolen, neither has it failed to arrive on time.

Home-Made Wireless Kills Girl.

Astoria, N. Y.—Mary Roskingsy was electrocuted when she came in contact with the aeriels of an amateur wireless instrument in her employer's home. The aeriels had crossed with a wire of the electric light plant, which had sagged as a result of a storm.

WASHINGTON GOSSIP

Internal Revenue Secret Service Is Doing Well

WASHINGTON.—The new "secret service" of the United States bureau of internal revenue has been in full operation for several months. Placed upon a permanent basis by an executive order of the secretary of the treasury, the "flying squad" of special agents is becoming one of the most picturesque of the many government organizations charged with secret duties.

The official statement announcing the permanent organization of this body stated that the success of a temporary body of secret service agents had demonstrated the value of such a force. Through the activities of the organization the bureau has unearthed many frauds against the government which might otherwise have gone undetected. The statement continued:

"These officers will be the personal representatives of the commissioner and, in fact, will be his eyes and ears throughout the country. Violators of the law, or unfaithful employees of the government, if there be any, will not know when the eyes of the commissioner are upon them.

"These agents will be sent into any part of the country where the commissioner has reason to believe that fraud is being committed which it is impossible for the regular revenue officers to uncover. Revenue officers are largely known in their districts, and a strange, unidentified person may be able to detect irregularities where regular officers may fail.

"This action reduces to permanent form the temporary policy which has been followed and which has unearthed numerous frauds on the revenue. It was through the work of a number of similar agents temporarily appointed, that the vast oleomargarine frauds were brought to light. The organization of this force is no reflection on the regular internal revenue force, but is intended to promote the general welfare and efficiency of the service."

Introduction Broker Busy in National Capitol

SENATORS and members of the house have been discussing with surprise, not to mention indignation, a report that an "introduction broker" has been doing a thriving business in the capitol since the beginning of the present session. As in cases of the numerous petty grafters who infest the capitol, it has been found extremely difficult to catch this man "with the goods."

Quotations on introductions, according to the gossip, were \$25 for a senator and \$5 for a member of the house. The rates are varied in accordance with the influence of the senator or representative to whom the introduction was sought and the poignancy of the desire of the person seeking the introduction. It is understood that a cabinet officer may be met in this formal way for \$100, although contracts of this character are taken, it is said, on a contingent fee of smaller proportions, because cabinet officers are not so available as members of congress.

This operator was doing very well until he tried to "take in too much territory." He agreed to introduce a client to a certain public man. They reached the man and when the introduction was accomplished, the public man turned to the introducer and asked him his name and whom he represented. This made the client suspicious and he subsequently told all about the "broker."

Washington has a number of characters of this type, some of whom work among the politicians and others among society folk. As in every other city where society plays a big part, there are innumerable society brokers in Washington. They work a bit more cleverly than the "introduction broker" of the capitol, but they work more slowly.

Old Glory Now Being "Made in America" of Cotton

OLD GLORY, to which the patriotic American doffs his hat as typifying the spirit of America, is in about nine cases out of ten not a domestic article. For ever since Betsy Ross made her first American flag, the official emblem of the country and all its auxiliary banners that fly from thousands of public buildings, army posts and ships' masts have been made of woolen bunting—practically all of it imported.

In the future, however, a large proportion of the government's flags will be "made in America," from the planting of the fiber to the sewing of the last stitch in the completed banner. This is assured by the action of the general supply committee of the government in listing specifications for cotton flags side by side with those for woolen bunting which has heretofore appeared alone; and by the announcement of the treasury department, one of the heaviest users of flags among Uncle Sam's family of departments, that it will in the future use cotton flags almost exclusively.

The action of the supply committee is not one of patriotism alone. When the European war put a stop to the exportation of cotton and there was agitation for putting the South's staple crop to new uses at home the committee became interested in the possibilities of cotton flags, but determined on rigid tests before any action should be taken. Cotton flags were therefore made up and placed on several of the revenue cutters, and samples of cotton-flag goods were sent to the United States bureau of standards for tests. Both kinds of tests were highly favorable for cotton. The flags stood the strain of constant use in all kinds of weather as well as flags of wool, the report from the revenue cutter service said.

White House Mannequins in the National Museum

RECENTLY there has been placed on view in the National museum a series of lay figures representing the mistresses of the White House under successive administrations running back to Martha Washington, who appears in a gown she used to wear, seated in one of her own chairs, by the side of a Mount Vernon table.

For a modern contrast, Mrs. Grover Cleveland is attired in a wonderful frock of white silk sprinkled over with full-blown roses, the arm loops and upper edge of the corsage decorated with big butterflies of gold and glittering sequins—about a dozen of the gorgeous insects in all, one of them adorning the bosom.

Recent visitors to the museum, as might be expected, find this exhibit remarkably interesting. But sometimes they are critical of the likenesses of the White House ladies. While admitting that many of them are good, they think that others are not first rate.

Back of all this there is a real joke, for, be it understood, the faces of the White House mistresses are not meant to be likenesses at all. In fact, their faces are all the same face, the original of which is the face of a classical statue.

So far as the features are concerned, Martha Washington, Mrs. Cleveland, Mrs. Taft and all the rest are one woman. The important difference is in the arrangement of the hair.

The idea of the exhibit is not to offer a series of portraits of the women concerned, but to show the costumes they wore—these, as a collection, affording a most useful study of phases of fashion in feminine attire as they have succeeded one another since the days of the revolution.

All of the gowns that adorn the lay figures were actually worn by the White House mistresses represented; and even the minor accessories, such as fans, handkerchiefs, tables and chinaware, were personal belongings of the ladies themselves.

BEST SOILS FOR DRY FARMS

Silt and Sandy Loams Do Not Blow Readily and They Absorb and Retain Moisture Well.

(By ALVIN KERER, Colorado Agricultural College, Fort Collins, Colo.)

The best soil for nonirrigated farming are silts and sandy loams, as they do not readily blow, they absorb rainfall readily and retain it well. They do not bake and crack easily. Heavier soils such as the clays and adobes are more difficult to work and require more effort to prepare and keep them in shape for the retention and reception of moisture.

No matter what the texture, the soil must be deep and uniform. A soil consisting of a sandy loam or silt surface, over a permeable clay subsoil, is good, but a layer of sand, gravel, magnesia, gypsum, hardpan or porous rock in the subsoil, closer than six feet to the surface, practically makes the field unfit for this purpose. One foot depth of soil will rarely store more than one and one-half or two inches of rainfall or water. Six feet of soil will not store over twelve inches of rainfall.

A soil which will not store a considerable number of inches of rainfall will not stand long, dry spells, and these are expected to occur in nonirrigated regions.

COVER FOR THE STRAWBERRY

Mulch Needed to Prevent Damage From Alternate Thawing and Freezing and Winter Drought.

Covering strawberry plants is always essential in the semiarid climate. Among the materials suitable for the purpose are straw, slough-grass, sorghum, alfalfa, leaves, corn stalks, manure, etc. The most satisfactory covering is clean straw and wheat or rye straw is more satisfactory than oat straw. Be sure that it is free from the seeds of troublesome weeds. A fine and clean-kept berry bed is often made foul by having weed seed planted in it from the winter covering.

Slough hay makes a very satisfactory covering when it may be had, but as it is rather coarse and is apt to give trouble it is hardly as desirable as straw. In many localities where neither straw nor slough grass may be obtained in sufficient quantities, sorghum and corn are often used.

Protection is needed for two purposes. The first is to prevent killing by excessive freezing. This is not the principal one in this country, however, as especial attention is needed to prevent loss or damage from the alternate freezing and thawing as well as the winter drought.

INSURE ROTTING OF MANURE

To Keep Up the Fertility of the Dry Soils, More Humus-Producing Crops Must Be Grown.

Many years in the dry region of the West there is too little rainfall to insure thorough rotting of the manure. This of course means that in the drier years the manured soils will dry out badly, causing the crops to fire from drought. If the vegetable matter of the manure has been rotted sufficiently to produce humus the soil is all the better able to resist the dry period.

To keep up the fertility and drought-resisting quality of our dry soils it is necessary to grow crops which produce more humus than they consume. The grasses, alfalfa, and sweet clover are such crops. What barnyard manure is produced can be more profitably used as a top dressing for these crops. This can be accompanied by a system of crop rotation, in which grasses, alfalfa or peas alternate, as pastures or meadows with the cultivated crops.

MANY BENEFITS OF PLOWING

Stirs Surface of Soil Thoroughly and Puts it in Condition to Catch Any Rain That Comes.

From tests that have been made plowing has been better for storing moisture than disking. If heavy rains fall the increase in moisture content of plowed land over disked land is greater. This is to be expected, since the plowing stirs the surface of the soil more thoroughly, and puts it in better condition to catch any rain that comes. The plowing also will kill all weeds.

The disk does not in all cases do this. It may be preferable—if a soil does not blow when it is fall plowed—to plow the stubble fields instead of disking them. This, however, is frequently impracticable, due to the dryness of the soil. Listing the soil has been almost as good as plowing. We have not, however, made many tests to determine the effect of listing.—Nebraska Station.

Heel in Fruit Trees.

Fall delivery of fruit trees is not to be advised in the Northwest, but if you have purchased some, heel them in carefully over winter. Take the trees out of the bundles and cover them in a trench, tops and all, with earth, and then spread a good mulch of straw all over them.

Snow Traps Save Moisture.

If the farm fields were surrounded with snow traps much moisture would be saved to the soil that is now largely wasted.

Ventilate the Stable.

Horse stables should have good ventilation and be dry. Small, dark, damp stalls full of smells cause all sorts of sickness, and often blindness.

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the wheels out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Shiftness people are never the ones who worry about it.

One remedy with many uses—Hanford's Balsam of Myrrh. Adv.

Advice.
"My capital is brains."
"You'd better compromise with your creditors."

COVETED BY ALI
but possessed by few—a beautiful head of hair. If yours is streaked with gray, or is harsh and stiff, you can restore it to its former beauty and luster by using "La Creole" Hair Dressing. Price \$1.00.—Adv.

During the Bugmore.
The Golf Insect—Where did the Beetle fall off his game, caddie?
The Caddie Insect—At the seventh hole, sir; he lost four strokes getting over an anthill.

HAD PELLAGRA; IS NOW CURED

Hillsboro, Ala.—J. W. Turner, of this place, says: "I ought to have written you two weeks ago, but failed to do so. I got well and then forgot to write you. I can get about like a 10-year-old boy; you ought to see me run around and tend to my farm. I can go all day just like I used to. I am so thankful to know there is such a good remedy to cure people of pellagra."

There is no longer any doubt that pellagra can be cured. Don't delay until it is too late. It is your duty to consult the resourceful Baughn.

The symptoms—hands red like sunburn, skin peeling off, sore mouth, the lips, throat and tongue a flaming red, with much mucus and choking; indigestion and nausea, either diarrhoea or constipation.

There is hope; get Baughn's big Free book on Pellagra and learn about the remedy for Pellagra that has at last been found. Address American Compounding Co., Box 3082, Jasper, Ala., remembering money is refunded in any case where the remedy fails to cure.—Adv.

I know of no surer medium than boxing for putting the right smack of confidence into a man.—Mr. Eugene Corri.

"Money Back" Medicine.
Our readers never risk a cent when they buy Hanford's Balsam of Myrrh because every dealer in this liniment is authorized to refund the money if the Balsam is not satisfactory. Adv.

The Reason.
Quiz—I wonder why motor boating is so much more sport than automobilizing?
Whiz—Because out here there are no trees or fences for 'em to climb.

SAVED MINISTER'S LIFE.
Rev. W. H. Warner, Frederick, Md., writes: "My trouble was Sciatica. My back was affected and took the form of Lumbago. I also had Neuralgia, cramps in my muscles, pressure or sharp pain on the top of my head and nervous, dizzy spells. I had other symptoms showing that my kidneys were at fault, so I took Dodd's Kidney Pills. They were the means of saving my life."

Dodd's Kidney Pills, 50¢ per box at your dealer, or Dodd's Medicine Co., Buffalo, N. Y. Dodd's Dyspepsia Tablets for indigestion have been proved, 50¢ per box. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free.—Adv.

Brutal Frankness.
"I came within an ace of having a fight with a pacifist this morning."
"You surprise me. Evidently he was not sincere."
"Oh, yes. That was the trouble. We were both sincere. I told him exactly what I thought of a pacifist and he proceeded to tell me exactly what he thought of an apostle of preparedness."

SMOCKING WELL LIKED

DAINTY ADORNMENT POPULAR WITH ALL.

Grown-Ups as Well as Children Have Their Garments So Beautified—Developing Color Sense in the Little Ones.

That charming art of smocking is very prominent this season, and both grown-ups and children wear garments that are daintily smocked in self-stitching or contrasting colors. Loose wraps, particularly are often smocked and this work not only makes the wrap set well, but serves as an adornment, too.

Perhaps from association of ideas, and perhaps from the very daintiness of the needlework, smocking has always been considered especially appropriate to and undoubtedly is ever becoming to little children. The dress illustrated gives a very simple smocked dress, with smocking at the wrist as well as around the yoke. Some lovely little blue and pink frocks are smocked with white, and vice versa and a mother with a sense of the artistic will add sash and hair ribbons to match the color of the smocking.

The writer saw one little girl lay her ribbons upon the stripes in her school frock and pick out the shade that matched the stripes she considered most effective. The child's sense

The Fashionable Smock.

of color was perfect and her choice always the best. Any little tot may be taught a color judgment by giving it the ribbons it is to wear and teaching it to match those ribbons, or harmonize them, with some color in its frock. The dress illustrated may be gathered and not smocked, if the mother likes.

Leather-Toned Duvetyn the Mode.
There is a soft leather tone in duvetyn that looks like suede which has crept in among the other street tones and which is very much liked; it is especially effective in top coats that are worn over black and dark blue gowns, and it lends itself easily to skunk for collar and cuffs.

GIVE STIFFNESS TO SKIRTS
Parisian Modistes Are Making Much Use of Crinoline and Haircloth in the New Styles.

Regarding skirts, aside from their greater width and their maintenance of short lengths, the most remarkable feature about them is the use of crinoline and haircloth. The latter have actually arrived. For many weeks and months there have been rumors to the effect that they were on the way; and at last these rumors have been substantiated in many of the dresses from Paris to America and recently exhibited.

A model from Jeanne Lanvin, for instance, uses black malines in countless yards, cut in flounce arrangement and mounted over crinoline without any interposition of satin or other softening material. The malines is gathered very freely and thereby partly conceals the unlovely foundation. The hem of the crinoline is stiffened with an inch-wide band of haircloth, also uncovered.

The skirt shows two flounces mounted over the stiffened foundation. The malines forming the flounces is striped around by bands of black satin ribbon, whose edges are defined with white crystal beads. These ribbons are again used on the blouse, hanging free from the edge of the semicircular and serving to break the stiff line of the mode—which, by the way, the designer calls Velasquez.

The truly Spanish feature of this frock, aside from its farthingale suggestion, lies in the odd collar of closely plaited white mousseline which is placed across the front of the gown

DESIGNED FOR WARM DAYS

This charming set of hat, cushion and workbag are primarily designed for the lazy days at Palm Beach, when one can sit on the sand, and while watching the waves be engaged in sewing shirts for soldiers or other good deeds accomplished with needles and thread. The entire combination is of old rose. The sweater is one of old rose and white stripes. The hat is an old rose creation and the skirt is a white corduroy one.

HELPS IN THE SEWING ROOM

Small Hints That Will Be Appreciated by Matron Who Has Work to Do at Home.

A plain, broad hem is always an effective finish to a tea or tray cloth. It will stand repeated launderings, and is far better than using a cheap lace or badly worked crochet edging.

Any piece of fancy work will show to the best advantage if care is taken in matching linings, ribbons or cords used in the making up. Do not be content with a shade that is not exactly right.

Have you tried coffee grounds as a filling for pincushions? They should, of course, be well dried and packed very tightly into the case. Needles and pins kept in such a cushion will not rust.

The old-fashioned emery cushion is a most useful possession to the needlewoman, especially when working in hot weather. Passing a needle through an emery cushion two or three times polishes it, and makes it pass through materials smoothly.

Crocheted laces and edgings will set better if they are shrunk before being sewn to the article to be trimmed.

Black and White.
Hats of black and white continue to command their share of popularity, and street hats of black velvet or satin are trimmed with white plumage, black and white striped ribbon, white braid or white beaded birds or flowers.

Unbleached Muslin Spread.
Every woman likes to own a handsome spread, but the majority of spreads call for such expensive materials that few women can afford to indulge in the luxury. However, here is a spread which is within almost every woman's reach. It can be duplicated for about five dollars. The spread is made of unbleached muslin. All over its surface conventional scrolls are outlined by means of huge French knots. On the spread in question white knots are used, but there is no reason why one could not use colored cotton to carry out the color scheme employed in one's bedroom. The edge of the spread is finished with cotton fringe.

In place of a quilting party, why not have a spread party? The work will then be quickly and pleasantly done.

Skirts Cover Boot Tops.
Skirts are short, but not too short, which means that for the street they cover at least the upper edge of the buttoned boot. Dancing frocks, worn with slippers, may be a trifle shorter. In many instances outer tunics of chiffon or indestructible voile fall several inches below the foundation skirt of silk or satin, and the ankles appear to be covered until one glimpses the smart buttoned boots through the transparent tunic.

INCREASE FARM CROPS

Interesting Experiments in Crop Rotation in Wisconsin.

Plan Outlined to Determine Value of Drainage—Tiled Land Can Be Worked Much Earlier in Spring—Best for Truck Crops.

A series of very interesting experiments in crop rotation were made several years ago in Wisconsin, to determine the value of drainage. The following plan was adopted:

In the fall of 1910 a field containing a little less than six acres was tiled. The land for the most part was very wet and in the natural condition timothy hay would not grow on the greater part of it. Hedges grew on at least half of the field. Another field of about the same area and possessing about the same degree of natural drainage, was used as a check on the tiled land. Exactly the same kind of crops were grown, and the same treatment was given to the two fields so far as possible. Surface drains were provided in both cases. This land, both tiled and untiled, had been in meadow for ten or twelve years and consequently was in a poor state of fertility. This was especially true of the higher and better-drained parts.

The effect of draining was very marked in 1911, due principally to the fact that the tiled land could be worked considerably earlier in the spring. The differences ranged from 25 to 100 per cent in favor of the tiled land. In 1912 the effect of tiling was not quite so marked, as the dry weather of that year permitted of better drainage on the untiled land. The laterals were placed about seventy feet apart and were not laid in regular order, but more in the order of what is sometimes called the "natural" system of tiling. The depth varied from 1.8 feet to 3.5 feet.

On this land a four-year rotation was established as follows: Clover,

Tiled Field, Showing Method of Growing Four Crops on the Drained and Undrained Areas.

one year; mixed hay, one year; cultivated crops, one year; and small grain seeded to clover, one year. The results showed an increase in all crops, the greatest increase, however, being shown in the cultivated crops. The average value in increase for the cultivated crops was \$14.07, and for the grain crops \$2.84.

For raising truck crops on land near a city it is especially desirable to tile. This will apply to such crops as potatoes, sweet corn, cabbage, rutabagas, strawberries and the like. Where potatoes are raised, more than half the cost of tiling will be recovered in one season.

PUREBRED STOCK IN DEMAND

When Pork Market is Low is Best Time for Buying Breeding Stock—Hogs Are Cheap Now.

When hogs are high there is a big demand for purebred stock. Breeders get more money because the pork value of their hogs makes them independent of the cheap buyer and because the demand is sufficient to take all their stock at good figures.

When hogs are low the demand for purebred stock falls off, and breeders are compelled to sell for less than when market hogs are commanding good prices.

So when the pork market is low, when the demand is least for breeding stock, is the best time to invest in purebred hogs. Just now hogs are cheap and breeders have a surplus for sale at reasonable prices. And now is the time to "go to it" and stock up with purebred hogs.

Don't wait till everybody wants them. Get them now and be ready with a surplus of your own for the time when everybody wants them.

That time will come as surely as night follows day.

Attacks Fat Hens.
"Bagging down behind" is usually caused by the retention of eggs in the oviduct, followed by inflammation and tumor. When hens get too fat, eggs are often broken in the passage, and cause the same disorder. The tumors sometimes grow to enormous size, weighing the hen down. The presence of a male bird when a hen is in such a condition will aggravate the trouble.

Clean Wallows.
Add to the hog's comfort and aid him in bringing you a profit by providing a clean wallow in the shade, pouring a few gallons of good dip into it occasionally to smite the pesky lice.

The Horse's Walk.
The evenness with which a horse walks is one of the best evidences that the legs work in harmony.

CLEANING UP FIELD STONES

Problem of Vital Importance to Many Farmers—Drag Made Along Lines Shown is Practicable.

How to get rid of surplus field stones with the least labor is a problem of vital interest to many farmers. While clearing up a stony farm we have tried out many ways of handling the work. At one time we built a special tool for gathering up small stones, says a writer in Rural New Yorker. It was, in effect, an "A" drag, with the wide opening ahead. The stones and clods are left in windrows about seven feet apart. When hauling away the windrows the wagons can be loaded from both sides. A few years ago we cleared an excessively stony field of seven acres at a cost of \$35 for the time of the men employed. As made by us the tool was not entirely satisfactory; but the idea seems so well

Device for Raking Stones.

worth developing that we give full details. We found a 3 1/2-inch clear space between teeth was too wide, and halving it by inserting more teeth made the teeth too close. A clear space of 2 1/4 inches would be about right. The teeth should be heavy enough to be rigid. We used half-inch steel rods and had so much trouble with the teeth bending that we finally abandoned the use of the tool. The teeth should have a length of eight inches in the clear. We found trouble in adjusting the hitching to conform to varying conditions of soil, the drag tilting forward or backward too much. We believe that a drag made along the lines indicated and provided with wheels at the corners would be a good practical tool for clearing ground of small stones, provided the soil can be first put in good condition. It would be pretty expensive on lumpy ground.

WORK IN THE FARM WOODLOT
Location Will Depend Upon Various Conditions—Forest Culture Requires Intelligent Work.

Forest culture is as much of an art as is corn culture. A good woodlot, like a good corn field, is the result of applying intelligent methods to produce a full, valuable crop. A corn field with fall spots, empty hills, feeble stalks, and half-filled ears is neither a credit to the farmer nor a paying investment for the farmer. No more is a woodlot half stocked with inferior trees. When timber is cut is the time of all times to apply forestry. The way in which the cutting is done will determine what the subsequent condition of the woodlot will be.

There is a difference between farm woodland and the farm woodlot. Farm woodland is farm land which has not yet been cleared. Farm woodlot is a term which might best be used to mean a part of a farm permanently devoted to timber production, under a sound plan of farm management. The size and the location of the woodlot will depend upon various considerations, of which the most important are the home needs of the farm, the character of the land, and the present and prospective market for material from the woodlot.

NEEDS OF GROWING ANIMALS
Large Amount of Protein Should Be Supplied as Substance Builds Muscle, Hair and Hide.

A growing animal needs a large amount of protein, for this substance builds the muscle, hair, hoofs, horn and hide. Fat is not so essential in the life of a young animal.

The Wisconsin experiment station has shown that in calf feeding two pounds of grain are equivalent to a pound of butterfat, and is much cheaper. Calves fed on skim milk may not be rolling in fat, but in the production of dairy animals this is not necessary for thrift and vigor.

The colostrum milk is necessary to cleanse the calf's digestive tract and to stimulate digestion. The calf may be taken away from its mother as soon as born, provided it is fed the whole milk from its own mother or it may be allowed to run with its dam for two or three days. At the end of two weeks gradually substitute skim milk until the whole milk is entirely displaced. Nine to twelve pounds of whole milk is sufficient at first and should be fed in several feeds during the day. This may be increased gradually until 20 pounds of skim milk is being fed daily.

Calf Feeding.
Do not feed milk in a tub or trough to calves. One calf will often drink twice as fast as another. One gets too much and has indigestion. The other does not get enough and is poor. Make stanchions to hold the calves and feed them carefully.

The Horse's Walk.
The evenness with which a horse walks is one of the best evidences that the legs work in harmony.

STOMACH MISERY GAS, INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, or foul breath.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

Only a great man can successfully dodge undeserved praise.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. First application gives relief. See

An average man breathes about 21 cubic feet of air into his lungs every hour.

IMMEDIATE ATTENTION
should be given to sprains, swellings, bruises, rheumatism and neuralgia. Keep Mansfield's Magic Arnica Liniment handy on the shelf. Three sizes—25c, 50c and \$1.00.—Adv.

Radical Departure.
"Just a word, young man," said the owner of the store.

"Yes, sir."
"If a customer knows what he wants, sell it to him. I know that a star salesman can always sell him something else, but I have a theory that it will pay just as well to sell him what he wants."

No Wonder They Laughed.
A man in telling about a wonderful parrot hanging in a cage from a window of a house which he often passed, said:

"It cries 'Stop, thief,' so naturally that every time I hear it I always stop."

He couldn't understand why his friends began to laugh.

Three Forms of Anthrax.
Anthrax may occur in human beings in three forms—external, intestinal or pulmonary. The external form is caused by an abrasion of the skin coming in contact with a hide or other object infected with the disease. Intestinal anthrax may be caused by the eating of food containing the bacilli, and the pulmonary variety by breathing infected air.

This latter disease has long been known as "wool sorters' disease" in England, where great quantities of sheep pelts are sorted and graded. The disease has also long been well known in the wool and hide trades in this country, and especially on the sheep ranges of the southwest.

PRESSED HARD
Coffee's Weight on Old Age.

When people realize the injurious effects of coffee and the better health that a change to Postum can bring, they are usually glad to lend their testimony for the benefit of others.

"My mother, since her early childhood, was an inveterate coffee drinker, had been troubled with her heart for a number of years and complained of that 'weak-all-over' feeling and sick stomach."

"Some time ago I was making a visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat unusual flavor of the 'coffee' and asked him concerning it. He replied that it was Postum."

"I was so pleased with it that I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family liked it so well that we discontinued coffee and used Postum entirely."

"I had been very anxious concerning my mother's condition, but we noticed that after using Postum for a short time she felt much better, had little trouble with her heart, and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was well and hearty."

"I know Postum has benefited myself and the other members of the family, especially my mother, as she was a victim of long standing." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c packages. Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup. "There's a Reason" for Postum. —sold by Grocers.

BEST OF CANDIED FRUITS

Many Delicious Varieties That May Be Put Up at This Time of the Year.

Seasonable fruits for preserving just how are sicken pears, sections of oranges, bits of pineapple and grapes. A sirup is made from two cupfuls of sugar, one cupful of water, and one-eighth teaspoonful of cream of tartar. This is boiled until it will make a soft ball when tried in cold water. Then the fruit is dropped in sufficient to cover the surface of the sirup. In about ten minutes this should be skimmed out and more fruit put in until all is cooked. Tender, juicy fruits may not take quite ten minutes, while hard pieces like pineapple will probably take longer. Care must be taken not to puncture the outside covering of any sweet, juicy fruit, as the sirup will not candy if the juice becomes mixed with it.

When all the fruit is cooked it should be drained and allowed to lie in granulated sugar till dry.

Amber jelly is another delicacy out of the ordinary that can be made at this time of year. The ingredients are one grapefruit, one orange, one lemon and granulated sugar. The fruit is peeled, being careful not to remove the white pulp with the skin. This must be saved for the pectin (jelly-making substance) it contains.

After peeling, the fruit is cut into lengths, removing the white center of the grapefruit, which is very bitter. The pulp with the skin of the orange cut fine is measured, and to each cupful of pulp a cupful of water is added. This is put over the stove and boiled for five minutes. Then hot water is added equal to one-quarter the amount of water originally added. When this comes to a boil the kettle is removed from the stove and the contents measured. To five cupfuls of the pulp four cupfuls of sugar is the right proportion. This is boiled for 45 minutes, then poured into jars and sealed.

THREE HINTS FOR HOUSEWIFE

Excellent Use for Discarded Feather Bed—Broken-Needle Holder in the Work Basket.

A good use for discarded feather beds is to put a small portion of the feathers into a tick made of muslin the size of the bed. Spread the feathers evenly, tack the case on quilting frames, cover both sides with silk-lime, and knot or tie as you would a comforter. A most excellent substitute for a down quilt is the result.

For a broken-needle holder for the work basket use a small, round bottle about two inches long, with a plain crocheted covering of silk of any desired color, and cover the mouth of the bottle with a piece of silk fastened with narrow ribbon. A medium-sized cork, covered with crocheted silk, in which to insert the point of the scissors, is pretty and useful for the work basket.

Probably you believe that you are practicing all of the economies known to the up-to-date housekeeper, but have you turned inward the out-edge of a half-worn tablecloth? It is done exactly as a wide sheet is rejuvenated and if a very fine seam is carefully felled on the wrong side of the damask, the joining will never show.

Cornmeal and Salt to Clean.

Any light woolen material may be cleaned by this method: Mix cornmeal and salt in equal parts, then spread out the material or garment on a white cloth on the kitchen table and cover it with the cornmeal and salt mixture. When it has been on for a short time, cover your clothes brush or scrub brush with a soft white cloth, and go over the entire surface of the garment. After it has been brushed thoroughly, shake well and hang in the open air. The same process may be used with white doeklin gloves.

Halibut au Gratin.

Take five pounds of fresh chicken halibut, peel off skin and take out bones. Cut into small pieces, put in a roast pan, season well with salt, cayenne pepper, table sauce, one-half pound melted butter and one gill sherry wine. Bake about 15 minutes. When ready, mix the fish well with three pints of cream sauce. Put in baking dishes, around it a border of mashed potatoes, on top some grated cheese and bread, small piece fresh butter. Bake in a hot oven for ten minutes. Serve very hot.

New Laundry Bag.

An ordinary wooden coat hanger forms the top of this cretonne laundry bag. The top is curved to fit smoothly over the hanger. A slit from the top half way down the center of the front is bound with ribbon and forms the opening. The hook of the hanger is bound with ribbon and finished with a bow. This style of bag is much superior to the drawstring laundry bag.

Ginger Puffs.

Beat one egg well, add one-half cupful sugar, one-half cupful molasses, one-fourth cupful melted butter, one-half cupful warm water, two cupfuls of flour sifted with one teaspoonful each of cassia, ginger and soda and one-half teaspoonful salt. Bake in individual tins.

Cocoonut Cups.

One-half cupful cocoonut, one cupful sugar, one cupful milk, one egg, one tablespoonful butter, one teaspoonful vanilla, two cupfuls of flour, two teaspoonfuls of baking powder. Beat well. Fill greased cups half full and steam one hour. To be eaten with whipped cream.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

An irresistible impulse is one we yearn to follow.

Weak, Faint Heart, and Hysterical can be rectified by taking "Renovine" a heart and nerve tonic. Price 50c and \$1.00.

Some men can make a dollar go a long way, but not as far as a reserved seat in heaven.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 50c.

The man with a scheme nearly always wants to raise the money necessary to put it through by subscription.

Dr. B. F. Jackson, Celebrated Physician, handed down to posterity his famous prescription for female troubles. Now sold under the name of "Femina." Price 50c and \$1.00.—Adv.

Marriage may be a failure, but there's a lot of evidence to the contrary.

CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

WHY "ANURIC" IS AN INSURANCE AGAINST SUDDEN DEATH!
Sufferers from Backache, Rheumatism and Kidney Trouble

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery—"Anuric." Write him your symptoms and send a sample of urine for test.

Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

Dr. Pierce's Favorite Prescription makes weak women strong, sick women well. No alcohol. Sold in tablets or liquid.

HAD TOMMY "UP A STUMP"

Matter of Perch or Roost Somewhat Mixed, but Figure it Out for Yourself.

"What's a roost, dad?" asked Tommy.

"A roost, my son, is a pole upon which chickens sit at night," replied his father.

"And what's a perch, dad?"

"A perch is what chickens perch on."

"Then, I suppose, dad, a chicken must roost on a perch?" came the further inquiry.

"Of course," was the smiling reply. "And they could perch on a roost?"

"Why, y-y-es," answered dad.

"But if chickens perched on a roost, that would make the roost a perch, wouldn't it? But if, just after some chickens had perched on a roost and made it a perch, some more chickens came along and roosted on the perch and made it a roost, then the roost would be a perch and the perch would be a roost, and some of the chickens would be perchers and the others would be roosters, and—"

Mother Explains.

"My dear," said Mr. Hemmandhaw, "I hope you are not planning to buy a lot of new furniture."

"I am not," replied Mrs. Hemmandhaw, "and I don't know what gives you the idea."

"This shopping list gives me the idea."

"What shopping list?"

"On this paper, which I just picked up off the floor, is written: 'Washstand, parlor chairs, dining-room table, writing desk, refrigerator, taboret, piano stool, pedestal, step-ladder, cedar chest, music cabinet and garbage can.' Oh, that is just a record I was keeping of the things the baby has fallen from this week."—Judge.

Looked Ominous.

"I don't think this fellow will be very popular around the hotel."

"Why so?"

"I see he registers from No. Tippington, Wis."—Louisville Courier-Journal.

Of a Kind.

"I wish Evelyn hadn't gone rowing with that young De Swift. He is a fool in a boat."

"Rock-the-boat idiot?"

"No. Not that kind. He is one of the sort that proposes."

Gaelic Literature for Soldiers.

Much Gaelic literature and material comforts were sent to the Highland regiments in Flanders and at the Dardanelles by the Association of Highland societies of Edinburgh. They transmitted also hundreds of copies of the National Anthem, translated into Gaelic by the Rev. Donald Mackintosh. The translation, now slightly revised, was accepted by King Edward. Letters from chaplains have been received, conveying the appreciation and gratitude of the men, and stating that the anthem will be used in their services.

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

Evening the Score.

"Pa, what's meant by the 'primeval curse'?"

"It means, my son, that a man must eat bread in the sweat of his brow."

"But a millionaire's son doesn't do that, pa."

"Maybe not, but nine times out of ten the old man had to sweat enough in his early days to square the reckoning for both."

To Fortify the System

Against Winter Cold

Many users of GROVE'S TASTELESS CHILL TONIC make it a practice to take a number of bottles in the fall to strengthen and fortify the system against the cold weather during the winter. Everyone knows the tonic effect of Quinine and Iron, which this preparation contains in a tasteless and acceptable form. It purifies and enriches the blood and builds up the whole system. 50c.—Adv.

The Proof.

"Do you believe dogs can reason?"

"I have known a bulldog in a dispute to be able to hold his own."

Avoid the Deformity.

Do you know why it is that most noses point east? Take notice in this regard of the people you meet, and you will see that their noses nearly always are turned quite markedly to the right, instead of being set straight on their faces. It is a deformation attributable to the fact that since early childhood they have used their handkerchiefs with their right hands, giving the nose each time a tweak to the right.

THE MOST POPULAR KIDNEY REMEDY IN OKLAHOMA

I can truthfully recommend Dr. Kilmer's Swamp-Root as one of the most excellent remedies for kidney trouble that I ever used. Ten years ago I suffered with kidney trouble and my case was so severe I began to lose hope of ever being cured. I found that Swamp-Root was highly recommended and decided to give it a trial and to my surprise and great delight after using one bottle I had improved so much I felt encouraged to get more and continued its use until I used six bottles, at the end of which time I felt no symptoms of kidney trouble.

MRS. J. GRUBBS, Henryetta, Okla.
Box No. 371, State of Oklahoma, County of Okmulgee, ss:
Subscribed and sworn to before me, this 29th day of March, 1915.
BIRDIE MORGAN, Notary Public.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Not So Small.

"Getting to be a great statesman, hey?" sneered a somewhat jealous rival. "I suppose you think you are another Webster or a Patrick Henry, eh?"

"Not at all," retorted Congressman Fluddub. "But some of the anecdotes that were related of those fellows have been hitched on to me."—Louisville Courier-Journal.

THAT GRIM WHITE SPECTRE, Pneumonia, follows on the heels of a neglected cough or cold. Delay no longer. Take Mansfield's Cough Balsam. Price 50c and \$1.00.—Adv.

Theatrically speaking, the death scene of the heroine is apt to be far less realistic than her hair-dyeing.

Not Gray Hairs but Tired Eyes make us look older than we are. Keep your eyes young and you will look young. After the Movies Murine Your Eyes. Don't tell your age. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

A man who patronizes saloons often finds himself in a tight place.

The Wheat Yield Tells the Story
of Western Canada's Rapid Progress

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

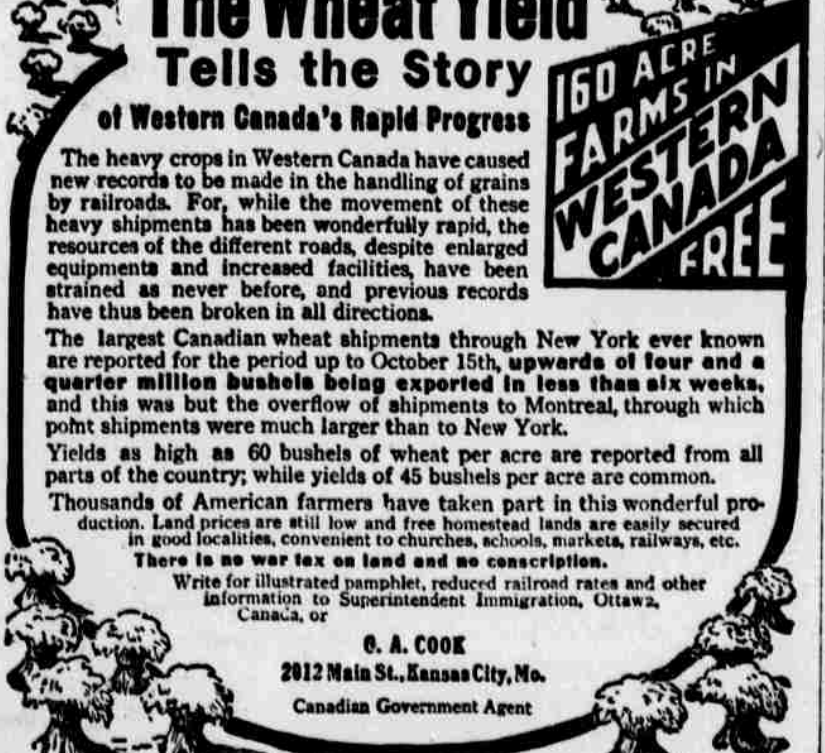

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada, or

This Investment Pays Health Dividends

—And it's handy at your Grocer's.

The average man or woman seldom considers health value seriously until doctor bills have to be paid.

If asked the cause of most physical ills, the majority of doctors would likely say, "wrong living," which includes wrong eating—food that is lacking in certain elements essential to health.

The famous pure food—

Grape-Nuts

is made of whole wheat and malted barley, and supplies all the rich nutriment of the grains, scientifically processed to retain their mineral values—phosphate of potash, etc.—so necessary in the balanced upkeep of every part of the body.

Grape-Nuts is ready to eat direct from the package; is easy to digest; has delicious flavour, and with cream or good milk is a well-balanced food.

Health from right living is the finest possible dividend, and to those who have it all things are possible.

"There's a Reason" for Grape-Nuts

Sold by Grocers everywhere.

War With Mexico

Is a Very Much Debated Question but Everybody Agrees That The

Benton County Nursery Co., Rogers, Arkansas

Is the place to buy the best bargains in strictly first class, high grade, state inspected, fruit trees, berry plants, grape vines, ornamentals, etc. for Spring planting. Give us about five minutes of your time and be convinced that we are offering you the greatest bargains you were ever offered in nursery stock. We are located in the very heart of the Ozarks, in one of the finest fruit sections of the world. Benton County Arkansas, bears the distinction of having more acres in fruit than any place in the whole world for the area it covers. Our trees are propagated from the finest varieties of fruits and healthiest trees grown. They are first class in every respect. Guaranteed. They are grown by an expert nurseryman, a man who has been on this job more than a quarter of a century. This stock must move for Spring planting or go on the brush pile and be burned. Below are the varieties we are offering and the prices cut half into.

All our stock has been inspected by the State Nursery Inspector and found to be absolutely free from all insects and diseases. All stock is fumigated before leaving the Nursery. Our shipping season begins about March 20th. Send in your order now, don't wait, as the first in is first served. If we are out of any varieties you order may we substitute with one as near it as possible? We pay the freight or express charges on orders amounting to \$5.00 or more. We allow five percent discount on all orders accompanied with the cash. And remember our GUARANTEE is, you must be satisfied. In answering this Ad tell us in what paper you saw it. We guarantee everything we ship to reach you in first class condition, mail us your order to day. Yours for Business.

Benton County Nursery Co. Rogers, Arkansas.
