## WILL RECLAIM 13,000 ACRES

County Approved**

Territorial Treasurer M. A. Otero today received \$1,142.26 from the treasurer of Eddy county.

**Incorporation.**  
Incorporation papers were filed today by the Co-operative Insurance Underwriters of Phoenix, Arizona, and Albuquerque, New Mexico. The incorporators and directors are: Edwin E. Forstall of Phoenix, 1999 shares; Jay W. McRae of Albuquerque, 1999 shares; and Francis E. Wood, of Albuquerque, 2 shares. The capitalization is \$500,000 divided into 50,000 shares and the company begins business with \$2,000.

**Two Big Projects Approved.**  
Territorial Engineer Vernon L. Sullivan has approved application No. 409, H. C. Kinsell and J. M. Reeves, of Stanley, for an irrigation project of the utmost importance to southern Santa Fe county. The proposition is to dam Arroyo arroyo and a tributary arroyo for the purpose of storing sufficient water to irrigate 13,000 acres twice a year thus supplementing the dry farming operations. The land to be covered is almost all homesteaded and lies on a perfect slope between Stanley and the New Mexico Central railroad, including the townsite of Stanley. The flow is estimated at 42.92 second feet and the project is a floodwater proposition, the idea being to store 10,196.9 acre feet during the annual spring floods and again during the summer rains. The main reservoir will be created by a dam 85 feet high, 143 feet wide at the bottom and 1,885 feet at the top, impounding the water in a natural rock bottom dam site. The second reservoir will be created by throwing a dam across an arroyo which will be crossed by the main canal from the first reservoir, the dam also serving for the latter purpose. It will be thirty feet high, 250 feet wide at the bottom and 100 feet at the top. The main canal is to be three feet deep, five feet wide at the bottom and eleven feet at the top. Two other ditches, are to be two feet deep, four feet wide at the bottom and eight feet at the top. Work on the project is to begin by next February and it is to be completed by August, 1913. Corbett & Smyth of this city have drawn the plans and specifications for the project which is to be constructed through co-operation of the settlers and by the promoters, one of whom, ex-Sheriff H. C. Kinsell, was a former resident of this city.

Territorial Engineer Vernon L. Sullivan also approved a large power proposition, the application being made by John J. Laubach, William Harper, W. J. Benjamin and W. B. Bunker, Las Vegas. The plan is to harness the Rio La Casas falls, a tributary of the Mora on the Pecos reserve in Mora county. The plant is to cost \$100,000 and is to produce 2,745 horsepower. The flow is 108 second feet. The diversion dam is to be 15 feet high, 35 feet wide at the bottom and 50 feet at the top. The base of the dam is in solid rock and the face is to be a sloping concave wall consisting of cement and masonry, one-half rip rap and the other half earth.

**Postoffice Matters.**

## WILL NOT COME UP TO ALBUQUERQUE DISPLAY.

Nevertheless Santa Fe Will Brilliantly  
Illuminate Its Depot at  
Pueblo.

Pueblo, Colo., Aug. 13.—Visitors at the Sixteenth National Irrigation Congress, Albuquerque, 1908, will remember the wonderful and clever electric piece emblematic of the Santa Fe advertising sign, that was suspended over the Hotel Alvarado and cast its brilliant lights over the town each evening. It was the talk of the congress.

The Santa Fe does not propose to do quite such a handsome thing at Pueblo, September 26-29, in connection with the eighteenth sessions of the irrigation congress, yet has some definite and beautiful designs in mind.

Industrial Commissioner R. E. Wilson of the Santa Fe, who was in Pueblo recently, discussed this with congress and exposition officers, with Dr. R. W. Corwin, chairman of the committee on decorations of the board of control, city officials, and local Santa Fe agents and officials.

As the result, there will probably be a somewhat similar, though smaller, electric piece flashed over Pueblo each evening during the eighteenth sessions. There will also be other electrical displays on the part of this road.

The Santa Fe has decided that it cannot make an agricultural exhibit in connection with the National Irrigation Exposition, for the reason that it is hardly possible for it to do so at the present time. It has a fine exhibit however, of irrigation scenes along the Santa Fe lines, which it is contemplating bringing to Pueblo to be installed probably in Mineral Palace, where the sessions of the congress will be held.

In many other ways the Santa Fe is manifesting its decided approval of the big Pueblo events next fall, and lending its assistance and co-operation to the plans for the success of these undertakings. The rates made by the road, as heretofore stated, are excellent, and calculated to bring great crowds from territory traversed by the road.

President Ripley of the Santa Fe has officially and heartily commended the eighteenth national irrigation congress and the national irrigation exposition. The literature put out by the road is also very attractive and fully advertises the congress and exposition.

## NEW MEXICO MAN CARRIES OFF HONORS.

**Made the Highest Score in Recent  
Target Practice of Uncle Sam's  
Navy.**

To be the best shot on the best shooting battleship in the world is the honor that has come to a New Mexico officer in Uncle Sam's navy. Ensign C. C. Gill, son of Captain Gill, of Organ, Dona Ana county, is the officer who has carried away all of the honors at the target practise which have just been announced by Secretary of the Navy Meyer. Ensign Gill is assigned to the battleship Idaho, which stands at the top of the list for the record made during the target practise recently completed.

He made three hits out of three shots in 68 seconds, which gives him the highest average of any man in the navy, this being an average of 2.7 hits per gun per minute.

This target practice was done under battle conditions and the army and navy officers are marveling at the records that were made by the men in charge of the guns on the battleships. The Idaho made a score of 46.121 for the contest, which placed it at the top of the list of competing ships. The South Carolina was second with a score of 42.585. Ensign Gill, who holds the record of the navy visited his father at Organ in 1908, spending a part of his leave in Las Cruces and at his father's home in the Organ mountains, where Captain Gill is interested in a number of mining claims.

## LEON SPRINGS MANEUVERS DO NOT HAVE GOOD START.

**Troops Have Been Fighting Grass  
Fires and Carrying Water  
From Wells.**

San Antonio, Texas, Aug. 13.—So far the Leon Springs maneuvers have not had a very auspicious start. A great deal of time has been put in fighting grass fires, and owing to the neglect of the war department to provide a sufficient number of wells, the water supply is running very short, there being nearly 10,000 men and a large number of animals encamped on the reservation. As soon as the grass fire has been brought under control the program, now several days late, will be carried out. General Albert L. Meyer, commander of the department of Texas and in charge of the maneuvers, is very favorably impressed with the militia bodies from Texas and Arkansas, participating in the operations. The troops have now been divided into two brigades one of them being under the command of Brig. Gen. Thomas Scurry, of Dallas, a Texas militia officer.

## GAYNOR ASKS ABOUT OFFICE

**Mayor of New York Is Mak-  
ing Steady Progress  
Toward Recovery**

## IS CHEERFUL AND TALKATIVE BUT FAVORED THE OLD ONES

**Partakes of Most Substantial  
Meal Since His Attempted  
Assassination.**

New York, Aug. 13.—Mayor Gaynor awoke early from the most refreshing and long continued night's sleep. He has had since he was shot by J. J. Gallagher last Tuesday, with every indication that he is making steady progress toward recovery. The patient this morning was cheerful and talkative and displayed an increased appetite. He was given the most substantial meal he has yet had and inquired of the secretary how things were going at the office.

**Gaynor Day.**

New York, Aug. 13.—Tomorrow, the observance of "Gaynor Day" in every church and chapel in Greater New York, with prayers for the mayor's recovery will represent a petition of nearly 5,000,000 persons. Over in Hoboken jail, Gallagher now refers to his act with regret and makes no attempt to justify himself. When he read in the papers that his lawyers might prepare a defense for him, he did not seem to relish the idea. "Any old doctor or lawyer can make you out to be crazy these days," was his comment, "if you only give them money enough."

**Gallagher is Insane.**

New York, Aug. 13.—Rufus Gaynor, son of the mayor, indicated today to his father that he did not wish to prosecute Gallagher his assailant. Young Gaynor intimated to his father the belief that Gallagher is insane.

## PRECAUTIONS AGAINST INTRO- DUCTION OF CHOLERA.

**Baggage of All Steerage Passengers  
From Infected Districts is  
Disinfected.**

Washington, Aug. 13.—Rigorous measures have been taken by United States representatives abroad to prevent the introduction into this country of the cholera. The consular offices at Hamburg, Bremen, Antwerp, and Rotterdam and other Continental and British ports are working under instructions which require them to detain steerage passengers from cholera infected district in Russia and to disinfect all baggage prior to their embarking for the United States.

## LEADING FREE SILVER ADVOCATE IS DEAD.

**General A. J. Warner of Marietta,  
Ohio, Who Served in Congress,  
Dies of Old Age.**

Marietta, Ohio, Aug. 13.—General A. J. Warner, one of the most prominent free silver men of the country, died here today of the infirmities of old age. He was born at Wales, N. Y., in 1834. was a member of Congress from 1879 to 1881 and from 1883 to 1887.

## COLUMBUS, OHIO WILDLY EXCITED

**Thirty Two Policemen Sus-  
pended for Refusing to  
Man Cars.**

## APPREHENSION FOR TONIGHT

**Detectives Imported to Ferret  
Out People Who Threw  
Stones.**

Columbus, O., Aug. 13.—This city today is more excited than at any time since the street railway strike began four weeks ago. According to an announcement made by the city marshal, thirty-two members of the police force, who last night refused to obey the mayor's orders to man the cars last night, were suspended today. His attitude in not discharging them the moment they refused to go on the cars is condemned by many. The importation of detectives to ferret out the stone throwers has added to the excitement and much apprehension is felt for tonight.

**Volunteers Called For.**

Columbus, Aug. 13.—Mayor Marshall today issued a call for volunteers to aid in stopping lawlessness. He said if necessary he will again call for troops.

## CECIL LYON MAKES DISCLAIMER

**He Had Nothing to Do With  
New McMurray Indian  
Contracts**

## IS CHEERFUL AND TALKATIVE BUT FAVORED THE OLD ONES

**His Business Ability, Not Friend-  
ship for Roosevelt, Prompt-  
ed Him.**

Sulphur, Okla., Aug. 13.—What part Cecil Lyon, Republican national committeeman of Texas, took in the activity at Washington for the approval of the McMurray contracts with the Indians was described by Mr. Lyon in the hearing before the congressional investigation committee today. The contracts were disapproved by President Roosevelt in 1908. In the new contracts, which caused the present investigation, Mr. Lyon said he had no interest. Asked if he was requested to join in the old contracts because of his political influence and acquaintance with President Roosevelt, Mr. Lyon said: "It is possible, but I flatter myself that it was partly my business ability." "But it was known that you were a welcome visitor at the White House." "Yes, I believe so."

Mr. Lyon continued: "I told Secretary Garfield that my employment in the matter was to be open and above board, and if there was anything not proper about the contracts I would have nothing to do with them." "I took up the McMurray contracts purely as a business," said Lyon. "After they were disapproved I had nothing further to do with the matter. On the floor of the House of Representatives last session, Representative Murray, of Missouri, unjustly attacked me by saying that McMurray in lobbying for the present contracts was ably assisted by myself. That statement was made either in ignorance or through a desire to misrepresent. I have done nothing for the contracts now under investigation."

## BLAME ROOSEVELT FOR TROUBLE IN SPAIN.

San Antonio, Texas, Aug. 13.—According to "El Pais," a clerical publication of the City of Mexico, Colonel Theodore Roosevelt and the perfidy of the Anglo Saxon race generally, are responsible for the break between the Spanish government and the Vatican. In an editorial the publication endeavors to find the cause for the division of the Latins, and their religious political troubles, and arrives at the conclusion that the Machiavellian hypocrisy of the Anglo Saxon is responsible for it all. In connection with the article "El Pais" cites the introduction of Masonic lodges into Mexico by Americans, blaming for this especially Joel R. Poinsett, at one time the American ambassador to Mexico. The writer further asserts that the object of Masonry is today what it has always been, the uprooting of Catholicism in all nations where it is powerful. Mr. Roosevelt is accused of having planned "with deliberate premeditation" the incident at Rome in order to publicly affront the holy father.

## THOUSANDS ARE STARVING

**Two Wards in City of Tokio,  
Japan, Are Completely  
Submerged**

## ONE OF THREE DYKES BREAKS

**Waters of the Rivers Sumida Are  
Still Rising and Many Are  
Homeless**

Tokio, Aug. 13.—The waters of the river Sumida are still rising, and the Honjo and Fukadawa wards of Tokio are nearly completely submerged. One of the three embankments guarding Tokio, has broken. Should the second and third dykes break, half of the city will be submerged. Tens of thousands of persons are homeless and starving.

**Food Supply Running Short.**

Tokio, Aug. 13.—The threatened embankments are now being guarded by troops. Thousands of homeless beings are sheltered in temples and school houses. They are wholly dependent upon public relief and as the vegetable and fish supply is failing, the question of feeding the stricken people is causing apprehension. The climax of inundation is expected tonight.

## RESOLUTIONS PASSED BY MEETING LAST EVENING.

**Declare for Initiative and Referendum  
and for Non-Partisan Con-  
vention.**

The following resolutions were reported to the meeting at the court house last evening:

**Mr. Chairman and Fellow Citizens.**

We, your committee on resolutions beg leave to report the following: The citizens of Santa Fe county, New Mexico, in mass meeting assembled, having regard to the importance of laying the foundation of our organic law deep and true, and preserving intact those principles of civil liberty and popular government which have come down to us from our fathers; and believing that in a crisis like this that partisan politics should have no part or place and that private ambition should give way to the public weal; no now hereby declare and resolve:

That we declare in favor of the selection of delegates to the constitutional convention, without reference to past political allegiances, who shall be committed to those principles of government which promise the greatest good to the greatest number, who believe that "government derives its just powers from the consent of the governed," and who will stand for the rights of the people as against the allied powers of commercialism and greed. And chief among these rights of the people, we declare in favor of the following:

First. The right of the people to inaugurate legislation by petition of a certain per cent of the voters and their right to demand a reference to them at a general election of any legislation enacted by their general assembly. In other words, we heartily favor the initiative and referendum as an essential principle of popular government—recognizing the right of the citizenship as the authors and finishers of all statute under which they must live and move and have their being.

Second. We declare that we will not support or assist any candidate who will not labor for a provision in the constitution retaining the capitol of New Mexico at the city of Santa Fe for the period provided in the enabling act.

Third. We favor a provision in the constitution itself against special legislation.

Fourth. We favor a provision in the constitution itself limiting the right of counties and municipalities in the creation of indebtedness, bonded or otherwise.

Fifth. We favor a provision in the constitution empowering the governor to veto any part or parts of appropriation bills and approve the residue subject to the right of the assembly by two-third vote of each house to pass same over said veto.

Sixth. We favor the election of all officers by secret ballot based on a general registration of the voters, insuring to every citizen a free ballot and a fair count.

Whereas, the central committee of the Democratic party has signified a willingness to join with other citizens of Santa Fe county in non-partisan primaries and a non-partisan convention for the purpose of selecting non-partisan delegates to the constitutional convention to be assembled on October 3d, 1910, and,

Whereas, this mass meeting was called by citizens of Santa Fe county for the purpose of ascertaining the sentiment of all parties interested in the matter of non-partisan delegates to the constitutional convention, and Whereas, it is the sentiment of this mass meeting and assembly of citizens of Santa Fe county that it is for the best interests of all concerned that this county be represented by a non-partisan delegation to the constitutional convention.

Therefore, be it resolved, That it is the sense and best judgment of the citizens of Santa Fe county assembled in mass meeting this 12th day of August, 1910, that Santa Fe county be represented by a non-partisan delegation and that the citizens of Santa Fe county should, without regard to political affiliations, meet in the non-partisan primaries and the non-partisan convention, which has been called for the 16th and 22nd of August, and unite with all citizens in such meetings in the election of representative citizens of this county and the election of a non-partisan delegation to said constitutional convention, and

Be it further resolved, That we pledge ourselves, individually, to attendance and co-operation at said meetings and in said efforts for the election of a non-partisan delegation.

Respectfully submitted,  
JAS. W. NORMENT,  
Chairman.

J. A. MASSIE,  
C. G. RITCHIE,  
H. B. CARTWRIGHT.

## TROOPS STILL FIGHTING FIRES

**Flames Raging in Vicinity of  
Wallace, Murray and  
Mullan, Idaho**

## JOINT PLAN IS AGREED ON

**War Department and Forestry  
Bureau Have Conference  
at Washington.**

Spokane, Wash., Aug. 13.—Immense forest fires are now raging in the Coeur d'Alene district in Idaho and especially in the vicinity of Wallace, Murray and Mullan. They are taxing the fighting sources of hundreds of men almost beyond endurance.

**Infantry Ordered to Fight Fires.**

Washington, D. C., Aug. 13.—Two companies of infantry from Fort Wright, Wash., have been ordered to Wallace, Idaho, and one from Kallispell, Mont., to aid in fighting forest fires.

**All Troops Necessary Near Scene.**

Washington, D. C., Aug. 13.—Major General Leonard Wood, chief of staff, today asked the interior department and the forestry service to agree on a joint plan for the use of troops in fighting the forest fires in the west. The war department now has troops all around the fires in western Montana and northern Idaho, and the forestry service will be given all the troops necessary during the existing emergency.

## SON OF GENERAL SAM HOUSTON FOR GOVERNOR.

**Prohibitionists Have Nominated a  
Former Republican in Texas to  
Head Ticket.**

Houston, Texas, Aug. 13.—Inasmuch as the Republican and Democratic parties of Texas have repudiated prohibition, says the platform adopted at the Prohibition party convention, held at Dallas, the only recourse for the prohibitionist is to vote for the prohibition party's candidates.

Andrew Jackson Houston, son of General Sam Houston, first president of the Texas republic, has been placed at the head of the ticket. Mr. Houston has heretofore been a Republican and a United States marshal for the east Texas district. Others of the prohibition nominees are: Arthur A. Everts, Dallas, lieutenant governor; J. D. Stockton, Clarendon, comptroller; Millard Peterson, El Paso, attorney general; E. H. Conibear, Dallas, railroad commissioner; J. E. McGuire, Palacios, treasurer; Will H. Jobe, Sweetwater, land commissioner; and J. M. Parnie Gilmer, superintendent of public instruction. Mr. Everts was slated for governor before the convention.

## SANTA FE MERCHANTS FORM AN ASSOCIATION.

**L. B. Vickroy is President; Adolf  
Seligman, Vice President; Leo  
Hersch Secretary, Nathan  
Salmon, Treasurer.**

The merchants of Santa Fe have formed an association to be known as the Santa Fe Merchants' Association. The objects are similar to those of a retail merchants' association in other cities, that is to form "close harmony" among the business men and to have an understanding in regard to credit business.

The association's members are enthusiastic about the good benefits to be derived by this amalgamation of the business interests of the community and predict a better understanding among the merchants of Santa Fe.

The officers elected are as follows: L. B. Vickroy, president; Adolf Seligman, vice president; Leo Hersch, secretary, and Nathan Salmon, treasurer; A. T. Koch, corresponding secretary, and Volney L. Howard, attorney. Besides the officers on the board of directors are James L. Seligman, T. Z. Winter and J. B. Wood.

THE DAILY ROUND UP.

THE RHYME OF YE FISHERMAN.  
(By John Kendrick Bangs, in Lippin-  
cott's.)

Oh, he was a fisherman brave and

bold

Who went to fish on the ocean cold.

He fished all day and he fished all

night.

But nary a fish on his hook would

bite.

The codfish winked, and the sardine

sad

Grinned a growsome smile at the

shimmering shad.

And the pranksome whale

Lashed his joyous tail

Till the waves beat high on the sandy

shale;

And the hungry shark

With the ways so dark

Flopped around like a squirrel in Cen-  
tral Park.

They were all too bright

On that bait to bite.

For they knew full well if they bit

that bait

It was no Sandy Hook would be their

fate.

But a dinner bell

Would sound their knell

In a private house or a swell hotel.

So the fisherman, with his heart dead-

broke,

Went back once more to his waiting

folk;

But lest they think he'd no luck at

all,

He stopped on the way and hired a

haul.

And he told his kids of what fun he'd

had

In getting a grip on that ten-pound

shad;

And how he'd fought for the mack-

er-el

That they loved so well;

And how that cod so sleek and fat

Had knocked him flat

With his four-pound fin

As he pulled him in;

And how a whale he'd harpooned the

whites

Had carried his boat for a hundred

miles

Ere he cut the line that would set

him free

Lest he land on the coast of Jiga-

marree.

MORAL.

Believe no tales that the fishers tell.

They're all good men, and they all

mean well.

But it's Nature's plan, and it never

fails;

There's something fishy in all fish

tails.

Black Fast for Orthodox Jews—Be-

ginning at 7 o'clock tonight and last-

ing until sun down tomorrow evening

Orthodox Jews will observe a strict

fast making the day one of penance and

mourning. If there were a synagogue

here the Book of Lamentations would

be read in it tomorrow morning and

afternoon and the Book of Kineth re-

viewing the ancient life of the Hebrew

race. The date of the Fast of Ab oc-

curs on the Jewish calendar on the

ninth day of the fifth month of Ab,

which corresponds with the last days

of July and the first days of August. It

is the saddest day of the year and is

observed in mourning for the two

greatest calamities that befell the

Jews, the two destructions of Jerusa-

lem. The first was by Nebuchadnezz-

er and resulted in Babylonish cap-

tivity, and the second was the scatter-

ing of the Jews all over the face of

the earth by Titus. Some authorities

claim that the Black Fast marks the

anniversary of five great calamities,

but this is contradicted by others.

BAILEY STILL GREAT

MAN IN TEXAS.

San Antonio, Texas, Aug. 13.—One

of the things demonstrated by the

Galveston state Democratic conven-

tion is that Senator Bailey is any-

thing but a political has-been. The

Colquitt and Poindexter factions of

the Democratic camp practically ef-

fectly fused on the Senator's politi-

cal supremacy, although the former is

extremely anti and the latter lenient-

ly prohibition.

Senator Bailey and his "issue" were

adopted bodily by the Poindexter

camp during the campaign leading to

the primaries; not though without

the combination leaving behind a few

disappointments, for Poindexter came

in only as third in the race for gov-

ernor. The new combination of Col-

quitt, Poindexter and Bailey will mean

a great deal at the general elections

and may possibly bring about a snow-

## EVER HAVE IT?

If You Have, the Statement of This Santa Fe Citizen Will Interest You.

Ever have a "low-down" pain in the back? In the "small," right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it.

Santa Fe people endorse this. Read a case of it:

Hilario Baca, Delgado St., Santa Fe, N. M., says: "About two and a half years ago I gave a public statement, telling of my experience with, and opinion of Doan's Kidney Pills. They completely rid me of pains in my back which had troubled me off and on for months. When I stooped or brought any strain on my loins, I suffered severely and there were various other symptoms that my trouble came from disordered kidneys. I finally procured Doan's Kidney Pills and they brought prompt relief. I continued taking Doan's Kidney Pills and it was not long before every symptom of my trouble disappeared. The fact that I have had no return attack, warrants me in giving Doan's Kidney Pills my re-endorsement."

The following were elected to membership: Jesse Nussbaum, Mrs. Frank W. Clancy, Mrs. H. S. Kaune, Brian Dunne and K. M. Chapman. The chairman was authorized to appoint a committee of five to aid in the reception to be tendered the regents, staff and students of the School of Archaeology upon the throwing open to the public of the Puye and Rito de los Frijoles rooms on Saturday evening, August 20.

#### Article III.

Regular meetings of the society shall be held on the second Friday in January, April, July and October. The first of these shall be the annual meeting for the election of officers. Special meetings may be called by the president.

#### Article IV.

Any person may be elected a member of this society by the board of directors upon the applicant paying an annual fee of one dollar to the treasurer.

#### Article V.

Money shall be paid from the treasury only on order of the board of directors.

#### Article VI.

The constitution may be amended by two-thirds vote of the members present at any regular meeting, providing notice of the proposed amendment was given at the regular meeting previous.

The society then elected Dr. Edgar L. Hewett as the sixth member of the board of directors, the other five members being John R. McFie, N. B. Laughlin, Paul A. F. Linney, Mrs. J. E. Wood and Charles E. Linney.

The total membership of the society is now 195, located in all parts of the territory.

Itched Dreadfully. When Scratched It Would Bleed and Become Very Sore. Could Scarcely Sleep as the Itching was Worse at Night. Dreaded Putting Hands in Water.

Used Cuticura Soap and Ointment 3 Weeks. Trouble All Disappeared.

"Some time ago I had a breaking out all over my body. It first started like what we call goose flesh and itched dreadfully. When I scratched it, it would bleed and become very sore. I tried almost everything for the itching but none gave me much relief. I could scarcely sleep as the itching was always worse at night. My hands were so sore I dreaded putting them in water and after I would wash dishes or do laundry work that required the use of other soaps they were always worse. This went on for about six months. Then I used Cuticura Soap and Cuticura Ointment, and in two or three weeks the trouble all disappeared. I always found that my hands were worse (with a dry scale on them) after using any cheap soap but the Cuticura Soap produced such a soothing feeling on my skin that it was a pleasure to use it. I also know what wonders the Cuticura Remedies have done for a friend of mine, so I would recommend them to any one. Mrs. Delaware Barrett, 611 King St., Wilmington, Del., Nov. 15, 1909."

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## WHY NOT A CHAUTAUQUA?

On July 4, some one suggested that Clondercroft, Otero county, have a Chautauqua. Today the New Mexican received the neatly printed program of the First Chautauqua Assembly at Clondercroft, which begins its sessions on August 15. Only yesterday, the editor read in an exchange, that owing to the impetus given by the creation of this Chautauqua, Clondercroft is to have a bank, that fine new buildings have been started and that henceforth, Clondercroft will be on the map, just as Mountainair has put itself on the map through maintaining despite adversity and unfavorable conditions, a Chautauqua the past three years. The Clondercroft Chautauqua which it took only a month to create, will "pay special attention to a careful study of various health problems and make it an important feature." That will give this Chautauqua a distinctive air and its success is already assured.

There is a lesson in this for Santa Fe, the ideal Chautauqua center for the entire west. With its historic and prehistoric features; its manifold educational institutions and two museums, its advantages as the capital of the new state, its magnificent scenic surroundings, its forests, mountains, brooks and streams, its many ideal sites for a summer assembly such as is maintained at Chautauqua Lake, in New York, and which annually attracts thousands, Santa Fe could, if it made the proper effort, outgrow and overshadow the original Chautauqua. What an ideal site, for instance, the Candelario Martinez ranch just on the edge of the large reservoir would make and there are dozens of sites around it that could be easily acquired now for that purpose. With the beauties of the Santa Fe canon stretching for twelve miles along the Scenic Highway and up to the cloud-piercing peaks on one side; with steep cliffs wooded with tall pines bordering the south of the tract; with the lake formed by the Santa Fe emerging from a rocky canon and with the mineral Aztec springs in the canon just below; and the city of Santa Fe with its orchards and many romantic treasures lying spread out before the eye to the west, one can easily imagine pavilions and auditoriums, temples and arenas, clustering where now are cornfields and orchards. A more inspiring site could be found only at Santa Fe, or near Santa Fe, but hardly anywhere else.

If you doubt it, take a trip up the Santa Fe canon tomorrow and when you reach the reservoir, stop for ten minutes at the site described and ponder as to the possibilities of such a place and such a location.

New Mexico should have a law providing for a stringent penalty for attempts at the assassination of any public official. At present the statute fixes the extreme punishment for assault with intent to kill, at five years, which with good time allowance, and under the indeterminate sentence law, may be reduced to a very short period by a criminal who has attempted the life of an official. A murderous attack on an official is more heinous than the ordinary assault with intent to kill, not because a servant of the public is better than any other individual, but because such an assault is not only an attack on a person but on the government, on the republic on the institutions that guard the safety of all. New York is seriously considering the proposition of making such a crime a capital offense and to punish it with death. That state already had increased the extreme penalty for assault on a public officer to twenty years in the penitentiary, but the attack on Mayor Gaynor has aroused public opinion to such a pitch as to make it favor the proposition that a man who attacks a public official with the intention of killing him, is a deadly enemy of society and should be put away. There are strong arguments for this attitude and New Mexico at the first opportunity should consider it carefully, and at least, make more severe the penalty for the offense.

Senator Heyburn, of Idaho, must wake up. The Civil war was fought forty years and more ago and while not forgotten the participants have forgiven each other. "Dixie" is as popular in the north as it is in the south and fortunately, no waving of the bloody shirt, no matter how frantic, will fan into flame the old embers of sectional strife and discord.

## INITIATIVE, REFERENDUM, RECALL.

Although the initiative, referendum and recall are as old as political government; although they have existed in various forms in New Mexico among the Pueblo Indians and upon certain subjects such as Prohibition and Local Option, have been exercised right here in Santa Fe, as well as in Roswell, Farmington, Aztec, Artesia and other places, yet, the public has but a hazy idea about these terms although they are self-explanatory. This is caused by the fact that these three expedients have a different form in different places. The initiative in Oregon, for instance, may cover different subjects and different methods from the initiative in Texas. The referendum in Switzerland may differ from the referendum among the Pueblo Indians, and the recall as it was practiced two thousand years ago against the great statesman Aristides in Athens, may differ in form from the recall in New Zealand at the present day. But the underlying principle is the same, in that it substitutes direct popular government for the representative form. Reduced to their simplest terms, these propositions mean:

Initiative: That any citizen may propose or "initiate" any law which must be voted on within a certain time.

Referendum: That any proposition demanded by any citizen, must be "referred" to a popular vote.

Recall: That any office holder may be deprived of his office by a popular vote.

In theory, these simple propositions represent the highest ideals of popular rule, and if all men were perfect, unselfish, charitable, and law-abiding, that would be the ultimate form of all governments. But under present circumstances any crank, any criminal, may use the far-going powers, such as unlimited initiative, referendum and recall place in his hands to embarrass and overthrow government, property rights, peace of the community and justice, to further his own selfish or criminal ends. It may be a good form of government for the celestial regions, but for the present the representative form of government by the majority limited by a constitution, has proved the only practical form of popular government.

## WHICH IS THE BETTER?

The territorial tax rate for Arizona during the ensuing year has just been fixed at 7 mills, as against the rate of 11 mills in New Mexico. The 7 mills tax rate in Arizona will yield an income of \$600,000; the 11 mill tax rate of New Mexico does not yield quite as much, but for the sake of argument, let it be said that both territories have an income from their direct tax levy of \$600,000 a year. The question then will be: Is it better to raise that amount with a 7 mill or an 11 mill tax levy? Which tax rate will encourage capital? Is it a high rate or a low rate that induces the average man to invest his little stake in a home, a farm, in a store or in a prospect? The answer ought to be easy, for the average man inquires into the tax rate, not the assessment rate. Even where he gets it into his head that a low assessment rate equalizes the high tax rate, he will argue that an unfriendly assessor may at any time pinch him by raising his assessment rate, but no unfriendly tax collector can raise his tax rate. The tax rate is equal all over the commonwealth, the assessment rate never is and never will be, owing to the different standards of value in appraising property. Arizona is therefore much better off with its high assessment and low tax rate than is New Mexico with its low assessment and high tax rate.

The excuse that "legislatures do not do the will of the people" is arrant nonsense. If the people have a will concerning any matter it is exceedingly easy for them to manifest that will through the election of the right kind of legislators. If they permit themselves to be careless in the selection of legislators, what warrant have we for believing that they would be more careful in direct legislation?

President Davila, according to today's dispatches, is throwing hundreds of suspects into foul prisons in Honduras in which they perish from filth, vermin and pestilence. The change of a few letters in the President's name, evidently would give a true characterization of his real nature.

## AGITATION THAT HURTS.

That the persistent agitation of the Democratic party for socialistic features in the new state constitution is hurting the Territory financially and industrially is set forth by the Tucson, Arizona, Citizen, and what applies to Arizona in that respect also applies to New Mexico. Says the Citizen:

"At a time when Arizona is in a fair way to profit by the coming of statehood, which is counted upon to bring an influx of population and capital into the embryo state, a few Democratic politicians are doing all in their power to frighten both capital and new comers away by advertising to the country an alleged demand on the part of the people of this territory for an Oklahoma brand of constitution. This represents a serious situation to the business men of the territory, whose primary interest is the achieving of statehood and its consequent prosperity.

"There is no danger of Arizona ever being cursed with an Oklahoma constitution or anything akin to that grotesque collection of legislative freaks so long as William H. Taft is President of the United States. But boastful claims of those advocating such 'isms', while not taken seriously at home, are receiving attention in the outside world that is hurting and halting the flood tide of business prosperity that our people rightly expected would come with the passage of the statehood bill. Once the September elections are over and the election of a Republican majority assures the country that Arizona will adopt a reasonable constitution, capital and population, now waiting on the threshold will no longer delay their coming and business the territory over may be expected to look up and that promptly. Meantime the Oklahoma boosters must take the responsibility for the postponement of Arizona's boom.

"The kind of 'prosperity' which Oklahoma is enjoying under her constitution is evidenced by the decrease during the last year of ten millions of dollars in the bank deposits of that state. The Oklahoma brand could be depended to do as much for Arizona."

## A GREAT WORK.

The Archaeological Society of New Mexico, which has helped to bring about great things for New Mexico along its lines of endeavor, in the past few years, is in a flourishing condition. It offers an opportunity to every citizen of the southwest to help in a praiseworthy work, which the new constitution of the society just adopted, sets forth as follows: "To preserve the historic and prehistoric remains, ancient monuments and noted landmarks of the southwest, and make them known to the world; to promote archaeological and ethnological research; to collaborate with the state and national governments, state institutions, scientific and educational organizations and private individuals in the conservation of the native arts and architecture of the southwest, and in general to promote all worthy movements that have for their object the advancement of knowledge of, and interest in, the historic past of the southwest."

It is a distinctive, a necessary work; it is not local nor in antagonism to or competition with any other organization; the field is fertile, but it lies fallow; nowhere else is there so great a need for the work, and the Archaeological Society ought to have 25,000 members in New Mexico alone, for then the dollar each member would contribute would swell into a fund that would enable the society to accomplish magnificent results for the present and future generations of the southwest.

The ideal tax system is that in which every one, no matter how humble, contributes something to the public treasury. It is true, that every one should contribute according to his wealth, and possibly, also according to his income, but every one who enjoys the protection of the government, who is given the privileges of a citizen, should deem it duty as well as a privilege, to contribute his or her share to meeting the expense of government. It is told of a Massachusetts citizen that he used a tax collector because the latter had failed to place him on the tax list. That is the spirit with which the good citizen meets the demand for taxes if these are equitable, just and expended for the common weal.

After listening last evening to the manifold demands for reform, an innocent spectator remarked: "It isn't reform that some men need but chloroform to make them forget for the present, at least, their personal grievances and personal ambitions." Now is the time to pull together for Santa Fe and New Mexico, not to create dissension. The man whose personal dissatisfaction will cause him to imperil the adoption of a constitution and the speedy coming of statehood, is an enemy of New Mexico as well as of Santa Fe.

The latest census returns give the city of Santa Fe, in Argentina, a population of 192,278. The sister city in South America is not near as old as this ancient capital, but it makes up in progressiveness what it lacks in age. There are some people in this vicinity who would gladly swap some of the years of Santa Fe, for a cotton mill or a shoe factory.

Under the initiative and recall, an assassin like J. J. Gallagher, would have the right to circulate a petition asking for the recall of Mayor Gaynor. He would get signers a-plenty, and Mayor Gaynor instead of devoting his time to giving New York City good government would have to engage in a political campaign to save his official skin.

"I DO NOT DRINK!"  
"The ideal state, and that which we should work for, is Prohibition Unquestionably."—Wm. H. Taft.

## STATEHOOD WITHOUT SALOONS!

"The ideal state, and that which we should work for is Prohibition, unquestionably."—W. H. TAFT.

### PRESIDENT TAFT FOR PROHIBITION.

President Taft says: "I do not drink." "The ideal state, and that which we should work for, is Prohibition, unquestionably." He turns down his social glass at banquet. In this he sets a good example to the nation. For this the best citizens honor him. While secretary of war, Mr. Taft, according to press dispatches of an interview said:

"Looking at it in a general way and speaking from an experience in public life covering many years, I can say that to the active individual, drinking is unsafe and a hindrance to success. To the youth it is a positive danger, and for a doctor to prescribe liquor for any but the aged, is a real crime. But to any man who is actively engaged in responsible work, to him who must have at his command the best that is in him at his best, to him who is at the habit-forming period of his existence, to him I would, with all the emphasis I possess, advise and urge: Leave drink alone—absolutely.

"Even if some can 'take it and leave it alone,' to quote a common phrase, nothing is gained by its moderate use, and the risk he incurs is at times imminent.

"Personally I refuse to take such a risk. I do not drink. And so, the person whose business compels him to lead a nomadic life, the commercial traveler, professional man, and especially the soldier or sailor—that class particularly should practice teetotalism.

"To illustrate, when the American troops first arrived in the Philippines, they indulged freely in the native drink called 'vino' supplied to them

by the natives. Before the authorities could realize and cope with the situation, the whole army was in an alarming condition. Drunkenness and its attendant excesses were universal. And right here let me say that this native beverage was little stronger than American beer. But the new environment in which the soldier was placed increased to a marked degree the deleterious effect consequent to his indulgence.

"This wrought untold injury to the troops before a mandate prohibiting the sale of the drink within four miles of a post could be effectively enforced.

"But that point can better be explained in another way. Let the same soldier return from the Philippines to America. The beer works the same on him as the Philippine vino. He, because of his absence, is more likely to be overcome by his drinking. So that it can readily be seen that to him who changes his residence periodically, the effect of drinking alcoholic beverages is more pronounced than on the individual who is permanently located—an effect of which in all cases, however, to a greater or less degree, is disintegrating and demoralizing to the physical, mental and moral fiber of the drinker.

"And then, too, the soldier and his like should be non-drinkers for another very important reason. Drink makes a man more susceptible to disease. For instance, the drinking man who goes down to Panama will take yellow fever—at least runs a greater chance of taking it than his sober companion.

"I do not mean to assert that teetotalism is a panacea for all disease, but it is a very great shield and protection. With hardly an exception, the men who are incapacitated first during the preliminary activities of any campaign, are the drinkers. The same is true in every effort of life which demands the best energies of a man. He who drinks is deliberately disqualifying himself in the race for advancement."

Mr. Taft was shown the statement made by General Grant to the effect that 95 per cent of the crimes and misdemeanors of the army are due to drink. This statement Mr. Taft believed to be true in every respect.—The Southwestern Anti-Saloon Issue.

### FARMER'S WIFE HAD HEAP TO DO

Mrs. Shepherd Was in Bad Shape When She Could Not Stand on Her Feet.

Durham, N. C.—"I am a farmer's wife," writes Mrs. J. M. Shepherd, of this city, "and have a heap to do."

"Four months ago I could not stand on my feet, to do anything much, but at this time I do the most of my work. I took Cardui and it did me more good than all the doctors.

"You don't know half how I thank you for the Cardui Home Treatment. I wish that all women who suffer from womanly trouble would treat themselves as I have. Ladies can easily treat themselves at home, with Cardui, the woman's tonic. It is easy to take, and so gentle in its action, that it cannot do anything but good.

Being composed exclusively of vegetable ingredients, Cardui cannot lay up trouble in your system, as mineral drugs often do. Its ingredients having no harsh, medicinal effects, and being non-poisonous and perfectly harmless, Cardui is absolutely safe for young and old.

Ask your druggist. He will tell you to try Cardui.

SALE

**Hart Schaffner & Marx Clothes**

We have a good many things here that have not been sold in the ordinary course of business; nothing the matter with them; they're just as good as those we have sold through the entire season. The only trouble with them is that they have not been sold. We bought them to sell and we are going to do it. They're all things that you want
