VOL. 47.

SANTA FE, NEW MEXICO, MONDAY, AUGUST 15, 1910

NO 125

GOVERNOR MILLS AT CLOUDCROFT

Opens the First Annual Chautauqua at That Famous Resort.

NABOR ORTIZ BROUGHT BACK

Territorial Engineer Leaves on Two Weeks' Trip of Territory.

Governor Mills left last evening for Cloudcroft, Otero county, where he formally opened the Chautauqua today. He expects to return tomorrow evening.

Territorial Funds.

Territorial Treasurer M. A. Otero today received the following remittances: From Otero county \$198.41; Lincoln \$1,491.63; Torrance \$1,096.01; Union \$1,261.63; Chaves \$1,189.47.

Supreme Court.

The following cases were submitted to the territorial supreme court today:

No. 1250, Eagle Mining and Improvement Company, plaintiff in error vs. R. E. Lund, defendant in error. No. 1237, P. H. Goessling et al., appellants, vs. Gross, Kelley & Co., appellees.

Territorial Engineer on Trip.

Territorial Engineer Vernon L. Sullivan has left on a two weeks' trip of the territory. From here he went to Carrizozo on good roads and water matters. From Carrizozo he will go to San Juan county to examine carefully into the irrigation situation up there and from there will go to the southeastern corner of the Territory on irrigation and road matters at Carlsbad, Eddy county.

Captain Fornoff Returns.

Captain Fred Fornoff returned on Saturday evening from Los Angeles, California, with Nabor Ortiz, who is wanted in Torrance county for obtaining money under false pretenses.

A. L. Lawshee Appointed Indian Agent. Their Assistant Postmaster General A. L. Lawshee who spent the past year at Dripping Springs, Dona Ana county, with his family, for his health, has accepted the position of agent at the Kemas Canon agency of the Navajo reservation in Arizona. He will have under him 65 civil service employees. Mr. Lawshee will retain his New Mexico citizenship.

DID GALLAGHER HAVE AN ACCOMPLICE?

Mayor Gaynor is Rapidly Emerging From the Danger Zone and is Gaining Strength.

New York, Aug. 15.—Mayor Gaynor's condition today showed that he is rapidly emerging from the danger zone. He spent an excellent night, gaining strength. The police are working on the theory that Gallagher had an accomplice. He denies it but a man with a police record is under suspicion.

Will Be Out in Two Weeks.

New York, Aug. 15.—A bulletin given out at 1:25 o'clock p. m., says that the improvement in Gaynor's condition continues, and that the mayor had a comfortable morning. One of the physicians attending the mayor said that barring unforeseen and improbable complications, Gaynor will be able to leave the hospital two weeks from today and by the middle of next month would start for the Adirondacks.

SUNDAY GAMBLING CAUSES MURDER

Three Sons of Well-To-Do Kentucky Farmers Are the Victims.

CRAP GAME ENDS IN FIGHT

Posses Are in Pursuit of Men Accused of Bloody Crime.

Brandenburg, Ky., Aug. 15.—Chas. Gear was shot to death, Joseph Thomas fatally injured, and Preston Gear crawled into the woods, presumably dying from gunshot wounds, as the result of a fight over a crap game at Big Springs, Ky., yesterday. James Tate and Joseph Ammon charged with the crime, are being pursued by posses. The three victims are sons of well known farmers. Preston Gear was not found though a trail of blood left by him was followed some distance.

EL PASO MAYOR KILLED IN FIRE

Wall of Burning Building Falls on Him and Crushes Him to Death

HE TRIED TO SAVE OTHERS

Disastrous Conflagration Wipes Out Calisher Block—Loss \$225,000.

El Paso, Texas, Aug. 15.—The body of Mayor W. F. Robinson, who was killed yesterday, while trying to warn the firemen of their danger, when the burning Calisher building fell, was placed in the rotunda of the city hall this morning under a police guard of honor. The funeral will be held tomorrow when practically all business in the city will be suspended. Assistant Fire Chief David Sullivan and Fireman William Robinson, who were injured by the falling wall that killed the mayor, will recover.

A Veritable Fire Trap.

El Paso, Texas, Aug. 15.—F. Robinson, mayor of El Paso lost his life at 9 o'clock yesterday morning while endeavoring to warn a number of firemen of imminent danger from a tottering wall. At the same time Todd Ware, fireman, was instantly killed, and William Robinson and Dave Sullivan also firemen, were injured.

The casualties followed the big Calisher fire which broke out at 2 a. m. and completely gutted the largest department store in this section. The fire had burned for nearly seven hours and the unsafe condition of the walls so impressed Mayor Robinson that he left the sidewalk and approached the building for the purpose of instructing the firemen to desist from further work. As he approached the building a large section of brick, buckled and fell, crushing Robinson and Ware and knocking the other men down. Mrs. Robinson witnessed the accidents from the sidewalk.

Conservative estimates of the loss in the Calisher fire at \$225,000, the J. Calisher dry goods company sustaining a loss of \$150,000 and the Buckler estate, owners of the building, \$65,000. The balance is apportioned among tenants of the building and the American National Bank, the temporary quarters of which were burned. All losses are covered by insurance. The origin of the fire is attributed to crossed wires in the basement, where the fire smoldered for over two hours before bursting into flame. A roomer, sleeping on the second floor, first smelled smoke and gave the alarm.

Inspection of the building followed the fire disclosed the fact that it was a veritable fire trap. Although three stories in height, there was not a piece of steel in its construction, all of the supports being of wood. The second story was occupied by offices and the third story by a rooming house.

DISTRICT FORESTER RINGLAND SUMMONED BY CHIEF.

Will Visit Mr. Graves at Grand Canon in Arizona to Discuss Important Forestry Matters.

Arthur C. Ringland, forester in charge of the eighth district comprising New Mexico, Arizona, Arkansas and Florida, was in the city Saturday on his way to Albuquerque after spending five weeks inspecting the Carson forest.

Mr. Ringland stated that he had been summoned by Chief Forester Graves to the Grand Canon, in Arizona, there to discuss forestry matters. Mr. Graves is visiting the forests of the west and has been in Colorado and California. After spending some days in Arizona he will come on to New Mexico, visiting Albuquerque and probably Santa Fe.

As Mr. Ringland is at the head of one of the largest forest areas in any district his consultation with the chief forester will arouse keen interest in forestry circles.

Among the matters that will no doubt be discussed by the two men are the grazing on the forest reservations, the elimination of non-timbered areas, the administration of different forest units, the protection of the forests from fire and the increasing of the number of rangers.

It is generally understood that Chief Forester Graves is in sympathy with the policy of his predecessor, Gifford Pinchot in the matter of conservation but that Mr. Graves believes in remaining strictly within the law. Acting on this policy the chief forester has eliminated hundreds of thousands of acres in New Mexico from the forests and opened them up to homesteaders.

Arrested for Assault—Camilo Lopez was arrested at Albuquerque on the charge of assaulting Cornelio Klein and held in \$1,000 bail for the grand jury. Jealousy is said to be at the bottom of the affair.

SCHEMES TO ROB INDIANS

More Evidence of Corruption to Be Found in State of Oklahoma

RED MEN ARE THE VICTIMS

Their Lands Gobbled Up by Whites at Every Available Opportunity.

Sulphur, Okla., Aug. 15.—Every inch of land owned by the Indians is looked upon as legitimate prey of land grabbers. This statement was made today by a member of the committee appointed by the national House of Representatives to investigate the Indian land contracts. "Some of the land grabbers' schemes certainly will be called to the attention of Congress," said the committee member. "One man, we learned, had become rich. He kept a list of Indians who owned allotted land. Whenever an Indian died, he rushed into court, had a guardian appointed, and with the connivance of the guardian demanded that the land be sold ridiculously low. For a few hundred dollars he bought whole sections of land."

Drawing in Roosevelt.

Sulphur, Okla., Aug. 15.—More details of J. E. McMurray's activity at Washington in promoting his 10 per cent attorney fee contracts for the sale of \$30,000,000 worth of Indian lands, were related before the congressional investigating committee today. W. B. Johnson, former United States district attorney testified to the dismissal of certain indictments against McMurray for alleged "padding" of expense accounts in Indian cases. They were dismissed after the visit in Washington of Cecil Lyon, Republican national committeeman. Lyon then became interested with McMurray in the old tribal contracts, and visited President Roosevelt about them.

Lost Because He Opposed Contracts. Sulphur, Okla., Aug. 15.—Cub Ream, an Indian, testified that he was prevented from securing the position of delegate to Washington for the Chickasaws because he was opposed to the McMurray contracts.

WASHOUT DERAILED D. & R. G. PASSENGER TRAIN.

Fireman F. B. Good is Injured—No Trains Arrived or Departed for 24 Hours.

A washout on the Denver & Rio Grande's tracks, four miles south of Espanola derailed the passenger train that was due here at 3:45 p. m. yesterday afternoon and resulted in serious injury to Fireman F. B. Good who was rushed to the Salida, Colorado, hospital, on a special train, for medical attention. Jack Law, the engineer, escaped injury.

The washout stopped traffic on the D. & R. G. and no trains arrived here or departed today, pending repairs to the tracks. Tomorrow traffic will be resumed.

The washout is said to have been due to a heavy rain near Espanola and the only thing that presented a more serious disaster is said to have been the low speed at which the train was going when the engine was derailed.

FLAMES SWEEP EXPOSITION

Capital of Belgium Experienced Disastrous Conflagration Last Night

LOSS OF LIFE AND WEALTH

Pillaging Criminals Checkmated by Removal of Art Treasures by Troops.

Brussels, Aug. 15.—It is impossible in the present confusion to estimate closely the losses by the fire last night which swept through the Belgian exposition, wiping out whole sections of the fairy-like structures and causing the loss of two lives, but the damage will run into millions of francs. The fire was checked by heroic work of firemen and troops in the early hours this morning and by the use of dynamite in blowing up the buildings. Pillaging criminals attempted to take advantage of the disorder but the most priceless art treasures have been removed to a place of safety by the police and troops.

SCOUR COUNTRY FOR SCHULTZE

Young German Accused of Robbing and Killing Los Angeles Woman

BODY UNEARTHED BY DOG

Murderer Believed to Be on His Way to Mexico Via El Paso.

Los Angeles, Calif., Aug. 15.—While detectives are searching the city, deputies from the sheriff's office are scouring the country today for Otto Schultze, the young German wanted in connection with the murder of Mrs. Frieda Castine, whose body was unearthed from a shallow grave by a pet dog at her ranch near Lancaster. The fugitive was formally accused of murder by the coroner's verdict last night. Some police and deputies are inclined to think that Schultze with \$6,000 he is alleged to have stolen from his victim, has sought to enter Mexico by way of the Arizona border or through El Paso.

MOMENTOUS RESULTS AFFECTING FRATERNITIES.

They Have Ten Billion Dollars in Insurance Outstanding—National Congress Will Take Up Subject.

Detroit, Mich., Aug. 15.—Momentous results affecting fraternal insurance, from the viewpoint of heads of state insurance departments, from the action which is taken at the annual conventions of the two great organizations, National Fraternal Congress, August 15-18 in Detroit, Associated Fraternities of America, August 22-25, in Atlantic City. Should either or both bodies fail to endorse the tentative bill for uniform state regulation which their committees already have agreed to the refusal will be regarded as jeopardizing that portion of the outstanding \$10,000,000,000 of fraternal insurance which has reached the point calling for prompt attention by the departments.

The viewpoint of the commissioners is expressed in a statement made public today by Commissioner C. C. Lemert, of Ohio, who has been associated with Commissioner R. E. Folk, of Tennessee, and Commissioner James R. Young, of North Carolina, in preparing the uniform bill for greater regulatory control by the states. He said:

"The uniform bill is somewhat of a compromise. I am in hopes, however, that societies represented in the National Fraternal Congress and Associated Fraternities of America will come together in support of the tentative bill as we have prepared it. It represents a distinct and positive advance along all lines for fraternal societies. I also will be much pleased to see the fraternal system placed upon a sure footing."

"The first association to consider the bill, I understand, will be the National Fraternal Congress. The societies represented in this Congress have repeatedly announced themselves as in favor of adequate rates. If the Congress stands for the bill I am in hopes that the Associated Fraternities will follow with similar action. The bill will then, with such suggestions as may come from these bodies, be considered by the full committee on Fraternal Insurance Commissioners' Convention and some definite action may be looked for in the coming convention in Mobile."

"A large number of the fraternal societies already have practically attacked the problem and have succeeded in winning their membership to a rerating or readjustment of rates. It is absolutely certain that all societies must be placed in a solvent position. * * because some societies persistently ignore the plain requirements of insurance principles."

COLUMBUS, OHIO, IN STATE OF SIEGE.

Thousand Soldiers of National Guard to Be Sent There Tonight to Prevent Rioting.

Columbus, O., Aug. 15.—Preparations are being made to send 1000 soldiers to this city tonight, following an order of Governor Harmon at noon calling out the troops. This action was taken because of the increased rioting in the strike of the street railway employees here. The governor acted on the advice of Adjutant General Welbrich. How long the troops will stay this time is not known, but it is known that the military authorities have taken the stand that rioting must be stopped at any cost.

Newspaperman Steps Out—James S. Kirby, for two years city editor of the Roswell Register-Tribune, has resigned.

RAIN PRODUCED BY DYNAMITE

Hung on High Limbs of Trees and Exploded by Forest Fires

FIRST FALL IN TWO MONTHS

Downpour Was Heavy and Saved Wallace, Idaho, From the Flames.

Spokane, Wash., Aug. 15.—At Wallace, Idaho, hundreds of pounds of dynamite hung to limbs of trees on high points surrounding the city and exploded yesterday, had the desired effect of producing rain and helping to check forest fires. At midnight the rain began falling for the first time in two months and a heavy downpour brought relief to the threatened town.

Fires Still a Serious Menace.

Portland, Ore., Aug. 15.—Until general rains come to break the long dry period, it is evident that the forest fires now raging in a score of districts all over the Pacific northwest will remain a serious menace. The loss at present can be counted only by the millions, but how many millions can scarcely be guessed. The forecaster gives no hope for rain.

More Troops Demanded.

Washington, Aug. 15.—The fury of the forest fires in the Glacier National Park in Montana, has not abated according to advices received here by the interior department. Major William R. Logan, supervisor of the New park, in a telegram today, made another appeal for troops. It is assumed however that the dispatch was sent before Major Logan received word that the soldiers were en route.

FAMOUS RIGHT TACKLE FOR AGRICULTURAL COLLEGE.

Badenoch, Who Has Attracted Attention as a Coach is Given a Professorship.

Agricultural College, N. M., Aug. 15.—Badenoch, the famous right tackle of the Chicago University football team in 1904-5, is coming to New Mexico. He has just been appointed professor of physical education in the Agricultural College, where he will have charge of all branches of athletics in the capacity of coach and director. Badenoch played on the Chicago football teams of 1904 and 1905, under Coach A. A. Stagg, who considered him one of the best football men then in the game, and who recommends him as being an authority on athletics. Since leaving the University Badenoch has been engaged in coaching athletic teams in three different institutions, one of them being the Rose Polytechnic Institute, and his success, especially as a football coach, has attracted considerable attention. The college is considered fortunate in securing his services as coach for its athletic teams, and his coming will probably mark a new era in college athletics in New Mexico.

SEVERAL KILLED AND MANY INJURED AT MASSENA.

Portion of Dam of Big Power Canal of the Niagara River Collapses Without Warning.

Watertown, N. Y., Aug. 15.—Several Italian laborers were killed and a large number injured by the collapse today of a portion of the dam at Massena on the big Niagara canal.

GRAYS WIN OVER LAS VEGAS AT ALBUQUERQUE.

It Was a Pitcher's Battle From Start to Finish—Score Was Close, Two to One.

Albuquerque, N. M., Aug. 15.—To the Grays yesterday went the spoils in their clash with Las Vegas, the locals winning by the close score of 2 to 1. Things broke for Albuquerque in the last half of the ninth inning, when a wild pitch scored Donovan, who was on third with one man out. Harmon pitched a splendid game and but for the accidental slip in the ninth a tenth inning in all probability would have been necessary to decide the contest.

The game was a pitcher's battle from first to last, but a half dozen base hits were made during the nine innings. Weeks for Albuquerque finished with but two hits, while four were made off Harmon's delivery. The slab artists were equal on strike outs, each having eight to their credit. Weeks passed a man and Harmon did likewise. Albuquerque had five men left on bases and Las Vegas a like number. All in all the honors were pretty evenly divided. The most noteworthy feature of the game was the fast time in which it was played, but

(Continued on Page Eight.)

CAPT. BARDSHAR'S HOME ABLAZE

Early Morning Fire Burned Rear of Spacious Residence

ALARM AROUSED HUNDREDS

Dr. Knapp and Chauffeur Lawless Among First to Volunteer Aid.

Fire, which is supposed to have started from a defective electric light wire, broke out shortly after midnight in a rear room of the residence occupied by Captain and Mrs. Henry Bardshar on Cathedral street and did several hundred dollars damage to wall and furniture before the blaze could be extinguished. The loss is said to be fully covered by insurance.

The fire alarm which sounded shortly after 1 o'clock awoke hundreds, but many were slow to get out and find where the fire was. There were four volunteers who arrived at the Bardshar residence a few minutes after the alarm was sounded and among these were Dr. David Knapp and Chauffeur Michael Lawless. They rendered valuable assistance in getting water on the flames. A clerk in the weather bureau also answered the call.

Captain Bardshar and Mrs. Bardshar, Mrs. Curtis their guest, and J. J. McCarthy, who has been visiting his brother Dr. Thomas McCarthy, who rooms at the Bardshar home, had gone to Lamy in Captain Bardshar's motor car. They returned late and dined at the Coronado restaurant. Before they reached home they smelled smoke and wondered where the fire was. Entering the placita of their residence which was formally occupied by ex-Governor Thornton, they found the smoke so dense that they became convinced that the fire was somewhere in their own home.

Upon opening the door of a servant's room in the rear of the residence the flames burst forth and it was at once seen that a fire of no mean proportions had to be fought. Captain Bardshar and Mr. McCarthy rushed back to the placita and brought the lawn hose into play while some one turned in an alarm. When assistance came a large hose was run from the fire plug in front of the house out through the placita and to the rear of the residence and thence into the window of the blazing room. By this clever maneuver much damage that might have been done by water was averted.

The powerful streams manipulated by skillful hands soon got the blaze in check and today an inspection shows that the fire was confined entirely to one room. It is thought that the fire may have been smoldering for some hours and did not burst into a big blaze until the door of the room was opened allowing lots of air to fan it.

BIG GAINS MADE BY EASTERN CITIES.

Bridgeport is Now in 100,000 Class—Niagara Falls Increased 56.5 Per Cent in Past Decade.

Hartford, Conn., has a population of 38,815, according to census figures announced today. This is an increase of 19,965 or 23.9 per cent over 1900. The population of Bridgeport, Conn., is 192,054, an increase of 31,058, or 43.7 per cent.

The population of Niagara Falls, N. Y., is 30,445, an increase of 10,988 or 56.5 per cent.

1112 DEAD AND MISSING

Heavy Toll of Life Demanded by Recent Floods in Japan

4,000 HOUSES WASHED AWAY

Thousands Homeless and Dependent on Public Relief.

Tokio, Aug. 15.—The casualties from the great floods, which last week inundated many districts in Japan and submerged two of the principal wards in Tokio, were given out today after an official investigation, as 1,112 dead and missing. Three thousand nine hundred and fifty-three houses were washed away, in addition to thousands which are under water but resisted the strain. Thousands of persons are homeless and dependent upon public relief.

THE DAILY ROUND UP.

THE ALL WISE ONE.
(By Robert Burns.)

Then gently scan brother man,
Still gentler sister woman;
Though they may gang a keenin'
wrang,
To step aside in human.
One point must still be greatly dark,
The moving why they do it;
And just as lamely can ye mark
How far, perhaps, they rue it.

Who made the heart, 'tis He alone
Decidedly can try us;
He knows each chord—its various
tones,
Each spring—its svarious bias;
Then at the balance let's be mute,
We never can adjust it.

What's done we partly may compute,
But know not what's resisted.

Fire at Tucumcari—Fire destroyed
the cottage of Mrs. Blanche Gillan at
Tucumcari. The loss is \$2,000.

Conant Changes Its Name—The
settlement of Conant, Quay county,
has changed its name to Newkirk.

Swastika Changes Hands—The Des
Moines, Union county, Swastika, has
been sold by C. W. Hubbard to J. F.
Branson.

Estancia Bank Sold—A. J. Green, of
Estancia, has sold the controlling in-
terest in the Estancia Savings Bank to
O. A. Fisk, of Oklahoma.

Killed by Fractious Horse—Sixteen
year old Pablo Roibal, Jr., of Mesilla,
Donna Ana county, was killed last
week by a fractious horse.

Pecos Valley Baptist Association—
The Pecos Valley Baptist Association
has been in convention assembled at
Roswell during the past week.

Shot Himself Accidentally—While
cleaning a 22 caliber pistol, Desmond
Farrell, a fifteen year old boy at Al-
buquerque, shot himself in the hand
accidentally.

Held for Robbery—Louis N. Griego
and Ned Kely have been held for the
grand jury at Albuquerque on the
charge of holding up and robbing
Perry Graham.

Death of Young Man—Harold D.
Richmond, aged 23 years, died at the
Las Vegas hospital. He had lived at
Las Vegas twelve years, going there
from Wisconsin.

Water Meters for Socorro—Upon
direction of Mayor H. O. Bursum, the
city of Socorro is now installing fifty
and more water meters for the larger
consumers of water in the Gem City.

Construction Outfit Moved—C. H.
Sharpe has moved his construction
outfit from Winslow, Ariz., to La-
guna, Valencia county. He is at work
double tracking the Santa Fe railway.

Indulgent Mother Pays—Jesus To-
boada, arrested at Las Cruces two
weeks ago, for obtaining money under
false pretenses, has been released, his
mother having settled with the people
from whom the young man obtained
money.

Typhoid at Clovis—"There is far
too much typhoid fever in this city,"
says the Clovis Journal. It records
the death from that disease of nine
year old Willie Charles Swearingen
and the critical illness from the same
disease of his father.

Delinquent Tax List Completed—"The
delinquent tax list is now com-
plete, and will be published the end
of the month. Those who have not
yet paid their taxes should pay them
before this time and save the publica-
tion costs."—Albuquerque Tribune-Cit-
izen.

Elephant Butte Contracts Awarded—"The
contract for the construction of the
Elephant Butte railroad line from the
Santa Fe main line to the Ele-
phant Butte dam site has been awarded
to George B. Brady and to the firm
of Brown & Connor. The rock and
earth work on the railroad has been
awarded to George B. Brady and the
bridge construction to Brown & Con-
nor of Tucumcari. The successful
bids for each of the schedules were:
For the rock work, \$48,820; for the
earth work, \$2,550; for the bridge con-
struction, \$5,400.

is very popular.

MINOR CITY TOPICS

Denver, Colo., Aug. 15.—
The forecast is partly cloudy
with local showers tonight or
Tuesday.

Again Tonight, 6,000 feet of film to
be run at the Elks' theatre. More if
necessary.

St. Catherine's Retreat—The annual
retreat of the Sisters of St. Catherine
ended yesterday and Rev. Father
Peters Pietro, S. J., who has been in
charge of the retreat will return to
Denver today.

From 57 to 80—That was the varia-
tion in temperature yesterday and on
Saturday it was from 60 to 80 degrees.
The average relative humidity was 54
per cent and the precipitation for
24 hours ending at 6 o'clock this
morning was 0.02 of an inch of rain.
The day was partly cloudy with local
showers and thunderstorms. A year
ago today the maximum was 77 and
the minimum 58 with showers and
thunderstorms.

Going to El Paso—Jack McCarthy,
brother of Dr. Thomas McCarthy,
will leave tonight for El Paso where
he will spend some time on business
matters. Mr. McCarthy has been
spending his vacation in New Mexico
and finds Santa Fe has the ideal cli-
mate. His home is in Boston where
the humidity is found by many to be
very oppressive.

Owing to the Length of the show
at the Elks' tonight, show will start
promptly at 8 o'clock.

Retreat of Sisters of Loretto—The
annual retreat of the Sisters of Loreto
ended with benediction last even-
ing. The beautiful little chapel was
handsomely decorated and the impres-
sive benediction service was a fitting
close to a week of excellent instruc-
tions given by Rev. Father W. Lone-
gan of Trinidad, Colo., who will leave
today.

Appreciated Concert—The Military
band is deserving of great praise for
giving the orphans, the Sisters of
Charity and the patients at the San-
itarium such an unusual and high class
musical treat as they kindly volun-
teered yesterday afternoon on the
Sanitarium lawn. Such thoughtfulness
for the pleasure of those who have so
few pleasures, is most commendable
and there was no lack of appreciation
on the part of those who enjoyed the
concert. The Sisters, the orphans and
the patients give their warmest
thanks to the musicians.

Two Die of Blood Poisoning—And-
res Ulibarri, a shepherd, near Gal-
lup, died of blood poisoning caused by
running a piece of rusty wire into his
hand. Guadalupe Garcia, of Gallup, is
reported to be dying from a blood
poisoned hand caused by scratching it
with a piece of wire.

Murder at Rociada—In a dispute
over the boundaries of a parcel of
land near Rociada, San Miguel county,
Damacio Archuleta, aged 58 years,
was shot three times and killed by
his nephew, Abran Albino Archuleta,
of Las Vegas, who is 24 years old and
who is now in custody.

Hope Has Another Fire—Within
a week, of a destructive fire that laid
low a part of the village of Hope in
Eddy county, another fire caused dam-
age to the amount of \$13,000, the Pe-
nasco Mercantile Company's store
with a large stock of merchandise be-
ing burned to the ground.

Shooting on the Mescalero Reserva-
tion—Felipe Porillo going suddenly
insane while on the Mescalero Apache
reservation in Otero county, Indian of-
ficer tried to arrest him. Portillo
sought to escape and was shot and
slightly wounded by Henry Trías, one
of the Indians. Sheriff Denny took
both men to Alamogordo.

KEEP THE KIDNEYS WELL.

Many Santa Fe people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Santa Fe citizen's recommendation.

Hyman Lowitzki, 115 Guadalupe St., Santa Fe, N. M., says: "I can recommend Doan's Kidney Pills, as they have been used by myself and other members of the family with splendid results. The value of Doan's Kidney Pills for relieving pain in the back and the other kidney difficulties has been thoroughly proven to me."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

COL. R. E. TWITCHELL TELLS OF NEW MEXICO'S GREAT NATURAL RESERVOIRS

But Says Many of Its Waters, "More Valuable Than All the Minerals in the Mountains Upon Which They Fall," Have Rushed on to Utter Waste to the Gulf of New Mexico—Invites Immigration to Make New Mexico Greatest State in Rocky Mountain Region.

Colonel R. E. Twitchell, first vice president of the Eighteenth National Irrigation Congress, Pueblo, September 26-30, was a visitor at the board of control headquarters yesterday.

In conversation relative to the work of the congress, its importance to communities where held and, generally, upon the important matters affecting irrigation in the Rocky mountain region, Colonel Twitchell said:

"In all its history, New Mexico has never had so much attention as at the present time. The early admission of the territory as a state, the great landholding epidemic which seems to be prevalent in the middle and eastern states, the knowledge that in New Mexico there are thousands of acres of land which may be taken up under the homestead laws of the nation, and the great amount of publicity given to the possibilities for the homeseeker and the homemaker in the west and southwest, have provoked an enormous inquiry from all portions of the country.

New Mexico Statehood.

"Yes, New Mexico, is looking forward to a great era of prosperity. Of course, locally, the subject just now uppermost in the minds of the people is making the constitution for the new state, and for the next twelve months we will have about as much politics in New Mexico as is ordinarily allotted to the citizen of the great and growing southwest. We are not lacking in politicians; we could loan Colorado a few to great advantage, just now most of them are candidates for the senate. A desire to represent the new state in the upper house of the national Congress is not confined to the members of the dominant party—the Republican—in New Mexico. There are a great many Democrats who believe they have better than a fighting chance.

"Even in the west there seems to be a great lack of information as to the prospects of the new state along agricultural lines. The amount of water which may be made available for irrigation purposes, through storage, is but poorly appreciated even among our own people. The truth is the great majority knows nothing about surface and torrential flows, although they witness every year the going to waste of enough water to quadruple the present irrigated area of New Mexico.

"The continuation of the Sangre de Cristo range of mountains from Colorado southward into New Mexico carries their elevation, practically undiminished, down through the western portions of Colfax, Mora and San Miguel counties, and the eastern portion of Taos county, and end in the Gorieta and Santa Fe ranges. This range is a great watershed. Its abrupt and precipitous slopes make a runoff of probably more than one-half of the heavy, dashing rains, and at least one-fourth of the lighter rains and snows, while the forests of pine, spruce and aspen and other luxuriant vegetation evidence about the same annual precipitation as occurs along the same range up her in Colorado. The many streams flowing out of these mountains towards the east and southwest are the headwaters of the Canadian and Pecos rivers. These streams, on reaching the more level valleys below the foothills, except when swollen by waters from melting snows or heavy rains, are usually as quiet and placid as a meadow brook.

"At such times, to the unreflective and uninformed, they would seem to drain a territory of scant water supply, and the appellation given them as rivers never fail to excite a smile from the eastern tourist.

Abundant Flood Water.

"One only has to look at the width of the stream beds, often 100 or 200 feet from bank to bank; the debris from floods left on the prairies far beyond the banks of the streams; the uprooting and lodgment of large trees; the rolling or huge boulders of 50

to 80 tons weight down the canons, and the data available in the records of the engineering department of any railway company in New Mexico, in order to fully appreciate the volume and violence of the waters contained in the elemental deluges of the hills. Travelers and drovers compelled to camp for several days beside any one of these streams waiting for the turbulent waters to subside so they can cross, fully recognize the enormous quantity of flood water wasted from the watershed. While they are permanent streams in the sense that they always carry some water, they are, near their source, torrential in character. Often one of these streams carries a volume of water from 15,000 to 20,000 cubic feet per second for twelve to twenty-four hours. I know of one measurement in Logan, New Mexico, on the Canadian river in 1909, which showed that the river carried 100,000 cubic feet per second and most of it came from flood in the Cimarron, Vermejo, and Red rivers in Colfax county. For ages, these waters, more valuable than all the minerals in the mountains upon which they fall, have rushed on to utter waste to the Gulf of Mexico.

"Lying to the eastward of this range beginning just below the Evergreen foothills, and extending to the eastern limits of Colfax, Mora and San Miguel counties, are vast stretches of valley, prairie and mesa lands of such gradient and conformation as to be adapted perfectly to artificial application of these waters.

Natural Reservoirs.

"Scattered over this entire scope of country, as well as in the higher levels of the mountains and foothills, are natural depressions and lakes, which, at small expense, can be utilized as reservoirs; while, in the upper levels, nearer the sources of the streams, are many favorable sites where large reserve reservoirs can be constructed at reasonable cost.

"Farmers have learned that the best water right is the one with a reservoir behind it. In most irrigation systems which have not sufficient storage capacity, the streams are naturally short of water in the driest part of the season when the farmers need the water most. The soil and subsoil of this whole district are quite uniform in character and favorable to the highest duty of water. The soil is mostly a deep, rich, chocolate-colored sandy loam, with clay subsoil which holds the water where it is most available for plant growth. This feature in connection with the fact that the principal rainfall occurs during July and August renders the duty of water extraordinarily high.

Annual Precipitation.

"Vernon L. Sullivan, territorial engineer, has expressed the opinion that in this portion of New Mexico, nine inches of water, properly used, in addition to the natural rainfall, will be sufficient on an average farm. On inquiry of the farmers near Maxwell City, Springer and Las Vegas, I have been assured that this estimate is ample. As a matter of fact, irrigation here may be regarded as supplementary to the natural rainfall. The government records of precipitation over the prairie and mesa portion of this area show a great deal more rainfall than most so-called dry-farming sections have, with the precipitation better distributed over the growing season.

"The precipitation at Raton, during 1909, was 23.02 inches, of which 17.31 inches occurred in May, June, July, August and September.

"No records have been kept of precipitation on the mountain watershed mentioned, but it is much greater than for the lower elevations.

"From such measurements of runoff as have been made from the annual estimated precipitation, and from evidence on the ground of floods in the streams, there can be no doubt that this mountain watershed of many thousand square miles will furnish water to irrigate several hundred thousand acres of land in each of the counties I have mentioned.

"The government figures for the runoff from the entire drainage area of the Rio Grande in Colorado are 500 acre feet for each square mile of surface, or a runoff of nine inches per annum. Estimating the runoff from the mountain and foothill area of Colfax county at only six inches at altitudes of 7,000 and 13,000 feet gives 1,610,000 acre feet of water available for irrigating the 512,000 acres of irrigable land, or nearly two acre feet for each acre. The average rainfall being about seven to eighteen inches, this would make a total water supply of forty-nine inches per annum.

"Theoretically, it is possible to store and utilize nearly all of this runoff. Practically it is easily possible to store and utilize more and more of it each year, until, with the increased flow of the springs, the raising of the ground water and the increased humidity of the air, caused by irrigation of large

WOMEN
OF MIDDLE
AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 115 pounds. My trouble

dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. SARAH LOSTON, 411 S. Livingston Street, Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

areas, all the farming land of this entire district can be brought under the highest state of cultivation.

What Storage Means.

"What this means to New Mexico may be realized by seeing the wonderful results of irrigation in certain districts in Colorado, which only a few years ago, were treeless plains used only for grazing purposes. Now they are occupied by a numerous population of prosperous farmers, with a sugar mill every few miles and lands selling at \$300 to \$400 per acre, or fruit districts where land is worth from \$1,000 to \$4,000 per acre, having full bearing orchards.

"The native people and settlers of Colfax, Mora, San Miguel and Taos counties have successfully grown certain crops—such as wheat, beans, short season corn, sorghum and Kaffir corn, without irrigation, for over fifty years, and the Mexican people have always planted temporal crops above the irrigated lands.

"Irrigation farming has been carried on in some parts of Mora, San Miguel and Taos counties since the earliest occupation by the Spaniards while there are remains of ancient irrigation ditches in Taos county used probably many hundred years before by the Pueblo Indians or by some race which preceded them.

"In Colfax county which was formerly the home and favorite hunting ground of the Ute and Apache Indians irrigation farming has been practiced for over fifty years. The noted scout and Indian fighter, Kit Carson, had a ranch on the Ponil near Cimarron and constructed one of the first irrigating ditches in Colfax county. The irrigated farms and the large stone flour mill at Cimarron, owned by Lucien B. Maxwell, supplied the settlers and United States army posts with flour in the early sixties.

Irrigation Development.

"Here B. F. Eaton, the pioneer of the great Greeley irrigation district, afterwards governor of Colorado, learned to farm by irrigation on one of Maxwell's ranches near Cimarron.

"But the methods of irrigation, seeding and cultivation, were crude and wasteful compared to modern methods now in use in the irrigation districts in California, Utah and Colorado, and until quite recently no efforts have been made to store and utilize the vast quantities of flood water.

"It is only within a few years that the great irrigation possibilities along this watershed have been given any attention. The reason for this is that the greater part of the land in these counties was included in land grants owned by a few individuals and companies and used for grazing purposes. The owners did not want to divide the land into small tracts for settlers. In fact settlers were just what they did not desire. But the settler has come. This means that there will soon be a cultivated farm on the area of ground formerly required for the maintenance of a single steer.

"The crops grown under irrigation in this district are chiefly alfalfa, sugar beets, wheat, oats, barley, beans, peas, corn, timothy and orchard grass, Kentucky bluegrass and all kinds of garden vegetables, including melons.

"It is a fine fruit country, particularly for high priced apples and pears. The apples are thin-skinned, crisp and juicy, of finest flavor and keeping qualities. There are a few good orchards that have been bearing for 35

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THE BABE IN THE WOODS.

The Albuquerque Morning Journal sees another shadow in the political woods of New Mexico. Scarcely over the fright that the Fox of Three Rivers gave it, the Journal is in panic at the sight of the shadow of the Bull and seeks to chase him off what it seems to consider its own reserve. But the Journal is needlessly alarmed. There are two barriers that will keep the Bull in his alfalfa pasture. First, there is a federal statute which prohibits any one drawing \$2,500 or more from the government each year from accepting any other public office, appointive or elective. The other is the experience and wisdom of the Bull. There is nothing for him to be gained by mixing into the fight and going to the constitutional convention. No matter what stand he took or how he voted on any provision, he would make new enemies or at least opponents. He is much too sly to be put on record at this particular time. His rivals are not near as wise for they make a grab for everything in sight and that to their own detriment. Let others do the constitution making, the Bull will preserve an attitude of masterly inactivity, which if it makes him no new friends, at least does not alienate the old ones.

There are beasts in the political jungle much more inimical to the hare and to the serpent which are the Journal's particular friends at this time, one on the Republican and the other on the Democratic side of the woods. The latter can be trailed in the editorials of the Journal occasionally.

There is the Lion of Los Lunas, for instance, powerful and invincible; the Grizzly of Socorro, deliberate, sure and unconquered; the Black Eagle of San Miguel, whose eye sees farther than that of any other inhabitant of the woods; the Leopard of Tularosa, for whose restlessness even New Mexico is too small; the old Tiger of Santa Fe who for fear that some one might question his superior strength insists upon doing everything himself from the selection of a ward chairman to dictating the first state governor; the Bulldog of the Salado; the Badger of Cimarron and a host of other proud and courageous denizens of the high timber and the grassy vales. On the Democratic side there is the Wolf of Monero; the Hyena of Las Vegas; the Tom Cat of the Lower Pecos; the Coyote of Clovis, and others more worthy of the lance of the Journal at present than the Fox and the Bull who are in no animal's way for the present and are strictly minding their own business.

THE SQUARE DEAL.

The New Mexican is much pleased to notice in the latest time table folder of the Santa Fe system, a consistent proof of that company's desire to do all within reason for the advertising of Santa Fe and to attract to this city tourist travel. For the first time in this folder, the arrival of trains and leaving time at Santa Fe, are given in the main time table as well as in the condensed time tables that precede it, while on the several maps in the folder, Santa Fe appears in larger type than any other place in the Territory. The Santa Fe is planning an extensive advertising campaign in which this city is to be featured as never before, as soon as the scenic highway is completed to the Pecos and adequate hotel facilities are provided to take care of the great stream of travel that would follow such a campaign. In the past few years, the New Mexican has been convinced that as soon as attention is called to any reasonable demand on part of the local public, it is granted by the Santa Fe officials and that this ancient capital is at last being given a square deal.

The first number of the Raton Morning Reporter has been received and like almost every new journalistic venture it has trouble with machinery breaking down, with unsatisfactory news service and other drawbacks that meet the enterprising neophyte from the very start when he enters upon the work. The race is one of endurance rather than speed, for every new paper that enters an already overcrowded field. The Morning Reporter, makes the eighth daily paper in New Mexico, Albuquerque and Raton having two papers, and Santa Fe, Roswell, Estancia and Las Vegas one each. This is only one-half the number in Arizona, but twice as many as in Wyoming and two more than in Utah and only one less than Vermont.

THE AEROPLANE VS. BATTLESHIP.

Richard P. Hobson, congressman and hero of Santiago, has taken the side of the battleship as against the aeroplane and explains at great length in Popular Mechanics for September, why the craft of the air is no match for the craft of the sea.

After an interesting discussion of the advantages and limitations of both aeroplane and battleship as opposed in warfare, Captain Hobson declares that "the most effective work of aeroplanes will doubtless be done by those that become part of the equipment of battleships, chiefly for purposes of observation and scouting." Of the battleship, he says:

"It is not necessary to detail the great defensive elements of the battleship structure, even in its present construction. It will be found difficult, if not impossible, to sink or destroy a modern battleship by a single blow, even below the waterline, except in case of the most powerful mine explosion. How can it be expected to destroy such a vessel by a single blow from the air? Of course the aeroplane's missile will be of sensitive explosive of higher power, dynamite or explosive gelatine at the present time. It could not be hoped to have such a missile pass through the superstructure and upper decks and reach the protective deck before explosion. Any claim of armor penetration is out of the question.

"The battleship's speed is a source of substantial protection in reducing the accuracy of missiles operated only by gravity, and this speed is easily made variable in both direction and velocity when aeroplanes are approaching. At night and in the gloaming, the searchlights from torpedo boat destroyers and other auxiliaries, sweeping the heavens and resting on the aeroplanes, would interfere with the latter locating battleships with lights screened, until the guns of the ships opened up with a pour of annihilation.

"The limited offensive power of the aeroplane contributes almost nothing in the way of defense, while the whole battery of power of the battleship is a direct factor of defense in preventing the aeroplane from reaching the zenith. It must also be remembered that in defense, as in offense, the battleship can command the services of air craft, aeroplane destroyers, dirigibles and captive balloons."

THE FAILURE OF THE REFERENDUM.

The utter failure of the initiative and referendum under New Mexico conditions was demonstrated only a few short months ago in Santa Fe. This city, prior to the census, wanted to take in its suburbs to make a good showing. Twelve hundred of its fifteen hundred voters favored the proposition. They prevailed upon Hon. Thomas B. Catron to have passed by the legislature a law that permitted a referendum vote upon the question. The day for the referendum came. The few who were opposed to a Greater Santa Fe rallied and worked, they spent money and they managed to drag to the polls some two hundred floating votes. The thousand and more voters who favored a Greater Santa Fe stayed at home, too indifferent to cast their ballots, and depending on neighbors to cast the vote. It was a surprise that Santa Fe was treated to the next day, when it was announced that Greater Santa Fe had been defeated, and the town given a set back for ten years, but it was too late to remedy the default. The same story would be repeated every time a law would be referred to the people. The fellows who had a pecuniary interest in the adoption of any measure would spend money and energy and get the votes they needed; the bulk of the community would stay away from the polls and one vicious measure after the other would be fastened upon the public, measures which no legislature would dare to broach on account of the savage criticism it would receive, but what good would criticism of so indefinite a body as the public do?

The most dissatisfied people with the workings of the direct primary are the Democrats of Curry and Chaves counties. The returns showed that only a small portion of the Democrats went to the primaries and that the candidates selected are not the choice of the great majority of the voters, but of a minority that will find it difficult to elect Democratic candidates in strongly Democratic counties.

PUMPING FOR IRRIGATION.

The indirect good that the drought has done for eastern New Mexico, lies in that it taught the great desirability of supplementing scientific farming methods with irrigation from wells. Irrigation by pumping is a success in the Mimbres valley, is employed with profit even in the Mesilla valley and is proving the salvation of the Pecos valley. The Estancia valley will never attain a full degree of prosperity until it has power plants for pumping and a well for irrigation on every homestead. A recent news item from Las Cruces says:

"Dr. W. C. Fields has already proved the value of a pumping plant in the Mesilla valley, although his plant has only been in full operation for three days.

"On his ranch, just west of Las Cruces he had several acres in cantaloupes and 1800 two year old Bartlett pear trees. When the Rio Grande went dry, Dr. Fields gave an order for a pumping plant. He first had one well put down, connected a six-inch centrifugal pump to it and started operations with a gasoline engine. The one well did not develop enough water and he immediately started work on a second well.

"While boring this second well, Dr. Fields kept his pump going on the first one and saved his cantaloupe crop.

"As soon as the second well was completed the two were connected, and today he is throwing 600 gallons of water a minute and saving his pear orchard. Without the pumping he would have secured about \$600 worth of cantaloupes from his tract. With the well he has already shipped \$2000 worth of melons and in addition saved his trees. The wells, pump and engine cost about \$1100, the cantaloupe crop this year more than paying the amount.

Quite a number of other farmers in the valley are now fighting on pumping plants and next year will doubtless see twelve or fourteen more installed."

NO CHANGE IN NAME.

Bishop Willard F. Mallahan, of the Methodist Episcopal church, writes from Auburndale, Massachusetts, as follows to Chief Justice W. H. Pope: "In the discharge of my official duties for many years I have become deeply interested in New Mexico. Hence I venture to suggest that your new state ought to bear the name of the immortal Lincoln, next to Washington, the greatest man that America has ever produced." Here is a sincere, well-meaning man, who no doubt has the welfare of the people of this commonwealth at heart, making a suggestion to the people unselfishly and convinced of its appropriateness. It is very difficult, even for the men of culture and sympathy, on the outside to understand that three hundred and more years of history have so interwoven romance and tradition with the name of New Mexico, which is the oldest state name in the United States, that the people as a whole resent any recommendation of a change in name, as much as New York, or New Jersey or New Hampshire would resent a suggestion from New Mexico that they should be renamed. None reverse the name of Lincoln more than do the people of New Mexico, and they have honored him by naming a county and one of the towns of the territory after him, but as to the name of New Mexico, it has been hallowed by the blood of martyrs and the deeds of heroes, and is inseparably connected with three hundred and more years of stirring deeds. New Mexico will never of its own volition give it up for any other name that could be mentioned.

There are some very small and narrow-minded people who object to Spanish being taught in the public schools of New Mexico. In many of the progressive cities and even country districts of other commonwealths, Spanish now has a place on the curriculum and its usefulness should be more apparent in this Territory than anywhere else, on account of the closeness of the neighboring republic with its millions of Spanish speaking inhabitants. Says the Youth's Companion:

"Since the Philippines and Porto Rico came under the American flag the study of Spanish has been a much more popular elective at our colleges, and now in at least two large cities, Boston and Philadelphia, it is strongly urged that the language be added to the lengthening list of studies in the public schools. At West Point, for obvious reasons, the study of Spanish is compulsory, and the commercial world realizes that the language is a great help in winning the trade of the sixty million Spanish-speaking Americans."

The editorial writer of the Denver Times sums up the demand in Colorado for the initiative, referendum, recall and direct primary as follows:

"But the people who know no history are clamoring for direct legislation as though it were a modern innovation, while Mr. Greenman knows that direct legislation was the system which preceded that conception of parliamentary government upon which the constitution of this country was founded by one of the most remarkable assemblages of men ever noted in political history. A thousand years ago the Witenagemote tried out the idea of direct legislation now being demanded by Governor Shafroth, and abandoned it ultimately for representation."

tative government; and in Oregon today they are trying to sneak back from the awful confusion of direct legislation to the more coherent and orderly methods of responsible and deliberative enactments."

The First National Bank OF SANTA FE.

The Oldest Banking Institution in New Mexico. Established in 1870

Capital Stock \$150,000
Surplus and Undivided Profits 80,000

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency public or private. Interest allowed on time deposits at the rate of three per cent per annum, on six months' or years' time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

PERSONAL MENTION.

Attorney E. W. Dobson, of Albuquerque, is in the city.

Neil B. Field, attorney of Albuquerque, is at Gregg's hotel.

Carl A. Bishop of Santa Fe spent yesterday at Albuquerque.

S. D. Coy, of Tucson, Ariz., is a sightseer registered at the Claire.

H. Warfield and George H. Sheldbach are Chicago salesmen in the city.

W. C. Johnson, J. A. Delan, W. A. Dumas are Denverites at Gregg's hotel.

W. M. Letch and R. D. Brown, of Kansas City, are here on legal business.

Former District Clerk W. E. Martin of Socorro, was a guest at Gregg's yesterday.

Attorney General Frank W. Clancy will return this evening from Albuquerque.

Associate Justice Frank W. Parker returned this afternoon from a trip to Las Cruces.

Guy Macintosh, L. C. Frankel, C. E. Bailey, are Denver salesmen registered at the Palace.

F. W. Drake, a lumberman, from Hodges, Taos county, registered at Gregg's yesterday.

Arthur C. Ringland, district forester, was in the city Saturday, on his way to Albuquerque.

U. S. Attorney David J. Leahy, of Las Vegas, arrived in the city yesterday on legal business.

A. L. Hall, court stenographer at Roswell, was in Albuquerque yesterday on his way to Santa Fe.

Mr. and Mrs. W. E. Wiehle, of Chicago, are sightseers in the city. They registered at the Coronado hotel.

Judge H. L. Waldo of Las Vegas, came up from Albuquerque yesterday. He is here on supreme court business.

Assistant Superintendent of Insurance Peter M. Lienan spent today at Albuquerque on fire insurance matters.

Former Governor Miguel Otero left last night for Las Vegas and is expected to return tomorrow or the day after.

Miss Clara D. True formerly in the U. S. Indian service and now living on a ranch at Pajarito, was in the city Saturday.

Mrs. A. M. Bergere who has been seriously ill at her home was reported much improved today. She is able to sit up.

Harriet A. Comrie, a trained nurse from New York City, arrived here Saturday and is calling on friends on the Cerrillos road.

Father Pedro Plantard, the pastor of Chaparrito, is at St. Vincent's hospital on account of a general run-down condition.

F. R. Starr, of Antonio, Colo., and who spent some weeks here last winter, was in the city Saturday. He is in the forestry service.

Dr. J. H. Amerland, of St. Louis, returned to the city Saturday after visiting Albuquerque, and is warm in his praise of the beauties of this country. He is on his way to the coast.

Misses Elizabeth and Alice Coors, of Las Vegas, who have been the guests of Miss Madeline Mills at the executive mansion, left yesterday for their home in the Meadow City.

Hon. Manuel R. Otero, register of the Santa Fe land office, has gone to Long Beach, California, to join his daughters, Mrs. Solomon Luna, Mrs. V. Nolan and Mrs. J. O. Q. Otero. He will be gone only two weeks.

Mr. and Mrs. M. F. Fifield of Aztec, San Juan county, were visitors in town yesterday. Mr. Fifield, who is county school superintendent of San Juan county is on his way home from Texas with his bride a Texas lady.

J. H. McCutcheon, formerly a well known newspaper man in Albuquerque and El Paso, is in the city today and expressed great regret over the fire in El Paso in which the mayor of the city and a hoseman lost their lives while many were injured.

Mrs. Herbert Parsons, wife of Congressman Parsons of New York, and daughter of the noted banker, Henry Clews, was in the city Saturday on her way to Arizona. Mrs. Parsons has enjoyed her trip through New Mexico very much and was enthusiastic about the territory.

William D. Hayes of the U. S. forest service and in charge of the Fremont planting station on Pikes Peak, but up to a few months on the business staff of the New Mexican, has been offered the assistant professorship in forestry at Colorado College, Colorado Springs, and may accept the offer.

UNEQUALED FOR BAD BLOOD

Normal, healthy blood contains millions of tiny red corpuscles, which are the vitalizing and nourishing element of the circulation. These corpuscles are constantly forming in healthy systems by the extraction of nutriment from food eaten, and this nutriment is then supplied through the circulation to every portion of the system. Any system which does not receive the proper amount of blood nourishment is not prepared to withstand the countless disorders that assail it. Bad blood can not nourish the body, the circulation must be pure, rich and strong if we would enjoy good health. Bad blood manifests itself in various ways. With some it takes the form of skin diseases and eruptions, others become bilious and malarious, with sallow complexions, torpid liver, etc. If the germs and impurities in the blood are of a more virulent nature then bad blood becomes more serious and produces Rheumatism, Catarrh, Sores and Ulcers, and like troubles. Nothing equals S. S. S. for bad blood. It is Nature's own blood purifier, made from roots, herbs and barks. It goes into the blood, and in this way supplies the body with the proper amount of nutriment to maintain good health. S. S. S. is likewise the finest of all tonics and while purifying the blood builds up every portion of the system. S. S. S. cures every ailment coming from bad blood, and it does so simply because it purifies the circulation. Book on the blood sent free to all who write.

20 YEARS AGO TODAY

From the New Mexican of this date 1890.

Blackberries in large quantities from Miller's Tesuque orchard are being shipped to Las Vegas which now constitutes one of Santa Fe's best fruit markets. Santa Fe peaches are quoted there now at \$2 and \$2.25 per box of twenty pounds, a better price than California fruit brings.

The secretary of war has directed that the rooms in the old adobe palace heretofore turned over to the war department for use as officers' quarters be transferred to the department of the interior and in compliance with this order the quartermaster today turned the building over to Secretary Thomas, custodian on behalf of the interior department. The sum of \$3,000 has been appropriated for repairing the old palace and this will be expended this fall under the direction of Secretary Thomas.

Editorials.
The Democratic leaders and bosses and the White Cap leaders in New Mexico are one and the same.

This thing of exporting American beavers to the continent and to England and selling them for a title to British and other routes is not a very profitable one for this county or for the girl in the question and ought to be stopped.

THE FORUM.

"TRUE" FRIENDS OF THE INDIANS.

Los Angeles, Calif., Aug. 13.
The controversy between the forest service and the Indian department over the title to lands and water rights near Banning has been settled. "For the Indians the agitation was started by Superintendent Clara D. True, lately resigned from the government service. She delved into ancient history and found alleged rights of Indians to lands in the San Geronimo Pass which claims had been adjusted, however, many years before the Smiley commission. While the action of the superintendent was futile, it had the effect of stirring up some

trouble between the two departments of the government, and considerable feeling between the whites and the Indians of the locality.

In order to get the matter adjusted for final settlement the authorities at Washington sent Carl Gunderson here to make a final report. He has done so, and a contract has been made which will be binding on all parties. By the terms of this agreement the Indians release whatever claim they may have had to land and water rights near Banning, and are given some valuable grazing land near Banning, which will be allotted and used for running their herds on in winter.

The above dispatch from Banning, Calif., to The Los Angeles Times only hints at a vital chapter in the history of the unfortunate reservation Indians of southern California. It also gives but a faint idea of Miss Clara D. True's wonderful work while superintendent of the five, or more, tribes. The dispatch shows that she succeeded, in partially at least, protecting her wards but it does not tell that her record in the Indian bureau at Washington places her second to no one who has ever been in the service. Of her it can be said as she said of Miss Disette: "She has brains enough for half a dozen people."

These two very small women, womanly and essentially feminine, have done a marvelous work among the Indians and have made as truculent and venomous enemies as such women can make. Each one has been regarded by the non-political, justice loving branch of the interior department, as absolutely honest and fully equipped to cope with the vexatious Indian question yet one has left the service and the other has elected to bury herself where she can still do good but not keep alive the animosities of pennyroyal politicians. Every man in New Mexico may well be proud of these two noble women and every woman do them honor.

OLIVE ENNIS HITE.

DEFENDER OF THE RECALL.

Santa Fe, N. M., Aug. 13, 1910.

To the Editor:
Referring to your editorial, current issue, second column, on Initiative, Referendum and Recall, it is not a fact that, in the practical application of these laws, 10 to 40 per cent of the legal voters are required to initiate a law, call for a referendum or ask for a popular vote for the recall of an official?

In another column you say that Gallagher, the would-be-murderer of Mayor Gaynor of New York could get plenty of signers for a petition to recall the mayor. New Mexico is supposed to be as yet untainted with the terrible depths of crime and vice with which New York City is cursed. Can it be said that the would-be-murderer of a public official in New Mexico could get any than his own signature to a petition for the recall of that official?

For many years, in party platforms, statehood has been the subject of one plank. Because of the existence of a working majority, there could be no excuse for non-performance. Until now the non-performance has been practically a contemptuous refusal. I suspect the New Mexican would have signed a petition for recall in those days, if possible. Am I wrong?

Respectfully,
T. C. RIVERA, M. D.

MINES AND MINING

Lordsburg—Ten cars of ore were shipped from Lordsburg last week. The shippers were the Eighty-Five Company, S. W. Maltbie and Cook & Leber. C. W. Marsalis has taken a lease and bond one the Three Heroes and will immediately start pumping. Writer & Kennedy have made arrangements with the Orion Company, owners of the Dundee mine, to work it. The shaft will be cleaned out and sunk to greater depth and most of the work will be in the lower drifts. The ore above the tunnel in the mountain has been stoped out.

Organ—Dr. J. H. Johnson and George B. Lerchen are taking out some high grade ore from the Big Tree claims which they own, and

which are situated in the Organ mining district, Dona Ana county, adjoining the Excelsior mine. The Big Tree is a lead-silver proposition, carrying a little gold. The low grade ore from the vein carries about three hundred ounces of silver but quite a little of what has been taken out runs as high as one thousand ounces. The owners expect to ship a car load of the ore within a short time and will develop the property to its full capacity. C. E. Rose, manager of the Mormon mine, has the new shaft on that property down to the one hundred foot level and expects to sink it two hundred feet further. P. B. Davis, of the Philadelphia Company, has reached the 150-foot level with the shaft on the Chippewa property and has just let a contract to Thorne & Cowan to cross-cut from the bottom of this shaft to the vein. He expects to open up a large body of good copper ore. Nicholas Gales, of the Stephenson-Bennett mine, states that the expects to have enough money raised within the next three or four weeks so that active operations can be commenced on the property.

Grant County—The Chino Copper Company is doing a great deal of work on Whisky creek, near the Holson ranch. A big reservoir is being constructed and Tenny, the freighter, last Tuesday delivered out there 800 sacks of cement.

BY ORDER OF THE REPUBLICAN CENTRAL COMMITTEE, SANTA FE COUNTY.

A delegate convention of the Republican party of the county of Santa Fe, is hereby called to meet at the court house in the city of Santa Fe, New Mexico, on August 20th, 1910, at 2 o'clock p. m., to nominate five candidates for said party for election as delegates to the Statehood Convention, for which purpose primaries will be held in each precinct of the county on August 17th, 1910, to meet in all precincts outside of the city of Santa Fe at four (4) o'clock in the afternoon, and Precincts 3, 4, 17 and 18 at seven-thirty (7:30) o'clock p. m., to nominate delegates to the county convention. Primaries in each precinct to be entitled to the number of delegates, and to meet and to be called to order by the below persons, as follows:

Precinct No. 1—Two delegates, to meet at the school house on the hill and to be called to order by Benito Lujan.

Precinct No. 2—Two delegates, to meet at the school house and to be called to order by Polito Dominguez.

Precinct No. 3—Eleven delegates, to meet at the house of Simon Vigil, and to be called to order by Telefor Rivera.

Precinct No. 4—Eleven delegates, to meet at Cordova Hall, and to be called to order by E. C. Abbott.

Precinct No. 5—Five delegates, to meet at school house, near house of Felix Romero and to be called to order by Felix Romero y Dominguez.

Precinct No. 6—Two delegates, to meet at the house of Bonafacio Narvais, and to be called to order by Bonafacio Narvais.

Precinct No. 7—Three delegates, to meet at the hall of Rafael Granito and to be called to order by Matias Montoya.

Precinct No. 8—Two delegates, to meet at St. Joseph's Hall and to be called to order by Pedro Pena.

Precinct No. 9—Three delegates, to meet at school house, nearest the house of Tomas Roybal, and to be called to order by Tomas Roybal.

Precinct No. 10—Three delegates, to meet at the school house and to be called to order by M. C. Kinsell.

Precinct No. 11—One delegate, to meet at the school house and to be called to order by Nicolas Montoya.

Precinct No. 12—Three delegates, to meet at the school house and to be called to order by Margueto Chaves.

Precinct No. 13—Three delegates, to meet at the school house and to be called to order by W. N. Taber.

Precinct No. 14—Three delegates, to meet at the school house and to be called to order by Rinaldo Ortega.

Precinct No. 15—Two delegates, to meet at the school house and to be called to order by Blas Quintana.

Precinct No. 16—Four delegates, to meet at the school house and to be called to order by Epimenio Mestas.

Precinct No. 17—Eight delegates, to meet at Manderfeld Hall, old office of probate court, and to be called to order by T. B. Catron.

Precinct No. 18—Seven delegates, to meet at the county court house and to be called to order by G. W. Prichard.

Precinct No. 19—Two delegates, to meet at the school house and to be called to order by Antonio Garcia y Armijo.

Precinct No. 20—One delegate, to meet at the school house and to be called to order by Juan Cunningham.

Precinct No. 21—Two delegates, to meet at the school house and to be called to order by Otto Getts.

Precinct No. 22—One delegate, to meet at the school house No. 4, and to be called to order by Antonio Jose Romero.

Precinct No. 23—Two delegates, to meet at the school house and to be called to order by Nicolas Hernandez. The meeting must be called to order promptly at the hour designated, not a minute earlier, and the party calling it to order must receive nominations for president of the same from all who desire to make nominations and give ample time therefor; if more than one nomination be made for President, the

(Continued From Page Three.)

to 50 years, with very few failures during that time.

Sugar Beet Production.

"All the conditions are exceptionally favorable for sugar beet culture under irrigation. The temperature of the summer months, the mean for June, July and August being 70 degrees, followed by a long period of cool dry weather, for ripening and harvesting, are ideal for production of a high tonnage and sugar percentage.

"For the past two years sugar beets have been raised near Las Vegas, Watrous, Shoemaker, Miami, Springer and Maxwell, at the last named place in both an experimental and a commercial way. The average sugar percentage of the 1908 crop of New Mexico exceeded that of any other state or territory in the United States. The 1909 crop made an actual commercial test for beets shipped of over 17 per cent.

"But irrigation here, under systematic, modern methods, depends upon storage reservoiring for reserve supply and is in its infancy. Several large enterprises are projected and some have progressed sufficiently to begin colonization. In the class are those of Springer Ditch Company, at Springer; Farmers' Development Company, at Miami; French Land & Irrigation Company, at French; and Maxwell Irrigated Lands Company, at Maxwell, all in Colfax county, New Mexico.

"These projects, though not completed, show the enormous water supply furnished by the Sangre de Cristo watershed. Taking as one instance, the Maxwell Irrigated Lands Company, which will take water by large ditches from both the Cerro and the Red rivers. The Vermejo ditch is completed and from this ditch alone ten large reservoirs were filled the present season by the middle of May and there has been a large amount of water running to waste down the Vermejo which could not be utilized.

"The Red river ditch is being constructed and when completed this company will have much more water than can be stored and used by the reservoirs in their system.

New Projects.

"There are three other projects which have not got much beyond the formative stage of perfecting titles to water rights, surveying and engineer's estimates of costs of construction. There are the Las Vegas project, now under construction by D. A. Canfield, the noted irrigationist of Colorado; the Lake Charette projects, controlled by Horenstein and Hartoxy of Springer, and the Eagle's Nest project, controlled by Charles Springer of Cimarron, New Mexico.

"This Eagle's Nest enterprise will, without doubt, become one of the greatest in the west, covering as it will over 100,000 acres of exceptionally rich land, with low construction cost and an abundant supply of water. "None of these is government project and I cannot say much concerning any one of them except that every one will bear the closest scrutiny by persons who desire to come among us and make their future homes here.

"There are great possibilities for irrigation in the rich valleys of the Mora and in the Taos country.

"It is to this country that we invite the people of the world to help in making the greatest state in the Rocky mountain region."

IN NEW MEXICO'S
POLITICAL PASTURES

The Democratic primaries of McKinley county will be held on August 22.

The Republicans of Valencia county will meet at Los Lunas on Saturday, August 27.

The Non-Partisan Voters' League of Bernalillo county has been launched. It has adopted a platform of sixteen articles advocating initiative, referendum and other Socialist doctrines.

The Socialists of Otero county have nominated the following ticket: A. K. Gore, of Alamogordo; George Warnock, of Alamogordo, and A. W. Garrison, of Camp City. There are eight socialistic lodges in the county: Alamogordo, Camp City, Cloudcroft, Mayhill, Avis, Pinon, Weed and Cox

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

STRIPLING BURROWS CO.

Canon and they will reduce the Democratic vote of the county materially.

The Union County Democrats last week elected the following ticket: Dr. A. E. Broesier, Amistad; John A. Pace, Clayton; Francisco Miera, Miera; Luciano Castillo, Folsom. Paz Valverde, of Clayton, was chairman, and Fulgencia Baca, secretary of the convention.

The Republicans of Curry county have put up a very strong ticket. At their convention at Clovis on Saturday they nominated Mayor Harry W. Crawford, of Clovis, a son of "Jack" Crawford, the poet scout, and a popular railroader, and C. E. Foster, postmaster at Hollene, for the constitutional convention. Mayor Boyle was elected chairman of the county committee.

"The Republicans are, with comfort, comparing the two tickets. The Democrats nominated three Silver City lawyers, and a merchant from Fierro. The Republicans nominated one Silver City lawyer, a Silver City business man, a business man from Central, and the cashier of a bank from Lordsburg. The voters can easily pick out the men in whose hands it will be safest to leave the work of preparing a constitution."—Western Liberal.

The Democrats of Chaves county met at Roswell on Saturday to ratify the nominations made at the primaries. A dispatch says: "The meeting was an all afternoon wrangle. A bitter fight was waged, between the two factions, the conservative and the radicals." Finally that element in the party which favors prohibition was defeated by a vote of 23 to 17 and the Prohibition strength in that county will be thrown to the Republicans, assuring their election.

"Now that Chairman H. O. Bursum has been in Santa Fe and opened Republican headquarters there, it is a safe guess that there will be quick and effective movement in Republican circles throughout the territory. Mr. Bursum is now a well seasoned veteran in the Republican service and he can be depended upon to guard well the interests of his party should any partisan question be thrust upon him in connection with the approaching constitutional convention."—Socorro Chieftain.

CLAIMS PORTION OF
WENDLING REWARD.

San Antonio, Texas, Aug. 15.—Detective Carney of Louisville, Ky., will not be permitted to enjoy in peace the \$6,000, which have come to him as his reward for capturing Joseph Wendling, alias Henri Jacquemin, the Louisville church janitor accused of having murdered eight-year-old Alma Kellner. Joseph Krimmer of this city has just filed a claim of \$3,500 for his services in the case on the ground that it was a postal in his possession that led to the hiding place of the fugitive. Wendling was traced to San Antonio by Detective Carney early in June. It developed that the man wanted had been working on a ranch near the city, but had made his escape a few days prior to the arrival of the officer. Mr. Krimmer, the manager of the ranch, had in the meantime intercepted a postal from Mrs. Cora Muena of Hume, Mo., and intended for Wendling. This was shown to Detective Carney by Mr. Krimmer, who also claims that he advised the officer to keep in touch with the woman, that appearing to him as the only source from which further information about the whereabouts of Wendling could be gathered. This the detective did with the result that ultimately he arrested the fugitive at San Francisco.

DEMOCRATIC CALL
FOR PRIMARIES.

Santa Fe, N. M., Aug. 11, 1910.
The precinct chairman of each precinct of Santa Fe county, is hereby requested to issue a notice for a meeting of the citizens of his respective precinct, and to hold such meeting at such time and place in his precinct on the 16th day of August, 1910, as to him may seem proper to give all citizens of the precinct ample notice, for the purpose of selecting delegates and alternates to represent the precinct in a county convention to be held at the court house in the city of Santa Fe, at 2 o'clock in the afternoon on the 22nd day of August, 1910, for the purpose of nominating five suitable men as candidates to represent Santa Fe county in the Constitutional Convention, to be voted for at a general election to be held on the 6th day of September, 1910.

Each precinct will be entitled to one delegate and one alternate for every twenty-five votes cast and for each fraction thereof for O. A. Larrazola for delegate to Congress at the last general election, and each precinct will be entitled to the following number of delegates and alternates to-wit:

Pt. No. 1, Pojoaque, 2 delegates; Pt. No. 2, Tesuque, 2 delegates; Pt. No. 3, Santa Fe, 8 delegates; Pt. No. 4, Santa Fe, 5 delegates; Pt. No. 5, Agua Fria, 2 delegates; Pt. No. 6, Cienega, 2 delegates; Pt. No. 7, Cerrillos, 4 delegates; Pt. No. 8, Galisteo, 2 delegates; Pt. No. 9, San Ildefonso, 3 delegates; Pt. No. 10, Stanley, 4 delegates; Pt. No. 11, Golden, 2 delegates; Pt. No. 12, Lamy, 2 delegates; Pt. No. 13, Morieta, 2 delegates; Pt. No. 14, Chimayo, 1 delegate; Pt. No. 15, Santa Cruz, 1 delegate; Pt. No. 16, Santa Cruz, 2 delegates; Pt. No. 17, 4 delegates; Pt. No. 18, 5 delegates; Pt. No. 19, Madrid, 2 delegates; Pt. No. 20, San Pedro, 4 delegates; Pt. No. 21, Pojoaque, 3 delegates; Pt. No. 22, 1 delegate; Pt. No. 23, Rio Medio, 1 delegate.

As the framing of a constitution for the new state should be removed as far as possible from partisan influences and made for all the people and is of such great importance to the

welfare of the future state, and to accomplish the best results for all the people, all legal voters in each precinct who believe that the people should retain in their own hands some power to restrain and correct undesirable or evil laws and bad legislation by having incorporated into the constitution the principles of the initiative, referendum and a proper limitation on taxation and such other safe guards as they believe in to attend and actively participate in such primary meetings and in said county convention, and they will be accorded all rights and privileges in such meetings with all others without regard to past or future political views or party affiliations.

ARTHUR SELIGMAN,
Chairman Dem. Co. Central Committee.
Attest:
A. P. HILL, Secretary.

Territory of New Mexico, County of Santa Fe, ss.
No. 6094.
Charles A. Siringo, Plaintiff.

vs.
W. P. Cox and C. C. Rushing, and the unknown claimants of interests in the premises hereinafter described, adverse to the plaintiff, and the unknown claimants of interests in the promissory note hereinafter described, Defendants.

In the District Court of the First Judicial District of the Territory of New Mexico, within and for the County of Santa Fe.

The said defendants, W. P. Cox and C. C. Rushing, and the unknown claimants of interests in the premises hereinafter described, adverse to the plaintiff, and the unknown claimants of interests in the promissory note hereinafter described, are hereby notified that complaint has been filed against them in the District Court of the First Judicial District of the Territory of New Mexico, within and for the County of Santa Fe, that being the court in which said cause is pending, by said plaintiff, Charles A. Siringo, the general object of said action being: On account of a certain contract entered into by said plaintiff and said defendants, wherein said plaintiff agreed to pay said defendants a certain sum of money for the purchase of a crude oil burner, designated as the 20th Century Crude Oil Burner. That on account of said contract said plaintiff made and executed his promissory note and gave a mortgage on his ranch, known as "Sunnyslope Ranch,"

lying southerly from the City of Santa Fe, in the county of Santa Fe, New Mexico, containing 220 1/2 acres, and which is bounded and described as follows, to-wit: The east half of the southwest quarter and the west half of the southeast quarter of Section B, also the southeast quarter of the northwest quarter and lot numbered three of Section 3, all in Township 16 N. R. 9 East of the New Mexico Meridian, except five acres of the latter tract known as lot Numbered 10, for the payment of said amount. On account of misrepresentations, etc., on the part of said defendants to the said plaintiff in re said Crude Oil Burner, said plaintiff prays that: 1st. That the said promissory note may be declared null and void and required to be surrendered up, unless found in the hands of some innocent purchaser for value before maturity; 2nd. That the holder or holders of said promissory note when found may be made a party, or parties, defendant to this suit; 3rd. That the said mortgage with the record thereof, may be ordered canceled, set aside and vacated; 4th. That the said plaintiff may have such other relief in equity as may be just and proper, and that he may recover his costs in this suit expended, as will more fully appear by reference to the complaint filed in said cause. And that unless you enter your appearance in said cause on or before the tenth day of October, A. D. 1910, judgment will be rendered against you in said cause by default. The name and address of plaintiff's attorneys are: Renehan & Davies, Santa Fe, N. M.
In Witness Whereof, I have here-

FOR SALE—Office safe \$50. Chas. E. Michael.

A New and Interesting change of pictures at the Elks' tomorrow night. Watch tomorrow's issue for titles.

Sweet Peas, any shade at a popular price, McConvery 415 Palace Ave.

The Beautiful Baby Grand Fisher piano received by the Eyles Music Co. from the factory Saturday is certainly one of the finest pianos ever brought to Santa Fe and every lover of music should step in and try its beautiful tone.

Beaten Up By Eight Men—Night Watchman Ogilvie at Albuquerque was set upon by eight men and beaten. It is believed that his skull is fractured.

Bakery Robbed—The French bakery at Albuquerque was yesterday robbed of a large quantity of lard, sugar and bread. The burglar made his entrance through a rear window.

The Rocky Mountain Amusement Company have opened up a place of amusement at the corner of Grant and Palace avenue, where for five days and nights they will give a good carnival show for little money.

Shot in Shoulder While Driving Cross Country—While driving cross country, from Kenna to Roswell, in Chaves county, Russell Prouture was accidentally shot through the shoulder by the discharge of his rifle. He will recover.

Exploding Stove Sets Fire to House—An exploding oil stove set fire to the house of Mr. and Mrs. A. L. W. Nilsson at Roswell, but the courageous Mrs. Nilsson extinguished the flames with a garden hose after turning in a fire alarm.

W. C. T. U.—There will be a regular meeting of the Woman's Christian Temperance Union on Tuesday the 16th. Annual election of officers. A good attendance is desired. A cordial invitation extended to every one interested in temperance work.

When Brown Met Brown—The Seligman Browns defeated the Bacon Browns at the college grounds yesterday by a score of 5 to 4. The game was declared an interesting one and was enlivened by the clever work of Willie West on shortstop. There was a good audience.

Woman Saves Child From Drowning—A woman guest at the Alvarado hotel at Albuquerque yesterday saved a child who had fallen into the basin of the large fountain, from drowning, by jumping in herself, although she wore a handsome silk gown, and rescuing the little one.

Fire at the Court House—Through the watchfulness of Janitor Benito Alarid, what might have been a disastrous fire, was extinguished on Friday evening of last week, after a political meeting in the court room. As Mr. Alarid was turning out the lights and closing doors and windows, he noticed the odor of burning rags. Investigation showed that the carpet and floor in one corner were burning, evidently set on fire, by matches thrown there by persons who had attended the meeting. The flames were promptly extinguished and Alarid remained for an hour or more so as to be certain that not a spark remained.

Girl Killed By Lightning—The daughter of Mr. and Mrs. Huffine of Portales, while driving from her grandmother's place in the country, to her home, was struck by lightning and killed. The body was found beside that of the horse, the following morning after lying in the mud all night.

Former High Flyer in Trouble—According to the Albuquerque Journal, Samuel C. Jackson, former general manager of the American Lumber Company, who had a reputation as a high flyer at Albuquerque, is in serious trouble at Bremen, Germany, over the promotion of a gigantic timber land deal.

Killed in a Raton Saloon—Tomonick, a miner, was shot and killed by an unknown man in a Raton saloon on Sunday. An accomplice held Tomonick while the murderer shot Tomonick. The fight is said to have been over a sweetheart of the deceased who had fallen into the hands of white slavers.

Just Look at This, can you beat it anywhere, eight big pictures at the Elks tonight as follows: "Hide and Seek," "On the Ethiopian Frontier," "Detective Dreams," "A Fish Story," "Daily Life of a French Sailor," "A Southern Romance," "I have Won a Pig," and "Curious Mr. Curio." All big laughs from start to finish.

Three Deaths at Albuquerque—David, the eight months old son of David W. Skinner, died at Albuquerque on Saturday. Miss Ethel Jamison, aged 29 years, died at St. Joseph's Sanitarium at Albuquerque. Manuel Alarid, aged 74 years, died at Valencia, a village south of Albuquerque. His wife and five children survive him.

Miss Mattie Montoya is Dead—Miss Mattie Montoya, aged 17, died of heart failure yesterday at her home on San Francisco street. Miss Montoya was the daughter of Mr. and Mrs. Anastacio Montoya, and was educated in the Catholic parochial school here. Her father was formerly a guard at the territorial penitentiary. The funeral will take place tomorrow forenoon.

Automobile Parade—There was an automobile parade today shortly after noon when D. D. Farrell of El Paso piloted a Cartecar followed by four others of the same make from the Santa Fe depot up to the plaza where a picture was taken. The cars formed a veritable "red streak" on the landscape and many people turned out to see them.

Joseph Bello Dead—Joseph Bello, the four month old son of Mr. and Mrs. Joseph Bello, 306 Agua Fria road, died of stomach trouble yesterday morning. The funeral will take place at 2 o'clock tomorrow afternoon from the Church of Our Lady of Guadalupe. Interment will be

made in Guadalupe cemetery. Undertakers Mulligan and Rising have charge of the funeral arrangements.

H. Raymond Haacke to Return—A letter was received by a friend of H. Raymond Haacke, formerly of the Santa Fe New Mexican and recently of the El Paso Times that Mr. Haacke's health has been so poor in El Paso that he has decided to return to Santa Fe to live. Mr. Haacke left Santa Fe for the Pass City during the past winter. It is said he will enter a law office here.

Feast of Assumption—Today the Catholic church throughout the world celebrated the Feast of the Assumption of the Blessed Virgin into heaven and the day is one of obligation, that is, Catholics must attend mass as on Sundays. The feast was celebrated here with the usual impressive ceremonies at the Cathedral and at the Church of Our Lady of Guadalupe. A high mass was celebrated at 9:30 at the Cathedral. The Very Rev. Antonio Fourchegu, vicar general of the archdiocese, was celebrant, the Rev. Joseph Pugins, deacon and the Rev. Carlos Bobst, sub-deacon. His Grace, the Archbishop, attended the mass and gave his blessing at its conclusion. Benediction of the Blessed Sacrament followed the mass. The church choir, with Miss Mary Sena and Miss Lulu Knight as soloists, furnished the music.

Need of a Road Map—Autoists are complaining that there is no road map to show them the "curves" of the roads in this vicinity and it is suggested that some one arouse interest in having one made.

Morgue on a Vacation—The post-office morgue, which has held so many interesting communications addressed and half addressed, is on a vacation and has seen no activity for several days.

Splendid Results of Dry Farming—Attorney A. B. Rencan is today exhibiting in the show windows of Zook's Pharmacy, on the Plaza, monster cobs of corn that were picked from a stand of corn on his ranch twelve miles south of town and on which a good crop of corn and beans was raised this year without irrigation. There are some plants, from which two pounds of beans were gathered.

Chaves County Assessment—The assessment of Chaves county for 1910 is \$4,553,400, a gain of \$85,000 over last year.

Grand carnival starts tomorrow located corner Grant and Palace avenue.

GRAYS WIN OVER LAS VEGAS AT ALBUQUERQUE.

(Continued From Page One.)

one hour and ten minutes being consumed for the nine rounds. The game was well attended, but enthusiasm did not develop to any great extent among the fans, because of the absence of brilliant plays. At no stage

was the exhibition slow, but spectacular stunts were few and far between. Just a steady grind between the two teams, both fighting all the time for a lead.

Until the sixth inning neither side scored. Albuquerque started things in motion then when Donovan singled and pilfered second. Weeks hit to Montoya, who fumbled it, resulted in Donovan scoring.

Las Vegas came back strong in the sixth and caused a tripple of excitement when Brown singled and took second when De Blassi juggled a high fly, finally dropping it. Ortega then hit to Hidalgo in left. Pete was slow in fielding the flaw, missed it, and then made a wild throw in the direction of third, where he attempted to peg Brown who had started for third in an effort to beat the throw in, supposing that Hidalgo would accept the chance. When Pete threw wild, Brown did not slow down at third and slid in home by a safe margin. This was the only run made by the visitors during the game, although several times they got men on bases with good chances to score.

The last inning proved the undoing for the Meadow City aggregation. Donovan got a pass from Harmon and Kunz sacrificed him to second. Weeks sent Donovan to third on a hit. With Weeks on first and Donovan on third Harmon lost control of a speedy one, Donovan scoring on the wild pitch. This broke up the game, making it 2 to 1 in favor of the locals.

Mamie will be at the carnival every night.

TIME TABLE ALL LOCAL TRIANS

Leave Santa Fe at 8:10 a. m. to connect with No. 10 from the south and west, also No. 3 from the east, returning arrive at Santa Fe 12:10 p. m.

The New Mexico Printing Company has on hand a large supply of pads and tablets suitable for school work, the desk, and also for lawyers and merchants; good everywhere. We will sell them at 5 cents in book form.

WE WILL BEGIN TOMORROW

THE BIG STORE

OUR SUMMER SALE

Hart Schaffner & Marx Clothes

At the end of every season we clean up our stock. Goods are never carried over in this store. We would rather give you the benefit of the price now than to sell you this season's goods next year. It means a sacrifice of some profit to us, but we are willing to allow you something on the price—a good generous slice of it—to pay for doing the carrying over.

We have a good many things here that have not been sold in the ordinary course of business; nothing the matter with them; they're just as good as those we have sold through the entire season. The only trouble with them is that they have not been sold. We bought them to sell and we are going to do it. They're all things that you want

Hart Schaffner & Marx Clothes

If you haven't known Hart Schaffner & Marx clothes from experience, you can get a line on something extra good. It is worth your while to know them and it will not cost you much

If you know what Hart Schaffner & Marx name in clothes means you do not need to be told what this sale represents.

THIS SALE WILL LAST ONE WEEK ONLY.
