I have been unable to get any information from the Ruidoso valley or other sections on the subject. As many of our orchardists have kept no very accurate account, it is a difficult matter to tell what the output has been, but in the main the orchards of the Ruidoso make a good showing for 1908, when the size of the orchards are taken into consideration.

These figures of course include all the fruit sold, grown in a particular orchard. The amount in weight sold from some of these orchards has evidently been reached by some of the owners by giving too high an average price per pound, the apples received being more carefully kept than was the number of pounds sold. The product from the Cee orchards was nearly the same amount, and if the crops had not been all saved, one would have reached 100,000 pounds or 2,000 bushels. The bulk of this fruit has found a market within Lincoln county but quite a large amount reached the Roswell and Alamogordo markets.

There was but a very small amount of apples shipped to Texas and elsewhere from the 1906 crop. The demand at home made prices too high to ship as a profit. The White Mountain apple is the leader, and the White Winter Pearmain is boss of the leader. This apple is claimed by eastern fruit men to be an inferior and short-lived tree, but my trees were planted in 1885, and they bore their finest apples in 1906, are coming again and bad fair to live for many years yet. This famous apple started at 5 cents per pound last November and stand with it until May 10, when the last box was sold to Mr. Mullen at Lincoln.

Noah Ellis ordering the first. However, they brought 83 per crate (50 lbs.) at Roswell. There are no flies on the W. W. P., and everybody knows it.

Many will say, no doubt, that this is a good showing for a 5-acre orchard, and say that I can give others pointers on fruit, but I say no claim to authority on the subject. If any one needs a pointer on fruit, I refer them to Mr. Hale, Frank Cce or John Newcomb. Mr. Hale taught pruning my trees in 1897. I had more brush on the ground than I left on the tree. The good man was shocked and told me I would have a dead orchard in three years for my pains, but it was the live-liest little orchard in the valley in 1900. It's more profitable to raise apples than to raise brush.

With one single exception (the Marine Hospital Ft. Stanton) White Oaks handled more of my apple crop than any other market. Will say in conclusion that the hail storm last Tuesday badly damaged the fruit crop of Joe Storars, and others about the junction.

JICARILLA ITEMS.

The Americans Placer company is putting in four steel tanks and have also constructed a 12,000-gallon reservoir. The tanks are near the plant. Then a fire will probably start up some time this week. There is quite a lot of work to be done first. The machine is new and the lumber is green, which has made the machine out of plums.

There has been no apparent change in mining matters during the past week. Word was passed around that a representative of the China mine was in the camp with a view to starting up, but they do not do it the like every summer.

Mr. George of Chicago visited the Hopeful and Kiato groups of mines during the past week under the tutelage of J. M. Reece. It is understood that he was favorably impressed with the properties.

Last fall G. B. Green bought the Dock Roberts place, just above Jesse Rogers, with a view to raising his sheep in that section. He finds that it will require no steam or electric plant to do the shearing. All a man has to do at shearing time is to put a boy on a pony and let him chase the flock through the chap-

arral when the wool can be picked off, even as they pick cotton in Texas.

The last Friday evening there was a musicale at the sanitarium. The management arranged the entertainment for the diversion of the patients. The hall was tastefully decorated with the national emblems, flowers and evergreens. An appreciative audience of some 200 were in attendance. The music was rendered by plans and violin with an occasional vocal selection, and was of the highest order of excellence. Captain furnished most of the minstrels, and the dainty characters were acted as by professional.

NEW SCHOOL LAW.

A new school law has been enacted by the Legislature of the State of New Mexico, which provides for the renewal of primary and secondary school certificates. The law requires that all certificates be renewed every three years from the date of their issuance. All second class certificates shall be void at the expiration of two years from their date, and all third class certificates shall be void at the expiration of one year from date.

Certification, good only in the district in which granted, may be issued by the authority of the board of education in incorporated cities or towns, and shall be valid for the period specified, and all certificates for such periods as said board may prescribe. A legally qualified teacher to teach in any school district, independent district or incorporated town or city, shall be one who has been certified as prescribed in this act, and who possesses a certificate of attendance upon some county or city normal institute, or summer school, or has an approved excuse for non-attendance; and in school districts where the only language spoken is Spanish the teacher shall have knowledge of both Spanish and English. Any county superintendent, or member of a school board, or county treasurer, who shall directly or indirectly cause the public school funds to be paid to teachers' services to any other person than a legally qualified teacher under the provisions of this act shall be punished by fine in a sum not less than one hundred ($100) dollars or more than five hundred ($500) for each and every offense, and may be removed from office by the governor, provided no first class certificate shall be issued, nor shall any person be entitled to a first class certificate, until he or she has procured the same by examination as provided for in this act.

In addition to the privileges, powers and duties of boards of education herefore prescribed by law, the power is hereby granted to boards of education for districts consisting of incorporated cities or towns to employ a city or district superintendent, who, in conjunction with the board of education, shall be authorized to hold special teachers' institutes for the instruction of teachers; and they shall have power to levy a tax for the support of the schools of the district, not exceeding in any one year seven and one-half mills on the dollar on all taxable property within the district, for school purposes; said levy to be made, approved, certified and collected as heretofore prescribed by law.

Section 4. That section 15 of the laws of New Mexico of 1897 is amended by adding thereto the following: "All poll taxes shall be paid to the county treasurer for the use of the re-organized school district for the support of the school, and shall be collected the same as are collected, and the treasurer shall pay to the district clerk his percentage on the gross amount collected. No teacher of a school shall be exempt from execution in suits for collection of poll taxes and the justices of the peace and constables shall not demand fees in advance in such suits, nor shall the school in said district outside of the one in which he resides, in addition to the salary now allowed by law, be paid the amount to be paid out of the taxes of the district fund of such county by the board of commissioner of other expenses and salaries are paid. Appropriations of such teachers shall be in no case charge nor be allowed pay for visiting more than forty-five districts in their county during any one year.

Section 7. All laws and parts of laws in conflict with the provisions of this act are repealed; and this act shall be in force from and after a date hereafter.
LETTER FROM J. L. STOVALL.

(Published by Request.)

White Oak, N. Y., May 8, 1901.

To the Editors—If it be possible to do so, the people of the White Oak vicinity and the whole town should be the object of our sympathy, for the White Oak massacre which has so much disturbed the peace of the community is a tragic event.

The people of the town are undoubtedly a peaceable and law-abiding community, and the occurrence of this calamity is a matter of great sorrow to all who know them. The town is situated in the center of the state, and the people are of the best class.

The town is a thriving place, and the people are industrious and thrifty. The town is a place of business, and the people are business-like and enterprising.

The people of the town are of the best class, and the occurrence of this calamity is a matter of great sorrow to all who know them. The town is situated in the center of the state, and the people are of the best class. The town is a thriving place, and the people are industrious and thrifty. The town is a place of business, and the people are business-like and enterprising.

I hope that the people of the town will be able to overcome their grief and continue their work of business.

Very respectfully,

J. L. STOVALL.
