HSLIC is Documenting COVID-19 and Needs Your Help!

by Jonathan Pringle on May 11th, 2020 | [0 Comments](#)

We are excited to have recently launched our [HSC and New Mexico Respond to COVID-19](#) space in our Digital Repository, and are seeking your help in populating it with new and original content. In addition to documenting the Health Sciences Center's institutional response--including invaluable [Daily Briefings](#) focused on emerging global research--we are seeking YOUR original photographs and other creative works that tell us a little more about your experiences during this pandemic.

We know that our HSC community (staff, faculty, students, researchers, clinicians) have a unique perspective on this time. We also know that the broader New Mexico health and wellness community are similarly being impacted. We want to learn more about your life during COVID-19: the coping; the surviving; and the thriving. Consider contributing a photograph to our [Community Gallery](#) or be creative and submit a [Reflection](#) through your preferred storytelling medium. Questions? Don't hesitate to reach to to [Jonathan Pringle](#), Scholarly Communications & Digital Librarian.
