OF INTEREST TO TEACHERS OF LINCOLN COUNTY.

Legal Excerpts Compiled By Lee H. Rudisille, County Supt. Of Schools.

The following information taken from the statutes of New Mexico is given for the guidance of those who teach in the Public Schools of Lincoln County.

By an act of the Territorial Legislature of 1891, a person legally qualified to teach in the public schools of New Mexico shall be one who has received a certificate according to the provisions therein contained and must possess a certificate of attendance upon some county or city normal institute held within the year; and must also hold a certificate from the county board of education showing freedom from tuberculosis.

Examinations for first and second class certificates are held only twice each year, on the last Friday in August and the last Friday in November. These examinations will be conducted by the county board of examiners, with an examiner appointed on the examination so held, and immediately thereafter send the papers of the applicants with the grade given them, to the Territorial Board of Education to be re-vised, if deemed proper.

This revision shall be final, and the county examiners shall upon notification immediately issue certificates in accordance with instructions from the Territorial board of examiners.

All applicants receiving a general average grade as high as 90 per cent, and no grade in any one branch lower than 70 per cent, will receive a first class certificate entitling them to teach for three years throughout the territory. Those who receive a general average grade not lower than 70 per cent, and with no grade in any one branch lower than 60 per cent, will receive second class certificates entitling them to teach for two years within the county in which granted. These may be honored in other counties, at the discretion of superintendents of those counties, for the time specified in the certificates.

The law provides for renewal, without examination, of only first class certificates.

In districts where Spanish is the only language spoken, it is required that teachers have knowledge of both Spanish and English.

County superintendents, members of school boards and county treasurer's prohibited from paying any other than legally qualified teachers upon penalty of a fine not less than $500 nor more than $5,000, for each and every offense, and may be removed from office by the governor.

Examinations for all grades of certificates will be given in the following branches: geography, arithmetic, English grammar, United States history, hygiene, and methods of teaching.

Examinations for third class certificates will be conducted, as formerly, by the county board of examiners and the certificates issued without supervision from the territorial board, and will be good for one year in this county only.

Section 1536, Compiled Laws, requires all teachers, to keep a daily register of their schools and at the end of each term make a report to the county superintendent showing the whole number of pupils enrolled during such term, giving their names, ages, sexes, and branches taught, and such other information as may be deemed important. Failure to make such report may subject the teacher to a fine in a sum not more than $50, upon conviction in any justice court.

A brief monthly report is also required to be made out in duplicate, one to be filed with the clerk of the district school board and the other sent to the county superintendent before warrants for salaries are approved by him. Daily registers and blanks for these reports will be furnished by the county and issued by the clerks of the several districts.

The territorial board of education is vested with exclusive power in the matter of prescribing the text books to be issued in the public schools of the territory.

An act of the last legislature makes it a misdemeanor, punishable by fine or imprisonment, for any person to write, make marks upon, or in any manner deface or injure any building, fence, wall, or inclosure, or the furniture; apparatus or fixtures therein, belonging to any school district; all teachers are specially required to warn their pupils against any violation of this law, particularly as to defacing school furniture and obscene writing on walls and out buildings.

The last legislature also enacted a law prohibiting the killing of any song bird and all birds known as harmless and whose principal food is insects, by fixing a penalty for every bird wantonly killed. Teachers are required to impress upon their pupils the cruelty and criminality of this offense.

L. H. RUDISILLE,
County Superintendent.

WHY REFORMS FAIL.

Prof. Felix Adler, assessed for $5,000 in personal property, has recently sworn off most of his taxes. He lets the assessments stand. The remarkable thing about this fact is that professor Adler is a member of the reform committee of fifteen.

The majority of the members of that committee have sworn off their personal taxes. Mr. Charles Saragros Smith and Mr. Joe D. Erhart, assessed at $25,000 apiece, have sworn that they have no taxable personal property at all. Mr. Austin G. Fox and Mr. John J. Harsens Robbins, assessed at $30,000 and $150,000, respectively, have sworn to the same thing. Mr. George Putnam was assessed at $100,000 admits $2,000 and swears off $98,000. Mr. John S. Kennedy owns up to $25,000 of his $100,000 assessments. Prof. Edwin R. A. Seigleman is willing to pay taxes on $105,000 out of the $250,000 attributed to him by the assessors. Mr. Jacob Schiff has substituted a valuation of $10,000 for one of $1,000,000.

These things help to answer the question why reform movements fail. Invariably, sooner or later, they run up against the selfish interests of the reformers.

It is a well-known fact that the leading citizens of New York, as of every city, are the men who carry out the great schemes of corruption which ward politicians are the errand boys. Any investigation pushed to a certain point reaches these leading citizens, and then it stops.

Swearing off taxes is a very venial offense compared with some others that are committed by our most reputable citizens, as would be clearly manifest if we ever had a genuine investigation into the question of vice in the tenements or into the genesis of the tunnel contracts.

But Al Johnson is dead.—New York Journal.

THE WEATHER.

Rev. Irl E. Hicks the noted weather prophet, says the entire summer will be unusually hot, very encouraging to the sweltering inhabitants of all portions of the land except in the high altitudes of the mountain regions. In localities like that of Raton hot weather is an unknown condition. Rev. Hicks says:

"There is a reason for everything that happens in nature. If this summer is different from last summer there must be some explanation for the change. For the past ten years or more we have been continually calling the attention of the public to the fact that the present year would be phenomenal in more ways than one. I have said that there would be a great drought and verification of the prediction is found in the conditions which exist today in all parts of the country. The reason is, that this season is a Jupiter period. The relationship between Jupiter and Saturn is of a peculiar nature. No man now living will ever see them in their present relationship again. The bright star which we see in the heavens in the evening, the brightest star in the firmament, is Jupiter, and near it Saturn may be seen. They will not come so close together again, under present conditions, for many years. It is to this phenomenon that I ascribe the intense hot summer, and as these planets move slowly their influence will be felt throughout the entire season."—Gazette.
The special illustrated edition of the Industrial Record, El Paso Mining Journal, is out, and is a record of great credit to its authors. The mining camps of New Mexico receive a handsome mention in this special. The White Oaks country has been given the most thorough and impartial write-up it has ever had. The Record's friends in this country are numbered by a poll of the inhabitants. The paper has done us a good service, let us return it by doing the Record a good turn when opportunity comes.

ThURSDAY AUGUST 8, 1901.

A halflone of Governor Otero should be printed on the American flag, according to the New Mexican's idea of his importance. The New Mexicans says: "Gov- ernor Otero and the American flag seems to have one quality in common. They are still here in spite of many efforts to the con- trary.

It has been given out from the official figures that the shrinking of taxes in New Mexico has been enormous. The assessed valuation last year shows a reduction of $4,000,000. In the item of sheep alone it is well known that there are over 1,000,000 sheep in the Territory. The records show over $1,000,000 as the number of sheep in the Territory, and the sheep alone is worth $2,000,000.

TEACHERS ELECTED.

The school board held a meeting Wednesday evening for the purpose of electing teachers for the ensuing school year. J. F. Wharton, brother of J. E. and S. M. Wharton, and late principal of the De Leon high school, was elected principal; Mrs. Jno. A. Hollars, first assistant and Miss Mabel Walsh second assistant. The opening term will begin the first Monday in September.

BAPTIST ASSOCIATION.

The following ministers will be present at the opening of the Baptist Association at the Congrega- tional church to-night: Rev. Geo. H. Brewer, General Missionary; Albuquerque; Rev. C. A. Taylor, principal Baptist College; at Al- gordo; Rev. V. C. Rosco, Alamo- gordos; Rev. H. P. Powell, Carlsbad; Rev. C. A. McTrey, Weed; Rev. Newburgh, Cloud-croft; Rev. R. D. Pope, Cloud-croft; Judge A. Green, Carlsbad.

PAYMASTER LICKED.

Constable John Owen came in yesterday from the railroad line, having in custody Wm. Forester, who is charged with assault on the person of paymaster, H. C. Miller. It seems that Miller and Forester had some difficulty over money due Forester, and when Miller slapped Forester when the latter drew his six-shooter and laid it with considerable force on the head of Miller resulting in a deep scalp wound.

Forster went before Judge Collier and pleaded guilty, as charged, and was fined $100, and costs of suit, in default of which he now languishes in the bastile.

WHITE OAKS EAGLE.

S. M. Wharton, Editor and Prop't.

THURSDAY AUGUST 8, 1901.

The Ball at Hotel Baxter Saturday night was much enjoyed by those who attended. McPherson and Chittenden have contracted about 20,000 feet of lumber at Santa Rosa. Four outfits were loaded in the yards here yesterday for that place.

There is an increase in the number of cattle un- assessed in the Territory.

Judge Daniel H. McMillan has a column and a half write-up of what he has done in New Mexico, in the Buffalo Evening News, a paper published in his hometown. The Eagle is not very much concerned in one way or another about Judge McMillan, or what he or any other carpet-bagger, has done in New Mexico; but from a standpoint of morality, New Mexico would probably be as well off without him. Accord- ing to his reputation at Lincoln and Roswell terms of district court, one would naturally infer that he is more fitted for superintend- ent of a Mormon colony than to direct a court of justice. Such is life, however, in New Mexico.

UP AGAINST IT.

Eddy county is having, or go- ing to have trouble in the perfection of title to property sold for taxes last year. This trouble seems to have originated from the erroneous advertisement of delinquent taxes. It has been a subject of considerable interest to the county for months, and the grand jury during the county's last court recommended that the sale be set aside and the delinquent tax list re-visited so as to comply with the law.

RECORD'S SPECIAL OUT.

The special illustrated edition of the Industrial Record, El Paso Mining Journal, is out, and is a record of great credit to its authors. The mining camps of New Mexico receive a handsome mention in this special. The White Oaks country has been given the most thorough and impartial write-up it has ever had. The Record's friends in this country are numbered by a poll of the inhabitants. The paper has done us a good service, let us return it by doing the Record a good turn when opportunity comes.

Correspondence.

A. H. Rockenfielder's family, of Roswell, is now occupying one of P. G. Peters' summer cottages here.

Plums and blackberries are now just beginning to ripen; apples and pears, that have been well cultivated and irrigated, are fine and a full crop.

The strawberries, gooseberries and early peaches are all gone, and it will be about a month before the late peaches will be ripe. One late variety of cherries at the Willows, will hold good till the 15th; that makes a three-months season for this delectable fruit. It is astonishing the quantity of cherries the birds can get away with, which reduces the income one-half per tree in an orchard of one hundred trees.

COAL TAR.

We are told that the waste of coal after the gas has been extracted produces a gas tar, which yields a series of dyes of univalued beauty; scarlet, violet, orange and magenta, and that eighty-nine separate shades are obtained by the judicious blending of these colors. Pretty much all of the coloring used by fabric manufacturers, now-a-days, are the products of this gas tar, popularly known as aniline dyes. Seventeen medicines are the product of coal tar; about a dozen perfumes, scents that are known by the name of the flowers they are extracted from; vanilla for flavoring custards and puddings is a product of coal. Besides these dyes and scents, coal tar yields a substance called saccharine, one pound of which is equal to two hundred weight of sugar. It is wholesome and a capital disinfectant. Preserves made of it will keep indefinitely.

With the many discoveries of late years and the heavy beds of coal Lincoln county has, of numerous varieties, who knows what industries will be carried on here in a decade or two hence? With this, you see, Lincoln county needs an academy, where chemistry, the natural sciences, and mechanical arts can be taught, with Latin and modern languages; English literature and ancient history, which is largely fabled food to the dogs.

A gang of Mexican horse thieves are said to be giving the railroad contractors a good deal of trouble along the line of construction. A few days ago a contractor discovered that six head of horses were gone, and in company with his drowsy guard he found the trail, which started with guns in pursuit. They returned later in the day with the horses—no information was asked or given as to what was done with the thieves.

JICARILLA RUMBLE.
Correspondence.

Mrs. M. H. Price is quite sick, suffering from pneumonia.

Modesto Ushuari, who has been in White Oaks for medical treatment has returned, and is improving rapidly.

A. N. Price and wife made a trip to the west side of Jack Mountain to examine the Geology of the country.

F. S. Hostetler of the Gallinans, spent the week looking over the camp, and says he cannot see why our camp should not be a producer now in a short time.

Died: Infant child of Jose Ma. Luers in this place, Sunday, about 10 o'clock a.m.; age, two months and twenty-seven days. Interment took place at Rabenton Monday.

Jim Woodland of the Carrizo ranch, paid the camp a visit last week. He had just come out on the RR line near the Tecolote Mountains to look after water, minerals, etc., etc.

It is reported that Ed. H. Talbott has found some very rich ore on one of his claims, the Geneva. He has spent a great deal of time hunting the lead, cannot tell at this time the extent of the find.

Ed. H. Talbott, of southern Texas, are on a visit to our camp, looking after mining properties, and for the purpose of enjoying the climate, which Mr. B. pronounces the best he has ever seen.

Arthur Johnston, who has been working for the American Placer Co., putting in their machinery, has left for Chicago, and perhaps for South America, where his father has a contract for one of his machines.

C. F. Chapman and Brown, oil men of the Patos district, passed through camp a few days ago on their way to the E. P. & Rock Island to get a drill for the commencement of operations in the oil district.

BIDS FOR COURT HOUSE REPAIR.

sealed proposals for bids will be received by the Board of County Commissioners of Lincoln County on August 29, 1903 at 10 a.m. for necessary repairs on the Court house, to wit:

A shingle roof, a new floor to be placed in the court room upon the old floor with two inches of mud to deaden noise; also to raise two doors; also to have a cupola or ventilator on top of said roof, with an opening above of 484 ft.; and also a rough board ceiling and new paint in front stairway; and the Board reserves the right to reject any and all bids.

Done at Lincoln, N. M., July 10, A. D. 1903.

S. C. Wiener, Chairman.

In the District Court of the Fifth Judicial District of the Territory of New Mexico, siting in and for the County of Lincoln.

On the 25th day of May, A. D. 1904, judgment was rendered against W. H. Roberts, Jno. Montano, Josefa de Montano, and José M. de Montano, in favor of Charles Fields, in the sum of two thousand, four hundred and ninety-one dollars and ninety-three cents ($2,495.23), which amount was computed upon ten percent per annum from the date of said judgment, and against said defendants in favor of the defendant E. McIntire, in the sum of two thousand, six hundred and thirty-seven dollars and eighty-five cents ($2,637.85) together with interest at the rate of twelve percent per annum from the date of said judgment and the former rate of two hundred and seventy-six dollars and ninety-five cents ($276.95) with interest thereon at the rate of twelve percent per annum from the 15th day of August, A. D. 1903, and

WHEREAS each of said amounts was by said court found to be due upon certain real estate described as the following described property situate in the county of Lincoln in said Territory of New Mexico and described as follows, to wit:

The north half of the north quarter of the north west quarter of the north west quarter and the north half of the north west quarter of the north east quarter of section 12, in Township 11, north of range 19, East; and the south half of the south quarter of the south half of the south quarter of section 10, in Township 11, south of range 19, East; the north half of the south half of the south quarter of section 19, in Township 11, north of range 19, East, and the south half of the south quarter of section 20, in Township 11, south of range 19, East, all of New Mexico meridian, containing one hundred acres, so far as united States patent.

And where each of said real estate was enumerated in the assessor’s records and the interest of said defendant Jose Montano and Josefa de Montano he sold at public sale to satisfy said bureauc, and the undersigned was appointed special master to make said sale.

Now, therefore, notice is hereby given that on the 25th day of May, A. D. 1904, at the hour of ten o’clock in the morning of said day, at the front door of the court house of Lincoln County, in the town of Lincoln, New Mexico, I shall offer for sale at public auction, and sell to the highest bidder for cash, and maintain the interest of said defendants Jose Montano and Josefa de Montano in and to the real estate and premises above described.

E. W. HARDY,
Special Master.
Lincoln, New Mexico, July 10, 1904.

Richard O.S. in the Gallinas.

The Alamogordo Mining Company received returns this week from samples sent away for assay from a couple of their claims in the Gallinas, which proves that this company is in possession of some valuable mining property. The assay from one claim gave value of twelve ounces silver and 29 per cent copper. The samples sent away were not picked and represented the average value per ton of the entire vein, which is 18 feet in width. The company owns a group of eleven claims, none of which have been developed beyond what is required for the first examination, and if the values increase with depth as is likely the case, it will not be surprising if they uncover a fabulously rich body of ore.

The company is composed of Geo. Kennedy, John Hunter, John Phelan, A. C. James and J. S. Barrett—Otero County Advertiser.

A stranger visiting Socorro was killed by lightning on the streets of that town last week.

GALLINA CAMP.

Correspondence.

A D. Long of Albuquerque is in the camp prospecting.

C. M. Bryan had a fine 8 pound boy presented him by his wife on the 9th ult.

C. M. Bryan, J. F. Palmer and F. B. Hostetler went to White Oaks for supplies last week.

Lawrence Barrett has secured assays from ores taken from his group that show values of 22 and 23 per cent copper.

An Alamogordo company, composed of John Hunter, John Kennedy and James Lamme, are prospecting here. They want copper, McBoon and Webster have struck good copper ore on the Rover. The shaft is 20 feet deep, the lead shows both copper and lead.

Mark Thomas is expected here next week with a drilling outfit. He has been engaged by a number of the local inhabitants to sink a well for mutual benefit.

A. Hanel has returned from Alamogordo, and has begun the assessment on his various claims.

He anticipates getting in machinery for regular development as soon as conditions will warrant it.

Pueblo parties are expected to arrive here next week to examine a group of property to local prospectors. Claims are reasonably certain that they will invest, and begin operations for development.

Watch the Gallinas. This is the coming mining district of this section of New Mexico, and railroad facilities will soon be such that capital can be induced to take hold, and develop our prospects into mining mines.

There was a Jewell—Barrett scrap here since our last letter, and the principals though not professionals, are way-up amateurs. The energy expended in settling the difficulties between them properly directed against the English would have aided materially in making Oom Paul major of London, or failing that, would at least have made Lord Roberts’ endorsement by the English parliament double the 100,000 pounds given him.

Godfrey Hughes & Co.

Notice of Change of Sale.
In the District Court in and for the County of Lincoln, New Mexico, on the 13th day of September, 1891, the sheriff of this county, will sell, at the Courthouse, in the town of Lincoln, on the 20th day of September, 1891, the following described real estate, to-wit:

A. S. GREGG,
Gent. Post. C. & T. Trac. Trg., Alamosa, N. M.

Aldo Breezes.
Judge Green of Carlsbad, has been visiting relatives here for several days.

W. H. Walker has sold his White Oaks residence to J. W. Smith of that place.

W. H. Lane has his shingle mill running full blast and is about to start a first class saw.

Capt. P. L. Krones is at Santa Rosalia Mexico Hot Springs, taking treatment for rheumatism.

The stock interests of this section never been more prosperous. Winter grasses are already assured.

Crops are as fine as they have been for years. The Eagle Creek potato will be a surprise in the market this fall. They will turn down the spuds shipped in here if the season continues.

There is nothing of interest developed in a mining way recently.

The District is, however, rapidly becoming known to mining people, and we may reasonably expect investment and development in the future.

The Sage, however, is a property of the Upper District, but is now the subject of a controversy between the Upper and Lower Districts.

The sale of the land, claimed to be the "Sage" property, was disposed of by the court, and the land has now been conveyed to the real estate company.

Meets semi-monthly, first and third Wednesdays at 8 o'clock, at Hewitt's hall. Visiting brothers cordially invited to attend.

Grand Army Kearney Post, No. 11.

Meets the first Monday night in each month at G. A. R. Hall.

Visiting comrades cordially invited.

THEO. W. HERMAN, P. C.

JOHN A. BROWN, Adj't.

A GREAT NEWSPAPER.

The Sunday edition of The St. Louis Republic is a marvel of modern newspaper enterprise. The organization of its new service is worldwide, complete in every department; in fact, superior to that of any other newspaper.

The magazine section is illustrated in daintily tinted colors and splendid half-tone pictures. This section contains more high-class literary matter than any of the monthly magazines. The fashions illustrated in natural colors are especially valuable to the ladies.

The colored comic section is a genuine laugh-maker. The funny cartoons are by the best artists. The humorous stories are high class, by authors of national reputation.

Sheet music, a high class, popular song, is furnished free every Sunday in The Republic.

The price of The Sunday Republic by mail one year is $2.00. For sale by news dealers.

JOB WORK.

Job Work of every description neatly and cheaply done at the Eagle-office. New trip, new machinery and skilled workmen. Everything new and the best. Try this office for anything and everything in the job line. Our facilities are the best, and all orders promptly filled.

DRAUGHT.

Livery Feed and Safe Stable.

Good Stock and Rigs.

WHITE OAKS AVENUE.

PAUL MAHER

M. W. Guetner is still the leading celery farmer of the Pecos Valley. He has just completed the planting of 240,000 plants on eight and one-half acres. A. T. Gunter has sold his ranch of 240 acres near Lower Penasco to Tom Catenhead for $8,000. Mr. Catenhead was a resident of Chaves county in the '60s, but came recently from Oklahoma.—Roswell Record.

The work of changing the 60-pound rail used on the E. P. & N. E. to the 70-pound rail, the standard of the American Society of Engineers, has been completed, and now the weight of rail is uniform as far as the Pecos river will be of 70-pound rail—and makes the E. P. & N. E. one of the best roadbeds in the West.—Alamogordo News.

Someone has discovered that sun stroke is also the work of a microbe of peculiar shape and kind. It only remains now to find the one which causes people to freeze to death in winter time, remarks the Chicago News. The germ which invades the physical anatomy that has been lighted and the one which plays havoc with persons who are run over by railway trains can be hunted up and identified later.—Optic.

SANTA ROSA.

A. P. Jackson is out of town on a trip over the extension. He is visiting Santa Rosa, where the E. P. & N. E. and Rock Island connect, and liberty, whence an extension will be built from the Rock Island to the Dawson coal fields. Mr. Jackson, if he finds conditions favorable, will put in another at each place. Mr. Jackson in a letter just at hand says it is a fine country between White Oaks and Santa Rosa, though of course it is not settled. It is covered with cedar and clover, and there is plenty of grass. It will be a fine stock country when water is developed, and the railroad company is proving that water can be had. Mr. Jackson says there is a fine well of water fifteen miles from Halibian's camp.—Alamogordo News.

Santa Rosa has at present fourteen saloons, five restaurants and lunch counters and a hotel, three barbers and a livery stable, and three stores at the various camps, which goes to show that she is picking up quite lively.

Drying preparations simply develop dry color; they dry up the secretions, which adhere to the skin and decay, causing for more serious mischief than the ordinary forms of color. Avoid all drying inhalants, fumes, smokes and soaps and medicines which decompose and dry the skin and lungs. Ely's Cream Balm is such a remedy and will cure color at a cold in the head easily and permanently. A trial will be ample for 10 cents. All druggists sell it at 50 cents per bottle. Ely, Ely, Ely.

The Balm comes without pain, does not irritate the skin, and is much in favor over an irritated and sensitive surface, relieving the distress of the painful inflammation. With Ely's Cream Balm you are armed against Nast Catarrh and Hay Fever.
SHERIFF’S EXECUTION SALE.

George B. Frye, County Sheriff of the County of San Miguel, in and for the State of California, will proceed to sell by public auction, to the highest bidder, on the 15th day of June next, on the corner of the streets of Main and San Miguel, in the city of San Miguel, in said County, certain real estate, situated and known as Lot 33, Block 7, City of San Miguel, in said County, containing 8 acres, more or less, for the payment of a judgment for the sum of $10,000.00. The said property consists of land and buildings, together with all mine rights, claims and reservations to minerals, as well as the personal property of the defendant. Certain of the buyers may be necessary to settle the cause, and the said property is necessary to the issuing of said judgment, to the holders of said judgment, and to the public interest. The sale will be held at the courthouse in said county on the 15th day of June next, at 10 o'clock A.M.

MUCH READING FOR LITTLE MONEY.

The New York World has got the cost of printing down to a minimum. Its latest offer of its monthly newspaper-magazine is interesting if from no other cause than that it shows the name of "how much for how little." The Monthly World is a 32-page magazine with colored covers. Its population consists of the pages of the Ladies’ Home Journal, and it is opulently illustrated in half-tone. The illustrations are the result of the best artistic skill, and by all the latest printing-process appliances, making a magazine unrivaled in the quality of its contents and its appearance.

MINERALS ENTER WITHIN FOREST RESERVES.

In view of the proposed forest reservation in Josephine, Douglas, Coos and Curry counties, in the latter follows a statement which is circulated by the department of the interior June 24, 1899, will no doubt be of interest to our readers:

"The law provides that any mineral lands in any forest reservation which have been or may be shown to be, and subject to entry under the existing mining laws of the United States and the rules and regulations applying thereto, shall continue to be subject to location and entry, notwithstanding the reservation. This makes mineral lands in the forest reserve subject to location and entry under such general mining laws in the usual manner."

ORDER OF THE GARTER.

Hereafter no woman will be a genuine soubu without she wears a garter on her arm.

Edward VII. has conferred upon his royal consort, Queen Alexandra, the most noble Order of the Garter, and on the first formal appearance she will be expected to wear it upon her arm instead of elsewhere. — William E. Curtis’ London Letter.

SHEEP ARE IN DEMAND.

Sheep seem to be in demand just at the present time, notwithstanding declining bearish tendencies. The increase of 20,000 not less than fifteen men have been in the valley, coming from all portions of the United States, but the amount of their purchases have been nil. They have not been willing to pay the figure asked for good stuff, and for the most part have drifted down into the San Angelo country. — Roswell Record.

OF INTEREST TO STOCKMEN.

The Live Stock Inspector at Woodward, Okla., and Kansas City, Mo., issue of July 15, 1901, publishes a cut of "Advance," together with parties interested in the sale of this highest priced beef steer ever sold in the world. The animal was owned, bred and exhibited by Stanley R. Pierce of Creston, Otoe county, Ill.; age 1; weight 1,480 pounds; price, $1,850 per hundred; amount, 2,124. The sale was made by J. D. Bowles, president of the Bank of Stock Com mission, well known in the Southwest.

PRINCELY ESTATE.

W. J. Wilson has completed a map of the W. E. Washington lands south of Hagerman. This map shows Mr. Washington’s real estate holdings in that locality to consist of 10,640 acres. And though the map does not show it, the fact may be added that it is all under forest and stock with a good class of cattle and horses. — Roswell Record.

COCHITI GOLD.

One of Cochiti’s mines has this year produced $60,000 in gold bullion, a sum greater than official figures of the United States credit to the entire territory.
