# Has Never Failed

Mr. C. S. Peaslee, the well-known druggist of Morgan City, La., is highly thought of in his neighborhood because of his skill and care in filling prescriptions. The best physicians in the place send their patients to his store whenever they can. Anybody who has tried Mr. Peaslee's English Remedy, upon absolutely. In a letter to W. H. Hooker & Co., New York City, proprietors of Acker's English Remedy, he says: "In all my many years' experience as a druggist, I have never handled a medicine of any nature that gave such complete satisfaction as Acker's English Remedy for Croup and Lung Troubles. I have sold hundreds of bottles, and have yet to learn of a single case where it failed to cure. In croup, it acts with a certainty that is really marvellous. I can understand why Acker's English Remedy is so successful, because it is a real expectorant, and a strengthening, invigorating tonic as well. While it heals the irritations of the mucous membrane, it also builds up the constitution and purifies the blood. I endorse it absolutely."

Sold at 25c. per bottle, throughout the United States and Canada; and in Europe, at 50c. per bottle. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above gentleman. W. H. HOOKER & CO., Proprietors, New York.

LAS VEGAS LACONICS.

The Meadow City as Seen by a Visiting News Paraphrast.

SUBSTANTIAL BUILDING IMPROVEMENTS.

Jack Dixon, formerly of Albuquerque, is now stopping in East Las Vegas.

Cross, Blackwell & Co. are erecting a big wool scouring plant. H. W. Kelly states that it will be one of the largest of its kind in the southwest.

J. E. Emerson, representing the Equitable Life Assurance company, headquarters in this city is now doing the Las Vegas towns.

The edge of Las Vegas Mills, at a recent meeting of the Board of Directors and Santa Fe Pacific railway, and W. F. Powers, the Wells-Fargo Express company's agent, the gentlemen went to El Paso Saturday night, to see the big mining properties in Peralta canyon, where they examined the development work being carried on by their partners, Messrs. Rhonda and Murphy. The principal work has been accomplished on what is known as the "Murphy" claim and splendid ore has been extracted from the breast of the mountain.

They report, however, that the claims being staked out recently and that a large number of the claimants have finished their assessments for the year.

The capital celebration at Santa Fe should be held on the Fourth of July, instead of the 4th of June. If the date can be changed this city will send up at least five hundred people. Please send the date, and give the whole territory a chance to unite in the celebration at the territorial capital on the nation's birthday.

CHAS. O'CONNOR ROBERTS' MINE.

Charles O'Connor Roberts, a well-known newspaper writer, who has been a few years ago on the Albuquerque papers, has recently "struck it rich." Roberts left here one evening about four years ago and followed the influx of miners into the Hopewell district of northern New Mexico. Fortune failed to come as rapidly as Mr. Roberts built his castle, and he, in negotiating and securing a lease on the mine, was disappointed.

Reaching a place about six miles from Las Vegas, he saw rock that he considered mineralized, and then he located and went to prospecting. He took his wife and instruments into the early, and the farther he went the knowledge of minerals told him he was going into paying stuff. When convinced beyond a doubt of the existence of paying minerals, he rode his burro into Las Vegas and secured parties.

A few days ago a one-twelfth interest in the mine was sold, the Roberts share being \$2500, and this old New Mexico Bohemian of journalism did not forget the faithful wife and innocent children here—he mailed them a very nice check, calling for a considerable sum of money. The health of Charles O'Connor Roberts is most excellent.

Howell Military School.

The school receives about \$15,000 annually from the territory, and during the session of 1899-1900 earned \$2000 in tuition fees. The buildings cost \$20,000; thoroughly furnished and equipped; four stories, gas lighted and water, modern bath, hot and cold water, all floors, modern machinery, laundry, complete system of water works, sewerage and fire apparatus. During the year past the grounds have been landscaped with trees, shrubs and grass. Sufficient attention is given to athletic sports.

Sheriff H. C. Kinneil, Deputy Sheriff Page H. Otero and George M. Chundit, a warrior in all the avenues of life, left Santa Fe yesterday for a southern trip. The sheriff got on the train at El Paso and returned to Santa Fe last night. Mr. Otero came on to this city, transacted some important official business and was about to retire for the night when he received a telegram message from his brother, Governor John H. Otero, telling him that his mother was dangerously ill and that Dr. Rian did not expect her to survive but a short time. Mr. Otero therefore returned to Santa Fe on No. 2 passenger train last night. Mr. Chundit is still in the territorial metropolis and will remain a few days. It is understood that he will soon engage in business for himself at the territorial capital.
