NUMBER 36.

COMES UNDER WATER

GERMAN SUBMARINE ARRIVES. PURPOSE TO HAVE UNDERSEA SERVICE BETWEEN TWO NATIONS.

After avoiding mines, sea sweepers and hostile craft, and bringing chemicals, dyestuffs and mail and a message from Emperor William to President Wilson, the German undersea merchantmen the Deutschland entered Chesapeake bay on Sunday morning. Her commander said his mission was to establish undersea merchant service and export business between United States and Germany.

Captain Frederick Cooke, a Norfolk pilot, the first American to board her, found in her conning tower two small guns of three-inch caliber. Vessel can submerge in two minutes and has a surface speed of two to three knots an hour more than average merchantmen. Deutschland left German port June 27.

SEVERAL OTHERS ARE COMING BIG GERMAN COMMERCIAL SUBMARINE GOES TO BALTIMORE.

Out of the depths Captain Paul Koenig, who took to Baltimore the huge submarine Deutschland, told the story of the trip across the Atlantic ocean and says other submarines are to follow.

Supplementing a written statement, the captain told of how his undersea craft laid at the bottom of the English channel one whole night; how he and his crew played the graphophone beneath the waves; how they had lived on champagne and the best of food; how they had openly sailed 3,800 miles and submerged only a few times for a few hours and doing only ninety miles under the surface during the trip.

He brought a valuable cargo of dyestuffs, he said, for our "American friends."

Captain Koenig says the Deutschland is the first of several submarines built to the order of the German Ocean Roderic G. M. B. H., Bremen, which will be followed by the Bremen shortly.

Report made to the treasury department by customs officials who boarded the Deutschland at Baltimore was she is not even an armed merchantman, having no arms or ammunition on board. The state department was immediately notified by Secretary McAdoo.

"Submission" Omitted.
Statewide prohibition for Texas by a constitutional amendment, not, however, drafted, will be voted upon in the Democratic primaries of July 22 if the ballot printed is not changed. It reads: "For an amendment to the constitution providing for statewide prohibition." Chairman M. H. Wolfe of the state submission campaign committee requested Chairman Paul Waples of the state Democratic executive committee to have it read: "For the submission of an amendment to the constitution providing for statewide prohibition. He claims this was the form agreed upon by the Democratic committee at its meeting in Dallas. In each instance the propositions are stated in the alternative in the same form.

Watching Infantile Paralysis.
The Texas state board of health is active in its efforts to prevent an epidemic of acute infantile paralysis in the state. State Health Officer W. B. Collins issued a statement explaining what the disease is, what are carriers and prevention. Warning to remove every possible avenue for its spread in Texas from New York and the east is given by Dr. Collins. Physicians are urged to report any case to the state health department. At this time there are a few sporadic cases in the state.

Alligator Killed in West Texas.
W. P. Thompson and Claude Crawford shot and killed an alligator in Elmhurst lake, on the W. M. Johnson ranch, in Palo Pinto county, Tex., near Gordon, that measured six and a half feet. Crawford was given a reward of \$10 by the fishing club at the lake for slaying the alligator, which, the fishermen say, had interfered with fishing all this season.

Small Shetland.
J. H. Measkey exhibited at Decatur, Tex., one of the smallest Shetland ponies ever seen there. The colt weighs forty-two pounds and is thirty-six inches high.

Rights to Peasants.
The Russian duma adopted a bill according to peasants the same rights as all other classes of the population possess.

MILE OF POLES AND WIRES FALL AS RESULT OF WIND STORM AND A LINEMAN LOST LIFE.

One man was killed and all the telephone lines along the interurban line around Grand Prairie, twelve miles west of Dallas, blown down as the result of a severe wind storm. About a mile of wires and poles were razed.

All connection between Dallas and Fort Worth was cut off for a number of hours.

W. H. Lewis, while assisting in the work of repairing the lines near Grand Prairie, came in contact with a live wire of heavy voltage and was electrocuted. He was helping raise a wire.

Fatal Fall.

M. C. Hunnicutt, eighty years old, was instantly killed near Van Alstyne, Tex., by falling from his wagon while at work in the field with one of his sons loading hay. He was standing on top of the load when the team unexpectedly started, throwing him backward. He was dead when his son reached him. Mr. Hunnicutt, who is survived by a widow and eight children, was until about a year ago considered one of the largest land owners in the Van Alstyne section. At that time he divided his land among his children, retaining only his homestead and a small tract adjoining Van Alstyne on the west. He was in the Confederate army.

MAN AND MAIDEN DROWN.

E. B. BROUGHER LOSES LIFE TRYING TO SAVE MISS BRADEN.

E. E. Brougher and Miss Beulah Braden were drowned in the Cypress river at Jefferson, Tex. Brougher and wife chaperoned a number of young people to the river for a swim.

Miss Braden got beyond her depth and Mr. Brougher went to her aid, but was unable to bring her ashore, and while calling for help he sank with her, in sight of his wife and children. He was a teacher in a Marion county school and formerly conducted a paper at Linden. Besides his widow he leaves nine children.

Miss Braden was the only daughter of L. G. Braden, cashier of the Guaranty State bank of Jefferson. She was a student of the college of industrial arts at Denton.

Men of Military Age.

A census bureau table estimates the number of able-bodied men of military age in the United States at about 21,000,000. The estimate is based on the assumption that there has been an increase of 10 per cent in the population since 1910, when the total male population over eighteen years and under forty-six was 19,183,000. In geographical subdivisions the total for northern states is 13,094,614, for southern states 6,006,139 and for the western states 1,970,322.

CALM UNDERSTANDING URGED PRESIDENT WILSON DEDICATES AMERICAN FEDERATION BUILDING.

After a parade at Washington of union labor people from many cities and in which union banners and United States flags were numerous, President Wilson dedicated the new home of the American Federation of Labor. While the chief executive spoke he was twice interrupted by Miss Mabel Vernon, a suffragist, who asked: "If you desire to serve all classes, who do you block the national suffrage amendment now before congress? Four million women in this country —" She was led away from the speaker's stand, but not arrested.

In introducing the president to the immense gathering, President Gompers of the Federation started a prolonged demonstration by making an appeal for support of the president "in peace or war."

Secretary of Labor Wilson presided. Mrs. Wilson, Vice President Marshall and several cabinet members attended. Nothing that the president said aroused such enthusiasm as his praise of that section of the Clayton act declaring that labor is not a commodity. He asserted that the greatest barrier to industrial peace had been the difficulty of insuring candid and dispassionate conference, and "getting our fighting blood up" was "the long way and not the short way" of securing rights. His plea for calm counsel brought repeated applause, it apparently being interpreted as having a direct bearing on the Mexican crisis. Mexico nor any other foreign power was not referred to by name.

Referring to the display of flags in the parade, Mr. Wilson declared the flag should always recall America's duty in serving the world.

MEXICAN AFFAIR AT A STANDSTILL

Fear Lost Delay Bring About Unexpected Conditions.

PEOPLE OPPOSED TO WAR.

Seems Politicians Favor It Because They Believe Inaction Will Be Unpopular—Republicans Have Remained Quiet, Thinking It Good Politics to Leave Problem to Democrats.

By ARTHUR W. DUNN.

Washington, July 11.—[Special.]—As much doubt as ever hangs over the Mexican situation. No one seems to know just which way affairs will turn. But it seems probable that, with all the available militia massed on the Mexican border, this country will be able to meet any contingency that may arise unless it is a march on Mexico with a view of putting an end to the disorders in that country.

Continued delay may bring about an unexpected condition when coupled with a possible menace against Mexico it may serve to bring the various revolutionary leaders under Carranza and enable him to set up a government with a semblance of a united people behind him. It would be rather strange if that should be the outcome of the movement of the United States following the raid of the bandit Villa at Columbus, N. M.

NEW BLOCKADE OF GREAT BRITAIN

AGAINST GERMANY IS PROMULGATED BY KING GEORGE.

MUCH STRICTER THAN BEFORE

Royal Order Issued in Council Says Among Other Things Hostile Destination of Ship Carrying Contraband Presumed Unless Disproved

King George issued a royal order in council withdrawing all previous orders in council under the declaration of London and announcing new principles under which the blockade of Germany will be conducted.

New order stipulates that the hostile destination of any ship carrying contraband of war is presumed until the contrary is shown. This stipulation permits British warships to hold up suspected neutral ships, which must then offer proof that their cargoes are not ultimately destined for enemy countries to avoid seizure.

The principle of continuous voyage and ultimate destination will apply to contraband in ships passing the blockade. Any vessel is liable to capture and condemnation by a prize court if its cargo is more than half contraband.

Any neutral ship carrying contraband, but which evades capture by showing papers indicating a neutral destination and then proceeds to an enemy port will be liable to capture on her next voyage in the prescribed area.

PASTURE for Horses and Cows.—Alfalfa, bermuda and clover at 10c. per day or \$2.50 per month in advance. T. MARQUESS, La Huerta.

People Versus Politicians.

It looks as if there was quite a sharp division between the people and the politicians in regard to Mexico, judging from the reports received in Washington. The people do not want war, but the politicians want it because they believe that after all that has happened inaction will be unpopular. The president has been receiving many appeals from the people to keep the country out of war.

During the time of rather strained conditions it was noticeable that the Republicans kept remarkably quiet. They did not try to force a war or discourage it. They seemed to think that it was good politics on their part to let the party in power work out the problem.

Political Farming.

There was an interesting discussion in the senate during the consideration of the agricultural appropriation bill as to the value of cross breeding of horses, and the debate reached a point where Senator Pomerene of Ohio interjected this query:

"Has not this occurred since the day Mr. Justice Hughes and Colonel Theodore Roosevelt got together in perfect accord?"

"I want to say," remarked Chairman Gore, having the bill in charge, "that the crossing of the Republican elephant and the bull moose has nothing to do with this proposition."

"I will ask," interposed Senator Gallinger, "if it is not a fact that whatever else may happen as a result of Mr. Hughes and Colonel Roosevelt getting together a change in the administration at Washington will inevitably ensue?"

"There is no question about that," replied Senator Gronna of North Dakota, who had the floor at that time.

Expensive Stump Lifting.

There was an appropriation in the agricultural bill of \$10,000 for a completely equipped bureau with a chief and forty clerks to investigate the best methods of removing stumps from logged off lands. It remained in the bill, as all such provisions do, but not until a number of senators had expressed their opinion concerning it. Senator Gallinger of New Hampshire, representing a "state where" a great deal of such clearing was done long before there was an agricultural department, thus expressed his view:

"It would be just as sensible for congress to make an appropriation to teach dentists how to pull teeth as it is to spend money to teach farmers how to pull stumps."

Heflin Has His Fun.

Tom Heflin of Alabama is the recognized humorist of the Democratic side, and he secured lots of applause and laughter in a speech attacking the Republican policies, candidates, Colonel Roosevelt and everything connected with the party.

"Colonel Roosevelt," he said, "is going to employ his time trying to elect the cold storage twins nominated by the Republican bosses."

"Icebergs fringed with seaweeds," interjected Alfalfa Bill Murray of Oklahoma.

Both of these remarks tickled the Democratic side, and Heflin went on for half an hour with much of the same kind.

Venues For Officeholders.

There has not been a time in the past quarter of a century when there was not a crisis of furnishing conveyances for officeholders, but they constantly get more and better machines. "I am a refrain from expressing my delight that the senatorial conscience has been somewhat aroused on the question of squandering public funds to provide luxurious means of transportation for the well paid officeholders of Washington," was a remark by Senator Vardaman during a recent discussion of the subject. But the "senatorial conscience" did not abate a dollar.

ORIGINAL HOLDUP ROBBERY. STRANGER PARTS COMPANY WITH HIS CASH ON ACCUSATION.

"Say, young fellow, you're the man who's been passing around all of this bum money to saloons around here," declared a man at Kansas City as he approached Fred Jackson, just in from Keytesville, Mo. "I've got you," he said.

Jackson retreated to the wall of a building and most emphatically denied the accusation.

"Come on now," the individual continued. "You know you did it. I'm an officer. Let me see your money and I'll soon find out."

Jackson handed over \$15 in bills. The man looked at them a moment.

"Yep," he concluded, "this is the money all right," and then he placed the bills in his pocket and left.

Starving Denied.

Statements that children in Germany are starving for the lack of milk are denied in a statement from the American embassy at Berlin to the state department. Children as a class, the report says, are doing much better than before the war and as a rule are in good health.

President Defends Democrats.

In a speech at Detroit, Mich., to an enthusiastic crowd President Wilson defended the Democratic party as the friend of business and urged peace by mutual understanding instead of force. Streets were lined with thousands of cheering people. He also made an address at Toledo, Ohio.

Special Fruit Rate.

Railroad commission granted special authority to the International and Great Northern Railway company, extending from July 1 to Aug. 15, on a fruit rate on peaches and tomatoes for east Texas points.

He Was From Missouri.

A bill came up in the house relating to a town in Wyoming called Kaycee. There were several inquiries about it, and Frank Mondell explained that a man from Missouri had a ranch at the place and his brand was K. C. And thus the town when it grew took the initials and spelled them out.

\$500,000,000 FOR PREPAREDNESS

Wilson Asked For More Power, and Congress Granted It.

SERVICE IN MEXICO HARD.

Letter Says Heat and Dust Are Almost Unbearable—Lane Tells Optimistic Republicans Wilson Will Re-appoint Hughes to Supreme Court—Incumbents Bring Home Pork.

By ARTHUR W. DUNN.

Washington, July 12.—[Special.]—They are talking about the session costing a billion and a half, but it will appear that half a billion has been devoted to preparedness. Congress hesitated a long time before it got good and scared, but when it once got started it kept going, practically the limit.

Of course the Mexican situation helped along, but the fact is that when the president made it apparent that he wanted more ships, more soldiers and a lot of war material congress simply did what he wanted.

When Chairman Fitzgerald of the appropriations committee sums up the expenditures for the session he will discover a lot of increases as the cost of preparedness. The senate has thought nothing of adding a hundred million to the regular supply bill.

The Supreme Court Vacancy.

A group of Republicans and Democrats were talking politics, and the Republicans were speaking rather boastfully that they would win the election. Then one of them asked Secretary Lane:

"Whom is the president going to appoint to succeed Hughes on the supreme court?"

"He isn't going to appoint any one at present," quickly retorted Lane. "He's going to wait until after election and then reappoint Hughes."

Hot in Mexico.

A private letter from a young officer in Mexico says that the heat and dust are almost unbearable, making service there very disagreeable. He says that for the most part the troops sent on expeditions are without extra equipment and have to sleep on the ground. The sun is blistering hot, and whenever the wind blows the air is filled with choking dust.

When all of the militia soldiers get down there and see almost nothing of real fighting, but doing little more than tramping and guard duty, they will make complaints which will get more publicity than those which come from the regular army.

Kenyon Wanted a Thousand.

Senator Kenyon secured an amendment to one of the appropriation bills providing \$1,000 to make an investigation as to the feasibility of establishing a national park in the region of eastern Iowa and southern Wisconsin on the Mississippi river. It was one of the first items eliminated in the conference.

"I did not expect it would be retained," remarked Kenyon. "A man who has fought extravagance as long as I have cannot expect anything in an appropriation bill. I will never ask for another dollar as long as I am in congress."

Refusing Liquor Advertising.

When Senator Jones tried to get an amendment in the postoffice bill to prevent the circulation of liquor advertisements in dry states he made the statement that many publications in the country would not accept liquor advertising of any kind, and others had announced that when their present contracts ended they would cease to carry such advertising.

The anti-liquor people assert that this is an evidence of a great growth of popular support of the prohibition movement.

They Bring Home the Pork.

The muckrakers can write about "pork" just as much as they please, but I have noticed that the men who serve longest in congress are the men who bring home the pork to their constituents. Brownlow of Tennessee advertised all over his district the amount of pork he brought them and was elected by increased majorities. I could pick out a number of senators who have had long service with no other recommendation than that they get what their people want in the way of federal appropriations and improvements.

Kept Him on the Job.

Martin Dies of Texas had the hardest fight of his life this year, and his opponent made a very hot campaign against him.

"Shall I go home and fight?" he asked Speaker Clark.

"Stay on the job and let your people know it," replied Champ, who is a wise politician as well as a statesman.

And so they fixed up two nice letters embodying these views and had them printed in the Record and franked all over the district which Dies represented.

NERVOUSNESS AS BLESSING.

Carnegie Professor Says It Quickens Intellectual Pursuit.

A one armed paperhanger with the nerves, whatever the passing discomfort of his position may be, is really in a fair way to obtain educational advancement. At least he's nervous, and, according to figures compiled by Dr. Karl T. Waugh of Beloit (Wis.) college, it is the nervous man who eventually proves an intellectual wonder. The more nervous he is the quicker his advancement over the tack straw mac adam of learning.

It took Dr. Waugh three years to complete his work establishing who's who in the classroom, and he is thoroughly convinced that nervousness is a collegiate blessing and that quick thinking is what puts a fair intellect at the top of the general class stand ing.

That collegiate training is a tremendous element in the chance of success in life is indicated by a chart prepared by Dr. Waugh.

Sunday afternoon Chas. Tucker and some of the boys from town were driving along the canal bank, when Mr. Tucker from some cause decided to turn the car around and drive back the way he came and in so doing he let the back wheels of the car get off the hard road along the canal bank, and finding the car was going back wards into the canal, Mr. Tucker made an effort to stop, but in some and it ran into the canal breaking a way the brake did not hold the big car the front wheels entirely off. The water was low in the canal and no one was hurt, not even their cigars damaged. A phone message brought Bill Ohnemus to their assistance, but he had to return to town and get the racer and some big chains to pull the car out of the canal.

S. W. Cox and Pink Roberts of Nade were in town yesterday. In talking with Mr. Cox he stated they did not get a good rain like the Knowles country got last Thursday, and things were some dry with them.

Sunday the families of W. H. Mul-lane and Mr. and Mrs. Myers and two children, Delmer and Lucille, were looking for an ideal spot to enjoy a few pleasant hours and eat a picnic lunch, and naturally they motored to Dark Canyon wells and enjoyed one delightful and happy day. Mrs. Myers had been ill all week feeling too lifeless to move, but was willing to try the change. On reaching the spot she forgot all her ills, ate a good meal of fried chicken, snap beans, ice tea, sandwiches, cake and the best, so the children said, ice cream.

Mrs. C. H. Dishman returned Monday from the Pacific Coast where she spent the last month very pleasantly visiting her son Rupert, and a brother H. G. Redwing of Los Angeles, Cal., and was shown through the New Mexico State building by our townsman Guy Reed. Mrs. Dishman says she found many things of interest in the building. When she reached Los Angeles she was met by her son Rupert, Tom Barnes and her brother and family. Mr. Redwing has a nice car and he made long voyages to various points all of which were of interest to her, sometimes going 160 miles in an afternoon. Her son Earl accompanied her on the trip and was so well pleased with California he did not return when she did. Mrs. Dishman had the pleasure of seeing a number of Carlsbad folks, among them were Mr. and Mrs. Forsenden, Canfield, Guy Benson, Mrs. Miles Stone, and visited them in their homes, all seemed well pleased with California and did not express a desire to return, only Thelma Benson, who said no place was home to her but Carlsbad. This was her first visit to the coast, but Mrs. Dishman managed things so well she can plan to get away every now and then. She enjoyed a much needed rest and her many friends are glad she could arrange to go.

Mrs. J. F. Flowers and two children Eleanor and Dorothy, returned Saturday from a week spent on Black river with the Rossen camping party of Lovine. Messrs. Milton Smith, Maj. E. P. Budge, Dr. J. M. Lackey and Ovie Reeves left early today in the big Franklin car for El Paso and Columbus to see the boys and enjoy an outing.

M. P. M., thence north on section lines six miles to the corner of sections 1, 2, 35 and 36 townships 23 and 24 south, range 36 east, N. M. P. M., thence in a northeasterly direction to the town of Eunice in section 33, township 21 south, range 37 east, N. M. P. M., signed by more than 10 free holders living within two miles of the proposed road.

It is hereby made the order of the board that said petition be accepted and the board hereby appoints W. T. Watkins, L. C. Crumshaw and R. C. Withers as viewers to meet at the town of Eunice on some other convenient place on September 15th, 1916, for the purpose of viewing and marking out said proposed road, and complying with the New Mexico laws as to viewing of proposed roads.

The rest of the day was spent by the board in auditing and passing on claims against the county, figuring on estimates presented by the various school districts of the amounts required to maintain and operate the schools for the ensuing year.

The clerk of this board is hereby instructed to draw warrants No. 2450 to 2485, as per the clerk's warrant record, for the payment of the claims this day allowed by this board.

WHEREUPON the board adjourned until July 5th, 1916, at 9 o'clock a. m.

C. W. BEEMAN, Chairman.

Attest:

A. R. O'QUINN, County Clerk.

BE IT REMEMBERED that on this 5th day of July, A. D. 1916, the board of county commissioners of Eddy county, New Mexico met in pursuance to an adjournment had July 3rd, at which meeting the following proceedings were had:

Present:

Mr. C. W. Beeman, chairman.

Mr. V. H. Lusk, commissioner from District No. 1.

Mr. Whit Wright, commissioner from District No. 2.

Mr. R. B. Armstrong, deputy sheriff.

Mr. A. R. O'Quinn, county clerk.

At the meeting of the board of county commissioners, last week the following business was transacted:

It was moved by Mr. Lusk and seconded by Mr. Wright that the claims of R. A. Nymeyer, filed January 4th, 1916, for \$50.50 and \$289.70 be allowed. Mr. Lusk and Mr. Wright voting aye, and Mr. Beeman voting nay.

The following notice to be published as required by law:

It was moved by Mr. Wright and seconded by Mr. Lusk and carried that the claim of J. S. Oliver for the sum of \$7.50 for services rendered in driving the automobile taking the coroner's jury to the body of Juan Amey on April 1st, 1916. Mr. Lusk and Mr. Wright voting aye, and Mr. Beeman voting nay for the reason that on account of the bad condition of the roads over which the cars had to travel to take the sheriff, district attorney and coroner's jury to the above mentioned body this board paid extra mileage for automobile services, it does not appear to him that the claim of J. S. Oliver is proper claim against the county.

The claim of J. A. Bruce for \$160 for one acre of land for road purposes leading from the Artesia bridge to Artesia and fence is hereby rejected for the reason that no contract or agreement was made by this board for said land or fence.

In the matter of the claim of Mrs. M. Somes, coming on to be heard again, upon the motion of S. D. Stennis, Jr., attorney for the claimant, it appears that heretofore on January 16, 1916, the claim was allowed in the sum of \$49.50 on the approval of the district attorney, in full satisfaction of her claim for \$99 a warrant was duly authorized to be drawn payable to her, and which she was to accept in full payment of said claim, which it now appears to the board that she refuses to accept in full settlement and returns same to this board.

The matter being again presented to the board they again approve the claim for \$49.50 and reject the balance on the recommendation of the district attorney.

Thereupon claimant Mrs. M. Somes through her attorney S. D. Stennis, Jr., being aggrieved by the action of this board, in this case, now prays an appeal to the district court of Eddy county, New Mexico from the action of this board. Which appeal is hereby allowed.

A petition having been presented signed by more than ten free holders, accompanied by a check for \$25 signed by W. T. Arnold requesting that a public road running from the old town of Seven Rivers to Hope, be so changed and adjusted as to put it on section lines in township 19 south, range 26 east, and 27 east, and 28 east, and where said changes are made that the old road be declared abandoned.

It is hereby ordered by the board that the said petition be allowed and that C. O. Abernathy, Taylor Ross and C. M. Boyd, Jr., be and hereby are appointed viewers to view and mark out the proposed change in the road above mentioned and that they meet and they are hereby directed to meet at the most convenient point for them on the 12th day of August, 1916, and view, mark out and plat said road along the most suitable route for the proposed change in the said road, and that they report their action to this board at an early date.

Now comes Mr. J. D. Millman, and presents his claim heretofore filed with this board against Eddy county for \$500 damages to cattle killed and injured while crossing the bridge near the McMillan dam near Lake-wood across the Pecos River, and the board having referred that claim to

the district attorney and he having refused to approve the same, and advised the board that it was not a proper claim against the county, and it is hereby made the order of the board that said claim be and the same hereby is rejected.

It is hereby made the order of this board that claims of J. C. Estlack, Justice of the peace precinct No. 13 be returned to him by the clerk for the reason that said claims are not signed by the defendant.

It is hereby made the order of this board that the following claims be returned by the clerk of this board to the claimants for the reason that they are not specific, as to what services were rendered, and in what cases said services were rendered; said claims being as follows:

C. E. Carson, \$7.75.
W. H. Baker, \$41.15.
J. W. Pruitt, \$5.25.

THINGS WHICH THE CATHOLIC CHURCH DOES NOT BELIEVE.

By Rev. T. F. Oakley, Pittsburg, Pa.

1. Catholics do not worship statues any more than the people of Pittsburg worship E. M. Bigelow, whose statue is in Schenley Park.

2. Catholics do not worship the Blessed Virgin Mary, the Mother of God, any more than the people of Pittsburg, worshipped Shakespeare, when they put flowers and wreaths on his statue at the entrance to Carnegie Gallery a few weeks ago.

3. Catholics do not worship relics any more than the people of Pittsburg worshipped the Liberty Bell when they turned out by the thousands recently to greet it. No medical saint ever had such honor paid to him as the Liberty Bell.

4. The Catholic Church does not allow her people to read certain sinful and immoral books, just as the Carnegie Libraries authorities very justly will not allow obscene and immoral books on their shelves. The Carnegie Library has an "index" just as Rome has.

5. The Catholic Church does not teach that God created the world in six days of twenty-four hours each. The Bible does not say so, for the Bible says that the sun itself was not created until the fourth day, and the day of Holy Scripture is an indefinite period.

6. The Catholic Church does not believe that all of the world of God is in the Bible. The Bible itself says it is not complete. The Bible was not all written for more than sixty years after the death of Christ, and there was no Bible, as the people have it today, until the year 397.

7. The Catholic Church does not teach that all Catholics will necessarily be saved.

8. The Catholic Church does not teach that all those who are not Catholics will necessarily be lost for all eternity.

9. The Catholic Church does not teach that all unbaptized children or adults will be sent to hell.

10. The Catholic Church does not worship angels, or saints, or the Mother of Christ. They are all creatures, and worship is due and reserved to God alone.

11. The Catholic Church does not believe that a valid and complete marriage can ever be dissolved, except by death. Hence there can be no divorce in the Catholic Church. The recent Gould-Castellane marriage trial in Rome should be evidence that all the money in the world, and all the influence of great names, has not the slightest effect when the doctrines of Christ are at stake.

12. The Catholic Church does not believe that the true Church of Christ is composed exclusively of saints. Sinners, also, are members of the Church, for it was to save them that Christ came on earth. The true Church of Christ must save men from their sins, not cast them out, excommunicate or repudiate them.

13. The Catholic Church does not believe that the true Church of Christ exists merely as an adjunct to civic bodies, uplift organizations, political parties, or other humanitarian welfare societies. The Catholic Church has for its object the keeping alive of supernatural religion in the world. She would rather save the soul of one single ragged beggar of the slums of Pittsburg than build a hundred lines of double track railway through the length and breadth of the United States.

14. The Catholic Church does not believe the sensible people will judge

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 56 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

the Catholic Church by so-called ex-priests and other immoral livers, reprobrates, castoffs, drunkards and dregs, who form the garbage pile and the refuse of Catholicity. Judge the Catholic Church as you would any other institution, by its finished product, not by its scrap heap.

15. The Catholic Church does not believe that the Pope has anything at all to do with the rights of Catholics as citizens. It is not any of his business what political party Catholics belong to. The present European war is proof of this, with Catholics fighting on both sides.

SANTA FE INSURANCE PLAN.

Every employee of the Santa Fe Rail way in the service for two years or more has after July 1st this year the advantage of life insurance without cost. The benefit goes directly to the family of the employee. The lowest amount to be paid is \$250.00 and the highest \$3,000. It is figured on the rate of pay of the employee and the number of years in the service of the company. The longer the service, the greater the benefit.

The plan is not philanthropic. The purpose of the company is to give its men safe insurance in exchange for faithful service and ability to stay on the job, as the employee as a rule becomes more valuable as he becomes older in service. This matter has been under consideration for nearly two years and the system effective July 1st, will be fairly tested.

PICNIC AT THE FLUME.

One of the most pleasant events of the season took place last Friday evening when the young ladies of the Flume, and the young men of the Flume class of the Baptist Sunday school entertained the young ladies and the young men's classes of the Methodist, Presbyterian and Disciples Sunday School. Two large floats furnished by Carl Herring were used in conveying the crowd to the Carlsbad Springs, the scene of the evening's festivities.

The curiosity of the uninitiated observer might have been aroused by the sight of a pile of wood and many mysterious boxes and bundles lying in the middle of one of the floats. This curiosity would have grown more and more intense had he followed the floats to their destination and seen the wood quickly converted into a jolly, crackling fire, and the mysterious boxes and bundles deposited around it on a large tarpaulin. But the curious one is doomed to still further suspense, for at this point the moon waved a magic wand and the whole crowd was suddenly turned into a crowd of romping children who at the close of thirty or forty-five minutes laughing, talking, shouting and bantering gathered around the fire and were supplied with heavy wires taken from one of the mysterious bundles. Then at last the curiosity of our uninitiated friend is satisfied for the lifting of a box lid reveals ribbon after ribbon of that wonderful sausage that made Germany famous, and the curious one wakes up to the realization that he is in the middle of an old fashioned "Weenie Roast." After the first scramble for wires, buns, weenies, and pickles, the loud hilarity that characterized the earlier evening gave way to a low murmur, a kind of munching sound, broken only by an occasional burst of pure delight coming from the direction of one of our young men who is widely known for a remarkable appetite backed by an equally remarkable capacity. Delicious cake supplemented by pure spring water was served as a desert.

The last feature of the evening's entertainment was a ride on the merry-go-round when the crowd returned to town. There was fifty in the crowd and you would hunt a long time before you would find a jollier bunch.

TWENTIETH ANNIVERSARY.

The many friends of John T. and Mrs. Bolton have been making this week a long one to be remembered by this kind and lovely couple, accidentally calling and bringing them some remembrance to remind them that twenty years ago, July 9th, they were newly wed, many friends from a distance have kindly sent them lovely tokens and expressed a wish for many other happy anniversaries, in which The Current heartily joins.

PICNIC DINNER.

Two or three families spent Monday at the flume and enjoyed a good dinner, the children went bathing while some of the party fished. Mr. and Mrs. J. D. Shannon and children, Mrs. Rosa Stone and the three children, also Mrs. Jess Anderson.

PICNIC SUPPER.

Tuesday evening the families of M. L. Davis, Tom Kindel, E. Stephenson, and Ray Davis, with W. H. Mullane and Mary E., motored to the Biedel farm and spent a few hours fishing, without any luck, only a few small fish were landed. But the party was not despondent on fish for supper, so a feast of all kinds of good things was served picnic style and a very small share was left for every one was hungry after tramping up and down the river. Mr. Biedel and the two boys, Willie and Andrew, joined the party bringing their boat and the young folks in the crowd spent a very delightful evening. The crowd returned about ten o'clock, a jolly but all tired out crowd, and ready to rest.

J. B. Stetson, who ranches on Black River, returned from the plains country, Wednesday, where he had been with Paul Gray for the past month helping him to move his cattle to pasture. Mr. Stetson stopped at the Current and renewed his subscription to the weekly sheet.

Mr. and Mrs. Ad. Owen are visiting in New Mexico, the guests of Mrs. Owen's homefolks. They drove thru with Mr. and Mrs. Jack Ferrell in the latter car. Mrs. Owen is Mr. Ferrell's sister.

Bill Ohnemus, the lightning driver, that goes like the New Mexico wind, ran in to the train Tuesday with his racing car, and smashed the car, but did not scare the train in the least, but those looking on were some scared thinking Bill possibly had met his Waterloo. It happened in this way: Tuesday evening Bill was coming from the other side of the river and getting a down hill run, came across the bridge at his usual speed, and as he came off the bridge the train ran along there, and when Bill decided to use his brakes he found they would not work, so he crashed into the train totally wrecking his car, but Bill shook himself and found he was with out a scratch.

T. C. Horne proprietor of the T. C. Horne Dry Goods Store left for eastern markets Tuesday night. He expects to be gone a month or more and will visit the cities of St. Louis, Washington, New York and home to Chicago. Mr. Horne always carries an up-to-date line of ready to wear and the new goods will begin to arrive at an early date. Mrs. Horne's father, W. W. Brashear from Dennison, Miss., accompanied Mr. Horne as far as his home town. Mr. Brashear has been visiting his daughter for the past few weeks.

The many friends of Mother Beers will be pleased to know she has recovered from her trip east and is feeling much improved. Her daughter, Miss Nannie Beers is spending her vacation with her mother in Kansas.

NEW MEXICO RANCHER WEDS TOYAH GIRL.

Miss Ruth Grayson of Toyah, and Jack Ferrell of New Mexico, were married Tuesday in Toyah at the home of the bride's mother, Mrs. Kate Grayson. Ruth is much beloved by her many friends in Toyah where she has grown from childhood to young womanhood, and she is one of the graduates of the class of 1913 of the Toyah High School. She taught in New Mexico where she met Mr. Ferrell who is a prominent stockman in that country. They will make their home on a ranch in New Mexico. The Enterprise wishes for this young couple all the joys of a long and happy married life.—Enterprise.

Dan Cupid has visited our little town and took from it one of our fairest flowers, Miss Ruth Grayson. Miss Ruth was married Tuesday evening at 4 o'clock to Mr. Jack Ferrell, at the home of the bride. Only her near relatives and a few close friends witnessed the ceremony. Miss Ruth is highly accomplished and very desiring young lady and with her goes the very best wishes of her friends here who are numbered by her acquaintances. Mr. Ferrell is a wealthy stockowner of New Mexico. He and his father own the Grapevine ranch near Carlsbad. Mr. and Mrs. Ferrell autored to Pecos after the ceremony to visit his sister, Mr. Owen, there and left there Thursday morning for the Grapevine ranch where they will make their home.—Toyah News.

In compliment to Miss Anna McMahon, the visiting guest of Miss Myrtle Harkey, Mrs. R. L. Halley entertained with a four course one o'clock luncheon Monday. The delicious luncheon was served at the large white table in the pleasant dining room, which was particularly lovely with cut flowers and greenery. Covers were laid for six, including the guest of honor Miss McMahon, and the Misses Grace Cook, Jenny Linn, Myrtle Harkey, the host and hostess, Mr. and Mrs. Halley.

A pleasant early morning bridge luncheon was given in her honor over which Miss Grace Cook presided. Awarding two prizes for high score and a guest prize. Two tables played at bridge. Mesdames Roberts and Clark winning high score, each received a handsome ivory fan and the guest Miss Anna McMahon also received a dainty ivory fan. The players were Mesdames George Roberts, Myron K. Clark, Misses Lowrey, Linn, Harkey, Mildred Cooke, visiting guest Miss McMahon, and the hostess Miss Grace Cooke.

Misses Harkey and Linn entertained with five hundred at the home of the latter, complimenting the charming guest, Miss McMahon, five tables playing. Beautiful cut flowers were used as decorations, bouquets of sweet peas in all their delicate shades were given for high score and guest prize.

About the five tables the maids and matrons in their fluffiest summer gowns presented an animated and pretty picture. Mrs. R. L. Halley was the lucky winner of the bouquet offered for high score, Miss McMahon receiving the guest prize. Closing the delightful round of games covers were laid at the tables for refreshments. Enjoying this particularly pretty hospitality were Mesdames Halley, Collins Gerrels, Sid Brown, K. Clark, A. J. Linn, Sikes, G. Roberts, Dow, Misses Maud Wymann, Maud Jones, Jim Penny, Grace and Mildred Cooke, Mona Heard, Catherine Finlay, Jessie Lowrey, Eulalia Merchant, Lella Christy, Ida Breeding, Florence Owen.

Among the many pleasant affairs given this week in honor of Miss Anna McMahon, none was more enjoyable than the sewing party yesterday afternoon at the delightful home of Mrs. Arthur J. Linn. The chat and needle work was the afternoon's diversion and the enjoyment of delicious refreshments at the close.

WISE LOVER AND WILLFUL MAID

Story of an Elopement and
What Came of It.

John Thompson was twenty-one and old for his age. The only thing youthful about him was his love for Anita Merriweather, who was but seventeen and young for that tender age. Anita's parents had reluctantly consented to an engagement, fearing that their daughter might change her mind before reaching a marriageable age or later on find herself tied to a man whom she would not choose at maturity. But Anita regarded herself already as at a marriageable age and saw no possibility of ever changing her mind. She wished to be married at once, instead of waiting two years, the period insisted on by her parents.

"Johnny," she said one day, "I wish you had more spirit."

"What do you mean, sweetheart?" asked John, surprised.

"I think you submit very tamely to all these requirements and conditions laid down for us by papa and mamma."

"I don't know of but one—the waiting till you are nineteen."

"Isn't that enough? But I suppose it doesn't seem very long to you."

"I don't permit myself to think of it. I try to keep my mind on my daily work. This will the better enable me to take care of you when I get you."

"What a humdrum sort of fellow you are! I like a man who resents having others stand in the way of his desires, especially in love."

"Very well," he said after discovering that a willful woman must have her own way. "What do you propose?"

"I suppose we'll have to run away."

"I don't think we'll have to run very fast."

"Indeed we shall. If papa should get wind of our going, he would follow us furiously."

"I doubt it. He has no objection to me. He only wishes us to wait till you are sure of your own mind."

The upshot of it all was that a few days later John stopped at the door of the Merriweathers' with his automobile. Anita got in, and they rolled away. They had taken many an afternoon ride together, and there was neither occasion to ask permission nor to put on any considerable power. Anita's mood, however, was not in keeping with their quietest conditions. She either clutched John's arm as though for protection or drew away from him as though he was dragging her into it. John, when he had got beyond the town limits, put on a fair speed. For the first time since the elopement, if it could be called such, had been mentioned Anita's thoughts appeared to be torn from her own desires to what ever of pain she might be inflicting upon her parents.

"I wonder how mother will take it," she said.

"Don't know," was John's reply.

"I've always been papa's especial pet. It's hard to do anything to hurt him."

"I suppose he'll have to stand it," John very unfeelingly.

"Unfeeling, sweetheart! It isn't that. We must face boldly the conditions we take upon ourselves."

There was a pause, after which she began again.

"Mother's health hasn't been of the best for the past few months. I hope it won't break her down."

John made no comment on this. They were jogging along steadily. She was so absorbed with her thoughts that she paid no attention to the route they were taking.

"I don't know," she went on, "what I'm going to do without papa's kiss every night and morning."

"I'll give you two," said John, "instead of one."

"H'm!"

They were approaching a house. John guided the automobile in to the sidewalk and stopped.

"What's this?" exclaimed the would be bride in terror.

"Clergyman."

"That horrid Mr. Parker? I don't want to be married by him. Go on, quick."

John pushed on. Anita leaned back on the leather cushion and as a protection against wind and dust drew a veil over her face. The machine chugged, the sun shone down softly, the birds were singing in the trees beside the road. John heard a sob. Then Anita took out her pocket handkerchief, managed to get it under her veil and covered her eyes with it. If John had been driving a horse instead of an automobile he would have put an arm about her to comfort her, but his machine needed both hands. Anita maintained her position. She kept her handkerchief over her eyes and occasionally gave an audible sob. John maintained silence. Being old for his age, he knew that anything he could say would be of no avail and would increase the trouble. He was a man of deeds rather than words. But he could not help thinking that it was not a cheerful wedding party.

Time and the automobile rolled on. Presently the latter came to a stop.

"We're there," said John.

Anita did not move.

"Will you get out?" he asked.

Anita shuddered, took her handkerchief from her eyes and looked about her. She was at her own front door.

Without a word she stepped down on to the sidewalk and, not deigning to notice her lover, went into the house. The elopement was over, and no evil consequences.
