The tariff can not be taken out of peities so long as two schools of thought exist on the subject and those two schools are represented in Congress. But, if it is the popular will that the tariff commission should exist, it should be under the immediate direction of congress, cooperating with that body, and assigned by congress to such research and report as congress may require.

The growth of the telephone since its invention forty years ago has been amazing. Today there are approximately 12,500,000 telephones in use in the United States and the messages carried total over twenty-two billions per year.

The Poindexter anti-strike bill has the ardent support of farmers. Farmers had not much use for strikes, eight-hour days or non-work organizations of any kind.

MAKING GENERATIONS

SELF-RELIANT

LEGISLATORS—State Socialism makes a helpless dependent citizenship.

The state can only make its citizenry helpless dependents by trying to do everything for them and leaving them to do nothing for themselves. Multiplying functions and furnishing everything free by the state and nation is not stimulating the production of the resulting self-helpful self-reliant citizen.

Are YOU One With Us?

One million, five hundred thousand farmers are united in a common cause through the American Farm Bureau Federation. They represent fifteen billion dollars' worth of our national wealth. That is more than the value of all the gold the world has produced in the last sixty years.

These are stupendous figures. Yet the impressive fact is not the size of the figures themselves, but the power they signify. The thoughts, the voices, the strength of one-fourth of the country's farmers joined in a single cause—farm progress! It is a tremendous force for good.

This force that is created by 1,500,000 determined farmers is making itself felt. It is speaking with too powerful a voice to be ignored, too well informed to be dismissed. Congress, capital, labor are having to listen to the farmer at last because the farmer has found a means of making himself heard. The Farm Bureau Federation has given him that means.

Fall in line! Join the Farm Bureau and help swell the mighty force that has enlisted under the Farm Bureau banner. Its objective is a secure and prosperous farming industry. Help it to guarantee that for you and the six million other farmers of this country.

Before the national body was organized THE COUNTRY GENTLE-

MAN began to support the movement. Its aid has been continued because the editor believes in the soundness, the integrity and the wisdom of Farm Bureau policies and leadership. THE COUNTRY GENTLEMAN always is ready to support and encourage every move that is helpful to farming. That is the purpose of this big national weekly—to make farm life more livable and profitable. It does this through the medium of informative articles, inspiring editorials and practical suggestions.

You need THE COUNTRY GENTLEMAN in your business, in your home life. And it costs only \$1.00 a year—less than two cents for each of the fifty-two big issues. You can mail your subscription to us, inclosing a dollar bill, check or money order.

You're taking the right step when you switch to

Spurs

You can't do better than you've smoked. You've smoked a pack of Spurs, you don't want to go back to other cigarettes. You'll find your old kind of cigarette flat and uninteresting, like last year's politics.

For Spur's good tobacco taste can't help but win you for keeps. There's rich, mellow Turkish, flavorful Burley and other home-grown tobaccos blended in a new way that brings out to the full the all-round goodness of this top-notch cigarette.

And Spurs top all—all ways. They're crimped. That means slow burn, smooth taste—no paste. The smart "brown-and-silver" package is three-fold to keep Spurs fresh and fragrant.

Twenty cents will prove that Spurs are your kind of cigarettes—top-notch quality at rock-bottom price. The sooner you try them the gladder you'll be.
