NEW MEXICO MINES
and PROSPECTS.

What the Industry Is Doing All Over the Territory.

Silver City, N. M., Sept. 24.—Grant county covers the big and rich southwestern corner of New Mexico. It is 114 miles long, eighty-mile wide, and has an area of 9,234 square miles. The county has been the banner mineral county of New Mexico.

The mines of this county include the Santa Rita, Hanover, Fīnos Altos, Black Hawk, Burro and Cook's Peak, together with scores of others of only less mining note. The Santa Rita constitutes the largest copper deposit in New Mexico, the copper being of nearly all varieties, with carbonates, oxides and native copper predominating at present. The property embraces an area of one square mile and is owned by the Amalgamation copper company, and the purchase price from the Hearst estate being $1,400,000. A ninety-ton reduction plant has attached to it a sulphuric acid leaching process which enables the saving of all ore grades down to 1½ per cent. In addition to its own mining operation the company has an extended and active leasing system which is giving work and wealth to many miners.

The noted Hanover copper mine has lately been purchased by Phelps, Dodge & Co., together with several other neighboring copper properties—a probable total of $1,000,000 being invested. The Hanover is a twenty-acre patented claim and during four months in 1898 produced and marketed 6,000 tons of copper ore running from 12 to 25 per cent. Between 15,000 and 20,000 tons of 7 per cent ore are now being shipped, together with a large amount of higher grade of copper. The mine is the best developed property in Grant county. While the company is reached by Santa Fe Railroad, the Phelps, Dodge people will probably build a branch railroad to that locality.

The Colorado Fuel and Iron company investment at Fīnos is said to approximate $2,000,000. Some 100 tons of this copper-iron ore are now being shipped to the company's Phelps plant—figures which are soon to reach 1,000 tons per day. The ore is iron-copper and silver and is an excellent flux in addition to its steel and building values.

In the Santa Rita district J. R. McKinley and other Colorado operators and capitalists are completing the patenting of a big copper group and will extensively develop the properties in both mining and reduction directions.

In full setting.

The name of the Gem City, so often given to Silver city, comes from proximity to the celebrated turquoise mines of the Burro mountains. These mines were discovered ten years ago by W. M. Porterfield, N. C. Russell and others who were the original locators of the famous Azur group whose marketed jewels count their values in millions of dollars.

The largest individual turquoise supply in the world comes from the Burro mountains—a supply which is, also, of the greatest market values—this New Mexican turquoise always retaining its pristine color and luster, while the Persian gem frequently pales and turns dull. The turquoise is the "good luck" gem of the precious stones and its now steadily growing popularity and value insures both added fame and financial return to the jewel of Silver City's azure setting.

The Burro mountains are also the scene of extensive copper investments and operations, the present most noted properties being the big St. Louis and Calwell mine, owned by Boston capital; the rich sulphide copper deposit of the Sampson group—lately purchased by an English syndicate, and the Burro Chief mine, just sold to New York capitalists, who will put in a concentrating plant and additional reduction process of sufficient capacity to meet the ore demands of the entire district.

The Pinos Altos district is still the crack gold producer of New Mexico, and is steadily adding to its golden repute. The Hearst mine, run by the now increased milling capacity and is cleaning up from $2,700 to $5,000 per day from $25 and $50 ore. The great Mountain Key property has finally escaped from the meshes of litigation and is again busy with every prospect of speedily swelling its already recorded production of 100,000 to a round million.

Pinon is still a great mine and its deposits now being worked by Chicago people. The district, in addition, is opening up fine marble and onyx quarries.

ENGLISH AND SCOTCH MONEY.

The Clifton Copper company, the great English and Scotch syndicate of Clifton, Ariz., has made its bow in Grant county with a $250,000 copper and reduction capitalization, the local official headquarters of the Clifton people being at Deming, Luna county. The nailing plant put in here by the Clifton company is one of the finest in the southwest.

The famous Black Hawk boasts the most wonderful silver ore vein in the world—a vein which has produced ore lacking but 5 per cent of being solid silver, a single carload selling for $30,000. The ore in the Black Hawk, now known as the Alambtra, occurs in pipes or shoots, the native silver carrying no base metals whatever, and present at the shaft depth of 265 feet the same general ore values of within thirty-five feet of the surface values, ranging from 400 to 16,000 ounces. The total production of the property has been over $860,000. It is now idle.

One of the promising properties of the county is comprised in the Silver Cord group, owned by R. T. Allen, a former well known Northern Colorado, mining and newspaper man. The Silver Cord is located in the Pinos Altos district and has a total of 240 feet shafting, with three and five feet between walls of ore running as high as 100 ounces in silver and $2 to $8 in gold.

The Santa Fe railroad has proved one of the great factors of present Grant county mining development, having a perfect network of branch roads in active operation.

The Silver City reduction works, located at Silver City, have a present capacity of 250 tons per day a capacity to be increased to 450 tons—the great area and safely developing values of the Silver City mining district, moreover, fully justifying the predications that the next five years will see these reduction works advance to a daily capacity of 1,200 tons.—Denver News.

ACTIVITY IN THE ORGANS.

Caravans of Mining Machinery and Supplies Passing Through Las Cruces.

Las Cruces, N. M., Sept. 26.—A good deal of money is being spent in our mining camps, especially in the Organ mountains. Within the past six months seven caravans of mining machinery have passed through Las Cruces, for mines tributary to this town and five carloads more, that I know of, are on the way, or ordered. In addition to this machinery, ten carloads of mining supplies, timbers, etc., have been shipped into Las Cruces, within the past two weeks. The properties in the Organ mining camps all look very promising and much work is being done. The outlook for the coming year is very bright and prosperous times are ahead for the Mesilla Valley.

GUANO DEPOSITS OF NEW MEXICO.

More guano deposits have been discovered in southern New Mexico in addition to those near Lava station, in Dona Anna county. One of the new caves is in the Tres Hermanos country, and was the hiding place of the Indian Chief Victorio when he was on the rampage in New Mexico. This cave is situated in a mountain of marble which is bound to be of commercial value some day. The cave is about six miles from the El Paso Southwestern railroad or Bisbee line. The cave has been located by E. A. Chaffee of Las Cruces, who with Lewis Goodwin of Las Almas, also owns a large marble deposit in the Porritollo range, about three miles from the proposed Bisbee line. A company is being organized to work these properties.

COAL IN SOCORRO COUNTY.

It Exists in Vast Quantities in Western Socorro County.

Benjamin Crawford and Dell M. Potter have returned to Clifton, from a three weeks' trip through Socorro county in New Mexico, and Apache county in Arizona, along the line of the proposed Durango and Clifton railroad. They were after coal and found it in apparently inexhaustible quantities in veins from four to eight feet thick. They located 2,500 acres of coal land and also a number of other valuable mineral claims. While in Socorro county they visited the celebra ted salt lakes, one of which exists in the crater of an extinct volcano. The water is clear as crystal and many times stronger than the water of the ocean as far as salt contents are concerned. The United States government survey has taken soundings in the lake to the depth of 6,000 feet and found no bottom. They dug up some ancient pottery some 45 feet from ruins along their route of travel.
SCHELEY COURT OF INQUIRY.

There are no new developments in the Schley court of inquiry.

The prosecution has been holding although the trial so far, and has retreated to a corner, the trend of all the testimony being a charge of disobedience of orders. The disobedience has not yet been proven. The charge originated in Sampson's order to Schley to find out if Cervera's fleet was at Cien Fuegos and if not located there to proceed to Santiago. It is claimed by the prosecution that Schley unnecessarily delayed going to Santiago from Cien Fuegos. The charge has not been well taken and no evidence of its correctness has been shown.

A blunder has, however, been properly credited to Sampson who had arranged a new code of signals and did not inform Admiral Schley of their meaning. Schley proceeded to Santiago as ordered and the world knows the rest, and that is where the shoe pinches Sampson.

CHIEF OF POLICE OF MANILA.

Captain George H. Curry, well known throughout New Mexico, is his former home, as a Rough Rider, a legislator, sheriff of Lincoln and Otero counties, and holding other offices, at present chief of police of Manila, the metropolis and capital of the Philippine islands, is very favorable spoken of by the Manila newspapers. He is organizing the police system of Manila upon a modern basis and is evidently meeting with a great deal of success. Says the New American, a daily paper published at Manila.

THE YACHT RACE.

The first race between the Columbia and Shamrock II. was a failure neither boat making the 30 miles in the time limit. The Columbia was however nearly a mile ahead. The second race was very close, the Columbia making the distance 1 min. and 20 sec. ahead of Shamrock. The third race was a failure—America will win—that's all.

SCHLEY COURT OF INQUIRY.

There are no new developments in the Schley court of inquiry. The prosecution has been holding although the trial so far, and has retreated to a corner, the trend of all the testimony being a charge of disobedience of orders. The disobedience has not yet been proven. The charge originated in Sampson's order to Schley to find out if Cervera's fleet was at Cien Fuegos and if not located there to proceed to Santiago. It is claimed by the prosecution that Schley unnecessarily delayed going to Santiago from Cien Fuegos. The charge has not been well taken and no evidence of its correctness has been shown.

PAUL MAYER, PROPRIETOR.

PERSONAL MENTION.

Frank L. March is in the city this
morning from Jicarilla.

La. H. Rudisill and wife enter-
tained Wednesday evening.

W. A. McIver of Nogal is regis-
tered at Hotel Baxter.

Sam Neid the contractor in now
working on his new residence.

Mrs. M. H. Koch and children
returned Tuesday from an extend-
ed visit among relatives in New
York.

Mr. and Mrs. J. Y. Hewitt gave
a dinner party in honor of Mr.
and Mrs. W. H. Tuttle Tuesday.

P. G. Peters and father, W. S.
Peters, were in the city yesterday
en route to Jicarilla to look after
mining interests.

Col. G. W. Stonecord was a
pleasant caller at the Eagle of-
lice. He made us happy by re-
newing his subscription to the
Eagle.

The Eagle is much indebted to
Mr. and Mrs. A. C. Austin of
Angus, for a basket brim full of
fzicious fruit for the editor's better
half.

Miss May, sister of Silas May,
and Miss Myrtle Hightower are
over from Nogal, and will attend
school here this year.

John Gallagher returned Tues-
day from a months trip east. He
reports having had a good visit
among relatives in Illinois where
he spent most of his vacation.

W. H. Lumbley, representing the
Singer manufacturing company
is in the city today. Mr.
Lumbley is one of the most active
representatives in the service of the
Singer company.

Rev. J. F. Wood, the able min-
ist of this Baptist church for a
year preceding Rev. Pope's ap-
pointment, left this morning to
accept a new charge to which
he has been elected in Oakland,
California.

Mr. and Mrs. A. C. Austin are
in the city today from the Willows
farm. Mrs. Austin will remain
for two weeks visit with her
daughter, Mrs. Wallace Gum.
Mr. A. brought in fruit from his
Bonnito Park orchard. His orchard
is just now coming into bearing,
and is said to be the finest in the
territory.

Mr. and Mrs. Serrano of Boston
were in the city last week, guests
of H. Cray and wife and Mr.
Watson and wife. Mr. Serrano
is a mining engineer of ability,
graduate of the Colorado school of
mines and of the school of min-
es and metallurgy at Scran-
ton, Pa. He was here in the interest
of Boston capital, and was more
than pleased with the results of
his ten days exploration of the
resources of the camp. Mr. and
Mrs. Cray took them to Estey
City Monday.

OF LOCAL INTEREST.

The entertainment on Tuesday
night at the Congregational church
given by Mrs. W. H. Tuttle of
Estey City, was a splendid success;
the audience large and appreci-
avive. Mrs. Tuttle was superb.

Her rendering of the various se-
lections marked her as an elucio-
nist of rare ability. She was
tragic, pathetic and humorous,
and equally strong in each.

Her acting was without affectation
and her versatility remarkable.

In dialect parts she is equally
good in classic English, Irish or Eth-
pean. The people who heard her
Tuesday night will long remem-
ber the delightful evening they
enjoyed because of her visit to
our city. The musical part of
the program was also much enjoy-
ed and received well earned and
hearty applause. While we give
our hearty praise and express our
delight to Mrs. Tuttle, we also
give due meed of praise to our
some talent, our inimitable Etho-
pean imitator with his gooy goo
eyes, and his musical friends,
Prof. Juan L. Reyes, Mrs. A.
Ziegler, Miss Lorena Sager, Miss
Margie McCourt, Roy Gum and
Clipplrd Halbert. There was no
breach during the entire evening
it was all delightful.

ESTEY CITY MARRIAGE.

Ananias Green and Miss Mittie
Cox were united in marriage at
Estey City Sunday afternoon at 5
o'clock p.m., Rev. J. F. Wood of
this place officiating. The cer-
mony was performed on the big
platform of the supply store of
the Estey Mining & Milling Co.,
in the presence of almost the en-
tire population of the new
Town. J. M. Bryson was master of cer-
monies and the program was pret-
y and appropriate. The bride
and groom are held in high es-
tem by the people of Estey City.

A supper and reception was given
them by D. E. Estey at the com-
pany hotel; forty-five guests were
seated at the sumptuous board,
and the events of the first wedding in
the new and prosperous town of
Estey City was appropriately celebrated

Mr. Green lives at Tularosa and
is a young man of prominence in
his community. The bride is the
dughter of L. R. Cox, who one
of the largest stock holders in the
San Antonio copper company re-
presented by Judge Paskell of San
Antonio Texas. Mr. Cox resides
at Estey City and is his company's
general superintendent.

The Eagle joins the multitude of
friends of these young people in
wishing them a happy union
forever.

Joshua Richardson of Colorado
Springs, and Warren Givens of
the same city are in the town this
morning en route to Jicarilla to
begin assessment work on Mr.
Richardson's properties.
SCHLERVILLE MINES.
S. S. Doak, superintendent of the Iowa & New Mexico Mining & Milling Company's properties at Schlerville, was in the city on a hurry-up business mission Monday. Mr. Doak informs the Eagle that his company contemplates putting in air drills, compressors and steam hoist at the Schlerville group and that as soon as such equipment can be placed the shaft of the Homestake will be put down several hundred feet and development work pushed to the limit. Good ore and a well defined vein of copper lead and silver now shows up at a depth of 150 feet and it is the company's intention to hurry development until the mine can be listed as a producer.

The Eagle would like to see more such enterprising communities in Lincoln county. We are rapidly forging to the front as a mining county; we are also rich in stock, agricultural and horticultural resources and are rapidly getting rail road facilities to aid in all kinds of industrial development. Lincoln county is a good country for capital seeking profitable investment.

MISS LEONA RUDISILL MARRIED.
A pretty romance was brought to happy conclusion this forenoon by the marriage of Ellias Spear, an employe at the New Mexico penitentiary, to Miss Leona Rudisill, the pretty and charming sister of Mrs. W. E. Martin. The ceremony was performed by Justice of the Peace Francisco Anzila, and the witnesses were Gerinomino Pino and Genovevo Sandoval, Santa Fe New Mexican. Miss Rudisill was raised in Las Cruces, and received her education here. Her many friends extended congratulations. — Dona Ana County Republican.

FROM ANGUS.
[Rooho Valley farm.]
Correspondence.
J. P. Perry, a newcomer from Texas, has purchased the Parker place and is putting it in prime order.

E. S. Long's place next above Mr. Perry's, has a variety of fine crops that evidently have been planted and cultivated by an artistic hand. This slicking up of our valley shows our people believe that we have a future and that life is worth living in this scenic dale.

J. H. Banell's son, Charles, accidentally shot himself in the shoulder, but the wound is not serious.

Your correspondent is a considerable of an agnostic concerning moon farming, but he believes in water witchery. He knows a party in Kansas who has the power developed to an amazing degree, and never fails to develop water in the locality where he locates it. He was made up to induce him to come out I'm sure all would be well paid for his locations.

Miss May Gilmore began school at Angus last Monday morning. Miss Gilmore is one of Lincoln county's best instructors and we expect a good school.

Chris. Yeager left today for White Oakes. He was coming from Pagosa Springs, Colo., where he spent nearly four weeks taking the baths. In the mountains near there he shot and killed a wild sheep, the head of which he brought to El Paso. It is peculiar, in that it has four large horns. — El Paso Daily News.

Col. Geo. W. Prichard returned Monday night from an extended eastern trip, in the course of which he visited the prominent resorts of the lakes and of southern Canada. He returned home by way of Buffalo taking in the exposition. Mrs Prichard remained in Philadelphia where she will visit for a time among friends in that city.

WHITE OAKS LECTURE COURSE.
Tuesday night at Plymouth church Dr. Miller will lecture on Egypt's great queen Cleopatra, 8 o'clock sharp. Those who heard the lecture on Ancient Arts will be there, and will enjoy the portrayal of this famous woman of Paganism.

Plymouth Church, Sunday Oct. 6th, Dr. H. G. Miller will preach at 11 o'clock. "A two fold revelation or the truth and the eye." At night 7:30 o'clock, "Imitation or how to the singer cometh the song." Communion service after the morning sermon. Everybody invited.

Leter: The night service has been changed to “An hour with Eugene Field and his poems of home and childhood. Mrs. W. H. Tuttle will recite the poems.
A rich strike of gold is reported on the Little Nell.

Supervisor Owen is busy with his road work at present.

Joseph Spence was in from Spence Bros' ranches recently.

C. F. Davis, the Park ranchman, was in the burg Monday.

Master Marshall Parker took in the big show at El Paso last week.

Mrs. Thos. H. Walsh entertained friends at an afternoon reception Friday afternoon.

M. D. Lincoln is in from Gallina. He has made a sale of some important properties in that district lately.

Mr. and Mrs. Taliatferro and their youngest son, Jones, Jr. are expected home next Saturday from a month's eastern trip.

Wallace Gumm went to the Willows on Bontio Saturday after his wife and baby who have been spending some time visiting home folks.

C. M. Bryan, F. S. Hosteller and C. M. Merrill were in the city from Gallina camp this week looking after business matters and laying in supplies.

Monday evening Miss Edith Parker entertained in honor of Miss Mable Stewart who leaves soon for Washington, D. C. where she will attend school this year.

Mrs. J. H. Leighton gave an afternoon reception Tuesday in honor of Mrs. S. C. Ellis of Washington, D. C., and Miss Mable Stewart, of this city. Mrs. Ellis is a sister of Mrs. Leighton and Miss Mable a niece. Mrs. Ellis and Miss Stewart as was stated in last week's Eagle will leave at early date for Washington.

Frank E. Marsh and L. S. Ross of Jicarilla, spent Monday in the city. Mr. Marsh superintends the Marsh Iron Co., of Jacks Peak. This company is said to have the most valuable iron deposits of New Mexico, and are likely to make a sale to good advantage.

Colonel G. W. Prichard arrived last evening from a month's eastern trip, during which he and Mrs. Prichard visited the Pan American exposition at Buffalo and the leading summer resorts on the lakes, in Canada and Philadelphia, where Mrs. Prichard now is on a visit to relatives and will remain until about Christmas. Colonel Prichard, who is the successful and hard working district attorney of the 6th judicial district, was called home by pressure of official business, and leaves tomorrow evening for White Oaks. He attended to legal business today with Solicitor General Bartlett, New Mexico.

BONNEKY MAKES A STRIKE.

In a recent find made by C. D. Bonnely, of Chaves county, eight miles north east of the Penasco and east of the Pecos river ayasshowed 46,20 per ton, mostly copper. The vein is four feet wide and twenty-two feet has been uncovered.

NOTICE.

Suit will be brought in ten days from date of summons against all parties working on road ways who do not comply with said summons on or before the expiration of said ten days.

J. W. OWEN, Read Supervisor.

"The Best Is The Cheapest."

Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce— and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, 81 a year.

Any newspaper, or postmaster, may receive your subscription, or you may mail it direct to us.

THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the Eagle the following clubbing rates are offered:

Eagle and Thrice-A-Week World, 8.00 per year.

Eagle only, 6.00 per year.

Incl. Louis Republican, 2.00

Incl. El Paso Record, 2.00

Min. and Minera, 2.50

Incl. Baca High School Bull. 2.00

Central City Chronicle, 2.00

Summerville Sun, 2.00

Incl. dung to any, 2.00

This offer applies to old subscribers renewing their subscription to the Eagle and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (The Eagle and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.

THE CITY RESTAURANT.

[Opposite Post Office Block.]

REGULAR MEALS 35C.

SPECIAL SUNDAY DINNERS 50C.

Tables furnished with the very best markets afford.

A Share of your Patronage Solicited.

AGENT'S WANTED: German Electric Razor Home. Guaranteed equal to the best home made. Can use water, oil or lather. Will last a lifetime. Each home packed in neat cardboard case. Every one perfect. Just the thing for private use. Price 75cts. We want an agent in each township to whom exclusive sale will be given. Write for sample and agents outfit, sent by mail. A money order. Address, a very fs. Co., No. 542 West Lake St., Chicago.
GALLINA RATTLE. Correspondence.

Howard Williams is building a home here.

Miles Garrett is doing assessment on his properties.

Mark Thomas is doing contract work for Taliaferro & Spence.

Edward Suggs is working on the Pinson. He has shown up some rich ore recently.

Chittenden's saw mill is running double shifts and is sawing about 24 ties an hour.

Wm. Webster is still holding down the Bryan property and is pushing development work.

J. L. McBroom is building a residence and will go into winter quarters as soon as it is completed.

C. H. Harrison, assisted by R. L. Stevens is doing his annual assessment on the Independence cemetery properties.

Mrs. Hanna Marshall, who has been visiting her sons here for the past two months has returned home to Abilene, Texas.

S. F. Hostetler and Lew Thomsen among our most energetic prospectors, went to White Oaks Saturday for miners' supplies.

Wm. Webster had a horse killed last week. The animal was shot with a shot gun. The guilty party has not been identified.

Wm. McLaughlin has returned to Capitan. McLaughlin has been prospecting here about five months and has located a number of promising copper claims.

Orthofer, Daniels & Merrill sinking a shaft for Taliaferro & Spence on the Old Hickory, are making little over a foot per day. The contract is for 100 feet.

Frank Reynolds is still engaged in doing assessments on the group of 35 claims, belonging to Harrison, Stevens & Reynolds. Good results have been shown on most openings.

Lost, strayed or stolen: One, "Dominick" Rooster from the home of J. L. McBroom. Finder will please return in time for Thanksgiving dinner as Turkeys are scarce here abouts.

J. C. Kleipinger and C. M. Bryan, Kleipinger & Bryan, have a contract for three assessments for Spence & Davidson. The properties are copper, viz: Doberton, Haith & Graham.

Dr. Milligan of Las Vegas and Mr. Cox of the Colorado Iron & Fuel Co. were in camp last week.

They have purchased properties in Jicarilla and are negotiating for the Red Cloud and Back Horn of this camp.

LARGE ACREAGE OF WHEAT. A special to the Kansas City Journal from Abilene, the center of the Kansas wheat belt says:

"This has been the busiest wheat sowing year the whole belt has ever seen. Thousands of farmers were waiting for the coming of rain in order to put in their crop and they started drills at full speed as soon as the ground was moistened. The ground is now in excellent condition and the acreage will be the largest in the history of this section."

A noticeable thing connected with the wheat sowing is the excellence of the seed being used. The "sowing in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest. You can get a glimpse of the Empire of Mexico at El Paso this year, with the Mexican bull fights, is something no other cities not to afford. To see the ancient city of Juarez, Mexico is worth the expenditure of a trip, and since the Mexican roads have promised a very low rate from everywhere thousands, especially from the East, will attend. There will be a minor league convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become as famous an an entertainer and at the coming Mid-Winter Carnival the border Metropolis promises the most extravagant free show, feste and general jubilee ever seen before in the New Orleans and Los Angeles. The Carnival association is now preparing the program, which will be published soon.

Drying preparations simply devil of dry cotton; they dry up the reservations, which adhere to the tobacco and deserts to a purpose, causing a far more reasonable than the ordinary farmer in the North. Avoid all drying inhabiting infiltration, fumes, smoke and scents and use that is a direct ground, mois or low. One Cotton Basin is such a remedy especially adapted to the soil in the basin, and the plant, and the result will be matched for 10 or 15 percent of the southern light. Use Elly's Reaper in the basin, and it is in a basin, and the result will be matched for 10 or 15 percent of the southern light.

J. L. McBroom, Secretary.

THE NEW YORK JOURNAL'S
ENMIES ARE ALERT.
Buffalo, Sept. 17.—It is the talk in newspaper circles that representatives of certain party organs have been sent here from New York, Chicago, Cleveland and elsewhere to get Cooless to say that he got inspiration for his murderous act through leading colored yellow newspapers and to specify certain anti-Hanna papers. These representatives have already applied to the police for special interviews with their prisoner.

ELECROPTOBULON THE PENALTY.
The sentence of Cooless, the assassin of President McKinley, was limited by the 24th and 25th. Was convicted on the 25th and sentenced on the 26th to death in the electric chair. He was asked by the judge trying him if he had any reasons to give why the sentence of death should be pronounced upon and if he was insane when the deed was committed; also if he was sorry to have committed the crime. He answered, "Sorry," and the questions he answered no.
He will be executed in six weeks from date of sentence.

MURDER AT ENGLE.
A dispatch from Engle says: There was an assassination at the ranch of Hon. T. C. Engle last night. This ranch is about twenty-five miles southwest of here on the Palomas creek about five miles above Los Palomas. A young man, Miguel Madero, was sitting by a window in the Armijo home. Some one came up in the darkness outside and shot him through the side of the head, the bullet entering the skull back of the left ear and ranging forward coming out over the left eye. The victim was alive one hour and a half this morning. A posse is in pursuit of the murderer. His tracks were visible at daylight this morning. Albuquerque Journal.

A KNOKCER.
As we were standing on the street one day this week we overheard two men talking. During the course of their conversation one of them mentioned an item of news he had read in the Herald. The other, a man with a sort of a "missing link" look on that part of his person that God intended for a face, replied: "Oh that d-d shot don't amount to anything." Being a stranger in these diggings we immediately set about to furnish him with facts. Upon learning his name we proceeded to our sanquint-sanctum and immediately "looked him up." We found that he only owns three years' back subscription and still gets the "d-d sheet." Bland Herald.

THE COMMERON.
[Not In Our Paper.]
The Commeron has attained within eight months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of America a periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commeron Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commeron's regular subscription price is $1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and White Oak's Eagle together for one year for $2.00.
