AN EIGHTH INTEREST IN THE
FAMOUS COMPROMISE MINE AND SHAFT

Wayne Van Schoick, who is interested in a number of mining properties in this district has just purchased an eighth interest in the Compromise Mine from Harry C. Cray. H. C. Cray will be remembered by the Eagle readers as the original discoverer of the rich ore bodies of this property, and the party who purchased the prospect from Jones Tafilerro for the sum of $1,500. The Eagle has not learned the consideration for which Mr. Cray closed out his interest, but understands it to have been well up in figures.

The reader may well understand that the Compromise is considered a bonanza when an interest may be sold at any time for a handsome sum when at the same time knowing the property to be in litigation. This is the property for the possession of which Dye & Childers are now suing and whose claim will be heard at the December sitting of the District court at Secora. A spirit of move seems to have struck this camp, and nothing can stop it, the decree has gone forth and we must move. The resources are known and capital is once courteously and ask for a re-sample. It will always be made with and without extra charge. Of course mistakes may occur, but the chances are a thousand to one that it will be in your sample and not in that of the smelter. It is their business to sample correctly. An error in that part of their work is felt as a disgrace, just as would be a mistake in addition in a bank clerk, and the man who makes it is instantly discharged. It is always advisable in shipping a small lot of rich ore, to request the smelter not to use it until you have had the opportunity to examine the returns and accept them. This is often done. Above all things make complaint courteously, and never fail to acknowledge it when the returns (as they often will) exceed your own expectations.

As to prices remember that no smelter can afford to pay as high a price proportionately for a small lot of ore as for a large one; do not expect it. Remember again that the reduction company depends for its business and profits on the consignments of yourself and other miners, that the small producer of today is often the large producer of to-morrow, and that it wants your mineral and is always ready to pay as high a price for it as its business necessities will permit.

A DOLLAR A PIECE.

It is said that the cigars smoked by King Edward VII cost one dollar a piece and are made especialy for him still he is reported to have cancer of the throat caused by smoking.

TIN of GOLD.

What the Money Value is of That Much Metal

A correspondent asks this paper for the value of a ton of gold, to settle a controversy, says the P. C. Miner. This is a frequent topic of inquiry and dispute, and many different and conflicting statements are made about a ton of gold. The confusion arises from the difference between Troy and avoirdupois weights, but con-fusion is unnecessary.

A ton contains 14,000,000 grains. A grain of fine gold is worth 9.04306522. Hence a ton of fine gold is worth $6,029.283.08. Gold, as it is mined or used by man, is practically never fine, and the value of a ton of gold as it comes from the mine or the mint would have to be calculated from the degree of fineness.

A ton of 820, or other United States gold coin, being 900 fine, would be worth 90 per cent of the fine gold value, $5,425.386.77. No account is taken of the slight theoretical value of the alloy. Gold worth $81 per troy ounce, the price paid by merchants and bankers in many California districts, is $71 fine, and at this market rate a ton would be worth $71.7 per cent of the fine gold value.

A ton of smelter gold comes down by the “ton” frequently, according to newspapers. It generally runs from 700 to 850 fine.—El Paso News.

COAL OUTPUT

The coal output at Blossburg is only limited by the lack of miners. There are now about four hundred men at work at the Gardiner and Blossburg mines, but General Manager Van Hous ten says he could put three hundred more skilled miners to work at once if they have the demand for the coal and the mines are sufficiently developed to admit of it.—Raton Reporter.

THEE YAYQUIS STILL FIGHTING.

The Yaqui Indians of northern Mexico are still giving that government a great deal of trouble. There are at least 600 fighters still engaged in the state of Sonora according to estimates recently made by the Mexican government. They are divided into small bands of 20 to 30 each and their mood of warfare is similar to that practiced by the Boer in South Africa.
GOOD SENSE FROM THE JOURNAL-DEMOCRAT.

We enter a protest in the name of the people of New Mexico against a policy now being pursued by two or three papers in the territory of referring to certain other New Mexico papers but which differ from them in matters of local politics as "anarchistic sheeters."

If this childish practice concerned only those who are guilty of it, the people would pass it over as simply silly; but unfortunately it concerns all of us. It is well known to all those who know anything at all of New Mexico that there are no anarchist papers in this territory, and no newspaper here who believes in the doctrine of anarchy. But if eastern people learn from the columns of our own papers that some of our most prominent journals are "anarchist sheeters," they will put it down at once that the New Mexico People are followers of Emma Goldman. This might not be the case in other sections of the country, but the eastern people seem to be ready to believe any "fool" story they hear about New Mexico.

Hereafter when some "estemeeed" contemporary proves to be a little too much for you, and you want to get even with him, you will better do the business mouth to mouth. That might put a greater strain upon your intelectual machinery than to call him an "anarchist," but it would not give the territory a bad name. —Journal-Democrat.

A REMEDY FOR ANARCHY.

Des Moines Leader: The platform of the anarchist is:

I don't want war; I don't want capital punishment; I don't want official protection; I want to be left alone.

The New York Telegraph sug-
gests that the anarchist views
generously, and granting his prayer, saying to him:

The courts are closed to you.

When a highwayman assaults you, the police won't protect you.

When your house takes fire

and your wife and children threatened with a hideous death, the firemen will not come to extin-
guish the flames.

When the hoopoe breaks your windows with brickbats you can go to no court for relief.

An application of one dose of this remedy is guaranteed to cure the most aggravated case of anarchism.

John D. Rockefeller Jr. is now rocking in the blissful rocking chair of matrimonial happiness. He was married on the 9th inst. to Miss Abby Green Aldrich, daughter of United States Senator Aldrich. The wedding took place at Warwick, N. J. at Aldrich's summer home.

A SHEEPMAN'S OPINION.

Chaves county, New Mexico, people own $521 worth of property per capita—according to the property assessments—exclusive of railway and telegraph assessments. Chaves county has never had anything but dem-
cratic government—Mark its pro-
gress.

A beautiful and chaste woman is the perfect workmanship of God, the true glory of angels, the rare miracle of earth, the sole wonder of the world, said Sir J. Lubbock.
Attorneys, Land & Watson, went to Lincoln.

We have one of the best public schools in the territory. Chas. B. Smith, Allen Lane, Allen Curtis and Silas May are duck hunting at Red Lake.

Miss Rice and Miss Grace Austin were here to attend the ball Thursday night.

Scott, bookkeeper for El Capitan Land & Cattle Co., was in to attend the ball Thursday night. He returned home Friday morning.

J. C. Reily of Denver, is putting in an elaborate steam heating plant for the government at Ft. Stanton marine hospital. The government has recently awarded $20,000 for this purpose.

Juan L. Reyes the Evita's mechanical foreman who has been in the service of this paper for four years has surrendered his position to accept an employment at Albuquerque where he will teach music and Spanish. Mr. Reyes is a thoroughly competent musician and a reliable business man, and a number one printer of good habits. The Evita wishes him a successful career in his new field.

Mrs. S. Vandervort and Mrs. S. C. Ellis who have been visiting relatives here for the past four months, left Tuesday morning for their respective homes, Chicago and Washington. Miss Mahel Stewart accompanied her aunt, Mrs. Ellis, to Washington, where she expects to spend the next two years at school. Dr. Ellis will meet Mrs. Ellis and Miss Stewart in Buffalo, where they will spend a week visiting the Pan American.

A SUCCESSFUL BUSINESS MAN.

Hon. Scipio Salazar, member of the board of county commissioners of this county, was in Captain yesterday and while in town called at the Progress office. Mr. Salazar feels that he is one of the most fortunate men in Lincoln county as he is today completely out of debt, having this week paid the last cent he owed, which was in round numbers $7,121.00. Besides this he still has his ranches, sheep, etc. left. All of this he has accumulated since he came to Lincoln county.

This record shows Mr. Salazar to be a thoroughly business man, and is conclusive evidence that the people of Lincoln county made no mistake when they elected him county commissioner.

SPECIAL SALE: Friday, Saturday, Monday and following this publication, Ladies and Children's' jackets, Cape, Waists and Millinery, Underwear and Hosey. Watch Our Sale Days: S. M. Wiener & Son.

THE NORTH HOMESTAKE.

Last Saturday at Lincoln, the North Homestead mine, mill site and 60 acres of land, belonging to the Apex Gold Mining Co., was sold at sheriff's sale for taxes of $994.56, amounting to $185.00. Wm. Watson of this city, bought the property for the full amount of the judgment, interest and costs.

L. G. Brockway of Lynn, Mass., who came here last July, representing some of the stockholders of the Apex company, after staying here some time, went to Cal., where he remained until last week when he returned here meeting attorneys Watson & Land at Lincoln.

After the sale the taxes for the years 1907-9 and 1908 were paid, amounting to $85.00.

Mr. Brockway returned home Tuesday. He expressed himself as well pleased with White Oaks and that it is the intention of his company to work the North as soon as all claims against the property are settled. There are two judgments to a suit yet to be disposed of, but nevertheless he thinks it impossible to dispose of these and get to work in a little while. He will return here in a short time.

THE STARK FRUIT NURSERY.

John H. Skinner, owner of the Stark Fruit Nursery of Hondo, was in the city Saturday. Mr. Skinner has lived in Lincoln county for twenty years, and is one among other orchardists who have demonstrated that the mountain section of Lincoln county is the finest fruit country in the world. He has been engaged in the fruit business for twelve years, and has one of the best orchards in the county. His nursery stock is brought here from Louisiana Missouri, which section of that state has a climate almost exactly the same as this particular section of New Mexico. His trees have a great advantage over stock from other places which have to become acclimated before a thriving condition is reached.

Mr. Skinner can be reached by letter at Angus, N. M., and those interested in the fruit business will find him ready to supply their wants in the most everything in the nursery or orchard stock adapted to this climate.

F. S. Hostetler has about finished his residence. He will now devote his entire attention to mining. He is now putting up his home on Lead King getting ready to sink a shaft 300 feet, after which general development work will begin.

Howard Williams has moved into his new residence. He is now a permanent resident of the camp and will be prominently connected with the future development of the district.

L. J. McBroom is rapidly pushing his new home to completion. A genuine building boom seems to have struck here. Mr. Webster is also building a house.

Edward Suggs is yet busy with his assessments.

Ed Orthofer and Maryland Daniels, Orthofer & Daniels, contractors on the Old Hickory, property at Taliaferro & Spence, have struck rich copper ore at about 125 feet. They will continue 75 feet yet under the present contract. The Old Hickory is one of the oldest locations in the camp, and is considered a valuable property.

Harrison, Reynolds & Stevenson are rushing assessment work on a contract embracing a series of 75 claims.

H. Marshall will leave for Texas Monday.

L. Thomsol is expecting P-louino miners to examine properties belonging to himself.

C. M. Bryan and J. C. Kleipinger are doing assessment work for Spence & Davidson. There are about forty-five men at work here now, and prospects are good for four hundred more by the time snow flies in the mountains. Work can be prosecuted for the next three months which gives a great advantage over camps further north.

C. M. Bryan went to White Oils Saturday to look after business matters.

Garratt & Littlen are doing the annual assessments for the American consolidated copper Co. This company owns a group of 13 claims.

Your correspondent is authorized to offer a reward of $5.00 for the arrest and conviction of the party who appropriated L. J. McBroom's horse to his own private pot.

The saw mill under the management of Jack Quinliven, is turning out 600 rail road ties in two shifts of ten hours.

At Plymouth Church next Sunday, Nov. 30th, Dr. H. G. Miller will preach subject in the morning, "The Twentieth Century Christian" at night, "The Most Wonderful Musical instrument in the World and its Music." Everybody is invited.

JUAN BAUTISTA BARRERAS KILLED.

Information for Another Man's Wife Resulted in Death With a Bullet Hole Through His Heart.

Last Thursday night between half past eight and nine o'clock, Juan Baptista Barreras, an emigrant at the Old 642 gold mine, was shot and instantly killed by one Curley Carroll, a saloon man in business at Gallo Lake, on the line of the El Paso Rock Island railroad.

The killing occurred in a long cabin on an alley between White Oaks Avenue and Livingston street, and east of W. O. B. & L. Company's lumber yards. The Cabin was until recently occupied by Frances Marrujo whose household effects are still in the cabin. The evidence introduced before the Coroner's Jury showed that Mrs. Marrujo had left her key with Mrs. Marcus Bueno, and that Mrs. Bueno made a date for herself and Mrs. Placido Guevara with Carroll and his partner. Ed Hartley, Carroll and Hartley were in town together from the railroad. They entered this cabin about 8:30 o'clock, and a few minutes later according to the evidence of Mrs. Placido Guevara before the Coroner's Jury, Barreras came to the window of the cabin, struck a match and looked in, after which he went to the front door kicked it open and entered the room at the same time abusing and threatened Mrs. Bueno, with whom it seems he also had an engagement. Carroll asked Barreras to stop, saying in Spanish esparto, quickly following his salutation was the report of his revolver and Barreras fell on his face across the door with a bullet hole through his heart. Following this the four inmates of the cabin escaped by jumping over the body of Barreras and out at the door into the darkness. Carroll and Hartley went to the Little Casino saloon and called for money they had deposited there earlier in the evening. A five dollar gold piece was dropped by one of them as they were dividing the money, the coin rolled under the counter and the owner or owners left without search and were not seen any more until 8 o'clock next morning when Hartley showed up at the livery stable and asked for his and Carroll's horses which had been placed there Thursday evening.

Nothing was suspected of them until 7 o'clock and up to which time the body of Barreras had not been discovered.

The body was discovered by a miner who was passing off from his shift about 7 o'clock. He noticed a pool of blood near the door of the cabin, and pushing in to see from whence it came saw a dead body lying on the floor inside the room; he reported to Dr. Paden and a Coroner's Jury was immediately summoned and returned the following verdict:

VICTORY CORONER'S JURY.

We, the undersigned, Justice of the Peace and Jury, who sat upon the inquest held this 14th day of October, 1901, on the body of Juan Baptista Barreras, found in precipice No. 8, of the County of Lincoln, Find that the deceased came to his death by reason of a pistol shot "a 45 caliber," in the hands of one Curly Carroll, on the night of Oct. 8, 1901.

J. E. COLLIER, J. P.

HARRY CARBY

JONES JOFFER

JACOB ZEIGLER

R. D. ARMSTRONG

S. A. NIEM

JOHN F. GRIM.

Barreras's wife was absent visiting relatives at Tularosa, the home of the dead man before he came to White Oaks. A brother, the mother and other relatives came up the following day and attended the funeral which took place from the Koch undertaking parlor.

Carroll and Mrs. Marcus Bueno left the city Thursday night and neither of them have been heard of as we go to press. Officers are after them and it is thought they will be brought in for trial.

A CARD OF THANKS.

It will be practically impossible for me to see everyone and personally thank them for their kind and liberal support last Thursday evening, and I take this method of expressing my appreciation of their good will and which was the thankful recipient; and particularly do I thank Mesdames Sager and McCourt for their efforts in my behalf. Not only do I thank the generous hearted people of White Oaks for this particular manifestation of their regard, but I wish to express my lasting obligation to the music loving people of the town, who have ever shown a due appreciation of the assistance I have rendered in a musical way, and only for business reasons does it become necessary for me to sever my connection with them and leave a town and people, who, for seven years, have made life worth living.

Wishing all that is best for the people and the town, hoping that I may have an opportunity to visit occasionally, I again thank you.

Sincerely yours,

JUAN L. RIVERA.

On Tuesday night October 22, Dr. Miller will deliver another of his historical lectures. It will be on "Julius Caesar, and the Development of Imperialism." This lecture will be one of the best in the series.
ORE SHIPMENTS HAVE BEGUN.

The Eagle is much pleased to herald the good news the ore shipments have actually begun from this camp to El Paso smelters. The copper-gold mines of Yaeget, Spence, Goode & Co. and Van Schoyck have begun to produce.

This association of capital has a group of five claims three miles northwest of White Oakes, located on the northwest of Lone Mt. They have been pushing development work for the past six months. They have ore from the surface which runs well up in copper, gold and iron. On one location they are down 50 feet and have about fifteen carloads of ore on the dump, ready for immediate shipment.

The first carload of ore for shipment from the mines was loaded at the siding three miles distant last Saturday night and will go to the smelter at El Paso as a test run. The test run is being made for the benefit of J. A. Eddy, who is negotiating for a quarter interest in the group, however, terms that will enable the owners to ship at a profit, having already been arranged with the smelters, and shipments will continue as a regular business.

The lead is fifteen feet wide and well filigreed with copper and gold at that depth. These claims were located by Chris Yanger who had interested him in Alamogordo which still retains some kind of an interest with him. Later E. Heineman, the well known proctor, bought an interest, following which Spence & Van Schoyck and Goode & Co. bought in, some of them securing the interest of Mr. H. The value of the ores has increased to the point where it guarantees shipment and the mines may now be listed as producers.

The good work has only begun, the mountain is laden with resources of copper, gold and iron. The smelters need the iron for fluxing purposes and as a consequence freighters are a small item in the development. There are other local companies who may now begin developing for shipment. Among these are Lund, Watson and others, who have claims in the vicinity.

A force of men is at work on the properties of the company now shipping, and White Oakes has begun to furnish her first quota of tonnage for the El Paso Rock Island. This is only a starter, our coal, building stone and marble will soon follow up.

Geo. Coe brought supplies to the city Saturday.

THE EAGLE'S CLUSING RATES.

To subscribers paying one year in advance for the Eagle the following closing rates are offered:

- Kansas and Texas Weekly.
- El Paso and Southern.
- St. Louis, Chicago.
- International.
- Miners and Miners.
- Daily Mineral.
- Post Card Letter .50
- Post Card Letter 1.00
- Post Card Letter 2.00
- Post Card Letter 3.00

This offer applies to old subscribers renewing their subscription to the Eagle and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is a little in excess of the clubbing rate given above, and any one desiring to secure two papers (the Eagle and any one of the others named) for a little more than the price of one, should take advantage of this liberal offer.
Roosevelt appoints Democrat
G_SPLIT_ode Jones, Twice Governor of Alabama to be United States Judge for Northern Tennessee.

Washington, Oct. 7. - President Roosevelt today appointed Ex-Governor Goodloe Jones of Alabama, to be the United States district judge of the middle and northern districts of Alabama, to fill the vacancy caused by the death of Judge John Bruce. Ex-Governor Jones has always been a democrat, and was twice chief executive of his state. He was General Gordon's adjutant general during the civil war. In 1868, as a gold democrat, he supported Palmer and Disbrow. It is understood that Breck T. Washington, the well-known negro educator, was one of Ex-Governor Jones' supporters. He has formerly aided Washington in his efforts to elevate the negro, but he opposed the negro suffrage amendment incorporated in the Alabama legislature. Representative Thompson, an Alabama democrat who learned of Ex-Governor Jones' appointment from the president, expressed satisfaction over the president's action.

"Governor Jones," he said, "is not only one of the ablest lawyers in Alabama, but one of the most highly esteemed citizens of the state. This act of President Roosevelt will place him in the same high esteem in the south in which the late President McKinley was held.

Wheeler's Bravery

Wheeler's charges at the battle of Shiloh was said by General Grant to be one of the most splendid exhibitions of human bravery he had ever witnessed. It was a feat which aroused admiration among both armies when the intrepid little general accomplished the destruction of Rosenean's division after the battle of Chickamauga.

On Dec. 30, 1863, General Wheeler attempted and successfully carried out one of the most daring, perilous and important duties ever assigned a cavalry commander. He reconnoitered the Tennessee river in the face of a division of cavalry under General George Crook, drove back and crossed over the Federal trains of 400 miles and 50 wagons, and captured the whole, 1,400 prisoners.

While he was thus engaged Rosenean's cavalry, 8,000 strong, swept over the Georgians. The latter charged and repulsed the northerners, capturing the forts and destroying the bridges near Murfreesboro and then, as full of fight as at the beginning of the engagement, they turned and put to rout General Hooker and the whole of the Federal corps that came riding down at the moment to reinforce the Yankees. - Chicago Journal.

"He is only a printer." Such was the sneering remark of a leader in a circle of aristocarcy to the oddish quality. Who was the Earl of St. Albans? He was only a printer. What was Prince Edward William and Prince Napoleon? Drum to call these title-scribes printers. The present Czar of Russia and the Duke of Battenburg are printers, and the Emperor of China worked in a private printing office almost every day.

William Caxton, the father of English literature, was a practical printer. What were G. P. Morris, N. P. Willis, James Gale, James Parker, Horace Greeley, Charles Dickens, James Buchanan, Samuel Cameron, Schuyler Colfax and George W. Childs? Printers, all, and practical ones. Also Harriet Taylor, the poet. Mark Twain, James Crowings, Bret Harte and Delhi Reid, Samuel Stanley, the African explorer and writer, are plain printers, as were Artemus Ward, Bill Nye, Petroleum V. Nasby and Sue Lovingwood. Senator Plum was a printer, and so is James S. Hogg of Texas, and the leader of the science of philosophy in his days made it his boast that he was a printer.

In fact, thousands of the most brilliant minds in the country are to be found toiling in the publishing houses of large cities and towns. It is not everyone that can be a printer - brains are absolutely necessary.

Cable Powers on Trial.

The second trial A Ex-secretary Cable Powers, as accessory to the murder of Governor Godbold, began at the court of Judge Craddock. During the affidavit, filied by the prisoner's attorneys setting forth "the alleged partisanship of the court, that the judge is a candidate for Senator and deeply prejudiced against the defendant personage, as well as politically," etc., Commonwealth's attorney Franklin argued that the affidavit was a mere recreation of the prisoners convictions and opinion over his alleged inability to get a fair trial. Colonel Campbell delivered his speech against those who thus reflected on the court. Judge Craddock refused to vacate the bench, saying the affidavit should have been filed before the judge had taken any action in the case. He refused to discuss the sections of the affidavit which related to himself. He decided that the jury in the former trial had been unfairly chosen.

The defense and the Commonwealth then proceeded with the
