Domestic Public Debt Reduced By 5% In January

by Steven Ranieri

Category/Department: General

Published: Wednesday, February 20, 1991

According to preliminary figures by Banco de Mexico, the federal government's domestic debt at the end of January totaled \$55.6 billion, down \$2.9 billion or 5.01% compared to year-end 1990. The reduction was attributed to a real decline in domestic interest rates. (Source: El Nacional, 02/12/91)
