HO! FOR ALBUQUERQUE!

El Paso Base Ball Team Preparing to Come.

PRESIDENT HART'S SENSIBLE TALK.

The stockholders of the El Paso Athletic Base Ball Association were called to hold their annual meeting last night to elect directors and hear the reports of officers. But there was not a quorum present. Under the charter granted by the state a majority of the stock is necessary for a quorum to elect directors, and as several of the largest stockholders are out of the city, the meeting was postponed until Monday night next. But a number of stockholders were at the county court house yesterday ready for business and they discussed the question of sending the El Paso team to the Albuquerque fair next week.

President Hart of the association, viewing it from a business standpoint, thought by all means El Paso should send its ball team to Albuquerque. He said Albuquerque offered a purse of \$250 to \$500 to the winners, that this purse would carry six or eight cents there to play ten or fifteen games; that Albuquerque would be at no expense for these games except the purse, as each club would pay its own expenses and as a consequence the fair association would clear a neat sum on baseball.

President Hart wanted the Carnival management to add the El Paso team to a feature of El Paso's Carnival this winter. "But if we want the Albuquerque and other ball teams to come here," said President Hart, "we must not put our cards in one basket. If we get eight teams here for the Carnival money can be made out of the gate receipts."

Mr. Hart suggested that a committee be appointed to start out tomorrow and make a tour of the fair grounds at Albuquerque next Tuesday. Mr. John Julian was appointed chairman of the committee and authorized to select two men to converse with him. Mr. Hart also said the "Times" would start the subscription with \$10.

Secretary Park Pittman thought the team should by all means be sent to Albuquerque and he put his name down for it. Mr. Pittman thought it was absolutely necessary for El Paso to send a delegation to the Albuquerque fair if the people of that town are expected to come to El Paso's carnival.

Mr. Johnson was heartily in favor of the proposition and consented to take charge of the subscription list.

If El Paso sends up \$100 in purses for a ball tournament during the carnival it will bring eight or ten clubs here at their own expense, and the management will get several thousand dollars from the gate receipts.

The El Paso ball players are anxious to go to the Albuquerque fair and feel confident they can capture the prize. If they go they will leave here next Monday night.

Stockholders of the Athletic Base Ball Association who want to be represented by proxy at the annual meeting Monday night will have to have their proxies legally made out and a ten cent revenue stamp affixed thereto—El Paso Times.

News—Since the Times article, John Jacoby, manager of the El Paso base ball team, has entered the team in the fair base ball tournament and the El Paso boys are expected to arrive here next Tuesday morning, September 19th.—[Ed.]

THEY ARE COMING.

"Col. John Jacoby, Manager Base Ball Club, El Paso."

"Congratulations you on your game with Tucson. There will be no protest on McCreary and Young. Send your list for the tournament."

"W. T. McCREARY."

"President Fair Association."

The above is a copy of a letter received this morning by Manager Jacoby from President McCreary of the Albuquerque fair, with the assurance that there will be no protest on McCreary and Young. Send your list for the tournament that they have already made this year.

The boys have played all season for nothing, and several of the business men who are interested in them and also in the welfare of the city, have started subscription to send the boys to Albuquerque for the tournament. If they win the game and get the purse it will be divided among the boys for they deserve every cent for their magnificent work all season.—Herald.

SCHOOL BOARD MEETING.

Considerable Business Transacted Last Night at a Special Meeting.

A special meeting of the Albuquerque school board was held last evening in the Central school building with all of the members present.

President Hopkins reported that the school buildings were in poor condition, and that the roof of the Central school leaked. The building committee were instructed to see that the necessary repairs be made.

A. J. Lamb, chairman of the supply committee, reported the ordering of two teacher's desks at a cost of \$12.50 each, through O. W. Strong.

Indignation was expressed by the board upon finding that the new desks in the Central school were not as good as the sample and, upon motion, the clerk was instructed to notify the Grand Rapids desk company, through the local agent, that the desks were in the school building, subject to the order of the company.

Superintendent Hickey reported that some of the rooms were over crowded, but otherwise everything was running smoothly. After fair work arrangements will be made to prepare temporary quarters for the overflow of scholars, probably resulting in the election of a new teacher.

Due to the heavy expenses of the board recently, they did not feel justified in equipping a boat to represent the schools in the carnival parade.

When the bids from the three coal dealers in the city were opened, an animated discussion took place regarding the relative merits of the Gallup and Gallup coal.

The bids were as follows: W. H. Hahn, Cerrillos coal, \$4.75 per ton; F. D. Marshall, \$4.25 and J. S. Beavins, \$4.25 per ton, the latter two furnishing Gallup coal.

Mr. Lamb, seconded by Mr. Isenhour, moved that the contract be let to J. S. Beavins, his bid being the lowest. The majority of the members concurred in letting the contract to Beavins, and the bid of W. H. Hahn gave better value. Mr. Hahn was awarded the contract by a vote of 5 to 2. He was also given the contract to furnish the Central school with hard coal at \$4.75 per ton.

The treasurer's report showed a balance on hand of \$1,975.

DISCONTINUE ENGINE POOLING.

Engine Failures Prove the System Unsatisfactory.

Santa Fe officials are considering the advisability of abolishing the system of engine pooling on the New Mexico and El Grande divisions of the road, and engine pooling was discontinued some time ago and it is probable that the old plan of giving engineers regular engine runs through lack of the little at the Santa Fe proper.

Under the present pooling system an engine runs between certain points continuously and does not belong to one engine crew any more than to another. It is withdrawn from service only when damage makes it absolutely necessary. Under the old system every regular engine crew had charge of a particular engine, and the men watched and cared for the big machines as if they were animal companions. Much of the leisure enjoyed by the engineers and firemen was spent in making slight repairs and cleaning the intricate parts of the locomotive.

Both passenger and freight traffic is now very heavy on the Santa Fe, and the reports show many engine failures. This means that the big iron horses are being out through lack of the little at the hands of the engineers and firemen. A prominent Santa Fe engineer in discussing the matter said:

"When we had regular engines we looked after them like little boys we never think of doing now. When little repairs were necessary we would make them during the time the engines were in the round house. Many an engine failure was saved by this attention, and many of the failures that now occur could be saved by such attention. Now the men feel that they may never see the same engine again, and are not interested in caring for them."

GROWTH IN MISSION SCHOOLS.

Rev. R. M. Craig, Was in Santa Fe to Meet New Teachers.

Miss Prudence Clark, of Minneapolis, and her sister, Miss Jennie Clark, reached the city on Saturday evening, and were met by Rev. R. M. Craig, of the Presbyterian mission school in New Mexico. Today the party expects to go to Chama where the Misses Clark will open a school.

Superintendent Craig reports that the Presbyterian mission schools in the territory have never been in such prosperous and promising condition. New schools are being opened and new teachers appointed for a number of places in all fifty-five teachers in these schools are now at work in New Mexico.

After seeing the Chama school started, Mr. Craig will go north to Arapahoe and then to the interest of the work—New Mexico.

TEMPLE ALBERT DEDICATION.

Will Take Place This Evening at the Pretty Synagogue on West Gold Avenue.

The dedication of the Jewish synagogue and the installation of Rabbi Jacoby will take place at Temple Albert on West Gold Avenue this evening, and one of the very finest sacred programs has been arranged for the occasion.

Rabbi W. E. Friedman, of Denver, and Rabbi B. A. Bonheim, of Las Vegas, are in the city to assist, and also in the welfare of the city, have started subscription to send the boys to Albuquerque for the tournament. If they win the game and get the purse it will be divided among the boys for they deserve every cent for their magnificent work all season.—Herald.

1—Organ prelude with violin accompaniment.

2—Trio, "Ye Portals"—Quintet Choir.

3—Bringing in the Scrolls of the Law.—Shema Yisrael, ("Hear, O Israel.")—4—"Lift Up Your Heads." Choir.

5—Opening prayer, Rabbi B. A. Bonheim, Las Vegas.

6—Reading of the Kaddish.

7—Handing of the Key, Lillian Spite.

8—Response by the President, Mr. N. Jaff.

9—"How Lovely are Thy Tabernacles." Choir.

10—Reading, Gen. 1:1 to 3: Rev. Bruce Kinney.

11—"Let There Be Light." Choir.

12—Lighting of the Perpetual Lamp. Mr. J. Goldstein.

13—Reading, "Solomon's Prayer." Rev. T. C. Beattie.

14—Dedication anthem. Choir.

15—Dedication sermon. Rabbi W. E. Friedman, Denver.

16—"Judith"—Cascara. Mrs. Knightbridge.

17—Musical address. Rabbi P. Jacoby.

18—Prayer. Mount—Choir.

19—Benediction.

The general public is invited to attend and orders will be present. It is requested that all who intend to attend the service come at 7 p. m.

The railroad novelty is coming, and the track will be laid along Gold Avenue on the north side, from the corner of Fourth street to the grand stand.

The territorial university opens the fall term under favorable conditions. There are now thirteen cable lines across the Atlantic ocean in successful operation.

The city is getting everything in good shape for entertaining visitors during the Territorial fair.

The bathhouse Wisconsin goes out for trial, Sept. 15. It is larger than the Oregon by 2,000 foot displacement.

It is safe to assert that politics is at the bottom of that threatened strike of the coal miners of Pennsylvania.

The increase in savings banks deposits during the first three years of McKinley's administration amounts to \$100,000,781.

A Spanish-American McKinley club has been organized at Phoenix, Arizona. The club already has a large membership.

The local Press association will hold a meeting this evening at 7:30 at the office of the Mining Record in the Commercial club building.

The Kansas City Journal says the only thing that will prevent Missouri from becoming republican this year is the news on her back.

Colorado has established a quarantine against Chinese and Japanese wherever they come from. This action is taken to protect the state against the bubonic plague.

The number of immigrants who landed in New York during the fiscal year of 1917-18, was 178,745. In 1916-17 the total number was 245,536 and during the year ended June 30 last it was 241,771.

The dwelling cost seems to be more popular in Italy than in France or any other European country. Last year 240,000 acres are reported to have been cleared in the kingdom, 400 of which ended fatally.

The Santa Fe company would save money by building that "cut-off" east of this city which would shorten the line to Kansas City about 10 miles and avoid the washouts and heavy grades of the Haton and Oglethwa mountains.

Everybody insists that artesian water can be procured in this valley, but no effort is made to dig a well. C. E. Jones, on the mesa, has a well down 300 feet, and offers to donate it to any one who will sink it further and procure artesian water.

The census bureau has tabulated the returns from fifty-four cities. These show a population of 14,644,711. This is an average increase in population per city of 2.36 per cent. The same cities in 1910 had a population of 11,550,645, making a total gain of 3,094,066.

The county republican central committee held a meeting yesterday afternoon at the office of Calvin Whiting in the Commercial club building. Numerous reports were made from all parts of the county and no dissatisfied republicans were reported. If there are any such in the county an effort will be made to discover them. The committee will try to remove the cause. The committee will hold another meeting on the 15th of September, at 4 o'clock p. m., at which meeting the date of primaries and convention will be named to select delegates to attend the territorial convention at Santa Fe, Oct. 2.

ADLARS VIEWS ON MONEY. Has anyone seen any expression of opinion from Adlar's campaign of money? In 1919 when nominated as Governor Cleveland's running mate, Mr. Stevenson said:

loyal "Knights of the Golden Circle" and a warm friend and active ally of Valandigham; the rebel traitor who was kicked out of Ohio during the war. He said it was natural for Judge Long to be so anti-republican and anti-republican of Agassiz, because he was an enemy of the flag and a friend and ally of its enemies during the most critical period in the life of the nation.

Stephen A. Douglas was a democrat and he said: "You cannot limit this great republic by boundary lines. Just as fast as our interests and our destiny require additional territory, you north, in the south, or in the islands of the sea, I am for it."

Congressman White, the colored member from North Carolina, says he will probably be the last of his race in congress if the democratic plan of disfranchising the negro in the southern states prevails.

Alfred Well Dies Suddenly. When a popular item about Alfred Well doing well in Denver appeared in the Optic the other day the reporter little thought he would so soon be called upon to chronicle his death.

Nothing was known of the illness of Mr. Well till last Tuesday, when his sister, Mrs. Julia Graef, received both a letter and a telegram, announcing his critical illness in a sanitarium in Denver. The following day she took the train for that city, but she was delayed en route, and arrived at the bedside of her brother about fifteen minutes after his death. Mrs. Graef will arrive in the city with the body on No. 17 at 2:25 tomorrow afternoon, and definite arrangements will be made for the funeral. Alfred Well was born in Hannover, Germany, coming to this country when about 15 years of age and to New Mexico in 1882. He was engaged in business at first in El Paso and Trinidad, Colo., Albuquerque, Las Lunas and Las Vegas, N. M., his latest residence being in Santa Fe, where he was, under the firm name of Hartman & Well, deceased, a successful business man, a courteous friend and neighbor, an industrious, frugal and upright citizen and he will be sadly missed alike by friends and relatives—Optic.

The Optic says: Governor Thomas of Colorado, has promised to speak at Alamosa, Colo., during his tour of the state. Why does not the Bryan and Stevenson club of this city, arrange for a date with him on the same trip?

MINERAL MEN IN EL PASO. Prof. Carreras of New Mexico Just Back From Paris.

Professor Carreras, mineralogist of New Mexico, was in El Paso yesterday from Las Cruces. Prof. Carreras lately returned from Paris where he was in the territory's exhibit at the exposition. L. B. Hosker, of the Western Chemical Works, Denver, is also here, registered at the Grand Central. He is on a tour of inspection of the mines, but stopped to confer with Prof. Carreras regarding a shipment of alum made from wagon mound. N. M., to his company's works in Colorado. The deposits run 40 per cent alumina, and are in large quantities by the Western Chemical company, if favorable freight rates can be secured.—Times.

TEMPERANCE MEETING. Eloquent Address Given by Mrs. St. John to the Baptist Church.

A large gathering gathered in the Baptist church last evening to listen to an address on the wonderful outlook of temperance cause by Mrs. St. John, W. C. T. U. Mrs. St. John held the position of being one of the foremost speakers on the platform to-day on all social and economic questions, and her address last evening was a splendid proof of her ability.

In proving that the temperance cause had made great headway during the past twenty years she gave as a strong argument the number of murders, robberies and mercenary crimes of railroads and many other large concerns would not employ men who used intoxicating liquors, and the fact that the life insurance companies are becoming more and more conservative in the selection of men admitted to the drink habit.

Mrs. St. John will give a lecture to women and girls at the Congregational church in this city, tomorrow evening, at 8 o'clock. Her lecture will be a very interesting and instructive address and the women and girls of our city are urged to be present.

Dr. C. H. St. John, late professor of one of the leading medical colleges of Kansas City, will speak at the Baptist church this evening, at 8 o'clock. He is a man of large experience and holds an international reputation as a platform speaker on the subject of temperance.

Every man in the city should hear him, but, lectures are free.

Return With His Bride. A. E. Brown, the popular head agent of the Western Fair Exposition, returned last night from the east, and with him came his bride, who was Miss Mable H. Loring. The wedding was celebrated at Oklahoma, Iowa, the former home of Mrs. Brown.

After which a short trip was taken to Chicago and from there to Albuquerque. A most cordial welcome was extended to Mr. and Mrs. Brown, who will be in the city for a few days. They will be in a new brick cottage on West Railroad avenue.

Christian Endeavor News. The annual convention of the New Mexico Christian Endeavor Union will be held in Santa Fe the last week in December and the following committee on program has been announced: Mrs. J. E. Wood, president; W. H. Hynes, Moore, Mrs. R. J. Crispin, Miss Ellen Moore, J. B. Weatherhead, with C. W. Ward and Miss Mable Tway of this city, president and secretary of the union, as ex-officio members.

TROOPS AT PERIN. Harmony Prevails in Banks of the Allied Army.

(Copyrighted Associated Press.) Shanghai, Sept. 14.—After three weeks in Pekin, reports that the greatest harmony prevails among the officers of the allies, the soldiers living as though they were of one army.

The march through the palace was a historic event. Every army was represented. The Russians led. A party of civilians, including the legation ladies and prominent missionaries were admitted. After inspection, the police gave the order to load, and no one was permitted to enter the grounds.

Troops arriving here are from: Pekin as fast as they land. The ministers remain in Pekin. The city has been entirely quiet except the police. Auction sales of last are held daily. The chief officers are army officers.

The United States battleship Oregon arrived at Hong Kong to-day.

Footbills at Denver. Denver, Sept. 14.—Three state conventions, the democratic silver republicans and populists, are still waiting for the grand rally. A conference of the three parties is being arranged for the 20th of this month.

One of the prominent attractions that will exhibit here during the fair is that of "Lament, the Maid of the Air." The performance is that of a beautiful girl while under hypnotic influence flying

about in midair and defying the laws of gravity. This attraction has created a sensation wherever it has been exhibited. It is a very bewildering, mystifying in the extreme, and furnishes entertainment that is well worth witnessing.

Bed Time Cordova Candles

or hurt fails to heal readily, you may be sure your blood is bad. S. S. S. will soon put it in order and keep it so.

[illegible]

Born to Mr. and Mrs. Henry Elks yesterday, a fine baby boy. Mother and son are doing well.

The wife of Police Officer Abe Harris is reported dangerously ill at her home on North Eighth street.

Among the many attractive features of the Hotel Highland, a trio of colored singers with sweet musical voices, has been added, and their productions are much admired by the guests.

Mrs. Tiedale and her brother, Thos. Harriott, who have returned to this city after spending the summer at Las Vegas hot springs, are preparing to spend the winter here. They may possibly purchase a residence.

Mr. and Mrs. Fred Lewis are preparing to take possession of their handsome new home on West Railroad avenue. This attractive and modern brick cottage has occasioned much favorable comment, because of the pleasing exterior and convenient inside arrangement.

On account of the arrival of a son and heir at his home yesterday, Charles K. Newhall is carrying a most enchanting smile and remembering his friends with that excellent kind of regard that he smokes. The car and responsibility of being a papa seems to affect him very little.

Thos. McNeill, foreman of the San Bernardino, Cal., stage and who is going east to the National Blacksmith convention, which will be held in Michigan next week, is delayed in the city by the washout. He is having a good time however, and is renewing his acquaintance with old friends here among the shopmen.

James Sheehy, of Washington, D. C., who with his daughter, Miss Edna, has been spending the summer here for his health, has been much benefited, and is contemplating making this place his permanent residence. Mr. Sheehy is prominent patent attorney of the national capital, and with his accomplished wife and two daughters, would be a pleasing addition to the society of this city.

There was a meeting of the mother's department of the W. C. T. U. yesterday afternoon at the residence of Mrs. Groul, No. 611 South Broadway. There was a good attendance and much interest was taken in the discussion regarding the violations of the law relative to the sale of intoxicants to children. A paper read by Mrs. C. E. Vaughan on "Non-Alcoholic Medication" caused much favorable comment.

There was a small fire in the coal bins at the railway shops last night between 4 and 5 o'clock. It is supposed that it was caused by spontaneous combustion. The city fire department was called to assist the volunteer company at the shops and after a short hard fight the fire was subdued. The loss on the bins and several freight cars that were scorched, will amount to about \$1,000, fully covered by insurance.

Among the delayed railway passengers in the city is J. H. Shurt, a large hardware dealer of Los Angeles. He is here on an old friend in D. A. McPherson and W. P. Foxworth, and these gentlemen are seeking their way to the city. He is particularly pleased with the Commercial club, both as to its facilities and the elegant building, and is not appearing in his compliments. Mr. Shurt is a brother of the late Charles P. Shurt, who at the time of his death was a popular official of the Southern Pacific railroad.

Presbyterian church—Preaching by the pastor at 11 a. m. and 5 p. m. Rev. T. C. Beattie, pastor.

The Methodist ladies' fair, No. 115 North Tenth, of the Mission, was held yesterday morning. It was well attended and will collect and receipt for all funds subscribed for the entertainment of the territorial editorial association.

The Optic says: Mrs. Hugh Allison, whose maiden name was Johnson and whose father, a well-known physician, has been for some time in the city, is up from Albuquerque on a visit, accompanied by her daughter.

Col. J. Francisco Chavez, the Valencia county political war horse, who as a member of the legislature, has been in the south this morning, left yesterday morning on a "transit" railway passenger train for Santa Fe.

Among the passengers detained by the washout was Dr. Ross, a prominent physician of Denver, who with his family was returning from a trip to the Pacific coast resorts. The doctor improved the opportunity and made numerous acquaintances while here.

N. E. Stevens, the Grand Lodge representative of the "Queen of the Carnival" voting contest at Albuquerque, winning over a dozen other contestants, is a native of Santa Fe and is a very much beloved and admired there. He formerly resided in Las Vegas and is a talented musician, and a beautiful young woman of grace and tact who will admirably fill the role she is chosen to adorn at the fair—Optic.

A special dispatch to the Rocky Mountain News, Sept. 3, says: "Tom Ketchum, better known as 'Black Jack,' the noted outlaw, was convicted today of train robbery. The penalty under the New Mexico laws is death."

Admiral in Las Vegas. Miss Anita Pallidino, who came off victorious in the "Queen of the Carnival" voting contest at Albuquerque, winning over a dozen other contestants, is a native of Santa Fe and is a very much beloved and admired there. He formerly resided in Las Vegas and is a talented musician, and a beautiful young woman of grace and tact who will admirably fill the role she is chosen to adorn at the fair—Optic.

Will General Manager Mudge Leave the Santa Fe Railway. The rumor that General Manager Mudge of the Santa Fe will be called to take service with the Kansas City, Fort Scott & Memphis road has been revived. This time his name has been revived as successor to the late E. S. Washburn. Originally it was reported that he would be offered the vice presidency of the road. This was when Mr. Mudge was seriously ill. Later on the vice presidency of the road was given to President in general charge of the lines, but it was said then that the arrangement was but temporary.

At the time of the first rumor Mr. Mudge stated that he had heard nothing. He still says that he has had no offer from the Memphis people, as reported from the management of that road.

It is not at all likely that Mr. Mudge would accept the general management of the Santa Fe to accept the presidency of the Memphis. The Memphis road is so small in proportion to the Santa Fe that his present position is practically, if not wholly, equal to that of chief executive of the former.

And then there is another consideration. Mr. Mudge is thoroughly in touch with the present management of the Santa Fe and there would be no opportunity for his advancement on the Santa Fe tomorrow the men at the head of the system would undoubtedly take advantage of it in his favor. Therefore it is only reasonable to believe that the offer of the Memphis presidency would have little attraction for him.

Killed Three Bears. At a late hour last Friday night Rev. G. S. Madden and J. G. Crocker arrived home from a three-day hunting trip out in the mountains, and as evidence of their marksmanship brought along three fine specimens of bear—all of the Silver Tip variety. Two of the animals were cubs while the third was an old one and very large. The hunters are very jubilant over their victory and during the week both were busy relating their experiences to their many friends.

From all accounts received here lately bears are very numerous in the surrounding mountains. In the last month several of them have been killed near the twenty-five miles of Bland, five of that number having been brought to town.

A party of hunters including Henry Brown, George Stearns and Chas. Smith, who arrived last Monday morning, with a number of dogs and a big supply of ammunition. They expect to be gone a month—Bland Herald.

Of Local Interest. Mrs. Nell B. Field and Miss Margaret Rose, of Albuquerque, are guests of Mrs. A. M. Burgess.

A. Grunfeld, of Albuquerque, was an arrival in the city last night. Mr. Grunfeld was returning from the north over the D. & R. G. and being unable to get through on the train on account of the washout, drove in overland from Regencia.

At their only appointed dinner, was given by Mrs. A. M. Burgess at 8 o'clock last evening, in honor of Mrs. Nell B. Field, of Albuquerque. The decorations were of flowers and the dining table was a dream of beauty. The guest of honor there was present Governor and Mrs. M. A. Otero, Major J. P. Allen and wife, and Solicitor General E. L. Bartlett.

Black Jack all day last undisturbed. He tipped forward and back in his chair in front of Judge Mills, talking earnestly with Attorney Bush, who is advising him in his legal fight against great odds. The prisoner came into court this morning at 9 o'clock. The first witness called was Conductor Harrison, who was in charge of the train held up by Ketchum on the night of August 16, 1899. Harrison described vividly the hold-up. He testified as to the manner in which he crawled through the mail car, opened the door of that coach and watching his opportunity, as Ketchum, the engineer, with his firemen and Drew, the messenger, approached the mail car and endeavored to get into the train when he returned the fire, wounding him in the arm.

Ketchum was next called. He testified that when three miles from Folsom on the night of August 16, 1899, some one suddenly entered the mail car while he was looking out into the darkness ahead and ordered him to stop. He commenced to stop the train and reached back to the baggage car and endeavored at the point of the gun to uncouple the car. The report of Harrington's gun followed and then Ketchum disappeared into the night.

Other witnesses were called, among them the up-going freight train who saw Black Jack next morning, when weak from loss of blood he hailed them to stop. In their conversation with him he acknowledged his guilt. The testimony closed at 11 o'clock. It only awaits the final report of Mr. Bartlett, then the jury will have it to consider and there is no doubt that it must find the prisoner guilty.

The trial will close at 11 o'clock to-night, which is closely guarded.

In addition to the regular program of the Pueblo, which consists of parades, religious ceremonies, races, dances and games, the people of the city of Santa Fe have provided an interesting list of sports and amusements that will cover the two following days.

Purses are offered for horse races and foot races. A boxing encounter of five hard rounds will be another interesting feature.

The Elizabethan cornet band has been employed to furnish music for three days, and will give dances in the evening.

Other dances will be given for three or four nights in succession.

In addition to this general match horse races will be pulled off, one it is understood between Roger Q. and Posey for \$1,000.

THE DREAM OF MOTHERHOOD COMES TRUE WHEN DR. PIERCE'S FAVORITE PRESCRIPTION IS USED.

Mrs. Axel Kjer, of Gondoville, Cape Girardeau, Mo., writes: "When I look at my little boy I feel it my duty to write you. Perhaps some day you will see my little boy. He is now five months old, has never been sick a day, and is so strong that every body who sees him wonders at him. He is so playful and holds himself up so well."

FOUND GUILTY.

Tom Kentucky, Known as "Black Jack," Guilty of Train Robbery.

THE HOLD-UP DESCRIBED.

A special dispatch to the Denver Republican of Sept. 7, from Clayton, N. M., says: The celebrated Black Jack Ketchum, who has been charged with the hold-up of a train on the night of August 16, 1899, was found guilty of the crime. The jury returned its verdict at 11 o'clock to-night, which is closely guarded.

In addition to the regular program of the Pueblo, which consists of parades, religious ceremonies, races, dances and games, the people of the city of Santa Fe have provided an interesting list of sports and amusements that will cover the two following days.

Purses are offered for horse races and foot races. A boxing encounter of five hard rounds will be another interesting feature.

Mrs. Axel Kjer, of Gondoville, Cape Girardeau, Mo., writes: "When I look at my little boy I feel it my duty to write you. Perhaps some day you will see my little boy. He is now five months old, has never been sick a day, and is so strong that every body who sees him wonders at him. He is so playful and holds himself up so well."

At a late hour last Friday night Rev. G. S. Madden and J. G. Crocker arrived home from a three-day hunting trip out in the mountains, and as evidence of their marksmanship brought along three fine specimens of bear—all of the Silver Tip variety. Two of the animals were cubs while the third was an old one and very large. The hunters are very jubilant over their victory and during the week both were busy relating their experiences to their many friends.

From all accounts received here lately bears are very numerous in the surrounding mountains. In the last month several of them have been killed near the twenty-five miles of Bland, five of that number having been brought to town.

A party of hunters including Henry Brown, George Stearns and Chas. Smith, who arrived last Monday morning, with a number of dogs and a big supply of ammunition. They expect to be gone a month—Bland Herald.

Of Local Interest. Mrs. Nell B. Field and Miss Margaret Rose, of Albuquerque, are guests of Mrs. A. M. Burgess.

A. Grunfeld, of Albuquerque, was an arrival in the city last night. Mr. Grunfeld was returning from the north over the D. & R. G. and being unable to get through on the train on account of the washout, drove in overland from Regencia.

At their only appointed dinner, was given by Mrs. A. M. Burgess at 8 o'clock last evening, in honor of Mrs. Nell B. Field, of Albuquerque. The decorations were of flowers and the dining table was a dream of beauty. The guest of honor there was present Governor and Mrs. M. A. Otero, Major J. P. Allen and wife, and Solicitor General E. L. Bartlett.

Black Jack all day last undisturbed. He tipped forward and back in his chair in front of Judge Mills, talking earnestly with Attorney Bush, who is advising him in his legal fight against great odds. The prisoner came into court this morning at 9 o'clock. The first witness called was Conductor Harrison, who was in charge of the train held up by Ketchum on the night of August 16, 1899. Harrison described vividly the hold-up. He testified as to the manner in which he crawled through the mail car, opened the door of that coach and watching his opportunity, as Ketchum, the engineer, with his firemen and Drew, the messenger, approached the mail car and endeavored to get into the train when he returned the fire, wounding him in the arm.

Ketchum was next called. He testified that when three miles from Folsom on the night of August 16, 1899, some one suddenly entered the mail car while he was looking out into the darkness ahead and ordered him to stop. He commenced to stop the train and reached back to the baggage car and endeavored at the point of the gun to uncouple the car. The report of Harrington's gun followed and then Ketchum disappeared into the night.

Other witnesses were called, among them the up-going freight train who saw Black Jack next morning, when weak from loss of blood he hailed them to stop. In their conversation with him he acknowledged his guilt. The testimony closed at 11 o'clock. It only awaits the final report of Mr. Bartlett, then the jury will have it to consider and there is no doubt that it must find the prisoner guilty.

The trial will close at 11 o'clock to-night, which is closely guarded.

In addition to the regular program of the Pueblo, which consists of parades, religious ceremonies, races, dances and games, the people of the city of Santa Fe have provided an interesting list of sports and amusements that will cover the two following days.

Purses are offered for horse races and foot races. A boxing encounter of five hard rounds will be another interesting feature.

The Elizabethan cornet band has been employed to furnish music for three days, and will give dances in the evening.

Other dances will be given for three or four nights in succession.

In addition to this general match horse races will be pulled off, one it is understood between Roger Q. and Posey for \$1,000.

THE DREAM OF MOTHERHOOD COMES TRUE WHEN DR. PIERCE'S FAVORITE PRESCRIPTION IS USED.

Dr. E. Pinkham's Vegetable Compound

and Lydia E. Pinkham's Vegetable Compound have restored health and happiness to scores of women. This is not more advertising claim but a positive fact.

The reason Mrs. Pinkham is so qualified to advise women is because for 20 years she has been treating and studying woman's ills. Her address is Lynn, Mass.

If you are ill, write her for help, as thousands of women are doing.

Lydia E. Pinkham's Vegetable Compound

relieves painful periods and regulates menstruation. It cures backache, kidney troubles and uterine disorders.

Read the letters from women appearing regularly in this paper.

and will be further improved by rain if a change is given for faster harvesting. Apples, late peaches, plums, etc., which were dropping in great amount at the time, have been saved by the rain, and are due to the fine weather and placed under very favorable conditions. The late varieties of grapes in the Florida vineyards will be greatly improved by the rain, and will be ready to fill it out. There is plenty of water for irrigation purposes in all sections excepting where the floods have damaged the dams and ditches.

The following remarks of correspondents will give the conditions more detail:

Bernadillo—Bendrey (Pater): The cloudy and showery week of this week. Grapes especially will be greatly improved by the rain, but some cuttings was badly damaged. Highest temperature, 83; lowest, 20; rain, 0.1.

Bluewater—J. S. Van Duvent: A rain of the last week have been beneficial to the crops. The late varieties of grapes, but came too late for field crops, all of which are ready for harvest. Highest temperature, 83; lowest, 20; rain, 2.9.

Chilpancingo—L. O. Padilla: Good rains in this vicinity. All water has filled and ranges now assured for winter. Peaches about all gone, grapes still in the market. Winter crops now being planted. All agricultural and stock interests in good condition.

East Las Vegas—J. Thornhill: Of rains during the past week will be highly beneficial to corn, millet, sorghum, and other crops. All water and oats, which will be much under average crop. The rains were late make good corn, but will make better fodder. Pastures, which were very dry, will now be much improved. The benefit. As the dunes were washed out there is no irrigation system harvest was somewhat delayed. The third cutting of alfalfa in a good condition.

Galveston Springs—Jas. E. Whiting: Good, general rain, and corn was not dried up will make a good crop. If frost holds off there will be good beef crop. Highest temperature, 82; lowest, 43; rain, 0.4.

McCalla Park—A. M. Sanchez: Rain at the beginning of the week, and water in the ditches, have greatly benefited corn, especially alfalfa and sorghum. Many vines too late for fruit of moisture. In some cases another of alfalfa can be made if field are irrigated. The water will not very be due to late peaches, which are ripening. Highest temperature, 91; lowest, 62; rain, 4.8.

Old Edwards—Antonio Joseph: A rainy season, so long delayed, has just set in, and although a little late, it will benefit the stock raisers. For alfalfa, the rain will be very beneficial. The third cutting of alfalfa is excellent. Highest temperature, 83; lowest, 41; rain, 1.8.

Santa Fe—United States Weather Bureau: The recent rain will be very beneficial to late fruit, and make better fodder out of corn. Highest temperature, 82; lowest, 43; rain, 1.8.

Springer—D. L. Hines: Good showers; rains have revived grain, the ranges, and added new vitality to corn, late vegetable and alfalfa. Weather and abundance of food for weeks are needed. Highest temperature, 82; lowest, 43; rain, 1.8.

Brookside—Louis Champfle: Good rain on the 1st and 4th; watercourses, vegetables, etc., are abundant. For corn of alfalfa, growing finely. The weather is very poor. Plenty of water for irrigation.

Socorro—Druf. P. A. Jones: An inch of rain during the past week, which decidedly benefits the corn, fruit, alfalfa and alfalfa on the river. Fruit is doing better and a large crop of fall and winter apples is assured. Highest temperature, 83; lowest, 43; rain, 1.8.

Water—E. H. Horneham: Good rain during the week broke the drought. Water holes are filled and grass on ranges revived. Grain is yielding well, but threshing delayed on account of the rain. Corn will make a half crop. Alfalfa has a good stand for the winter. The recent rain will be very beneficial to late fruit and alfalfa. The river has a large volume of water.
