## **1990 Balance Of Payments Components**

*by Steven Ranieri*

*Category/Department: General*

*Published: Wednesday, February 20, 1991*

According to a report by the finance and budget and planning ministries (SHCP, SPP) submitted to the Chamber of Deputies on Feb. 18, Mexico's foreign reserves increased by \$1.8 billion between January and October last year. Foreign debt service and guarantees under the most recent rescheduling agreement totaled \$2.7 billion. Export revenues in the first 11 months of 1990 totaled \$15.279 billion, up 11.5% over the January-November 1989 period. Import spending increased 26.1% in 1990, compared to the first 11 months of 1989. The report stated that the jump in import outlays was justifiable, given the 42.7% increase in capital goods purchases. (Source: Notimex, 02/18/91)
