This Newspaper is brought to you for free and open access by the New Mexico Historical Newspapers at UNM Digital Repository. It has been accepted for inclusion in Albuquerque Citizen, 1891-1906 by an authorized administrator of UNM Digital Repository. For more information, please contact disc@unm.edu.

The main germ of the democratic territorial campaign is confidently claiming the election of Larrison upon the race issue. They are doomed to defeat. Mr. Ferguson is travelling over the territory claiming that he was defeated two years ago upon the race issue, and that he proposes to pay the republicans in their own kind. It is not true, in the first place, that Ferguson was elected upon any race issue. This proposition is a slander upon the Mexican people which they ought to resent. For the purpose of testing the truth of this proposition, we publish herewith a table of the vote cast for Catron in 1898 and for Ferguson in 1899, in the different counties in the territory.

Catron 1898	Ferguson 1899
Bernalillo	10,569
Chaves	1,141
Colfax	1,141
Dona Ana	1,045
El Paso	1,141
Grant	1,141
Guadalupe	1,141
Lincoln	1,141
Mora	1,141
San Juan	1,141
San Miguel	1,141
Santa Fe	1,141
Socorro	1,141
Taos	1,141
Union	1,141
Valencia	1,141

A comparison of this table will show that Ferguson increased his vote in the American counties over Catron by a larger percentage, taken as a whole than it was increased in the Mexican counties. This table gives the basis for the assertion of the democratic leaders.

The returns in 1899 show that Mr. Ferguson received large majorities in Albuquerque, Gallup and Bland. This is largely attributable to his personal acquaintance with the American people living in these towns and his desire to have a delegate elected to congress for local reasons and not for the territory.

The majorities in the different counties in 1899 are as follows:

Ferguson 1899	Catron 1898
Bernalillo	10,569
Chaves	1,141
Colfax	1,141
Dona Ana	1,045
El Paso	1,141
Grant	1,141
Guadalupe	1,141
Lincoln	1,141
Mora	1,141
San Juan	1,141
San Miguel	1,141
Santa Fe	1,141
Socorro	1,141
Taos	1,141
Union	1,141
Valencia	1,141

There's net majority 242.

An examination of the vote by precinct over the territory at the last election will show that it ran upon party lines very generally, except that the great change in the election was caused by the fact that Felix Martinez, who was elected to the legislature in San Miguel county had dropped to pieces. Mr. Martinez having left the territory and almost entirely severed his connection with territorial politics.

THE SIGNAL OF LIBERTY.

Great Play Last Night—Under Two Flags To-Night.

The Jockey Stock company presented the above play last night at Neher's opera house, and to put it mildly enthusiastic audience; an audience which made the casual observer imagine that the war with Spain was just about commencing. Instead of having been brought to a successful termination nearly two years ago, the scenes that will forever live in American history—the entrance of the Maine into Havana harbor, the attack on the American marines and the destruction of the Maine were depicted—in a realistic manner that would have done credit to a higher priced show. The play is remarkably free from sensation for a melodrama, there being but one pistol shot, one explosion and one allusion to the American flag, the latter being the gem of the entire play. W. J. Jossy, the author, played Ralph Dunbar, the gallant young naval lieutenant, as if he were a graduate of Annapolis. Miss Bernice Howard proved her claim to versatility by giving a remarkably clever interpretation of an up-to-date newspaper woman. Mr. Standfield has been an immortal hit as the correspondent studying American along. The rest of the cast were far above the ordinary traveling stock company. The specialties were as usual, very entertaining.

To-night they present for the first time here a most successful dramatization of Ouida's most successful novel, "Under Two Flags." Miss Howard appearing as "Bertie Cecil" and Mr. Jossy as "Bertie Cecil." The seats are going very rapidly.

THE ELKS' CIRCUS.

Local Lodge Held a Meeting Last Night and Commenced Work.

In the hands of every discipline, every student must be made to understand the nature of woman's hand. She is the recognized temperance factor in the world today (poor state of affairs that). Women are more law-abiding than men and it has been proved that the class who best obey laws can best make them. If women are more moral, more temperate, more religious than men, and a government is elected along the line of the nature of the voters, surely the ballot in woman's hands would work good and not evil. The question is up to you men. If this is true and good logic see that when New Mexico is admitted to the Union, the state of New Mexico has an unrestricted ballot without regard to sex or previous condition.

There never was a country with so many parents as this, but they are all fathers. We have Plymouth Fathers, Pilgrim Fathers, Revolutionary and City Fathers, but like Tony "We have never had a Mother" and the need of this country is a woman to rule. There was then peace in Israel and Deborah ruled the people forty years.

MRS. C. E. WILSON.
Press Reporter W. C. T. U.

Editor's Aunt Fights.
F. M. Higgins, editor of the Breeze, Filmore, N. Mex. was afflicted for years with piles that no doctor or remedy helped until he tried Borden's Anus Balm. He writes: "I was badly cured. It's the surest pile cure on earth and the best balm in the world. Cure guaranteed. Only 25 cents. Sold by J. H. O'Reilly & Co. druggists."

Makes Engineers Angry.
The engineers of the New York Central and the Philadelphia and Reading railroads are perturbed over the fact that they have been asked to sign the following paper: "I understand that I am to handle my train carefully, approach stations and obscure places with the train under control, and exercise such vigilance and care that an accident on account of my carelessness or neglect of duty shall not occur. I fully understand that an engineer can make or prevent nine-tenths of the accidents on a railroad. This is a solemn duty to be a result of the recent accident at Hatfield, Pa."

That Throwing Headache.
Would you like you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and cleanse the system. They are sold everywhere. Try them. Only 25 cents money back if not cured. Sold by J. H. O'Reilly & Co. druggists.

LAST NIGHT'S PARTIES.
Social Gatherings of Fruitless Hallows-e'en Folks at Several Homes.

There were several joyful Hallows-e'en parties last night, at which all the old fashioned games were resurrected and played with much enjoyment. The folks as well as young caught the spirit of the night of enchantment and magic, and the usual charms were worked and spirits invoked to gain a glimpse of the future. At midnight several well-known and popular young ladies were reported as having ascended staircases backward, with a lighted candle in one hand and a mirror in the other, hoping to see the reflection of their future husbands. This is only a sample of the many devices used to see what the future would bring. It is supposed that results were perfectly satisfactory, as the participants have a wise look on their faces to-day.

One pleasant crowd gathered at the hospitable home of Samuel Vann on North Third street, and with his daughter, Miss Florence, entertained a party of friends. The evening was enjoyed to the fullest extent. A variety of entertainment was enjoyed—games from Mother Goose, shadow-graph scenes requiring descriptive character guesses for prizes, gaudy Miss Edith's clever handiwork, and a variety of other games. Miss Edith's clever handiwork, and a variety of other games. Miss Edith's clever handiwork, and a variety of other games.

Another merry crowd gathered at the home of Miss Edith Niles, and spent the evening in games, music and social enjoyment. The evening was enjoyed to the fullest extent. A variety of entertainment was enjoyed—games from Mother Goose, shadow-graph scenes requiring descriptive character guesses for prizes, gaudy Miss Edith's clever handiwork, and a variety of other games. Miss Edith's clever handiwork, and a variety of other games.

Miss Florence's home was the scene of a very enjoyable evening. The evening was enjoyed to the fullest extent. A variety of entertainment was enjoyed—games from Mother Goose, shadow-graph scenes requiring descriptive character guesses for prizes, gaudy Miss Edith's clever handiwork, and a variety of other games. Miss Edith's clever handiwork, and a variety of other games.

Miss Frances Buitt was the victim of a surprise party, organized by her friends, who came disguised as white cats. The evening was enjoyed to the fullest extent. A variety of entertainment was enjoyed—games from Mother Goose, shadow-graph scenes requiring descriptive character guesses for prizes, gaudy Miss Edith's clever handiwork, and a variety of other games. Miss Edith's clever handiwork, and a variety of other games.

THE ELKS' CIRCUS.

Local Lodge Held a Meeting Last Night and Commenced Work.

A meeting of the local lodge of Elks was held last night. Messrs. Haskell and Day, who are here to assist the local lodge of Elks, to present the circus, being present.

The various parties were assigned and a reading rehearsal held. Committees for handling the various departments of the circus were appointed as follows:

Executive committee—Frank McKee, chairman; C. W. Medier, J. J. Sheridan, T. N. Wilkerson.

RAILROAD BUILDER.

What Col. Twitchell Says About Black Range Railway.

TO BE BUILT UNDER CONDITIONS.

Colonel R. E. Twitchell, president of the Black Range Railway company, who passed up the road the other day, was interviewed relative to the prospects of construction of the line proposed from Magdalena to Chisler.

A contingent contract has been entered into between the promoters of the enterprise and New York capitalists. The only menace at present is the bare possibility of republican defeat in the national election. If Bryan should be elected, the road will not be built. It will be impossible to secure the money to construct the road and we will have to postpone construction until such time as the republicans lose the election. The road will be constructed by the company, and the money to construct the road will be secured by the company.

The defense had no further testimony to offer yesterday than that published in the Herald last afternoon, except that the defendant himself called to the stand and testified in his own behalf. The intention of his evidence was to strengthen the alibi which he had endeavored to set up. He swore he had never known the defendant until they met in the Santa Fe penitentiary when both were convicts. He described his wanderings during the time that had elapsed since April, 1898, when Carlos Peralta was murdered. He said he had been removed from Mexico to Las Vegas and remained there three years; that he had been removed to Lincoln and remained there four years. He was residing at Santa Fe, N. Mex., and had been in the territorial penitentiary until his term had been served out, and he was delivered to the Texas officers.

Bernal protested his innocence of the crime of killing Carlos Peralta, and said he knew nothing of the Peralta gang nor its raids in this locality and never heard of the Peralta murder until years after it took place.

He said he had been in the Santa Fe penitentiary when both were convicts. He described his wanderings during the time that had elapsed since April, 1898, when Carlos Peralta was murdered. as they can be convicted. There is no doubt that if he is in jail in the morning, and work will be prosecuted on a large scale. The Jura-Tria company, besides those well-known here, includes in its directory several substantial Ohio men, who are entirely capable of carrying through any plans decided upon. The re-opening of these rich copper mines will mean much to the inhabitants of that section of the county.

NINETY-NINE YEARS.

An El Paso Murderer Must Pay Penalty for Crime.

"We, the jury, the defendant guilty as charged in the indictment and fix his penalty at 99 years in the penitentiary."

This was the verdict yesterday afternoon in the Juan Hernandez murder case. The jury retired at 10 p. m., and was out only a few minutes.

The evidence against Hernandez was considered stronger than that against Parra and there appeared to be no doubt in the minds of the jurors as to the guilt of the accused.

The defense had no further testimony to offer yesterday than that published in the Herald last afternoon, except that the defendant himself called to the stand and testified in his own behalf.

The intention of his evidence was to strengthen the alibi which he had endeavored to set up. He swore he had never known the defendant until they met in the Santa Fe penitentiary when both were convicts.

his own end. This practically amounts to a resignation of the company.

Therefore, the court ruled, if a person occupied a seat and then for any reason left it without in some way marking it as reserved by himself or another, and it occupied by another passenger he has no right to ask that passenger to give up the seat. If, however, he leaves his coat, umbrella, or handbag on his seat when he goes to the platform to buy a paper, or for any purpose, and finds his baggage moved, and the seat occupied by another, he has a legal as well as moral right to that seat.

The court further held that a passenger was entitled to but one seat, and could not reserve one seat in an ordinary coach while occupying another seat in a smoking car. This decision is a positive law, and has been thousands of times on railway trains.

TO TEST COUPLES.

Powerful Machine to Test Couples.

The machine for testing car couples that has been built with great care for power and solidity in the Santa Fe shop yard back of the carpenter shop, is completed and ready for use, says the Toledo Journal.

The machine, which is made of two strong uprights and 700 pound weight sliding in grooves, it resembles a pile-driver. The weight has a drop of about ten feet.

A direct blow of the weight dropped upon the reverse end of the coupler bar gives a test representing the stopping of a train. It means of a frame that is inserted above the coupler-bar and is used to test the coupler-bar to the other end, a test is given representing the jerk of a starting train.

Both tests are to be applied hereafter upon all couples put on Santa Fe cars. The machine will be used to test the coupler-bar to the other end, a test is given representing the jerk of a starting train.
