Her Husband's Story

H. A. Pense, editor and publisher of the *Albuquerque Argus*, came in from the west this morning.

Major W. H. Whitman, adjutant general of New Mexico, is in the city today. He will return to Santa Fe tomorrow morning.

George H. Clark, with the Singer Manufacturing company, left on the southbound train Saturday night on business for the company.

Rev. R. M. Craig has returned from a trip to the northern part of the territory, where he went in the interest of the missions of the Presbyterian church.

J. E. Hurley, division superintendent, has departed for Topeka, where he has gone to assist in making a new time card for the Santa Fe to go into effect on December 1.

F. M. Carter, a well known and popular passenger conductor on the Santa Fe Pacific, with a run between Winslow, A. T., and Needles, Cal., spent Saturday in the city, having run in here extra for one of his friends who was sick.

Non-F. A. Hubbard has gone to Santa Fe on business. On Saturday last he sent 11 men and a large amount of sheep to the sheep ranch in the Magdalena mountains. He is preparing for the winter. The ranges are in good condition and the sheep will have plenty of good feed this season.

Superintendent Ross of the Presbyterian mission school, was at the depot Saturday night to meet the Rev. J. E. Plinger, of New York city. The lady is superintendent of missions and is making a tour of inspection through New Mexico and Arizona. After a short visit at the hotel where she will go to Laguna, and from there west.

Delegate-elect B. S. Rodey, of this county, and Col. J. Francisco Chavez, of Valencia, will go to Lincoln county to represent some of the republican county officials-elect and will be joined by the democrats. The contests are against Alfredo Gonzalez, H. Luis, J. L. Analla and L. H. Hudisill, for the office of sheriff, collector and treasurer, probate clerk and school superintendent.

A. S. Watson, of Montgomery, Ala., the Bradstreet's commercial agency man, who has been stopping here for some time, went down to El Paso Saturday night. While there he will be joined by his wife. Mr. Watson came here to rest up and regain his health, which had been impaired by close application to his duties. He has improved considerably and thinks he came to the right place.

The members of the African Methodist Episcopal church intend to eclipse all former efforts this year in their annual Thanksgiving dinner, which has been made successful. All the good things in the market, prepared by the most skillful cooks, will be made for their friends. The dinner will be given Thursday evening, and with it a literary and musical program will be presented. Hon. B. S. Rodey, delegate-elect to congress, will give an address on the occasion.

G. E. Denney, postmaster of Old Albuquerque, has received information that his divorced wife, Mrs. Edwin S. Denney, was married in El Paso, Tex., to Ignacio A. Gutierrez, on October 23, by Justice of the Peace Shaw, the day after she was granted a divorce by Judge Crumpacker here. The new husband was a member of the First Regiment band of old town and, it is said, was paying attention to Mrs. Denney before she secured her divorce. Mr. Gutierrez now resides in Las Cruces.

Last Saturday night "Lum" Hall, received direct from Al. G. Everhardt, a dog breeder near Cincinnati, O., a genuine English bulldog, which he has named "Nobby." The new acquisition to the "four hundred" circle of canines has a pedigree a yard long and Mr. Hall states he is a thoroughbred in every sense of the word. "Nobby" has a vicious-looking mug, but is as harmless as a baby. Of course, when Mr. Hall sets him on some prowling "Weary Willie" or some other kind of canine. Then he is really vicious.

The musical recital given by Miss Matilda Vaick and her pupils at Old Fellows hall Saturday afternoon was a most delightful entertainment. There was a large gathering of invited guests, who thoroughly enjoyed every musical number. The latter part of the recital was a most interesting and instructive training on the part of their instructors, and convenient practice on their own side. The program was a long one and there were many very good songs. The new song, "Nobby," in itself was a treat to the audience. Miss Vaick's large class of pupils, children of the best people of the city, is an evidence of the esteem a "teacher" in which she is held by the people.

Lordsburg School Squabble. Quite a squabble over school matters has been carried on in Lordsburg during the past few days. Prof. Robert Smith corrected a number of pupils for violation of rules, one of the party, a daughter of Mrs. Adams, escaping punishment by running away from school and particularly, the new song, "Nobby," to allow her to return without a guarantee from the professor that she would not be corrected as were the other pupils. This brought on an explosion of the matter. The school board of the school board was held and the position of the teacher sustained. E. G. Simpson, a member of the school board, has handed in a resignation, but it is not known if the same has been accepted by the other members. What will be the outcome of the matter is a mere conjecture.

A Woman's Curiosity. Hollenmaker Mike Proffitt, now employed in the railroad shops at Capitlan, recently wrote to a friend at San Marcial and stated that while the coal miners there were having a good time one night by drinking and shooting up the town, Mrs. P. stepped out to see how the thing was done and was twice hit by flying bullets. Her friends were of a trivial character, however.

MISS PRINCE IN DENVER. She Lectured Here — the Daughters of the American Revolution.

The Denver Republican speaks as follows of Mrs. Prince's lecture before the Daughters of the American Revolution:

Mrs. Mary Prince, wife of Governor Prince of New Mexico, spoke on the Indians of New Mexico last night in the course of lectures and entertainments that are being given at the Trinity Methodist Episcopal church.

"Mrs. Prince told of the uprising of the Pueblos against the Spanish masters on August 16, 1886. So complete was the organization of the Indians that in two months the latter were not a speck in the territory. For 11 years the Indians enjoyed liberty and freedom, but were again placed in bondage by a Spanish force under Don Diego. While they accepted the religion of their conquerors, they never forgot their own mythology. Every phe-

"My name is E. J. Sprong, and my address is 16 Bondman Block, Troy, N. Y. 'I want to tell how thankful I am that my wife's health has been restored to her.' About a year ago she caught a dreadful cold, which settled in her bronchial tubes and lungs. She certainly had bronchitis, and I think consumption, too, and we were despondent of her life. She had tightness and soreness in the chest, and it was difficult for her to breathe. There were darts, sharp, dull and heavy pains, with constant coughing and expectoration. Each day she was worse than the day before. She was advised to get Acker's English Remedy, and did so, but my wife only shook her head and said: 'Another dollar thrown away.' She took the Remedy, however, and said the effect was marvellous. In less than an hour there was a remarkable change. She got better at once, and in a short time she was entirely well and strong again. The cure was permanent and there has been no relapse. I don't know what Acker's English Remedy is made of, but I know it is something that fortifies the system against future attacks. My wife is in better general health now than ever, and you can't imagine how happy she is for her recovery. She tells everybody about Acker's English Remedy, and so do I, for I believe it to be our duty to the public to help every sufferer who has throat and lung troubles. My neighbors say it is a sure specific for croup, and has saved the lives of hundreds of little ones around in this vicinity alone."

monism of nature is explained by the Indians as an act of some living being. All nature, then, is a mass of wifely personalities.

"Mrs. Prince showed a yaya, which is considered by the Pueblos to be the mother of all things. The yaya is a corner's jaw, which must be perfect in every particular. It is decorated with parrot and eagle feathers and a specimen is rarely seen outside an Indian village. The only other specimen in the hands of white people is in the possession of the national museum at Washington."

Ately Runaway at San Marcial. P. C. Seimann, a spirited old man, ran away from his home in the town, says the San Marcial Press. In the seat of the buggy were Mr. Seimann, Jess Harry and Steve Lane, with Charley, our popular Chinaman, on behind. The party was returning from the Old Town. Three Mexican riders dashed past the team with wild yells. Seimann's horses were beyond control in a moment. They ran a couple of hundred yards, dashed about a point, completely wrecked the buggy and tumbled its occupants about in a lively way. Harry and Lane have only scratches to show that they were in the wreck. Seimann, however, was completely wrecked, received a bad cut on the side of the head and is otherwise bruised. Seimann was picked up in an unconscious condition and carried to the hospital, where he is now recovering. It was a miraculous escape from death or permanent injury the four men had.

If you have ever seen a child in the agony of croup, you can realize how grateful mothers are for One Minute Cough Cure which gives relief as soon as it is administered. It quickly cures coughs, croup and all throat and lung troubles. Berry Drug Co., Cosmopolitan Drug Store.

Police Court. Captain of Snook Thieves—Bound Over to the Grand Jury. Marshal McMillin cut short the career of two crooks Saturday in short order. They had been in town but a few hours, but had in that time effected a valuable haul from the New York Bazaar on Railroad avenue and a coat and vest from B. Plinter, the tailor, on the same street. This is all that has been found out about them. They may have pilfered other things that have not been reported. They told their story, but it may be recovered. The marshal picked them up and found them guilty of the theft. They were bound over to the grand jury for working the beggar racket and an assortment of articles carried by their class. This morning they had a hearing before Judge Crumpacker, who held them in custody for a year under a bond of \$500. It is fortunate that these two crooks were caught, as they would have worked the town systematically, as was doubtless their intention.

Both makers and circulators of counterfeit money are being hunted by the police. The police are looking for a counterfeit of the new song, "Nobby," in itself was a treat to the audience. Miss Vaick's large class of pupils, children of the best people of the city, is an evidence of the esteem a "teacher" in which she is held by the people.

MINING AT SAN PEDRO. Superintendent McLaughlin, Fanning the Big Improvements. Probably the most important mining enterprise being pushed in Santa Fe county, and the most extensive in the territory, is that of the Santa Fe Gold and Copper Mining company at San Pedro. The company, under the management of Hon. J. T. McLaughlin, is just completing a new 200-ton copper smelter, which will be blown and thoroughly up-to-date in every respect.

The buildings are built of steel throughout, so that danger from fire is not to be apprehended. Already there is a stock of ore on the dump sufficient to run the smelter fully for six months.

The property consists of probably 20 full mining claims, situated in a group and nearly all patented. There are now employed in the mines and about the top works about 150 men, which number will be doubled in the near future.
