Central American Border Closed To Livestock

by Steven Ranieri

Category/Department: General

Published: Wednesday, February 20, 1991

On Jan. 17, officials in Quintana Roo state reported that the Secretariat of Agriculture and Hydraulic Resources (SARH) had closed the border to Central American livestock imports as a preventive measure against a disease called "blue tongue." The disease cannot be contracted by humans. Cattle are especially susceptible. (Source: El Nacional, 01/18/91)
