THE LARGE DISTRIBUTION SERVICE PLAN

It is a fact, conceded by all, that the cost of placing most articles in our homes is equal to the cost at the factory or shipping room.

This excessive cost of distribution is due to the necessary cost and expense of advertising, bookkeeping, stenographers, etc., also credit losses brought about by a loose credit system. All of these expenses above referred to are necessarily incurred for the sole purpose of accommodation to the customer, and are included in the price charged to the ultimate consumer. In a word, the system above outlined is responsible for the fact that the cost to the user equals twice the price at the factory door.

THE LARGE DISTRIBUTION SERVICE PLAN, in our opinion, is the only remedy, and without this system there is positively no escape. The plan is the only practical corrective measure operative that permanently lowers this fixed, continuous burden registered against every person that has commodities to buy.

THE LARGE DISTRIBUTION SERVICE PLAN contracts and performs a service otherwise impossible. Our plan eliminates the great cost of distribution previously referred to.

A company that contracts with its customers to supply all merchandise handled by them at a given percent above cost for a certain period of time, is in keeping with business principles upon which all large enterprises are conducted. The above plan provides service that any thoughtful man will concede to be the economically sound system whereby the benefits and the little effort necessary to purchase necessities under this plan, are as nothing compared with the substantial benefit received thereunder.

The customer is offered the opportunity to elect whether he shall continue to pay excess unnecessary prices, or take advantage of "THE LARGE DISTRIBUTION SERVICE PLAN" and reap, in many instances, from twenty to one hundred per cent reduction through our large volume plan.

Each customer can be given the code that gives the cost of each article, assuring him that he is getting his goods at a given per cent above cost.

The moment a merchant adopts our system, he immediately becomes a great benefactor to the buying public, eliminating all rivalry by his low profit and large volume method. A local firm where you can secure your goods at cost, plus such sum as may be agreed upon between the merchant and the customer, is the full substance of THE LARGE DISTRIBUTION SERVICE PLAN, and selling for cash to all alike removes the necessity of investigating credits, etc., and entirely overcomes the possibility of credit losses, which is a factor of importance responsible for the low selling price to the customer. You will understand that the only justification for any merchant to sell goods to bona fide customers at cost, plus a given percent, would be volume. The customer is greatly benefitted by the price paid, and the merchant by the volume of business. Our plan is all merit, and when the same is intelligently put before an intelligent person it will result in convincing him of its true economic value, and it is plan to see, will result in a great saving on the largest expense account we have.

DO YOU KNOW that a saving of ten cents a meal means a saving of nine dollars a month, or one hundred and nine dollars and fifty cents per year?

Do you know that the main causes for high prices are insufficient volume of business and the crime of the credit system?

DO YOU KNOW that the losses sustained by those who do not pay are taken care of by those that do pay?

That the margin of bad accounts is on the increase?

That you should pay for only the goods that you buy?

That to save ten dollars is equal to making twenty?

THE LARGE DISTRIBUTION SERVICE PLAN means always fresh goods, better buying opportunities and eliminates losses on perishable goods, a quick turn-over justifies both the merchant and the customer in applying a much less margin of profit by using the LARGE DISTRIBUTION SERVICE PLAN.

Ten Days in the Desert— and still have Fresh Milk!

Such a thing can happen to you if you have a package of Klim Powdered Milk and a canteen of water with you.

Klim IS Milk—rich, pure, and fresh—in powder form. Nothing is changed—only the water is removed. Milk is $\frac{7}{8}$ water and $\frac{1}{8}$ solids.

K-L-I-M—Klim is Milk with the water removed.

M-I-L-K—Milk is Klim with the water replaced.

At any time, in any place, you can have fresh, sweet milk in abundance by simply adding water to Klim.

Spell it backwards.

KLIM

BRAND
POWDERED MILK

Klim has no fear of hot days or cold ones, of camp days or dry ones. You need no ice to keep Klim—it does not sour. It does not freeze in winter.

Klim comes in two forms: Klim Powdered Whole Milk (full cream), for the baby—for drinking, for cereals and coffee; and Klim Powdered Sterilized Milk, for all cooking purposes. Klim is advocated by eminent physicians and leading food authorities.

Know what it is to have fresh milk, no matter if you are thousands of miles from a milk supply. Know the convenience—the quality—the economy—the advantage of using Klim. Get a supply today.

I ought to grow tobacco

You can't beat a Camel, because you can't beat the tobacco that goes into Camels.

Only the Camels are the ones who know and love the tobacco. The only tobacco that makes Camels so smooth, so fragrant and mellow-mild.

They tell you that the export Camel Blend of choice Turkish and Domestic tobacco makes a cigarette smoke you can't equal—no matter what you pay.

But it doesn't take an expert to tell Camel quality. You'll spot it the very first puff. Try Camels yourself.
