TWENTY-SEVENTH YEAR.

CARLSBAD, NEW MEXICO, FRIDAY, JUNE 20, 1919.

NUMBER 20.

BOE PLANE FLIES ACROSS THE ATLANTIC OCEAN.

Went Was Made Without Stop in 18 Hours and 12 Minutes in Vickers-Vimy Machine.

London, June 15.—The final goal of all the ambitions which flying men have ventured to dream since the Wright brothers first rose from the earth in a heavier-than-air machine was realized this morning when the young British officers, Captain John Alcock and Lieutenant Arthur Brown, landed on the Irish coast after the first non-stop flight across the Atlantic.

Their voyage was without accident or unforeseen incident. It was a straightway, clean-cut flight, achieved in 16 hours and 12 minutes, from New Foundland to Clifden, Ireland, more than 1,900 miles. Fog and mists hung over the north Atlantic and the Vickers-Vimy biplane climbed and dove, struggling to extricate herself from them.

The rose to 11,000 feet, swooped down almost to the surface of the sea and at times the two navigators found themselves upside down only ten feet above the water.

Before coming to earth near the Clifden wireless station, Alcock circled the wireless aerials, seeking the best spot. But no suitable ground was found. He changed it in a box.

The wireless staff rushed to the aid of the aviators. They found Brown dazed and Alcock temporarily dazed by the force of the impact.

Captain Alcock explained the silence of his radio. In the excitement during the trip he sawing that the wireless personnel blew off soon after the airplane left New Foundland.

"We were much jammed by strong wireless signals not intended for us," he added.

TO THE CITIZENS OF CARLSBAD AND VICINITY.

County Chairman Grantham Makes Appeal for Support of Salvation Army.

We are all interested in maintaining the Home Service Activities of the Salvation Army. Its ministrations to our soldiers "over there" and "over here" have been such as to merit the everlasting gratitude and support of every loyal American. Ask any returned soldier. We did not know what we were to do, and who was to have charge, of the campaign, in this county, until date of beginning campaign had passed. Campaign closes Saturday night, June 21st, 1919. What we do must be done quickly.

Messrs. R. M. Thorne, Clarence Bell, George Beckett, and R. L. Bailey compose the committee for Carlsbad, who are working for the success of this laudable undertaking. Clarence Bell, of the First National Bank, is the treasurer of the committee.

You will, doubtless, be called upon by the returned soldiers to contribute. Please respond when they call. If you are not seen, see any member of the committee and have a part in this matter. Thank you, I knew you would respond.

D. G. GRANTHAM, County Chairman.

OTIS SCHOOL TEACHERS.

The Otis school board has selected teachers for that district for the coming school year as follows: For the Spanish-American school, Miss Adelle Cochran, of La Mesa, New Mexico; for the other grades, Mr. and Mrs. Van Hee, of La Jara, Colorado.

Mrs. W. E. Rose, of the lower valley, was in town yesterday shopping with our merchants.

U. S. SOLDIERS INVADEN OLD MEXICO.

Mexicans Flee Into El Paso and American Cross Border and Quickly Get Things Right.

United States soldiers crossed the international boundary into Mexico last Sunday night to put a stop to the killing and wounding of American citizens in El Paso as a result of fighting between Carranza troops and rebels under the command of Pancho Villa.

Villa had attacked the Juarez garrison and was in possession of a part of the town when the U. S. soldiers entered and immediately drove him out.

Villista rebels, in their camp about eight miles southeast of Juarez, were routed by an attack of the Fifth and Seventh cavalry regiments about 10 o'clock in the morning and were scattered and driven 15 miles from the American border when the advance of the United States cavalrymen stopped at noon. Colonel James J. Hornbrook, commanding officer of the Fifth Cavalry, who led the pursuit of a large band of the rebels after an initial attack had been made upon them in camp by the Seventh cavalry, said last night, all of the band had fled before the American, leaving their equipment and horses behind in their hasty flight.

A force estimated by various officers at between 500 and 700 men was encountered by the Americans. According to members of the Seventh cavalry who led the attack, dismounted, the rebels in camp were fired on at a distance of 1,000 yards. The men fled southward in disorder. Some casualties resulted among the Mexicans, the soldiers said, but no accurate report had been made by officers to army headquarters.

Two American soldiers were killed, two severely wounded and eight slightly wounded during the two days of fighting in and around Juarez, according to official information given out last night at district military headquarters. Most of the casualties occurred before the United States troops crossed the border. Three members of the Fifth cavalry were slightly wounded in the fight against the Villa rebels Sunday night southeast of Juarez and one member of the Seventh cavalry was wounded severely.

Many Mexicans Killed.—Scouting patrols which were sent out along the American bank of the Rio Grande this afternoon in an effort to locate a band of twenty-five Villa rebels reported east of San Lorenzo church, returned and reported to military headquarters that the rumor was without foundation. It was announced tonight that no Villa men, except the wounded, were now in the Juarez district.

Official reports submitted to General Erwin late today established the fact that more of Villa's men were killed by American troops than at first estimated. Between fifty and sixty bodies were taken from the trenches near the race track following the assault of these trenches by the Twenty-fourth (colored) infantry and thirty-six bodies were found in front of the race track Monday morning, having been killed by the artillery fire from American guns on the river bank.

Many more bodies were reported in the weeds and wheat fields on the east side of town. Burial parties were busy all day burying the dead from the two days battle and the expeditionary assault. Many Villa wounded were also found in the agricultural college.

Artillery Work Fine.—The work of the artillery battalion of the Eighty-second field ar-

tillery, under Lieut. Col. Henry L. Newbold, was warmly praised in the official report of the operations of the cavalry brigade, to which the battalion was attached. Direct hits on the fleeing Villa column were made and twenty-five horses and four Villa rebels were seen to fall after the shrapnel shells from the artillery struck in the dust cloud directly over the rebels. The difficulties encountered by the artillery were the worst possible. Irrigation ditches and soft ground had to be crossed and the artillery pieces had to keep up with the cavalry operations. This was said to have been the first time American artillery has been used in Mexico since the war of 1848, as none was used during the Pershing punitive expedition.

One American Killed.—One American soldier was killed and ten wounded during the fighting in Juarez and the expedition to Mexico from the United States subsequent to the battle, according to official reports prepared at military headquarters today.

The first authentic information of the actions of some of the Villistas after they had been driven by United States troops beyond the environs of Juarez was brought to El Paso yesterday by one of their number who resides in El Paso and who was with General Angeles and his forces from the time they arrived at Guadalupe until noon on Monday.

This man who is well known, but whose name cannot be used, stated that the Villistas were feelingly addressed by General Angeles after they had made an orderly withdrawal from Juarez.

Remain Calm, Advice.—According to this man General Angeles assembled his force before him and counseled them to remain calm and refrain from committing any overt acts against Americans in Mexico.

"I was a member of the allied army in the service of France and worked with the United States against Germany while Carranza was a pro-German and used every effort within his power to advance Germany's cause," said General Angeles to his men.

"At this time I cannot say why the United States army attacked us," continued General Angeles. "In time we shall know but it cannot be because of bullets falling in to El Paso as you were instructed not to fire in that direction and I know you understood and obeyed those orders. You were placed on the battlefield so that it would not be necessary for you to shoot toward the American side."

Treat Americans Courteous.—"Though we have been attacked in an unwarranted manner by the Americans I want you to continue to show every courtesy toward Americans in Mexico. They had no hand in the attack and doubtless condemn it. Only by observing the rules of warfare and respecting the rights of innocent foreigners can the sacred cause of liberty for which we are fighting survive."

The informant also stated that the attack of the Americans on the Villistas did not come as a complete surprise to General Angeles, as he was informed early Sunday afternoon that indications on the American side pointed to an invasion of Mexico and he was prepared for that eventually.

Uneasiness Here.—Some uneasiness for the American citizens of northern Mexico was felt here last night because of the expedition of American troops to disperse Villa's army. Some fear was expressed that Villa and his men will attempt reprisals upon American men and property in Mexico.

Mormon officials here and in Juarez were much concerned over reports that Villa was heading toward Casas Grandes, Chih. This is near the Mormon colony of Colonia Dublan, where many Mormon families live. No news of a general exodus of Mormons has yet been received here but for the third time since the revolutions started, the Mormon families are expected to be forced from their homes should Villa go to that section of the state and begin reprisals.

Mexican Sovereignty Violated.—Washington, June 17.—General Candido Aguilar, President Carranza's confidential ambassador to the United States, issued to the press today a formal statement declaring "the government and people of Mexico consider as a violation of Mexican sovereignty the crossing of U. S. soldiers into Mexican territory," and expressing the hope "that the situation created by the latest occurrences in Juarez will be satisfactorily adjusted between the two countries."

"The Mexican government has not asked, nor will it ask the aid of American troops to fight Villa or any other bandit," said General Aguilar.

"General Gonzales did not ask, either, the assistance of the United States soldiers who entered Ciudad Juarez."

"President Carranza's government is strongly endeavoring to put an end, as soon as possible, to the activities of the Mexican rebels, and to guarantee the lives and properties of foreigners and Mexicans residing in Mexico."

Border Closely Guarded.—Although the border patrols along the international boundary have been strengthened and additional troops have arrived here as a precautionary measure in case Villa bands should attempt to make border raids or commit acts of open hostility against the American population of Mexico which might lead

MEETING OF CITY COUNCIL.

Last Monday evening the city council held an adjourned meeting to consider some matters of vital importance to our little city. The first to come up was the approval of firemen appointed by the fire chief, which was done and the list of same may be found below.

The matter of issuing bonds for a sum sufficient to have the streets of the city graded and graveled was brought before the aldermen and discussed. The streets are in a very bad condition at present and with the equipment, limited funds and number of workmen now employed it is impossible to better them. Should the bond issue carry, additional men would be employed and a tractor, a grader and a rock crusher purchased with which to put our streets in such a condition that it would be a pleasure to drive over them as well as being a source of pride to everyone. Before the bonds could be issued a special election would be called by the council and the voters given a chance to approve the issue. The city is bonded at present for only \$33,000 for the present sewer system which is a small amount compared to that of other New Mexico municipalities.

It was suggested to the council by R. Ohnemus that Carlsbad have some kind of a celebration this year on the Fourth of July or some suitable date thereafter. Neighboring towns are having their gatherings and Carlsbad is better able to pull off a celebration than most of them. The war is over; most of our soldier boys have returned home; good rains have fallen, which has provided grass for the cattle; there is a bumper alfalfa crop, besides the prospects are flattering for other crops, and business generally is good; therefore, Carlsbad should wake up and let it be known that she is very much alive, and still on the map. A committee was appointed by the Mayor to meet with the Commercial Club at an early date and make arrangements to have a celebration in Carlsbad. It has been proposed that there be speaking in the morning, free barbecue at noon, a free ball game in the afternoon and a free dance that night.

The following is a list of the Carlsbad Paid Fire Department:

1. R. Ohnemus, Chief.
2. Bob Hamblin, Asst. Chief.
3. Leo Foster.
4. J. J. Smith.
5. Dan Lowenbrook.
6. S. L. Perry.
7. R. M. Gorley.
8. Frank Moritz.
9. M. R. Smith.
10. Bill G. Riggs.
11. John Ohnemus.
12. Frank Foster.
13. Joe Herzog.
14. Arthur Renick.
15. W. J. Ralph.
16. Joe Johns.
17. M. A. Ohnemus.
18. Wilson Prowell.
19. R. M. Thorne.
20. J. W. Kennedy.
21. W. N. Bloxom.
22. Henry Collins.
23. Homer King.

RESERVE LIST.

1. Bill Lowenbrook.
2. John Boeglin.
3. Art Moritz.
4. E. A. Roberts.
5. Ben Wheeler.
6. Gus Rodrick.
7. John Moritzkey.
8. J. H. Baker.
9. Sam Moskin.
10. Gale Gunter.
11. J. P. Prickett.

The meeting of the committee with the Commercial Club above referred to resulted in an agreement to postpone any celebration until in the fall when an "Old Settlers' Reunion" will be held.

SALVATION ARMY DRIVE.

The drive for funds for the home service of the Salvation Army is now on in Carlsbad. The town has been divided into districts and it being worked systematically, by returned soldiers. For Main street, George McClure is in charge of the soliciting; Canyon street, Robert Hemenway and E. A. Roberts; Canal street, Fred West and Douglas Fitzhugh; Halaguena street, Wilmer White and George Givan; all streets west, Tom Calloway. Chairmen for the different parts of the county are as follows: Malaga, J. L. Williams; Loving, W. E. Rose; Hope, Hugh Gage; Artesia, Mr. Gilbert; Lakewood, W. Johnston.

to an invasion of that country, the present emergency is considered at an end and is to be regarded as a closed chapter in American military history, unless developments arise that are not anticipated by local military authorities at this time.

This opinion was expressed by officials last night and is the substance of a statement made yesterday by Major General De Rosey C. Cabell before his return to San Antonio yesterday afternoon.

That unoffending Americans in Mexico are to be abandoned to their fate was indicated in a telegram received yesterday by Major Chas. Davis from Congressman Hudspeth.

This telegram, which was read to a meeting of the military affairs committee of the Chamber of Commerce, stated that Americans had been warned by the state department at Washington to get out of Mexico and that those who were unable to leave would have to take the consequences.

OIL LEASE APPLICATIONS MADE FOR ALL STATE LAND.

Four New Oil Companies Organized in This State—A. F. Corwin Discusses Drilling for Oil in General.

A very timely article on drilling for oil by A. F. Corwin is of interest:

"It is the policy of most companies to lease and not to purchase land, though frequently these leases include all the mineral rights. The land owners receive a cash bonus, the amount paid per acre varying very widely according to local conditions and relative values. The terms of the lease designate a fixed annual rental, which continues until the property is developed and the owner usually retains a one-eighth royalty interest in the oil which may be discovered. The title of the property is searched and all defects cured as far as possible before any operations are started on the property."

"The cost of the first well in a new district, where the depth is likely to be around 3,000 feet, may amount to considerable more than \$50,000, and the well may require a year or more to drill."

"If the well is to be more than 1300 feet deep a derrick is built, but for a shallow hole a portable drilling machine is generally used. 'History records that the first oil well on record was dug by Job in Biblical times. The Chinese seem to have been the first people to do actual drilling. In the medieval times they had tools which were capable of reaching a depth of more than 1,000 feet."

"Although many clever drilling methods have been invented in modern times, the oil fraternity have finally adopted and standardized to their own use general types of drilling equipment, i. e., the rotary and cable tools. The cable tools are best adapted to 'wild cat' wells and are in the most general use where the formation is rather hard. With this system which is often spoken of as the standard rig outfit, wells have been drilled to a depth of more than 7,000 feet."

"The tools are attached by means of a rope socket to a heavy manila or a fire rope, which in turn is connected to the end of a walking beam. The drilling is accomplished by a crushing and churning action rather than cutting the rock, as the face of the bit is quite blunt. "The rotary system was perfected in the Gulf coast field and has not been in common use more than fifteen years. Its special advantage is speed in soft or caving formation. It consists of a perforated 'fish tail' bit screwed to a string of 'drill pipe', which projects up through the derrick platform and is rotated at the rate of about 200 revolutions per minute by a turntable."

"Under favorable conditions a good record for the cable tools is seventy feet of hole in a shift, but it is quite common for a rotary to drill 200 feet in twelve hours. The tools have to be pulled out at frequent intervals and a fresh bit put on, as the hole has a tendency to become narrower as the bit wears. The principal delays in the ordinary rotary are caused by changing tools and setting casing. "The well is lined from top to bottom with casing or pipe. If a 3,000 foot well is started with 15 1/2 inch casing it usually is finished with six or eight inch casing. It is seldom practical to continue drilling when a smaller size casing would be required."

"If a well that is drilled in a favorable locality does not strike water in the oil sand, but makes a much smaller production than anticipated, it is the common practice to 'shoot' it with nitrocellulose. Any one who has watched farmers blow up tree stumps with only a few drops of this explosive may imagine what the effect of 80 quarts would produce at the bottom of an eight inch hole."

"The flush production of a new well is always much greater than the settled flow it makes after it is several years old. Only large wells flow naturally. A gusher comes a pump when it fails to produce 200 barrels. It is impossible to lay down any general rules about the dividing line between a dry hole and a small well. In Mexico a well making 50 or 100 barrels of oil per day is usually abandoned as uncommercial, whereas there are thousands of old pumps in Pennsylvania and West Virginia that have averaged less than one barrel of oil per day for years."

The New Mexico Land Office reports that all available state land has been applied for under the oil leasing law. The office has still a large number of applications for leases to be examined before all leases will have been finally approved. It will take some time before approximate figures of the acreage leased and the amount of revenue received can be assembled. But it is plain that the revenue from this source will add much to the income of the school and other funds of the state. The reservation of mineral rights of state land when sold, will result in benefit to the people of the state. If oil is found the royalty will further add to the state's income and lessen the tax burden."

Many new oil companies are being organized and incorporated. It is reported that partnership organizations are also being formed. The following new companies have been incorporated this week: La Jara Basin Oil Company,

CLEMENCEAU MAKES HARSH ARRAIGNMENT.

Peace Treaty Submitted to Germany With Slight Changes—Huns Are Disappointed.

Paris, June 16.—The final reply of the allied and associated powers to the conditions of peace handed to the Germans at Versailles on May 7 was delivered to the German delegation today and made public shortly afterward.

The Germans are allowed five days to accept or to refuse the treaty as it stands. If they accept, peace will be signed at once; if they do not accept, the armistice will terminate Saturday, (June 21), and the powers will take such steps as may be necessary to enforce the terms.

The principles of the original conditions have been vigorously upheld as establishing a peace of justice, but certain modifications in detail and many explanations of the scope of execution are made. The reply is in two parts—a general, covering letter and a series of proposals. The changes include:

A plebiscite for Upper Silesia, with guarantees of coal from that territory.

Frontier rectifications in West Prussia.

Omission of the third zone in the Schleswig plebiscite.

Temporary increase of the German army from 100,000 to 200,000 men.

Declaration of the intention to submit within a month of signature a list of those accused of violation of the laws and customs of war.

Offer to co-operate with a German commission on reparations, and to receive suggestions for discharging the obligation.

Certain detailed modifications in the finance, economic and ports and waterways clauses, including abolition of the proposed Kiel canal commission.

Assurance of membership in the league of nations in the early future if Germany fulfills her obligations.

German Delegate Hit by Stone.

Paris, France, June 17.—Dr. Theodor Melchior, one of the five principal delegates, and Frau Dorblush, one of the secretaries of the German peace delegation, were struck on the head with stones during a demonstration when they started from Versailles.

The French government today expressed regret over the demonstration against the Germans. Premier Clemenceau is writing a letter of apology to Count von Brockdorff-Rantzau.

It is reported that the prefect of police at Versailles may possibly be removed. The demonstration had several phases, but was confined mostly to jeering the Germans.

Huns Are Downhearted.

Berlin, June 17.—The impression of those who were engaged throughout the night in translating the reply of the allied and associated powers, is that it will be utterly impossible to sign and that it is probable a negative reply will be given to Dr. Haniel von Haimhausen for submission to M. Clemenceau.

It is also considered possible that Count von Brockdorff-Rantzau, will not return to Versailles on account of the demonstration made against the delegates, resulting in injury to Minister Geyher, Frau Dorblush, Attache Meyer and others, all of whom were hit with stones. Herr Meyer's eye was injured by glass.

The chances in the peace terms, as indicated by the red interlineations in the text of the old treaty are so slight as to cause universal dismay among those who have had the opportunity of examining the document. The financial modifications are considered unimportant and objectionable, and the terms governing Germany's admission to the league of nations are declared to be unsatisfactory.

HUSTLING BOY SCOUTS OF CARLSBAD.

Wallace Thorne, Sylvester Bell and Ben Barnett went "over the top" on El Paso Times watch contest the first day. Joe Eaker got started late, but made his watch in twenty-four hours. So far as H. W. Burton, the traveling man, knows this "breaks all records" for quick work. And the boys are to be heartily congratulated on their splendid showing.

Twenty-three hundredths of an inch of rain fell in Carlsbad last night and from all indications a much heavier rain passed over, going east and south. Everything seems fresh this morning and the prospects are excellent for a heavy rainfall in the near future.

For the best line of Miller and Michelin Tires, either cord or fibre—best tires on the market—go to Ohnemus Shops & Garage—"Can Fix It".

Magdalena: El Dorado Oil and Gas Company, Santa Fe; Cruces Oil Corporation, Las Cruces; Sixty-Four Land and Oil Company, Clovis.

The Sunshine State Oil and Refining Company has filed notice with the Corporation Commission that the registered office of the company has been transferred from Artesia to Roswell. N. M. G. C. Jansen is president; N. A. Bundy secretary and F. G. Keyes statutory agent.

SUNDAY SCHOOL LESSON

(By REV. F. H. FITZWATER, D. D.,
Teacher of English Bible in the Moody
Bible Institute of Chicago.)
Copyright, 1919, by Western Publishing Co., Inc.

LESSON FOR JUNE 22

LOVE.

LESSON TEXT—1 Cor. 13.
GOLDEN TEXT—New abideth faith, hope, love, these three; but the greatest of these is love.—1 Cor. 13:13.
ADDITIONAL MATERIAL—Lev. 19:18; Deut. 6:5; John 10:10; 1 John 4:7-8.
PRIMARY TOPIC—How to Show Our Love.

JUNIOR TOPIC—Whom We Should Love and How.
INTERMEDIATE TOPIC—The Greatest Thing in the World.
SENIOR AND ADULT TOPIC—The Strongest Bond Between Men and Women.

The best gift of the Holy Spirit is the love of God shed abroad in our hearts. Not all can teach, preach, work miracles, speak with tongues; but the gift of love is within reach of all. The "more excellent way" of the last verse of chapter 12 is the way of love. Love is not a mere sentiment or emotion, but a mighty dynamic which transforms the life, expressing itself in practical service to men.

I. The Pre-eminence of Love (vv. 1-3).

It transcends:
(1) Speaking with tongues. For men to possess the loftiest eloquence, to be able to speak in other languages, and to be lacking in love is to be as sounding brass and a tinkling cymbal. Pleasing and powerful speaking is desirable, but to love is better.

(2) The gift of prophecy. To disclose the events of the future, to be able to unfold all mysteries of nature and providence—is good but to love is better.

(3) Faith of the most vigorous kind. Such as would remove mountains.
(4) Philanthropy of the most generous sort, prompting one to surrender all earthly goods for the sake of the poor.

(5) Heroism which leads even to martyrdom without love is profitless.

II. The Attributes of Love (vv. 4-7).
1. It is long-suffering and kind. It means not only to bear long but to be kind all the while. Patience is a remarkable virtue. It is much easier to bear long than to show the spirit of kindness all the while.

2. It is free from envy. Those who love are free from that envy which is engendered because of the good, or the success of others.

3. It is free from empty boasting. Love has as its supreme aim the doing of good to all and does not seek their admiration and applause.

4. It is well behaved. Love is polite and mannerly. It knows how to behave at all times.

5. It is unselfish. Love seeks the good of others and is forgetful of self.
6. Does not give way to passion. It is not quick tempered. It is not easily aroused to resentment.

7. It takes no delight in evil; does not impute evil motives to others; is not suspicious, but forgiving.

8. It rejoices in the truth. It sympathizes with that which is true and has a common joy with it.

9. It heareth all things—that is, it listens itself with its own mantle and shuts all evil out.

10. It is truthful, hopeful and firm.

III. The Permanence of Love (vv. 8-13).

Prophecy, as prediction, will be fulfilled; prophecy, as teaching, will be brought to an end in the day when teaching is not needed. "And they shall not teach every man his neighbor, and every man his brother, saying, Know the Lord: for all shall know me, from the least to the greatest" (Heb. 8:11; cf. Jer. 31:34). Tongues shall cease, for as the languages of earth were caused by God's judgment for sin so shall Christ's redemption bring the nations back to one tongue. Knowledge shall be done away with by a wider and nobler intelligence. The twilight shall be lost in the day. Childhood shall be lost in maturity, for at Christ's coming we shall see him face to face and be like him. Love will always abide, for God is love.

The School of Gentleness.
With what infinite gentleness the Great Physician ministered to bruised reeds and broken hearts! What tender names he gave them! "Son!" "Daughter!" He was never rough, never brusque, never impatient, never in a hurry! His tender approach was part of the cure. His very touch had healing power. He handled the burdens of men in such a way as to immediately make them lighter. Many a broken heart was strangely comforted by his presence even before the life had been made whole. Most surely the hospital work of our Saviour was a school of gentleness!

Do Not Shun the Light.
The man who shuns the light forfeits his own final peace of heart. He who refuses to face his worst faults the possibility of finding his best. He does not solve the question of his sinfulness; he shelves it.—Percy G. Alnworth.

Silence.
If the prudence of reserve and decorum dictates silence in some circumstances, in others prudence of a higher order may justify us in speaking our thoughts.—Burke.

ROAD WORK IN NEW MEXICO.

The State Highway Department has made substantial increases in the office and field forces the past week. More Federal aid road projects are being investigated with a view of making a comprehensive state highway system. Leslie A. Gillett, the highway engineer, continues to spend much time in the field on road matters. The county authorities are taking keen interest in the road program in their respective counties and are anxious to co-operate with the state highway department in developing better systematic road construction.

A number of projects are being shaped up to submit to the Federal Bureau of roads. The final location survey of Federal aid Project No. 18 is ready to begin. Later the plans, specifications, and estimates will go to Washington for final approval. This is an Eddy county project from Carlsbad to the Lea county line.

The winter wheat crop in New Mexico, according to the latest government estimates, will exceed four million bushels and the spring crop around a million and a half bushels. New Mexican wheat is a prize winner and takes extra fine flour. Try the home flour.

SOLDIERS IN TOWN.

A detachment of soldiers from Ft. Bliss, El Paso, Texas, were in town Tuesday night between trains coming in on the six-o'clock train from the south, taking supper at the Palace and leaving at nine o'clock for Roswell, where they played a game of baseball Wednesday. This was the team that had expected to play in Carlsbad this week, but owing to developments in El Paso, they were unable to fill their date here. Registered at the Palace were the following: Lieut. L. H. Barnes, Sergt. T. A. Lane, Mech. G. G. Langston, Bugler T. J. Fairbanks, Sergt. J. R. Minter, Wagoner M. Putz, Corp. E. D. Tice, Sergt. G. V. Ricker, Sergt. M. P. Higgins, Corp. N. Y. Regal, Privates P. W. Hyland, P. Lynch, L. Moore, S. and C. Potarff, John Martin. They were a jolly bunch and had much to say as to the beauties of the town and surrounding country.

Vern Barron, son of Mr. and Mrs. A. H. Barron, of Ajo Vista, is expected to arrive at his home this week, from Fort Worth, where he will receive his discharge. Barron was a member of the original B Company and went forward with the men of that command, first to Albuquerque, afterward to Camp Kearney, going from there overseas. He has not seen any member of his family for about two years. Later, we learn that Lieut. Barron arrived on Wednesday night.

HIGH HONOR AGAIN ACCORD-ED MILITARY SCHOOL.

Following Inspection, Adjutant General of U. S. Army Designates It "Distinguished School".

Roswell, N. M., June 15.—For the tenth consecutive year, the New Mexico Institute has been designated a distinguished school by the United States war department. A telegram announcing this important and joyful news was received at the institute yesterday from the adjutant general of the United States army. The institute qualified for this high honor as the result of an annual inspection, conducted by Colonel McCaskey, sent out by the war department for that purpose. The institute this year was never in better shape for the most rigid inspection that is given each year.

Colonel McCaskey, unannounced and unheralded, visited the school and from barracks, from kitchen and mess hall; from class room to parade ground, inspected the equipment. A searching investigation was made into the curriculum, into the kind and character of military tactics taught, and most important of all, into the personnel of the student body. On a moment's notice, the cadet battalion swung into line and its three companies and cadet band marched in review before the inspecting officer. The inspection, conducted only a few weeks ago, indicates that there was no hesitancy on Colonel McCaskey's part in recommending the institute for distinguished honors by the war department. It was in 1909 that the New Mexico Military Institute was first made a distinguished military school of the United States. Each subsequent year, nothing has been left undone to continue to merit the honor.

Col. J. W. Willson, superintendent of the school, and the man who originally set the goal for attainment of the high honor for the institute, has worked indefatigably to have the institution officially recognized each year as a school which fully meets the requirements of the war department. It is not yet known how many other schools received the distinction for 1919. It is believed, however, there will not be more than ten or twelve schools in America to win the honor.

REDEMPTION OF 2-CENT POSTAL CARDS AND 3-CENT STAMPED ENVELOPES.

Postmasters shall redeem from the public all unused and undamaged No. 9 and No. 10 2-cent cards and 3-cent stamped envelopes, printed or unprinted, at full value, provided they are convinced such cards and envelopes are presented by the original purchasers.

Postmasters shall furnish in exchange for such cards and envelopes, postage stamps, postal cards, or stamped envelopes of other denominations or varieties to be selected by the owner, or may apply them in payment of part payment for 2-cent special-request envelopes. No postal cards nor stamped envelopes shall be redeemed from the public in cash.

The public will be allowed one month from July 1, 1919, in which to present their 2-cent and 3-cent envelopes for exchange at full value. After the expiration of that time postage value only shall be allowed for the envelopes and three-fourths of postage value for the cards.

A. M. DOCKEY,
Third Assistant Postmaster General.

Miss Ella Dock, one of the operators on the telephone line in Carlsbad, has been on the sick list since Sunday, at the home of her parents on North Canyon street.

HAGER BELIEVES OIL TO BE FOUND IN NEW MEXICO.

Dorsey Hager, who has just returned from the Roswell office of his firm, said yesterday that there is great interest in the oil development activities in the eastern third of the State of New Mexico and that there will be at least twelve deep tests sunk in that section during the summer. Mr. Hager and his associates have been interested in Eastern New Mexico as geologists for several months and he has traveled over a great deal of the territory east of Las Vegas and on to the southward.

"It is my belief that there is now about ten million acres of land under lease in the eastern third of New Mexico," said Mr. Hager, "and the value of leases has advanced from 10¢ to 20¢ an acre until they are now selling as high as \$1 or more in some sections. The vicinity of Tucuman has one test under way and two others are locations with good prospects of being drilled. There is a deep test getting well down in the vicinity of Santa Rosa and several are drilling in the vicinity of Deming."

Mr. Hager thinks well of the chances for oil in some parts of the eastern third of New Mexico and has mapped several very fine structures in that region. He expects that the interest in that part of the state will grow during the summer and, of course, if oil is found in any of the tests, there will be real excitement and advancing prices for acreage.—Dallas News.

SAM'S CASH GROCERY

We offer the people of Carlsbad and vicinity a large assortment of the highest class of Staple Groceries at a price lower than they can secure at any other place. We are able to do this by reason of the facts that we sell for cash, do not deliver and conduct our store with far less expense than that required by a store handling only one line. The effect of these savings are clearly shown in the prices at which we are selling goods.

For the BEST GROCERIES at the LOWEST PRICE, go to

SAM'S CASH GROCERY

We also want your FURS, HIDES, JUNK, and SECOND HAND FURNITURE—the highest market price paid at all times.

LOCAL NEWS

Gayle Talbot, Jr., of El Paso, came in from there the first of the week and continued on to Artesia, his former home.

Mrs. M. R. Smith is looking forward to the coming of her sister, Miss Thelma Binfield, of Athens, Texas, who will arrive here for a lengthy visit the middle of next week. Miss Binfield has visited in Carlsbad previously and has many friends here who eagerly wait her coming.

J. R. Hines has returned from a visit to El Paso, stopping en route at Pecos for a visit with homefolks.

Happy Thoughts of Wife. Lightning knocked over three men who were sitting on boxes in front of Sawyer's store yesterday. One of them was knocked senseless; the other two exclaimed: "Leggo! I'm comin' right home!"—Milltown Banner.

More Mounted Police. Captain A. A. Sena of the state mounted police has announced that he was to put on 16 new men the 1st of July. A determined fight will be made against horse thieves and cattle rustlers within the state.

Prude Brothers of Hope sold 40 fine yearling bulls to Bernard Cleve, consideration being four thousand.

Albert Harrell returned to Carlsbad Monday night after about a year overseas. He has not yet decided on his future plans but will probably remain in this vicinity.

Dave Myers, of Queen, who had been in France a year or more, returned here Monday night and on Tuesday morning left for the Dolph Shattuck ranch where he has a bunch of cattle which he is anxious to look after.

Sank Ramey, who came down from Roswell Saturday left again for that city Sunday night.

Miss Flossie Kincaid and Mrs. Otto Engle were operated on at Sisters hospital last Tuesday morning with good results. Both ladies were suffering from appendicitis.

Ray Dishman and little niece, Madge Bryant, left Tuesday for their home in Miami, Florida, after a visit here with homefolks for a couple of weeks.

DISHMAN REUNION ENDS.

The reunion of the Dishman family came to an end Tuesday, of this week with the departure of the oldest son, Ray, for his home in Arizona, while Mr. Dishman and sons, Earl and Rupert, left the same day for the oil fields of Texas.

This reunion was notable from the fact that it is the first time in over seventeen years that the entire family has been together. Mr. and Mrs. Dishman have been residents of Eddy county for twenty-five years, coming from Paducah, Kentucky, and at first locating in the lower valley, later moving to Carlsbad. They have ever been, and are now, among our best citizens, always alive to the best interests of the community.

A picture was taken Monday of the family, and, besides the parents, the group contained Ray Dishman, of Miami, Arizona; Mrs. Walter Fortson, of Jacksonville, Florida; Clay Dishman, of Blaine, Arizona; Earl and Rupert Dishman, who have both been discharged recently from Uncle Sam's service, and Mrs. Charles Hoffman, of Berkeley, California. At the Dishman home the past week, in addition to those mentioned above, have been the two children of Mrs. Fortson and two children of Ray Dishman. The last named lost his wife and baby about two years ago and this is the only "me death" has entered the family; truly a wonderful record.

The week was spent in recalling days of childhood and youth and in happy associations, the hours flew by all too rapidly. May they all meet again, if not in this life, then in the house not made with hands, where parting never comes.

MRS. STEIG ENTERTAINS.

The following is from the paper at Elida: "Last Sunday Mrs. F. G. Steig entertained upwards of forty guests at one of the best dinners that has been served in Elida. The dinner was given in honor of her son, F. J. Steig, and to commemorate his home-coming from the army and the victory he helped put over the Hun. Fred came up on Saturday and remained until Tuesday night, returning to the Valley in his auto.

"The kind service rendered by his mother in giving this entertainment, carrying with it the opportunity of meeting so many of his really warm friends here and spending such a jolly day with them, will be a pleasing remembrance to him all the days of his life.

"And the guests, too, will find their minds will often revert to the good dinner and happy day enjoyed at the pleasant home of Mr. and Mrs. F. G. Steig, whose hospitality is boundless and supreme."

Mayor D. G. Grantham received a wire Monday night that he had been appointed county chairman of the drive for the Salvation Army, which is now on all over the United States. Owing to the lateness of the hour at which the notification was received, Judge Grantham has been working under a disadvantage all the week. He has appointed his committeemen in the various towns of the county, and the people are responding liberally and the prospect is that by the time the drive closes, Saturday night, Eddy county will have raised her apportionment of \$750 for this most worthy organization.

Mrs. M. E. Smith and daughter, Miss Marie, left last week for San Angelo, Texas, where they will make an extended visit. The ladies are mother and daughter, respectively, of Mrs. John Hewitt and have been in Carlsbad over a year. After a stay with other relatives, they may return to Carlsbad.

Mr. and Mrs. M. S. Dee Clark, parents of Hardin Clark, and old-time residents of Carlsbad, are in the city this week, coming overland from Vaughn, this state, where they now reside; all old-timers remember them. With Mr. and Mrs. Clark are the two little daughters of Betty Clark Millburn (Judeen and Ethel), whose body now rests with many others, kin-folk and friends, in city cemetery.

Mr. and Mrs. D. R. Harkey spent part of the week in Carlsbad from their home in the valley below Malaga.

Melvin Bearup came in Sunday from his goat ranch in the mountains and spent a few hours in town, leaving on the return Monday afternoon.

Lieutenant Maciver, the Y. M. C. A. man, who was here the latter part of last week, left Friday for Artesia, going up with Art Moritz in the "Green Lizard."

Agnes Thorne is spending part of her vacation on the C. N. Jones ranch, near Lovington, is having no end of adventures and is enjoying herself hugely.

G. M. Williams shipped 150 cows and calves Monday, from Riverton, where they were loaded to Avalon. The remainder of the herd, some 250 or 300 animals, were driven overland to the same destination.

J. R. Phillips and son, Durward, were in town from the Monument country last Monday. The little son is five years old and this was his first visit to the county seat.

Mrs. A. L. Allinger and daughter, Leona, returned Friday from their visit to Roswell. The little girl was relieved of her tonsils while in that city.

RECEPTION FOR "GRANDMA AND GRANDMA" ANDERSON.

At the home of Mr. and Mrs. Robert M. Fessenden, June 18th, a lovely reception was given Mr. and Mrs. Anderson, of Carlsbad, who are now visiting at Los Angeles. Mrs. Fessenden and Mrs. F. G. Tracy were the joint hostesses of the happy affair, and the reception was given to honor the fifty-fourth wedding anniversary and also Grandma Anderson's seventieth birthday. Over fifty guests were present, the majority of them being persons who had lived in Carlsbad and had known this prominent couple for many years. The home was beautifully decorated for the occasion, the dining table being graced by an immense wedding cake, and a bride and groom "kewpie", the bride wearing a long veil and the groom a necktie! Flowers in abundance were used and refreshments served throughout the entire afternoon.

At the proper time the guests joined hands and sang, "Blest Be the Tie That Binds," after which Mr. Tracy told of the wonderfully noble life and of the many Christian deeds of the couple and how they are loved and admired by this entire community. Wilburn Fessenden and Francis Tracy, Jr., then entered with a long string of one-dollar bills, all new, many yards in length, with the name of the donor on each one. These were wrapped around the couple, who afterwards had their picture taken in that position.

Grandma Anderson, writing to a friend here, says, "How sweet of all our friends to do so much for us—it's nice to grow old." May they live many more years to bless us with their kindly ministrations and noble example.

CHAUTAUQUA PROFITS INVESTED IN W. S. S.

Clovis, N. M., June 16.—After all bills had been paid, the Clovis Chautauqua metted \$245.44 this year. Rev. Ted P. Hollifield, Director of the Chautauqua, invested this in War Savings Stamps. When the next Chautauqua is held in May, 1920, the interest will amount to \$6.98, so that there will be \$252.42 to start on, instead of the \$245.44.

Have you bought your Thrift Stamp today?

CARLSBAD PEOPLE HONORED.

From a private letter from Mrs. Ella Mallett, of Los Angeles, a niece of Mrs. Lucius Anderson, of Carlsbad, who, with Mr. Anderson, is visiting friends in that city, we learn of a reception given Mr. and Mrs. Anderson at her home Wednesday, 11th. A number of nieces and nephews were present and grand nieces and nephews as well and all joined heartily in honoring this beloved couple so well worthy of all honor for their lives of unselfish devotion to those about them.

E. V. Albritton and family are very comfortably settled in their new home at 601 Cedar street, Abilene, Texas. Mrs. Albritton writes that they had a very pleasant trip from Carlsbad to Abilene, and they think they will enjoy living there, but are missing their Carlsbad friends. They are having an abundance of rain there and everything is looking pretty at this time.

Misses Edna and Helen Herzog are visiting in Artesia this week, having a good time with the family of Mr. and Mrs. Frank Ohnhus.

Women!

Here is a message to suffering women, from Mrs. W. T. Price, of Paducah, Ky.: "I suffered with painful... she writes, 'I got down with a weakness in my back and limbs... I felt helpless and discouraged... I had about given up hopes of ever being well again, when a friend insisted I

NOTICE OF PENDENCY OF SUIT. IN THE DISTRICT COURT, EDDY COUNTY NEW MEXICO.

Farmers and Merchants Bank of Springfield, Missouri, A Corporation, Plaintiff,

J. W. Phillips and Lucy A. Phillips, D. J. Hill, Oscar A. Knehan, C. M. Nicholson and Lottie Holland, Defendants.

THE STATE OF NEW MEXICO: To J. W. Phillips and Lucy A. Phillips, D. J. Hill, Oscar Knehan, C. M. Nicholson and Lottie Holland. You are hereby commanded to appear before the District Court in and for Eddy County (that being the Court in which the Complaint is filed and said suit is pending) in the Fifth Judicial District, in the State of New Mexico, and answer the complaint of the Farmers and Merchants Bank of Springfield, Missouri, a corporation, within fifty days from and after the first publication of this notice, to-wit: on or before July 23rd, A. D. 1919.

You are notified that the general objects of said suit and action are:

(a) Judgment against defendants J. W. Phillips, Lucy A. Phillips and D. J. Hill, jointly and severally for \$1,000.00, together with six per cent interest from May 26th, 1916.

(b) For a foreclosure of mortgage and sale of lands described as follows: to-wit: The north half of the Southwest quarter (N $\frac{1}{2}$ of SE $\frac{1}{4}$) of Section one (1), Township seventeen (17), Range twenty-six (26); the South half of the Southwest quarter (S $\frac{1}{2}$ of SW $\frac{1}{4}$) and the Northwest quarter of the Southwest quarter (NW $\frac{1}{4}$ of SW $\frac{1}{4}$) of Section six (6), Township seventeen (17), Range twenty-seven (27); the West half of the Northwest quarter (W $\frac{1}{2}$ of NW $\frac{1}{4}$) of Section twenty-four (24), Township sixteen (16), Range twenty-six (26); and the Northeast quarter of the Southeast quarter of Section twenty-three (23), township sixteen (16), Range twenty-six (26) East, N. M. P. M., to satisfy said judgment.

(c) That Plaintiff's lien be declared superior and paramount to any lien, claim, title or interest of Defendants Oscar A. Knehan, C. M. Nicholson and Lottie Holland, and

that they be estopped from ever hereafter claiming any lien, claim, right, title or interest in or to said lands. You are further notified that unless you enter your appearance on or before the 23rd of July, A. D. 1919, in said cause, judgment will be rendered against you by default.

You are further notified that D. G. Grantham is attorney for Plaintiff in said cause, and that his post office address is Box 261, Carlsbad, New Mexico.

WITNESS my hand, as County Clerk in and for Eddy County, New Mexico, and Clerk of said Court, and the seal of said Court, at Carlsbad, New Mexico, this 29th day of May A. D. 1919.

(SEAL) D. M. JACKSON, County Clerk and Clerk of said Court. May 30-June 20

DEPARTMENT OF THE INTERIOR United States Land Office, Roswell, New Mexico, May 10, 1919.

NOTICE is hereby given, that the State of New Mexico, under the provisions of the Acts of Congress approved June 21, 1894 and June 29, 1910, and acts supplementary and amendatory thereto, has filed in this office selection lists for the following described lands:

List No. 131, Serial No. 040041, Military Institute, Lots 1, 2, 3, 4, E $\frac{1}{2}$ E $\frac{1}{2}$ W $\frac{1}{2}$ Sec. 31, T. 21-S., R. 24-E., and W $\frac{1}{2}$ Sec. 11, T. 23-S., R. 24-E., N. Mex. Mer. 956 acres.

Protests or contests against any and all of such selections may be filed in this office during the period of publication hereof, or at any time before final certificate.

MUST SETTLE MEXICO.

Mexico will have to be dealt with by the United States. In addition to the almost constant raids across the border and the murder of American citizens, many hundred millions of dollars' worth of American investments, made under treaty rights between this country and Mexico, have been confiscated by the Mexican government under the color of law.

Much of the outrage against American life and property was due to the belief in Mexico that we were "too proud to fight." The Germans also had that belief, as has been shown by the correspondence between German military men and government officials, and under that delusion they attacked American life and property with what they regarded as impunity.

But we fought in Europe, as bravely as any nation ever fought. Our soldiers were shock troops from the beginning. Also they never stopped, when they undertook a job of cleaning up an enemy, until it was well done.

The time to bring Mexico to her senses is here, and the army is ready, as it never has been ready before.

Of course, there will be no war with Mexico, because the Mexicans will understand from the beginning that resistance would be hopeless. Angeles may overthrow Carranza, but the new regime would be quickly overthrown by a conspiracy of ambitious chiefs. Mexico cannot cure herself. We might let her people cut their own throats as long as they liked, were it not for the fact that they are constantly inflicting wounds upon our people, not only in Mexico, but within our own borders.—Albuquerque Journal.

WEATHER AND CROP CONDITIONS IN NEW MEXICO.

For the week ending June 17th—The week was a favorable one, with moderate to rather high temperatures and scattering thunderstorms, mostly in east and south-east counties. Crops continue rapid growth generally and ranges are in good to excellent condition, with stock doing well. Winter wheat is nearing harvest in eastern counties, with unusual promise, and spring wheat, oats, corn, beans, kafir, sorghum and fodder crops are making rapid progress. Some replanting of corn and beans has been done, because of the recent frost, but mostly these crops have recovered or were undamaged, and cultivation is general. First cutting of alfalfa in northern counties promises to be light.

Albuquerque: Grass and range in excellent condition; some damage to wheat from rust. Abundant moisture, but more sunshine would be good.

Lakewood: The ground is getting dry, although have had a few local showers recently. Farmers are preparing for second cutting of alfalfa. Stock and range are yet in good condition.

Loving: Past week good growth, weather and all crops doing well.

Versailles: Corn up since cold period looks poorly; most replanting done. Much alfalfa cut and stacked that was nipped by frost. Potatoes look good. Much new ground broke, this spring, but little new alfalfa sown, apparently.

James Springs: Sunshine adequate. Some beans that have leaves nipped are recovering and sending out new leaves. Grapes apparently killed.

Barton: Some of the frozen corn and beans had to be replanted, but most corn is outgrowing the damage. Plenty of moisture in soil.

Hermosa: Plowing and cultivation general. Some would sow oats and alfalfa but now waiting for rain. Afternoon windy and hot, drying out the soil, but nights continue cool and crops look well.

Taos: First crop of alfalfa will be light because of frost damage, and farmers are now cutting it. Wheat looks fine and promises a good crop. Fruit yield will be light in the valley.

Roswell: Good showers occurred during the week, which was cool, with sunshine below the normal, but sufficient. All crops look well, although growth has been slow because of the coolness. Ranges best for five years and more cattle needed. Cherries gathered and apricots ripening. Rains have interfered with wheat harvest and cutting of alfalfa.

Bland: Very light showers during the week.

Deming: Most of the milo, corn and kafir has been planted. Tomatoes have a 95 per cent stand and prospects are good.

WANTED.

The General Ordinance depot at Fort Wingate, New Mexico, is in urgent need of two hundred unskilled laborers and twenty-five first-class carpenters for immediate employment.

Men who sign an agreement to work six months, if required, will have their transportation expenses borne by the Government.

Arrangements have been made at this place so that men employed can secure lodging and meals for a charge of 75 cents per day. The rate of pay for carpenters is 45 cents per hour and for laborers 35 cents per hour. There are prospects for at least five months' work.

For further information inquire of T. H. Hill at the Post Office, Carlsbad, New Mexico.

WILL TELL THE EAST ABOUT NEW MEXICO'S RESOURCES.

Federal Railroad Administration Sends J. F. Jarrell to Gather Data for Distribution Among Homeseekers.

The railroad administration has sent J. F. Jarrell to New Mexico to collect information among homeseekers. Mr. Jarrell, who formerly was editor of The Earth, the Santa Fe railroad's industrial paper, now is assistant manager of the agricultural section of the railroad administration, in charge of the homeseekers bureau. The data he assembles will be sent in bulletin form to those who ask about New Mexico advantages.

"The mild climate of New Mexico appeals especially to the people of the north and east, and we are receiving inquiries about it—from folks weary of shoveling coal and carrying ashes," Mr. Jarrell said. "Our bureau at Washington is able to give general information about the state's climate, production, markets, transportation facilities, schools, churches, roads, living conditions and other matters, and if specific information about a particular locality is wanted we refer the inquiry to a committee of agricultural representatives of the railroads operating in New Mexico, of which C. L. Seagraves, supervisor of agriculture of the Santa Fe, is chairman. The other members are R. S. Trumbull, agricultural agent of the E. P. & S. W.; Alexander Jackson, supervisor of agriculture of the Rock Island, and H. W. Olin, supervisor of agriculture of the D. & R. G."

"Investigation by the railroad administration shows that the movement of young men and women from the country to the city continues, but it is not so strong as it was. The lure of the city drew the heaviest toll from the country just before the war, but the indication now is that the movement has been checked to a considerable extent, and that many who left the farm are returning. The establishment of community centers—such as are found in various parts of New Mexico—with social advantages, as well as greater opportunities for the study of music, art, literature, and for better spiritual progress, is doing the work. In other words, the needs of country folks are being met. The telephone and the automobile have eliminated distance, and in place of the deadly dullness which drove boys and girls to the city there has come a charm growing out of improved living conditions more difficult to resist than the town's white lights."

"In the last few years a majority of the rural districts have barely managed to hold their own in the matter of population; a few have lost, although the country as a whole has made a substantial increase. In my opinion there is going to be a big change in the next ten years. The farming industry is recognized as the most important industry in the world, and I look for a steady increase in the number of men and women engaged in the farming business now than ever before in its history, and that is going to attract good workers to it. The railroad administration has brought about the organization of all the railroads, and states that the purpose of adding in every possible way the development of agriculture it will help make the farming business a great success. It will help increase the rural population of New Mexico by directing the attention of homeseekers and other desirable investors to the state's resources that are undeveloped."

The idea of restricting immigration catches the popular fancy and Congress will probably put it over. If the thing goes through the after effect will be to make a lot of lazy Americans turn out and do some work in order to keep the world moving. We have been turning over so much of our labor contract to foreigners that the native hand is out of practice and has lost much of its cunning. We work when we think and think we are working.—stockman.

FOR SALE OR LEASE:—A first class restaurant doing good business. Desirable location. Liberal terms if sold at once. Address BOX 283, Carlsbad, N. M.

FOR SALE:—Cheap; a ten-acre tract of good land in La Huerta, with 4-room house and out buildings. See CHRIS WALTER, Or phone 103 W.

If you are in the market for a new car, don't fail to see the 1919 series new model Studebaker at the Ohmhus Shops and Garage—"Can Fix It."

INTEREST.

Here is what one man did. If you don't know him you know someone just like him in your town. Twenty years ago he owned the clothes he stood in and that was about all. He saved fifty dollars the first year; the next year, with a little better wages, seventy-five.

One thing with another—a wife and family included—he has saved an average of five dollars a week for the twenty years. What he saved in twenty years was about five thousand dollars. What he has is twice five thousand—like the man in the parable. His dollars working for him bring him now more than his yearly saving. Making a "wealth heap" has two processes—addition and multiplication. Saving is addition—a dollar and a dollar and a dollar. It comes easier as one goes along but the increase is no faster next year than now.

When you set the dollar to work—that is multiplication. Your pile grows slowly this year, a little faster, still a little faster, then faster, and faster till interest outruns saving. War Savings Stamps do more than add dollar to dollar. They begin to multiply.

The preparations are practically complete for the big Boy Scout camp which will be participated in by forty boys from the two Carlsbad troops. For camp, which is to be held at Kuska, New Mexico, seven miles from Cloudcroft, will be attended by Scouts from El Paso and various parts of New Mexico. The place selected is said to be ideal for camping purposes and arrangements have been made by the El Paso Chamber of Commerce, whereby the actual cost to each Scout for meals and bed will only be fifty cents a day. Cots will be furnished the boys who are required to provide their own bedding, and in view of the cool nights in that region, each boy will carry a pair of blankets. They are fortunate in not being required to carry any cooking utensils or similar equipment, all this being furnished by El Paso without cost to the boys. Large mess tents will also be provided and sleeping tents as well. Accompanying the boys from Carlsbad will be Scoutmasters Rawlins and Purdy, and Photographer Davis, who will take his Cirket Camera, and we may expect some fine pictures. J. E. Wallace, R. M. Thorne and perhaps another citizen interested in boys will also attend. They will leave the morning of the first of July and expect to make the trip in a day.

Services at the Christian church Sunday, June 22nd—Bible school at 10 a. m. Junior C. E. at 3 p. m. Communion and preaching service at 11 a. m. A chalk talk sermon at 8:30 p. m. A cordial welcome to all. D. F. SELLARDS, Pastor.

"WHERE THINGS ARE NEW."

LOVING LOCALS.

Miss Donna Ferguson visited friends in Loving Saturday and Sunday.

Robert Holcomb and wife were shopping in Carlsbad Saturday.

Jed Howard spent Saturday night with Pauline Rosson.

Mr. and Mrs. C. F. Pardue left Saturday morning for several days' visit in Fort Worth, New Orleans, and other eastern points.

Rich Carter and family, Bob Morrison and family, S. D. Baxter and family composed a party on the river Sunday afternoon. All report a lovely time with plenty of fish for supper.

Eddie Wesley came in Saturday from State College, for a visit with home folks.

Pardue Rosson, Jed and Reginald Howard went to Rocky Arroyo on Sunday.

The girls of the sewing club met with their leader, Mrs. Wyman, on Tuesday afternoon. The girls seem very enthusiastic and are doing some very nice work.

Bob Morrison left Wednesday for a vacation trip in different parts of the east. Mrs. Morrison will have charge of the office in his absence.

Mrs. Eugene Donaldson has been suffering severely with a very sore thumb, caused by a thorn from a sand burr.

Troy Jenkins and father took supper with friends in Carlsbad. Miss Elizabeth DeWitz came down Saturday for a visit with home folks.

Pardue and Ned Rosson were guests at supper of Oren and Eddie Wesley Wednesday evening.

The Baptists will give an ice cream social Saturday night at the school house for the benefit of the new church which they expect to build in the near future.

Fred Dearborne was a Loving visitor Thursday morning.

NOTICE.

Boy Scouts' watch contest is ended. Some boys have failed to turn in collecting sheet. Do not give subscriptions or pay any money to any one on these sheets after this date. H. W. BURTON, Traveling Representative, El Paso Morning Times.

Messdames M. L. and Ray V. Davis

were joint hostesses at the home of the latter, yesterday afternoon, giving one of the pleasant progressive teas which are occupying the attention of the Methodist people at this time. The pleasant afternoon and the congenial crowd made the hours glide swiftly by. Refreshments were served and the tea was a financial, as well as social, success.

Mrs. Lee Hansen added wonderfully to the pleasures of the afternoon by reading "That Old Sweetheart of Mine" and Lillian Bearup played a number of piano solos which were greatly enjoyed as was her reading. Evelyn Moore Kirchner also gave an interesting reading. Some twenty ladies were present.

Mrs. C. O. Merrifield of Carlsbad will be a delegate to the Supreme Convention of the Woodman Circle which will convene in Chicago, July 17th. Mrs. Merrifield, being past grand guardian of the state of New Mexico, is a member of that body by virtue of her office. She is perhaps the best versed woman in the work of the circle in the state and local circle. After the convention has adjourned, Mrs. Merrifield will continue on to Michigan, her old home, where she will visit until fall.

The Current reporter was surprised and pleased to hear the voice of Madam Minter over the telephone yesterday. Madam Minter is now able to walk around the room, with the assistance of a stick and her friends are hoping she may soon be completely restored to health. She wishes the Current to thank every one for their kindness to her during her recent illness, as was evidenced by their gifts of dainties, flowers and the many acts that mean so much to the recipient during sickness.

Hay shipments have fallen off considerably this week. It being between the first and second cuttings; about a car a day is the average. The Parallel Commission Company of Kansas City has a buyer here, who is handling practically all the hay now on the market. When the second crop has matured and is ready to market, hay movements will increase accordingly.

W. W. Simpson came down yesterday from the Guadalupe Sheep Company's ranch in the mountains. With him was his little son who has been roughing it with his father and is in fine health. In fact, he has not had a sick day since he has been at the ranch. Mr. Simpson says things are surely looking nice at the ranch; that they have about 3000 fine lambs and that grass is good and water plentiful. He came down to see about the company's wool, bringing a load of the fleecy staple with him.

GALLUP MAN USES NOVEL METHOD TO KILL PRAIRIE DOGS.

"Tex" Pickard of Gallup is exterminating prairie dogs by the thousands by gassing the pests, by a method he devised himself, says the "Gallup Herald." He uses acetylene gas which is generated in the burrows several feet under ground.

He puts a small quantity of the carbide in a can which is fastened to a stick. A little water is poured on the carbide and the can pushed down into the hole. The mouth of the burrow is covered with a piece of paper to prevent the gas escaping. The carbide generates the gas rapidly and within a short time the burrow is full of gas and the prairie dog dies.

Ten pounds of carbide will generate enough gas to kill thousands of prairie dogs. This method of ridding the country of one of its most destructive pests is very simple and costs but little compared with some of the other methods in use. No special apparatus is necessary, any rancher can do the work and in a little while can kill every prairie dog on his ranch. Mr. Pickard has tried this method very successfully on his ranch south of Gallup.—State Record.

500 STUDENTS AT SILVER CITY NORMAL.

The Normal School Summer Attendance Exceeds All Former Figures.

The New Mexico Normal began enrolling for its summer session on Wednesday, June 4th. The enrollment has been exceptionally heavy; up until noon of Thursday four hundred fifty have been enrolled and others came in on the train in the afternoon. This is the largest enrollment that the summer session has ever had, exceeding any previous enrollment by more than sixty. The school has knowledge and definite promises enough from individual teachers to make the enrollment for the summer exceed five hundred.

The school is living up to its reputation of good substantial work by starting all classes on Thursday. The teachers are being well cared for outside of school hours. The Normal school has rented extra dormitory rooms whereby they can provide for many of the students and the homes of Silver City have been thrown open to the students. The students all report that they are comfortably housed and well taken care of.

The faculty are very enthusiastic in their reports as to the quality of the students that are enrolled in the summer school. Also as to their seriousness and their desire to get all help that it is possible to get in a period of eight weeks.

A number of outside speakers are being provided to talk to the summer school students and bring them a message. This will not only help to enliven but also to strengthen the work that will be done in the class rooms.

The physical training department with the co-operation of the Training School will give a physical training exhibit tonight in the new Gymnasium at 7:30 p. m. This is an exhibit largely for the benefit of the summer school students and will illustrate to them the kind of work that it is possible to do in a school. This is not an exhibit an ordinarily understood but simply an outgrowth of the work done in the school this last year.

Increase Continues.
The attendance at the summer session of the New Mexico State Normal School continues to increase. New students continue to arrive in groups of eight to ten from all over the state. At noon yesterday the total was 510, the largest number ever enrolled during a summer session at the institution, exceeding by more than 200 the total enrollment of last year.

Of the counties outside of Grant, Eddy county, with an enrollment of 36, made up largely of the high school graduates of Artesia and Carlsbad, sends one of the largest delegations. Colfax county, with 10 representatives, San Juan county with six, and Union county with eight, hold the record for distance traveled.

One of the most interesting series of lectures and programs ever provided during a summer term is being planned for the students and the public, and will be announced in detail in a few days. The lectures will include men widely known throughout New Mexico and the Southwest.

U. & PIGEON LANDS AT SARAGOSA.

W. J. Black of Saragosa was a visitor in Pecos the forepart of the week, attending to business matters, and made the Enterprise office a pleasant call while here, and brot the information that one of the U. S. carrier pigeons landed at the farm of a Mexican there. Upon inquiry it was found that the bird came there in the month of November, 1918, and has been there ever since. The bird is a fine specimen, and while it carried no capsule in which messages are contained, it had the regulation leg-bands and wing marks. On the right leg was a silver band stamped with the numerals, "18-2459, U. S. A." On the left leg was an unmarked silver band, while the marking on the under side of the left wing was "U. S. A., P. S. 27."

Mr. Black stated that the pigeon was in perfect condition with the exception of its right wing, the injury to that member making it impossible for it to fly any distance. He said it was having the best of care, and that the Mexican at whose place it alighted considered it a good omen and will not part with it except to the government authorities.—Enterprise.

REFERENDUM PETITION ON PROHIBITION FILED.

The New Mexico "wets" filed a petition with the secretary of state yesterday asking for a popular vote next regular election on the national prohibition amendment ratified by the legislature at its last session. The petition is signed by 15,000 votes, 3,000 more than the constitutional requirements.

The constitution provides for a referendum of any measure passed by the legislature on the petition of 25 per cent of the legal voters.

The total number of petitioners signing the petition is 14,786, distributed among the counties of the state as follows: Bernalillo, 1,823; Chavez, 521; Colfax, 531; Curry, 388; De Baca, 175; Dona Ana, 762; Eddy, 223; Grant, 940; Guadalupe, 159; Hidalgo, 7; Lea, 76; Lincoln, 366; Luna, 364; McKinley, 209; Mora, 587; Otero, 253; Quay, 492; Rio Arriba, 616; Roosevelt, 206; Sandoval, 427; Santa Fe, 746; San Miguel, 1,456; Sierra, 358; Socorro, 506; Taos, 447; Torrance, 398; Union, 418; Valencia, 507.—State Record.

John Hunick was a visitor to Roswell the first of the week.

"NO ACCIDENT WEEK" TO BE JUNE 22 TO 23.

Railroads under Federal Control, comprising the Central Western Region, have set aside the week of June 22nd to 25th, inclusive, as a "No Accident Week."

During that week the 350,000 railroad men employed in this Region will be asked to, in every possible way guard against injury, will be asked to have in their make-up just a little more of the milk of human kindness, to be actuated by somewhat different motives and strive for a higher ideal than before—and it is to be hoped will be conscientiously and wholeheartedly striving to avoid an injury that might bring physical suffering to themselves or fellow-workmen or carry a sorrow into their homes.

Few people outside of railroad service know of the constructive, effective safety work being carried on today; as evidence of its accomplishments be it noted that in the Central Western Region alone, during the first three months of 1919, there were 90 fewer killed and 1050 fewer injured than in the same period last year.

Tae Santa Fe say in their appeal for the individual co-operation of their employees: "The commodity we are trying to sell is Happiness, the price of it is merely an effort to do the right, the square thing; we will take an assurance of one's good intentions as the first payment, and promise larger and more lasting dividends than are possible from any other investment."

It occurs to this paper that the period set apart by the railroads as "A No Accident Week" might properly and profitably be similarly observed by the general public; if parents would begin that week to keep their children from making a play ground out of the public streets, if drivers of automobiles might begin to show some regards for the rights of others, drive more safely and sanely, and begin to show some appreciation of the dangers lurking at public grade crossings, etc., it would be a history making week for the entire region.—Clovis News.

MAY ESTABLISH LAW DEPARTMENT AT UNIVERSITY.

Santa Fe, June 16.—Detailed consideration is to be given a proposition to establish a law school as a department of the University under the new regime that is being discussed. It is argued that annually, several score of young men are admitted to the bar by the state supreme court who have more or less training, but none of whom have made an intensive study of New Mexico jurisprudence such as they would have in a New Mexico law school. The New Mexico statutes in part based on the common law, in part on the Code Napoleon and in part on the law as it came from Spain through Mexico to New Mexico require for their mastery special experience or study. Similarly, New Mexico precedents, and legal questions that might be called local, growing out of irrigation, customs, proximity to the Indians, old land grants, ancient deeds, Spanish phraseology and similar peculiar phases of life in New Mexico, must be well understood by the successful practitioner. There should be openings too, for the man specially prepared in sympathetic environment to deal with legal questions in the adjoining republic of Mexico. It is argued that for a law school of that kind there would be immediate and considerable patronage, which would grow rapidly with the years and would keep many of New Mexico's finest young men in the state, who, otherwise go to universities elsewhere for their law course. It is pointed out that the establishment of a law school requires no extensive or expensive equipment, that Albuquerque has a scholarly bar and in its courts affords ample opportunity for practical work by students. The graduation certificate should admit to practice in New Mexico without further examination and thus assure the New Mexico law student preference and precedence over the law student who has graduated elsewhere.

HOUSE STRUCK BY LIGHTNING.

The home of Oscar Todd, who lives southwest of Clovis, was struck by lightning during the rain Wednesday afternoon. Mr. Todd was badly stunned by the stroke and the building was set on fire. Mr. Todd soon recovered enough to put out the fire but feels like he ran a pretty narrow escape and does not want anything else to do with lightning.—Clovis News.

Mr. and Mrs. Long, the lady a daughter of Mr. and Mrs. John Hunick, of the lower valley, came in last week from Denver, Colorado, and will likely remain here for some time.

Miss Mary Lee Newton and her friend, Miss Geraldine Stahl, arrived last Friday from the Northwestern University, where both young ladies were students. Miss Stahl will spend a month or more of her vacation in Carlsbad.

Paul Area and Mrs. Area were visitors in Carlsbad a couple of days the first of the week from their mountain home, where every thing is reported moving on nicely.

FARMERS SEEK TO HOLD EMPLOYMENT BUREAU FOR HELP.

The National Board of Farm Organizations, representing over 3,000,000 farmers in every state in the Union, today asked Congress to provide for the continuance of the United States employment service. The National Grange, numbering a million farmer-members, also has made similar request.

In letters sent to the chairmen of the appropriations and labor committees of the house and senate, the National Board of Farm Organizations, through William T. Greasy, of Pennsylvania, chairman of its executive committee, said that the federal employment service has been of "incalculable value" to the farmers of the country in the past and that it is especially needed this year in view of the farm labor situation. Without it, he said, the western wheat farmers "will be materially injured."

No labor problem is more serious than that of supplying adequate farm labor for the farmers at the points where needed and at the proper time," said Mr. Greasy's letter. "Although we understand that there is a surplus of labor in certain centers, still the farmers are having great difficulty in obtaining sufficient labor to meet their needs."

"It is vitally necessary that the

farmers have some agency of national scope through which to obtain their help when needed and the seasonal problem promises to be serious, particularly in the big wheat belt extending from Texas to the Canadian border wherein is grown three-fourths of the entire wheat crop of the United States.

"During the past two seasons the U. S. employment service has so mobilized the labor forces that by judicious distribution following the ripening of grain the farmers were able to harvest their crops with a minimum loss of wheat. If a national service is not maintained the farmers will be materially injured by not having the advantage of drawing on the labor supplies in other states at the time needed."

"It would certainly be unjust to compel not only the worker but in many instances the farmer to pay a fee to a private employment agency for every worker furnished. In these times it would be a great mistake to compel the U. S. employment service to cease operations, particularly in view of the present labor situation in the agricultural districts."

A. L. Barkman, in charge of the farm labor activities of the U. S. employment service in the western wheat belt, with headquarters at Kansas City, estimates, in a report received today by the service, that 200,000 men will be

needed for the Kansas harvest, which should begin between June 15 and 20 in the southern part of the state reaching the central portion ten days later.

OWN YOUR HOME.

An own-your-home campaign is now being conducted by the Department of Labor, and it is one of the most sensible campaigns yet started by the federal government.

The "housing campaign" in which companies, communities and states have been induced to participate in the past, are all right in their way, but nothing appeals to the family like a home of its own. Every member of the family takes a pride in its own home, no matter how humble. And it is from these owned homes that the best and most patriotic citizens usually come. No other class of property appeals so strongly to a man as his home. You may steal his horse or his cow, or rob him of stocks and bonds and get away with it without much trouble, but whenever you attempt to unjustly deprive him of his home, you will surely run up against a bunch of trouble. The government is not proposing to loan money to the home build-

er, but it simply suggests that a general committee be appointed in every community to encourage the home building plan. The idea is all right, and no doubt will be the means of encouraging the building of homes everywhere. In this community there is always a need of homes. Houses can be had in plenty, but "homes"—that's another question.—Silver City Independent.

Ways to Control Hog Lice.

Lice on hogs can be controlled in various ways, but complete eradication is best secured by the use of dipping vats, experiments conducted by the United States department of agriculture show.

Medicated hog wallows and rubbing posts, the experiments showed, kept the number of parasites reduced so that they caused little or no damage, but neither of these methods destroyed all the lice. Crude petroleum was used on the rubbing posts and the wallows were medicated with coal-tar creosote dips, pine tar, crude petroleum and bland oils. Crude petroleum and coal-tar creosote dips proved to be more effective when applied from an ordinary sprinkling can than when used in wallows or on rubbing posts.—U. S. Department of Agriculture.

GOOD DINNER FOR ONLY 40 CTS.

We are now serving clean, substantial dinners, prepared to meet the approval of the most fastidious at a price lower than the public has been in the habit of paying.

**MONTEZUMA PETROLEUM CO.
GETS OPTION ON OIL
DRILLING OUTFIT.**

The Montezuma Petroleum company of Albuquerque has secured an option on a standard Star steel oil drilling rig, capable of going to a depth of 5,000 feet, and it is expected that by August 1 drilling will be started on one of the company's leases in New Mexico.

P. B. Zettler, general manager of the Montezuma company, and Robert Starry will leave today for Gallup to obtain some new leases to add to their already large and valuable holdings.

As indicating the spread of the oil fever in the Albuquerque vicinity, it was announced that a company to be composed entirely of women is being formed. Leases have already been closed on a large acreage of land, and the company will be formally incorporated in the near future. So far as is known, there is but one oil company in existence at the present time which is composed entirely of women.

**NOW HE IS GLAD HE KEPT
HIS W. S. S.**

Byers, Texas, June 16.—Postmaster J. I. Dunn of this city was approached in January by a young man who asked his advice in regard to having \$10 worth of War Savings Stamps redeemed, so that he could buy on stock. Mr. Dunn told the young man he could get his money if he wanted it, but advised him to hold his stamps, which he did.

Last week the same young man came to the postoffice and bought \$50 worth more of War Savings Stamps.

"You were right," the young man said. "The company in which I would have invested hit a dry hole and if I had bought stock, my money would have been gone. As it is, my War Savings Stamps are worth more than they were. Give me ten more. I'm going to hold them and buy more. And I know that any time should a big opportunity arise, I can get my money at the postoffice on ten days' written notice with the interest it has earned."

Have YOU bought YOUR Thrift Stamp today?

POSTMASTER EXAMINATION.

The United States Civil Service Commission has announced an examination to be held at Carlsbad, N. Mex., on June 28, 1919, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth-class postmaster at Knowles and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill any vacancy by reassignment. The compensation of the postmaster at this office was \$576 for the last fiscal year.

Applicants must have reached their twenty-first birthday on the date of the examination, with the exception that in a state where women are declared by statute to be of full age for all purposes at eighteen years, women eighteen years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the postoffice for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application blanks, Form 1753, and full information concerning the requirements of the examination can be secured from the postmaster at the place of vacancy or from the United States Civil Service Commission, Washington, D. C.

Applications must be properly executed and filed with the Commission at Washington, D. C., at the earliest possible date.

CATTLE DIPPING ORDER.

It is unfortunate that scabbies are again found among cattle in many counties in the state. The Cattle Sanitary Board has issued orders that all cattle in infected districts must be dipped. The order of the board should be complied with. General co-operation with the Cattle Sanitary Board by every owner of cattle in these districts will soon stamp out the infection.

There may be objection because of the cost of dipping in some quarters. But the cost is slight compared with the benefits. The cost may be materially reduced through co-operation. The little live stock grower has come to stay in New Mexico and his success depends wholly on the care he gives his stock. By joining forces with the sanitary board he will be better able to protect his own interest.

**GOVERNMENT TRUCKS FOR
ROAD WORK.**

Within a few days the first shipment of road building equipment allotted to New Mexico will reach Los Lunas, where E. M. Otero has donated to the state highway department thirty-eight acres of land close to the Santa Fe tracks for storing this and other equipment and material which will be received in the future.

Under a rider tacked onto the agricultural bill passed during the closing hours of the last session of Congress, the secretary of war is required to deliver to the secretary of agriculture all "surplus" supplies, equipment and material suitable for road work, the secretary of agriculture to retain 10 per cent. for the construction of roads in national forests, the rest to be distributed among the various states in proportion to their federal aid.

It has not been determined just what material and equipment will come to New Mexico, as much depends upon what the secretary of war considers "surplus". The state will receive, however, in its first allotment fifty new trucks of two-ton capacity, now located at the factory and approximately 30 other trucks located at San Antonio.

It is expected that New Mexico will fare quite well in the distribution of this surplus equipment and material, as the state highway commission not only got in its request at an early date after the passage of the law, but the amount of federal aid requested for highway building is much larger than in some other and more populous states.

Material and equipment to the extent of about twelve million dollars was asked for, including trucks, graders, steam rollers, air compressors, ditching machines, tents, telephone lines, steel for bridges, pile drivers, tractors, carpenters' and blacksmiths' equipment and almost everything else that could possibly be used in highway building.

Under the provisions of the law the equipment and material can be used only on federal aid projects. It will be furnished to the state free of charge.

On the land at Los Lunas, in addition to being used for storing the equipment and material not needed immediately for highway work, there will be erected repair shops and storage sheds. Work

**WORLD'S CHAMPION COW
WORTH \$25,000.**

Rolo Merona De Kol, queen among the cows of the world, was sold for \$25,000 at the cattle sale held in connection with the convention of the Holstein-Friesian Association of America in Philadelphia. The price is next to the highest ever paid for a cow, the higher figure being \$35,000. Rolo holds the world's record for butter fat production with a mark of more than fifty-one pounds of butter in seven days and more than 200 in thirty days.

The purchaser was A. Schaefer of Cold Stream Farms, Lexington, Ky., who also bought the calf of Rolo for \$7,100. Both purchases were made after the keenest bidding from more than 1,000 breeders who crowded the auction place. The former owner of both animals was J. R. Hammer of Norwich, Ont.

Mrs. Y. R. Allen and little nephew, Nesbitt Roach, expect to leave the first of the week for Muskogee, Oklahoma, for a summer's visit. Master Roach who has attended school in Carlsbad the past year will probably not return with his aunt. Desiring to make his visit memorable, Mr. and Mrs. Allen gave him a farewell party last week at their home on Canal street. Eighteen of his most particular friends were guests of the happy affair and enjoyed the games on the lawn and the refreshments provided at the close of the afternoon. The children present were Claire and Helen Benson, Evelyn and William McIntosh, June Joyce, Sue Cathrine Williams, Mary Lois Gamel, Mary Belle Rickman, Mary Craig, Virginia McAdoo, Atalee Horne, Henrietta Dilley, Jack Barnett, Lawrence and Robert Whitson, Perry O'Connor and Louise Moore.

Souvenirs of miniature flying machines were given the young men guests of the party, while the little ladies were soothed by receiving dolls. All expressed their pleasure at the close of the afternoon, only tinged with regret that their little friend must leave them.

Miss Mae Geer left Saturday night on a visit to her sister, Mrs. Keen Barr, at Albuquerque.

Misses Grace Stephenson and Lucile Johnston left Saturday morning. Miss Johnston, for Bakersfield, California, and Miss Stephenson to act as that young lady's substitute at the Texas & Pacific station in Big Springs, where the former is stenographer.

T. F. Campbell and son, of Oklahoma City, are spending a couple of weeks at the home of his sisters, Mesdames Jones and Campbell.

Mrs. Lee Middleton and Lee, Jr., were visitors to Queen over Sunday.

H. W. Burton, of El Paso, has spent the week in Carlsbad, looking after the interests of the El Paso Morning Times.

Bert McDaniels, plumber's assistant, left Tuesday for Ranger, Texas, where he has already secured a position.

Riley Dean has been heard from at the home of his relatives in Uvalde, Texas, having recently been discharged from army service. Riley is a brother of Mrs. Lee Middleton of this city and is well known here and at Queen.

Mrs. Callie King and little granddaughter, Hazel Marie McCord, went to Malaga, Saturday, for a little visit with Mrs. Bynum and Mrs. L. N. Hogg, friends of long standing.

Mrs. John Merchant, J. D., and John R. Joyce left Monday for the San Simon ranch on the plains. The boys, after a winter spent at school, were very anxious to get on the ranch again and ride bronchos and such other sport as boys love.

Miss Jane Elisabeth Gale arrived Saturday evening from El Paso to visit with Mrs. J. A. Hardy for about a month.

Ray Hill, William Bates and Granville Hardy left Tuesday night to join the 200 or more boys at Roswell, who have signed up for the big camp at the Presidio, Cal.

Clarence Huchings returned on Wednesday from Eastland, Texas, where he has been working at his trade for some time. He says there is plenty of work down there and that all the Carlsbad contingent now living at that place or in the vicinity are in excellent health and all seem happy. A number of other men plan to leave the last of this week or the first of next for Eastland.

Father Fabian, who has charge of the Mexican Mission in San Jose, returned Wednesday from a visit to Roswell.

FOR RENT:—Four rooms and bath, furnished or unfurnished. Phone 127 or 49.

Mrs. John Murrish and little son, James Bujac, of Lakewood, were business visitors to Carlsbad Wednesday from their home.

Mrs. Fred Rindskopf, who has been here for some weeks in the interest of a fraternal organization, has decided to remain in this city permanently and has gone to house-keeping in the northern part of town. Her little daughter has been ill and required much of her mother's attention, but it is better now and Mrs. Rindskopf will be able to devote her time to her work.

It is better to get Current printing than to wish you had.

**TEACHERS WILL TAKE UP
WEIGHTY PUBLIC PROBLEMS.**

Milwaukee, Wis., June 15.—Twelve thousand teachers, representing the educational profession of America, will take definite action in the Milwaukee convention of the National Educational Association, June 21st to July 5th, demanding a place in the president's cabinet, and for a higher salary schedule for members of the profession. This much is already certain from advance information received from all parts of the country, relative to the holding of the biggest educational convention ever held in America. It will be the most important as well as the most largely attended because of the prospective action on these two subjects.

The action of the question of salaries and place in the cabinet for education will probably be taken up first in the committee of resolutions. The United States is the only government in the world which has not a cabinet place for the education of its young.

Among the important departmental sessions will be that on physical education, at which the development of responsible citizenship through physical education, and the relation of health education to the school, will be discussed. In connection with this department, a great mass demonstration will be held Monday afternoon at the auditorium, under the direction of Dr. Wittich, head of the Milwaukee department in which a thousand children will participate. Among the other sessions already arranged, are the correction of speech, disorder, commercial education, music and librarians.

A number of close personal friends of Mrs. T. J. Cooper, learning that Tuesday, June 17th, was the anniversary of the lady's birth, met at the home in Rio Vista for the purpose of doing honor to the day. Refreshments of cake and delicious ice cream were served in abundance to those present and all enjoyed the association with their friend of other years. The surprise came in the nature of a hostess shower for the honored lady and the afternoon was all too short. A number of friends were unable to be present because of sickness in their families but those absent and present joined in best wishes for many more happy anniversaries.

More than 50,000 soldiers have applied for farms lands and it is estimated that ten times the number desire to become landowners. Certainly their desire cannot be too quickly appeased, for the benefit of the country as much as for their individual advantage.

on the first building will start this week. Santa Fe engineers are on the ground now to locate the spur.

There are 53,000 trucks in the United States and 64,000 in France, according to late estimates and other equipment and material in proportion.

Private Buffalo, who lives with his mother, Mrs. Pearl E. Buffalo, at Boxby, Okla., was decorated for extraordinary heroism in action near Fey-en-Haye, France, September 12, 1918. Although he was seriously wounded early in action, Private Buffalo remained in the fight throughout the day, leading small parties of men against machine gun emplacements, killing two of the enemy himself and refusing to be evacuated until late at night, unable to fight further.

More than 50,000 soldiers have applied for farms lands and it is estimated that ten times the number desire to become landowners. Certainly their desire cannot be too quickly appeased, for the benefit of the country as much as for their individual advantage.

THE McCormick BIG 6 MOWER

THIS IS THE LATEST AND BEST
THING IN MOWERS

Its parts are so simple yet so wonderfully strong, making replacements few and repair cost light.

Its light draft and powerful cutting mechanism also is a strong argument in its favor.

Whenever you need a mower let us show you the McCORMICK BIG 6, it will be to your advantage.

We sell them.

LOCAL NEWS

For the best line of Auto Parts and Accessories, call at the Ohm-Shops & Garage—"Can Fix It".

Mr. and Mrs. Oscar Weaver were Sunday visitors at the Julian Smith home in Carlsbad from their home in Loving.

Mahan Wynan was a business visitor Wednesday from his home in the lower valley, at Loving.

John Cantrell came in from his ranch west today, and spent the day on business.

John House, representing the Folger Company, is visiting the grocery trade here this week, coming from his headquarters at El Paso.

John T. Bolton has been, and still is, quite ill at his home on Main street. He has been under the care of his physician for over a week with very little improvement. His friends are anxiously waiting his recovery.

Mrs. R. H. Bentop and little granddaughter left last night for Roswell in response to a telephone message announcing the illness of the lady's daughter, Mrs. Ewing Lusk. Mrs. Bentop is a sister of Mrs. Beales, and her home is in Missouri; she has been visiting here about a fortnight.

Tom McLennan came in yesterday from overseas and is receiving the glad hand from his friends in this city. Like many others of the returning boys, his coming is not all joy—his beloved and loving father having passed away during the time Tom was in Uncle Sam's service. His future plans are uncertain at this time.

John Angell, wife and children were in town yesterday from their home ranch on Dogger Draw.

A pleasant picnic party of three couples went to the same last night, carrying their supper with them, and passed a pleasant evening together. The party consisted of Mr. and Mrs. Bert Rawlins, Mr. and Mrs. Myron Clarke and Mr. and Mrs. John Wells.

Dr. A. A. Bearup was a passenger north last night, leaving for the Thousand Islands, where his relatives reside and where he will spend the heated term. The doctor has closed his office for the summer, an entire rest and change having been advised by his physician. He expects to return in the early fall ready for work again.

W. J. McGonigal recently purchased the Mullane ranch, northwest of town, Mr. Mullane giving possession immediately. The consideration is not given.

Jeff D. Hart, the cattleman from Lovington, was in town Wednesday. He tells of fine rains in that vicinity which makes things look prosperous for the stockman and farmer.

Kenneth Davis met with a painful accident at the family home west of town, Wednesday afternoon. The little boy had the misfortune to run a thorn in his foot so deeply that the services of a physician and an anesthetic were necessary for its removal. He suffered greatly before taking the anesthetic but now says he is mighty glad it's out, altho' sorry to miss his school.

Nancy Irvin Little invited all the little girls in her neighborhood to a party at her home yesterday morning. They all came attired as ladies, with long dresses, hair in the most approved style, and other paraphernalia that belongs exclusively to grown-ups. After a delightful time the ladies were served ice cream and cake and left for their respective homes. Ten were present.

Manuel Artines underwent an operation at Sisters Hospital Wednesday with excellent results.

Tonsilectomy was performed on one of the Sisters in charge of St. Francis hospital Monday and she is recovering rapidly.

The Baptist Ladies Aid, of Loving, will have an ice cream supper at the school house in Loving, Saturday night, June 21st. The ladies extend a cordial invitation to all their friends in Carlsbad and elsewhere to meet with them and assist them in their efforts.

The brick work on the new James building has been completed and the plasterers are now at work. In a short time the beautiful building will be completed and ready for occupancy. The entire structure is modern in every respect and will be one of the finest buildings in this part of the country, with its steam heating apparatus, fine electric lights, excellent plumbing and plate glass front. The work has proceeded rapidly and in an incredibly short time the contractor will turn over the completed structure to the owner.

The fine "Liberty" rug, which has been on exhibition at the Purdy Furniture Store, has been sold. Dolph Lusk becoming the purchaser. He also purchased a fine lot of new furniture which was delivered at his home on the plain Monday by Messrs. Allinger and Sellards. The gentlemen had a rather strenuous trip, as it had rained and they had to unload three different times and carry their load across muddy places, where they could not make the passage in their car.

PLEASANT DANCE AT THE LIVINGSTON HOME.

Honoring the visiting young ladies, Mrs. Marvin Livingston entertained with a dance at her home in La Huerta Wednesday night. The lovely home was at its best at that time, and the young ladies, under the soft glow of the shaded lights, presented a beautiful picture.

The dancing took place in three rooms of the spacious dwelling—living room, dining room and den being turned over to the young people for that purpose. Hardwood floors had recently been put in which added to the pleasure as did the excellent dance music furnished by Mrs. John Wells and Mrs. Tom Wood. Punch was served throughout the evening. The guests were: Misses Stahl and Everett Grantham; Mary Lee Newton and William Reed; Jane Gale and Harry McKim; Ina Camp and Elmore Jones; Hattie Smith and Leonard Jones; Frances Cooke and Arthur Breeding; Nettie Smith and "Babe" Campbell; Nellie Linn and Hemenway; Mildred Cooke and Frank Kindel; Marguerite Roberts and Howard Moore; Lillian Crawford and Pat Haley; Beale Jones and Bill Hodgins; Mary Mize and Patschen; Messrs. Sam Campbell, Joe Livingston; Mr. and Mrs. J. A. Hardy.

Earl Delk was in town yesterday from Rocky Arroya and visited a little while at the Current office. He tells us that his brother, Thed, will know to Carlsbad people, is near Denver on a ranch; that Ernest is still in Uncle Sam's service stationed at Fort Bliss, but hopes are entertained of his early home-coming. Mr. Delk, the father, who, it will be remembered, was blinded a couple of years ago, by the premature explosion of a blast of dynamite, has finally secured a system of raised letters, called the Moon system, which enables him to read his Bible with great enjoyment. Previous to this, he had tried two other systems, one in use in the State School for the Blind, at Alamogordo, and one from a like institution in California. Neither were successful but the one he now has seems better adapted to his use and he can read very readily in the Book of Books by its aid. The Delks have a splendid home garden which they irrigate with water from their well, but are not attempting to grow vegetables for the market, as they formerly did. Mr. Delk says, however, that they have five acres in as fine pinto beans as he ever saw, and will have a big crop of sweet potatoes from all indications.

Misses Dorothy and Hallie Fitz-Hugh have arrived in town from Clovis and will be here with their brothers during the summer. They have light housekeeping rooms at the Thayer residence and are very comfortably situated. Many of our people will remember the girls and their parents who were little children here but a few years ago. There is no discount on the patriotism of the Fitzhugh family—having three of its boys in the service, one son belonging to the 7th cavalry, having been discharged only a few days before the armistice was signed because of being under age, and one son, Everett, being killed during the troubles on the border.

Miss Mitchell, who formerly occupied a position as trimmer for the Joyce-Pruit Millinery department, has been in town a week at the home of her friend, Mrs. Anne Moore. She expects to leave for her home near St. Louis the first of next week.

An evening's program of good music will be rendered at the Air-dome Monday night by the Gerlach orchestra and the band, in connection with a splendid picture. The proceeds of the evening will be used by the Boy Scouts on their trip to the big camp.

George Roberts returned yesterday from a trip to Denver where he attended a meeting of tractor representatives and learned much of the workings and benefits of that machine which he had not known previous to that time. Mr. Roberts is representing the Moline tractor in several counties of this state and is making good in that line as in every other.

H. C. Muldrow came in Tuesday night from his sheep ranch and is still in town. He plans to return the first of the week to the ranch and will probably be accompanied by Mrs. Muldrow and Mrs. M. F. Singleton who plan to spend a couple of weeks there.

Mrs. Marvin Livingston had tonsils removed yesterday at Sisters Hospital, and is recovering nicely at this time.

Mr. and Mrs. M. Lewis, of the 9K ranch, were in town this week coming to meet Mrs. Lewis' mother, Mrs. May, who comes from Oklahoma, and continued on out to the ranch for a lengthy visit with her relatives.

From farm bureau and county agent reports for the month of April the farmers and a good many stockmen of New Mexico are thinking of silos. A number of farm bureaus are planning silo excursions. After the experience with drought for the past two years the silo is cheap insurance. Fully 200 pit silos will go down in the state this year and at least 75 of the above ground type. The Agricultural College and each county agent office have literature and all sorts of information on how to make silos and how to fill them.

BAND CONCERT.

Sunday, June 22nd, 8 O'clock P. M.

The following concert will be rendered by the Carlsbad Band at the band stand on the court house lawn, Sunday afternoon. This will be the first public concert given by the band for a long time and the people of Carlsbad should show their appreciation for the effort put forth and come out to hear it.

1. Overture....."Arcadian"
2. March....."Mediator"
3. Concert.....Waltzes, "Wynette"
4. One-Step....."How Ya Gonna Keep 'Em Down on the Farm" Intermission.
5. March....."Columbia"
6. Serenade....."Vesper Bells"
7. Waltz....."In the Gloaming"
8. March....."Ragged Ike"
9. (A ragged rag)
10. One-Step....."Oh, Daddy"
11. Grand Finale....."Star Spangled Banner"

The following is the instrumentation of the band so far as is known at this time. A rehearsal will be held tonight in the band stand, beginning at eight o'clock and any persons interested will be welcome.

Cornets—Dr. L. E. Ervin, Dibel Pate, David Sellards, Claude Brown, Ben Gerlach.
Clarinet—Joe Herzog, Edward Crozier, Chas. James.
Trombones—Bert Leck, A. G. Fleming.
Bass—Bert Rawlins.
Baritone—H. M. Chilcoat.
Alto—Milo Rohrer, Mike Kirch-er.
Drums—Gene Roberts, Otto Matheson, J. H. Jones.
RAY SOLADAY,
Director.

All Work Guaranteed.

The "Kindel Kids" came rolling in from Globe, Arizona, Wednesday night, or rather, Thursday morning. While about ten miles north of town the car refused to come any farther and the party, consisting of Mrs. Kindel, Miss Nettie Mae and Mr. Jones, took up the line of march for town arriving here at five in the morning, foot sore and weary. The car was brought in later and is now in the garage.

Several boys of the town were soliciting subscribers to the El Paso Morning Times this week, working under the supervision of Mr. Huston, who represented that paper in Carlsbad for a few days. The boys were very enthusiastic and several of them secured the seven subscribers necessary to obtain the premium—a wrist watch. Others who did not secure the requisite number of subscribers were paid in cash.

JOHNNIE BOEGLIN, PROP.
FIRST DOOR WEST OF EXPRESS OFFICE.

FROM COBLENZ, GERMANY.

Coblentz, Germany, May 15, 1919
Mrs. M. B. Culpepper,
Carlsbad, N. M.
My Dearest Mother:
Well, mother, I guess you may haul down your service flag for your son is coming home. "Toot Sweet"—This is the common expression here now. We are going home, as we are scheduled to leave for the "States" by the 1st of June. My mother, it is a grand and glorious feeling. All of the boys in the 4th Division are so pleased most "unto death" anticipation of their homeward journey. I hope we all reach home by the 4th of July. Our Division is safe, as the Atlantic is not bridged. If it were, suppose we would have to "hike" it all the way back home. This Division has always "hiked" it, when other units have had transportation. On this account, we have been nicknamed, "The Fresh-Air Division."

I hope this letter does not "beat" me home, by more than 15 or 20 days. Mother, please do not quit writing, as "Orlans" may be changed, thereby compelling us to remain in Germany for some indefinite time—you can never tell.

Oh, joy, I can not think of anything to write, except "We are coming home."

Ans. soon, sooner, soonest.

From your son,

JOHN WAILES CULPEPPER,
Supply Co. 58th Reg. Inf., A. P.
O. 927, 4th Div., A. E. F.

P. S.—"Hello" to all the folks.

J. W. C.

OIL IN NEW MEXICO

The people of New Mexico are watching oil development in the state with keen interest. They want development to proceed on the largest possible scale. They understand that commercial oil located in any part of the state will stimulate the growth of the state as a whole. They therefore expect that every encouragement shall be given to capital to come into the state to explore for oil. They want no exploitation, because New Mexico has had plenty of that kind of adverse advertising in the past in other lines.

Speculation in leases and placer locations for immediate return without regard to its effect in discouraging investors, is not looked upon with favor by the people of the state. They want the oil to be located and want that done as speedily as legitimate drilling operations on a large scale will permit. They know that it will take many dry holes before the real oil is struck. They also know that it requires plenty of capital to get results.

WEDDING BELLS.

A beautiful and impressive wedding ceremony united the hearts and lives of Miss Nettie Leona Tulk and George T. McClure, last Sunday afternoon. The ceremony was witnessed by only a few of the contracting parties' most intimate friends at the home of the bride's parents, Mr. and Mrs. James Tulk, in North Carlsbad.

The rooms were made beautiful by the use of cut flowers and flags. "Old Glory" being conspicuously displayed. Both families are noted for their patriotism, a brother of the bride and one of the groom having "gone West" during the Great War, a military wedding seemed very appropriate under these circumstances.

At the appointed hour, six p. m., Miss Inez Jones played the wedding march and the bridal party entered. Miss Ona White and Sank Ramsey of Roswell, being the attendants. Reverend Buren Sparks pronounced the solemn words that bound these young lives together, using the ring ceremony.

The bride, who is the youngest daughter of Mr. and Mrs. James Tulk, the well known stockman, has been a resident of Eddy county since her early childhood, spending her school days here and later having the advantage of a year at Baylor University, Waco, Texas. She is a girl of much charm of manner, charitable and active in church and philanthropic work. A devoted daughter and faithful friend, she possesses many of the qualities which go to make the happy and successful wife. In her bridal robe of white, Georgette crepe over white satin, with bridal veil and wreath, she made a beautiful picture as she gave herself into the keeping of the man of her choice. She carried a shower bouquet of bride's roses.

Mr. McClure and his best man were both in their uniforms, Mr. McClure having been a member of old B Company and leaving here with that organization. He was transferred to the military police at Camp Kearney and went overseas with the 160th Infantry, and was in France a little over six months. He is well known in Carlsbad, being one of the proprietors of the Carlsbad Bakery and a young man of industry and sterling worth.

Immediately after congratulations had been offered the newly-weds, a splendid wedding dinner was served. At the bride's table were the bride and groom, Mrs. James Tulk, Mr. and Mrs. J. F. McClure, Miss Ona White and Sank Ramsey; Miss Inez Jones and Wesley McClure; Mr. and Mrs. Middleton, of Monument, N. M.; and Rev. Buren Sparks. The table was beautiful with flowers, a large, white wedding cake occupying the place of honor. The menu was served by neighbors and friends, in three courses and is pronounced delicious by all who were present. After dinner music and happy social conversation was indulged in until a late hour. The bride's bouquet was caught by her friend, Miss Jones.

Mr. and Mrs. McClure will live in Carlsbad, occupying the James Tulk home for the present, and are now at home to their host of friends. May all the happiness and prosperity that belongs to a worthy, industrious couple be theirs in full measure and may theirs be a peaceful voyage over the Sea of Life, with a safe harbor at the end.

CHILDREN'S DAY AT CHRISTIAN CHURCH.

The Annual Children's Day exercises of the Christian Sunday School were well attended last Sunday night, the little church being filled with an appreciative congregation who enjoyed the exercises from beginning to end.

The children participating had evidently had the advantage of good drilling in their songs and recitations and the entire program was carried through without a hitch. Where all did so well it seems unfair to single out any one individual, but Linn Dillard is such a very little boy, and his speech and manner were so natural we trust we may be pardoned this time. In telling of the boys of other lands—Oriental boys—Linn asserted in poetical language: "When it comes to having fun, they're 'vewy' much like me," with an accent on the "vewy" which brought down the house.

Marga et Beckett, a little six-year-old, also made a "hit" with the audience in a little missionary recitation which was sweetly rendered.

Then there were dialogues, playlets and other features very interesting to all, the participants seeming to enjoy them as much as the hearers.

The collection netted about fifty dollars, which will be applied to missionary work, both home and foreign, and when the size of the school is considered, is certainly a wonderful record.

Music was furnished for the songs by Miss Helene Moritz and Miss Thelma Beckett who presided in turn at the piano and rendered very acceptable accompaniments.

Carlsbad was visited by another good rain Friday night. The rain gauge at the Government building registered .49 inches and from all reports the rain was much heavier west of town and in the Hope country than it was right in town. The rain will be fine for wheat and other crops and gardens. Light showers fell Saturday and Sunday nights and everything seems fresh since then.

Mr. and Mrs. J. G. Usery, Dudley and Sue Katherine, left Saturday in their car for Vici, Oklahoma, near where Mr. Usery has a lot of cattle, which he intends to put on the market.

Willard SERVICE STATION

Battery "Maybes"

Maybe your battery is in perfect condition.

Maybe the water level is up just where it ought to be ($\frac{1}{2}$ inch above the plates).

Maybe the battery is being kept charged as it should be.

But why take a chance?

A glance into each cell will tell you just where the water level is.

A two-minute hydrometer test will give you exact figures on the state of charge of every cell.

Or better yet, call on us and we'll do these things for you and give you the benefit of Willard consulting service.

LOCAL NEWS

Forty-nine hundredths of an inch of rain fell in Carlsbad last Friday night, and the streets and crossings were almost impassable from that cause. Many and loud were the wails of the business men and pedestrians who had the choice of three things to do: either go through the mire, go around it, or jump over it. Later in the week "Red" Smith was put to work hauling gravel and filling up the low places all over the city and we are in a pretty good shape for the next rain. From all appearances, we are likely to have a heavy rain before the last of the month. Here's hoping, at any rate.

Mrs. F. G. Steig, of Elida, who has been here for over a week at the home of a son, Fred Steig, left for her home Wednesday night. Miss Hazel Reed, also of Elida, accompanied Mrs. Steig to her home, but it is thought she may return and make this place her home, later on.

Efforts are being made for the reorganization of the Carlsbad band. Time was when Carlsbad had a band second to none in the state, but removals, deaths and other causes depleted its numbers until there were none left. With the return of the soldiers, however, it is thought a band may be reorganized and sustained. The best asset a town can have aside from its schools is an up-to-date band.

W. M. Watkins and wife, of Jalisco, came in from their home Monday and spent several days in town. Mr. and Mrs. Watkins have two or three children of high school age and hope to secure a suitable home in town for use of their family this winter, that they may put the children in our high school to finish their education.

S. E. Moberley, of Longview, Texas, a brother-in-law of Mrs. W. R. Whitson, of Carlsbad, arrived here Friday and remained until Monday morning. He was pleased with the Pecos Valley and made investments while here.

Bob G. Moherman of Kansas City, hay buyer, is in town assisting the Lange Brothers in buying and shipping alfalfa hay.

Mrs. J. J. Stevenson and two children, Jack and Mary Louise, came in this week from Rupert, Idaho. Mrs. Stevenson was formerly Miss Clarence Breeding of this city and still has a host of relatives and friends here where she attended school and afterwards married.

Albert Ares was in from the mountains, west of town, and spent Sunday, leaving Monday on the return trip to the ranch.

To avoid crowded hotels, spend your summer vacation in the home-like boarding house at Weed, N. M. Prices reasonable. No tuberculars wanted. Jun 12-May 15

A PLEASANT WHIST PARTY.

Mrs. Marvin Livingston was a most gracious hostess Tuesday afternoon to a party of ladies at her beautiful home in La Huerta. The guests played whist and at the close of the games a delicious luncheon was served. Mrs. Hodgins making highest score among the ladies received a dainty nut dish as a reward for her skill; the bouby prize was given Mrs. Frank Richards and consisted of a deck of playing cards. The guests sharing Mrs. Livingston's hospitality were: Mesdames J. P. Joyce, W. S. Moore, R. E. Dick, Holley Benson Lee Hansen, Bujac, L. E. Merchant, A. Z. Smith, Clarence Richards, Carl Livingston, Rawlins, W. B. Robinson, D. Jackson, Ervin, Hardy, Lang, Wells, Frank Richards, Hodgins, Worthem; Misses Gregory, of South Carolina, and Gale, of El Paso. American Beauty roses were given as favors.

J. W. Gamel, for twelve years connected with the dry goods firm of Joyce-Fruit Company, and until his resignation, recently, holding the position of manager of the Carlsbad store, will leave immediately after July 1st, for Roswell, where he will go into business for himself. Mr. Gamel had intended to open a store in Albuquerque but not being able to lease a building suitable for his purpose, there was forced to change his plans. He has secured a fine location in Roswell and expects to be ready for opening by the middle of September. His line will be women's ready-to-wear and millinery, exclusively, a branch of business for which he is eminently fitted by his years of experience in the retail dry goods business. It is conceded that no better dry goods man can be found in this entire western country. Mr. Gamel will move his family to Roswell July 1st, where they will remain while he goes to the eastern markets to buy goods. They have a wide circle of friends in that city where they formerly resided, but no truer ones than they leave in Carlsbad.

Mrs. Clarence Bell and children are very comfortably located in Long Beach, California, and write of plans now making for a picnic of all ex-Carlsbadites now in that vicinity, which is to be held next Sunday, June 22nd. H. F. Christian and little niece, Marynette Read, will leave Monday on their way home. Mrs. Christian and Miss Lelia will remain a few weeks longer in California.

Boyd Kindel, son-in-law of Mr. and Mrs. T. J. Kindel, arrived in Carlsbad Monday evening from his home in Globe, Arizona. Mrs. Kindel and her sister, Miss Nettie Mae, left in their car at the same time expecting to arrive here a day later than Mr. Kindel. They have evidently run into some heavy rains and mud which delayed their arrival.

Mrs. Henry Loving and little daughter, Ruth, are visiting friends in Pecos this week, but expect to return to this city later on and will likely make their home here.

RECEPTION AND DANCE.

"Mrs. L. E. Ervin and Mrs. J. A. Hardy, honorees; Miss Geraldine Stahl, Miss Mary Lee Newton, Miss Elizabeth Gale, and Mr. G. A. Hardy, Monday, evening at Armory, dancing."

The above invitation extended to the elite members of the younger society of Carlsbad, cause a flutter of happy anticipation that was more than realized at the party. The event proved the most interesting affair of the season. About twenty-five couples of lovely young people danced to Mrs. Ralph's splendid music. The honorees were exquisitely gowned—Miss Gale wore a dainty rainbow tulle frock; Miss Stahl was gowned in silver lace with panels of delicate pink and Miss Newton was very lovely in coral-colored silk and tulle.

Delicious punch was served throughout the evening.

Miss Gregory, a niece of Mrs. E. P. Bujac, is visiting at the Bujac home in La Huerta, coming from Charleston, South Carolina.

"I was there to make a sketch of the luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were 'National Biscuit,' recalling pleasantly my own tasty Uneda Luncheon. I liked her, and she liked me, and she spoke about my pen and ears busy."

"Between the dark and daylight, she was quoting 'there's always a bit of pause'—waiting and listening—for the children. Since they were things, I've given that to babies. First I had to tell them, when they were to toddle, I told me in my own words: 'No one can be a child without a pause.'"

"The original, inherent goodness of Uneda Biscuit is due to the superior materials and methods employed in the baking. The everlasting table-goodness of Uneda Biscuit is due to security of the In-c-seal trade mark package."

NATIONAL BISCUIT
COMPANY

Mr. and Mrs. Fred Nymeyer came in to Carlsbad Tuesday from their ranch near Pearl, and remained in town until Thursday, when they left for their home. They were accompanied on the return trip by Mrs. Nymeyer's sister, and brother-in-law, Mr. and Mrs. Henry Collins, who will spend a part of their vacation at Pearl. Mrs. Collins is one of the force at the Central Telephone office.

F. E. Hubert reports a thriving business at the Globe Plaster & Mining Company, north of town. About seventy tons of plaster per day are taken out and shipped to various markets. This represents about the capacity output of the mills. Three new men were put on this week, making a total of fifteen men employed at the works. Mr. Hubert goes up to the mills every day to keep in touch with matters there, and the company is fortunate in having a splendid man for foreman—S. P. Banks, of Dayton. All the employees, with the exception of the foreman, live at Globe. Mr. Banks' family lives at Dayton and he goes to his home every Saturday, returning to Globe each Monday. The business is increasing rapidly since the close of the war.

Rev. D. F. Sellars left Monday for Lovington and remained in that vicinity until Wednesday night before returning to his home in Carlsbad.

FATHER CHARGED WITH A SERIOUS OFFENSE.

Walter Cox, a farmer living ten miles south of Portales, was arrested Wednesday, says the Portales Journal, on a charge of incest and brought to town and lodged in jail, a complaint being sworn to by one of the neighbors of the accused. The victim, his daughter, a young girl about 15 years, gave birth to a girl baby some two weeks ago; she experienced considerable trouble in delivery and it was only on the third day of her confinement that a physician was called.

Cox, when arrested, told the officers that he knew who the father of the child was but refused to tell, giving as a reason that it was not a case for the law but one that called for his personal vengeance; he stated that it was not a member of the family. When asked if the young girl had been keeping company with any one he replied "No."

Deputy Sheriff McCormack and W. H. Ball went to the house while another deputy guarded the accused in the car; for some time the girl refused to tell the officers who the father of her child was. Finally, however, she said that it was her father; that he had begged her forgiveness for the wrong done her, and that they had played together and that the Lord had forgiven both of them; she also said that she did not want him to receive severe punishment.

On the road to town Cox said that they had prayed together and that the Lord had forgiven both of them; he also told the officers that practically all the great men referred to in the Bible had done the same things he had and that Solomon, the wisest man of the world, had six hundred wives and three hundred concubines. He did not appear to worry over his ability to get out of the scrape.

Cox has a wife, who appears to be strong and healthy, and seven children, five girls and two boys. He owns a section of land, has a school section leased for pasture and runs about 40 head of cattle; he was putting 250 acres into crop. As the car left for town he told his wife to see Mr. Page Thursday and have him make his bond so that he could get out of the county jail.

CONFEDERATE VETERANS MAY GET PENSIONS.

We hope the news contained in the following Associated Press dispatch may come true:
Washington, D. C., June 15.—A bill to extend existing pension benefits to Confederate veterans or their widows has been introduced by Representative Upshaw, Democrat, of Georgia, who states that leading Republican members of both houses of Congress have assured him of their support.

The preamble of the bill sets forth that these veterans "have proven their devotion to the Union in every conceivable way, marching in unflinching loyalty to the Treasury of the Nation for more than fifty years and helping to pay the pensions of victorious brothers and by giving their sons and grandsons on the altar of our country in two victorious wars."

Barrett Fitzhugh, of Clovis, is in town this week and will remain here assisting his brother, Douglas, in the new vulcanizing shop recently opened by him next door to the old fire hall. The Fitzhugh Brothers are much encouraged over the outlook for their business in this city, and are already prepared to turn out work in their line, the last of their equipment having arrived and been put in place this week.

We have done away with the gasoline popping arrangement on our Butter-Kist machine. It is now entirely electrical throughout. We can now offer you the very best melt-in-the-mouth popcorn that can be made, by simply turning on the switch and the old Pecos river electricity does the rest. Notice it the next time you pass the store.

TRACTORS

AT TRACTOR DEMONSTRATION AT WICHITA, KANSAS, THIS WEEK.

THE RESULT OF EXTENSIVE TRIALS AND EXPERIMENTS, CONDUCTED BY MR. HENRY FORD, COVERING A PERIOD OF MANY YEARS. BEFORE PLACING THE TRACTOR ON THE MARKET, EVERY DETAIL HAS BEEN THOROUGHLY TRIED OUT UNDER ACTUAL FARMING CONDITIONS IN VARIOUS PARTS OF THIS COUNTRY AND ABROAD.

Experience has pointed to the small, light tractor as being one machine which will fill all varying conditions satisfactorily.

In developing the "FORDSON" Tractor, the aim has been to produce a small tractor which will be low in first cost, reliable, and, above all, efficient.

\$750.00 F. O. B. Factory

¶ BEING SMALL, LIGHT AND ECONOMICAL, THE "FORDSON" TRACTOR IS ADAPTED FOR USE ON SMALL FARMS, AS WELL AS ON THE LARGEST. IT WILL PULL ALL FARM IMPLEMENTS AND DO THE WORK GENERALLY DONE BY HORSES ON THE FARM. IN ADDITION, BY ITS BELT PULLEY THE TRACTOR WILL DRIVE FARM MACHINERY, SUCH AS A THRESHER, ENSILAGE CUTTER, HAY BALER, ETC., MAKING THE "FORDSON" A TRULY UNIVERSAL TRACTOR.

¶ SPECIAL DEVICES WERE PERFECTED TO KEEP OUT DUST AND DIRT. ALL MOVING PARTS ARE ENCLOSED AND THOROUGHLY LUBRICATED. THE NUMBER OF LUBRICATING POINTS REQUIRING ATTENTION ARE VERY FEW AND EASILY GOTTEN TO.

¶ IN DESIGN AND CONSTRUCTION THE "FORDSON" TAKES A LONG STEP IN APPROACHING THE IDEAL TRACTOR. THE SIMPLICITY OF ITS OPERATION AND CONSTRUCTION AT ONCE APPEALS TO THE FARMER.

¶ THE PRICE OF THESE TRACTORS IS NOW \$750.00 f. o. b. FACTORY. COME IN AND TALK THE MATTER OVER WITH US.

Southern Auto Co.

Authorized Agent for Ford Universal Cars and "Fordson" Tractors.
