SUBJECT: Branch campuses left out of the 2007 Faculty Election

In preparing a list of voting faculty for the 2007 Faculty Senate Minutes binding, it was discovered that the voting faculty from branch campuses were missing from the report used to distribute the electronic ballot.

The source of this report was the original list of voting faculty received from Faculty Contacts in February 2007 for the Dean's Evaluation.

Unfortunately, the list did NOT include branch campuses. The group was not mentioned for evaluation in the instructions, however, it may have been specified to Faculty Contacts that we only needed main campus for the evaluations.

In the 2006 election, seven out of 18 branch campus faculty members voted.

The 2007 Committee on Governance election was decided by 41 votes.

The 2007 At-Large Faculty Senator election was decided by 28 votes.

The 2007 V-T election was decided by six votes, but due to many resignations, the next few candidates were elected into the vacant seats. The difference of the six votes would not have affected the outcome of the election.
