**BRITAIN'S ATTITUDE

Prime Minister Accorded
Whole-Hearted Support
of the Brave Initiative of
President Harding.

London, Oct. 31 (By the Associated Press).—George Harvey, American ambassador speaking to-night at the dinner given by the Pilgrims Society to the British delegates to the Washington conference, declared the conference to be "an ordeal, not of battle but of faith," the underlying purpose of which was no more a challenge to the league of nations than it was to the Monroe doctrine.

He declared the action of the American congress respecting the limitation of the army and the reduction of naval appropriations, which, he said, gave conclusive evidence that the American people were "convinced that the outcome of the conference would be the outcome of the American people."

The Real Question.
 "The real question confronting the conference is whether the nations can reach an understanding with respect to anything," he said. "The nations are not the capacity of governments to satisfy the universal longing for peace, prosperity and happiness."
 "I cannot permit to pass this opportunity to make on behalf of my country," he said, "due acknowledgment of the greatly generous way in which the United States with characteristic promptitude the decision of the prime minister accorded whole hearted support of the brave initiative of the president. Never can I forget the peaceful Sunday in July when I found Mr. Lloyd George seated under the

asked: "What is it?" I drew a cablegram from my pocket and held it toward him. "Read it," he said. "I did," I said. "It was the message from the secretary of state announcing the intention of the president to summon a conference of nations and asking if such a move would meet with the approbation of the British government."

"We Accept. Gladly."

"In a flash the premier was on his feet."

"We accept," he almost shouted. "We accept gladly; we accept gratefully. We will do everything in our power to make the conference a great

"This is the pledge he gave and which he has kept to this evening, when his heart is beating with apprehension and the performance of his duty may prevent him from affording at the beginning of the helpfulness of the great and unexampled prestige which can be fully rendered only through the actual presence of so vivid a personality."

The ambassador told of the delivery of his invitation to Lord Curzon, minister of foreign affairs, and the ambassador's call for the reply which had been drafted with the conventional opening. "The British government confirms their

Curzon Approves. "Lord Curzon," said Colonel Harvey, "read the answer and remarked: 'This does not suffice.' Then he wrote in: 'With the greatest satisfaction.'"

The ambassador said that when Lord Robert Cecil perceived in the conference no challenge to the league of nations he evinced "accurate discernment," and the ambassador echoed Lord Bryce's assertion that it was impossible to overrate the fervor and hope with

A GRAND TRUNK TRAIN**

Pontiac, Mich., Oct. 31.—Henry W. Gates, 59, of Huntington, Ind., held here in connection with the wreck of Grand Trunk passenger train near Lapeer last Friday night, confessed today, according to railroad detectives, that he loosened a rail and caused the accident. Officers quote him as saying he ascribed the act to a mental lapse due to a sunstroke suffered some time ago. Three persons were injured in the wreck.

Cities as Tempting Targets. Her long coast lines are adequately protected. Some of her most splendid cities appear as temptations to the enemy. The circumstance is relatively trivial. The great guns could create the havoc of an earthquake such as that from which San Francisco was spared. Phoenix from its ashes, more resplendent than ever, in a bare score of months.

"Thus the security of the United States does not rest on her physical strength alone. Her moral position is impregnable. Not only will she never seek additional territory by conquest; she would not accept it as a gift.

Unoccupied Lands.

"Within her borders lie unoccupied lands sufficient to sustain a population treble that which she now has. Well, indeed, may she regard herself as a nation of the future, so far as her people are aware, without an enemy in the world.

"The coming conference, therefore, presages no arbitrament of the sword. It is a ordeal not of battle, but of faith."

Discussing the argument in congress whether the army should comprise 100,000 or 150,000, he

"There was no criticism of the prudent action then," he said. "The program was executed in full during the early part of the present year. Suddenly there came a change. The president announced his intention of calling a moratorium on practically all expenditures at the instigation of the president, congress reduced the normal appropriation from \$184,000,000 to \$90,000,000.

"There was no criticism of the prudent action then," he said. "The program was executed in full during the early part of the present year. Suddenly there came a change. The president announced his intention of calling a moratorium on practically all expenditures at the instigation of the president, congress reduced the normal appropriation from \$184,000,000 to \$90,000,000.

Furthermore, he commented, the stipulation of congress prevents "in any event except war itself," the beginning of the building of a warship of any type before July 1, 1922.

The deduction was unresistible, he continued.

"The president," he said, "seems to say by his remarks that he wants to lead us to disarm. Even so, his clear vision is dimmed by no illusion. Nono knows better than he that the traditions of the United States are not to be forsaken overnight. Nono more fully realizes that to attempt too much is to jeopardize the prospect of any fulfillment."

Concluding his remarks, he said:

Whatever the outcome of the Washington deliberations, he declared, "conditions cannot be created that will result in the ending of the conference will surely come to the hearts of hundreds of millions either gladdening hope or despair. To us, too, with the relations of our beloved countries. The bonds of friendship and forbearance which now have us more closely together than ever before in a century, are bound to be strengthened or relaxed by the outcome of the conference. If we cannot act in unison

now, there is slight reason to believe we even can.

"The project of raising from the straining backs of peoples the burdens of great armaments offers a line of less resistance than was ever before presented. No less essential is the removal of the causes of war which still hover over the Pacific. More difficult;

but is not a happy augury to be found in the fact that all such dread possibilities have disappeared from the Atlantic?

"The Washington conference marks only the blazing of the trail, only the beginning. Yet greater works are to follow in fulfillment of the common aspirations of all mankind, pursuant, we may well believe, to the design of Almighty God."

**PLANTING OF APPLE
AND PEAR ORCHARDS**

BEING ENCOURAGED

(Special Correspondence to The Journal.)
Las Cruces, N. M., Oct. 31.—S. S. Hookland, general manager of the Farm Bureau Marketing association, announced today it is expected to sign up between 250 and 275 acres of commercial cabbage in the Mesilla valley for next year's production.

"The association," he added, "is

also encouraging the planting of apple and pear orchards. It is expected that several hundred acres, including one orchard of eighty acres, will be planted this fall and

next spring. Bartlett preses, Jonathan, Delibus, King David and Rome. But the apples are the favorites in this valley."

From another source it was learned that growers in Dona Ana County are planning to send representatives to the 1922 session. This matter will be decided upon at a meeting of growers called for November 5 in Las Cruces.

HONOR INDIANAN FOR HEROISM IN THE WORLD WAR

Sergeant Designated As the
One Most Entitled to Rep-
resent Infantry at Burial
of Unknown Soldier.

(By The Associated Press.)
Washington, Oct. 31.—Examina-
tion of war records by General
Pershing has resulted in the designa-
tion of Sergeant Samuel Woodfill
as the American infantryman
who through heroism during the
world war is most entitled to rep-
resent the infantry at the armistice
day ceremonies for America's un-
known soldier.

Sergeant Woodfill, whose home
is given as Bellevue, Ind., but who
now is stationed at Fort Thomas,
Ky., arrived today in response to
orders and on being received by
Secretary Weeks, was informed his
act of heroism was regarded by
his former commander as "out-
standing" among the exploits of all
infantry officers and men who
saw service in France.

Killed 19 Germans.
The act of Sergeant Woodfill
which caused General Pershing to
place him—a virtually unknown
hero—with Sergeant Alvin C. York,
of the Tennessee mountains, and
Major Charles S. Whittlesey, of
the "lost battalion," occurred Octo-
ber 12, 1918, during the Meuse-
Argonne offensive, when he, as a
lieutenant, silenced three machine
guns, killing nineteen of the enemy,
including one officer, and capturing
three others.

A portion of the final report soon
to be submitted by General Pershing
to Secretary Weeks was made
public today, and has the follow-
ing to say of Sergeant Woodfill:

"Outstanding was the heroism of
Lieutenant Samuel Woodfill, Fifth
division, in attacking single handed
German machine gun nests, near
Cuneal and killing the crews of each
in turn, until reduced to the neces-
sity of assaulting the last with a
pick, dispatching them all. And
Sergeant Alvin C. York, of the
Eighty-second division, in captur-
ing 132 Germans after his patrol
was literally surrounded and out-
numbered ten to one; and Major
Charles S. Whittlesey, of the
Seventy-seventh division, when
their battalion was cut off
in the Argonne, in refusing to
surrender and holding out until
relieved."

Story Told In Citation.
The story of Sergeant Woodfill's
exploit was told by army officers
to be told most conclusively in the
citation which accompanied the
award to him of the congressional
medal of honor. This citation reads:

"For conspicuous gallantry and
intrepidity above and beyond the
call of duty in action with the en-
emy at Cuneal, France, October 12,
1918. While he was leading his
company against the enemy, his
line came under heavy machine
gun fire which threatened to hold
up the advance. Followed by two
soldiers at twenty-five yards, the

officer went out ahead of his first
line toward a machine gun nest
and worked his way around its
flank, leaving two soldiers in front.
When he got within ten yards of
the gun it ceased firing, and four
of the enemy appeared, three of
whom were shot by Lieutenant
Woodfill. The fourth, an officer,
rushed at Lieutenant Woodfill,
who attempted to club the officer
with his rifle. After a hand to
hand struggle, Lieutenant Woodfill
killed the officer with his pistol.
His company continued to advance
until shortly afterwards another
machine gun nest was encountered.

Calling on his men to follow,
Lieutenant Woodfill rushed ahead
in the face of heavy fire from the
nest, and when several of the en-
emy appeared he shot them, creat-
ing three other members of the
crew and silencing the gun. A few
minutes later, this officer, for the
third time, demonstrated conspicu-
ous daring by charging another
machine gun position, killing five
men in one machine gun pit with
his rifle. He then drew his revolver
and started to jump into the
pit when two other gunners, only
a few yards away, turned their gun
on him.

"Falling to kill them with his
revolver, he grabbed a pick and
killed both. Inspired by the ex-
ceptional courage as displayed by
this officer, his men pressed on to
their objective under severe shell
and machine gun fire."

Promoted to Captaincy.
For this act of heroism, Wood-
fill was promoted to a captaincy
and, in addition to the congressio-
nal medal, was awarded the
legion of honor (Cavaller), and the
Croix de Guerre (with palm), by
France, and the Order of Prince
Danilo (fifth class) by Montene-
gro.

He has been in the army twenty
years. He was a non-commissioned
officer when the United States en-
tered the war and after the armis-
tice, reentered the regular army as
an enlisted man.

CAPTAIN OF FISHING SCHOONER IS DROWNED

(By The Associated Press.)
Key West, Fla., Oct. 31.—Loss of
the captain of the fishing schooner
Virginia, owned by the Saunders
Fish company, of Pensacola, was
announced today in a radio message
from the schooner, disabled, was picked
up by a steamer yesterday and
towed to Tortugas. No mention
was made of the cause, which was
noted by the radio station, but the
radio station stated that the mate-
mate had been washed overboard and
lost during the hurricane.

EDITOR IS ARRESTED ON A LIQUOR CHARGE

(By The Associated Press.)
Phoenix, Ariz., Oct. 31.—C.
Louis Grass, editor of The De-
portee, a magazine published in
this city, was arrested today by
federal prohibition officials,
charged with possessing and trans-
porting liquor illegally. He was
taken before J. B. Henke, United
States commissioner, and was
released under bond of \$2,500.
Grass was one of the principal
witnesses for the prosecution in
the criminal cases growing out
of the Prohibition deportations on
July 12, 1917.

Mrs. "Sid" Hatfield and Mrs. Edward Chambers, widows of the two
noted mine-war characters who were shot down on the steps of the
McDowell county, W. Va., courthouse, are in Washington to testify be-
fore the senate committee investigating the civil war which has been
raging in West Virginia between the coal operators and miners. Mrs.
Hatfield has been a widow twice by this war. She married Hat-
field shortly after her first husband, Mayor Testerman of Matewan,
W. Va., was shot and killed in a battle between the miners and Baldwin-
Felts detectives.

NOVEMBER 24 DESIGNATED AS THANKSGIVING DAY BY HARDING

(By The Associated Press.)
Washington, Oct. 31.—President
Harding issued a proclamation to-
night designating Thursday, No-
vember 24, as a day of thanksgiv-
ing, devotion and prayer and ur-
ging the people to give thanks "for
all that has been rendered unto
them," and to pray "for a con-
tinuance of the divine fortune
which has been so wonderfully
granted unto this nation." The pro-
clamation follows:

"That season has come when,
alike in pursuance of a devout peo-
ple's time-honored custom and in
grateful recognition of favorably
national fortunes, it is proper that
the president should summon the
nation to a day of devotion, of
thanksgiving for blessings bestowed
and of prayer for guidance in
modes of life that may deserve
continuance of divine favor."

"Foremost among our blessings
is the return of peace, and the ap-
proach to normal ways again. The
year has brought us again into
relations of amity with all nations,
after a long period of struggle and
turbulence. Thankful, therefore,
we may well unite in the hope
that Providence will vouchsafe ap-
proval to the things we have done,
the aims which have guided us,
the aspirations which have in-
spired us. We shall be prospered
as we shall deserve prosperity;
seeking not alone for the material
things but for those of the spirit
as well; earnestly trying and help-
ing others along, before all else,
the privilege of service. As we
rejoice in the peace and the ex-
citement which came to us, we may
fittingly petition that moderation
and wisdom shall be granted to
rest upon all who are in authority,
in their tasks they must discharge.
Their hands will be enabled, their
purposes strengthened, in answer
to our prayers.

tion in the bounty which God has

MIAMI SMELTER WILL REOPEN ABOUT NOV. 20

(By The Associated Press.)
Globe, Ariz., Oct. 31.—Announce-
ment was made tonight that the
International Smelting company
will blow in one reverberatory fur-
nace at its Miami smelter about
November 20, after a shut down of
six months due to the small de-
mand for copper.

In announcing resumption of
activities, Thomas H. O'Brien, gen-
eral manager of the Inspiration
Consolidated Copper company, two
hundred additional men would be
employed at the smelter. One hun-
dred additional men will be em-
ployed at the Inspiration and Live
Oak mines, he said, and a shaft
would be sunk on recently ac-
quired porphyry property.

The smelter will begin opera-
tions on concentrates produced by
the Miami Copper company in the
last six months and stored at the
smelter. It said this supply is
sufficient to keep the smelter go-
ing for several months.

Today's announcement means
much to the copper industry, which
has been hard hit by the business slump
of the past year.

2 ARRESTED CHARGED WITH THE THEFT OF SIX HORSES IN N. M.

(Special Dispatch to Morning Journal.)
Globe, Ariz., Oct. 31.—Sheriff
Oscar Allen, of Lordsburg, N. M.,
announced tonight he will return
to Lordsburg tomorrow with George
Lawrence and Shelby Wrenn, ar-
rested Saturday night by local au-
thorities. The men are charged
with the theft of six horses from
ranches near Hachita, N. M.

GIBBONS GETS DECISION New Orleans, Oct. 31.—Mike Gibbons, of St. Paul, was given the decision over Happy Littleton of New Orleans in a 15-round boxing bout here tonight. Gibbons was said to have clearly the better of the fight on points, although he was knocked down twice and to- ward the close was booted and hissed by the crowd.

How To Revitalize Wornout Exhausted Nerves

Your nerve power depends on plenty of
good, rich, red blood of the kind that
greatly helps make. Nuxated Iron
is like the iron in your blood and
like the iron in spinach, lentils
and apples, while metallic iron is iron
just as it comes from the action of
strong acids on iron filings. Nuxated
Iron does not injure the stomach, it
is an entirely different
thing from ordinary metallic iron.
It quickly helps make rich red blood,
revitalizes wornout, exhausted nerves and
gives you new strength and energy. Over
4,000,000 people annually are using it.
Beware of substitutes. Always insist
upon having genuine organic iron—Nuxated
Iron. Look for the letters N. I. on
every tablet. Sold by all druggists in
tablets only—never in liquid form.

100 GALLONS OF WINE SEIZED BY DRY LAW OFFICE

Three barrels of wine, contain-
ing a total of ninety-seven gal-
lons, were seized by officials of the
local prohibition enforcement of-
fice yesterday afternoon in a raid
at the store of Leo Bonaguidi, 811
North Second avenue.

In addition to the large haul of
wine, the officers secured twenty-
five bottles of home-brewed beer
and two gallons of corn whiskey.
The net proceeds were found in the
basement under the place.

Bonaguidi was arraigned before
Commissioner D. F. McDonald and
his bond was fixed at \$250. He is
charged with both the manufac-
ture and possession of intoxicants.
Prohibition officials point out
that the manufacture of wine from
fruit juices is not allowed, al-
though there is an impression that it
is.

MINSTREL SHOW AT CRYSTAL PLEASING TO LARGE AUDIENCE

Busby's minstrels, now in their
thirty-third year, pleased a large
audience at the Crystal theater last
night, in spite of the fact that the
show followed the famous Georgia
minstrels and possibly lacked a
little of coming up to the high
standard set by that attraction.
The opening part of the pro-
gram drew heavy applause from
the audience, particularly the clever
dancing of the end men and the
solo of the troupe's leader. One
of the dancers was forced to re-
spond to four encores and was
at last stopped then by lack of
breath.

The olio was not up to the mark
established earlier in the evening.
The monologue was a repetition of
material used by a Georgia min-
strel artist, while the hokey roll-
ing exhibition also paralleled an
act seen in the show here earlier
in the fall. One of the dancing
acts went very well and there were
parts of the closing number which
provoked much mirth.

SUSPECT IN BELKNAP CASE IS REPORTED IN A NUMBER OF CITIES

(By The Associated Press.)
Lead, S. D., Oct. 31.—Andrew
Rolando, miner wanted here in
connection with the shooting of
Father A. B. Belknap last Wed-
nesday, is variously reported in
a number of cities in anonymous
letters which began arriving to-
day in city and county officials in
numbers. One said he is in New
York. In the meantime, officers
sent from here have been search-
ing Wyoming, running down clues
without results.

A man held at Casper proved to
be the wrong man and tonight
the officers were doubling back
to Sheridan in pursuit of a man
whose trail at first led them from
Sheridan.

REQUEST DEPARTMENT OF EDUCATION IN THE PRESIDENT'S CABINET

(By The Associated Press.)
Washington, Oct. 31.—A com-
promise agreement among admin-
istration officials and leaders in
congress providing for creation of
a department of education and
public welfare was indicated to-
day as likely to be reached in the
near future. A petition for a de-
partment of education with a sec-
retary of education in the cabinet,
was given President Harding by a
committee, which included Mrs.
Thomas G. Winter, president of
the General Federation of Women's
clubs. The committee was pre-
sented by Representative Towne-
r of Iowa and Senator Sterling of
South Dakota, who are sponsoring
the educational bill in congress.

KELLY'S MOTION FOR A REHEARING DENIED

(Special Dispatch to Morning Journal.)
Santa Fe, Oct. 31.—W. G. Kelly's
motion for rehearing was denied
today by the supreme court. Kelly
was fourth in line in the district
court of Santa Fe county on a
charge of presenting a fraudulent
Santa Fe county bond for collec-
tion and sentenced to the peniten-
tiary, but appealed to the supreme
court. The supreme court recently
upheld the district court and Kelly
then filed the motion for rehar-
ing.

Kelly's only legal resource now
was to file an appeal to the
United States supreme court.

and Far Eastern questions.

MORE NATIONAL GUARD UNITS TO BE ESTABLISHED

Chamber of Commerce Urges Merchants to Co-Operate in Securing Motor Transport Corps.

Albuquerque merchants are co-operating with the chamber of commerce officials to secure one or two additional national guard units soon to be placed in some city in the state. A motor transport unit is to be established in the state soon "at a point which can support an organization," states an official letter received at the chamber yesterday. A motor company will carry numerous supplies and would be a very valuable asset to the city.

About ninety men, including officers, would form the troop, which would have as equipment several motor trucks and other similar paraphernalia.

"Albuquerque is the logical point for the company," D. R. McKee, secretary of the chamber of commerce, claimed yesterday, "and I believe we can secure it if all of the merchants and other employers in the city signify their intention of standing firmly behind such a movement."

Many of the merchants have already shown their intention of co-operating in securing the company. There is also to be established within the next few months a signal corps and a construction company. The cities which show the officials that they can recruit these companies and can show the proper amount of interest in the movement will be awarded the new troops.

In case a teacher fails to get the proper certificate, she must obtain a receipt for her ticket and apply for a refund after the trip.

TYPHOID CLAIMS FIVE RESIDENTS OF NEAR CHILLI

Epidemic Getting Worse in Mountain Section; Impure Water the Cause; Health Office Rules Disregarded.

Five typhoid deaths have occurred at Chilli during the past few days, according to a report of Dr. J. F. Docherty, health officer, who has made another inspection trip to that section.

The typhoid epidemic has been running at Chilli for about two months. Dr. Docherty has vaccinated all those who would submit to medical attention and has repeatedly warned the residents that their water is very impure and should be boiled before being used for drinking purposes. Most of the residents have disregarded this advice with the result that the epidemic is increasing instead of diminishing.

"We have done everything possible to stop the epidemic," Dr. Docherty declared yesterday, "but if the people will not co-operate, we are practically helpless to relieve the situation."

GATE CITY GRID SQUAD DEFEATS NORMAL ELEVEN

Raton Highs Take Long End of 10 to 0 Score From Las Vegas; Another Game to Be Played Saturday.

(Special Correspondence to The Journal.) East Las Vegas, N. M., Oct. 31.—The normal academic vs. Raton high football game here Saturday resulted in a victory for the Raton team by a score of 10 to 0. The score in itself does not indicate clearly the closeness of the game, for the normal boys kept the ball in Raton territory throughout the last half of the game except for a brief time during which Raton scored a drop-kick. Four times the normal got within a few yards of the line but were unable to set over.

Normal kicked off to the visitors who were up on their toes and commenced making good gains from the very start. Toward the end of the first quarter Raton got the ball on a fumble behind normal's twenty-yard line and rushed it for a touch down in two downs, Dale Odell carrying the ball. Gillespie kicked goal, making the score 7-0. The remainder of the first half was closely fought and the ball was kept pretty far from both goals, the half ending with it Raton's ball on normal thirty-yard line.

In the second half normal picked up, especially on the offensive, making gains with considerable regularity. In the third quarter Raton got set about twenty-five yards from the goal and directly in front, Gillespie drop-kicked, scoring 3. In the same quarter Raton got the ball within two feet of the normal goal line and lost it on a fumble, normal punting out immediately.

In the last quarter it looked like anybody's game, for the normal boys worked the ball to the two three and four-yard lines time after time. The clear head-work of Gillespie, Raton's captain and quarter, kept the plunging of the normal from getting over for a touchdown while the ball was in the danger zone.

The normal boys do not feel discouraged over the game. The team was short of Ferguson, the two Naylor, McMillan, Hughes and Elliott, and though only Ferguson, Alvin Naylor and Hughes were regulars, the general feeling is that with these men in and the opportunity to shift a little more, the result might have been different. The visitors played fast and heady football for high schoolers, showing considerable experience, especially in the back field.

Creedy, at left half, was a constant ground gainer for the visitors. The real star for the gold and black, however, was Odell at full back, whose line plunging and hard tackling showed up to great advantage. Raton interference was especially good.

For the normal work of Gallegos was noticeable and Hulse and Hoppling made good gains. Hilgers at quarter is beginning to show a real football style in his own playing. Pankratz, for whom this was the first game, did some good tackling.

The line-up: Normal. Raton. Substitutions: Raton—Healy for Mauley. Normal—Gutierrez for Catron. Summary of scoring: Touchdown—Odell. Goal after touchdown—Gillespie. Goal from field (drop kick), Gillespie. Score: Raton, 10; normal, 0. Officials: Referee, Kroening; Umpire, Foster; head linesman, Bullion; time-keepers, Burrell and Dean.

Something over 200 people attended the game, more than half of them students. Normal plays Raton at Raton next Saturday.

WHITE'S REPORT AN 'EYE OPENER' SAYS HARRISON

Mississippians Say It Will Have a Tendency to Alleviate Much of the Opposition to the Chairman.

(By The Associated Press.) St. Louis, Mo., Oct. 31.—(By the Associated Press.)—Democratic national committee meeting tonight for the first time since the campaign were limiting discussion almost solely to prospects of Chairman George White being succeeded by another.

Chairman White today issued a statement in which he said he had no idea of submitting his resignation "unless all elements of the party can agree on some one to succeed him."

"There will be an harmonious re-organization of the committee," said J. F. Costello, committeeman from the District of Columbia. "Neither Senator Carter Glass, of Virginia, nor Thomas B. Love, of Texas would comment on the re-organization move."

Chairman White's supporters are counseling for harmony. Among the foremost of these, Senator Pat Harrison, of Mississippi, asserted that Chairman White's report to the committee tomorrow would be an "eye opener" and "it is the custom in this country to allow much of the opposition to the chairman."

ARGUMENTS BEGIN IN SOUTHDAC CASE TODAY

Twin Falls, Idaho, Oct. 31.—Arguments will begin in the Lydia Meyer Southard murder trial here at 2 o'clock Tuesday. This was the last announcement of court this afternoon following the statement by the attorneys for the prosecution that the state rested at 3:40 o'clock. The defense closed at 11:20 this morning.

Practically the entire day was given to the cleaning up of loose ends in the testimony by both sides. Half a dozen witnesses were put on in quick succession to establish some certain point developed late in the trial. There was little cross examination on either side.

CHILD RUN OVER BY AN AUTO IS SERIOUSLY HURT

Delfino Cordova, 12 Years Old, Receives Internal Injuries in Accident On North Fourth Street Pike

Delfino Cordova, a 12-year-old girl, received serious internal injuries yesterday when she was run over by an automobile driven by Mrs. M. O'Donnell on the North Fourth street road. The accident happened where the Indian school road, on which the child lives, branches from the main road.

Mrs. O'Donnell, who lives at 414 West Silver avenue, was driving a moderate speed along the paved road toward Albuquerque. At the point where the Indian school road joins the highway, two children jumped unseen from the rear of a wagon which was driving north along the pavement, and started across the road directly in front of Mrs. O'Donnell's car.

She stopped her automobile instantly but not before she struck the little girl. The child was taken to her home, which is on the Indian school road opposite the Lockhard ranch, and Dr. J. F. Pearce was called to give medical attention. From the serious nature of the girl's internal injuries it is probable that the wheels of the automobile passed over her body, according to Dr. Pearce.

Last night Dr. Pearce stated that the child was in a very serious condition as the result of the accident.

WOOL IS MOVING RAPIDLY; SHEEP PRICES ARE UP

A decided falling off of receipts at the sheep markets at Kansas City caused an increase of from 50 to 75 cents per hundred-weight last week, according to a letter received by the secretary of the New Mexico Wool Growers' association yesterday from the Wool Growers' Commission company, a brokerage organization instituted by the National Wool Growers' association.

The receipts only reached 23,000 head for the week. This is about one day's business during the busy season.

The demand for lambs and sheep is strong, feeding lambs being sold up to \$7.75 and lightweight yearlings from \$6 to \$6.75. There is competition, according to the commission company, on fat ewes for breeders, but the packers are buying them at better prices than the breeders will pay.

"Another ray of sunshine for the wool growers is that wool is moving rapidly, on fat ewes for house states. "And although there is not any noticeable advance in price, nearly all the 1920 crop is in the hands of the manufacturers and the 1921 crop is being rapidly moved out of storage."

TIRE COMPANY WILL FEATURE CITY IN A NEW TRADE BOOKLET

Duke City is to be featured in the new booklet soon to be issued by the Speckels & Davis Tire company of San Diego, Cal., according to a letter received from the company yesterday by the chamber of commerce. A request has been made for a number of interesting pictures of the city and surrounding country to be used in the booklet.

The pictures sent the Home Missions board of the United Brethren in Christ have been returned to the chamber after being reproduced in picture slides. The slides will show many phases of Albuquerque and will be used by the mission board in a pictorial lecture being prepared on New Mexico. The lecture will be given by the mission lecturers throughout North America.

THE NEW GENERATION

By JANE PHELPS

INTRODUCING JOAN.

CHAPTER 1.

Margaret Hayden had been very properly raised—in the opinion of all her mother's friends, as well as of her mother herself. The mother was a stickler for propriety, etiquette and manners, and Margaret's girlhood as well as her childhood had been one series of "You must not do that, dear; it is not proper," "Do not do that again!" "No, you cannot go, it isn't the place for a girl of your age," "No, they will be late and it looks badly for a young girl to be out late," etc., etc., ad libitum, ad infinitum.

When Margaret had married Henry Hayden, her mother had been more than satisfied. Why should she not be? Had not she made the match?

Henry Hayden was just 50 years old, a solemn sort of individual possessed of a small fortune and all the habits of an old bachelor. Margaret was just 20 and had no idea of revealing, although she looked with envy at the young girls who had married boys of their own age and seemed to have such good times.

"It is very suitable match," her mother had told her when Margaret spoke of her elderly suitor's age.

"But I should like to wait a while, mother. I don't want to marry anybody yet."

"Everything is arranged. We will begin at once to shop for your trousseau," her mother replied.

Margaret said no more. From past experience she knew it would avail her nothing.

And she did not know that her conventional mother had another reason than expediency for this "old man," as he seemed to her, that fearing death suddenly from an incurable disease, of which she knew nothing, her mother had deliberately angled for Henry Hayden as a husband for her daughter, a man suitable in every respect to care for her.

Margaret's father had passed away a year after his marriage. People who knew him said that Margaret resembled him. There was nothing of her mother in her, either in looks or disposition. Yet she had been so dominated by that mother that all color seemed to be lacking in her character.

"I wouldn't stand it," one of her girl friends said to her upon one occasion. Her mother had refused her permission to go on a straw

ride, although the party was to be well chaperoned.

"Yes you would!" was Margaret's answer.

On her twentieth birthday Margaret married Henry Hayden. Within a year both her husband and her mother passed away.

Margaret was left with a baby girl just a month old.

Her first act of rebellion was when she named the baby. Her mother had wanted it called Mary; her husband had rather thought Martha, his mother's name, was more appropriate.

Margaret's mother died when the baby was but a week old, her husband three weeks later.

It was fortunate the child had not been christened. Now she should have a pretty name—not Martha, or Mary, or any such plain name, but something sweet, a name that sounded pretty.

Naturally, Margaret grieved for her mother; perhaps, too, for her elderly husband. But it was not the grief of a child who has been petted and loved, or of the wife who misses a companion.

After a bit she had a feeling of freedom she never before had experienced. There was no one to say: "You must not!" or "You must!" Her mother had lived with her after her marriage, and had never ceased to be the arbiter of Margaret's actions. Henry Hayden had seemingly taken his cue from his mother-in-law, and had also helped to make Margaret feel her dependence.

"I shall name you Joan!" she told the tiny babe nestling in the crook of her arm. "And I never shall say you shall, or you shall not. I am going to let you grow up just happy because I won't boss you all the time."

The child was christened Joan Hayden.

The friends of Margaret's mother were scandalized. They had supposed it settled that the child should be called "Mary" after her, or "Martha," after Henry Hayden's mother. When they said so, Margaret only smiled and said: "I have named her Joan."

A bit of the rock-like will she had inherited from her mother had never before emerged. Now it was to have free play.

Margaret bought and read books, talked on allowing children the privilege of self-expression, a chance for their personalities to grow; on the unwisdom of repression unless one wished to kill all originality in the child.

"Joan shall have her chance," she would say often.

FRENCH COAT WITH CIRCULAR EFFECT

BY ELOISE.

This new coat of Paris design is made on directoire lines with a plain, rather fitted effect. It is of duck blue duvetyne. The circular flare at the elbow is carried out in the large circular collar and cape sleeves. Giving the impression that fur is scarce, little darts and tufts of seal are used to trim the collar and sleeves. The coat is distinctive and very Parisian in effect although decidedly simple.

It is the variation from the wrap type which Parisians are making most popular. There is some slight tendency to popularize the wraps with a flare at the hips, but the plain fitted models with circular skirt effects are by far the leading models of the day. This is a wrap for afternoon or dressy occasions.

For morning, motor and sports wear top coats or short fur coats are usually worn and for evening the lovely brocade and velvet wraps are correct, but the type of coat pictured is becoming fashionable for the semi-formal affairs.

(The canned variety will do), then add to them 1-2 pound of dried beef and 1-2 pound of cheese put through the food chopper together. Let simmer for a moment longer, then add 1 well beaten egg, stir over fire only a minute, and let cool. This amount makes 24 sandwiches.

If a less salty taste is desired, parboil the beef for 3 minutes before putting it through the chopper.

ANSWERED LETTERS.

Poodle; Kate; Reader: Freckles may be bleached off, but the tendency to them will remain, as they are caused by iron in the blood which is brought out on the skin by the sun; however this only happens about one-third of the year, during the time when the sun is the strongest. They will bleach off themselves, but to hasten this at this time of the year a simple bleach is either lemon juice or cucumber juice. The former is used just as it is squeezed from the fruit. The cucumber juice is made by cutting the vegetable into small pieces, retaining the skin and stewing it gently until all the juices are extracted from it. Start the cooking with a small amount of water added to the vegetable and when all of it is softened into a pulp, strain and use. If you want to keep it for a length of time, a preservative must be added, such as alcohol or a small quantity of salicylic acid.

W. E. P. Happy Subscriber: If the general health is good and the scalp shows a tendency to extreme oiliness, or if it is dry, it shows that the difficulty is local and may be corrected often by encouraging a better circulation. In either case, massage the scalp thoroughly once every day, until the whole head glows. Sometimes the hair has a tendency to fall out the fall, because of the scalp having been overworked during the previous months. Massage will correct this also in ordinary cases, but a good tonic for the scalp should be used in addition to the massage in such cases do not improve after a few months of the simpler treatment.

Miss R. E. S. Mrs. J. A. H. Deep breathing is helpful when the bust is too small or when it is too stout, as it develops all the muscles of the chest, which means an absorption of excessive fatty tissue, while the muscles are strengthened. For the thin woman, a gentle massage with cocoa butter (or any good skin food) will be an added nourishment, but in either case a beneficial result will come from dashing cold water over the chest every day, followed by light friction with a coarse towel.

Double Chin: The woman with a double chin is usually too stout all over and needs a general reduction, but a good local treatment is to massage the chin also. Throw back the head, tilting the chin, and iron off this extra fat by using the palm of the hand, beginning at the collar bone and working forward to the point of the chin. This raises all the muscles of the face and prevents any sagging and also gives some exercise to all of the lower part of the cheeks—which will be very much in need of being toned after they have been carrying this extra fat. Follow the exercise by using an astringent or give the skin the exhilaration of an ice rub. This treatment hardens the skin and contracts the pores, otherwise the skin would be baggy after the fat had been absorbed.

Brown Eyes: Substitute whole wheat or graham bread for that from white flour and curtail the amount of starch in the entire diet. Frequently this is all that is needed when the person is only about ten pounds overweight. If you feel that you require more information about choice of food and quantity, send a stamped addressed envelope for this.

THIS YOUNG MOTHER

Tells Childless Women what Lydia E. Pinkham's Vegetable Compound Did for Her

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I began taking Lydia E. Pinkham's Vegetable Compound and now I have a nice strong, healthy baby girl. I can honestly say that I did not suffer much more when my baby was born than I used to suffer with my periods before I took Lydia E. Pinkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly."—Mrs. H. H. JANSSEN, Millston, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and give their children the blessing of a good constitution.

It takes Lon Chaney three hours to make up for one of his two roles in "The Great Gatsby," by Barry Pain—the role of the hunchback, Jacqueline Logan, the "Follies" beauty, plays opposite him. Wallace Worley is directing. Gos-

tion to separate the two rooms in which the battle is being waged into one large auditorium within a few minutes. The building will be of the mission style and one of the prettiest and most comfortable small school houses in this part of New Mexico.

Roy—The school board has decided to call an election to be held on November 12 to vote on the proposal to issue bonds in the amount of \$15,000 to complete and furnish the public school building now in course of construction.

TARIFF BILL IS SET ASIDE FOR THE TIME BEING

Resumption of Hearings on the Permanent Measure, Scheduled for Today, Have Been Postponed.

(By The Associated Press.) Washington, Oct. 31.—Resumption of hearings on the permanent tariff bill, scheduled for tomorrow, was postponed today until Thursday and the senate finance committee will meet tomorrow to give consideration and probably to report the resolution extending the emergency tariff measure. The emergency tariff expires November 27, and its extension to next February already approved by the house, is strongly urged by senators from agricultural states. Decision by the finance committee to lay aside the permanent bill for consideration of the emergency tariff came as something of a surprise, Chairman Pearce having announced earlier that public hearings on the permanent measure were to be given tomorrow.

Republican members of the agricultural bloc met today, however, and decided to demand action on the emergency tariff immediately after disposition of the anti-beer bill. Senator Kenyon, of Iowa, said reports were current that an effort was to be made to send in the railroad bill ahead of the emergency tariff and the agricultural senators believed they should stand against it in view of the early expiration of the emergency tariff. The agricultural bloc also decided on certain tariff duties affecting farm products which they will seek to be included in the permanent tariff. Rates to be demanded together with the rates in the bill include: Butter, 10 cents a pound instead of 8; fresh beef 2 1/2 cents a pound instead of 2 1/4; hides, green, 2 cents a pound, dried, 4 cents a pound instead of 3; flax seed, 40 cents a bushel instead of 30; millet seed one cent a pound instead of one-half, and wheat 3 cents a pound instead of one.

Virginia Lady So Weak She Could Hardly Get Around — Says Cardui Helped Relieve a Serious Condition.

Ringsgold, Va.—Mrs. D. T. Barker, of a well-known Pittsylvania County family residing on Route 2, here, says that upon reaching a critical period of her life she was "in a very serious condition." "I was so weakened until I couldn't get around," Mrs. Barker relates. "I couldn't sleep. I was so blue and out of heart. I had no appetite. "I would . . . try medicines and grow weaker and weaker, more out of heart every day. I would get up and try to drag around, and feel so miserable, and creep back to bed. "My husband bought me Cardui. I thought the first bottle helped me, and when I began the second, I knew it did. I kept it up—each day growing a little stronger, a little more like my former self, and I began to eat and sleep. "It sure wasn't long until I was up and around like another woman. No more dragging; no more weak and blue feeling. It cured me. I used seven bottles in all. "Thousands of women have suffered as Mrs. Barker describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui, if troubled with womanly ailments. Take Cardui, the woman's tonic.

QUAIL HUNTERS GET BUSY TODAY IN NEW MEXICO

Quail season opens in New Mexico today. The birds are reported plentiful in many districts of the state and the shooting promises to be very good. This is particularly true of many of the foothill sections. Although the limits of sunrise and sunset shooting apply to quail, they will have practically no effect on the sport, as daylight is necessary for successful quail shooting. The bag is twenty birds per person in a single day's hunting. All hunters must have state hunting licenses on their persons while in the field or while in possession of birds. The Albuquerque G. P. A. suggests that sportsmen exercise care when shooting into flocks of birds and only take a few from each covey. This will leave some either for the next fellow or for propagation. The season closes December 31.

Theaters Today

"B" Theater—William S. Hart, popular "Bill" Hart, is starring in the Paramount picture, "The Whistle," a Famous Players-Lasky production; also showing a reel or two of "Horton Holmes' Travelogue," and "Current Events" pictures.

Lyric Theater—Charles Ray and Vandyke Brooke are the leading stars in "A Midnight Bell," from a famous Charles Hoyt play; also a variety comedy, entitled "Chicken Healed."

Pastime Theater—For the last time today, the management is repeating "After Midnight," with Conway Tearle as the star; also showing the usual added attractions.

"THE WHISTLE" IS THE TITLE OF "BILL" HART'S NOW AT "B" THEATER

A drawbridge tender asleep at his post, an open bridge and a motor crashing into the inky waters below; a child's scream and a man's brave plunge to the rescue! This is one of the smashing scenes in "The Whistle," a picture produced by William S. Hart and written by Lambert Hillyer, who also directed it. The original story is by May Lincholt and Otto Lyman. It will be shown at the "B" theater for the next three days, beginning today. Mr. Hart has a new role—that of a factory worker, a man accustomed to "jump to the sound of the whistle."

His attempt to mete out justice to a man whose selfishness has resulted in the death of the worker's beloved child, develops a series of situations that come as a completely satisfying train of events which round out to a conclusion that is distinctly compelling. In every way this is a powerful drama and one that should satisfy the most exacting. Three famous juvenile players appear in the cast. Frank Brownlee has the "heavy" role.

CHARLES RAY SPENDS A NIGHT WITH SPOOKS.

IN "A MIDNIGHT BELL." For a year the citizens of Bellport had shuddered every time they looked at the church which abutted into Main street, and when they were compelled to pass it they would do so in the middle of the street. Many stories were told of uncanny happenings in the edifice, and because of the general belief that it was haunted, services had been abandoned, and the structure would have been torn down had it not been for the courage to stay the task.

Then one day a stranger came to town, a rubber heel salesman. He had more enthusiasm than judgment, and when his company spent a night in the building to disprove the stories of the supernatural. The girl tried to dissuade him, but the youth would not listen.

Sitting in a pew which had accumulated an inch of dust, he tried to read a book by the light of a small lamp. Suddenly the light went out, windows opened and closed with a bang, pews rose in the air and fell, and above it all he could see apparitions that made his hair raise on end. Although badly frightened, the youth remained throughout the night, and the following Sunday evening paid another visit to the church. Then he made a discovery—and therefor the spooks were conspicuous by their absence.

AUTO AND BICYCLE CLASH; BOY INJURED

Russell Treacy received a broken wrist early last night when his bicycle collided with an automobile being driven by Mrs. H. J. Davis at the intersection of Sixth street and Copper avenue. Mrs. Davis was driving south on Sixth street toward Copper avenue and turned east on the avenue. Treacy was going south on Sixth street toward Copper avenue and was hit, according to the report filed by Mrs. Davis at the police station, just as she was going to make the turn into the avenue. The boy was taken to a doctor by Mrs. Davis and his injury dressed before the report was made to the police.

LOANS PASSED ON YESTERDAY BY NEW AGENCY

The local members of the new agricultural loan company met yesterday afternoon in the Armijo building for the purpose of passing on loans. An executive committee was appointed, whose duty it is to investigate the loans and render decisions. The members of this committee are Lee Baldwin, A. G. Simms and J. B. Herndon. Several loans were brought up and passed upon, after which they were dispatched to Washington, D. C., for final action.

The directors of the loan company were not in session yesterday, since none of the out-of-town directors were present. The following bankers from out of the city met yesterday with the members of the agency: A. F. Ferr, president of the El Paso Bank and Trust company of El Paso; T. M. Quebedeaux, of Winslow; and S. J. Thomas of Holbrook, Ariz.

The morning session of the agency of which J. B. Herndon is chairman was devoted to selection of other officers and discussion of the Citizens' bank, was named vice chairman, and Mrs. John Tierney was elected secretary.

HALLOE'EN BOMB SHAKES HOUSES NEAR EXPLOSION

It wasn't an earthquake which stirred the city early last night. It was a bomb carefully and successfully prepared by a number of boys and exploded at the corner of Sixth street and Iron avenue. The explosion was so strong that an iron plug which was screwed into one end of the bomb flew across the street and passed almost through the Randle residence at 606 Iron avenue. The plug crashed through the door, one room, the partition, another room and buried itself in the second wall. As the boys put a considerable distance between themselves and the bomb after lighting it, the police were unable to locate any of the youngsters. No one was hurt by the explosion, although a man riding near the bomb was knocked off his bicycle. The explosion was heard all over the city and shook many houses near the intersection of Sixth street and Iron avenue.

FUNERAL SERVICES FOR N. M. CUDABAC HELD AT 3 O'CLOCK YESTERDAY

The funeral services for N. M. Cudabac were held yesterday afternoon at 3 o'clock from the Methodist Episcopal church, south. Rev. J. C. Jones of Roswell, Rev. W. S. Vanderpool of El Paso, former pastor of the local church, and Rev. C. E. Rigbee conducted the services. The body lay in state at the French undertaking establishment from 10 o'clock yesterday morning until 2 in the afternoon. The funeral was attended by many friends of the deceased.

TELEPHONES MAY BE TAKEN OUT OF COURT HOUSE THIS MORNING

Court House business may be transacted only in person or by letter after today. The county owes the telephone company a considerable sum of money for telephone service, and as the county is unable to pay, there is a possibility that the phones will be taken out this morning.

PUBLIC SCHOOL NIGHT SESSION BEGINS MONDAY

Four Months Course of Evening Class Work for Adults Will Be Conducted at Central School.

The annual night school term of the Albuquerque public school will open on Monday evening at the Central school building. It was announced yesterday by John Milne, superintendent of public instruction. The classes will be open to adults and with the exception of Spanish and commercial subjects, will be offered without cost.

The course will include the usual classes in Americanization and citizenship for aliens as well as elementary work in English and mathematics for those who need them. In the industrial department classes will be offered in millinery, domestic science and in the machine shop work. Commercial subjects and Spanish will be offered if there is a sufficient demand. A small charge for the latter courses will be made.

Classes will be held on Monday, Wednesday and Friday evenings in three periods from 7 to 9 o'clock. A faculty of about eight persons from the public school teaching staff will conduct the courses, which will continue for four months. An enrollment of several hundred is expected by school officials.

PAVING BASE TO BE STARTED ON CENTRAL AVENUE

Curbs and Gutters Have Been Completed; Engineers Believe Paving Will Be Finished Before Freeze

The base for the paving on East Central avenue from High to Mulberry streets, will be started this morning, according to a report of the city engineer's officials. The grading has been completed and the gutters and curbs are all constructed.

Work has been considerably delayed by the street car company construction, but they have now caught up with the other work and it is believed that progress will be rapid from today. Engineers stated yesterday that the work would probably be finished within the thirty working days agreed to in the contract.

INGROWN NAIL

Toe Nail Turns Out Itself if You Toughen Skin

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost overnight. "Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions—Adv.

FATE OF BUREAU OF CHARITIES WILL BE DETERMINED TONIGHT

Members of the bureau of charities of the city and others interested in philanthropy will put their heads together at the chamber of commerce tonight to see what can be done to keep the bureau from going under. Unless definite plans can be made to put the organization on a firm financial basis, must cease to function for lack of funds, according to officers.

Several plans are under discussion for continuing the charity work of the city. It has been proposed to have a campaign for members who will support the bureau financially, to give a big charity ball and to solicit subscriptions from the wealthy people and leading business firms of the city.

The work of the bureau is steadily increasing, according to Rabbi Moise Bergman, secretary, and allowance of several years ago is not adequate at the present time. The money spent for charity in October, exclusive of the overhead and running expenses, was \$504.55. A board of directors will also be elected tonight.

SYRUP PEPSIN IN OLD AGE

Much used by elderly people for constipation, biliousness, headaches, etc.

MANY men and women, as they grow older, suffer constantly from little ills. The cause is the poisons produced by chronic constipation, resulting in headaches, depression, bloating, sour stomach, bad breath, etc. A single bottle of Dr. Caldwell's Syrup Pepsin will prove to you that you can so regulate yourself that elimination will occur promptly every day. Increased doses are not necessary. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin. The cost is only about a cent a dose.

In spite of the fact that Dr. Caldwell's Syrup Pepsin has been on the market 30 years

and is today the largest selling liquid laxative in the world, the formula has never been improved upon. It is safer and better for you than salts, minerals, calomel, coal tar and such drastic purgatives.

Half-Ounce Bottle Free

Few escape constipation, so even if you do not require a laxative at this moment, let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 514 Washington St., Monticello, Ill. Write me today.

Zane Grey's New Story

The Call of the Cañon is a romance of the new West—a story of adventure and mystery, of conflict between the bigness of Arizona and the jazz of New York.

It is the story of a society girl and her war-hero lover—a gassed and shell-shocked soldier who finds health and strength and a new vision of happiness in the cañon country.

Told in Mr. Grey's ever-fascinating manner, one thrill follows another in the adven-

tures of the tenderfoot girl, new to the tang of the outdoors, losing and finding her love amid the mystery of the colorful cañon.

Zane Grey, master teller of Western stories, has never written a better novel than *The Call of the Cañon*. It is his first serial in *THE HOME JOURNAL*, and it will be published in four generous installments. The first is in the big November issue—out today.

Don't miss it!

Jazz Must Go

Listen to the gibberish of jazz:

"Do you park?" asked the youth, and he laid his cheek firmly against hers as they toddled. She was a snappy dame, who rolled her own and shimmied a mean eyelash. He was a hair-netter, a necker, the hero of many a petting party, and he could sling a mean line—no ham would be the wife for him.

What does it all mean? It is the slang of ultra-modern youth—the accompaniment of indecency in dress, in talk, in behavior.

We have given our young folks freedom; we are seeing it fail as they dance hellward by the jazz route. Now it is time to wake up—to get *Back to Pre-War Morals*.

In the November issue of *THE HOME JOURNAL* is the first of a series of articles for mothers and fathers who are concerned about the future of their sons and daughters.

Are you?

Book of Books

A really great series of articles on the Bible has been written for *THE LADIES' HOME JOURNAL* by Professor William Lyon Phelps, of Yale. It is not a religious series. It is for all men and all women of all faiths and all creeds. Competent judges proclaim that this is the most interesting and illuminating series that has ever been written on the Bible.

The need for these articles is very great, for there can be no greater benefit in our present-day civilization than a knowledge of and a love for the Bible.

No one who knows the Bible and learns how to read it for the miracles of inspiration, beauty and wisdom it contains will remain uneducated. No one to whom the Bible is a closed book is educated. The first of these splendid articles, entitled "Human Nature in the Bible," is in the November issue of *THE LADIES' HOME JOURNAL*.

Dollar Savers

Fifteen cents invested in the November issue of *THE HOME JOURNAL* may save you a hundred dollars or more.

Dr. Woods Hutchinson's advice as to *Fall Colds*, and another article on the children's *First Year in School*, may save you a big doctor's bill.

The ten fashion pages, with new hats and wraps and suits and frocks and children's clothes, may save you money in dressing your family this winter.

There are many early Christmas-gift ideas—Ukrainian and Bohemian tablecloths; appliqué, handmade bags, neckwear and towels in the needlework department; fascinating china painting—all things that you can make and all dollar savers on the Christmas list.

How to Get Married—and Eat—on \$25 a Week, and other household articles, will show you how to save money in your kitchen.

THE BATTLE IS ON.

At nine o'clock this morning, in the District
 Court room, will begin the battle of the Journal
 to limit the scope of the libel suits of J. M. Ray-
 nolds and A. B. McMillen to the actual, concrete
 and specific words of which they originally com-
 plained. These gentlemen now seek to widen greatly
 the scope of the trial. The motion of the Journal
 to strike the amended complaints will be presented.
 The argument will probably consume the entire
 forenoon.

The trial of Carl C. Magee on the contempt of
 court charge preferred by J. M. Raynolds will be
 held on Friday, at 9 a. m., in the District Court
 room. The issue in this case is not any words in
 derogation of the court. It is a test to see whether
 or not Mr. Raynolds can force us to cease publish-
 ing editorials discussing the fundamental principles
 of the libel laws and of the freedom of the press.

At both of these hearings the Journal will be
 represented by distinguished counsel. Judge R. H.
 Hanna and Hon. H. B. Jamison will be in charge.
 Mr. Magee also will address the court in his own
 behalf in the contempt proceeding.

FEDERAL RESERVE EARNINGS.

The Federal Reserve system is the financial arm
 of the government. It was stated distinctly at the
 time the system was adopted that it had no money-
 making purpose. It was to be the servant of the
 people to facilitate business.

How far it has departed from its announced
 purpose is shown by facts given on the floor of the
 senate by Senator Watson. These facts were undis-
 puted and may be accepted as true. Senator
 Watson said:

"We will take the Boston bank. The capital paid
 in was less than \$5,000,000. The gross earnings
 (1920) were \$12,000,000. The expenses were \$2,-
 000,000. The total net earnings were \$10,000,000.
 Take the bank at Philadelphia. The capital paid
 in was \$5,000,000 in round figures; the gross earn-
 ings were more than \$11,000,000; expenses \$2,000,-
 000. It was the government that was doing that.
 What right did the government have to exact such a
 profit from the people of Pennsylvania who wish-
 ed to avail themselves of the resources of that bank?"

"Take the bank at Cleveland, O. The capital
 paid in was \$10,000,000. The total net earnings
 were more than \$11,000,000. Is not that more than
 100 per cent? Has the government a right to make
 more than 100 per cent out of the people who pa-
 tronize the government's own bank? If the govern-
 ment sets that example what will the private bank-
 er do?"

"We will take the bank at Richmond, Va. The
 total capital was \$3,500,000. The total net earn-
 ings were \$5,000,000, very nearly double the capital
 stock."

"I take this from the seventh annual report of
 the Federal Reserve Board for the year 1920."

"Now we come to the Atlanta bank. In my own
 state. The capital paid in was \$4,000,000. The
 gross earnings were \$7,500,000. The expenses were
 \$1,350,000. The total net earnings were \$6,000,000,
 or \$2,000,000 more than the capital stock. What
 per cent is that? Nevertheless, my stately friend
 from Utah (Mr. Smoot) seemed to be indignant
 that anybody was charging corporations with mak-
 ing excessive profits. But this report relates to last
 year, and it is the government making these huge
 profits. If the government profiteers, then private
 corporations will profiteer."

"Take the Chicago bank. The capital stock was
 less than \$14,000,000. The net earnings were \$25,-
 000,000. What per cent was that?"

"Let us go on to St. Louis. The capital stock
 was slightly less than \$3,500,000. The total net
 earnings were \$5,250,000."

"Take Kansas City, Mo. The capital stock paid
 in was \$4,500,000 in round numbers. The total net
 earnings were \$5,500,000."

"Take the Dallas, (Tex.) bank. The capital was
 slightly less than \$3,500,000. The total net earn-
 ings were \$1,675,000."

"Take the San Francisco bank. The capital paid
 in was less than \$7,500,000. The total net earnings
 were \$10,000,000. What percentage is that? What
 is that but an excessive profit, and why should the
 government be maintaining a lot of bankers on the
 board here at the head of the regional banks rob-
 bing the people in this way? It is not legitimate
 business. It is robbery under the forms of law."

The Journal feels that the exceptions of Senator
 Watson are well taken. This enormous total in the
 United States was taken from the people who were
 under the necessity of borrowing money. This is a
 crime, but the more serious phase is the perversion
 of the system from its mission of service into a
 money-grabbing enterprise.

Senator Watson charges that the big financiers
 of the United States have seized control of the peo-
 ple's banking system. We think so. This is to the
 harm of the people and the small banker. What
 is to be done about it?

EXAMPLE FOR EX-OFFICIALS.

Here's an echo from a pre-war day, which
 brings a not ignoble ending to a somewhat unpleas-
 ant story. The world probably has forgotten Katti
 Schurrat—Katharina who was the companion of old
 Francis Joseph of Austria-Hungary; Katti who never
 shared his throne, but soled his declining years;
 the brilliant and vivacious actress who became the
 shadowy friend of an emperor.

Well, Francis Joseph departed on the long
 journey while the war still raged. Katti
 Schurrat continued to live. Somehow the world was
 inclined to respect her—her obscurity, her reticence,
 her withdrawal from the spotlight. She never
 claimed or aspired to be a Sorel, a La Valliere, a
 De Pompadour, a De Montespan or a Du Barry.
 She was just the friend of old Francis Joseph.

Five years have passed since Francis Joseph
 went to his grave. Katti Schurrat, during the course
 of the long intimacy, received innumerable letters
 from him, letters in which, with full confidence,
 he poured out his problems and the pertinent com-
 ments on them. Great history in those letters, his-

tory Mrs. Asquith would love, back-stairs history,
 kitchen tid-bits, and so on.

Five years is a long time. Katti Schurrat is poor.
 A million crowns for the letters, said one publishing
 house! And the offer has mounted steadily. Vast
 sums for memories! A fortune for her to enact
 one scene—just one scene—for the motion picture
 camera, fulfilling some incident in the late mon-
 arch's life.

Katti Schurrat refuses. She will bring no aid to
 the scenario of her friend's life. She will reveal
 her heart in no memories. The letters perish with
 her. All praise to her. For if "friend" she was,
 friend she remains, with a loyalty all the world
 can respect. Let the dead rest.

FOR A SHORTER SERIES.

Commissioner Landis seems to be on firm ground
 in recommending that the next series for the base-
 ball world championship consist of seven instead
 of nine games as the maximum. He is concerned
 with preserving the lively interest of the general
 public in the national game, the factor upon which
 it depends for its support, and there is no doubt
 that the series this year was too long drawn out
 for all but a few of the most enthusiastic fans. What
 is wanted for the playing season is a brief, snappy
 series of contests where the true spirit of sport is
 emphasized and less stress is placed on the financial
 winnings of the players. Much sentiment has been
 voiced against the big monetary rewards made pos-
 sible by the high prices charged for admission and
 reserved seats.

When there is a clash between the financial in-
 terest of owners and players and the public inter-
 est there should be no doubt as to which should
 give way. A shorter world series next time and
 lower prices, with the soft pedal on the cash regis-
 ter—there is the way to strengthen the interest of
 the followers of professional baseball and keep the
 game on the plane where it belongs.

VERSE OF TODAY

A FALL SUNSET.

Scarlet and gold, scarlet and gold!
 Don't tell me, sunset, that I'm growing old.
 Green are the hillsides and gay is the sky.
 Summer is with us, though winter is nigh.
 Day's on the earth, though night is nearby.

Muscle and light, muscle and light,
 Don't tell me, singer, that it is moon night.
 Sing of the eager, sing of the bold.
 Sing of tomorrow, behind the night's fold.
 Oh, but I'm young in the eons of old.

Minutes and me, minutes and me,
 Point me out, dial, my eternity.
 My power is young, though my purpose is old.
 My blood is warm scarlet; it's worlds that are cold.
 I am the scarlet and I am the gold!

EDITORIAL OF THE DAY

HUMILIATING SITUATION, THIS!

(From the Cincinnati Enquirer.)
 The government of the United States and the
 American people find themselves in a humiliating
 position. It has not been many months since this
 government and people, at immense sacrifice, has
 taken to assure the salvation of European civiliza-
 tion, and today one of our most distinguished Am-
 bassadors, at Europe's greatest capital, is daily in
 danger of losing his life at the hands of the con-
 fessed enemies of democratic government and the
 present social order!

If America's chief representatives in the capitals
 of Europe must serve as conspicuous marks for
 assassination, perhaps Senator Borah and those
 who, like him, would refrain from more intimate
 international relations, may be more nearly right
 than we have been disposed to believe.

Certainly the French, Italian and Belgian gov-
 ernments may be trusted to do all they can to pro-
 tect our representatives. But the condition which
 compels such protection is what is wrong. The aims
 and policies of communists frankly are avowed. The
 world knows all about them. But existing govern-
 ments take more pains to protect themselves from
 rabid dogs than from these rabid assassins.

Mobs in France are crying: "Long live Lenin!"
 Vive the American Soviet Republic! The members
 of these mobs, at least willingly, were not in the
 battle lines when the might of free America enabled
 the battered armies of France and England to
 snatch victory from the jaws of defeat.

Sovietism preaches international sedition. Let
 us have done with illusions. France, England, Amer-
 ica, Italy have all necessary power to stamp out
 within their borders the breed of Lenin. Concealed
 immediate action in every civilized state should be
 taken to deport to Russia every man or woman who
 is tainted with the destroying mania which, even
 now, with knife and bomb and incendiary speech,
 threatens the lives of American ministers and rep-
 resentatives to friendly nations. Send them to the
 land they acclaim. No civilized state owns them
 even the protection they demand, and receive, when
 caught redhanded in the commission of crime. Send
 them home to Russia before they have further op-
 portunity to defile the atmosphere of a liberty they
 neither deserve nor understand.

RIPPLING RHYMES

By WALT MASON.

THE MOURNER.

My mind had grown so galled
 and sore, from viewing social
 smashes, I started for the sack-
 cloth store, to buy a ton of ashes.
 "These modern ways," I said
 aghast, "are all beyond enduring,
 and every stand-by of the past has
 broken from its mooring. I do not
 like to kick and carp, or shed the
 tears in billows, but I must hang
 my famous harp upon the well-
 known willows. For things have
 changed since I was young and
 lived in far Aurora and Minzy
 and curves are daily sprung, that cap-
 ture my Ankara." And, thinking
 of that storied town, old men I
 recollected, who used to wander
 up and down, disconsolate, deject-

ed. Oh, that was forty years ago,
 and they were always saying that
 modern things were steeped in
 woe, and virtue was decaying.
 "And are we old boys dotard
 aires?" I cried, "has old age hipped
 us, that we intend to hang our
 lyres upon a eucalyptus? Have I
 grown like those graybeards dou-
 gh who groaned in bygone seasons,
 and said the world was turning
 sour, and bored us with their rea-
 sons? I'll have to can the sob and
 sigh, discard the mourning bor-
 der; no bolt of sackcloth shall I
 buy, no ashes shall I order." And
 then I went to Jimpson's shop,
 where le cold drinks are mingled,
 and drank three quarts of lemon
 pop, and through my works it
 tingled.

to creep up on me that way and
 nibble my ears! I must be care-
 ful!"
 Just as the bunny gentleman
 was going to run away he heard
 a jolly voice saying:
 "Oh dear! What a lot of trouble!
 Ha! Ha! Ha! But I like trouble!
 It's such fun when you get over
 it!"

"Well, this can't be the fox or
 'wolf' thought the bunny. 'They
 never laugh at trouble! I'll see
 who this is!'"
 He did not have long to wait.
 Out from behind the pile of leaves
 came jolly old Mr. Groundhog.

"Hello, Mr. Groundhog, what's
 the matter?" asked the bunny.
 "Oh, nothing much, and yet I'm
 having a jolly lot of funny trouble
 trying to move this pile of leaves
 to my underground burrow, where
 I want to sleep all winter." An-
 swered the groundhog gentleman.
 "As fast as I get a pile of leaves
 in my paws they drop out!"

"What! Your paws drop out?"
 cried Uncle Wigwag.
 "No, the leaves," answered the
 woodchuck, which is his other
 name. "The leaves are so slip-
 pery!"

"I'll help you," offered Mr.
 Longears. "Between us we can
 carry them." And they did, and
 soon Mr. Groundhog's burrow was
 nicely lined with dried leaves
 which would keep him warm dur-
 ing his long winter sleep.

"Thank you, Uncle Wigwag,"
 said the woodchuck gentleman, as
 the bunny hopped away.

"Pray, do not mention it," po-
 litely spoke the bunny. "I had a
 nice little adventure. But now I
 must go home. I think Nurse
 Jane and Mrs. Twisttail will have
 finished dressmaking by this
 time."

But when the bunny reached his
 bungalow he found the two animal
 ladies had gone out, leaving the
 partly finished dresses on a chair.

"I'm having a jolly lot of
 funny trouble."

Pinned to one was a note reading:
 "Dear Wiggy. We grew tired of
 sewing and went to the movies.
 I'll pick up the pins when I come
 back."

"Well, certainly dressmaking is
 hard work, and one needs to go to
 the movies," said the bunny. "And
 there is no question but that the
 pins need picking up off the floor."

Just as he picked up the last
 pin the door opened.

"Glad to see you!" said the
 bunny, thinking it was Nurse Jane
 come back.

"Oh, are you? Well, I'm glad to
 see you," growled a harsh voice,
 and there stood the Fuzzy Fox.

"Oh—hum sus—dum! Oh,
 I didn't know it was you," gasped
 the bunny.

"I thought not!" laughed the
 fox. "I came a long way to get
 you. I'll just sit down a moment
 to catch my breath, and then I'll
 take you off to my den!"

Down in a chair sat the fox, but
 a second later up he jumped, cry-
 ing:

"Oh, wow! What's this? What
 have I sat on?"

"Sharp pins, I think," laughed
 Uncle Wigwag, as, with another
 howl, the bad chap jumped out
 through a window with pins stick-
 ing all over in his hind legs.

"It's a good thing I picked up
 the pins!" chuckled Mr. Longears
 as he sat down in a different chair
 to laugh. "That fox is quite stuck
 up, so to speak." And indeed he
 was, but it served him right.

THE MARKETS

(By The Associated Press.)

New York, Oct. 31.—Fluctua-
 tions in the stock market today
 were confusing, issues of the same
 description frequently moving in
 opposite directions. Dealings were
 fairly large, but again subject to
 the maneuvers of professionals.

Money rates furnished an excuse
 for the market's course. Call loans
 opened at 5 1/2 per cent, relaxed to
 5 per cent at midday and hardened
 to 6 per cent in the final hour.

Developments offered little en-
 couragement to the bull accounts.
 Railroad tonnage showed irregular
 decreases and business gains at
 prominent centers were neutralized
 by further price reductions for im-
 portant industries.

Independent steel producers
 were reported to be contemplating
 lower prices for structural steel
 and other fabricated materials and
 substantial cuts were announced by
 manufacturers of motor trucks and
 rubber tires.

Among market leaders Mexican
 Petroleum was heaviest at an ex-
 treme decline of nearly eight
 points, the stock being under great
 pressure in the last hour and
 unsettling the list. Rails lined
 into the dullness shown by that
 group prior to the strike settle-
 ment, and equipments, motors and
 food shares were heavy. Wilson
 and Company, common and pre-
 ferred, made gross declines of five
 to fifteen points. Officials of the
 company were quoted as being un-
 able to account for the weakness of
 those issues. Sales, 700,000 shares.

Chicago Board of Trade
 Chicago, Oct. 31.—Notwithstanding
 a substantial decrease in the
 United States visible supply total,
 wheat today underwent a slight de-
 cline, owing chiefly to imports of
 duty paid Canadian wheat. Prices
 closed easy, 3/4c to 1 1/2c net lower,
 with December \$1.07 1/2 to \$1.08
 and May \$1.12 1/2 to \$1.13 1/2. Corn
 finished a shade to 3/4c off, oats
 unchanged to 3/4c lower, and pro-
 visions varying from 2 1/2c decline
 to 1 1/2c advance.

At first, bulls in wheat appeared
 to have some little advantage on
 account of correct anticipations of
 the change in the domestic visible
 supply figures, but demand failed
 to broaden out, and all upturns
 seemed to be a signal for selling by
 houses with northwestern connec-
 tions. In the end, the prevailing
 sentiment was rather bearish, the
 outstanding factor being news that
 millers at eastern points were ac-
 quiring wheat from Canada and
 that the Canadian visible supply
 total had been heavily enlarged.

Absence of any aggressive sup-
 port tended to weaken corn and
 oats.

Trading was almost entirely
 local.

Provisions averaged higher in
 price with beef.

TEACHERS TO BE ENTERTAINED BY LOCAL C. OF C.

Committees Complete Plans for Many Social Events to Be Held During the State Teachers' Meet.

A sacred concert will open the entertainment program being prepared by the chamber of commerce for the state teachers' convention, which will be held here Thanksgiving week. The concert will take place at the high school auditorium Sunday afternoon, November 20, from 4 to 6 o'clock. Among those who will take part in the program are Mrs. E. L. Bradford, Miss Louise M. Nichols, Miss Estelle Valek, Miss Bertha Peet and George Geake.

The Indian school band will give a concert at the Santa Fe station Sunday evening, when hundreds of the teachers will arrive. The band will also give several selections before the Monday afternoon meeting starts at the armory.

Plans for the annual chamber of commerce reception to be held Monday afternoon, November 21, are being completed by the social affairs committee which is composed of Mrs. J. T. McLaughlin, chairman; Mrs. M. K. Wylder, Mrs. W. C. Reed, Mrs. Max Nordhaus, Mrs. Louis Hild, Mrs. John Milne, Mrs. D. S. Hill, Mrs. G. E. Breece, Mrs. E. B. McMillen, Mrs. E. N. Boule and Mrs. K. Baldrige. The reception will probably be held at the Elks' home from 4 to 6 o'clock.

Chamber of commerce directors and their wives will assist the directing committee in arranging the big event of the convention, the musical and social. This will be held at the armory Tuesday evening, the second day of the convention.

Reservations are being made by the chamber "rooming" bureau as fast as teachers are requesting them and it is expected that probably more than 1,500 rooms will be arranged for before the convention.

The chamber is urging all teachers intending to attend the convention to request reservations before their arrival in order that there will not be a congestion during the opening days.

"We can assure the state teachers that there will be ample accommodations for them," D. B. McKee, secretary of the chamber of commerce, stated last night. "But it will greatly help us and them if they get reservations before the meeting."

Hundreds of rooms are being listed with the chamber to furnish a solicitor is canvassing the city, persons who have rooms available for use of teachers during the convention are urged to notify the chamber without waiting to be solicited. A reasonable rate will be made for all rooms listed with the chamber.

With about 4,000 teachers coming to the city for the state meeting, it will be necessary for almost every family to arrange to room one or more of the visitors.

LOCAL CLIMATE IS PRAISED BY PRESS CONGRESS DELEGATE

An article by F. P. Hall, who was a delegate to the press conference of the world, and who passed through the city several weeks ago enroute to Honolulu to attend the meeting, gives Albuquerque great praise as a health center in an article published last week by the Jamestown Evening Journal of Jamestown, N. Y. Mr. Hall is reporting the conference for the Jamestown paper and in his story of the trip to the coast devotes considerable space to Albuquerque.

The special train carrying the newspaper men was met here by officials of the chamber of commerce and every effort was made to entertain the visitors and to show them the interesting parts of the city. The climatic advantages appear to have made quite an impression upon Mr. Hall and he praised the type of sanatoriums which are located in the city.

Patrons are requested to place orders for shelled pinto nuts well in advance in order to be promptly served. Fannie S. Spitz, 323 North Tenth St., Tel. 802. Mail orders given careful attention.
