# COAL MINERS' STRIKE SEEMS INEVITABLE AS RESULT OF INJUNCTION

## SETTING ASIDE OF 'CHECK OFF' SYSTEM RESENTED BY UNIONISTS

**International Officers Are Said to Regard the Walkout as the Organization's Only Weapon to Enforce a Contract; 350,000 Workers in Sixteen States Involved.**

Indianapolis, Nov. 1. (By The Associated Press).—A nation-wide strike of coal miners seemed inevitable tonight if operators heeded the injunction issued by Federal Judge A. B. Anderson, which proscribed the check off of union dues.

A telegram sent late today from headquarters of the United Mine Workers after it had been definitely learned that the injunction was not in effect, advised union officials to regard discontinuance of the check off system as breaking the existing wage agreement.

The telegram, signed by President John L. Lewis, Vice President Philip Murray and Secretary William Green, said:

"Any abrogation or setting aside of any part or section of this agreement, including the section providing for the checking off of dues and assessments, cannot be regarded as other than a violation of the agreement and should be treated accordingly by the district officers and local unions."

It was said authoritatively that the international officers regarded the strike as the union's only weapon to enforce a contract. The telegram was sent to officials in sixteen states, where the check off provision obtains and where 350,000 of the 550,000 union miners are employed.

The telegram said: "As a result of the disagreement between the United Mine Workers of America and the coal operators in the fall of 1919 it was suggested by the government of the United States that the miners and the operators submit all their differences to a commission appointed by the president, said commission to have full authority to render an award. The United Mine Workers agreed to this program and the commission in due time rendered an award which they decided must be written into the form of an agreement by and between the coal operators and the United Mine Workers to be in effect until March 31, 1922. Following rendition of this award by the United States bituminous coal commission, functioning under governmental authority, the president, in a letter addressed to the coal operators and the United Mine Workers, commanded both sides to meet in joint conference and duly execute such agreement as directed by the bituminous coal commission. This was done and the agreement was duly signed in New York, March 21, 1920. It is therefore obvious that said joint agreement cannot be modified or changed in any of its provisions until its expiration, March 31, 1922. Any abrogation or setting aside of any part or section of this agreement, including the section providing for the checking off of union dues and assessments, cannot be regarded as other than a violation of the agreement and should be treated accordingly by the district officers and local unions within your jurisdiction."

## GOLD ORE DISCOVERED IN ILLINOIS, REPORT

(By The Associated Press.)  
Freeport, Ill., Nov. 1.—What was thought to be gold ore has been discovered on a farm near Pearl City, Ill., it was reported today, with the announcement that a company had been formed to begin mining operations on 1300 acres of land leased today near the village. It was said the ore was discovered by well diggers and that it was expected to yield about \$11 a ton.

## FORMER CONGRESSMAN HULL IS CHOSEN CHAIRMAN OF NATIONAL COMMITTEE IN PLACE OF WHITE

**New Chief Says He Wants to "Decentralize" Authority By Throwing Greater Responsibility on Local Organizations; Praises His Predecessor, Flays Republicans.**

(By The Associated Press.)  
St. Louis, Nov. 1. (By The Associated Press).—The democratic party today chose former Congressman Cordell Hull, of Carthage, Tenn., as chairman of its national committee to succeed George H. White, of Marietta, Ohio, who resigned to party ranks.

The change in leadership, which had been held by Mr. White since July, 1920, when he assumed the chairmanship at the call of former Governor Cox, of Ohio, the party's nominee for president, was assured early today, when after conferences lasting practically all night, it was announced that all elements of the party had agreed on either Breckinridge Long, former assistant secretary of state, or Mr. Hull. Mr. Long's ultimate selection was considered.

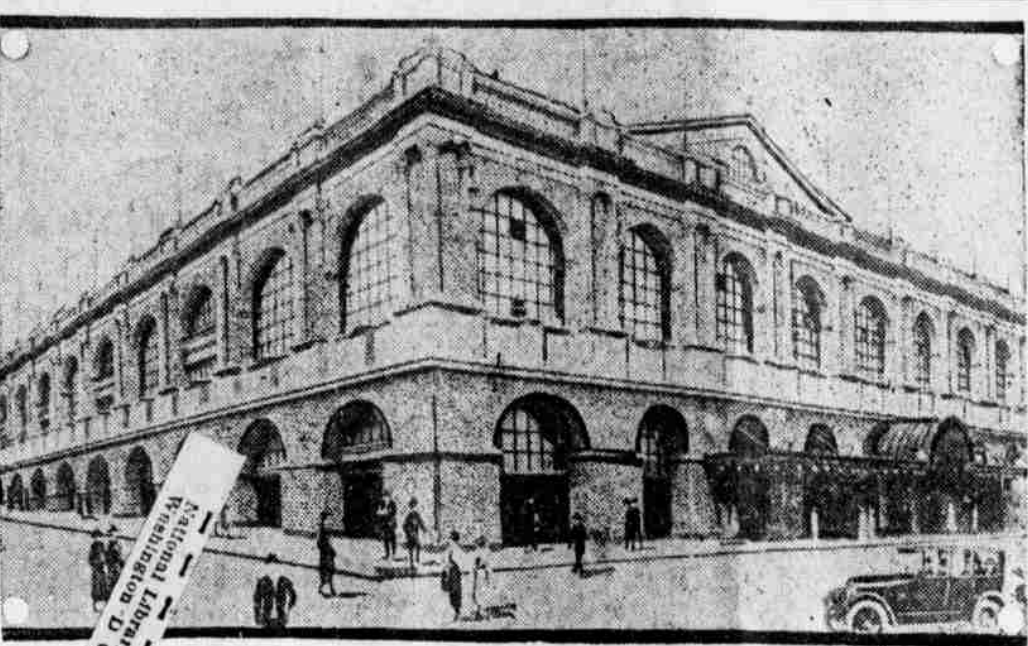

## WEATHER

**FORECAST.**  
Denver, Colo., Nov. 1.—New Mexico and Arizona: Fair Wednesday and Thursday; not much change in temperature.

**LOCAL REPORT.**  
Conditions for the twenty-four hours ended at 6 p. m. yesterday, recorded by the university:

Highest temperature.....	69
Lowest.....	36
Range.....	33
Mean.....	52
Humidity at 6 a. m.....	65
at 6 p. m.....	20
Precipitation.....	None
Maximum wind velocity.....	12
Direction of wind.....	South
Character of day.....	Clear

## Where Hosts of Legionnaires Are Meeting in Kansas City

Convention hall, Kansas City, Mo. The American Legion is holding its third annual convention. No other meeting in this city.

## BELIEVES BURCH INSANE; MURDER TRIAL DELAYED

**Sanity of Accused Slayer of J. B. Kennedy Becomes Paramount Issue; Case Is Set for Monday.**

(By The Associated Press.)  
Los Angeles, Calif., Nov. 1.—The sanity of Arthur C. Burch, accused with Mrs. Madalynne C. Obenchain of the murder of J. Belmont Kennedy, became a paramount issue in the case today and resulted in his trial, scheduled for today, going over until next Monday. Mrs. Obenchain, who had demanded a separate trial, consented in open court to the continuance of her case to the same date, with the understanding that it would then probably be set to follow the trial of Burch.

When court convened at ten o'clock, with Superior Judge Silliman N. Reeve presiding, Paul Schenck, chief counsel for Burch, addressed the court and asked permission to read some affidavits. He was granted leave to proceed and opened with a statement from John J. Sullivan, of Seattle, one of his associates.

As he read, reciting Mr. Sullivan's professional connection with the case, he came without change of voice to a statement that after conferring with Burch, Mr. Sullivan believed his client to be insane. There was a stir in the room and Burch, after a quick glance at the attorneys, settled back in his chair, motionless, and listened apparently unmoved to the subsequent reading.

## C. E. ERNSTEN WILL BE ADMITTED TO PRACTICE

(By The Associated Press.)  
Los Angeles, Calif., Nov. 1.—Charles E. Erbstein, attorney of Chicago, will be admitted to practice in the state courts of California tomorrow afternoon upon advice of the Los Angeles Bar association, it was announced here tonight by Superior Judge Sydney N. Reeve. This overrules an objection made by Thomas Lee Woolwine, district attorney against admission of Erbstein to practice as an attorney for the defense of Mrs. Madalynne C. Obenchain, charged with the murder of J. Belmont Kennedy.

Judge Reeve announced that he received tonight a report from the trustees of the Los Angeles Bar association, stating that Attorney Erbstein was entitled to practice before the Illinois Bar, and that he deemed it proper and fit that he be entitled to associate with the counsel in the defense of the case before the court here.

District Attorney Woolwine files charges against the moral character of Erbstein on the day that the Chicago attorney appeared in court here last week to become associated in the defense of Mrs. Obenchain. These charges were referred by Judge Reeve to the bar association grievance committee. The trustees of the association communicated with the Illinois Bar association, and acting upon the response from that body, cancelled a proposed hearing of the charges by the local grievance committee and advised that Erbstein be admitted to practice here.

## NUMBER FAILURES IN OCTOBER INCREASED

(By The Associated Press.)  
New York, Nov. 1.—October failures reported to Bradstreet's number 1,896, an increase of 17 per cent over those of September, and the second largest number in any month since March, 1915. Insolencies last month were nearly four times those of October, 1920. Liabilities aggregated \$47,732,203, 31 per cent above September's total, but smaller than in any preceding month back to November, 1920.

The biggest increase came in the south, which had about two and one-half times the failures and liabilities of October, 1920.

In ten months of 1921 there have been 15,535 failures, involving liabilities of \$591,105,741.

## DENIES ALLEGATIONS.

New York, Nov. 1.—Jack Dempsey today filed papers denying the allegations in a complaint of Albert Siegel which has not yet been filed. Siegel is the husband of Ree Palmer, a dancer. Dempsey is said to have been in Minnesota with a complaint in a suit for alienation.

## FOCH IMPRESSED BY DIGNITY AND BEAUTY OF LEGION PARADE

Kansas City, Nov. 1.—Marshal Foch of France, in a statement issued late today from the reviewing stand during the parade of the American Legion, declared he had been greatly impressed by the dignity and beauty of the long procession.

The statement said: "It shows the things that war has done. It has brought out through suffering that which is dignified and strong and beautiful in men's souls; it has done that for us and for you and for all who fought with us. It was that dignity and strength of soul which I saw today in these marching columns of mine. Coming to America has enlarged my vision. I have found it necessary to see things on a bigger scale. Today was beautiful."

## MAJORITY GIVEN NESTOS IN N. D. RECALL, 4,378

**Seventeen Precincts Are Missing; Proposal to Liquidate the State Bank Is Rejected By Voters.**

(By The Associated Press.)  
 Fargo, N. D., Nov. 1. (By The Associated Press).—While opponents of the non-partisan league in North Dakota defeated three league endorsed state officials in Friday's recall election, they failed to pass an initiative law providing for liquidation of the State Bank of North Dakota.

The measure to liquidate the bank, established as part of the league's program for state ownership of industries, lost by a majority of from 4,000 to 6,000. These figures also corresponded to returns assembled by the league newspaper here.

Governor Lynn J. Frazier, defeated by R. A. Nestos, independent, will continue in office for approximately another month, as twenty days are allowed for certification of returns to the secretary of state, who has ten days in which to prepare the returns for the official canvassing board.

Immediately after the canvassing board has announced its findings, the governor, together with Attorney General William Lamke and John N. Hagan, commissioner of agriculture and labor, will step out and their places will be taken respectively by Nestos, George Johnson and Joseph A. Kitchen.

Returns as compiled by the independent newspapers showed the following standing tonight:

Governor: 2,985 out of 2,163 precincts gives: Nestos, 11,017; Frazier, 106,639; majority, 4,378, for Nestos.

Attorney general: 1,723 precincts gives: Johnson 98,418; Lemke, 88,739.

Commissioner of agriculture and labor: 1,723 precincts gives: Kitchen, 97,208; Hagan, 87,659.

## BODE IS APPOINTED ADMINISTRATOR OF ESTATE OF MERTEN

(By The Associated Press.)  
El Paso, Texas, Nov. 1.—The probate court at Las Cruces, New Mexico, today appointed Martin Bode, of Albuquerque, New Mexico, administrator in New Mexico of the estate of George H. Merten, merchant and postmaster of Bodey, N. M., who was found murdered at his home there on October 24. Bode was fixed at \$50,000. Bode is the only American heir to the estate, which is estimated more than \$500,000. Other heirs reside in Germany. Albert Mathias, of El Paso, has been appointed administrator for the estate in Texas, his bond being fixed at \$50,000.

## ROLLS-ROYCE PASSES 7 PER CENT DIVIDEND

(By The Associated Press.)  
Springfield, Mass., Nov. 1.—Circular letters to stockholders of the Rolls-Royce of America, Inc., announcing the passing of the 7 per cent preferred dividends, were made public today. President J. J. Belpas states that while the earnings of the company have created a surplus, the directors do not feel it would be good judgment to pay a dividend of 7 per cent.

Two million dollars was subscribed locally for the memorial.

## YANKS HANGED WITHOUT TRIAL WATSON CLAIMS

**Georgian Alleges American Soldiers Abroad Were Treated Inhumanely; Denied By Wadsworth.**

(By The Associated Press.)  
Washington, D. C., Nov. 1.—Charges by Senator Watson, Democrat, Georgia, that American soldiers serving in France, were hanged without court martial or other form of trial, precipitated a heated debate today in the senate. Chairman Wadsworth of the military committee, invited the Georgian senator to appear before his committee to produce evidence in support of his charges.

Replying to Senator Watson's charges that 21 American soldiers had been hanged on one scaffold in France, Senator New, republican, Indiana, presented an official statement from the judge advocate general of the army, showing that out of a total of 28 sentences of death imposed on the American expeditionary forces, only nine were actually carried out.

Photograph of Gallows.

"How many senators know," Senator Watson asked, "that a private soldier was frequently shot by his officers because of some complaint against officers' insolence; and that they had gallows upon which were hanged dead or dying men without court martial or any other form of trial?"

I had and have the photograph of one of those gallows, upon which 21 white boys had already been hanged, and the gallows were waiting in the camp for the next morning after morning."

Senator Wadsworth declared that his charge could not be lightly brushed aside, nor "could it be excused on grounds of excitability in debate." He demanded that Senator Watson produce the proof.

The permits, he declared, were issued by the "demon" and would "tell him foot to foot and shoulder to shoulder that he was the equal of any senator," and assumed full responsibility for his charges. He said he would not go before any committee with his evidence or to produce his witnesses unless they were guaranteed immunity.

"Can produce witnesses," he added, "and I did not overprint the picture. I have a photograph of the gallows upon which white soldiers were hanged and I can produce witnesses who saw it. It is safe for me to go before the committee with my evidence. A picture of white men hanged like dogs. I can produce men if it were safe, who saw men shot without trial. I cannot compel anyone to come to this uncertain danger."

Letters Were Censored.

"The food was piled up mountain high in France and virtually given to the French when our men were starving and in need of food. Our men were unnecessarily exposed and left to die on the road. I know ex-servicemen who saw these things and told me about it. I mean every word I said. I heard them state they would die before they would do so. The men were treated inhumanely, and told me so themselves."

Senator Wadsworth vigorously challenged the truth of Senator Watson's charges.

Senator Watson then produced his small photograph of an alleged execution. It was passed around among senators who examined it carefully.

## BEER FOR SICK MAY BE SOLD AT ONCE IF PERMITS ARE GOTTEN

(By The Associated Press.)  
Washington, D. C., Nov. 1.—Brewers are to be sent brewers advising them that beer already manufactured and held in stock may be sold for medical purposes under the new treasury regulations, Internal Revenue Commissioner Blair announced tonight.

Sale of this beer for the sick could begin at once under the new law, he declared, adding that there would be no delay in the issuance of permits to brewers whose applications were without flaw. The bureau, he said, would allow any red tape to interfere with immediate distribution of beer for medical purposes.

To permit beer to be de-alcoholized plants to be used as medicinal purposes, a "strained" collection of the law, according to a statement issued tonight by Wayne B. Wheeler, general counsel of the Anti-Saloon league.

"We are not so much interested in this," he said, "as we are in the enforcement of the provisions which prevent any applicant from getting a permit who has violated the state or federal law of regulation thereunder. This applies both to brewer who makes his application as well as to the druggist who will get a permit to sell it."

## LIBERTY MEMORIAL TO KANSAS CITY FALLEN HEROES IS DEDICATED

(By The Associated Press.)  
Kansas City, Mo., Nov. 1.—One of the greatest assemblages in the history of the country paid homage to America's war dead here today at the dedication of Kansas City's Liberty memorial, being built in honor of the city's sons who fell during the war.

A mass of humanity—American legion members, veterans, citizens, distinguished war leaders from allied countries and high ranking officers of the United States army and navy, including General Pershing, joined in the dedication.

The memorial is a great column to be reared on the crest of a hill on the Union station plaza, atop which will burn a perpetual fire, "a pillar of cloud by day and by night a pillar of fire."

Two million dollars was subscribed locally for the memorial.

## LEGION PARADE IN KANSAS CITY IS REVIEWED BY FAMOUS CHIEFS

**Forty Thousand Veterans From Every State March in Great Pageant, Preceded By Mexican Band**

## CONGRESSMAN LEADS ALABAMA DELEGATES

**Almost Three Hours Required for the Procession to Pass; Hundreds of Thousands of Spectators.**

(By The Associated Press.)  
Kansas City, Mo., Nov. 1.—Under a brilliant autumn sky and through dense crowds the American Legion passed in review before military and naval leaders of Italy, France, Great Britain and Belgium and ranking American military officers.

Marshal Foch of France, Admiral Beatty of Great Britain, General Diaz of Italy, Lieutenant General Jacques of Belgium and General Pershing, Admiral Hugh Rodman, U. S. N., and Maj. Gen. John A. Leutenants commanding the marine corps, marched with their "buddies" of the legion from Convention hall, where the parade was formed, to the reviewing stand, where they stood while the legion thousands passed by. Vice President Coolidge was also in the reviewing stand.

Veterans from every state marched in the great pageant, bringing together again the leaders of the war and the allied legionnaires. Approximately 40,000 veterans were in the line that streamed past several hundred thousand spectators.

Men in civilian clothes, marching shoulder to shoulder with those who had again donned their uniforms. The old spirit of discipline and training was evident as the veterans stood along in platoons formation and snapped salutes to the reviewing officers.

Preceded by the military band, President Obregon of Mexico sent a message of greeting to the legion. The march of the legionnaires, led by the military band, proceeded until the reviewing stand was reached. Marshal Foch and General Pershing arrived first. The last man of the Washington Rickenbacker American flying ace. They were followed by General Diaz and General Jacques with Admiral Earl Beatty and Admiral Rodman not far behind.

The parade marchers bearing the thirty-five congressional medals of honor men, and the parade had officially begun. The state delegations moved past in alphabetical order. The Alabama delegation, headed by Lamar Jeffers, representative in congress and wearer of the distinguished service cross.

Allied Chiefs Impressed.

Almost three hours elapsed before the last man of the Washington state posts had passed. The parade began under a bright sun and ended when the purple shadows of the autumn evening blended with the red glow of dusk. The huge crowds in the roped off streets stayed until the last. All of the allied chiefs declared the spectacle had made upon them an indelible impression.

All spoke particularly of the execution of the custom followed by the color bearers in dipping departmental and post standards and holding aloft the Stars and Stripes.

"We are not so much interested in this," he said, "as we are in the enforcement of the provisions which prevent any applicant from getting a permit who has violated the state or federal law of regulation thereunder. This applies both to brewer who makes his application as well as to the druggist who will get a permit to sell it."

## CARRIERS WILL ASK PERMISSION TO SLASH WAGES

(By The Associated Press.)  
Chicago, Nov. 1.—The matter of proceeding to secure further reductions in railroad employees' wages with the object of reducing rates by "well in hand" with the various roads and necessary moves to bring the questions before the interstate commerce commission and the railroad labor board will be taken at once, T. Dewitt Cuyler, chairman of the Railway Executives' association, said in a telegram tonight to H. H. Chandler, president of the National Industrial Traffic league.

Mr. Chandler telegraphed Mr. Cuyler in New York to ask when rate reductions could be expected. Mr. Cuyler replied that the roads were awaiting word from the interstate commerce commission as to the date for a hearing on rates, and that the roads were about ready to proceed in accordance with the transportation act in seeking authorization by the labor board for a wage reduction.

## 6 FEDERAL AID ROAD PROJECTS GIVEN APPROVAL

Raton, N. M., Nov. 1.—Colfax county already possesses more miles of improved highways than any other county in the state and this county will retain the forefront during the coming year in the building of new highways to be built through county, state and federal cooperation. Announcement has just been made through the state engineer's office that six additional federal aid projects had been approved for this section of the state. Three of these are located in Colfax county, two in Union county and one in San Miguel county. The projects cover the highway between Raton and Clayton and several lengths stretches between Raton and Las Vegas on the Santa Fe trail which have not yet been improved. It is expected that most of this work will be completed by the end of next year. The surfacing will be of gravel.

In addition to the above contracts just announced there are other important segments of the state highway within Colfax county which are now under contract or are about to be placed under contract. The work of gravel surfacing is now being pushed on 25 miles of highway between Raton and Cimarron, under two separate contracts. In December it will be let for the grading of 33 miles of non-surfaced highway between Springer and Gladstone in Union county and early in the spring the contract will be let for 15 miles of the state highway on the Cimarron-Taos road between the Eagle Nest Dam and the top of Taos hill. It is understood that the state highway commission expects to have a standard surfaced highway on the state line on top of Raton Pass to Santa Fe by the end of 1922. About 40 per cent of the state highway between Raton and the Texas state line will be surfaced in about the same period.

Of the proposed federal aid projects, 58 1/2 miles lie in Colfax county. It is estimated that this will cost approximately \$200,000.

## EATING MEAT OF WILD GOAT FATAL TO A BOY

Long Bar, Calif., Nov. 1.—David Smith, 5 years old, died here tonight from poisoning induced, according to doctors, by eating the meat of a wild goat, killed by the lad's father on a recent hunting trip. Three other members of the family are recovering from the meat in a serious condition.

Taxes Retained.

Photographic films and plates, other than moving picture films, 5 per cent; candy, 3 per cent for all kinds, in lieu of the present rate of 4 per cent; perfume, essences, extracts, toilet waters, combs, hair oils, hair oil dressings, restoratives, etc., 4 per cent in lieu of present stamp taxes; fire arms, shells and cartridges, hunting and necessities.

(Continued on Page Two.)

## SOLDIERS BONUS FIGHT WILL BE RENEWED TODAY BY MISSOURIAN

**Senator Reed Expects to Reply to a Statement Issued By Fordney, Ways and Means Head.**

## LUXURY AND NUISANCE TAXES HOTLY DEBATED

**Work of Revising the Revenue Measure Proceeds; Smoot's Proposal Expected to Meet Opposition**

Washington, Nov. 1.—Luxury and nuisance taxes held the center of the senate stage today and tonight with party lines obliterated. So many of this class of excises were voted out of the revenue revision bill that the charge was made from the democratic side that there was a movement afoot to strip the measure and to make necessary adoption of a general sales tax.

This was denied by Senator Penrose, in charge of the bill, who said it was not the time to bring forward a sales tax. He assured the senate that even if all the items proposed for repeal went out of the bill, there would be a margin of \$10,000,000 between the government income and outgo.

Sales Tax Discussion.

The sales tax discussion was accepted in the senate today. It is to come when Senator Smoot, republican, Utah, brings up his proposals for such a tax, probably Thursday. He introduced today two modified and alternate sales tax plans. One proposes a 1 per cent levy on all manufactured goods where sales exceed \$5,000 a year, and the other proposes a general turnover tax of 1/2 of 1 per cent where the sales exceed \$5,000.

Senator Smoot previously had offered an amendment providing a general manufacturers' sales tax of 3 per cent on certain excises, with this to be in lieu of all other taxes. His new plans would replace any miscellaneous excise and would provide for a 10 per cent tax on corporations in place of the 15 per cent currently agreed upon by the senate.

It is understood to be his plan to offer his amendments one by one with the view of testing senate opinion on each.

The Smoot amendments are expected to meet stiff opposition.

Bonus Fight Deferred.

The senate confined its operations today largely to the subject matter in the bill, revision of the soldiers' bonus. Fight being deferred until tomorrow. Senator Reed, democrat, Missouri, expects to reply to a statement issued today by Chairman Fordney of the house ways and means committee, who said the Reed amendment for the bonus coming at this time would "undoubtedly create suspicion in the minds of the veterans of the senator's sincerity."

"Very early in the coming regular session of congress," he said, "the house will undoubtedly pass an added compensation bill."

Luxury and Nuisance Taxes Stricken from the bill by the senate included those on articles made of fur, toilet soaps and soap powders, tooth and mouth washes, dentures, tooth paste, toilet powders and petroleum in electric fans, thermos and thermoclastic bottles, and photographic apparatus and accessories.

## BRITAIN IS WILLING TO MEET OTHER POWERS IN AN EFFORT TO RELIEVE ARMAMENT BURDEN

**Short of Compromising the Safety of the Empire or its Security at Sea, the Delegates Will Go to Almost Any Length, First Lord of the Admiralty Declares.**

(By The Associated Press.)  
New York, Nov. 1.—British delegates to the conference on limitation of armaments will go to Washington resolved that, short of compromising the safety of the empire or its sea security, they will go to almost any length to meet other great naval powers in a mutual and proportionate effort to relieve the burden of the armament competition.

This declaration was made today by Lord Lee of Fareham, first lord of the British admiralty, and an official delegate of his country, who arrived on the Olympic and other delegates from Italy, China and Japan.

Referring to the war, he said he had been convinced for years that Germany meant mischief, and added that the lessons learned from the war were not confined to those learned from Germany.

"The world," he asserted, "has learned a wider lesson still—that militarism is a menace to civilization."

"That is what brings us to Washington, and if, as I trust, we all go there in a spirit not merely of hope and sincerity, but of fixed determination to convert the president's lofty aspiration into a practical working agreement, the war will not have been fought in vain. I come in a spirit of most confident belief that the results of this conference will be such as amply to justify President Harding's far-seeing initiative, and personally, I am not prepared even to contemplate the possibilities of failure. To do so would be to assume that the world was afflicted with an incurable insanity and could not be rescued from suicide. The greatest needs of mankind are peace and that relief from the burdens of war which peace ought to bring. No other policy is more imperative, and fully than the British government and people and none has given greater proofs of sincerity in the pursuit of these high objects. By their bond and, so far, lonely lead in reduction of naval armaments; by their frank acceptance of the principle of equality with America in naval strength, as also by their present policy of conciliation and concession in Ireland, they have made it clear that they not only seek peace but pursue it."

"It is in this same spirit of practical endeavor that the British delegates come, resolved that—short of compromising the safety of the empire or the sea security upon which its very existence depends, a betrayal of our ancient heritage of hope and sincerity, but of fixed determination to convert the president's lofty aspiration into a practical working agreement, the war will not have been fought in vain. I come in a spirit of most confident belief that the results of this conference will be such as amply to justify President Harding's far-seeing initiative, and personally, I am not prepared even to contemplate the possibilities of failure. To do so would be to assume that the world was afflicted with an incurable insanity and could not be rescued from suicide. The greatest needs of mankind are peace and that relief from the burdens of war which peace ought to bring. No other policy is more imperative, and fully than the British government and people and none has given greater proofs of sincerity in the pursuit of these high objects. By their bond and, so far, lonely lead in reduction of naval armaments; by their frank acceptance of the principle of equality with America in naval strength, as also by their present policy of conciliation and concession in Ireland, they have made it clear that they not only seek peace but pursue it."

# FREIGHT RATES IN U. S. MENACE PAPER INDUSTRY

America Cannot Successfully Compete With the Prices of the European Product, Is Claim.

(By The Associated Press.)

Chicago, Nov. 1.—It costs \$2 less to ship a ton of newspaper paper from Scandinavia to New York City than to ship a ton of the same paper from Niagara Falls across the state of New York.

R. S. Kellogg of New York, secretary of the News Print Service bureau, told the Salesmen's Association of the Paper Industry here today.

"America's paper industry," Mr. Kellogg said, "faces serious competition from foreign lands not alone because of the fact that foreign paper is made by cheap labor, under depreciated exchange conditions, but also because of freight shipments."

Figures showing comparative freights between foreign shipping points and American points, as evidence of conditions confronting the paper industry in general, were supplied by Mr. Kellogg.

"The rate from Hamburg to New York and other eastern ports is \$4 per 1000 kilos or \$3.64 per ton of 2,000 pounds, and \$8 per long ton or \$5.36 per 2,000 pounds from Scandinavia," he said. "Compared with this are rates from various important American mills."

"The rate from Watertown and Glens Falls to New York is \$5.60 and from Niagara Falls, \$5.70. The Watertown rate to Philadelphia and Baltimore is \$6.30. Typical rates from important Canadian shipping points to New York are: Espanola, Ont., \$10.50; Grand Mere, Que., \$7.60; Iroquois Falls, Ont., \$9.60; Jonquiere, Que., \$8.60; Ottawa, Ont., \$7.60; Sault Ste. Marie, Ont., \$10.50; Three Rivers, Que., \$7.60.

"Maine-New York city rates are not much better than the Canadian. The Livermore Falls rate being \$6.40 and Millinocket, \$7.70. From Port Edwards, Wis., to New York City the rate is \$11.20 per ton, to Philadelphia \$10.90, and to Baltimore, \$10.70.

"America, even with the best, fastest and most modern paper mills in the world," Mr. Kellogg declared, "cannot successfully compete with the prices of European paper made and shipped under these conditions. It is the publishers who will suffer in the long run, for American mills can not make paper to meet present

## NEW PENNSYLVANIA SENATOR STARTED LIFE AS TEACHER

William E. Crow.

William E. Crow of Uniontown, Pa., the newly appointed U. S. senator to succeed the late Philander Chase Knox, was born on a Pennsylvania farm. He started life as a school teacher and has been a successful newspaper man, lawyer and legislator. He will serve by appointment until the election in November, 1922.

European prices, and Europe cannot supply America's permanent needs. The normal result would be wide swings in prices which are always disadvantageous to producer and purchaser alike in any commodity where price extremes are found.

"It is better for the American user of newspaper to have a dependable source of supply at home at a price which affords a reasonable profit to the manufacturer and thus encourage greater production than to have a temporary supply from abroad at prices fixed by ruinous unfair competition, which will vanish when world conditions again approach normal."

## PRODUCERS OF HONEY IN COLORADO SOLVE MARKETING PROBLEM

(By The Associated Press.)

Montrose, Colo., Nov. 1.—Honey producers in this district have solved a marketing problem with the parcels post. They declare they will not return to the old method of selling to commission houses but will continue to deal directly with the consumer.

W. S. Corbut, one of the shippers who found himself with a surplus of honey that he could not sell because of low prices offered, decided to try out an experiment. He sent some test cards to a list of addresses stating that he would deliver honey in five and ten pound pails through the parcel post. The response was encouraging and before the 1921 stock of honey was ready for the market he had disposed of the surplus stock from the year before.

He then decided to market the 1921 crop in the same manner and is making a success of the venture. Other bee men have followed his plan and they say it is a success.

## ST. LOUIS DEMOCRAT IS SHOT AND KILLED

(By The Associated Press.)

St. Louis, Mo., Nov. 1.—William Egan, a member of the democratic city committee and recognized as a "power" in local and state democratic affairs, was shot and killed while standing in the doorway of his saloon here last night by unidentified assailants, who fired at him from a curtained automobile while passing.

"I don't know who shot me and I wouldn't tell if I did. I'm a good sport," were Egan's dying words.

Police claim a gang feud is responsible for Egan's death.

ARTICLES FILED.

Santa Fe, Nov. 1.—The Clara Barton Memorial association filed articles of incorporation at the corporation commission offices today. The association, according to the articles, will build a memorial at Clovis.

## QUAY CO. CLUB MEMBERS WIN A TRIP TO DENVER

(Special Correspondence to The Journal.)

Tucuman, N. M., Nov. 1.—A. L. Hamilton, county agent, and C. C. Head, county club leader, together with county delegates and club members have returned from the state meet at Clovis.

Quay County Club Leader Head carried over the winning team in stock judging that will make the trip to the western stock meet to be held in Denver in January. Winning members were: Ambrose Brittain and Clyde Miller of Portler and William Shirley of Plaza Largo. Head's team won the state contest last year, going as delegates to the International Stock meet at Chicago last December. These boys were: Ole Welch, Nara Vista; Mount Hall, Plain and Charles Miller, Forrest. These delegates made an excellent showing in the race for the trip to London, England.

The counties of Colfax, Quay, Mora, Curry and San Miguel were represented at Clovis meet October 27 and 28. The state has six county club leaders with about 1,000 boys and girls enrolled. Quay county has an enrollment of 119. County Club Leader Head is a Texas A. & M. student, having attended both A. & M. and the West Texas State college at Canyon. He has been employed as leader in Quay the past two years. Previous to the state meet, the boys were given three weeks of intensive training by Club Leader Head and Agent Hamilton. Additional training will be given the boys before the meet in Denver.

Quay members attending the state meet other than the delegates were: Misses Flossie Guest, Doyle Jackson, Mary Mitchell and Bernice Harvey. The girls were chaperoned by Mrs. C. D. Crane of San Jon.

Hunter S. Moles of State college is in the city to confer with County Agent Hamilton relative to work that will be taken up in the near future. Miss Sturdivant, assistant state club leader, will arrive this week to introduce in two of the county schools a plan for hot lunches. Nara Vista and Portler schools have been selected for the experiment. Nara Vista has recently completed a new school building at a cost of \$45,000. Portler is one of the larger rural consolidated schools. They will finish an \$18,000 building some time next year. The experiment of hot lunches were tried at the Plaza Largo school last winter during a period of 90 days, the result showing that 25 pupils were fed at a cost of 5 1/2 cents per pupil.

## FIRE DESTROYS FARM HOME IN PECOS VALLEY

(Special Correspondence to The Journal.)

Artesia, N. M., Nov. 1.—The farm home of Mr. and Mrs. N. R. White, who reside a few miles north of Artesia on the Cottonwood, was totally destroyed on Friday when the house burned to the ground. Mrs. White was at home at the time, but knew nothing of the fire, until the conflagration had gained great headway.

Neighbors who saw the flames leaping from the roof, rushed to the scene and attempted to save the contents of the house. Some bedding and a few household articles were recovered, ahead of the flames, from the front part of the dwelling. Many gallons of canned fruit and other foodstuffs in the basement of the house were destroyed when the building fell. All clothing of the family was destroyed with the exception of their everyday work clothes.

The barn and trash in the barnyard also caught fire, but these flames were extinguished when a ditch of water from an artesian well was turned over the barnyard. Nothing of the dwelling was saved.

The farm is the property of Mr. W. L. Gage, who has the loss partially covered by insurance.

ACCEPTS PAYMENT.

Salt Lake City, Nov. 1.—The Church of Jesus Christ of Latter Day Saints, through Millard H. Evans, its representative at Juarez, Mexico, has accepted \$24,477.50 in payment for lands formerly owned by Mormon colonists in Mexico and during the revolution confiscated by the Mexicans. It was announced at the head office of the church here today.

## PROPOSERS OF SALES TAX GAINING STRENGTH

Washington, Nov. 1 (by the Associated Press).—Sales tax proponents in the senate claimed tonight to have close to the necessary majority to put through one of the three alternative plans offered by Senator Smoot, republican, Utah, as a substitute for the miscellaneous excises contained in the pending tax revision bill.

Canvasses of the senate made tonight with the luxury nuisances taxes were under debate, were said to have shown at least half of the total republican membership prepared to support the sales tax. Senator Smoot claimed also a number of democratic supporters.

Those behind the Smoot plan said their calculations tonight gave assurance of not less than 42 republicans and three democrats, or only four short of a majority of the senate. Counting the number of senators now here they claimed to have close to enough votes to carry them to victory.

A more official, but incomplete canvass of the republican membership showed 29 for the sales tax and only seven against, with five doubtful.

Sales tax advocates have been conducting a quiet but earnest campaign in the senate for several days. This was followed tonight by a charge from Senator King, Utah, that the tax bill was being stripped of the miscellaneous tax with a view to making a sales tax more logical.

## PROPOSED \$16,000,000 LOAN IS ABANDONED

(By The Associated Press.)

New York, Nov. 1.—Default by the Chinese republic on the \$5,500,000 loan made by the Chinese bank, due today, has resulted in abandonment of a proposed loan to China for \$16,000,000.

An American banker representing the Chinese consortium today issued this statement.

## FORMER CONGRESSMAN IS CHOSEN COMMITTEE HEAD BY DEMOCRATS

(Continued from Page One.)

vote of approval, which was given. Mr. Hull thanked the committee, praised the work of his predecessor, called for a united democracy, predicted future success for the party and played the republican administration.

Mr. Hull said he wanted to "decentralize" authority by throwing greater responsibility on local organizations. He recommended close co-operation between national, state and local committees. He also urged that women be more completely represented on local committees.

He declared that the "reactionary group of the republican party last year and when it went into power last March it had no vestige of policy—no program except to carry out the wishes of the privileged group which financed its campaign."

## CONFERENCE OF PARTY LEADERS BEING URGED

New York, Nov. 1.—An annual conference of national and state leaders of the party, designed to clarify and place before the people the party's position on issues of the day, is being urged upon the democratic national committee by Franklin D. Roosevelt, democratic vice presidential candidate in 1920.

In a letter to the committee, Mr. Roosevelt said he did not think it sufficient to obtain expressions of the political beliefs of the entire party every four years, and suggested that this should be done at least every year.

A party, he declared, "can have no clear, definite program behind which its members can stand unitedly and whole heartedly, unless its leaders are possessed of machinery by which they can keep in close touch with the sentiment of the party members throughout the entire country."

## HULL SERVED IN THE SPANISH-AMERICAN WAR

Chattanooga, Tenn., Nov. 1.—Judge Hull is a native of Overton county, Tennessee, and attended Cumberland university, Lebanon, Tenn. He spent his early life as a farmer and lumber dealer. His first public service was as a member of the Tennessee legislature. Later he was judge of the Fifth Tennessee judicial district, and served several terms in congress. He served in the Spanish-American war as captain. He is 50 years old.

## SOLDIER BONUS FIGHT WILL BE RENEWED TODAY

(Continued from Page One.)

ing and bowie knives, dirk knives, daggers, cigar and cigarette holders and pipes, humidor and snuff boxes, hunting and shooting garments and riding habits, liveries and livery boots and hats and automatic slot device weighing machines, 10 per cent; yachts and motor boats, not designed for trade, fishing or national defense, and pleasure boats and pleasure canoes, if sold for more than \$100, 10 per cent; automatic slot vending machines, 5 per cent.

Five per cent manufacturers' taxes on carpets, trunks, valises, purses, portable light fixtures, and fans sold in excess of certified amounts were agreed to. These are to replace existing luxury, clothing and similar taxes paid to the retailer by the customer. The senate struck out a committee amendment to a 10 per cent tax for the leasing or licensing of moving picture films.

By 32 to 18, the senate agreed to the house rate of 5 per cent instead of the present 10 per cent on the jewelry tax section with the present rate of 5 per cent was agreed to, but with a provision exempting surgical instruments. One of the two new taxes proposed by the finance committee, that on office furniture and fittings made of imported cabinet woods, was knocked out.

Senator Hiram Bland, democrat, Alabama, and Townsend, republican, Michigan, led a fight for repeal of the 3 per cent tax on automobiles, but the committee amendment was sustained.

The senate tonight completed consideration of the excise tax title and adopted clarifying amendments, leaving only the insurance tax action to be disposed of. It recessed at 10:30 p. m. until 11 a. m. tomorrow.

## Demonstrate to Yourself what the Eveready Flashlight Demonstrated to Broadway

SPURRED by enthusiasm for Eveready's new Flashlight, an Eveready Dealer one night recently introduced it to the crowds of New York's Broadway.

Though handicapped by the world famous "bright lights," he demonstrated the focused flashlight in front of his store to passers-by. He played it on signs and buildings about him to the amazed gaze of hundreds.

Many at once bought The Eveready Focusing Flashlight. They saw what it could do.

Until you have tried it you can not know the maximum usefulness of a flashlight.

You can make the same test. Get this new Flashlight from an Eveready Dealer. Just \$3.75, including the Eveready Battery worth 51 cents, and two

extra Eveready Mazda lamps worth 60 cents.

Get it and test it, over night, and if you are not eager to keep it, return it to the dealer, and he will refund your money.

There is an Eveready Flashlight for every purpose—tubular, pocket, and lantern types at prices ranging down to 70 cents, including the new Pocket Light at \$1.75. The Focusing Flashlight is designed especially for outdoors, for automobiles, and wherever long distance light is required; the Diffused Flashlight for indoors, and wherever a broad field of light is needed.

Only genuine Eveready Batteries will insure long-lived, bright-burning service for your Eveready Flashlight. But—Eveready Batteries fit and improve all flashlights.

EVEREADY FLASHLIGHTS

## STRONG BROS. FURNITURE LINOLEUM RUGS

We hit it right OUR STOCK OF DINNERWARE SEEMS JUST WHAT WAS NEEDED

These five new patterns of ours are the prettiest and the lowest priced we have had for years.

—AND—

They are stock patterns—that is—they are patterns we will always carry in stock and you can select what you need now—and fill in as needed. Our stock of Hotelware is the largest it has ever been now. It is most complete.

Strong Block Copper at Second.

## Your state of health largely depends upon the food you eat

No one who is physically ailing in any way can afford to take chances with the food he eats. For upon the selection of your food, and upon its perfect digestion and assimilation largely depends your state of health.

The most important thing in connection with the digestibility of any cereal food is the way it is prepared—and the length of time it is cooked or baked.

Grape-Nuts, the rich cereal food made from whole wheat flour and malted barley, is probably baked longer than any other cereal food.

A large part of the starch of the wheat and barley is changed into dextrin and grape-sugar in preparing Grape-Nuts. This is one reason why Grape-Nuts is so easily digested by even the most delicate people.

Grape-Nuts is wheat and barley so processed as to make it delicious and appetizing; even young children thrive on it and grow strong and rosy.

Go to your grocer today and get a package of Grape-Nuts. Eat it as a cereal with milk or cream, or make it into a delicious pudding. It will be enjoyed and relished by every member of the family.

Grape-Nuts—the Body Builder "There's a Reason"

## PERSONAL NOTES OF THE STATE

STATE COLLEGE.

Misses Elsie Richerson, Velma Bell, Dorothy and Eva Yoast, and Jeanne Hanson gave a very delightful dance at the parish house in the Meads from Park Saturday evening. The dance was attended by a great number of college students and it will be remembered as one of the bright evenings of the fall.

A very delightful party was given at the girl's dormitory Saturday evening by the young ladies living there. A number of the college students attended and enjoyed the Halloween party.

A Halloween party was given by the B. Y. P. U. of Las Cruces Monday evening in the hay barn of Mr. O. C. Snow. The people came masked and after a grand ghostly time everyone unmasked and games played and refreshments served. Several hundred people attended the party.

## FINED AND SENTENCED TO PRISON ON CHARGE OF COUNTERFEITING

(By The Associated Press.)

Salt Lake City, Nov. 1.—Victor Kinkensmith, engraver, formerly of Butte, Mont., convicted on three counts of counterfeiting, was sentenced to pay a fine of \$100 and serve three years imprisonment at Leavenworth when he appeared before Judge Page Morris of the federal court today. The plates from which numerous \$5.00 notes were made was confiscated shortly after his arrest a few days following his arrival from Butte.

## MOTHER!

Move Child's Bowels with "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleaning of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

## Directory lists names of people who need Eveready Flashlights

Did you know that there's a book which lists all the people in this town who need and ought to have an Eveready Flashlight? And that your name is among them? There IS. It's the city directory! We have Eveready Flashlights for Everybody—from \$3.75 down to 70c. Come get yours.

## MILK HANDLERS IN METROPOLIS ARE ON STRIKE

Ten Thousand Quit Their Posts; Distribution Is Confined to Hospitals and Other Institutions.

(By The Associated Press.) New York, Nov. 1.—New York's metropolitan area, cut off today from its milk supply by a strike of more than 10,000 wagon drivers and platform men, continued tonight to be without normal deliveries.

Progress towards settlement was made late today, however, at a conference called by Mayor Hylan when committees representing the union and the distributors agreed to confer tomorrow in an effort to adjust differences.

Shortly after the New York milk conference board had announced that it would seek to have the milk supply at outlying stations protected by the state constabulary, the first violence of the strike was reported. After a running fight in which several shots were fired, the police arrested two men, charged with overturning a grocery cart containing milk and striking him on the head with a milk bottle.

The day's distribution was confined to hospitals and other institutions. Union men have agreed to continue such deliveries.

Chauffeurs and other servants of the more prosperous were sent out in motor cars to hunt for milk today while thousands of the children from tenement districts besieged milk depots and platforms at which milk trains are unloaded.

## REPORT ON FEDERAL ROAD BILL ADOPTED

(By The Associated Press.)

Washington, Nov. 1.—The house today by a vote of 194 to 56 adopted the conference report on the federal aid roads bill which carries an appropriation of \$75,000,000 for highway construction.

The vote was taken on the report of the conference reach October 28, but the senate is yet to take action. The bill now provides a straight appropriation continuing federal aid to the states instead of the original house provision which merely authorized funds.

## LADY LAURIER DEAD.

(By The Associated Press.)

Ottawa, Nov. 1.—Lady Laurier, aged 79, widow of Sir Wilfrid Laurier, former prime minister of Canada, died at her home today after a short illness.

## RUCCO IS HELD AS SUSPECT IN HOUSE ROBBERY

Police Claim He Sold Cameo Brooch Which Was Among Articles Stolen at Schumaker Home Saturday.

Louis Rucco, arrested by the police last night, is being held for investigation regarding the burglary at the home of Mrs. M. D. Schumaker, 224 South 10th street Saturday night. The Schumaker home was entered early in the evening and a large number of articles stolen. Among them was a cameo brooch set with pearls.

The brooch is said to have been sold by Rucco to a woman in Old Albuquerque for \$15. It was valued by Mrs. Schumaker at \$40. Rucco admitted selling it, but refused to tell where he had obtained it. Police also believe Rucco knows something about a robbery last night, where a cash of wine was broken into. Splashes of wine were found on Rucco's trousers.

Claiming that he was tired of this life, Rucco told police he had when they went into the jail this morning they would only find his remains. He also wrote a letter to his mother telling her there was nothing left in life for him and bidding her goodbye. He was carefully searched by the police, who did not find any weapon or poison.

## 11 FISHERMEN DROWN WHEN BOATS CAPSIZE

(By The Associated Press.)

Anglesea, N. J., Nov. 1.—Coast guards were still searching tonight for the bodies of eight of the eleven fishermen who lost their lives off Hereford inlet early today when their boats were capsized during a "southeaster." Three bodies were washed ashore early today and efforts are being made to reach one of the battered fishing smacks, which ran aground on a bar, in the belief that more bodies might be found in it. High seas made the approach to the wreck hazardous.

The fishermen left here yesterday to raise their nets for the winter. While they were returning in two boats, which had been lashed together, to carry the 80-foot net poles, the men were caught by the storm, several miles from shore. Both boats, according to fishermen, were dashed to pieces by the high seas while trying to cross the bar.

In the latter days of the eighteenth century ladies changed wigs for every new toilette.

## EDUCATIONAL PROGRAM TO BE GIVEN TONIGHT AT ST. JOHN'S CHURCH

The first of a series of monthly educational program meetings will be given this evening at 7:30 in the Guild hall by the Woman's Auxiliary of St. John's church.

There will be short and interesting talks on the work of the Episcopal church throughout the world, illustrated by tableaux, dramatic incidents, music and readings.

The subject of the meeting this evening will be "The Heritage of the Fathers" and will depict the early life of the church in the colonies. Dean L. B. Mitchell of the university will give a talk on the "Ideals of the Fathers," and three members of the auxiliary will give four-minute talks on Bishop White, Bishop Philander Chase and Bishop Boone.

There will be a tabernacle, "The Baptism of Pocahontas," representing the early missions of the church.

A social hour will follow the program, and all members and friends of St. John's parish are invited to be present.

There will be no admission charged or offering taken.

## RESIGNATION OF FITZMORRIS TO BE ASKED TODAY

Chicago Alderman Will Demand the Removal of Chief of Police at a Meeting of the City Council.

(By The Associated Press.)

Chicago, Nov. 1.—The argument between Charles Fitzmorris, chief of police, and Robert E. Crowe, state's attorney, over vice conditions in Chicago passed the verbal stage tonight when Mr. Crowe subpoenaed a police captain to appear before the grand jury and Alderman J. J. Johnst, announced that tomorrow's city council meeting he would present a resolution demanding the chief's resignation.

Chief Fitzmorris's suspension, Police Sergeant O'Malley, assigned as chief of the state's attorney's raiding squad, because he refused to report on raids conducted during the past few days at the order of Mr. Crowe. O'Malley immediately was given a job in the state's attorney's office at an increase in salary.

The fight between Chief Fitzmorris and Mr. Crowe, which started Saturday when the state's attorney announced that "since Fitzmorris had failed to rid Chicago of vice, the state would clean up the city," and immediately sent out raiding squads which have made several hundred arrests, tonight was looked on by many as a political war through which some hoped to bring about the chief's resignation.

Mayor Thompson, who appointed Fitzmorris and backed Crowe in the election campaign, returned hurriedly tonight from a vacation with the announcement that he would side with neither man, but would act as a peacemaker.

Later the mayor issued a statement in which he said he had not yet had time "to find what it was all about," but that "the know-nothing reason why Chief Fitzmorris should resign or why any one should request his resignation."

## 4 ARRESTS ARE MADE IN CONNECTION WITH ROBBERY OF LIQUORS

(By The Associated Press.)

Washington, Nov. 1.—Four arrests were made here by the police tonight in connection with the robbery of rare liquors from the summer home of Joseph Leiter, in Leesburgh, Va., on October 11. One man was wounded in a general fight which started when the officers descended on the house on K street where the four were surrounded. The robbery of the Leiter home was said to be the largest single theft of alcoholic liquors since prohibition went into effect.

## CHARLES AND HIS WIFE EN ROUTE TO RUMANIA

(By The Associated Press.)

Budapest, Nov. 1 (by the Associated Press).—The cabinet has decided to comply with the allied ultimatum to depose the Hapsburg dynasty and has convoked the assembly for Thursday to pass the necessary motion.

Former Emperor Charles and his wife left Tihany and sailed aboard the British gunboat Glowworm for Galatz, Rumania.

## Feel Weak, Tired, "All Played Out?"

Does the least exertion tire you out? Do you feel "blue" and worried, suffer dragging backache, headaches and dizziness? Too many women blame so-called "female trouble" for this unhappy state. Instead, it is weak kidneys, which often are the cause. You must act quickly to prevent more serious trouble. Use Doan's Kidney Pills. They have helped thousands of weak, tired women. They should help you. Ask your neighbor. A case in Albuquerque.

Mrs. M. A. Foy, 923 S. Third St., says: "I suffered dreadfully with my back. Nervous, dizzy spells kept me miserable. My kidneys didn't act regularly and were painful. I used Doan's Kidney Pills, getting them from the Palace Drug Co. They strengthened my kidneys and relieved the aching. My kidneys became regular in action, too. Doan's have no equal in my estimation."

## PARACHUTE LEAP RECORD BROKEN AT KANSAS CITY

Encil Chambers Jumps From an Altitude of Approximately 26,000 Feet From An Army Airplane.

(By The Associated Press.)

Kansas City, Mo., Nov. 1.—Encil Chambers, of Post field, Fort Sill, Oklahoma, today broke what officials say is the record for high altitude parachute jumping, when he leaped approximately 26,000 feet from an army plane piloted by Lieutenant Wendell Brookley, also of Post field. The stunt was performed in connection with the American Legion flying meet. Sergeant Chambers' descent took eighteen minutes. He landed about five miles from the field.

Sergeant Chambers' former record was 22,000 feet. This was later broken by Lieutenant Hamilton at Rantoul, Ill., last summer, who jumped 23,000 feet. Representatives of the Aero Club of America will send the sealed barograph to Washington to have it calibrated and the official altitude verified.

Both Chambers and his pilot were equipped with oxygen tanks and special fur-lined clothing. The ascent, according to Lieutenant Brookley, required an hour and a half.

Intense cold was encountered and Chambers and Brookley commenced "smoking" their oxygen when they reached 22,000 feet.

"I didn't go to sleep," said Sergeant Chambers, "but just sat and watched the cloudless sky during the ascent. The horizon was nothing but mist."

When the flyers had reached the "ceiling," Brookley gave the signal and Chambers climbed out on the fuselage. Then he dived headfirst into space. Chambers said he dropped about 1,000 feet before his parachute opened.

Chambers said he suffered intensely from the cold during the early minutes of his five mile descent, but he declared he lit a cigarette and smoked it during half of the downward journey.

A huge all metal plane of the monoplane type, carrying ten passengers, today ascended 14,000 feet. Officials of the meet declared this was a record for a one motor plane of this type.

Fred Lemon, of Oklahoma City, today attempted for the first time a parachute jump from a height of only 100 feet. His parachute opening with the wind and jerking him suddenly from the plane, descending rapidly, Lemon suffered a slightly wrenched ankle.

## GOMPERS GRILLS INJUNCTION OF JUDGE ANDERSON

Such Actions Make It Impossible to Have Law Abiding Labor Organizations, Labor Leader Says.

(By The Associated Press.)

Washington, Nov. 1.—In statements commenting on the injunction against miners' union activities in West Virginia issued by Federal Judge Anderson at Indianapolis, President Samuel Gompers of the American Federation of Labor said today such actions "are making it impossible for us to have a law abiding, patriotic and rational labor organization of American citizens," while Harry Olmstead, representing the operation of the coal industry and stores the right of individuals, both operator and miner, to contract with each other as guaranteed by the constitution and laws of the United States.

"Judicial actions of Judge Anderson and others like him," Olmstead said, "take the possibility of progress out of the hands of the rational labor movement." Mr. Gompers said, "It becomes quite apparent," said Mr. Olmstead, "that this situation has brought to the fore the question as to whether the United Mine Workers of America is to be recognized as stronger than the government."

"If orderly, well regulated, reasonable labor activities are so treated, the working people will find some way to protect themselves, to proceed, to protest, against such things as are contained in Judge Anderson's decision as to whether the United Mine Workers of America is to be recognized as stronger than the government."

"If orderly, well regulated, reasonable labor activities are so treated, the working people will find some way to protect themselves, to proceed, to protest, against such things as are contained in Judge Anderson's decision as to whether the United Mine Workers of America is to be recognized as stronger than the government."

## UKRAINE IS INVADED BY POLISH FORCES

(By The Associated Press.)

Riga, Nov. 1.—The Rosta news agency attributes to the Russian foreign office a statement that several thousand Polish troops, equipped with modern arms, arrived from Poland and invaded the Ukraine from October 25 to October 29 and distributed arms among the population.

The movement was called a mobilization in the name of the "Ukrainian republic," which had been proclaimed at Tarnow. The troops were repulsed by the Red army, suffering a number of casualties.

## DECLARES FINANCIAL HORIZON IS CLEARER

(By The Associated Press.)

New York, Nov. 1.—Reginald McKenna, former chancellor of the British exchequer, who has been studying the commercial and economic situation in America, declared in a statement tonight that "the financial horizon seems clear."

"Recovery is bound to be slow," he added.

## A POLITE BURGLAR.

(By The Associated Press.)

Nogales, Ariz., Nov. 1.—F. J. Dyer, American consul in Nogales, Sonora, today had an encounter with a polite burglar.

Mr. Dyer was alone in his office when a man prowling about the American consulate and began to investigate. He found a stranger and commanded him to leave. "Thank you, Mr. Dyer," said the stranger as he ran from the building.

## BLOW PROVES FATAL.

(By The Associated Press.)

Laramie, Wyo., Nov. 1.—Following the death of Harry Richards here this afternoon as a result of a blow struck by George McDance during a quarrel, McDance was arrested. Richards was knocked down and did not regain consciousness after the blow, according to statement by police.

## NAPOLEON'S IDEAL WOMAN

(By The Associated Press.)

The great Napoleon, in response to a question once asked by a lady, replied "My ideal woman is not the beautiful society belle or the butterfly of fashion, but the matron who reaches middle age in complete preservation of health, with stalwart children by her side."

## 5 ARMED MEN SNATCH A BAG CONTAINING \$6,500 AND ESCAPE

(By The Associated Press.)

New York, Nov. 1.—Five armed men today snatched a bag containing \$6,500 from Joseph Meyerowitz, paymaster of the New York Dressed Beef company, outside of the company's office while a crowd of the concern's employees stood by, too bewildered to interfere. After threatening to shoot any one who followed them, the holdup men leaped into an automobile and escaped.

## FARMER IS GORED BY ENRAGED BULL; DIES

(By The Associated Press.)

Paonia, Colo., Nov. 1.—J. N. Sherlick, 64 years old, a farmer, is dead of wounds he received yesterday when an enraged bull gored him in the pasture near his home. Mrs. Sherlick attempted to save her husband by beating the bull off with a club. The animal later was shot to death by the sheriff.

## JEWELRY STOLEN.

(By The Associated Press.)

Bernardsville, N. J., Nov. 1.—Thieves took \$20,000 worth of jewelry from the home of Colonel Anthony R. Kuser, vice president of the Public Service corporation, early today. Members of the family awoke with severe headaches and the police believe the intruders drugged them.

## OUR OWN JAZZ ORCHESTRA.

(By The Associated Press.)

TONIGHT—COLLEGE INN.

## 3 MASTED SCHOONER IS FOUND DRIFTING

(By The Associated Press.)

Jacksonville, Fla., Nov. 1.—A three-masted schooner found drifting off the southeast coast of Florida, was towed to St. Johns Bar today by the coast guard cutter Yamacraw. The vessel, supposedly a victim of the recent hurricane, had not been identified to-night and nothing was known here of the fate of its crew. The schooner's bottom had been newly painted.

## Small Savings Count

A young man's opportunities are sometimes his only fortune. His best opportunity is to insure his life for the benefit of his family. A life policy, taken at the age of twenty-three, secures to a family fifty times the amount of its annual premium. The protection begins the moment the first premium is paid. If you put your money in a savings bank it may take years of accumulation to accumulate a comparatively small sum. Insure your life, and if you should die tomorrow your family will have more of an estate than you could save during a long period of years.

Full particulars and specimen policies will gladly be sent upon request without obligation on your part.

and lace. Made over Foot Form Last.	\$1.48
Sizes 2 to 8. Extra good values.	\$1.48

## ARGUMENTS ARE OPENED IN THE SOUTHARD CASE

Attorney General Opens for the State at Trial of Woman Accused of Poisoning Her Husband.

(By The Associated Press.)  
Twin Falls, Idaho, Nov. 7.—In an address covering the entire history of the case of Edward F. Meyer, and reviewing the salient features of the cases of Harlan C. Lewis and Gordon McHaffin, former husbands, and Edward Dooley, brother-in-law of the defendant, Attorney General Roy L. Black of Idaho, this afternoon delivered the opening address for the state against Lydia Meyer Southard, on trial here charged with the murder of Meyer.  
Opening of court was set for 2 o'clock but long before this hour people began to occupy seats in the court room. By half past one every chair had been filled and a double row of extra seats were provided on the side of the railing. When Judge Babcock finally took his seat he faced the largest audience which has yet been present during a session of the court. The big double doors into the room were left open and a crowd which blocked the corridor surrounded them. The private entrance via the attorneys' ante room was similarly filled with listeners.

Defendant More Interested.  
The defendant appeared in the same costume she has worn throughout the trial, a brown coat with a collar of black fur. Her chair was between that of her husband, Paul Vincent Southard, who appeared in his uniform of a chief petty naval officer, and her father, William J. Trueblood. She appeared rather more inter-

ested than usual in the proceedings, but there was little change in her demeanor. Conspicuous among the front row of spectators and witnesses within the railing was Alonzo P. Dooley, venerable father of Edward and Robert Dooley.

Swings into His Argument.  
But little time was taken up in preliminaries. With only a word or two of introduction Attorney General Black swung straight into his argument. Practically every phase of the state's evidence was reviewed, explained and commented upon and the whole linked into a story which was not without dramatic moments although for the most part commonplace to the point of being almost banal.

Traces the Story.  
Step by step he traced the story of the defendant, beginning with her marriage to Edward F. Meyer, her fourth husband. He sketched the arrival of the pair as bride and groom at the Blue Lakes ranch, the sickness of Meyer, his wife's actions, the sending of the patient to the hospital and the progress of the illness which culminated in death. The evidence of attending and consulting physicians, the finding of the chemists, the evidence as to possession of the deadly insect exterminator, from which it was claimed the poison was extracted by the defendant both before and after the death of the husband, were all given their place in the story and fitted together in orderly sequence.

Walters Will Argue Next.  
Spectators were not permitted to leave the court room except during a ten minute mid-afternoon recess. None manifested any desire to leave. The case of the defendant both before and after the death of the husband, were all given their place in the story and fitted together in orderly sequence.

Former District Judge Edward A. Walters will argue next for the state, following which all three of the attorneys for the defense will address the jury, with W. P. Guthrie, chief counsel, closing. County Prosecutor Frank L. Stephan will then close for the state in rebuttal.

The arguments will probably continue until some time Thursday.

## MINISTER TO DENMARK LEAVES FOR HIS POST

(By The Associated Press.)

New York, Nov. 7.—Dr. John Dineley Prince, professor of Slavonic languages at Columbia university who was recently appointed to the post of minister to Denmark, leaves today for his diplomatic post. He expects to devote part of his time in Denmark to continuing studies of that country's history and ancient inscriptions.

"I have a special sentimental reason for being glad that I am sent to Denmark, as part of my own family originally came to America from that part of England," he said. "In fact, my very name 'Dineley' means 'Dane-law,' a name given to those settlements by the early English."

Dr. Prince is the second member of his family to hold a diplomatic position for the United States. His grandfather, Johnson, was minister to England shortly after the Civil war.

After being graduated from Columbia in 1888, Dr. Prince accompanied an expedition which excavated for antiquities in southern Babylonia. His studies of ancient inscriptions were later carried on at the University of Berlin and elsewhere in Europe. His knowledge of languages embraces the Semitic and Latin languages as well as Slavonic. Each recent summer he devoted to studying Indian tribal languages in Maine and Canada.

## BABIES TO TRY FOR HONORS IN HEALTH CONTEST

To Be Examined for High Health Scores at Red Cross Conference and Exhibit Here Next Week.

(By The Associated Press.)  
Who is the most perfect child in Albuquerque? Who will win the honors in the better babies contest which the Red Cross will conduct on November 8, 9 and 10? All children from six months of age to five years will have an opportunity to enter the contest. The health exhibit which will be held during the contest will be of interest to all parents, whether or not their children are entered in the contest.

The parents of children should make application now for examination appointments during the three days of the contest, according to Miss Gladys Harris, Red Cross public health nurse. Application blanks may be obtained at the federal building and appointments will be made by the enrollment committee.

Only well children will be admitted for examination. If children show signs of communicable disease such as rash, sore throat, cold or inflamed eyes, the day of the examination they should not be brought. The children will be divided into three groups, according to their age for the examination.

Each child will be put through five tests, on mental and development, physical examination for defects, oral and dental, and eye, ear, nose and throat. The number of points scored in each test will be added to determine the percentage of perfection reached by the child. A standard score card will be issued for each child examined. A formal certificate of examination, giving the score will also be issued to the parents.

In connection with the examinations there will be a number of exhibits pertaining to the proper care of children. There will be an exhibit of bath equipment, a model of a home-made ice-box, a model diet table, from which diet slips for children from one to five years will be furnished, and a convincing exhibit of "baby killers" in the city will show children's clothes and nursery furniture during the week of the health conference.

## HERBERT F. RAYNOLDS NEW CHIEF JUSTICE; C. J. ROBERTS RESIGNS

(Special Correspondence to The Journal.)  
Santa Fe, Nov. 7.—Justice Herbert F. Reynolds, Albuquerque, today became chief justice of the supreme court when Chief Justice C. J. Roberts' resignation became effective. He will hold the office until January 1, 1922.

Justice S. B. Davis, Jr., Las Vegas, was appointed to fill the vacancy, qualified, but was not expected here for several days. Mr. Roberts' first act as a practicing practitioner was to ask for extension of time in which to file a brief for Ben C. Davidson, former county treasurer of Chaves, who was convicted of embezzlement of \$45,000 of the county funds.

OUR OWN JAZZ ORCHESTRA, TONIGHT—COLLEGE INN.

## 4 WOMEN WILL PARTICIPATE IN ARMS GUN MEET

Harding Names an Advisory Committee and a Technical Staff, Completing Selection of Delegation.

(By The Associated Press.)  
Washington, Nov. 7.—President Harding completed selection of the American delegation to the armament conference today by the appointment of an advisory committee of twenty-one to act with the four principal delegates, and a technical staff of thirty-four to provide data and expert opinion on military, naval and far eastern questions.

George Sutherland, a former senator from Utah, was designated chairman of the advisory committee, which will number among its members Rear Admiral W. L. Rodgers, President Samuel Gompers of the American Federation of Labor, and President Charles S. Barrett of the farmers' union. Four members are women.

Technical Advisers.  
In the group of selected technical advisers, Maj. Gen. J. G. Harbord, deputy chief of staff under General Pershing, heads the eight army officers, while Admiral Robert E. Coontz, chief of operations, leads that of the navy.

Associated with them will be twelve officials of the state department, headed by John Van A. MacMurray, chief of the far eastern division, and a half dozen men selected from other executive departments and from outside the government service.

It was indicated that the technical staff was intended to function largely as an informative body, while the advisory committee was designed to give the four principal delegates the benefits of general counsel on policy as well as a reflection of various schools of public sentiment.

Officials familiar with far eastern problems and officers in charge of divisions devoted to specialized forms of warfare predominated in the former body, and public figures in touch with the life and thought of the nation sit on the latter.

Former Senator Sutherland, chosen chairman of the advisory committee, is a close personal friend of President Harding. He has traveled widely and has been a close student of national and international politics. In addition to their general qualifications, Secretary Hoover, General Pershing and Admiral Rodgers all have lived in the far east. Mr. Gompers and Mr. Barrett are prominent in their respective fields of labor and agriculture.

Other members of the advisory committee are Representative S. G. Porter of Pennsylvania, chairman of the house foreign affairs committee.

John M. Parker, democratic governor of Louisiana and a candidate for the vice presidency with Roosevelt on the progressive ticket in 1912.

Henry P. Fletcher of Pennsylvania, under-secretary of state, former ambassador to Mexico. J. M. Wainwright of New York, assistant secretary of war, a veteran of the Spanish-American and world wars.

These are Roosevelt of New York, assistant secretary of the navy. William Boyce Thompson of New York, financier, head of the American Red Cross mission to Russia in 1917.

William Sulzberg of Delaware, business man, former democratic senator and president pro tem of the senate.

John L. Lewis of Illinois, president of the United Mine Workers. Walter George Smith of Pennsylvania, lawyer, former president American Bar association and former president Federation of Catholic Societies of Pennsylvania.

Carmi Thompson of Ohio, formerly treasurer of the United States.

Harold M. Sewall of Maine, lawyer, formerly in consular service at Samoa, Hawaii and Liverpool, interested for many years in ship building.

Women Appointed.  
Mrs. Thomas G. Winter of Minnesota, president of the National Federation of Women's Clubs. Mrs. Charles Sumner Bird of Massachusetts, wife of a former progressive candidate for governor of Massachusetts.

Mrs. Eleanor Franklin Egan of New York, a writer on Asiatic problems.

Mrs. Katherine Phillips Edison of California, prominent club woman.

Other members of the technical staff appointed from the army are: Maj. Gen. George O. Squier, chief of the signal corps; Maj. Gen. C. C. Williams, Brig. Gen. William H. B. Smith, chief of the air service, and Brig. Gen. Amos A. Fries of the chemical warfare service; Col. John McA. Palmer of the general staff, Col. B. H. Wells, Lieut. Col. Stewart Heinzelman, chief of army intelligence, and Louis Cohen, a civilian specialist.

For the navy other officers are: Rear Admiral William A. Moffett, Capt. William V. Pratt, Captains Frank H. Schofield, Luke McNamee and Samuel I. Bryant and L. W. Austin, a civilian specialist.

Other members of the technical staff named from the state department are: D. C. Poole, chief of division of Russian affairs; Prof. E. T. Williams former chief of the division of far eastern affairs; J. Butler Wright-Leland Harrison and Edward Bell, counselors of embassies; W. S. Rogers, N. T. Johnson, E. L. Neville and F. K. Nielson, the latter solicitor of the department; Chandler P. Anderson, former counselor, and J. Reuben Clark, a former solicitor.

All named on the technical staff are Prof. G. H. Blackwelder of Clark university, S. W. Stratton, director of the bureau of standards; J. H. Dillinger of the department of commerce; Prof. Edgar F. Smith, University of Pennsylvania; William S. Guiberson, United States tariff commission, and Prof. George G. Wilson of Harvard university.

## Watch the Film Go

That film which dims your teeth

Your teeth are now film-coated, more or less. Perhaps the film is cloudy, so the teeth look dim.

Look at them. Do they glisten as they should? If not, try this new method and watch how they change in ten days.

Millions of people have done this. You see the results on every hand—in teeth you envy, maybe. Do what they do—combat the film. Then see how well it pays.

### That film does this:

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. The ordinary tooth paste does not end it. Brushing does not keep teeth free.

Month after month it may linger to do a ceaseless damage. Most tooth troubles are now traced to film. And, despite the tooth brush, they have constantly increased. Very few people escaped them.

The film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

### Years devoted to it

Dental science has for years sought to end that film. Its baleful effects make it supremely important.

Ways have now been found to fight it. Authorities have proved them beyond question. Now leading dentists everywhere advise their daily use.

The methods are combined in a dentifrice

**Pepsodent** PAT. OFF. REG. U.S.

The New-Day Dentifrice

The scientific film combatant, approved by modern authorities and now advised by leading dentists everywhere. Each use brings five desired effects. All druggists supply the large tubes.

## This Test is Free

Simply mail the coupon for a 10-Day Tube of Pepsodent. Watch the effects and judge it by what you see and feel. You will quickly realize that it means to you and yours a new era in teeth cleaning. It means whiter, safer teeth.

called Pepsodent—a tooth paste based on modern science. And a 10-Day Tube is being sent to anyone who will try it.

### Other desired effects

Modern authorities have also found the need for helping Nature. Our starch diet makes this necessary. To cope with the possible effects of this diet, we should stimulate Nature's teeth-protecting agents.

So Pepsodent multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is Nature's agent for digesting starch deposits which may otherwise cling and form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer of the acids which cause tooth decay.

Each use of Pepsodent gives multiplied power to these tooth-protecting forces. And that alone, it is believed, means a new dental era.

Old-time tooth pastes, based on soap and chalk, brings just opposite effects. Such effects must be avoided, as modern research shows.

### You'll quickly know

The user of Pepsodent cannot doubt the benefits it brings. Some results are almost instant. A week reveals conspicuous effects.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

A book we send will tell the reasons. Then you will know, beyond all question, what is best for you and yours.

### How your dentist displays the film

Your dentist, when you visit him, may coat your teeth with iodine. That stain shows up the film. Then he removes the film by vigorous dental cleaning.

Pepsodent combats the film-coats daily. It aims to prevent those deposits. Otherwise, between your dental visits, the film may do much damage.

Children suffer in particular from these film attacks. Dentists advise that Pepsodent be applied twice daily from the time the first tooth appears.

Men who smoke will often deeply stain the films. They will see most conspicuous results from any film removal.

So to all in your family this question is important. It is time to settle it, as millions have done. Cut out this coupon now.

## 10-Day Tube Free

## DR. RICE NAMED HEAD OF STATE LOAN COMPANY

Stockholders of New Mexico Loan and Mortgage Company Elect Officers; Melbourne Is Secretary.

Dr. L. G. Rice was elected president of the New Mexico Loan and Mortgage company at the annual stockholders' meeting held at the company offices, corner of Gold and Third streets, yesterday. Other officers elected were: J. B. Baker, vice president; Ralph Melbourne, secretary; J. J. Stonelake, treasurer; J. P. Jacobson and D. E. Harrington, directors.

The meeting was well attended. Stockholders from all parts of the state being in the city for the event. General business was transacted and it was voted that an 8 per cent cash dividend be declared and 5 per cent placed in the surplus fund.

Albuquerque progressiveness was boosted by Secretary Melbourne, who has held that position with the company since its organization several years ago.

"There is more building going on in Albuquerque than in any city we have come in contact with," Mr. Melbourne stated and added that the company officials expected an even greater building activity in the near future, judging from the gradual loosening of money, both in the east and western parts of the country.

## PLANT SPECIALIST OF STATE COLLEGE IS IN CITY TODAY

Fabian Garcia, of the state college, will be in the city today conferring with County Agent Lee Reynolds on the general condition of trees, shrubs and plants in the county. Persons who would be interested in solving any of these problems should call at the county agent's office in the chamber of commerce building today and have an inspection of their trees or plants.

## THEODORE VAN SOELEN EXHIBITS PAINTINGS AT CINCINNATI, OHIO

Theodore Van Soelen, an Albuquerque artist who is spending the winter in Cincinnati, is holding an exhibit of his paintings, portraits and landscapes in oil and pastel at the Art museum in that city, according to the art notes in the Cincinnati Enquirer. A picture of his "Flamingo Gate," a large landscape study made in Albuquerque, is reproduced in the paper.

"Mr. Van Soelen hopes to settle in Cincinnati and join the local group of artists," says the paper. "He received some of his training under Daniel Garber, at the Pennsylvania academy of fine arts, studying in Europe under the Cresson traveling scholarships twice; but he came here from New Mexico, where he has been painting recently."

"In this collection at the museum are quite a number of small sketches in pastel and oil, characteristic of this country with its picturesque quality. He has several larger landscapes which are lovely in feeling, color and arrangement and are carefully painted. The most ambitious of these is the "Flamingo Gate," a charming picture.

"There is a variety of handling displayed in his portraits and a very good grasp of the decorative line, together with a nice discrimination."

## COUNTY TELEPHONE BILLS MAY BE MET BY THE OFFICIALS

Many county officials will pay their own office telephone bills to prevent the telephone company from being taken out by the telephone company today due to non-payment of the past year's service bills.

Whether the money so advanced by the officials can be refunded next year is a question, but some of the officials feel that, due to the very nature of the bills, they can not afford to be without telephone service.

The county telephone bills are paid from the county general fund, which is now exhausted. The matter was brought to the commissioners' notice at their last meeting, but nothing could be done to relieve the situation. So unless the officials themselves foot the bills, the county house will be "phoneless" today, which is the last day of grace granted by the company.

## START MOVE TO GET A NATIONAL PARK IN STATE

El Paso Is Selected as Headquarters; Plan Will Follow the Lines Suggested Recently By Fall,

(SPECIAL CORRESPONDENCE TO THE JOURNAL)  
LAS CRUCES, N. M., Nov. 1.—El Paso was selected this afternoon as executive headquarters for the Southwestern National park committee, looking to the establishment of a public playground in southern New Mexico along the lines suggested recently by Albert B. Fall, secretary of the interior. The special committee of the Las Cruces chamber of commerce, consisting of Frank T. French, chairman; H. H. Brook, president of the Elephant Butte Irrigation district; Dr. Harry L. Kent, president of the New Mexico College of Agriculture and Mechanic Arts; C. F. Knight, president of the chamber of commerce; and Vincent B. May, met at the office of Mark B. Thompson, counsel for the United States reclamation service, today and discussed the proposal at length. After deciding upon El Paso as the hub of operations, the committee arranged to meet with officers of the El Paso chamber of commerce next Friday to formulate plans for an active campaign in New Mexico, Texas, Arizona, Kansas, Oklahoma and southern Missouri. Branch offices are to be established at once in cities and towns in west Texas, New Mexico and Arizona.

The national park plan contemplates setting aside parts of the Mesquero and Alamo forest reserves and building a highway from the nearest reservation to connect with the Elephant Butte dam and lake, seventy-five miles north of Las Cruces.

Secretary McKee of the Albuquerque chamber of commerce says in a letter received today by Mr. Brook that the officers of that organization heartily favored the idea of establishing a national park in this part of New Mexico.

## Theaters Today

"B" Theater—Repeating today William S. Hart as the leading star in "The Whistle," a Paramount picture produced by the Famous Players-Lasky corporation; also repeating "Travelogue" and "Current Events" pictures.

Lyric Theater—Charles Ray and Yandye Brooks are still at the Lyric as the leading characters in "A Midnight Bell," a popular picture taken from a famous Charles Hoyt play; also repeating "Chicken Hearted," a Vanity comedy.

Pastime Theater—D. W. Griffith portrays in his masterly production of "Dream Street," also showing "Something New,"—screen snapshots of general interest.

## CENTRAL SCHOOL WINS FROM FOURTH STREET BY SCORE OF 9 TO 0

The Central school football team yesterday defeated the North Fourth street school team by a score of 9 to 0. Both of the scores were made in the third quarter.

The line-up of the winning team was as follows: Jones, qb; Stanton, hb; Lucero, lb; Pablo Gonzalez, qb; Ralph Young, lg; Felix, c; Baca, re; St. John, le; Gooday, rt; Garcia, rt.

The two teams have met twice before, the first game ending in a scoreless tie, and the Central school taking the second by a score of 28 to 0.

## ARTESIA IS VISITED BY KILLING FROSTS

(Special Correspondence to The Journal.)  
ARTESIA, N. M., Nov. 1.—Killing frosts and freezing temperatures during the past week at this place have caused all garden truck and alfalfa to cease growing. The farmers are through baling hay, with the exception of a few who had a large acreage standing at the time of the first freeze.

Thousands of acres of corn will be harvested by the farmers in the next few weeks. The acreage of corn is very large this year and the yield enormous. All the crop will not be marketed, due to the increased interest in hog raising in the Pecos valley.

The apple crop, which amounted to several hundred cars, has been shipped. Only a sufficient amount of fruit for local use remains in the apple sheds.

## QUIT TOBACCO

So Easy to Drop Cigarette, Cigar, or Chewing Habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or a chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

## TUBERCULOSIS

## CHARITY BUREAU NEEDS \$10,000 FOR YEAR'S WORK

Campaign to Be Started Soon; Officers and Directors of Bureau Are Named at Meeting.

Ten thousand dollars is the minimum amount necessary to carry on the systematic charity work in the county and city for the coming year, according to figures compiled by the directors of the associated charities at their meeting last night at the chamber of commerce.

Although there is but little publicity given the work of the bureau, it is to a great extent performing the charity functions peculiar to such an organization in other states and, in addition, is called upon to perform those usually taken care of by state and counties. There are no state or county institutions, such as homes for the blind, state and county infirmaries and such other similar institutions as are the rule in all eastern states and counties.

Huge sums of money are spent by other states, counties and cities on these institutions, but in Albuquerque, Bernalillo county, and the state, there are no such institutions, and as a result, the bureau of charities except for a few other organizations mostly doing particular work, carries those burdens in this county.

The county and city help in the work, appropriating certain sums each month for the benefit of the bureau, but the same sums given are inadequate, according to bureau directors, and both the county and city will be urged to appropriate larger sums as a part of the campaign for the coming year, beginning the bureau for 1922. Among the first business houses to respond before being asked is the National Life Insurance company, which will pledge \$50 a quarter year.

Exactly when the campaign will be started is not decided, but it is possible that within a few days the operation of all citizens will be asked in order that the bureau may continue to function and that the poor, sick, blind, crippled and general unfortunates may be given Christian care during the year.

As a part of the campaign to replenish the treasury of the bureau, a charity ball will be held at the armory November 29. The committee to have charge of the annual affair will be Mrs. L. S. Peters, Mrs. J. T. McLaughlin and Mrs. Ernest Spitz.

Officers for the year will be Mrs. Ivan Grunfeld, president; W. R. Walton, vice president; D. A. Porterfield, treasurer; and Rabbi Moise Bergman, secretary. The following directors were named: Mrs. Ivan Grunfeld, Mrs. L. B. Peters, Mrs. W. C. Reed, Mrs. Max Nordhaus, Mrs. Louis Hild, Mrs. John McLaughlin, Mrs. Ernest Spitz, E. H. Christie, Sidney Weil, W. R. Walton, D. S. Rosenwald, E. T. Chase, D. A. Porterfield, C. T. French, William Keleher, William Shaver and Albert Stern.

## OUTSTANDING SCHOOL WARRANTS AMOUNT TO \$320,136, SAYS JOERNS

(Special Correspondence to The Journal.)  
Santa Fe, Nov. 1.—Outstanding school warrants amount to \$320,136, Educational Auditor John Joerns stated today. Of this the rural schools owe \$187,681 and the "independent" districts—the city schools—\$132,455.

Joerns characterized the situation as "most deplorable" and charged it largely to faulty budgeting in the past, slow tax collection and "careless" use of the law by some school authorities.

He said: "In order to avoid future delinquencies, it was necessary to allow the schools a proper tax rate. The counties of Bernalillo, Chaves, Colfax, De Baca, Grant, Hidalgo, Lea, Lincoln, Otero and Valencia had fairly good balances on hand September first of this year. These balances have not been deducted from the budget estimates as has been the custom in the past. It is necessary that our schools have sufficient money on hand at the beginning of the school term to tide them over until tax collections are made in January. Very few of the independent districts show balances sufficient to indicate that they are on a cash basis."

"The situation has become acute and serious in that banks, merchants and others in quite a few counties will no longer cash school warrants. The credit of the schools must be restored. The outstanding indebtedness herebefore mentioned has not been included in the budget estimate for the present school year. Some means will, and must, be found for the payment of all outstanding claims, if legal."

The county delinquencies range from \$551 for Guadalupe to \$46,465 for Rio Arriba and the list includes twelve counties. San Miguel has not reported. The "independent" district delinquencies include Albuquerque, \$20,289 for maintenance and \$7,427 special.

## UNIVERSITY TENNIS CLUB IS ORGANIZED

A tennis club, which will take over the active management of university tournaments, was organized yesterday noon at a meeting of university tennis players. Frank Reeves was elected president. The temporary organization, Vernon Whitely was made vice president, and Walter Bowman was elected secretary and treasurer.

The club will probably conduct a university tournament shortly for the purpose of rating the players in various classes according to their ability.

## OIL IS DISCOVERED IN S. W. COLORADO

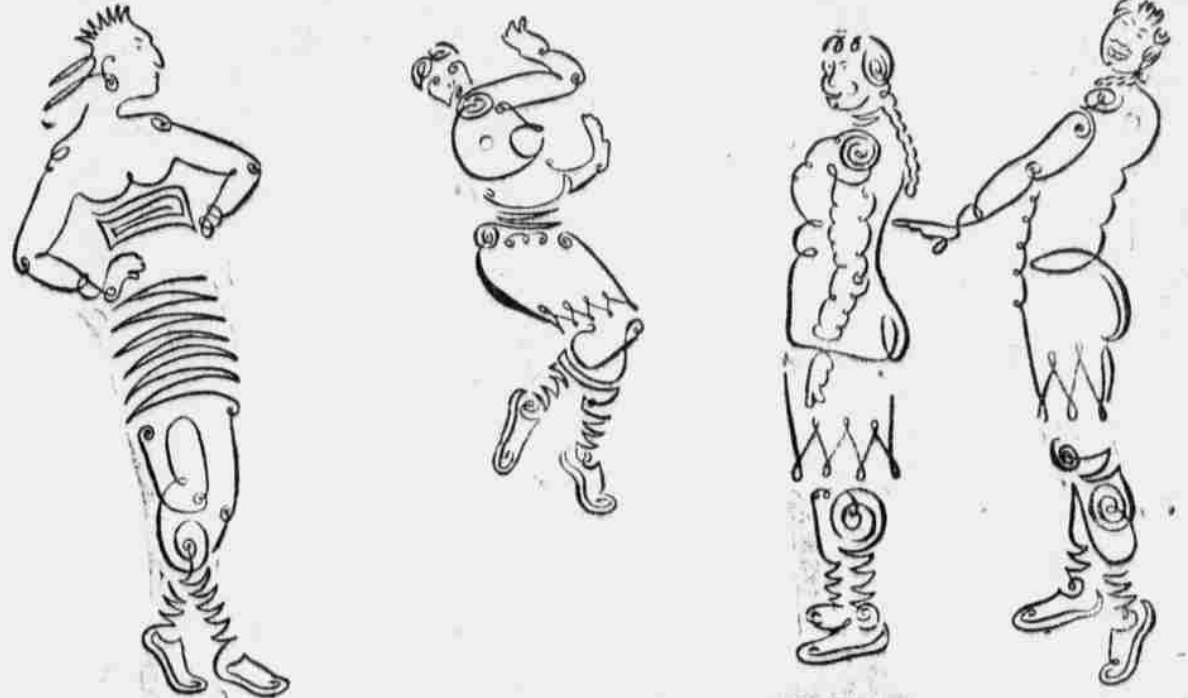

Santa Fe, Nov. 1.—Assistant State School Superintendent Earl Douglas, who returned from a tour of western New Mexico today, brought the report that oil had been struck in southwestern Colorado, twenty miles from the New Mexico line.

He was told the well had been brought in at 5,000 barrels and Denver & Rio Grande officials were starting out from Alamosa to investigate the report.

## SAVAGE TIRES

HISTORY OF THE RED MAN SERIES

## THE COURTSHIP OF EAGLE-MAN

BY "INDIAN" MILLER

In the olden times Eagle came down to the earth and assumed the form of a man. Then he wanted to get married. He started out in search of a squaw suitable to be his wife.

He went first among the white people; but he did not like the women of that tribe because they talked too much and told too many lies. He was wise.

Then he went among the black people but he could find no girl to suit him in that tribe.

Then he went among the Indian tribes, assuming always the form of an eagle while he was travelling, but immediately becoming a man again when he saw an Indian village. We will not mention the names of the different tribes he visited, for he found fault with all the squaws of those tribes but one.

At the first Indian village he found that the squaws there tattooed their faces. He did not like the squaws of the next tribe he found, for there they wore their hair cut short in defiance of the evident intent of the Great Spirit. He was wise.

At the next village he could not bring himself to like the girls because they were too fat. So he went from village to village and from tribe to tribe, courting the squaws but always finding fault with them. Some he disliked because they were lazy; others were too ugly; some were too dirty; and so forth.

But at last he reached a village of the Apaches. There he saw two beautiful girls gathering corn in a field. One of them was lazy and the other was industrious. When they saw him the lazy one ran away, but the industrious one did not. She fell in love with Eagle-Man at first sight; and this was to his liking, for he did not have to use force in persuading her to go with him. Eagle-Man was wise in his choice.

If you could watch the inspection of raw materials at the Savage Tire factory you would be forcibly reminded of this courtship of Eagle-Man. It is a rigid inspection indeed, for raw materials play an important part in the making of the tires that are built to Excel. Exemplified indeed is this in the big, handsome Savage Cord, known to motorists as the Aristocrat of Tires.

WEDNESDAY, November 2, 1921

**THE HARDING ANNIVERSARIES.**  
Today is a double anniversary for President Harding. It is the first anniversary of his election to the presidency and the fifty-sixth of his birth.  
President Harding has been in office about eight months. It has been a period of familiarizing himself with the duties of his great office. It is a fair presumption that he will do better rather than worse as time goes on.  
The consensus of public opinion is that the president has exceeded expectations. Somehow, the people had the impression that they had elected a rather ordinary man to the presidency. They expected no brilliancy; no spectacular performances. The president has shown caution, diplomacy, patience and some firmness. He has made no serious mistakes. The people have a growing feeling that he is "safe."  
If Mr. Harding can show the discernment and firmness to retain an attitude quite independent of the wishes of big business, going with them as far as is wise, but no farther, his administration will be a success. If he fails to hold the confidence of the public it will be because his conservatism degenerates into reaction.  
At present admiration for him is on the increase.

**COPPER.**  
The following from the Industrial News Bureau will interest the people of New Mexico. Next to coal our greatest potential industry is copper mining. We are all vitally interested in its revival.  
"On a big dairy farm the farmer was feeding a bull calf its daily ration of skim milk out of a big copper kettle."  
"It held about ten gallons and was battered up and stained with age and looked as if it had been through the wars."  
"Asked about it the farmer said that kettle had been in the family for four generations, and was liable to last four more."  
"The family brought it out with them from Ohio across the plains with an ox team along with other household belongings."  
"It had been used to heat water and cook rations for a long company of immigrants, but was now handed over to the livestock."  
"Still it was good for generations to come because copper does not rust and does not crack and cannot be broken or easily worn out."  
"There is a lesson in that copper kettle for all westerners, who want indestructible implements made of a western product."  
"For the west is the land of the red metal that needs to go into more general use for building, household utensils and tools."  
"The manufacture of copper kitchenware, dairyware, hotel and restaurant equipment, should become a large western industry."

The utility of copper in a thousand ways is the greatest proof of an early revival in the industry. The people will freely concede to that industry every consideration which is fair in order to help it, but will not consent to its dictation. An appeal for fair play and justice will prove heartily effective. Compulsion and manipulation will meet with resistance. The road to harmony is apparent.

**AN EDUCATIONAL CRISIS.**  
Inadequate school housing and scarcity of teachers throughout the land make an "educational crisis," in the opinion of President Harding. There will be no general disagreement with his judgment, though a good many localities will point with pride to the ample provision which they make for schooling their youth. But the president is not dismayed by the situation as a whole. In his address at the College of William and Mary he stated a fact that it were well for those who deplore a fancied American retrogression it matters educational to consider.  
The president finds no reason for misgiving or pessimism in the situation grave as it is. Though we are not providing adequately, we are not going backward. Though we do not keep up with the demand, we are going ahead. The "more generously we provide today, the greater is the deficiency tomorrow," the president asserted. For this he is glad, because "so long as the eagerness for education outruns our most generous provision of facilities there will be assurance that we are going ahead, not backward." The eagerness for education is the significant thing. With double the facilities which the country has, educational progress could not go beyond the willingness of the people to avail themselves of it. With the popular demand for education increasing there is no question that efforts to meet it will be unrelenting.  
At the moment disparity between demand and supply is extraordinary, due to causes with which everybody is familiar. Proper increase of school facilities has been impossible for a number of years, save in most pressing instances. But there is no disposition to neglect the need. Teaching staffs, sadly disrupted during the war period, are being restored to normal. Far more money than ever before is being expended on education. But the eagerness for learning to which the president referred has gone beyond everything else. Perhaps we never will catch up. Perhaps it were better that we never quite catch up. We should miss the zest of striving if there were no more problems to solve.

**SPEAKING OF SPORTS.**  
"To my way of thinking, of the games of the different nations, from the Eskimo down to the tropics, tennis, golf, hockey, bull-fighting—of all these baseball is the least interesting, the most silly, and how people can line up for tickets at night is something only insanity can explain." This characteristically mild and courteous comment on the national game of America is contributed to the New York Herald by one who signs himself "Englishman." It will be noticed that for purposes of comparison he makes no mention of cricket, England's national obsession.  
An American recently returned from that coun-

try says he can now understand Kipling's classic reference to "the flannelled fools of the wicket, the middle order of the goal." He says the mad devotion of the English people to outdoor sports has evoked grave warnings from thoughtful publicists that unless more attention is paid to business the country will be ruined. The frenzied reception given the Australian cricket team in England the past summer was said to have equalled any popular tributes to heroes of the war. For weeks, we are told, it seemed as if the English people could put their minds on no other subject than the cricket matches. Our fellow countryman expresses the moderate, restrained opinion that cricket and the enthusiasm it evokes are a form of lunacy deserving investigation and classification by professional alienists.  
There is no accounting for national any more than for individual tastes. In France the exhilarating, graceful duel is the popular outdoor pastime. In Germany it is the weight lifting contest in the beer gardens, capacious steins being employed for the purpose. In Russia it is chasing the Bourgeois to his lair. In Japan it is harikari. The Mexican sport is seeing how many revolutions the government can make in an hour. America's particular form of insanity may be baseball, but it might have been far worse. Thus far our nation has shown practically no symptoms of cricket.

**NO NEED FOR MORE GOLD.**  
The only justification for a governmental subsidy to any industry is that the country stands greatly in need of the products or services of that industry and that private enterprise unaided is unable to supply the want. It is impossible to sustain a claim that the United States is in need of more gold at this time, its reserve being the greatest in its history and far more than its requirements for monetary purposes. Production of gold throughout the world has fallen off very rapidly in the last several years, due to increasing costs of operating mines without a corresponding enhancement of value of the metal. But the abnormal conditions will be gradually eliminated by economic processes.  
When the foreign countries which have been virtually stripped of gold are able to attract some of our supply to their coffers a profitable market for new gold undoubtedly will be found. Subsidizing the production of that which is not required would appear not to be good business.

**VERSE OF TODAY.**  
**REWARD.**  
When I get time I'll write a rhyme  
That sparkles with poetic worth;  
'Twill bring me fame and blaze my name  
Among the poets of the earth;  
Such state I crave before the grave  
Shall close and end this mundane strife—  
That friends each day shall proudly say  
"I knew him in his daily life!"  
When I get time I'll write that rhyme  
But now I am content to gain  
The thought that I have checked a sigh  
Or soothed a heart that suffers pain;  
Each day to know some fellow's woe  
Has been a joy; and to beguile  
A road that's tough, that is enough—  
And cause my fellow man a smile.  
—Omaha Bee.

**EDITORIAL OF THE DAY.**  
**THE FUTURE OF THE TELEPHONE.**  
(From the Minneapolis Tribune.)  
An official of the American Telephone and Telegraph company said the other day in St. Louis: "I have faith that we shall some day build up a great world telephone system, making necessary to all nations the use of a common language, or a common understanding of languages, which will join the peoples of the world into one brotherhood."  
To the casual thinker this attainment may seem fanciful to a high degree, but who that understands the progress made in telephonic communication since Alexander Graham Bell and Thomas Watson had their first telephone conversation on March 10, 1876, can sneer at such a prophecy?  
Indeed, this enthusiastic prophet who looks for a hastening of the brotherhood of man through the instrumentality of the telephone may have unduly narrowed his vision when he said that interworld communication probably never will be possible, or practicable, without wireless telephoning.  
Many able scientists of twenty years ago did not believe then that it was possible to do with the telephone what is being done today in the way of carrying on a satisfactory conversation between New York City and San Francisco. They had not anticipated the invention of a little device that picks up a weakened telephone voice along the way, re-habituates it in a vacuum tube, endows it with its original power and sends it along to another vacuum tube where it is again "popped up" and relayed to still another tube, the process being repeated as often as distance and the resistant forces of nature may require.  
Moreover, there were mighty few men a score of years ago who peered into the future of telephone communication and foresaw wired and wireless systems co-operating in such a way that a person far inland in the United States could carry on a conversation with another person on a ship far out on the ocean. Since these things have come about putting limitations on their prophecies. Who shall say that the day will never come when a lover in Kalamazoo, Mich., may talk to his sweetheart in Bombay, and that each will be able to see the face of the other while the long-distance love-making goes on?

**UNCLE WIGGLY AND THE EGGS.**

"When you have finished what you are doing, Uncle Wiggly, what you please go over to Mrs. Cluck Cluck, the hen lady, and get me a few eggs," asked Nurse Jane one morning. "I want to bake a cake." "But I am not doing anything!" exclaimed the bunny rabbit gentleman, who, truth to tell, was doing, half asleep in his easy chair. "You were making funny noises," said Nurse Jane, with a sort of twinkle around her whiskers. "And I thought maybe you were talking to Grandpa Cluck—of somebody in your sleep and—"

ing—Uncle Wiggly was what a fine cake Nurse Jane would bake, when, all of a sudden, out from behind a stump jumped the bad old Fox, and before Uncle Wiggly knew what was happening that Fox just grabbed him.  
And, worse than that, the Fox dragged the bunny off through the woods to a den under the rocks—that's what the Fox did.  
"Well, Uncle Wiggly, here you are at last—in my den," snarled the Fox.  
"Well, I didn't come here because I wanted to!" sighed the bunny gentleman. "Now what are you going to do with me?" "Take your hat off first," snickered the Fox. "I like to look at your ears which I am soon going to nibble!" So saying the Fox took off the bunny's hat and rolled the eggs, some of them falling and breaking.  
"Why didn't you tell me you had eggs in your hat?" barked the Fox.

He put some in his tall silk hat

"You never asked me or I would have told you," said the bunny gentleman, patient like. "But are you going to keep me and the eggs also? At least send the eggs to Nurse Jane. She wants them for a cake."  
"And I want them for a cake myself!" snapped the Fox. "I'm going to make a cake," and he picked the eggs up from the floor, breaking those that weren't already smashed, into a bowl. Then the Fox, with his paw, began stirring the eggs.  
"I know how to make cakes even though I am a Fox," he said, proud like.  
"Oh, just a moment, if you please!" begged Uncle Wiggly, who, all of a sudden, thought of a way to play a trick on the Fox. "If you are going to make a cake your eggs should be properly mixed with an egg beater."  
"But I have no egg beater," said the Fox.  
"Ah, but I have!" cried Uncle Wiggly, holding up the new one

**THE MARKETS**

(By The Associated Press.)  
New York, Nov. 1.—Changes occurred in today's moderately broad but irregular stock market again were influenced largely by adverse technical conditions and bearish professional operations.  
Oils held their recent lead as the most active issues, but speculation in that group became increasingly confusing on the more unstable course of Mexican petroleum and prominent domestic shares.  
Dealings in rails were relatively nominal. That division continued handicapped by uncertain labor conditions and no material expansion of traffic.  
Industrialists of the steel, equipment, motor and affiliated types were under intermittent pressure, the accompaniment of lower price schedules, actual and prospective, and diminished earnings.  
Tobacco reacted on rumors of a "trade war" and further losses among food, chemical, rubber and several mail order and merchandising specialties were traceable to similar causes. Sears Roebuck's smaller October sales being a case in point. Sales, 625,000 shares.  
According to the heavy transfer of funds, the money market was comparatively easy. The 5 1/2 per cent opening rate eased to 5 per cent at mid-day and held. Foreign exchanges again reacted, the slight setback in sterling being associated with the Irish situation. Reactions in continental remittances were moderate. The bond market was featureless on smaller dealings. Liberties showing steadiness with firmness in most domestic indus-

**CHICAGO BOARD OF TRADE.**  
Chicago, Nov. 1.—Wheat prices collapsed today to new low price records for 1921. The break followed persistent liquidation in the market, which was without any robust spirit. There was a nervous finish, 5 1/2 to 6c net lower with December \$1.02 to \$1.02 1/2, and May \$1.00 1/2 to \$1.00 3/4. Corn lost 1 1/2 to 1 3/4 to 2 1/2c and oats 1 1/2 to 1 3/4c. Provisions ranged from 17c decline to a rise of 2 1/2c.  
Bearish sentiment in the wheat trade received fresh impetus on account of cables received from British sources that the world's crop total was \$8,000,000 bushels larger than a year ago. Another depressing fact was announcement that stocks of grain at the Buffalo harbor would hereafter be included in the United States visible supply. No acute weakness, however, developed until mid-day, when attention was directed to reports that congestion of railroad and port facilities at Galveston had tied up much grain for which the country owners were unable to get their money rapidly. Conditions at New Orleans also were reported as embarrassing, with 1,200 cars of grain on track unloaded. Under such circumstances, holders here liquidated freely, and in the final hour the descent of values proved swift. Exporters were said to have taken advantage of the 6 cent drop which occurred, but the market made no important rally, and the amount of purchasing for Europe could only be guessed.  
Corn and oats went downward with wheat. Oats reached the lowest level this season, and corn nearly so.  
Provisions were bearishly affected by setbacks in hog values as well as in grain.  
Closing prices:  
Wheat—Dec., \$1.02; May, \$1.00 1/2.  
Corn—Dec., 45 1/2c; May, 51 1/2c.  
Oats—Dec., 31 1/2c; May, 36 1/2c.  
Pork—\$15.00.  
Lard—Jan., \$8.82; March, \$9.07.  
Ribs—Jan., \$7.45; May, \$7.82.

**NEW YORK COTTON.**  
New York, Nov. 1.—Cotton futures closed strong. Dec., 18.37; Jan., 18.27; March, 18.22; May, 17.92; July, 17.47.  
**LIBERTY BONDS.**  
New York, Nov. 1.—Liberty bonds closed: 3 1/2s, \$92.56; first 4s, \$93.00; second 4s, \$92.75; first 4 1/2s, \$92.04; second 4 1/2s, \$92.80; third 4 1/2s, \$95.16; fourth 4 1/2s, \$93.08; Victory 3 1/2s, \$99.60; Victory 4 1/2s, \$99.58.  
**NEW YORK MONEY.**  
New York, Nov. 1.—Changes occurred in today's moderately broad but irregular stock market again were influenced largely by adverse technical conditions and bearish professional operations.  
Oils held their recent lead as the most active issues, but speculation in that group became increasingly confusing on the more unstable course of Mexican petroleum and prominent domestic shares.  
Dealings in rails were relatively nominal. That division continued handicapped by uncertain labor conditions and no material expansion of traffic.

**ADVICE FOR WOMEN WHO SUFFER.**

"I advise every woman who suffers from kidney trouble to get Foley Kidney Pills," writes Mrs. Bessie Bawner, 2522 Scoville Ave., Cleveland, O. "I could not do my household work, but since taking Foley Kidney Pills I feel like a new woman, and am able to do my work." Rheumatic pains, swollen ankle, backache, stiff joints, sore muscles and sleep disturbing bladder ailments indicate disordered kidneys. Foley Kidney Pills act promptly. Sold everywhere.

### UNIVERSITY HEIGHTS DOINGS

The pure, health giving air on the heights is certainly a contrast to the pall of smoke which daily hangs over the city proper. The fifty new homes built up there in the past six months further prove it to be true.

Seventeen lots were sold in the Heights last week and all but two to parties who intended to build either this fall or coming spring.

As soon as Central avenue is open the county road superintendent will repair Silver avenue and put it again in first class condition.

The Albuquerque Gas and Electric company is adding new service lines to meet the demand in the Heights.

### SANTA FE OFFICIALS VACATING BUILDINGS ON CENTRAL AVENUE

Santa Fe and Pullman company officials who have occupied the little office building north of the Alvarado on Central avenue, have been notified to vacate their quarters in preparation for the contemplated enlargements on the Fred Harvey hotel. The proposed extensions will reach to Central avenue, leaving a small court on the east and west sides of the new north wing.

J. M. Laws, transportation inspector, and H. W. Greer, head electrician, have already been moved by the railroad officials to the freight office building on South First street. A. J. Cook, Pullman company agent, who was also located in one of the front offices, is now looking for new quarters, having been informed that he must vacate by November 15. It is probable that construction will begin about that time.

### NEW COMPLAINT IN LIBEL SUITS FOUGHT IN COURT

Judge Hickey Takes Under Advisement Journal's Motion to Strike Amended Causes for Damages.

Containing that the amended complaints of J. M. Reynolds and A. B. McMillen in their libel suits against Carl C. Magee and the Albuquerque Morning Journal really sought to set up new causes of action, attorneys for the paper and its editor asked that the amended articles and each of the causes for damages be eliminated by Judge M. E. Hickey before whom the arguments were presented yesterday. The entire day was taken up by the remarks of counsel for plaintiffs and defense.

If B. Jamison, appearing in behalf of the Journal and its editor, took up the argument first, supporting the request of the defendants that the amended complaints be stricken. He showed that in the Reynolds and McMillen litigation would be expanded by the amended complaint until it would not involve the mere necessity of proving the correctness of two claims with reference to Mr. Reynolds but will involve the proof of a conspiracy.

He showed that in the second cause for action, an article was introduced which was published after the original libel suit was started and contended that the new complaint was not an attempt to amend, but brought in new material. He claimed that the only proper amendments in the Reynolds suit would have related to the signature of the Journal Publishing company upon a note and the acts of J. M. Reynolds in connection with the Holbrook State bank.

Taking up the McMillen complaint, he showed that it too had embraced what he alleged to be a new cause of action and that the proof under the amended complaint would require against witnesses from that needed to defend under the original cause.

P. E. Wood, appearing for the plaintiffs, asserted that if there was anything good in the new complaint, the court was bound to retain the complaint when it was attacked by a motion to strike the entire pleading. He insisted that the New Mexico supreme court in the Albright case had held that a supplemental complaint was an amended complaint.

Mr. Wood claimed that the original complaint in the Reynolds suit as drawn by A. B. McMillen did not constitute a cause of action, that there was not a word in the quoted articles that was libelous per se.

Richard H. Hanna, counsel for the Journal and Mr. Magee, asserted that that court was up against the problem of whether it wished to follow the great majority rule in the matter of amended complaints or whether it wished to follow the small minority of those states. He pointed out the vastly enlarged scope of the amended complaint and went into the question of the amount of proof required.

Mr. Jamison, speaking again, urged that the amended complaint be stricken entire in order that the plaintiffs might amend the old complaint to cover only the first issues.

Mr. Wood stated before the argument closed that if the cause for action which relates to material published after the start of the original suit was stricken, he would start suits covering these grounds.

Judge Hickey announced that he would take the matter under advisement and would probably give a decision in the next four or five days.

The contempt proceedings, originally set for Friday at 10 o'clock, were set for Tuesday of next week.

### FEDERAL BUREAU TO HAVE EXHIBIT AT THE ARMOY FOR TEACHERS

An exhibition of the federal bureau features here will be one of the features of the state teachers' convention. The forest service, bureau of public roads and biological survey will have a combined exhibit in the balcony of the armory, which will undoubtedly prove of great interest and will also carry considerable educational value.

Topographical maps, stuffed animals, scientific road construction models and many other similar things will be shown. After the teachers' convention is completed, the exhibits will be left at the armory for a few days in order that Albuquerqueans and especially the pupils of the city schools may have an opportunity to inspect them.

### DEATHS AND FUNERALS

WRIGHT—George Wood Wright, 5-year-old son of Mr. and Mrs. R. B. Wright, 715 South Eighth street, died at the home of his parents last night. C. T. French is in charge of the funeral arrangements.

MARTINEZ—Funeral of Jesus Martinez, infant son of Mr. and Mrs. Jose Martinez, who died Sunday night, will be held this morning at 10 o'clock from the family residence at 7 o'clock. Burial will be in Santa Barbara cemetery. Crollett is in charge.

PEREA—Funeral of Paulita Perea, daughter of Mr. and Mrs. Mariano Perea, who died Sunday night, will be held this morning at 9 o'clock from the residence on 407 Cleveland street, to the San Isidro church where services will be held. Burial will be in Santa Barbara cemetery. Crollett is in charge.

SILVERMAN—The remains of Mrs. May Silverman, who died here Monday, were shipped last night to her former home in Cleveland, Ohio. Strong Brothers were in charge.

### BOWLING TEAMS ARE BEING FORMED FOR TOURNAMENT AT "Y"

Bowling teams are being formed to enter the fall tournament at the Y. M. C. A. alleys. Bowlers are being classed "A" and "B" according to whether they average below or above 150. There will be three first teams and possibly four second teams. Each team will be composed of five players.

A desirable trophy has been posted and will be awarded when the tournament is closed probably in January. With the close of the season, another will be started between first players of the two classes, second players and on down the list. These will be handicap matches.

The "Y" alleys have been re-finished and are in first class condition for the fall sport. Tickets are sold to members at the rate of nine for one dollar. Non-member tickets are 20 cents each.

### BICYCLE THIEF TO SPEND 6 MONTHS IN THE COUNTY PRISON

Fred Shaw entered a plea of guilty to stealing a bicycle from Juan Hidalgo and was given ninety days and \$20 in police court yesterday. Shaw took the wheel Monday night and sold it to another man for \$5. As he was unable to pay the \$20 he will spend the next six months in the county jail.
