PANHANDLE BANKERS HOLD TWO DAY SESSION IN CLOVIS

Association Asks Interstate Commerce Commission to Help Alleviate the Serious Freight Car Shortage.

The Panhandle Bankers Association has been entertained in Clovis this week. The session convened Tuesday morning and adjourned Wednesday at noon after two days spent in carrying out an interesting program.

Mayor Joe McClelland tendered the bankers the keys to the city and introduced Judge Sam Bratton, who, in his usual pleasing manner, delivered an address of welcome that made the visiting bankers feel at home. Following Judge Bratton's address the president of the Association called on W. H. Fuqua of Amarillo to respond. On behalf of the visitors Mr. Fuqua declared that they remembered how Clovis had entertained them at a past meeting and looked forward to just such a good meeting again. He declared that if he ever moved away from Texas he would want to come to New Mexico, and if he should come to New Mexico, the Magic City would be the town he would want to live in. Mr. Fuqua spoke of the growth of the city and declared that a beautiful and growing city had been built at a site where only a few years ago the depot had to be decorated before the train would stop.

Following the response to the address of welcome the bankers immediately went into business session and carried out a good program. The feature of the morning session Tuesday was the address by Gov. R. L. VanZandt of the Federal Reserve Bank at Dallas.

Car Shortage Discussed

The problem of the car shortage came up for discussion at the Tuesday afternoon meeting. Numbers of bankers pointed out that there was yet quite a bit of last year's wheat in the hands of the farmer that had been delayed in shipping on account of lack of cars, and from all over the territory covered by the Association indications are that big crops will be raised. Fearing a great loss to the entire section on account of lack of facilities to move the crop, the Association passed a strong resolution asking the Interstate Commerce Commission to see that this section was provided with more freight cars.

Automobile Drive

At four o'clock Tuesday afternoon the visitors were taken for a drive over the county. The drive was made to Texico-Farwell and a circle

made by Pleasant Hill and the bankers were shown some fine wheat fields and some of the fine farms of Curry County.

Banquet and Entertainment

In the evening at the high school auditorium a big banquet was served, the spread being prepared by the ladies of the Christian Church. Following the banquet a pleasing musical program was rendered by Croft's Orchestra and some special vocal selections adapted from the recent Elks minstrels, were rendered by Messrs. E. E. Tagader, Jack Rawlings, Joe Hewett, J. C. Nelson, John D. Brown, W. H. Duckworth, H. F. Young, R. M. Bishop, Buddie Woods, Hobert Miller, Jake Noble and F. B. Herod.

Johnson's band contributed to the entertainment of the guests. The band greeted the visitors with welcoming music when they got off the train and also furnished music on the street.

Following the banquet a dance was held at the Elks Auditorium which was an especially enjoyable feature of the entertainment.

New Officers Elected

The following officers were elected to serve the Association during the next year:

President—R. A. Underwood of the First National Bank, Plainview, Texas.

First Vice President—F. E. Chamberlain of Donley County State Bank, Clarendon, Texas.

Second Vice President—C. W. Harrison of the First National Bank, Clovis, N. M.

Secretary—D. L. C. Kinard of the First National Bank, Memphis, Texas.

Treasurer—Grady Oldham of the First State Bank and Trust Co., Canyon, Texas.

Lubbock and Memphis both extended invitations to the bankers for the 1921 meeting but no final decision was made as to which city will get the meeting. The proposition will be left up to the executive committee for solution.

Local Bankers Deserve Credit

Local bankers deserve credit for making the meeting a success. They, in connection with the Chamber of Commerce, spent a good deal of time providing for the entertainment of the visitors and the success of the two days' entertainment speaks volumes to their credit.

MUNICIPAL CAMPING GROUND FOR TOURISTS

One to be Provided on North Main Street and the Other Will be in the East Part of Town Near the Railroad Crossing.

Municipal camping grounds for tourists have been planned, and will be ready within a short time to accommodate the many car loads of summer vacationists who are now passing through Clovis on the great national highways.

The City of Clovis working with the Chamber of Commerce will install water, lights and toilets on each of the two camping grounds, and will thoroughly advertise them.

The first site selected is the half block just south of the high school building where tourists from the west will find handy accommodations. Work of cleaning off the grounds preparatory to installing lights, water and sewer connections will start early next week.

The other site will be in the eastern edge of town near the railway crossing. This will take care of the tourists who come from the east over the Ozark Trail and Bankhead Highway.

LOCATION FOR NEW R. R. OFFICE BUILDING

Although the location for the new Santa Fe office building has not been definitely announced, it seems to be pretty well assured now that it will be on the corner of the Harvey House lawn just west of the freight depot. While this will, to a certain extent, impair the beauty of the lawn it will make the building convenient to all departments, and it will likely serve the company better than if it were located elsewhere.

SETTING HEN ROUTED BY TUESDAY'S FIRE

A setting hen, a tank car full of gasoline, and a battery of fire extinguishers operated by employees of the Texas Company, were features of the fire that occurred at 311 South Prince, Tuesday at noon.

Excitement ran high when smoke came pouring out from under the floor of the store room where the setting hen ruled supreme, especially since there was enough gasoline in the tank car a few feet away to blow Clovis off the map.

The store room adjoins the store of the Masterson Mercantile and the Texas Company employees put out the blaze before any damage was done.

Only the setting hen knows how the blaze started, and up to the time of going to press we haven't been able to get an interview with the hen.

PERSONAL MENTION

Howard Mason has returned from College Station where he has been attending A. & M. College the past year.

Mrs. Fred Dennis is entertaining the Summer Auction Club at her home this afternoon.

Car Shortage Viewed With Alarm

To the Wheat Growers of Curry County:

There exists a shortage of cars for the movement of grain not only in New Mexico but in the Panhandle of Texas. In view of the fact that the farmers of Curry County will soon begin harvesting and threshing another big crop of wheat they should view with alarm the shortage of cars and make arrangements to take care of the bulk of their wheat before they begin threshing as otherwise they might be compelled to pile it on the ground and in the event of rain, be heavy losers. It will probably be many months after the crop is threshed before enough cars can be secured to haul the 1920 crop to the market. This is, indeed, a serious problem and should receive the careful consideration of every wheat farmer in the county.

Respectfully submitted for your consideration.

CLOVIS CHAMBER OF COMMERCE

PARKER TALKS ABOUT FREIGHT CAR SHORTAGE

Says the Shortage is Nationwide and that '00,000 More Cars Are Now Needed to Solve Present Needs of the Country.

Amarillo, Texas, June 21, 1920.—

"The box car situation shows only slight improvement," said R. J. Parker, General Manager of the Western Lines, when asked about the car situation this week. Mr. Parker considers conditions grave and that they can only be met by co-operation of all interests.

"The car shortage is nation-wide," continued Mr. Parker. "The Interstate Commerce Commission estimates that the minimum and immediate needs are 100,000 additional freight cars. The country has advanced and produces much more freight. The railroads on the other hand have not been able to add much equipment since before the war.

"The car shortage has been intensified by labor troubles at ports and terminals and by lack of shipping. Long strings of cars under load choke the big terminals or lie idle for weeks at principal ports. United effort is now in progress to break the blockades under the supervision of the Interstate Commerce Commission and the car service commission of the American Railroad Association. Open top cars are moving east and box cars coming west for distribution where most needed.

"Another feature adds seriously to the shortage," said Mr. Parker. "Many thousands of cars are out of service undergoing repairs. Every repair track is crowded with cars in bad order. Only about ten per cent of the box cars on hand out here are fit for grain loading, the greater percentage being foreign cars. Every day a car remains on the repair track adds to the car shortage."

The wheat crop now being harvested can not be moved as rapidly as ready for market and Mr. Parker considers the suggestions to provide farm storage or to stack the wheat as practical. The Santa Fe has had no cars to store this year, because no cars have been available.

New equipment has been ordered and Mr. Parker states that additional orders will be placed soon. In the meantime it is necessary to make the best possible use of cars at hand by heavy loading and unloading promptly all cars as received.

POWER PLANT ENGINE BROKEN WEDNESDAY

The big engine at the light and power plant was broken Wednesday night with the result that it will be out of commission for about ten days waiting for repairs to come from the factory. Two smaller engines have been pressed into service with the hope that there will not be a great deal of interruption in the light service during the period while the plant is waiting on repairs for the machinery.

There will necessarily be a shortage in water but there will be plenty for domestic use if users are economical.

CALLITHUMPIAN PARADE TO BE PART OF THE BIG CELEBRATION

Preparations Going Forward for Clovis' Picnic July 3; Ball Game and Big Pavement Dance Scheduled.

Bargain Carnival Is On In Clovis

The merchants of Clovis now have on a carnival of bargains. Several big bargain sales are now on and others are to start this week with the result that shoppers will be able to make a great saving in seasonal merchandise during the next fifteen days. This week's News is filled with special prices that will prove interesting reading matter and should bring buyers to Clovis from the entire surrounding section.

\$17,000 FIRE DESTROYS HIGH SCHOOL MATERIAL

Fire of unknown origin caused \$17,000 damage to the workshop of J. W. Mordecai at the new Eugene Field school building Saturday morning.

More than \$7,000 worth of mill work, together with hundreds of dollars worth of paints, lime, cement, a Ford truck, tools, machinery and records went up in smoke before the flames could be brought under control.

The alarm was turned in at two o'clock in the morning, after the fire had destroyed a part of the building, and it was impossible to determine just how the blaze originated. It was first thought that spontaneous combustion had been caused by the lime, but it had been stored there for three months and the building had not leaked during the recent heavy rains.

All the woodwork for the new school building was destroyed and will have to be replaced, but Mr. Mordecai stated that most of the supplies had been ordered by wire and that there would be no great delay. The building and supplies were covered by \$10,000 insurance.

MRS. WELCH'S PUPILS WILL GIVE RECITAL

The music pupils of Mrs. J. W. Welch will give a recital at the Methodist Church Friday evening, June 26th. No admission will be charged and all are invited to attend.

AUSTIN'S STORE TO BE MADE TWO STORIES

Plans for building an additional story on the A. B. Austin building which is now under construction on Grand and Mitchell were announced early this week.

When the building is completed Mr. Austin plans to handle groceries and dry goods on the main floors and have a department store in the basement.

The up stairs of the building will consist of a number of modern rooms especially fitted up for a rooming house.

CONVENTION BULLETINS WILL BE GIVEN

Clovis will get the happenings of the Democratic National Convention next week hot off the wires. All the important happenings of the Convention will be bulletined. The News and the Journal will co-operate in furnishing the service which will come direct from the United Press, one of the greatest news gathering agencies in the country.

A monster Callithumpian parade, numerous field sports, a base ball game between the Clovis Elks and Amarillo, numerous concessions, band concerts throughout the day, and a big pavement dance in the evening will be a few of the features of the Independence Day celebration held in Clovis on July 3.

The celebration will be held on Main Street from the Santa Fe to the court house and the present plans include a string of concession stands all along the way which will dispense red lemonade, "hot dogs", balloons, whistles, tin horns and everything that goes to make up a real picnic.

The Callithumpian parade, or burlesque parade, which starts at 10:00 o'clock in the morning, will include all the crazy stunts that the comic brains of Clovis can invent, and promises to be a scream from beginning to end. Every merchant in town has been asked to take part in the parade or have a representative there, and every youngster who can buy a tin horn or a whistle will probably be included in the gigantic kazoo band that will feature this part of the program. The committee is putting forth every effort to make this callithumpian parade a success, and hereafter it will probably be an annual affair in connection with July 4th celebrations.

Field sports will include potato races, sack races, fat men's races, lean men's races, 100-yd. dashes and the like, and prizes will be offered for the winners.

The lawn at the court house will be turned over to the visitors and will be in shape for basket lunches at noon. At two o'clock in the afternoon there will be a free base ball game between the Clovis Elks baseball nine and the Amarillo team. This promises to be one of the best games ever witnessed in Clovis, as Amarillo has an exceptionally strong team and the Clovis Elks are stepping along in great shape.

All day Johnson's concert band will be busy dispensing music for the entertainment of the visitors; and a jazz orchestra will furnish the music for the big free pavement dance opposite the court house lawn Saturday evening. The lawn will be ablaze with hundreds of Japanese lanterns, and there will be plenty of dancing room for all those who want to trip the light fantastic.

HAIL DOES DAMAGE IN SOME SECTIONS

Some sections of the county north and northwest of Clovis were visited by a bad hail storm on last Friday evening. The hail in the sections where it reached did much damage to the wheat.

SOLDIERS CAN STILL RE-INSTATE INSURANCE

Soldiers who have let their war risk insurance lapse for more than eighteen months can still be reinstated without medical examination before July 1st, according to Miss Ethel Smock, local Red Cross secretary.

"Many of the returned soldiers who have neglected their government insurance think it is too late to have it reinstated," said Miss Smock, "and there are many in Curry Co. whom this new ruling will affect. We are anxious that every soldier in this vicinity should take advantage of this liberal offer made by the government."

Information about war risk insurance can be obtained from Miss Smock in the Red Cross offices in the Chamber of Commerce building.

HARVESTING WILL BEGIN NEXT WEEK

Harvesting will begin in Curry County next week and farmers are now getting their machinery ready to begin just as soon as the grain gets in condition. Everything looks favorable for a good yield and now about the only problem Curry County farmers are facing is the shortage of labor. Every man who wants a job in the harvest fields certainly does not have to leave this section to get work.

W. NICHOLS NAMED DEPUTY COLLECTOR

Carl A. Hatch, collector of internal revenue, has recently formed a new revenue district, with headquarters at Clovis. As field deputy collector for this district Mr. Hatch has recently named W. W. Nichols of this city, who assumes the duties of his position at once. Mr. Nichols district will be composed of Curry, DeBach and Roosevelt Counties. Mr. McGee who has been deputy in this territory will be transferred to Roosevelt.

POSTOFFICE IS NOW IN ITS NEW QUARTERS

The post office was moved into new quarters in the new Barry building Sunday, and is now going full swing. New fixtures have been installed throughout, and more than 1100 combination boxes are included in the equipment.

Although an addition of 200 boxes are included in the new post office, there are calls for over 200 more that cannot be supplied.

The News Stand in the lobby of the post office has also installed new fixtures.

NEW STATE AUTO BUILDING IS SOLD

The brick building at the corner of Main and Washington now occupied by the New State Auto Co., sold recently to Mrs. Mary Lyons. The building was owned by the First Mortgage Loan Company, and the deal was handled by the Scheurich Agency.

The New State Auto Company has a lease on the building and will continue to occupy it.

It is impossible to please everybody you meet, so what's the use of trying to carry water on both shoulders? Go ahead, do your duty as you see it, pay your debts, tell a man to his face the things you would say behind his back, and put your trust in the Lord—and keep your powder dry. If you carry a pail of water on each shoulder you will undoubtedly get a shower bath sooner or later.

Clovis now has two grain elevators, another is going up and still another has been organized with the result that a fourth elevator will soon be under construction. This not only means that the farmers' needs will be well taken care of this year but also indicates that Clovis is going to be one of the best grain markets in this entire section.

What effect will McAdoo's refusal to accept the Democratic nomination have? This is the question that is puzzling prominent Democrats now. There is no question but that it has made Gov. Cox's chances for the nomination much better, and say, wouldn't it be some race for those two Ohio newspaper men to be pitted against each other?

The banker visitors who were in Clovis Tuesday and Wednesday attending the convention have all gone home with a good word to say for the Magic City. All western towns are growing but it is doubtful if there is a town in the territory of the Panhandle Bankers Association with the exception of the oil towns, that is making more rapid progress according to its size, than Clovis. No set of men are more keen to notice a live town than the bankers and the meeting of the Association here will result in much substantial good to Clovis.

THE COST OF WAR

"Give me the money that has been spent for war and I will purchase every foot of land upon the globe. I will clothe every man, woman and child in an attire of which kings and queens will be proud. I will build a school house on every hillside, and

in every valley over the whole earth; I will build an academy in every town and endow it. A college in every state and fill it with able professors. I will crown every hill with a place of worship, consecrated to the promulgation of the gospel of peace; I will support in every pulpit an able teacher of righteousness, so that every Sabbath morning the chime of one bell should answer the chime of another round the earth's wide circumference; and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—Henry Richard, in Encyclopedia of Quotations.

A NEW HOME-BUILDING PLAN (Albuquerque Herald)

In view of the growing demand for a sensible solution of the housing problem, especially in the great industrial centers, the announcement of a great life insurance company that it is to devote its investment resources in the future to aiding families of small means to acquire homes, is one of the most significant developments that has come to light recently in connection with the problem.

This company has \$50,000,000 which it proposes to loan on homes to cost less than \$10,000. The limit is set at \$10,000 in order that the benefits from the new plan may go entirely to those of small means, principally wage earners, and the loan must be on a new house, which insures that the loan will aid in extending the housing facilities of the country.

The loan will be made for 50 per cent of the total value of the property, will run for 15 years, at an interest rate of 6 1/2 per cent, and a payment of an amount equal to 3 per cent of the principal will be required annually.

This plan opens the door to virtually all the homeless policy holders of the company to acquire their homes on terms that amount to practically the same as rent payments. As the payments of both interest and principal are to be made semi-annually, in some respects it is easier than paying rent.

The inauguration of this investment plan by one of the nation's largest insurance companies should have a far-reaching effect in bringing relief from the housing shortage, and in stimulating home building. Recognition of the need for a home-building movement by such huge investment concerns as the insurance companies will do much to bring a solution of the problem.

Withdrawing from the big real estate investment field to enter the field of the small home owner is unusual, but the management of the insurance company doubtless sees an opportunity to do business safely and profitably in this latter field and at

the same time, render a great service to the country in the present crisis. The action of the company is worthy of commendation, judged from any standpoint.

It is nothing more than just, however, that the funds of the big insurance companies should be available to the average man for home-building. Those funds represent the savings of the people, and they are entitled to preference in loans. The company in question has 20,000,000 policy holders. There is no reason why the big borrowers should monopolize the loans from the savings of those 20,000,000 people.

It is high time that big business generally recognized that the average man be accorded financial privileges, at least enough of them to put him into a position to live decently and comfortably. Big business is dependent upon the people for motive power and sustenance. It is serving its own interest when it promotes the public welfare.

LOCUST GROVE NOTES

We got a good rain Friday night and quite a lot of hail which damaged gardens considerably.

Mr. J. E. Virden and family who visited in Texas and Oklahoma for a few weeks returned last week.

Little Elicene Randol is on the sick list this week.

Most everyone from this community attended Mr. Ike Goedeke's sale Wednesday.

Mr. Moore's folks and Mrs. Bowman visited at Mr. Chester Watkins' Sunday.

Mr. and Mrs. Howard Lindsey are the proud parents of a fine boy.

Mr. Ira Taylor, Jr., was seen going south bright and early Sunday morning. We are wondering why?

Mr. Riley Boss and Miss Alma Persely were quietly Thursday afternoon. Rev. Thurston performed the ceremony.

Mrs. Decker and son of Houston, Texas is visiting her sister-in-law, Mrs. T. J. Randol. They had not seen each other in about twenty years.

Mr. Russell and family, Mr. Eart Osborne and family and J. E. Randol and family spent Sunday at Mr. T. J. Randol's.

Mr. Arthur Curry killed a beef Saturday afternoon.

Mr. and Mrs. Owens visited at Mr. Boss' Sunday.

Mr. and Mrs. Wiggins visited at Mr. Moss' Tuesday afternoon.

Mrs. John Boss and niece are visiting in Oklahoma.

Mr. Ebb Randol has been suffering with the tooth ache this week. He seems to be getting quite "wise" so we suppose it is a "wisdom tooth."

There was a social at Mr. Boss'

Saturday eve in honor of Riley and his bride. All had a nice time and at an early hour an abundance of candy was served.

Mr. R. N. Hagler is still on the sick list.

Pleasant Hill, what is the matter with you? Come on with the news.

CROSS-EYED JANE.

Order Your Repairs Now and Be Ready

A Small Case Thresher and Tractor

This is the ideal outfit for the man who wants to be independent and do his own threshing, and other belt and drawbar work, exactly when he wants to, without waiting.

We picture a Case 10-18 Kerosene Tractor and a Case 20x28 Thresher. The tractor will handle all farm machinery requiring belt power up to its rated capacity.

It will pull easily a 2-bottom plow 7 to 8 inches deep, or an 8-foot

binder, a 22-shoe grain drill, a 5-section spike tooth harrow, an 8-foot double-action disc harrow or a large manure spreader.

For belt and field work, this small Case Tractor cannot be equalled. A Case Thresher is equally superior. Case Machinery has been famous for 76 years.

Let us tell you how you can decrease the hard work on your farm with Case machinery.

**ARTICLES OF INCORPORATION
STATE OF NEW MEXICO**

State Corporation Commission of New Mexico.
CERTIFICATE OF COMPARISON
United States of America, State of New Mexico, ss.

It is hereby certified that the annexed is a full, true and complete transcript of the

Certificate of Incorporation of
TAIBAN-TOLAR OIL AND GAS SYNDICATE
(No Stockholders' Liability)
No. 10621.

with the endorsements thereon, as same appears on file and of record in the office of the State Corporation Commission.

In testimony whereof, the State Corporation Commission of the State of New Mexico has caused this certificate to be signed by its chairman and the seal of said Commission, to be affixed at the City of Santa Fe on this 10th day of June A. D. 1920.
(Seal) **HUGH H. WILLIAMS,**
Chairman.
Attest:
M. P. MANZANARES,
Acting Clerk.

Certificate of Incorporation of
TAIBAN-TOLAR OIL AND GAS SYNDICATE
(No Stockholders' Liability)

We, the undersigned, being desirous of forming a private corporation, under and by authority of the laws of the state of New Mexico, hereby associate ourselves together and have made, signed, executed and acknowledged the following articles for that purpose.

1. The name of the corporation shall be Taiban-Tolar Oil and Gas Syndicate (No Stockholders' Liability).

2. Its principal office in this state shall be located in the City of Clovis, Curry County, New Mexico, and John Dahl, whose post office address is Clovis, New Mexico, is hereby named and designated as the statutory agent in charge of said corporation and upon whom process against the corporation may be served.

3. The objects for which this corporation is formed, in addition to the general powers conferred by law, are as follows:

To acquire by purchase, lease, gift, devise or otherwise, oil and gas leases, mines, mineral lands, oil and gas lands, and leases and to acquire by location and discovery or otherwise, under and in pursuance to the laws of the United States of America, mines and mining claims, and to acquire by gift, purchase, devise, lease or otherwise any mines or mining claims, patented or located, or discovered by any person or association of persons under the Laws of the United States of America.

To engage in or carry on the business of drilling and exploring for oil; to mine, dig for or otherwise obtain from the earth, petroleum, rock or carbon oils, natural gas or other volatile mineral substances; to manufacture, refine, prepare for market, buy, sell and transport gas and oil in the crude or refined condition; to acquire for these purposes gas and oil lands, leaseholds and other interests in real estate and gas, oil and other rights, to construct and maintain conduits and lines of tubing and piping for the transportation of natural gas or oil for the public generally as well as for the use of said corporation; to transport such oil and gas by means of such pipes, tank cars or otherwise and to sell and supply the same to others; to lay, buy, lease, sell and operate pipes, pipe lines and storage tanks to be used for the purpose of transporting and storing oils and gas and of doing a general pipe line and storage business; to construct and maintain gas wells, oil wells and oil refineries, and to buy, sell and deal in gas and oil; to construct and maintain all railways, tramways, telegraph and telephone lines necessary or convenient in the prosecution of the business of the company; to obtain and prepare for market such other valuable minerals or materials as may be discovered in developing the lands of the company and to do and transact all business properly connected with or incidental to any or all of said objects and purposes.

To acquire by grant, purchase or otherwise subject to legislative authority when and where necessary, franchises, concessions, rights and privileges of every kind and nature incidental to the carrying out of the purposes of this corporation.

It is hereby provided that this corporation may conduct its business and perform any and all acts herein specified in any state of the Union and for such purposes may have one or more offices in this state.

The amount of the authorized capital stock of the corporation is \$100,000.00 divided into one thousand shares of the par value of \$100 each. The amount of capital with which it shall begin business shall be \$34,000.00.

All shares of stock shall be fully paid before issued and shall thereafter be non-assessable.

The names and respective post-office addresses and respective number of shares subscribed by each of the incorporators herein, are as follows:

John Dahl, Clovis, New Mexico, 220 shares.
John F. McSpadden, Wichita Falls, Texas, 20 shares.
George W. Diederich, Wichita Falls, Texas, 100 shares.

This corporation shall exist for a term of fifty years.

The names and respective post-office addresses of those who shall serve as directors for the first three months are as follows:

John Dahl, Clovis, New Mexico.
John F. McSpadden, Wichita Falls, Texas.
Geo. W. Diederich, Wichita Falls, Texas.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this 1st day of June, 1920.
JOHN DAHL (SEAL)

**Merit That Makes Mileage
-In Tires for the Smaller Cars**

Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread... \$2350
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread... \$2150

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag... \$450

GOODYEAR

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me . . . After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

PRINCIPLES

They are of untold value in these times when profiteering is rampant; when inferior quality is hidden beneath an attractive exterior. It's a well known fact that it is practically impossible for producers to keep up with the demand. Even at that the conscientious merchant may not stoop to the offering of shabby substitutes. One of our chief principles has always been to offer you only that which we know to be possessed of unquestionable merit, the best possible value for your money. It isn't the easiest principle in the world to follow out, but, for ourselves, it is the most satisfactory.

MID-SUMMER CLEARANCE

NARRATIVE REPORT

A review of the work of the Chamber of Commerce for the past six months is due the members. There is much work done by the Chamber of Commerce from which there may be no immediate visible results. Unfortunately many details on which much effort is expended belongs to this class and in most cases this work is the most valuable. There is other work, however, from which visible results have been obtained and it is of these we will speak.

RURAL TELEPHONE SYSTEM

A rural telephone system reaching every important community center in the county has been long desired. In the many miles of poles already erected and leading to Claud, Grady, Pleasant Hill, Ranchvale, Fields and Texico, and the stringing of many miles of wire by two crews now at work, are visible evidences of the accomplishments in that field.

NATIONAL HIGHWAYS

The securing of the Bankhead National Highway and the Ozark Trail routes through Clovis, the marking and mapping of hundreds of miles of highways leading to Clovis, heretofore unknown trails, untraveled and unheralded, has not been the least accomplishment of the Chamber of Commerce in a comparatively short time.

The hundreds of tourists passing through Clovis going east, west, north and south is tangible, visible evidence of accomplishment. These hundreds are but forerunners of the thousands of tourists that will inevitably follow.

FUTURE PLANS

Water that has passed the mill is of little moment. It is of future plans that is most important. The Ozark Trail must be marked, advertised and developed. The Bankhead National Highway as a "paper road" would be of little value. The road authorities in Texas, Oklahoma and Arkansas must be interested in matching the work of New Mexico so ably started by the State Highway Commission and the road authorities of Roosevelt, Curry, Chaves, Lincoln and Otero Counties. Almost \$1,000,000.00 will be spent on these routes through New Mexico in the next two years. Contracts aggregating \$200,000 will be let in Curry and Roosevelt Counties alone in July.

The Clovis Chamber of Commerce is in a position to greatly assist in putting this great construction program over, both in New Mexico and the states to the east. Clovis was a leader in the movement that caused these great highways to be routed through her gates.

ABO PASS ROUTE

But Clovis has even a greater work to accomplish. The Abo Pass Route, which to this time has been for all intents and purposes, a local road must be expanded into a great national highway over which the great east and west traffic, which is annually blocked several months in each year by snow in the high mountain passes in northern New Mexico and Colorado will inevitably flow. The same reason which justified the Santa Fe railroad spending millions of dollars to build a great railroad, the Belen Cut-off, through the Abo Pass, will make the Abo Pass Highway a great tourist route.

LOGAN BRIDGE

The building of the Logan Bridge gives Clovis another great opportunity. A great state line and cross-connecting road beginning in the new oil field at Pecos thence north through Lovington, Portales, Clovis, Grady, Tucumcari, Clayton and on north to a connection with the great Lincoln National Highway near Julesburg, Colorado, must be promoted. There will not be a single obstacle in the way when the Logan Bridge is completed. It will only require an organized effort.

THE GRADY ROAD

The building of a modern highway, suitable for heavy truck traffic to the north end of the county, will be materially hastened by the building of the Logan Bridge and the promotion of the State Lines Highway. The State and Federal road authorities will recognize the value of this route and the combined efforts of the state, federal and county authorities will make light work of building this highway. When this is accomplished every acre of land in Curry County north of Running Water Draw will double and treble in intrinsic value. Is it not worth working for? Its accomplishment will be, under present conditions, far easier than building the Clovis-Portales road five years ago.

DEEP OIL TESTS

The drilling of a deep test for oil and gas near Clovis must be consummated. This project has behind it some of our strongest and far-seeing men and it is the duty of the Chamber of Commerce to put its shoulder to the wheel and help put it over before the end of 1920, and it will be done.

MODERN HOTEL

A new \$200,000 hotel must be secured for Clovis. The past efforts made by the Chamber of Commerce may not be so barren of results as some might think. It is not an impossible accomplishment and is even nearer than any dream.

All of which is respectfully submitted.

D. W. JONES, Secretary.

CLASSIFIED ADS

RATE
1c Per Word Per Issue

FOR RENT—Two sleeping rooms. Phone 304. 6-10-2tp

WANTED—Typewriter. Give description in detail. Postoffice box 693, Clovis. 6-24-tfc

FOR SALE—Dodge touring car in good condition and a new Chevrolet. Miller-Nash Motor Co. 6-3-tfc

Now Is the Time to Have Your Photograph Made!

Each day takes you farther away from the life you lived yesterday and brings you one step nearer the life you will live tomorrow.

Can you think of a better way to preserve the memories of today than by photography? A photograph is the best possible means of keeping the family records, it catches the fleeting charm of childhood, it holds the memories in the way that nothing else can do.

Now is the time to have your photograph made.

Call on us today.

To the the People of Clovis and Surrounding Country Investigate the Praetorians

I am making Clovis my Headquarters for a large district for the Praetorians. I will be glad of an opportunity to explain the proposition to you.

Scientific Life Insurance

The Praetorians is a scientific Life Insurance institution with the home office in Dallas, Texas. The institution was organized 22 years ago and from the very beginning the Order began putting aside a reserve to protect its policy holders and we now have over \$80.00 per capita, per member, to protect our policy holders.

Men and Women Admitted on Same Basis of Rates

Women are admitted to the Praetorians on the same basis of rates as men. All meet in the same council. This makes a fine social feature.

Accident Benefits in Every Policy Without Extra Cost

Every policy the Praetorians write provides for accident benefits without extra cost. Also disability features.

The Praetorian Building

"Owned and operated exclusively by the Praetorians."

Our Leader Is the Twenty Year Pay Policy

The Praetorians sell several classes of policies. Our leader is the 20 year payment plan. Why take a policy on which you have to continue paying premiums as long as you live when you can get a policy in the Praetorians and get it fully paid up in twenty years? We also write a ten year pay policy. Cash and loan features in both the above policies after the second year.

I Will Be Glad to Explain Our Different Plans and Special Benefits to You

GEO. R. RAY, District Manager

Representing THE PRAETORIANS

BUILDING SERVICE

"A board and a nail and a bucket of paint
Makes many a place look new, that ain't"

Our place of business is much more than a lumber storehouse. It is headquarters for building service. Let us do your building and repairing and painting planning. Tell us your needs. We supply them—SATISFACTORILY.

Kemp Lumber Company

BIRDS IN COMBAT

Feathered Creatures Sometimes Battle to the Death.

Contrary to Pretty Theory, Perfect Peace Does Not Always Reign Within Those "Little Nests" as Sung by Poet.

"Birds in their little nests agree," wrote Doctor Watts. If the eminent preacher had chanced to witness an incident similar to that which I saw the other day, says a writer in the London Daily Mail, he would never have penned that libel.

I was walking across a London golf course when two sparrows shot past my head, chattering violently, and, coming to ground a few yards away, set to fighting so furiously that I was actually able to pick them both up in my hands.

I let one go at once; the other I carried a little distance before liberating it. Will you believe it?—a moment later the two were at it again, beak and claws.

Almost all birds fight furiously in the springtime. Even turtle doves, those emblems of peace, will go for one another in the nesting season.

The various methods of offense adopted by different birds are interesting. Sparrows use their powerful beaks but hold one another with their claws. Starlings fight in exactly similar fashion. Their combats are at times most desperate. A friend saw one cock starling actually kill another.

Pigeons use their wings but rarely do one another much harm. Swans fight with their wings, and their strength is so great that their battles sometimes result fatally. I have, however, seen a swan apparently endeavoring to hold the head of a rival under water, but I was not near enough to make out what happened.

Some birds have spurs on their wings. The spur-winged goose, which is a small, long-legged bird and rather resembles a duck on stilts, has extraordinary wing power. One of these geese went for a gardener who had gone into its in-sure in the "zoo" and gave him a bump on the knee that laid him up for a week. The crested screamer has actually double spurs on its wings and is a very awkward customer to tackle.

All the birds of prey use their talons as their principal weapons. The strength which lies in the talons of even a small hawk is almost incredible. As for an eagle, one has been known to drive its claws clean through the skull of a large tomcat into the brain, killing the animal instantly.

The pheasants are the only family of birds provided with spurs. Our domestic fowls are, of course, members of this genus, and it is in the game fowl that the spur is developed to the greatest perfection. These leg spurs resemble the horns of cattle, in that they have a bony core protected by a smooth sheath of horn.

The guinea-fowl, again, is singular in that it has a blunt horn upon its head which it uses as an offensive weapon.

I have never seen two herons fight, but if they did they would use their beaks and their beaks alone. The driving power of the long, sharp-pointed beak of a heron is immense, and when a heron is hawked you may see it endeavor to spit its smaller assailant upon its beak.

An ostrich farmer tells me that he has known an ostrich to pierce a sheet of corrugated iron with one tremendous kick.

State Line Pure-Bred Duroc-Jersey Exhibition

The State Line Pure-Bred Duroc-Jersey Association is composed of twenty breeders who are enthusiastic boosters for pure-bred live stock in general, and of the red hog in particular.

"The scrub must go" is the slogan used by the U. S. Bureau of Animal

Husbandry and other enlightened agencies promoting the betterment of country life. We are preaching and practicing this gospel because it will bring greater interest and more dollars to every farmer who discards the scrub and introduces pure-bred livestock on his farm. The hog has always been the "mortgage lifter," and in the hog lot is where this improvement should begin.

To show our friends and neighbors in Curry and Parmer Counties what sort of sure enough hogs are being produced by members of this association, we are featuring a big exhibition of registered Durocs in Clovis and Farwell-Texico on Saturday, July 24, where you will see red hogs of the approved type and breeding; weaned pigs, fall gilts, six hundred pound sows, and boars weighing from five hundred pounds to half a ton.

As a progressive farmer in this community, we extend to you a very cordial invitation to visit this exhibition either at Farwell-Texico in the morning or at Clovis in the afternoon of Saturday, July 24.

J. D. HAMLIN,
Secretary-Treasurer.

INSTRUCTIONS TO DUROC BREEDERS

To the Duroc breeders of Parmer County Texas, and Curry County, New Mexico:

Gentlemen:
I beg to submit the following suggestions and plans for a Duroc Swine display day.

* DR. C. L. McCLELLAND *
* Physician and Surgeon *

* Physician and Surgeon. *
* Office over Sunshine Shop *
* Office Phone 231. Residence 268 *

* DR. H. R. GIBSON *
* OSTEOPATH *
* Treats all diseases, both acute and *
* chronic. Office in New Tlie *
* building on corner north of Fire *
* Station and east of Lyceum *
* theatre. *
* Office phone 383. Residence 300. *
* Clovis, New Mexico. *

* THOMAS W. JONES *
* Veterinarian. *
* 200 West Otero Street. *
* Phone 45. Clovis, N. M. *

* NOTICE TO ALL *
* PRATORIANs *
* You will please pay your dues *
* in the future to H. E. Carlisle, *
* Recorder, at Clovis National *
* Bank. *
* H. E. Carlisle, Recorder *

First, that this display day be held on July 24, 1920. To be held on the above date from nine to twelve o'clock at Texico-Farwell; and from one to five o'clock at Clovis.

Second, that each member be requested to bring to each of these places one or more animals for this display.

Third, that only registered animals be placed on display, and if possible, the registration papers be brought along.

Fourth, that the purpose of this display is not only for the advertising of the Duroc swine, but that any member be allowed to make such sales on that date as opportunity may afford.

Fifth, that each one who becomes a member, should pay a membership fee to the Association of \$2.50, and same be sent to the secretary-treasurer, Judge J. D. Hamlin, Farwell, Texas, and that same be sent on or before the exhibition day.

Sixth, that the following committee be requested to serve as arrangement committee: Mr. E. E. Hickman, Mr. J. Frank Noel, Mr. Ambrose Ivy, Mr. R. L. Jordan, Mr. J. F. Foster.

This committee to select the display grounds, pens, transportation, etc.

Seventh, that Mr. Peterson be requested to arrange for the taking of pictures of different animals.

Eighth, that John O. Beals and Judge J. D. Hamlin be requested to act as publicity agents, and that all committeemen report to Mr. Beals and Hamlin at once their plans that they may advertise same.

JAS. M. BICKLEY.

SUDAN and MILLET CONTRACTS

Now is the time to get in your Sudan and millet. Still have seed to put out on contracts. See us at once. Will H. Pattison. 6-10-3tc

CUT OUT THE FIRE CRACKERS ON STREETS

Numerous complaints have come to the officers about the shooting of fire crackers on the main streets. This is a violation of the law and all are notified that it must cease. Those violating the law in this regard will be arrested.

TIRES

Will Win For You

"Here is a tire you can trust—a better tire than any other manufacturer has ever built," Barney Oldfield told Gaston Chevrolet before the Indianapolis 500-mile race.

Gaston Chevrolet trusted Barney Oldfield.

So he chose Oldfield Tires, and became the first driver in history to win this, the world's greatest race without a tire change.

In his 500-mile flight over the rough bricks at 88.55 miles an hour, Gaston Chevrolet's tires resisted a degree of wear fully equal to that of 20,000 miles of ordinary running. Yet they finished in condition for many more miles of cruel competition.

A man whom his friends really trust, deserves your faith too.

Trust Barney Oldfield!

Trust Oldfield Tires to banish tire troubles for you as they did for Gaston Chevrolet.

Cord and fabric in all sizes and for all cars—the tires you need are here and ready.

BETTER SIRES TO APPEAR IN MOVIES

The Department of Agriculture is preparing a series of motion pictures and stereopticon slides for use in the "Better Sires" campaign. The interest aroused among the breeders of the United States is taking the form of requests upon the Department of Agriculture for information which, it is hoped, the film feature will be able to satisfy. It is probable that the motion pictures will be ready for issue next fall.

HELGOLAND OF THE ADRIATIC

Island of Cherso Has Become Point of Importance on the New Map of Europe.

The Versailles conference set Americans searching the gazetteers for Yap; the San Remo conference turns the spotlight to another obscure island—Cherso.

"Practically unheard of on this side of the Atlantic, eluding most travelers, even escaping many of the seekers after the little-known places of Europe, Cherso neither is inaccessible nor unattractive," says a bulletin from the National Geographic society. "It dangles like a pendant in the Gulf of Quarnero, low hung from the neck of Fiume. It is the Long Island of that part, its shore line rising 12 miles to the south of D'Annunzio's present stronghold. Its slender form extends to the southwest for 40 miles, though it never exceeds seven miles in width, and its area is somewhat more than twice that of the District of Columbia.

"Holding in mind this location, near the head of the Adriatic, in view of the tentative plans to make Fiume a buffer state between Italy and Jugoslavia, the strategic possibilities of Cherso become apparent. Indeed, one may picture it as a potential Helgoland of the Adriatic.

"Cherso lies off the shores of the northern part of Dalmatia and the Croatian littoral, a region formerly known as Moriacchia. The Moriacchia channel preserves this name, originating with the Slavic invaders of Dalmatia, who called the Latinized people they found there Viachs, or Mavro-Viachs—black Viachs. Thus the Slavs of this region have come to be known, by a corruption of this title, as Moriacchs.

"In rural districts Moriacchian women retain their historic costume, which includes a kerchief for the head, many strands of beads, a waist band from which hang amulets and various trinkets, and, over a blue cloth gown, an apron of exquisite embroidered pattern. About her neck an unmarried girl wears a string of coins and rings which comprise her dowry. Formerly the men wore their hair in a plait, which their wives were expected to comb, adorn with ribbons and charms, and anoint with fats."

Massasoit Statue.

It is thought that the bronze statue of Massasoit which is to be presented to the town of Plymouth by the national organization of the Improved Order of Red Men will be located on Watson's hill instead of Cole's hill, where some of the Pilgrims lie who died during the first winter after their arrival at Plymouth. This latter place is considered more appropriate than Cole's hill, as it was resorted to by Indians and they not only lived there, but had feasts, as remains have shown, while skeletons of the original inhabitants have been found. Their name for the place was Cantaugantest. It was south of this hill the settlers first heard the Indians and on the crest of the hill they appeared to the people in the colony. It was there also they came from when Massasoit came across Town brook to make the famous treaty with the whites.

Interested persons have been looking over the hill to ascertain what it offered for a site for the monument to the great Indian chieftain, and there is at least one open lot which commands a fine view of the bay and town.

The Winner.

There are brides and brides and after all of them we often hear some one speak longingly of "the old-fashioned bride," but the other day we met one who certainly beat all the old-fashioned ones we had ever heard of. She was in a furniture store hunting the furniture to put in their new home. The clerk was vainly trying to talk her into buying some which she felt that they could not afford. As a particular inducement he said: "But really this is a wonderful bargain, you can't afford to let it go."

The girl smiled at him. "But I can't afford to buy it," she returned in a perfect good humor, "and besides I've got such a wonderful husband that I don't need other wonderful things—not even bargains."

Regrowing Legs.

A starfish, seized by one of its arms, surrenders this to the captor and escapes with the other four, regrowing the missing part at its infinite leisure. A starfish may jerk off each of its five arms seized in succession; it may cast off an injured or parasitized arm; in rare cases there is multiplication by division. Sea cucumbers discharge their viscera in the spasms of capture and may thus escape from an astonished foe. The replacement of the food canal is sometimes accomplished in ten days though it may take as many weeks.

World's Laziest Town.

A little seaport in New Zealand, called Russell, was described as the sleepest place in the world. Herbert Garrison, a lecturer, said residents of the town took life so easily that, although the fish were jumping out of the water asking to be caught, the people preferred to eat tinned salmon from British Columbia. Rather than be put to the trouble of milking their own cows, they imported condensed milk from Switzerland.

Air Travel to Be Popular Soon.

Henry Ford says that Berlin, London and New York will, within a few years, be only a day apart. The Pacific will be crossed by air and transcontinental travel in light and speedy airplanes will be common within three to five years.

Long-Bell
THE MARK ON QUALITY LUMBER

Fence For a Lifetime

Poor fence posts are thieves. They steal your money and time—time when you can least afford to give it. It costs the American farmer one hundred million dollars every year to replace decayed and broken fence posts. Most of this is needless waste.

Long Bell creosoted posts last a life time. You can be sure of satisfactory service with the minimum of upkeep. Their first cost is practically the only cost. The Long Bell method of creosoting should not be confused or compared with the open tank dipping or brush treatments, for these are only temporary forms of wood preservation. By the Long Bell hydraulic-pressure-vacuum process the entire sapwood is impregnated with creosote and the result is "The Post Everlasting."

We would like to show you these posts and other fencing material we have in stock.

THE
LONG-BELL LUMBER CO.

"It Costs No More To Built It Right."

An Author's Depository.

Last year the Sutter branch of the California State Library, located in San Francisco, offered to receive for safe keeping the manuscripts of unfinished books. The idea has worked out so well that a substantial collection of manuscripts has been established, the collection being described as the Author's depository. One hundred authors have taken advantage of the offer and have sent their manuscripts, either printed or unprinted, finished or unfinished, to the depository, and letters from authors indicate that the depository is much appreciated by writers as a means of preserving valuable matter that might otherwise become lost. A permanent author's depository is also maintained in the California department of the state library, which is located at Sacramento.

His Size.

John's expenditures at college had grown to be of such dimensions that father demanded they be decreased. To help out in this he required an itemized account of all his demands for money. So when John wished a dog as several of the other elite collegians had, he had to send in this request: "For one bulldog with a pedigree, \$50."

The answer came in due time, and besides the small check in the envelope was this note: "I am sending you \$5. If you have to have something with a pedigree, buy a canary bird. It's about your size."

Simple Explanation of "Haunt."

The mystery of haunted houses often has a simple explanation. In Boston, where the occupants of a house insisted they heard mysterious sounds, it was found that a fine leading from the furnace leaked, filling the rooms with enough carbon monoxide to produce a slight poisoning, which affected the judgment and caused them to believe they heard mysterious noises. When the leak was discovered and repaired there were no longer records of the noises which had existed solely in the minds of persons affected by the gases.

Names "Wickedest Place."

"Port Said still is the wickedest place on earth," said Brig. Gen. J. H. Bateson, principal of Wesleyan chapel, in an address to soldiers at Cardiff, Wales.

"I know Calcutta, Bombay and Madras better than I know London," he continued. "I have had to live in the East for a quarter of a century, and I know what Cairo and Ismailia are; but I have seen more sin and appearances of sin in one hour in Port Said than in all the rest of my experiences."

Kill a Million Prairie Dogs.

Complete extermination of what was considered one of the largest prairie dog "towns" in the West has been reported to the predatory animal inspector's office at Phoenix, Ariz., by the Chiricahua Cattle company of Cochise county, southeastern Arizona.

More than 1,000,000 prairie dogs were estimated to have lived on the company's ranch of more than 30,000 acres until the management started an offensive campaign against them. Now their vast honeycombs of underground burrows are utterly deserted, the company reported.

His Bit.

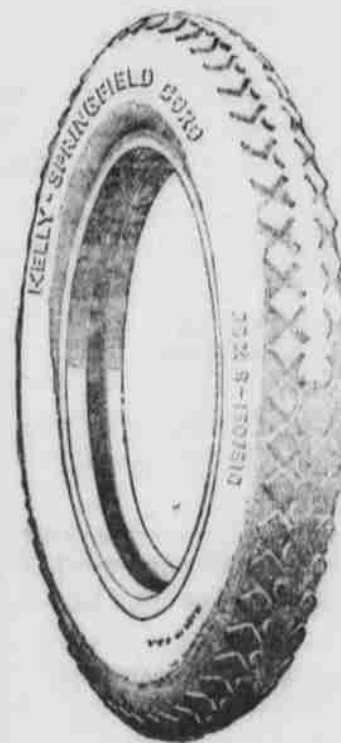

Ex-Buck—Gotta job at last.

SPORT NEWS

A LITTLE DOPE ABOUT THE PLAYERS ON THE CLOVIS ELKS BASE BALL TEAM

Hayes scored once and advanced to second in two trips to the bat.

Raybourn's whip came into play again Sunday when he caught Atkinson's long fly in the fifth inning and shut off Ruth at the plate.

Denise really deserves a great deal of credit for winning the game. He let the visitors down with five scattered hits, and only earned run. In eight innings he fanned nine men.

Scrubby Mason, the latest addition to the local nine, showed up well in the first game Sunday. Out of five trips to the bat he scored two runs and landed a nice single.

It is conservatively estimated that \$100 was lost to the club in uncollected admissions at Sunday's game. From a business standpoint it would pay the managers to get behind a movement to put over a grandstand and have a fenced diamond. The Elks baseball team has brought a great deal of credit to Clovis during the present season, and the business men should support such a movement.

Nutt, who held the mound throughout the game for Tucumeari, showed the only real form displayed by the visitors, and won applause from the crowd when he pulled out of two bad holes. In the second with one man down Jack Johnson singled and stole second and third, and Seery walked and stole second. It looked like a sure score, but Nutt tightened up and fanned the next two men. In the eighth with Carlisle on third and Hayes on second and no one down, he again pulled out when Denise and Hickok fanned and Mason went out on a long fly to center.

Excellent progress is being made on the new building for the Mountain States Telephone Co.

"RIO GRANDE"

A double barreled, dyed in the wool story of life on the Mexican border, by Augustus Thomas, the man who knows border life as no other person.

True, in her heart flamed the blood of a Mexican father, and an American mother. And she had been taught NEVER to trust anyone on the other side of the Rio Grande. But Mary Lopez allowed no river of blood—no river of water—no mountains—no distance to keep her from that blue-eyed American. And when he and the Mexican fight for this half breed girl—well, there's action, thrills, romance. You'll clutch your seat while watching this thrill story. See it and a two reel Lion comedy at

the Lyceum Theatre Saturday night, June 26th.

M. M. Craig of Texico was a Clovis visitor Tuesday.

IN UNEQUAL FIGHT

Himalayan Bear's Foolish Combat With Stone.

Like Too Many Members of the Human Race, the Animal is a Victim of His Unconquerable Obstinacy.

Most wild animals, it appears, are stupid as well as greedy and obstinate. But for sheer brainless obstinacy in the face of opposition there is, the best authorities contend, no animal like the Himalayan bear. If he finds a thing in his way he will always push it aside if he can, even though it would be easier to go around the obstacle.

The wily natives of India have observed that trait in his character and from it have contrived a trap to catch him. They select a tree with a suitable horizontal bough. At a point on the bough about ten or twelve feet from the fork they fasten a bait likely to attract the bear—honey, for example, or goat's flesh. Then from another bough above that one they suspend a heavy block of stone. The rope is so fastened to the upper bough that the stone hangs between the bait and the fork of the trees.

The bear scents the bait from a distance, comes to the tree, sees the food on the bough and climbs up the tree. Reaching the bough, he walks along it to get at the bait. But suddenly he notices the obstacle in his way and pushes it aside with his paw. The stone swings out of the way for a second; then it swings back and hits the bear on the paw. With a growl of irritation the bear pushes it aside more violently. The stone swings away again; then it returns with greater force and hits the bear on the chest.

With a snarl of rage the bear gives the stone a tremendous thrust and sends it up into the air in a wide curve. Then down comes the stone in a similar curve and hits the bear a thumping whack on the ribs.

Most animals would desist after that third blow; not so the bear. He is now in a perfectly mad rage, and a bear is a good boxer. He hits out with his paws, right and left and sends the stone hurtling forward in a still wider curve. Then, after a few seconds, the stone comes back and hits the bear a terrific "uppercut" on the jaw.

But alas! the bear never went to school and learned the law of gravity. Every blow he hits the stone is returned tenfold. And as the stone has no brains to be knocked out, it is the bear that gets knocked out.

Then the wily natives hiding below rush in with a net and throw it quickly over him. And that is how any "bear" or managerie gets its Himalayan bear.

Co-operative Law Library.

An interesting experiment in library co-operation is being worked out in the Long Beach public library. Long Beach, Cal. Forty or 50 attorneys of the city of Long Beach have sent law books from their private libraries to the public library for the purpose of forming a co-operative law library. Those contributing books in this way are entitled to take books from the co-operative library, keeping them for a period of five days, and the general public is allowed to consult the books at the library. The books are marked, "Loaned to the Long Beach Public Library." Some of the attorneys joining in the plan have each contributed as many as 200 books to the co-operative law library. It would seem that this idea might be worked out successfully in other lines of endeavor, thus making the resources found in books available to the largest possible number of people.

Nickel Money.

Nickels—which are really copper-nickel, being a mixture of the two metals—were first coined in this country to give encouragement to nickel mining. Important deposits having been found in Pennsylvania.

Since then more uses for the metal have been found. But at the present time 85 per cent of the world's supply of nickel is derived from the mines of the Sudbury district, in Canada, where the reserves of ore are enormous. Of the balance, France produces the bulk, contributing 11 per cent.

It has been suggested that Great Britain, practically controlling as she does the world's nickel, might switch from cheapened gold and make the white metal the basis of her currency. —Philadelphia Ledger.

"Let's Pretend."

Everybody has things to put up with. There are sure to be ups and downs, and even days when everything seems so out of tune that it can never be right again. To make home a happy place is the housewife's business, but unless she can at least appear happy herself she is not likely to make a success of it. This will be much easier if she has had her early training in the game of "let's pretend." Very few of us make the most of all the chances for happiness that come to us. It's a difficult thing to do. But we can all try to do so, and that is half the battle!—Washington Post.

Our Flour and Wheat Exports.
Between July 1 and January 9, the United States exported 82,083,000 bushels of wheat and 8,773,000 barrels of flour, a total equal to 121,000,000 bushels of wheat.

NOTICE OF SUIT PENDING

To the Universal Wrench Company, a corporation under the laws of the State of Colorado, Ransom Y. Bovee, and all unknown claimants of the property hereinafter described, GREETING:

You and each of you are hereby notified that suit has been filed and is now pending in the District Court of Curry County, New Mexico, wherein C. S. Fitzhugh is plaintiff, and the Universal Wrench Company, a corporation under the laws of the State of Colorado, Ransom Y. Bovee, and all unknown claimants of the property hereinafter described, are defendants in Cause No. 1614 on the Civil Docket of said Court.

The general purposes of said suit are to quiet the title, to the property hereinafter described, in Plaintiff, and to estop defendants and each of them from claiming any estate adverse to Plaintiff's in said property: To establish Plaintiff's title to said property and forever set the same at rest. Said property is described as being situate in Curry County, New Mexico, and being all of Lots Seven (7) and Eight (8) in Block Sixty-Eight (68) of the Original Townsite of Clovis, New Mexico, according to the official plat thereof.

You are further notified that unless you enter your appearance in said cause on or before July 23, 1920, judgment will be rendered in said cause against you by default, and plaintiff will apply to the Court for the relief sought in his complaint.

Plaintiff's attorney is J. S. Fitzhugh, whose address is Clovis, New Mexico.

Witness my hand and seal of office this 1st day of June, 1920.

W. C. ZERWER,
County Clerk,
Curry County, N. M.

Claimant names as witnesses, Ross S. Cherry, J. B. Hendrix, R. L. Duke, and Delmar I. Barnett, all of Clovis, N. M.

W. R. MCGILL,
Register.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order.

PROF. HEMMETER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of May-apple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

TAKE IT IN TIME

Just as Scores of Clovis People Have.

Waiting doesn't pay. If you neglect kidney backache, Urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills. Clovis citizens endorse them.

Mrs. O. I. Love, 205 S. Wallace St., Clovis says: "A few years ago I had an attack of kidney complaint and for a whole winter my back was so lame and weak, I could hardly get about. I do hope I never get so dizzy I nearly fell over and my kidneys were in a bad way, too, being weak and inactive. Specks floated before my eyes and blurred my sight. I bought Doan's Kidney Pills from

the Southwestern Drug Co. and three boxes cured me of the trouble. Anyone suffering from disordered kidneys should try Doan's Kidney Pills, for they are a great medicine."

60c, at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Catarrhal Deafness Cannot Be Cured

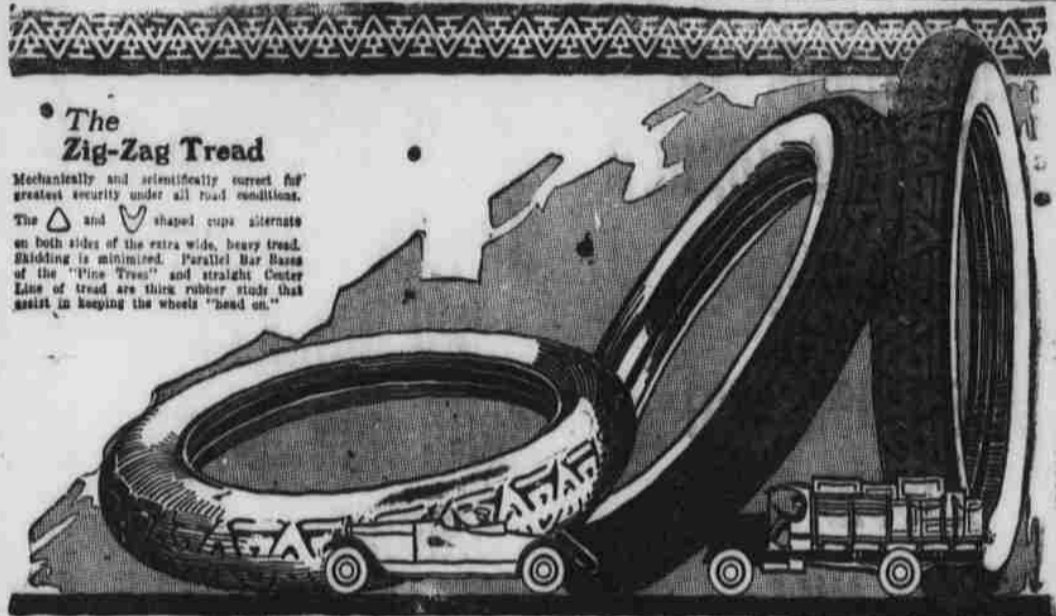

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube returned to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

NOTICE

To all Contractors and to whom it may concern: On and after the July 12th, 1920, all common labor will be 75c per hour for 8 hour day. Man-tar mixers and hod carriers \$1.00 an hour. Time and a half for overtime and holidays.

O. C. Martin, President.
I. H. C. B. & C. L. U. Local 607.

THE HARDWARE QUESTION SOLVED

Are You Short of Kitchen Utensils

Do you have to keep the folks waiting for their meals because you are shy on cooking utensils? You can't make few pans answer many purposes and at the same time get up a quick meal. You are foolish even to try it, considering how little it would cost to get everything you lack.

Our kitchen utensil stock is very complete. We have many little time and money saving devices which housewives can appreciate, besides all the usual necessities.

Come in and see us the first opportunity you can find, if it's merely to look around. Make a list of what you need—then get our prices.

**HARDWARE THAT STANDS HARD WEAR
AT PRICES THAT STAND COMPARISON**

Monuments that are bought of unknown solicitors very often discolor and deteriorate—so why not purchase the memorial of a concern that has a local reputation for good work?

The monument is something that is to last for all time—therefore only the finest quality of granite or marble should be used and the best of skill in lettering and setting.

Our designs are beautiful and our prices reasonable. Let us show them to you and you will be convinced.

Rapp Monument Co.
210 West Grand Avenue

Roberts-Dearborne Hardware Co.
"YOUR MONEY BACK IF YOU WANT IT"

CAMERON NEWS

Mr. A. B. Wood and granddaughter, Gladysicks, H of McLean, Texas returned Thursday after spending a week with his son, J. O. Wood and family.

C. T. Gann and family visited the last of the week with his father who is quite sick at Amarillo.

Messrs. Marion Meredith, Henry Stovall, Cleveland Johnston and Arvil Edmonson and their families, and Mrs. M. A. Johnston ate ice cream at Willie Johnston's Saturday night.

Rev. A. W. Cameron and wife spent Sunday with Prof. Jackson and family at Hollene. Mr. Cameron preached to a large congregation at 3 p. m. at Hollene.

Pat Fitzsimmons came from Amarillo Thursday and expects to work in the harvest here.

A. C. Johnston and family, J. O. Wood and family and Mrs. M. A. Johnston attended Sunday School at New Hope and spent the remainder of the day with Mr. and Mrs. Isler.

Mrs. Yola Johnston is improving from a severe spell of appendicitis. Miss Sue Hammons has been staying with her the past week.

Mr. E. W. Bowen and little son, of Tucumcari were in this part the last of the week in the interest of some oil leases.

Ike Hines and family, E. W. Leach and Halla and Marshal Hillard went to Clovis Sunday in E. W's. car. Mrs. Sallie Leach who has been visiting her daughter, Ruby Hendrix at Clovis for a fortnight, returned home with them.

Mr. and Mrs. A. A. Dethrage took Sunday dinner with H. L. Caughran and family.

Earl Boney is kept quite busy at L. M. Boney's shop repairing cars and trucks.

In speaking of her recent trip to Texas and Oklahoma Mrs. M. A. Johnston said she visited 12 homes of her relatives in which were 52 relatives, of which three were her children, 9 were her grand children, one a brother and one a sister. The sister was Mrs. Mattie Haynes who came from her home in Tennessee to visit her brother Solen Haynes at Chillicothe, Texas, and to meet Mrs. Johnston at that place. The remainder of the 52 relatives were nieces, nephews, and cousins to Mrs. Johnston. She also visited Mrs. Lena Hendrix, formerly of this place, who is now taking treatment at Chillicothe. Also she saw Mrs. Tom Derr and family at Altus, Okla. Mr. Derr filed on a half section one-half mile south of Cameron post office in the early days of this country and later sold it and moved to Altus.

No. 11746
Treasury Department
Office of Comptroller of the Currency.

Washington, D. C., June 4th, 1920.

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that "THE FIRST NATIONAL BANK OF GRADY" in the town of Grady, in the County of Curry and State of New Mexico, has complied with all the provisions of the Statutes of the United States required to be complied with before an association shall be authorized to commence the business of banking;

Now therefore I, John Skelton Williams, Comptroller of the Currency, do hereby certify that THE FIRST NATIONAL BANK OF GRADY, in the town of Grady, in the County of Curry and State of New Mexico is authorized to commence the business of banking as provided in section Fifty one hundred and sixty nine of the Revised Statutes of the United States.

In testimony whereof witness my hand and seal of office this 4th day of June, 1920.

JNO. SKELTON WILLIAMS
(Seal) Comptroller of the Currency
6-24-9tfc

Our Aim Is To Serve You

In our present location in the new Barry building we are better prepared than we have ever been to serve the housewives of Clovis in their efforts to serve three square meals a day to their hungry families.

Quality Groceries

Whether it is fresh vegetables and seasonable fruits, fresh country eggs, clean dried fruits for pies and sauces, choice teas and coffees that you want, or any of the numerous necessities of the table, we can fill your wants immediately. We carry nothing but the best, and the best is sure to please you. Let us serve you.

Quality Meats

No matter what your wants may be in the meat line, we can meet them, and we always meet them with first quality meats—the only kind you would buy or serve on your table. We carry not only the staples but also the delicacies that go to make a complete market stock. Let us serve you.

RAILWAYS ICE COMPANY MAY IMPROVE PLANT

Extensive improvements will likely be made on the Railways Ice Company's plant here this fall, according to T. E. Roff, local manager. However, these improvements have not been decided on and nothing definite can be announced.

The local plant, which has a daily capacity of seventy-five tons, and 2,500 tons storage capacity, is working overtime to meet the present demands; and in an emergency the daily output can be pushed up to 90 tons. In order to meet the additional demands of the citizens of Clovis, the plant is turning out 81 tons daily.

The Railways Ice Company has twelve plants scattered throughout the southwest, with a daily capacity of 25,000 tons and a storage capacity of 65,000 tons.

Most of the output of the local plant goes into the refrigerator cars of meat and fruit trains that pass through here, and only about eight or ten tons are delivered by wagon in Clovis each day.

BLACKTOWER

Several from this community attended the singing convention at Havenor Sunday.

Several from Blacktower attended the funeral of Mrs. Belcher last Tuesday, June 15th.

Mr. and Mrs. G. T. McCaw, Mr. J. T. Chandler, and the Misses Sadie Allen, Mabel and Ruby Chandler attended church in Clovis Sunday night.

Next Sunday is Sunday School day at Blacktower. Everybody is invited.

to come and bring well filled baskets. Report last Sunday was fine. There were 56 present and \$4.02 collection. We had a very bad hail storm last Friday night. It ruined most all the wheat in this vicinity and beat up the gardens and row crops very badly.

CHURCH OF CHRIST

We had a very pleasant day last Sunday at the Church of Christ. We had our usual Bible lesson at 10:00 and then had preaching by Bro. Gardner. Sunday morning he delivered a fine discourse on man's whole duty to God, and on Sunday night he preached on the entrance into the Kingdom.

Our Bible classes are still meeting on Sunday night and Wednesday evening, there being a very nice interest shown in the young people's class. We will be glad to have your presence at all of these meetings, come out and help us.

Let us all remember the meeting to begin the second Sunday in July, with Bro. Shepard of Amarillo, Texas. Everyone be ready and enjoy this meeting, all are invited.

REPORTER.

CHANGES MADE IN SANTA FE OFFICIALS

A number of changes in officials on Western Lines of the Santa Fe Railway has been announced by R. J. Parker, General Manager, to be effective June 20th. The changes are due to the vacancy caused by the passing of T. H. Sears a week ago.

The positions of general superintendent of the northern and southern districts with headquarters at La Junta, Colo., and Amarillo, Texas, are abolished. The title will be assistant general manager. C. H.

Bristol will be assistant general manager of the northern district with office at La Junta. He has been general superintendent. Had Mr. Sears lived he would have been assistant general manager of the southern district.

F. L. Myers, for ten years superintendent of the New Mexico division with office at Las Vegas, N. M., is promoted to assistant general manager of the southern district with headquarters at Amarillo.

A. Ewing, superintendent of the Western division with headquarters at Dodge City, Kansas, is transferred to the New Mexico division with offices at Las Vegas, succeeding F. L. Myers, promoted.

D. S. Farley, for five years superintendent of the Plains division with headquarters at Amarillo, is transferred to the Western division with office at Dodge City, succeeding A. Ewing transferred.

O. J. Ogg, for the past year superintendent of the Rio Grande division with headquarters at San Marcial, N. M., is transferred to the Plains division with offices at Amarillo, succeeding D. S. Farley.

B. A. West is promoted from assistant superintendent of the Panhandle division to superintendent of the Rio Grande division with headquarters at San Marcial, succeeding O. J. Ogg transferred.

An Analysis of the "Road Speed" of a

MAXWELL

is a tribute to its special steels

Men driving larger cars have often wondered at the "road speed" of a Maxwell.

True, in an open straight stretch they have run away from a Maxwell.

But in any "piece of going" in which hills, turns, curves or rough roads enter into the general average, they do not outrun a Maxwell.

The reason for this is the special steels in a Maxwell. They are made to Maxwell's own formulae, and make possible construction combining great strength with light weight.

The lightness of the weight enables a Maxwell to take a turn with more ease and less slowing up,

come down a hill under better control, ascend a hill as well, and make more time over a rough piece of roadway.

The strength of its steels enables a Maxwell to stand equally as well, or better, side strains, road unevenness, etc.

In other words, a Maxwell makes speed when a larger car cannot, and thus evens up to a high average its "road speed" without breaking the speed laws.

This ability in a Maxwell is one of many that is winning new friendships daily. Nearly 400,000 of them to date; in another year 500,000.

CORRESPONDENCE IS MUCH APPRECIATED

Our country correspondence is appreciated by a large number of readers and especially to those who wish to see their particular community represented in our columns. Please let us help you to keep your section on the map. If your particular community is not represented in our columns and you know of some one willing to send in these items, please let us know about it.

BATTLE OF BALLOTS IS FORECASTED

There may also be a battle of ballots at the Democratic Convention which meets at San Francisco next week, as only a few of the delegates are instructed.

Of the 1,092 delegates only 372 had been instructed by state conventions or primaries. These are divided as follows:

Palmer, 104; Governor James M. Cox, 74; Herbert Hoover, 30; Secretary of Agriculture Meredith, 26; Senator Carter Glass, 24; Governor Edwards, 28; Senator Simmons, 24; Senator Robert Owen, 20; Senator Gilbert Hitchcock, 16; Homer S. Cummings, 14; James W. Gerard, 10; William J. Bryan, 10; William G. McAdoo, 10.

If presented, Hoover, a candidate for the Republican presidential nomination, probably would get all of Michigan's 30 votes on the first ballot—more than he obtained at any time during the Republican convention by virtue of having carried the presidential primary in that state before he repudiated the Democratic party.

Palmer's lead in instructed delegates was threatened because of the contest filed by Tom Watson over Georgia's 28 delegates—the only Democratic contest filed to date.

Owing to the two-thirds rule in Democratic convention, 728 votes are necessary for a choice.

HER FOUR YEARS' TROUBLE ENDED

TOPEKA WOMAN SAYS HER RECOVERY AND SPLENDID HEALTH ARE DUE TO TAN-LAC.

"Since I began taking Tanlac I am enjoying better health than I have in years, and I think my recovery is simply remarkable," said Mrs. Mary Deach, 101 Chandler St., Topeka, Kansas, recently.

"For the past four years," Mrs. Deach continued, "I had suffered dreadfully with stomach trouble. I had scarcely any appetite and everything I ate disagreed with me. After every meal I would puff up with gas that pressed against my heart until I could hardly get my breath. My kidneys also bothered me a great deal, and there was nearly always a pain across the small of my back that made it difficult for me to get up or down. My head ached nearly all the time and I had such dizzy spells it was all I could do to keep

from falling. I became so badly run down and weak I could not do my housework and could not walk any distance without sitting down to rest.

"I had taken many different medicines and treatments, but never got any relief until I started taking Tanlac. I had not taken all of the first bottle before I began to feel better, and realized that at last I had found the right medicine. Soon I had a splendid appetite and kept improving until now I can eat anything I want and everything agrees with me perfectly. I am never troubled with gas, shortness of breath or any other after effects and I don't know what it is to have a headache or become dizzy. My kidneys are in perfect condition, the pains have all gone out of my back and I have regained my strength so that I do all my own housework and can walk almost any

distance without becoming tired. I think Tanlac is a remarkable medicine and I never miss an opportunity to praise it."

Tanlac is sold in Clovis by City Drug Co., in Texico by Red Cross Pharmacy, and in Melrose by Irwin & Pool. (Advertisement)

CLOVIS MARBLE WORKS CONTINUES TO GROW

Dad Dwight of the Clovis Marble Works on Grand Ave., ships his marble direct into Clovis from the quarries of the New England States. He

cuts it, polishes and letters it right here and sells it direct to the customer. There are no middle man's profits and it is not hard to see how he can save you money on your monuments. Not only this, he is a citizen of Clovis, has his home here and when you patronize him you are helping to build up the town and the county. He hires no salesmen and to see him. 6-17-tfc

no agents and when you buy one of Dad Dwight's monuments you have to deal direct with him at his marble works on Grand Avenue, but if you can save from 20 to 40 per cent on your monuments isn't it worth while? He has had 38 years experience in the monument business. If you need anything in his line it will pay you to see him. 6-17-tfc

Last Mad Rush for State Wealth In Texas Oil
University and State School Land Oil Riches Open to Rich and Poor, But Certain Not to Last Long
Under Easy Terms Now Offered Through Abner Davis
NOW OR NEVER FOR 40 ACRE TEXAS OIL RIGHTS

100 Wells Drilling
I am absolutely certain that a choice 40-acre lease will net the lucky owner from 40 to 400 times the present cost within a few weeks or few months according to when gushers come in. More than 100 wells drilling to enhance values in the trans-Pecos Rio Grande district where most university and school land is situated.

Strange But True
When the American Indian was pushed back by the white man, Uncle Sam allowed him to rest on the then worthless plains and jungles for his hunting ground, that the Red Man's white brother might till the fertile soil. Most of the rich oil fields of Oklahoma were on worthless scrub hills of the Indian nation. The Texas ranch owner and farmer left the sage brush plains and arid hills untouched. The state gave the refuse to the university and school system. And again nature lavishes her wealth where least expected and the oil, gas and mineral resources of these school lands are building fortunes for those who come and take them for development, and now the state, the university and the public schools are reaping the fabulous riches the early settlers pushed aside. This is one of the strange things whereby nature takes care of her own and it is all very well because it gives the chance now we never could have gotten otherwise.

Last Chance For Big Oil Lease Holdings From the State.
The Indian wards of the government have become fabulously rich from their oil lands in Oklahoma.

The state of Texas university and state school system is reaping millions from oil royalties.

Texas' Last Gift To Man
Her Vast Oil Wealth for School Fortunes Await Developers, and Millions For the Early Speculators. Abner Davis, Texas Oil Developer, Refiner and Founder of the famous Abner Davis System of Profit-Sharing, Man to Man, is now distributing to his backers 400,000 acres of university and school land oil lease permits from the state of Texas.

This is, without doubt, the largest co-operative profit-sharing plan for individuals in the history of all efforts at constructive individual co-operation.

Why Pay More
If you want a dollar to do more for you than a thousand times that amount could do after one of the hundred big wells now drilling comes in a gusher further extending and proving the trans Pecos Rio Grande oil trend, you will have to get your application in my hands for oil lease-permit allotment on Texas school land. By co-operating with me you get the largest holdings for the least expense—why pay more?

Forty acres at \$1.25 per acre—can be secured through Abner Davis, Trustee.
400,000 acres Texas university and school land oil and gas lease permits, titles perfect—easy terms—state protection, blocked up covering trans-Pecos-Rio Grande trend where geologists and state surveys give unanimous approval for oil development.

Help Produces Gasoline
My exclusive operations in oil leases, drilling wells, producing, refining and direct distribution of Pyramid Brand gasoline and other petroleum products, gives you the chance to share with me and thousands of others in holding these vast Texas university and state school lands for oil development.

Share on Ground Floor
I could charge you \$10 per acre now, or could hold for 30 days and charge \$20 to \$50 per acre, but that is not my way of doing business, man to man—I want these vast holdings to come into the hands of my friends who will co-operate with me for future developments at nominal expense with profits direct to the individual from their acreage and then from co-operation and development under our system.

I am not selling leases but I am building a great organization for profit-sharing.
Would You Win Back Your Losses If You Could?
You are here given the real chance to win quickly and in a substantial way because big holdings can be had with only a few dollars cash and a few dollars for annual rentals and extensions.

What Forty Acres of Oil Land can Do
40-acre tract produced \$7,000,000 in Oil
By International News Service.
Ranger, June 11.—The forty-acre tract adjoining Merriman church property, four miles south of Ranger

is the world's richest oil acreage.
It has produced in less than two years nearly 2,500,000 barrels of oil worth over \$7,000,000 at present prices.

DO YOU WANT YOURS
40-Acres Oil, Gas and Mineral Lease Permits on University and School Lands in Texas.
The very last chance you will ever have. There is no more land being created. There is no more oil being deposited. But Texas has a beautiful supply for all who have the nerve to try: I am determined that my friends and backers shall have the greatest chance for real wealth that ever came to so many people through the efforts of one man.

There is no other way on earth by which this opportunity to distribute 400,000 acres of Texas oil and gas lease-permits on school lands could have ever come into my hands except because my friends have enabled me to climb to a strong position as an oil developer and refiner. This confidence is due to the tangible results of my efforts along constructive development lines in a few short years.

So if I can turn 40 acres of Texas oil and mineral rights over to each of 10,000 people, I will have given to my friends the very thing their backing brought me.

I do not believe there is another opportunity like this or that there ever will be again. I do not believe there is another man in Texas who could get control of this magnificent combination of state and university holdings at this time, on such easy terms.

Benefits of Co-operation
The development carried on by the drilling branch of the trusteeship makes wealth for the participating members direct. This same development enhances the values of all individuals without expense to them and without expense or injustice to the developing department.

To illustrate—
If I go out and buy 80 acres or a section of 640 acres for development I use the funds of the drilling branch of the trusteeship and thereby create great values for outsiders who own the adjoining and surrounding eighties or sections. If I do this development upon an 80 or section purchased from our own individual members, I do them the good turn and give the profit to those who have co-operated with me. Then I am doing all others a further good turn because incidentally I am developing and creating further values for all other individuals who have adjoining or surrounding property.

Title Perfect With State Protection
An oil and gas permit on university or state school lands in Texas is the ideal form of speculation in a large way with a very little money, under the plans outlined whereby people everywhere may become interested in the vast petroleum deposits on Texas state lands, regardless of where they live.

If you are interested, wire me to reserve 40 acres for you. Give your address and full details will be sent you special delivery.

Refineries: Fort Worth--Pecos--Wichita Falls

Abner Davis System
Developers, Producers, Refiners, Pyramid Petroleum Products
FORT WORTH, TEXAS

TELEGRAPH ME YOUR RESERVATIONS
Every man, woman and child that has ever invested a dollar through me, who is an American citizen, can secure an allotment of 40 acres of oil and gas lease-permits on Texas school land by agreeing to pay \$1.25 per acre cash. This offer is made direct to those who have furnished me money in the past which enabled me to secure the vast university and school land lease-permits I now have at my disposal.

Please reserve for me _____ acres of the university or state school land lease-permits. Enclosed find \$_____ to apply same. It is distinctly understood that your plan contemplates complying with the laws of the state of Texas, governing the payment of rental and the grouping and development of said land for oil and gas.

Name _____
Address _____
You may remit any amount convenient from \$10 up, the balance to follow when you receive full details.

All applications and all money will be returned when the allotment is exhausted. The allotment will be made in the manner in which application is received.

ABNER DAVIS,
Suite V, Fort Worth, Texas

Quick Advance—And Big Profit. 40 acres—640 acres. As soon as these state oil rights are disposed of to small holders and the people of the U. S. wake up to the values missed prices will go skyward because the developments under way and planned are extensive and there is in my opinion the greatest American oil fields to be opened up in the trans Pecos Rio Grand Valley country.

Local Syndicate Opportunity—If you want to get in the oil business in a big way so you can hold lease for enhanced values, sell a part for profit and hold the balance for a real fortune. Why not form a little syndicate of your own and secure a quarter section or a full 640 acre tract divided among your friends. I can operate with you in drilling, producing and refining, and the establishment of branch refineries and filling stations, and distribution of refined products. We are now refining and shipping in tank car lots, gasoline, kerosene, fuel oil and distillate at wholesale and retailing at our plants.

Until Saturday, July 10th, Our Annual 15 Days

ARTICLES OF INCORPORATION STATE OF NEW MEXICO.
 State Corporation Commission of New Mexico.
CERTIFICATE OF COMPARISON
 United States of America, State of New Mexico, ss.
 It is hereby certified that the annexed is a full, true and complete transcript of the Certificate of Incorporation of BAKER BROS. AGENCY, INC. (No Stockholder's Liability) No. 10610.
 with the endorsements thereon, as same appears on file and of record in the office of the State Corporation Commission.
 In testimony whereof, the State Corporation Commission of the State of New Mexico has caused this certificate to be signed by its chairman and the seal of said Commission, to be affixed at the City of Santa Fe on this Third day of June A. D. 1920.
 (Seal) J. M. LUNA, Acting Chairman.
 A. L. MORRISON, Clerk.

ARTICLES OF INCORPORATION OF BAKER BROS. AGENCY, INC.
 (No Stockholders' Liability)
 State of New Mexico, County of Curry, ss.
KNOW ALL MEN BY THESE PRESENTS:—That we C. C. Baker, H. E. Baker, J. H. Shepard, J. C. Luikart, and R. A. Smith, all resident citizens of the United States and of the State of New Mexico, have united together for the purpose of forming a corporation under and by virtue of the laws of the State of New Mexico, and do therefore declare:

- 1.—The name of the corporation shall be BAKER BROS. AGENCY, INC., No Stockholders' Liability.
- 2.—The location of its principal office in the State of New Mexico will be at Clovis, New Mexico, and the name of the agent therein and in charge thereof, upon whom process against the corporation may be served is R. A. Smith.
- 3.—The objects and purposes for which this corporation is organized, and the nature of the business to be carried on by it, are stated and declared to be as follows, to-wit: First, To transcribe the records of any of the Counties of the State of New Mexico, and make abstracts of title to real and other property in the State of New Mexico, and in the Cities and towns in said State, and especially in the Cities and Towns in the County of Curry, in said State of New Mexico, and to guarantee all titles made and sold, and issued, in such sums and upon such terms as may be by such corporation agreed upon and charged for abstracts of titles and guaranteeing the same, and also to purchase and erect a suitable building or buildings for offices and for the preservation of the records of the company.
- Second, To act as agent for insurance companies in soliciting and receiving applications for fire, casualty, plate glass, boiler, elevator, accident, health, burglary, rent, hail, marine, credit and life insurance, and all other kinds of insurance, the collection of premiums and doing such other business as may be delegated to agents by such companies, and act as agents for and write bonds as such for Bonding Companies and collect the premiums therefor, and to conduct a general insurance agency and insurance brokerage business, and a general bonding agency business.
- Third, To acquire, own, sell and otherwise dispose of and deal in stocks, bonds, mortgages, securities, notes and commercial paper of corporations and individuals; to purchase, improve, develop, hold and enjoy real estate in fee simple, upon ground rent or lease, and to lease, mortgage, and sell the same in such parts or parcels, improved or unimproved, and on such terms as to time and manner of payment as may be agreed upon; and to conduct a general brokerage agency and commission business for others in the purchase, sale and management of real estate for others, and the negotiation of leases thereon; and the negotiation of loans thereon; to purchase and sell for others personal property, stocks, bonds, and notes, and to negotiate loans thereon for others.
- Fourth, To act as trustee in deeds of trust or mortgages on real or personal property or any evidences of value to secure them, and to act as agents for letting houses, and lands, and the collection of rents and the payment of taxes.
- Fifth, To insure owners of real estate and all others interested therein, as leasee's, mortgagees, cestuis que trust, under deeds of trust of any kind, or in any other matter whatsoever, from loss by reason of defective titles, liens or incumbrances, and to examine or search land titles and furnish opinions thereon or abstracts thereof.
- Sixth, To carry on such other business pertaining to the business of abstracts, insurance, Bonds, Brokerage, loans and real estate, as may be found necessary or desirable or such as is generally engaged in by a corporation of this kind.
- Seventh, To borrow money and to issue bonds, notes and evidences of indebtedness therefor, and to secure the same by pledge, mortgage or other hypothecation of any and all of its property; to do all things incidental to the several objects herein declared or any of them, and to do and perform generally any and everything not forbidden by law, which a natural person under like or similar circumstances can or could do, under and by virtue of the laws of the State of New Mexico, or the laws of the United States.
- 4.—The amount of the total authorized capital stock of the corporation is Fifty Thousand and no-100 (\$50,000.00) Dollars, divided into Five Hundred (500) Shares of the par value of One Hundred (\$100.00) Dollars per share.
- 5.—The names and post office addresses of the incorporators and the number of shares subscribed for by each are as follows:
 C. C. Baker, Clovis, New Mexico, 100 shares.
 H. E. Baker, Clovis, New Mexico, 100 shares.
 J. H. Shepard, Clovis, New Mexico, 50 shares.
 J. C. Luikart, Clovis, New Mexico,

50 shares.
 R. A. Smith, Clovis, New Mexico, 50 shares.
 The aggregate thereof, to-wit: Thirty-five Thousand and no-100 (\$35,000.00) Dollars, is the amount with which the corporation will commence business.
 6.—The period limited for the duration of said corporation is fifty (50) years.
 7.—The names and addresses of the Board of Directors, and officers who shall direct the affairs of this corporation for the first three (3) months, or until their successors are elected and qualified, are:
 Board of Directors:
 C. C. Baker, Clovis, New Mexico.
 H. E. Baker, Clovis, New Mexico.
 J. H. Shepard, Clovis, New Mexico.
 J. C. Luikart, Clovis, New Mexico.
 R. A. Smith, Clovis, New Mexico.
 Officers:
 C. C. Baker, President.
 H. E. Baker, 1st Vice President.
 J. H. Shepard, 2nd Vice President.
 J. C. Luikart, 3rd Vice President.
 R. A. Smith, Secretary-Treasurer.
 8.—It is hereby agreed and understood that each stockholder shall have and be entitled to one vote for each share of stock so held, but that the board of directors may from time to time make, amend, alter, modify, and rescind its by-laws, subject to the action thereon by the stockholders at any regular meeting thereof, or any special meeting of the stockholders called for that purpose.

CLOVIS ELKS ROMP ON TUCUMCARI TEAM 7-6

Pitching of Denise and Turner's Home Run, Feature in Sunday's Game. Amarillo Here July 3rd and 4th.

The Clovis Elks base ball team added another to their long list of victories Sunday afternoon when the Tucumcari nine went down to the tune of 7 to 6 on the local diamond.

Features of the game were the pitching of Denise and Turner's home run in the fifth. Just before the game Denise received a severe blow on the jaw by a bat that slipped from Goodwin's hands, which knocked him unconscious for a few minutes and broke out three of his teeth. But the gritty little pitcher took the box in air-tight form and marked out the visitors in one-two-three order for five innings.

Turner's Home Run

In the fifth Turner slammed a long one into left field and gained third before Tucumcari could get the ball into play. Without stopping, he raced home and landed safely with a pretty slide. This was the only home run made during the game.

Clovis started scoring in the third after Hickok walked and passed to second and third and was followed by Mason who gained first on an error and passed to second. Both men scored when Goodwin rolled a slow one down first base line and beat it out. In the fourth Carlisle landed a hot one through pitchers box, stole second, passed to third and scored on Seery's two-base hit. Seery then scored on Barkley's error.

Tucumcari Starts

In the sixth, Hayes, who had replaced Seery at left field, bingled out

a clean one, stole second and third and scored when Wharton muffed Mason's grounder. Mason stole second and scored on Turner's single.

In the sixth Tucumcari scored twice when Nutt singled, Ruth tripped and Warden drove a hot one through short. Again in the seventh Barkley counted one on an error and Nutt's single. Two more came in in the eighth when Warden and Babe Ruth counted on Barkley's two-base hit.

In the ninth Denise was replaced by Goodwin after Branson had walked and Nutt singled, Wharton walked and Branson scored on Red Branson's long fly to center. In the excitement Wharton ran down to second which was held by Nutt, and was tagged out. An interesting squabble followed, and the game still looked interesting, but Carlisle gobbled up Ruth's high foul, and the game was over.

Umpires for the game were Campbell of Clovis and Furr of Tucumcari. The local nine will clash with the Hereford Texas, team in that city next Sunday. Hereford has an exceptionally strong team, and the game undoubtedly will be an interesting one.

Amarillo Here July 3rd and 4th Games for the 3rd and 4th of July have been scheduled on the local diamond with Amarillo. These will probably be the best games of the season so far. The game on the 3rd will be held under the auspices of the picnic committee, and no admission will be charged. Admission, however, will be charged for the game on Sunday afternoon. Members of the team have stated that since the expenses of these two games will be unusually heavy, they will need the support of every loyal base ball fan in Clovis.

Anyone desiring an excellent brush agency please call at 521 North Ross. 1tp

BANKERS APPRECIATE THE CO-OPERATION GIVEN

In behalf of the banking institutions of Clovis, we desire to express our sincere appreciation to the good citizens of Clovis for the cordial hospitality shown the delegates of the Panhandle Bankers' Association. We desire to especially express our thanks to the ladies of the Christian Church for the efficient and elegant manner in which they served our banquet of one hundred and fifty plates, which was no small undertaking. Also to the good people who so kindly opened their homes and made it possible for us to take care of this delegation, and to those who gave their services and automobiles so liberally.

Much credit is also due the Elks minstrel for their splendid cabaret entertainment, which was so novel and entertaining as to bring praise from every one present; to the Johnson Chamber of Commerce band for the splendid music rendered at the station upon the arrival of all trains, which was proof positive to every delegate as he stepped forth that Clovis had a real band and were going to have a real convention.

Many compliments were also passed upon the splendid music furnished by Croft's orchestra. This music was rendered in such a splendid manner that the only way it was possible to keep the delegates from dancing instead of eating at the banquet hall was the promise of a dance later.

We feel that each and every citizen of Clovis, who came in contact with the delegates, did everything in
