As We Journey Thro' Life Let Us Live By The Way.

Tell your friends you mean to spend your life fighting for money and power, and he will, if he be an average man, applaud your decision; tell him you mean to dwell in the country, gaining a simple livelihood from your labor, and he will either not believe you mean it, or will conclude you are a beaten competitor in the city's race. Most people do not know they are slaves of their modern improvements, so-called. They build houses larger than they can occupy—for show; they pinch and scrape year after year to pay for them, and after that continue pinching to pay taxes, repairs and other maintenance charges. A large house demands expensive furniture. Then fine dress. And the demands increase. The man keeps his nose on the grindstone, the woman wears herself out taking care of the fine feathers. No time to just live and enjoy it; got to make a show first—going to take a real rest, and cut off all the little vanities next winter—next summer—some other time, when matters are not quite so pressing. I am not exactly a loafer, but I like Walt Whitman best of all our American writers, because he had sense enough to "loaf and invite his soul" once in a while. I am tired of hearing the everlasting preachers of the "strenuous" life. Go slower, and you'll go farther and enjoy it better. Don't live to work; work to live. Bread and butter work, I mean. Leave a little time for the sort of work you find your chief pleasure in.—Frank Putnam in December National.

ARTICLES OF INCORPORATION.

TERRITORY OF NEW MEXICO, }
Office of the Secretary. }

CERTIFICATE.

I, J. W. Reynolds, Secretary of the Territory of New Mexico, do hereby certify there was filed for record in this office, at 9 o'clock a. m., on the sixteenth day of December, A. D., 1902, Articles of Incorporation of The Tecolote Land and Live Stock Company. (No. 3292), and also, that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript therefrom and the whole thereof.

In witness whereof, I have hereunto set my hand and affixed my official seal this sixteenth day of December, A. D. 1902.

[SEAL] J. W. REYNOLDS,
Secretary of New Mexico.

ARTICLES OF INCORPORATION OF THE TECOLOTE LAND AND LIVE STOCK COMPANY.

Know all men by these presents, that we, the undersigned citizens of the United States, desiring to organize an industrial corporation under and by authority of the laws of New Mexico, do hereby agree to and accept for ourselves, our associates and successors, the following articles of agreement:

ARTICLE I.

The name of this corporation shall be "The Tecolote Land and Live Stock Company" and the principal place of business of the corporation shall be in the town of White Oaks, in Lincoln County, New Mexico.

ARTICLE II.

The objects and purposes of this corporation shall be to acquire and hold lands and ranches and to sell, lease and rent same as may or shall be provided by the by-laws of the company; such lands and ranches to be acquired by purchase, lease, gift, donation, inheritance and in any way and manner that lands, or ranches, may or can be legally acquired, or the right to the possession and use of same obtained, under and

by authority of the laws of the United States, or of New Mexico, and to carry on and conduct a general live stock business, including the purchase and sale of cattle, horses, sheep, goats, burros, and swine, and the breeding and rearing of same on the lands and ranches of the company as shall be decided upon by the Board of Directors of the Corporation and also any and all business incident to or pertaining to ranching and live stock business, and necessary to the conduct of same.

ARTICLE III.

The capital stock of this corporation shall consist of One Hundred and Fifty Thousand shares, of the per value of One Dollar (\$1) per share.

Fifty thousand shares of the capital stock of the company shall be issued to the ten original incorporators, five thousand shares to each of them, in lieu of the lands, ranches and improvements on same to be by them conveyed to this corporation by good and sufficient deeds and leases, transferring to said company all the right title and interest of the said original incorporators in and to the said lands, ranches and improvements, the said fifty thousand shares of the said capital stock of the company, to be duly transferred to the said original incorporators, whose names are signed to these articles of incorporation, on the delivery of the said deeds and leases, duly executed by them to the said company, for the said lands and ranches, which said lands and ranches are to be sufficient as regards the amount of water, and feed ordinarily produced upon the same to carry, maintain and support four thousand head of stock cattle at all times, as well as a sufficient number of horses to care for said stock. The said lands, ranches and improvements on same when conveyed, leased and transferred to said company as herein provided, to be accepted by it in full payment for the fifty thousand shares of the capital stock of the company issued to the said original incorporators as herein provided; and when so issued the same shall be fully paid for and forever non-assessable, and it shall be conclusively presumed as against all persons dealing with this corporation, whether the creditors, stockholders, or others, that the sum herein fixed, as the value of said lands, ranches, and improvements, is the fair and reasonable cash value of the same, and all persons shall be forever barred and estopped from setting up or claiming in any proceedings equitable or legal, that the price herein fixed is not the actual cash value of the same, and was not at the time of the conveyance and transfer of the said lands, ranches and improvements to this corporation, or that the said fifty thousand shares of capital stock issued in lieu of same is not fully paid up.

One hundred thousand shares of the capital stock of this corporation shall be set aside as treasury stock, the same, or any part thereof, to be sold at such prices as shall be fixed by the Board of Directors, and the moneys derived from such sale shall be used to purchase such live stock as shall be by the Board of Directors directed to be purchased for the stocking of the lands and ranches of this corporation, or in the furtherance of any of the objects and purposes of the company, as may at any time be directed by its Board of Directors; and at no time shall any of the funds derived from the sale of any of the said stock be used for any other purpose than those designated in these articles as the objects and purposes of the corporation, or such as are incident and necessary thereto, and then only after the

Board of Directors shall have decided upon such expenditure and directed same to be made by a majority vote of said Board. No stock shall be voted until sold and entered upon the books of the company, and cash paid into the company's treasury therefor, except the fifty thousand shares of stock which shall be issued to the said original incorporators, and it may be voted when issued as herein provided and entered upon the books of the corporation.

ARTICLE IV.

The life of this corporation shall be fifty years, unless sooner dissolved as provided by law.

ARTICLE V.

The capital stock of this corporation shall be forever non-assessable, the law and court decisions, if any there be, to the contrary notwithstanding, and all of said stock when issued and paid for at the price fixed by the Board of Directors, shall be fully paid up and forever non-assessable; and it shall be conclusively presumed as against all persons dealing with this corporation, whether creditors, stockholders, or others, that the amount paid for its capital stock and accepted by the company was at the date of purchase and payment the value of the same, and all persons shall be forever barred and estopped from setting up or claiming in any proceeding, either at law or in equity, that the said stock, or any of it, is not fully paid up.

ARTICLE VI.

This corporation shall have the power and authority to make such rules and By-Laws for the conduct of its business and the control of its officers and agents as may be deemed advisable and may do and perform any and all things and acts necessary to the carrying out of the objects and purposes of the corporation in accordance with these articles and the laws of New Mexico.

ARTICLE VII.

All conveyances of the land and real estate of the company and all incumbrances of the real and personal property of the company shall be done in the corporate name, by the president and secretary and attested by the seal of the corporation, after the same shall have been decided upon and ordered by a majority of its Board of Directors, and any and all conveyances of the real estate and any and all incumbrances of the real and personal property of the corporation, not made and attested as above set forth, shall be null and of no effect whatever.

ARTICLE VIII.

The private, or individual, property of the stockholders of this corporation shall not be liable for any of the corporate debts or liabilities at any time or under any circumstances and no amendment to these articles shall ever be made in anywise changing or modifying this provision.

ARTICLE IX.

These articles may be amended as now or hereafter provided by law, except article eight, which shall not be altered or amended at any time; but shall forever remain as drafted herein, and all laws making provisions now or hereafter for amendment to articles of incorporation, in New Mexico, shall not apply to said article eight.

ARTICLE X.

The business of this corporation shall be conducted by a Board of Directors, which shall consist of not less than five and not more than nine stockholders of the corporation, and the Board of Directors who shall manage the business of the corporation for

the first three months and until the election of a board to serve until the first annual meeting of the stockholders is held, shall be composed of the following stockholders: Geo. E. Sligh, Nogal, N. M.; Geo. W. Harbin, Nogal, N. M.; W. A. McIvers, Nogal, N. M.; W. R. Scott, Quincy, Ill.; Frank M. Shoemaker, Waterloo, Iowa.

ARTICLE XI.

The officers of this corporation shall be a President, Vice-President, Secretary, General Manager and a Treasurer, and the same shall be filled and the duties thereof discharged until their successors are elected and qualified by the following:

Frank M. Shoemaker, president; Thos. Sinnock, vice-president; Geo. E. Sligh, secretary and general manager; John H. Canning, treasurer. The Secretary and General Manager shall give a good and sufficient bond covering all liabilities to the company.

In witness whereof we have hereunto subscribed our names and affixed our scrolls for seals on this October 21st, 1902.

CERTIFICATE.

I, J. W. Reynolds, secretary of the Territory of New Mexico, do hereby certify there was filed for record at this office, at 9 o'clock a. m., on the tenth day of January, A. D., 1903, Articles of Incorporation of Eagle Printing Company, (No 3317.) and also, that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript therefrom and of the whole thereof.

In witness whereof, I have hereunto set my hand and affixed my official seal this tenth day of January, A. D. 1903.

J. W. REYNOLDS
 Secretary of New Mexico

ARTICLES OF INCORPORATION

OF

EAGLE PRINTING COMPANY.

Know all men by these presents that we, Sidney M. Wharton, Silas R. May and John E. Wharton, citizens of the United States and bonifide residents of the Territory of New Mexico, desiring to form a corporation under the laws of said territory, for the purpose hereinafter set forth, do for ourselves, successors and legal representatives, adopt the following articles of incorporation, to-wit:

ARTICLE I.

The name of this corporation shall be the Eagle Printing Company.

ARTICLE II.

The objects for which this corporation is formed are the carrying on of a general publishing and printing business including the printing and publication of newspapers, periodicals, books, pamphlets and all kinds of job and book printing and binding in all its branches.

ARTICLE III.

The time of existence of this corporation shall be fifty years.

ARTICLE IV.

The amount of the capital stock of this corporation shall be TWENTY THOUSAND DOLLARS, which shall consist of twenty thousand shares of its stock of the par value of ONE DOLLAR per share.

ARTICLE V.

This corporation shall have power to buy, sell, lease and mortgage any and all machinery, presses, engines and any and all materials and supplies incident to or necessary for the carrying on of its business as may be at any time directed by its Board of Directors, including its power to sell all the property and the good will of the corporation; and also the power to buy, sell and convey, own and hold, mortgage or lease any and all such real estate as may be necessary for the carrying on of its business, as shall be decided upon and directed at any time by its Board of Directors.

ARTICLE VI.

The printing and publishing plant now owned by Sidney M. Wharton and Silas R.

May, who are doing business under the firm name and style of Wharton, May & Co., at White Oaks, New Mexico, and now used for the publishing of the White Oaks Eagle and the carrying on of the general printing business of the said Sidney M. Wharton and Silas R. May, including any and all machinery, presses, engines, cases, tables, type, stock and any and all materials of whatever nature and kind, including all furniture and fixtures in said White Oaks Eagle office, same being invoiced at five thousands dollars, exclusive of the trade value and good will of the said plant, is to be accepted by this corporation in full payment for ten thousand shares of its capital stock, which said ten thousand shares of its stock is to be duly transferred to said Sidney M. Wharton and Silas R. May, five thousand shares to each of them so soon as same shall be issued and a transfer of the said property of the said White Oaks Eagle plant shall be executed and delivered to said Eagle Printing Company by said Wharton and May; and all persons are, and shall be forever, barred from setting up or claiming in any proceeding in any court, either at law or in equity, that the said stock so issued to said Wharton and May, in consideration of the said transfer to this corporation of the said plant, is not fully paid up.

ARTICLE VII.

The private individual property of the incorporators and stockholders of this corporation shall never be liable for the corporate debts, all laws and court decisions to the contrary notwithstanding; and this article shall forever remain as it now appears at the time of the filing of these articles of incorporation, and shall not be subject to change or amendment during the life of this corporation.

ARTICLE VIII.

Ten thousand shares of the capital stock of this corporation shall be set aside as treasury stock to be disposed of, or sold in the way and manner and at a price to be fixed by the Board of Directors of the corporation, the proceeds derived from the sale of same to be used in furtherance of the objects and purposes of the corporation, and may be used in the purchase of additional printing plants or in the purchase of material and supplies, machinery, or anything which shall be decided by its Board of Directors to come within the objects and purposes of the corporation, including lands and real estate, the erection of buildings, or fitting same for the occupancy of the business of the corporation.

ARTICLE IX.

The corporate powers of this corporation shall be exercised by a Board of Directors, consisting of three stockholders thereof, a majority of whom shall be citizens of the United States, and one-third of whom shall be actual residents of the Territory of New Mexico.

ARTICLE X.

The names of the persons who shall manage the business of this corporation for the first three months, and until the election and qualification of the directors by the stockholders, as provided by law, are Sidney M. Wharton, Silas R. May and J. E. Wharton, all residents of White Oaks, Lincoln county, New Mexico.

ARTICLE XI.

The principal place of business of this corporation shall be White Oaks, Lincoln county, New Mexico.

In witness hereof we have hereunto subscribed our names and affixed our scrolls for seals on this December 8th, A. D. 1902.

SIDNEY M. WHARTON, [SEAL.]

SILAS R. MAY, [SEAL.]

 Probate Clerk and ex-Officio Recorder.

Fits All.

An exchange prints the following which is applied to every newspaper office: There never was a newspaper published in any locality that gave all the local news. It is often the case that some persons come and go that the reporter does not see or even know of. It may be that the same family is missed several times and they get the impression that the paper does not care to mention them. It is a mistake. The best home paper has no ill feelings, no enmity, no spite at any one; so do not be afraid to tell the reporter when you have friends visiting you, or that you have returned from a trip or are contemplating a visit. If you think the paper shows partiality try to see if you give it a chance.

REPORTS ON SUMMER STUDY.

Statistics of University of Chicago Show That the Men Outnumbered the Women.

In connection with the constant agitation at the University of Chicago in regard to "segregation," interest attaches to the quarterly report of Dean Alexander Smith, of the junior colleges, on the work of the summer term. Preceding it, Dr. Harper made a brief statement of the present importance of summer work. "It used to be," said President Harper, "that it was considered absurd for the university to attempt to carry on work in summer. The fact that this summer 300 universities and colleges have offered summer courses proves that there is no lack of students. The university has had a large attendance this year, in spite of the great efforts at summer work carried on elsewhere, especially in the south."

Although Dean Smith's report covers only the junior colleges, some of its statements are significant. The total attendance of the university this summer is approximately 1,750, of which number 925 are men and 825 are women. In the junior colleges there were 176 classified students, 101 men and 75 women. Last year there were 186 junior college students, 90 men and 96 women.

FIND A SUBSTITUTE.

Commissioners of District of Columbia to Use Soft Coal and Coke in Place of Anthracite.

A substitute for anthracite coal has been found by the commissioners of the District of Columbia, and the result of experiments conducted by them is of general interest in view of the probable exorbitant price for hard coal during the coming winter. After asking for proposals for the annual coal supply, and receiving only one bid, at ten dollars a ton, which was immediately withdrawn, the commissioners were forced to seek a substitute. A series of experiments were made in the steam-heating plants and furnaces in the public schools, which demonstrated that a combination of bituminous coal and coke produced as good results as had been obtained when anthracite coal was used. The furnaces are fired with a layer of coke, then a layer of soft coal and another layer of coke on top. It is a comparatively slow burning fire, and one that does not violate the smoke nuisance laws.

KATE SHELLEY TO BE NURSE.

The Iowa Heroine to Enter the State Insane Asylum Hospital at Cherokee.

Miss Kate Shelley, the heroine of many poems and writings in prose, who when a child saved a train load of people from death by creeping over a frozen bridge near Moingona, Boone county, Ia., in a raging storm and warning the engineer of the danger, will next month enter the state insane hospital at Cherokee, Ia., as a nurse. She has already been engaged by the asylum officials. Miss Shelley is quite old, but has lost none of the fascination brought about by her childish deed of heroism. The bridge over which she crept now spans the La Crosse river, a few miles from La Crosse, having been moved to that point a few years ago.

Should Go Together.

"It is better," says a penitentiary warden, "to give a discharged convict a job than a bible." And the Chicago Tribune asks: "Anything wrong with giving him both?"

Torrance to Roswell.

W. S. Hopewell, manager Santa Fe Central Ry., says that a surveying corps is soon to be placed in the field between Torrance and Roswell.

\$375 for Letters from Farmers.

The Rock Island System offers \$375, in cash and transportation for letters relative to the territory along its lines in Arkansas, Indian Territory, Oklahoma, Texas and New Mexico.

Letters should deal with the writer's experiences since he settled in the territory in question. They should tell how much money he brought with him, what he did when he first came and what measure of success has since rewarded his efforts.

Letters should not be less than 300 nor more than 1,000 words in length and will be used for the purpose of advertising the Southwest.

For circular giving details, write John Sebastian, Passenger Traffic Manager, Rock Island System, Chicago, Ill.

Write Your Friends in the East.

Tell them to call on nearest Coupon Ticket Agent for rates to points in New Mexico, or El Paso Texas. Second class colonist tickets will be on sale from quite a number points on and east of the Missouri and Mississippi Rivers, to El Paso and intermediate points on the El Paso-Rock Island Route, at about half fare. These tickets will be sold only on "Homeseekers Fares" the first and third Tuesdays of each month, commencing Oct. 21st 1902, and continuing until April 23rd 1903.

This is a good opportunity to aid immigration to your section of the country.

STOPS PAIN

Athens, Tenn., Jan. 27, 1901.
Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and Theodor's Black-Draught, and I passed the monthly period without pain for the first time in years. **NANNIE DAVIS.**

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI
will bring you permanent relief. Console yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a \$1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

THURSDAY JAN. 29, 1903.

Congressman Dolliver of Iowa.

"The reciprocity provision in the Dingley act was as distinctly a part of the tariff policy of the United States as the coal schedule. More violence has been done to the protective system by the stolid, quiet, uncommunicative failure of the senate to take action upon the reciprocity treaties than by all the noise that had been made by the democrats about coal. I do not intend to sit quietly in this chamber," he declared, "while it is said to be infamous that anybody should have chanced to entertain the notion that a tariff schedule once framed could not be honorably modified by sensible negotiations."

It remains a reproach to the congress, he said, "that not one line of the wisdom of James G. Blaine remained on the statute books, and not a step had been taken to fulfill the purpose and spirit of the last Buffalo address of President McKinley.

The present tariff rebs the people. It creates monopoly, and increases the price of the necessities of life.

Under high protection, monopolies have grown, with the rapidity of tropical plants, in a tropical climate. Under high protection, prices of living have increased until family expenses have been doubled.

Under high protection, the coal oil used by people in moderate circumstances, has immensely increased. Under the protecting wing of a high protective tariff, the coal operators have raised the price of coal until hundreds of women and children shiver in the cold of winter, unable to buy fuel.

Socorro County Contest.

Judge McMillain found that both tickets, Republican and Independent Republican, cast and counted were legal so far as infringement of emblem was concerned. The Socorro county Republican convention nominated their candidates and selected the flag as their emblem. Later on there was a convention called of the Independent Republicans. They put out a ticket identical with the democratic ticket nominated the same day, with the exception of delegate to congress, and adopted the flag enclosed in a square as their emblem. Neither resolution adopting these emblems was filed for several days, but both were filed the same day and hour. After the election, the candidates, on the republican ticket insisted that the Independent Republican votes should not be counted, charging an attempt to deceive by adopting their appropriated emblem. The Judge says in his report, that had he taken into consideration oral testimony, the preponderance of evidence would have shown that the Independent ticket was filed first.

The Colorado legislature has returned Teller to the United States senate. This is a victory for the democrats of Colorado.

A. B. Fall is said to possess the most commanding personage of any member of the body of law-makers of the territorial senate.

A Revelation of Gold.

The operation of the cyanide plant at the South Homestake mill has proven beyond a possible doubt that many thousands of dollars have passed the plates here in the treatment of the ores taken from the different mines.

Thirty-two thousand five hundred and fifty tons of tailings from the South Homestake mill have been cyanided up to the present and out of this 32,550 tons, \$81,375 in gold have been taken and it is estimated that only about 20 per cent of the gold has been saved by the cyanide methods used.

All of these tailings came from ores milled from the South Homestake mine except 122 tanks of 35 tons each making 4270 tons that came from the Old Abe mine. This leaves 28,280 tons of South Homestake tailings, which have produced in gold over eighty thousand dollars, the amount taken from Old Abe ore being about \$1,000.

This yield shows that there was a big waste over the plates at the South Homestake mill and that the ores from this mine if proper values are saved is as rich as that of any mine in the camp, not even excepting the Old Abe, which has fortunately had a management that has made it a steady producer.

The Eagle Mining & Improvement Company has discovered this fact and are now making preparations to put in a pneumatic cyanide process which it is believed will save a greater percentage of gold than the old process which is now in use.

The new plant is expected to be put into operation next month.

Germany is shooting holes in little Venezuela with apparent indifference of the consequences. There is a limit to just what Uncle Sam will put up with in this matter, and Germany would do well, we believe, to go slow and look well to the justice of the slaughter she is doing in the western Hemisphere. The Monroe doctrine is still held sacred by all patriotic Americans and our guns may be asked to closely guard it. We have the men, yes the warriors, and the money, and the disposition may be easily acquired if Germany becomes the least bit sassy.

THE HAGERMAN RANCHES

Three Hundred Thousand Acres Grazing and Seven Thousand Acres of Farming Lands.

J. F. HINKLE IS GENERAL MANAGER

J. J. Hagerman, his son, Percy Hagerman, and Herbert Hagerman, of Roswell, have just purchased 300,000 acres of ranch land in Chaves county and 7,000 acres of farming land near the town of Roswell. The grazing lands were bought from the Atlantic and Pacific railroad, they having acquired it some years ago through what is known as the "Forest Reservation Script" process, at a very small amount per acre.

This new combination has purchased for the purpose of stocking these ranches ten thousand head of high grade cattle.

Of the 7,000 acres of farm lands near Roswell, a part of it is in orchard and a part of it in alfalfa, and Mr Hagerman's residence on this tract cost him \$40,000.

South Homestake Cyanide Plant.

A new pneumatic cyanide process has been ordered for the South Homestake mill. It is scheduled to arrive here on Feb. 2nd.

RESOLUTIONS OF RESPECT.

Adopted by Valverde Camp, Confederate Veterans.

At a special meeting of the U. V. C., Valverde Camp, No. 1419, held in the court house last Saturday afternoon the following resolutions of respect and condolence were adopted:

Whereas, The Great and Supreme Commander of the Universe has seen fit in His wisdom and goodness to call from our midst our comrade and friend J. H. King, who died at White Oaks, N. M., January 3, 1903.

Resolved, That the comrades and friends bow in humble submission to His divine will, believing that he doeth all things well: that we lose a faithful comrade and friend from our camp, one always ready and faithful in his obligations and duties in field or camp,

Resolved, That we tender our sympathies and condolence to his children and their families, together with a copy of these resolutions and that they be made a part of our camp record.

(Signed) E. H. SKIPWITH,
Chairman,

J. H. King was born Feb. 26, 1835, in Crab Orchard, Ky. He removed to Bastrop, La., when a young man. There he married Miss Nancy Ann Taltson. They had seven children, four of whom, Mrs. E. S. Long, of El Paso, Texas; Mrs. T. S. Roach and Mrs. T. H. Craig, of Roswell, and F. B. King of Capitan, are living. Mr. King removed to Falls county, Texas, in 1863, thence in 1881 to Coleman county, Texas, where in 1882 Mrs. King died. He came to Roswell in November, 1890. He served four years in the Confederate army, and was mustered out of Tames (La.) battalion. He was a member of Valverde camp, Confederate veterans of Roswell.

A Slaughter of Wild Beasts.

Lions have been playing havoc among the goat herds of E. T. Collier and have been killing all kinds of stock in the vicinity of Coyote canyon and Lone mountain. Last week Len Brannum took advantage of the snow fall and put his pack of hounds on the trail of three monster big ones, tracking them to Lone mountain, where all of them were treed and shot.

The premiums paid by the territory and by the stock association will nicely reward Mr. Brannum for this piece of good ridance.

White Oaks, N. M.

LOCAL and PERSONAL NEWS.

Phelps Lacy has moved his family to Roswell.

A. C. Bragg was in the city for supplies Saturday.

J. G. Riggle was in the city from Angus with fruit.

I. N. Baily is blacksmithing at the North Homestake.

The finest winter in the world. That is what we have so far in 1903.

A new baby girl is reported at the home of Mr. and Mrs. Henry Walker.

J. E. Wharton is home from a trip to Alamogordo, El Paso and Santa Fe.

We have a full line of groceries and provisions. T. M. & T. Co.

Walker Hicks spent last Saturday and Sunday visiting his sister, Mrs. Elbert Collier.

J. P. C. Langston returned Saturday from Lincoln, where he landed Tobe Long in the county jail.

H. B. Hamilton, Jr., is here from Lincoln taking testimony in Armstrong vs Owen, Sheriff contest.

Clara Jacobs has been sick for a few days. J. C. Klepinger is assisting Mr. Brown in the post office.

Miss Mabel Stewart has returned from Washington, D. C., where she has been attending school the past two years.

Our clearance sale is still on. We must make room for our spring stock. T. M. & T. Co.

A. W. Colton, of Columbus, Ohio, a mining man who has been engaged in Old Mexico during the past year, is now in White Oaks and will locate here. He will be employed at the North Homestake.

W. S. Peters, Angus, is in town.

Jno. W. Owen, sheriff, is up from Lincoln.

W. C. Teasdale, St. Louis, is in the city.

S. S. Doak and wife, Nogal, were at the Baxter.

James Burlson, of Lincoln, was in the city Tuesday.

S. T. Gray and Wm Riley came in from Capitan Saturday.

Henry Brown and L. W. Harman were in from the Block Ranch today.

Henry Fleer, Quincy, Ill., was among the guests at the Baxter this week.

Joe Long, Edward Fox, Q. V. Stewart, Joe Ross, all Jicarilla, were in town Wednesday.

Mrs. Taliaferro, mother of Jones Taliaferro, has returned home. She lives at Watsaka, Illinois.

H. S. Williams, a stockman from Ancho, has moved his family to town to get medical treatment for his daughter.

The Free Gold Mining and Milling Company struck water in their Jicarilla well, Tuesday, at the depth of 90 feet.

Eugene L. Stewart had a birthday and entertained a number of his friends at the residence one evening last week.

Captain Krouse, the newly elected county commissioner, has gone to the county seat, where he will reside during the term.

Messrs. Chapman and Ludlam have been having trouble with their well this week. Caving near the bottom seems the trouble.

E. W. Peebles has moved his cattle to the San Andres ranges of Otero county for the winter. Grass is reported good in that locality and the climate is milder than the mountain districts.

Snow! Snow! Let it snow, that is what both farmer and stockmen are anxious to see. A heavy snow fall assures the grass and crops for 1903.

Judge W. F. Blanchard has just finished his work in the Jicarillas for the Free Gold Mining and Milling company. He has surveyed the company's entire holdings in Jicarilla.

We are agents for M. Born, tailors. Spring samples just arrived. Prices are the lowest, quality and work considered. Give us your order. We guarantee a fit. T. M. & T. Co.

J. F. Man, of Fort Worth, Texas, president of the Palapinto Mining Co., and Mc Intosh, of Capitan, were on Eagle Creek a few days, looking after their mining interests. They intend to begin work there in a short time.

Attorney A. H. Hudspeth returned home from Lincoln and other points in the county, Tuesday. Messrs Hewitt & Hudspeth are attorneys for Mr. Owen in the contest now going on between R. D. Armstrong and Jno. W. Owen.

Charles Adams was up from Alamogordo Monday. Charley lived here for twelve months, but decided he liked San Angelo better and about a year ago went back to try it. He didn't see things as he did before, however, and has returned to Alamogordo, where he now lives.

Charley Keith arrived here Thursday from Eastland, Texas, where he has resided since leaving White Oaks six years ago. Charley was for several years a resident of White Oaks and worked as miner in most of the properties here. He tells us that crops were almost a failure in his section, and for this reason he came back to the mines in order to bridge himself over the hard times at home.

Charles B. Smith reported to the Eagle office, Monday morning, a brand new 12-pound baby boy had just arrived. Dr. Paden was the attending physician.

Another Good Well at Ancho.

Wm. Lane has just finished another good well for the El Paso-Rock Island railroad company at Ancho. Good water was struck at a depth of 400 feet. The success of Lane in the Jicarilla and many other wells dug in the White Oaks country during the last three or four years has proven that water may be found at most any point in this section, and ranches are now being located and the country settled up where only a few years ago nothing in the way of settlement was attempted. Western Lincoln county will probably double in population during the next five years.

Rich Gold Strike.

The Free Gold Mining and Milling company struck a very rich gold vein at Jicarilla in the well they are sinking on a recently acquired property there, at a depth of fifty feet. Panings of free gold running as high as fifty cents per pan were taken from the well. Preparations to develop the property are now under way.

A Gold Nugget.

Some of the finest gold specimens in the world have been taken from the gold mines here at White Oaks. The North Homestake people, a short time ago, took a nugget out of that property that weighed something over \$350.

Stock Sale.

Mrs. J. C. Lacey and sons have sold their entire stock of cattle and will move to Roswell, where the boys will try agriculture in the Pecos valley. For cows they received \$18 per head—52 head—and for yearlings \$16.

Glencoe Notes.

Regular Correspondence.

It has been trying to snow in this section for some time but the fall has not amounted to much as yet.

Sickness around Glencoe has subsided and all are in health again.

The farmers have marketed most all the last years crop and are now busy repairing ditches and fences and are getting ready for the coming planting season which in low valleys is ready now at any time.

Our new county officials at Lincoln, though most all new beginners, are moving along with the county business just like it was an old trade with them, without a hitch or a jar. It pays to elect business men to fill our offices. The tax payers are beginning to realize this fact as shown at the polls last November. Party politics was laid aside as the best interests of our people demanded it, and good men were chosen as custodians of our county affairs.

Road Legislation Needed.

I have heard nothing from our Legislature as yet, I think the people of New Mexico, and especially those of the Mountain counties, should make a strong pull together with our papers, for a good strong up-to-date road law.

Our Legislature two years ago took a step or two in the right direction but stopped short of what we needed. It seems our people and papers while progressive and have the proper push about them, have a great deal to say and do in and about everything, but good wagon roads. There can be nothing political or anything else except stolid indifference in the way of a good practical public road system.

Our commissioners whose duty it is to adjust all matters pertaining to the welfare of the county are as indifferent as any one on good roads. Yet, why should we blame them in this matter? They are moving along in the same old routine as their predecessors unmindful of the fact that other states, other counties and other sections of the country, are trying, and are succeeding, too, in keeping up with the procession.

The trouble is all with the people themselves. If they would wake up and make their demands for public improvements in a systematic manner the powers that be would soon harken to their demands.

Chaves county, with not one tenth the road work to do that Lincoln has, made the same levy for the roads and bridges fund last year that our commissioners did. They have better roads of course and a big road and bridge fund besides.

We have plenty of bad roads and no road and bridges fund. Our commissioners have taken only a passive interest in this matter because the public have taken little interest. The commissioners are willing and anxious to appoint the best and most practical citizen as supervisor in the precincts, yet at the January meeting there were few, if any, to name the proper men for supervisors. Of course the board did the best they could, and I see they appointed a very good set of men for supervisors in most precincts. Now if these supervisors will take the interest they should all over the country, and co-operate with each other when possible, we may expect better public roads in the future. But if they, or a part of them, neglect their duty, as Nogal and other precincts did last year, there will still be bad roads. As the county commissioners can not or will not supervise the whole county system of roads, and see that supervisors do their duty, there should be a county road supervision, to see that all the roads are properly worked. Let us hear from others regarding our public roads.

California Excursions.

Commencing February 15th, the E. P. & N. E. Ry. will sell second class tickets to California points at a very low rate of fare, and in addition will allow liberal stop-overs. For full information call on the undersigned.

R. G. WING, Agent,
Carrizozo, N. M.

Torance will be the next best town on the Rock Island northeast of Alamogordo.

The new town of Belen is booming and will probably soon be a railroad point.

Aunt Mary—"And did you have a good time at your birthday party?" Tommy—"Oh, fine!" Aunt Mary—"Of course, you danced." Tommy—"No, but I made Willie Brown dance all right. Me and him were fightin' in the cellar most o' the time."—Philadelphia Press.

Jibbs—"Why! What's the matter with you, old man?" Jabbs (groaning)—"I've just been bitten by a dog." Jibbs—"What an outrage! Why don't you shoot the beast? He may be rabid. Anyhow, it is a duty you owe to society; and the dog's owner ought to be pros—" "But it was your own dog!" "Oh! Ah—er, why, old man, he was probably playing with you and bit deeper than he intended. He's such a playful dog."—San Francisco Bulletin.

Lincoln County, New Mexico.

Three miles from the village of Nogal are the eighty claims of the American Gold Mining Company, sixty-five of which are patented. The stockholders of this company are largely the same as those of the Eagle Mining and Improvement Company, whose holdings in Bonito districts have previously been described. John M. Rice is general Manager of both companies, with M. D. Gaylord as mine and mill superintendent. The American group includes the American and Helen Rae mines, which formerly were operated separately. Both are pretty well developed, and contiguous. The American is worked from a 330-foot shaft and the Helen Rae from an adit level 980 feet long. The shaft and adit are on the same vein, which has a strike north-west-southeast, through a porphyry and granite country rock. Parallel to this is the Governor and American No. 1 vein; and crossing it at right angles are three other veins called the Cashier, Rockford and Pacific. Still others vein come into the American-Helen Rae diagonally. The gangue rock in all these veins comprise gray and white quartz, bearing free gold and in places a great deal of sulphide ore including considerable galena. From the 150-foot station of the American shaft there are 500 feet of drifting, mostly north-westerly from the shaft, showing the vein to range from two and a half to eight feet wide. A portion of this distance the ore has been stoped to the surface. The work here encountered a strong flow of water from the surface down. Cameron pumps keep the water below the 150-foot level and no work is now in progress on the lower levels in consequence of the surplus water. A fifteen-stamp mill at the American is kept operating on ore from the group. Its saving is principally on the plates, the most free-milling class of ore being selected for it.

On the Helen Rae section of the group the vein runs from two to twelve feet wide. The adit, by which the vein is opened, starts in the bottom of a ravine and in the course of 980 feet it gains a depth of 200 feet below the surface. Along the course of this adit, raises have been made to the surface and from points on these raises stopes have been opened. At one point is a worked out stope seventy feet high and eighty feet long. All the ore stoped is sent through chutes to the adit level. At various points along the adit winzes are being sunk varying from twenty to sixty feet deep. When all reach a depth of sixty feet they will be connected by drifts at the bottom, thus making at this depth level No. 2, which will be driven southeasterly 1,600 feet on the vein to a connection with the American shaft. In one of these main winzes a compressed air hoist will be operated. On this vein, both in the adit and in the winzes, a streak of oxide ore stands by the side of the sulphide streak, the first being very free-milling and the second partially so. At the mouth of the adit a large tonnage of sulphide ore is piled up, awaiting the construction of the new mill. A shaft from the surface on the Pacific vein which crosscuts the American and Rae, is seventy feet deep, all in oxidized ore, and out of it gold of the value of \$25,000 was taken by a former owner. A crosscut is being run from the Rae adit to open the Pacific vein under this old shaft. The Rockford vein is also developed by about 1,000 feet of adit levels, which show a good width of ore of about the same character as that of American and Rae.

The new mill for the American group will soon be ready for work. The foundations are laid, much of the equipment is on the ground and the reservoir, above the mill, having a capacity of 384,000 gallons of water is completed. It is forty-five feet square, twenty feet deep and is cemented. This reservoir is 113 feet lower than the collar of the American shaft and will be filled by the pumps from that shaft. The mill will have three 85-H. P. boilers a 140-H. P. mill engine, fifty stamps, a Huntington grinder, eight Bartlett tables, and cya-

niding equipment for the tailings. It is expected to make a concentrate that will run about 45 per cent lead, 25 per cent iron, 1 to 2 per cent copper. The gold and silver is carried chiefly in the iron and lead. In cyaniding the tailings a recovery of about 85 per cent will be made. These figures are based upon tests and mill runs made. A surface tramway is being built over which to convey the ore from which the Rae adit to the mill. Pannings of the ore from the oxidized streak at different depths result in free gold without fail, and most of it is very coarse. Wascott, in Denver Mining Reporter, January 22.

Fruit Eating and Good Temper.

At a meeting of horticultural enthusiasts in Minneapolis the other day one delegate declared that the eating of fruit was conducive to equanimity of temper and that children who were fed on fruit instead of meat could be easily distinguished by their agreeable disposition. He accordingly urged that the consumption of fruit should be encouraged at home and in schools and by all other means available.

The speaker may have thought that he had a profound discovery. In fact, he was only restating an old truth. Good temper waits on good digestion and good digestion is largely the result of diet. And no kind of food so aids digestion as good, ripe fruit in its season. Henry Ward Beecher used to say that some day people would call things their right names.

They would not say that this man has a good temper and that man has a bad temper, but they would say this man has a good digestion and that man a bad digestion.

This would be more explicit and more in accord with the facts.

Fruit eating, by aiding digestion, undoubtedly does encourage good temper, and good temper is an important factor in national life. The good-tempered man rarely commits crime, and he works with more energy and produces more than the bad-tempered man. A sunny-tempered wife is sure to have a beneficial effect upon her husband's usefulness. So it is worth while to create a good temper and pleasant disposition, even in a material sense, and as fruit eating leads to this result its consumption should be encouraged. A saturnine disposition in a public man has done more than one nation harm, and should be avoided if possible.

Shakespeare was undoubtedly acquainted with the effect of fruit on temper, for he says in "Macbeth": "Now, good digestion wait on appetite, and health on both."

There can be no appetite without good digestion, and no health without both, and there is rarely a good temper without all three. And as fruit eating contributes to this condition its consumption cannot be encouraged too much.

Open to Settlement.

Ten million acres of farming lands are to be divided among the Indians of the Choctaw and Chickasaw nations beginning February 2. On this date the United States open a government land office at Atoka, and each man, woman and child in the two nations will be given 320 acres.

In addition to the 10,000,000 acres to be given the Indians, the United States will sell to the whites more than 2,000,000 acres of farming land and grazing land in Choctaw nation. When an Indian receives patent to his land he will be allowed to sell one-fourth in three years and the remainder in five years. For thirty-five years the Indians have had control of the land and they would not permit the whites to own one foot of it, but now the land is to be divided among the Indians and the surplus sold to whites and each Indian given the right to sell his or her holdings.

To Mark Confederate Graves.

The Senate Committee on Military Affairs has ordered a favorable report on Foraker's bill appropriating \$200,000 for the erection of headstones to mark the graves of Confederate soldiers buried in the North.

ANGUS.

Regular Correspondence.

Mrs. Hightower, a daughter of Ben Robinson, has a bouncing boy.

Sunday evening a boy, Harkness by name, was badly bruised up by a horse falling on him, just above Bonito City. He is under Dr. Dryden's care.

Nat Greer, who had his leg broke, is doing well. He was on a load of wood coming down a steep hillside. He jumped off on the lower side and the wood came after him. His leg was broken in two places.

Transportation.

Transportation is a problem that will soon occupy the attention of our people. Some of the most profitable railroads of the country are coal roads. I have seen it stated that they could transport coal at one cent a ton per mile at a good profit. The trunk lines between Chicago and the seaboard carry an immense tonnage at even less than the above named rate. A correspondent of an eastern paper mentioned

the fact of a train pulling into Buffalo from Chicago whose freight charges amounted to \$1,600 above operating expenses.

The management of our road has been very courteous to our apple shippers this autumn, and offered very fair rates to jobbing points in car lots.

The facts are that all the distributing points were pre-empted by the train-load apple growers. Our apple growers could not supply these points unless they were willing and ready to be cut in half.

The car of apples that was shipped to El Paso only brought half the price that the big jobbers sell at to local retailers, and quotations to country merchants, for fine selected apples of a much better quality than the Missouai and York state stock—full of worms.

As we understand it, the local tariff schedule on our road for the class that includes apples, in less than car lots, is based on a rate of ten cents per ton per mile—ten times greater than the above named rates.

At what point does freight rates cease and confiscation commence?

The railway charge from Capitan, Lincoln county's fruit station, to Pratt, a county seat just over the line in Kansas, amounts to 2½ cents per pound in quantities less than car load lots. If the freight schedules were not so altitudinous and prohibitory, the local section between us and Pratt, Kansas, would consume all our surplus apples, pears, peaches, plums and small fruits. The market by right should be ours. The railroad is the only middleman we desire between us and the retailer.

Our esteemed neighbor, Mr. O. P. Humphrey desired to ship his mother in Texas some apples, but he found the freight charges would be \$4.50 per hundred pounds, which he regarded as prohibitory. Numerous others were anxious to ship fruit out, if the rates had been more reasonable.

I am informed that it is seldom that apples cost less than \$7 per barrel in the smaller places in central and southern Texas, two-thirds of the cost being freight charges. The consequence is that one-half of the inhabitants do not get their teeth into an apple years end to years end. Con-

sumption ceases in a great empire that should eat ten times the apples they now do.
