## Republicans Win Sweeping Victory Harding Will Be Next President

### Senator Harding Is Now Sure of Nearly 400 Electoral Votes

Senator Warren G. Harding and Governor Calvin Coolidge have swept the nation and have been elected by one of the largest electoral majorities ever given a national ticket except when the Republican split occurred 8 years ago. There is no mistaking the will of the people according to the face of the returns from Tuesday's election. Governor Cox made a wonderful campaign but the reaction following the war was such that no Democratic candidate could have won.

#### Electoral Vote

According to the latest returns, following is the electoral vote by states:

#### Harding's Statement

The president-elect issued the following statement Tuesday night when the returns indicated his election:

"Assuming that the early returns are wholly dependable, I do not hesitate to say that I am pleased, of course. I am happy to utter my gratitude, but I am not exultant. It is not a personal victory. It is a renewed expression of confident Americanism and a national call to the Republican party.

"It is all so serious, the obligations are so solemn that instead of exulting I am more given to prayer to God to make me capable of playing my part, and that all these calls to responsibility may meet the aspirations and expectations of America and the world.

"I am sure the people who have voted the Republican ticket will understand my feeling that I should make no misstudied statement of policies at this

time beyond the expressions made throughout the campaign."

#### Congressman in Texas

The unkindest cut of all was the fact that Texas elected a Republican congressman from the San Antonio District, when Judge Harry M. Wurzbach defeated Carlos Bee. This is the first time Texas has elected a Republican to congress since 1894.

#### To Control Congress

The Republican party will have control of both the senate and the house. Returns have shown congressmen and senators elected in several states of sufficient number to give the Republicans a big majority in both houses.

#### Governor Cox Gains

His message, the first act of the defeated candidate today, read:

"In the spirit of America, I accept the decision of the majority, tender as a defeated candidate my congratulations, and pledge as a citizen my support to the executive authority in whatever emergency may arise."

The governor proved a good loser, and the last hour spent at his office Tuesday night was devoted to comforting disconsolate callers. He never lost his smile, nor did Mrs. Cox, who spent the evening with him.

#### Democrats Lost Interest

The election returns were received at the Lyceum Theatre but early in the evening it was evident that the Republicans had captured almost everything in sight, and the Democrats either got sleepy and pulled out for home or turned all their attention toward finding out what the results in the state were.

#### ENGINEERS SUPERVISE GRADY HIGHWAY WORK

J. B. Easter, District Highway Engineer, spent several days in Clovis last week looking over the road work under his direction in this part of the state. L. T. Nutt is road foreman in charge of the working of the road from Clovis to the north part of the county. Mr. Nutt says that recent rains will make the emergency appropriation of \$5,000 for the Grady road go much farther than was expected as the highway will be more easily put in shape since the ground has moisture.

#### COUNTY AGENTS MEET IN CLOVIS SATURDAY

Executives from State A. & M. College to Co-operate in Schedule for Next Year.

County agents from the eastern district will meet in Clovis with executives from the A. & M. College next Saturday and outline definite work for the coming year.

Agents and presidents of farm bureaus from Quay, DeBaca, Roosevelt, Chavez, Eddy, Curry, Lea and Torrance counties will meet with the state college representatives. Those from the college will be F. B. Monroe, director of extension work, and W. L. Ealer, assistant director; J. V. Hojler, assistant county agent director; Miss Mary B. Richardson, who has charge of home demonstration work in the state and B. C. Reed, state president of farm bureaus.

E. Peterson, County Agent for Curry County, said, in referring to the conference, "the representatives from Eastern New Mexico will talk over the plans for the coming year in an effort to better correlate their activities."

### Republicans Claiming Entire State Ticket

JUDGE M. C. MECHEM  
His election as Governor is claimed by Republican Organization.

W. H. DUCKWORTH  
Clovis citizen, who on face of returns is in lead for Lieutenant Governor.

### Returns From Over State Are Coming In Very Slowly

#### CLOVIS HIGH HOLDS ROSWELL 13 TO 13

Local Football Squad Plays Good Game With Valley Champions. Meet Hereford Tomorrow.

Playing against a heavier and more experienced team, the Clovis High School Football team held the Roswell team to a 13 to 13 score on the Roswell gridiron last Friday afternoon.

In the first half Roswell made consistent gains with line plunges and forward passes, and scored two touch-downs. But in the third quarter, the local lads came back and tied score. Soon after the third quarter began the Roswell team tried to punt on their own ten-yard line. The punt was blocked and Buchanan recovered, crossing the line for a touch-down. Within a few minutes Jones, Clovis' quarterback, rushed the ball to Roswell's five-yard line on a fake line buck, and then carried it across for the second touch-down by a plunge through the line.

The last quarter was a see-saw, neither side being able to put over the winning points. The team goes to Hereford tomorrow where it will meet the High School squad there for the second time this season. In the first game, Clovis won by a score of 14 to 0.

#### JERNIGAN AND WORRELL OPEN OPTICAL PARLORS

E. T. Jernigan and C. E. Worrell have opened a new jewel shop and optical parlors in the new Lyceum Theatre building. Mr. Worrell, who is a graduate optician, and who was formerly connected with E. T. Jernigan & Co., has returned from a post-graduate course in the Northern Illinois Optical School, will have charge of the new shop. "New equipment and fixtures have been installed throughout," said Mr. Worrell, "and we have made every effort to make our place a real metropolitan shop."

#### GRADY COOKING CLUB WINS STATE HONORS

Team from Cena Cooking Club, which Won Range in Local Contest, Surpasses all Others.

Curry County was honored again Saturday when the team from the Cena Cooking Club at Grady, won highest honors in the state encampment of Boys' and Girls' Clubs at the State A. & M. College. The victorious team composed of Misses Leah Carter, Annie Gamble and Olga Carter, won the big cooking range in the district encampment of the Boys' and Girls' Clubs which was held in Clovis recently.

County Agent, E. Peterson, who accompanied the team, states that the girls gave a demonstration that would be hard to beat anywhere. They won the high honors by preparing a meal for an invalid, the menu consisting of toast, poached egg, cocoa and a dessert of gelatin and whipped cream. The team left Thursday and returned Monday.

Results from a state election in New Mexico are always slow in coming in. On the face of the present returns it looks like the entire Republican state ticket has been elected by a majority of from 500 up. The Pecos Valley counties, with the exception of Curry, failed to return the usual Democratic majorities that were necessary to off-set the heavy Republican vote in the counties on the west side. There was not the independent voting that was expected and Republican state headquarters is claiming the election of Mechem and the entire ticket by a majority of 2,000.

Still Claiming State  
At 1:00 p. m. the Albuquerque Journal stated that while Mechem's election was being claimed by Republicans, Democratic leaders would not give up the fight until the returns were in.

#### BAPTIST REVIVAL IS PRONOUNCED SUCCESS

The Baptist Church revival which began last Sunday, and which will continue for one more week, is a great success, and large crowds are attending both the morning and evening services.  
Rev. D. P. Montgomery, one of the South's greatest evangelists, has charge of the revival services, and he is assisted by M. W. Rankin, who has proved himself a singular leader of the song service.

"We are well pleased with the revival services," said several members of the church this morning, "and we believe that the meetings will bring much good to Clovis."

#### CLOVIS WOMEN ARE BACKING ROLL CALL

Federated Clubs and Church Organizations Will Canvass City for Red Cross Membership.

At a meeting of the Federated Clubs Monday afternoon arrangements were made by Clovis women to help put over the Fourth Roll Call of the American Red Cross which starts November 11.

A committee consisting of a captain from each club and church organization was appointed to superintend the work of canvassing the city on the opening day of the Roll Call, and teams from each organization will be selected to help with the work. This committee will meet next Friday evening at 7:30 at the home of Mrs. E. R. Cassel, at which time final arrangements will be made. The captains appointed are as follows: Mrs. E. M. Chapman, Mrs. John D. Brown, Mrs. Cash Ramey, Mrs. A. W. Skarda, Mrs. R. M. Bishop, Mrs. Ralph Martin, Mrs. E. L. Manson, Mrs. Dee Humphrey, Mrs. D. N. Croft, Mrs. A. J. Rodes and Mrs. A. B. Austin.

Curry County's quota for the Fourth Roll Call is 2,000 members, each membership costing \$1.00. Of each membership fee, fifty cents goes to the work of the Red Cross in Curry County and fifty cents goes to the national organization to be used throughout the United States. The Roll Call starts November 11th and lasts for three weeks.

### Curry Retains Reputation as Banner Democratic County

Curry County landed in the Democratic column by the usual big majority. In the gubernatorial race the majority ran 1489 which makes this the banner Democratic county in the state. Two years ago the majority for the Democratic ticket was only 626. The increased majority is partly accounted for by the woman vote, but the returns show that there has been a decided increase in the Democratic vote aside from the increased vote the women cast.

#### Claud Goes Republican

Claud was the only voting box in the county to go for the National Republican ticket. The Democratic electors there received 32 votes, while the Republican electors received 40 votes. There was evidently plenty of independent voting at this box as Hanna carried it over Mechem by a vote of 37 to 35; Patton beat his Republican opponent six votes and Duckworth also had a majority of six over his Democratic opponent, Col. Atwood. Claud was the only voting box in the county where the Farmer-Labor ticket failed to get a vote.

The establishing of four voting boxes in Clovis instead of two is a great convenience to the voter as well as a relief to election officers. It would have been impossible for the increased vote to have been handled from two voting boxes.

#### Women Take Interest

The women took an active interest in the campaign in Curry County and a big majority of them went to the polls. This is particularly true of those living in the town voting precincts. Following is the vote cast for each candidate in the county. All the Democratic nominees were elected, the majorities for each running about the same.

## DISTRIBUTION OF IMMIGRATION

The weakest feature of our immigration system has been failure to distribute the volume of incoming labor to points where most needed.

Masses of immigrants in the past have been allowed to congest in the large cities instead of being rapidly assimilated by wide distribution.

The immigration department has now adopted the policy of helping immigrants to find employment in our country where labor is most needed.

Proper distribution of immigrant labor will be found to be a remedy for some of the economic ills of our country and Americanize the immigrant.

Immigrants are to be distributed voluntarily by classifications such as farm hands, fruit pickers, timber and factory workers.

State government, chambers of commerce and farmer organizations to supply information direct and immigrants are to be sent where most needed.

## INDUSTRIAL EXPANSION VERSUS WAR

The governors of Texas, New Mexico and Arizona are urging peaceful relations with Old Mexico and recognition of the present government.

Mexican officials state that their country desires the friendship and aid of the United States in the program of reconstruction already under way there.

The rulers of the border states of Mexico say it is their desire to build up the co-operative contracts necessary to expansion and development that will mean much to both countries.

The new government of Mexico advocates a change of ideas and ideals, a desire to enter upon an era of quiet

and peace, based on understanding, liberty and justice.

General Obregon, the new President, stands for established constitutional government, offers friendship with respect to the United States and all other countries.

The jingoes who can see nothing but war with Mexico must correct their vision to the new lense of industrial progress which means more than hostilities to both countries.

## JAZZ CRAZY

(Canadian, Texas, Record)

America is jazz crazy. At the Shamrock fair Saturday there was a negro jazz band from Fort Worth to furnish the music. And it was some nigger band. They jazzed and jazzed until everybody wanted to love everybody else. Then they were requested to play America as a prelude to a political address. The black rascals didn't know America and wouldn't confess it. Finally they attempted to play it to a jazz tune, but nobody knew what it was. They couldn't be censured for their intentions were honest and they were doing their best to play the national hymn. But it might just as well have been called "Will the Foolish Always Be That way?" as America. Right there that band lost its reputation. High class musicians, and they didn't know America! What kind of a generation are we jazzing into? Patriotism and loyalty cast aside for the jazz life! Heaven forgive those niggers for their ignorance and save out of the wreck just a semblance of old-fashioned liberty bell patriotism as a foundation for future America.

If all Clovis citizens will devote the same untiring energy toward getting street paving and other improvements during the coming year as they did toward putting over their favorite candidate, 1921 will see some startling developments in the Magic City.

The American people have rendered their verdict at the polls, and thoughtful people will be quick to forget election animosities and unite to develop happiness and continued prosperity for all the people. Every four years the United States has a great election. One of the big parties must win and whoever rules the nation there is after all not a slight difference in how the average citizen gets along with his affairs at home.

## THE PERFECT MAN

It has mostly fallen to the directors of college gymnasiums to set out the proportions of the perfect man and the perfect woman, and naturally they have dealt with physical characteristics alone. But Dr. Nichols Murray Butler, of Columbia, believing that the end of education is a sound mind in the sound body, has set out to name the six points that distinguish the supposedly perfect man as an educated product from the uneducated. This effort of mental appraisal will find few to disagree with the standards set up. In the first place, precision in the use of one's mother tongue is set down as a necessitated primary acquirement. The use of good English as a tool of trade and a means of professional as well as social communication is a much neglected accomplishment. So starting out his perfect American with a real command of English, the next endowment Dr. Butler asks for is good manners; while a third is sound standards of feeling; the fourth, the power of reflection; the fifth, the power of growth; and the sixth, the ability to work efficiently without nervous agitation.

All these six factors will be viewed as unimpeachable by all thinkers, and it is conceivable if they all existed in any one individual to a superlative degree, you would have a well-nigh perfect educated individual of character and poise, capable of sustained effort and able to direct his abilities to any desired end. But it is to be remembered that a number of these factors are more or less natural endowments resulting from ancestral strains, which education cannot change though it may direct and modify its line of growth. Yet, just as the youth who comes under the charge of director of physical training may be easily turned into a model athlete along the lines of the possible physical development, so education properly absorbed that makes for self control as well as the ability to quickly ascertain the truth and come to sound judgments upon it may easily turn a receptive, if seemingly unpromising, subject into the human ideal that the Doctor aims at. At all events, it is aiming at ideals of this type that has made education worth while in the past and will justify it in the future.

## What to Look for in Buying a Phonograph

The Third of a Series

There are many different makes of Records, each make presenting the recorded art of distinguished artists, orchestras and bands, all worthy of a place in any phonograph library.

To limit oneself to any one make of records is to forego the pleasures which all the other makes afford.

It is essential then to select a phonograph which can play all makes of records.

There are four common types of points—the steel needle, the wood fibre needle, the sapphire ball, and the diamond point—all of merit; each possessing special qualifications essential to certain makes of records.

Therefore, to have all four of these needles or points at one's instant command becomes a practical necessity to those buyers who would enjoy the advantage of reproducing any and all records upon their own phonograph.

## The KITCHEN CABINET

Be firm! whatever tempts thy soul  
To loiter 'ere it reach its goal,  
Whatever siren voice would draw  
Thy heart from duty and its law,  
Oh! that distrust. Go bravely on,  
And, till the victor-crown be won,  
Be firm.

### THE DELECTABLE CHICKEN.

Chicken is a favorite meat with people the world over and no matter how served, if well cooked, it is always popular.

**Maryland Chicken.**—Dress and cut up a chicken, sprinkle with salt and pepper, dip in flour, egg and crumbs, place in a well-greased dripping pan and bake in a hot oven, basting with one-third of a cupful of butter.

Arrange on a platter and pour over two cupfuls of cream sauce.

**Chicken Curry.**—Singe and cut the chicken at the joints in pieces for serving. Cover with boiling water, add two teaspoonfuls of salt and a half teaspoonful of pepper. Simmer for half an hour or longer if not tender, drain, dredge with seasoned flour and brown lightly with a tablespoonful of butter. Fry one large onion in the same fat, mix one tablespoonful of flour, one teaspoonful of sugar and one tablespoonful of curry powder and brown. Add one cupful of water or stock, one cupful of tomato or one sour apple chopped with salt and pepper to taste. Pour this sauce over the chicken and simmer until tender. Add one cupful of hot cream and serve with boiled rice.

**Jellied Chicken.**—Bring to the boiling point two cupfuls of chicken stock from which the fat has been removed, add to it one tablespoonful of gelatin which has been soaked in four tablespoonfuls of cold water. Press into a mold four cupfuls of seasoned cooked chicken, pour over the stock, put under a weight and chill until firm. Any other meat may be served in the same way.

**Chicken Pie.**—Dress and cut up one chicken as for frying; cook until tender. Season when nearly cooked. Lay the pieces in a baking dish, add one pint of stock thickened with two tablespoonfuls of flour, and pour over the chicken. Add a slice of onion. Make a biscuit dough, cut out as a biscuit and cover the top of the dish of chicken. Add cream or rich milk and bake until the biscuits are brown. Serve from the baking dish.

The children of Mrs. Keenan are ill.

Misses Grace and Thelma Akers, and Messrs. Elmer Kemper and Cecil Porter were guests of Mrs. S. M. Pipkin Sunday evening.

There will be a community dinner at the school house Sunday. Come and bring a basket full of "eats."

There will be a fine sermon and Mr. Welsh, the singing teacher, will also be present.

Grandpa Pipkin has been very ill.

Elsie Cross and Jerry Blackwell of Pleasant Hill attended Claud church Sunday evening.

Little Roger is Helmiel Patis numbered among the sick.

Claud was a busy place Tuesday and everyone was anxious over the results of the election. The women were there to vote, all right.

NOTICE—The Outlook Club will meet next Wednesday afternoon, the place of meeting to be announced at church next Sunday. The president asks every member to try to be present as important subjects are to be discussed and decided upon.

**NEW EQUIPMENT ON SANTA FE**

The Atchison, Topeka and Santa Fe Railway System is receiving 30 new refrigerator cars a day, and delivery by the manufacturers at that rate will be kept up until the middle of January, 1921, when 2,500 cars will have been received.

The new equipment will relieve the car shortage to a considerable degree, as the bulkheads and ice bunkers are collapsible, making it possible to increase the loading capacity from 20 to 25 per cent when the cars are used for products which do not require refrigeration.

Another improvement in the construction of the refrigerator car is a permanent floor rack six inches

high to keep the contents off the floor, and to give better protection in winter and better circulation in summer.

These 2,500 refrigerator cars with 500 new coal cars and 50 new locomotives which have just been added to the Santa Fe's list of equipment cost approximately \$18,000,000. This is three times as much as the company would have paid for the same equipment the year before the United States entered the World war.

**ORCHESTRA**

(From La Sesalpa)

Many of the High School students are interested in the orchestra this year. Twenty-six have joined and are anxiously awaiting the arrival of the new music, when work will begin in earnest. With such a beginning, this organization should be a source of great pride to the High School.

Following is a list of those who have joined and the instruments they play:

- Raymond Buchanan, Cornet
  - Otis Sasser, Cornet
  - Guy Farris, Trombone
  - Lester Emmet, Trombone
  - Jake Singer, Base Drums
  - Inman Freeman, Violin
  - Alfred Freeman, Clarinet
  - Leonard Jernigan, Baritone
  - Darrel Johnson, Clarinet
  - Phillip Cooley, Trombone
  - Flavel Coats, Clarinet
  - Monroe Gant, Violin
  - Jerry Miser, Drums
  - Zella Mae Pierce, Piano
  - Nellie Mott, Baritone
  - Fred Overton, Clarinet
  - Georgia Davis, Violin
  - Smith Wright, Baritone
  - George Bell, Clarinet
  - Wayne Harrison, Saxophone
  - John Masterfield, Cornet
  - Joe Christia, Cornet
  - J. B. Atwood, Saxophone
  - James Sadler, Saxophone
- Several of the departmental students have joined the High School in making a "cracking good" orchestra.

**COMESTIBLE COAL**

**Note the Features this Range Offers**

The Round Oak Chief, built of copper-fused boiler iron, has more points of merit than any other range we know. It has an over-size oven. Its triple walls contain double the usual amount of asbestos insulation. It requires no blacking, heats evenly, has an easy-closing, non-slammng, heat-insulated oven door with thermometer, burns any fuel—without warping, and is handsome in design, finish and ornamentation.

**NAMES OF STATIONS ON SANTA FE TO BE CHANGED**

Amarillo, Texas.—Changes of the names of stations on Western lines of the Santa Fe Railway have been announced by R. J. Parker, General Manager, effective November 14th when the new time card goes into effect.

Burnside on the north Texas line about ten miles from Spearman becomes Waka. This is a new town growing up in a fine farming section.

Yellow House in Lamb county, Texas, is changed to Yellow. This station is in the center of a fine farming district about twenty miles northwest of Lubbock, near the east line of Yellow House ranch.

Blacktower, six miles west of Clovis, New Mexico, is changed to Maize in recognition of one of the standard crops of the district.

Clifton House near Raton, New Mexico, is changed to plain Clifton. Apache Tejo, four miles from Whitewater in Grant County, New Mexico, is changed to Apache. Fort Fillmore spur track between

Mesilla Park and Mesquite in Dona Ana County, New Mexico, is changed to Fillmore.

Shallow Water near Scott City, Kansas, is changed to Shallow.

**PANHANDLE REPORTS RECORD MAIZE CROP**

Maize and kaffir produced in the

Panhandle this year will range between 4,000 and 4,500 car loads, according to estimates made by the Grain Dealers Association in session here Saturday. Of this amount it is estimated some 2,000 cars will be marketed. The remainder will be used by farmers as feed for work stock, cattle and hogs. This is believed to be the largest crop ever

grown in the Panhandle.—Amarillo Tribune.

Hugh Jennings, who resigned as manager of the Detroit baseball team after 14 years service, will take up the practice of law, a profession which has engaged his attention during the baseball off-season since his graduation from Cornell University.

## Mandell Clothing & Dry Goods Co.

WE GIVE S. & H. GREEN TRADING STAMPS

**GRADY NEWS**

We have had several good rains this last week which insures another good wheat crop.

The Hollene basketball players, three teams of them, came to Grady last Friday and played three most interesting games. In the first game the Grady girls won by a score of 6 to 2. The next ended in favor of the Hollene boys—score 18 to 10. The boys of the reserves also played a snappy game, Grady winning 9 to 2. These were three clean games and we welcome Hollene again.

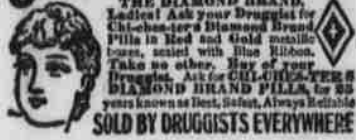

Misses Olga and Leah Carter and Miss Annie Gamble went to Las Cruces last Friday to compete in the Cooking Demonstration Contest of the State. We are very pleased to know that they have won first place as announced by a telegram from Mr. Peterson, our county agent. This means a trip to Denver to represent the State at the general contest.

The residence belonging to Mr. J. H. Tremble was completely destroyed by fire last Saturday morning. Mr. and Mrs. Tremble were away at the time and practically nothing was saved. There were several hundred dollars worth of bonds burned, and, in fact, everything in a well furnished home.

Mrs. J. W. Fanning, our music teacher, was called to Tennessee last Friday to the bedside of her aged father who is very ill. We wish her speedy return.

**For Torpid Liver**

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White, of Kootai, Okla. She continues: "I had a pain in my chest after eating—light, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

**Theford's BLACK-DRAUGHT**

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Theford's Black-Draught," is on the package. At all druggists.

**SWISHER COUNTY, TEXAS, WINS HIGH PRIZE ON WHEAT EXHIBIT**

Tulia, Texas.—County Agent Ware on his return from the Dallas Fair, states that Swisher County won first prize on wheat over the entire state. Also, that although part of the Swisher County exhibit was lost enroute, that Swisher County received thirteen places on general exhibit, and received second place on a number of individual prizes awarded any county on agricultural products. Swisher County won first prize on wheat last year at the Dallas Fair, and first prize on wheat at the Omaha Exposition in 1909.

Omaha, Neb.—Enrico Caruso famous tenor, never heard of Babe Ruth and his bat, thought Babe was an opera singer of the feminine gender, didn't know Cleveland had won the American league pennant and was not even aware that a world series was in progress, when questioned by a reporter as he was passing through Omaha.

"Cleveland has won again," the reporter informed the singer during the conversation.

"Won what?" asked Caruso. "I don't understand."

"Why, Cleveland won another game in the world series."

"Are you talking about baseball?" asked Caruso. "I didn't know Cleveland was playing."

"Well, what do you think of Ruth?" the reporter asked.

"I will have to admit I never heard her sing," he answered.

## HE TRAVELED ALL OVER THE WORLD

BUT TANLAC HELPED HIM MORE THAN TREATMENTS HERE, IN EUROPE AND SOUTH AMERICA

"I have been treated for indigestion in France, Italy, Switzerland, and North and South America, and in fact all over the world, but Tanlac is the only thing I have ever found to do me much good," said H. L. Finniger, watchmaker for Nathan Doremann & Co., San Francisco, Cal., living at 36 Plato Street.

"Always after eating," continued Mr. Finniger, "I would have such cramps in my stomach that I could hardly stand it. I had fallen off until I weighed only 98 pounds and was so nervous the least little thing would upset me. I could sleep but little and got up in the mornings all fagged out. My strength and energy left me and I felt like I would have to give up entirely. Besides taking everything in the way of treatments and medicines I tried dieting and the rest cure, but never got more than a little passing relief.

"The way Tanlac brought me out is marvelous. I can eat anything now without any trouble afterwards, I have gained twenty pounds and my nerves are as steady as a clock. I sleep fine every night and get up in the mornings ready for a good breakfast and a full day's work, and am enjoying better health than I have in years."

Tanlac is sold in Clovis by City Drug Co., in Texico by Red Cross Pharmacy, and in Melrose by Irwin & Pool. (Advertisement)

### WOMEN GIVE OUT

Housework is hard enough when healthy. Every Clovis woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Clovis woman's experience.

Mrs. John T. Burton, 214 S. Rencher St., says: "There is nothing like Doan's Kidney Pills for relieving kidney complaint and I am glad to recommend them. Occasionally when I have taken cold it has settled on my kidneys. My back has then ached severely and I have felt miserable all over. When I have tried to bend over to wash or dust, sharp pains have caught me in my back. When I have had these spells I have bought Doan's Kidney Pills from the City Drug Store and never yet have they failed to quickly relieve the trouble. Doan's Kidney Pills are certainly fine."

### Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. Toledo, O. F. J. CHENEY & CO.

**CLOVIS MARBLE WORKS CONTINUES TO GROW**

Dad Dwight of the Clovis Marble Works on Grand Ave., ships his marble direct into Clovis from the quarries of the New England States. He cuts it, polishes and letters it right here and sells it direct to the customer. There are no middle man's profits and it is not hard to see how he can save you money on your monuments. Not only this, he is a citizen of Clovis, has his home here and when you patronize him you are helping to build up the town and the county. He hires no salesmen and no agents and when you buy one of Dad Dwight's monuments you have to deal direct with him at his marble works on Grand Avenue, but if you can save from 20 to 40 per cent on your monuments isn't it worth while? He has had 38 years experience in the monument business. If you need anything in his line it will pay you to see him. 6-17-tfc

### LABELED SOAP, BOOZE THROWN ON MARKET

All is not soap that is labeled as such, is the discovery made by Jesse R. Brown, who has succeeded Major A. V. Dalrymple as prohibition supervisor of the Central States.

Boxes full of Canadian liquor billed as soap are now on the market in Chicago for \$105 a case, according to a tip being investigated by Brown.

Farmers of Nebraska are contemplating burning corn for fuel in their stoves. A ton of corn brings but \$15. A ton of coal costs that amount. The ton of corn makes more heat than the ton of coal. As hard as they may seem, it is better than that the corn should be turned into a fuel to burn out stomachs and brains, as it was once used for.—Amarillo Tribune.

### THE AUTO HOBO

Barring the trouble created by the gasoline shortage, there is no mode of life as wholly delightful as that of the auto hobo careening in his movable house through the mountains, valleys and deserts of the West during the warm days and cool nights of the long, rainless season. Best of all he is sure of a hearty welcome wherever he rolls. Throughout the far West the motor camper is the object of loving solicitude. Towns vie with one another in their offers of hospitality.

It is good to own and ride in a limousine, but for the open road give us the open car, the open sky and the open air.—November Sunset.

### SAYS LITTLE SHOES WILL MEAN HOOPS IN FUTURE

Hoofs instead of feet will be the heritage this and succeeding generations will hand down to future generations if the craze for tight shoes continues, Herbert Martin, professor of philosophy at Drake University, declares.

"Man is headed straight for the hoof stage," Professor Martin said, "and undersized shoes is the cause." The little toe of this generation is in process of disappearing and sometime will be extinct.

WE ARE NOT TRYING TO INFLUENCE THE FARMER IN ANY WAY REGARDING THE HOLDING OF THEIR GRAIN FOR HIGHER PRICES AS WE ARE NOT IN A POSITION TO SAY IF IT WILL GO HIGHER OR LOWER. WE DO WANT TO IMPRESS FARMERS THAT WE ARE THEIR FRIENDS AND IF THEY DESIRE TO HOLD THEIR GRAIN AND WISH TO STORE IT WITH US IN OUR NEW 100,000 BUSHEL FIRE PROOF ELEVATOR WE WILL GLADLY STORE IT FOR YOU AT A RATE OF ONE CENT PER BUSHEL PER MONTH OR FRACTION THEREOF AND WILL ADVANCE YOU FIFTY PER CENT OF THE MARKET PRICE OF YOUR GRAIN, CASH IF DESIRED. WHEN READY TO SELL YOUR GRAIN WE WILL PAY YOU MARKET PRICE FOR IT. STORING WITH US DOES NOT BIND YOU IN ANY WAY TO SELL IT TO US. YOU MAY SELL IT TO WHOM YOU WANT TO AND WE WILL LOAD IT OUT FOR YOU AT A COST OF ONE CENT PER HUNDRED POUNDS WHICH DOES NOT HARDLY PAY COST OF HANDLING. BY STORING YOUR GRAIN WITH US, IF YOU DESIRE TO HOLD, GIVES YOU SEVERAL ADVANTAGES. FIRST, IF YOU THINK THE PRICE IS AS HIGH AS YOU CAN GET FOR IT, YOU CAN SELL IT ON THIRTY MINUTES NOTICE. ## Why Not Build a Permanent Fence ?

THE GREATER PART OF A SEASON'S WORK AND EXPENSE MAY COUNT FOR NOTHING IF YOUR ORCHARD, VINEYARD OR BERRY PATCH IS NOT PROPERLY PROTECTED AGAINST ROVING LIVESTOCK. A STRONG FENCE IS ASSURANCE OF PROTECTION.

LONG BELL CREOSOTED YELLOW PINE FENCE POSTS, WHICH ARE INCLUDED IN OUR BIG STOCK OF LUMBER AND BUILDING SUPPLIES MAKE THE BEST POSSIBLE FOUNDATION FOR A PERMANENT FENCE. THESE POSTS ARE MADE DECAY RESISTANT BY SCIENTIFICALLY PRESERVING WITH CREOSOTE (DEAD OIL OF COAL TAR) BY THE PRESSURE VACUUM PROCESS. THEY REMAIN UP-STANDING AND DURABLE FOR YEARS AND YEARS. ARE STRAIGHT, SMOOTH AND ATTRACTIVE AND ADD VALUE TO ANY FARM.

LONG-BELL CREOSOTED YELLOW PINE FENCE POSTS CAN BE HAD IN FULL ROUND, SAWED HALVES, AND SAWED QUARTERS, SUITABLE SIZES AND LENGTHS.

WE'LL BE GLAD TO HELP YOU WITH YOUR PLANS FOR NEW FENCES OR BUILDINGS OF ANY KIND. COME IN AND LET'S TALK IT OVER.

**MY HEAD!**

When the head feels thick or aches, when one feels all out-of-sorts—perhaps a coated tongue—it is the signal that poisons are accumulating in the system, and should be cleaned out at once.

Auto-intoxication can be best ascribed to our own neglect or carelessness. When the organs fail in the discharge of their duties, the putrefactive germs set in and generate toxins—actual poisons, which fill one's own body.

Sleepiness after meals, flushing of the face, extreme lassitude, biliousness, dizziness, sick headache, acidity of the stomach, heartburn, offensive breath, anemia, loss of weight and muscular power, decrease of vitality or lowering of resistance to infectious diseases, disturbance of the eye, dyspepsia, indigestion, gastritis, many forms of catarrh, asthma, ear affections and allied ailments result from auto-intoxication or self-poisoning.

Take castor oil, or procure at the drug store, a pleasant vegetable laxative, called Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes and jalap.

**BOYS' AND GIRLS' CLUB WORK STORIES**

From Boys' and Girls' Club Edition of Curry County Farm Bureau News.

**A CLUB STORY**  
(By Opal Brown)

I joined the club to learn better ways of making seams and garments. This is my second year in club work. I will join it as many more years as I can.

I did the work as near the directions in my book as I could. I followed the directions on my pattern for my combination suit. There were not any directions in this year's sewing book, so I followed the directions in my last year's book.

I have not had very many troubles this year. Sometimes I would have to rip some places, but that didn't bother me much.

I have gained more knowledge as a result from joining club work. I think the clubs are doing good everywhere.

We have had three club meetings this summer. At one we planned to have ice cream, but the ice didn't come so we could not have any. We have learned five songs this year. I think they are all nice. They are: "Our Standard Club," "Where the West Begins," "Our 4H Club," "Tis True," and "4H Workers."

I have won a club pin that was given to all who finished their club work, by Miss Kendall.

The sewing part of the club interests me most because I like to sew, and most of all on club garments.

I have kept all the sewing articles that I have made.

**SEWING CLUB THEME**  
(By Ethel Hill)

I joined the sewing club in May. Then I made a trip to Arkansas, starting June 2, returning June 26, and did not get well started until July.

I had hemstitched some, but never could sew before, in fact I never tried. I had never used a thimble before and thought I never could. I had finished about all of my work before I was persuaded to try, then after trying a few times, I found it quite easy. And now I can hardly get along without one.

Button holes were more of my troubles. I thought it an impossibility for me. I had almost decided to sew the buttons on my laundry bag without the button holes. One day my mother showed me how easy it was and after practicing the ma few times I can do them quite nicely.

I could never patch, darn or make any of the stitches shown in my book, or know how to make the seams. And without the helpful information received from my club book, I fear I should never have made the pretty things I have made this summer.

I am very grateful to the club, and club helpers, for teaching me to sew, and after finishing the four years of club work I can sew nicely.

**MY CLUB WORK**  
(By Norene Thomas)

Last fall when I was asked to join the club, it was a very hard proposition for me to decide. I was afraid I could not do the work. But after thinking over the matter I decided to take the work.

After school was out I moved to Clovis so I did not have any chance to meet with the club members, and I did not get a book, so I did not get to do anything with my work during the vacation months.

It seems that I was very much like the grass hopper. I played all summer and was about ready to ask aid of the ant, when all at once, I realized it was not too late even though it was the eleventh hour. I began working in earnest. Very soon my work was ready for the community fair. I think the fair was much better than last year. We expect to make it better next year.

I feel that my efforts in club work have not been in vain. I have really learned to do some useful things, such as darning and patching.

It is quite a help to myself as well as mother, whose time is taken with her school work.

**HOW I RAISED MY SOW AND PIGS**  
(By Lawrence Mills)

I am a club member to learn all I can in regard to the keeping of the daily records, also because I have always wanted some registered stock of my own, and this looked like a good chance to get some.

This is my second year as a club member. The first thing that interested me in club work, was what I

heard fellow club members were doing in their club work. I also thought if I could get first prize I would like that trip to the State College, and this I believed was worth fighting for.

I raised my sow and pigs to the best of my ability in every respect, always keeping plenty of water in the trough for my hog, with plenty of pasture at hand. I find it is not best to feed too much corn to a brood sow. After the pigs got up big

enough to eat, I fed sloppy feed to them as they would eat a sloppy food quicker than anything else.

I did not have much trouble, if any. Some hog raisers would say I had exceedingly good luck, having raised every one of the pigs. The only trouble I had was that the pigs had the scours at about a week of age, which was remedied by shutting down the sow's feed.

I have not disposed of the pigs yet, although I intend to later, but will keep the sow.

I have learned a great deal in regard to the keeping of the daily records. I have also learned not to wait for some one else to tend to my hogs and it has become a pleasure for me to tend to them.

If it had not been for those club meetings, I am afraid it would have been a sorry out I would have made out of some of these daily records. I have not learned many games and songs. The only song I learned was: "Tis True," (tune—Jada.)

I have not won any prizes or pins yet, as the fairs are at a later date, one, the local, next Friday, and the other October 14-15-16.

The things that most interest me in my club work is that I feel like I have something that belongs to me at last, all my very own. In fact to make a short story shorter everything about club work interests me.

**RANCHVALE NEWS**

The Glee Club has some songs for dedication program. This will be their first public performance.

Ethel Miller and Lawrence Mills are back with us after one week's absence.

Mrs. Durand, Mrs. Burns Smith, Messrs. S. D. Dean and Ambrose Ivy visited the school this week.

Hadn't the Ranchvale teachers better stay at home on Saturdays unless they consult the weather bureau or know a slide is coming this way? We think would be preferable to helping get cars out of mud holes.

We have 105 enrolled here. We have our shoulders to the wheel and twenty-five will be our slogan until we have that number and then another slogan will be adopted.

Oh, you three truck drivers, we admire your perseverance these cold mornings. Out of the 105 trips made by these three trucks there has been two tardies.

Next Friday is our dedication day. We can hardly wait. We are proud of our nice, new nine-room building, which, we are told, is the best in the county.

We feel indebted to our patrons and especially to the carpenters and painters who have been so patient with us.

After Friday the building will be open for entertainments and Sunday School. We invite other communities to visit us and take part in our work.

The last flue to the teaherage went up Tuesday. The building, except the painting, is finished.

Mr. and Mrs. C. A. Freeman, Mrs. Lena Maxwell, Miss Louise Kempf, Miss Moser, and Miss Linnie Forest live in the teaherage. Miss Mildred Griffith boards at Mr. Emmett Davis'.

Mr. M. Pipkin of Claud has moved his well rig 30 feet west of our building and will start drilling a well for us. We hope within the next thirty days we will see an abundance of water pumped from this source.

## VIRGIN ISLANDS WET

Eighteenth Amendment Has No Meaning in New Possessions.

Only Place Under the American Flag Where Prohibition Is Not Being Enforced.

San Juan, P. R.—Probably the only place under the American flag where prohibition is not now in force is in the Virgin Islands where, until congress enacts new laws, the old Danish laws remain in force.

The colonial council of St. Croix has just passed a bill repealing former local legislation for that island which provided for local prohibition until a specified period after the ending of the war.

Similar legislation is pending in the colonial council for the islands of St. Thomas and St. John.

The treaty of sale by which the islands were transferred from Denmark to the United States provided that laws in force at the time of the transfer should remain in full force and effect until congress enacted special legislation for the islands. This has not yet been done.

In the meantime the Constitution of the United States, in all of its provisions, is not applicable to the islands and the eighteenth amendment has no meaning there.

As a war measure the colonial councils, the local lawmaking bodies, passed prohibition acts to be enforced during the war. As a result St. Thomas, where champagne sold for \$1 a bottle and other liquors were equally expensive, and the two other islands gradually became dry.

Merchants in St. Thomas whose business is largely that of supplying ships stores have contended that prohibition was one of their greatest handicaps, while the sugar makers of St. Croix were deprived of a lucrative trade in an important by-product of sugar when they were forced to cease making rum. With war prohibition removed by local legislation, rum making has already been resumed.

Indirectly, however, the Virgin Islands are feeling the force of the United States prohibition laws.

Prohibition Director Donaldson has refused to permit the shipment of alcohol to St. Thomas from here to be used in the manufacture of bay rum unless manufacturers bind themselves to donate their product so that it can not be used for beverage purposes. The manufacture of bay rum is one of the chief industries of St. Thomas and St. John.

## JAP DEITY HEARS OF PEACE

News is Also Reported at the Tombs of Former Emperors by Imperial Proxy.

Tokyo.—Conclusion of the peace is being reported to Amaterasu, the sun goddess and grand ancestress of the emperor, by Prince Fushimi, who as Imperial proxy is visiting the Ise shrines, as well as the mausoleum of Jimmu Tenno, the first emperor of Japan, and that of Emperor Meiji.

Whenever any event of national importance occurs in Japan a messenger is sent by the emperor to make a report to the sun goddess. After the war with Russia Admiral Togo reported thanks before the national shrine, which was founded 1,900 years ago and which contains the sacred mirror, emblem of the goddess.

## Toting Gun Means Jail Sentence in Kentucky Now

Law triumphed over tradition in Kentucky when Governor Morrow announced that hereafter all "gun toters" must serve jail sentences. His ultimatum, contained in a formal statement asking assistance of courts and officials in redefining the "state from the disgrace of its homicides," is the sequel to a long contest for the mastery of statute over precedent. Other governors followed the time honored practice of pardoning "gun toters" when they were arrested, but Governor Morrow says jail sentences must be imposed and served.

Newcastle, Ky.—Because his telephone call for a doctor was regarded as a joke, Charles Rosenberg, aged thirteen, is dead of a pistol wound. After the boy, left alone in his home, had accidentally shot himself through the intestines, he telephoned a physician's house, saying: "Something awful has happened." Three hours later, when the boy's parents returned, they found him dying.

## BELLVIEW SCHOOL NOTES

School work is moving along with a swift and sure stride. The "Six Hundred Set" of stereoscopic views for the promotion of visual education are here. We realize that it is worth more to the child to actually see the picture than to read about it. The illustrated lecture given by Supt. Bowyer of Clovis Friday evening was highly enjoyed by everyone. It brought to the people the necessity of those things in our own schools.

The pie supper Friday evening was also a great success. The amount taken in was one hundred dollars. This money is to be used for various things such as records for the "Vitaminola," pictures, etc.

The basketball teams are practicing with the "pep" and spirit which means "win." We are expecting to play Hollene next Friday.

The first meeting of the Dramatic Club was held last Friday afternoon. The meeting was called to order by the president, Lois Ford. The constitution was voted on and adopted, and the following program was given:

Talk by the president.

Song by the club.

Debate—"Resolved that the Peace Treaty Should be Ratified." Affirmative, Aurvil Rose and Charles Bains; negative, Florence Pulliam and Dennis Bowen.

Reading by Miss Wingo.

Song by club.

Visitors this week were Mr. and Mrs. Weaver and Mrs. Guy Cotton.

## News Reporter Sees Sights at Carnival

We heard so much about the carnival in Clovis that we decided to go down last night and see the sights, but after spending half an hour there we nearly froze. We spent our dime trying to ring a six-shooter, and watched a man spend \$3.50 trying to get the gun that we missed—but he wasn't any luckier than we were. Then we tried to win a beautiful gold watch by hanging rings on a peg—but we didn't win it. A Mexican, however, was luckier than we were. He spent \$4.00 and won a fine pink dish for butter, nuts or something, and several beautiful stick pins.

Then we dabbled several times for the nimble goldfish in an effort to take home a wonderfully artistic vase but the numbers on the "tummies" of the fish only brought us some jewelry. We watched a lady with a baby in her arms trying to get the same vase. She spent several dollars and felt highly elated because she almost won the vase every time—but not quit.

Then we tried to win a ham by throwing rings at some nails in a board, but the jinx must have been with us, and we had to be consoled by seeing a high school boy win a can of coffee after spending all his money. The man there told us confidentially that a whole lot of people had won hams—but we didn't see them.

Then we watched the Ferris wheel and decided to take a ride, but the gasoline engine would stop half a dozen times on every turn, so we didn't try it. And we pitched rings at the cash on the table and saw an expert young man win a nickel after trying for twenty minutes. He was well pleased that he got something for his money.

## EASTERN STARS VISITED THE PORTALES CHAPTER

A number of the members of the Clovis Eastern Star motored to Portales last Thursday where they were guests of the Eastern Star lodge at that place. Nine candidates were initiated and the Clovis visitors say they were entertained royally.

## MANY PATIENTS IN BAPTIST HOSPITAL

With the second floor of the building in use and the finishing work well under way on the rest of the structure, the new Baptist Hospital is taking care of a number of patients. The first floor has been completed and various unions and fraternal orders in Clovis are planning to furnish the rooms. The basement will be completed within a short time.

Since the opening of the hospital October 7th, seventeen patients have been cared for. When the entire building is furnished, space will be available for thirty-six patients.

## PROUD OF THEIR CLIMATE

Residents of Eastern Shore of Maryland Relate Pretty Legend in Connection With It.

I went over to Baltimore to speak to a Methodist conference some time ago. I met there a splendid-looking man, with a long, flowing, white beard, and I said to him, "Do you preach in this section of the country?" He said, "Yes, sir; I come from the eastern shore of Maryland. Have you ever been on the eastern shore?"

I said, "No; I am sorry to say that I have seen every other beauty spot in this country, I believe, but I never have seen that."

"Well," he said to me, "we love that country. I have been preaching there for sixty-six years. We are a strange people and we have some strange legends, and one of them is that a long, long time ago when Adam and Eve lived in the Garden of Eden, they fell sick, and the Lord was very much disturbed about them, and he called a council of his angels and wanted to know where they should be taken for a change of air, so that they might improve."

"The angel Gabriel suggested that they should be taken to the eastern shore of Maryland, and the Lord said, 'No, no; that would not be sufficient change.'"—Franklin K. Lane in the National Geographic Magazine.

## Find Old Petroleum Deposits.

The asphalt springs of Hit, from which Noah probably obtained the "pitch" with which he made the Ark impervious to the "flood of waters," have now been thoroughly examined with a view to their commercial possibilities. The petroleum deposits of the hand of Shinar, between the Tigris and the Euphrates, which furnished the "slime" that the descendants of Noah "had for mortar" in building the tower of Babel, have been measured as well as can be until the bit of the oil driller is sent down to prove whether the geologist is right. And the sources of bitumen which archeologists have found was used as cement in constructing the ancient palaces of Babylon and Ninevah have undoubtedly been located.

## Vegetable Beef-Steaks.

The vegetable beef-steak grows on the oak tree, it is fungus, which is dark red above and flesh-colored below. When it is cut through, the alternate dark and light streaks exactly resemble the joint from which it gets its name. It is a wholesome article of food.

During a wet season this fungus grows about seven feet from the ground. It may be broiled, stewed, fried, or, if preferred, treated like beefsteak and added to the salad bowl.

### SON'S LOOKS

Father—"Well, now, that you've seen my son, which side of the house do you think he closely resembles?"

General Friend—"H'm, of course, his full beauty is not yet developed, but surely you should not suggest that he looks like the side of a house."

### HAVE MUCH ECONOMIC VALUE

Official of Museum of Natural History Tells of Importance of Bats in Jamaica.

Returning recently from the island of Jamaica, in the West Indies, where he spent four months on a scientific expedition, H. E. Anthony, associate curator of mammals at the Museum of Natural History, brought back with him many fine specimens of bats, which are numerous on that and other islands in the West Indies, says the New York Times.

"The only mammals native to the island today," Mr. Anthony said, "are 20 species of bats and one species of rodent. These different bats range in size from small bats, with a wing spread of six inches, up to very large bats, with a wing spread of from 28 to 30 inches."

People in the United States, where bats are comparatively rare animals, have no idea of the variety and abundance of them in such a place as Jamaica, or of the important economic value of the bat. They are either insect eating or feed on fruits. The insect-eating variety are small for the most part, and have considerable value as insect destroyers. They feed on mosquitoes and on a great variety of winged insect life, many of which are obnoxious to man or injurious to agriculture.

### AUSTRALIA HAS MUCH IRON

Engineers Report Immense Quantities Available in the Southwest Part of the Country.

Mining engineers have reported to the Australian government that immense quantities of iron ore are available at Yampi sound, in southwest Australia. The estimate puts the amount of ore available—that is, in sight above sea-level—at 97,000,000 tons. The larger quantities are on Koolan Island, where the lode rises 600 feet above the water line; the lode is over 100 feet wide, and is traced for nearly four miles, but really extends right through the island. On Cockatoo Island the height is 300 feet, the lode running from end to end of the island.

The quality of the ore is exceptional. There is only 1 per cent of silica present and very little sulphur. These analyses compare favorably with the best known iron deposits in the world. Newfoundland (Bell Island) ore is 51.80 per cent metallic iron, with 0.50 per cent silica. The French ores run to 57.23 per cent, the Cumberland (England) to 48.80 per cent, the Spanish (Bilboa) to 50.84, and the Algerian to a mean of about 50.

### ARMY TO ENLIST ILLITERATES

Will Educate Them as Well as Aliens in New Order Issued by Secretary of War.

Washington.—On and after July 20 illiterates and non-English speaking citizens and aliens who declare their intention to become citizens will be permitted to enlist in the United States army for terms of three years. Instructions to this effect were issued by Secretary of War Baker.

These illiterates and non-English speaking recruits will be distributed to recruit educational centers, and in any case where enlistment is for special assignment, the recruit as soon as enlisted will be sent to that recruit educational center nearest to the organization for which he enlisted. Transfers will be made promptly upon the completion of the course at the educational center.

To carry out this policy recruit educational centers will be organized at Camps Jackson, Pike, Grant, Travis and Lewis, modeled after that at Camp Upton, New York.

### PASTOR IS GORED BY BULL

Head of Orphan Home in Iowa Is Killed in the Presence of Children.

Muscantine, Ia.—While trying to adjust a halter on a young bull Rev. Julius Doden, acting superintendent of the German Lutheran Orphan's home, south of this city, was fatally gored.

He died 15 minutes after the accident, which was witnessed by a score of children and employees, who were powerless to give aid.

Rev. Mr. Doden was for 27 years pastor of the Lutheran church at Wilton, prior to which he was teacher in the Muscatine parochial school.

Wireless Courtship Ends in Marriage, Pittsburgh.—After a courtship and proposal conducted solely by wireless telegraphy, Burton P. Williams and Miss Marina Carson of Springdale, Pa., were married at Pittsburgh. Mr. and Mrs. Williams both hold operators' licenses listed as first class by the federal government.

### DOES IT PAY TO WORK?

Present Reward May Seem to be an Incentive to Extra Effort. But When Hard Times Come, He Whose Record for Producing is Good is More Likely to Be Retained on the Job.

From the Literary Digest.

That civilization was won and is maintained by hard work seems to have been forgotten by some of our contemporaries. Plenty of nations and races are getting along with a minimum effort; but they are not the ones that count in the world. Mental and physical labor is absolutely necessary, not only to advance us in the struggle for betterment, but even to keep us from slipping back.

In an article contributed to the American Machinist E. H. Fish, who writes under the pen name of "Entropy," asks the question, "Why Work?" His answer is that it is the worker who succeeds, individually as well as collectively. Of two men, one of whom works a little more than is required to do and the other a little less, or even just as much, it is the former who holds his job, who saves money, builds up a home—lives a real, continuous life instead of one in scraps.

The community rewards, and always will reward the producer, be his product objects or ideas. Its non-workers it may tolerate for awhile, machinery, says Mr. Fish.

**Answer in Future**  
but they are no part of its permanent "In these piping times of peace," he says, "when everyone is thinking of everything except his duty, and when fireman dare not fire a workman for fear of starting a strike that will cost a great sum of money,

the question is in many minds, 'why work?' Many are answering the question by not working any more than they can help, with the result that time hangs heavy on their hands, the 8-hour day seems longer than the 10-hour day ever did, and the cost of living mounts faster and faster.

"But what are the incentives to work hard? Individual effort brings neither additional money nor thanks, but only the disfavor of other workmen."

"The only man who works in the real sense of the word today is the far-sighted chap who can imagine the time when he wants a job and a lot of other people want the same job. He is the man who understands that at present we are only kept in a stable position by spinning around like a top, and that when we begin to whirl only ever so little more slowly are we bound to tumble. When the crash comes, and shops have let men go, they always retain what they call their organization if it is possible. By this they mean that essential minimum of men who are profitable, and whose morale, instilled into the green men whom they will pick up when the tide turns, will build a harmonious force. This does not necessarily mean that they keep their most capable men, but the most dependable ones."

Just how good an investment is it for a man to do twice the work now that is necessary to hold the job? asks Mr. Fish. No one knows precisely, but for a long time we have run on cycles of about ten or twelve years of which less than half have been spent in real prosperity and nearly all the rest of the time spent in climbing painfully out of the slough into which we, have been pre-

cipitated almost over night. He goes on:

"The fair weather man has had good wages less than half of the time since the Civil War, and he has had starvation wages the rest of it. He has had practically half wages for the past fifty years. The man who has stuck to the ship through thick and thin has had just as good wages during good times, and in proportion to the cost of living he has had more than good wages the rest of the time."

### CLEAR UP EXEMPTION

#### Treasury Department Gives Explanation of Tax Problem.

**Total Possible Exemptions From Federal Income Surtaxes and Profits Taxes is \$160,000.**

Washington.—The treasury department has explained the tax exemption limits on 4 and 4½ per cent Liberty bonds. The total possible exemptions from federal income surtaxes and profits taxes is \$160,000.

The following summary of tax exemptions limits was given:

Five thousand dollars in the aggregate of first and second 4s and 4½s, third and fourth 4½s, treasury and war savings certificates.

Thirty thousand dollars of first and second 4½s, and fourth 4½s until two years after expiration of war as fixed by presidential proclamation.

Thirty thousand dollars in aggregate of first and second 4½s, third and fourth 4½s, as to interest received after Jan. 1, 1919, until five years after termination of war.

Forty-five thousand dollars in aggregate of first and second 4s and 4½s and third 4½s, as to interest received after Jan. 1, 1919, until two years after termination of war this exemption conditional upon original subscription to and holding on date of tax return of two-thirds as many bonds of the fourth Liberty loan.

Twenty thousand dollars in aggregate of first and second 4s and 4½s, and third and fourth 4½s, as to interest received after Jan. 1, 1919, conditional upon original subscription to and holding at date of tax return of one-third as many bonds of Victory loan.

All Liberty bonds and Victory notes are exempt in hands of foreign holders.

Liberty 3½s and Victory 3½s are exempt from federal, state and local taxation except estate or inheritance taxes, and 4 and 4½ per cent Victories are exempt from state, local and normal federal income tax.

# Another Picture Show For Clovis

## WHERE?

Anywhere in the heart of the business district.

## WHY?

Because Clovis needs another good show house. There is no other place of amusement to go.

## WILL IT PAY?

Certainly. Under the co-operative plan when every stockholder becomes a booster, we believe it will prove to be a regular mint.

## SAVES YOU MONEY

You can see the show regularly. Your children can go often. You can see the best and most expensive pictures on the market and if you are a STOCKHOLDER, you can get your money back with dividends.

## PRICES

We can charge REASONABLE prices for first class pictures, have an occasional vaudeville troupe and feel assured that we can still make it a big financial success.

## CO-OPERATION MEANS

That those who are participating members under the Rockvale co-operative plan, can have all its advantages and can get the best service at cost or possibly less than cost. The other fellow will soon pay for it as YOU ARE NOW DOING.

## THE PLAN

In brief, we propose to sell sufficient stock at \$25.00 per share to buy a site in a good location in the heart of the city of Clovis, build a good, comfortable and attractive show building (one that will be a credit to any town), and to furnish it throughout with all modern conveniences and equipments. We believe that the town is large enough now for another good picture show and that it will pay big dividends from the start. With all its stockholders as patrons and boosters there is no reason why it should not prove to be a success. Clovis is a town of some 6,000 inhabitants and is rapidly growing. IT HAS NO PARKS, SWIMMING POOL, POOL HALLS, OR OTHER PLACES OF AMUSEMENT. PEOPLE MUST HAVE AMUSEMENT. THEY DEMAND IT. There is at present only one place of amusement in Clovis. That is the one picture show. An investment under the co-operative plan will doubtless come back to you, with interest. The fellow who is not a stockholder will soon simply pay for your amusement and will soon want your stock at above par. Only a limited amount will be sold. All money received less actual expenses will be deposited in the Clovis banks. Think it over. We want quick action.

## COX WILL RETIRE AFTER NEXT YEAR

Now Considering Trip Abroad To Study Conditions in Europe.

Dayton, O., Nov. 3.—Governor Cox, defeated presidential candidate, looking forward to the time he will surrender his state office in January, announced tonight that he was considering a trip abroad next year to study conditions in Europe. Meanwhile, he said, he planned to work and rest, leaving here for the state capital on Friday, and starting the middle of next week for a hunting trip in Mississippi.

Today found Governor Cox apparently in the same mental state as when he watched the returns last night, bringing in continuous unfavorable news.

His smile was still apparent tonight and the mass of telegrams seem unanimous in declaring he made a "good fight."

### COUNCIL REJECTS ALL BIDS FOR SEWER WORK

At a meeting of the city council Monday evening all bids for construction of sewer extensions were rejected. Several bids were received but none called for work to begin until spring, and in view of the fact that prices will probably be much lower by that time, the bids were rejected.

Members of the council estimate that a saving of at least \$5,000 can be made by waiting until spring to let the contracts.

## THE KITCHEN CABINET

Having a purpose in life is essential to bright living. Unless a man is now living to a purpose, he has either not yet begun to live, or he has got through living; and in either case he is out of place in the world.

### COLD MEAT COOKERY.

So often a few slices of some choice roast, steak or stew is allowed to waste because the family is tired of it, when a little different way of serving the meat, a new sauce, would make it a most attractive and appetizing dish.

**Roulade de Boeuf.**—Take a pound of cold roast beef, free it from skin, bone and gristle, and put it through the meat grinder with a third of a pound or less of ham or bacon, lean and fat together. Season highly with salt and pepper, add a teaspoonful of finely minced olives, a few drops of tabasco, a teaspoonful of minced parsley, a little lemon peel and a pinch of nutmeg. Mix all together and add a half cupful of cooked macaroni, cut in one-inch lengths and tossed in butter. Add the well-beaten yolks of two eggs, and the whites beaten to a stiff froth. Mix well, roll and cover with a greased paper and bake in a well-greased baking pan in a moderate oven one-half hour. Serve with the following sauces: Add salt and pepper to a pint of tomatoes which have been put through a sieve. Add a teaspoonful of sugar, a tablespoonful of vinegar, a teaspoonful of onion juice, or a half clove of garlic minced. Cook until reduced slightly in bulk.

**Canneton a la Royale.**—Take a pound of cold roast veal, free it from skin and fat and grind it twice through the meat chopper. Add to it a quarter of a pound of ham also minced. Add salt, pepper, minced parsley, half a teaspoonful of minced shallot, a little grated lemon rind and a pinch of nutmeg. Mix well, add two well-beaten eggs, shape in a roll, cover with buttered paper and bake a half hour.

**Mutton Reheated.**—Underdone mutton can be turned into a very nice dish. Cut a sufficient number of slices from a leg of mutton; cut in rounds or squares. Place a tablespoonful of butter in a plate. Add to it a tablespoonful of Worcestershire sauce and salt to taste. Have ready well-browned toast, place a piece of mutton on each, place in a hot oven and bake ten minutes.

### YIELDED TO TATTOOER'S ART

Many Royal Personages Have Been "Decorated"—Amusing Experience of Swedish Monarch.

It was no secret to his intimates that King Edward VII of England subjected his arm to the art of a tattooer when he was prince of Wales, nor is it a secret that his son, the present king, was tattooed by a skillful Japanese, when as a midshipman on board the "Bacchant" he visited Japan many years ago.

The late czar of Russia wore an indelible India-ink dragon on his left forearm, and quite a number of other European royalties, past and present, have received these indestructible "decorations."

But the experience of Charles XIV of Sweden and Norway, makes an interesting little story by itself. It was always a puzzle to those most intimately associated with him, that he would never show himself anywhere with bared arms. It was not until his death in 1844 that the mystery was explained. On his right arm were tattooed neither a dragon, an eagle nor an insignia of high authority, but instead the red cap of Liberty, and the motto, "Death to Kings." As Jean Baptiste Jules Bernadotte, in his young republican days in France, he had been thus tattooed, never dreaming that later he would be called to the throne.

### SHEEP KILLED THEIR ENEMY

Ordinarily Timid Animals Worked in Concert to Stamp Life Out of Big Rattlesnake.

One summer morning a farmer in Virginia started out to salt a small flock of sheep that he had recently put into a hilly, overgrown field some distance from his home. At the pasture he called for some time, but seeing or hearing nothing of the sheep he walked down toward the middle of the enclosure and mounted a tall stump at the edge of the brier patch. From this point of vantage he could see the flock on a piece of level ground scarcely 50 yards below him.

The sheep were crowded into a swaying excited circle some 20 feet in diameter.

Presently, while the sheep were standing still, a big wether made a spring, landed with his feet in the very center of the ring and bounced away like a rubber ball. In a flash another followed his lead, and another, until all had leaped on the same spot. Then away they swept down the hill.

Stepping down from his perch, the farmer made his way to the scene of this strange performance. By the side of the trampled brier clump lay the mangled remains of a big rattlesnake.

### VISITS CLOVIS WEDNESDAY

Dr. J. D. Lynch and Bob Jones of Melrose were Clovis visitors Wednesday. They came over to bring the official election returns. Dr. Lynch is the newly elected County Commissioner from the Melrose district. He will not be new to the duties of this important office for he has served on the job before.

### FALL MAY BE IN HARDING'S CABINET

Although nothing authoritative has come from Senator Harding, campaign gossipers have repeated frequently that Senator A. B. Fall of New Mexico will be tendered a place in the president's cabinet, possibly secretary of state. If this is the case the governor of New Mexico will have the appointment of his successor.

### BOND ISSUE DEFEATED

The state road bond issue was overwhelmingly defeated in this county as it was over the entire state.

### ELECTED PRESIDENT ON HIS BIRTHDAY

Nov. 2 is a lucky day for Warren Gamaliel Harding.

On that day, in 1865, he first blinked at the light.

On that day, just 55 years later, he was elected president of the United States.

Is there any connection between the date of his birth and his success? Astrologers place great importance on birthdays, as indicating the influence of the planets on human affairs. They believe that the particular and relative positions of the heavenly bodies, at the time of birth, affects a human being's whole life.

## "THE CRADLE OF COURAGE"

His Newest Paramount Picture

His faith was shattered—his pals' curse on his head—his brother's death on his hands—loathed—called yellow.

He was the slickest crook on the coast—just back from the war and his pals had a job for him. But when the gang brought out his "tools"—well—he quit the gang. He said, "Tomorrow, I'm Kelley, the cop."

The rest is a hurricane! One of the finest, biggest, most thrilling stories ever filmed. A class "A" picture that you'll enjoy. See it.
