NEW MEXICO TOWNS

LAS VEGAS.

From the Optic.

A. T. Rogers, Jr., is the new secretary and treasurer of the Montezuma club, vice Col. R. C. Rankin, resigned. Bishop Hendricks of this diocese will hold confirmation services at St. Paul's Memorial church Sunday, February 23.

E. O. Blood is still living in high hope that his valentine on February 14 will be about the size of a commission to be postmaster at East Las Vegas, the present incumbent's commission expiring on that date.

Mrs. L. L. Wilson, sister of Mrs. J. C. Bromberg, is laid up for repairs, she having tripped on a rug, falling heavily to the floor and sorely injured her left arm and side.

The little daughter of Mr. and Mrs. Walter H. Jobe, was christened this afternoon at their residence on Eleventh street by Rev. H. C. Mackin. Mrs. J. J. Schmidt was sponsor for the little woman. Her name is Marian Stevens Jobe.

The quarterly communion service was held yesterday at the Methodist church. Supt. A. P. Morrison was present, but was unable to preach. He told in a touching manner about the wreck he has just passed through and expressed his thankfulness that it was his shoulder and not his neck that was thrown out of joint. Rev. A. M. Lumpkin preached a strong sermon on the "Holy Spirit." A large crowd attended.

A skating party has been organized for Friday night.

Five Baptist missionaries, under appointment of the national societies, are now working out of Las Vegas.

John Pfeiffer has come up from Lamy to consult Dr. J. E. Mohr about those rheumatic pains that are shooting and darting through his anatomy.

Bacharach Bros. have purchased the entire stock of millinery carried by Mrs. Kenestrick, also her fixtures. It is understood she will continue in the dressmaking business.

The wife of a local barber wielded a razor gracefully and deftly in the absence of her liege lord from the shop, on account of sickness, Saturday night, the busiest of all the week.

Judge Baca, of precinct No. 5, wanted some gentlemen to serve on a jury in his court. They insisted that they were not real estate holders, but the judge waived the objection, exclaiming, "what's the difference, you are all married."

James Clay went to Tecolote today. His little daughter recently had the diphtheria and he was in quarantine. She got well of diphtheria and caught the chickenpox. Mr. Clay was in quarantine some more. His little daughter is better again and the man of clay left town while he had an opportunity.

Nicholas Chaffin employed a saddle-colored con tramp to work for him Sunday. The negro got dissatisfied with his position about 4 o'clock yesterday morning and cleared out, taking as souvenirs three Navajo blankets and one pair ordinary gray blankets and one pair rubber boots. He is 23 years of age, five feet and ten inches in height, of a bright copper color and wore a corduroy suit and a white hat.

From the Record.

Nleanor Tofoya purchased a flock of ewes from Colonel Hutchison today.

Alfonso Sena left yesterday afternoon for Springer, where he has secured a position.

The public library will clear at least \$100 on the performance given for its benefit last Friday evening.

Julius Judell returned Saturday evening from Santa Rosa, where he spent all of last week on business.

Howell Givens and bride returned yesterday from a several weeks' wedding tour through the east.

L. G. Hazard and wife, late arrivals in the city from Chicago, have gone to housekeeping at 1005 Fourth street.

In consideration of \$35, B. F. Forsythe has transferred to Mrs. Mary Marsh eight feet and four inches of lot 28, in block 34, of the Hillside Town company's addition.

A petition has been filed in the district court by Charles Rosenthal, guardian of Louis I. Rosenthal, minor, asking permission to sell some certain real estate belonging to said minor.

A \$35 watch belonging to Joe Char-

woky, watcher of the sand at the round house, was stolen yesterday from his coat, which hung in the sand house, while he was at work elsewhere. The watch and the thief have disappeared, leaving no trace behind.

A Mexican, of Los Alamos, who has been in the city only a short time, has taken the liberty of hauling trunks without a license, on which charge he appeared before Judge Wooster this morning. He was admonished by the judge to discontinue the business or secure a license, and told to go in peace.

The baby boy of Mr. and Mrs. Cleofa Romero, after a brief illness, has about recovered.

Howell Givens, the genial solicitor for Gross, Kelly & Co., after a few weeks' lay off, is again at his former duties.

T. J. Higford writes from Buffalo that he had a narrow escape from death owing to heart trouble, but states he is some better now.

Rev. George H. Brewer, of Albuquerque, will give an address at the Baptist church on "The New Cities of New Mexico."

The uniforms for the troop of cavalry have arrived, and the horse equipments are expected in a few days. Non-commissioned officers will be appointed at next meeting of the troops.

Two tramps got into a fight on the Hot Springs branch last night and one of them was badly beaten. The latter returned to the city and told a fairy tale about being held up and beaten by a footpad, on the strength of which he had his wounds carefully dressed.

The remains of Mrs. H. M. Stecker, accompanied by the bereaved husband and C. F. Jones, arrived in the city from Asheville, N. C. The funeral will take place from the residence of her sister, Mrs. C. F. Jones. Rev. Norman Skinner will conduct the services.

SANTA FE.

From the New Mexican.

Rosa McMillan, who is in the sheep business in Socorro county, was an arrival on last evening's train from the south, to visit his parents, Judge and Mrs. McMillan.

Mrs. Prince has quite recovered and is on her way home from the residence of her sister in New Jersey. She will stop a day or two each in New York, Washington, Detroit and Chicago, visiting relatives and friends, but may be expected in Santa Fe next week.

Mr. and Mrs. Brigham Young, of Salt Lake City, arrived last evening over the Denver & Rio Grande railway from Fruitland, San Juan county, where Mr. Young had been very ill. Mr. Young stands high in Mormon circles, being a son of the late Brigham Young, for many years the leader of the Mormons.

A carpenter named Wentworth yesterday lost \$150 in five and ten-dollar bills in front of the Claire hotel. He suspected that a commercial man had stolen the bills and swore out a search warrant. A commercial man, however, started for Espanola in a team and was followed and searched, but the money was not found on him.

I. Sparks and family have returned from a visit to relatives at Denver. Mr. Sparks is the manager of the Santa Fe Water & Light company, and while at Denver put in some good work for Santa Fe and its industrial interests.

George W. Schoch returned on last evening from Magdalena, Socorro county, where he had been on business appertaining to the Graphic Mining & Smelting company, of which he is the president.

Jesus Romero, a storekeeper at Cerrillos, is on a visit to the Capital City.

Mrs. Z. Cowes, of Ashbury Park, N. J., interested in New Mexico mining projects, is a guest at the Palace hotel.

George W. Bond, of Wagon Mound, of Bond Brothers, the Wagon Mound and Espanola merchants, arrived in Santa Fe last evening on his return from Espanola.

Mrs. Henry Connelly, of Albuquerque, niece of Mrs. Berge, is a guest at the Berge home on Grant avenue.

Mrs. C. W. Dudrow received word yesterday that her mother, Mrs. R. H. Taylor, is very ill at Los Angeles.

Rev. W. H. Moore and family, who

were to have arrived from Denver this evening, are detained in that city by the serious illness of their youngest daughter.

Dr. J. L. Norris, of Washington, D. C., has arrived in this city with a view to making New Mexico his permanent home. Although a young man, Dr. Norris has had considerable experience in his profession and comes highly recommended.

Hon. Benjamin M. Read, ex-speaker of the house of the New Mexico assembly, has received a request from the University of Vienna, Austria, for a set of rules and procedure which governed the thirty-fourth legislative assembly. The university, in its political science department, is making a collection of rules of all parliamentary political bodies in the world.

FARMINGTON.

From the Times.

About two inches of snow fell Friday morning, but it was nearly all gone in the afternoon.

Judge Pendleton, who now has charge of the Howe place on the peninsula, has rented it to Mr. Blake of Aztec.

Judge Pendleton had Edward Olsen and J. W. Stenson of Baker, Nebraska, here, showing them over the country. They bought lands on the La Plata.

Leo Burnham, who represents the Stark nursery in this section, was in town Saturday. He has been trained in orchard raising in this county, and can give you the best tree as well as the best advice in selecting.

Miss Draper, who has just closed a successful term of school at Olio, will take charge of the intermediate department of our public school next Monday. It will be the beginning of the fourth month and fourth teacher, and it is to be hoped that this will be the last change.

George H. Eversole, the enterprising bee observer of the La Plata, brought in a bucket of honey for us yesterday, which is finer than any we have ever tasted, whether produced in California, Arizona or any other of the bee districts in the United States. He made over \$700 off his apinary last year and what he does not know about bees is pretty hard to find out.

From the Hustler.

F. E. Johnson has accepted a position as manager for the Hyde Exploring Expedition's branch store at Kimmetoh, about twenty-five miles east of Pueblo Bonito.

The Indian department of the government has begun work on the construction of a thirty-five-foot canal to cross what is known as the five-mile mesa, fifteen miles this side of Durango, which will make that heretofore arid district blossom like the rose.

The poles for the City Electric Light system were placed in position this week and linemen are now engaged in stringing the wires. The power house is also well under construction, and unless something unforeseen happens Farmington will be supplied with modern light within a fortnight.

M. C. Picken and C. C. Pinkney are both home on a short stay. These gentlemen are winter ranging their sheep in the Seven lakes country, southeast of Pueblo Bonito. They report grass exceptionally good, but water scarce. Over 200,000 sheep are ranging in that district, where the Indians wisely banked up the water holes and are now reaping a harvest selling it to the stockmen.

The Hyde Exploring Expedition are getting the material on the ground for the erection of an immense implement warehouse adjoining the new store. It will be built of corrugated iron, covering a space 100x125 feet. A large waterroom will also be built back of the present grocery quarters, for the storing of iron and hardware supplies.

I. N. Pepper, the Kansas City gentleman who was here several weeks ago, considering the advisability of extending and enlarging the Grand canal from Aztec to the La Plata river, has finally concluded to abandon that project and instead construct a canal along the San Juan river, heading three miles above Blasco, running in a westerly direction some twenty miles, supplying water for over 10,000 acres of arid lands.

AZTEC.

From the Times.

The ice crop is not a very good one so far this winter.

W. S. Dalton got home from a trip to Gallup.

Jonathan G. Biggs made final proof Monday on his homestead entry on land near Jackson. His witnesses were Elmer Taylor and Jesse P. Steele.

J. W. Stenson and Edward Olson of Baker City, Nebraska, who arrived here to look over the country, departed for home Tuesday morning, having purchased three of the best ranches in the fertile, famed La Plata valley.

The third annual declamatory contest for a gold medal will be held at Farmington on or about May 15th, open to all in San Juan county, Aztec and Farmington to be limited to two con-

testants each. This is the contest instituted by Mr. C. A. Grommet. It has attracted the favorable attention of the people of the county and has been the means of renewing interest in elocutionary methods and instruction in all of our schools. A creditable entertainment may be looked for.

The San Juan County Cattle Growers' association met in Aztec last Saturday and elected officers for the ensuing year. W. J. Wright, Esq., who has held office as president since the organization of the association, declined to longer act in that capacity, and E. R. Stewart, the present efficient cattle inspector of the county, was chosen in his stead. The new officers are as follows: E. R. Stewart, president; Price Walters, secretary; George Blaneet, treasurer; Charley McCoy, H. N. Rathjen, B. H. Milleson, J. M. Morrison, John Swire, directors. Another meeting of the association will be held at Aztec on the first Saturday in March.

SPRINGER.

From the Sentinel.

Mrs. J. B. Plack's mother is very sick with pneumonia.

Mrs. J. D. McGrath is reported very low and her recovery is now very doubtful.

J. D. Trujillo has been appointed constable for this precinct to fill the vacancy of J. B. Martinez.

Mr. and Mrs. H. C. Parberry, parents of Mrs. S. C. Pandolfo, after a brief visit here with their daughter, have returned to their home at Jamesport, Mo.

Mrs. Wilhelm, while crossing the arroyo in front of Mr. Seaberg's residence with her baby and baby carriage, lost her balance and fell, with the baby, into the arroyo, breaking one of her lower limbs. The baby was uninjured. Mrs. Wilhelm is at present as comfortable as can be expected.

Late reports from Cimarron say the dread disease, diphtheria, has spent its force. There are yet a number of cases but it is thought no more deaths will occur. With the experience of a number of years ago before them, the people of Springer have taken all precautions to prevent an outbreak of the disease here.

The advanced pupils of the Springer public schools, aided by their principal, have organized the Olympian Literary society, which meets every Friday night. They are getting much benefit out of the society in the way of debating, reading, declaiming, etc. It is the purpose of the society to occasionally give public entertainments, which will undoubtedly be highly entertaining.

RATON.

From the Range.

Miss Olive Hensley, of Denver, is visiting Miss Elizabeth Blackwell of this city.

A. P. Gomer has been appointed general superintendent of the coal mines at Blossburg and Gardiner.

Eugene Twitty has recovered from the surgical operation he underwent last week, sufficiently to be up and out occasionally.

A barkeeper and a miss of about 15 years, of Raton, suddenly took their departure together last Sunday night for parts unknown.

Miss Louise Jacobs, who has been visiting at Mr. Burnham's, was called to Pueblo Tuesday by a telegram announcing the serious illness of her mother.

J. W. Crouse has purchased the interest of T. E. Morrow in the furniture business heretofore conducted under the firm name of Crouse & Morrow, and will hereafter conduct the business individually.

Edward F. Bailey and wife, who made the trip by wheel from San Francisco to Raton, and who rested up in this city some weeks, left Tuesday on their bicycles for New York City. They had no money and were burdened with but few clothes and some tools for bartering, which latter Bailey will use along the route to earn money to pay expenses.

ELIZABETHTOWN.

From the Miner.

Jack Williams is busily engaged these days in putting up ice.

Theo. Cannard, who has been visiting at his old home in Utica, Ill., is expected to return in about ten days.

J. A. McIntosh has sunk the well on his lot to about eighteen or twenty feet and has a splendid flow of good water.

"Novelty" Rogers, the shoemaker who is well known here, and left some time ago for the southern part of the territory, is now located at Lake Valley.

C. W. Wright, the traveling salesman for an Albuquerque cigar house, was in town interviewing the merchants concerning their need in his line.

Miss Agnes Jackson, of Ute Creek, came up the first of the week to visit her aunt, Mrs. Dougan. Miss Jackson will be the guest of Dr. and Mrs. Cahill.

W. D. Canon, of Red River, has rented the tillable land of J. W. Turner's

ranch, and has moved into a part of the house on the premises. Mr. Turner will devote his attention to caring for his cattle.

Mr. Mortenson has made another contract with C. J. Dodd to deliver 50,000 feet of logs at the saw mill and has entered upon the work. When this contract is completed it is probable that another contract will be let for the delivery of 100,000 feet more.

DEMING.

From the Herald.

Mrs. Gilbert Ray Brown has commenced proceedings for divorce from her brutal husband, who, it will be remembered, attempted to stab her to death with a knife about a year ago, but only succeeded in marking her for life. Brown is still hiding in Old Mexico, A. W. Pollard, Esq., of Deming, is Mrs. Brown's attorney.

Among the business men mentioned for village trustees are A. J. Clark, W. R. Merrill, Judge Field, John Corbett, W. P. Tossell, John Stenson, W. C. Wallis, Otto Smith, Lou H. Brown, Thomas A. Carr, Henry Meyer, A. J. Pickarts, H. F. LaMaster, W. J. Wamick, James A. Tracy, S. Lindauer, J. A. Kinneer, H. Nordhouse, Nate Beals, James Hannigan and others.

Mrs. A. J. Clark and Mrs. Purcell went to the end of the Bisbee railroad canvassing for funds for the construction of the new Catholic church of Deming. The ladies were very successful during their trip. Mrs. Clark informs the Herald that \$2,290 has now been subscribed for the church and that every dollar of it is ready when wanted. The church will be a brick edifice and cost about \$3,500. Next year it is hoped to erect a Sisters' school.

Dr. J. O. Michael was called forty miles out in the country, on the Bisbee & El Paso railroad grade, to attend Mrs. W. G. Love, wife of the foreman, who was suffering from typhoid pneumonia. The doctor made the lady as comfortable as possible, and, in company with her husband and two children, brought her into town, where the family secured comfortable quarters at Grandma Milligan's, and where Mrs. Love can receive the necessary medical attention and good nursing.

CLAYTON.

From the Enterprise.

Miss Millie Reinfeldt, who has been visiting Mrs. Carl Edmund for the past two months, has returned to her home in Denver.

Harry Powell, who was so badly hurt in the Barela wreck, came in from Trinidad the first of the week, where he had been in the hospital for some time.

Cattle Inspector T. A. Gray had the misfortune to freeze both his hands recently quite severely, so that he is just a particular how and with whom he shakes hands now.

While John C. Hill's four-horse wagon was being driven into town last Wednesday evening, the horses became frightened and ran away, resulting in the breaking of the leg of one of Mr. Hill's horses so badly that the animal had to be killed.

ROSWELL.

From the Record.

J. W. Robinson, who came here a few months ago in search of health, died on Saturday last. The body was shipped on Sunday to his former home at Richmond, Va.

The annual meeting of the stockholders of the Citizens' bank resulted in the following list of directors: J. W. Poe, Nathan Jaffa, J. O. Cameron, W. G. Urton, John Shaw, Frank Calfee, J. J. Jaffa. This is the same as the old board, with the exception of J. J. Jaffa, who succeeds E. W. Houx.

A good audience was present at the Presbyterian church to hear Dr. C. E. Lukens deliver the last of his series of lectures on the pre-historic and

present races of New Mexico and Arizona. The speaker was at his best and the views were remarkably fine. Altogether, the lectures have been of a very high character.

Mrs. Oliver, of Nickerson, Kan., is visiting with Mrs. W. G. Urton. Mrs. Oliver was formerly Mrs. Cox and owner of the -V brand of cattle now owned by Mr. Urton's company. The ladies first met sixteen years ago and introduced themselves across the roaring, muddy Pecos, visiting by long distance this way for several days before the river subsided sufficiently for either to cross.

CARLSBAD.

From the Argus.

Eddy Grove, No. 5, Woodmen of the World, installed the following officers Tuesday night: C. O. Merrifield, C. C.; J. K. Gibson, A. L.; J. B. Leek, banker; D. B. Sutherland, clerk. The lodge has decided to give a grand ball and supper at the opera house on the evening of February 25th. Details will be given later.

Justice Emerson has heard a number of minor cases since assuming office. Last Saturday George Cason and Bud Colbaugh pleaded guilty to carrying six-shooters and were fined \$5 and costs. On the same day Thomas Maidens pleaded guilty to petty larceny and was fined \$10 and costs. On Wednesday W. L. Robo sued John Nymeyer on a note for \$17.65, which was settled by agreement.

Deputy United States Marshal F. W. Hall arrested and brought into Carlsbad, this week, Mont. Beckham and Adam Hecker, and lodged complaint before Commissioner Emerson, accusing the two men of driving off the public domain, at the point of a Winchester, a well drilled by the name of Albert Williams. It seems the latter started to drill a well on the public land near the J. A. L. range, east of here, and the defendants objected as prior occupants of the range, and sustained their objection with rifles. Beckham and Hecker were also charged by Deputy Sheriff Hugh Wells with carrying deadly weapons, Justice Emerson hearing both cases. The accused waived examination and were bound over in \$250 for the last offense and \$500 for the first. They gave the bonds.

TULAROSA.

From the Democrat.

Mrs. James Knight, who has been very ill, is recovering slowly from the attack.

J. J. Sanders butchered nine hogs last Tuesday, eight of them averaging 250 apiece, and the ninth one weighed nearly 400.

Judge Roberts has reconsidered his resignation as justice of the peace of precinct No. 3—by request of county commissioners. He is still on deck and holds the fort.

Professor Salcido, an excellent teacher, who has been teaching in Gonzales' building for several months, has opened a school in Miss Le Min's building, in the room formerly occupied by our primary school the past term. He will teach both English and Spanish.

Of Local Interest.

Fred J. Otero of Albuquerque is in Santa Fe on a business visit.

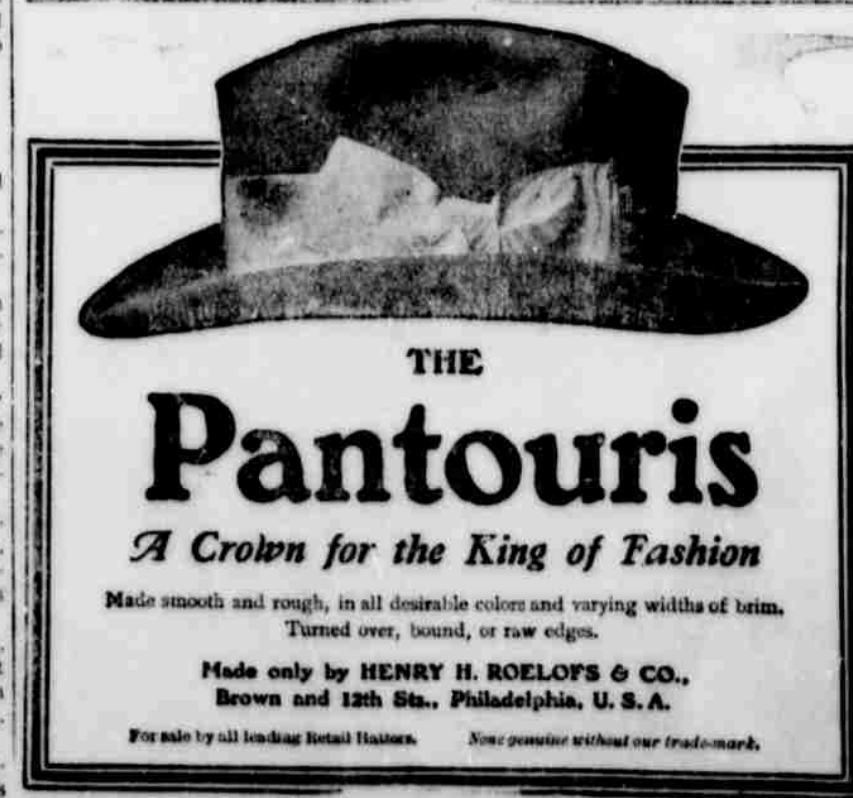

R. W. D. Bryan, Esq., of Albuquerque, is in Santa Fe today on legal business.

Mrs. Mariano Armijo of Albuquerque arrived yesterday, accompanied by her daughter, Miss Armijo, and two younger children. The party is stopping at the residence of Mrs. Armijo's father, Colonel J. Frank Chavez, and will remain here until after the Manderfield Armijo nuptials—New Mexican.

J. A. Skinner went home sick this afternoon.

 Three Months, \$1.50
 Single Copies, 10 Cents

THE ENLARGED CITIZEN.

The Citizen, with today's issue, enlarges from a four-page eight column paper to an eight-page sixteen column paper, giving the people the benefit of forty-eight columns instead of thirty-two columns, as heretofore, the extra columns, independent of those devoted to advertisements, to be filled with territorial news from both New Mexico and Arizona.

In order to make these improvements The Citizen has just installed a Correll two-revolution press and a folder, besides another linotype machine, and several hundred dollars' worth of new type supplies, and, while the paper has been the best published in the southwest, the additional facilities will enable the proprietors to keep The Citizen always in front of all of its competitors in the southwest.

New features will be introduced at intervals during the year, and the readers of The Citizen are assured that the very latest and most reliable news will be found within its columns.

The old press, just abandoned, is a Chicago Taylor drum cylinder, and one of the best presses manufactured in its day. The Chicago Taylor was a long history of good service, as it was the first press taken to Denver and on to the Rocky Mountain News, when a six column sheet, was printed. After Denver, it did service in Las Vegas, upon which the Gazette, long since dead, was printed, and a few years later was shipped to this city and was a part and parcel of this office. It is a good old landmark, and, with care, is capable of doing good work for any ordinary printing office for many years to come.

The decline in the use of bicycles has necessitated a reduction of capital stock of the combination from \$80,000, to \$27,000,000.

Prosperity continues to assert itself in all its glory in southern California. A Los Angeles lawyer has been held up and robbed of \$2.

Recent paintings found in Egypt show that Noah was not the inventor of the boat. The Egyptians have used them for eighty centuries.

For the first time in the history of the United States senate the chaplain offered a prayer for the newspaper reporters last week. He cannot be looking for favors, for he is blind.

Sir Thomas Lipton has given orders for the construction of another yacht, Shamrock III. From the name it appears that Sir Thomas believes that it will be three times out—with the cup.

Eighty-four square inches of land offered for \$1,000 is the biggest "ask-price" yet recorded in New York City. Yet full lots have been sold at prices between \$2 and \$4 per square inch.

The train robbers who went through an express car in Arkansas Thursday were good to the express messenger and handed him back his revolver after the job was over. This is all right; we do not like to think our American hands are any less courteous than those of Bulgaria.

It is quite likely that the sensational story concerning the blowing up of a British transport loaded with mules for South Africa will prove to be no sensation at all. It is probable that a storm arose in the gulf and that the only method of saving the ship was by throwing part of its cargo overboard, or the ship itself may have foundered in the storm.

Ex-Congressman Springer was making a speech to the house committee on agriculture Thursday in behalf of oleomargarine, representing the Live Stock association. If the great live stock concern can not make a living without imposing counterfeits upon the consumer it would better to rent out the cattle ranges to the growers of Belgian hares, who if not cattle kings are honest, at least.

H. H. Kohlhaas has retired as editor of the Chicago Record-Herald, though he is still the principal owner, and is succeeded by Frank H. Noyes. It was only a few days ago that the Inter-Ocean changed hands. Somehow the big Chicago papers do not show a tendency to remain for a lifetime in the same control, as do those of New York, and Chicago journalism is subject to vicissitudes equal to those of its politics.

RIGHT KIND OF A GOVERNOR.

The new governor of Iowa is all right. He is another of those practical republicans whose straightforward utterances disarm and give the lie to unscrupulous politicians of the opposition who seek to make it appear that the republican party is secretly or in any other way favoring concentrations of capital against the interests of the people. Mr. Cummins in his inaugural address spoke strongly in favor of compelling all corporations, before they are permitted to do business, to show that their stock has been all paid for, in money and in the regular way. He said of the question of over-capitalization and its aggressions, "I believe the question is a national one and that the time has come to nationalize it. I recognize the difficulty of amending the constitution of the United States, but I know that whenever the people are sufficiently in earnest it can and will be done."

KANSAS POPULISTS.

The populists of Kansas are to hold a state convention at Topeka February 21. It will be an important one and will determine the future of the "people's party." Meanwhile even Annie L. Briggs, the last remaining champion of the middle-of-the-road, has been given up the hope of making a national party and is in favor of joining the democrats. It is sad to see this. Even people who could not join

or act with the populist party had a certain amount of respect for it notwithstanding all the good humored pleasantry and pretended ridicule of its theories, because they regarded it as a party of positives, an organization having in view a more or less definite ideal of progress and improvement. But now if its members are to go over to that great mass of negation the atavistic, misnamed democracy, the nitrogen of politics, it would appear that the positives were only a blind, after all, and that the populists all the time were merely anti-everythings under another name.

BIG IMPROVEMENTS.

The Chicago Record-Herald says that the management of the Santa Fe has decided to spend \$13,000,000 for equipment during the present year. This statement was made by an official of the company, who added that the money would come from the proceeds of a new issue of bonds to the amount of \$30,000,000.

Just how the expenditure is to be apportioned was not stated, but it is known that an order has been given for 5,000 box cars, fifty mammoth freight engines and 100 more engines of smaller type, and practically all the passenger equipment of the company is to be renewed.

The official statement regarding the amount to be spent for equipment makes it plain what is to be done with the proceeds of the bond issue. It will take fully \$12,000,000 to give the company over 800 miles of new line free from debt. This sum and the equipment appropriation taken from \$30,000,000 leaves \$18,000,000. Of this amount fully \$2,000,000 will go toward new terminals in San Francisco and the balance will be used for grade reductions.

The chances for statehood are good, but not sure enough to bet on.

Let's begin early on the preparations for the life Territorial Fair next fall.

The El Paso midwinter carnival last week was a decided success in every way.

The Santa Fe Central is more vicious since it has lost its fight against Governor Otero.

Maine caught 5,000,000 lobsters last season. This is far in excess of California's oil suckers.

The postal authorities estimate that 15,000 people received mail at the Albuquerque postoffice.

It is only a little over two months until the city election. The people should select good candidates for city officials.

This city sent three hundred people to the El Paso midwinter carnival, and they enjoyed themselves in that enterprising and hospitable city.

Of the total population of 75,994,575 in continental United States, 19,718,312, or 25.9 per cent, live in cities of 25,000 inhabitants or more.

Berger and his little crowd at Santa Fe are discovering that it is poor business trying to tear men down. In fact, it is about the poorest occupation in which any one can engage.

This city has five large public school buildings, and they are already crowded to overflowing. The buildings must be enlarged this year. This city has the best schools in the territory and they must be kept at their present high standard.

The receipts of the Albuquerque postoffice for the first eighteen days of this month was over \$8,000. The business of the office is constantly increasing, which is a sure indication of the steady growth of the city.

It will take most convincing proof to convince the civilized world that Great Britain is conducting a humane war in South Africa. In the month of last December several hundred little children died in the prison pens of the English.

The other day Sir Ernest Cassel paid into the hands of King Edward \$1,000,000. This money is to be used in making experiments in the healing of consumptives and in building a sanitarium for tuberculosis victims. While only a drop in Sir Ernest's immense fortune, it was a practical philanthropy that may result in great good.

ARCTIC RAILROAD.

A bill has been introduced in the house of representatives making a grant of alternate sections of land in Alaska to aid in the construction of a railroad across that territory from Cook's inlet to the most westerly and available point on Bering sea.

The grant includes every alternate section of public land on each side of the proposed road for a distance of ten sections each way. This would make a grant of the alternate sections in a strip twenty miles wide, with the railroad track as the center. It is not as large in proportion to the length of the proposed road as the grant to the North Pacific or the one to the Atlantic & Pacific. It may be questioned, therefore, if it will be much inducement to capitalists to embark upon such a venture.

Cook's inlet, the southern terminus of the proposed road, is on the southern coast of Alaska, so situated that travel going by that route would avoid the passage around the long peninsula which extends southwestward from

the main land. The distance from Cook's inlet to St. Michael and the head of Norton sound is about 400 miles, across what is said to be a level country presenting few obstacles to the construction of such a line.

RULES FOR INDIANS.

The text of Commissioner Jones' recent circular to the Indian agents would indicate that for the first time in the history of many tribes, something is to be done toward giving the young Indians a chance to reap actual advantages from the white man's education.

Indian students who return to the tribal dress and customs are to be punished by withholding rations and employment. The wearing of citizen's clothing, instead of blankets and moccasins, will be encouraged and every effort made to induce the young Indian to break away from tribal customs.

This is the first step toward remedying a ridiculous feature of Indian "education," and it is to be hoped that it will accomplish immediate results. One of the chief reasons for the backwardness of the Indians of the southwest in taking up with the customs of civilization is the baneful influence exercised by the older tribesmen over the young Indians. The graduate of an Indian school, just at the time when he should be getting a start in the white man's world, is thrust back on the reservation and again takes up with the ways of the lazy "blanket Indians" who cling to tribal life. The result is worse than a waste of education, for the youth has all the white man's vices and none of his virtues.

St. Louis has a peculiar sect in the shape of a community of sandeaters, composed of seventy-five men and women, says the Pittsburg Dispatch. The sandeaters take every day a spoonful of sand. They believe that grit is necessary in every animal and that many stomach troubles are due to the absence of grit in the stomach.

The proverbial delay of the law is exemplified in a suit which has been pending in the courts of Virginia since 1787, entitled the Dismal Swamp Land company versus Anderson's personal representatives and others, and which the Richmond Times says is about to be settled. The amount involved in the suit originally was only about \$50,000.

WORLD'S SUPPLY OF GOLD.

It has been reckoned that in the deposit of clay on which the city of Philadelphia stands there is enough of the metal to build the fronts of all the buildings in the place, says the International Monthly. Here the amount is so small that it has no more prospective value than that contained in the sea water. Thus, while it may be said that whenever a person may be on the surface of the earth, or on the ocean, there is likely to be enough gold within a mile of his feet to make him a millionaire, the places where gold can conceivably be won at a profit are relatively few.

The most important increase that is to be looked for in vein mining arises, however, from the rapid improvement in the modes of applying power to such work. The gain in this regard in the last half century through the invention of power drills, more effective explosives, better hoisting systems and more efficient methods of treating the ores, is such that, on the average, in terms of labor, it probably does not at present cost one-third as much to win and treat a given amount of ore from underground mines as it did in 1850.

Making no allowance for future improvements in mining, we may evidently expect a very great and rapid increase in the annual supply of this precious metal from the betterments already effected. As to the extent of this gain there is no basis for a trustworthy reckoning; but those who have some idea of the amount of gold-bearing veins which can with skillful mining be made to yield a profit at the present rates of interest will probably be disposed to agree with me in the opinion that at anything like the present prices of labor the yield from this group of deposits is likely within twenty years to exceed \$500,000,000 per annum.

YOUR FOOTSTEPS

By the depth of his footsteps in the earth the Indians tell the weight of a man. Do you tread shallow or deep? Perhaps you would like to weigh more? If you are below weight and find that ordinary food does not build you up try Scott's Emulsion.

It is not a drug but a food that time has shown to have a real value in such cases as yours.

We'll send you a little to try, if you like. SCOTT & BOWNE, 425 Pearl Street, New York.

MINES ON PRIVATE LAND GRANTS.

Congressional Delegate Rodey, of New Mexico has introduced a bill to authorize prospecting for and developing mineral claims within the limits of private land grants. The Denver Republican says that the object of the bill is to meet conditions which exist in nearly all localities where old Spanish or Mexican land grants have been confirmed.

If most of these grants the mineral rights were reserved by the government and also in most cases the confirmation by the United States has left this feature unchanged. In a few instances only the government of the United States has granted the mineral along with the other rights.

Where the mineral is reserved the owner of the grant has no right to extract it. That right belongs to the United States or any one to whom it may be given. But at present private individuals cannot locate mineral claims within the limits of a grant because the surface does not belong to the public. The owner of the grant may prohibit trespassing and thus keep all prospectors off. As a result the mineral of a private land grant must remain undeveloped.

If the Rodey bill becomes a law the way will be opened for prospecting on such a grant. Congress has itself the right to enter upon a private land grant to extract the mineral under the principal that one may do whatever may be incidental and essential to the enjoyment of some other right, connected with land. For instance, the right to cut timber on the land of another involves the right to cross the intervening ground in order to reach the timber. No doubt congress can extend to private individuals this right to enter upon a land grant and extract the mineral that may be beneath the surface.

It will be fortunate for New Mexico if the Rodey act becomes a law, for there are many private land grants in that territory upon which prospecting should be permitted.

Welcome as Sunshine

after a long storm is a feeling of relief when an obstinate, pitiless cold has been driven away by Allen's Lung Balsam. Only people who have been cured of throat ache and sore lungs by this remedy can quite realize what the feeling is. There is no opium in the balsam; its good effect is radical and lasting. Take a bottle home today.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave immediate relief and three bottles cured me entirely. I gladly recommend this wonderful remedy." Take no substitute. Alvarado Pharmacy.

The Colorado & Southern road is seriously discussing the matter of oil for its engine burners, believing that even though the cost might be a little more than coal at the outset the road would be more than compensated by the advertisement which it would receive as having no cinders and no soot to annoy patrons. When all Colorado roads get to the point of using oil or electricity instead of coal traveling among the mountains will be like one grand sweet song.

A Reliable Remedy for Bowel Troubles

Rev. J. M. Vinyling, pastor of the Bedford St. M. E. church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have never known it to fail." For sale by all druggists.

You should know that Foley's Honey and Tar is absolutely the best for all diseases of the throat and lungs. Dealers are authorized to guarantee it to give satisfaction. Alvarado Pharmacy.

"Santa Fe Coast Lines" is now the official name for all that part of the Santa Fe system which lies west of Albuquerque. The change has just become generally known as an official one, though for some time there have been rumors that the officers of the road were contemplating the adoption of the eubourgeois term which has been in use, namely, "Santa Fe lines west of Albuquerque."

Frank Treadwell, Bennett, Ia., was troubled with kidney disease for two years. He writes: "I had taken several kinds of kidney remedies, but with little benefit. Finally I tried Foley's Kidney Cure and a one dollar bottle cured me." Alvarado Pharmacy.

Joe Burnham, who has been acting as call boy at the Lordsburg Southern Pacific station for some time, has got a job in the railroad office at El Paso, and left the first of the week. Joe is a good boy and a hard worker, and he is bound to succeed. Bramble Owlby has taken the job he left.

HORRIBLE TALE.

Some Picturesque Word-Painting by the Tombstone Prospector.

For a wild and woolly story, reeking with pathos, rhetoric and other things, the following account of how a train ran into a handcar as given by the Tombstone (Ariz.) Prospector, is about the finest thing ever manufactured:

"The Southern Pacific pay car, laden with treasure, hope and joy for the numerous employees of the Sonora branch, sped furiously around curves the other afternoon, carrying glad tidings and at the same time dealing out relentless death. When the treasure train rounded a curve near Fairbank four Mexicans were at work propelling a handcar. The train was almost upon them before they knew it. Two jumped, but before the other two unfortunate realized their danger, the engine struck the car. It was a frightful moment for them—the engine sped on heedless of that which it would deprive and was powerless to return. There was a terrible crash and two Mexicans lay upon the ground—one lifeless and the other mangled high upon death. The injured Mexican was taken to Tucson for treatment at the hospital and the dead one taken to Benson for treatment."

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well. You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure cures the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. J. H. O'Reilly & Co., and H. H. Briggs & Co.

For Pneumonia.

Dr. C. J. Bishop, Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Beware of substitutes. Alvarado Pharmacy.

Dogs are the burden of the depot policemen, trainmen and travelers. Every woman, almost, who possesses a canine pet, believes she should be permitted to take the dogs in the parlor car, coach, or even the Pullman, without protest. Rules of the railroads strictly prohibit this, and as a result (to females) are the rule when they are obliged to make peace with the express messenger or baggage man. Passengers are not obliged to send such pets by express, but are allowed the privilege of putting on and taking off their pets, and paying the baggage man a fixed charge, which is set down in a special schedule and set of rules that exempt the railroad from all responsibility in the matter, making the transaction one between the trainman and passenger.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail. Says James Prendergast, merchant, Ann Arbor, Mich.: 'I have used Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by all druggists.'

If Banner Salve

doesn't cure your piles, your money will be refunded. It is the most healing medicine. Alvarado Pharmacy.

RAILROAD ASSESSMENT.

A Resume of the Work Done by Equalization Board.

The board of equalization fixed the assessment of the 176 miles of the Santa Fe Pacific railway within New Mexico at \$2,200 per mile and on all the grazing land owned by the company, amounting to about 1,500,000 acres, at 25 cents per acre. This was done in accordance with the compromise entered into by the county commissioners of Bernalillo, Valencia and McKinley counties and in order to give each of those counties some of the taxes to be paid by the road. Under a recent decision of the supreme court of the United States only 66 miles of track out of 176 miles within the territory are taxable, but rather than tax the 66 miles which are located in Valencia county alone, it was considered best to act upon the compromise and to assess the entire 176 miles at \$2,200 per mile and the grazing land at 25 cents per acre. This compromise will prove of special benefit to McKinley county and is believed to be fair all around.

The assessed value of the 66 miles of road in Valencia county would have been fixed at \$6,000 per mile, but 176 miles of track would be assessed at \$2,200 per mile, and therefore the territory and the counties named are gainers by the compromise. The character of the grazing lands of the company is mostly of a desert character and with very little natural water, hence the low figure of 25 cents per acre was compromised on by the officials of the three counties named and approved by the board of equalization.

The assessment of other railroads in the territory liable to taxation was made at the same rate as obtained last year: 31 miles of the New Mexico & Arizona railroad in Grant county having been changed during the past year from a narrow to a broad gauge, were raised \$1,500 per mile.

In this connection it may be remarked that the average assessment of railroads per mile in New Mexico is \$5,640, while the average assessment throughout the country is \$5,925. For the present year there is 1,335 miles of railroad in New Mexico liable to taxation and the assessment upon these railroads, under the rule adopted by the board of equalization, will be \$7,500,000. The states of Missouri, Wyoming, Texas and Nebraska have a lower railroad assessment than has New Mexico. The fine depot buildings of the Atchison, Topeka & Santa Fe

railway at Las Vegas and Albuquerque were ordered assessed separately.

The board of equalization acted after a thorough and exhaustive investigation of the subject of railroad taxation and did what it considered right and proper for the best interest of all concerned, the commonwealth, the tax payer and the railroads.

The members of the board are all property owners, tax payers and responsible citizens and while there are differences of opinion as to their action in the matter of railroad assessments, there is no doubt that the board did what was right and proper and for the best interests of all concerned in the important matter of the assessment of railroad properties in the territory.

Finds Way to Live Long.

The startling announcement of a discovery that will surely lengthen life is made by Editor O. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for consumption is the most infallible remedy that I have ever known for coughs, colds or grippe. It's invaluable to people with weak lungs. Having this wonderful medicine no one need dread pneumonia or consumption. It's relief is instant and cure certain." All druggists guarantee every 50c and \$1 and give trial bottles free.

Chapped hands, cracked lips and a roughness of the skin cured quickly by Banner Salve, the most healing ointment in the world. Alvarado Pharmacy.

MARRIAGES.

Two Couples Made Happy at Cerrillos—Marriage at Sapello.

Tuesday night at 6 o'clock Rev. J. H. Messer officiated at a quiet wedding, the contracting parties being Miss Kittle Green, the pretty and accomplished daughter of Mr. and Mrs. R. Green, and Thomas Hull, of the firm of Hull Bros. The ceremony was performed in the Palace hotel parlor, Cerrillos, only the relatives of the contracting parties being present.

LUCERO-GONZALES.

Friday morning at 8 o'clock at the Catholic church occurred one of the most elaborate weddings which has taken place in Cerrillos in several years, when the marriage of Miss Guadalupe Gonzales, of Waldo, and Cipriano Lucero, of Thornton, was solemnized, there being over one hundred and fifty invitations sent. A reception was given at the home of the bride's parents, Mr. and Mrs. Jose Gonzales, at Waldo, and there was a grand ball at Hart's hall at night, after which Mr. and Mrs. Lucero will be at home to their friends at Thornton.

MESTAS LUJAN.

Thursday morning at 8 o'clock Juan Jose Mestas, Jr., was married to Mrs. Inez Lujan, widow of Jose Victoriano Lujan, at Sapello, Father M. A. D. Rivera officiating. A reception followed at the residence of Hon. Jose Ramon Mestas, ex-member of the legislature, and that night a dance was given. The groom is the son of Juan Jose Mestas, a prominent citizen of San Miguel county.

The Secret of Long Life.

Consists of keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate Stomach, Liver and Kidneys, purify the blood, and give a splendid appetite. They work wonders in curing kidney troubles, female complaints, nervous diseases, constipation, dyspepsia and malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by all druggists.

FOREST RESERVES.

New and Better Rules Governing Reserves for the Accommodation of Settlers.

There are many new regulations being made by the government relative to the management of forest reserves, and much of the red tape and verbiage of the old system is being done away with to the great advantage of settlers and residents in and adjacent to the reserves.

Too much time of the people and of the department in charge was heretofore taken up with the lesser details of the work, working a hardship on the legitimate settlers who desired timber as fuel and to the stockmen in securing permits for grazing privileges. Many of these interminable features are being done away with, and authority is being vested in supervisors in charge of the reserves to grant the minor privileges without referring them to the department, when proper showing is made to them.

Applications for timber amounting to \$20 and under, stumpage value, are now handled by the supervisor, who is allowed to grant a permit. This takes but a little time and permits of settlers securing timber for their immediate needs in a short time. The applications of settlers located within the reserves to graze cattle and horses in numbers not to exceed 100 head may be granted by supervisors. Larger applications and applications from persons living outside the reserves must go to the department. This is done that settlers within the reserves may have first rights and their wants attended to without long delays.

The long, tedious details of timber sales have been done away with and modern, practical working system has been adopted that leaves no doubt in the mind of the petitioner as to what is required of him.

These are but a few of the most important innovations, and others are to follow until there can be no complaint from the people by long delays.

The rules governing the reserves will be more strictly enforced and the flagrant violations will be punished, especially in the matter of stock grazing. Stockmen should care for their interests and see that they have permits, otherwise they will be prosecuted for trespass. It is the duty of forest officers to prosecute each case where stock of any kind is allowed on the reserves by their owner without first having secured a permit, and not their duty to beg stockmen to make applications for them. If the stockmen desire the privilege of grazing their stock they should ask for it, otherwise they subject themselves to a heavy fine and imprisonment for violating the rules of the reserves.

The Alvarado Hotel and Depot.

Of all the railways in the world it may be said that none of them can compare with the Atchison, Topeka & Santa Fe Railroad in point of hotel accommodations. From Chicago to the Pacific coast at every freight and passenger division point there is located an eating house that is conducted by the Fred Harvey system, and at each place any person can get anything he wants to eat at any hour of the day or night—a privilege seldom enjoyed by travelers along the lines of other railroads. In Albuquerque during the past year the railway company have expended about \$150,000 for a new hotel building and depot. The hotel is known as "The Alvarado," and will be equipped with as fine a lot of furnishings as can be found in the most prominent hostilities of the world, and any visitor coming to New Mexico can receive as good service in this hotel as he or she could command in the big cities of the states. "The Alvarado" hotel, depot, arcade and Wells, Fargo Express company's buildings on the railway front, were designed by Architect Charles F. Whittlesey, and were erected by Contractors Anson & Holman. The laws and driveways are nearing completion and within three months, possibly April 1, the big buildings will be opened to the accommodation of the public.

UNIQUE BUILDINGS.

Such are the Big Railway Hotel and Depot at This City.

In various points in the southwest the Santa Fe has built in connection with its stations, hotels for the accommodation of its immense tourist traffic, says the Topeka State Journal recently.

The largest project of this kind which the road has ever undertaken is the new building, or collection of buildings, now in progress of construction at Albuquerque, N. M. The following buildings are to be erected by the Santa Fe.

Station, hotel, opera house, general offices, freight depot and two large warehouses.

All these buildings will be more or less connected, in the fashion of the Spanish American architecture which is characteristic of New Mexico.

The cost of the hotel and station alone will be about \$80,000. The additional cost of the other portions of the buildings will increase the total cost of the improvements to nearly \$150,000.

The Santa Fe is the first road, so far as known, to build its own opera house. The old opera house at Albuquerque, which was on the L. M. Crawford circuit, was destroyed by fire about a year ago, and since that time Mr. Crawford has been putting his shows in a temporary opera house known as Columbus hall. The plans for the proposed new opera house will provide for one of the handsomest theaters in the west. It will not be large, but unique in many particulars. It is thought that it will be ready by the beginning of the next season.

The site employed by the railroad for the improvements in Albuquerque embraces an area of about 600 by 2,000 feet, which will be arranged in the form of a small park with lawns, drives, walks, etc., laid out over the entire area.

The new passenger station and hotel are the most important of the proposed buildings, and will cost exclusive of furnishings and electric lighting \$80,000. The hotel is 33 feet long by 132 feet in width, and is connected by an arcade 200 feet in length to the passenger depot, which is 60 by 150 feet. The railroad front of the station and hotel will face west, the greatest length of the building running north and south. In addition to the rectangular, middle portion of the hotel, an "L" will be built at either end, the one to the north including a club room, barber shop, bath rooms, reading rooms, ladies' and gentlemen's parlors, clerks' and managers' office. The south "L" will include a lunch room, kitchen, pantries, barber shop and employees' dining room, while the central portion will be used for the main dining room, 70 by 40 feet. An open court around the hotel, together with the peristyle and fountain, will add materially to the attractiveness of the structure. On the second and third floors of the building there will be 100 large, well furnished rooms, supplied with all the conveniences to be found in the large eastern hotels. On these floors also are 20 bath rooms, which can be joined to the private rooms if desired. All of the interior finish will be in quarter-sawn oak, stained black and design in old Spanish style.

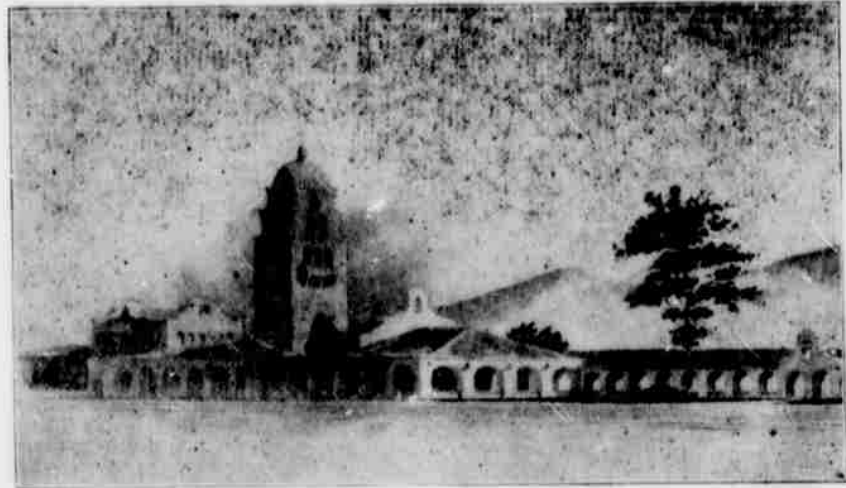

The passenger station is built to the north of the hotel and is connected with the latter by an arcade 200 feet in length. The station is surrounded by a 36-foot covered veranda, and aside from two waiting rooms, 30 by 40 feet, includes a ticket office, United States mail room, baggage and agents' rooms, telegraph office and other rooms for the officials of the company. The floors of the arcade and veranda will be of paving brick, and the total length

Headache, Sour Stomach, Dizziness, Indigestion and Constipation, are symptoms of a disordered stomach. The Bitters is a specific remedy for the stomach and will cure these diseases. We urge you to give it a trial.

great plenty; they clothe themselves with cotton and the skins of cows and dresses of the feathers of the fowls; they wear their hair short. Those who have the most authority among them are the older men, we regarded them as witches, because they say that they go up into the sky and other things of the same sort. In this province there are seven other villages, depopulated and destroyed by those Indians who paint their eyes, of whom the guides will tell you. Grace says that these live in the same region as the cows, and that they have corn and homes of straw.

"Here the people from the outlying provinces come to make peace with me, and as Your Grace may see in this memorandum there are 80 villages there of the same sort as I have de-

NEW DEPOT AND ARCADE.

scribed, and among them one which is located on some streams. It is divided into twenty divisions, which is something remarkable; the houses have three stories of mud walls and three others made of small wooden boards, and on the outside of the three stories with the mud wall they have three balconies; it seemed to us that there were nearly 15,000 persons in this village. The country is very cold; they do not raise fowls nor cotton; they worship the sun and water. We found mounds of dirt outside of the place, where they are buried.

"In the places where crosses were raised, we saw them worship these. They made offerings to these of their flowers and feathers and some left the blankets they had on. They showed so much zeal that some climbed up on the others to grasp the arms of the cross, to place feathers and flowers there; and others bringing ladders while some held them, went up to tie strings so as to fasten the flowers and the feathers."

A PREACHER'S TRIBUTE.

Rev. W. T. Patchell, of Pueblo, Writes of "The Alvarado."

President Ripley, of the Atchison, Topeka & Santa Fe Railway company, recently received the following self-explanatory letter:

Pueblo, Col., Dec. 30.

My Dear Mr. Ripley—I have just returned from Albuquerque, N. M., and I must say a word to someone about that group of buildings there. They are simply the most fascinating buildings I ever saw. To my mind there is nothing more thrilling than the conflict between the two forces which meet on the vast hot wastes of New Mexico and Arizona, for underlying all the sophistication of the Spaniard was an elemental impulse that drove him forth, as truly elemental as the savage force which imposed. And all the glory of the sky and the wide burning sands and luminous air, and the thrilling color were just the fitting background against which the struggle wrought itself out. Neither conquered. The savage imposed himself on his conqueror, and the old mission architecture was the perfect expression of the compromise—it has even a touch of grim humor in it—a touch that the Albuquerque buildings reveal. Sternness, austerity, limitation, avowal—to death—sublime confidence that they pleased God—it is all there; but, over and above it all, peeping at one around corners and from unsuspected places, the spirit of the desert and of the wastes, and of the hot sands, the grim irony of that terrible environment, is pervasive. Oh, it's a great thing and I want to thank you for it. As I stood, dreaming at noon last Monday, looking down the corridor, a square passed through its length. Well, it was the last touch needed; one could hear the bell calling then, and the twentieth century faded out, and I was back with them; the priests and the Indians and the primitive life, and stupendous nature, weaving her resistless spell over all. Subtle and indescribable was the influence, out somehow it subdued one to its own arbitrary peacefulness, and even though it be the peacefulness of death, it is good and joyous, too. So that I am sure that I am spokesman for many others who do not speak, and at Albuquerque you have a group of buildings which will attract world wide attention.

WM. T. PATCHELL.

Conductor C. E. Smyer has gone to Kansas City, where he has a passenger run on the Santa Fe between Fort Madison and Kansas City, having exchanged runs with a Mr. Pritchett, who has just reached Raton.

The railroad company should put in a platform for heavy freight at Kingman. This platform should be so removed from the business part of town as to not endanger the town with gasoline and other inflammable materials.

BELGIAN HARES.

An Industry That Anyone Can Follow With Profit.

AN ARTICLE ON THE SUBJECT.

Women have been particularly successful in the Belgian hare industry, and there is nothing connected with the work that a woman cannot perform. As the population of our cities increases, the demand for meat also increases, and disastrously for the poor. At just this point comes the Belgian hare, supplying a want felt by millions for delicious, wholesome meat, can be supplied profitably by the producer so that the consumer may secure it at a moderate price.

The Belgian hare is a most beautiful and graceful animal, with thick soft, golden tan fur, and great hazel eyes, making most fascinating pets. It is scrupulously clean and of wonderful intelligence and gentleness.

At the present time, the demand for Belgians, by those who desire to invest, is so great that about all the stock raised can be sold to neighbors or people reached through a small advertisement in a local newspaper. The meat of the Belgian hare is delicious and devoid of grease, and is not

A physician in California purchased a pair of Belgian hares as a gift for his son, who sold the offspring, and the business grew so rapidly that in a few years numerous stenographers were employed to answer the correspondence, and the physician said that when his 12-year-old son earned more than his father, it was time for him to give up practicing medicine for the practice of Belgian hares.

LAS CRUCES.

From Dona Ana County Republican.

P. Moreno, the arranger, is mourning the loss of a fine turkey that he had just gotten nice and fat. Somebody evidently thought it would get too fat if left longer, and helped him self.

"The Ladies' Minstrel show, which was first announced for January 24 and 25, has been changed to January 31 and February 1. That the show will be a success goes without saying when it is known that the College girls are getting it up.

On last Monday the board of county commissioners granted to J. J. Hayef a franchise to erect a telephone line in Las Cruces and between Las Cruces and Mesilla, Mesilla Park, the College, and in fact any place in the county where he thinks he can secure business. Mr. Hayef binds himself to begin work within sixty days and to have the line completed as soon thereafter as possible, but not later than six months.

The ladies of the Women's Improvement association will re-commence the plan, which was so popular last year, of giving afternoon teas. The first one will be held at Mrs. Day's on January 23, from 3 to 6. No invitations are issued, but the public generally are invited. A dime is collected from each one for the purpose of building a home for the association.

There were reports in town Sunday of trouble at the Torpedo mine. It did not amount to anything very serious, however. Some Mexicans who thought the foreman was working too cheaply tried to intimidate him. The foreman who was working the windlass at the time, got his bucket to the top of the ground and then turned around and said he was ready to talk business. No serious results. The parties were arrested and two of them have given peace bonds in the sum of \$200 each.

TAOS.

From the Cresset.

A. Helphensine is still very ill and may be taken to Las Vegas for the purpose of having an operation performed.

B. J. Young was down from Red River a couple of days again this week. We think he will come to stay, pretty soon, as his visits are getting more numerous.

Messrs. Hurley and Dudley, who have been here for some weeks, have decided to locate here permanently and Mr. Hurley will send for his wife and family of five girls early in the spring.

The building for the mill at the Fraser Mountain Copper company camp is nearly completed and the machinery is being shipped. The force of men is being increased, about forty men now being employed.

Nearly all of the Taos county saloon men have purchased aluminum drink checks stamped with the name of the firm and "12 1/2 cts." This is pursuant to the recent combination and raise in the price of drinks and cigars from 10 to 12 1/2 cts.

H. C. Brown and Mrs. C. A. Bailey, brother and sister of the late Lorion W. Brown, were in town several days on business connected with the closing up of their brother's estate and business affairs.

The Pueblo Indians celebrated two very pretty dances during the week. One of them was the Buffalo dance, in which all the braves have a time honored and well preserved buffalo hide costume, even to the curly hair of the head and the short black horns, in which they rode for the occasion.

SILVER CITY.

From the Independent.

Work was started on the new Episcopal rectory, west of the church.

Miss Beadle Muir has resigned her position as saleswoman in the store of Max Schultz and will return to Separa this week.

Sam W. Agee is confined to his home by an attack of appendicitis. He is getting along as well as can be expected.

Aaron Schutz returned to Silver City and has assumed the conduct of the Broadway hotel, of which he is owner. Mrs. Porterfield, who has been visiting her sons, W. C. and M. W. Porterfield, in this city, for some time past, left for her home in Fairfield, Ill.

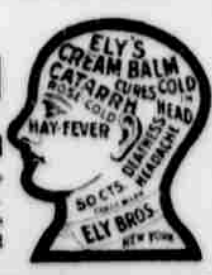

A twenty-eight car shipment of cattle was made from this point. The purchasers were Statham & Patterson, and the destination was Laton, Cal. Several Grant county owners were represented in the shipment, the major portion of the stock coming from the Bear creek and Gila river sections.

Mrs. J. W. Allen, of White Signal, and little son, Cornell, will leave for Tombstone, Ariz., where they expect to spend some time visiting her other son, who is there attending school. They will likely make a tour of the territory before returning.

M. M. Morgan, who left Silver City in 1898 as a member of Roosevelt's famous Rough Riders, returned last week on a visit to old scenes and met with a hearty welcome from his friends. Mr. Morgan has spent the greater portion of his time during his absence in Porto Rico, concerning which country Mr. Morgan is very enthusiastic.

The Victor drill at the Baldy tunnel is said to be working fine.

Nasal CATARRH
In all its stages.
Ely's Cream Balm
Ely's Cream Balm cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents.

SUPREME COURT.

Two Cases Appealed From District Court, Socorro County.

OTHER IMPORTANT CASES.

In the territorial supreme court yesterday forenoon, case No. 972, the Territory of New Mexico, appellee, vs. Gus Lard, appellant, an appeal from Chaves county, the appeal not having been perfected, on motion of the territory the case was ordered docketed and the appeal dismissed and the judgment of the lower court affirmed. The defendant was called to appear in court but there was no response. His bondsmen were then called to produce the body and there being no response the bond of \$750 was declared forfeited. The bondsmen are John T. Lard and George W. Santa. Lard had been sentenced for assault with a bludgeon.

In case No. 973, from Chaves county, the Territory of New Mexico, appellee, vs. Alexander Williams, appellant, who had been sentenced for larceny of a check and for forgery, the appeal having not been perfected, the case, upon motion of the territory, was docketed, the appeal dismissed and the judgment of the lower court affirmed.

Case No. 929, the Territory of New Mexico, appellee, vs. Albert Sherron, appellant, an appeal from Socorro county, was argued and submitted in the territorial supreme court today. Sherron was convicted in the lower court of larceny of cattle.

Case No. 930, the Territory of New Mexico, appellee, vs. Lazaro Cordova, appellant, from Socorro county, was argued and submitted.

The case of Susan Lewinson, plaintiff in error, vs. the First National Bank of Albuquerque, defendant in error, from Bernalillo county, was argued and submitted.

WHITE OAKS.

From the Eagle.

Gus Collier has gone to Albuquerque for a visit.

J. W. Smith has moved his family back to town from the mines.

Karl Keith, Bird Keith and Fred Houseman are at Carrizozo, working for the railroad company.

James Morris came in first of the week from the railroad front. Jim got a foot pretty badly mangled and came in for repairs.

John Adams, mining expert, Trinidad, Colo., is at the Baxter. He is here to examine the property of Talafiero & Spence, in the Gallina mountains.

One of the prettiest weddings that has taken place in White Oaks for a long while was celebrated at the Methodist church New Year's night. The contracting parties were Miss May Lee, eldest daughter of Capt. and Mrs. John Lee, and Edward Queen, of this city.

Allen Hightall came in from the railroad front. Al got drawn into a scrap out there and put a trio of denizens of Mexico Viejo to sleep with a club just in time to save the life of a stranger whom they were attacking with knives. A real streak of the romantic, on Allen? That Irish weapon was all right.

RATON.

From the Reporter.

Harry Hohn and bride arrived in Raton and will make this city their home.

Mrs. Sarah Short died in Raton at the home of her son, George Short, of pneumonia. She is survived by two daughters and two sons.

The new iron bridge over Red river, eight miles south of town, is being put in. It will be completed in about three or four weeks.

G. E. Lyon underwent an operation for hernia at the McDowell infirmary, and is reported as getting along fine. Dr. Bullock, assisted by Drs. Shuler and Hart, performed the operation.

Charles N. Connors, of the O'Rourke Construction company, of Denver, was in town the past few days to make arrangements to begin work on the sewer system. Men, teams and machinery will arrive here within the next two weeks, when work will be pushed with all possible dispatch. It is expected the system will be completed within four months.

CAPITAN.

From the Progress.

E. D. Watkins has moved his family to White Oaks.

Prof. G. L. Bradford is having a neat residence built on a homestead just south of town.

J. H. Lightfoot and A. E. Williams sold a mining claim in the Bonito country for \$2,000.

H. S. Wallace has selected John Ritter as his assistant in the postoffice. Mr. Ritter will have charge of the office during the day, but Mr. Wallace will assist in the distribution of the mails.

The Knights of Pythias lodge of this place has rented the west room of the new school building and will have it fitted up as a lodge room. Little & Pawcett have the contract to finish up the room and put in the necessary ante-rooms, etc.

HILLSBORO.

From the Advocate.

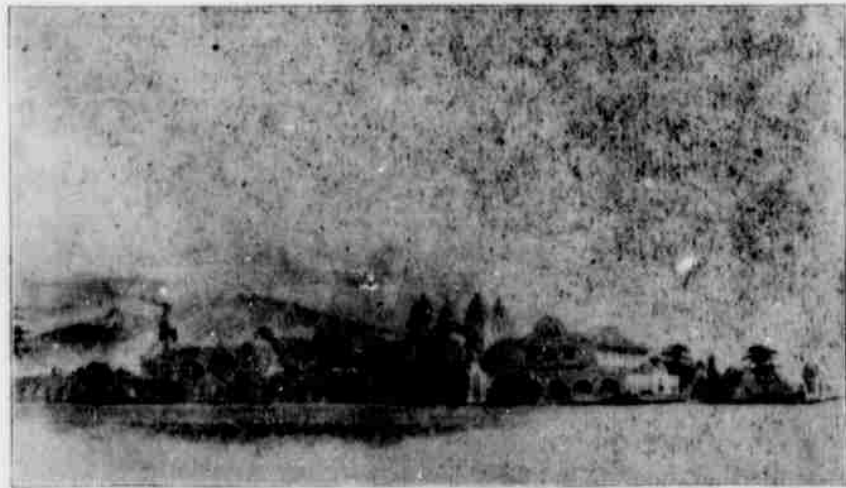

Miss Emma Holstein is visiting Mr. and Mrs. Henry Williams.

Uncle "Dud" Richardson was in town. He reports cattle in the mountains doing nicely.

Charles Anderson has sold his mine located at the head of Ready Pay gulch to John Kasser. We understand that the property was sold for cash. Mr. Anderson contemplates going to Chicago in the near future.

The mail from Arrey came in on the full jump Wednesday. The horse ran away and cut a lively circle, demolishing the harness and badly damaging the cart. The mail sack and other belongings of the driver were dumped into the raging Rio Percha.

As previously stated in The Citizen, the traffic agents of the entire Santa Fe system are arranging to hold a meeting at Albuquerque when the new "Alvarado" railway hotel is completed. They intend to christen the new structure. The meeting will be held in about two or three months.

"THE ALVARADO" HOTEL.

of the verandas around the hotel and station will be over one-half mile without a break.

The freight station to be built to the northeast of the passenger station, in addition to the freight shed proper, 30 by 360 feet, will also have adjoining it an office building, 35 by 45 feet, two stories in height.

The construction of the buildings is of the type peculiar to this section of the country and is patterned, as stated, after the style of the old Spanish missions. The buildings are constructed on a framework of native pine, braced with sheathing over which wire laths are nailed. This in turn is covered with a plaster of Portland cement and sand, mixed in the proportion of three to one. This plaster covers the laths on

vance, and the next day people came from twelve villages, the chief men and the people in order, those of one village behind those of another, and they approached the tent to the sound of a pipe, and with an old man for spokesman. In this fashion they came into the tent and gave me the food and clothes and skins they had brought, and I gave them some trinkets, and with this they went off.

"This river of Our Lady flows through a very wide open plain sowed with corn plants; there are several groves, and there are twelve villages. The houses are of earth, two stories high; the people have a good appearance, more like laborers than a warlike race; they have a large food supply of corn, beans, melons, and fowls in

Railroad Topics

Half a dozen new men went to work at the local shops yesterday.

Born to Engineer and Mrs. E. N. Cady, of Las Vegas, a baby boy.

The Santa Fe Central railway received several car loads of supplies yesterday for its Arroyo Hondo store.

After January 21 the sleeping car service of the new Santa Fe between Kansas City and Mexico will be discontinued.

Chief Engineer A. G. Kennedy, of the Santa Fe Central railway, although ill, made a trip from Santa Fe to Lamy yesterday.

G. E. Allen has been in Springer a couple of days waiting for his grading outfit, which he expects to arrive soon with 500 horses.

An increase of 8 per cent in the wages of trainmen and switchmen on the Baltimore & Ohio has been made voluntarily by the company.

Chicago is selected as headquarters and place of meeting of the United Brotherhood of Railway Employees at convention in San Francisco.

Engineer Al. Lane returned from Las Vegas to Lamy, where he will resume his duties on the Santa Fe branch, after a few days' lay off.

The General Electric company has secured a contract amounting to \$750,000 for equipment for the new street railway to be built in Tokio, Japan.

W. B. Barton and wife and M. A. Janson, of Hinton, will open a boarding house for the accommodation of graders working on the Dawson railroad.

Harry Snider, a machinist apprentice who left Topeka last August for Albuquerque, N. M., has returned to Topeka for two weeks' recuperation.

The position of fireman on the first mountain helper at Lamy is now vacant and open for the oldest fireman applying for the run before January 24.

John Brooks and wife, in charge of the culinary department of General Superintendent Wells' private car, were here yesterday, going west last night.

Frank Graham, who has been night operator at the Santa Fe depot at Springer for more than a year, has been promoted to the position of agent at Morley, Colo.

Work is being pushed as rapidly as possible on the new hotel and depot, and the local officials hope that everything will be ready for occupancy by the 1st of April.

Engine No. 668 was sent down from the north to Lamy to relieve engine No. 6141 on the Santa Fe branch, which shipped its tires while on duty Monday afternoon.

Hon. W. S. Hopewell, vice president of the Santa Fe Central railway, who has been seriously ill, threatened with an attack of pneumonia, is now reported to be out of danger.

Mrs. T. W. Belkama, wife of the freight inspector of the Southern Pacific railroad at Denning, died of paralysis. The remains were taken to Los Angeles, Cal., for interment.

Ed. O. Allen and Guy Ellis, two well-known ex-Albuquerque railroaders, are two engineers now at the East-yard, Cal. Guy Ellis and wife were visitors to Albuquerque a short time ago.

It is learned today from Jimmy Vorhes that his brother, Charles Vorhes, is now an operator for the Southern Pacific at Los Angeles. Charlie has quit base ball playing altogether.

J. W. Finbrook, dispatcher on the A. T. & S. F. railroad at Newton, Kan., stopped off this morning on his return from an extended trip in Old Mexico to visit with J. W. Edwards, who is an old friend.

A. G. Wells, general superintendent of the Santa Fe Pacific, who was at Chicago on business connected with his duties, was here yesterday and visited the various departments of the big local shops.

The Springer Sentinel says: Marks & Luthie have rented their building next to the restaurant to Mr. G. H. G. beef contractor, who furnishes all beef used by the grading contractors on the Dawson railroad.

The electrical machinery for the Albuquerque railway shops has arrived. Within fifteen days the machine shops and the blacksmith shop will be run by electric power. Friday the four new boilers of the shops were fired up.

Orders have been received by Architect Whittlesley to proceed immediately with the construction of a large two-story freight depot at Albuquerque for the Santa Fe system. The building will be of the old mission style of architecture.

The Topeka State Journal says: It was planned that special car No. 219, that which belongs to President Ripley, should be sent out today. It has been in for several months to receive a general overhauling.

The first span of the railroad bridge now building over the Pecos river is finished, and the bridge will be ready for traffic by the first of February, by which time the road from El Paso will be completed to Santa Rosa.

Trackmen in Kansas have been busy lately distributing salt along the switches in order that the snow may be melted, thus preventing any impediment to the manipulation. This is always done during rigorous weather.

E. E. Harriman, president of the Southern Pacific company, has authorized the letting of five big contracts for straightening the road of the Central Pacific line. The outlay on this work, which covers a distance of 87

miles east of Vista, Ne., will be \$1,750,000.

New issues of loans and securities in London during 1901 have reached \$159,600,000, comparing with \$165,499,224 in 1900, \$133,169,724 in 1899, \$150,173,265 in 1898, \$157,209,000 in 1897, and \$152,806,791 in 1896. Of this year's issue \$40,000,000 was in consols.

The two Denver & Rio Grande railroads are now to be one Denver & Rio Grande railroad. The process of consolidation has begun, and as a starter Engineer E. J. Yard, of the Rio Grande Western is transferred to Denver. The consolidation is to take effect the 1st of February.

Yesterday morning, engine No. 839, another of those giant locomotives, arrived at the local shops, and was given some needed attention at the round house. These engines are called "battleships" by the engineers and firemen. No. 839 went west pulling a long train of cars today.

The Optic says: And still cheering news comes from the new electric line, Santa Fe engineers have established the grade for the spur to the power house on the flats above town; a car of wire is in transit to this city, the engines, boilers and dynamos will be shipped this week.

The "dump" track at the local shops is pretty crowded these days with engines brought in from recent wrecks out west. Some of the engines will go into the repair shops, but others—well they are so badly damaged the company would save money by dismantling them altogether.

Shoe shipments from Brockton, Mass., for 1901, were the largest in the history of the city, 629,413 cases, as compared with 526,633 cases in 1900 and 529,277 cases in 1899. Usually there are twenty-two pairs of shoes in a case, so that 13,947,856 pairs were sent out in the 629,413 cases.

The Southern Pacific reports the addition of 2,905 box cars and 2,079 other freight cars to its rolling stock in the fiscal year 1901. The freight cars average 41.95 tons' weight per car. The ton capacity per freight car at the close of the year was 26.88 tons, or 2.18 tons more than a year earlier.

It is now certain that the El Paso & Northern will connect with the Rock Island at Santa Rosa by the first of next month and freight trains will be put on immediately after the connection is made. It will be two weeks, however, before the passenger service to Chicago will be inaugurated.

The government of New Zealand has decided in the future to order all steel bridges from the United States. This decision comes as a result of the recent experience of the Manawatu Railway company, when the American bid on a big steel viaduct amounted to one-quarter of the price bid by English firms.

Foundations for a handsome passenger and freight depot at Santa Rosa are being laid by the Rock Island railroad. The stone used is a fine white building stone found three miles from the town on the railroad. A ten-stall round house is also being constructed of stone. A telephone line to Las Vegas is being projected.

Machinists are pushing the work on the new engine hoist which is to go into service at Albuquerque shops. It has been in the hands of the boiler-makers for some time, but that portion of the job has been completed and the cutting of screws and nuts is now under way and will be finished as soon as possible.—Topeka Journal.

The Union Pacific Railway company has inaugurated a new plan on its entire system for the purpose of preventing rear-end collisions. Every passenger train will carry an extra brakeman whose only duty will be to protect the rear end of the train. This new rule will cost the Union Pacific \$100,000 annually. It is said other roads will adopt the same plan.

A through train service to St. Louis from Chicago over the Chicago, Peoria & St. Louis railway is being arranged by the Santa Fe system. The Santa Fe has a line to Pekin, Ill., and there connection is to be made with the Chicago, Peoria and St. Louis railway. Four passenger trains are now being fitted up for this service, which is to go into effect March 1.

W. A. Nettleton, who succeeded to the position of assistant superintendent of motive power of the Santa Fe, is well liked by the few who know him. The title of Mr. Henderson and himself were changed at the recent meeting in Chicago from superintendent and assistant superintendent of machinery, respectively, to superintendent and assistant superintendent of motive power.

The Topeka State Journal says: Engine 839, one of the large new Schenectady, which are being built for the Santa Fe by the American Locomotive works, was sent over the cut-off Monday on its way to the Santa Fe Pacific. The original order was twenty-five, and this is the fifteenth that has been delivered. They are to do regular service, according to present plans, on that portion of the system.

And now the firemen are making objections to the new class of "battleship" locomotives, because they say they are obliged to learn the trade over again. This comes about through the fact that there are two doors to the fire box, and in feeding the fire it is necessary for the fireman to shovel both ways. To one who has learned only one way it is no small task to acquire the other, particularly since he must do so while the locomotive is in

motion and there is everything to annoy him in his work. This class of motive power appears to be giving excellent satisfaction as regards speed and power, but it is probable it will not reach its limit until heavier track is provided.

In the neighborhood of 25,000 tons of ice have been cut from the Santa Fe fields in the Hot Springs cañon at Las Vegas, N. M., and now work has been begun on the second crop. The quality is excellent, being pure and in thickness varying from nine to sixteen inches. From that place it is being shipped to La Junta, Albuquerque and all the main division points on that part of the Santa Fe system.

President D. H. Nichols, of the Kansas Southwestern, announces the following appointments: E. L. Klug, secretary and auditor; W. R. Wilcox, treasurer; headquarters, Arkansas City, Kan. Freight and passenger traffic matters will be handled in the auditor's office, and all correspondence relating to the same should be addressed to the auditor at Arkansas City. The road is owned jointly by the Santa Fe and the Frisco.

The Kansas City, Mexico & Orient Railway company has been granted an extension of six months' time by the state government of Chihuahua in which to comply with the terms of the contract as to the number of kilometers of road that shall be completed and in operation in that state. It is stated that the first shipment of rails for this road will soon reach Chihuahua from Europe and that the work of construction will then be pushed forward rapidly.

Engine 739 is in the shops to have valves set; 764 for cylinder packing; 337 for steam pipe repairs. Engine 889 went south this morning with 1,050 tons. A load for a double-header. Engineer John Cook and Fireman Montgomery were the crew. John A. Ross accompanied her south. She will go to the Santa Pacific to act as pusher on the mountain. When that class of engines are put on the division, the turn-table and round house will have to be enlarged.—Las Vegas Optic.

Executive officials of western roads have decided that they will not exchange passes with trunk lines, which extend into central passenger association territory. This is due to the fact that after the abrogation of the anti-pass agreement in central passenger association territory, the three trunk lines sent western railroad officials passes which were not good east of Buffalo and Pittsburg and the western men do not propose to exchange on that basis. The action is said to have been taken with a view to breaking the agreement in trunk line territory.

The stockholders of the San Pedro, Los Angeles & Salt Lake railroad, Senator Clark's new Salt Lake-Los Angeles railroad, met at Salt Lake City and elected directors for the coming year. The directors will meet at Los Angeles February 19, and elect officers. Only two changes were made, the names of F. K. Rule and Ross W. Smith, of Los Angeles, being substituted for those of George B. Leighton, of St. Louis, and C. W. Clark, Vice President Ross Clark, of the company, stated that several thousand tons of steel rails would be received here within a few weeks. As soon as the route out of Salt Lake is decided upon, construction work of this end will be begun, probably early in the summer.

A San Francisco special says: W. A. Russell, assistant traffic manager of the Atchafalaya, Topeka & Santa Fe, will go to the east Wednesday to confer with President Ripley and Vice President Morton about arrangements for the inauguration of the company's new steamship service to and from this port and the orient. The Santa Fe's contract with the California & Orient Steamship company will expire within a few days, and with the abolition of this traffic arrangement the Santa Fe will have the steamers Pacific Mail, the Occidental and Oriental, and the Toyo Kisen Kaisha for ocean connection, arrangements to this end having been perfected several weeks ago. Further arrangements will be settled at the approaching conference in Chicago.

They Never Strike.

There is one class of laborers who never strike and seldom complain. They get up at 5 o'clock in the morning and do not go to bed until 10 or 11 o'clock at night. They work without ceasing the whole time and receive no other emolument than food, and the plainest of everything. They understand something of every branch of economy and labor, from finance to cooking; though harassed by a hundred responsibilities, though reproached and looked down upon, they never revolt, and they cannot organize for their own protection. Not even sickness relieves them from their post. No sacrifice is deemed too great for them and no incompetency in any branch of their work is excused. No essays or books or poems are written in tribute of their steadfastness. They die in the harness and are supplanted as quickly as may be. They are the housekeeping wives of the laboring men. If these women had the time to rest when their husbands spend in the drum shops, and if they had the money to spend that their husbands squander, they would brighten their homes with comfort and sunshine, rear their children in respectability, and cause life's desert to rejoice and blossom like the garden of the Lord.—Sedon Sun.

Will Build a Big Warehouse.

The Hyde Exploring Expedition is getting the material on the ground at Farmington, San Juan county, for the erection of an immense warehouse 100 by 125 feet, which is to adjoin its new store. Another warehouse is also to be built for the storage of iron and hardware supplies.

SICK MADE WELL: WEAK MADE STRONG

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy Is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty records of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 227 First National Bank building, Fort Wayne, Ind., makes the startling announcement that he has surely

DR. JAMES WILLIAM KIDD.

discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving tonic, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim, and the remarkable cures restored to his family and friends bear him out very strongly. His theory, which he advances is one of reason and based on sound experience in a medical career of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free to anyone who is a sufferer in sufficient quantity to organize his ability to cure, as there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The cure has been thrown away centuries and walked about after two or three trials of the remedy. The sick given up by home doctors, have been cured by this Elixir of Life. It is in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Malaria, back-aches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous. Partial paralysis, locomotor ataxia, dropsy, gout, sciatica, and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, stimulates and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

CHANGES ON THE RIO GRANDE.

Those Made Forecast a General Reorganization.

Recent changes in the management of the different departments of the Rio Grande system, it is said, are shadows cast before a general reorganization of the working force. This reorganization, it is said, will be begun upon the return of President E. T. Jeffery, who is expected home about February 1. Traffic Manager A. S. Hughes and his assistant, S. H. Babcock, are expected to return from their eastern trip by that time. The report of the removal of the Rio Grande Western, is now generally believed, although it has been denied officially. In the event of Welby's removal the jurisdiction of W. S. Martin, general superintendent of the Denver & Rio Grande, will be extended over the whole system. February 1 the offices of the engineer of the Rio Grande Western will be removed from Salt Lake City to Denver and the jurisdiction of Chief Engineer will be extended over the whole system. E. J. Yard, formerly of the Rio Grande Western, will be under Mr. Rogers.

Changes which have been made are: John Irwin, formerly of the Union Pacific, appointed assistant superintendent of the second and third division. Superintendent R. M. Ridgeway, supplanting W. D. Lee, who is assigned to other service. G. H. Barnes and M. J. Guerin, trainmasters of the second and third divisions, removed. J. J. Guinn, chief dispatcher of the third division, removed. Jurisdiction of William Rech, chief dispatcher of the first district of the second division, extended over the third division, with headquarters at Salida. Jurisdiction of M. J. Griffin, trainmaster of the first district of the first division, extended over the third division. Trainmaster Owens of the third district will go back into the train service. Other positions will be found for those removed.—Denver Republican.

This Climate Is Good

enough for anybody with weak lungs. The patient need not travel. He can get well here with the help of Allen's Lung Balm, taken frequently when coughing and shortness of breath after exercise serve notice upon him that serious pulmonary trouble is not far away. Allen's Lung Balm is free from any form of opium.

The survey of the proposed Farmington-La Plata road was made and staked according to promise, this week, by D. B. Ross and A. E. Dustin. It was found that by a grade of 1,300 feet long on the south side and 2,100 feet long on the north side of the mesa the grade can be reduced to less than 8 per cent, and by a general co-operation of the users of the road, could be completed within two weeks. The estimated cost will be about \$300, mostly in labor, at the scheduled rate.

Mr. Ross agrees to take charge of

the work and remain with it until completed, without compensation.

Now is the proper time to act, while the weather is good and freightage scarce. In order to go about it systematically, we suggest a general meeting to be held at the Hustler office, Saturday afternoon, and all those directly interested meet here and determine upon a day to begin the work.

This road will shorten the distance to Durango about nine miles compared with the Animas valley road.—Farmington Hustler.

SILVER CITY.

Special Correspondence.

Silver City, Jan. 21.—Clyde Smith, the popular court house clerk, has been a little under the weather for several days past, but is able to be out again.

Work has been commenced on the much needed repairs on Main street. Block & Atkins have the contract and the street, which has been considerably damaged by floods, will be walled and made into a waterway for the flood water.

A force of workmen are at work putting the local stock pens in excellent shape below town, so as to be in good condition for the large spring shipments of cattle from this point.

The Ladies' Whist club will entertain their gentlemen friends this evening in their club rooms.

Work on the Episcopal rectory is being rapidly pushed and will be completed in the near future.

Notwithstanding the low price of copper the smelter at this point is running at its fullest capacity, and has all the ore it can handle coming in daily. It has at the present time three furnaces running full blast and the plant is handling about 250 tons of ore daily.

A couple of prisoners escaped from the county jail, named Edward Lawson and Thomas Willard, last week. They were being held on the charge of robbery at Lordsburg. Up to the present time Sheriff Gooden has been unable to capture them, although he has several deputies hunting for them.

The mining activity in the Burros district is very lively, considering the drop in copper. Work on the Sampson has been suspended for a short time, but will be resumed soon. The owners will also erect a 50-ton concentrator at the mine, upon which work will be commenced at once. Workmen on the St. Louis, which was recently leased by W. H. Newcomb, are going ahead with their work and making good shipments of ore to the Silver City smelter.

W. H. Jack, a prominent Grant county stockman, and wife left on yesterday's train. Mr. Jack on a business trip to Pittsburg and Mrs. Jack to California on a pleasure trip.

Cattlemen of this section are feeling very jubilant over the promising outlook for cattle in the spring. The winter has been so mild up to the present time the stock never were in better shape at this season of the year than they are now.

PROSPEROUS SAN JUAN COUNTY.

Several Big Irrigation Projects Will Be Pushed to Completion.

The spring months promise much in the way of development for San Juan county, says a correspondent of the Denver Republican. Some big irrigation ditch projects will then be fairly under way. I. N. Pepper, an irrigation enthusiast and capitalist of Kansas City, Mo., visited that section about two months ago to locate some ditch lines. He has selected a line that heads about three miles from Blanco, on the San Juan river, and will spend \$50,000 in the construction of a ditch. It will be about 20 miles long, and cover fully 10,000 acres of land, most of which is now dry and unoccupied. These lands will offer homes for fully 250 families. The survey has been completed, and map and flings made this week. The ditch will be 20 feet on the bottom and carry 3 feet of water at low water mark.

On the opposite side of the river the work of excavation is already under way on the Hammond irrigating ditch. This ditch is 12 feet on the bottom and will carry 3 feet of water, and cover about 7000 acres of land. About a mile of this ditch is already finished, and several extra teams have been added to the work this week. It is expected by the parties constructing this ditch that they will have water running in time to put in spring crops on the land it will cover.

No snow has fallen in San Juan county to interfere with pasturage, and most stock, both sheep and cattle, are still on the range or meadow pasture. All stock is in exceptionally good condition.

ON THE RANCH.

Shute yer pardners! Let 'er go! Balance all and dose-do! Swing yer girl an' run away! Right an' left an' gents sashay! Gents to right an' swing or cheat! On to the nex' gal an' repeat! Balance next an' don't be shy! Swing yer pard an' swing 'er high! Runch the girls an' circle round! Whack yer feet until they bound! Form a basket! Break away! Swing an' kiss an' all git gay! Al'man left an' balance all! Lift yer hoofs an' let 'em fall! Swing yer op'sites! Swing ag'in! Kiss the sage hens if ye kin! Back to pardners, dose-do! All join hands an' off ye go! Gents, shute yer little sweets! Hitch an' promenade to seats! —Exchange.

Some Arizona Figures.

According to the census of 1900, Arizona has a population of 122,212. The race subdivisions embrace: Whites, 92,202; Indians, 25,480; negroes, 1,848; Chinese, 1,419; Japanese, 264. The total foreign-born population, probably three-fifths of it Mexican, is 24,200.

There are 18,000 more white males than females. Illiterates among the white population comprise only 8.3, mainly among the foreign-born. There is little doubt, despite these official figures, that the territory has a bona-fide population of about 140,000. The census, taken in the summer time, omitted thousands of residents of the southern counties, temporarily absent during the heated term. This was particularly true of Phoenix, which, with nearly 2,500 voting registration, was accorded a population of only 5,500. Its real population is fully 12,000. Again, thousands of workmen have been brought in during the past year to labor on new railroad lines and in the mines.

According to the census bulletin, Arizona has 314 manufacturing establishments, with a capital of \$19,157,000, employing an average of 3,268 wage earners, and paying per annum, in wages, \$2,269,065. The value of the annual product is given at \$21,215,139. This classification includes copper smelters.—Los Angeles Times.

NARROW ESCAPE.

C. A. Hudson and Party in a Runaway at El Paso.

C. A. Hudson, the well known painter and decorator, appeared among a few intimate friends today with several bad scratches on his rosy face. He was asked the cause, and, after a promise from a friend that the facts would be kept out of print, said that while he and Mrs. Hudson, with John S. Trimble and wife, were at El Paso the other day they hired a rig and took a drive around the city. The team took fright at an object, "shown" late to be a woman who had hideously deformed her make-up by smuggling some goods under her dress, and started on a run. Both himself and Trimble pulled vigorously on the reins in a mad endeavor to stop the horses, while the ladies offered up silent worris that no damage would result. However, the horses kept on, and in the mad race the vehicle tipped over and the occupants were spilled in a disordered manner onto the hard ground. The vehicle was sent to the repair shop, while the horses broke away, but later in the day were caught and taken back to the stable. It was a narrow escape from a serious, if not fatal, accident. Hudson received a majority of the bruises and cuts indicated on the party.

"GOO GOO EYES."

Sent Up for Stealing a Bicycle Belonging to Professor Paxton.

T. J. Wallace, alias "Goo Goo Eyes," was before the police judge this morning to answer to a charge of theft, which was the result of an effort on the part of the accused to "get busy," and in pursuit of that ambition he appropriated Professor J. H. Paxton's new Rambler bicycle from in front of the Commercial club building Monday night. After using the wheel a few hours, he succeeded in damaging it to an extent necessitating a visit to a repair shop, and left it with Carl Hopping, who recognized the bicycle as the property of Professor Paxton and at once notified that gentleman of the fact. The police were put on the trail and speedily captured Wallace, landing him in jail to answer to a charge of theft. When asked by Mr. Hopping how the wheel came to be in his possession, Wallace claimed it was loaned him by another colored man. When the case was called for trial, Wallace was remanded to jail, in default of a bond for \$500, to await action of the grand jury.

In addition to the Wallace case, there were two plain drunks, who were let down with five days each.

GRASS IS GONE.

He Left Deming Under Adverse Circumstances.

John Grass, lessee of A. H. Thompson's Commercial hotel near the depot, left quite suddenly on the Santa Fe train Sunday night, but not suddenly enough to take his trunks with him. Mr. Thompson suspected his flight and had an officer stationed at the train, who attached Grass' baggage and held it. Grass is said to be behind in rent to Mr. Thompson to the amount of nearly \$150. Grass also owes several bills in town, among the number being one to the Herald. Mr. W. H. Chambers, an excellent gentleman from Alabama, has leased the hotel and will run a first-class place. Mr. Chambers purchased the bedding from Mr. Thompson several days ago, and he says with the departure of Grass a large number of pillow cases, sheets, blankets, etc., have disappeared, and he estimates his loss at about \$75.—Deming Herald.

Reception Last Night.

Anticipating a very pleasant event on the cards for next Thursday evening, a charming reception was held yesterday afternoon at the home of Mr. and Mrs. H. H. Brown in honor of Miss Etta Groat and Frank Bowyer. The reception can be best described as a linen shower, and following an old time old world custom, with slight variations, one that is not only a pleasant way of entertaining a couple contemplating—, but is a most practical and sensible way for giving them a good start towards a very essential outfit for housekeeping. The afternoon was spent pleasantly, music and games being the order of entertainment, and followed by refreshments. The honored guest were the recipients of many congratulations and good wishes, together with valuable presents bestowed on the young lady. In addition to the young lady and gentleman in whose honor the entertainment was given, a large number of warm friends of the young couple were in attendance.

Mines and Minerals

Work is being pushed on the Iron Bird tunnel in the Hematite district, and with good prospects of cutting the big ore shoot at a depth where it will contain good values.

Santiago Villas is in Santa Fe from the southern part of that county and is exhibiting fine specimens of coal from his coal claim. He has a two foot strata at a depth of twenty feet that is unbroken.

A. L. Morrison, Jr., of Santa Fe, is showing specimens of good coal from a five foot vein he has on one of his claims in southern Santa Fe county. The coal was taken from ten feet beneath the surface.

Rafael Griego, while herding sheep two miles south of Santa Fe, stepped into the workings of an old galena mine by accident. The workings have not yet been explored. The mine is on the Santa Fe grant.

It is reported that the Amalgamated Copper association owns twenty newspapers scattered throughout the United States. This doubtless accounts for the large amount of free advertising the concern has received.

Forest McKinley of Washington, D. C., nephew of the late president, recently made an examination of the mineral resources of the Mogollons, and was so favorably impressed that he decided to locate in the Cooney district.

The Estey Mining and Milling company, of Estey City, Socorro county, is about to purchase the ranch of Charles Burton in that part of Socorro county. About 1,500 head of cattle go with the sale, the papers for which are being drawn up.

The president and general manager of a mining company operating at San Geronimo, San Miguel county, are down from Denver, viewing the ground over and considering the proposition to erect the machinery necessary to a successful treatment of the ore found in abundance in that vicinity.

An agreement has been made and filed in the county clerk's office of San Miguel county, between Mrs. C. M. Pettys of Kansas City and B. Archibald of Las Vegas and Emeterio Chavez of Ojitos Frios whereby the latter parties have agreed to work and develop the mining properties located in San Miguel county belonging to the former.

In the case of Thomas H. Walsh vs. The Apex Gold Mining company and Thomas C. Johns, in the district court for Lincoln county, all the machinery and supplies of the North Homestead mine near White Oaks, as well as the Huntington mill, buildings and the North Homestead millsite of fifteen acres, were sold by Sheriff Alfredo Gonzales on January 17, to satisfy a judgment of about \$800.

The New Mexican says: County Engineer John L. Zimmerman returned from the southern part of the county last evening where he has been surveying the O'Mara coal fields and a number of other coal claims. He has also made an exact survey of the mileage, including switches, of the Santa Fe railway in Santa Fe county for taxation purposes. Mr. Zimmerman says that coal indications on the Santa Fe Central railroad coal claims are excellent.

The Golden Cochiti Tunnel company has driven its tunnel at Bland over 800 feet into the hillside. Good progress is being made by the small force of workmen employed. The tunnel runs in a northerly course from a point in Colla canyon on the Albemarle road and will pass under the Bland road about 2,700 feet from the starting point. The tunnel will pass 2,300 feet under Washington hill, directly under the Washington mine. Its terminus is 600 feet below Pino canyon. Its proposed length being 8,000 feet.

The Elizabethtown Miner says: The Denver mine will resume active operations within the next two weeks. While in Denver last week Mr. Walsh purchased a new steam Hendri & Bolt friction steam hoist for the mine, which will supplant the gasoline engine heretofore used. The new hoist, engine, etc., will arrive in about ten days, and the gasoline engine will be removed to the Arlington tunnel in Humburg gulch, where it will be used to operate the machinery in connection with the air pipe or shaft. The lumber for the mill building is being put on the ground as rapidly as possible, and the machinery for the new mill will soon begin to arrive. With the opening of spring this property will be a producer that will help the camp.

If you Were Scared
could you might suppose that the pain in the lower part of your back meant kidney trouble. But being a person of sense you know it is only muscular stiffness, from cold, and that prompt treatment with Perry Davis' Painkiller will prevent it from growing into lumbago. Act accordingly and you will be glad you saw this. There is but one Painkiller, Perry Davis.

Invention for Discovering Ore.
The El Paso Herald has this to say about a new invention called the electrical ore finder:

To the layman there is not much to be seen in it. It is a simple looking machine, which when in service rests upon a tripod and looks much like a photographer's camera. Like most other great inventions, it is an application of science and not a discovery of new principles. Resistance to an electric current is measured by it. The earth is a conductor of electricity, but metal

is a better one, and the current naturally follows the better conductor, which is the path of least resistance.

It is easily understood that, if after connection is made with the earth, the resistance encountered by the current is high, as indicated by the thermometer's scale, it means that no metal is present; but where a metallic body is found the resistance indicated will be comparatively low. By this time it may be seen that this instrument has nothing in common with the so-called divining rods or dip needles, but is based on simple laws of science. It is purely a scientific instrument and a modification of the Whetstone bridge, which is used to locate breaks in submarine cables and structural defects in iron and steel constructions.

When in practical operation the thermometer registers the resistance of the earth as a conductor between terminals spaced a definite and known distance apart and in contact with the earth. This measurement of resistance is repeated at various points in the vicinity and they are then compared with each other. If the resistance at one point varies to a material degree from that at another point, then the presence of an ore in the earth is indicated, it being where the least resistance is encountered.

FIRE AT THE MCGINTY.

Buildings at a Mine Near Elizabethtown Destroyed.

Yesterday morning smoke was noticed in the vicinity of the McGinty mine, and a field glass soon revealed that one of the buildings was burning, says the Elizabethtown Miner. Captain Sewall was immediately notified, and he immediately went to the scene on double quick. It seems that the fire had originated in one of the bunk houses, occupied by the cook, Frank Taylor, and the superintendent. When Mr. Taylor got up in the morning he started a fire in the stove, and when ready to go to the cook house put a knot in the stove and closed the draft. After he finished his work in the kitchen he returned to the bunk house to take a bath. When he approached the building he saw that there was something wrong. When he opened the door a terrible explosion of gas took place, knocking him down into the woodpile, where he remained unconscious for some time. When he regained consciousness his clothing was afire and his shoes burning. An attempt was made to secure his clothes and money and other effects through the window, but the flames beat him back. When he despaired of saving anything in the building he turned his attention to the other buildings, which were now in danger. He drew water and fought the flames noisily. When Captain Sewall arrived on the scene Frank was shoveling snow on the roof of the kitchen, where the wind was depositing great chunks of fire and burning wood. A trunk in the bunk house contained a large number of cartridges, which exploded and sent bullets flying everywhere, but he worked on. In the affair Frank received a severe bruise on the forehead, a severe cut on one leg and both arms badly cut near the wrists. The personal loss to Mr. Taylor is nearly three months' pay in cash and checks, beside his clothes and personal effects. The total loss is estimated at \$500. Great credit is due Mr. Taylor for his heroic work in saving the other buildings.

A GOOD STRIKE OF ORE.

The Mailuchet District Promises to Be a Big Producer Very Soon.

F. Mailuchet, the well known prospector and miner who for the past fifteen years has been prospecting and developing prospects in and around Macho canyon, about fourteen miles from Santa Fe, was at the capital city yesterday, says the New Mexican, and brought the report of a rich strike of ore he has made on a group of nine claims in the Macho canyon. The vein is a solid body of ore six feet thick that can be traced on the surface the length of four claims. The specimens of ore shown in Santa Fe by Mr. Mailuchet today were taken from the vein at a depth of ten feet and are rich in gold and copper.

On the Gibson and the Heimler properties in the Macho district work is being pushed and good ore is being taken out. There is plenty of timber, good water and coal in the district. A Cerrillos party is at present developing a coal vein that is five feet thick and consists of fine looking coal, to be used in the Cerrillos smelter.

The outlet of the Macho district, although it is nearer to Santa Fe, is by way of the Pecos river to the Santa Fe railroad at Glorieta. The grade is a down hill and a good wagon road can be built to the canyon, which is four miles from the Pecos river, along which there is a good wagon road. Good burro paths exist from Santa Fe to the district.

ELIZABETHTOWN MINES.

From the Miner.

The saw mill is humming away on the lumber for the Denver mill and with favorable weather will be through in about ten days.

F. Z. Hunt, superintendent of the Ora Dredging company, who has been out on a business trip, is expected to return in a few days.

The force at the Legal Tender has been increased, and we are informed that more men will be put on soon. We are glad to note the prosperity of that property.

It is reported that the drill to be

used on the Indiana will be the latest improved steam machine. This will enable the company to open up that property in a very rapid manner.

C. J. Dold has ceased operations with the drill on the Iron Mountain group for the winter and has begun work on the old workings of the Iron Mountain Mining and Milling company with a force of men.

Mr. Zwergle has resumed operations on the property of which he is the superintendent. He is sinking a shaft on the property, and the indications so far are very favorable, and he is much encouraged at the outlook.

THE EL ORO'S NEW STRIKE.

Six Feet of Ore at the Four Hundred Foot Level.

The mining fraternity of this district was set agog this week by the vast body of high grade ore struck in the El Oro mine this week, says the Hillsboro Advocate. At the depth of 400 feet a crosscut of twenty feet opened up a body of ore from four to six feet wide. The ore is free milling. It is a granulated quartz with tale carrying coarse gold and nuggets of gold that is pleasing to the eye. Through this body of soft ore runs several streaks of sulphide ore varying from two inches to one foot in width. The best of this ore is expected will go \$100 per ton, and that the entire body will average \$50 per ton. It is without doubt one of the best strikes ever made in the district. The ore body is confined in perfect walls that stand almost perpendicular. A large body of ore similar to the one opened up this week was not long ago encountered at the 300 foot level. Mr. John Kaiser, manager of the Hillsboro Mining and Milling company, examined the new strike yesterday and declares it the finest showing of ore he has ever seen in the southwest. All old-time miners are excited over the showing, and those who have examined it proclaim it a bonanza. As depth is gained in the El Oro the better is the grade and larger are the ore bodies, all of which go to show that deep mining is the thing for this camp.

COPPER SHARES.

The Present Immense Profits Derived Therefrom.

One hundred shares in the United Verde, at the nominal price of \$100, are now worth \$30,000, and they pay \$100 per month in dividends.

One hundred dollars invested in 1897 in Centennial Copper company is now worth \$265.

One hundred dollars invested in 1896 in Osceola Copper company is now worth \$382.

One hundred dollars invested in 1890 in Tamarack Copper company is now worth \$622.

One hundred dollars invested in 1892 in Boston & Montana Copper company is now worth \$1,866.

One hundred dollars invested in 1895 in Arnold Copper company is now worth \$1,870.

One hundred dollars invested in 1893 in Wolverine Copper company is now worth \$5,600.

One hundred dollars invested in 1893 in Butte & Boston Copper company is now worth \$5,600.

One hundred dollars invested in 1880 in Calumet & Hecla Copper company is now worth \$7,550.

In many cases the dividends which these investments earned aggregate more than the original capitalization of the companies.—Los Angeles Mining Review.

New Manager.

Mortimer Kaufman, manager and part owner of the San Pedro Mercantile company's store at San Pedro, has again gone to New York, having returned but recently from that city. From New York he will go to Tennessee to manage two company stores for the Lewisohns of New York, who are the principal owners of the Santa Fe Gold and Copper company's mines and smelter at San Pedro. The management of the San Pedro store will be in the future in the hands of W. F. Williams, one of the employees of the store from the time that it was opened.

LAS VEGAS BLAZE.

Other Property Endangered—Work of E. Romero Company.

At 10:15 last night the barn of E. Romero across the river from the Las Vegas roller mill burned, entailing a loss of \$250. The alarm was turned in at the west side house first and the boys on arriving at the fire laid all of their hose, consisting of one thousand feet. After waiting for the east side company for awhile they went after them and found that they had run a short distance and returned to the city hall. The E. Romero boys hooked onto their cart and took it to the scene of trouble. After laying the additional 600 feet of the east side they could just reach the remains of the fire. If the wind had been as bad as the night before the home of the Marcetts, now occupied by A. Myers, and the two barns of Dairyman Nolan would have undoubtedly been consumed. About a year ago a barn in the same place was burned and no effort whatever was made to check its progress. Only through the hard work and persistence of the west side boys last night were sufficient precautions taken to protect the surrounding property. The E. Romero Hose and Fire company receive no pay whatever for their services and should receive much praise from the public in general for their unselfish devotion to their duty.—Optic.

Burt Jones will play with Colorado Springs this season. He was offered a berth with Philadelphia in the National league, but having already signed with the Western league club refuses to be recorded as a contract jumper. "Lefty" is an honest, upright young man.

PRODUCTION OF MINERAL.

Estimates Greater Than in Any Preceding Year.

LEAD IN MINERALS.

Estimates of the mineral products of the United States, which have just reached the treasury bureau of statistics, indicate that they will exceed in nearly every particular those of any preceding year. Not only will they exceed those of any preceding year, but exceed in nearly every case those of every other country. In gold, in silver, in iron, in steel, in copper, in coal and in mineral oil the products of the United States in 1901 exceed those of any other country, and in every instance, except possibly copper, surpass her own record in any preceding year. The estimates of gold and silver production are from the mint bureau, and those of pig iron, copper, coal and mineral oil from the Engineering and Mining Journal. These estimates put the gold production of 1901 at \$80,218,300, against 79,171,000 in 1900, which was the highest record in gold production that the United States had ever made. They put the silver production of 1901 at \$59,552,788 ounces, against 57,447,000 ounces in 1900. The pig production is estimated at 15,800,000 long tons, against 13,789,242 long tons in 1900, in which year the figures exceeded those of any preceding year. The coal production is estimated at 267,850,000 long tons, against 240,965,917 long tons in 1900, the year of highest production heretofore. Of petroleum the production is estimated at 66,000,000 barrels, or 2,772,000,000 gallons, against 2,661,238,568 gallons in 1900, the year of largest production heretofore.

Of copper the production is estimated at 595,000,000 pounds, or 265,625 long tons, or about 5900 tons below the figures of 1900, copper thus being the only item in the entire list which shows for 1901 a smaller figure of production than that of last year.

That these figures clearly put the United States in the lead in the production of all these articles is shown by a comparison of the 1900 figures of production of the United States with those of other countries. The London Daily Mail Year Book puts the pig iron output of 1900 at: United States, 13,789,242 tons; United Kingdom, 8,908,570; Germany, 8,491,852; Russia, 2,821,000; France, 2,659,494. With the 1901 figures for the United States, 15,800,000 tons, there can be no question that the United States maintains the lead in iron production.

That the coal output of the United States for 1901 will surpass that of any other country is evident from a statement of the above authority, the London Daily Mail Year Book, which states that "the United States has for the last two years outstripped us as a coal-producing country. In 1900 the United States total output was 245,422, metric tons; that of the United Kingdom, 225,181,000; Germany, 199,225,000; France, 22,577,000; Belgium, 23,352,000." This statement, coupled with the fact that the figures of the United States' production in 1901 exceed by 27,000,000 tons those of 1900, make it apparent that the United States was in 1901 clearly in the lead in the world's coal production.

As to the precious metals, the estimate of the mint bureau is that the United States' product of both gold and silver exceeds in 1901 that of any other country.

As to petroleum, while the Russian figures of last year slightly exceeded those of the United States, it is probable that the enormous total of 66,000,000 barrels, or 2,772,000,000 gallons, estimated for the year 1901, places the United States again in the lead in the production of that article, these figures showing an increase of 110,000,000 gallons, as compared with 1900.

WIRE GOLD IN NEW MEXICO.

Recent Strikes in Lincoln County Cause Great Excitement.

A telegram from Captain to the Denver News, says:

If reports which have just reached this place are true, Lincoln county promises to have a gold excitement all of its own. Several miners were in Captain today and they say that George Dillard and Charles Brown, two prospectors in that district, sold a claim which they had located the day before for \$10,000, and that more than \$10,000 has changed hands within the past week for mining property.

The strike which caused this excitement was made last Sunday and is situated on the South Benito, about twenty miles from here. It is in a district which was heretofore thought to be entirely out of the gold bearing belt, and shows that "gold is where you find it."

Those who have seen rock from this new field say it is the most perfect specimens of wire gold ever found in the territory. As no trace have been made of the ore, it is not known what the real value is, but as the rock seems to be a perfect network of wire gold, it is without a doubt fabulously rich. Conservative mining men say it will return at least \$20,000 to the tin, while others say it will go far beyond even that figure. Although many rich specimens have been found in this county, nothing has ever been seen that can approach this new find, either in richness or quantity of the ore. Those who have been upon the ground say that it would be impossible to exaggerate the facts, as it is far beyond anything ever seen before in this county that the truth is almost incredible.

But the richness of the find is not the most remarkable feature in connection with the discovery, as there are vast bodies of the ore. A blow

with the hammer on any part of the ledge will show that the rock is all closely woven with wires of pure gold.

Although the news of this strike only reached here this morning, many have already left for the scene of the discovery, and every foot of the ground for miles around the find is being staked off. In some instances the locators are camping upon their claims, fearing to leave them lest they should return and find another in possession. The utmost excitement prevails and people are flocking to the scene of the discovery in large numbers.

Another rich find is also reported. This time it is in the Nogal district, ten miles west of here. In this instance the ore has a value of \$1,200 to the ton in gold, besides carrying some silver. This strike was made some time ago, but it was not until within the last few days that it has attracted any attention. Although several assays were made of the ore immediately after it was discovered, it was impossible to even guess at the real value of the ore, as the returns differed so widely. This excited the curiosity of the discoverers, who decided the only way to give the ore a fair test was by a mill run. Accordingly, 500 pounds of the ore was sacked as it came out of the prospect hole and shipped to El Paso, which gave the above returns. This claim is located one mile from the Helen Rae, and two miles from the American, two mines which made Nogal famous. It is supposed by many that this new find is but a continuation of the same lead that runs through these two mines. This find will be developed immediately.

RECORD OF EVENTS.

The Bland Herald Compiles List for the Year 1901.

January 1, 1901—Grand New Year's masquerade ball by Odd Fellows in Bland.

January 7—Two new contracts let for development work on Star mine to B. D. Wilson.

January 18—Mr. Will Drury weds Miss Mary MacAlexander.

February 1—Mrs. Benham files suit for divorce against her husband, Dr. R. H. Benham.

February 5—Death of S. H. Mulligan, after a short illness of pneumonia.

February 15—Howard Vaughn buys one-third interest in the Little Molle mine.

February 21—Death of Mrs. Isaac Graham.

February 22—Death of Harry Fold.

March 10—Fred Fisher gets his leg broken in the mill at Albemarle.

March 18—Mert Wagner buys the Bland-Thornston stage line.

March 21—Rich strike by Tucker brothers on Texas claim.

March 26—Woodbury mill starts up.

March 26—George C. Smith and John Carpenter have narrow escape from being suffocated in the Good Hope mine.

March 16—Marriage of Mrs. Charlotte Benson to J. H. Pegue.

April 4—James May struck a 4-foot lead of gold ore assaying \$280 to the ton in his mine north of Bland.

April 5—George Ostrander makes a good strike in the King mine.

April 9—Frank Kilmer held up and robbed of \$800 on the road to Albemarle.

April 16—W. E. Myers leases Sulphur Springs.

April 28—L. Akers dies in Albuquerque.

May 13—Important decision handed down by supreme court of the United States in Washington mine case.

May 15—Noah Webb Schoonover accidentally kills himself at Buckman's.

May 15—Frank Buck, son of George Buck, accidentally shot in the arm at Pinos Altos.

June 2—Elmer Routledge dies at Cerrillos.

June 12—A fine flow of water struck in Lone Star mine.

July 4—Big celebration at Albemarle.

July 13—Death of F. J. Walker, at Rogers' ranch.

August 14—Terrific storm wrought havoc between Bland and Woodbury.

September 27—House of Ed Shields in Albemarle burglarized.

October 1—Hank Woodward arrested on a charge of counterfeiting.

October 25—F. G. Blake wins prize for bronco busting and steer tying at Albuquerque.

December 5—Grand masquerade ball at Albemarle.

December 25—Christmas tree and entertainment at the church.

December 26—Christmas entertainment and dance at Albemarle.

December 28—Death of Jake Lazere at Albemarle.

Deserted Wife Seeks Divorce.

Ida Allen Darlington has filed a suit for divorce in Colfax county against W. B. Darlington. Plaintiff says that they were married on October 22, 1894, and that since their marriage he has deserted her several times, leaving her to support herself. The last time the defendant deserted the plaintiff was about fourteen months ago, November 2, 1900, leaving her without any visible means of support, and since that time she has heard nothing from him and does not know where he is.

Plaintiff states, also, that a few weeks after their marriage defendant began to drink and finally became an habitual drunkard.

For these reasons plaintiff prays that a divorce be granted her.

Accidentally Killed Himself.

Last Sunday, Lee Hogg, a young man of McMillan, accidentally shot himself to death. It seems he was hunting a rabbit with a shotgun. Bunny ran under a porch and Mr. Hogg set the gun against the wall and stooped to look for his quarry. The gun fell over and was discharged, the entire charge entering the unfortunate young fellow's side, tearing the kidneys to pieces. Dr. Wright was summoned to attend him, and he died Sunday night, about ten hours after the accident. Lee was about nineteen years old, and was very popular with those who knew him. He was a brother of Matt Hogg, who has a large number of friends in Carlbad, who sympathize sincerely with him.—Carlbad Argus.

NEW OPERA HOUSE.

Roswell to Have a \$15,000 Building of Modern Design.

At last it looks like Roswell is to have the much talked of opera house. The deed for the ground was made to the contractor, S. E. Patton, last week, and it is understood that all contracts are signed, and the work of preparing the ground has begun. The site of the building is lot 4, block 5, the center lot of the Slaughter block, facing east on Main street.

The building will be 50x142 feet, three stories high. The front part of the first floor will contain two store rooms, and the front of the second floor will be divided into rooms for the manager's use, and the third floor will contain a lodge room 33x45 feet with three large ante-rooms. The main auditorium will be 45x75 feet and the balcony 30x45 feet. The entire seating capacity is 1,000. The stage will be 30x50, and 32 feet from stage floor to gridiron. Drop curtains 26 feet high and 40 feet long can be used. By three stairways, ten, six and five feet wide, respectively, the building can be emptied in from three to five minutes.

The building will cost \$15,000 and will be completed in about six weeks.—Roswell Record.

OFFICERS INSTALLED.

Prosperous Lodge of Knights of Pythias at Santa Fe.

Deputy Grand Chancellor Robert H. Bowler last evening installed the following officers of Santa Fe lodge, No. 2, Knights of Pythias, says the New Mexican:

Chancellor Commander, John K. Stauffer; vice chancellor, Charles F. Easley; master of work, James M. Anaya; keeper of records and seal, John L. Zimmerman; master of finance, Robert H. Bowler; master of exchequer, Evaristo Lucero; master of arms, William Burley; inside guard, Adam Krick; David S. Lowitzki, elected prelate, and L. Ubarri, outside guard, were unavoidable absent, and will be installed at the next meeting.

A splendid banquet was served after the installation at the Claire Cafe, at which covers were laid for twenty-five. Visitors from Cleve and, Ohio, and Las Vegas were present. Hon. C. F. Easley was an eloquent toastmaster and toasts were responded to by everyone present. The affair proved to be a most enjoyable one.

The New Mexico grand lodge of Knights of Pythias will meet in Santa Fe in September this year and the local lodge will soon make preparations for the event.

TERRITORIAL SUPREME COURT.

Case of T. B. Catron et al vs. Saron N. Laughlin et al Submitted.

In the territorial supreme court yesterday, case No. 820, T. B. Catron et al, appellants, vs. Saron N. Laughlin, et al, appellees, from Bernalillo county, was submitted after argument. The case involves title to the Eaton grant in southern Santa Fe county.

Case No. 932, James Carruthers, appellee, vs. Lizzie F. O'Brien, et al, appellants, from Santa county, was argued and submitted.

Rules of Success.

A merchant once gave these rules as helpful to success:

"Making the most of one's opportunities; living up to the full measure of one's abilities; doing your work earnestly and honestly; ever striving through life to contribute to the happiness of others."

Don't stop work when the employer is away.

Don't criticize the management.

Don't "blab" the business.

Don't conclude you know more about the business than your employer.

Don't worry about not being appreciated.

Don't be too fast in asking a raise in salary.

Don't be afraid of working overtime.

Few great successes are made in working eight hours a day.

Don't watch the clock too much.

Don't change places too often.

Don't guess or suppose, but know.

OFFICIAL MATTERS.

Acting Governor J. W. Reynolds appointed W. C. Belden of Cliff, Grant county, a notary public.

FARMER APPOINTED.

Walter N. Noshitt of Virginia has been appointed farmer at the United States Indian school in Santa Fe. Stiles Johnston, who has filled the position temporarily, will return to Cochiti, where he is farmer for the Pueblo Indians.

INCORPORATION AMENDMENT.

The Liberty Gold Mining company of Milwaukee, Wisconsin, notified Territorial Secretary J. W. Reynolds that it has changed its name to The German American Consolidated Gold Mining company and has increased its capital stock from \$1,000,000 to \$2,500,000.

New Mexico Horses for Cuba.

Walter Williams, of Cuchillo, Sierra county, shipped from Engle last week fifty-seven head of well bred horses to Havana, Cuba. The shipment was picked, each animal standing sixteen and a half hands high, and all were broken to ride. About \$200 per head will be paid. The freight to Cuba costs about \$100. The parents of Walter Williams are at present at Havana on a pleasure trip.

Albuquerque Improvements.

It is a source of pleasure to each inhabitant of any city or town to point out the thrift and improvement of the community in which he resides. To show the stranger what has been accomplished in a given length of time, and that which is to take place in the future. The year 1901 has proved a most notable one in Albuquerque, and every resident of the city can point with pride to the substantial growth within the corporate limits. The building operations in Albuquerque for the year just closed will amount to nearly three quarters of a million of dollars—the exact figures gleaned from contractors being \$619,350.

Dwellings and additions have been constructed by contractors and builders who are absent from the city, and in looking over the list if anyone finds that their property has not been mentioned in the submitted list they will please note that it was not an intentional omission on the part of The Citizen, but that it was unable to consult the gentlemen who had the work in charge. It has been the intention of The Citizen to make a correct report on the building improvements in the city during the past year, and in order to avoid anything that savors of mistakes of a "boom" this paper here publishes the list. New sidewalks, cement and board, about 7,000 linear feet, have been laid which will represent nearly \$7,000, but this item of improvement has not been included in the list as given below:

W. A. Duitman—Five room brick residence on South Edith street; J. W. Freeman, contractor; \$2,500.

G. L. Altmeier—Four room brick cottage on Fourth street and Baca avenue; \$2,000.

J. W. McQuade—Five room brick residence on North Walter street; \$2,500.

Jacobo Yrisarri—Addition to residence on Copper avenue, corner Fourth street; \$1,500.

Oreste Bachechi—One room addition to residence on North Second street; \$1,000.

Pearl Hopping—Four room brick cottage on South Arno street; J. W. Freeman, contractor; \$1,500.

Jacob Longworth—Two room brick addition to store on North First street; \$1,000.

H. H. Tilton—Five room brick cottage on West Railroad avenue; Gustafson, contractor; improvement; \$2,500.

H. H. Tilton—One two story combination brick and frame dwelling on West Railroad avenue; \$3,000.

H. H. Tilton—Three brick cottages of five rooms each on Sixth street and Silver avenue, real estate and improvement; \$6,000.

J. W. McQuade has turned out carpenter contracts to the amount of \$6,500.

H. H. Tilton—Two story brick, double apartment building on West Gold avenue; \$5,000.

H. H. Tilton—Two story brick, double apartment building, between Lead and Coal avenues on South Third street; \$5,000.

Dr. W. G. Hope—A brick terrace of nine flats on Hazledine avenue between First and Second streets; \$6,000.

L. T. Delaney—A seven room brick residence on Ketcher avenue; \$3,000.

Fred Fisher—Seven room brick on Broadway, between Gold and Silver avenues; architect, E. B. Cristy; \$3,000.

James Archer—An eight room brick residence on East Railroad avenue; \$2,800.

J. P. Girard—Store room and dwelling combined; two story brick and frame; Fourth street and Mountain road; \$4,000.

J. Korte & Co.—Carriage and harness repository including shops; three story brick and stone basement; J. L. La Driere, architect; W. W. Strong, contractor; corner of Copper avenue and North First street; \$8,000.

H. T. Griffith—Addition of four rooms, frame, to residence, on Coal avenue, between Fourth and Fifth streets; W. W. Strong, contractor; \$1,400.

B. A. Sloyer—An eight room brick residence on East Railroad avenue and High street; W. W. Strong, contractor; \$3,200.

E. L. Medler—Seven room brick residence on Tijeras and Fourth street; W. W. Strong, contractor; \$3,100.

Theodore Sogol—Six room brick dwelling on North Fourth street; \$3,400.

Mrs. McClanahan—Three room residence on Huning avenue; \$600.

H. E. Rogers—Five room brick residence on West Coal avenue, between Fourth and Fifth streets; W. W. Strong, contractor; \$2,000.

Robert Hauschild—Five room brick residence on Walter street and Silver avenue; \$1,500.

Jesus Romero—Eight room brick residence on Fifth street, between Copper and Tijeras avenues; W. W. Strong, contractor; \$12,000.

Mrs. M. A. Bigelow—Six room brick residence on corner of East Railroad avenue and High street; W. W. Strong, contractor; \$2,800.

Alfred Grunfeld—Two story ten room brick residence on West Railroad avenue, between Tenth and Eleventh streets; J. L. La Driere, architect; W. W. Strong, contractor; \$12,000.

Third Ward School—Addition, 20x40 feet; W. W. Strong, contractor; \$800.

St. Vincent's Academy—Three story brick addition with basement; W. W. Strong, contractor; \$15,000.

St. Joseph's Hospital—Three story brick and stone with basement, dimensions, 50x141 feet; including about sixty rooms; Dodd & Lemke and W. W. Strong, contractors; located on East Tijeras avenue, between Edith and High street; \$45,000.

Clarence Goff—Five room frame residence on South Arno street; A. W. Hayden, contractor; \$1,200.

D. B. Auld—Six room frame residence on South Arno street; A. W. Hayden, contractor; \$1,700.

Mrs. S. Pole—Five room brick and four room frame residence on corner of Walter street and Coal avenue; A. W. Hayden, contractor; \$2,850.

D. A. Duitman—Five room brick residence on South Edith street, opposite Second ward school; A. W. Hayden, contractor; \$1,500.

Mrs. J. K. Brown—Three room adobe residence on mesa, East Railroad avenue; \$500.

George Cochran—Four room frame addition to residence on West Huning avenue; A. W. Hayden, contractor; \$1,200.

George H. Brewer—Six room frame residence on East Railroad avenue and High street; A. W. Hayden, contractor; \$1,800.

Mrs. Lulu Hopping—Four room brick residence on South Edith street and Simonds avenue; E. B. Cristy, architect; A. W. Hayden, contractor; \$1,800.

A. W. Hayden—Seven room brick residence; E. B. Cristy, architect; A. W. Hayden, contractor; \$2,000.

Miss Mary E. Gilmore, Estate—One five room frame and one four room frame residence on corner of North Walter street and Railroad avenue; A. W. Hayden, contractor; buildings will be finished middle of month; total cost \$2,000.

A. J. Skinner—Six room brick residence on South Arno street, to be finished this month; E. B. Cristy, architect; A. W. Hayden, contractor; \$2,200.

W. P. Metcalf—Two story cement and frame residence, seven rooms on West Railroad avenue and Twelfth street; Gus E. Gustafson, contractor; J. L. La Driere, architect; \$3,500.

W. H. Hahn—Coal and wood yard improvements, including offices, arch drive ways, brick barn, wood sawing plant, coal bins, sheds, on East Railroad avenue, adjoining railroad tracks; J. L. La Driere, architect; W. W. Strong, contractor; \$5,000.

A. J. Maloy—Four apartment house; cement and frame, on corner of South Third street and Lead avenue; J. L. La Driere, architect; Gus Gustafson, contractor; \$11,000.

Daniel Phillips—Five room cement residence on corner of Lead avenue and Fourth street; Wm. Archer, contractor; J. L. La Driere, architect; \$2,000.

Wm. Farr—Meat market and livery apartments on South Second street, between Gold and Silver avenues; Wm. Archer, contractor; J. L. La Driere, architect; \$7,000.

Albuquerque Foundry and Machine Works, R. P. Hall, Proprietor—Addition to main building, 18x50 feet; located on east side of railroad tracks, opposite round house; \$1,000.

Santa Fe Pacific Shops—Addition to machine shops, 22x110 feet; boiler shops, 18x50 feet; addition to brass foundry, 8x30 feet; foreman's office and engineer's room, 40x20 feet; including new machinery; total, \$150,000.

John Newlander—Fifteen room residence, two story brick with modern conveniences; Coal avenue, between Sixth and Seventh streets; Newlander, contractor; \$6,000.

Miss Eloise Armijo—Brick store building, 25x60 feet; No. 1003 South Second street; Z. H. Bliss, contractor; \$1,500.

Ed. Clothier—Five room brick residence, corner Fifth street and Hendricks avenue; Z. H. Bliss, contractor; \$2,000.

Robert Fitzpatrick—Four room brick residence on South Fifth street, opposite Presbyterian church; \$1,500.

John S. Heaven—Coal and wood yard improvement on South First street; \$400.

Alvarado Hotel, together with the Arcade, depot building and Wells, Fargo & Co.'s express office, occupying space between First street and railroad tracks, and extending from Railroad avenue to Silver avenue; Charles F. Whittlesey, architect; Anson & Holman, contractors; \$150,000.

Viaduct—Steel structure over railroad tracks on Coal avenue, extending from South Second street to South Broadway; total length 1,400 feet, including stone approaches; \$31,000.

Dwight L. Wheeler—Repair work accomplished during year in various parts of the city; \$2,000.

A. W. Hayden—Repair work during year; \$2,800.

Mrs. Babl—Two five room brick residences on South Arno street; James W. Freeman, contractor; \$2,400.

Mr. Hall—Five room brick on South Walter street; \$1,500.

W. R. Francis—Five room brick residence on North Edith street; Gus Gustafson, contractor; \$2,500.

Harry Bugh—Six room brick residence on corner of Coal avenue and South Arno street; James W. Freeman, contractor; \$3,000.

J. W. McQuade—Five room brick residence on North Walter street; \$2,500.

A. J. Mitchell—Six room brick residence on West Atlantic avenue; \$1,800.

W. H. Dacey—One two-room addition to residence on corner of Broadway and Gold avenue; \$500.

H. Garcia—Eighteen room apartment house on South Third street; \$2,000.

Mrs. Jessup—Three four room brick residences on South Broadway; total cost, \$4,500.

J. W. McPherson—Store building, 20x30 feet, corner of Arno street and East Coal avenue; \$500.

Joseph Beck—Six room brick cottage, corner Hazledine avenue and South Fourth street; Wm. A. Parr, contractor; \$1,500.

Henry Goetz—Five room brick cottage on North Second street; Wm. A. Parr, contractor; \$2,000.

John Docklett—Three five-room frame cottages on South Broadway; Wm. A. Parr, contractor; total, \$3,500.

Charles O. Hopping—Five room frame cottage on corner of Highland avenue and South Arno street; Wm. A. Parr, contractor; \$1,500.

Conrad stump—Five room residence; red pressed brick; corner Gold avenue and Edith street; Wm. A. Parr, contractor; \$1,800.

Jesse Miller—Two story nine-room frame residence on South Arno street; Wm. A. Parr, contractor; \$3,500.

M. Ryan—Three room adobe residence on Fourth street, near Mountain road; \$450.

Miss Lou Lee—Private school building on corner of Silver avenue and Eighth street; Gus Gustafson, contractor; \$250.

Mrs. Mary Kelly—Four room brick residence on William street; Gus E. Gustafson, contractor; \$1,200.

During the past year more than \$1,200 worth of repairs to residence property was executed by Contractor W. W. Strong, and \$600 worth by Contractor Gustafson.

William Jenks—Two room brick addition to residence, corner Fruit avenue and North Sixth street; Gus E. Gustafson, contractor; \$1,500.

R. Y. Short—Five room brick residence on corner of Sixth street and West Coal avenue; Gustafson, contractor; \$2,500.

Leon Bordenare—One room adobe addition to residence, corner Third street and Mountain road; \$200.

Mind Slipping Away.
Zach Oats, a young man from Indian Territory, who suffered a severe stroke of amnesia about three years ago, and who during the past few months has been employed on the J. L. Carter ranch near Kanton, came to town Saturday, where his strange conversation and peculiar actions soon disclosed the deplorable fact that his mind was not right. The authorities took him to the city jail for safe keeping until he is transferred to Las Vegas to stand trial on a charge of insanity. This is a particularly pathetic case inasmuch as the young man has lived intervals when he fully realizes that his mind is slipping away. It is to be hoped that proper treatment will reinstate permanently his now dethroned reason.—Clayton Enterprise.

Big Chattel Mortgage.
The first large chattel mortgage of the year was placed on record in the county clerk's office at Pueblo, Colo., on Tuesday. It is from the Alfalfa Land and Cattle company to Lucy M. Waldo, of Kansas City, and the amount is \$40,000. The mortgage secures a loan to that amount on 5,475 head of cattle, all of which are located in Otero county. Of this number 126 are bulls and 3,449 cows and 2,200 calves of the crop of 1901.

Charged With Rape.
A few weeks ago Adalberto Rivera, of San Miguel, was brought to Las Vegas, to be treated for a terrible beating inflicted upon him by Jose Duran. No cause was assigned for the punishment at that time, but since then it has developed that Rivera had made a felonious assault on Mrs. Duran.

After Rivera recovered he was arrested on a charge of assault with intent to commit rape. Mrs. Duran being the complaining witness. The preliminary examination was held on Monday, before the justice in that precinct, and after hearing the testimony the court bound Rivera over for trial in the district court, fixing his bond at \$1,000, which was furnished by the accused.—Record.

Las Vegas Cavalry Troop.
The bill of lading for the following articles was received at Las Vegas yesterday:

Sixty blouses, sixty trousers, sixty campaign hats, sixty overcoats, sixty hat cords, stripes and chevrons for non-commissioned officers, sixty pairs of leggings, two trumpets, cords and tassels.

These goods were shipped direct to Las Vegas from the United States army quartermaster's department at St. Louis, January 13, and due course of freight should land them here not later than Monday. The horse equipment will be there by that time. So it is quite likely that clothing and equipment will be issued to the troopers at the regular drill next Monday evening.

OFFICIAL MATTERS.
Pension Granted—Territorial Funds—New Incorporations.

A pension of \$8 a month has been granted to Jose Andres Salazar, of Teolote, San Miguel county, and a pension of \$8 a month to Celestina S. Griega, of Siera, San Miguel county.

TERRITORIAL FUNDS.
Territorial Treasurer J. H. Vaughn received \$1,000 from J. A. Lakue, secretary of the cattle sanitary board.

INCORPORATIONS.
The Placita Ranch company was incorporated by Travis F. Jones, Daniel T. Hoskins, Andrews A. Jones. The company's object is colonization, irrigation, etc. The capital is \$100,000, divided into 1,000 shares. The directors are Ezekiah J. Ramer, Watrous; Travis F. Jones, Los Alamos; Andrews A. Jones, East Las Vegas; Daniel T. Hoskins, East Las Vegas; Jesse W. Ellison, Ellison, Arizona. The headquarters of the company are at Las Vegas, San Miguel county.

The New Mexico Oil company filed incorporation papers. The capital is \$1,500,000 divided into 1,500,000 shares. The incorporators are John B. Fithian, Erastus W. Willard, James W. Martin, of Joliet, Illinois. The headquarters of the company are at Gallup, McKinley county. The New Mexico agent is James C. May, of Wingate, McKinley county. The directors are Leon McDonald, Lockport, Illinois; Henry Leach, Joliet, Illinois; James C. May, of Wingate.

WINSLOW.
From the Mail.
Mrs. C. Lord, who was very ill last week, is again able to be about.
Mrs. Howell, of Chicago, is in Winslow, visiting her daughter, Mrs. E. G. Steinbeck.
Miss Hattie Henderson was too ill to teach her room for a couple of days last week.
Mrs. Lesser, who has been very sick with appendicitis for about two weeks, is improving.
Mrs. McGinty, who went to Los Angeles several weeks ago to attend the wedding of her brother, has returned to Winslow.
On Wednesday evening the ladies of the Methodist church gave a reception for Mr. and Mrs. E. G. Decker at the home of Mrs. C. D. Hill.
Rev. Decker, pastor of the Methodist Episcopal church, returned to Winslow accompanied by his wife. They have gone to housekeeping in the parsonage.

FLAGSTAFF.
From the Gem.
Attorney H. F. Ahurst, of Williams, was a legal visitor here the first of the week.
James Wallace, of Williams, was here seeking the appointment of county assessor.
The Flagstaff postoffice did the largest business last month of any month in the history of the town.
Williams has a cornet band composed

of nineteen members. What is the matter with the Flagstaff musicians?

It is a most settled fact that the town will have another reservoir of a large capacity built before many months.

Flagstaff needs an opera house and a joint stock company could easily be organized in the Skyline city to build one.

Charles Cannell, of Williams, came up and made a run on the county treasury. He had an order for the amount seized.

Dr. W. S. Robinson made a visit to Canon Diablo the first of the week. He reports everything as having an upward tendency in that locality.

Miss Carrie Hoyt, the Postal Telegraph operator at this place, has been on the sick list for a few days, and Frank C. Watson has been filling "in" position.

Mrs. J. C. Maderstach and little child, who have been spending several months at Fruit Hill, Ohio, returned last week. Mr. Maderstach appears to be more cheerful since their return.

A. D. Powell and son, Venia, returned from Cherry Creek, Yavapai county, where they have valuable mining property. They report great activity in mining in that district.

Frank A. Rodriguez was engaged the first of the week in putting down linoleum on the floor of the court house. This is a great improvement over saw dust on the floor, as it is fire proof and looks a great deal better.

The automobile party, composed of Messrs. Lippincott, Chapman and Hogaboom, of Los Angeles, Cal., and Al. Dole, of this place, left here for the Grand Canyon. It is reported their gasoline gave out before they reached the canyon, and they had to leave the machine and complete their journey on foot.

From the Sun.
E. W. Sisson and family, who have been spending some time in San Francisco, Cal., returned.

M. J. Riordan left on a trip to Mexico and expects to spend the next thirty days traveling over that interesting country.

The Santa Fe Pacific railroad is putting down a vitrified brick walk at the depot here. Similar walks have been put down by the company at Gallup and Williams.

Godfrey Sykes and family and Harry Hussey left for Mellon, Arizona. They will build a boat at that place and drift down the Colorado river to the Gulf of California.

E. S. Gosney returned from a trip to Pasadena, Cal.

Arthur B. Herman left last week for his home in Oregon; his duties as supervisor of the Grand Canyon forest reserve ended on Dec. 31, 1901, and the care of that reserve has been assigned to F. S. Breen, who is now supervisor of the San Francisco mountains, Black Mesa and Grand Canyon forest reserves.

W. D. Powell is in town from the Black Rock Gold & Copper Mining company's mines in Yavapai county, a local mining company. The mines of the company are located nine miles from Dewey postoffice on the Prescott & Eastern railroad, and development work shows lots of high grade ore and the showing pleases the owners of the properties.

A Good Recommendation.
"I have noticed that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. "What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by all druggists."

WILLIAMS.
From the News.
H. O. Polson has been very sick this week with tonsillitis, being confined to his bed.

Dr. and Mrs. P. A. Melick were visitors at the hustling camp of the J. M. Dennis Lumber company at Rhoades.

Porter Torrey has been confined to his room for the past two weeks with erysipelas, but is now able to be around a little.

Mr. Abrams arrived in the city this

BACKACHE

Is only one of many distressing symptoms which point to the presence of womanly diseases. If women thoroughly understood the relation of the local womanly health to the general health, they would understand that backache, headache, nervousness, sideache, dizziness, faintness and similar feminine ailments, cannot be cured until the womanly health is established.

Dr. Pierce's Favorite Prescription cures diseases peculiar to women. It establishes regularity, drives the drains which weaken women, which inflammation and ulceration, and cures female weakness. In curing these local diseases, it cures the ailments which they cause; backache, headache, sideache, dizziness, faintness, nervousness, and other peculiarly feminine.

"I wrote you for advice January 4th, 1901," writes Mrs. Lema Holstead, of Claremore, Cherokee Nat. Ind. Ter. "I was racking with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your Favorite Prescription. Dr. Pierce's Favorite Prescription, Golden Medical Discovery, and Pleasant Pellets, also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in each day a day at least at my work."

Weak and sick women are invited to consult Dr. Pierce by letter free. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Common Sense Medical Adviser, 1008 pages, is given away. Send 21 one-cent stamps, the expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address, Dr. R. V. Pierce, Buffalo, N. Y.

From the Snips.
Dr. Woodford informs us that there is considerable sickness in the burg at present.

St. Johns will have to follow the example of Fort Apache and put in an ice plant, for our winters are getting to be so mild that ice does not come by the hand of nature alone.

The other evening two prisoners escaped from the custody of Jailer Gonales. They were the two Harless boys, who were sentenced to ninety days each in jail about that long ago. In fact, they had only one more day to serve, and their running away at this time indicates that they feared other and more serious charges against them. An effort was made to recapture them, but without success. An attempt will not be likely to trust any more nice young fellows just because their time is almost up.

Sheriff Ortega thinks he is a somewhat abused official. All the other county officials had their salaries raised, and the board of supervisors has the right to allow the sheriff not less than \$300 and not more than \$600 per annum. This gives them a chance to raise the sheriff's salary, but Chairman Gibbons put up a strong fight against it, hence the salary remains at the old figure of \$500 per annum. Mr. Gibbons stated in his argument that he was ashamed to accept the \$700 salary allowed him as sheriff by the recent liberal legislature.

HOLBROOK.
From the Mail.
A. L. Graveley is down from White-river this week. Bert is looking as if the upper country agrees with him.

R. Clark and family will move to Flagstaff Tuesday. It is the intention of Mr. Clark to start a photograph gallery there.

Judge B. F. Jackson and J. W. Ellison returned from Las Vegas, New Mexico, where they had been on mining business. They report a successful trip.

J. T. Egger has purchased the residence property of Mrs. Kate De Rosier and expects to occupy it in a few days. This is one of the neatest homes in town, and we congratulate Mr. Egger on securing it.

Mrs. Maud A. Judson, who has been teaching the public school, was called home on account of sickness in her family, and left for California Wednesday morning. Myron Young, also of California, has taken her place as teacher in the school.

The Indian department has arranged to lease the Indian lands of the Fort Apache reservation to cattle men for grazing purposes. All information on the subject can be obtained from Maj. C. W. Krouse, the honorable United States agent of the Fort Apache reservation.

DUG UP A HUMAN GIANT.
Luciano Quintana Finds on His Ranch a Skeleton Fifteen Feet Long.

Santos Lopez came in from Chaparrito today and reports the country on the Mesa Rica wild with excitement over the unearthing of the well preserved skeleton of a human giant in that vicinity, says the Las Vegas Optic. Tradition had long whispered of the burial of such a human monster in

that country and Luciano Quintana organized a party of five persons to locate it. They found it on the premises of Quintana's ranch, the great grave being marked at head and foot by rough-hewn building stone. The grave was fifteen feet long and eight feet in width. The body had been broken in order to get it into the grave which was too short. The forearm from the wrist to elbow measures four feet. The jawbone is a good three feet. Only the lower jawbone is preserved. In it is a tooth large enough for a milk stool. The ribs are enormous. The five men who saw the grave opened and who measured the dead giant, agreed that his chest measurement could not have been less than eight feet. Other rough tombstones in that vicinity indicate that thereabout sleep other remnants of a race without a name and with a history written only in the secret bowels of the silent earth.

Coming Marriage.
The Citizen has received an invitation to attend the marriage of George W. Armijo, of this city, to Miss Josefa Rebecca Manderfeld, of Santa Fe, the ceremony to be performed at the Cathedral de San Francisco church, Santa Fe, Wednesday, 10 o'clock, January 29. In advance, this paper extends congratulations.

TWO NEW PHARMACISTS.
Admitted at Session of Territorial Board—All Members Take in Fair.

At the semi-annual session of the territorial board of pharmacy in Las Cruces this week a couple of gentlemen were examined as to their fitness as pharmacists, and both were admitted to practice. They were H. B. Hays, of San Marcial, and L. Freeman, of Las Cruces. The members in attendance at the meeting were President B. Rappe, of Albuquerque; A. Fischer, of Santa Fe; C. Murphy, East Las Vegas; W. C. Porterfield, Silver City; P. Moreno, Las Cruces. When the business was concluded, the members went down to El Paso and there had just as good a time as anybody.

B. Rappe said the flower parade was one of the grandest exhibitions he had ever beheld, and as luck would have it, and much to the satisfaction of Mr. Rappe, an alarm of fire was sounded and the fire department had to make a run. Of course our fire chief was standing on a corner where the apparatus had to pass, and he had a splendid opportunity of inspecting it and the work of the firemen. He gives the El Paso folks credit for having good material and men, but says we can beat them on combination hose and chemical wagon.

The fire chief met Mrs. Rappe and daughter in the carnival city and escorted them home this morning.

GALLUP SCHOOLS.
A Few Interesting Notes Culled From the Republican.

The teachers were greatly disappointed in not being able to attend the meeting of the Educational association during the holidays. A full representation from Gallup had expected to go but through some oversight the Santa Fe Pacific failed to grant the usual rates. There was no attendance from here.

Mr. Larkin, in spite of his failure to appear on the program as expected was appointed member of the Educational association of the territory for the coming year.

The teachers gave a reception to the patrons of the schools Friday evening at the school house, to which all those who have children in school were cordially invited. It is hoped that in this way parents and teachers may become better acquainted with each other and with the needs and aims of the school and home.

The best time made thus far in the fire drill is fifty-three seconds. The building has twice been cleared in this time of all children and teachers without any confusion.

The pupils of the High school have unanimously voted to do away with the monthly half holiday which has been given them in the past as reward for freedom from tardiness. There has been no tardiness since the decision was made and probably be no more than formerly. Such a voluntary action shows a spirit of earnestness and good judgment that is very commendable.

INTEREST TO THE WEST.
Three Important Bills Introduced in National House.

Representative Kieselberg, of Texas, introduced a bill in the house of representatives to provide for the selection by the United States and Mexico of an international board of engineers for the purpose of making surveys, plans, and estimates of the cost of an international system of irrigation in the valley of the Rio Grande and making an appropriation of the sum of \$50,000 for paying expenses of board of engineers.

Representative Curtis, of Kansas, has introduced a bill providing that the lands belonging to the Pueblos of New Mexico be confirmed and the commissioner of the general land office directed to issue the necessary instructions for the survey of the claims and the commissioner shall issue a patent for it. Confirmation is only to be construed as a relinquishment of title on the part of the United States, and shall not affect any adverse public rights.

Chairman Lacey, of the public lands committee, has introduced a bill providing that timber procured from forest reserves shall not be used outside of the state or territory where cut, except in cases in which the discretion of the secretary of the interior, the exigencies are such as to permit the use of the timber elsewhere.

Bitten by a Dog.
Herbert, the 5 year old son of Mr. and Mrs. Siegfried Grunfeld, was bitten on the right ear this morning by the pet dog. The canine was enjoying his morning meal when the little boy ventured too close. A physician was hurriedly summoned, but he said the injuries were not of a serious character. The wound was cauterized and no

PROFITABLE ENTERPRISE.

R. W. D. Bryan Interesting Himself in Beet Sugar Factory.

Attorney R. W. D. Bryan, who has been spending a few days at Santa Fe, returned last night. While in the capital, Mr. Bryan had the pleasure of a short visit with Albert L. Toops, editor of the Sugar Beet Grower, of Denver, who is representing capitalists who are prepared to establish a sugar beet factory and refinery in New Mexico. If he finds it possible to secure enough material, and the proper encouragement is offered by the community.

Mr. Toops will address a meeting at Las Vegas Friday evening, and if enough interest is manifested in Albuquerque he will come down here and speak on the subject Saturday night.

Mr. Bryan will lay the matter before the business men of the city in view of holding a meeting to discuss the facilities of the surrounding country, and make arrangements for the reception of Mr. Toops.

There is little doubt but what Mr. Toops will be well pleased with Albuquerque and the surrounding valley, as this alkali soil is especially adapted to sugar beet culture, and the water supply is abundant.

Mr. Toops is not only a literary man but an attorney at law and is one of the best posted men in the west on the sugar beet question.

MADE THEM "DIG UP."

Peculiar Superstition of the Sultan of Turkey.

A peculiar example of the distrust of anything new and of the introduction of the methods of modern civilization in Turkey may be seen in the recent action of the sultan. His dread of assassination keeps him a prisoner all the year round, but on the 15th day of Ramadan he must go to Stamboul to kiss the Prophet's mantle. The most elaborate precautions are taken. The route by which he goes is kept secret, but generally he travels by railway to a point just outside the terminus at Stamboul.

Beyond this the line is single, and a somewhat complicated system of signals worked by electricity was recently established in order to avoid accidents. There were more than forty wires enclosed in three subterranean cables.

This was pointed out to the sultan this year, and he immediately ordered that the cables be taken up. The possibility of serious danger was pointed out if the signal system should be disorganized and there was no time to furnish a substitute, but his only concession was that the cables might remain if they were dug up and exposed on either side. This was consequently done, and now the cables lie along the permanent way.

RUN BY TELEPHONE.

Illinois Central Will Do All Its Business By Phone.

The telephone has won an important victory in its battle with the telegraph for supremacy in train operation on the railway systems of the country. The Illinois Central railroad will in a short while have all the principal stations along its line completely equipped with telephone wires for the use of officials and employees in transmitting orders and messages of the company.

The innovation is regarded as radical, for after continued experiments on the eastern roads, the telephone has been declared a failure in railroading. It is expected that if the Illinois Central proves it to be the success which its officials are so sanguine of the example will be speedily followed by other large roads throughout the United States. Those who have experimented with the system assert that the service will be practically revolutionized in quick, constant and personal communication with every point of the line. With slight improvements, which are inevitable, the telephone will furnish greater safety for train orders and that the cost of train operation will be decreased.

DEATH OF MRS. BORRADAILE.

It Occurred This Morning After an Illness of a Month.

After an illness of one month Mrs. Rebecca Borradaile died at 10 o'clock this morning of pneumonia at the residence of her son, Capt. John Borradaile, in Old Albuquerque.

Mrs. Borradaile was born September 18, 1836, at Hathaway's Four Corners, Yates county, New York, and was in her seventy-second year. The deceased is survived by her husband, G. C. Borradaile, and two sons, John Borradaile, of Albuquerque, and Fred H. Borradaile, of Michigan. The funeral will be held at 2 o'clock on Saturday afternoon from the residence of John Borradaile, whence the remains will be conveyed to Fairview cemetery for interment. Fred H. Borradaile cannot reach Albuquerque in time for the funeral.

SUE THE SANTA FE.

Texas Commissioners Charge That Rates Have Been Paid.

It was stated at Austin, Texas, that the railroad commission has received evidence of rates having been paid by the Gulf, Colorado & Santa Fe, and that a statement of these alleged violations of the law is now being prepared for submission to the attorney general, to be used as the basis for suits to be brought against that road. H. G. Askew, expert auditor of the railroad commission, has been making an examination of the books of the railroad in question at Galveston.

Ward Thomas Dead.

Word was received here last night that Ward Thomas, a well known printer and musician who resided in this city a few years ago, died suddenly Monday night at Springer, New Mexico, presumably of heart disease. He was

recently married to Mrs. Jennie Clark, nee Boardman, formerly of Las Vegas. The funeral took place at Springer yesterday.

SANTA ROSA.

La Voz Publica.

George Moran has returned to town from a trip to the end of the track of the El Paso & Northeastern.

James Eakin, member of the firm of Mellini & Eakin, of this town, has returned after an absence of several weeks visiting his family.

James A. Nabl was appointed justice of the peace for this precinct to fill the vacancy caused by the resignation of Liberto Baca.

The type and material for the Santa Rosa Star has arrived and probably Mr. Cooper will commence the publication of his paper by next week.

E. E. Wright, a lawyer residing in this town, has been appointed by the district court, United States commissioner for this district.

DEMAND JUSTICE.

Delegate Rodey is Warm Over the Statehood Question.

A dispatch from Washington says: Delegate R. S. Rodey of New Mexico and his associates from Arizona and Oklahoma are in dead earnest about their determination to secure the passage of the long procrastinated and eminently just admission bills for the three territories. Delegate Rodey said tonight:

"Unless the house does the three territories justice, the three delegates intend to advance to the speaker's desk and resign, as a protest against the intolerable treatment of their constituents."

DESTRUCTIVE FIRE.

City of Columbus, Ohio, Suffers Heavy Loss.

Columbus, Ohio, Jan. 22.—Estimates made today of losses in last night's fire place the total approximately at \$500,000. While the big building occupied by the various wholesale dealers was burning and Deen, Taft & Co.'s dry goods store was consumed, a third fire destroyed August Ruetty's wall paper store.

Dance at Club.

The Commercial club entertained last night in an unusually delightful manner. This is the first dance since the new year ball, and was enjoyed immensely. The music was excellent and not until a late hour did the gathering depart for their various homes.

Those present were: Messrs. and Mesdames S. Neustadt, M. Mandell, I. Grunfeld, W. H. Hahn, Frank McKee, C. K. Newhall, E. L. Medler, J. G. Albright, A. Borders; Mesdames A. Grunfeld, J. E. Saint, Notcomb, Harper, Frankfurter, Grand Rapids; Misses Mamie Carter of Madrid, Hayes, Fitch, Hahn, Stevens, Baer, Saint; Messrs. Plekard, Alger, Chamberlin, Flounoy, Frost, Hertzog, H. Weiller, Raynolds, H. Myers, Cleland, Newcomer, Newman, Wilkerson, D. Weiller, F. L. Myer.

January examinations are occurring at the University today.

M. Wisbrun, the Bernalillo butcher, is here today on business. He will return to Bernalillo tomorrow morning.

Engineer Mark Blockett and Fireman H. H. Brown went west this afternoon on the biggest engine in the world, 989.

Miss Mary L. Kraft, of Bernalillo, is in the city, and will attend the marriage of Miss Etta Grout and Frank Bowyer tonight.

Mayer Marron received a telegram from Hon. W. T. McNary this afternoon stating that he would arrive tomorrow morning on the flyer. He is in Las Vegas today.

Wilbur Lewis, of Creede, Colorado, is in the city on a visit to relatives, and will probably remain permanently. He likes the way things are done down this way.

Sol. Block, who is here on a visit to his family, expects to return to Grants, out west, tonight. Mr. Block says that Grants and vicinity were visited by a heavy snow the other day.

One of the Albuquerque visitors at the El Paso Midwinter carnival won \$3,800 and helped break one of the fare dealers at Juarez, and came home well pleased with his visit to the border town.

Col. A. W. Harris, who was here the past two days, left for his home and mining headquarters at Kingston, Sierra county, where he will go to work in dead earnest, and help bring prominently to the front the great mineral resources of that county.

J. H. Johnson and wife were through passengers on No. 2 this morning on their way to visit Mr. Johnson's parents at Kenton, Oklahoma. Mr. Johnson was formerly one of the proprietors of the Palace Club saloon, but is now located at Clifton, Arizona.

Byron Harvey, of the Fred Harvey eating house system, was on the No. 2 passenger train this morning, but he did not leave the stationroom of the Pullman coach which he occupied. His face was in a horrible condition, the result of ivy poison. Dr. Hope was at the depot to administer medical wants to the patient, after which Mr. Harvey continued on to his home in Kansas City, Mo.

B. Ruppe, the druggist, has fixed up his drug store on Railroad avenue in fine shape, and has arranged a sitting department in the front part of the store. Mr. Ruppe recently ordered an electric organ, known as the tonophone, and expects to regale his customers with some very fine music in a short time.

A. J. Maloy has moved into his new house at corner of Third street and Lead avenue. All the apartments are ready for occupancy, two having been

WASTING AWAY.

AN ATHLETE'S SAD FATE.

This is the story of a strong man. He had been captain of his foot ball eleven and a crack all-around athlete. He was the picture of manly health and vigor, envied by men and admired by women. One day he was taking a practice spin on the river when a drenching storm came up. When he returned to the boat house he sat around in his wet flannels without a thought of danger. What could hurt him? He was "as hard as nails." After a while he develops a little hacking cough which somehow

won't be thrown off. In time he finds he hasn't the ambition he formerly had. Exercise wearies him. He is losing weight. It is not very long before he finds himself weak and emaciated, stretched out in a chair knowing that he is wasting away day by day and hour by hour. It seems a long way from that chair to the gridiron and the diamond, a great change from that dripping athlete in the boat house to this weak and wasted invalid. But the way is indeed very short. It is a way which thousands tread every year and the beginning of the way which leads to such a sad ending is

A TROUBLESOME COUGH.

No man or woman is so strong as to be able to treat lightly an ailment which is the beginning of such a serious disease. There is a cure for coughs however stubborn, and that cure is Doctor Pierce's Golden Medical Discovery.

"I am feeling quite well," writes Miss Dorcas A. Lewis, of No. 1129 24th St., Washington, D. C., "and I owe it all to Dr. Pierce's Golden Medical Discovery. I cannot say too much in praise of the medicine. I had been quite a sufferer for a long time, and after reading Dr. Pierce's Common Sense Medical Adviser thought I would try his 'Golden Medical Discovery.' I commenced taking it in May, 1899. Had not been sleeping well for a long time. Took one teaspoonful of Dr. Pierce's Golden Medical Discovery and slept nearly all night without coughing, so I continued taking it. I am in great sympathy with everybody who suffers with a cough. I had been a sufferer for more than ten years. I tried lots of different medicines and different doctors, but did not feel much better. I coughed until I commenced spitting blood, but now I feel much stronger and am entirely well. Dr. Pierce's Golden Medical Discovery is the best medicine I have ever taken."

let to James Grunfeld and Dr. Elder, who are also busy in furnishing, and will probably take possession about next Monday. In addition to being fitted with electric lights and other modern conveniences, the office is piped for gas, to supply which the gas company are busy laying a main from Second to Fourth street on Lead avenue. The "Oro y Plata" is a very handsome structure and a credit to the city.

Lodges.

The Ladies' Aid society of the Presbyterian church met this afternoon at the residence of Mrs. Zirhut.

The Ladies' Aid society of the Lead Avenue Methodist church held their regular monthly meeting this afternoon at the close of the services.

There will be a stated convocation of Pilgrim Commandery, No. 3, at 7:30 o'clock, at their asylum, in Masonic hall. Installation of officers. Your presence requested. L. H. Chamberlin, recorder.

The Eagles will hold a regular meeting tonight, and as several candidates are to be initiated it is hoped a full membership will be present.

He is Still Growing.

Morgan Llewellyn, the new surveyor general of New Mexico, passed through Deming Sunday for Las Cruces. He is 6 feet 4 inches long and 210 pounds heavy. Mr. Llewellyn appears to be a good, substantial young man, and President Roosevelt has evidently made no mistake. Mr. Llewellyn will assume the duties of his new office at Santa Fe in a week or so.—Deming Herald.

Held for Murder.

William Watson, W. C. Bright and Andrew Hood were given a preliminary hearing at Lincoln, Lincoln county, on the charge of murdering Sylvester Davis and an unknown man at the Copeland ranch and of carrying concealed weapons. Watson was discharged and the other two were held in \$10,000 bail for the next grand jury. The hearing was before Justice L. B. Walter.

A Doctor's Trust.

The three physicians of Clayton, Union county, have gotten together, conquered their professional abhorrence of paid advertising and have in-

"Golden Medical Discovery" is not to be classed with ordinary "cough medicines." When the cough has been obstinate and deep seated, when there have been weakness, night-sweats and emaciation the use of Doctor Pierce's Golden Medical Discovery has been the means in hundreds of cases of a restoration to perfect health. The reason for this success is that the "Discovery" strengthens the stomach and purifies the blood, thus enabling the building up of the wasted tissues. All treatments of the wasted organism recognize the need of nourishment. The use of cod liver oil is only an attempt to impact nourishment and so strength to the wasting body. The oil is a food but it is an emergency food. In its very form it recognizes the weakness of the stomach. "Golden Medical Discovery" strengthens the stomach so that food is digested and assimilated. The body begins to put on healthy flesh, and strength comes back again.

FOUNDED ON FACTS.

The claims made for "Golden Medical Discovery" are not imaginative or theoretical. Every claim of cure is founded on a solid fact, a written record, of the cure of deep-seated coughs, weak lungs, hemorrhages, emaciation and other forms of disease which is neglected or unskillfully treated find a fatal termination in consumption.

"I had a cough and night-sweats, also spitting of blood; no life," writes Mrs. M. A. Cary, of (Indian Hill), Blackwood, Assiniboia Dist., N. W. T. "I could not hold any weight; my shoulders would give way; had pricking pains in the chest, also nasal catarrh and constipation. I began using Dr. Pierce's Golden Medical Discovery and for the first two or three days I seemed worse, and then all my nerves felt numb, as if they were being roused up. Used about ten bottles of 'Golden Medical Discovery,' nine of 'Favorite Prescription,' and four vials of Dr. Pierce's Pleasant Pellets, and six bottles of Dr. Sage's Catarrh Remedy. Now I have none of the old symptoms. I am, so far, as well as ever before. I shall recommend Dr. Pierce's medicines to my friends."

Dr. Pierce's Golden Medical Discovery is confidently recommended for pulmonary diseases and diseases of the organs of respiration generally. It always helps. It almost always cures. It is not a tonic merely, but a flesh-forming, body-building medicine, containing no alcohol, and being absolutely free from opium, cocaine and all other narcotics.

FREE TO THE SICK.

Persons suffering from disease in chronic forms are invited to consult Dr. Pierce, by letter, free. All correspondence held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Sometimes a dealer tempted by the little more profit paid by less meritorious medicines will offer a substitute for "Golden Medical Discovery," claiming it is "just as good." Do not allow yourself to be imposed upon. Insist on getting the "Discovery."

WHAT OUGHT TO BE.

Frank J. Smith, of 413 Van Stiel Avenue, Brooklyn, N. Y., says: "The Medical Adviser ought to be in every household. I have already got some very valuable information from it which alone has more than paid for the cost of the book."

This great work, containing 1008 pages and over 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

DEMAND MORE PAY.

Santa Fe Grievance Committee Consult With Chief Officials.

The conductors and brakemen of the Santa Fe system, through their grievance committee, have asked the Santa Fe management to grant an increase in the present scale of wages paid to those two classes of railway labor.

The present scale of wages in the west is about 3 cents a mile for conductors and 2 cents for brakemen, varying somewhat according to conditions and places of employment. The exact amount of the increase asked for is set forth in the written statement filed with General Manager H. U. Mudge, but has not been made public.

There was a long conference between the members of the grievance committee and the Santa Fe officials Monday afternoon, and another conference was held yesterday at Topeka. Besides General Manager Mudge the officials present at the conference were General Superintendent Rosengue and General Superintendent Hurley.

The chairman of the grievance committee which represents the Order of Railway Conductors is W. W. Hutton. The chairman of the committee representing the Brotherhood of Railway Trainmen is R. C. Scott.

It was intimated by one of the chief officials of the Santa Fe that the demands of the committees would not be granted. "We are already paying as much as the other roads in this part of the country," said this official, "and I do not think that the men themselves expect their demands to be complied with. However, we expect to investigate the situation, and look into the rates paid by other roads. If we find that the men have a good cause, we will give them what they ask for."

Fall Appointed Deputy Succeeding Llewellyn.

Hon. P. F. Garrett, collector of customs, has received and accepted the resignation of Morgan O. Llewellyn, deputy collector at the sub-port at Columbus, N. M., and appointed W. R. Fall to succeed him. Mr. Fall was sworn in here yesterday and will take

charge of the sub-port today. He is the father of Judge A. B. Fall, of Las Cruces, who has a law office in this city.—El Paso News.

Eagles, Attention!

A regular meeting of Albuquerque Aerio No. 165 will be held this evening at 8 o'clock sharp at Knights of Pythias hall. All members earnestly requested to be present. Business of importance and initiation. Visiting brethren are cordially invited. J. J. Sheridan, secretary.

Misses Adele and Barbara Hubbell returned last evening from a three weeks visit to friends at Prescott, Arizona.

Trustee's Sale.

Whereas, Jose Sanchez y Montoya, (widower), in and by a certain deed of trust, dated the 13th day of January, 1900, and recorded in book 10, T. D., page 58, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situate in the county of Bernalillo, and territory of New Mexico, to-wit:

A certain piece of land in precinct 29, Atrisco, Bernalillo county, N. M., from north to south twenty (20) yards and east to west thirty (30) yards, bounded north by Juan Jaramillo, south by Jose Jaramillo, west by hills, east by public road and Rafael Armijo.

Also a piece of land in precinct 29, Atrisco, in place known as "La Vega del Monte," Bernalillo county, New Mexico, in width from north to south twenty (20) yards; in length from east to west three hundred (300) yards; bounded north by Higinio Garcia, south by land of second party, east by public road and west by foothills.

Also a certain piece of land in Atrisco, Bernalillo county, New Mexico, described as follows: Bounded north by land of Jose Sanchez y Montoya, south by lands of Francisco Garcia, east by public road, west by lands of Mr. Al-drich.

Said deed of trust being made to secure the payment of a certain promissory note therein described for \$120, payable to E. C. Wheeler one year after date, with interest at the rate of 12 per cent per annum, which note with interest as per terms of said deed of trust, will hereinafter mentioned, amount to \$142.80.

Whereas, the said note is past due and together with interest accrued and unpaid; now therefore at the request of the legal holder of the said note, and by virtue of the terms and conditions of said deed of trust, I do hereby give notice that for the purpose of paying said note, interest thereon, taxes, costs and cost of executing this trust, including legal compensation to the trustee and his reasonable attorney's fees, as provided by said deed of trust, I will, on Monday, the 24th day of February, A. D. 1902, at the hour of 12:30 o'clock p. m., of said day, in the front door of the postoffice in said city of Albuquerque, New Mexico, sell the real estate hereinbefore described, at public auction, to the highest bidder and best bidder for cash, to pay said indebtedness, as, costs and expenses.

JOHN M. MOORE, Trustee.

Dated Jan. 24, 1902.

Kodol Dyspepsia Cure
Digests what you eat.
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles
Prepared only by E. C. DeWitt & Co., Chicago.
The \$1. bottle contains 7 1/2 times the 50c. size.
J. H. O'Reilly & Co. and B. H. Briggs & Co.

A CHANCE IN A LIFE TIME
to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it
FIFTY THOUSAND DOLLARS

In development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run. The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, references, etc., address,

OZARK GOLD MINING & MILLING CO.,
MOSCOW, IDAHO.
