Weekly Albuquerque Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, FEBRUARY 8, 1902.

NUMBER 13

NEW MEXICO TOWNS

LAS CRUCES.

From Dona Ana County Republican.
Dr. Ridenour had a bad hemorrhage and is very low.

Mrs. Ben Williams, who has been visiting her parents here, left for La Junta, where she will make her future home.

We are pleased to be able to say that Miss Llewellyn, who injured her ankle in the last basketball game, is making rapid recovery.

On Tuesday evening, January 28, Professor Tinsley entertained the experimental station staff and their wives at dinner. Miss Gibson and Miss Horning arranged the menu, and the meal was a feast to be remembered. Misses Blinn, Harney and Nelson waited upon the guests. Those present were President and Mrs. Foster, Professor and Mrs. Goss, Professor and Mrs. Vernon, Professor and Mrs. Hare, Professor and Mrs. Wootton, Professor and Mrs. Lester and Professor Garcia.

Judge Chaffee showed us this week a natural curiosity that he picked up near his marble deposits in the Potrillo mountains. It was, as the judge says, "a natural cave in the miniature." In a solid mass of stone was a cave some two inches in diameter entering one side and coming out the other. The judge also showed us samples of marble that are undoubtedly the finest in the southwest. They were duplicates of the famous Georgia marble and specimens that have been pronounced by experts to be equal to the best Vermont marble. There are two deposits, one three and the other five miles from the railroad, and a down hill pull all the way. Judge Chaffee is interesting capital and it is fully proposed to develop this property. It is in the extreme southwestern part of this county and adds one more to the mineral resources of the county.

From Rio Grande Republican.

Twenty-one years ago Nick Galles, the new land office register, was the postmaster at Hillsboro, and the report had just been denied that he had been killed by the Indians near Fort Cummings and that his young bride had been taken captive.

A Mexican boy about 16 years of age, who works on the range for Jeff Isaacs, lassoed a wildcat that was as big as a good sized dog. He dragged the animal until dead, then tied it back of his saddle and left for the ranch.

G. Kraft, of New York, who is spending the winter here for his health, is quite a sportsman. He is out nearly every day and besides a large number of small game he has been fortunate in securing rare specimens of birds, hawks, eagles, etc., which he has sent to El Paso to be stuffed.

SANTA FE.

From the New Mexican.

It is understood that chickenpox is prevalent among the children of the city.

The Capital City band is making good progress. It now has twenty-two members on its roll and within six weeks expects to number thirty. Practice meetings are being held right along.

The small boys and not a few of the older ones have been having no end of fun skating on the numerous ponds in the vicinity of this city. Good sport for the boys and should also be the means of making ice cheap for consumers next summer.

The new residence for the superintendent of the government Indian school near town has been completed and Superintendent Crandall and family have taken up their abode therein. The contractors for the new building to be used for training shop for various trades have also about finished their work and will turn the building over to Superintendent Crandall some day this week.

A very pretty wedding occurred at the Guadalupe church at 7 o'clock, when Rev. Father Adrian Rabeyrolle united in marriage Jose Defouri, nephew of Father Defouri, formerly pastor of Guadalupe church, and Miss Claudine Givandau, of this city. After a short visit among relatives in Albuquerque and elsewhere in the territory,

the young couple will take up their residence in Pueblo, Colo., where the groom is employed in the works of the Colorado Fuel and Iron company.

Judge Morrison reports that the pupils of the Academy of Loretto have contributed \$4.19 to the McKinley memorial fund.

Mrs. W. H. Whitman is expected to return to Santa Fe from Coronado Beach, Cal., in a few days. Mrs. Whitman has been at the latter place for some months with her daughter, Mrs. Mitchell, who has been quite ill, but is now rapidly recovering.

Mr. and Mrs. Philip E. Harroun are in the city on a visit to their parents, Dr. and Mrs. W. S. Harroun. Mr. Harroun will go to San Francisco in two or three days, where he will likely remain permanently. His wife will remain here until her husband has arranged for a home, when she will join him.

The city board of education met Monday evening, a quorum being present. Routine business was transacted and all bills for the month were audited and ordered paid. The board has had under consideration the advisability of issuing bonds wherewith to construct one or two modern school houses. The resignation of Miss Florence Gildersleeve was accepted, and the superintendent of the city schools, Professor Wood, was authorized to temporarily fill the vacancy. From the amount of money on hand now and judging by the current expenses it is very likely that the board will be able to keep the city schools open for nine months of the present year.

CARLSBAD.

From the Argus.

The school children of Eddy county raised \$11.66 for their contribution to the McKinley memorial fund, and as the maximum subscription was 5 cents it will be seen that about 250 youngsters participated in the giving. Superintendent Kerr sent the money to Santa Fe.

J. S. Crozier has leased the entire lower floor of the Tansill block, including the opera house. R. W. Tansill bought the chairs and stage fitting from C. C. Emerson, the latter retiring as manager of the opera house and Mr. Crozier taking over same. Crozier & Obery will occupy the big corner store and the one just south of it with their immense stock of furniture.

Jesse O. Thomas, Jr., one of the editors of the Bucks County Gazette, of Bristol, Pennsylvania, a suburb of Philadelphia, arrived here and will remain a week, looking about. Mr. Thomas is making a leisurely tour of New Mexico, with ultimate destination at Silver City, where he has some mining interests. He is incidentally making a study of the local irrigation system, in order to post himself on a question that is rapidly becoming of national importance.

SAN MARCIAL.

From the Bee.

Leo Lowenstein expects to visit the Atlantic seaboard cities shortly.

W. G. Lane is moving about and will soon be back on the platform from which he took a header last week.

We regret to announce the temporary illness of Mrs. A. Cruikshank, and trust she will speedily recover her wonted health and spirits.

E. W. Brown is going ahead with the reservoir proposition mentioned in the Bee last week. The incorporation papers are being prepared. There will be 400,000 shares of stock to go on the market at \$1 per share.

Miss Lizzie Hockett, after attending school in St. Louis for three months, has been graduated into high school work. This fact not only speaks well for the studiousness of Miss Lizzie, but for the standing of the San Marcial school, where, up till last fall, the young lady received her education.

P. W. Vaughn was in town during the week. He brought the news that a few days since H. B. Morgan, while trimming a stick of timber, made a false stroke with a broadax and is now minus a portion of two toes. Three were in the track of the ax, but George Crossman, who understands surgery,

sowed one of the several sections back into its original position.

On Thursday L. N. Broyles received a carload of coal from A. H. Hilton, of San Antonio, for use at the flour mill. A number of people who were short of fuel asked Mr. Broyles to divide the coal among them. Accordingly our banker retained two tons for the mill and the balance of the car went to the townspeople. Mr. Broyles' accommodating disposition is almost without parallel in this instance. He let us have the coal and he let us have it at cost, and that amounted to only \$4.25 per ton, with the freight and drayage added. The people have been paying \$7 for coal from the same neighborhood.

LAS VEGAS.

From the Record.

Hilario Romero, who has been quite ill for some time, is improving.

James Leonard has completed harvesting his summer supply of ice at Trout springs.

Three hundred tons of ice were stored by the Montezuma Brewing company, on their pond.

Morris Bach returned last evening from a month's vacation in Philadelphia and left this morning for Mora, to resume his duties in that city.

Mark Topp, merchant of Muncie, Indiana, and family are in the city to spend a few months and have moved into the Duncan house on Fourth street.

Another case of diphtheria has broken out on the hill.

Col. F. A. Blake is quite ill at his home at Beulah and has sent in for his wife.

Master Harry, little son of Mr. and Mrs. W. H. Coleman, is quite ill with a severe attack of pneumonia.

Mrs. J. P. Love, mother of Mrs. G. B. Young, returned to Chicago, after a few days spent in the city.

W. B. Twitchell arrived in the city from New York on a few weeks' visit to his brother, Col. R. E. Twitchell.

The Santa Fe company will commence constructing a spur from the Hot Springs track to the site of the electric street railway's power house in a few weeks.

George Arnot came up from Albuquerque Saturday afternoon to spend Sunday in the city with his family. He returned to the Duke City on the flyer.

Misses Jessie Hfield, sister of Mrs. Ike and Mrs. Simon Bacharach, of this city, came over from Santa Fe, accompanied by Miss Carol Palen, also of Santa Fe, to remain in the city for a few weeks.

From the Optic.

One hundred and fifty new books will be purchased for the public library within ten days.

Jose Maria Baca, aged fifty years, died of heart disease at the home of his relative, Don Juan Ortega, East Las Vegas. He was buried in the west side Catholic cemetery.

S. G. Schaffer came here from Kansas City about two months ago for his wife's health. She was very unwell. A few weeks proved to Mr. Schaffer the incalculable value of this climate to his wife. He was naturally delighted with a climate so salubrious and this week he proved his appreciation most substantially by purchasing a ranch near Las Vegas, to which he moved with his little family yesterday. No one can ever estimate this one great good of our beautiful sunshine land in that it brings hope and life to thousands who but for the salvation of this climate would be face to face with irrevocable, unrelenting death.

N. B. Roseberry was telegraphed that his father is dying at his home at Remington, Ind. Mr. Roseberry left for his father's bedside.

Dr. L. Hernandez is receiving great praise from the Taos people for the very successful yet delicate operation performed on the person of A. Helphenstein, a wealthy miner of that county, for appendicitis.

Modesto Martinez is where he will keep. He is the man who broke into the residence of Rev. C. M. Smith, colored, and stole a quantity of clothing, January 30. Judge Wooster bound him over to the grand jury in the sum of \$500, which is just \$500 more than Martinez has on hand to invest in bonds.

The Methodist church was favored with an address, Sunday evening, by Dr. Susie Rijnhart, who is spending some time in the city for health reasons. Her subject was "Five Years in Tibet." This is the second lecture Mrs. Rijnhart has given in the city, on her missionary work in the closed land, but this lecture was far superior to the one given before. She has a smooth, attractive voice and an easy manner, and delivers her message in an attractive manner. She told her story from three standpoints, first describing the city and religious life of the inhabitants, then the tent life, and third, methods of travel. Part of her lecture was very dramatic. She told of the death of her only child, at the age of 11 months, in a calm and deliberate manner, yet with such pathos that members of the audience were

more agitated than she was. Mrs. Rijnhart has a message and tells it in such a manner that does people good. If everyone in the city could hear her, the cause of foreign missions would be greatly advanced.

SOCORRO.

From the Chieftain.

It is reported that there is eighteen inches of snow at Sullivan's Hole, fifty miles west of Magdalena.

"Uncle" Sam Meek resigned his position as deputy postmaster and the position is now occupied by Conrado A. Baca.

W. R. Thomas, of Magdalena, called on friends in this city on his way to visit his mother and sisters in Albuquerque.

The second snowstorm of the season fell in this vicinity Wednesday night. The snowfall amounted to nearly an inch but has now entirely disappeared except from the tops of the mountains.

Miss Pearl Helfrich, of Bowling Green, Ohio, arrived in the city and will remain about a month as the guest of her cousin, Mrs. O. R. Smith.

Geo. W. Bowman was quite ill the first part of the week with neuralgia of the heart, but is now recovered. Mrs. Fannie R. Conser, daughter of Mr. Bowman, recent arrival from Chicago, has also been confined to her rooms for some time suffering with neuralgia.

CLAYTON.

From the Enterprise.

Miss Lucy Romero had the misfortune to stick a nail in her foot and for a time her condition seemed critical, as the member became inflamed, and there were some indications of lockjaw. Dr. North is treating her, and says she is now practically out of danger.

J. E. Curran, from Tucumcari, taking Frank Casson, a printer, who had been holding cases on the Enterprise a couple of weeks, to help get out the first edition of the Pathfinder. Frank is a good printer and we expect the Pathfinder to be an artistic sheet.

R. W. Priest, of Carthage, Texas, arrived, with a view of making this place his future home. He will move his family when spring opens. Mr. Priest will associate himself in the law practice with O. T. Toombs, under the firm name of Toombs & Priest.

AZTEC.

From the Index.

Farmington is talking of a national bank.

Dr. J. L. Eblen, formerly of Alton, Mo., has located in Aztec for the practice of his profession.

Dr. E. G. Condit returned from an absence of six weeks in Denver. He reports severe weather during the latter part of his visit in the Colorado metropolis.

There are raccoons in San Juan county, just the same as they have in Missouri and Arkansas. Many specimens of the family have been killed in Pine River country, and last week George Tinker's boys went out into the hills at Cedar Hill and brought back a fat, twenty-pound varmint, showing that in this line, as in everything else she produces, San Juan county does nothing but take first place.

F. M. Harrison, of O'Neill, Holt county, Neb., spent several days here this week, arriving direct from his Nebraska home. After investigating the situation, he decided that an investment in San Juan county really offered good chances of return, and accordingly purchased one of the best ranches on the La Plata river—the place formerly owned by J. T. Allen, lately the property of D. A. Lewis. The tract contains 160 acres and with the improvements which Mr. Harrison expects to make on it will be a handsome farm one of these days. Mr. Harrison has returned to Nebraska, and will be here again some time in the spring. He is of the class of settlers whom we are glad to welcome. The sale was made through Judge Granville Pendleton.

ROSWELL.

From the Record.

A hunting party consisting of E. B. Ewing, Arthur and Howell Stevens, went up the railroad and bagged a large quantity of small game.

A. R. Turk died at the home of his son, W. R. Turk, in this city. Deceased was over 80 years old, and death was the result of the general breaking down of the vital organs.

At a meeting of Columbia chapter, Messrs. John R. Hodges, E. W. Marable and Sydney Prager were acknowledged in the degree of most excellent master in masonry.

Miss Louise Blodgett had an unfortunate experience in visiting the El Paso fiesta. A sneak thief entered her room in her absence from the hotel and stole a number of costly rings. Some of them were highly valued on account of their associations.

The early part of this week a band of horse thieves raided the Phelps ranch, where a bunch of horses belonging to Messrs. Barnett, Cole, Char-

less and Walker were pasturing. They drove off seventeen head and made toward Ft. Sumner in their escape. A posse under Deputy Sheriff Brown started in pursuit on Wednesday. The frequent committal of crime lately indicates that our territory is being invaded by a band of outlaws, probably in league with one another.

ALAMOGORDO.

From the News.

A. J. King has gone to Santa Rosa on business.

Thomas Lister, who is interested in mining near Albuquerque, was in town.

The residence of E. J. Dedman will be completed within two weeks. Plasterers commenced their work yesterday.

Jack Pierce, proprietor of the Rock Island Cafe, has opened up a branch establishment at Carrizozo.

R. H. Pierce & Co. will commence next week the erection of a large warehouse building, 25x50 feet, near the railroad depot.

The family of John M. Wyatt left for El Paso, where they will make their home in the future. Mr. Wyatt will follow them as soon as his successor arrives as cashier of the First National bank.

The wood preserving plant for the Alamogordo Lumber company is well under way. The foundations for the several buildings of the plant are mostly all in and the concrete work is about finished and the work in construction to be rushed to completion. The machinery is about all shipped and will be on hand by the time the buildings are all ready to receive same.

ELIZABETHTOWN.

From the Miner.

Mike Walsh is expected home in a few days.

The storm has been very severe on stock.

Putting up ice has been the order this week.

C. J. Dold has been on the sick list this week.

S. W. Cummings died at the Witt ranch, at the ripe old age of 83 years, 11 months and 7 days. He was buried in the Elizabethtown cemetery.

The wood cutting force employed by Pearson & Gillen has been reduced to about fifteen men. The recent storms have made it difficult to deliver the wood at the dredge, and consequently the remaining 500 cords will be delivered in the spring.

Harry Brainard received a letter asking him to keep a lookout for three firearms which had recently been stolen from Mr. Edgcomb's place of business in Taos. The building was broken into and among the things taken were a double-barrel shotgun, a Winchester rifle and a six-shooter.

HILLSBORO.

From the Advocate.

T. T. Lee sold a bunch of sheep to Albuquerque parties a few days ago.

Jack Harwell, a prosperous resident of Hereford, Texas, is doing the town. We understand he is here with a view of investing some good money in the town.

John Richardson sold 144 head of cattle to F. W. Myster this week. Myster then sold the herd, less twenty-three head, to Peter March.

Miss Mary Lynch, who has been at Flagstaff, Arizona, for a year past, came in on the coach. Miss Lynch has many warm friends here to welcome her return.

TULAROSA.

From the Democrat.

George Luengerich has been quite sick the past week but is now convalescent.

Fred Crosby, wife and children and sister in law, Miss Lena Pellman, were in from Three Rivers.

Mrs. Monroe came in Tuesday from

Nogales, Arizona, to visit her son, George Monroe, who accidentally shot himself a couple of weeks ago. She was accompanied by her daughter, Mrs. J. B. Gordon.

FARMINGTON.

From the Hustler.

The Hyde Exploring expedition expected to move into their big new building about March 1.

A private letter from Delegate B. S. Rodey to Dr. O. C. McEwen, says the prospects for statehood are brighter than they have ever been.

The public schools throughout the county should properly observe Washington's birthday. Last year, it will be remembered, we had a genuine flag raising.

Graf & Johnson have dispatched a dozen or more teams to Durango, for 25,000 pounds of farm implements awaiting shipment here. Mr. Graf left for there yesterday morning to superintend the loading.

After a siege of stock taking, F. M. Pierce made a transfer of a two-thirds interest in his mercantile business to A. E. Dustin and George L. Cooper, the three forming a co-partnership under the name of The Pierce Mercantile company.

WHITE OAKS.

From the Eagle.

Mr. and Mrs. H. Biggs were in from the ranch Saturday. Mrs. Biggs has been quite sick for several days and was brought in for medical assistance.

Dr. H. G. Miller, Congregational pastor here, had a telegram Sunday, announcing the serious and probable fatal injury of his wife, who had been thrown from a buggy while out driving, at May's Landing, N. J. The doctor left on the first train out Monday morning.

Three or four of our small boys left town Tuesday, saying to those by whom they were interrogated, that they were going to Roswell. Parties struck their trail, overhauled them at Captain, and returned with them today. Among them were Pitts Brookings, Clarence Ridgeway, Milton Lesnet and Dixon Reinsner.

SANTA ROSA.

From the Star.

Mrs. Stepps will soon begin the erection of a large hotel on the west side of the plaza.

The Santa Rosa Star Publishing company's building was the first permanently located on the plaza.

E. R. Milliken, of Allamore, Texas, arrived here from New York, where he has been attending school. He will work for the Jackson-Galbraith Lumber company.

J. Reynolds, president of the First National bank of Las Vegas, was in town last week looking for a location for a new bank. He will soon begin the erection of a building for that purpose.

Mr. and Mrs. Harper, the photographers, who have been located at this place taking views of the work along the road, expect to leave for Daltart this week, where they expect to make their home.

ANOTHER COAST TRAIN.

Santa Fe Said to Be Planning a Fourth Daily Limited.

The Santa Fe management, it is said, is contemplating putting another Chicago-California train into service provided the equipment can be secured. The officials say that travel to southern California was never so great, and that it is difficult to take care of it with three trains daily. This is the first year that more than two daily California trains have been in service and a third could be used to advantage.

Octaviano Rodriguez is delivering telegraph poles for the Santa Fe Central railway at Arroyo Hondo.

THE
Pantouris
A Crown for the King of Fashion

Let's get up a tree planting boom in this city.

The New Mexican is informed that there is no sort of fight over the city election in Albuquerque. Everybody is too busy to talk politics.

New Mexico extends to Governor Otero good wishes and cheerful greetings. May his coming administration be the best in the history of the territory.

The fiscal official statistics show the aggregated movement of merchandise by the commerce of the United States in 1901, to have amounted to \$2,246,000,000, an increase of \$50,000,000 over 1900.

This country is doing all that it can in an humble way to civilize and Christianize the world. A Boston steamship has just sailed for Africa with enough rum on board to intoxicate 1,700,000 men.

South Carolina forbids the carrying of any pistol less than three pounds in weight or twenty-two inches in length. The solons of that state are determined to maintain a high standard for marksmanship.

The Charleston soliciting committee has received \$300 in this city to defray the expense of a New Mexico exhibit at the big exposition in the southern city. This city believes in advertising the territory.

Six state legislatures have formally asked congress to summon a constitutional convention to take up the subject of the popular election of senators. It will require the same action on the part of only twenty-four more to render calling the convention compulsory.

The census report on the manufactures of California shows that the Pacific coast has not been behind in the industrial progress of the country. The number of establishments has increased nearly 60 per cent, and the scale of wages advanced over 15 per cent in the last ten years.

The Denver Republican thinks the Santa Fe company should establish a museum at Santa Fe. The territorial capital is an interesting ruin in itself, but it is not on the main line of the great Santa Fe road. The company intends to establish its western museum in Albuquerque.

Even a contrivance that is run on wind may be a paying proposition. It is said that the American Pneumatic Service company is now handling 2,500 packages daily in Boston, and earning all running expenses. It is planned to extend the service and gain a monopoly of the package business in the city.

No fruit exhibit, so far as we are aware, has been made at the Charleston exposition by any far western state. The largest and finest fruit display at that big show is made by the state of Missouri. It far outshines even the wealth of fruit contributed by the southern states. A hundred car loads of fruit is kept in cold storage in St. Louis to be drawn upon from time to time to keep the display at Charleston perfect.

A STAINLESS LIFE.
The career of William McKinley from boyhood was one which may be held up as an example to every American boy. It is absolutely without stain; it is a type of what any American boy may do if he has the brains and the moral character.

We are told sometimes that in these degenerate days the individual is swamped, and has no chance; that everybody must be the servant of some great organization; that there is not the chance there used to be for the poor boy with nothing but brains and character to work up and make a place for himself. Such careers as McKinley's disprove it. No matter what combinations are made, no matter what aggregations of capital there may be, brains and character will tell; and they are telling now just as much as ever they did.

CUBA HAS NO KICK.
Grover Cleveland is out with an open letter, couched in his usual vigorous selection of epithets, championing the cause of Cuba in her effort to get inside the United States commercially and stay out politically, and warning this nation that it cannot "safely violate the rules of honesty and fair dealing;" that the sources of the arguments used against her are such as "cannot fail to be recognized by every honest, patriotic citizen with shame and humiliation." Grover Cleveland always did feel lonely in this unregenerate nation. It is difficult to see wherein Cuba has any ground for complaint. Five years ago the Cubans were squalling about "Spanish tyranny" and talking about how happy they would be if relieved of it. We freed them from it—at our own enormous expense; freed Cuba from a burdensome debt illegitimately imposed on her; cleaned up the island and set affairs running on an honest basis. Now she wants to share in the benefits of our union without sharing its responsibilities.

THE DANISH ISLANDS.
One of the first effects of the admission of the Danish islands as territorial colonies is that an entire suite of American officers must be supplied with new people. There must be a governor, a secretary, a supreme court,

and a score more of minor officers. The president is already receiving applications. Congress is expected to send an investigating commission to the islands to see what is to be needed in the future in the way of general and special legislation. The navy is to send engineers to lay out a naval station and build coaling docks. The army is expected to send at least one regiment of soldiers for show as well as practical purposes. The postoffice department will be asked to send a small commission to install the American system of mail collection and delivery. The treasury department will supply fiscal agents and customs collectors. The lighthouse man will take charge of the somewhat primitive signal service now in operation on the islands. The life saving department will establish a station, and so will the weather bureau.

Secretary Wilson will send his experts to see what can be grown on the islands, and, in fact, a hundred and one things will be quickly started, because the heads of the different departments are enterprising and are ambitious to get in first. The government has recently had some experience in the way of furnishing ready-made governments for stray islands, and this is expected to offer no particular trouble.

TALENT ABROAD.
Silver City Entertains a Plugger for Several Weeks, Without Knowing It.

Many people in Silver City will readily recall the advent in their midst several weeks ago of a smooth shaven, rufous faced chap of splendid physique, who passed himself off as a mining expert, representing the house of Vanderbilt, of New York. He gave his name as George Little, and seemed to be a jolly good fellow. He attended one or two dances, drew sicks from some of the fair maids present and altogether seemed to have a jolly good time. He claimed to have been a member of an "Uncle Tom's Cabin" troupe at one time and impressed one as a man with a past.

From the following Associated Press dispatch sent from Phoenix, Arizona, it can easily be seen that he is also a man with a future. Little left Silver City the night of the 15th saying he was going to El Paso in answer to a telegram saying his father was very ill. He departed but left behind several hundred dollars which he had received from home and which he summarily proceeded to lose backing the local tigers. Says the dispatch, "Officers of California, Mexico, Texas, New Mexico and Arizona are on the lookout for George Little, of Detroit, Mich., who is wanted here for passing bogus checks to the amount of several thousand dollars."—Silver City Enterprise.

Little, the plugger, dead beat and swindler thrived in Albuquerque for a few weeks under the name of G. E. Little, and, while here, he had several maidens and even married women looking at him through goo-goo eyes.

INAUGURATION CEREMONIES.

Governor Otero Will Be Sworn In by Chief Justice Mills.

The reception and inauguration ball to be held at the Palace hotel, Santa Fe, this evening, in honor of Governor and Mrs. Otero, are public affairs and no invitations have been issued. Citizens generally are invited to attend. The several committees to have charge of the reception and ball have been appointed and are as follows:

Citizens' Committee—Amado Chavez, Abraham Staab, I. Sparks, George W. Knaebel, Manuel Delgado, James L. Sellman, H. B. Cartwright, Solomon Spitz, Marcelino Garcia, Solomon Spiegelberg.

Executive Committee—J. W. Raynolds, chairman; A. M. Bergere, secretary; E. L. Bartlett, treasurer; J. H. Sloan and A. B. Renahan.

Floor Committee—A. B. Renahan, chairman; Arthur Sellman, T. F. Slaughter, S. G. Cartwright.

Introducing Committee—Major R. J. Palen, Jose V. Sena.

A Wretched Millionaire.
The story is told of the owner of several railroads who was unable to buy relief from the nerve-twisting agony of neuralgia. It is an unlikely tale. The sick man must have known that Perry Davis' Painkiller would help him at once, as it has helped so many thousands of sufferers in the past sixty years. There is but one Painkiller, Perry Davis'.

Back From the East.

Hon. Solomon Luna returned last night from a visit to Washington, where for the past two months he has worked hard and successfully for the advancement of the best interests of New Mexico. He believes that the chances for the admission of the territory to statehood are very good and that favorable reports upon the pending statehood bill for the territory will be made by the senate and house committees on territories and that the passage of the bill is very probable this session, although much work has yet to be done. In the matter of appointments, Mr. Luna supported the appointments made by President Roosevelt and was especially instrumental in securing the appointment of Nicolas Galles as register of the United States land office at Las Cruces. Mrs. Luna has been in the city since Saturday last, a guest of her parents, Hon. and Mrs. M. R. Otero, and Mr. and Mrs. Luna will remain here until Sunday. They will attend the reception and complimentary ball in honor of Governor and Mrs. Otero on Saturday evening at the Palace hotel.—New Mexican.

Cutting Down Force.

John Hanna came down from Alhambra Thursday, and, in company with L. M. Beckett, called at The Citizen

office on Friday. Mr. Hanna stated that the Alhambra cut down their mine force, and that sixteen miners, just let out, came in to the city last night. These two gentlemen will remain here a few days, and then go west to Arizona.

A \$50,000 HOME.

Being Constructed for a Rich Cattleman in Ponil Park.

Mr. Bartlett has thirty men employed at present on his new residence in Ponil Park, Colfax county. The building will be constructed in the old Spanish style, enclosing a court, and will be built of stone quarried near at hand. In connection with the residence a large stable, a servants' house and a house for the gardener will be built, and the total cost of the building will probably exceed \$50,000. The spot selected for this magnificent home is unsurpassed in beauty, and is near the proposed line of the C. C. & I. company's railroad, which it is expected will be extended there from its present terminus near San Francisco Pass by July 1. The report that it is the intention of Messrs. Bartlett and Adams of the Adams Cattle company to establish in Ponil Park a summer resort for the public was without foundation. The park will, however, be made a game and fish preserve and in future years will become a paradise for the sportsman.—Raton Range.

When the Chimney
is choked with soot, the fire languishes and goes out. When the bronchial tubes are clogged with phlegm, the flame of life flickers. Intelligent treatment with Allen's Lung Balm brings up the phlegm, allays inflammation, stops the cough and pain in the chest and, in a word, overcomes those terrible colds which if neglected soon become consumption.

Raton Deaths.

Marjory Leannetta Oliver, only child of Mr. and Mrs. John A. Oliver, of this city, died of spinal meningitis last Tuesday morning, aged 1 year, 6 months and 23 days. The funeral took place from the family residence at 2 o'clock Thursday afternoon, the services being conducted by Rev. Gibbons.

Clara Ruth Kirkpatrick, aged 8 years, daughter of Mr. and Mrs. H. P. Kirkpatrick, of Raton, died last Tuesday morning at 1 o'clock. The funeral was held from the Catholic church at 2 p. m. yesterday, the 29th inst. The bereaved parents have the sympathy of their many friends in the loss of their darling child.

A. Van Buskirk died Monday, January 27, at his home near this city, of heart trouble, aged 61 years. Mr. Van Buskirk was a native of New York and had lived in Colfax county only a few years. He leaves a wife and five children, Mrs. Garland Kidd, of Montana; Mrs. William J. Park, of New York; Mrs. Elmer Middlecoff, of Alaska; Mr. Frank Van Buskirk and Miss Ethel Van Buskirk, of this place, to mourn his death. The wife and son accompanied the remains to Missouri, where they will be interred.—Raton Range.

Las Vegas Will Have a Smelter.

A very enthusiastic meeting of the board of trade was held last evening, at which fully seventy-five people were present, says the Record. The meeting was called for the purpose of conferring with P. W. McCaffrey, vice president and manager of the Union Ore Reduction company, of Denver, who visits Las Vegas with the view of establishing a smelter in this city.

Mr. McCaffrey wants the citizens of Las Vegas to subscribe for \$10,000 worth of stock in the proposed plant, which will cost from \$35,000 to \$50,000. Mr. McCaffrey will furnish ample and first class security for the erection of the plant.

The project was fully discussed and referred to a joint committee, composed of the board of trade executive committee and mining committee. The committee discussed the subject again this morning, and another meeting will be held for further consideration.

The proposed smelter is receiving very favorable consideration, and there is no doubt but it would prove a great benefit to Las Vegas and promote activity in the city's mineral resources.

Drum Cylinder Discarded.

The Taylor drum cylinder press recently discarded by The Albuquerque Citizen to give place to a Cottrell two-revolution machine, was, many years ago, used to print the Rocky Mountain News, of Denver, when that paper was a six-column folio. The press is said to be good for fifty years' more service.—Raton Range.

H. J. Haverkamp, in the general merchandise business at San Rafael, Valencia county, is here interviewing the local wholesale merchants, and will remain a few days.

BOTTLE BABIES

Bottle babies are so likely to get thin. What can be done? More milk, condensed milk, watered milk, household mixtures—try them all. Then try a little Scott's Emulsion in the bottle.

It does for babies what it does for old folks—gives new, firm flesh and strong life. You'll be pleased with the result. It takes only a little in milk to make baby fat.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

ADDITIONAL COMMENTS

Improved Citizen Receives Kind Words From Territorial Press.

CHEERING PARAGRAPHS.

LARGEST DAILY.

The Albuquerque Citizen has enlarged to eight pages and presents a neat typographical appearance. It is now the largest and best looking daily in the territory.—Tularosa Democrat.

PRETTY HEADING.

The Albuquerque Citizen comes to our table in a new and much improved form and with one of the prettiest heads in newspaperdom. It is now one of the best and handsomest dailies in the southwest.—Deming Herald.

GREAT IMPROVEMENT.
The new form and make-up of The Albuquerque Citizen is a great improvement over the old. The day for the blanket sheet has passed and The Citizen has appreciated that fact and changed.—Williams (A. T.) News.

FOR THE BETTER.

The change in form and appearance of The Albuquerque Daily Citizen, is for the better. The Citizen now presents the appearance of a metropolitan journal. Previously, it savored largely of a huge country weekly.—Carlsbad Argus.

TYPOGRAPHICAL CREDIT.

The Albuquerque Citizen has been enlarged from four to eight pages and otherwise improved. From a typographical point of view it is neat and attractive and a credit to the city in which it is published.—El Paso (Tex.) Independent.

ENLARGED FORM.

The Albuquerque Citizen came out last Saturday in an enlarged and neater form. It is now a six column, eight page paper instead of an eight-column, four page sheet. The new Citizen is quite an improvement over the old one.—Bland Herald.

SHOULD FEEL PROUD.

The Albuquerque Citizen has changed its form from an eight column folio to a six column quarto, and appears with a new engraved heading and greatly improved in appearance. Albuquerque has reason to feel proud of its two daily newspapers.—Raton Range.

AMONG THE FIRST.

The Albuquerque Citizen presented itself to its readers the first of the week in a new form and dress and with a greatly increased quantity of reading matter. The paper is vastly improved in every respect and must be ranked among the foremost dailies of the southwest.—Socorro Chieftain.

ALWAYS ENTERPRISING.

The Albuquerque Daily Citizen made its appearance on January 18th in a new and enlarged form—six-column quarto size. The Citizen was always enterprising and in its improved form is more than ever a credit to the booming city whose name it bears. Typographically, editorially and generally it is worthy.—San Juan County Index.

ATTRACTIVE FORM.

The Albuquerque Daily Citizen comes to our desk in a new and improved form. From a four page, eight column paper, it has been changed to the more convenient and attractive form of an eight page, six column paper. The Citizen is a bright new sheet and we congratulate it upon its prosperity.—Dona Ana County Republican.

THE LATEST NEWS.

The Albuquerque Citizen has changed its form from an eight-column folio to a six-column quarto, added a Cottrell two-revolution press, folder and another linotype machine. The Citizen has always furnished the latest news for this section, and with the improved facilities will be greatly appreciated by its readers.—Holbrook (A. T.) Argus.

A GREAT PAPER.

The Albuquerque Daily Citizen came out Saturday last greatly improved in appearance. The form of the paper has been changed from an eight column, four page sheet, to a six column, eight page paper. If The Citizen maintains this style right along, Albuquerque can justly claim the honor of having two of the best daily papers in the southwest.—Gallup Republican.

ON CLEAN HEAVY PAPER.

The Albuquerque Citizen comes to us this week in the form of a six-column quarto, printed on a clean heavy paper and very much improved in typographical appearance. A new two-revolution press has been installed in The Citizen office and another type-setting machine has also been added. The Miner extends best wishes for the future prosperity of The Citizen.—Elizabethtown Miner.

WILL CONTINUE TO IMPROVE.

The Albuquerque Citizen of the 18th inst. comes to our table in an eight-page form very much improved in appearance and general make-up. It has in its front page a very nice picture of Albuquerque's city council and officers. We congratulate The Citizen upon its improved appearance and hope it may keep on improving until it becomes the leading daily in the territory.—Santa Rosa Publica.

BEST DAILY IN SOUTHWEST.

The Albuquerque Citizen appeared last week in enlarged form and is now a six column folio. It is now printed on a new press on a better quality of paper than formerly and contains nearly twice as much reading matter as it

did before the change. Its appearance is very attractive and it can easily be said to be the best daily published in New Mexico. If not the southwest—Silver City Independent.

LOVABLE COMBINATION.

The Albuquerque Citizen is coming to us at present arrayed in more attractive shape about the head, body and general outlines. This lovable combination improves with acquaintance, for the paper now has eight neat pages of well-printed and carefully arranged reading matter, with well set advertisements in good positions. Like Albuquerque's new hotel, there's nothing exactly like it on the line of the Santa Fe.—San Marcial Bee.

BEST GENERAL NEWS.

The Albuquerque Citizen Saturday last appeared in its new form and we must congratulate Messrs. Hughes & McCright on the immense improvement in the appearance of that popular paper. The Citizen is now a six-column, eight-page paper, taking the full afternoon Associated Press report, besides filled to the brim with the best local and general news. May they continue to improve and grow in popular favor as the years roll by.—Kingman (A. T.) Miner.

A NEWSY EXCHANGE.

The Albuquerque Citizen now comes to us in a six-column quarto form. A decided improvement are the smaller pages over the clumsy eight-column folio. A new special head takes place of the former familiar plain heading. The Citizen has recently installed a two-revolution Cottrell press, with folder, and another linotype has been added. The Citizen is one of our most newsy exchanges, and we have perused its pages and watched its growth from year to year during the sixteen years of its publication.—Flagstaff (A. T.) Sun.

EVIDENCE OF PROSPERITY.

We most sincerely congratulate Messrs. Hughes & McCright, the owners and publishers of that influential publication, The Albuquerque Daily Citizen, upon the decided prosperous enlargement of their paper as evidenced with the first number of the new edition issued on the 18th inst.

The Citizen has grown from a four-page eight-column folio to an eight-page six-column quarto, with fine metropolitan new heading, the cleanest type and brimful of news and press dispatches from all over the world, and in particular from New Mexico and Arizona, and the best of reading matter upon all important subjects, territorial as well as national.

We wish most heartily a long continued prosperous life for the dear Citizen, for the benefit of our territory and its inhabitants, especially at this transition period of its life and existence.—Socorro El Republicano.

CHAMBERLIN HEATH.

A Few Facts From Indiana Newspapers.

The Citizen received this morning two Indiana newspapers with the following articles marked:

MISS MAY HEATH TO MARRY.

The marriage of Miss May Heath and Dr. L. H. Chamberlin will take place Wednesday morning at 8 o'clock at the home of the bride's parents, Rev. and Mrs. Jacob W. Heath, 714 East Adams street. Rev. A. W. Lamport, of the High Street Methodist Episcopal church will perform the ceremony. Due to the illness of the bride's father, there will be no invited guests, only the family being present. Mr. and Mrs. Perry S. Heath, of Salt Lake, and Mr. and Mrs. Fletcher Heath, of New York, and Mr. and Mrs. C. R. Heath, of Noblesville, Ind., will be present. Immediately after the wedding Mr. and Mrs. Chamberlin will depart for their future home, at Albuquerque, N. M., where Mr. Chamberlin has resided for twelve years. His former home was New York City. On a trip of Miss Heath to California and New Mexico, a year ago, the acquaintance that is to end in marriage, was formed. Dr. Chamberlin is a charter member of Albuquerque lodge of Elks, and is prominent in the American colony of that city. Miss Heath is one of the most prominent young women in Muncie, Dr. Chamberlin arrived in Muncie on Sunday.—Muncie Star.

CHAMBERLIN HEATH.

A telegram to the Indianapolis Journal, from Muncie, of date January 26, says:

The marriage of Miss May Heath and Dr. Lewis H. Chamberlin will take place on Wednesday morning, at the home of the bride's parents, the Rev. and Mrs. Jacob W. Heath. Owing to the illness of the bride's father there will be no outside guests, only the family being present. Mr. and Mrs. Perry S. Heath, of Salt Lake City; Mr. and Mrs. Fletcher Heath, of New York, and Mr. and Mrs. C. R. Heath, of Noblesville, will be present. Immediately after the wedding Mr. and Mrs. Chamberlin will depart for their future home, Albuquerque, N. M., where Mr. Chamberlin has been a resident for twelve years. His former home was New York. On a trip of Miss Heath to California and New Mexico a year ago they became acquainted. Miss Heath is a contralto singer of some note and is one of the most prominent young women of the city.

HAS BEEN PERFORMED.

The marriage ceremony has been performed, and Dr. Chamberlin, with bride, will arrive in the city on next Tuesday. They will go to housekeeping on South Walter street, where they will be "at home" to their many friends in a very short time.

Judge Kent of Arizona.

Edward Kent, the appointee to the Arizona supreme court, is a young man of good address, much ability and

On Jellies
preserves and jellies, spread a thin coating of
PURE REFINED PARAFFINE
With these there absolutely melt and hold fast. They are used in many ways and for many purposes. They are sold everywhere.
STANDARD OIL CO.

stands high in the legal profession in Colorado. He is at present an assistant district attorney in the office of District Attorney Earl Cranston in Denver.

Mr. Kent is a son of former Governor Kent of Maine, of whom the celebrated verse was written: "Maine went, Helt bent, for Governor Kent."

UNIVERSITY NOTES.

Miss Tway has been substituting this week in the Fourth ward. The normals are writing a play to be presented at graduating time.

The senior class met yesterday noon and chose a motto besides transacting other important business matters pertaining to commencement.

In the normal department the theory class has completed its work and are now studying school management and law. The history of education class is now studying the Progress of Education in the United States.

Next week, Friday night, at Colombe hall, our two teams of boys' and girls' basketball will play the boys' and girls' teams of the High school. The game promises to be hard fought and we are sure our friends will improve the opportunity of seeing two of the closest games of the season.

This is the beginning of the second semester and a number of classes have been formed. Miss Hickey has a class in advanced German. A number of the students having a thorough knowledge of the elementary work desiring to study the language secured Miss Hickey and are reading Faust.

There are a number of new classes in mathematics, algebra and trigonometry. The trigonometry students meet at 8:15 and have established a new precedent. Classes in botany and botany have been organized with Professor Tight which promise good work under his skilled instruction.

OFFICIAL MATTERS.

Notary public commission was issued to Edward Murphy, of Shoemaker, Mora county.

INCORPORATION.

The Nelson Construction company, capitalized at \$50,000, filed articles of incorporation with Territorial Secretary Reynolds. The company is composed of George Nelson, Charles L. Bitterton, Wm. H. Robinson and Benjamin F. Hammet, Jr. The principal office of the company will be at Rogers, Dona Ana county.

PENSIONS GRANTED.

The following New Mexico pensions have been granted: Dennis Cunningham, of La Plata, San Juan county, \$12 per month; minor children of James R. Wasson, Shoemaker, Mora county, \$14 per month.

Murderous Assault.

In a fit of jealousy, it is presumed, Charles O. Trelles made a murderous assault upon Emma Alcon, in East Raton, last Sunday night, from the effects of which the life of the woman was in the balance for several hours. With a heavy revolver he beat his victim about the head and face, terribly bruising her and fracturing her skull in one place.

Trelles was arrested and brought before Justice of the Peace Payne, and was fined \$10 and costs, the woman he had beaten, through fear or some other reason, making no complaint against him.—Range.

Traveling Man Injured.

Leo E. Lawrence, traveling salesman for the Fritch Hardware company, Denver, the other night stepped off the east bound passenger train, which had stopped on a bridge at the west end of the Cerrillos yard and fell twenty feet to the bed of the San Marcos arroyo. He was shaken up badly and both ankles severely sprained, but no bones were broken. Lawrence supposed the train was at the Cerrillos station, but it had stopped to head into the siding to meet the west bound train.

High School Notes.

On last Friday two literary societies of the high school were organized. It was decided to call one "The Criterion" and the other the "No Name" or at least no name has yet been chosen for it.

As is to be expected from its name "The Criterion" seems destined to be the better of the two and will soon give a program which will doubtless be a grand success.

Al Coleman, who has a good paying business at Santa Rosa, is here on a visit to his wife and relatives, and will remain a few days. He is thoroughly enthusiastic over the future prospects of Santa Rosa, and states that it is the liveliest and best town now along the line of the New Rock Island-El Paso railroad.

Mines and Minerals

Coal and copper have recently been discovered on the Lamy grant, owned by the Oronok Lumber Stock company.

Two of Roosevelt's Rough Riders are at work on the Gold Standard mine at Golden. They have not applied for federal positions.

John Patrick and Jim Faust have ruck a good body of copper ore in the Membrillo mine, San Andres, which runs 3 per cent.

The Modoc mill, in the Organs, will start up in about thirty days turning out concentrates which will be stored in case the lead market is not opened.

The McKinley Gold Mining Company ever cease work on their property in the upper part of the St. Lazarus gulch, they have a large body of rich ore in sight now.

Superintendent Sam Conger, of the Lazarus mine, near Golden, is approaching the dyke and expects to make a rich find when it is reached. Work is progressing daily on this property.

Much development is being done on the Prohmann group of mines, near Pedro, and higher up on the Oro may mountain, parties are trying to force a tunnel from west to east under the mountain.

The Perry and Gibson camps, San Francisco, Argo, St. Lazarus, Monte Cristo, Pine-tree Gulch and various other camps around Golden are displaying great activity and employing large force of men now.

The Socorro Chieftain says: John E. Griffith, Samuel Hoston, of Sterling, Kan., and M. R. Bruce, a mining engineer at Denver, drove out to the Lemitar district to inspect some mining property belonging to Messrs. Griffith and Bruce.

Mr. Moreno, of Las Cruces, has some specimens of turquoise taken from his mine at the Jarillas at a depth of twenty feet. This mine is known as the Santa Genevieve, and is owned by Mr. Moreno, S. P. Ascarate and Florentino Luna, of Las Cruces.

Pat Brown, Jack Green and Jack Wheeler, coming to Las Cruces from the New Mexico Lead company's camp met with an accident on the way in coming down a steep grade their carriage overturned and all of them were more or less hurt about the head.

The Tularosa Democrat says: H. K. Smith is up from El Paso to work on the Mascot mining property belonging to a wealthy company in the east. A United States deputy will visit the group of claims in a short time and survey them, when the property will be patented.

The Lordsburg Liberal says: Thomas A. Lister, of Albuquerque, was in the city. Mr. Lister is largely engaged in mining operations in Bernalillo county, and was down here to look at some properties to which his attention had been drawn, and with which he was greatly pleased.

The condition of the copper market has caused the shutting down of several copper smelters and thus decreased the demand for coal. Socorro county's coal mines are still in operation, however, and it is hoped that they will be able to pass through the depression of business without shutting down, says the Chieftain.

The Flagstaff Sun says: J. W. Francis is in from the copper mines on the Navajo reservation this week. Mr. Francis is highly pleased with the mining prospects in that section. Water in abundance has recently been found near the mines, which permits work to be more easily and cheaply prosecuted, and also makes the mines more valuable.

The Lordsburg Liberal says: Judge J. M. Abbott, who has been in Lordsburg for some weeks, left for Albuquerque. The judge, who is recognized through Colorado as an eminent mining expert, says this section of the country will see a great change in the near future, and he is certain this will be a most prosperous section of the country.

Prof. F. A. Jones has just contributed to the School of Mines cabinet about a dozen specimens of very rare metals from various parts of the world. The cabinet already contains several hundred typical rock and mineral specimens of the territory, and is fast becoming one of the best in the southwest. Contributions always gladly received.

A prospector traveling near a mining camp in Socorro county met a teamster five miles from Oscura hauling water, and the following conversation passed between them: "Where are you hauling water?" "To the camp." "How far do you have to haul it?" "About fourteen miles." "Why don't the company sink a well?" "Because it is about as far one way as it is the other."

The Hillsboro Advocate says: The Mamie Richmond is working steadily with a small force of men. Development is being done on the 200 and 300-foot levels, where good ore bodies are being worked. The ore is of good grade and is from four to six feet wide. The work is being done under the supervision of John Fricke, who is preparing another shipment of high grade ore. The Richmond mine has been a good producer in past years, but during recent years the property has been worked on the lease system and badly gophered up. The present operators are now opening up new ground and putting the property in good shape, and in time a reduction plant suitable to treat the ore of the mine will be built.

HUGE GOLD NUGGETS FOUND.

Indications of a Rich Ledge Still Undiscovered in Montana.

A dispatch from Helena, Mont., says: It is reported here from Madison county that the big Ramon nugget which was deposited at the United States assay office at Helena and found to be worth \$1,400, was the smallest of three nuggets, the largest one weighing forty-two pounds and other somewhat smaller, but still larger than the one worth \$1,400. If this report is correct the forty-two pound nugget is the largest ever found in the west and its value would amount to upwards of \$10,000.

Suit has been filed by Dennis Hurley of Virginia City against Ramon & Le Fehre for \$3,000 royalty on the gold which this firm is said to have taken from Hurley's diggings in California gulch during the season of 1900 and an attachment levied on Ramon & Le Fehre's property. It is said that Ramon & Le Fehre have deposited with the Elling State bank at Virginia City 500 ounces of gold, supposed to be the forty-two-pound nugget cut up into pieces. Knowledge having come to the ears of the Helena syndicate, which was about to purchase the Ramon nugget in order to exhibit it at the world's fair at St. Louis, that there was some question as to Ramon's title it declined to make the purchase. California gulch is a tributary of Alder gulch and has been quite a large producer and of this peculiar gold, unlike the gold of other gulches in the vicinity. Alder gulch has produced \$100,000,000 in placer gold since its discovery in 1863, and is the banner gold-producing placer mining gulch of the United States. This discovery of big masses of gold with quartz clinging to them indicate the presence, mining men here say, somewhere above of a ledge from which this gold was taken, because the gold is not water worn as would have been if it had been carried for a long distance down the gulch.

MINING NEAR SILVER CITY.

New Gold Mines in Lincoln County Drawing the Crowds.

A dispatch to the Denver News from Silver City, says:

The Silver City Reduction works are handling about 250 tons of ore daily. The plant is running three furnaces at full capacity and no difficulty is experienced in obtaining ore. Santa Rita continues in the lead in furnishing ore, but Hanover, Piorro and the Burros are doing their share. Also a great deal of ore is being received from Arizona.

A fifty ton concentrator is being erected on the Sampson property. It will be completed inside of sixty days. The owners of this mine, the Nichol Brothers, are not affected by the drop in price of ore, as they find they can handle their product with copper as low as 8 cents per pound.

A number of men will be brought down from Colorado to handle the drills and compressors used by the Helen Mining company at Graham. The capacity of the mill at this place is eighty tons daily and things will be in shape for running in about a month. A new 400-horse power engine has been successfully installed, and the plant is one of the most complete in the southwest. The Mogollon district is gradually coming to the front in new mines and improvements.

The new road to the Burro mountains, via Bald mountain and Red canyon, will be completed as rapidly as possible. It will shorten the present road by several miles and greatly benefit the mine owners hauling ore from the Burros.

Since the locating of rich gold in the Bonito river, Lincoln county, every foot of ground within a radius of five miles, has been located and the district is the camping ground of over 200 prospectors. The gold is distributed through quartz in wire gold and valued at \$20,000 to the ton. The specimens are the most perfect ever seen from New Mexico.

Incorporation papers have been filed for the Free Gold Mining & Milling company with a capital of \$500,000. This company owns about ten claims in the district.

The New Mexico Oil company has filed papers. The capital is \$1,500,000, divided into shares of \$1 each.

MORE EASTERN CAPITAL.

Another Company of Michigan Capitalists Interested in Bromide District.

The Wayne-Arriba Mining company, capitalized at \$1,250,000, composed of Dr. George A. Kirker, president; Adelbert R. Lee, vice president; "Anton Clarke, secretary and treasurer; Chas. Howard, Charles L. Clark, Al. Diemel, Thomas M. Lucking, all of Detroit, Mich., and Albert Royal, of Pueblo, Colo., filed articles of incorporation with Territorial Secretary J. W. Reynolds on Saturday. The company, which is made up of Michigan capitalists, is organized for the purpose of operating mining property in the Bromide district about fourteen miles from Tres Piedras, where they have four claims, two of which are now well under development.

Regarding the prospects of this district and Tres Piedras as a camp, Mr. Royal declares that the future looks exceedingly bright.

It is intended by the Michigan company to begin active development as soon as the weather permits, and they will spare no money in pushing the work as fast as machinery can do it.

Their property lies upon the same vein as the Whale, which now has a large amount of ore running \$500 a ton on the dump.

Messrs. Clarke and Lucking are very

When your head aches and you feel weak and nervous, your stomach is out of order. The Bitters should be taken at once. It sets the stomach right and cures Headache, Indigestion, Constipation and Nervousness.

enthusiastic over the Bromide district largely, as they say, on account of the wonderful advancement made by New Mexico generally within the past year. Mr. Royal, who is thoroughly acquainted with the country around Tres Piedras, says that the mining interests generally throughout the territory are very prosperous. Everything in the Bromide district is taken up, and he looks for Tres Piedras to have a boom in the spring that amounts to something.

NEW MEXICO GOLD STRIKE.

The Camp Will Be Known as the New Klondike.

The new Klondike is the name of the new gold camp which has grown out of the recent big find on the South Fork of the Rio Grande, about twenty miles from Capitan. The original strike has been christened the Free Gold claim. This claim, which was bought by A. R. Byrd for \$10,000 within five hours after its discovery, has proven to be as good and more than was claimed for it, and in the purchaser sees his fortune. Besides this claim Mr. Byrd has purchased several other adjoining claims, paying from \$1,000 to \$2,000 each for them, although not so much as a prospect hole had been sunk on any of the group.

The Free Gold is already producing good ore, some of which has been shown by assay to contain from \$7,000 to \$10,000 per ton in gold. Returns from seventeen assays from ore secured at random while a shaft was being sunk in the ledge, give values ranging from several hundred dollars to \$10,000 per ton, but there are pockets in the lead which will show probably many times even the latter amount. The owner of this claim has a force of men at work sinking a shaft and clearing off ground for a mill site, as it is his intention to mill the ore right on the ground. It is Mr. Byrd's intention to have the mill in operation at the earliest possible moment, and with this end in view is developing his property as fast as possible. Before acquiring the property Mr. Byrd was working a valuable silver proposition in that same district, but is now devoting his whole attention to the Free Gold.

There are many capitalists in the new camp who have made extensive purchases, while several Arizona and Colorado mining companies have sent experts in to investigate the new gold fields. The latter have as yet failed to express any opinion in regard to the recent rich strike made in that section, but it is confidently believed in mining circles that they have sent glowing reports back to their companies, as they have been in constant communication with their principals by telegraph. The scramble was at first among prospectors, but this is being rapidly changed, and it is now a fight among the mining companies.

The excitement shows no signs of subsiding, as the population of the camp is increasing daily, while new strikes are being made. While there have been no finds that will begin to compare with the original strike, many other ledges, which contain enough free gold to be easily seen with the naked eye, have been located within the last few days. Ninety claims were staked out in that vicinity day before yesterday, among which are many ledges similar in character to the now famous Free Gold.

PYRITIC SMELTING IN ARIZONA.

New Plant in the Big Bug District Is Ready for Work.

After several days of operations it appears that the Val Verde smelter, located in the Big Bug region, Arizona, and which was constructed two years ago by a company headed by Cecil Fennell, will be able to treat ores successfully. The smelting plant contained all modern devices and was erected at a cost of nearly \$200,000, Fennell claiming that it would be blown in for the purpose of smelting ores taken from his mines at the Grand canyon of the Colorado river and in other regions of Arizona and that it would also accept custom work. The bins were filled with ore, but the smelter was not blown in. Fennell, who sold thousands of stock in his scheme, it was claimed by some, built the smelter out of those revenues, and after making a showing on the money which the capitalists all over the country had invested in his scheme had a handsome residue.

Experts said at the time that there was no reason why this smelting plant should not some day be a paying proposition. It is a pyritic smelter of seventy-five tons capacity, and is now in operation under the direction of A. J. Bretherton, one of the most competent smelting men in the country. F. M. Murphy, president of the Development Company of America, and officers of the Santa Fe railroad have just made a trip of inspection to the smelter. It was probable that Murphy represents the interests that have decided at last that the smelter should be blown in. The development of many new mines in the Big Bug district in the last year renders it certain that the ore production of that region will be very heavy in the future, especially if there are facilities for smelting the ores at home.

R. B. Thomas, of Cerrillos, spent Sunday in the city visiting his family.

CHRISTIANITY.

It is a Part of Education, Civilization and Happiness.

The arguments which the atheists advanced 500 years ago and probably will be advanced 500 years in the future, and every time that they have been advanced they have been answered. If a man does not believe in anything beyond his own physical self, why does he make such strong protestations against other people believing in their spiritual existence? Why should he waste time and strength trying to convert people from a doctrine or belief that has created all that is noble and best in the world today to a doctrine which has never known and which will never be known to create anything but "animal men," fallen women, disrupted states and anarchy?

It is because a voice within him calls out, "you lie," for "man cannot live by bread alone," and his whole nature is called to fight this existence within.

When the great French people in the power of madness of their new republic denounced their God and burned their altars were they not forced by a sheer emptiness to turn from non-belief, which places men with a hope, without a home. Even if religion were a false belief, far better would it be to live in it than to give up that, and that only, which makes this world a possible dwelling place and gives us a solution of our existence, and, greater than all, weak, straggling, groaning, as we are—hope.

A boy said to me one day, "What evidence have we that Christ ever lived at all?" and I stood amazed before him, but I saw as though a calcium light had been thrown upon it the fact that atheism is ignorance. I asked him what evidence he had that Caesar ever lived. He looked at me awhile and went away thoughtfully. The next time we met he said that he was thinking out Christianity and it was dawning upon him.

He found that the evidence and record of Christ's existence on earth were as clear as those of Caesar's and of David's, as clear as Pharaoh's; when he studied the growth and development of religion until it reached its highest form, Christianity; when he studied its effects upon men, and its relation to men; when he compared the men and women who lived in Christianity and the men and women who lived without Christianity; when he saw that Christianity and progress and happiness are synonymous terms, that education and civilization are part of Christianity; that freedom from slavery and the emancipation of women are of Christianity, he said, "I will cease looking for printers' errors. I will take the whole as it is. I am a Christian."—Chicago Record-Herald.

AN ACCIDENTAL KILLING.

The Particulars of the Shooting of Clarence R. Lefler.

At last the particulars of the killing of Clarence R. Lefler, at Jacob Nutter's ranch at Parashant, this county, on the 18th of January, have been received, says the Kingman Miner. A number of cowboys and miners had been camped at the ranch and were more or less under the influence of liquor, and among them there had been numerous quarrels. As evening came on Lefler and a man by the name of Samuel Fullerton, who occupied a cabin together, went to bed. Another man by the name of George Ashley, who also occupied the room, came in and picking up a rifle, remarked that he thought it best to remove the cartridges from it so that no accident might occur if some of the inebriated ones came in and found it. In removing the cartridge from the gun one of them was exploded, the bullet striking Lefler, who was lying in his bed, in the left hip, ranging diagonally through his body and lodging under the right arm. An attempt was made to take the injured man to St. George, seventy-five miles distant, for treatment, but they had to return to the ranch after going about six miles, the poor fellow being unable to stand the awful pain. A messenger was then sent to St. George for a physician, but he not arriving, another start was made with Lefler the next morning, but before they got to that place the unfortunate man died. Ashley, who did the shooting, is bowed down with grief over the sad accident. The coroner's jury exonerated Ashley from blame, the shooting being purely accidental. The parents of Lefler reside at Deming, N. M.

OFFICIAL MATTERS.

INCORPORATION.

Incorporation papers were filed with Territorial Secretary J. W. Reynolds by the Mexican Industrial company, located at Silver City. The company is capitalized at \$1,000,000 and composed of K. M. Jennings, L. F. Butler, J. S. Wallace and Dr. G. H. Sowers. They propose doing a general mining business in the state of Sonora, Old Mexico.

NEW MEXICO PENSIONS.

The following pensions have been allowed: Phillip Zoeller, Hermosa, Sierra county, \$12 per month; Andrew M. Thompson, Roswell, Chaves county, \$12 per month; Charles Belawenger, Silver City, \$10.

The Socorro Chieftain says: Capt. M. Borchert, of Albuquerque, interpreter for the court of Indian depredation claims, has been in the city the greater part of the week on business connected with his official position. Captain Borchert visited Socorro often in his palmy days of twenty years ago.

Crowded Asylum.

Applications are coming in to the asylum constantly for room for male patients. The male ward is entirely filled and there is no more room in the institution. It is really sad that the

Drying preparations simply develop catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid drying inhalants, fumes, acids and smoke and use that which cleans, cools and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers, 57 Warren St., N.Y. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Asylum is so crowded. An appropriation of land was made for use of the asylum by the last legislature, but nothing can be done with it until acted on by congress and then maybe nothing. Things will continue as they are until the meeting of the next legislature, at least. How much longer we cannot say.—Las Vegas Optic.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by Alvarado Pharmacy.

For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiser, of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by all druggists.

REMINISCENT.

Judge Benjamin S. Baker is not the first Nebraskan to be appointed associate justice and assigned to this district with headquarters at Albuquerque.

In May, 1876, the then judge, Hon. Hezekiah S. Johnson, died suddenly during the term of court at Albuquerque. Hon. Henry L. Waldo, then chief justice, came at my request from Santa Fe, and finished the term. Later, and during vacation between spring and fall, Hon. John I. Redick, of Omaha, Nebraska, was appointed associate justice and assigned to this district. When he came out he was accompanied by his wife and his son, Will, then a youth of probably eighteen years. The judge held the fall term at Albuquerque, Los Lunas and Socorro. Soon after he returned to Nebraska, came back to the territory for the supreme court, and at the close of its term bid us a last good bye and shook the dust of New Mexico from his feet. While Judge Redick was here there were numerous lynchings in Bernalillo county, matters generally were not at their best, and New Mexico was looked upon in the east as the toughest part of the "wild and woolly west." This reputation and the judge's short stay on his first visit, caused one or more of his Nebraska friends to put up a job on him, in the shape of a story, to account for his brief absence from his Nebraska home. The story was in substance as follows:

On the morning of the first day of the court Judge Redick appeared in the old adobe hall used as a court room, unknown to almost all who entered. The attorneys and officers of the court came in, removed their belts, to each of which was slung a pair of 45s. The last to enter was the district attorney, Uncle Ben Stevens, his two guns being supplemented by a Howie of prodigious length. The judge took his seat on the bench, ordered court opened and immediately adjourned, and then swung out of the hall of justice, remained in his room until night, and then quietly "stole away" in a private conveyance to Santa Fe, where he caught and took the stage for the states the next morning.

The fact is Judge Redick enjoyed his two visits to New Mexico hugely, and didn't lack any "sank in his craw" either inside or outside of the court room. H. R. WHITING.

February 1, 1902.

Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

RATION.

From the Range.

John Hixenbaugh purchased the Graham ranch of 320 acres the first of the week.

Miss Jennie Bowen, of Biscoe, Ariz., is visiting in the family of her uncle, R. B. Campbell, and expects to remain a month or more.

Mrs. M. Armstrong left for Fort Worth, where she goes to visit her son and two daughters, who are attending the Fort Worth university. Joe Armstrong is reported to be suffering with some serious optical trouble which perhaps may necessitate a surgical operation, and his parents are greatly concerned about his condition.

From the Gazette.

Mrs. J. W. Ames went over to Trinidad for a week's visit.

Joe Sheridan, coal mine inspector, was here the first of the week on official business.

At the annual meeting of the stockholders of the Raton Building & Loan association, held at the office of the association, the following gentlemen were elected as directors for the ensuing year: C. N. Blackwell, C. M. Bayne, Simon Cohn, John Jelfs, J. F.

McAuliffe, M. R. Mendelson, C. O. Maloulet, A. C. Price and Joseph Taylor, Sr.

C. W. Slincock built a fire in his kitchen range, which was nothing unusual, but later on when the stove got warm and the frozen pipes would not allow the steam to escape, then the unexpected happened and the stove exploded. The force was so great that it threw Mr. Slincock across the room and a piece of the iron striking him below the knee, injured his leg. He gets a considerable limp on him, but feels glad that it's no worse.

LAS VEGAS.

From the Record.

Mrs. G. H. Rhodes and two children are reported quite ill.

While going home Tommy Fox slipped and fell on the sidewalk, sustaining slight injuries.

Misses Josie Hild and Carroll Folen will arrive in the city from Santa Fe to visit Mrs. I. Bacharach, sister of Miss I. Folen.

A horse of one of the Las Vegas Meat Supply company's wagons ran away and while speeding along in his fright came in contact with a large telegraph pole on the corner of Seventh and National streets, where the wagon was broken and damaged considerably.

At a meeting of some of the members of the cavalry troop at the office of Captain Reid it was definitely decided that the first military ball be given by Troop A on next Monday evening at Rosenthal hall. A committee of three, consisting of Edward J. McWenle, Manuel Henriquez and James S. Duncan, Jr., was appointed to take charge of the affair. It was decided also that a ball will be given on the night of February 22, at the Casino, Hot Springs, in honor of Gov. M. A. Otero and his staff.

A Legacy of the Grip

Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by Alvarado Pharmacy.

McKINLEY MEMORIAL FUND.

Amount Thus Far Turned in by New Mexico Auxiliary Committee.

The following report of contributions to the auxiliary committee for New Mexico in charge of the McKinley memorial fund shows a degree of generosity and spirit of patriotism that is very gratifying:

Bilious Colic.

H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all druggists.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by Alvarado Pharmacy.

CHEMICALS ALL RIGHT.

The Test Last Saturday Night Perfectly Satisfactory.

Fire Chief Ruppe is highly pleased with the showing made by the new chemical wagon in the test which occurred Saturday night. It was demonstrated that it could be depended upon to do everything that it was recommended to do. Although one of the tanks did not show quite as large a pressure as it should, the effect on the fire was entirely satisfactory. The chemicals are not supposed to be used on outside fires, but on the inside where the gases can be confined. The benefits of using chemicals are that the destruction of property is not as great as when water is used. The most admirable feature of the test on Saturday night was the phenomenal run made by the horses. It was exactly one minute and seven seconds from the time when Chief Ruppe gave the signal for the boy to run and pull the alarm box until the fire wagon arrived at the place, corner of Fourth street and Railroad avenue.

He Recommends Chamberlain's Cough Remedy.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

Thos. A. Lister, who is interested in the development of New Mexico mines and who visited the mines of the southern section of the territory, has returned to this city.

STOCK NOTES

The stockmen of southwestern Texas are related over the rain which fell there a few days ago.

Hal Korr of Cambridge was in Las Cruces last week. He is talking of moving his cattle up the river near Ft. Selden.

The demand for feeders in Kansas and Missouri is brisk, owing to the mild weather that has prevailed during the season.

C. R. Randall, of Manzanola, Colo., shipped from San Marcel 2,100 lambs purchased of Ramon Montoya. The top price was paid, about \$1.75 per head.

J. C. Gatti, of Clifton, Arizona, is rated as one of the heaviest buyers of beef cattle operating in southern Arizona and New Mexico. He confines his attention to range beef.

Governor Murphy has offered a reward of \$250 for the apprehension of the Bill Smith gang, who murdered Deputy Sheriff William Maxwell, of Apache county, and Carlos Tafaya, a member of the Arizona rangers, on the 8th day of last October.

Lyman M. Parke, of Detroit, Mich., has bought from Frank Springer and A. Schneidholz the Gemora ranch in the Cherry valley, taking about one-half of Cherry lake in San Miguel county. The ranch contains 22,000 acres. Mr. Parke will stock the ranch with cattle and will make it his home.

D. Webster, uncle to George H., is at Carlsbad, from his extensive cattle ranch in South Dakota. He looked at the Benson steers and is the first buyer to strike Carlsbad. He wants 1,500 3's, and is paying top figures. He is in the live stock commission business and says that all kinds of stuff will be in demand the coming spring and at advanced prices.

A herd of 6,000 sheep, owned by Long & Quinn, were stopped and inspected at the Texas state line by Inspector N. H. Allen, and the usual fees assessed against the owners. The latter could not see the justice of the inspection charges, and refused to pay, appealing to the territorial sheep sanitary board. In the meantime, Inspector Allen will retain the herd in quarantine until the controversy is settled.

A herd of sheep owned by Mrs. Brutnell, and in charge of her son, was stopped at the Texas state line, last week, by Inspector Allen, and are to be held in quarantine until the inspector at Pecos can act in the matter. Inspector Allen happened to be in the neighborhood when the herd was being driven from Eddy county into Texas, and noticing that many of the sheep were in an unhealthy condition, took the above course of action—which was a very right one.

"There is but one thing that keeps me out of the republic of Mexico," remarked a well known cattleman recently to the Colorado Stockman, "and that is the fear that Diaz will not live many years longer. Mexico offers the greatest opportunities for the cattle business today of any country on earth, but when the iron hand of Porfirio Diaz relaxes its grasp, that country is going to be the scene of one of the bloodiest revolutions of modern times, and I don't believe that I care to furnish free beef to the opposing factions. In less than twenty-five years Mexico will belong to the United States, but there is going to be a whole lot of trouble down there before that event is accomplished."

One of England's foremost farmers is a woman, the Hon. Mrs. Murray Smith. On her estate, Gurney hall, in Leicestershire she raises some of the finest Jersey cattle. She is an early riser and is up and about her hen as soon as the sun is in sight. She attends to all the details of the management of her estate. All the improvements which can contribute to the well being of the animals are made at her discretion. She sees that they have the best of food and the most comfortable quarters. As the result they have taken many prizes. One cow, Lorena, which carried off the milking prize at Tring, and the butter certificate at Bath and West of England show, gives 960 gallons of milk yearly.

POINTERS IN CATTLE CULTURE

Incidents That Are Valuable to Stockraisers.

Just to show what can be done in the cattle business, especially when the start is made with good cattle, the following incident is given from the columns of the Denver Field and Farm: A friend of ours in El Paso county bought in five Arizona heifers four years ago, at \$13.50 each. He has sold from this bunch and its increase enough to bring him \$2,300, and has left sixty head of one to three year olds, worth \$1,200. He places the total expense and care of the herd, including taxes and interest, at more than \$500, leaving his account with a profit balance of \$2,375. Twenty-two years ago he began ranching with 75 cents, a pair of ponies and an old wagon.

LIVE STOCK IMPORTATIONS.

News From the Bureau of Animal Industry.

Col. Albert Dean, live stock officer in charge of the bureau of animal industry at Kansas City, has issued his report showing the importation of live stock from Mexico during December, 1901. The total number of cattle imported was 9,292, against 9,381 in December of 1900, and 6,881 in December of 1899. The importations for December make the total for the year 1901, 99,665, the largest year's importations

since 1898, when the total was 132,875. The total for 1900 was 74,393 and the total for 1899 was 76,141.

December cattle were admitted at the ports as follows: El Paso, 3,181; Nogales, 6,927; San Diego, 188 head.

The destination of the greater number was California, for grazing purposes, 7,119 out of the total going to that state.

In addition to the cattle imported, forty-six head of swine were imported at Nogales for feeding in Arizona.

KENNA FAVORS MERGER.

Santa Fe Attorney Says Railroads Are Not Akin to Trusts.

E. D. Kenna, vice president and general counsel of the Atchison, Topeka & Santa Fe railroad, recently addressed students of the University of Chicago on "Railway Consolidation."

A merging of railway properties and a reasonable control by the public were the main features urged in Mr. Kenna's address. He maintained that the tendency of the American public to regard the railway question in the same light as the trust problem was altogether wrong.

"In studying any part of the railway question," he said, "I warn you against confounding it with the trust problem. They are correlated and each must be viewed by the student from entirely different standpoints."

"Property controlled by a trust is private property and its business private business. But what is more important, as indicating the distinction, a trust can come to do business when it so desires. On the contrary, a railroad must remain for the use of the public though the same cannot be operated except at a loss."

SANTA FE LEADS.

Its Decapod Engines Are the Biggest After All.

The right of the new Santa Fe decapods—Nos. 988 and 989—to be called the biggest engines in the world has been challenged. It has been stated that a Pittsburg road has an engine bigger than the new monster decapods of the Santa Fe.

It will relieve the minds of all loyal Santa Fe supporters to know that these claims are unfounded. The Santa Fe still can claim the biggest engines ever built.

Here are statistics for the three biggest engines ever built taken from the last issue of the Railway Age and Railroad Gazette, both of which publications contain lengthy descriptions and copious illustrations of the new decapods:

Atchison, Topeka & Santa Fe, decapod; total weight, 259,800 pounds; weight of drivers, 232,000 pounds.

Atchison, Topeka & Santa Fe, consolidation; total weight, 214,000 pounds; weight of drivers, 191,400 pounds.

Pittsburg Bessemer & L. E. consolidation; total weight, 250,300 pounds; weight of drivers, 225,200 pounds.

Illinois Central, 12-wheel; total weight, 232,200 pounds; weight of drivers, 193,200 pounds.

PEAUTIFUL SERVICE.

Las Vegas Christian Endeavorers Celebrate the Twenty-First Anniversary of Their Society.

The First Presbyterian church of Las Vegas was thronged Sunday night, the occasion being the celebration of the twenty-first anniversary of the Christian Endeavor society's organization.

The young people of the home society, assisted by Dr. Skinner and the excellent church choir, presented a very beautiful service. Miss Preston presided over the meeting.

Among the speakers were J. M. Reed, August Holmes, W. H. Johnson, Miss Josie Williams, Mrs. C. L. Harris, Miss Edith E. Rodkey and Dr. Skinner.

Miss Rodkey's talk was especially fine. She comes from a society which alone keeps a missionary in the field. She earnestly recommends a junior society for Las Vegas.

Dr. Skinner preached a sermonette rarely tender in its appeal to decide for Christ.

LAS VEGAS SEVENTY-NINERS.

They Held a Pleasant Banquet and Enjoyed Themselves.

About forty of those who lived in Las Vegas in 1879 indulged in a banquet at Duval's restaurant on Saturday evening to celebrate their living entity and the pleasing manner in which they have grown in wealth, if not in grace. Among the absent ones were "Billy the Kid," "Fawcett Bill," and a number of others who aided the boys at the gospel services and camp meetings twenty-three years ago—some have crossed the divide while others are doing missionary work among other scenes and associations.

The banquet hall was elegantly and suggestively decorated for the occasion, among the texts and legends on the walls being the following: "Leave your guns behind the bar." "Shooting at the musicians is not allowed," etc.

After all were seated at the banquet Rev. George Selby invoked a blessing, after which the feast of delicious viands was heartily enjoyed by the company.

A. H. Whitmore, flanked by a mountain hewer, and a scalping knife, presided as toastmaster. Among those who responded to toasts were Hon. Jefferson Reynolds, Rev. George Selby, Dr. W. R. Tipton, Chris Sellman, Geo. Ward, Captain L. C. Fort, George P. Money and P. J. Murphy.

Among the old pioneers present were

Major A. H. Whitmore, Dr. W. R. Tipton, E. D. Reynolds, W. T. Treverton, George Shields, Jefferson Reynolds, A. T. Rogers, H. G. Coors, T. F. Clay, Charles Tamme, W. G. Kogler, E. L. and W. M. Brown, W. A. Givens, M. M. Milligan, A. C. Schmidt, Robert Collins, H. W. Kelly, A. A. Rosier, Chris Sellman, J. E. Moore, C. C. Glee, Capt. L. C. Fort, Joe Holzman, W. H. Seewald, George W. Ward, Charles and William Rosenthal, William Malbone and P. J. Murphy.

Four letters of regret, received from Jacob Gross, A. H. Kihlberg, M. Brunswick and D. T. Hoskins, all old pioneers, were read by the toastmaster. Among the invited guests were Rev. George Selby, Mayor Money, W. E. Gortner, John Staley, western representative of the St. Louis Republic, Henry Warnock and James S. Duncan, Jr.

It is proposed to make the banquet of seventy-niners an annual affair.—Las Vegas Record.

THE BROMIDE DISTRICT.

What One of Its Most Extensive Operators Thinks of Its Future.

W. A. Bell, of Tres Piedras, resident manager for the Pontiac (Mich.) Gold & Copper Mining company, has been in Santa Fe for the past few days looking after the company's interest in an adverse suit in which they are involved. In speaking of the future of the Bromide district, Mr. Bell says:

"I have been for years interested in one way and another in mining in New Mexico, and am thoroughly convinced that the Bromide district has a great future, which only requires a little patience and judgment to develop. There is not a district in the territory which has a better showing for the amount of work done than has ours. We have all over the camp prospects that give every promise of some day becoming rich mines, and there is not, that I can recall now, a single claim which does not promise well. We have mineral at grass roots, which you know is a mighty good indication, as in our kind of rock it gets richer as you go down."

"There are half a dozen mines in the camp, including the great Whale, which could ship tomorrow if there was a profitable method of shipping. The Pontiac company is down 240 feet in one of its claims and has had ore all the way."

"According to the opinion of some of the best experts in the country we have got to go down to the base of the mountain, which, where we are, is 300 feet, to get the real ore, and there it will be very rich."

"Yes, I am confident that all any of the companies in the district have got to do is perform a reasonable amount of judicious development to make the Bromide one of the richest districts in the territory, and thereby make Tres Piedras one of the liveliest little camps in the west. And I confidently look for this development and consequent boom within the next year."

LAS VEGAS.

From the Record.

W. B. Hiatt is again able to be at the store, after an illness of several days. Mrs. Stewart arrived in the city from the east, to make her home with her brother.

Mr. and Mrs. R. P. Hesser are rejoicing over the arrival of a bouncing baby boy, born this morning. Mother and babe are doing nicely.

Tamb Lamb, who was injured considerably in the collapse of the academy building last Saturday, was able to be out of his room today.

Capt. W. C. Reid, on behalf of the United States, filed suit against Rafael Romero for \$131 rent due on the farm that the government owns in Mora county.

Mose Thomas, who for three years has been employed at Gross, Kelly & Co.'s, left for Kansas City, where he accepted a position with the National Bank of Commerce.

From the Optic.

W. G. Kogler's name was inadvertently omitted from the list of those present at the Tiers' banquet. Mr. Kogler had two brothers living in Las Vegas in '79.

Henry Hawkins, leader of the band of robbers now nested in the Heart canyon, Mesa Redondo, is a former cowboy of the Circle S ranch, until recently owned by Adolph Strauss, of this city.

W. G. Pemberton and wife, pleasant Kentucky people who have been stopping in the city for health reasons, left for Phoenix, Arizona, thinking a lower altitude would benefit Mr. Pemberton's health.

L. Barnhisel and daughter, of San Jose, California, who have been here for nearly a month, stopping at the home of Mr. Gehring, left for Tucson, Arizona, where the gentleman hopes to find relief from his asthma.

Advices have been received from the east, stating that work on the street railway will be pushed with all possible haste. Within sixty days cars will be running. Four cars of machinery have already been shipped and are expected to arrive any day. Lids for the erection of the power house were opened on Monday. After the awards have been made, work will begin at once.

On a Dancing Tour.

A party of six Indians from the Taos pueblo, with the permission of their governor, Jose Domingo Bernal, are making a dancing tour through northern New Mexico. They recently showed in Santa Fe and have visited Las Vegas, Springer and other towns, collecting quite a neat sum. If Indian Commissioner Jones' recent order is put into effect this industry of the Pueblo Indians will go the way that the brandy distilling industry of Santa Fe went after the internal revenue laws went into effect.

A Poor Way To Treat CATARRH

No one would be so foolish as to kindle the fire on top of a pot to make it boil, yet the treatment of Catarrh is often just as senseless and illogical. Douches, sprays, ointments, so-called tobacco cures, and various other applications, are diligently used, but the little good accomplished is swept away by the first breath of winter. When you attempt to cure a constitutional disease—one affecting the entire system—with purely local remedies, you are applying the fire to the top of the pot, you are doctoring symptoms, and, like thousands of others, get disappointing results. In Chronic Catarrh, the whole system becomes involved; the entire mucous membrane, or inner covering of the body, is in a state of high inflammation. The pressure of blood upon the glands and cells produce excessive secretion of mucus, much of which is absorbed into the blood and distributed to all parts of the body. In this way the stomach, kidneys and intestines are often seriously affected.

The nose, throat and ears are most frequently attacked by this foul disease, because the mucous lining is exposed to the cold, damp air, which attracts the vitiated blood to the surface, causing congestion of the little blood vessels and glands, making breathing difficult and labored; the throat becomes parched and dry; the hot, watery discharge from the nose gradually changes to a yellowish color and becoming more profuse and tenacious, drops back into the throat, causing gagging and almost constant coughing to dislodge it. This offensive discharge, in spite of all precautions, finds its way into the stomach, and extreme nausea and an obstinate form of dyspepsia follow.

Blinding headaches, neuralgia of the eyes and dizziness are also symptoms of this disease, and when the inflammation reaches the delicate mechanism of the ear, hearing is lost, and, as the blood becomes more deeply poisoned, the tissues and soft bones in the head are eaten out, greatly disfiguring the face. At this stage of Catarrh the breath becomes insufferably offensive. S. S. S. is the simplest and most effective treatment for Catarrh, and when taken into the circulation reaches all parts of the system and cleanses the blood of all Catarrhal matter and restores it to a normal condition. When rich, new blood begins to flow through the veins, the obstructed glands and broken down cells resume their natural functions, and the hot and inflamed membranes are lubricated and moistened with a soothing, healing fluid that quickly brings relief to the congested parts. S. S. S. puts the blood in such perfect condition and so strengthens and invigorates the general health that the local manifestations of the disease gradually disappear, the discharge from the nose ceases, the head clears, breathing becomes easy and natural, the appetite improves, and a perfect and permanent cure is effected.

S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no minerals to further poison the blood and derange the digestion, but can be taken without charge, all who write them about their case. Book on Blood and Skin Diseases free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

RAILROAD POINTERS.

Dished Up in Small Lots by the Santa Rosa Star.

Work has begun on the Dawson branch railway.

Contractor Debbree's grading outfit left last week for the Dawson branch. The Chicago, Rock Island & El Paso will put on through passenger service about February 15.

Work on the large ten stall roundhouse is being pushed rapidly, the building to be entirely of stone.

The large surface well which the Rock Island is sinking is down about forty feet. They have plenty of water for the present.

J. H. Conlen, vice president and general manager of the Chicago, Rock Island & Mexico railroad, was in our city last week.

J. W. Fox has a large force of men at work at the rock quarry north of town. He has a contract with the railroad company to furnish rock for the roundhouse at this place.

The Rock Island is at work grading the commercial track, which is being built for the benefit of the wholesale houses and wool mills. This is the tenth track that the road has at this place.

H. C. Roy, formerly of Santa Rosa, railroad sub-contractor, expects to leave for Jackson Burroughs, Texas, to do job work for a short railroad branch running to a mining camp. Mr. Roy will take his family with him, which we regret to lose.

The last steel span of the large bridge across the Pecos was laid last Friday morning and the large "traveler" which was used in lifting the heavy steel has been torn down, loaded and shipped to Chicago. This was the last large bridge built on the division.

The Rock Island well driller had the misfortune to break his drill at the depth of eighty feet and being unable to remove the drill the well was abandoned. They are now digging a large surface well.

The Rock Island has a new well-drilling outfit at work at this place. This is the first work that the machine has done and we feel confident that with an outfit like this they will be able to reach good water and plenty of it.

Two men suspected of burning the Pintada bridge on the El Paso & North-eastern were arrested and brought to town Tuesday and tried before Justice of the Peace Nabb. They were bound over to await the action of the grand jury and placed under \$1,000 bond each, but not being able to give bond were placed in jail at Puerto de Luna.

Married on the Run.

Philip Wiseman arrived in the city on No. 2 and was married to Miss Maude E. Resnor, of Butte, Mont., who arrived on No. 1, Rev. Norman Skinner officiating. If No. 1 had delayed a

little longer the party would have departed for Clifton, the home of the groom, on that train, as it was they left on No. 7.—Las Vegas Optic.

Took the Babe.

A pathetic incident, involving the happiness of a motherless babe took place in our city last week. About two years ago a Mrs. Carter died, leaving her husband with a child only a few weeks old. None of the friends or relatives were anxious to incur the trouble and expense of caring for the little orphan. Prompted by the Christ-like spirit of love Mrs. C. F. Edie took the babe to her home and treated it as her own child. Becoming attached to it she received promises again and again from Carter that he would make her out legal papers of adoption. The promise was never fulfilled and when Mrs. Edie was about to leave our city to make her home in Bisbee, Arizona, she was confronted by the officers of the law, who compelled her to give up the child, which she has nursed and loved with a mother's tenderness. In the meantime Carter has married again and has no intention of caring for his own offspring, but has handed it over to its grandfather, J. Bowman. Unhappy child, it has lost a good home, but the law is powerless in the case to do justice.—Roswell Record.

Dawson Coal Road.

A. L. Good & Co., railroad contractors, have established a large camp near Dover switch on the Santa Fe railway. Dover switch is about five miles south of Maxwell City. These contractors have a large force of men and teams at work between Dover switch and Dawson, the new coal camp, twenty-one miles west of Dover switch. The force is now working on the grade. They have also quite a number of men and teams grading east of Dover between that point and the town of Tucuman on the Chicago, Rock Island & Pacific railroad, in Guadalupe county. It is understood that the grading force will be increased and track laying will be commenced on the Dawson road as soon as the contractors are no longer needed on the Rock Island road, which it is believed will be about the 15th of this month and by which time it is hoped that the steel bridge across the Pecos river near Santa Rosa will be fully completed.

Will Have Fire Horses.

The committee of the E. Romero Hose company is meeting with large success in selling tickets for the big masquerade ball, which takes place next month. L. W. Ifield went out the other day and struck eight men to whom he sold ten tickets each. The company is figuring on some way to spend the money thus raised to the best advantage to all concerned. A

number of improvements have been suggested, the latest being to fit up the present company home for the convenience of horses and night men. The proper committee has been investigating cost of horses and harness, feed, etc. The committee has found that a drop harness for two horses will cost \$115, for one horse, \$50. The advantages seem to be for one horse on account of the cost of feed, care and other things. The same kind of a wagon is handled in other places by one horse. What the boys will do has not yet been decided upon, but if it seems fitting to keep horses constantly on hand for use at fires, there will be greater protection to property than is now given. It is claimed that the money made at the annual balls is nearly sufficient to keep one horse.—Optic.

Undertaker Edwards received a letter this morning from a friend of the family of Richard Barnard, the young man who died here last week, stating that the remains reached Chicago all right, and that it was a sad case, the whole family being afflicted with the dread disease.

TRUSTEE'S SALE.

Whereas, Aurelia Lombardo and Angelo Lombardo, her husband, in and by a certain deed of trust, dated the 31st day of August, 1899, and recorded in book 19, T. D., page 31, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situate in the city of Albuquerque, county of Bernalillo, and territory of New Mexico, to-wit:

Lots numbered eleven (11) and twelve (12), in block letter "B," in the Mandel Business and Residence Addition in the city of Albuquerque in the county of Bernalillo, and the territory of New Mexico, also sufficient ground to make lot twelve (12) a full lot, fronting twenty-five (25) feet on Third street and one hundred and forty-two (142) feet on Carroll avenue, if said lot was extended west of Third street; as the said lots are known and designated on the map of the said Mandel Business and Residence Addition, filed in the office of the probate clerk and ex-officio recorder for said Bernalillo county, New Mexico, on the third day of February, A. D. 1898, said deed of trust being made to secure the payment of a certain promissory note therein described for twelve hundred (\$1,200) dollars payable to the First National Bank of Albuquerque, N. M., one day after date, with interest at the rate of twelve per cent per annum. On the said note, however, the sum of four hundred (\$400) dollars had been paid, leaving a balance of eight hundred (\$800) dollars due and unpaid, the whole amount due on said note with interest to the date of sale, hereinafter mentioned, amounting to eight hundred and ten dollars and sixty-six cents (\$810.66).

Whereas the said note is now past due and remains unpaid; and, therefore, at the request of the legal holder of said note, and by virtue of the terms and conditions of said deed of trust, I do hereby give notice, that for the purpose of paying the balance due on said note and all interest thereon and all costs and cost of executing this trust, including legal compensation to the trustee and attorney's fees, as provided by said deed of trust, I will on Monday, the 18th day of March, A. D. 1902, at the hour of twelve o'clock noon, of said day, at the front door of the post-office of said city of Albuquerque, New Mexico, sell the real estate hereinbefore described, at public auction to the highest and best bidder for cash, to pay said indebtedness, cost and interest.

Witness my hand and seal, this 12th day of February 1902.

ARIZONA TOWNS

KINGMAN.

From the Miner.
Judge W. W. Dunbar and wife are again in Kingman and will hereafter make this their home. Judge Dunbar has been looking after his oil interests in Tennessee for several months and believes that his company has valuable property. The company is now engaged in erecting a rig on the land and will soon begin drilling.

Henry Hanson, who was badly burned by an explosion of oil gas at the C. O. D. mine, some weeks ago, is fast recovering. His hands were severely burned, and it may be some time before he regains the entire use of them. The accident is supposed to have been caused by the removal of one of the burners without turning off the oil and while the furnace was still very hot.

An eight-horse team loaded with supplies for the Golden Gem mine left Kingman. On the streets were ten or twelve teams loaded for the various mines contiguous to Kingman. This is a good showing for the town and an indication of the amount of business carried on with the mines. Teams go out from here daily for the Gold Road country loaded with camp supplies and mining machinery.

Last Sunday night, Asa F. Harris and Mr. Jackson came up from the Big Sandy, having in charge W. B. Stephens, a well known cattlemen of that country, who is suffering from temporary insanity. Stephens has been a hard drinker and it is thought that the constant use of alcohol has affected his brain. He has been acting ugly for some time past and it was thought best to restrain him before he committed some rash act. He was adjudged insane by Judge Logan and Sheriff Lovin departed with him for the asylum at Phoenix.

FLAGSTAFF.

From the Sun.
E. S. Gossney returned from a trip to California.

Reuben Neal left for Washington, which state he intends making his future home.

John G. Verkamp will leave for Cincinnati, Ohio. During his trip to and in the east he will visit the various automobile manufacturers and investigate the merits of the automobile with a view of establishing a line between this place and the Grand Canyon.

James Blue, who for several years was foreman of the box factory at the J. M. Dennis Lumber company's mill, was adjudged insane in the probate court and Judge Layton ordered him sent to the territorial insane asylum at Phoenix. Sheriff Johnson took the unfortunate man to the asylum. Mr. Johnson says that the asylum is crowded with patients at the present time.

From the Gem.

It looks at present like Flagstaff and vicinity will be blessed with plenty of water and grass the ensuing season.

John F. Farley, general agent of the Third Detective Service company, of Denver, Colo., was here the first of the week. Mr. Farley did military duty in southern Arizona thirty years ago.

Joe Fisher, who has been visiting towns in the southern part of the territory and Mexico, for a few days, returned. He contracted a cold while he was gone and has been confined to his rooms since his return.

Mrs. Reno, who has charge of the weather bureau at this place, reports the snow fall in Flagstaff for January at 3.37-100 feet. It is estimated by old residents that the snow fall on the San Francisco peaks, above town, is six or seven feet.

WILLIAMS.

From the News.

Mrs. J. B. Harris, who has been visiting in the city for the past month with her daughter, Mrs. Ed. Phelan, left for her home at Barstow.

Mrs. J. I. Broyles, who for some time past has been living at El Paso, has returned to Ash Fork and resumed charge of the Ash Fork House.

W. R. Mason, after a pleasant visit of some weeks with his son in the city, left for Oregon, and after a trip through that section expects to return to his home in Iowa.

Little Herbert, son of Mr. and Mrs. J. J. Gilson, was taken quite sick, necessitating the calling of Dr. Rousseau. With good care the little fellow has improved rapidly and is able to be out at play again.

Mrs. E. H. Simpson was taken dangerously ill last Friday about midnight. The attack was very peculiar—somewhat resembling epilepsy. At present Mrs. Simpson is getting along nicely and her friends hope that she may never be so troubled again.

HOLBROOK.

From the Argus.

H. J. Ranner came in from the range and shipped a car load of horses to his New Mexico ranch.

A. Schuster, who has been here the past few weeks looking after his business interests, departed for Los Angeles.

Mrs. E. H. McCarty writes us from Sawtelle, Cal., that Mr. McCarty is in the Soldiers Home hospital, and is getting along as well as could be expected.

The ladies of Holbrook have been around with a subscription paper securing funds to defray the expenses of Rev. E. G. Decker, who has offered to hold services here twice a month.

The directors of the Arizona Co-operative Mercantile Institution held their annual meeting here. Those present were: Jesse N. Smith, J. W. Freeman, J. H. Frisby, J. A. Freeman,

Joseph W. Smith, Ninian Miller and John R. Hulet. The institution was found to be in a flourishing condition, and the usual six months' dividend of 6 per cent. was declared.

ST. JOHNS.

From the Snips.

Cold and snow is the order of the day now. It looks much like real winter had set in.

Captain Hogue returned from visiting the schools in the upper country. He reports things lovely everywhere he went.

George Hennessey, of the Wataash ranch, has been in the city a few days recently. George is a jolly good fellow, and all are glad to see him again.

Manuel, the popular son of District Attorney Ruiz, returned from a year's absence. He has been in the Anderson business college at Trinidad, Colo., where he completed a stenographical course.

FLOWERS FOR NEW MEXICO.

Bulletin Issued By College of Agriculture and Mechanic Arts.

Not nearly as much attention is given to the growing of flowers in New Mexico gardens as should be. Too many people still hang to the old belief that flowers are difficult to grow in the lower parts of the territory, where the summer heat is great. It is true that in New Mexico the conditions are entirely different from the usual conditions in those states where flowers are grown most extensively. This fact, however, makes it all the more necessary that it should be more generally known what plants and flowers and shrubs are best adapted to our conditions, and how, under these conditions, they will best succeed.

A bulletin, by the undersigned, is being issued by this experiment station, entitled, "A Southern New Mexico Flower Garden," and will be distributed within the next two weeks. This bulletin gives the results of a number of years actual experience in the creation of a flower garden, under ordinary conditions in southern New Mexico. Whilst of chief benefit to residents of the southern part of the territory, it will, however, be of interest to all in New Mexico who are interested in the growing of flowers. The baking of the soil, the summer's heat, and the dry atmosphere are conditions that are unfavorable to many flowers and plants, and which exist throughout a large part of this territory; and yet there are a host of flowers that do well, if the right kind are planted and the right methods followed. As a rule, flowers do better when grown from the plants set out than from the sowing of the seed direct. All the very small seeds find difficulty in starting, if the soil is at all baked, and when the atmosphere is so dry as to take out the moisture from the surface of the soil. The larger seeds, such as sweet peas, castor beans, hollyhocks, etc., do not meet with this difficulty. Many seeds should be sown in the fall rather than in the spring, including sweet peas, poppies, larkspur, centaurea or bachelor's button, etc.

A number of our native shrubs do well when transplanted to the garden from their native haunts and respond to cultivation readily. Among these are the native flowering willow, wild rose, growing in the Organ and Sacramento mountains, and the columbine, which is found in many of our mountain canyons. Roses, especially of the finer sorts, do very well under our conditions if the proper selection is made of the sorts planted, and should be in every home garden.

Among other plants and flowers that have been found to succeed are the following: Chrysanthemums, pinks, verbena, sweet peas, zinnias, the large castor bean, alysium, golden glow, Paris daisy, canna, dahlias, hollyhocks and wallflower. Among the successful flowering shrubs are althea, bird of paradise, crape myrtle, and syringa.

Bulletin No. 40 treats fully of the conditions favorable to a flower garden, the best methods of starting plants and preparing the soil, the adaptation of native plants, the best methods of making hedges and wind breaks and of starting a lawn, and gives a fairly extensive list of those evergreens, shrubs and flowers that will be found to produce the best results. A reliable list of roses for home culture is given. The Bulletin contains thirty pages, is profusely illustrated, and will be sent, free of all cost, to all applicants, who should send their names to the Experiment Station at Mesilla Park.

FRANCIS E. LESTER.
February 4, 1902.

Silver City Postmaster.

The Santa Fe New Mexican says that the reappointment of Mrs. P. M. Galloway as postmistress at Silver City is not a very popular one. The New Mexican is generally correct, but in this statement it is entirely wrong and shows a deplorable ignorance of the facts. The reappointment of Mrs. Galloway as postmistress at Silver City is one of the most popular appointments made by President Roosevelt. She is the widow of a man who gave up his life in running to earth the notorious postoffice robber Black Jack, and was left with a large family on her hands, two of whom are now considered to be confirmed invalids.—Deming Herald.

Smallpox in San Juan.

Jewett, Fruitland and Olio are experiencing an epidemic of smallpox in a mild form. Our citizens should use great care in visiting that section, and everyone coming from there should be questioned and if exposed to the disease be turned back without

further delay. If those afflicted or who have been exposed do not use good care it is our duty that we protect ourselves. The territorial laws provide a fine of from \$25 to \$100 for exposing others to any contagious disease. Several Mexicans from this side of Olio were here Saturday, fairly spotted with smallpox, and when told to leave town became indignant and explained it was three days since they were sick.

If our health officer will do his duty and fine those offending there will be no danger of the disease being brought here, and within a few weeks will have run its course west of us.—Farmington Hustler.

SUPREME COURT REPORTER.

Judge A. J. Abbott Chosen By the Supreme Court—Sketch of Appointment.

Just before the ceremony of administering the oath of office to Governor Otero on Saturday afternoon in the territorial supreme court room, Chief Justice Mills announced that the supreme court had appointed Judge A. J. Abbott, of Santa Fe, as reporter of the supreme court, says the New Mexican. This is an eminently proper appointment. Judge Abbott is a lawyer of extended experience and acknowledged ability. He has been engaged in his profession over twenty-five years. Soon after he began to practice he was elected superintendent of public instruction for Rice county, Kan. At the expiration of his term in that office he was elected prosecuting attorney of his county, and at the expiration of his term was again nominated by the republican party, but declined as he had made arrangements to go to another part of the state.

Early in 1887 he was appointed by Governor John A. Martin as judge of the Twenty-seventh judicial district of Kansas. In the fall of that year he was nominated by the republicans and elected for the term of four years, and again in 1891 he was re-nominated and re-elected for another four years' term. At the expiration of his second term, having held the position for nine years, he removed to Colorado, where he practiced his profession at Trinidad until he came to this city and engaged in the practice of law in partnership with his son, E. C. Abbott, who is district attorney for this judicial district. This appointment by the supreme court is a high compliment to Judge Abbott, which, however, is fully justified by the ripe literary and legal education and acknowledged ability of its recipient.

Judge Abbott is a man of strict integrity, rigid morality, and excellent Christian character, and the judgment of the supreme court in making this appointment pleases the members of the bar throughout the territory.

MANY NEW LODGES.

Knights of Columbus Travel 3,600 Miles Installing Branches of Their Order.

The company of twenty Knights of Columbus from the Denver lodge which has been making a tour of the west, arrived in Denver last night, returning from a trip of 3,600 miles. The Denver Knights inaugurated new lodges of the order in San Francisco, Los Angeles and Albuquerque, and started another class in the order at Salt Lake City. Wherever they went they found the Catholic men enthusiastic over the order, which has both fraternal and insurance features, and indications are that lodges will be formed in many more cities.

The Denver Knights expect shortly to visit Butte, Mont.; Seattle, Wash.; Leadville, Colo., and El Paso, Texas, where the requisite number of applicants for a charter have been secured, and lodges are awaiting only the arrival of an installing party to begin the work of the order.

While in San Francisco the entire delegation was entertained by John D. McGilivray, formerly of Denver, who is now a contractor in San Francisco. Mr. McGilivray is now at work upon a fourteen story building in San Francisco.

Last night was the regular meeting of the Denver lodge, and the Denver pilgrims appeared to relate their experiences. One of the features of the trip was a song, composed by Joe Newman and sung at the gatherings of the order.—Denver Republican.

HOBOS WANTED.

A Pressing Call in a Circular Issued by Sheriff Lovin.

A Citizen representative this morning was shown a circular recently issued by Sheriff Lovin, of Mohave county, Arizona, which should command the attention of the tramping hoboes. It is as follows:

HOBOS WANTED.

Twenty hobos to work on the chain gang. Hours, from 5 to 6. Wages, bread and water twice a day. Call on the sheriff, or rather the sheriff and his deputies will call on you, if you are begging or idling away your time in this land of labor. Take heed, ye hobo. SHERIFF LOVIN.

SANTA FE.

From the New Mexican.

Charles C. Catron broke the local golf record on yesterday by making a score of 42. The young man can now be considered the golf champion of New Mexico.

Several prospective candidates for city nominations are already at work. The sentiment, however, is that good men only should be nominated for the coming city campaign.

Dr. A. P. Morrison, of El Paso, superintendent of the English work in connection with the Methodist Episcopal church of New Mexico, is in the city and will hold second quarterly conference tonight at St. John's Methodist Episcopal church after the prayer meeting.

The recent cold snap enabled Grant

Rivenburg to harvest a large crop of good ice and his three store houses are very well filled. He has plenty of ice for all purposes and the coming summer and enough to spare, so as to supply the Santa Fe Central railway people with all the ice they can consume.

HIS FUNERAL BARGAINS.

Apparently No Trouble to Be Buried If You Have \$65.

You ought to see the funeral I can give you for \$65.
Casket \$25.00
Box 3.00
Hearse and two carriages 7.00
Four pall bearers 2.00
Embalming 5.00
Furniture, hangings, etc. 3.00
Opening grave 5.00
Crape 1.00
Two ushers 1.00
Gloves for mourners 3.00
Total \$65.00

The above inducements to die are offered by Henry Stemple, a local undertaker, who has his bargain prices posted on trees, fences and posts all over the northern part of the city, and in Manayunk and Roxborough. He also furnishes many other essentials not down on the list.

Stemple's sign is a great drawing card, and brings many riders in the suburbs to a sudden stop.

After reading the headlines, many of them feel that it's a shame they couldn't see the funeral. But many of Stemple's funerals have been seen, and survivors say he carries out his contract to the letter.

The versatile undertaker is also a master mechanic. When he has a job, where the family is in very poor circumstances, and the house is in bad condition, he will repair the front steps, paint the door and paper a couple of rooms without extra charge.

The furniture and hangings he supplies for the parlor gives the poorest house the most prosperous appearance. With all this Stemple gives real sympathy to the family and suggestions as to how to get along in the future.—Philadelphia North American.

OF LOCAL INTEREST.

From the New Mexican.

Mrs. Thomas Hughes, of Albuquerque, will arrive on Sunday next to pay a few weeks' visit to her daughter, Mrs. O. C. Watson.

Charles A. Stevens, of Albuquerque, and Mrs. A. P. Feyerherm, of Bland, were married yesterday at the home of James Tyrrell, at Albuquerque.

Governor Otero, Secretary Reynolds and Associate Justices McFie and McMillan were passengers on the noon train for Albuquerque, where they will attend the banquet given by the Commercial club in honor of Judge Baker.

Mr. and Mrs. A. M. Bergere will leave this evening for Albuquerque, where Mrs. Bergere will remain for a few days the guest of Mr. and Mrs. N. B. Field. Mr. Bergere expects to return home tomorrow.

E. J. Dedman, assistant to general manager Greig, of the El Paso & Rock Island railroad, who lives at Alamo, and Miss Ethel Dennison, a teacher in the Indian school at Albuquerque, were married today in the latter city.

LAND DEAL.

American Company Buys Timber Land in Mexico.

The Development Company of America has bought from H. C. Smith, of San Francisco, and J. R. Davis, of Wisconsin, 500,000 acres of timber land in Chihuahua. The price paid for the land is understood to be a million dollars.

H. C. Smith is in the city today to meet E. M. Murphy and E. H. Hooker, president and vice president of the Development company, who will arrive in the city tonight from the west. After a brief stay here they will go to the timber land and remain about two weeks.

The timber acquired is said to be some of the finest in the world. It is located about fifty miles southwest of the terminus of the Sierra Madre railroad on the western slope of the mountains bearing the same name.

The property is best known as the Garcia tract, and was purchased by Smith and Davis from Telesforo Garcia about two years ago. It is estimated by competent experts that there are fully 6,000,000,000 feet of lumber on the land.—El Paso Herald.

GIANT STORY CONFIRMED.

Will Bring the Monster to Las Vegas for Inspection and Sale.

La Voz del Pueblo of Las Vegas has received a letter from Luciano Quintana, on the Mesa Rica, confirming the story of the unearthing of a human giant's skeleton on his premises and says he will bring it to Las Vegas for inspection and sale as soon as he has it wired together. He says the newspapers have not exaggerated the skeleton in any particular.

Military Ball a Great Success.

The military ball given last evening at Rosenthal hall by the officers and troops of Troop A, proved to be a grand success. About thirty couples enjoyed the dancing which continued from 8:30 to 12 o'clock, when "Home, Sweet Home" gladdened the ears of the merry young dancers.

The young ladies in their rich evening gowns and the young men in their uniforms presented a very gay and attractive appearance.

The music furnished by Messrs. Kasper, Spörle, Smith and Crites was excellent.

It is the intention of the troop to give these military hops about once a month, that the members of the troop may receive some pleasure as well as

hard drilling out of the organization. The next one will probably be given on the night of February 22 at the Casino, to which Governor Otero and staff will be invited guests.—Las Vegas Record.

DISTRICT COURT.

Considerable Business Transacted Yesterday Afternoon.

Yesterday afternoon Judge Baker finished up quite a batch of court matters and last night left for Omaha, Neb., expecting to return to the city about February 25 with his family.

Assistant Clerk Crosby reports the following business:

The case of Jose M. Romero, administrator of the estate of Trinidad R. de Jaramillo, vs. Manuel A. Jaramillo et al. to foreclose a judgment in lieu of favor of plaintiff as administrator, the hearing upon defendant's demurrer was continued till February 20.

In the case of William H. Stark vs. Susie A. Stark, suit for divorce on the ground of abandonment, cause was heard and final judgment of divorce granted.

In the case of Leon Hertzog vs. J. F. Chavez, judgment by default in the sum of \$821.50 was rendered.

In the case of N. B. Field, receiver, vs. D. L. Sammis, appeal of A. B. McMillan from judgment of court was granted.

In the case of Lindsay Bros. vs. J. F. Diamond company, the district clerk was ordered to pay \$45.55 less costs to attorneys of defendants.

Anna Gargoura vs. Michael Gargoura, defendant, was restrained from assigning, concealing or encumbering any property owned or possessed by either plaintiff or defendant. The plaintiff applies for separate maintenance and care of two minor children, alleging cruel and inhuman treatment and final abandonment. The order is one of temporary restraint until the case can be heard on its merits.

Two replevin suits by Miss Ida J. Lockhart, respectively, were filed against Dr. John F. Pearce and T. S. Hubbell, sheriff, to recover property taken under a judgment obtained by Dr. Pearce and executed by the sheriff against Mrs. Ellen Lockhart.

The Albuquerque acquella case took up the greater part of yesterday, and was finally referred to H. P. Owen, court stenographer, who will hear testimony and on the return of Judge Baker from Omaha, will be decided.

WINSLOW.

Special Correspondence.

Winslow, Ariz., February 4.—W. A. Parr received a car of lumber this week. This is for the repairs on the building owned by Fred Seeger, which was partially destroyed by fire some time ago.

Reports have it that Homer Creswell, who for the last few days has been very low with pneumonia, is better and will recover. The young man's friends and neighbors are rejoicing to hear this. Homer is liked by everyone.

W. A. Parr, the undertaker, has had his hands full the past few days, having four funerals in the last light days. This is extraordinary for Winslow.

Mrs. Lois Kittredge died at the residence of George A. Lane on Aspinwall street. She was a niece of Mrs. Lane and came here some time ago to spend her last days with her aunt. She was formerly a resident of Pasadena, Cal. The remains were prepared and shipped to California, accompanied by Mr. Lane.

On Monday at 11:25 o'clock Bynon O'Kelly died at the residence of his brother, T. J. O'Kelly, on First street, at the age of 35 years, from pneumonia. Mr. O'Kelly was a resident of Redlands, Cal., but owing to ill health he decided to travel and sold his property. He came to Williams, Ariz., to try the mountain climate, but this proved to be too high for him and he was sent to Winslow, where the altitude is lower. Arriving here last Saturday he was met at the train by his brother and driven in a carriage to his home. For a time he seemed to be getting better, but on Monday he took a turn for the worse, and died as stated above. His remains were embalmed and shipped to his old home at Redlands, accompanied by his brother.

G. R. Bauerback, proprietor of the Parlor saloon, has had his place fitted up, and it is without doubt the finest place of the kind along the Santa Fe Pacific. Dick is an up-to-date saloon man and is determined to have his place show that he is abreast of the times.

Alex Morrison, an old time conductor, formerly of this place, is paying his friends a visit this week. Mr. Morrison has many friends in Winslow and all are glad to see him back, although his stay was short.

J. E. Miller, one of the Santa Fe Pacific passenger conductors running between this place and Albuquerque, was making a tour of the streets of Winslow. Jesse has many friends in this city.

Dissertation on Envy.

Probably the thing that causes more grief than anything else in the world, next to what wrongfully passes under the name of love, says William Allen White, is envy. Envy is the first and best sign that a man who has it, is losing his sense. For no one is really worth it. To envy any human being merely indicates that you don't stop to think of his troubles. Life even things up in the world better than we realize. The man highest up on the ladder has the biggest drop before him and the dizziest head. The man lower down has the fun. Riches bring their own burdens, power its own handicap, glory its own drawbacks. The richest man in this town would trade places with a hundred poor men if he could. The poorest man in town has his good fortune. Hundreds of men and women who are subjects of envy are carrying secret burdens of pain and sorrow.

Many School Children Sickly.

Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's home, New York, break up colds in twenty-four hours, cure feverishness, headache, stomach troubles, teething disorders, move and regulate the bowels, and destroy worms. Mrs. Emily Marmon, Meriden, Ct., says: "It is the best medicine in the world for children when feverish and complaining. Sold by all druggists or by mail 25c. Sample sent free. Address Allen S. Olmstead, La Roy, N. Y."

There is no canker like a hidden crime and more than half the misdeeds of the world are punished by ulcers in the heart. The man who is not found out is the man to pity, not to envy—and the world is full of such men.

The more sense a man gets the surer he is that every man carries his own burden and the heavier it gets. The more sense a man gets the surer he is to bestow charity on the rich and poor alike and to envy no one. Charity is the essence of philosophy and religion and happiness. It is all there in the common sense. Malice never led a man to any good end; envy never made anyone stronger or more useful in his trade or business. But given covetousness in a man's heart and crimes tempt him, all evil beckons to him. If men and women would only learn to live simply and wholesomely, minding their own business, the millennium would come in a few days.

Unsuccessful Confidence Game.

Two fairly sleek looking strangers drifted into Silver City Sunday and in the afternoon made an unsuccessful attempt to beat the roulette wheel in the Palace saloon. One played the game and the other sat by and apparently looked on, but in fact was trying to regulate the movements of the wheel by a cane which he was manipulating from underneath the table. For a time the player lost, but soon his "system" commenced coming and he was in a fair way to take in the bank roll when the suspicious of the attaches of the house were aroused. The men were watched closely and their game exposed. Settlement was generously made by paying them back what they had lost and not cashing the checks which they had won. Their work was very coarse and they were evidently not experts at their game.—Independent.

Ordered to Fort Bayard.

The following soldiers suffering from pulmonary diseases have been ordered to the United States sanitarium at Fort Bayard, Grant county, for treatment: Private Benj. L. Owen, of coast artillery, Alcatraz Island; Privates John F. Moore, troop M, Sixth cavalry; C. A. Curtis, company M, Second infantry; T. T. Moran, company K, Fifth infantry; U. S. Williams, company H, Ninth infantry; W. H. Ryan, company A, Tenth infantry; Sergeant Charles H. Fix, band, Eleventh infantry; Private James M. Polly, company A, Nineteenth infantry; Corporal Ernest E. Pollock, company K, Twentieth infantry, all from the Presidio of San Francisco.

New Bank Notes.

The First National bank is dealing out new bills this week of a new and artistic design. They have purchased \$12,500 of government two per cent bonds, which gives them the privilege of issuing that amount in circulating medium. The circulating currency of the bank is now \$25,000. Formerly banks were only allowed to issue bills to ninety per cent of the amount of the government bonds held, but by an act of congress two years ago they were permitted to issue to the full value of the security.—Roswell Record.

The city jail is being whitewashed today.

There will be a musicale by the children of St. Vincent's academy next Saturday afternoon. No admission is to be charged.

Mrs. W. G. Hope entertained the Ladies' Aid society of the Presbyterian church at her residence on West Gold avenue this afternoon.

The public is cordially invited to attend the Y. P. S. C. E. social to be held tonight at the residence of Mrs. Mary Booth, 314 West Coal avenue.

A. J. Loomis, the deputy United States internal revenue collector, is still in the city interviewing the wholesale and retail liquor dealers.

F. H. Bogh is in receipt of a letter from his wife at Allentown, Pa., saying that she reached her destination all right and was feeling much better.

Vainey W. Foster, of Chicago, and family arrived this morning on No. 22 and went west on the flyer. Mr. Foster is a member of the city council of Chicago.

Milton Dow, the sawmiller, at Escobosa, in the Chilili neighborhood, who was here the past few days purchasing supplies, returned to the mountains this morning.

P. J. Towner, the well known Las Vegas cattle inspector, whose duty it is to see that no infectious cattle get into Colorado, is here today, mixing with local stockmen.

Superintendent Fox, Superintendent J. F. McNally and Resident Engineer E. H. Mudge were in the city last night and went north this morning in Mr. McNally's private car.

Judge David Denham, the civil war veteran of this city, has received word from the pension department at Washington, that his pension has been increased to \$12 per month.

The Union market, 237 West Gold avenue, opened up this morning, and up to the noon hour kept a wagon pretty busy delivering the orders. Wm. Goetting & Co. start out well.

Regular communication of Temple lodge No. 6, A. F. and A. M., Thursday evening, February 6, at 7:30. Work in due E. A. degree. Visiting brethren cordially invited. By order of the W. M. Robert Abraham, secretary.

Notes from Correspondents

BERNALILLO.

Special Correspondence.

Bernalillo, Jan. 31.—Cruge Elias, who has been working at the Alamo mine, returned to his father's ranch, on account of a great many men being laid off at the mine.

There is a great deal of copper ore coming in the last few days from the Jura-Trias copper mines at Senorita.

Francisco Montoya is going to start tomorrow to look out for his interests on his sheep ranch.

Charles Robert was in town Thursday, buying supplies for his camp. He is doing some work in the mines for eastern people.

M. O'Connell is quite sick. He was visited by our doctor today.

L. B. Putney is building an additional warehouse in connection with his flour mill.

A great deal of work is going on in the Bernalillo mountains and all the claims are worked by the owners and some good developments are expected shortly.

Sydney Perez and his faithful partner, John, went out on a hunting trip to kill bears. As the bears know Syd for a dead shot they got wind of his coming and went to the highest point of the mountains. He came back empty handed. We hope that he will have better luck next time.

Many of Bernalillo's people are afflicted with colds.

Mrs. F. S. Van Valkenburg is still at Napa, Cal. Mr. Van says he is quite lonesome, but his little dogs keep him good company.

There will be a big show in town tonight.

There has been reported quite a heavy snow storm in Placitas and surrounding country.

I. Freudenberg visited Albuquerque to meet J. J. Woods, representing Ferguson, McKinney Dry Goods company, St. Louis, and bought a large stock of spring goods.

W. Scott, representing Hargadine & McKittrock Dry Goods company, of St. Louis, sold a bill of goods to I. Freudenberg.

W. Givens came into town to lay in a supply of provisions and reports that work is progressing nicely at his mine.

Mrs. Alloway and Mrs. Lafferty came down from San Francisco spring, where Mr. Alloway and Mr. Richards are working some placer claims and taking out some nice gold.

John Noblet, Wm. Noodles' manager, is in the Belgian hare business. He has stocked his farm with about 1,500 hares.

Emiliano Lucero came in from Miller, N. M., to spend a few days with relatives.

Miss Kraft and Miss Gregg are studying Spanish.

GOLDEN.

Special Correspondence.

Golden, New Mexico, Jan. 31.—Miss Ada Rishworth returned home from Cerrillos today, the public schools at that place having closed for the year.

Mosses, Trotter and Berryman have leased the five-foot Huntington mill of the Old Reliable company in Golden, and for several days have been overhauling the plant. A new concentrator has been placed below the mill to save all the concentrates.

Fred Petey has arrived in Golden from Colorado and has taken charge of the San Francisco mine under a lease and bond. The mine adjoins the property of the Santa Fe Gold and Copper Mining company on the north, and the ledge of copper ore in the San Francisco is quite large and runs well in copper besides carrying \$5 to the ton in gold. Mr. Petey makes third party from Colorado who is now doing development work in this district. A few more Colorado miners will be welcome to come and help develop the Golden mines.

In the San Miguel work is kept up by Mr. Lopez, who is getting some fine free gold ore. Mr. Lopez has bought a patent arrastra, which will be put up at the Palo Anarillo spring, where some of the ore will be treated. The ores from the San Miguel are in white quartz, in many places showing heavy free gold ore that will enable the arrastra to save all the values in the ore. Preparations are now being made by several owners of claims adjoining the San Miguel to sink shafts to tap the same ore found in the San Miguel. The New Mexico and the Bender group are the adjoining claims on the west and show the same character of ore.

SILVER CITY.

Special Correspondence.

Silver City, N. M., Jan. 31.—A party named George Little, of Detroit, Mich., for whom the officers of the southwest are on the lookout under a charge of passing bogus checks, paid Silver City a visit a few days ago. It is said that he passed a bogus draft on a prominent business firm of this city for \$40, which was returned with protest fees attached. He secured the endorsement of a mining man from Colorado on the draft to get it cashed.

A new Third battalion band of this city is getting along finely and it will not be long before Silver City will be having Sunday afternoon concerts.

The marriage of Miss Mamie Holson and Walter Page, two prominent young people of Silver City, took place last Wednesday at the bride's home on her father's ranch a short distance from the city. The bride was born and raised in this section and is a young lady who is admired by all who know her. The groom is in the employ of E. Cos-

grove, the hardware merchant, and is a young man of sterling qualities.

The reappointment of Mrs. Artie Galloway as postmaster at this point was received with general approbation by residents of this city. There were two other candidates in the field for the appointment, but not a very strong fight was made as it was generally conceded that Mrs. Galloway would be reappointed by the president.

Mining men in this section are somewhat chafed over the jump in the price of copper today. A few more such jumps and the price of copper will be in good shape again.

Miss Esie Abrahams entertained a number of her young friends last Wednesday evening with German whist.

With but few exceptions all of the business houses of this city closed all day Wednesday in honor of McKinley day.

Judge Parker will on Monday have hearing before him in this city in the case of John Childers, who shot and killed T. S. Hefflin here a short time ago. His lawyers will endeavor to get him out of jail on habeas corpus proceedings.

DEMING.

Special Correspondence.

Deming, N. M., Jan. 30.—Mrs. W. H. Greer, who has been spending a week with Mrs. Thurmand, has just returned and Mrs. Thurmand comes to spend a few days in town.

It is reported on very good authority that Messrs. Tracey, Hannigan and Deckert are preparing to build a fine opera house in Deming, on the corner of Pine street and Gold avenue. The stone for the foundation is on the ground and work will commence in a very short time.

Last night Deming had a treat in the way of amusement, the "Hunting for Hawkins" played here to a very good house, and no one was sorry that they paid the moderate price of admission. Next Monday night we are to hear the Boston Opera company, in the "Little Persian," and as the company is said to be a good one there is no reason to believe that they will not be well patronized.

Capt. P. R. Smith narrowly escaped having to call on the insurance companies last week, as the fire left alone in the house got to wandering around out of its proper sphere and when discovered had gained some headway, having burned all the floor around the fireplace. Luckily it was found and put out before any serious damage was done.

It is authoritatively stated that oil has been struck at the Deming oil fields. At a depth of about 200 feet the borers ran through a strata of shale and struck a small pocket of oil, but proceeded to dig deeper as they say they feel sure there is a big oil deposit deeper, and that this strike is only a seep from the main body lower down.

A few flakes of snow fell yesterday morning, and the day was quite cold, but this morning we woke up to find a snow covering everything. Shortly after the sun came out the snow was going or gone and one of the prettiest days possible is the result of the combination.

A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Manning, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Alvarado Pharmacy.

Bucklen's Arnica Salve.

The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, burns and bruises, subdues inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, feline, skin eruptions. It cures or no pay. 25c at all druggists.

CHAMBERLIN-HEATH.

Marriage of Dr. L. H. Chamberlin to Miss Mae Heath.

The Muncie (Ind.) Star says: The marriage of Miss Mae Heath of Muncie, and Dr. L. H. Chamberlin, of Albuquerque, N. M., at the home of the bride's parents, Rev. and Mrs. Jacob W. Heath, East Adams street, Wednesday morning, was one of the most beautiful weddings of the season, though a quiet affair. Only immediate relatives of the bride were present. The ceremony was performed by Rev. A. W. Lamport, pastor of the High Street Methodist Episcopal church. The couple stood in front of the large bay window in the drawing room during the ceremony. The bride was given away by her oldest brother, Fred W. Heath. The bride wore a traveling gown of blue satin finished with zibeline cloth, with vest and trimmings of Bulgarian embroidery. The parlors and dining room were decorated with palms. American beauty roses and lilies of the valley decorated the tables in the dining room. At the bride's table were seated the aged parents of the bride, Rev. Lamport and the bride and groom. The wedding breakfast was in six courses and was elaborate. About twenty-five guests were present. During the morning, Mr. and Mrs. Chamberlin departed for Chicago. They will go direct to their future home in Albuquerque, where they will, for the present, live at a hotel. Dr. Chamberlin is a dentist who has resided in New Mexico for twelve years.

his former home being New York. Miss Heath has been prominent in Muncie social circles for several years and has more than a local reputation as a contralto vocalist.

AT PRESBYTERIAN CHURCH.

Secretary Baer Spoke at This Church Yesterday Morning.

John Willis Baer spoke to a crowded house at the Presbyterian church yesterday morning. His address was along lines of personal and evangelistic work. He is a member of the committee of the Presbyterian general assembly on evangelical work and in a degree represented that work, but he branched on lines adapted to all his hearers. The passage of Scripture, upon which he founded his address was from Psalm 107:2: "Let the Redeemed of the Lord say so."

He brought before his hearers the power of the Christian church. If they would only say so, much work left undone could be done. He showed how the present work could be done by those who made the service of Christ the first aim. He enforced the truth by most apt and touching illustrations that appealed to all. Much gracious influence will follow the earnest words spoken.

The Presbyterians felt it a great privilege to have this earnest and noted elder with them at their service.

Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction. 50c, \$1.00. Trial bottles free.

A Thousand Dollars Thrown Away.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

EPISCOPAL NEWS.

Confirmation Yesterday—Reception to the Bishop Tonight.

Interesting confirmation services were held at the St. John's Episcopal church last night. Bishop Kendrick officiating. The church was crowded; the services instructive and interesting, and the music excellent. The confirmation class was as follows: Mrs. Peter Isherwood, Alfred D. McClellan, Arthur and John Wicomb, Adah Campbell, Yolo Black and Anita L. Mead.

The bishop will leave for Phoenix, Ariz., tomorrow (Tuesday) night, but tonight at the church, a reception will be tendered him and all members of the church and others are urgently requested to be present. A fine musical program has been arranged for the occasion, and one of the nicest social events in the history of the church is promised for this evening.

Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unending. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

SANTA FE OFFICIAL CHANGES.

C. M. Taylor Becomes Mechanical Superintendent at La Junta.

The directors of the Santa Fe road have created a new department, to be known as assistant to the general manager.

D. E. Cain, of Topeka, chief clerk to Manager Mudge, has been appointed to fill the place. Henry Lautz, of President Ripley's office, succeeds Mr. Cain.

To do the work of the master mechanic's offices, of which three were recently abolished, mechanical superintendents have been appointed at Topeka, San Bernardino, Cal.; La Junta, Colo., and Cleburne, Texas. Only one appointment has yet been made, that of C. M. Taylor, at La Junta. Mr. Taylor was formerly master mechanic at Raton, N. M.

Favorite Nearly Everywhere.

Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. Sold by Alvarado Pharmacy.

Last Saturday U. A. Matson and wife were busily engaged in moving into one of the Gilmore cottages on East Railroad avenue, which they will occupy in the future. The other cottage will be occupied by Frank Strong and wife.

C. D. Coram and wife, of the Alhambra camp, in the Cochiti mining district, are in the city today and will remain a few days.

COLLECTION OF POLL TAX.

Circular Letter Sent to County School Superintendents.

Santa Fe, N. M., January 31.

Dear Sir: Being desirous of covering into the treasury of your county as large a fund as possible to the benefit of the common schools I call your attention to the statutes governing the collection of the poll tax and would solicit your most earnest co-operation to the end that every dollar of such tax remaining due and unpaid in your county for the past year shall be speedily collected. This is a very important source of revenue which in many counties has been entirely overlooked for some years past, and in others has been only meagerly collected. Reports filed in this office by superintendents of county schools for the scholastic year 1900-1901 indicate that there is now due the several counties of the territory upwards of \$40,000 from this source—enough to build no less than forty new school houses, properly collected and applied.

Happily the last general assembly materially strengthened the older statutes by the enactment of section 5, chapter 27. No property of whatsoever kind is now exempt from execution in suits for collection of poll tax and justices of the peace and constables are forbidden to demand fees in advance in such suits so that the collection of this tax can now be speedily enforced. The first duty in the premises, however, lies with your county assessor, who is required by law (Section 1549, Compiled Laws), to make up complete lists of all able-bodied male persons over the age of 21 years in each school district and certify the same to the clerks of the several district school boards, said clerks receiving the generous allowance of 10 per centum for making the collections which should stimulate prompt action and close work on their part. Therefore, I respectfully recommend that you forthwith confer with the assessor of your county and see to it that such lists are immediately prepared and forwarded to the clerks of all school boards within your official jurisdiction with instructions to proceed expeditiously to the collection of this tax due for the past year.

The law does not specify any particular time for collecting this revenue, and there is no question (so I am advised by the solicitor general of the territory), but that the amounts due for the year 1901 may yet be collected and such collection enforced, if necessary, by suit and attachment of any property possessed by the delinquents.

It is most desirous to make a fresh beginning here and now, early in the year, in respect to this matter, so that by the close of 1902, at least \$100,000, including amount due for 1901, shall have been realized for the benefit of the public schools from this source alone.

And, as a matter of official protection for the assessor, I would suggest also that it would be prudent if he demands a receipt from the clerks for such lists, said receipts to be filed in his office, and thus, in case of controversy, rendering it easy to fix the responsibility for non-collection where it properly belongs.

Kindly acknowledge the receipt of this letter. Very respectfully, etc., J. FRANCO CHAVES, Supt. Pub. Instruction, etc.

LAS VEGAS LIBRARY.

J. Foster Flagg Presents the Institution with Eight Volumes of Fiction.

J. Foster Flagg, of the Plaza hotel, has made to the public library another valuable contribution of eight volumes of new and popular fiction, well bound and in excellent condition. This is the second contribution of a similar nature made by Mr. Flagg to that deserving institution. It is to be hoped that others will follow Mr. Flagg's example by sending in suitable volumes of fiction or travel, so as to increase the number of books at the disposal of the library board.

The members of the library committee have lately ordered 500 volumes of new and well selected books, which will be in circulation in a short time. Re. Selby, Dr. Bradley, or the librarian will thankfully receive and acknowledge the receipt of any suitable books which our citizens may be willing to spare from their private collections.

A number of the leading magazines and three daily newspapers have been ordered by the committee for the use of the reading room.—Optic.

Miss Claude Albright.

A writer in Munsey's Magazine for February, in an article regarding the Paris stage, has this to say about Miss Claude Albright of this city:

"Five Americans have rung at the Comique. They are: Shyl Sanderson, Rose Redda, Fanchon Thompson, Mary Garden and Claude Albright. Miss Sanderson has lately sung at the Opera, and the two last named are on the present roster of the Comique. What makes the fact especially gratifying to the patriot is that but one other foreign country is represented—Denmark—in the single person of Mme. Acte.

In her examinations, which took place last spring, Miss Albright experienced a little triumph. Before the

decision was announced she received flattering offers from outside managers. In conveying its verdict the committee expressed doubt as to her Americanism—"Because, mademoiselle, you have not even a suspicion of accent!" Her voice is a contralto. By way of an interesting corollary to the previous argument, Miss Albright could have made her debut at the Grand Opera, but preferred to begin at the Comique."

TREED BY A WILDCAT.

Paddy Johnson Has a Thrilling Experience Near Gilbert, Ariz.

Paddy Johnson, now employed by Baumgartner Bros., had an experience with a wildcat one day this week that has turned the whole current of his life. He was approaching his tent, dreaming of other days, when he was suddenly aroused from his reverie by this ferocious member of the feline family. As the cat showed fight, Paddy made a head-end dive for his tent. Gaining the inside, he grabbed his gun and clambered to the ridge pole, where he remained for several hours, fearing to shoot the beast, owing to the likelihood of only wounding and enraging it the more. There he hung suspended between heaven's cerulean blue and the bobcat's yawning jaws until the Baumgartner boys arrived and cleared the field of danger. Paddy's hair is now gray and he stutters when he talks.—Wickenburg News-Herald.

JOHN WILLIS BAER.

Failed to Reach City Last Night But Will Be Here Tonight.

John Willis Baer, secretary of the World's Christian Endeavor union, failed to reach the city last night, owing to the fact that he stopped over in Las Vegas to enjoy today with the Christian Endeavorers of that city, and where he addressed them last night.

Mr. Baer will be here tonight, on the arrival of the train from the north by a delegation from the various churches.

JOHN WILLIS BAER, Boston, General Secretary of the World's Christian Endeavor Union.

of the city and as stated in The Citizen yesterday afternoon will be escorted to the residence of Rev. Beattie on South Walter street, where he will stop during his stay here.

A mass meeting will be held at the Congregational church tomorrow (Sunday) night, the following program being arranged for the occasion:

Short praise service at 7 o'clock. Prayer—Rev. W. J. Marsh. Vocal solo—Miss Mabel Fitch. Scripture reading—Rev. T. C. Beattie.

Song—Congregational choir. Exercise representing spread of Christian Endeavor—Twenty-one girls. Christian Endeavor hymn.

Address of welcome—Charles W. Ward.

Song—A. L. Newton. Address—John Willis Baer.

Christian Endeavor hymn. Mizpah benediction, followed by apostolic benediction by Rev. T. C. Beattie.

At the close of the address tomorrow evening a silver collection will be taken. Mr. Baer makes no charge for his services and any money given him is used in the furtherance of his work.

THE LAST SPIKE.

El Paso and Rock Island Short Line Finished and Everybody Happy.

The El Paso News of last Saturday published the following self-explanatory dispatch:

Santa Rosa, N. M., Feb. 1.—The last spike was driven at 10:30 o'clock this morning.

Connection was made between the El Paso-Rock Island and the great Rock Island routes at Santa Rosa, N. M.

Less than one year ago this connection was surveyed and over 400 miles of track have been built in the interim.

El Paso is now the gateway of the shortest, straightest and levellest route across the continent.

It must have been a proud moment for Charles B. Eddy, who eagerly watched the losing work, for to him more than any other man, does the completion mean something. For six years he has labored for this culmination and a smile of satisfaction and relief was on his face when his car moved over the connection onto the Rock Island track.

Freight service will commence at once. A. S. GREIG.

KNIGHTS OF COLUMBUS.

Party Arrived This Morning—Will Institute Lodge Tomorrow.

John H. Reddin, territorial deputy and supreme knight of the Knights of Columbus, and party, arrived this morning on No. 2 and are comfortably quartered at the Hotel Highland. The institution of the Albuquerque council will begin tomorrow at 12:30 o'clock at Colombo hall.

The first and second degrees will be given in the afternoon and the third

HALL'S VEGETABLE SICILIAN HAIR RENEWER

A high-class preparation in every way. Always restores color to gray hair, all the dark, rich color it used to have. The hair stops falling, grows long and heavy, and all dandruff disappears. An elegant dressing for the hair, keeping it soft and glossy. If your hair is faded or gray, and you wish for the dark, rich color of youth again, this will surely bring it to you.

If your druggist cannot supply you, send \$1 to R. P. Hall & Co., New York, N. Y.

after a little lunch, which is being prepared by the local knights and will be served at the hall. After the third degree is taken Mr. Reddin will install and instruct the officers of the local council in their work.

The party that accompanies Mr. Reddin is composed of the following: E. Deleahanty, D. J. Sayer, W. L. Davoren and son, Joseph D. Rodgers, of Denver; Frank Sowers and J. D. Mullins of Los Angeles; R. A. Hayden, of Chicago, and J. E. Burke, of Chicago.

Tonight, a meeting will be held in Mayor Marron's office for the election of officers to preside over the Albuquerque lodge.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—W. Wheeler, Northwood, N. Y. For sale by all druggists.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

SANTA FE.

From the New Mexican.

Mrs. M. J. Warner returned from a visit of several weeks' duration with friends in Albuquerque.

Mrs. L. Bradford Prince returned home from a two months' visit to New York, Washington, Detroit and other eastern points.

Capt. John James, deputy superintendent of the territorial penitentiary, has been very ill during the past two weeks and is still a very sick man.

An Indian wearing short hair and dressed in the white man's clothes was in town today. It may also be in order to add that he was also bearing the white man's burden, which, judging from his unsteady gait, was too big for him.

There are 239 convicts in the territorial penitentiary, among them are three women. Mrs. Anna M. Freeman, who recently arrived at the penitentiary under a ten years' sentence, is taking her fate very hard and is very sad and much broken up.

Rivenburg has been cutting ice on the south side and has been storing a goodly amount of the congealed necessity. The penitentiary has also been successful in laying in its quota for the coming summer. Rivenburg expects to keep on harvesting ice for a day or two longer and until warmer weather sets in.

W. H. Pope, Esq., attorney for the Pueblo Indians in this territory, will return to Santa Fe about the middle of the month. It is expected he will be in Washington on the 7th instant, and will add Delegate Rodey in the hearing on the question of statehood for New Mexico, to be on that date held by the committee on territories of the house of representatives.

At the recent regular meeting of the Woman's Board of Trade and Library association the following officers were elected for the coming year: President, Mrs. Spitz; vice president, Mrs. Gable; treasurer, Mrs. Thomas; recording secretary, Mrs. Chapman; corresponding secretary, Mrs. Fischer. At the request of Mrs. Spitz Mrs. Palen will act as president until the next meeting.

Major Fred Muller has just received from the Philippines a very fine grass rug 5x5 feet. It is a present from Ralph McFie, clerk of the federal court who is stationed at Zamboanga. Mr. McFie is a son of Judge and Mrs. McFie.

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

Engaged.

The engagement has been announced of Theo. Wilson, the genial manager of the Cochiti store in Alhambra, and Mrs. Lizzie Johnson, an accomplished young widow of Albuquerque. We are not informed as to the exact date the event is to occur, but we heartily join in advancing congratulation to Mr. Wilson, who is said to be securing one of Albuquerque's fairest daughters.—Bland Herald.

Railroad Topics

Last Saturday, at the shops, the new engine for the electric plant was unloaded.

New machinery and new machinists are being received at the local shops every day.

No. 672, the mountain helper at Lamy, has been sent to the Las Vegas shops for repairs.

Owing to heavy service, a number of road engines are in the local and Las Vegas shops for repairs.

Clarence Schless has been acting in the capacity of agent at the Williams depot during the absence of N. J. Hudson.

Engines Nos. 733 and 790 have just been turned out of the Las Vegas shops in fine condition for road work again.

Jack Loftus, who went from Lamy to Winslow a few months ago, is back at his old job of night car inspector at Lamy.

Lon Gold, night caller at Lamy, has been relieved by Ross John, of Atlanta, Mo., and returned to his home in Santa Fe.

Passenger engine No. 745, which had been out of service in the Raton shops for several days, is expected to return south soon.

Samuel Bushey has returned from the east, and he, with Engineer Peter Lynn, will be marked up for duty on the Las Vegas slate.

John H. Grother, from the Oklahoma division south of Wichita, is acting as cashier at the Raton depot during the absence of Mr. Houck.

C. M. Taylor, master mechanic of all Santa Fe lines west of Dodge City, spent yesterday in the city and went to Las Vegas this morning.

Mrs. E. E. Herrmann, wife of the agent at Lamy, who has been at Las Vegas under the care of Dr. Mohr, is reported as being no better.

F. A. Neely, who is in the city, is a friend of General Foreman Winchick. Mr. Neely is the expert sent out by the Baldwin Locomotive works with the new compound engines.

The Las Vegas Record says: Engineer Dolyns and Fireman Bennett were sent to Albuquerque yesterday afternoon on engine No. 200, which is en route to the Rio Grande division.

C. M. C. Houck's face has not been seen at the Raton depot ticket window for more than a week, as he is under the doctor's care, suffering from an attack of pneumonia and jaundice.

Frank Lowell, manager of the upholstering department of the Harvey eating house system, is in the city today making arrangements for the upholstering of the Alvarado bar room.

William Atkinson and J. F. Reddington, two well-known shop employees of the Galveston road at El Paso, have resigned their positions and will leave for the Hawaiian Islands in a few days.

The San Marcial Bee says: The freight business on this division is heavy at present. It is a common occurrence for three freight trains to arrive and three to depart during the night.

The Santa Fe Pacific railway is vigorously prosecuting coal thieves at Gallup. Last week two were arrested and fined. Several small boys have been given notice that they must stop their pilfering of coal.

Miss Mollie Maher, of Iowa, arrived in San Marcial a couple of weeks ago, and has decided to spend the balance of the winter months in that town. The lady is a sister of Jack Maher, now a construction fireman on the Bisbee road.

The Citizen mentioned the other day the "let out" of several employees at the local depot. A young man, named Jack, is the new revising clerk, vice John Ackerman, and J. E. Hanlon is officiating as baggagemaster, vice M. V. Thomas.

The Las Vegas Record says: "Check" Redding, formerly night yardmaster at this place, who has for some time been working in the Raton yards, as yardmaster, came down from the Gate City yesterday to resume his former position in the yards here.

C. H. Young, division superintendent of the Wells, Fargo Express company, Denver, accompanied by Dudley Evans, passed through Albuquerque for San Francisco last Saturday night. Mr. Evans is the new president of the company, vice J. J. Valentine, deceased.

A Pullman porter on No. 7, when that train stopped for lunch at this place Tuesday, fell in a fit on First street, and for some minutes was apparently dead, and a large crowd collected about him. He revived, however, and was helped to his car.—Raton Range.

The locomotive works of the United States built 3,384 locomotives during 1901, not including compound engines. Then the railroad workshops of the various companies turned out a large number. The business of the year is said to have been the largest in any one year in the experience of the industry.

It has been officially announced that the old names of El Paso & Northeastern and White Oaks route are to be discarded and the road from El Paso to Santa Rosa will hereafter be known as the El Paso-Rock Island route, etc., for strictly business purposes. All engines and cars are already being labeled with the new title.

The Cocconino Sun says: The people of Arizona along the line of the Santa Fe Pacific will be pleased to learn that Arthur G. Wells has been appointed general superintendent of the Santa Fe lines west of Albuquerque.

Mr. Wells is a thorough and capable railroad man, is genial and accommodating, and his many friends in Arizona will note with pleasure his promotion to a more responsible position.

The Williams News says: Conductor Scott blocked the crossing west of the depot last Sunday evening considerably longer than the time limit of ten minutes. A warrant was sworn out for his arrest next day, but he had slipped through town and returned to Winslow. He was telegraphed to come down or be brought down, so after thinking the matter over he sent \$10, the customary fine, and was allowed to remain at liberty. This will be a lesson to others, as there is considerable annoyance caused by trains stopping on the crossing.

SHOP INSPECTORS.

To Be Appointed By Santa Fe—Authority Over Master Mechanics.

All over the whole Santa Fe system, the greatest topic of interest is the reorganization of the mechanical department of the road. Topeka is the vortex of the revolution, says the State Journal.

It is now generally believed that the position of general master mechanic of the Santa Fe is to be abolished. The three general master mechanics—Collinson, Smith and Paxton—have all resigned. What plans will be arranged to handle the work now done by those three men is the main topic of speculation.

Rumor has it that shop inspectors are to be appointed whose authority will exceed that of the division master mechanics, and who will be in general charge of the shops. One chief shop inspector will be stationed at each of the large Santa Fe shops. Over the shop inspectors will be appointed, it is said, several superintendents, whose authority will be over the grand divisions of the road, and who will be inferior in authority only to Superintendent Henderson and his assistant.

In connection with the complete reorganization of the working force of the mechanical department will come the installation of the workmen at the new shops in Topeka and the natural changes which result from such an important move.

It is said that the brick building known as the "east erecting shop," now used for the locomotive building department, is to be razed to the ground in order to obtain more room outside. The east erecting shop is not a very handsome or substantial building.

The boiler and blacksmith shops, the machine shop and the two engine shops, will be moved into the new buildings. The drafting rooms and pattern rooms, which are on the second floor of the main shop building, will also be moved out. The whole immense building now occupied by so many different departments will be devoted exclusively to the water service department and the new foundry.

The proposed foundry will do nearly all of the work which is now handled by John Seaton's foundry at Atchison. Hereafter the Santa Fe has done very little foundry work, except in brass. The work of the water service department has been greatly hampered by lack of room, and it is likely that instead of employing about 100 men as at present, the water service force will number from 200 to 300.

The new pattern shop stands within a few feet of the proposed foundry building.

The big engine in the machine shop will operate among other things an air compressor which is one-third larger than the present air compressor. This will therefore more than double the power of the compressed air plant at the shops.

Already the work of dismantling and overhauling the old machinery in the machine shops is in progress. Machines which have been in service for twenty years are being put in shape to be moved into the new shops. In the new shops electricity will be used very extensively as a motive power. According to Superintendent Henderson about fifty electric motors will be utilized in the new shops for driving machinery.

It is thought that the new machine shops will be ready for occupancy some time next fall.

RAILROAD TO ELIZABETHTOWN.

Work on the C. R. & T. V. R. R. to Commence May 1.

H. H. Argue, accompanied by his brother, A. G., arrived from Buffalo, N. Y., Sunday, and left for Elizabethtown Monday. Mr. Argue says that on his way west he stopped at Cleveland, Ohio, where he had an interview with William A. Stinchcomb, principal stockholder and promoter of the Cincinnati River & Taos Valley railroad, and was informed by that gentleman that actual work of construction would commence on the road from Maxwell City to Elizabethtown by May 1 next. This will be good news to the people of Colfax county generally and particularly to the people of the Elizabethtown mining district.—Raton Range.

John McAndrew, an oldtime brakeman and operator on the Santa Fe, and until recently manager of the Ash Fork house, made an unsuccessful attempt at suicide early yesterday morning at Ash Fork. McAndrew had been on a protracted spree for some time, and his effort to end his life was the result of temporary insanity by his overindulgence. As he was out of work and in a pitiable condition was put to bed late Thursday night in the room of one of his friends. In the morning he was discovered with his

throat horribly gashed and both wrists cut. Dr. Tyroler was hastily summoned by wire and left for Ash Fork on a light engine. Some idea of the extent of the self-inflicted injuries can be had from the fact that it required forty stitches to close the wounds. After regaining consciousness, McAndrew admitted that he had used two razors, one in each hand, to do the work. His escape from serious injury is miraculous. He was taken to the county hospital at Prescott last night.—Williams News.

TRAIN BULLETINS.

Passengers Have a Right to Know Where They Are.

Hereafter an occasional bulletin telling of the movements of trains will not suffice. The railroad commission of Texas demands that the public shall have frequent and exact information.

An order that becomes effective February 20, follows:

Section 1. It shall be the duty of every railway company operating a railroad in this state to place a bulletin board in a conspicuous place at each of its ticket offices, upon which shall be bulletined the time that each train upon which passengers are hauled is due to arrive and depart under its published schedule.

Sec. 2. It shall be the duty of each railway company at each telegraph station upon its line, thirty minutes before the time that its said trains are due to arrive at such station, to bulletin the fact upon said board as to whether such train is on time or not, and if schedule time, to state as nearly as can be approximately done, the length of time it is behind.

Sec. 3. Whenever there is, by reason of accident or otherwise, a break or obstruction on any railroad which will delay any passenger train on said railroad, it shall be the duty of such railroad company to cause the fact of such break or obstruction and the hour of its occurrence and the probable delay by reason thereof, and the passengers aboard such train shall be informed of the probable delay.

Millions Put To Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all druggists.

ROCK ISLAND CHANGES.

Belief That This Road Will Soon Have Coast Connection.

The election of three new directors of the Rock Island and its connection with the First National bank in New York have created much interest in Chicago. According to the Record-Herald, the alliance with the First National bank interests is taken as significant. W. H. Moore was recently elected a director of the bank, and J. Pierpont Morgan controls it. These facts have led to the supposition that a new railroad alliance has been formed.

This being the case, the Bill-Moore combination with the Northern properties and the Burlington, and the Morgan-Moore syndicate with the Rock Island in the southwest, are in a position to make an interesting fight. Recently the Rock Island entered into a traffic agreement with the southwest, are in a position to make traffic at El Paso, and it was stated at that time the arrangement was made entirely satisfactory to the Rock Island. The Record-Herald intimates that a connection between El Paso and Los Angeles is likely, thus giving the Rock Island a road to the Pacific ocean.

The company is also figuring on many important extensions in Texas, Oklahoma and Indian Territory, and it is rumored that the Burlington, Cedar Rapids & Northern will soon be taken over and operated as a division of the Rock Island.

Mrs. L. T. Delaney, of "Delaney's Candy Kitchen," South Second street, who was on a visit to Trinidad relatives, returned home last night.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system **A CONSTANT DRAIN UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S.S.S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. N. Tolbert, Lock Box 55, Winona, Minn., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was obliged to try S.S.S., and it made a complete cure. I have been a perfectly well man ever since."

S.S.S. is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and irritate the bowels. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic. Send for our free book and write our physicians about your case. We make no charge for this service. THE SWIFT SPECIFIC CO., ATLANTA, GA.

LETTER LIST.

Following is the list of letters remaining uncalled for in the postoffice at Albuquerque, New Mexico, for the week ending February 1, 1902:

LADIES' LIST.

Armijo, Mrs. C. and Jennings, Nancy Family
Andrade, Andam Mieses, Dolores
Vine, Caetano Lopez de
Baca, Petroulla McCarthy, Mrs. Jno.
Barella, Maria Martinez, Salome
Brown, Mrs. M. T. Miller, Mrs. Fleet
Brown, Mrs. Maud Ninton, Mrs. E. P.
Baker, Mrs. P. J. Padua, Dulcinea C.
Cook, Mrs. A. Y. de
Chavez, Mrs. Candace, Emilia Pa
larla
Chavez, Miss Lola Parent, Mrs. P.
Culbertson, Mrs. Padua, Ofelia
Carver, Miss Lena Stanford, Mattie
(2) Sebree, Mrs. T. O.
Dun, Mrs. Anna Sharp, Mrs. A. P. (2)
Downe, Josefa Scott, Delicia
Garcia, Margarita Senders, Mrs. A.
Howard, Mrs. Sallie Young, Angie
Hoginea, Grace

MEN'S LIST.

Arias-Amanos de do McAnuley, J. J.
Arlos
Archibueque, Esperion
Ashe, James L.

Miller, J. H.
Wallock, Ben F.
Persons calling for the above named letters will please say "Advertised," and give the date of publication.
R. W. HOPKINS, Postmaster.

CITY POLITICS.

The Socialist Ticket in Full—There Will Be Others.

All indications now point to a lively city election, and the ward workers are preparing themselves for a battle royal on the first Tuesday in April. The idea of fusion, the same as last year, has gradually disappeared, and it is now a certainty that the republicans and democrats will have straight tickets in the field.

The socialist party, at a recent meeting, decided to contest for the city offices, and today The Citizen was officially informed that the following candidates will be nominated:

Mayor—J. H. Bearup.
Clerk—J. S. McClure.
Treasurer—O. S. Pillsbury.

Aldermen—F. H. Mitchell, First ward; William Bryce, Second ward; M. P. Stamm, Third ward; W. P. Metcalf, Fourth ward.

School Trustees—Thomas Dye, First ward; W. O. Hopping, Second ward; A. J. Mitchell, Third ward. The nominee for the Fourth ward will be announced later.

Among the republicans the name of Hon. Frank A. Hubbell is talked of as the strongest and most available candidate for the office of mayor, while the democrats are figuring on O. N. Marron, the present mayor, heading their ticket for the same office at the April election.

The republicans and democrats will announce their primaries in a short time, when the battle for the city offices will be commenced in dead earnest.

YOUNG FOLKS.

Attend a Party Given in Honor of Harold Marsh.

Mr. and Mrs. W. J. Marsh pleasantly entertained a number of young folks in honor of their son, Harold. Games were played until a late hour, after which dainty refreshments were served. All present voted the party a grand success. Those present were Misses Bessie Pratt, Lula Palmer, Myrtle Carson, Lottie Lembke, Myra Marsh, Fannie Pratt, Edna and Edith Parks, Edith and Gertrude Walker, Cornelia McBride, Messrs. Robbie and Harry Huntsinger, Harold Marsh, Clyde Hoffman, George Parks, Pearl Crockett, Floyd Fielden, Charley Carson, Guy Thomas, Charley Banghart, Bert Zinner and Charley Lembke.

HEAVY DAMAGES.

Actions Based on an Accident in E. P. & N. E. Yards a Month Ago.

Suit for \$15,000 damages was filed against the El Paso & Northeastern railway Saturday by Maria S. Martinez for the death of her son, Zenobia Martinez, who was killed in an accident in the yards of the company in El Paso on December 29, 1901. The deceased was an employee of the company, and was riding on a flat car when it jumped the track and was piled up on top of him, injuring him so seriously that he died. It is alleged by the plaintiff that the accident was due to the negligence of the company in not repairing a defective crossing. Eyler and Bridgers are the attorneys for the plaintiff.

Tom Ashton Denies Marshal.

Tom Ashton, the notorious luno stealer and confidence crook, who has operated in this territory for many years, was in the city yesterday. He announced to his friends that he was appointed chief deputy of the new United States marshal of Arizona. Ashton left for Arizona last night.

McNALLY PROMOTED.

He is Now Division Superintendent of Rio Grande Division.

A telegram was received today announcing the promotion of J. F. McNally from assistant superintendent to division superintendent of the Rio Grande division of the Santa Fe, from Albuquerque to El Paso and all the branch lines south. Mr. McNally is a thoroughly practical railroad man, who has climbed the railroad ladder with rapid strides, through merit. Superintendent McNally began his railroad career as section foreman at Ber-

When the young mother is allowed to get up for her first meal, even though she takes it alone, it seems good to her to take this one step nearer the family circle, and she counts the days until her strength will be fully restored. But very often strength does not come as expected, and she lingers in languor and weakness. At such a time there is need of an invigorating tonic, and the very best tonic which a nursing mother can use is Dr. Pierce's Favorite Prescription. It contains no alcohol nor narcotics. It gives real strength.

"Favorite Prescription" is a reliable woman's medicine. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I cannot praise Dr. Pierce's Favorite Prescription too highly as a tonic for tired, worn-out women especially those who are afflicted with female weakness," writes Mrs. Ira W. Holmes, of Cedar Rapids, Iowa. "It has helped me very much and a skillful physician said to me, in answer to my question as to its efficacy, 'I know of cases where it has really worked wonders.'"

The Common Sense Medical Adviser, 1008 large pages in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

He was promoted in 1892 to yardmaster in Albuquerque. He also held the position of freight conductor. His first position of any prominence was road and trainmaster at Arkansas City, Kan. From there he was transferred to San Marcial with position of assistant superintendent under F. C. Fox, division superintendent, and now he receives the honor of holding one of the highest and most important positions on the Santa Fe system. His headquarters will probably be Albuquerque.

SELF-CONFESSED THIEF.

Charles Williams Talks to Marshal McMillin—Overcoat Returned.

Charles Williams, the thief, who was sentenced to the county jail by Justice Crawford, sent for City Marshal McMillin this morning and made a confession that he was a thief. He stated that on Monday evening, at 7:30 o'clock, he called at Mrs. Sheekles' boarding house for the purpose of robbery, but, on finding some one present, asked if such and such a person was at the house. During the conversation he took a general survey of the front hall and premises, and noticed a fine overcoat hanging on the rack. His second call was about 9 o'clock. He quietly opened the door, sneaked into the hall and appropriated the overcoat. Williams then came up town and secured a loan of \$2 on the overcoat from the "hot tamale" man. After making the confession, Marshal McMillin returned to new town and sent Officer Martinez after the overcoat, the tamale vender turning it over without any complaint, except the fact he is out \$2 to the officer. The overcoat belongs to J. T. Devoud, a lodger at the Sheekles house, and he is now in possession of his property. Williams is a dyed-in-the-wool thief, with half a dozen aliases, and will be marched out of the city when he has served his sentence at the county jail.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

HEAVY DAMAGES.

Actions Based on an Accident in E. P. & N. E. Yards a Month Ago.

Suit for \$15,000 damages was filed against the El Paso & Northeastern railway Saturday by Maria S. Martinez for the death of her son, Zenobia Martinez, who was killed in an accident in the yards of the company in El Paso on December 29, 1901. The deceased was an employee of the company, and was riding on a flat car when it jumped the track and was piled up on top of him, injuring him so seriously that he died. It is alleged by the plaintiff that the accident was due to the negligence of the company in not repairing a defective crossing. Eyler and Bridgers are the attorneys for the plaintiff.

Tom Ashton Denies Marshal.

Tom Ashton, the notorious luno stealer and confidence crook, who has operated in this territory for many years, was in the city yesterday. He announced to his friends that he was appointed chief deputy of the new United States marshal of Arizona. Ashton left for Arizona last night.

There will be base ball playing galore in the southern portion of the city this coming season. Two clubs have been organized from among the shop employees, and they will arrange a schedule of games to be competed for during the season.

AT THE STRAIN HOME.

A Party of Young People Surprised Miss Sadie Strain.

Sadie Strain, the pretty daughter of Mr. and Mrs. W. T. Strain, was surprised at the home of her parents on South Fourth street last night by a number of her young friends calling and making themselves quite familiar. Miss Sadie took in the situation at a glance, and with the aid of her mother, who was assisted by Mrs. Sheehan, entertained her visitors in a happy manner for several hours. Parlor games were played and refreshments served. The following young people are reported to have been present: Misses Marguerite Ingram, Mary Brennan, Ange Powers, Theresa Zenz, Francis Hogan, Maggie Sheehan, Winnie Brannagh, Loraine Sheehan, C. Truswell and N. Donohue, and Masters David Moore, Samuel Ingram, John Brennan, Maurice Hartnett, C. Nelson, John Hartnett, Leary McCluskey, R. Patterson, John Sheehan and George Powers.

WOMAN ASSAULT.

A Case Like Denver Assaults at Madrid.

Last Saturday evening at about 7 o'clock, some unknown man with a handkerchief over his face, assaulted Mrs. George Bartsch, of Madrid, in the yard at the rear of her home. Just across the street from the company store. When the attack was made Mrs. Bartsch called for help and started to run, when her assailant struck her with a stick of wood, knocking her down. As this did not stop her calling for help he bound the fascinator which she was wearing on her head, over her mouth and saturated it with chloroform. By this time her cries had attracted the neighbors and he was compelled to take to his heels without accomplishing his design. The peace officers were notified at once, but no trace of the brute in human form has been found.—Cerrillos Register.

"WILD GOOSE."

Launched at the Barelais Ship Yards This Afternoon.

The Rio Grande torpedo boat, described in The Citizen yesterday afternoon, was launched at 3 o'clock this afternoon from the Barelais ship yards, and, when the bottle of Mumm's Extra Dry was cracked across the stern, a soft voice was heard to say: "I now christen thee 'The Wild Goose' of the Rio Grande." Just then the big ropes that held the vessel were given a quick, sudden yank by Dwight Wheeler, and the Wild Goose slid off the ways into the muddy waters of the Rio Grande amid the applause of ten-people who had been invited by Capt. Greenleaf to be present. The owner of the vessel is N. W. Taylor, and the officers are Toffey, captain; Negus, engineer; Greenleaf, pilot, and Randall, purser. The Wild Goose will be ready to make its first trip down the Rio Grande tomorrow morning.

BANDITS RAID A TOWN.

One Man Killed and a Dozen Robbed at Fort Sumner, N. M.

A special to the St. Louis Globe-Democrat, from Roswell, under date of January 28, says:

Eight men, armed with Winchester rifles and revolvers rode into Fort Sumner postoffice, seventy-five miles north of here, last night, and robbed a party of ten or twelve persons who were in the store. One young man started to run away, when the robbers shot and killed him. After taking everything valuable, the robbers rode away, going north. This is the third raid of this kind in the vicinity in the past ten days.

Differences Were Settled Amicably.

All difficulties between the Las Vegas city council and the Agua Fria company have been settled amicably, and to the satisfaction of both parties.

The company will furnish the city with fifty-five hydrants at \$50 per year, each, and guarantee, a pressure of 60 pounds. In addition the company will furnish the city parks, schools, city hall, etc., with requisite water for drinking and sprinkling purposes free of charge.

A five years' contract on these terms was entered into by the city and water company at last night's council meeting. The Agua Fria company has displayed a very generous spirit, and our citizens will rejoice over the improved relations between it and the council.—Record.

Closed Down.

It is learned here today, although doubted yesterday, that it is a fact that the Albarreite mine and mill in the Cochiti district has closed down, and a large number of the men employed are now leaving the district.

The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says E. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

Elmer E. Voeder, hearing Indian depredation claim evidence against the government, has returned to the city from the south. Captain William Borcher, who acted as interpreter, has also returned to the city.

Mr. Lyons was not able to attend to his duties at the Lead avenue church yesterday on account of sickness.

Gallup, Cerrillos and Bland

Newsy Notes From Exchanges

GALLUP.

From the Republican.
E. Spitz, of the firm of Hfeld Bros., of Albuquerque, paid Gallup a visit.
J. B. Moore and J. Crawford came in from the reservation on business.
The old Diamond and the Union resumed work this week, and are prepared to fill all orders.

Peter Kitchen, of the Opera House saloon, has added to the attractions of his popular resort by the addition of a new pool table.

W. F. Kuchensacker will move his stock of goods next week from his present location to his own building, opposite the depot.

Miss Jennie Bayless went to Santa Fe to accept the position as book-keeper for Solomon & Aboussleman, general merchants.

Walter Myers and Miss Gertrude Ramsey, a niece of Superintendent Ramsey, of Catalpa, were quietly married at the Episcopal church by the Rev. W. R. Seaborn. A dinner was served to a few invited guests at the residence of Superintendent Ramsey on the return of the young people from Gallup.

Six Laguna Indians were brought here, five of them will be employed as laborers at the roundhouse and the sixth will act as hostler's helper. The latter is Charles Kye, who has had charge of the Laguna Indians who have been employed on the coal shutes for the past year.

CERRILLOS.

From the Register.

J. M. Rogers has been on the sick list this week.

Dr. E. E. Roberts has been on the sick list this week.

Mrs. J. Ross Forsyth has been quite sick this week with nervous prostration.

Born to Mr. and Mrs. J. M. Liston a nine pound boy. All doing well.

The Waldo school closed last Friday, at the end of the third month, there being no funds in the treasury.

G. B. Hendricks has discontinued his milk route and will give his entire attention to the improvement and cultivation of his fine ranch.

The Cochiti Gold Mining company has had a gang of men at work here this week repairing the pumps which supply their power plant at Madrid with water.

Judge Neis has fled on the NW 1/4 of section 16 as coal land, and has a force of men at work developing the property, which shows a two and a half foot vein of blacksmith's and coking coal.

Miss Cavanaugh has tendered her resignation to take effect at once, on account of the dissatisfaction of the scholars of her grades and some of the patrons of the school. The directors recommend Miss Cavanaugh as a competent teacher, and also state that the patrons of the school must remember that hereafter the teacher and not the children will run the school. The Spanish and primary departments will continue and if there is money to hire another teacher some of the scholars of the high school will be barred from attendance.

BLAND.

From the Herald.

Mrs. J. L. Dale, of Albemarle, has gone to join her husband, who has a position in the Madrid electric plant. We regret to lose these good people but wish them success in their new home.

The little son of Mrs. W. H. Knight, who has been seriously ill at the home of H. E. Anderson, has about recovered. The little fellow came near having a tough siege, but Dr. Grace pulled him out of it in a short while.

B. H. Shaw, who is well known in Bland, having in former times been engaged in the mercantile business here, came up from Albuquerque last Friday and has again cast his lot among us. Mr. Shaw has rented the building immediately south of the Bland Supply company, and has opened a grocery store therein.

A report gained currency Sunday evening that W. H. Knight was lying at the point of death at Prescott, Arizona. The report turned out to be false, however, and it is learned that parties here had received a letter from Mr. Knight only a few days ago in which he stated that he was well and at work.

While taking steel from the fourth level to his place on first last week at the Albemarle, Bill Edwards tripped and fell a distance of thirty feet into a chute on the fifth level, sustaining severe bruises, which laid him up for several days. How he escaped more serious injury is a miracle.

A very pretty wedding occurred at Albemarle last week the contracting parties being Wm. Harke and Miss Marie Leches, of Pittsburgh, Pa. The ceremony was performed by Rev. Father Abrogartur, of Pena Blanca, and the witnesses were James Harkey and Mrs. Alice Harrington. A grand ball and supper was tendered the young people in the evening by Mrs. Harrington and a jolly good time was had by all present. A number of useful and valuable presents were received and the Herald joins their many friends in wishing them all kinds of happiness.

There will be no masquerade ball on Valentine's night as there is not a baker's dozen left at Albemarle. The exodus began last Thursday morning. A few of the married men will be kept two weeks longer and the Albemarle will look like Goldsmith's deserted village. The closing down came much

sooner than was expected, as it was thought to run until about the first of May at least, but it was not to be, so we shall leave Albemarle with regrets. The many kind friendships formed and happy hours spent here shall not soon be forgotten. Perchance in the future some of us shall meet again.

WINSLOW.

Special Correspondence.

Winslow, Ariz., Feb. 1.—The local lodge, Brotherhood of Locomotive Firemen, No. 143, of Winslow, paid their last respects to the family of Fireman Stronach by attending the funeral and performing such other acts of kindness as was in their power, and they saw to it that there was nothing lacking to make the bereaved family comfortable.

Richard Stronach, the fireman who was killed January 29, 1902, while in the discharge of his duty on No. 2 at the bridge over the Little Colorado river, about three miles east of Winslow, was brought to Winslow, and after the coroner's inquest, the remains were turned over to Undertaker W. A. Parr, who prepared them for interment and conveyed the same to the residence on Aspenwall avenue. The funeral took place this afternoon and was followed to the last resting place by a large concourse of friends and sympathizers. Mr. Stronach was a native of Canada, came to this country and located at Raton, N. M., where he was for several years in business as a jeweler, and after going out of business took up railroading in the capacity of fireman, running out of Raton. About two months ago he was transferred to Winslow, where he had since worked. His wife and child arrived about a month ago and with Mr. Stronach took up his residence on Aspenwall avenue, from which place the funeral was conducted today. The coroner's jury verdict is as follows: We, the jury, empaneled to determine the cause of the death of Richard Stronach, fireman, on train No. 2 on January 29, 1902, on the Santa Fe Pacific railroad, have concluded to render the following verdict: That the said Richard Stronach came to his death at the Little Colorado river bridge, about three miles east of Winslow, on the second division of the Santa Fe Pacific railroad, at about 10:33 p. m., on January 29, 1902, while in the discharge of his duty, by accidentally leaning out too far from the engine and striking one of the trusses of said bridge. Signed—T. J. Hesser, foreman; J. B. Drumm, Freeman Stewart, P. A. Ward, L. E. King and M. H. French. Approved—J. F. Mahoney, coroner.

J. F. McAndrews attempted to commit suicide at Ash Forks last night by cutting his throat. It is not learned as yet whether it proved fatal or not. Mr. McAndrews was a lawyer by profession, but the last year or two he has been railroading as a brakeman. He ran out of Winslow some months back and since that time has been working out of Ash Fork, Arizona.

S. A. Rand, the big sheepman, was in town after a load of provisions. He says the country is now safe for feed and there is plenty of snow in the mountains which will make plenty of water to start the grass.

Hotel Navajo arrivals for Wednesday and Thursday are as follows: J. W. Seery, Nick Sword, Ed Casey, Ed Pitcher, Winslow; Wm. Quilter, Prescott; E. E. Greenleaf, Albuquerque; J. B. Stimer, Schneckstadt, N. Y.

Lon King, the cattleman, came to town today. Mr. King says there is about eight inches of snow in the mountains and the farther you go up the deeper the snow is, and sufficient for grass and water for another year.

Hon. George A. Wolff says the Old Reliable meat market cuts more meat than they did before the new market opened up, so he welcomes the new shop with the balance of the townspeople. Kuntz & Wolf are all right as butchers.

Willie Workman has just returned from the mountains and reports having had a good time hunting, but failed to kill anything, not even a bear. This is Willie's first trip and he says he will do better the next time.

BELEN.

Special Correspondence.

Belen, N. M., Feb. 2.—The past week has been a very busy one in our town, especially from a pleasure standpoint.

On last Tuesday the Heyday club highly entertained its members and friends at their club rooms. The evening was devoted to progressive pedro, dancing and bowling. The card game proved very exciting and at the close Mrs. P. Dalies and Miss Frances Graves were tied for first place and in the draw Mrs. Dalies won. In the men's contest three tied for first place, Carl Dalies, Ernest Swelger and M. B. Fuller. In the final draw Mr. Fuller proved to be the lucky one. The booby prizes were won by Mrs. P. B. Simons and Ed Krammer. Mr. Krammer's prize proved to be a miniature shirt with inscription "keep it on, you may win next time." Mrs. Simons won a miniature carpet beater with the inscription "if you can't beat at cards, here is something you can beat." After the cards were finished the crowd turned to dancing and we all went home in the morning. Everyone pronounced it one of the most pleasant parties of the season.

The new parish priest, Rev. J. A. Picard, formerly of Mora, is proving to be very popular with his people and also the residents of this town in general.

eral. He expresses himself as being greatly pleased with Belen as a place of residence and the people thereof as fellow citizens, and we hope to have him with us for many years to come.

Mrs. E. Pino, wife of Julio Pino, died last Thursday evening at 7 o'clock. Death was caused by strangulation, caused by a growth in her throat.

The coming month will be full of excitement at the Heyday club. Four bowling teams have been organized and have formed a bowling tournament. Two teams play each evening, on Tuesday and Friday evenings. A very handsome prize will be awarded the team having the highest score at the end of the month. The names of the players of each team will be sent later.

Baby Reinken has been quite sick but is now out of danger.

The week has been very pleasant but quite cold. Today has been a perfect winter day.

DEMING.

Special Correspondence.

Deming, N. M., Feb. 4.—Friday night the Deming Social club gave their semi-monthly dance, which was well attended, and thoroughly enjoyed.

Monday evening "The Pretty Persian" was sung to a good house by the Boston Ideal Opera company, and was greatly enjoyed and loudly applauded.

Mrs. Spwo, who is here for her husband's health, gave a very pleasant reception to a few friends Monday evening. Whist was the feature of the evening.

Mrs. Russell Agee is visiting friends in this city, to the delight of her numerous friends here.

W. H. Groer has just returned from an extended trip to Santa Fe, where he helped inaugurate the governor.

Mr. Choate, general manager of the Bisbee railroad, is negotiating with the Deming people for property near the Santa Fe depot, on which to build a fine depot. Work will be commenced as soon as the title can be given, and will be rushed right along to completion.

The Business Men's club of Deming are working to get things into good shape as soon as possible, for they realize the good this road is and will do Deming, and are willing to do all they can to show them favors.

Next Wednesday evening, Richard Golden is to appear here in that good old play, "Old Jed Prouty," and it is to be hoped that he will get the enthusiastic support that he will deserve. Deming is a pretty good show town, but the people are apt to tire of so many attractions and the result be bad for the actors.

On January 22 the Ancient Order of United Workmen held their annual masquerade ball at the opera house. The prizes offered are generous and should call forth some good costumes.

On January 12 the Bisbee will celebrate the opening of their line from Deming to Bisbee, with a barbecue in Deming, and a banquet in Douglas. As the day before will be the election of the trustees of Deming, there are apt to be lively times here. There will also be a sale of lots by the Deming Real Estate & Improvement company on the 12th, so anyone who wants to get in on the ground floor of Deming property had better come along and have a good time to foot.

The ladies of the Episcopal church will hold their "Rummage Sale" at the opera house on Friday and Saturday of this week, and will sell everything from old clothes and playthings to Luna county oil stock.

SILVER CITY.

Special Correspondence.

Silver City, N. M., Feb. 4.—The ladies of Silver City will, Friday, give a leap year ball to their gentlemen friends and the ladies will ask the gentlemen to accompany them and also fill their programs at the ball. A number of the men are looking anxious, as they are afraid of being wall flowers.

The hearing of John Childers, who shot and killed Thomas S. Hefflin a short time ago, before Judge Parker, was concluded this morning. His attorneys were making a strong fight to get him out of jail on habeas corpus proceedings, but Judge Parker refused to allow him bail. Childers' father, who is said to be a wealthy cattleman in Texas, arrived in the city the other day and has employed two of the ablest attorneys in that state to exert their legal efforts to get his son out of the scrape.

The city council has let contracts for the erection of a steel bridge across Main street and Broadway, where the floods have washed quite an arroyo.

Mr. McAllister, who is working the Arizona mine at Pinos Altos, has a force of forty miners at work and is making some large daily shipments to the Silver City smelter. The ore runs high in gold, silver and lead.

W. H. Llewellyn is in the city attending to some legal matters before the court.

Candidates for county offices in the fall election are beginning to make their appearance and from present indications there will be a hot time when the county conventions meet.

James W. Carter is confined to his house with pneumonia and as his health has been in very bad shape for some time, his friends fear that it may prove fatal.

SHEPARD PROMOTED.

Will Be General Superintendent of Santa Fe Coast Lines.

F. J. Shepard, chief clerk and private secretary to Third Vice President Kendrick, has left Chicago for Los Angeles to become general superintendent of the Santa Fe coast lines, succeeding A. G. Wells, recently made general manager of the coast lines.

The appointment will be made by Mr. Wells, but the official announcement has not been made.

CUT DOWN WAGES.

Mexican Central Brakemen and Conductors Are Dissatisfied.

Owing to a reduction in the wages of conductors and brakemen made by the Mexican Central, which became effective on the first of the year, trainmen on that road are very much dissatisfied.

On the first of the year a reduction in the wages of freight conductors and brakemen was made and the trainmen sent a grievance committee to Mexico City but the officials of the Mexican Central refused to listen to them. As a result of this determined stand on the part of the officials, several trainmen on the Chihuahua division have already resigned and it is generally understood that unless the company recedes from the stand it has taken trainmen on the Central will quit in wholesale.

No ultimatum has been issued by the trainmen for the laws of Mexico absolutely prohibit employees from conspiring together for the purpose of forcing a raise of wages. Each fellow will simply quit for individual reasons.

Only the men in the through freight service between El Paso and Aguas Calientes are affected by new schedule as those on the southern end are paid on a different basis. One reason why the decrease in the wages of the conductors and brakemen is so distasteful is the fact that the engineers and firemen and the few local freight men had their wages increased at the same time. Prior to the first of the year through freight men were paid \$2.50 per 100 kilometers and brakemen in proportion. Under the new schedule conductors receive only \$2.45 per 100 kilometers and a corresponding decrease has been made in the wages of the brakemen. Freight conductors on local runs now receive \$2.50 per 100 kilometers.

Contrary to the general belief the trainmen in Mexico are strongly organized, and it is stated by men in position to know that unless the rate is restored a strike is certain, which will not be without its detrimental feature to the company.

DANIEL HARDY.

New General Superintendent of the Missouri Pacific Road Is Well Known.

Daniel Hardy, who has just been appointed general superintendent of the Missouri Pacific system by General Manager Russell Harding, is known in Colorado, says the Denver Post.

He was for three years train dispatcher for the Denver & Rio Grande at Pueblo from 1877 to 1880, where he displayed ability.

The resignation of H. G. Clark was immediately followed by the appointment of Hardy to take effect February 15. He has been superintendent of the Missouri division of the Missouri Pacific.

Hardy began railroad work as a track laborer with the Pittsburg, Cincinnati & St. Louis, and for eight years was a train dispatcher there. Then came his Rio Grande experience. Next he went to the Atlantic & Pacific railroad at Albuquerque as division superintendent and superintendent of telegraph.

He was then a Canada Southern trainmaster for one year and for three years trainmaster on the Pittsburg & Lake Erie road at Pittsburg. Then trainmaster, division superintendent and from 1877 to October 1, 1899, superintendent of the Missouri division of the Missouri Pacific; from October, 1899, to date, he has been superintendent of the Gonid line at Sedalia, Mo.

Superintendent Hardy will have charge of the entire Missouri Pacific system in Missouri, Kansas, Nebraska and Colorado, with headquarters at St. Louis.

SANTA FE CENTRAL WORK.

Pile Driver, Scrapers, Horses and Mules Have Been Purchased and Shipped to Santa Fe.

Hon. W. S. Hopewell, vice president and general manager of the Santa Fe Central railway has returned to the Capital City from a trip to the southern part of the territory, where he was on business for the company, says the New Mexican.

He reports that section quite dry and standing greatly in need of snow, although some snow has fallen in the Black Range. While absent, Mr. Hopewell purchased a lot of horses and mules and scrapers from Trimble's livery stable at Albuquerque and has shipped them to Santa Fe. The company now has about 200 animals ready for the grading work. Two pile drivers have also been purchased and are now on the road to Santa Fe. He has also seen several parties who desire to furnish ties, piling, bridge timber and telegraph poles for the road and has made arrangements to purchase such material whenever brought to the proposed line of road. Mr. Hopewell has been very active and is hopeful that actual grading on the road of the Santa Fe Central will commence about March 1.

An interesting point regarding the handling of baggage is discussed in the annual report of the Lehigh Valley road. The report shows that during the year 1,270 articles of various description were left on the trains, exclusive of those found in Pullman cars, which are differently handled. Of these articles 288 were claimed and returned to owners, the balance of the number, 982, still remaining in the hands of the baggage department of the company, awaiting claimants. The law of nearly all states in the union provides that if these articles are not claimed by the owners within one year, they may be sold at public sale, after due notice, after which the claimant has no right to any article so found. The articles left on trains are varied in character, ranging from books to umbrellas, pocketbooks, wraps, valises, merchandise, etc. It is hard to explain

Mother Gray's Sweet Powders

for children. Mother Gray, for years a nurse in the children's home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists 2c. Sample sent free. Address Allen S. Olmstead, LeRoy, N. Y.

the low percentage of calls made for articles left on trains, unless it be that passengers, in the main, do not understand that such articles that are found and turned into the baggage departments of the various railroads are held there subject to orders of the owners. There are probably some articles that are left in trains by passengers and picked up by other passengers, but as a general thing they are found by the trainmen and turned into the railroad company's offices, and may be had on application by the owner.

The Godiva at Work.

The Lady Godiva resumed operations at White Oaks. The Godiva is the property of W. H. Harris, of St. Louis, and is being worked by his superintendent, B. H. Dye, of White Oaks, who has represented Mr. Harrison's interests for several years. The property has produced some very rich ore, and being situated as it is, in the immediate vicinity of the Old Abie, is expected to be a valuable producer.

ORDINANCE NO. 185.

To regulate the travel over the viaduct.

Be it ordained by the city council of the city of Albuquerque, N. M.:

Section 1. That riding or driving any kind of animal, single or double, loose or in harness, on or across the viaduct, at a greater speed than a walk, or the driving of flocks, herds or droves of live stock on or across same, or loitering or playing by children or other persons, on any part thereof, is hereby prohibited.

Section 2. That all persons riding or driving, horse, vehicle or bicycle across the viaduct shall keep sufficiently on the right hand thereof to furnish ample room for passage of all travel coming in the opposite direction.

Section 3. That bicycle coasting on the viaduct, or riding on the enclosure at the south side thereof, which is reserved for pedestrians, is hereby prohibited.

Section 4. That any person violating any portion of the preceding sections of this ordinance, upon conviction thereof shall, in the discretion of the court, be fined in any sum not less than five (\$5.00) dollars nor more than twenty-five (\$25.00) dollars.

O. N. MARRON, Mayor.

Attest: C. W. MEDLER, City Clerk.

Seed Time and Harvest.

A good time to think most seriously of the harvest is seed time. The decision you make then will determine the value of your crops later. The growing competition in seed selling is an increasing temptation to unscrupulous dealers to make extravagant claims for their seeds, both in price and producing qualities. The wisest farmers are those who are influenced most by what experience has proven to be good and true. Thousands of seed sowers in all sections of the country sow Ferry's famous seeds year after year, and have the satisfaction of good harvests to justify their continued faith in the Ferry firm. They pay a few cents more at seed time, but realize many dollars in better crops at the harvest. The natural consequence of this confidence is an ever increasing business. D. M. Ferry & Co. sent out last year more seeds than any other seed house in the world. The 1902 catalogue of this house is now ready and will be found a useful guide in selecting the choicest seeds for the farmer, the truck gardener and the flower gardener. It is sent free on request. Address D. M. Ferry & Co., Detroit, Mich.

PATENTS
GAVEATS, TRADE MARKS, COPYRIGHTS AND DESIGNS.
Send your business direct to Washington, saves time, costs less, better service.
My office close to U. S. Patent Office. FILES preliminary examinations made. Attorneys do not do until patent is granted. FEE \$10.00. ATTENTION GIVEN TO YEARS ACTUAL EXPERIENCE. Book "How to Obtain Patents," etc., sent free. Patents procured through E. G. Siggers receive special notice, without charge, in the
INVENTIVE AGE
Illustrated monthly—fourth year—terms, \$1.00 a year in advance. Published by E. G. Siggers, 916 F St., N. W., WASHINGTON, D. C.

Trustee's Sale.

Whereas, Jose Sanchez y Montoya, (widower), in and by a certain deed of trust, dated the 13th day of January, 1900, and recorded in book 10, T. D., page 58, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situate in the county of Bernalillo, and territory of New Mexico, to wit:

A certain piece of land in precinct 29, Atrisco, Bernalillo county, N. M., from north to south twenty (20) yards and east to west thirty (30) yards, bounded north by Juan Jaramillo, south by Jose Jaramillo, west by hills, east by public road and Rafael Armijo.

Also a piece of land in precinct 29, Atrisco, in place known as "La Vega del Monte," Bernalillo county, New Mexico, in width from north to south twenty (20) yards; in length from east to west three hundred (300) yards; bounded north by Higinio Garcia, south by land of second party, east by public road, and west by foothills.

Also a certain piece of land in Atrisco, Bernalillo county, New Mexico, described as follows: Bounded north by land of Jose Sanchez y Montoya, south by lands of Francisco Garcia, east by public road, west by lands of Mr. Aldrich.

Said deed of trust being made to secure the payment of a certain promissory note therein described for \$120, payable to E. C. Wheeler one year after date, with interest at the rate of 12 per cent per annum, which note with interest as per terms of said deed of trust, will hereinafter mentioned, amount to \$142.80.

Whereas, the said note is past due and together with interest accrued and unpaid; now therefore at the request of the legal holder of the said note, and by virtue of the terms and conditions of said deed of trust, I do hereby give notice that for the purpose of paying said note, interest thereon, taxes, costs and cost of executing this trust, including legal compensation to the trustee and his reasonable attorney's fees, as provided by said deed of trust, I will, on Monday, the 24th day of February, A. D. 1902, at the hour of 12:30 o'clock p. m., of said day, at the front door of the postoffice in said city of Albuquerque, New Mexico, sell the real estate hereinbefore described, at public auction, to the highest bidder and best bidder for cash, to pay said indebtedness, costs and expenses.

JOHN M. MOORE, Trustee.
Dated Jan. 24, 1902.

Kodol Dyspepsia Cure

Digests what you eat.
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

Cures all stomach troubles
Prepared only by E. C. DeWitt & Co., Chicago
The 51c bottle contains 2 1/2 times the 25c. size.
J. H. O'Reilly & Co. and B. H. Briggs & Co.

50 YEARS' EXPERIENCE
PATENTS
TRADE MARKS, DESIGNS, COPYRIGHTS &c.
Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. Handbook on Patents sent free. 1736-1738 Lawrence St., Denver, Colo.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed, free milling gold mine that has produced, and has expended on it

FIFTY THOUSAND DOLLARS

in development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth far inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, references, etc., address,

OZARK GOLD MINING & MILLING CO.,
MOSCOW, IDAHO.
