TWENTY-EIGHTH YEAR.

## OIL WITHIN 100 FEET OF TOP IN PECOS HILL WELL.

Pecos, Texas, March 3.—Development at the Pecos well today seem to fully justify the statement that the Pecos field is in. This morning oil was found standing within 100 feet of the top of the 657-foot hole, following penetration of the sand yesterday to between 600 and 609 feet. Sixty-one barrels were bailed from the well, the first 50 barrels lowering the oil to 250 feet. The last 10 barrels taken out failed to lower it at all, and bailing discontinued with the oil still standing at that level. What the well will yield per day is therefore still in the estimate stage, and one hears widely divergent estimates, but none the writer has heard placed it lower than 80 barrels. Most put it at 150 to 300, and some as high as 500 and even more.

Driller Garvin, who quit today, his contract completed, said: "She's a finished well, men, and she'll make 300 barrels."

He believed the oil will rise over the casing within the next day or two, as it was rising rapidly this afternoon. The well is already connected with a pipe line that runs down hill over nine miles to the Santa Fe switch of Isabelle, and the oil can be loaded on tank cars as soon as they are provided.

It is understood Mr. Ball will start a new well at once, possibly with the intention of casing it off all shallow sands and going on down to heavy sands that are supposed to lie below 2,000-foot level, but he is in Chicago at present and nothing definite can be learned. Leases have taken another skyward jump, and almost a record crowd disembarked from the west-bound train this afternoon. This is the first producing well in the Pecos field opening up a tremendous new territory which geologists have for years declared would one day blossom forth as one of the world's greatest oil fields.

## ROY MURRAH DEAD.

Roy Murrah died at Ralston hospital, El Paso, Monday evening at six o'clock. He had gone to that city accompanied by his brother, Will, of Lakewood, last Friday, for special treatment, he not seeming to get along here. He was in the hands of physicians when a hemorrhage occurred which resulted in death in a very short time. Relatives here and at Lakewood were notified, and under their instructions the body was embalmed and brought to this city, Tuesday night and later shipped to the old home at Lakewood, where they were interred Wednesday afternoon at 3 o'clock by the side of his mother, who has been dead many years. The deceased was about twenty-five years old, a member of the well-known Murrah family, cattlemen, of Lakewood, and leaves two brothers, John and Will, and two sisters, Mrs. J. W. Lackey, of Carlsbad, and Mrs. J. S. Kelly, of Douglas, Arizona, besides many friends to deplore his loss and to them is extended sympathy. Reverend Terry, of Davton, conducted the funeral services, which were largely attended.

Carlos Seas, the sixteen-year-old Mexican who was confined in the county jail charged with attempted assault on an eight-year-old child, had a hearing Tuesday and pled guilty to the charge. He was sentenced to five years in the State reform school.

M. L. Collins is a visitor to Roswell this week, going up Tuesday.

## IMPORTANT MEETING OF EDDY COUNTY DEMOCRATS.

A meeting of the Eddy County Democratic Central committee is called for tomorrow, Saturday morning, at ten o'clock, at the court house. The meeting is for the purpose of fixing the date of the coming primaries, making rules for same and assessing the cost to the different candidates, and to transact such other business as may legally come before it.

## NEW MEXICO CATTLE CROP 600 PER CENT BIGGER THAN 1918 OR 1919.

Roswell, N. M., March 1.—That the calf crop of New Mexico will be in the neighborhood of six hundred per cent more than either of the two preceding years, is the estimate now being made by the reports of the State college, of the government and county agents.

In the year 1918, there was a crop which was valued at \$7,500,000. In the year 1919 there was a falling off of over one and one-half millions of dollars. This was due to the drought in 1918 and the hard winter following.

This year the calf crop, which is figured on an eighty per cent basis, will be worth \$36,000,000 or six times as much as that of 1919.

Cattle conditions throughout the state are reported to be in a most excellent condition. Range conditions have never been better for many years. Steer buyers are reported to be appearing in different parts of the state and offering top prices. Shipments of cattle, however, so far have been very light.

## P. E. O. ENTERTAINS.

The members of Chapter A. P. E. O. entertained their husbands and men friends at the home of Mr. and Mrs. J. W. Lewis Tuesday night. A fine time enjoyed by all fortunate enough to have their membership in that organization, as well as their guests, is the report. A turkey dinner was one of the features of the evening. Those present were, Mr. and Mrs. R. M. Thorne, Mr. and Mrs. Fred Bush, Mr. and Mrs. J. R. Linn, Mr. and Mrs. J. W. Armstrong, Mr. and Mrs. F. E. Wilson, Mr. and Mrs. M. K. Clark, Mr. and Mrs. E. A. Roberts, Mr. and Mrs. J. W. Lewis, Mr. and Mrs. T. E. Williams, Mrs. A. A. Davis, Misses Marguerite Roberts, Jennie Linn, Lu B. Hughes, Messrs. Arthur Skeets, P. W. McLenathan and Robert Finlay.

Silas Hogg expects to leave Tuesday for Merkle, Texas, on a visit and may decide to locate there permanently, he having relatives in that city.

Ed. Burleson came in this morning from his ranch at the foot of the mountains and is transacting business of various kinds while in the city.

A marriage license was issued yesterday to Milton B. Sutton and Miss Lillian B. Goodnight, both of Artesia.

Airplane Here Slightly Damaged. The expected airplane came in Monday and made a landing on the field east of town. During the high wind of Tuesday, the machine broke loose and was blown for quite a distance into a little hollow where it is at this time. The damage is being repaired as rapidly as possible and everything will be all right in a few days. A number of our citizens were disappointed as they had planned to "go up" the day the machine came to grief.

## TO DRILL FORTY NEW MEXICO WELLS.

Santa Fe, N. M., Feb. 25.—The Standard oil company will drill 40 new wells on 40,000 acres of land belonging to John Looney, of Lumberton, according to contract just made. Drilling will start by the middle of March if possible. Seventy-two carloads of material have been shipped to Lumberton and a gang of men is at work on the huge warehouse.

An oil expert declares a pool of oil exists under 15,000 acres of the property. The Willow creek well on the J. R. Martinez property is in sandstone; it is expected that oil will be encountered at 500 feet.

## FLOATING OIL LEASE.

Santa Fe, N. M., Feb. 22.—The transfer of an oil lease here today brings out the startling reminder that the whole world is interested in oil. Many state oil and gas leases have been issued in New Mexico, and it is found in a transfer made here at the capitol of the state that a lease brokerage firm of Oklahoma City has sold a New Mexico oil lease to a sailor of the United States navy who is located on one of Uncle Sam's big warships that now ride at anchor in the far off port of Guantanamo, in the Atlantic ocean.

This lease which the sailor bought consists of 40 acres, located in Eddy county, New Mexico. Who knows but that when the sailor leaves his ship with a discharge in his hand that his lease will at that time be one of value that is rivaled only by those marvelous leases at Burburnett or Ranger?

## MARRIED AT ROSWELL.

Ernest E. Scoggin, of Hope, and Miss Elizabeth M. DeWitt, of Lovington, stole a march on their friends and were married Saturday, February 21, at Roswell. Two couples of their friends accompanied them, Miss Mae Scoggin and Ernest Middleton, and Mr. and Mrs. John Tomlinson.

The newlyweds have many friends here who wish them joy in their new life. They returned after the ceremony to the home of the bridegroom at Hope, where they will reside for the present.

Friends in Carlsbad are in receipt of announcements of the birth of a daughter to Mr. and Mrs. Joe C. Bunch, formerly of this city, but now residing at Weatherford, Texas. The birth occurred February 22nd and the baby weighed the beam at nine pounds. She has been named "Josephine E." Best wishes to her and her parents.

H. E. James and Mrs. James arrived Friday night from El Paso where they attended the death and burial of the late Cyrus James.

Reagan Middleton came in from Monument Monday. He reports the entire family recovering from a recent sick spell. With Mr. Middleton were the English brothers, horse buyers, from Texas, who are looking after the purchase of "paint" horses.

J. D. Forehand and wife, from the Black river country, were in town on a business trip Monday. They report things in excellent shape in their part of the country.

## GOING UP!

Electric irons have jumped from \$6.75 to \$7.50 each. We have six standard irons in stock, absolutely guaranteed, priced at \$4.75. When these are gone, \$7.50 is the price. Shall we save one for you? Call early as they won't last but a day or so.

## HAY TRADE CONDITIONS OF THE WEEK.

Record prices were made on hay this week in Eastern markets due to protracted storms and consequent famine conditions. Consumers' stocks have been working down for several weeks and they have been forced into the market regardless of prices. Country roads are almost impassable on account of deep snow and heavy drifts and the amount of hay loaded is very small. Shippers, however, are making every effort to get hay to market and with a break in the weather increased sales is certain. Railroads are furnishing cars more freely but the rail movement is slow because of the storms. Future prices will depend entirely on the movement to market and conservatism on the part of shippers is necessary to avoid losses on goods that can not move immediately, for when the movement does increase consumers will buy in limited quantities and the decline will probably be even sharper than the advance.

Alfalfa hay is quoted on the Kansas City market this week at \$17.50 for No. 3 up to \$36.00 for choice.

## WOOL EXPERTS HERE.

Mr. Bedell, of the Bureau of Animal Industry, and C. A. McNabb, state specialist in marketing, addressed about twenty prominent wool growers of Eddy county, in the court house Wednesday. The gentlemen had samples of wool of different grades and classes which they passed on, and altogether the meeting was a very profitable one. A movement is on foot to form a state association of wool growers and the following officers were elected as a local committee to cooperate with such an organization:

President—L. A. Swigart. Secretary—H. E. Cauley. F. G. Tracy, M. Irabarne and Etcheverry members of the board. The lecturers left for Roswell the same night.

Miss Lu Hughes, county club leader for Eddy county, was called by telegram to Clovis, where she went yesterday to assist R. G. Foster, state club leader, and Mrs. Eunice Speed, club leader for Curry county, in organizing Boys' and Girls' clubs in that county. She left here for Artesia and Hope and after working there all day yesterday, took the train last night for Clovis. Miss Hughes expected to organize a pig club at Hope yesterday, which will make the third pig club in the county so far this year. Thirty pure bred pigs are now the property of members of three various clubs. The animals are mostly Durocs and Poland-Chinas. Miss Hughes says she will only have poultry and sewing clubs in Carlsbad in place of the varied industries of other years. Other parts of the county may have different clubs, but there will not be so many departments as in former years.

A letter from Ray Hill to a friend in this city tells of the serious illness of his father, William Hill, at their home in Berkeley, California. This is sad news for the many friends of the family who remember Mr. Hill's dangerous illness when living in Carlsbad last year.

Mrs. Archie Nelson received word this week of the death of a favorite nephew from pneumonia, at Alamogordo. The little boy, Clyde Watson, was twelve years old and the son of W. C. Watson, a brother of Mrs. Nelson.

Ralph Thayer was down from the Guadalupe on a business mission this week.

## COURT NEWS.

Allen Mason and William Sharpe, the hobo sheep thieves who were recently arrested by Deputy Batton, had their cases disposed of this week. Sharpe was released, evidence not being sufficient to hold him. But on investigation by Mr. Batton, it was discovered that Mason was wanted in Seminole, Texas, on a charge of stealing a horse and saddle. Sheriff Cobb of Gaines County and his deputy, John C. Hart, are in town and will take Mason back there for trial.

J. H. (Jack) Lindsay, who was under indictment for perjury, in connection with a cattle stealing case, and has been missing from the state for about a year, returned this week and gave himself up, pleading guilty. After a sound scoring by the judge, he was sentenced to five years in the penitentiary, the sentence being suspended on condition that he leave the state within thirty days and remain away in the future.

The case for the removal of Mrs. Annie Barber as administratrix of the estate of the late W. J. Barber, deceased, was heard in district court this week. After hearing, the administratrix was continued with certain restrictions.

## OIL LEASING BILL KILLS THE PLACER CLAIMS.

The oil land leasing bill, signed by President Wilson, invalidates all placer claims. This is the opinion of the leading attorneys of the country who have examined the new bill. It was the general impression that the Jones amendment protecting placer claims located according to law prior to October 1, 1919, was in the bill, but those who have made a close study of the new law say that the amendment is missing, and, in their opinion, all placer claims are now without value.

Because thousands of acres of the public domain in eastern New Mexico, and all over the state, for that matter, have been located under the old placer mining law at a great deal of expense and trouble, the new law will work a great hardship generally. The new law validates placer claims on which \$250 worth of work has already been done, yet this does not relieve the situation because there is no placer claim in eastern New Mexico on which this amount of work has been expended toward the discovery of oil or gas.

The new law provides that a citizen, or an association of citizens, or corporations, except railroads, may lease not to exceed four sections, or 2,560 acres. A notice must first be placed on the land and this notice will protect the locator for thirty days within which time an application for a permit to prospect for oil or gas must be made. Within ninety days from this time the boundaries of the land must be clearly defined and a well must be drilled to a depth of not less than 500 feet within six months from the date of permit, unless oil or gas is found in commercial quantities at a lesser depth. Permit protects the prospector for a period of two years during which time the well or wells must be drilled to a depth of 2,000 feet unless oil or gas is found at a lesser depth. Provided the prospector has discovered oil in paying quantities on his land he then will be given a lease and will have a right to bid for three additional sections.

Until the rules and regulations, promulgated by the Secretary of the Interior, in reference to this bill, are received, no more definite information will be available. Upon the construction placed on this bill by the Secretary of the Interior will depend many questions which may alter the situation one way or the other.

Because of the great interest here over the leasing bill and the placer laws the matter will be watched with great interest by many people. If the government land is taken up under the leasing bill, and the present indications are that it will be this means immediate and continued oil development for this section for the law says that a well must be started within six months from the date the permit to lease is granted and thereafter drilling must go on without delay.

John Stephens, former telegraph operator in Carlsbad, and afterward in Clovis, writes a friend here of his marriage to a lady in Los Angeles, last week. The lady's name is not given, but from what we know of Mr. Stephens, she is to be congratulated and a host of friends here extend good wishes to the happy couple.

## HEALTH LAWS.

Santa Fe, N. M., March 4.—Health legislation of the most progressive type was enacted by the special session of the New Mexico legislature when it passed Senate Bill No. 5, an act authorizing the employment of health employees and the levying of special taxes for health purposes. The bill passed the senate by a vote of 17 to five and went through the house with thirty-six votes for it and none against. Governor Larrazolo, who had asked for the passage of the bill in his message to the assembly, immediately added his signature, thus making the act effective at once.

The measure provides that whenever in the opinion of the commissioner of health, conditions require the employment of persons in addition to county and city health officers to carry out the health laws, rules and regulations, these may be employed by the governing boards of counties and incorporated municipalities.

To provide for running expenses of a health department, boards of county commissioners may levy not to exceed one-half mill on each dollar of assessed valuation of taxable property in the county exclusive of that within incorporated municipalities. The governing bodies of such incorporated municipalities may levy not to exceed one-half mill on the taxable property within their boundaries.

The act is regarded as particularly good legislation since two safeguards have been placed on the special levy. The initial move for a larger department must come from the commissioner of health and the final levy is subject to review by the state tax commission.

## MISSOURI VOTERS ENDORSE THE LEAGUE.

Republicans chose to make the special congressional election in the third Missouri district a test of popular opinion with respect to the League of Nations. Senator Hiram W. Johnson, of California, reminded his audiences that this election was to be made and considered a referendum on the league. This statement was repeated by all the other Republican orators, and, indeed, was a declaration of the Republican platform upon which the Republican candidate conducted the contest.

The answer of the voters was unmistakable. The Democratic candidate was elected by a majority of nearly 2000. This Democratic majority was greater than that obtained by the Democratic candidate in the regular congressional election fifteen months ago. It was at once a cordial endorsement of the league and a repudiation of Republican propaganda.

Mrs. C. C. Lewis entertained a party of teachers at her home in North Carlsbad last Saturday at a seven-o'clock dinner. A very pleasant social time was enjoyed and a delightful, four-course dinner. The guests of the happy affair were: Miss Lu B. Hughes, Miss White, Miss Harvey, Miss Trainer, Miss Harrison and Miss Stagner.

John Stephens, former telegraph operator in Carlsbad, and afterward in Clovis, writes a friend here of his marriage to a lady in Los Angeles, last week. The lady's name is not given, but from what we know of Mr. Stephens, she is to be congratulated and a host of friends here extend good wishes to the happy couple.

## NEW MEXICO TEACHERS FAR FROM OVERPAID.

Santa Fe, N. M., March 2.—A compilation made from the Educational Directory for 1919-20, published by the state department of education, reveals some interesting facts. There are in New Mexico 2,605 teachers, including superintendents and principals in rural and municipal districts for elementary and high schools. For these the average salary for the current year is \$339.89, as compared with an average of \$438.91 in the school year 1912-13. In the latter year, 442 teachers received less than \$200 annually; 605 received less than \$300, and only 389 received over \$500.

For the present year the average annual salaries range from \$282 in Rio Arriba county, to \$1,250 in Colfax county. Perhaps a fairer idea of the salary situation will be gained from the following: Four superintendents are paid \$2,000, or more; 10 receive from \$2,500 to \$5,000 each; 19 from \$2,000 to \$2,500; 13 from \$1,750 to \$2,000; 45 teachers and principals receive

from \$1,500 to \$1,750 each; 133 receive from \$1,250 to \$1,500; 304 from \$1,000 to \$1,250; 499 from \$900 to \$1,000; 410 from \$800 to \$900; 428 from \$700 to \$800; 350 from \$600 to \$700; 221 from \$500 to \$600; 125 from \$400 to \$500; 41 from \$350 to \$400; and three receive less than \$350. It will be seen, therefore, that about 20 per cent of the teachers, principals and superintendents receive \$1,000 or over; about 50 per cent receive \$700 to \$1,000, and approximately 30 per cent receive less than \$700.

## CHURCHES PLAN TO DO BIG THINGS

Four Departmental Heads for Evangelical Campaign; City Survey to Make a House to House Campaign.

In preparation for a campaign in New Mexico to put over four great religious objectives the closing day of the Inter-church World Movement's conference for pastors and women workers held the participants' minds and hearts with a sense of spiritual endeavor. The four objectives were: First, a great inter-church evangelical campaign to culminate at Easter with the largest number of souls won for Christ in the history of the state; second, a campaign for the enlightenment of Christian workers in God's service; next a stewardship campaign to obtain ten million Christian stewards of their gifts and personality to dedicate the rightful proportion to the extension of the King's business; and fourth, a campaign of missionary education.

At a dinner given at the Y. M. C. A. the fruition of the conference was seen in the acceptance by four members of the responsibility of heading up the four campaigns in New Mexico in cooperation with State Director Rev. H. R. Mills. Rev. Dr. T. L. Lallace of the M. E. church, South, at Las Cruces was designated to head the spiritual resources department; Rev. Alfred O. Kuhn of the Disciples of Christ at Albuquerque to head the enlightenment in life service; Rev. J. H. Heald of Albuquerque, superintendent of the Congregational churches of New Mexico, the department of missionary education; and Dr. E. J. Carson, pastor of the Presbyterian church at Raton, the department of Christian stewardship. It was announced that these four heads would meet with Directors Mills and after conferring with religious leaders of the various counties, select four men from each to head up the four departments in the county and to act as county conveners in each. It was explained that there would be held conferences in each county which would duplicate in a measure the state training conference which closed last night. These county meetings will be held during the middle of April.

After the appointment of the departmental state heads, Dr. J. C. Worley, missionary, to Japan, made some introductory remarks and introduced Dr. I. N. McCash, president of Phillips university at Enid, Okla. Miss Margaret Hodge, executive secretary of the Presbyterian women's mission board at New York; Dr. F. C. English of Cleveland, who spoke respectively on spiritual leadership and intercession, stewardship, and life work. Dr. Worley talked on missionary education. In connection with the last named subject a tender was made to the Inter-church Movement by the Y. M. C. A. of the Cloudercroft camping ground as the summer instruction and Bible training camp for the New Mexico designates.

Adjourning from the dinner, which was served by a committee of church women, the body went to the Lead Avenue Methodist church where the closing session was held. Dr. Ralph E. Diefendorf of New York gave a summing up of the work of the conference, telling of the financial campaign from April 24 to May 2 which will bring about the snafus of war for carrying on the proposed activities. Then followed the closing sermon by Rev. C. E. Kerr, D. D., Presbyterian pastor at Tulsa, Okla., which was the consecration message for the great work to be taken in hand. Dr. Kerr told in compelling eloquence of the benefits to be conferred on all churches by the attainment of the four great objectives and carried the delegates into the heights of enthusiasm as they left for their homes on the night train.

The morning and afternoon sessions of the conference were largely in preparation for the closing messages. Dr. F. C. English made two addresses, one on homes and hospitals and the other on ministerial relief. Rev. Bruce Baxter of New York spoke on Christian education and the industrial situation. Dr. I. N. McCash on American education and the necessity of denominational colleges, and Dr. R. E. Dunlap gave the statistical mirror telling why the financial drive was to be held and what the funds raised would be used for. Dr. English in his talk outlined plans for fifty-nine institutions, to cost \$25,000,000, proposed by the homes and hospital division of the Inter-church Movement. These are 12 general hospitals for whites in Alabama, Kentucky, Maine, New Hampshire, North Carolina, New Mexico, Nevada, Oklahoma, Oregon, Rhode Island, Utah, West Virginia. Estimated cost, \$4,900,000. Tubercular sanitarium in Arizona, \$1,000,000; four hospitals for incurables in Massachusetts, Missouri, Ohio and Virginia, estimated cost \$8,000,000; seven homes for the aged, one of which should be for negroes; three children's orthopedic hospitals in New York, Minneapolis, and Dallas, estimated cost \$1,000,000 each; eleven training schools for nurses and hospital executives in Washington, D. C., Georgia, Illinois, Massachusetts, Minnesota, Missouri, New York, Ohio, Tennessee, Washington and Tennessee (for negroes); seven homes for aged, retired ministers and missionaries in Colorado, Delaware, Georgia (for negroes), Iowa, Kentucky, North Carolina and Washington; four homes for missionaries on furlough

WILL BALE HAY FASTER THAN ANY OTHER PRESS

We give you the following testimonial which speaks for itself:

January 29, 1920.

We, the undersigned, have today witnessed the demonstration of your sample Money Maker Hay Press on Mr. A. W. Wilde's Ranch, south of Artesia, New Mexico.

We believe it to be the fastest baling press ever demonstrated in the Valley. The class of work done is equal to, or better than anything we have seen.

We take pleasure in recommending the Money Maker Hay Baler to the farmers of this section, basing our opinion on this demonstration.

### Wool Growers To Discuss Practical Questions in Roswell.

Roswell, N. M., March 3.—The program of the annual convention of the New Mexico Wool Growers association which will be held here March 8 and 9 is one of unusual balance. Good speakers have been obtained for every session and the subjects to be discussed have been confined to topics of practical value to the wool growers. Governor Larrazolo and F. J. Hagenbarth, president of the Nation Wool Growers association, are on the program for the first day, while Senator Fall and Congressman Hernandez are scheduled for addresses on the second day. In addition to these are several well known New Mexicans who will have messages of much importance. The department of agriculture will also be represented by men able to give the wool growers much practical information.

Details for the comfort and enjoyment of the visit or have been been completed and every minute has been provided for.

### Heavy Attendance Indicated.

Roswell, N. M., Mar. 3.—Advance reservations for the New Mexico Cattle and Horse Growers Association to be held here March 29, 30 and 31 indicate an unusually heavy attendance. While details of the program have not yet been announced, there is assurance that it will be one of the best in the history of the New Mexico association. Eastern New Mexico will come to the convention strong, it is believed, since this is the first convention of the association held on this side of the state.

The association means much to every stockman in the state. Constantly on the alert for the interests of the stockmen of the state, the association has been able to accomplish much real good, as well as bring the stockmen of the state closer together. The convention this year will be a big affair, and the stockmen throughout the state are planning to attend.

### DEMOCRATS IN NEW MEXICO BACKING HOOVER BOOM.

Santa Fe, Feb. 21.—Democrats of the senate and house of the New Mexico legislature today sent a telegram to Herbert Hoover, expressing the hope that he may be the choice of the democratic party for president. The message follows:

"Democratic members of the senate and house of New Mexico legislature in party council assembled extend to you their greetings. We join in the hope of millions of patriotic citizens that you may be the choice of the democratic party to lead the nation and civilization in rebuilding the world."

The message was signed by R. H. Bryant, Portales; H. L. Kerr, Carlsbad; B. Lea, Roswell; A. V. Lucero, Raton; J. W. Turner, White Water; J. R. Hull, Clovis; Ralph A. Lynd, Deming; H. O. ### A HOUSEWARMING

At the new home of Ray V. Davis, in the Otis community, a housewarming party was given on Wednesday night. Some idea of the popularity of Mr. and Mrs. Davis will be gained when an attendance of forty-five persons is noted. Cake, pickles, coffee, etc., were served in abundance to all and all spent a pleasant evening, leaving behind them many good wishes for a long life and happiness to Mr. and Mrs. Davis and children in their new home.

Mrs. Ollie Thayer left for the ranch in the ranch truck last Sunday, expecting to be gone a week.

W. J. Gushwa was in town from Dayton, his home, Tuesday, spending the day on business while here and returning the same evening.

Mr. and Mrs. Audrey Cauley spent part of the week in town. Mrs. Cauley recently returned from a visit to the home of Mr. Cauley's people in Texas.

Capt. N. F. Mackela, of Los Angeles, of the National Air Plane Assn., was in Willard last week and closed a deal for the field and the planes will begin to land by June 1st. The field will be just south of the Santa Fe depot, the land being donated by Frank Torres. It will be marked according to government requirements, and a hangar built. By June 1st every thing will be ready for passengers, mail and express. Passenger fare to San Francisco will be \$65 and the trip will be made in 7 hours. —Willard Record.

P. J. McShane writes the Current from his home in Oklahoma City, Oklahoma, that he expects to return to this country as soon as his son, Arthur, has sufficiently recovered. Arthur has gained weight in the service and has never gotten entirely well, although improving. Mr. McShane says he has secured the desired location near Loving and hopes to bring his three sons here with him. He is an old timer well remembered in Carlsbad and his friends in the Valley await the promised visit with pleasureable anticipations.

Mr. and Mrs. Claude Farris and Mr. and Mrs. Archie Nelson and Miss Elsie Louise Parks spent Sunday on Rocky Arroya and had an unusually pleasant time in that delightful spot.

G. R. Brainard, of Artesia, was in town Monday and visited the Current office while here, leaving his announcement as candidate for county commissioner for district number three.

### LESSON FOR MARCH 7

JOHN WRITES ABOUT CHRISTIAN LOVE.

LESSON TEXT—I John 4:7-21.  
GOLDEN TEXT—Beloved, if God so loved us, we ought also to love one another.—I John 4:11.

ADDITIONAL MATERIAL—I John, II John, III John.

PRIMARY TOPIC—Loving One Another.

JUNIOR TOPIC—Loving God and Our Neighbors.

INTERMEDIATE AND SENIOR TOPIC—How to Show Love for God and His People.

YOUNG PEOPLE AND ADULT TOPIC—Christian Love Upon Society.

I. The Origin of Love (vv. 7, 8).

Love is of God, for God is love. God not merely loves, but he is the fountainhead of love. Love of country, love of humanity, filial and parental love, every particle of love everywhere has been derived from God; his love is infinite, eternal and unchangeable. Since love is of God, everyone who loves is born of God and knoweth God. The Christian, by his life of love, interprets God to the world. It is not enough that the world should be told that God is good and kind, it should see his nature expressed in the life and love of the disciple. The Christian's life is the world's Bible. Where love is wanting, knowledge of God is wanting.

II. God's Manifestation of Love (vv. 9, 10).

God's method of making known his love is through the incarnation—the sending of his only begotten Son into the world to be the propitiation for our sins (John 3:16). The coming of Jesus Christ into the world and his taking on human nature makes possible life for those who receive him. If we would know God's love, let us look at Jesus Christ. Those who gaze upon him in reverent contemplation cannot doubt God's love.

III. The Supreme Motive of Love (v. 11).

God's love is the grand incentive prompting his children to love.

IV. Love the Proof That God Dwells With Us (vv. 12-18).

1. No man hath seen God at any time (v. 12), but there is abundant proof of his being. The one unmistakable proof of his being is love in the heart of man. Love is not native to the human heart, for the heart is deceitful above all things and desperately wicked (Jer. 17:9). Out of the heart proceeds murder (Matt. 15:19). Love in the heart is proof that God dwells within.

2. Love proves that God's Spirit is within us (vv. 13-16). The fruit of the Spirit is love (Gal. 5:22). God's Spirit dwells within his children. The indwelling Spirit shows us Christ and makes us believe in him as God's Son, the Savior of the world. Those in whom God dwells will always make this confession. Those who deny the Deity of Christ have no fellowship with God, and those who have fellowship with God will confess Christ as his Divine Son.

V. Love's Relation to the Judgment (vv. 17, 18).

It casts out fear. A judgment day is coming, for God hath appointed a day in which he will judge the world in righteousness by that man whom he hath ordained (Acts 17:31). It will be a terrible thing for those unprepared to meet God at that time, but for those who are indwelt by the living God there will be a joyful meeting. He that dwelleth in God and God in him will realize the perfection of love in boldness in the day of judgment, because as he is so are we in this world (vv. 16, 17). The way to get rid of the fear of meeting God in the judgment is to be living with God now.

VI. God's Love the Ground of All Love (v. 19).

The reason we love is that our lives have come into touch with the great fountainhead of love. The incoming of God's being and nature becomes the animating and controlling principle of our lives. The one in whom love is not the master principle does not know God.

VII. The Child of God Possesses Dual Love (v. 20).

The proof that one loves the unseen God is that he loves the person visible who bears the likeness and image of God, and has become a member of the same family through the redemption in Christ Jesus. Love to God and man is united in the one breath of the Christian. The one who hates his brother while pretending to love God is a liar.

VIII. The Solemn Command From God (v. 21).

God commands that those who love him should love their brethren. Obedience to this command will eliminate all war and contentions.

Life.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindness, the small obligations given habitually, are what preserve the heart and secure comfort.—Sir H. Davy.

Our Great Blessing.

There is nothing that makes more for human happiness than the simple fact that some one needs us, that some task is holding us fast. We may ignorantly think of it as a burden, but it is our great blessing.

### CHURCH NIGHT WITH THE BOY SCOUTS.

In accordance with their usual annual custom, the two troops of Boy Scouts met at the Presbyterian church last Sunday night, where the entire service was given in their interest, about sixty Scouts were present and occupied seats reserved for them on the north side of the audience room.

The services were in charge of Scout Masters H. W. Lowry and Bert Rawlins and were extremely interesting not only to the Scouts but to interested friends who were present. Scripture reading, responsively, followed by prayer, opened the exercises. Songs were sung, by the Scouts, the congregation joining, and it was inspiring to hear sixty young voices singing the old familiar hymns, as only boys can sing. Miss Harrison, the Boy Scouts' friend, who has always been ready and willing to share her musical talent with them on similar occasions, sang a beautiful solo: "Remember Now Thy Creator in the Days of Thy Youth."

An impressive scene occurred when the Scouts, standing at salute, led by Scoutmaster Rawlins, repeated the oath in unison:

"On my honor I will do my best to do my duty toward God and my country and to obey the Scout law, to help other people at all times, to keep myself physically strong, mentally awake and morally straight."

The requirements for a Scout are that he does one good turn daily; he is required also and expected to be trustworthy, loyal, helpful, cheerful, friendly, kind, obedient, thrifty, brave, clean and reverent. These characteristics were dwelt on in the address by Reverend Mr. Waltz, the principal speaker of the evening.

Dr. Lowry gave a history of the organization of the Boy Scout movement in Carlsbad, which was enjoyed by all. The first meeting for that purpose was held in the Manse five years ago in February. At that time seven boys applied for membership and a movement was started toward the organization of Troop One. The movement became very popular among Carlsbad boys and now we have two full troops and steps are to be taken to organize the third as soon as a Scoutmaster can be secured. In his remarks, Reverend Lowry called attention to the fact that during the recent war every one of the Scouts who were old enough volunteered his services. There are about ten graduate Scouts and in all one hundred and five boys have belonged since its organization. The Scout flag, with its fifteen stars, two of them gold ones, in honor of Sam Roberts and George Hemenway, deceased, was then taken down, given into the keeping of two first class Scouts, who will assume its care.

The church flag was demobilized also and given to Messrs. Thorne and Jackson, who will see that it is carefully preserved.

The entire meeting was interesting and helpful and it is a matter of regret that more of the parents did not have sufficient interest in the movement to be present. The offering received will be devoted to Armenian relief.

Paul Mahan, a clerk in the grocery department of Joyce-Fruit company, spent Sunday with relatives in Roswell.

### S. W. PETROLEUM COMPANY TO DRILL DEEP TEST WELL NEAR ARTESIA.

The Southwestern Petroleum company of Artesia, N. M., closed a contract last week for the drilling of a deep test well on the north-west quarter of section 15, township 15, range 15, 10 miles north and four miles east of Artesia. The tract involved in the contract covers 5,000 acres leased by the Southwestern Petroleum company and 10,000 acres of scattered tracts leased by the National Exploration company. These two leasing companies let the contract jointly. Work of hauling the machinery to the ground began last week, and the same is ready for installation. The contract calls for a well 4000 feet, if necessary. The well will be known as National Exploration well No. 3. Leonard Ball of New York is the driller on the ground. The officers of the company are George Frish, F. C. Knowles and Dr. J. J. Clark of Artesia, N. M. and M. W. Evans of Lake Arthur, N. M.—El Paso Times.

## THE PROFIT OF GOOD ROADS.

Hard roads so greatly facilitate the movement of commodities, that the country can afford to spend a very large sum to improve its highway facilities.

Here is a typical case told in a magazine article: A farmer in Sullivan county, Tennessee, had occasion to haul barbed wire a distance of 23 miles to his farm. Before a hard road was built, all he could haul for that distance over a very bad road, was 500 pounds, in wagon drawn by two horses. It took him fifteen days for the round trip. So hauling a ton of that wire called for the time of a man and team 12 days, and at \$3.00 a day for man and team, the price prevailing in that locality at that time, it cost him \$36.00 to haul a ton of the wire.

After the hard road was put through, it was an easy matter to haul a ton load on his team, and the round trip could be made in two days. So that reduced the cost of hauling from \$36.00 to \$6.00 per ton. To-day of course the difference by horse power would be far greater, since the time of man and team is worth so much more than \$3.00 now.

Or here is another case from Crosby, Texas, where a hard road was built for a mile out of the town. A farmer living four miles out came in with two mules, and loaded on two tons of wire. At the end of the hard road he had to throw off 3000 of the 4000 pounds of wire. Then he had to hitch on two more mules, to haul 1000 pounds over a bad road for the three remaining miles. So it took him four separate trips, with the increased mule power, to haul what the single pair hauled in one trip. It took from 19 a. m. one day to 11 a. m. the next to finish the job. If he had had a good road to his home, he could have brought the two tons home in two hours.

People who have had such experiences do not growl about their road taxes.

## WILL THE FARMER STRIKE?

Half of the farmers who replied to a recent questionnaire of the post office department, contemplate either leaving their farms or reducing production. They rightly complain of the high prices they have to pay for everything, of their long hours as compared with the short day and high wages of factory mechanics.

Some people think the farmers are going to leave and ruin food production. Never yet, though, have the farmers acted as a unit on anything. Multitudes of them will continue as in the past, to limit their production by failure to adopt co-operative measures, but not many will go in for radical mass action. Of course as prices of food products fall, there will be some curtailment, as there always has been in the past. But it will not be after the strike plan, of forcing concessions from the rest of the people.

The farmers have real grievances and the country must remedy them.

Meanwhile the farmers' boys who give up their chance to become independent farm owners, sell their birthright for a mess of pottage. The man who quits a ten-hour job on the soil, for eight-hour work in an unventilated factory, makes no physical gain. While the farmer may work much more than ten hours in summer, yet there are three or four easier months of the winter period that help balance up his hours somewhat.

The farm laborer who quits for city life also makes a foolish choice. In these days of farm loans, any ambitious and industrious man can become an independent farm owner. As for the abuse of middlemen's profits, the farmers can largely break them by co-operative marketing. There are many signs among the farmers of New Mexico that they will have gone far to remove this tax in the next five years.

Republican Congressmen are having a good time at the taxpayers' expense by junketing about the country in quest of democratic "mistakes". It is a pleasant but not a very profitable activity. In making an effort the democratic administration doubtless made mistakes. If avoidance of error could be insured by evasion of duty, the present republican policy would be a marvel of success.

## ANNOUNCEMENT.

Having been solicited by a number of the business men of Carlsbad, and the stockmen of the county, I hereby announce my candidacy for the office of Commissioner of District No. 1, Eddy county, subject to the action of the Democratic Primaries, when held.

I have been a resident of Eddy County for twenty-two years, and served the county as Commissioner of District No. 1, for two terms. I thank my friends in advance for their support and if elected, shall endeavor to serve the county in a conscientious and acceptable manner. J. H. JAMES.

## The Economical Use of Irrigation Water.

What is the right way to irrigate? Every farmer should be interested in the most economical method of using water, both on account of the direct expense of the water itself and because of the betterment of the water-logged condition of the land.

One of the largest factors in the consideration of this problem is the nature of the soil. Heavy soils such as adobe and clay loams are more impervious to the absorption of water and retain a larger percentage of the water that is absorbed, while the lighter and more porous soils absorb water more readily and retain less of it, allowing a greater amount to percolate through to the underground water than in

the case of the heavier soils.

When irrigating flats with the same slope and using the same head of water, it is noticeable that it takes more time to irrigate a porous soil than one of the more impervious varieties, due to the fact that the water is absorbed so rapidly that the flow across the flat is greatly retarded. Oftentimes a soil of this type will be entirely saturated near the upper end of the flat, while the lower part has been barely moistened.

It is better practice, therefore, to make the flats or borders shorter for such soils and to use a large stream of water so that the entire area of the flat may be flooded in as short a time as possible, thus attaining a two-fold object; a greater percentage of the water applied is retained in the soil for

the benefit of the growing crop and less water percolates through the soil to add to the great body of underground water. It is the rise of this water table that is responsible for the need of drainage in our irrigated valleys and any precautions taken to decrease the amount of the rise are of direct benefit in controlling the situation.

For our better knowledge of the effect of various heads of water on long and short flats, we are now carrying on an experiment dealing with these factors. It is believed that the results obtained will be of great benefit in determining the economical relationship between them.

## A State Federation of Farm Bureaus.

At a meeting of the delegates of the several county Farm Bureaus of the state, held in connection with the County Agent conference and the Short Courses at the State College, during the week of January 12th to 17th, a state federation of the county farm bureaus was formed. Delegates representing fifteen county farm bureaus were present at the meeting. A program of work based on the several counties programs was adopted, a constitution and by-laws were adopted. The constitution is based principally on the constitution of the several county Farm Bureaus. Officers for the coming year were selected, as follows:

Mr. Ried, President, Chaves Co.  
Mrs. Fisher, Vice-president, San Juan Co.

Mr. Callahan, Sec'y-Treas., Quay Co.  
Let us get in behind the Eddy County Farm Bureau so that it in turn can support the state Farm Bureau, and the state Farm Bureau can in turn support the national farm bureau. See where we can get to in that manner of climbing.

THE change in Peter's expression was wonderful to see. "You did wire me?" he exclaimed. "I'm so glad!"

Why, he did not say—nor did she ask. "I'm sorry about your father," she murmured. "Terribly sorry. I—I think that I misjudged him."

A shadow of pain overcast Peter's face. "Please—" he began. But she hurried on: "I—I think that judging people is my worst fault—or one of them. I—I wanted you to know that."

Why, she did not say—nor did he ask. "I misjudged you, too," Peter reminded her, "about that telegram." He held out his hand. "Let's be friends. And you'll stay here—"

"Oh, I want to!" she cried.

"DON'T you ever expect to fall in love?" Wanda didn't answer at once. April was flinging her first banners over the woods where the two were rambling, slim anemones saluting the winds, bells of columbine delicately awing, May-apples, peeping demurely from under parasols of green—the fragile, evanescent first flowers of spring. The girl, after a long silence, stooped petulantly and plucked a blossom.

"Don't let's talk about love. I want to be happy as long as I can."

"But that's what makes you happy—love."

"No. Love makes demands, brings responsibilities and cares and sorrows. It makes you old. I don't want to be old."

ABRUPTLY, he heard high sounds—a man's voice screaming words in such a frantic way that Bodet could hardly distinguish them. The sounds came from the third-floor front. Bodet sprang up, opening his door and stepping into the hall. The screams continued. Then came a woman's voice, imploring: "Oh, don't! Please don't!" A chair or other piece of furniture was overturned.

He ran down the hall, flung the door open, and rushed into the room. As the sound had told him, a man and woman were struggling there—

ASLIGHT mistiness which Donald, with a swelling heart, had noted in his father's eyes a few moments before was now gone. They flashed like naked claymores in the glance that Andrew Dancy once had so aptly described to his wife.

For the space of ten seconds, father and son looked into each other's souls and therein each read the other's answer. There could be no surrender.

"You have bred a man, sir, not a molly-coddle," said the young laird quietly. "I think we understand each other."

### CARLSBAD AND ALBUQUERQUE ASSIGNMENT MADE FOR FIRST N. M. CAVALRY.

Carlsbad will have B troop of the state's first cavalry squadron and Albuquerque will have the machine gun troop, Adjutant General James Baca announced today. These are the only assignments made so far, although several other places are organizing troops. Those still unassigned are A, C, and D troops.

The adjutant general, who was in Carlsbad, said that fast progress was being made toward the organization of B troop under Captain Fred M. West. He was asked to give B troop to Carlsbad because of the record made by B company, First Infantry, the Carlsbad company, in the war.

He announced that a meeting would be held in Albuquerque one night soon for the organization of the machine gun troop.—New Mexican.

Mr. and Mrs. E. S. Sprong returned Friday night from a visit to California and after remaining here a day or two left for the home of their daughter, Mrs. Tom Reeves, near Upton, New Mexico. After a month's visit there, Mr. and Mrs. Sprong plan to return and again open the Missouri hotel, where they have lived for so many years.

The Current is pleased to learn through a letter received from Mrs. L. E. Ervin, of the continued improvement in Dr. Ervin's condition, and of their intention to return home as soon as possible. Mrs. Ervin writes that it is still quite cold in the Chicago suburb and there has been quite a lot of snowfall there recently. Quite a contrast to Pecos valley weather.

Fred Weaver and family left Loving yesterday on their long contemplated trip to Phoenix, Arizona, where they expect to make their home. They will spend a few days in El Paso where Mrs. Weaver's mother and sister are living, en route. We wish for them better health and continued prosperity in their new home.

J. L. Chambers left Saturday for El Paso and after a short stay there will go on to Paso del Robles, Southern California. Mr. Chambers suffers a great deal from sciatic rheumatism and hopes to receive benefit from the waters of a spring in Southern California, famous for its benefits in rheumatic trouble.

### OFFICIAL CALL OF THE REGULAR BIENNIAL CITY ELECTION IN AND FOR THE CITY OF CARLSBAD, NEW MEXICO, AND NOTICE OF THE APPOINTMENT OF BOARDS OF REGISTRATION, JUDGES AND CLERKS.

The Regular Biennial Election, for the purpose of electing a Mayor, a City Clerk and a City Treasurer of the City of Carlsbad, New Mexico to serve for a term of two years, and for the further purpose of electing one Alderman of Ward Three to serve for a term of two years (the term being the remainder of the unexpired term caused by the resignation of L. E. Hayes), and for the further purpose as hereinafter set out, is hereby called and will be held on the first Tuesday in April, being the 6th day of April A. D. 1920, as required by law.

Notice is hereby given that the following persons have been appointed by the City Council of the City of Carlsbad, New Mexico, to act as Boards of Registration, and the hereinafter named places be and are hereby designated as the places of registration in the respective wards:

**FIRST WARD**—Board of Registration: J. J. Beals, J. T. Woodard, Frank Moritz. Place of Registration: City Hall.

**SECOND WARD**—Board of Registration: E. Hendricks, L. S. Myers, Bert Rawlins. Place of Registration: Grammar School.

**THIRD WARD**—Board of Registration: J. E. Lavery, J. E. Wallace, J. B. Morris. Place of Registration: R. M. Thorne's store.

**FOURTH WARD**—Board of Registration: W. R. Owen, E. H. Hemenway, Sam Lusk. Place of Registration: High School.

The registration books shall be opened for registration of voters,

beginning at 9 o'clock A. M. on the 16th day of March, 1920, at the places hereinbefore designated, and will be closed at 6 o'clock P. M. on the 26th day of March, 1920, but a certified list of the registered voters will be posted for a period of six (6) days thereafter outside the door of the places of registration hereinbefore designated and in the Post office of the City of Carlsbad, New Mexico, during which time any person noticing that his name is not registered may apply to have the same added thereto and placed upon said books within six (6) days after the posting of said registration list, or the name of any person who within said six (6) days may be discovered not to be a legal voter may be stricken from the list by any member of the board of registration.

Notice is further given that the following persons have been appointed by the City Council of the City of Carlsbad, New Mexico, as Judges and Clerks, to conduct the regular Biennial Election, and the hereinafter named places be and are hereby designated as the voting places where said election shall be held, as required by law:

**FIRST WARD**—Voting Place: City Hall. Judges: Geo. Price, C. H. Dismann, R. Ohnemus. Clerks: A. L. Allinger, F. W. Pratt.

**SECOND WARD**—Voting Place: Grammar School. Judges: J. R. Linn, John Lowenbruck, F. L. Dearborne. Clerks: D. F. Sellards, M. K. Clark.

**THIRD WARD**—Voting Place: Court House. Judges: J. H. Geo, L. Anderson, D. W. Duncan. Clerks: Lee Hanson, H. E. James.

**FOURTH WARD**—Voting Place: High School. Judges: J. S. Oliver, Bob Hamblen, E. A. Roberts. Clerks: H. Hutchison, J. W. Lewis.

Notice is further given that there will be submitted to the qualified electors of the City of

Carlsbad, at the same time and at same voting places at which the Regular Biennial City Election is held, a proposition of issuing the negotiable coupon bonds of said City in the aggregate amount of Forty Thousand Dollars (\$40,000.00) for the purpose of providing funds for the construction and furnishing of a Municipal Building in accordance with plans heretofore adopted by the City Council of the City of Carlsbad and pursuant to Section 3553 Subsection 6th of the Compiled Statutes of the State of New Mexico 1915. Said bonds to optional in ten (10) years and due in twenty (20) years after their date and bear interest at the rate of not to exceed six percent (6 per cent) per annum, payable semi-annually. The ballots to be used in voting upon said proposition shall be substantially the following forms:

☐ FOR the issuance of the negotiable coupon bonds of the City of Carlsbad, New Mexico in the aggregate amount \$40,000.00 for the purpose of constructing and furnishing a City Municipal Building.

☐ AGAINST the issuance of the negotiable coupon bonds of the City of Carlsbad, New Mexico in the aggregate amount of \$40,000.00 for the purpose of constructing and furnishing a City Municipal Building.

No person shall be entitled to vote upon said proposition unless he be in all respects a qualified elector of the City of Carlsbad and shall in the next preceding year have paid a property tax therein. The ballot used for submitting said proposition shall be deposited in a different box than that used for depositing the ballots for the election of officers of the City of Carlsbad. Said election will be held and conducted and the results thereof canvassed by the same officials and at the same time and place as the regular biennial election held for the purpose of electing city officials.

Done by order of the City Council of the City of Carlsbad, New Mexico, the 1st day of March, A. D. 1920.

D. G. GRANTHAM, Mayor.  
D. F. SELLARDS, City Clerk.

O. J. Ward left Saturday for Los Angeles after rather a brief stay in this city.

W. E. Nelson, of Amarillo, is the new bookkeeper at the Public Utilities office, beginning work there the first of the month.

Dolph Shattuck was in town this week from El Paso Gap, his home, on a matter of business.

Jeff De Moss was in town this week from his place west, stopping at the Springs hotel.

"Punk" Ward recently purchased Jim Eicheverry's ranch, situated in the hills west of town, near the Bill Ward ranch.

Mrs. Collin Gerrells is on the sick list this week at the home of her mother, Mrs. Olive Thayer.

Bert C. Gerrells has taken a position with the Public Utilities force and is hard at work.

Mrs. Maggie Reed left this morning for a short visit with her daughter, Mrs. Harlan Thomas, of Artesia, and after a short stay there, will go on to Nocona, Texas, to visit a sister who has been ill for some time.

Mrs. W. E. Broom and little daughter, Elizabeth Mary, arrived last night from Phoenix, Arizona, and will visit a while at the Methodist parsonage.

H. E. James was a business visitor to Loving yesterday, going down to estimate on some painting jobs on new buildings in that village.

Lee Donald went up to Roswell Tuesday and remained there a few days on business.

Rev. F. W. Pratt transacted business in Roswell last Wednesday and spent Thursday in Artesia, returning last night.

Tom Blackmore and wife, former Carlsbad residents, now living in Clovis, are here on a combined business and pleasure trip, and are always warmly received by old-time friends.

Mr. and Mrs. M. Lewis and little son spent a few days in town this week from the 9K ranch, where they are living. Everything is doing fine at the big ranch in Culberson county.

Hon. Carl Livingston was brought in from the Livingston ranch yesterday suffering from ptomaine poisoning and is quite ill at his home on North Canyon street.

Mrs. R. C. Dow and baby daughter were taken to their home west of town Monday of this week from the Frederick private hospital, where Mrs. Dow had been a patient for several weeks.

We are glad to note the fact that J. R. Linn has secured a date for the appearance of the "Miracle Man," at Crawford Theatre. The picture will be given the 17th and 18th of this month and will no doubt draw large crowds. It is one of the most talked-about pictures on the screen today, many persons pronouncing it "the greatest picture ever filmed."

Cecil Bearup made a hurried trip to the Area ranch after dark Wednesday bringing his brother-in-law, Paul Area, with him, because of the sudden illness of Mrs. Area.

### A BIRTHDAY CELEBRATION.

Wesley class, of the Methodist Sunday school taught by Madam Thorne observed the seventieth anniversary of that lady's birth Tuesday afternoon at the parlors in the rear of the church. The celebration had been planned for the 14th of February, that being Mrs. Thorne's anniversary, but owing to the flu and other hindering causes, it was thought best to postpone it until Tuesday.

A short program was given consisting of an address by the pastor, followed by an original poem, written by him for the occasion. This in turn was followed by a contest entitled "A Floral Love Tale". This part of the afternoon's entertainment was in charge of Madam Dibble-Clark, and proved very diverting.

An elaborate luncheon in two courses was served, at which the honor guest and eleven other ladies, each above fifty years of age, occupied one table, adorned with Mrs. Little's beautiful linen, as a special mark of honor. The menu of chicken salad, wafers, pickles, potato chips, sandwiches, fruit salad, cake and coffee, was all that could be desired, and proved a fitting finale to the pleasures of the afternoon.

Present were Mesdames Thorne, Hays, Stanford, Fishman, Clark, Singleton, Stephenson, A. Moore, W. B. Wilson, Sarah Crawford, M. N. Cunningham, Fred Zimmerman, Ellsworth, Givan, Hiseck, Bates, Little, Johnston, Allinger, Mudgett; Misses English and Ethelyn Ellsworth.

### Seventy Years Old.

By Rev. Geo. H. Givan.  
The happiest creature ever born,  
The truest being is Madame Thorne.  
She never shows one sign of sadness,  
But hides it all behind her gladness.  
She loves her friends, she has no foes,  
And she is loved wherever she goes.

Three score and ten? Yes, yes I ween,  
But in her spirit sweet sixteen.  
We want her with us all the while,  
For everybody loves her smile.  
It makes a saddened heart rejoice,  
When it hears her pleasant voice.  
The house of God has been her joy,  
And in His worship doth she cloy.  
The Holy Book has been her guide,  
The Holy Spirit by her side.  
And in the hush of dying day,  
The angels wait to hear her pray.  
Her pocket-book she's opened wide,  
To help the needy at her side.  
When broken hearts were sad and drear,  
She brought the sunshine and the cheer.

With this dear one who's stood the test,  
With such a friend we're doubly blest.  
And as we mark this natal day,  
Yet, for one more we humbly pray.  
When we can celebrate no more,  
We'll meet her on that golden shore.

### A WORTHY CAUSE.

The county chairman of the Near East Relief committee has the following letter from Henry Morgenthau:

Mrs. Clarence Bell,  
Carlsbad, New Mexico.  
Dear Mrs. Bell:—

I have been informed by Mr. Cleveland H. Dodge, Treasurer of Near East Relief, that you have accepted the position of chairman in your county. I wish to take this opportunity of assuring you that the cause which you are thus representing in your community is one of the most worthy with which you could possibly be identified.

You are no doubt fully informed as to the desperate conditions that obtain in Western Asia. I merely want to congratulate you on the opportunity which you have of serving humanity and civilization. Every dollar which the generous people of your county can give to this work is sorely needed, in order that actual starvation may be prevented. My deep personal interest in the quick betterment of helpless children and needy women prompts me to urge upon you and your committee, and through you upon your county itself, the very grave importance of doing all that is possible to care for its share of this burden.

Sincerely yours,  
HENRY MORGENTHAU.

The meeting of the Bryan Mudgett Post of the American Legion held Tuesday night, was well attended, although only routine business was transacted at that time. During the visit of Adjutant General Baca last week a recommendation was made by him that the Armory be turned over to the cavalry officers and this will likely be acted upon at once by the Armory board. The Legion at its meeting appointed a committee consisting of Briscoe, Rarey and West to proceed as soon as possible to the work of putting the Armory basement in order to be used as club rooms of the Legion.

## They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

### FEDERAL PROHIBITION OFFICER FOR STATE OF NEW MEXICO TO BE HERE.

Albuquerque, N. M., Feb. 28, '20  
Rev. G. H. Givan,  
Carlsbad, New Mexico  
Dear Sir:

Mr. Antonio Lucero, the Federal Prohibition Enforcement officer and myself will reach Carlsbad, Sunday the 7th of March, on the afternoon train. Can you arrange for a meeting for us at 4 o'clock, so that we can take the train back to Artesia the same night? This meeting will be for the purpose of organizing information committees and talking law enforcement. We will not ask for any money and you may assure your people of this fact. Try to give us a good audience. Wire me collect what arrangements you make.

Very truly yours,  
A. B. STROUP.

Arrangements for the above meeting have been completed and the same will be held in the Baptist church next Sunday, March 7th, at 4 P. M. An urgent invitation is extended to all interested to be present.

### CAN WOMEN VOTE FOR ALL OFFICES?

Will the ratification of the Susan B. Anthony amendment permit women in New Mexico to vote for state offices as well as president and congressmen?

This question is the subject of discussion on the quantity basis among lawyers. None are willing to state it won't; they only wonder. Others believe it will.

Those who hold ratification will enable the women to vote for state officials base their opinion on the belief that ratification by 36 states will amend the state's constitution which says that only male citizens are legal voters. They believe it will give congress the power to pass an act saying that sex will be no bar against voting at state, county and city elections as well as national.

The comment of Chief Justice White in New Jersey's attempt to show that national prohibition could not be enforced because of the legislature of that state had not voted for ratification is quoted. He was credited with the assertion that he believed the Civil war settled the question. Their position was that the states held certain inalienable rights but that when three-fourths of the states surrendered any right their decision applied to all no matter what their constitutions said.

Uncle Green Ussery and Arthur Mays left yesterday for the hot wells of Texas, going from here to Van Horn and from there to the wells. These are located eighteen miles southwest of Van Horn, on the Southern Pacific railroad and the waters are noted for their beneficial effect in cases of rheumatism from which both gentlemen are suffering. They will make the trip via automobile and be gone two weeks or more.

Charles J. Manner and family, of Joplin, Missouri, are newcomers in Carlsbad, getting here Sunday night. They have four children and are looking for a farm to cultivate the coming season.

### PLANS ALL READY FOR CATTLE AND HORSE GROWERS ASSOCIATION.

Roswell, N. M., Mar. 2.—Plans for the annual convention of the New Mexico Cattle and Horse Growers association are nearing completion as far as Roswell is concerned. No detail of the visitor's comfort will be overlooked, and arrangements are being made to care for the largest crowd the convention has ever attracted.

This is the first time the association has held its meeting in eastern New Mexico. Especial attention is being given on the eastern part of the state in an effort to arouse as much interest as possible among the cattlemen in this convention. The association needs the stockmen of the eastern side of the state and the stockmen need the association. Because the convention is to be held in Roswell this is regarded as an ideal time for the stockmen of other parts of the state and those who have not taken an active part in the association to get together for their mutual advantage. The dates of the convention are March 29, 30 and 31.

### Strange February Just Passed

In two respects the February just passed was different from any since 1880, and no one will be like it until 1948. For February, 1920 had five Sundays and a Friday the 13th. It was the shortest month in the year—only 29 days—but it was longer than February usually is. Five Sundays have come in February only five times in the United States in the past. The only time Friday falls on the 13th of February is when it has five Sundays.

Muri Nornhauser returned home Saturday from Kansas City where he had been on a business trip. Mr. Nornhauser says he experienced some bitter cold while away as well as much snow and is glad to get back to the land of sunshine.

### NOTICE OF FORECLOSURE SALE.

Notice is hereby given that in cause No. 2025 on the civil docket of the District Court of Eddy County, New Mexico, wherein E. Wells, known as Trustee, is plaintiff and James D. Riggs, Ellen A. Riggs, J. P. Hunick, Ethel M. Hunick and Blanche Koudose and Blanche Watson are defendants, which is the foreclosure of a certain mortgage upon the lands hereinafter mentioned and in which cause final judgment was rendered on the 8th day of December, 1919, in favor of the plaintiff, finding that there was due the plaintiff:

1. The sum of \$2500.00 with interest thereon at the rate of seven per cent per annum from August 1st, 1915, until paid, interest calculated annually.

2. \$2500.00 with interest thereon at the rate of seven per cent per annum from August 1st, 1915 until paid, interest calculated annually.

3. \$371.11 with interest thereon at the rate of ten per cent from May 15th, 1919, until paid.

4. \$332.09 with interest thereon at the rate of ten per cent from May 31st, 1919, until paid.

5. \$88.68 with interest at the rate of ten per cent from October 1st, 1919 until paid and the sum of \$737.53 as Attorney fees together with the cost of this suit amounting to \$32.37.

The amount of said sums (exclusive of costs and expenses of this sale) with interest as provided in said judgment to the 23rd day of March, 1920, the date of the sale hereinafter mentioned, is to-wit:—\$479.41.

The undersigned was in said judgment appointed Special Master to sell the following described property situated in Eddy County, New Mexico, to-wit:

The W½ and the SE¼ of Section 7, Township 23 South, Range 28 East, N. M. P. M., and water rights attached and appurtenant thereto. Together with all and singular the land, tenements, hereditaments and appurtenances thereunto belonging or in anywise appurtenant, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof; and all of the estate, right, title, interest, claim and demand whatsoever of the defendants either in law or in equity of, in and to the above described premises, with the appurtenances.

And to pay out of the proceeds derived from such sale the said sums hereinafter set forth. It was further ordered by the court in the order made and entered on the 5th day of February, 1920, that the Special Master herein be directed and ordered to sell said premises above described in the following order, to-wit:

1. Said Special Master shall first offer for sale the S½ of Sec. 7, Twp. 23 S., Range 28 E. N. M. P. M.

2. Said Special Master shall next offer for sale the N. W½ of said Section 7.

3. If the total sum bid for said S½ and N. W½ of said Sec. 7 is not sufficient to satisfy the judgment herein and all the costs and expenses then:

4. Said Special Master shall next offer for sale said NW¼ and the S½ of said Sec. 7.

Therefore, the undersigned will on the 23rd day of March, 1920, at 10:00 A. M. o'clock, at the South front door of the courthouse (old building), Eddy County, New Mexico, offer for sale, at public venue, the above described property to pay and discharge said judgment and all costs of said suit and this sale actually accrued and to accrue to the highest and best bidder for cash.

Notice is further given that any

### REGULATIONS REGARDING THE PUBLIC HEALTH.

Regulations regarding the sanitation of foods, usage of drinking cups and common towels have just been sent to the local office of the New Mexico State Health association. These were promulgated at the last meeting of the state board of health. It was decided to make them effective when printed and distributed. As the complete set of rules have already been printed and distributed, the observance of them is required by law.—L. H. Pate, Health Officer Eddy County.

Authorizing Act.—Sec. 4, Chapter 85, Laws of 1919. \* \* \* The State Board of Health is empowered to make, promulgate and enforce such rules and regulations as are necessary to the enforcement of the laws of this State relating to quarantine, sanitation and the public health.

Sec. 10. POWERS. The State Department of Health shall have supervision of the health of the citizens of the State and possess all powers necessary to fulfill the duties prescribed by law with respect thereto, and to bring actions in courts for the enforcement of health laws and the rules, regulations and orders promulgated thereunder by the State Board of Health. It shall be the superior health authority of the State and have power, \* \* \* to regulate the sanitation and safety for consumption of milk, meats and other foods; \* \* \*.

Penalty for Violation. Sec. 18, Chap. 85, Laws of 1919 VIOLATION OF LAWS AND REGULATIONS. Any person, firm or corporation violating any State health law, or order, rule or regulation of the State Board of Health \* \* \*, where the punishment is not specifically prescribed by law, shall be punished by a fine of not less than five (\$5.00) dollars, nor more than one hundred (\$100.00) dollars, or imprisonment in the county jail for not less than five (5) nor more than ninety (90) days, or by both such and imprisonment in the discretion of the court.

Joe Andrews was in Roswell the latter part of last week.

The district meeting of the Baptist Young Peoples Union, which was held in Carlsbad last Sunday, was a very instructive meeting, enjoyed by all. Three members only were present from Roswell, there being so much sickness there preventing others from coming. Several cars of young people were down from Artesia. Interesting papers were read by young men and women and all pronounce the session very profitable. C. Ross Payne, secretary of the Unions for New Mexico, held a prominent part on the program.

Mrs. A. Moore was a guest of Mrs. R. E. Tucker last Saturday at the latter's home in Lovine. The ladies are friends of many years' standing and enjoyed talking over old times.

## Regulations Governing the Sanitation of Foods.

Sec. 1. The term food as used in these regulations shall mean and include any article used for human consumption as food or drink.

Sec. 4. Every wagon, cart, other vehicle or stand used as a food-handling establishment shall be of light, sound construction, of material which can be easily cleaned, and shall be provided with suitable facilities for the protection of foods from flies, dirt, and other contamination, as hereinafter required.

Sec. 5. No person, firm or corporation shall store, keep, display, or expose for sale upon any sidewalk, street or way, any food, except such as may be contained in unbroken packages or tightly closed containers or as must be pared or peeled before using, unless such food be at all times protected from flies, dirt and other contamination by the use of a show case or other similar device or screen. Where a screen is used, it shall be made of wire gauze of not less than 14 meshes to the inch, and there shall not be less than three inches of space between such screen and the food to be protected.

Sec. 7. No person, firm or corporation shall display or expose for sale any food upon any sidewalk, street, or way, or upon any outside counter, stand or vehicle, unless such food be at all times at least two feet above the surface of the sidewalk or ground.

Sec. 8. Every glass, cup, dish, knife, fork, spoon or other utensil used for the consumption of food in any food-handling establishment, and every bottle or similar container used for the sale or distribution of food from any food-handling establishment, shall, before being used, again for the serving, sale or distribution of

food, be subjected to one of the following methods of treatment:

a. Thorough washing with hot water and soap, followed by thorough rinsing in boiling water.

b. Complete immersion in actually boiling water for not less than five minutes.

c. Exposure to live steam under pressure of not less than 10 pounds per square inch for not less than 10 minutes.

d. Complete immersion in a five per cent solution of caustic soda or concentrated lye for not less than 10 minutes, followed by thorough rinsing in clean water.

Sec. 9. No person who has any contagious disease shall work or be permitted to work in any food-handling establishment. The local health officer having jurisdiction shall have the authority to require a medical examination, by a physician licensed to practice medicine in the State of New Mexico, of any person working in a food handling establishment who he has reason to suspect is affected with a contagious disease; and if any such person shall refuse to have such examination made, he shall not work or be permitted to work in such establishment. ## WAS HERE IN 1893; BACK AGAIN

J. C. Sanchez, one of the old time Eddy boys came in last Friday to visit his old friends. He first came here as a boy of seventeen and shortly became a stenographer in the office of Freeman & Cameron and was appointed master in the famous Penasco water case which required a large volume of testimony, receiving in fees about \$7,000. Afterward he worked life insurance and other lines. He took the speech of Jim Barrett on the scaffold, for this paper in September 1894. In 1900 he went to Mexico and became assistant manager of the Tehuantepec railway, which position he filled for fourteen years, returning to the United States in 1914, but owing to the unsettled condition of the country decided to reside at his old home in Albuquerque where he has considerable property inherited from his parents. He is at present engaged in managing the New Mexico Salt Refining company, of Estancia Valley, besides a large grant of land to which he recently obtained a patent. Mr. Sanchez has not aged perceptibly and is the same genial boy he was when he first came here in 1893. He met many old time friends before leaving in his Buick 6 yesterday for the north.

Grandpa and Grandma Anderson have received the announcement of the birth of their second great-grandson. The young man arrived in Los Angeles, California, February 21st, and weighed nine and one-half pounds. His name is Harry James, son of Harry J. Yardley and his wife, Betty Rule Yardley. This is the third great-grandchild of Grandpa and Grandma Anderson.

Any person who wishes mountain cottonwood limbs for planting can secure the same at City cemetery. The sexton has recently returned from Texas and has a lot of limbs which will be fine to plant, the mountain cottonwoods being free from the objectionable cotton, which is so annoying at certain seasons of the year.

The sermon with morning worship next Sunday in the Presbyterian church will have to do with "The Christian's Calling". Sunday school will be held at ten o'clock and Endeavor society at six-thirty.

Rev. J. B. Cochran, of Roswell, came down from there Tuesday afternoon and spent the night in the city, going on to Pecos Wednesday morning.

## LOCAL NEWS

We learn only recently of the birth of a baby daughter to Mr. and Mrs. J. H. Mullane, of Van Horn, Texas, formerly of this city. The baby was born February 16th and has received the name of "Claudia Leota". This is the third daughter in the Mullane family. May she prove a blessing to her parents and friends.

We learn from a Van Horn gentleman that the Advocate, Jim Mullane's paper, was recently sold to Mr. Daugherty, a great nephew of Jim Daugherty, the well-known cattleman of that section. The little paper is a factor in Culbertson county and good wishes are hereby expressed that its future policy under the new management may continue the same.

Mrs. John Higgins and little son, Theodore, are in town from their home in Roswell. This is their first visit since the death of the husband and father which occurred about a year ago. Mrs. Higgins says she will always have a warm place in her heart for Carlsbad and her kindly people.

Mrs. J. H. Shepard, of El Paso, is in the city this week attending the bedside of her brother, who recently underwent an operation at Eddy County hospital.

The regular meeting of Carlsbad W. C. T. U. will be held at the Sunday school rooms of the Methodist church, next Wednesday afternoon at 2:30. The committee has prepared a splendid program and an earnest invitation is extended to all, whether members of the union or not, to be present and enjoy the exercises.

Carlsbad was visited Wednesday by a real, old-time sandstorm, such as we used to have in the old days. During the high wind, the old derrick on the J. N. Cunningham farm below town blew down. As the derrick was 84 feet high, and was completely shattered, some one will have a fine lot of kindling wood on hand.

We learn this week of the return from California of Mrs. R. Durrill, of Van Horn. Mrs. Durrill went to the coast some months ago for health purposes, she having been in bad condition since the death of a son over a year ago. Her many friends in Carlsbad will be glad to learn of her improvement under the influence of the sunny skies and balmy air of California.

Hiram Dow, mayor of Roswell, was in town Tuesday of this week looking after business and visiting kinfolk.

G. H. Brownlie, of State college, is in town this morning and expects to remain here for several days on business before the court.

Dr. A. A. Bearup and son, Melvin, left Wednesday morning on a business trip to El Paso.

Sidney Bearup and Tom Harrison, goat men from the Guadalupe, are in town, coming Wednesday for a load of ranch supplies.

Mrs. Paul Area and her sister, Mrs. A. E. Area, came down from their home in the mountains west of town last Wednesday. Mrs. Paul Area being quite ill. She became worse after arriving here and was taken to Sisters' hospital for an emergency operation which was performed yesterday and from which she is reported as getting on well.

The February-born persons in Carlsbad who celebrate a joint anniversary, annually, met last Friday evening at the home of Mr. and Mrs. J. R. Linn on Halacuno street for their annual dinner. There were present Madam Thorne, Miss Enslin, R. M. Thorne and family; Mr. and Mrs. C. C. Lewis, Mr. and Mrs. C. T. Lewis; W. R. Owen and wife and the Linn family. A splendid dinner was enjoyed as well as a delightful social occasion.

J. B. Stetson was a business visitor to Roswell Monday.

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3½-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

Mrs. L. C. Leftwich left Wednesday night for Dallas, Texas, being called there by a message announcing the serious illness of a sister.

### LAKEWOOD LOCALS.

The remains of Roy Murrah, who died in El Paso, Texas, Monday night, from the effects of a gun shot wound received in Carlsbad some time ago, was brought here Tuesday night. Solemn and impressive services, attended by almost everybody in town and surrounding country, were held Wednesday afternoon, conducted by Rev. Terry, after which the body was taken to the McDonald burial ground west of town and laid to rest. Roy Murrah was reared here, was a generous, whole-souled young man, possessing many noble traits of character which endeared him to all who knew him, and his untimely death, being cut down in the flower of his youth, caused a pall of gloom to settle over the entire community.

Prof. George M. Brinton, county superintendent, was a welcome visitor to our school Monday.

Miss Stella Rogers, who has been visiting with relatives at Artesia, has returned and again entered upon her studies at school.

"WHERE THINGS ARE NEW"

### INCOME TAX IS DUE MARCH 15

Penalties for Delay and Failure  
to Make Returns—Early  
Compliance Urged.

All income tax returns covering the

year 1919 must be filed by Monday, March 15. Each taxable return must be accompanied by check or money order for the full amount or at least one-quarter of the amount of tax due.

Cash payments are accepted only at the collector's main office; if sent by mail, they are at the sender's risk.

Residents of New Mexico should file their returns with, and make payments of Income Tax to, Carl A. Hatch, Collector of Internal Revenue, Albuquerque, N. M.

Those who must file returns but have not done so are warned that the revenue law imposes heavy penalties for failure to get returns in on time or to make payments on time.

Early filing and early payments are urged, in order to relieve the internal revenue offices as much as possible of an overload on the final day, March 15.

### CARD OF THANKS.

We desire to express our sincere thanks to those who assisted us with help and sympathy in our time of sickness and sorrow of our beloved ones, L. M. WHITWORTH AND CHILDREN.

### NOTICE OF SUIT.
