## NEW MEXICO TOWNS

### LAS VEGAS.

From the Optic.

The ladies of the Episcopal church cleared about \$10 last evening by their supper.

Dale Strapp will accept a position with the Colorado Telephone company at Durango, Colo. He leaves for that point today.

The Run-Browne wool scouring mill started up yesterday for the purpose of heating on the brick and mortar. It will be ready to start up at full blast next week.

Clarence Allen has accepted the position as bookkeeper with the Gross-Kelley company, succeeding Mose Thomas, who went to Kansas City. Clarence is a competent and faithful worker and will prove himself a valuable man in his new capacity.

Tom Bridgman, an old Las Vegas boy, is reported to have been arrested at the Black Ranch near Roswell, for complicity in the murder of a neighboring ranchman and for burning the houses. He was detected as being the owner of the gun which was used by the murderers.

Dr. D. P. Williams is down with a case of the grip.

Twenty-two cars of ice were sent down from Hot Springs canyon.

Paul Cochran lost a fine bay horse last evening. The animal's leg was broken by accident and the suffering beast was shot.

T. S. Duncan returned from Los Angeles, where he went to visit his wife and daughter. He reports the latter improving, which will be good news to Las Vegas people.

Pat Henley, the Santa Fe saloon man, who was operated on at the Plaza for rupture, is about to be discharged, having recovered almost completely.

Mrs. Wagner, who underwent a very serious abdominal operation the first of the week and who is recovering from that very satisfactory, is now suffering with a congested lung.

Rev. Lumpkin is arranging for a series of meetings to begin about March 4. He is expecting Rev. J. T. French, of Roswell, N. M., to assist him. Mr. Lumpkin is well acquainted with Rev. French and says he is a splendid man for the work.

Friday afternoon Mr. Dearth received a telegram ordering him to ship the remains of Gertrude Kenney to her people in Chicago. All Thursday the three candles of faith burned softly at her head. All day the white hands closed motionless over a stainless cross. All day the blue eyes were closed in dreamless sleep. She was utterly, pitifully alone, this fair sleeping stranger.

W. Leslie Maxon, an old Las Vegas boy, is in the city visiting his sister, Mrs. C. C. Robbins. Mr. Maxon is on a vacation recuperating from a recent illness. He has been a steady worker, so steady that he only took a lay off of three weeks in nine years, and he says old nature knocked him down, temporarily, to give him a rest. He holds the position of foreman of the Kansas City Stock Yards Saddle company. Mr. Maxon will remain in the city for a few weeks.

Olof Olson and wife have purchased of Edward F. Rohart and wife the lake and six acres of the experimental station land on the Mora road for \$200. The estate of C. F. Potter has been finally settled in probate court and the administrator, Mrs. Caroline E. Potter, A. C. Schmidt and A. H. Lorenzen, sureties, discharged.

Dr. Susie Rinhart spoke interestingly to a packed house at the Baptist church Sunday evening. She dressed in native Tibetan costume and spoke along the same line she did a few weeks ago. A large number of Las Vegas are becoming interested in the people of the forbidden country and will some day make their interest felt.

The friends of Warwick M. Johnson will be glad to learn that at the cattle fair in Colorado, he took away several of the prizes for fine animals, especially on a fine Hereford bull. Mr. Johnson now lives at Farmington, where he has bought a nice ranch, and is successfully raising cattle, poultry and bees, and stands well in the vicinity of his new home.

The local daughters of Rebekah will celebrate the anniversary of their order on February 18.

Pierce Murphy is taking up a collection to get money to carry P. C. Owen, a cripple, to Trinidad.

Harry Strapp resigned his position as stage manager at the Duncan opera house. He is now working for the electric railway.

Friends of Miss Sadie Russell will regret to learn that she was called by telegram to El Paso on account of the serious illness of her sister.

A letter received by Mrs. W. G. Kogler told of the death of Adolph B.

Thimig, at his home in Hendersonville, N. C. The body was taken to New York by the wife for burial. Mr. Thimig and wife lived here for two years, leaving here about a year ago.

Mrs. J. Judell entertained at cards. Mrs. Bernard Hildel was the guest of honor.

Mr. and Mrs. C. E. Lewis, of Navajo, O. T., are the proud parents of a baby girl, born February 6. Mrs. Lewis will be remembered here as Miss Lella Smith, sister of Mrs. J. L. Wisler and H. C. Smith, of this place, and who was employed as compositor on the Record for some time.

Sheriff Cleoforo Romero found no trace of highwaymen or their depredations in the southern section of this county. He found a very dry section and reports the ranchmen to be losing many sheep on account of drought. As he could be of no official service to the lower country people, he returned to the county's capital city.

Mrs. Adin H. Whitmore arrived home on No. 1 from New York and New Jersey, where she had been for the past eight months on account of the serious illness of her mother. The major is probably the happiest man in Las Vegas in consequence, as he has ceased to be an orphan, and the familiar scenes around the Montezuma club will doubtless put on a less attractive appearance now.

From the Record.

Ed Spiereder is confined to his home on account of sickness.

John Armstrong, father of A. R. Armstrong, after a few days spent in the city, left for Lincoln, Neb., his home.

Mrs. Sarah Ramey, mother of Hugh Channell, arrived in the city from Blackburn, Ohio, on a visit to her son and family.

The appointment of F. O. Blood to be postmaster at East Las Vegas gives general satisfaction in this city, to democrats as well as republicans. Indeed, it would be hard for the president to make a more popular appointment anywhere. All recognize his eminent fitness for the position and that the office will be conducted in the highest degree of efficiency during his administration.

Messrs. Hutchins, Higgins and O'Reilly spent the day in the canyon attending to some business in the electric car company's interests.

Hilario Romero is reported quite ill again.

C. M. Stouffer, cousin of Harry Stouffer, is visiting in the city from Missouri as the guest of M. O. Patrick and family.

Mr. and Mrs. H. E. Hemus are the happy parents of a bouncing baby girl, born at Pueblo, Colo., on February 2. Mr. and Mrs. Hemus before going to Pueblo were residents of this city.

The Las Vegas Abstract, Title Guaranty and Investment company, composed of Perry C. Hogsett, Byron T. Mula and George P. Money, has filed articles of incorporation with the secretary of New Mexico. The capital stock is \$1,000.

P. W. McCaffrey offers a very fair proposition to the city in regard to the reduction works. He asks the city, or the board of trade, to appoint a committee to witness the work of the smelter at that place and to see the results of a carload of ore taken from the mines about Las Vegas. If it proves satisfactory to the committee the city will pay the expenses, and if not the company which Mr. McCaffrey represents will pay all the expenses.

A. J. Aber left on stage for Santa Rosa.

Miss Hattie Heineman still continues to be confined to her home on account of illness.

W. C. Wrigley, a prominent attorney of Raton, was in the city filing some papers in the district court.

The non-commissioned officers of Troop A had a mounted drill out on the mesa, under Lieutenant Tarkington.

Max Nordhaus, Charles A. Spiess, Miss Carajol Palen, Miss Jessie Hildel and Arthur Hildel spent a day very pleasantly at Trout Springs.

Mrs. B. Hildel arrived in the city from Albuquerque, to spend a few days, as the guest of Mrs. J. Judell, after which she will soon leave for Chicago.

Robert P. Green, who came to Las Vegas about four weeks ago, from Litchfield, Minn., for the benefit of his health, died at the Ladies' Home, aged 23 years.

Lorenzo Delgado and Miss M. Romero left for Santa Fe, where they stood yesterday as god father and mother at the christening of the child of Mrs. Juan Delgado.

The cavalry troop has issued twenty-two uniforms to new members since the drill of January 27, and now the troop is full, with ten on the waiting

list. All members who fail to attend drills regularly will have their uniforms called in and given to those who take a greater interest in the troop.

Miss Haggard is able to be out again, after a severe sick spell.

Mrs. W. G. Haydon entertained one evening this week, in honor of Miss Carolyn Paen, of Santa Fe.

Rev. J. H. Bourne has sold his property on Eighth street to W. H. Thompson.

Walter Spiereder, son of Mr. and Mrs. C. H. Spiereder, of this city, and wife will arrive in the city on February 29 from La Junta, on a few days' visit to friends and relatives.

Willie Kroenig has leased two parcels of land situated in the John Seely grant, San Miguel county, to J. P. Olympus, of Denver, for the purpose of drilling for oil on the property.

The residents on the east side of the railroad tracks are getting up a petition to present to the city council for street numbers, electric light service, free delivery and water for that portion of the city.

J. C. L. Brynes, who writes the mystic legend, A. B. L. B., after his name, and is a great public speaker, of Louisville, Ky., went over to Santa Fe yesterday afternoon, after a few days spent in the city.

The directors of school district No. 4, precinct No. 26, has purchased from Walter H. Jobe the old school building which hung for so many years in the academy building, calling many thousands of children to its doors. They will place it on the school building in district No. 4.

The drill last evening of Troop "A" was largely attended, about fifty of the sixty troopers being present. The company is showing great improvement in drilling, due to efficient officers in command. Next Sunday the company, that is all those desiring it, will have a mounted drill under Lieutenant Tarkington. It was decided to postpone the dance announced for February 22. After the drill Trooper Erb invited the entire troop around to his restaurant and treated the boys to coffee and sandwiches, which were heartily relished, and the kindness of Mr. Erb was greatly appreciated.

### BLAND.

From the Herald.

George Lindley has gone to Albuquerque.

Alex Edie was in town the first of the week.

Joe Perry left for Prescott, Arizona. Thomas Goodwin has returned to Bland after an absence of several months.

Mr. and Mrs. C. D. Coram and Miss Nellie McCaffrey spent several days in Albuquerque.

The vacant houses in Bland are rapidly becoming occupied. It won't be long until they are all filled.

Col. H. E. Anderson was compelled to go around on three legs several days as a result of an attack of rheumatism.

Mrs. Alice Harrington, who conducts the large boarding house at Albemarle, passed through Bland on her way to Albuquerque, where she goes on business.

Emil Herman, who for sometime past, has been employed at the mill at Albemarle, left for Albuquerque, where he will seek employment.

The dance at Albemarle was a pronounced success. Those who attended from this side were Mr. and Mrs. Chas. Scheuchert, E. W. Callendar and Mrs. Phil Barber.

Samuel Arnot and family arrived from Albuquerque and will reside here. Mr. Arnot will engage in the grocery business with B. H. Shaw.

The shoe shop of George Keed was discovered on fire. The flames were extinguished before they had gained headway and the town was saved from a serious conflagration.

A. E. Haggerty, popular salesman for J. G. Creager, left the services at the church. Mr. Haggerty is an earnest young man, a fluent talker, and his words greatly impressed those who attended.

### SAN MARCIAL.

From the Bee.

San Marcial has lately been more lively than usual in a social way.

A masquerade ball will be given in the Shaw building on the evening of February 21.

G. P. Anderson is back from a visit to his wife in Oklahoma. H. W. Anderson, a brother-in-law, accompanied him on the trip.

Wednesday evening last the mandolin club visited the residence of Mrs. Fletcher and rendered numerous selections of sweet music in honor of Mrs. Vint Fumble, who with her little son, Homer, was to leave in a few hours for their home in Bakersfield, California.

Little Homer, who has been with his grandmother for nearly three months, has nearly regained his health although quite a sick boy when he arrived here.

Rev. and Mrs. L. L. Gladney have the sympathy of the entire community in the taking away by death last Monday of their little son, Ernest Lane, aged two months and thirteen days.

The interment took place Thursday, February 6. It was delayed to permit of Mr. Gladney being present. He arrived in El Paso on Thursday from Decatur, Ala., but missed train connections and failed to reach San Marcial till Friday morning.

A stranger sometimes wonders where the merchants of San Marcial secure the large trade they appear to be transacting. This is no secret to the people familiar with the situation. Rosedale, Clyde, Paraje, Monticello, Cuchillo, Engle, Rincon, Lava, Fairview, Chloride and other settlements within a radius of eighty miles draw

largely upon our merchants for supplies, and in addition to this we have a large number of ranchers, stockmen and miners to supply all the year around. San Marcial certainly enjoys a large trade and it is constantly expanding.

A petrified seal at Hanley's saloon is attracting much attention.

A. C. Ireland received a black Angora cat, with a pedigree a yard long, from Maine. The cat is valued at \$50. It answers to the name of Booker T. Washington.

A petition addressed to Governor Otero asking that Hyman Lowitzki be appointed as fish and game warden of this county, is being circulated and has been signed by numerous citizens of Santa Fe.

Three Indians from the Pueblo of Zia are in Santa Fe on business with Indian Attorney W. H. Pope and were disappointed not to find him in the capital. They are having trouble with neighboring settlers.

Policeman A. Garcia found Leonardo Ramirez almost frozen to death near the Santa Fe depot. The woman was intoxicated. She was taken in a cab to the county jail and Police Judge Francisco Anaya gave her a sentence of thirty days in the county jail.

Three weddings occurred at Agua Fria yesterday. Vicar General Anthony Fourche officiating, and two of the brides being sisters. The parties who started on a life of wedded bliss are: Benito Romero to Simplicia Lopez; Vicente Lopez to Brancia Lopez, and Crisp Velarde to Adela Lopez.

Valentine Pacheco, of Tesuque, who served gallantly during the war of the rebellion in the First New Mexico infantry, and who has been drawing a pension for years, has had the misfortune of becoming totally blind, this being caused by a bullet wound received in the head. He is now applying for an increase of pension.

### SANTA FE.

From the New Mexican.

The county commissioners are figuring on erecting an iron bridge across the Santa Fe river on Don Gaspar avenue, and leading to the capital. Every good citizen hopes that they will carry out their plan.

Superintendent Crandall, of the government Indian school, is putting the road between the Indian school and the penitentiary into excellent shape. It will be a beautiful drive when he has finished the work contemplated.

A decision in the matter of the delinquent tax cases from this county is likely to be rendered by Judge McFie at an early date, the judge now having the case under advisement.

Milo Hill's coal location is situated in Aragon county, 4 north of range 10 east. That part of the township east of the Santa Fe grant line is open for prospecting and location under the land laws of the United States.

On sections 3, 10 and 11 in that township Octaviano Rodriguez and a party are cutting telegraph poles, ties and piling for the Santa Fe Central railway.

John Kinney, formerly of Albuquerque, and an inmate of St. Vincent's hospital in this city for some months, died Thursday from consumption.

Henry Wirtz has gone to Vega Blanca, the station on the Santa Fe Central railway, to take charge of the commissary store house of the road at that point.

Melquides Rael, sheep inspector for Taos county, and B. L. Ortiz, of Questa, Taos county, are in the city. They are commissioners appointed by the people of Questa for the purpose of securing and locating an irrigation ditch for the use of the people of that town.

The plan of erecting an exhibition hall by the Sisters of Loretto for the use of and in connection with the Loretto academy is taking definite shape. The object is a very worthy one and many citizens are making contributions toward the building fund. The citizen who does so will promote a good cause and aid the educational interests of the city greatly.

Miss Virginia Otero went to Socorro to visit relatives and friends.

Thomas A. Good, proprietor of the roller mills at Del Norte, Colo., is a business visitor in Santa Fe this forenoon.

Hon. Antonio Joseph, of Ojo Caliente, ex-delegate from New Mexico to congress, is a visitor in the capital city, having arrived last evening.

Judge A. J. Abbott went north over the Denver & Rio Grande railroad, going to Denver on business before the Colorado state court of appeals.

David Hersch, brother of Leo Hersch and well known in Santa Fe, his birthplace, is to be married on Sunday at Pagosa Springs, Colo., to a fair young lady of that place.

Secretary of the Territory J. W. Raynolds and family left for Omaha, where they will spend a month with Mrs. Raynolds' relatives. Their address while absent will be 1208 Harney street, Omaha.

The Right Rev. J. M. Kendrick, of Phoenix, Ariz., arrived in the capital after a trip to various parishes in New Mexico. He will stay here about a week.

No truth whatever in the rumor going about town that there is to be a change in physicians at the penitentiary. Superintendent Bursum, when asked by a New Mexican representative as to the rumor, said that he knew nothing of it and had no intention of making a change. Dr. David Knapp, the present physician at the penitentiary, gives entire satisfaction in the performance of his duties.

The following Taos county citizens are here interested in the partition suit for the Antonia Martinez and grant filed some days ago in the district court for Taos county, by A. R. Manby. They claim to be interested in the

grant: Juan Francisco Montoya, of El Prado de Taos; Francisco Martinez y Martinez, superintendent of schools in Taos county, and Antonio Pacheco, of Arroyo Seco. They are here to consult legal advice.

### LAS CRUCES.

From Rio Grande Republican.

Jacobo Chavez, little boy, while throwing missiles last week accidentally struck E. E. Day's little girl in the face, inflicting an ugly and painful wound.

Prof. Hiram Hedley, while near Queenberry's ranch, met with what might have been a serious accident. His horse became frightened and jumped backward throwing the professor off in front of the cart, falling on his back and the wheel of the cart passing over his head, inflicting very painful wounds in the head and shoulders, but not serious.

Dr. Wm. M. Hidenour died at his home here after an illness of but three days, of hemorrhage of the lungs. The fatal termination of an illness of so short duration proved a great shock to his family and friends, who feel deep sadness over the loss of so good a man and so skillful a physician. Dr. Hidenour came from Ohio to Las Cruces in the home of benefiting his health. The climate did much to improve his condition, but finally he succumbed to the dread disease.

From Dona Ana County Republican.

W. J. Lambert, who spent several weeks here as the guest of Mrs. Ryan, has left for Capitan, where he has secured a good position.

C. J. Hafer, who is putting in the telephone system, says the material is now on the road and he expects to receive it in Las Cruces in a short time.

Dave Woods came down from the San Nicholas ranch suffering with an attack of pneumonia. At last reports he was doing nicely.

The Las Cruces orchestra will give a concert for the benefit of the South Methodist church within a short time. Some of the best local talent has been obtained, and the people may expect one of the most delightful evenings of the season.

The chapter of accidents for the college is a long one this week. On Saturday last Prof. Hadley was thrown from his cart and received some slight injuries, one wheel of the cart passing over his head. However, Monday morning found Prof. Hadley at his desk as usual. On Sunday afternoon Miss Baker's horse ran away and threw his rider, who was so badly bruised and shaken up that she has been obliged to keep to her room for several days; and on Monday Mr. Kimble's horse ran away and demolished the buggy. The victims of these accidents are to be congratulated that they escaped without serious injury. It is suggested that the spring winds are affecting the horses' heads, and timid people are afraid to drive or ride.

### SOCORRO.

From the Chieftain.

Ross McMillan and J. B. Squires drove out to the former's sheep ranch east of San Antonio for a stay of a few days.

The Socorro tennis club is now organized with Prof. C. F. Lincoln as president. The ground is in good condition and the netting is expected to arrive in a few days.

Mrs. J. W. Taylor, who has been in the city several weeks as the guest in the family of Jos. E. Smith, returned to her home in El Paso.

The warm days of this week have set the farmers up and down the valley to plowing. It appears probable that those who have prophesied a late spring because of a mild winter will yet prove to be false prophets.

Supt. Eliego Baca's books show that he has in twelve months turned a little more than \$2,500 into the city school fund from saloon and gaming table licenses.

There is a good prospect that the effort to organize a military company in Socorro will be successful. It is to be hoped that it will, for a new and desirable feature will thus be added to the social life of the city. Capt. T. J. Matthews is taking an active interest in the matter and his former experience in the same line is serving him well. A public meeting will soon be called to perfect the necessary preliminaries.

### DEMING.

From the Herald.

Mrs. C. A. Ament has been very sick with sore throat.

Walter J. D. Lacy is the new property man at the Deming opera house, and is putting the scenery in good trim.

Will Meents, the ex-newspaper man and now one of the most successful life insurance agents on the road, has been in the city this week providing for the support of widows and orphans.

Messrs. Sherman Dryden and Ralph Halloran, life insurance men from Albuquerque, are in the city writing policies. Mr. Dryden thinks some of removing his headquarters to Deming.

J. H. O'Reilly, general manager of the Washington Life Insurance company for New Mexico and Arizona, arrived here from Albuquerque. The gentleman is no stranger in these parts and is doing a very satisfactory business.

Chinese Inspector Charles Mehan arrested three Chinamen at Deming and five at Zuni, N. M., for violation of the Chinese exclusion acts and brought them to Deming for trial before United States Commissioner McKeeves. Their trial will take place within the ensuing ten days.

Was it murder or suicide? The bones of a human being were found lying on the ground near the Bisbee railroad track about a mile from Wright's camp of engineers, a few

days ago. Among the bones was one of a skull standing with Chinese writing thereon, which being translated into the American vernacular read Fung Quee Lung. It is the opinion of the Herald that the dead Chinaman was trying to steal his way into this country in the back door route, without the necessary papers required by law, but whether he was killed for want he had or becoming discouraged with the long, weary and waterless journey he took his own life, is one of those mysteries which will remain unsolved. The skull, at present, is being kept as a useful and ornamental paperweight on the desk in the office of the resident civil engineer of the Bisbee railroad.

### RATON.

From the Reporter.

Mrs. H. Ransberry and Mrs. E. L. Fount are visiting in Las Vegas.

B. O. Jaffa, of Albuquerque, visited with Mr. and Mrs. S. Cohn several days of last week.

Mrs. George A. Wolf, of Pueblo, is very ill with gastritis. Her many Raton friends hope for her early recovery.

Mrs. J. D. McGrath, wife of the degenerate candidate for member of the house of representatives at the last election, died at her home in Springer, aged 39 years.

Miss Sara Mendelssohn left for Madison, Wis., where she will make her home. Miss Mendelssohn will be missed by her many Raton friends with whom she was very popular on account of her sunny disposition.

Night Marshal James Matthews, has resigned his position to accept a more lucrative one in Blossburg with the Raton Coal and Coke company. Mr. Matthews made a very efficient officer and it is to his credit that during the two years he was on duty not a single burglary occurred in the town.

### SANTA ROSA.

From the Star.

New buildings are going up all over the town. Carpenters will soon be in demand, as many expect to build now that the native lumber has arrived.

Mrs. Robert Stepp has completed the excavating of the cellar over which they will build their large hotel, and work will be begun on the building this week.

Col. DuBois, from Corona, and Walter Burt, traveling from Chicago, arrived in town on the Chicago, Rock Island & El Paso railroad. They were the first regular passengers coming on the El Paso railway.

A large crowd of Austrians came in town Tuesday morning led by an American. Some of them carried revolvers, shot guns and rifles. They are the same Austrians that were held up a few weeks ago near this place and they came prepared this time.

### TIERRA AMARILLA.

From El Republicano.

Mrs. Estella Russell was with us for a few days this past week. She is on her way to her home at Arvada, Colo. She will stop a few days with her brother in Salda.

The revival meetings are in full swing and it is said in doing a lot of good work. Even old John Boyer is attending regular and a very marked change is already noticeable in his conduct.

Chama is a very popular place. The young men take the ladies sleigh riding and they have a very interesting habit of walking and leading the horse and letting the ladies ride. Never mind, boys, it's better to walk yourselves than to make the ladies walk.

### JICARILLA.

From White Oaks Eagle.

A little more snow makes grass prospects good.

Garrett and Lincoln are in from Gallina en route to the White mountains.

Bloomfield, of Richardson, has been a guest of J. Long for a few days.

**BIG COUNTRY.**  
The New York Sun's geographical editor figures out that the Danish islands added, our possessions will extend nearly half way round the globe, lacking only about 100 miles.

**REDUCE THE TARIFF.**  
The abnormal earnings of the steel and iron industries, resulting in the wholly unnatural enrichment of the comparatively few men who control the business in this country, have awakened not only western republicans, but also a great many eastern representatives of the party to the absolute necessity of doing something to check this menacing concentration of wealth.

**INVENTIVE PEOPLE.**  
The year 1901 was a record breaker in the patent office, according to the annual report submitted to congress by the commissioner of patents, Fredrick Allen, says the Washington Times.

**DELEGATE RODEY'S PLEA.**  
The Denver News says that the speech of Delegate Rodey before the republican house caucus was an eloquent and logical plea for statehood for New Mexico.

The Denver News says that the speech of Delegate Rodey before the republican house caucus was an eloquent and logical plea for statehood for New Mexico.

Oklahoma and the Indian Territory should be erected into states before the centennial year of the Louisiana purchase.

**STATEHOOD FOR TERRITORIES.**  
The Denver Republican voices the sentiments of the people of the west by saying that whatever else the present congress may do, it should pass enabling acts for the territories of New Mexico, Arizona and Oklahoma.

New Mexico has been an organized territory for fifty years, and Arizona has been in that class for the greater part of that time.

To keep these three territories out any longer is to treat them with injustice for which no opponent of statehood can give an adequate excuse.

Under the circumstances there should no longer be any objection to the passage of an enabling act.

To further exclude these territories would be an act of injustice which should be condemned by every right thinking man and woman in the United States.

**FROM OUT THE SHADOW.**  
George D. Allen Passes Into the Light of God's Day.

George D. Allen died at the Laidler Home this morning at 4 o'clock, says the Las Vegas Optic.

Another instance very similar occurred a few months ago when George L. Crutcher was called hence.

While here he painfully eked out a bare and miserable existence and at death he was buried by charity.

George D. Allen was prize commissioner in the war with the confederacy for the Union army and the government wired for his advice as to the right distribution of prizes when ships were taken as contraband of war in the late conflict with Spain.

**JUSTIFIED FOR KILLING BELL.**  
Coroner's Jury Exonerates James Goode for His Crime.

The Journal-Democrat this morning failed to follow up its "special dispatch," etc., from Clayton, N. M.; hence The Citizen clips the following article from the Denver Republican.

"A coroner's inquest was held this morning over the remains of the late Oscar Bell, who was shot last night by James Goode. The verdict was: 'We find that the said James Goode killed the said Oscar Bell in defense of his honor and good name and the honor of his family and that said James Goode was entirely justifiable in such killing.'"

"Goode and Bell were business partners and fast friends and Bell had lived for some time at Goode's house. Last night Goode came home and without a word of explanation shot Bell as they met at the front door. He surrendered and justified his act by saying that Bell had attempted to ruin his home."

**HORRIBLE HOMICIDE.**  
J. T. Riley Beaten and Killed to Death By J. U. McIntosh.

Another of those deplorable tragedies for which Clifton is becoming notorious, occurred at the Richelleu saloon Monday night, which terminated in the death of J. T. Riley, a traveling photographer, who had been residing in North Clifton for the past two months.

From the best information obtainable it seems that Riley was drinking heavily, and while in the Richelleu

made some remark to Mrs. J. O. McIntosh—who runs a crap game in the house—to which her husband took exception. Words followed, when McIntosh knocked Riley down, then jumped on him with both feet and also kicked him in the stomach. Parties present caught McIntosh and forced him to desist, when a scuffle ensued, and it is said that more trouble of a serious nature was prevented by the timely interference of the proprietor of the house. Riley was found to be unconscious, and was taken to the hospital, where he died yesterday afternoon.—Clifton (Arizona) Era.

**A Legacy of the Grip.**  
Is often a run-down system. Weakness, nervousness, lack of appetite, enervated and listless, with disordered liver and kidneys often follow an attack of this wretched disease.

The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by all druggists.

**OF INTEREST TO THE TERRITORY.**  
Five Bills Introduced in the House by Delegate Rodey.

The following bills have been introduced by Delegate Rodey and are of interest to New Mexico:  
House resolution No. 5505, a bill for the relief of George Ivers, administrator of William Ivers, late of Santa Fe, New Mexico.

House resolution No. 10268, a bill for the relief of A. H. Reynolds, of Questa, Taos county.

House resolution No. 2864, a bill to amend an act entitled "An act to establish circuit courts of appeals and define and regulate in certain cases the jurisdiction of the courts of the United States, and for other purposes," approved March 3, 1891.

House resolution No. 7637, a bill to provide for an additional associate justice of the supreme court of the territory of New Mexico.

House resolution No. 9200, a bill to amend an act entitled "An act granting pensions to the survivors of the Indian wars of 1832 to 1842, inclusive, known as the Black Hawk war, Creek war, Cherokee disturbances, and the Seminole war," approved July 27, 1892, so as to permit the granting of pensions on account of the Texas, New Mexico and other Indian wars up to Anna Domini 1856.

**A Thousand Dollars Thrown Away.**  
Mr. W. W. Baker, of Plainville, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did, and thanks be to that great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

**GIANT POWDER EXPLODES.**  
One Man Killed and Five Injured by the Accident.

One Mexican was killed and five badly injured from an explosion of giant powder last Monday, about five miles from Estey City, at a place called Moonshine Spring. G. W. Seibel came into Tulare about 1 in the morning on Monday from Estey for a doctor, but not being able to secure one, as they had patients they could not leave, he telegraphed to Dr. Bryan, of Alamogordo. From Mr. Seibel we learn the following particulars: It appears that a gang of Mexican workmen were employed at the spring by the Estey Mining and Milling company laying pipe from the spring and doing some blasting. Last Monday morning being quite cold, their sticks of giant powder were frozen and when they attempted to thaw it out on a hot stove the explosion occurred with the above result. The five men are badly burned.—Tulare Democrat.

**Something That Will Do You Good.**  
We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

N. E. Stevens was a passenger south this morning.

**FOOD FOR A YEAR.**  
Meats.....300 lbs.  
Milk.....240 qts.  
Butter.....100 lbs.  
Eggs.....27 doz.  
Vegetables.....500 lbs.

This represents a fair ration for one man for one year.

But some people eat and eat and yet grow thinner. This means a defective digestion and unsuitable food. To the notice of such persons we present Scott's Emulsion, famous for its tissue building. Your physician can tell you how it does it.

We'll send you a little to try if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

**THEY ARE PURSUED.**  
Bandits Leave a Trail of Blood Along the New Railroad.

A special dispatch to the Denver News, from Captain N. M., under date of February 7, says:  
Sheriff Gonzales and posse, who started out to capture the gang of bandits who stopped at the Block ranch a few days ago and secured fresh mounts at pistols' point, returned empty handed today after an exciting chase of over thirty-six hours.

After leaving the Block ranch the desperadoes started in the direction of the Capitan mountains which, owing to their extreme roughness and impenetrability, have always been a favorite hiding place for such characters. The sheriff pushed forward as fast as possible. His party had not proceeded very far, however, before they came upon Sheriff Higgins, of Chavez county and six deputies, who were searching for the same band. Thus reinforced, the pursuing party urged their horses on and were at one time close upon the fugitives. The bandits evidently realized that they would fall into the hands of their pursuers unless something was done and, undoubtedly at a prearranged signal, the entire gang separated and each man took a different direction. This made further pursuit extremely difficult and after a day spent in fruitless efforts to continue the chase the pursuing party turned back.

A rumor got about today which caused great consternation among the officials in charge of the jail at Lincoln. It was to the effect that these men were coming towards Lincoln for the purpose of liberating a man by the name of Woods, who is confined in the jail charged with the burning of the Copeland ranch in the eastern part of the county about two months ago and killing the storekeeper and an unknown man who was stopping there over night. Considerable color was given to this report by the fact that the desperadoes had stopped over night at the Woods house, the night before, confiscating property at the Block ranch, and that part of the gang at least are from Oklahoma territory, which was the former home of Woods. Up to this afternoon no such attempt has been made. The jail is heavily guarded.

This is the worst gang of cutthroats that ever operated in the southwest and is, without doubt, the same which came through Puerto del Luna, in the Pecos valley, about a week ago and robbed a store, killing two men and a boy who were in the building at the time. They then robbed the pay car and bank at Santa Rosa. Their path is strewn with blood all the way from Oklahoma territory, where about three weeks ago they were implicated in a robbery and a noble killing.

The chase will be continued until they are either captured or run out of the country.

**QUAKER REFLECTIONS.**  
From Philadelphia Record.

Some people avoid straightened circumstances by being crooked. The weaker a man is, the stronger his bad habits grow on him.

"Hook—'Sillicious acts like a fool.' Nye—'Humph! That isn't acting.' Some girls are too busy improving their complexions to improve their minds.

No, Maude dear, a bunco steerer bears no relation to a bunk in a steerage.

Teacher—Name a nation that is very much in evidence just now. Tommy—Vaccination.

Wiggs—Do you suppose crematories pay Wiggs? That depends upon their burning capacity.

Teller—Time is money. Askin—Why don't you make money then? Teller—I haven't time.

Tommy—Pop, in getting a divorce, what is the first step? Tommy's Pop—Getting married, my son.

When a young man begins to argue that two can live as cheaply as one you can snuff for orange blossoms.

Sillicious—Do you believe that clothes make the woman? Cynicus—More often than the woman makes the clothes.

Blobs—Newrich is such a blase young man. Slobs—Yes; he made a lot of money in oil, and he seems to find even that a bore.

Parks—Did you see much of Mary at the seashore last summer? Starke—Yes; all that I did not see of her at one dances last winter.

**HOGS AND ALFALFA.**  
Pecos Valley Ranchman Is Making Them Pay When They Are Handled Together.

Clifton Chisholm, who recently purchased the J. M. Miller farm about eight miles southeast of Roswell, is branching out in a new industry which is attracting general attention among the ranchmen in the Pecos valley. It is nothing more nor less than raising hogs on a large scale. He is also growing and shipping large quantities of alfalfa. By this system of combining the two industries, Mr. Chisholm is demonstrating that hog culture as a side issue on an alfalfa ranch has money in it. About three cars of alfalfa fattened hogs will be ready for shipment to Kansas City in a few days.

Finally he found his wife and her two male companions, sipping nectar from the lips of folly and throwing dull care to the winds. The husband tarried with the bride and her companions and it was after daylight before the quartette became surfeited with the night's slumming and retired to a more sequestered part of the city.

Soon after this, Dallas Potter, the bridegroom of a day, went to Judge Wooster's court and swore out warrants for the arrest of Alvin Sharum and Lynn Trough on a charge of seduction. He says they led his young bride astray last night and the face of the angel who guards innocence wears a gorgeous grin.

The officer has not been able to locate the two young men, and it is supposed they have slipped out, hoping to escape the penitentiary.

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by Alvarado Pharmacy.

**UNIVERSITY NOTES.**  
The Athenaeum are planning a very interesting program for Washington's birthday.

Miss Brewer and Miss Craig are both progressing very nicely with their work at the model school.

Miss Lillian Huggott has been chosen editor of the Mirage for the remainder of the year, as Miss Tway's studies became too heavy for her to continue the Mirage work.

The Athenaeum elected officers for the second semester as follows: President, Thomas Kolcher, Jr.; vice-president, Miss Craig; secretary, Miss Brewer; and treasurer, Bruno Diekmann.

We enjoyed a visit today from Miss Froe, a Barth, a last year's student. She has been traveling in California and elsewhere, and although she will change her name before long, Miss Barth declares lasting allegiance to the University of New Mexico.

Invitations have been issued to the normals and freshmen for a St. Valentine's court to be held next week, Friday, from 6 to 10, at Prof. and Mrs. Hodgins' delightful home, "Casa del Mesa." The invitations are very unique in themselves and a jolly time is in prospect for the Hodgins are royal entertainers.

On the 20th President Tigh has secured a very fine lecturer and demonstrator on liquid air, Prof. Patty, who will give a talk on the subject with some excellent experiments at Colomby hall. The lecture will be a very fine one and all interested in the cause of science should avail themselves of the opportunity of hearing Prof. Patty. The students of the University and High school expect to attend in large bodies.

**Buckley's Arnica Salve.**  
The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, burns, bruises and bruises, soothes inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, felons, skin eruptions. It cures or no pay. 25c at all druggists.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

**REFLECTIONS OF A BACHELOR.**  
From New York Press.

Public lives cover scandal! The man who fools himself never fools anybody else.

Sow wild oats on the most barren soil and they will grow there as readily as anywhere else.

Women get so much happiness out of love affairs because they have such wonderful imaginations.

It always spoils a woman's enjoyment of her well dinner if her husband insists on calling the dishes by their English names.

**Soft Harness**  
You can make your harness as soft as a glove and as tough as a new one. EUREKA Harness Oil  
Makes a poor looking harness look new. Made of pure, heavy bodied oil, especially prepared to withstand the wear and tear of harness work. Sold everywhere in cans—all sizes. Made by STANDARD OIL CO.  
**FEW TRUE POINTERS.**

The Citizen's outside correspondents are all genuine. We don't take the territorial exchanges and write news from them, putting it off under a date as "special correspondence," etc. This paper prefers to be honest and credit these territorial classified clippings to the papers from which they are taken.

The Citizen goes north, to its big lists of subscribers at Bernalillo, Bland, Cerrillos, Madrid, Golden, San Pedro and other towns, in pouched sacks on the No. 8 train, only a few hours after its publication, while the J.D. Wata until the next morning for No. 2. Now watch the morning paper attempt to deny this truthful assertion.

The mail trains going west and south seem to have been arranged to suit The Citizen, exclusively. Hence, this paper reaches all its western and southern subscribers, with the latest telegraphic, territorial and other classified news, considerably earlier than any other paper published in central New Mexico. The contrast with the Associated Press, vendors of telegraphic news, prevents any morning paper from bringing on the hours of any afternoon paper which also takes the report. And again, for the information of the public, every line of telegraph used in The Citizen comes over the wires on the day of publication. This paper does not use "classified" "mail telegrams" and palm them off on the readers as Associated Press reports.

The Citizen's adaptation of classified news, such as railroad, mining, stock, territorial, sporting, notes from correspondents, etc., all under attractive heading, in receiving commentaries from all sources, and is popular with the readers. The Citizen always learns, it never follows.

**Saved Her Child's Life.**  
"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, Ohio. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption, and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know it's the only sure cure for coughs, colds and all lung diseases. All druggists guarantee satisfaction, 50c, \$1.00. Trial bottles free.

Kidney complaint kills more people than any other disease. This is due to the disease being as insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. Sold by Alvarado Pharmacy.

**Committed Suicide.**  
Jasper Portilla, a native, under the influence of liquor at his home in Tulare, tried to persuade his wife to go to Mexico with him. When she refused to go, he said he would take her to a warmer place, drew a pistol and attempted to shoot her. The pistol refused to work and she took to her heels. Judge Roberts and have her husband arrested. When they returned he had broken the windows, piled the furniture in the yard and sent a bullet through his brain. A jury was summoned by Judge Roberts and they decided that Portilla came to his death by a pistol shot fired by his own hand.—Tulare Democrat.

**He Recommends Chamberlain's Cough Remedy.**  
"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have no words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

**Only a Joke.**  
The report that Theo. Wilson was engaged to marry an Albuquerque widow, turned out to be a canard—a joke perpetrated by one of his best friends. It was given to the Bland Herald, and the Herald published it as a fact. Now we hasten to correct the report and make all due apologies to Mr. Wilson, who claims that he has no knowledge of the existence of such an engagement. However, his friends were in hopes that the report was true.

**Bilious Colic.**  
H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all druggists.

Judge W. J. Mills has decided the Union county election contests. His honor decided in each case in favor of the defendants. The suits were styled as follows: Leandro M. Gallegos vs. Salinas Garcia, Gonzalez; A. C. Miera vs. Jose Mera; and Jose Mera vs. Jose Mera. The suits were styled as follows: Leandro M. Gallegos vs. Salinas Garcia, Gonzalez; A. C. Miera vs. Jose Mera; and Jose Mera vs. Jose Mera. The suits were styled as follows: Leandro M. Gallegos vs. Salinas Garcia, Gonzalez; A. C. Miera vs. Jose Mera; and Jose Mera vs. Jose Mera.

**ASK DRUGGIST for 10 CENT TRIAL SIZE.**  
**Ely's Cream Balm**  
Gives Relief at once. It cleanses, soothes and heals the diseased membrane. It cures Catarrh of the Nose, Throat and Lungs. It is absorbed. Heals and Protects the Membrane. Restores the Sense of Taste and Smell. Full size 25c. Trial Size 10c. at Druggists or by Mail. BROTHERS, 90 Warren Street, New York.

## Mines and Minerals

Mining excitement in Tularosa is at fever heat.

J. E. Colford is running the hoist at the Wicke mine near Hillsboro.

J. D. Richards, of Gallup, spent yesterday in the city, going south last night, bound for the Capitan country, where gold has recently been discovered.

Clyde Whitescerver has given up his job with the express company in Trinidad and left the first of the week to go to work on the Senate Bob-Tail mine at Elizabethtown.

Dr. Pulliam and Attorney Hutchison bought three claims in the gold field near Tularosa at \$100 each and in three hours afterward were offered \$250 per claim and refused the offer.

There is considerable excitement at Lamy at present, caused by a reported strike of fine copper ore on the Lamy grant owned by the Onderdonk Live Stock company. There is a shaft sixty feet deep and they are in good ore. They also have a fine body of coal.

Foreman Fricke, of the Mamie Richmond mine, informs the Hillsboro Advocate that large bodies of ore are being opened up in that property. With the opening up of new ground and the renovating of many of the old workings the mine will become a good producer.

The Miller Mines Development company is making an effort to manufacture a number of commercial products out of the white sands of Otero county. Lime and plaster of Paris have been the subjects of experiment so far and they are claiming a good product. They claim it makes good brick, paving chalk, etc.

The Hillsboro Argus says: B. F. Jackson and Pete Pemberton left on Thursday morning for the northern Gila country, where Mr. Jackson has extensive mining interests. They were accompanied on their trip by Messrs. Perry and Kronic. Denver mining experts. From all reports northern Gila country is going to be one of the richest mining sections in Arizona.

The Cerrillos Register says: Judge Neils has brought some fine large specimens of coal in from his new mine and has made a test of its cooking qualities which was very satisfactory. This property should be a great addition to the business of Cerrillos, and will come in especially good play in furnishing fuel for the town. If the fire in the mines at Madrid should prevent their being opened for any length of time.

The Prosper Mining company of Sierra county commenced preliminary work on their properties last week. Upon advice from his company that a new engine and boiler had been shipped Manager Hirsch immediately went to the mines and proceeded to put everything in shape to receive the machinery and put it in place when it arrives. It is understood that the Prosper people expect to go down about 1,000 feet as fast as possible.

A rich strike is reported from Stein's Pass in Grant county. It was made north of the Volcano, and on the main ledge of the camp, which has produced so much ore. When doing the assessment work on the property, just before Christmas, a streak of high grade ore was encountered about fifteen inches wide, which assayed 960 ounces in silver, and three and a fraction ounces in gold. About two tons of this high grade ore are now on the dump ready for shipment.

Work has been resumed on the Aberdeen Copper company's concentration plant near Lordsburg. The machinery is now being placed and no doubt will be ready for running before the close of the present month. In the region of this Malachite where, by the way, the mill is situated, every appearance of a small village is presented to view, which, if everything goes as expected and planned, will in the near future claim, instead of "Aberdeen Camp," some such name as "Aberdeen City."

Manager Kasser, of the Hillsboro Gold Mining and Milling company, is in high feather these days over the opening up of a four foot vein of ore and mineralized matter in the Little Ready Pay mine, says the Advocate. The ore is a good milling proposition and seventy-five tons have already been taken out and hauled to the Porter mill for treatment. Assay returns give this ore a value of \$133.60 in gold, while two feet of the ore in the vein is expected to give an average of \$40 to the ton.

The Raton Range says: F. L. Mulkey, of the Thelma Mining company of Baldy, who has been in the city a few days this week, says the mill of his company will be started to running within the next ten days. A large quantity of good grade ore is now in the bins ready for treatment, and the force of men who have been doing a great deal of "dead" work and development during the past few months will now be put to work getting out ore to keep their mill running. About 20 tons per day will be milled.

The "Sandy" vein was cut in the Little Charlie Tunnel, in the Cooney district, a few days since about 250 feet from entrance. The vein is four feet wide, all ore, with a quartzite (so called) foot wall and blue andesite hanging wall. This is an instance of improvement with depth, since the lode on the surface no signs of being a rover and showed no signs of being a contact vein, so the members of the Mogollon Gold & Copper company have reason to be elated. It is reported they have also encountered good ore in the main Florida tunnel.

The Hillsboro Advocate says: Mr. and Mrs. W. E. Gilpin left for Des Moines. Mr. Gilpin is president and general manager of the Las Animas Gold Mining company and has been here for some time looking after the development of the company's property at the placers. Mr. Gilpin is very much pleased with the showing of ore in the mines, at the depth of 200 feet. The ore, we understand, is high grade gold-copper. We are also informed that Mr. Gilpin will, while east, purchase a complete steam hoisting outfit to be used at the mines, and that work has been temporarily suspended until its arrival.

The Wilson Mining company, of Stein's Pass, has just received from Pittsburgh their first consignment of

four-inch standard iron pipes. Upward of five miles of it will be laid and connections made between their water supply and the mill by March and then silver bullion will be a steady shipment. A force of men are employed at present in taking out the good ore values found in all levels and putting it upon the dump preparatory to starting up the mill. This camp has the promise of a bright future and will probably be one of the best in southwest New Mexico. The ore is silver of high value carrying gold.

A correspondent from Pinos Altos to the Silver City Enterprise says: As is well known, Pinos Altos has been a steady gold producing camp for many years and there is every reason to believe that we are entering upon a period of greater prosperity than we have ever known before. Men who were formerly working for wages are now prospecting or working claims of their own. Many excellent prospects are reported, and the mines on the west side of the mountains, and the Mountain Key give promise of soon becoming large producers. Two concentrators and one mill are running full capacity every day and it has been limited that the company mines may be in operation again before a great while. The mountains around Pinos Altos have much gold to be given up and our citizens will never rest until they secure more of it.

### REVIVING THE OLD CAMPS.

#### Rail Extensions in New Mexico Reach Long Idle Mines.

A correspondent writing to the Denver News from Silver City, says:

Galliville, formerly a prominent mining camp, has been resurrected, and the name of the postoffice changed to Paradise. It is making regular shipments of ores and as soon as the Biscay road is running ore will be shipped by that road, lessening the haul by fourteen miles. After lying dead so many years, this camp promises to be a leading one.

The Colorado Fuel & Iron company of Fierro is now making a daily shipment of fifteen car loads. A new loading machine has been ordered, which is a great labor-saving device, and the output will be thereby increased.

California capitalists are backing a plan to enlarge the smelter at Lordsburg. The future outlook justifies improvements and new reduction works will be well supported.

The success of Richard Lee's invention of a concentrator for the treatment of low grades ore is being watched with great interest by mine operators at Pinos Altos. That it is a success is proven by the fact that the tailings which have been worked five times by other concentrators are being made to pay. The advantage may also be seen that while other machines handle only about one ton per hour, the new invention handles five. This will give to Pinos Altos new life, as the base ore in the mountains can be successfully worked.

The seven claims owned by the Michigan-New Mexico Copper company in the Burros are being rapidly developed and a car load of ore is now on the dump ready for shipment. Assays dump ore of value of 100 per cent. show an average of \$5.50 in gold and silver. The results are more than satisfactory to those in charge, three foot veins of ore being common, and increasing in size and value with depth.

In the Virginia district the Arizona Copper company is working a force of men on its property. Drifts have been run from a hundred-foot shaft and shipping ore is being rapidly taken out.

A flow of gas has been struck at Santa Rosa, Guadalupe county, which burns above the mouth of the well until extinguished. A boiling sound issues from the well and a flow of oil is expected soon. These lands adjoin those owned by the Great Western Oil company of New Mexico.

### RICH GOLD STRIKE.

#### Made Within Eight Miles of Town of Tularosa.

A rich gold strike was made last Friday, eight miles northeast of Tularosa, by Frank P. Clark, A. L. Douglass and Fred Gritzmacher. The news spread like fire and prospectors are coming in from Lincoln, Socorro and Dona Ana counties and staking claims. Tularosa people in a body went out to the locality and staked off claims.

Some of the rock brought into town—conglomerate rock—was full of gold, which could be seen plainly without a glass and when panned out showed a long string of free gold and small nuggets. A number of claims have been taken up by different parties and all of them show free gold.

The owners are working their claims. The claims are located four miles from the railroad.—Tularosa Democrat.

### O'Keefe's Bonanza.

The Oasis, Nogales, has the following item regarding the Sonora Milling and Mining company:

Mr. Saxham, who returned from Tularosa reports that one of the mines of the Sonora Milling and Mining company, a good flow of water has been struck, which saves hauling water a long distance.

Monday President Lon O'Keefe, of the Sonora Milling and Mining company, wired John Dessart, treasurer of the company, at Nogales, that the ore body in La Fortuna had greatly improved, and that 500-ounce ore is now being taken out. The new smelting furnace will be shipped the first week in February and will be erected and blown in before the month closes. Mr. O'Keefe wired also that he had bought for the company a copper mine near at hand, the ore from which will be used as flux.

### San Lazarus Gulch.

William Atchison is feeding the hungry and wearing the same good natured smile as of yore.

The cold snap and heavy snow of last week, caused work on the Gold Standard to be suspended for a short time.

We hear that the owners of the North Star mine adjoining the McKinley on the south, have granted a sixty-day option on their property to some eastern capitalists.

Andriano, Hall and Lofnok think the McKinley is all right. They are taking ore from the twenty-five and sixty-foot

## CONSTIPATION.

When your food does not digest properly the bowels become clogged and the liver inactive. The poisons and impurities that should be carried off are thus allowed to accumulate, causing nausea, sick headache, indigestion, dyspepsia and biliousness. The best medicine to cure constipation and prevent these diseases is Hostetter's Stomach Bitters. Try a bottle and be convinced.

## HOSTETTER'S STOMACH BITTERS

levels in which you can see the yellow metal without a glass.

Several parties are working in different mines in Potosi man gulch, just across the mountain, from this camp. Considerable development work is being done and some gold-bearing ore taken out.

All is hum and buzz at the St. Lazarus, have steam up for pumping water and testing the machinery. A good streak of ore has been struck in the tunnel and they expect to find the main ore body soon.

Charles Meyers, superintendent of a group of copper claims near San Antonio, visited the camp and bargained with Superintendent Conner for a fine team of horses. Charley was engineer at the St. Lazarus under Superintendent MacKidon.—Cerrillos Register.

### Cochiti Mining Notes.

Walter Young, an employee in the cyanide department of the mill at Alameda, returned to Madrid.

The most pestiferous individual in any community is the man who never does anything for his town or neighborhood, and is always trying to hinder the man who does.

V. V. Clark, who is well and favorably known in Bland, having at one time had charge of the Bland mill, came up from Albuquerque on a short business trip.

Andy Horn, who lives three miles below Bland, was in town. Mr. Horn is one of our most progressive citizens as is evidenced by the fact that he is willing to make almost any kind of a concession to the Navajo company to induce them to put in a cyanide mill in Bland.

Col. Wm. Jenks, the veteran mining man of this section, came up from Albuquerque and remained a couple of days looking after the interests of the Golden Cochiti Tunnel company, of which he is the superintendent. This company has the most unique tunnel ever possessed, and under the management of Mr. Jenks the tunnel is bound to go through.—Bland Herald.

### RAILROAD IMPROVEMENTS.

#### The Santa Fe Is Double Tracking Its Line Over the Raton Mountains.

It does not look as if the Santa Fe Railway company has any intention at present of giving up its Raton tunnel route from Colorado into New Mexico, as has been rumored from time to time. A large construction force has almost completed the double tracking of the route from Morley, Colo., to the tunnel on the Colorado side. Bridges and viaducts have been widened and steel is supplanting wood. Eighty-pound rails are being laid and the ballast is small hard stone, making a very substantial and smooth roadbed. Considerable filling had to be done. In cutting away additional earth and rock in the cuts to make room for the second track, extensive strata of coal have been uncovered but a few feet beneath the surface, demonstrating that the Raton mountains contain practically an inexhaustible supply of coal.

### COMMITTED SUICIDE.

#### Separated From His Wife, El Paso Man Took Poison.

The El Paso News says that disinherited because his wife was separated from him, Ed. Biron committed suicide in that city Saturday afternoon by swallowing nearly an ounce of laudanum.

Biron was found dead in room No. 4 at the Arlington hotel. He had deliberately planned and carefully executed his plans. The door was securely locked and it was necessary for the authorities to break it open to enter. On the bed they found the lifeless body of Biron with a half emptied two-ounce bottle of laudanum and a letter beside him. The letter was sealed and addressed to his wife at Lordsburg, N. M., and Justice Spencer, who was called in to investigate, opened the missive and read it to endeavor to learn therefrom why the man had taken his own life.

### OF LOCAL INTEREST.

Mrs. A. M. Bergere, who is in Albuquerque on a visit to Mrs. N. B. Field, is quite indisposed and will not be able to return to Santa Fe to take part in the reception at the executive mansion to be held tomorrow evening.

Hon. Thomas Hughes, the ever alert editor of the Albuquerque Citizen, was at Las Vegas yesterday working on behalf of the New Mexico exhibits to the Charleston and St. Louis expositions. He proposes to have the New Mexico exhibit the best of the western commodities at the Louisiana Purchase exposition.

Mayor Amado Chaves will leave for Albuquerque tonight and from that place go to Perea in the Jemez mountains where he will attend to the taking of testimony in the partition suit for the Cañon de San Diego land grant, which testimony will be taken in the later town of the referee in the case.—New Mexican.

### RURAL MAIL DELIVERY.

#### Roswell to Have the First Route in the Territory.

Postmaster Mathews has received notice that the rural route petition of Roswell has been granted and will be established March 1.

As stated in these columns several weeks ago, this route will leave the city limits on North Missouri avenue. The course will then be east to the east line of the John Stone tract, thence south and east to South Springs ranch and return.

Spivy Neatherlin will have charge and will no doubt make an accommodating carrier.—Record.

### Business at Santa Rosa.

Santa Rosa now has fifteen saloons, nine restaurants, eight stores, two lumber yards, two meat markets, two livery stables, three doctors, four law-

yers, three hotels, two barber shops, one bank and another one coming, two churches, two drug stores, two newspapers, two surveyors, two land agents, one blacksmith, a school house, two bakeries, one tailor and two laundries.—Star.

### Stabbing Affray.

On Tuesday evening of last week, about 8 o'clock, a young man named Will Wrislin, in the employ of J. W. Anderson, was walking along Fifth street north of the court house when he was met by a stranger who pushed up close beside him. The young man stepped aside yielding the sidewalk but while doing so was struck a severe blow with a knife on the wrist almost severing it from the arm. The cowardly assailant then ran into an alley and there is no clue as to his identity. The wound was attended to by Messrs. Kinsinger and Bradley and the patient is doing as well as could be hoped for.

Wrislin has not an enemy in the world so far as he knows, and the blow was evidently intended for another.

Yesterday evening the patient left for his home at Big Springs, Tex., and we shall probably hear nothing more of the mysterious and cowardly crime.—Roswell Record.

### REAL ESTATE TRANSFERS.

John A. Lee to Julius Katter, lots 3 and 4, block 2, John A. Lee addition; \$250.

Margaret Scott and husband to A. A. Henry, lots 6 and 7, block 4, Northern addition; \$1.

Aniceto G. de Romero to John A. Bierman, a piece of land near La Vega de Los Pinos, 70x130 varas; \$200.

Maria G. Garcia to Antonio Jose Garcia and wife, a piece of land in the town of Duranes; \$50.

Santiago Baca and wife to Antonio Jose Garcia and wife, a piece of land in the town of Los Duranes; \$100.

Leon Greening to Antonio Jose Garcia and wife, a piece of land in Old Albuquerque, precinct 13; \$40.

Jesus Apodaca and wife to school directors, S. D. 5, a tract of land in precinct 5; \$40.

Nell B. Field to Teofilo Romero, lot 4, block 3, N. J. Sanchez addition; \$90.

### Made a Discovery.

T. S. Roach, who bought a forty-acre farm under the Woodlawn ditch some months ago, found a large number of cantaloupes on the ground and has been feeding them to his cow. She has fattened nicely and is giving the richest of milk and butter, as a result of the diet, its effects being just like that produced by fresh green grass. His horses also are thriving on the same diet, the supply on the farm being ample for all Mr. Roach's animals during the winter.—Roswell Register.

### LAS VEGAS.

#### From the Record.

Pete Lynn is able to be about again after recovering from an attack of the measles.

William B. Strapp, Joe Young and W. H. Strapp returned from a ten days' overland trip to the Red River country.

J. Mink, father of Mrs. W. W. Reed, of Anton Chico, died at that place, aged 88 years. Mr. Mink was a pioneer of Anton Chico having lived in that vicinity for the past fifty years. At a regular meeting of the E. Romero Hose and Fire company L. W. Hild was presented with a beautiful gold badge bearing the following engraved inscription: "Presented by E. Romero Hose and Fire company to ex-Foreman L. W. Hild, 1901."

Adelardo Gonzales started for the El Porvenir mountain resort. He had only gone as far as Jefferson Reynolds' residence, on the Hot Springs boulevard, when his horse took fright at a cow and ran away, smashing his buggy into many pieces. Mr. Gonzales escaped unhurt.

#### From the Optic.

Mrs. Mary E. McMahan was granted absolute divorce from Charles D. McMahan. They are residents of Colfax county. The decree was handed down by Judge W. J. Mills' court.

Mrs. Peabody, who is now visiting in Denver, suffered the misfortune of having her mouth cut by a dentist who allowed an instrument to slip while working on her teeth. She has almost recovered and will return home next Saturday.

Corporal Raymond L. Lewis, United States army, of the recruiting station at Trinidad, Colo., is in town looking over the ground with a view of establishing a recruiting station here. He has placed recruiting posters in many conspicuous places, which give all the information regarding enlistments.

The postoffice authorities have granted a daily mail between Las Vegas and Santa Rosa to begin at once, instead of waiting until the first part of July. Eugenio Romero, who operates the stage line between this city and the new Rock Island metropolis will also carry the mail. This will be of great advantage to Las Vegas merchants and also to travelers who desire to make Rock Island points.

Robbers got in their work at Chihuahua and took everything in sight. They entered the house of Mrs. Lucio Lucero by breaking a window glass and opening the window and took her groceries and clothing. They also entered the house of Mrs. Rebecca Lucero and took her groceries and nearly all of her clothing. It is estimated that from the two houses \$200 worth of clothing was taken. The thief is believed to be known to the officers, but has not yet been arrested.

### CLAYTON.

#### From the Enterprise.

Clayton is a fire company and it seems she ought to have one.

Mrs. A. Wamsley and daughter, Miss Mary, are visiting friends and relatives in Folsom this week.

Little Kathleen, daughter of Mr. and Mrs. J. C. Hill, accidentally burned herself rather seriously with condensed lye last Saturday.

Melvin Thorpe, brother of Mrs. Ellen Taylor, paid Clayton a visit. Melvin is an old timer in Union county and everyone knows him.

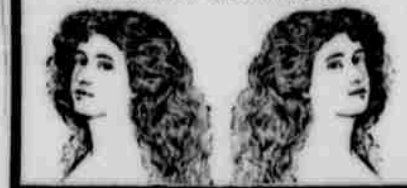

J. W. Inman has accepted the position of night engineer of the Clayton electric light and waterworks plant. Mr. Inman is just out from Missouri

## HALL'S VEGETABLE SICILIAN HAIR RENEWER

Renews the hair, makes new again, restores to freshness, gives new life. Just what you need if your hair is faded or becoming gray, for it always restores the color, and keeps the scalp clean and healthy.

If your druggist cannot supply you, send \$1 to H. P. Hall & Co., Nashville, N. H.

and is a brother of J. P. Inman, of Texas.

### DEMING.

#### From the Headlight.

Mrs. U. E. McDaniels, of Cook's Peak, is now in Deming and will remain for an indefinite period.

R. T. Hall died in the hospital of this city after an illness of only three days.

Mr. Hall came from Camden, N. J. H. Milink, of Garfield avenue, Kansas City, Mo., passed from this life at the hospital at Deming having been sick only five days. Milink was stricken with pneumonia.

Thomas Nantz, attorney for the Golden Cross and Eagle Mining company, and whose home is in Terra Haute, Indiana, left for New Orleans, Louisiana. Mr. Nantz has not been well for some time and thought that a trip to the sunny south might do him good.

### TULAROSA.

#### From the Democrat.

Mrs. John M. Hernandez is sick with pneumonia.

Mrs. Noah Ellis went to Texas to wait on her husband who is very ill and not expected to live.

Why in the name of common sense don't the railroad company place a sign at the depot with the name of this town—Tularosa—on it.

George Carl is completing a fish pond on one of his Sacramento mountain ranches. It will be over ten feet deep and cover some ten acres of land. He will stock it with fish from the government hatcheries.

### ROSWELL.

#### From the Register.

Mrs. J. O. Cameron arrived from Carlsbad to visit a week with her friend, Mrs. W. W. Ogil.

J. M. Powell, one of the instructors in the public school received a telegram announcing the death of his mother in Odessa, Mo., and left for that place.

There are over fifty members in the Carpenters' union of Roswell, forty-five of whom live in the town. At a meeting on Thursday night of last week applications were received from three boss carpenters for workmen, but none were reported idle.

The reception held at the Baptist church last Thursday evening for the new pastor, Rev. Anderson, brought out a goodly number of that congregation. A very pleasant time is reported. The ladies decorated the church with house plants and served refreshments of coffee and cake.

The following local mail contracts have been awarded by the postoffice department. From Roswell to Lincoln, daily except Sunday, to D. W. Scott, for \$1,725; from Roswell to Fort Sumner, once a week, to Jesus Silva, for \$500; from Cloudcroft via Pine Springs, Upper Pecos, Elk, Lower Pecos, and Hope to Stegman, three times a week, to James F. Hinkle, for \$986; and from Weed to Upper Pecos, three times a week, to James F. Hinkle, for \$209.

#### From the Record.

Al Garrett returned from his ranch thirty miles northwest of town, where he started his pumping plant for the winter. Mr. Garrett has two wells there over 400 feet deep, over which he has twenty-five foot windmills. To assist the heavens in furnishing power he has a small steam engine at each place which he runs night and day during the dry season.

H. P. Hobson, who has just returned from a trip to the north, reports that he crossed the trail of the band of horse thieves who stole the herd from Roswell ten days ago. The outlaws, consisting of three whites, one negro and one Mexican, stopped at C. C. Martin's sheep camp, he says, on Tuesday of last week, and after partaking of a sumptuous lunch, took their departure. Before leaving they relieved the herders of a valuable Winchester rifle, which they carried away as a souvenir of their visit.

The celebrated case against Gus Lard, of Hagerman, came to an end this week. About four years ago the young man was tried before the district court and fined \$500 for an assault with a deadly weapon. The case was appealed to the territorial supreme court, and the decision of the lower court affirmed, because of the non-appearance of the defendant. Before any further action was taken J. T. Lard, the father of the offender, called on the clerk of the court in Roswell and paid the fine and costs, amounting in all to \$569.25.

### RATON.

#### From the Range.

A defective blue drove our Methodist friends from their usual place of worship last Sunday.

L. E. Whitted, of San Marcial, is vis-

iting with his brother, C. A. Whitted, and sister, Mrs. Myers, in this city.

Mrs. Ben Hays and children left for Trinidad, where they will visit for some time with the former's parents. Mrs. Hays and youngest child are in delicate health.

George J. Speer, of Greeley, Colo., who about a year ago asked the city of Raton for a franchise to put in a competing telephone system at this place, is in the city this week.

George J. Speer, representing the Independent Telephone company of Colorado, made application to the city council at the meeting of that body held Tuesday night, for a franchise to establish a telephone system in this city. The matter was referred to a special committee.

The O. K. O. dance which, by the way, was one of the most delightful functions the club has ever given, was arranged as a farewell to Miss Sarah Mendelsohn, who left Raton for her home at Madison, Wis. It is her purpose to enter the state university at that place for a four years' course.

### CERRILLOS.

#### From the Register.

John Kouhy has been suffering with rheumatism this week.

W. W. Musgrave, who has been quite sick is again able to be out.

Miss Frances Gregory has been quite sick with the toothache for a few days past.

John Hazel, a former resident of Cerrillos, has been visiting friends here this week.

Hall & Leavard, the leading music dealers of Albuquerque, were in Cerrillos on business.

Miss Amelia Rogers went to Lamy for a visit with her sister, Mrs. E. E. Herrmann.

A. Young left for Pecos, where he has charge of some building at W. P. Gould's coal mines. He expects to be employed there for several weeks.

The following is a list of the scholars of the primary department of the Cerrillos school who were neither absent nor tardy during the fourth month: Maud Palmer, Cynthia Harney, Johnnie Green, Angelina Vergola, Eulah Hartley, Vina Rogers, Vicie Green, Leonard Hartley, Eugene Jackson, Clara Lambdin, Maggie O'Donnell, Joe O'Donnell, Hattie Green, Pauline Kinsell, Mabel Palmer, Clyde Jackson and Bonnie Neils. Miss Burta Rogers, teacher.

M. A. Ortiz, of Santa Fe, spent Sunday in the city.

Louis Trining and Walter Connell spent Sunday in Los Lunas.

F. J. Holmes, a prominent stockman of Lamar, Colorado, is spending a few days in the city.

D. C. Osmun, Jr., special examiner for the London and Lancashire Fire Insurance company, is in the city.

It is reported that John Kenney, who formerly lived in this city died at the Sisters' hospital at Santa Fe last week.

Louis McRae, who is a full fledged sheep raiser out in the Chilli neighborhood, is in the city for a few days.

Wm. Dunbar and wife, returned to their home near Chilli this morning after a three weeks' visit with friends in the city.

Miss M. Dailey, who has been stopping the past few weeks at 305 South Broadway expects to leave in a few days for El Paso.

Mrs. B. Hild left this morning for an extended visit with friends and relatives in Chicago. She expects to be gone two months.

Miss Katherine Graves returned to her home at Belen last night after spending Saturday and Sunday in the city shopping and visiting.

F. W. Voorhees, who was in the photographic business here, selling out a short time ago to W. C. Rutman, is now located, with his family, in Dallas, Texas.

## ARMY BOARD.

It is a Notable Board of High Ranking Army Officers.

### FEW INTERESTING FACTS.

The army board lately in session in Washington is remarkable in many respects. In the matter of military rank it is the most important board ever constituted in the history of the army of the United States.

Stated in the order of their final rank, the membership of the board is as follows:

Lieutenant General Nelson A. Miles, commanding the army.

Major General John R. Brooke, commanding the department of the east.

Major General Elwell S. Otis, commanding the department of the lakes.

Major General S. B. M. Young, commanding the department of California.

Major General Arthur MacArthur, commanding the department of Colorado.

Brigadier General John C. Bates, commanding the department of the Missouri.

Brigadier General George M. Randall, commanding the department of Columbia.

Brigadier General William A. Kobbie, commanding the department of the Missouri.

Colonel Wallace F. Randolph, chief of artillery.

Lieutenant Colonel Samuel Reber, aide-de-camp to General Miles, who is also recorder of the board.

### BUSINESS OF THE BOARD.

The business of the board is commensurate with its rank. It involves two important questions: first, the reorganization of the existing system of military posts, and second, the selection of sites for four large camps in different sections of the country, suitable for military maneuver on an extensive scale.

It will be for the board to say whether any of the existing posts shall be abandoned, reduced, or enlarged, and whether the interests of the service require the establishment of new posts along important lines of travel.

The present policy of the department is to concentrate the troops as far as possible near points of strategic value, and to abandon many of the smaller posts in the west and southwest, the necessity for which ceased with the pacification of the Indians.

The posts guarding the approaches on the Atlantic and Pacific oceans and the Gulf of Mexico will be strengthened from time to time and similar course will naturally be followed with respect to the posts on the Canadian border and the Mexican frontier.

### OPPOSITION TO LOSING POSTS.

The location of a military post means considerable loss to many of the small towns in the interior, and those now so favored will make a most vigorous protest against a change. It is undoubtedly beneficial to small communities to have in their neighborhood army posts, large or small, for that means a certain share of the expenditures of the soldiers every day. It is stated as a fact that some villages are entirely maintained in that way.

It is, therefore, not surprising that considerable political pressure is being exercised to influence the action of the board with respect to the posts. Senators and representatives have been heard by the board, either in opposition to the removal of a post or in favor of the establishment of one, and numerous and voluminous arguments have been submitted to the board by various municipalities where interests are affected. Inasmuch as the board's sessions are secret these protests and appeals are made almost entirely by correspondence.

Extensive military movements are projected for the instruction camps modeled after those of the French, German and British armies; the citizen soldiery of the different states will cooperate with the regular army in all the field maneuvers. The plan is a big one and most important from a military standpoint, and the national guardmen all over the country are working with the military authorities for its accomplishment.

### LOCATIONS MADE.

The Associated Press dispatch of yesterday gave out the information that the army board had made its recommendations as to the establishment of new army posts and camps as follows:

One for a regiment of infantry in the vicinity of Los Angeles, Cal.

One for a regiment of cavalry on the camp site of Natchez, Miss.

One for a regiment of infantry in the vicinity of Albuquerque, N. M.

One for a regiment of infantry on Governor's Island, New York harbor.

One for a regiment of infantry in the vicinity of Washington, D. C., north of the Potomac.

One for a battalion of infantry in Red River valley, in the vicinity of Crookston.

One for a regiment of infantry on the camp site of Concho valley, Pa., where practicable.

The sites recommended for four permanent camps are:

In the vicinity of Chickamauga Park, Ga.; Fort Riley, Kan.; Concho valley, Pa.; Natchez, Miss.

One for a regiment of infantry in the vicinity of Monterey and San Luis Obispo counties, Cal.

BRIGADIER GENERAL, MACARTHUR.

Brigadier General MacArthur, a member of the army board, is now on his way to the posts in the department of Colorado, and will undoubtedly reach this city tonight. Yesterday the board received a dispatch stating that the brigadier general was coming to New Mexico and Arizona on a tour of inspection, and when the dispatch was shown President Marron, of the Commercial club, he took some action toward arranging a reception for the distinguished army officer. A committee was appointed to go up the road this morning and meet the brigadier general, but last night Mr. Marron received a telegram from the army officer, stating that he would be unable to stop over here going, but had intended to be with the Albuquerque people a day or two on his return from a visit to the posts, hence the committee did not make the trip this morning, but, with other citizens, will be at the depot tonight to meet and greet the general.

McKinley County Court Fund.

The court fund of McKinley county now on hand is \$3,115, more than

enough to pay for two terms of court, it is hoped that Judge Baker will hold a session here soon. The matter is in his hands, as the last legislature set no time for holding court in this county.—Republican.

### W. C. T. U. COLUMN.

The most talked of man in America today is Andrew Carnegie and what he says is not infallible, yet when he speaks people usually listen. In an address before a railroad Y. M. C. A. recently, he said: "A drinking man should have no place in a railway system." This remark, whilst neither original nor brilliant, has a certain value because of its truth and because the many Scotchman said it. He might have added, "The drinking man has no place anywhere," least of all in the railway system, but he did not. He is a product of the nation, and there is a certain incongruity in criticizing the institution which made him thus, when the American public is not slow to observe.

The Chicago American, in one of its editorials quite lately, calls attention to the laughter and gibes indulged in by persons when a drunk man staggers along the street and comments thus: "The sight of a drunken man going home should make every other man and woman sad and sympathetic and horrible as the sight is, it should be useful by inspiring those who see it with a resolution to avoid the drink habit, and help others to avoid it. Now a good way to help others avoid this terrible disease and avoid it ourselves is to do away with the factories which make drunkards, viz., the 'legalized drink shops.' For the past few years the Chicago Tribune has each year published a statement regarding crimes of violence in the United States. This report is based upon what the news dispatches bring to the Tribune office. According to Tribune figures, in the year 1901 there were 820 murders committed as the direct outcome of drink. The same statistics give 4,646 murders as the outcome of quarrels. It is a matter of common knowledge that few quarrels end in murder when the principals are both sober, but accepting the more conservative figures, 820 murders stand as a charge of appalling blackness against the saloon. The sale of intoxicating drink under any regulation by any method produces crime—makes murder. Murder touches us closely enough at times. The whole country stood appalled when a single murder was committed in Buffalo last year, but how long can the legalized liquor traffic spatter the blood of its crimes in the face of Christian and civilized people. In the early morn of Sabbath day, January 26, 1902, in the cultured city of Boston, Michael Kilroy reeled home with pockets empty of money. His wife timidly asked for money for the necessities which were staring them in the face. He answered her by a blow which knocked her to the floor, and, crouching back her cry for mercy he kicked her with his heavy boots. Then he sat on the floor and listened to her moans. When her little five-year-old girl, answer her pitiful cry for 'water,' put the cup to her bloody, thirsting lips, he struck the cup from her hands—a brute. Granted, yet the American saloon is turning out such brutes every day. No other agency has ever been found in the history of the race to induce men to such deeds except drink. Drink is preparing more Michael Kilroys. So many many tragedies drink inspire that the public scarce pause to note one, more or less. They are so common they attract no attention. A remedy has been suggested in socialism, the idea being that the love of gain is the prime motive of the existence of the saloon. Socialism had its beginning in the greatest beer drinking nation in the world and whilst it is gaining widespread interest, so far it has had no appreciable effect upon decreasing the drink evil. When socialism embodies in a practical form the extinction of the liquor traffic, then will temperance hosts unite under the socialist banner for that is what we stand for—not regulation, but the total and entire annihilation of the legalized liquor traffic.

MRS. G. E. WILSON.

Press Reporter W. C. T. U.

NEW ELECTRIC ENGINES.

The Shops, New Alvarado Hotel and

Depots to be Lighted.

The second of the new electric engines recently purchased by the Santa Fe for the local shops, arrived yesterday and is being placed in position on a cement foundation beside the other which arrived a week ago. Both are of the Ideal make and are just alike, each having the power to give 150 A. W. or of furnishing 480 volts.

These engines are to furnish light for all the Santa Fe buildings in Albuquerque including the new Alvarado hotel and depot, and power for the round house turn table and the new transfer table which is to be placed between the boiler and machine shops. They will also furnish the motive power for several other smaller dynamo in the mechanical department, one of which will furnish power for 20 horse power engine hoist. This hoist is being made in the Topeka shops now, and when installed in its position at the local shops will lift any locomotive on the entire system, and do away with the danger and work now experienced in jacking and blocking. Mr. Ross, the electrical engineer who is overseeing the work which is done by contractors, was kind enough to give The Citizen reporter the data on the number of lights in the different departments, which are as follows: Round house 80 incandescent, boiler shop 20 incandescent and two arcs, machine shops 210 incandescent and four arcs; Alvarado hotel and depot 735 incandescent and 120 incandescent in the offices, making all told 1,168 incandescent and six arcs.

Mr. Ross says that this plant here when completed will be the best and most expensive on the whole Santa Fe system, costing in all about \$38,000.

Shade Trees.

Editors Citizen: In advocating the planting of shade trees which you urge the city authorities and citizens in the Highlands to plant a row of trees in the middle of Broadway? That street is one hundred feet wide and with trees in the center it would make one of the most beautiful, shady drives in the city. As it is, it is hot, dry and dusty, while with the trees it would be cool and shady.

Why do we require a street eighty

or one hundred feet wide in the residence portion of the city unless we plant the center with trees? That was evidently the intention of those who laid out the Highlands. It is a common practice in California to have broad drives with trees in the center, and they are frequented more than any other portions of the city. The cost to the city would be but little, much less than keeping in repair such a wide avenue, and in that case there would be no walks or the trees to interfere with. Why not treat Railroad avenue, east, the same way? E. S. STOVER.

### LINCOLN'S BIRTHDAY.

Remembered and Celebrated by the W. R. C. and G. A. R. Members.

The ladies of the Albuquerque W. R. C. and members of G. A. R. Warren post, No. 5, celebrated Lincoln's birthday anniversary last night at the home of Mrs. A. D. Whitson on South Second street, in a very admirable manner.

Mrs. Whitson was assisted in receiving by Mrs. L. H. Shoemaker. The parlor and dining room were tastefully decorated with the American emblem of liberty and hunting of red, white and blue. The early part of the evening was spent with the ladies in one room, talking over arrangements for the future, and the veterans of the sixties, recounting reminiscences of the martyred president. The following patriotic program was rendered:

Song—"America," by the company.

Duet—Patriotic melody, Miss Myrtle Rams and Mrs. Grace Murray.

Recitation—"The Soldier and His Son," Mrs. Nothum.

Violin Solo—Professor DiMauro.

Vocal and Walzing Solo—B. Ruppe.

Vocal Solo—Mrs. P. T. Isherwood.

Vocal Solo—Mrs. L. J. Shoemaker.

Mrs. Eugene Murray and Mrs. L. H. Shoemaker presided at the piano.

After the enjoyable program was finished the guests retired to the dining room, where a bountiful supper awaited them.

The ladies of the Relief Corps felt especially honored last night in having with them as a guest Mrs. Breene, president of the E. A. Baxter corps, of Chicago.

### SHEEP INTERESTS.

New Mexico Sheepmen Expect a Favorable Spring.

Superintendent H. O. Bursum, who spent the past two weeks in Socorro county looking after sheep interests of Bursum & McMillan, informs the New Mexican that considerable snow has fallen in the Manzano, Gila and San Andres mountains during the past ten days, and that the outlook is a favorable spring for the sheep industry in that section is very good.

Col. J. Francisco Chavez has also received information from southeastern Valencia county to the effect that some snow has fallen in that section and that matters connected with sheep look very well.

From Rio Arriba county, however, comes the report that the range is quite dry and although many of the Rio Arriba county sheep are now pasturing in the central portions of the territory, still the ranges of that section are overstocked.

In northeastern New Mexico, although not much snow has fallen this season, the range is in very fair condition.

In Valencia and Socorro counties snow has fallen and matters are very favorable.

Upon the whole the outlook for the sheep growers for the coming spring is fairly hopeful.

EASTERN MONEY IN MINES.

Large Mill Under Way in the Tres Piedras District.

A correspondent writing to the Denver News from Tres Piedras, N. M., says:

The Fraser mountain Copper company, composed of New York and New Jersey capitalists, is carrying on extensive operations of the Honda, about forty miles east of Tres Piedras. Wm. Frazer, the locator and former owner, is a general manager, still owning a large interest in the property. The company is erecting large reduction works. The mill building will be 100x170 feet and will be four stories high and will contain four Polton water wheels, air compressor, electric light plant, five double decker Wilfley & Bartlett concentrating tables, and crushers, six sets of rolls and ore storage bins. Water will be used for power, of which they have an abundance. The plant is being built with a view of enlarging to a plant that will handle 500 to 700 tons per day. Present capacity, 200 tons.

Some 5,000 feet of pipe is on the ground and being placed for carrying the water to the plant. They have a double track gravity tram, 2,300 feet in length and 35 per cent grade. About 1,200 feet of track has been laid. Ten heavy freight trains are kept going from Tres Piedras to the mine, getting in machinery.

The ore body, which is over 100 feet in width, runs from \$5 to \$7 in gold and copper. About 5,000 feet of development tunnels have been done, showing millions of tons of ore in sight. This plant will employ from 200 to 500 men when completed, which will be in the next six months. The benefit to northern New Mexico can hardly be estimated. All lines of trade have been stimulated and the prospects are good for a very busy season in the camp.

### RONANZA PROVEN.

Nuggets and Wire Gold in Bonito Ledge Assaying \$10,000 Per Ton.

A special dispatch from Captain, N. M. to the Denver News says:

Messrs. B. A. and Collard, who own the remarkable Free Gold claim in the new Klondike in the Bonito, are showing that property up rapidly. This week, at a depth of about twenty feet, the tunnel, which was being driven in the direction of the ore bodies, cut the vein, which at this depth, shows considerably more free gold than the surface rock, from which the sample rock was taken which returned such high values. The gold is distributed across the entire face of the tunnel in the form of wire gold and nuggets, some of which are as large as peas. These gentlemen are having several thousand pounds of the ore taken out for a mill test, which they will have made before operations are commenced for developing the ore bodies further.

Up to date over 100 assays have been had from samples picked up along the surface croppings of this vein for a distance of 600 yards, which show

values from a few hundred dollars to \$10,000, thus showing the discovery was not overrated by former assays.

It was reported that Messrs. Byrd and Collard have so. An interest in their holdings in the new Klondike, but the report has not been verified.

### SILVER CITY DEATHS.

Mrs. John C. Carlisle and James S. Carter Added to the Long List.

Silver City Independent, Feb. 11.

Tempest S., wife of James G. Carlisle, died at the home of her parents in this city early this morning. Mrs. Carlisle had been very ill for a couple of weeks past and her death had been erroneously reported several times.

For the past day or so, however, her condition seemed to improve and some hopes were even held out for her recovery, but the long struggle had so exhausted her strength that she commenced sinking yesterday afternoon and passed away at the time stated.

Deceased was the daughter of Mr. and Mrs. John Foley, of this city, and was aged 22 years. She was united in marriage about two years ago to James G. Carlisle, and up until very recently assisted her husband in the conduct of his business of the Grant County Telephone company, being in charge of the central office. Two brothers, Charles and Frank, also survive.

Mrs. Carlisle was always ready to extend a favor, and was consequently very popular with the patrons of the telephone office. She was a good wife and daughter and her untimely death is a severe blow to the bereaved husband and family.

### JAMES S. CARTER.

For the second time within a few weeks have the people of this city been called upon to mourn the death of a prominent citizen, and again has the loss been seemingly harder to bear because of its unexpectedness.

When news became current Friday evening that James S. Carter, vice president of the Silver City National bank, had passed away, it found the vast majority of his friends and acquaintances altogether unprepared for the sad tidings. It was generally known that he was quite seriously ill, but the reports from the sick room, if not particularly encouraging, were by no means discouraging, and it was not until that the crisis was near at hand.

Mr. Carter was taken sick last Sunday morning, and the day following it became apparent to those in attendance that pneumonia had developed. Up until Friday afternoon the patient held his own and was getting along as well as could be expected. At about 5 o'clock a change for the worse occurred, but even then it was not known that he was as critical as he afterward proved to be. Everything known to medical science was resorted to, but it became apparent that long continued ill health had so affected his vitality that he could no longer fight successfully the battle of life. Mr. Carter, too, fully understood this, and after resigning saying: "It's all over—this is the end," and bidding farewell, his spirit winged its flight.

### HOLSON-PAGE.

Miss Mamie Holson and Walter Page Married at the Holson Ranch Home.

A very pretty wedding was solemnized last Wednesday afternoon at 3 o'clock at the beautiful ranch home of Mr. and Mrs. T. W. Holson, at Lone Mountain, where their only daughter, Miss Mamie, picked her betrothed, Walter Page, an industrious and popular young man of this city, says the Silver City Enterprise. The Rev. Mr. Gass, of the Presbyterian church, performed the ceremony in the presence of only the immediate relatives and friends of the young couple. Mr. and Mrs. Page, immediately after the ceremony, drove to the city and went to the pretty home in the northern part of town which the groom had prepared in anticipation of the happy event. The fair young bride counts her friends by the score in Grant county, where she was born and reared. She is the daughter of one of the most substantial gentlemen in this part of the country and is possessed of many accomplishments, which eminently fit her for the new duties of life upon which she has entered. Mr. Page came here from Bloomington, Ill., about three years ago and holds a responsible position with the E. Congrove Hardware company.

### A DELIVERANCE.

El Porvenir Coal Mines, If Operated, Will Remove High Freight Rates.

Quit claim deeds were filed in probate court of San Miguel county from Pablo Rael and wife, Dorothea Duran and wife and Eulogio Duran and wife to Margarito Romero for several hundred acres of land near Mr. Romero's new coal mine, just south of El Porvenir, says the Optic. Several of the new veins discovered by Mr. Romero and Messrs. Howe and Stretch run through the land just made over to Mr. Romero by three quit claim deeds. Some of the veins discovered are three feet in thickness from the outset. These are wedge-shaped, increasing in width as they go along. A gentleman who has no coal to burn unless he pays for this morning remarked that if the El-Porvenir mine was at once worked and proved to be a fine coking coal it would be a lasting deliverance from high freight rates on this product.

### TELEPHONE LINE TO BURROS.

Grant County Telephone Company Expects to Build Such a Line.

The Grant County Telephone company, which has just purchased the Hearst estate line from Silver City to Pinos Altos, is making arrangements to further add to its system by a line to the Burro mountains, says the Independent.

This would be a great convenience to the many miners and ranchmen living in that district, not to mention the people living in the districts already connected with the system.

The company is branching out very extensively, additional improvements being fully warranted by the excellent business being done. New phones are being added to the city list almost daily.

### Marshal Laird Resigns.

A. B. Laird tendered his resignation as marshal of the town of Silver City on Saturday, the same to take effect on the 28th of the present month. Mr. Laird is interested in some valuable mining properties in the Burro mountains, and now that copper has reached a better price, Mr. Laird has determined to devote all of his time to his mining business. His successor will be

elected at the regular monthly meeting of the city council, to be held on the evening of March 3. It seems to be pretty generally understood that Jas. Brent will be chosen to fill the vacancy and certainly no better selection could be made.—Silver City Independent.

### MET DEATH ON THE ROAD.

While En Route to Silver City for Medical Assistance.

Jose Gutierrez, who lives on the Mimbre, was a patient at the ladies' hospital some time ago, suffering from some serious liver trouble. An operation was performed and he so far recovered his health as to return to his home and work. Growing worse last week, he started for Silver City for medical treatment and last Sunday night reached the home of Joseph Baker, where he city, where he was given every care and attention. Monday morning, when the time came to again resume his journey it was found that he was dying and in a short time had passed away. The remains were brought to Silver City and buried.—Independent.

### OFFICIAL MATTERS.

Pension Granted—Territorial Funds—National Guard Appointments.

A pension of \$10 a month has been granted to James Scott, of Aztec, San Juan county.

### TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn received from Fred Miller, collector of Santa Fe county, \$1,195.31 of 1901 taxes; \$56.22 of 1900 taxes, and \$17.69 of 1899 taxes.

NATIONAL GUARD APPOINTMENTS.

Governor Otero has made the following appointments: John W. Fleming, of Silver City, aide-de-camp with the rank of colonel, on the staff of the commander-in-chief of the National Guard of New Mexico; A. P. Tarlington and Robert Gross, of Las Vegas, first lieutenants of the first squadron of cavalry; Rev. George Selby, of Las Vegas, chaplain of the first squadron of cavalry with the rank of captain.

### Civil Service Examinations.

R. W. H. Hines, postmaster, furnished The Citizen information as to civil service examinations which will be held here by the local board, to whom application should be made for blanks and for further information:

February 26.—For assistants in pathology and in physiology, bureau of plant industry, salary \$1,000 per annum; two positions vacant, others likely to be so.

February 27.—For position of meat inspector, bureau of animal industry; a number of existing vacancies, which the department has been unable to fill; salary ranges from \$1,200 to \$1,400.

March 4.—For position of trainmaster in quartermaster's department at large; salary \$900; position at Presidio vacant; other vacancies liable to occur.

March 4-5.—For position of machine designer; vacancy in the United States mint at Philadelphia, at a salary of \$4,500 per day; other vacancies probable.

### "Crooked" "Josh."

The story of "Uncle Josh," which appears on our first page this week is published simply as a matter of justice to our merchants. A "cash in advance" contract was made by the publisher with one M. J. Farrell, but as said Farrell did not meet any of the terms of the agreement the story was not published at the appointed time. After billing the merchants to the tune of \$1.50 per, the wiley Farrell decamped to Kingman, where he tried to work the same game. Look out for "Farrell," "Uncle Josh," or whatever nom de plume he may be sailing under. Turn him down.—Needles Eye.

Although "The Citizen" warned the people along the Santa Fe Pacific to look out for "Uncle Josh" and his schemes, it seems that the fellow got in his work at several towns. He is the worst dead end of them all, and it is strange merchants can be persuaded to bite at his advertising scheme.

### The Curtain Caught Fire.

There was an incident at the Silver City Normal school entertainment not down on the program, says the Independent. It was the first number on the second part, when Ben Jones was swinging lighted torches. The flame from the torch was swung too close to the light curtain provided to partition off the stage and in an instant the inflammable material was afire. To add to the excitement the lights had been extinguished to add to the effect of the act, and the hall was in darkness. Many persons started to rush out and down the stairs, but a stampede was avoided by cool headed ones quickly putting out the fire. After matters had been quieted down the performance was proceeded with. No damage was done to the assembly hall, the curtain being the only thing burned.

### The Beginning of Lent.

Wednesday last, February 13th, was what is known in the church calendar as Ash Wednesday, the opening of the Lenten season. The day was also commemorative of the beginning of the fasting of our Savior for forty days in the wilderness. In like manner, those who observe this season are expected to refrain from all social events during the next forty days, or until Easter Sunday, which occurs Sunday, March 30. The season comes earlier than usual, and somewhat curtails the gaieties of the young people. Only two of the great religious denominations keep Lent.

### Highly Appreciated.

Worthington, Minn., Jan. 1902.

### Dear Sir,

Liquid air given by Mr. Patty was highly appreciated by a large audience. Mr. Patty is a skillful and ready experimenter and conducts the operations in such a way as to make clear as well as interesting. As a lecturer he is apt and easy, of good presence, and produces an excellent impression. Our public was entirely satisfied with the evening.

### Yours,

EDGAR L. PORTER.

### Fish Carried Free.

The United States commissioner of fish and fisheries is sending out fish to be placed in different streams over the country, and all railroads take it upon themselves to carry the fish and the messenger accompanying them free.

### Santa Rosa Rejoices.

Santa Rosa is rapidly coming to the

front and is now rejoicing over another oil well at that place. Oil was struck this time at six hundred feet. There are eight general stores, sixteen saloons, two churches, two lumber yards and other branches of business represented there. A party of wholesale men recently paid a visit to the city with a view of putting in a wholesale jobbing house.

### THE PENSION PLAN.

Pennsylvania Has Paid Out \$536,310 to Superannuated Employees.

Under the pension system adopted by the Pennsylvania Railroad company two years ago, 1,574 employees have been retired and granted allowances, and the company has paid out in the aggregate \$536,310. In 1900 the sum of \$241,020 was disbursed, and last year \$422,290. The system was adopted "for the purpose of enforcing the action of the board of directors, requiring that all officers and employees" of the company shall be relieved from service at the age of 70, and that those from 65 to 69 years, inclusive, who have become physically disqualified after thirty years' service, shall retire from work. The company appropriates \$400,000 annually to meet the expenditure for pensions, and the plan has worked to the satisfaction of both company and employees. Railroad work makes exacting demands upon the workers, and it is to the interest of an efficient railroad company to have in its employ only those who are thoroughly equipped for their duties. Under this wise plan the company has no hesitation about retiring good and faithful servants, who are superannuated, and the provision made for the employees attracts inevitably a higher class of workers, who are inclined to loyalty to the company. Perhaps if other large employers of labor conducting great business enterprises demanding ability and fidelity from employees would note the kind of service rendered to the Pennsylvania Railroad company they will find that the real "community interest" created by this plan is worthy of investigation at least.—Philadelphia Ledger.

### White Swan Killed.

Joe Barnett, who with a party of friends is hunting in the swamps of La Jota, shipped to the city today, consigned to "The St. Elmo" a white swan which he shot and killed yesterday. It is a handsome bird, every feather white, and one of the largest of its kind known to have been killed in this section for years. W. H. Cobb, who is a taxidermist, will stuff the bird for exhibition at "The St. Elmo."

### His Residence Robbed.

A thief entered the residence of Jose Sena Sunday and stole from him \$24 in cash and a quantity of clothing. Jose lives back of the office of La Voz del Pueblo, Douglas avenue and Seventh street. The thief attempted to play a return game Monday night, but Sena fired two shots at him in the night and turned him away. The man screamed at the first shot and may have been hit.—Optic.

Mrs. J. W. Prestel is reported sick with a gripe.

Mrs. F. J. Glover and Miss Cynthia Mabry, popular ladies of Albemarle, are in the metropolis for a few days.

Regular review of Alamo live No. 1, L. O. T. M., this evening at L. O. O. F. hall, at 7:30 o'clock. Mina Corson R. K.

J. H. Letord will leave tonight for Silver City to accept a position as solicitor for the International Correspondence school at that place.

The regular meeting of the Non-Sectarian Benevolent association will not be held tonight, the meeting being postponed until Thursday night.

## Notes from Correspondents

### BELEN.

Special Correspondence.  
Belen, Feb. 7.—Belen was thrown into a state of excitement the first of the week over a mad dog scare. Even dogs were bitten, and all have been killed, but no one has been able to find out to whom the mad dog belongs.

Last Monday, the Heyday club organized a bowling contest, composed of the following four clubs: Stars, Crescents, Senators and Owls. The Stars and Crescents bowled the first game of the series on last Tuesday evening, the score and make-up of the teams are as follows:

**FIRST GAME.**  
Stars—  
C. E. Dillies—19, 28, 48, 68, 86, 105, 114, 131, 141, 171.  
L. C. Becker—30, 60, 89, 108, 117, 124, 149, 169, 195.  
Ed. Kramer—29, 38, 46, 65, 74, 84, 92, 113, 122, 141.  
J. Vieltich—21, 24, 44, 62, 70, 72, 95, 101, 119.  
Miss Hutz—7, 13, 21, 39, 41, 61, 84, 103, 112, 119.  
Mrs. Le Brun—2, 18, 27, 36, 44, 52, 61, 89, 95, 95.  
Mrs. Oyster—2, 28, 36, 53, 69, 77, 83, 92, 99.  
Mrs. Heyerford—1, 9, 28, 37, 46, 56, 65, 79, 88, 108.  
Mr. Ziegler—9, 29, 49, 59, 68, 77, 86, 106, 121, 128.  
Total—1,169.

**Crescents—**  
P. P. Simmons—6, 26, 46, 75, 94, 103, 112, 121, 130, 147.  
William Le Brun—29, 38, 58, 76, 84, 93, 113, 130, 137, 146.  
C. E. French—13, 29, 36, 56, 74, 82, 102, 111, 127, 135.  
Miss K. Graves—9, 17, 36, 45, 54, 74, 92, 100, 109, 126.  
Mrs. P. P. Simmons—13, 31, 39, 56, 64, 72, 81, 89.  
Mrs. P. Dillies—9, 26, 33, 51, 59, 67, 86, 95, 109, 119.  
Mrs. J. Vieltich—0, 19, 24, 24, 25, 28, 37, 46, 46.  
Miss A. Vieltich—6, 12, 19, 27, 35, 35, 39, 47, 65, 73.  
Mr. H. Lantz—8, 14, 23, 36, 49, 62, 69, 84, 92, 102.  
Total—984.

**SECOND GAME.**  
Stars—  
P. H. Dillies—19, 36, 45, 62, 69, 88, 97, 104, 125, 129.  
L. C. Becker—19, 28, 37, 45, 61, 80, 97, 104, 124, 144.  
Ed. Kramer—9, 18, 27, 36, 45, 52, 69, 68, 92.  
J. Vieltich—19, 28, 37, 46, 64, 72, 89, 99, 113, 132.  
Miss Rutz—8, 17, 24, 39, 47, 54, 61, 71, 79.  
Mrs. Le Brun—1, 21, 40, 49, 53, 62, 70, 85, 104, 113.  
Mrs. Oyster—8, 11, 19, 28, 35, 43, 63, 82, 91, 100.  
Mrs. Heyerford—20, 36, 55, 74, 89, 97, 110, 113, 133, 153.  
Mr. Ziegler—17, 24, 44, 61, 69, 99, 128, 147, 156, 183.  
Total—1,125.

**Crescents—**  
P. P. Simmons—19, 28, 37, 45, 54, 84, 114, 144, 174.  
William Le Brun—18, 27, 36, 55, 64, 93, 112, 121, 140, 156.  
C. E. French—17, 25, 33, 49, 49, 69, 79, 86, 106, 125.  
Miss K. Graves—20, 40, 68, 88, 104, 113, 133, 162, 182, 200.  
Mrs. P. P. Simmons—4, 23, 32, 38, 46, 55, 73, 81, 99, 207.  
Mrs. P. Dillies—18, 26, 31, 51, 77, 85, 94, 103, 123, 142.  
Mrs. J. Vieltich—5, 12, 20, 26, 32, 35, 43, 51, 52, 52.  
Miss A. Vieltich—18, 26, 33, 33, 36, 42, 51, 52, 58, 65.  
Mr. H. Lantz—30, 53, 72, 81, 89, 107, 115, 134, 143, 162.  
Total—1,210.

The Stars team average for the two games was 121.43.  
The Crescents team average for the two games was 122.89.  
Miss Frances Graves broke the record for lady bowlers of this town. The former record was 182, held by Miss Bertha Rutz. Mr. Zweiger still holds the men's record of 245.  
The Senators and Owls bowl this evening. The score will be published next week.

Dr. Radcliff spent the past two days in Albuquerque.  
Miss Frances Graves will spend Saturday and Sunday in Albuquerque.  
Many people are afflicted with hard colds, but we hope the pleasant weather we are enjoying will have a tendency to stop the epidemic.  
Mrs. P. Hattie's sister, Mrs. Oyster, of Wisconsin, thinks there is no place like New Mexico for sunshine, and no place like Belen for a good time.

### SILVER CITY.

Special Correspondence.  
Silver City, N. M., Feb. 7.—Active mining operations are being commenced in the Burro mountain district by the operators in that section, since the price of copper has taken some decided jumps upward. The Burros contain some vast bodies of low grade copper ore which can be worked at a good profit at 14 cents or in other words, about \$2 a unit.

The owners of the Sampson mine in the Burros have commenced the erection of a concentrator near their mine, which, when completed, will greatly cheapen the cost of milling their ore. This will enable them to work all their low grade stuff through the concentrator and the high grade will be shipped to the Silver City smelter.

Although the closing down of the Hearst properties at Pinos Altos just a damper on the mining activity of that famous gold camp numerous independent operators are camp and meeting with great success.

The contract for the building of the new Methodist church in this city has been let to a bidder here and the work will be commenced right away. The plans call for an edifice that Silver City will be proud of.

John Brockman, a former business man of this city, who recently made a fortune in Arizona mines, was a visitor in town yesterday on business matters.  
An old cave was discovered in the vicinity of the White mountains last week by some young boys while out hunting, in which was found a skeleton of an Indian and numerous old bows and arrows, old saddles, etc., which from appearances, must have

been in the cave for hundreds of years. It is reported in this city that C. L. Ashton, a well-known mining man, will be appointed by Ben Daniels, United States marshal of Arizona, as his chief deputy.

Roy Hynes, one of Silver City's boys, who has been crippled most of his life, being unable to use either of his legs, returned from New York Friday, where he had been operated upon by some celebrated specialists, and coolly walked off the train after having been forced to walk upon his knees for about ten years. Roy has always been a favorite with residents in this city, and the wonderful cure made every one happy who knows him.

### BERNALILLO.

Special Correspondence.  
Bernalillo, N. M., Feb. 7.—Lorenzo Duran, one of the oldest Indians of the San Felipe pueblo, about twelve miles north of here, died about eight days ago. He was known as an exceptional character of honesty and general good character.

Excitement on the main street of Bernalillo was caused by the runaway of some horses hitched to a wagon, which was loaded high with merchandise. The wagon belonged to Mrs. Weynert, storekeeper at Sandoval, and driver fell from his seat but escaped injury. The horses ran for about two miles and were stopped by Alejandro Nieto, without much damage being done.

Mrs. Francisco C. de Baca is on the sick list. Dr. Lund is attending her. We are expecting to hear some important news from the Sandia mining district soon. There are rumors of some good prospects of ore being located.

J. Bibb was in Albuquerque Thursday visiting friends.  
I. Freudenberg shipped a carload of copper bullion to New York for the Jura Tria Copper company.  
Antonio Montoya is the proud father of a baby boy born a few days ago.  
Ambrosio Lucero lost a child by death last Sunday.

R. Putney spent Thursday in town looking after his mill. He is shipping away a great many carloads of flour. His new large warehouse will be finished in a few days.  
E. Macree, representing the Morcy Mercantile company, of Denver, Colo., visited Bernalillo on Thursday selling goods.

About 12 o'clock Sunday night many of Bernalillo's people were awakened by the report that Mr. Montoya's barn was on fire. I. Freudenberg lost a great quantity of alfalfa hay which had been stored there and was but partly insured. Mr. Hunter lost a large quantity of tobacco, covered with some insurance also. The embers are still smoldering away. Mr. Montoya feels keenly the loss of his barn.

### GOLDEN.

Special Correspondence.  
Golden, Feb. 8.—M. O. Hagan, of the Gypsy Queen mine, spent yesterday in Golden.  
The Old Reliable & Co.'s mill under the management of Zother, Berryman & Wilson, will commence grinding ore next Monday.

The McKinley mine has been worked all the winter by Messrs. Lofnick & Co. and are now getting plenty of free milling ore.  
Frank Montano, of San Pedro, has taken the contract to haul wood and ore for the Old Reliable company's mill at Golden.

Col. H. S. Farley, of New York, representing the Interstate Placer Mining company, has been busy doing the annual assessment work on the company's placer ground south of the Baird.

In the San Lazarus work is going on developing the old Spanish San Lazarus mine. But up to the present writing the old workings of the Spaniards have not been found, but some free gold ore is found once in a while, showing there is a body of ore around there, if it can ever be found.

### SAFE BLOWING.

**Deming Invaded by Burglars, Who Secured Some Money.**  
The particulars of the safe blowing at Deming are as follows from the Headlight:

This city is fast assuming metropolitan airs. No city of any great importance, such as Deming now is, can expect to go any great length of time without having robberies and other first class entertainments happening.

Last week we were compelled to chronicle a first class jail delivery and this week it is a case of safe blowing, and we pause to say that the blowers were artists in their line.

Some time during last Thursday night the grocery store of W. J. Wamel situated on Silver avenue in this city, was broken into and the safe blown open in a very neat manner. As near as can be estimated about \$45 was taken from the safe and a few dollars taken from the cash register, which was not locked.

The thieves entered at the front door, which was not hard to pry open, and touched nothing except the safe and cash register.

Two small railroad checks were also taken, but will do the thieves no good, as payment will at once be stopped.

At about 9:30 o'clock the night mentioned parties were seen walking back and forth on the sidewalk in front of the store, and is now thought that these were the ones who did the work.

Mr. Wamel was away from home at the time, being at his ranch in the Animas valley.

### Alkaloid Poisoning.

Charles Anderwerth, a well-known and popular young farmer of the Florence district, died Wednesday morning from alkaloid poisoning, resulting from the use of milk and butter from a diseased cow. Young Anderwerth was in the prime of his strength, only about 20 years old, and the news of his death comes as a great shock to friends and acquaintances. The burial took place in the Lookout cemetery. There are several cases of like poisoning from the same cause in the lower valley. L. C. Maze being reported as quite ill of same trouble.—Carlsbad Argus.

It has been discovered that Juan Domingo, the Mexican that burglarized the music store of Hall & Leonard,

and is now in the Bernalillo county jail waiting the action of the grand jury, which meets in March, has done time before, both in the territorial penitentiary at Santa Fe and the Dona Ana county jail. In 1895 Domingo was arrested for and convicted of breaking into a grocery store on Gold avenue, owned by R. B. Meyers. For this he served a year in the penitentiary at Santa Fe. Marshal McMillin also has information that he has done time in Dona Ana county jail.

The Brotherhood of Locomotive Engineers, No. 467, held a special meeting yesterday afternoon.

After a pleasant visit to Topoka, Harry Snyder, of the local machine shops, and wife have returned to the city.

The fourth mountain helper is now advertised and the oldest crew applying before February 14 will be assigned to engine No. 758.

The new baggage-master at the local depot is Dick Gentry, formerly bookkeeper at the plumbing establishment of Brockmeier & Cox.

Engine No. 534, which was recently transferred to the Santa Fe Pacific from the Raton division, is to be transferred back to the Raton division.

Miss Grace Kennedy, stenographer of the Santa Fe Central railway, at Santa Fe, has been ill for the past few days and has been confined to her room at the sanitarium.

Two car loads of horses were received on Saturday at Ortiz station for the Santa Fe Central railway and were sent to swell the working herd of that road now in camp near Galisteo.

The local switchmen are hustlers, and they keep the cars in the local yards moving. Trains are made up and sent on to their destinations only a short time after their arrival here.

W. B. Gaskins, master mechanic at the Pecos Valley & Northeastern railway shops at Roswell, left for Hot Springs, Ark., accompanied by his wife. They expect to be absent about three weeks.

W. J. Tomblin, a brakeman on the Pecos Valley & Northeastern, lost two fingers and the tip of the thumb on his right hand in making a link and pin coupling at Eagle View, six miles north of Carlsbad, a few days ago.

J. S. Antoline has completed his contract of building a section of the bus-see road, and has taken a sub-contract on the railroad building between El Paso and Strasburg on the Southern Pacific road. He is now moving his outfit to Rogers.

A new passenger coach has been placed on the run between Lamy and Santa Fe and for this the traveling public is greatly obliged, says the New Mexican. The coach that has been in use for some months was uncomfortable and rickety, but as it has now been replaced, why, all's well that ends well.

The Las Vegas Optic says: George Noyes, who has been connected with the Santa Fe railroad for the past twenty years, has resigned his position as superintendent of the pickling works, which has been his department for some time past, and will leave shortly for Illinois, where he will engage in a similar kind of work.

The Flagstaff Gem says: David Lewis, living two miles east of town, suffered a great loss, when a freight train ran over and killed three fine cows and a heifer belonging to him. This loss falls heavily upon Mr. Lewis, as he is a poor man and has a large family to support. The railroad company would do a just act to promptly pay him the full value of the stock killed.

The Roswell Register says: The train due here from the north at 4:32 p. m., local time, Monday, met with an accident fifteen miles this side of Portales, by which the tender left the rails and cut something like 200 ties in two. The train was considerably delayed, as it took about two hours and a half to get the tender back on the track. It is fortunate that the train was running at a moderate speed, or a very serious accident would have been the result.

### Both Injured.

An accident that resulted rather seriously and which might easily have been much worse, occurred Wednesday, on the old Ellice & Every farm, near Otis, now owned by Beyer & Foush. W. M. Beyer and an employee named Charles Plummer were riding on a hay-train, when in some manner it tumbled off the wagon, and in the fall, Plummer sustained a broken leg and Mr. Beyer a sprained arm. Both came to town for medical attention. Plummer was fixed up and left for his home in Kansas City, he having only come out with the car of horses and bogs recently received by Beyer & Foush.—Carlsbad Argus.

### Military Posts.

A telegram from Washington says that no action will be taken establishing new military encampments in Arizona, or upon the pending question of the reconstruction of Whipple barracks at Prescott, until General MacArthur, who is a member of the board, reports.

Mr. W. A. Parr is at present doing reportorial work for the Albuquerque Citizen, representing that paper in Winslow. He is proving himself apt at the business as well as the lumber, undertaking and contracting business.—Winslow Mail.

Reports from sugar beets raised near Maxwell City, N. M., and shipped to the factory at Rocky Ford, are very favorable. It is assured that a sugar beet factory will be built in a short time in the vicinity of Maxwell City. If sugar beets can be raised there why not here?

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

### Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 70 cents. Druggists or the liquid form embodies the medicinal properties of the solid preparation.

# RHEUMATISM

## A Demon of Pain

Rheumatism seems to take a fiendish delight in torturing its victims. No mode of punishment ever invented by man, or practiced by devil-possession, has caused more bodily suffering, such deep, racking pains, as this pitiless disease. Rheumatism leaves in its trail distorted muscles, crooked and misshapen joints and limbs, and the intense pain and agony endured is reflected in the haggard and furrowed countenance of the sufferer. Rheumatism makes us grow old and decrepit before our time, and many an one in the full vigor of manhood has been suddenly

stricken by this ruthless disease, and made almost as helpless and dependent as an infant. Chained to the invalid's chair or hobbling about on crutches, and continually tormented with pain, the patient in desperation resorts to the use of opiates, which deaden the pain but lead to ruinous habits. There is no disease so aggressive and stubborn as Rheumatism after it becomes well entrenched or fixed in the system, and no liniment or other external application can check it or do any permanent good. Rheumatism is not due to outside influences or causes, but is a constitutional disease, an internal inflammation produced by a too acid condition of the blood. Waste matter that should have been cast out of the body is retained, fermentation takes place, Uric, Lactic and other acids form and are absorbed into the blood, and as it circulates through the system every joint, membrane, tissue and nerve is saturated with these corrosive, irritating acids; when exposure to cold and damp or a spell of indigestion will bring on a fierce attack that almost takes the breath by its suddenness and severity. The parts affected become inflamed and swollen, and every movement is attended with pains that seem to cut like a knife into the tender flesh and nerves. After Rheumatism becomes chronic there is always a soreness and weakness of the back and dull

throbbing pains in the muscles and joints and an ever increasing stiffness of the limbs. This Demon of Pain attacks the old and young, the strong and the weak—no one is exempt, but from middle life to old age is the time when its assaults become most frequent and severe. At this period the vital energies begin to wane, the blood grows weak and thin, and is easily chilled, the circulation becomes uncertain and slow and there is scarcely a moment's freedom from pain in some part of the body.

The treatment of Rheumatism must be internal; some remedy that can reach and neutralize the poisonous acids and cleanse the circulation. S. S. S., a purely vegetable medicine, acts promptly and surely in all Rheumatic cases, purifying and invigorating the impoverished blood, eradicating all impurities from the system, and sending a stream of rich new blood to wash out the irritating particles that are causing the inflammation and pains. In chronic cases, or those developing late in life, S. S. S. is especially effective; it warms and enriches the blood, restores nervous energy and stimulates the failing organs, improves the appetite and digestion, and builds up the general health, thus fortifying the system against the tortures of Rheumatism.

Alkalies, Potash and mineral remedies have an opposite effect, destroying the delicate lining of the stomach and often permanently impairing the constitution. S. S. S. is guaranteed entirely vegetable, and a specific in all Rheumatic troubles. Our Physicians will gladly advise, without charge, all who write them about their case, and we will mail free our special book on Rheumatism.

**SSS**

### LORDSBURG.

From the Liberal.  
W. H. Small is quite sick. He has been confined to his bed for a couple of days.

Invitations have been issued to the wedding of Miss Mary Crocker and the Rev. W. A. Dickey, which will take place at the Methodist church in Lordsburg, Wednesday, February 19, at 8 p. m.

Deputy Sheriff Lee Hubbs, who has been holding down Clifton for the past year, has mysteriously disappeared. He took with him between six and seven hundred dollars of public money, which shortage Sheriff Parks immediately made good.

Miss Pratt has been quite ill, and was forced temporarily to give up her work in the school. She left for St. Luke's hospital in El Paso, where she expects to soon recover her usual health. During her absence Mrs. W. C. Marshall will fill her place as a teacher.

Dr. M. M. Crocker and his family went to church last Sunday night. The above statement is not a matter of news, for they go every Sunday, but it is part of the story. When they returned home they found the house had been invaded by burglars. The doctor's heavy pistol was gone. Mrs. Crocker's fine plush coat was missing. The burglars had taken the glasses used by Mrs. Crocker, his mother, and Miss Crocker's watch, which had been lying on the table was gone. A most catholic sort of a burglar, most anything suited him. Constable McGrath sent an account of the burglary to the officers in various towns. Tuesday Sheriff Baca of Deming picked up the man and he had on him all the goods. He brought him up Tuesday. The stolen goods were identified, the man pleaded guilty, and was sent to jail to await the action of the grand jury. Sheriff Baca took him back, and sent him to Silver City.

### SANTA FE.

From the New Mexican.  
There are 234 convicts in the territorial penitentiary, and they are all busy.

Postmaster Simon Neusbaum received a dispatch from his brother-in-law in Chicago, stating that his eldest brother, Adolph Neusbaum, aged about 50 years, a prominent merchant of Peoria, Ill., who had been visiting his mother in Philadelphia for the past month, died on Saturday noon on a train en route from Washington to Chicago.

Up to date the sum of \$175 has been contributed by citizens and school children of Santa Fe county to the McKinley memorial fund. No other county in the territory has done so well so far.

Earl Sidebottom has just completed the quarterly program for the Fifteen club. It contains the topics for discussion at the next nine meetings, the first of which will occur on February 14. It is a very neat piece of type-writing.

There are 356 pupils at the government Indian school and the school is crowded to its utmost capacity. The health of the institution is first class. None of the younger pupils are being

sent to town as some chickenpox prevails and it is thought best to keep them away. Work of improving the road from the school to the penitentiary and making it into a boulevard is getting on the larger school boys doing it. The county has agreed to furnish the lumber for a couple of cuts necessary and when the road is finished there will be a first class piece of road for about a mile.

### AZTEC.

From the Index.  
Several cases of smallpox are reported in the lower San Juan valley. William Ostrander is ill with pneumonia at the residence of his parents in Aztec.

D. E. Lobato is visiting in Albuquerque and other railroad towns, having accompanied a party there as guide.

If the three boys of Aztec, who shot through the windows and destroyed property at the Center Point school house will call on the board of directors and pay damages, it will save trouble and expense.

John W. Farmer has purchased of W. C. Prewitt of Clarksville, Mo., a 160 acre ranch on the San Juan about eight miles above Farmington. Mr. Farmer expects to move to the new location next spring.

Charles Paine, who is engaged in the pack train business at Oro Fino, came down from the mountains last week and purchased ten big pack mules of Dave Lewis, none of the ten going less than 1,100 pounds.

Aztec people are now agitating the organization of a brass band. We have the material here and it is believed, that a large part of the money necessary can be raised by giving entertainments, suppers, dances, etc. Let the good work proceed.

Dr. West was called to Farmington in consultation with Dr. McEwen on the case of J. Wesley Knight, who is suffering from the effects of a paralytic stroke received some months ago. The patient is reported as convalescing from his illness.

Dr. C. H. Lawson, a dentist of Kansas City, Mo., who was here, has purchased the John McDermott mesa rancho on the La Plata, 160 acres; also the ranch of Leonard Scott and Everett Wright, adjoining, 80 acres each. The last two places were purchased for friends in Kansas City. The sales were made by Judge Granville Pendleton.

Joe Martin has received the contract for carrying the daily mail between Largo and Aztec, at \$700 per annum. James Hartley gets the La Plata contract and P. J. Pilon the Largo route. Contractors are now prohibited from subletting the contracts except by special permission of the department, and then only for an amount equal to that which they themselves receive.

### CARLSBAD.

From the Argus.  
Mumps has been raging in the family of Commissioner J. H. James, the boys just recovering therefrom and Mrs. James now being a victim. The ladies of the library association will give an old fashioned New England dinner to the Carlsbad pub-

### REPEATED FAILURES, THEN RELIEF.

Mr. Wm. L. Hill, of Winston, N. C., at one time a traveling salesman and well known in North and South Carolina and Virginia, says: "Two years ago my blood was in wretched condition, and in addition to other bodily ailments I suffered severely from Rheumatism. After repeated failures to secure relief from the use of other remedies, I began S. S. S., and it acted like a charm. The rheumatic pains left and my general health was built up as well. I have the highest opinion of S. S. S. for it is the only medicine that did me any good."

February 22, Washington's birthday.  
Messrs. Max Young and Thomas J. Joannstone arrived in Carlsbad from Chicago. Mr. Joannstone is one of the most eminent hydraulic engineers in the country, and comes to Carlsbad to look over the irrigation situation and to draw up plans for a permanent structure to replace the old wooden canal flume across the Pecos. Mr. Young has visited here several times before and contemplates investment in real estate.

### FARMINGTON.

From the Hustler.  
Joe Fulcher is seriously ill with an attack of pneumonia.  
Mrs. J. A. Barnett is threatened with an attack of pneumonia.  
Dr. McEwen was called in to treat William Graham for a broken collar bone.  
The Home oil well is now down 100 feet. Some promising indications are developing.

Tom Bryan has sold his Sheep Springs store to George Manning, of Fort Defiance, and will leave for a trip to Phoenix, Arizona.

Dave Lewis drove forty head of mules through town, which he recently purchased from the Hyde Exploring Expedition's stock department.

One of the best indications of San Juan county's improvement is the six to nine months school term, which has this year been provided for, in nearly every precinct in the county. Shows good management on the part of the county superintendent.

Miss Marion Bucher, who will be remembered as residing here last summer, died in Chicago, where she had gone to receive Christian Science treatment. However, her case was practically helpless when she left here.

From the Times.  
Miss Letta Hays has recovered from an attack of tonsillitis.  
J. B. Moore, of Cottonwood Pass, was in town, having sold his trading store. He is on his way to the Congo Free State, South Africa.

George Brown and Barney Harmsden have each contributed \$25 for the enlargement of the Methodist Episcopal church. Harmsden has also secured the contract for the Aztec court house. This means a good building at the "permanent county seat."

Woolman and Denver Waggoner have thoroughly overhauled the drilling machinery at Blake's oil well, and will start the drill next week. They will go down the 1,000 feet for Mr. Blake that the contract specifies, and then start a machine on their own property near West Water.

Chas. Halcomb, of Los Angeles, arrived last night, and today will take charge of the duties as assistant superintendent of the International Correspondence school of all lines in New Mexico and Texas. M. E. Porter has resigned the position of traveling superintendent on account of ill health, and will take charge of the Albuquerque branch and will try to recuperate. Frank Lockwood, who formerly occupied this position, has been transferred to El Paso.

# Railroad Topics

Sunday afternoon the two base ball teams of the local shops will cross bats.

Division No. 124, B. of L. E., will give their first annual ball at Winslow February 21.

Captain Lee left Hillsboro to accept a position with the Santa Fe Central Railway company.

The force of mechanics and boiler-makers at the local shops is receiving new recruits daily.

John Rose, traveling engineer, spent last night in the city, going to Las Vegas this morning.

There was only one section of passenger train No. 2 this morning on account of the light travel.

N. J. Hudson has returned from his vacation and resumed his duties as agent at the Williams depot.

Santa Fe Watch Inspector Sam Vann returned Sunday morning from a trip down the El Paso branch. He was absent a week.

J. H. Shockey, of Cimarron, Kansas, is the new operator at the Cerrillos depot, taking the place of Operator Flynn, who left last week.

Dr. E. B. Shaw, of Las Vegas, and Dr. J. P. Kanter, of Topeka, chief surgeon of the Santa Fe system, arrived in the city this morning on the belated No. 7.

Two car loads of horses were shipped from the Andrews and Joe Hopewell herds, in Sierra county, to do construction work on the Santa Fe Central railroad.

H. L. Howell, of El Paso, has been appointed assistant roadmaster on the Bisbee road, and is now filling that position. Mr. Howell's headquarters are in Deming.

Mrs. N. M. Lee and two daughters, family of the assistant general storekeeper at the local shops, will return tomorrow morning from their protracted visit to Temple, Texas.

Rouge Tudeque, engine watchman at Lamy, has made several trips to Santa Fe on account of injuries received from a blow over the eye while playing shindy last Sunday.

S. P. Coffey, vice president of the United States Brotherhood of Railway Employees, and district manager for New Mexico and Arizona, has established headquarters in this city.

Climaco Trujillo, with a small force of men, has commenced to cut telegraph poles, ties and bridge timber on public land east of Santa Fe. This railroad material will be furnished the Santa Fe Central railway.

W. S. Hopewell, vice president of the Santa Fe Central railway, and Allen G. Kennedy, chief engineer of that road, left for a trip along the surveyed line of the Santa Fe Central railway in southern Santa Fe county.

The Las Vegas Optic says the patrons and employees of the Castaneda hotel are glad to welcome Manager and Mrs. Cheatem home after their tour of eastern cities, including Chicago, Kansas City, St. Louis and Denver.

The local storeroom at the local shops is being remodeled and enlarged. This end of this department is under the supervision of Assistant General Storekeeper N. M. Lee and all cost lines are supplied from this point.

The Rollbrook Argus says: Wednesday afternoon No. 4 struck and killed a heifer belonging to Frank Zuck. The speed the heifer acts on going through this place there is no wonder that stock gets it in the neck occasionally.

J. P. Sherman, traveling auditor of the Santa Fe, with headquarters in Kansas City, has been appointed auditor of freight and passenger receipts of the Santa Fe, Prescott & Phoenix, with headquarters at Prescott, Arizona.

Paul Morton, second vice president of the Santa Fe, and party passed through the city last night in special car No. 229, bound for Old Mexico. It is rumored that his business in this country has something to do with the Roswell extension.

While at work Friday at his Las Vegas shop, as a member of the bridge gang, G. W. Wessel was struck by a heavy plank which he was carrying and his knee badly hurt. He is able to be on the street, but cannot return to work for many days yet.

A bulletin from Topeka states that James Collinson has resigned as general master mechanic and the office has been abolished. F. N. Risteen has been appointed mechanical superintendent for the eastern grand division with headquarters at La Junta.

Roy Gibbons, a Las Vegas machinist apprentice, had his wrist dislocated and a bone fractured by having the heavy weight which closes the door of the round house fall against him. He was sent to the hospital, where an X-ray examination will be held. Serious results are feared.

The second 250-horse power boiler for the electric plant at the local shops has arrived, having had a very speedy trip from the factory at Schenectady. The engine was shipped January 20. All the equipment except one generator is now here. The electricians are making good progress on the installation work.

A quartet of Santa Fe citizens, including L. A. Hughes, J. W. Akers, C. F. Easley and W. B. Price, has located a section of land in southern Santa Fe county and near the line of the proposed Santa Fe Central railway, that contains very fine indications of coal. The tract is being thoroughly prospected for them and they expect to find a good vein of merchantable coal.

Mrs. Ella R. Nevin has petitioned the court to have the will of the late W. G. Nevin probated. The document is holographic and was written in 1884. It provides for the disposition of about \$200,000 worth of property. The petition requests that W. G. Nevin, Jr., be appointed administrator. The heirs at law are a son and a daughter, William G. and Helen, aged respectively 29 and 12 years.

The most sensible move the Santa Fe railway company has made for years was to issue orders prohibiting tips from waiters in dining cars and eating stations. If a person failed to tip one of these colored waiters at the first meal he is served, very little attention is paid him when he answered

the next call for dining car meals. In fact, in a majority of cases, the customer is insulted if he don't respond with the usual tip.

Quite a crowd assembled at the depot this morning to see the new passenger engine, No. 1037, which came down from Las Vegas last night, and returned this morning. No. 1037 is of the prairie type and is the first of that type which the company has recently purchased. The drive wheels are eighty-one inches high and she carries 210 pounds of steam. It pulled nine coaches down from Las Vegas last night and came in six minutes ahead of time. Engineer Jack Lowe and Fireman Burke took her out this morning.

A lot of improved postal cars have been put on the Southern Pacific. The postal cars that have been in use on this road were built years ago and were without any of the modern conveniences. The new ones have no platforms, thus doing away with the blind baggage hole, and the train robber, who lies in wait for the engineer. The cars are lighted with Plintech gas, and warmed with hot water pipes; they are built heavier and stronger than the old ones, and the interior of the car is better arranged and has the modern conveniences for handling the mail. The life of the postal clerk is much safer in these cars, and owing to the conveniences his work is easier than in the old ones.

Experiments which have been in progress for three months to determine definitely the efficiency of electrical lighting of Santa Fe trains have been completed, although there is nothing to announce regarding the result of the tests. The reports of those in charge of the same have been made out and at some time in the future the decision as to whether or not that method of illumination is to have any place on this system will be given out.

About the latest suggestion regarding this way of using electricity as an illuminant is to fit up a car for each train and in it carry all the necessary apparatus for lighting. Thus an electrician would be placed in charge who would be on hand at all times to see the working of the machinery, and in other ways it is believed that such a scheme would have advantages over the plan which has been in vogue.

## UNION DEPOT.

Kansas City Will Be Favored, So Says Paul Morton.

"Kansas City will have a new Union depot soon," said Paul Morton, second vice president of the Santa Fe railway, this morning. "Strictly speaking, the building of depots does not come under my jurisdiction, but the depot will be built, and it will be a good one, too. Nothing less magnificent than the St. Louis depot will do, either. The Santa Fe is in favor of a Union depot in order to maintain its connections with the other roads. I believe that all the other railroads of any consequence want a Union depot. A project to build several depots will not be seriously considered. I don't know when we will get the depot, but from what I hear from those in the operating department of our road, I am convinced that it will be built very soon."

Mr. Morton, who was at the Union depot this morning, said that the Santa Fe was preparing for an immense business on all its lines.

"We have recently begun the expenditure of \$12,000,000 for power and equipment. We are building 4,000 new box cars, a number of tank cars and 200 or 300 coaches, to say nothing of a score or more of locomotives. Within the last two years the Santa Fe has secured many new and distinctive features. We have spent many thousands of dollars in putting down heavier steel rails, replacing dirt ballast with crushed rock and gravel, taking out wooden bridges and substituting steel or iron bridges. Tracks have been straightened and grades leveled and the block signal system introduced. Our trains have all the modern, up-to-date improvements. We have made notable extensions, and now run on our own tracks into Point Richmond and two immense ferry boats transfers freight and passenger trains to San Francisco. There have been other extensions, notably into Oklahoma and from Williams, Ariz., to the Grand Canyon. This canyon is one of the most magnificent bits of scenery in the world. It is twelve miles wide, 200 miles long and from 6,000 to 8,000 feet deep. We are going to build a magnificent hotel there, and make it a popular stopping off place for tourists to California."—Kansas City Star, February 6.

## LAST SPIKE ON BISBEE LINE.

Connection Between the Two Ends Made This Evening.

General Superintendent Choate of the El Paso & Southwestern informed an El Paso News reporter Saturday morning that Bisbee, Benson and Douglas, Ariz., would likely be connected with the Santa Fe at Deming that night. It is the present intention to be moving trains by Wednesday.

The date of running the Bisbee trains from Deming to El Paso via Rincon over the Santa Fe is not definitely fixed, but may be February 15.

This arrangement will continue only until such time as the lines can get through to El Paso over its own tracks.

## Taller Than the Masonic Temple.

The Southern Pacific has issued a series of pictures illustrating the immense trees of California. In one of the pictures, "The grizzly giant" one of the famous trees of the Sierra Nevada mountain district, is compared with the Masonic temple. "The big tree is represented as growing in the middle of State street in front of the temple, and it towers above that gigantic feat of architecture, the tree being 400 feet high, as against the 302 of the temple. The tree's lowest branch is given off opposite the windows of the twelfth story of the building. It is 110 feet in circumference, in the picture occupies the whole of the street, and like a speck in a desert is a hole in the center of the tree, through which an electric car is passing. A second picture shows the tree

as the background for twelve mounted cavaliers.

## CALLED TO LARGER FIELD.

Pastor H. J. Powell Resigns to Take Albuquerque Church.

The regrettable news is announced this week that Rev. Herman J. Powell, who, for two years past, has most acceptably filled the local Baptist pulpit, had received a call to the church at Albuquerque, and that his resignation had been tendered and accepted by the Carlsbad church, says the Argus. Rev. and Mrs. Powell are greatly beloved in this community, and it is with sincere sorrow that their many friends hear of their intended departure. Pastor Powell will remain until the 18th inst., preaching two more Sundays.

The following letter of resignation, offered and accepted Wednesday night, will best explain the reasons for Mr. Powell's action:

Carlsbad, N. M., Feb. 5, 1902.  
To the Baptist Church of Carlsbad, N. M.—Dear Brothers and Sisters: A little over two years ago, at your unexpected call through our loved general missionary, Mr. Crooks, I came to live and labor with you. Though I had then other plans, this seemed to be God's plan. He has richly blessed our united work, although but little of the progress I had hoped for has been made. Now there comes another unexpected call, without the slightest effort on my part, a unanimous and hearty invitation to the pastorate of our church at Albuquerque. Many considerations lead me to believe that it is clearly God's call for service, and in this conviction, I ask you to kindly release me from this pastorate on the 18th inst. This request is made with regret at leaving a loved church and those who have come to be dear co-workers and friends in the church and community. Faithful service of our one blessed Master and sacrifice for His sake, draw His people very close together. But, again, our leaving is with lasting memory of all your kindness, with earnest prayer for the coming of a God-sent and spirited leader as your pastor, and best wishes and hopes for a church continuously united, increasingly enthusiastic and consecrated in the great work of building up the kingdom of God, in winning men to Christ and leading to their spiritual life of love and righteousness in the likeness of the character of Jesus, our Lord. Sincerely, your brother,

HERMAN J. POWELL.

## ROCK ISLAND IS ON DECK.

Has a Cinch of Some Kind With the Mexican Central Railway.

The old story about a rivalry for possession of the Mexican Central has been revived by the departure of Paul Morton's son for Mexico two days ago, says the El Paso News. The control of the Mexican Central passed last May to a syndicate of railway men, including H. Clay Pierce of the "Frisco" and Mr. Simpson, chief owners of the "White Oaks." It goes without saying that the Santa Fe has no finger in the pie. The White Oaks and the Rock Island people have a close traffic arrangement with the Mexican Central probably. All the general offices who come from Mexico consult C. B. Eddy and the Rock Island has put agents in all big cities in the republic, and are advertising largely in the east for tourist business for Mexico. It is also said the express company that does business on Rock Island lines is going to put offices along the Mexican Central, as well as in El Paso. The "Frisco" is preparing to enter Mexico further east, and Pierce may have sold his Mexican Central stock to the Rock Island, if the "Frisco" does not contemplate coming to this city. But it can be safely predicted that the Santa Fe will continue to be ignored as far as possible by the Mexican Central from which it was long ago divorced.

Within two years the Rock Island will build up a passenger traffic through El Paso to and from Mexico that will be far greater than ever. Most of the travel between Mexico and the east goes via Torreon, but the Rock Island will divert a large share in this direction.

## BADLY INJURED.

George Richardson Jumped From a Moving Train and Was Hurt.

As George Richardson, a prominent business man of Alamogordo, who was returning from Carrizozo about 2 o'clock last Sunday morning on a freight train, attempted to jump off at Tularosa, but by some unfortunate mishap he fell on his head, and laid there unconscious until Mr. Kettle and the section boss, who were at the section house, about fifty yards from where the unfortunate man lay, attracted by the groans of the sufferer, hastily went in the direction of the sounds and found Mr. Richardson lying face downward on the ground. He was removed to the section house and medical assistance sent for. The next morning he was taken to the Sanders house, where he now lies in a precarious condition. He has been unconscious nearly all the time since the accident. Dr. Pulliam, who is attending him, claims that the case is a very serious one—concussion of the brain. It is fortunate he was discovered so soon, for in his condition, if he had remained at the place where found, he certainly would have frozen to death. —Tularosa Democrat.

## A NEW DEPOT.

The Bisbee Folks to Commence the Erection of a Depot in Deming.

Last Tuesday W. G. Choate, superintendent of the Bisbee road, was in Deming and held an extended conference with the executive committee of the Business Men's association, relative to obtaining a right of way through the city and ground for the erection of a depot for his road.

Mr. Choate said he would like to come down Railroad boulevard to the junction of Gold avenue, where they proposed to build a depot some 200 feet long by about seventy-five feet in width. Active steps were at once taken to see what could be done toward getting the lots at the corner desired by the company and in a short time Mr. Choate had the assurance of the association that he would be furnished with what he wanted.

To a Deming Headlight reporter, Mr. Choate said: "The people of this city have ever treated our company with the greatest courtesy and we promised them some time ago that there would be a depot built in the city that would be an ornament to the town, and now we are going to make our word good. I want to begin the building of the

track and depot by the first of March, and am satisfied I will be able to do so, for your people are great hustlers when they start to do anything."

The depot, when completed, will be a great convenience, as it is now a long way up to the Bisbee track.

## DROPS THROUGH CARS.

Santa Fe Makes an Important Announcement.

The Santa Fe has anticipated the operation of the new law said to have been adopted by Mexico, preventing Pullman sleepers crossing the border, by announcing that it will at once abandon its through Pullman service from Chicago and Kansas City to the City of Mexico.

The reason assigned is that the cars can not be kept in sanitary condition for such a long journey.

It is believed, however, that the entrance of the Rock Island to El Paso has had something to do with the change in the plans of the Santa Fe. It is rumored that the Rock Island demanded that the Mexican Central give it the same facilities for through Pullman that it was giving the Santa Fe. For some reason, the Mexican Central was obliged to refuse to do this, but it is said that to keep itself on friendly relations with the Rock Island it was obliged to refuse to take through Pullmans from the Santa Fe.

In the future, it will be necessary for passengers for the City of Mexico to change cars at El Paso. A Santa Fe official says:

"The principal cause of the change was because of the length of the run which was found to be too long. The cars could not be kept clean. The recent laws passed by the Mexican government requiring all supplies for these cars to be purchased in that country and also requiring trainmen to be able to speak the Spanish language were also factors."

The service that is to be abandoned is the longest through car line in the world, the one-way distance being nearly 3,000 miles from Chicago and 2,500 from Kansas City. It was established about a year ago and was extensively advertised.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year."—B. Wheeler, Northwood, N. Y. For sale by all druggists.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

## SUICIDE OR HEART FAILURE.

A Man, Named George Sherlock, Found Near Fruitland.

A death from suicide or heart failure occurred near Fruitland Sunday. The facts as ascertained by our special reporter are as follows:

A man was found under a ledge just above the road, a little west of the coal mine, on Sunday evening. J. E. McCarty, returning from Jewett, noticed him lying there and shouted, but receiving no response concluded the man was asleep, and drove on. After being home some time, becoming uneasy over the matter, he sent two boys to wake the fellow up and bring him back. They made the discovery that the man was dead and Mr. McCarty notified the justice of the peace (W. G. Black) who took the matter in hand. A note was found on him which read: "My name is George Sherlock, aged 42, occupation miner of Quarry." They also found lying near him, a pocketknife, some laudanum and a white substance which has since been proven to be cyanide of potassium.

An inquest was held Monday with Dr. McEwen in attendance, who made a postmortem examination, and the jury brought in a verdict that the deceased died of heart trouble. He was buried Tuesday afternoon.

By the way, there is a general opinion since the inquest that the man committed suicide from the fact that the drug found near him was the deadliest of poisons, and there were evidences of his having taken some. At least there was some spread out on a paper near him.

## A Night Alarm.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier of Mannington, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. Sold by Alvarado Pharmacy.

## Millions Put To Work.

The wonderful activity of the new century is shown by an enormous demand for the world's best workers—Dr. King's New Life Pills. For constipation, sick headache, biliousness, or any trouble of stomach, liver or kidneys they're unrivaled. Only 25c at all druggists.

## Delayed Trains.

Considerable consternation was caused at the depot last twenty-four hours by the lateness of all the trains from both east and west. The California limited due here yesterday morning at 11:10 ran into a wreck at Jefferson, Illinois, on the Chicago division and was delayed nine hours, arriving here last night at 8 o'clock. No. 1, due at 10:10 p. m., was four hours late on account of a snow storm in Kansas. No. 2, due here at 8:10 this morning, did not get in till 1:15 this afternoon, the delay being caused by a freight wreck at San Bernardino, California.

The 57th birthday of Mrs. M. C. Zirhut was the occasion of a very agreeable surprise tendered her at the home of her son, W. J. Zirhut, on North Second street, the other day. After the party had assembled and the preparations were complete Mrs. Zirhut was called over from her home on Tijeras avenue to enjoy the pleasant surprise which awaited her, which was complete to the satisfaction of all present. A sumptuous supper had been prepared and among the delicacies that decorated the table was an unusually

## WHERE THERE'S SMOKE

There's fire, the saying runs, and so as a general rule the saying holds true. The fire is unseen, hidden, but the ascending smoke makes its presence undoubted.

Similarly you can argue from eruptions of the skin to corrupt blood. You can't see the blood, but the pimples, boils, etc., which mar the skin surely indicate impure blood. For this reason the medicine which cures these surface blemishes must cure them through the blood.

Dr. Pierce's Golden Medical Discovery purifies the blood, removes the waste and poisonous substances which corrupt it, and thus cures diseases which originate in impure blood, such as boils, pimples, salt-rheum, tetter, eczema, sores, and other painful and disfiguring diseases.

"Golden Medical Discovery" also increases the activity of the blood-making glands, thus increasing the supply of pure blood, rich in the red corpuscles of health.

"It gives me much pleasure to testify to the merits of Dr. Pierce's Golden Medical Discovery," writes Miss Annie Wells, of Pergusson, Wis., wife of Wm. Co. Va. "I can say honestly and candidly that it is the greatest medicine ever compounded for purifying the blood. I suffered terribly with rheumatism, and pimple on the skin and swelling in my knees and feet so that I could not walk. I spent about twenty dollars paying doctors, but received no benefit. A year or two ago I was reading one of your Magazine books and I decided to try Dr. Pierce's Golden Medical Discovery and Favorite Prescription, and am entirely cured."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs.

Dr. Pierce's Pleasant Pellets regulate the bowels.

large and beautifully frosted cake. But here was the greatest surprise of the evening, for when the cake was cut it was filled with sand. After supper a couple of hours were whiled away in a social manner, and it was quite late before the joyful old folks departed for their several homes. Mrs. Zirhut received quite a number of presents as souvenirs of the event. Those present were Messrs. and Mesdames Henry, Loeb, Cuneo, L. H. Darby, W. J. Zirhut, Mrs. Will Barnes, Miss Schoenmaker, George, Willie, Hazel and Gertrude Zirhut.

## The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few doses of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

## A False Item.

Ben Williams, the special officer for the Santa Fe railway, with headquarters at La Junta, came in from the south this morning, and the first thing he did was to hunt up a representative of The Citizen and deny the sensational story sent out from El Paso and published in the Journal-Democrat that a battle had taken place between officers and a band of outlaws operating along the new Rock Island-Paso road, he being credited with giving out the news. Mr. Williams says he knows of no encounter between officers and outlaws, and the article in question was false from top to bottom.

## For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger, of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by all druggists.

## Dances Galore.

Society will be busy this week, regardless of Lent, which begins on Wednesday. Tonight will occur Dr. Harrison's ball at Colombo hall, which promises to be one of the swiftest affairs of the season and Mrs. Walton's class dance at Grant's hall. Tuesday night the Guards will entertain at Grant's hall with dancing. On Wednesday evening several minor affairs are billed to occur. Thursday night the Twentieth Century social club give their second dance and on Friday night will occur Valentine parties galore, the largest of which will be Mrs. Walton's at Grant's hall.

## Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could not hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily." You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co.

## Explosion at Estey City.

News reached White Oaks this morning that five men had been injured in an explosion at Estey City. One of the injured men had an arm blown off and another both of his legs broken. Full particulars not now known. Dr. J. F. Mains was telegraphed this morning to get there, to the scene of the disaster as quickly as possible to treat the wounded.—Eagle.

## Information is Asked By Carnegie.

About fifteen people attended the meeting at the public library last night, to consider a communication from Andrew Carnegie.

In his letter Mr. Carnegie wanted to know the population of Las Vegas; if it has a library now; if so, the kind of building it occupies; the amount of taxes paid by the community for its support; amount that will be guaranteed from taxation, yearly, if he erects

a building; whether a site is available, and if any money has been provided for the erection of a library building.

The questions were earnestly considered and a reply will be sent to Mr. Carnegie within a day or two.—Las Vegas Record.

## TAX EXEMPTION CLAUSE.

Meeting of Citizens to Devise Means to Eliminate That Feature From the Bill Now Before Congress.

The Santa Fe Pacific Railroad company have had a bill introduced in congress which renews the bill passed in congress in aid of the Atlantic & Pacific railroad, which exempts the railroad from taxation upon its right of way.

In 1897 a similar bill was passed by congress giving the Santa Fe Pacific, as the successor of the Atlantic & Pacific, the same exemption. It is now desired to transfer the Santa Fe Pacific to the Santa Fe, and with the same exemption.

The exemption of the railroad from taxation has proved a bone of contention between the company and the counties through which it runs, and the counties have been forced to accept such amounts for taxation as the railroad company has been pleased to grant.

Considering the trouble had in the past over this matter, it was deemed by many of our citizens a good opportunity to make some arrangement whereby the railroad would in the future pay its just share of taxation, and if possible have the clause in the bill now before congress eliminated.

With this object in view a meeting was called by the board of supervisors on Thursday night, which was largely attended by tax payers. The object of the meeting was plainly and pointedly stated by E. M. Doe, who was followed by E. S. Clark in a short talk, explaining what action already been taken. A telegram was read from Delegate Smith, in which he pledged himself to aid the county in obtaining a just taxation from the railroad.

The board of supervisors have asked District Attorney Jones to advise with the district attorneys of Mohave, Navajo, Apache and Yavapai, and urge them to join with Cocchino in the matter, and thus obtain, while there is opportunity, the elimination of the tax exemption clause of the bill now before congress.—Flagstaff Sun.

## Favorite Nearly Everywhere.

Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

## KILLING AT MONTOYA.

One Man Killed—Another Wounded at Montoya.

Last Friday a Portuguese proceeded to land himself with bad whiskey and then wanted to kill every American citizen in Montoya, says the Santa Rosa Star. During his spree he had some difficulty with the saloonkeeper and went out, procured a gun and began shooting at the saloon. The saloonkeeper hid until about 3 o'clock Saturday morning and then went into his saloon to build a fire to get warm. While doing this someone came to the door and tried to gain admittance, and not being admitted as soon as he ought, he began pounding on the door. The saloonkeeper thinking it was the Portuguese told the man to leave, and not being obeyed the saloonkeeper took his shotgun and fired through the door, striking the man in the head and cutting away the upper part of his ear and badly mauling the back part of his head. The saloonkeeper heard the man groaning and stepped outside, and to his surprise and horror he found the man that he had shot was one of his friends and had come to his tent to get some whiskey for his sick wife. The saloonkeeper carried the wounded man in and cared for him, then took a handkerchief and went to Tucuman for a physician. At last reports the wounded man was improving slowly. Sheriff Romero brought the saloonkeeper to Santa Rosa Saturday evening and took him to the county jail at Puerto de Luna.

On Saturday morning the Portuguese renewed his spree and starting down the railroad track he met the section men and began abusing the foreman and then threatening to kill every American. He started toward the foreman, who immediately drew his gun and shot the drunken man through the head and body, killing him instantly. We were unable to learn the names of any of the men.

## BAD LAS VEGAS GIRL.

She Will Not Be Good and Will Be Sent to a Reformatory.

Mabel Bales Potter, whose honey-moon escapades were noted last Thursday, is under official restraint now, while her future is being considered by her friends, says the Las Vegas Record.

On Thursday morning, after her night of revelry, she evaded her husband again, and accompanied by her two male companions of the previous night, she went out to Williams' ranch, three miles west of the city, where they spent the day. When it was growing dark the trio went out to the stock yards and spent the night in a small vacant building. Yesterday morning, Sharum and Trough, her companions, sneaked north on a train and the bride out to Green's ranch, where she spent the day. She returned last evening and went to the Wooster house to await the hour for another engagement she had with a friend. But her plans were frustrated by the officers, who arrested her and placed her in the city jail for safe keeping.

The girl does not seem to realize the enormity of her offense and she hoped and sang in great glee, when not roasting the officers. Her husband, Dallas Potter, accompanied her to the jail, as it was deemed best that she should have company. She did not care for the company, however, and declared she would not live with her husband of three days because she has no affection for him.

The girl is either demented and totally depraved. Her mother is making necessary inquiries and an effort will be made to place Mabel in a Colorado reformatory. In the meantime she will be held under official surveillance.

Mrs. Thomas Hughes is at Santa Fe on a visit to her daughter, Mrs. O. C. Watson.

# STOCK NOTES

Bond Bros. are moving their sheep, 1,300 in number from the vicinity of Wagon Wound to Chabre Springs, San Miguel county.

E. S. Gossy left Flagstaff for Kirkland and Phoenix to look after his bands of sheep ranging in Yavapai and Maricopa counties.

The prediction is that all kinds of stock will open brisk in the spring. Sheep men may feel easy, as mutton and wool will be in demand.

Parties from Texas who drove in 250 cows and heifers are feeding them on Clifton Chisholm's farm, near Roswell, and will look for a range in the spring.

Jim Crockett passed through Alto with 2,200 sheep belonging to W. G. Hamilton, of Roswell, N. M. Says he will ship to Chicago over the new Rock Island road.

Messrs. Stewart and Leather, of San Juan county, lost about five head of their cattle last week from blackleg. They have vaccinated the balance of the herd and no further losses are anticipated.

The Charlaton Argosy says: More cattle buyers will be here this spring than for many years. B. Webster is now on the market for 3-year-olds and C. B. Williamson wants 15,000 steers. Boys, get a move on you.

A 1-month-old bull, "Gold Cross," sold at the "Kritterion" sale at Kansas City for \$2,955, the highest price on record for an animal of this age. He was calved December 1, 1900, and was sired by Sothorn's bull, Improver, out of Grove Maid 230.

Wyatt Johnson has charge of 10,000 acres of the Farris lands fronting on the Pecos river from Five Mile, above Salt creek, to a point somewhere in Eddy county. He gets from 5 to 15 cents per acre from sheepmen who lease the tract for lambing grounds.

George Chasman, the cattle buyer from Denver, Colo., arrived in Deming last Thursday and took a turn among the cattlemen of that section during the next few weeks. Mr. Chasman has bought a large portion of the cattle in that section for years past and by fair business dealings has built up an enviable trade.

There is a boy out on the Gila who was jimmying around the barn the other day and came across some bran which he began to eat. His father saw him. "What are you doing?" he asked. "Eating bran," answered the boy. "Well, for God's sake, son, eat anything you want, but let the horses feed alone this winter."

In common with the policy of the Indian department to lease the Indian lands for stock grazing purposes, it is announced that the Fort Apache reservation will be open for cattlemen to secure leases. All information can be obtained from Major C. W. Crouse, the agent, at Fort Apache.

The White Oaks Eagle says: Wm. Babb, S. Turner and Frank Barksdale, stock men of Sonora, Texas, were at the Baxter Tuesday. They are looking for ranches and are now in the Gallo country for a suitable location. They will move 5,000 head of beef steers into New Mexico as soon as the quarantine is raised.

The Kessler-Lacey company, purchased from E. A. Clayton, of Chaves county, five head of cows, four grade Durham and a buckskin Jersey, and W. A. Johnson says they were "the top of the herd." The buckskin Jersey was sold to C. E. Holt, of Zuber Hollow, that county, who will add it to his fine herd of milk cows.

Two colts by Croesus, the champion trotter, will be trained in the Blue Grass state this year. One of them is at the Lexington track and has gone a quarter in less than 0:36. His dam is a sister to Laramie the Great. The other colt is at the Walnut Hill stock farm and his sire and dam were both sired by Robert McGregor.

The Farmington Hustler says: R. E. Cooper, who recently purchased the Steele ranch on the La Plata, is the owner of some of the finest sheep in the southwest, one imported ram, from the Ballin farm in Germany, costing him \$260. He also has a lamb which took the first prize at the Pueblo, Colo., state fair, over all comers.

Many sheep are being driven into northern Lincoln county from various places in the territory, says the White Oaks Eagle. The abundance of grass and water, resulting from the splendid seasons this year, has caused this trespass from other counties of the territory. It may result, however, in our ranges being overstocked and thereby greatly injuring our own stockmen.

The Roswell Register says: Fritz Brinck, manager for Knollin & Co., of Kansas City, had thirty-five cars of sheep in the vicinity of the River Stock Yards ready to ship to Nickerson to be fed, but received a letter last Saturday from Mr. Knollin instructing him to take the sheep back onto the range, the high price of feed in Kansas making it impracticable to ship and feed them.

A press dispatch circulated last week to the effect that 20,000 sheep were on hay feed at Billings, Mont., of which half "were ready to come to market soon" was a little erroneous. The Drovers' Journal has investigated and found that about that many sheep are being fed in the Yellowstone valley, near Billings, but only 10 per cent. of the number is available for market in the near future.

J. P. White, manager of the Littlefield cattle company, bought a fine young Hereford bull at Kansas City two weeks ago—Armour Record, calved March 31, 1900, and accepted for entry in volume XXII. He was bred by K. B. Armour, of Kansas City; sire St. Louis 46428; dam, Mohammed Maid 4th 60058. He was owned by the Low-ell-Berrell-Witt Live Stock company, of Denver.

Colorado lamb feeders write that they are having an ideal winter out

there for sheep feeding, and the lamba never looked better at this time of the year. As most of the feeders lost money last year they were very particular this season in selecting lambs, insisting on a better cut than those in previous years, consequently the fat lambs to be marketed in the spring will be of better quality than we have received in several years.

The practice begun several years ago by Russian horsemen of purchasing thoroughbred American stallions for breeding purposes has resulted so favorably that now the Russian horses bid fair to rival those of the United States as regards speed. A steady improvement has been noted in light harness stock and now there is a number of very speedy animals in the land of the czar. America formerly stood alone in this line, but if the present indications may be accepted as a criterion, she may soon be forced to divide honors with Russia.

A report was brought to Denver, Colo., by the Rio Grande trainmen that a herd of pure bred Herefords owned by Josiah Welbe in western Utah, were driven before a blizzard that raged into one of the deep cañons that forms the Grand Cañon and plunged to their death. The dead bodies of the cattle were found floating in the river.

The American Cattle Growers' association, composed of leading cattlemen of the west, will meet in Denver on March 4, to discuss public land leasing and other questions affecting the industry. The bill concerning the land leasing now before congress will be a matter for special consideration. The call for the meeting was issued January 31.

Frank Thurmond has just completed the boring of a well near his ranch at Cambray, in Luna county, that proved to be a bonanza. The well is nearly 200 feet in depth and was sunk only about fifty yards from one that had been sunk to the depth of 180 and not a drop of water found. When the vein was first reached the first that was taken out was as clear as a crystal, and a few inches stream, pumped continuously for twenty-four hours failed to lower the water in the well one inch, which is good evidence that an underground river has been tapped. This is a very valuable find as the cattlemen of this section have now only to sink deeper than they have formerly done to make that a good grazing country.

## DIDN'T TELL IT ALL.

Few Solid Stock Facts About Slaughter's Holdings.

P. Penn Anderson, of Amarillo, statistician of the Santa Fe system, speaking of the large cattle and ranch interests in the west, gives the extensive holdings of C. C. Slaughter in the following divisions, says the Roswell Register:

Soda Springs division, 60,000 acres; the home of 5,000 grades; Mustang Fountain ranch, 4,000 acres; 1,000 grades; Sulphur Springs division, 240,000 acres; 10,000 mixed high grades; Buffalo division, 195,000 acres; 15,000 high grade Shorthorns; Rattlesnake ranch, 87,000 acres; 5,000 high grade and pure bred Shorthorns; Tahoka Lake division, 360,000 acres; 6,000 high grades; Ancient Briton ranch, 300,000 acres; 5,000 pure bred unregistered Herefords; Sir Bredwell ranch, 100,000 acres; 14,000 high grades and pure breeds; Santa Fe division, 90,000 acres; 4,000 high grades.

The total acreage of the Slaughter system is 1,436,000 acres, and the total number of cattle about 65,000 head. Mr. Anderson failed to include Colonel Slaughter's large alfalfa ranch, the home of Sir Bredwell and Ancient Briton, two miles from Roswell. This ranch has 309 acres in alfalfa, 1,600 acres in natural grass pasture adjoining the ranch, 900 bull calves, 200 steers, 100 cows and calves, all Herefords, and 150 saddle horses. George M. Slaughter, son of Colonel Slaughter, is manager of the Roswell ranch and H. W. Hamilton is foreman.

## FORCING THE ISSUE.

Cattlemen Have Plan for Demonstrating the Leasing Proposition.

There is a story going the rounds here to the effect that a number of prominent western cattlemen have a plan for forcing the leasing issue. They propose to lease large tracts of railroad land in this and adjoining states and stock them with their own herds, keep all other stock out and show what can be done with public ranges under proper control and without fencing. As the railroad lands are in alternate sections, by leasing the railroad lands the leaseholders would naturally control the use of the government sections, thus giving them two sections for every one they lease. It is said that the plan will be proposed in detail at the coming meeting of the American Cattle Growers' association in Denver the first week in March and an effort made to get as many cattlemen interested as possible.

A number of Wyoming sheep growers have already started this plan along the Union Pacific in southern Wyoming and cattlemen propose to go them one better and gobble all the railroad lands that are left, either by lease or purchase. The proposition has created much excitement where it is known.—Denver Record-Stockman.

## Public Stock Sale Dates.

March 25-27, 1902.—East St. Louis, National Hereford Exchange, T. F. B. Sotham, manager.

April 22-24, 1902.—Kansas City, National Hereford Exchange, T. F. B. Sotham, manager.

May 7-8, 1902.—Kansas City, Collin Cameron, Herefords.

May 27-29, 1902.—Omaha National Hereford Exchange, T. F. B. Sotham, manager.

June 24-26, 1902.—Chicago, National Hereford Exchange, T. F. B. Sotham, manager.

## For a Buffalo Ranch.

A dispatch dated Topeka, Kan., says: "Buffalo" Jones, of this city and Goodnight, Texas, will remain in Washington the greater part of the winter, pushing a claim for a small reservation of land by the government for the es-

tablishment of a buffalo ranch. Mr. Jones asks for a tract of apparently waste land in New Mexico, twelve miles square, which he will agree to irrigate and keep in order. In return for this grant he agrees to furnish the government with two buffaloes each year, valued at \$500 each. Mr. Jones is one of the famous "buffalo" men of the country and has the reputation of having killed more animals of that breed than any other citizen of the United States. He is interested in the Charles Goodnight herd in Texas.

## ALL ABOUT ALBUQUERQUE.

The Las Vegas Record Publishes a Few Paragraphs.

The socialists of Albuquerque are having trouble in making nominations for city officers that will stick. Naturally, some people object to show their weakness in a campaign.

With the two newspapers engaged in a red hot fight, a ferocious church war in full blast, and a three-cornered city election battle in progress, Albuquerque has become quite a lively city.

The Record is slow to anger, but it has a pretty open grave in its back yard awaiting that genial pagan, Al. Coleman, of Santa Rosa. According to the Albuquerque Citizen, Al. stole our entire article on "Cherokee Dora," even to the punctuation, and palmed it off on that paper as his own production. The article of the Record rode seventy-five miles in the hot sun and dust, to obtain the information about Dora and other things, and—well we are anxiously awaiting Al's arrival in the city. That's all!

At Albuquerque they have raised the necessary money to make a New Mexico exhibit at the Charleston exhibition, but they need more ores, grains, wines, fruits and vegetables to make the exhibit complete and worthy of the territory. They solicit such exhibits, which will be transported to Albuquerque free of charge by the Santa Fe Railway company. No doubt, a large exhibit of the products of New Mexico at Charleston will prove of great benefit to the territory, and it is to be hoped all who can will endeavor to add to the collection that will be sent there. Send your specimens, which ought to be shipped at once, to R. W. D. Bryan, Albuquerque.

The Children's Friend.

There is no use trying to persuade American mothers that a substitute exists for Perry Davis' Painkiller. They know how it relieves the troubles of childhood, from sprained arms and legs to stomachache. Other preparations may do good, Painkiller is certain to. A big difference, and one that has been recognized for sixty years. There is but one Painkiller, Perry Davis'.

## MINING NOTES.

Peter M. McCaffrey has sold to the Union Ore Extraction and Reduction company of Denver, the Smith, Spauld, McCaffrey & Spencer mining claims, situated in the San Miguel mining district.

C. W. Maxson, who has been busy with an expert sent to look over the Mineral Mountain company's properties, came down from Stein's Pass Wednesday, says the Lordsburg Liberal.

James Vail returned to Flagstaff from a visit to his mining property on Cherry Creek, Yavapai county. He is well pleased with the prospects and doesn't show any anxiety to unload his possessions for a song.

Edward Blinn, of Lordsburg, well-known in mining circles of Grant county, committed suicide at El Paso by half emptying a phial of laudanum. He was found dead in his room. The cause for the deed was explained in a letter addressed to his wife, which says: "I do not care to live any longer for we cannot agree."

## Buying San Juan Farms.

Charles Price and M. W. Hunt, of Baker, Neb., are the latest arrivals and the most recent investors in San Juan county soil. They came last week and returned home Monday. During their stay they became the owners of three choice farms on the La Plata river.

Price bought the William H. Hughes place consisting of 160 acres, and 80 acres from the Lawrence Ranch & Water company, comprising the James McDermott ranch. Hunt purchased 160 acres from Lewis & Krisher, it being what was known as the Coe place. These gentlemen will remove here with their families in the spring and will engage in the battle for the better development and prosperity of San Juan county, a battle which is on to the laish. The county in general, and our La Plata neighbors in particular, are to be congratulated on the location with us of such men as Messrs. Price and Hunt appear to be. The sales were made through Judge Granville Pendleton—Aztec Index.

## Married People Toughest.

After spending many years collecting data on the subject, Dr. Zilz, the eminent German statistician, announces that married persons live longer than those who are single. The death rate among married persons between 20 and 30 years of age is 3.7 per 1,000, unmarried 8.4; between 30 and 40, married 9.1, unmarried 15.3; between 40 and 50, married 14.2, unmarried 26.5; from 50 to 60, married 24, unmarried 42; between 60 and 70 the proportions are married 45, unmarried 71. These figures prove that the deaths of married persons between 30 and 70 are three-fifths less than the unmarried. The average life of unmarried persons who passed 31 is 55.6, of the married 63.4.

## She Was Adjudged Insane.

Mabel Baird Potter was this morning adjudged insane by Judge W. J. Mills and was immediately committed to the Territorial asylum for the insane. Several persons swore to her mental derangement. It is believed that the girl would not have been guilty of her late conduct had she not been suffering a mental aberration. The case is a pitiable one.—Las Vegas Optic.

## Two Brothers are Called by Death.

On Saturday evening intelligence of the death of Pablo Baca reached this city. He died at his home in Endee on the previous day, aged 60 years.

The deceased gentleman was well known in this city, where he had many friends. This morning Silvano Baca left for Endee to bring the remains to this city for burial.

Yesterday Ramulo Baca, brother of

Pablo Baca, who was among the first to settle on the site of what is now Las Vegas, died yesterday at the home of Mrs. Andres Serna, after a prolonged illness. He was 87 years of age and was very well known throughout the territory, as well as Las Vegas.—Record.

## POLICE COURT.

Justice Crawford Had Before Him a Hard Gang.

Police court was busy this morning. Besides two vagrants, Lackey and Howard by name, who were taken in at the sand house last night, William Bagley, a thief accomplice, and Ed Freeman, colored, a wife beater, received their just deserts.

Bagley, who is held for being an accomplice in some stealing which took place last night at the Ruby house, on South 1st street, came here last Monday morning from San Francisco. Yesterday morning he went to work in the foundry department of the Santa Fe shops. Last night, says Mr. Monahan, who is proprietor of the house where the stealing occurred, Bagley's friend, who has no apparent occupation, came into the house, packed his belongings with Bagley's and a lot of other small articles, such as toilet sets, razors, socks and ties belonging to several of the other roomers in the house and was in the act of getting away when the theft was discovered by the dining room girl, who heard them talking about their plans. A police officer was notified, but before he arrived Bagley's friend, whose name is not known, made his escape, but without taking any of the swag. On account of a lack of evidence this morning, because some of the witnesses did not appear, the case was postponed until 4 o'clock this afternoon.

Freeman, who is an all around bad man and has threatened to do up several people around town, was put under \$250 peace bond, to await the sitting of the grand jury.

## JOHN W. PRICE.

Another Pioneer of the Chilli Neighborhood Yields Up His Life.

Escobosa, Feb. 16.—John W. Price, of Chilli, died this morning at 6 o'clock of a lingering illness. The Escobosa and Chilli saw mills have shut down till after the funeral, Wednesday, at 1 o'clock.

## LEVI CLAYPOOL.

The above letter was received at The Citizen office this morning, and was the first authentic information received of the death of Mr. Price, although Dr. John Roger Haynes, who was his physician and who saw his patient the other day, announced on his return to the city that the old pioneer and saw miller of the Chilli and Manzano mountains was slowly but surely passing away.

A complication of diseases caused his death.

The deceased, with his long waving hair, was a familiar figure in central New Mexico for more than a quarter of a century, and in the good old days, say twenty years ago, he, with Billy Poole and Henry Carpenter, (all dead now) held the gang of rustlers tight in the Chilli vicinity partially under subjection and made it possible for a wayfaring prospector or peddler to pass through the mountains to the east without being waylaid, robbed and even murdered, although in those early times there would occasionally be reported assaults upon travelers from the rustlers.

The deceased was about 63 years of age, and he came over the old Fort Leavenworth-Santa Fe trail as a bulwacker before the great iron horse as a country civilizer penetrated and opened up the southwest. He was accompanied by his wife, old John Gwynn, who died a few years ago at Santa Fe at the advanced age of 80 years. Both came from Kentucky, reared on a blue grass farm on the outskirts of Shelbyville, along the banks of Guist Creek, where the Gwynns, Prices, Wileys and other relatives have lived and died.

John Price was a great character, a typical mountaineer, and, although a true blue democrat, if he had a friend on the other side that friend was sure to run ahead of him in Price's district.

## Peace to the ashes of this mountain pioneer.

## SOLDIERS MOVING.

Uncle Sam Moving His Warriors From Fort to Fort.

An eighteen-car train of United States cavalry troops passed through Denver this afternoon for Fort Huachuca, Ariz. The troops consisted of four officers and 179 men. There were eight cars of horses and the remainder were loaded with trappings, accoutrements and the cavalrymen. They were brought as far as Denver over the Santa Fe at that point.

Just at present the heavy movement of troops contemplated by the war department for some time is in progress. Yesterday two trains passed through. One was occupied by infantry troops for the Philippine service and consisted of ten cars. The other was a cavalry troop of eighty-five men and their horses and accoutrements from Fort Riley, Kan., to Fort D. A. Russell, Wyo. This is the first large addition to posts of the Department of the Colorado and is said to be the initial move toward largely increasing the forces at posts in western departments.

Mrs. Hogan Surprised.

Mrs. Hugh M. Hogan and daughter, Miss Helen, were surprised at the home of Mrs. John Ford, on West Silver avenue, last night, in a very delightful manner. The enjoyable affair was in honor of Mrs. Hogan's approaching departure to her new home at Gallup. The surprise was well planned and complete in every detail. After a couple of hours spent with music and pleasant conversation the well filled baskets were brought forth and a sumptuous supper was enjoyed. Mrs. Hogan expects to leave for Gallup next Sunday. Those fortunate enough to be present at the enjoyable affair last night were: Messrs. and Mesdames C. D. Klumf, Fred Lee, J. E. Franklin, F. H. Anderson, Louis Foutch, Charles Foutch, A. H. Dixon and George Parks.

## Fifteenth Infantry.

The first section of the train carrying 201 of the Fifteenth United States Infantry, who are being transferred from Fort Madison, to San Francisco,

passed through the city at 1:10 this afternoon. Captain S. E. Smiley, the officer in charge, was accompanied by fellow officers, Captain Williambrook and Lieutenants Watkins, Weiser and Chapman.

The second section, carrying 200 men, will pass through the city some time tomorrow morning, in charge of the following officers: Captain Ulme, commanding officer, and Lieutenants Gad Morgan, A. A. Boyce and Joseph Flemming.

## Pioneer Preacher Dead.

Rev. J. M. Dick, one of the pioneer preachers for the United Presbyterian church in Oregon, died at the home of his sister, Mrs. M. Dick, in Las Vegas Saturday night, of heart failure.

He was born in West Moreland county, Pa., in 1817. He entered the ministry early in life and at one time had for his circuit which he covered on horseback, the present states of Ohio, Indiana, Illinois and part of Iowa. He went around the Horn in 1852 and entered the Columbia river valley, where he planted missions and did pioneer work. Mr. Dick was at one time surveyor for the United States government and surveyed a large part of Oregon.

The finishing touches are being put on Putney's warehouse at Bernalillo today.

James D. Lucas, the well known mine expert and examiner, is in the city from Corralles. He will return north tonight.

Mrs. W. E. Wischort is enjoying a visit from her parents, J. H. Garrett and wife, who have just arrived from Camp Point, Ill.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. Hope on Gold avenue tomorrow afternoon at 3 o'clock.

Miss Lizette Humphrey left this morning for Toronto, Ontario, where she intends to visit with friends and relatives until spring.

## TRUSTEE'S SALE.

Whereas, Aurelia Lombardo and Angelo Lombardo, her husband, in and by a certain deed of trust, dated the 30th day of August, 1892, and recorded in book 36, T. D., page 58, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situate in the city of Albuquerque, county of Bernalillo, and territory of New Mexico, to-wit:

Lots numbered eleven (11) and twelve (12), in block letter "B," in the Mandell Business and Residence Addition, in the city of Albuquerque in the county of Bernalillo, and the territory of New Mexico, also sufficient ground to make lot twelve (12) a full lot, fronting twenty-five (25) feet on Third street and one hundred and forty-two (142) feet on Carroll avenue, if said lot was extended west of Third street, as the said lots are known and designated on the map of the said Mandell Business and Residence Addition, filed in the office of the probate clerk and ex-officio recorder for said Bernalillo county, New Mexico, on the third day of February, A. D. 1888, said deed of trust being made to secure the payment of a certain promissory note therein described for twelve hundred (\$1,200) dollars, payable to the First National Bank of Albuquerque, N. M., one day after date, with interest at the rate of twelve per cent per annum. On the said note, however, the sum of four hundred (\$400) dollars had been paid, leaving a balance of eight hundred (\$800) dollars due and unpaid, the whole amount due on said note with interest to the date of said deed of trust, amounting to eight hundred and ten dollars and sixty-six cents (\$810.66).

Whereas the said note is now past due and remains unpaid; now, therefore, at the request of the legal holder of said note, and by virtue of the terms and conditions of said deed of trust, I will on Monday, the 10th day of March, A. D. 1902, at the hour of twelve o'clock noon, of said day, at the front door of the post-office, said city of Albuquerque, New Mexico, sell the real estate hereinbefore described, at public auction to the highest and best bidder for cash, in any said indebtedness, cost and expenses.

M. W. FLORENCE, Trustee.

Dated February 8th, 1902.

## TRUSTEE'S SALE.

Whereas, Jose Sanchez y Montoya, (widower), in and by a certain deed of trust, dated the 13th day of January, 1900, and recorded in book 10, T. D., page 58, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situate in the county of Bernalillo, and territory of New Mexico, to-wit:

A certain piece of land in precinct 29, Atrisco, Bernalillo county, N. M., from north to south twenty (20) yards and east to west thirty (30) yards, bounded north by Juan Jaramillo, south by Jose Jaramillo, west by hills, east by public road and Rafael Armijo.

Also a piece of land in precinct 29, Atrisco, in place known as "La Vega del Monte," Bernalillo county, New Mexico, in width from north to south twenty (20) yards; in length from east to west three hundred (300) yards; bounded north by Higinio Garcia, south by land of second party, east by public road, and west by foothills.

Also a certain piece of land in Atrisco, Bernalillo county, New Mexico, described as follows: Bounded north by land of Jose Sanchez y Montoya, south by lands of Francisco Garcia, east by public road, west by lands of Mr. Al. drich.

Said deed of trust being made to secure the payment of a certain promissory note therein described for \$120 payable to E. C. Wheeler, one year after date, with interest at the rate of 12 per cent per annum, which note, with interest as per terms of said deed of trust, will hereinafter mentioned amount to \$142.80.

Whereas, the said note is past due and together with interest accrued, and unpaid; now, therefore, at the request of the legal holder of the said note, and by virtue of the terms and conditions of said deed of trust, I do hereby give notice that for the purpose of paying said note, interest thereon, taxes, costs and cost of executing this trust, including legal compensation to the trustee and his reasonable attorney's fees, as provided by said deed of trust, I will, on Monday, the 24th day of February, A. D. 1902, at the hour of 12:30 o'clock p. m., of said day, at the front door of the postoffice in said city of Albuquerque, New Mexico, sell the real estate hereinbefore described, at public auction, to the highest bidder and best bidder for cash, to pay said indebtedness, costs and expenses.

JOHN M. MOORE, Trustee.

Dated Jan. 24, 1902.

## Kodol Dyspepsia Cure.

Digests what you eat.

This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

## Cures all stomach troubles.

Prepared only by E. C. DeWitt & Co., Chicago.

The \$1 bottle contains 2 1/2 times the dose.

J. H. O'Reilly & Co. and B. H. Briggs & Co.
