VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, FEBRUARY 22, 1902.

NUMBER 15

NEW MEXICO TOWNS

LAS VEGAS.

From the Record.

R. B. Baca, publisher of the Santa Rosa, is in the city.

B. M. Williams, who has been suffering for weeks with an attack of pneumonia, is able to be out again.

Richard Dunn came up from Tinquin, Mexico, and left for his home at Gascon.

A. N. Jordan, who has made his home in this city for some years, accompanied by his family will leave for Denver.

Gen. Whiteman has written Capt. W. C. Reid that troop A will hold its first encampment in July. The place has not yet been chosen.

Ramon Gabaldon, of Rowe, who had an operation performed on him at the home of Jose B. Dominguez, is getting along nicely and will soon recover from his long illness.

The christening of the babies of Mr. and Mrs. Jose A. Gallegos took place in the west side Catholic church; also the christening of the babies of Mr. and Mrs. A. Baca and Mr. and Mrs. Emilio Sarmiento.

George Armijo and bride arrived in the city from the east, where they had been spending their honeymoon. They will remain in the city for a week as the guests of E. H. Salazar and family, after which they will return to Santa Fe.

Thomas Johnson, of Macon City, Mo., an old time friend of Grif Roberts, of this city, passed through here last Saturday from Rincon, N. M., en route to his home in Missouri, with a carload of goats. He expects to return to New Mexico about next April on another goat purchasing tour. Mr. Johnson is manufacturer of the Johnson wagon at Macon City.

Mrs. H. J. Ryan is confined to her bed on account of illness.

John Bruno, after a few days' illness, is able to be out again.

W. C. Reid, G. W. Harrison and H. M. McIntosh will leave on the stage for Santa Rosa.

Mrs. A. Lane left for Santa Fe, where she will join her husband for a few days.

Work is being pushed on Hon. Charles A. Spiess' handsome residence on the Hot Springs boulevard.

The running of the daily stage between here and Santa Rosa was started Tuesday morning, and this will constitute a daily mail service.

It is rumored that the brotherhood of Our Father Jesus of Nazareth is surely divided in San Miguel county, owing to the mixing of politics by certain parties.

Edward Ashley has accepted a position on the Springer ranch at Springer, to take charge of the horse department. He will leave for there soon, accompanied by his family.

In the probate court the following business was transacted: Final report in the estate of Homenegeto Lucero was made by Petrolino Lucero and Juan de Dios Aragon. C. S. Rogers filed a claim against the Martinez estate. Court then adjourned until March 3.

Miss Swartz, one of the teachers in the public schools, is laid up with the mumps.

Cristino Gonzales has made final proof of homestead entry for his son, Francisco Gonzales, deceased, at Sabenosa.

Edward Ashley, accompanied by his family, left for Springer, where he has accepted a position on the Springer ranch.

Fred Mason has resigned his position in Hild's hardware department, and will leave for his old home in Minnesota at an early date.

Mayor George P. Money will leave Saturday afternoon for Washington, D. C., to be gone about three weeks. W. G. Hayden will look after his business during his absence.

H. M. McIntosh, a heavy owner of California oil fields, and Capt. Boycott, of Pennsylvania, who has charge of large oil fields in Mexico, are in the city. The two gentlemen, in company with some residents of this city, went down to Santa Rosa this morning, to inspect the Perea grant, expecting to find indications of oil.

William F. Winthrop, of Evansville, Ind., who came here about three months ago and has been in the Ladies' home for several weeks, died at 3:40. The deceased gentleman, who was only 28 years of age, had a wife and child at Evansville. His father left Indiana, hoping to reach here before the death of his son. When the father arrives he will decide where the body will be buried.

From the Optic.

Born to Mr. and Mrs. E. C. de Baca a baby girl.

Judge Wooster received a letter from T. J. Bigford, who is visiting relatives in Buffalo, N. Y. Mr. Bigford says the

show there is anywhere from five to fifteen feet deep. He is coming back to Las Vegas in the spring.

The daily mail to Santa Rosa was started Monday morning.

The Santa Rosa stage had six passengers Monday morning.

After an illness of several weeks Dr. B. M. Williams is again able to be on the streets.

The Crystal Ice and Cold Storage company filed its charter of incorporation in the probate clerk's office.

Mrs. Susie A. Harris was granted absolute divorce from James L. Harris. The parties reside in East Las Vegas.

Verne E. Joy, of the Daily Sentinel, Centennial, Ill., accompanied by his wife and child, arrived in the city on Saturday. They will remain in the west for some time for the benefit of Mrs. Joy's health. They are friends of Mr. and Mrs. P. W. Condit, of this city, who hail from the same town.

V. A. Henry, the contractor, is laid up with sickness.

Bishop J. M. Kendrick is expected to arrive today to be the guest of Rev. and Mrs. George Selby.

W. W. Hawkins is convalescing after a severe and prolonged illness, but won't be himself again for some time.

A young man by the name of Gabaldon, from Rowe, underwent an operation at the Ladies' Home yesterday.

Jose D. Gutierrez has forfeited his right to government land patented by him by not living on the place as required.

Miss Carolina Clancy was operated on yesterday at the Loretto academy, and is resting as easily as can be expected.

P. R. Lopez has taken charge of the public school at Tecolote, which has an enrollment of fifty-six pupils. He has an assistant who is paid the princely salary of \$15 per month.

John A. Welsch, M. D., of Frankfurt, Mo., has accepted a position as assistant bookkeeper with the Browne & Manzanarez company in this city.

Miss Minnie Duebner is suffering with intermittent appendicitis, and Miss Stella Ashbrook has substituted her temporarily at S. R. Dearth's undertaking parlors.

Four cars of machinery arrived today for the electric railway and power company. The work of putting up poles and attaching the iron has been pushed, and now with the arrival of the machinery the power house and other work will begin.

Aniceto Baca, a brother of the late Romaldo and Pablo Baca, is sick with pneumonia.

Another effort will be made to perfect the organization of the East Las Vegas fire department and to make this department all it should be.

P. W. McCaffrey, of the Union Extraction and Reduction company, will arrive in the city and see about matters connected with putting in a plant for Beecher Twitchell and attend to other business.

The Baptist church was the scene of a great deal of fun last evening, it being the occasion of the poverty social. A large number of fines were collected because guests wore neckties, parted their hair in the middle, shined their shoes, etc., but perhaps more fines were collected because the young people got to spooning. Frank Barney, C. T. Lipsett, Archie Marshall and Harry Stowe were the prize poverty quartette and carried their parts out to the queen's taste.

From the New Mexican.

Clive Hastings has returned from an official trip to the Pecos forest reserve.

Mrs. A. M. Bergere returned from a visit to Mrs. Neill B. Field at Albuquerque.

Bishop J. M. Kendrick, of Phoenix, who spent the past week in Santa Fe, left for Las Vegas.

J. D. Sena, clerk of the territorial supreme court, returned from a visit to Albuquerque and points in Valencia county.

Amado Chavez, mayor of Santa Fe, returned from a trip to Valencia county and Albuquerque on land grant matters.

Miss Ida Bridwell, a former resident of Santa Fe, was married on Saturday, February 15, at Charleston, Mo., to Mr. Rose, of Pueblo, Colo.

Miss Hoffman, of Chicago, an author of repute, is a guest at the sanitarium. She is in Santa Fe delving in the archives of the Historical society.

While Mrs. J. L. Zimmerman was out calling a few days ago she was attacked by a vicious dog on San Francisco street that tore her dress and almost threw her down. The shotgun should be used on some of the stray curs about town. A good revenue for city purposes could also be derived by taxing every dog.

A. A. Linderman, who has been a

resident of Santa Fe for some months, has gone to his former home, Sleepy Eye, Minn., to close up his business with a view to becoming a permanent resident of New Mexico. His family consisting of his wife, two daughters and two sons, is in the city. Mr. Linderman took with him to far off and cold Minnesota a supply of bureau of immigration literature, which he will distribute in that section where it will do New Mexico some good.

Julie Gold was assaulted last evening on lower San Francisco street, stones being hurled at him. Arrests will follow, as the guilty party is known.

Mrs. Amado Chavez intends to leave for southern California. Mayor Chavez will follow her in April to spend a season at southern California seaside resorts.

W. R. Barrall, of Dulce, connected with the government service on the Jicarilla Apache Indian service, arrived last evening over the Denver & Rio Grande railway.

W. H. Pope, attorney for the Pueblo Indians and assistant United States attorney of the United States court of private land claims, returned from a stay at Washington, Charleston, Atlanta and other southern points.

A petition to Governor Otero is being circulated asking him to use his influence to have the Sunday closing law applied to saloons in every part of the territory or to have permission granted to the saloons at Santa Fe to be open on Sunday.

Several residents of the Third ward have called at the New Mexican office and have stated that A. M. Bergere should be induced to become a candidate for member of the city board of education from that ward, as, if elected, he would be a very valuable member of the board.

Superintendent C. J. Crandall has asked the authorities at Washington for permission to buy antitoxin to be used in diphtheria cases in various pueblos. Diphtheria seems to be prevalent to a fearful extent in various parts of New Mexico and especially in northern Taos county, where in one settlement eighteen children have died of it this season. Santa Fe is exempt of the disease, but that can be said of but few sections of the territory.

Two hundred and forty convicts in the territorial penitentiary today and all busy.

Miss Bee Gough, at one time residing in Santa Fe with her parents, had a hand crushed in a mangle while at work in the steam laundry at Santa Monica, Cal.

The democrats would like to have Sheriff Marcelino Garcia run for mayor on their ticket, but Mr. Garcia is fighting shy of any possible nomination.

Judge McFie today in chambers continued the hearing of the ejectment suit of Mrs. A. M. Bergere and children vs. Luciano Chavez et al, involved in a tract of land near Gallisteo.

A brick crossing across Water street and along Don Gaspar avenue is of the greatest necessity and should be constructed at once. Superintendent Bursum, of the territorial penitentiary, will co-operate if the city administration will take the initiative steps.

One of the busiest men in New Mexico is Judge McFie, the presiding judge of this district. When not engaged in attending the sessions of the territorial supreme court or in holding terms of the district court, he always has many cases in chambers and of the kind wherein juries have been waived. Whenever the representative of this paper visits the judge's chambers in the capital building he finds him engaged in official business.

Probate Clerk Manuel Delgado recorded the following deeds: Mrs. Kate Sullivan to A. N. Van Nest, two lots and a hotel at Cerrillos, consideration, \$5,000; Felipe Ortiz to Manuel E. Ortiz, a lot in precinct No. 4, consideration, \$50; City of Santa Fe to Lars J. Larsen, a lot in precinct No. 4; city to Cora G. Larsen, a lot in precinct No. 4; the city to John H. Kahn, widow of the late Benedict Kahn, a parcel of land on Manhattan avenue; city to Francisco Gonzales y Baca, a parcel of land in precinct No. 3; city to Donaciano Urioste, a lot in precinct No. 4.

From the Eagle.

James Lee, a son of Captain John Lee and Miss Lela Smith, a sister of our fellow townsman, Charles B. and J. W. Smith, were quietly married last Thursday night at the Methodist parsonage, Rev. S. E. Allison officiating.

Colonel Pritchard, who has been to Washington in the interest of statehood, returned home the other day. He says the prospects for statehood are fairly good, though he does not seem so hopeful as some others.

Silas May and Al. Highfill have returned from a trip to Santa Rosa and Tucumcari. They went with the view of going into business, but decide to wait till matters were more settled, as they could not now determine as to the best location.

We have just been informed of the death of Noah Ellis, one of our best citizens and a prosperous ranchman. Mr. Ellis was an early settler in this county and was a cattle man who thoroughly understood his business. He had been in bad health for some time and his death was not unexpected.

From the Liberal.

Mrs. Agnes Speed, who has been in Santa Fe for some months, with her sister, Mrs. McKean, returned home.

The box social given by the ladies of the Catholic church last Friday night was a complete success, both socially and financially. Something over \$100 was added to the church building fund.

C. F. Dunnegan, who has a long

time been in the mercantile business at Magdalena, New Mexico, and who recently sold his business there to Gross, Blackwell & Co., has purchased the stock held by M. A. Leahy in the Roberts & Leahy Mercantile company.

J. I. Driscoll, a postoffice inspector, was in the city the first of the week, coming from Morenci, where he had been investigating the robbery of the Morenci postoffice. He is of the opinion that the work was done by men with considerable experience as burglars. He was unable to obtain any satisfactory clue to the identity of the robbers.

Dr. Moir went down to El Paso last week on business. While here he broke out with what is generally called "Cuban itch" here, but no sooner did an El Paso doctor see the condition he was in than he ordered him to the pest house, or the "detention hospital," as it is called there. The doctor reports, by telephone, that the hospital is a most pleasant place to spend a few days of retirement, that it is kept immaculately clean and the patients have the best of treatment. His only trouble is that his friends cannot call on him.

From the Gazette.

Myrtle Allison, aged 18 years, died February 14, at 4:10 p. m., of consumption. Miss Allison was a niece of Aubyn Allison, and came here about three months ago for her health.

The Raton Water Works company began laying mains Monday at the south end of Second street and will push the work from this on if the weather will permit.

Mrs. H. M. Fry had her visit in Colorado cut short by her little daughter taking seriously ill. She hastened home, where the doctor pronounced the case pneumonia. The little sufferer is still in a very dangerous condition.

C. E. Stivers, of the Range, received the sad intelligence by wire Monday that his brother, Will R. Stivers, a lawyer of Fredonia, Kansas, was dead. He was at one time a western newspaper man. The deceased was about 41 years old and leaves a wife and two children. Although details have not been received it is supposed he died of pneumonia.

Mrs. Kruger, mother of the city marshal, celebrated her 75th birthday last Saturday at the home of her daughter, Mrs. M. T. Tomlinson. Guessing games of various sorts were the principal feature of entertainment for which prizes of a pin book and damask towel were given. About thirty guests were present to help her remember the event and a fine supper was enjoyed by all.

From La Voz Publica.

Pedro Carriaga is back in town from his trip to Rincon whither he went to visit his father.

J. D. Eakin, the wholesale liquor man, arrived from Albuquerque, and the next day he boarded the Rock Island for Logan, Tucumcari and other points.

Jim McLaurin, a resident of this town, and who, from all we can learn, is a peaceable and law abiding citizen, was shot in the right thigh by some party whose name we have been unable to learn and who so far is still at large, having eluded arrest. McLaurin is doing well and will soon be out again.

Miguel Sedillo and Jose Sanchez, who were arrested charged with assault and battery on the person of Marcel Trujillo, the shoemaker, had a preliminary hearing before Justice Nabb and not being able to furnish the bail required by the court they were sent over to Hotel Romero at Puerto de Luna to await the action of the grand jury.

From the Crescent.

There are at present two ladies' aid societies in Taos.

Another partition suit, that of the Arroyo Hondo grant, was begun this week.

Who would ever have thought that Taos would produce a Mrs. Nation? But it did.

The Randall Flouring mill has been running almost day and night, since the arrival of the washer which is doing fine work.

J. B. Brooks, deputy sheriff and nursery agent, has been quite busy this week selling fruit trees and summoning jurors.

Several of the met employed by the San Cristobal Copper company at South Fork camp are taking a lay off and are in Taos this week.

Diphtheria is epidemic in the northern part of the county. Nineteen deaths are reported from Questa in a couple of weeks from that dread disease. The disease is spreading to Cerro and Costilla.

From the Republican.

Undertaker Finger has been in the hospital for two weeks on account of a sprained back.

A large number of men were discharged this week at Otero and Clarkville on account of the small demand for coal.

H. Mulder has the contract for putting a fence around the county jail. The new cells are here and will be put in immediately.

J. Norton, representing the Albuquerque foundry, stopped over on Tuesday. He is making a business trip to the Arizona mining towns.

The sad news was received here last week of the death of Hugh McSparron, who was a resident of Gallup for sever-

al years. His death occurred at Globe, A. T., from pneumonia.

Among the marines lost in the recent expedition across the island of Samar was T. Sanjule, a cousin of Mrs. E. M. Sanjule, of Gallup. Ten men in a boat disappeared and no trace has been found of them since.

Sheriff Baca, Valencia county, was here on Wednesday with subpoenas for C. N. Cotton and H. Neumann, as witnesses in a civil suit at Los Lunas on March 1. The spring term of court will open on that date.

William McVicker is opening up a coal mine north of town for Stewart & Johnson. The location is on government land near the old Black Diamond mine. John Brown sank a prospect hole on the claim two years ago.

There has been very little business on the railroad for the past two days. Six crews have been laid off between Albuquerque and Winslow. One day switch crew has been taken off here. The coal order from the railroad company this week was only thirty cars. Very little freight is moving.

Forty unmarried men were discharged this week at Otero and the same number at Clarkville on account of the small demand for coal. The Catalpa mine shut down last night for an indefinite length of time, and the whole force of 150 men were discharged. The railroad business is lighter than it has been at this season of the year for many years.

From the Register.

Mrs. Bess McDonald returned Monday morning from Albuquerque and El Paso, where she has been since the death of her husband at Albuquerque in December.

Deputy Sheriff Brown arrested and jailed Walter L. McGonigill for drawing a \$20 check on the First National bank of Roswell in favor of T. M. Davernport, without having any funds there.

At a meeting of the Roswell bar association last week, Karl A. Snyder was selected to go to Washington to work for the passage of the bill providing for the creation of the Sixth judicial district, in case any one should be sent from Roswell for that purpose. Mr. Snyder's friends feel confident he will do good work.

Miss Lillie Barr, sister of Mrs. Harry Jafa, who spent some months in Roswell last year, and is most kindly remembered by all, was married last week in Chicago to Max Becker, a buyer for Siegel Cooper & Co., of that city. They have gone to New York city for their honeymoon, and will shortly return to Chicago to live.

J. M. French, of Wagoner, I. T., started home last Friday from this place with his daughter, Fannie, who had been here since October, with Mr. and Mrs. J. A. Foreman, seeking relief from lung trouble. When they got to Amarillo she was so much worse they had to stop, and the poor girl died there Sunday at 2 a. m.

From the Herald.

G. N. Petty is taking a look at the new town of Douglas, with a view to engaging in business there.

Receiver Shannon Field has offered to lease the Deming ore mill to Nickle & Welsh, of Sierra county, at a royalty of 60 cents per ton.

A. J. Clark & Co.'s big freight team ran away from the depot and went at a terrific gait up Gold avenue. When opposite the Clark store Tony Keith managed to leap into the wagon and stop them.

Jim Hughes bought a frame house opposite the depot for the lumber that was in it. He paid \$20 for it. The bargain was hardly cold before Lou H. Brown offered him \$70 for the building. Mr. Hughes refused to sell for less than \$100.

While standing on an elevated platform papering the ceiling in her house last Monday afternoon, Miss Olcott became dizzy and fell to the floor. Being quite a heavy lady, she was seriously injured by the fall and may be injured internally. She is confined to her bed and suffering considerable pain.

Some time Saturday night the residence of Mr. and Mrs. F. K. Wyman, in the western part of the city, was entered by thieves through a window left open for fresh air. The burglars took

both Mr. and Mrs. Wyman's pocket-books, containing in all about \$25, but strange to say overlooked their gold watches in their clothes in the same room. There is no clue to the thieves.

From the Argus.

Miss Emma Anderwerth, sister of Charles, who lost his life last week from ptomaine poisoning, has been very ill from the same cause, but is now reported out of danger.

D. L. Post, a Roswell farmer, and Mrs. Annie Pierce, of Hope district, met in Carlsbad, by agreement, and were united in marriage. The wedding took place at the home of John Runk and Judge John L. Emerson tied the knot.

E. D. Lehan, the man who was badly stove up in the fracas with Albert Turner, at a neighboring sheep camp, has almost entirely recovered. Mr. Lehan is a mutton buyer, and will leave in a short time for the country opened up by the Rock Island road, where he has a big contract to fill.

The new board of governors of the Union club held their first meeting, and the following have been named by President Cameron on the social committee: J. E. Sheltz, chairman; L. O. Fullen, John Harvey, H. F. Christian and E. S. Motter. Dr. C. H. Wright and John T. Bolton were named to act with Secretary Armstrong as house committee.

From the Enterprise.

There has been quite a large sick list the past week.

Mrs. North has been wrestling with a gripe for the past couple of days.

Douglas Clark, is now looking after the Bell interests in the partnership of Goode & Bell.

Contractor A. L. McDonald, with several assistants, has gone to Tucumcari to put up a store building for Ira H. Callaway.

The committee of the W. O. W. Building company have secured two lots in the rear of Hotel Eklund from John C. Hill and intend to build a large hall and lodge room right away.

Dr. Slack informs the reporter that he is making a move toward sinking a well in the large basin one mile east of Clayton, with the expectation of finding oil. The doctor says he is negotiating with some Iowa people whom he thinks will interest themselves in the project.

From the Hustler.

David Lewis will at once lay out a new town, just north of the La Plata school house. Mr. Lewis says 4,000 acres of land have been homesteaded in that vicinity within the past thirty days, and three new reservoir sites located, on which work will commence at once.

Louis H. Hefflin, wife and son, recent investors in Flora Vista ranch property, made their first visit to Farmington. Mr. Hefflin's sons now have about 2,000 sheep on their ranch and 1,000 more, purchased in Utah, on their way here.

The San Juan Telephone company was organized at Fruitland, electing the following officers and directors: J. E. McCarty, president; Tom Bryan, vice president; Jos. H. Dean, treasurer; Cyril Collier, secretary; Arthur Coolidge and Clabe Brimhall.

Dr. Rosenthal, single handed, performed a very delicate operation last Friday on the daughter of Thomas Valdez, of Largo, removing a 44-caliber bullet from the back of her head, where it had lodged from a shot fired by her husband on Christmas night. Numerous pieces of fractured skull were also removed. However, the lady is resting easy and shows every indication of an early recovery.

The "lame spotter," who is now making his way over the system at a very leisurely gait and who "rested up" in this city for a couple of days, suddenly disappeared yesterday afternoon. A very nervous railroadman, who has a wife, mother and several others depending on him for support, said last night that he thought the "spotter" had "spotted" him, and then he acknowledged that he had visited several saloons and imbibed quite freely of amber juice.

For sale by all leading Retail Hatters. None genuine without our trade-mark.

the work of years
Of ceaseless experiment has made Levi Strauss & Co's copper riveted overalls the strongest best made most durable garment the world has ever seen

Las Cruces is to be incorporated this year.

There is an ominous quietude in local politics.

Belen should be made the county seat of Valencia county.

The Papago Indians of Arizona are becoming civilized. One of them tried to commit suicide the other day.

This city is becoming noted for the number of good racing horses owned here. It is time that spring races were arranged.

A recent report places the number of cases of small pox in the United States at 12,132, as compared with 4,852 a year ago.

Colorado is excited over oil, and Denver is so interested in oil stocks that no murder has occurred there in the past couple of days.

There is an active demand for mules for the South African war, which is an indication that the Boers have no idea of surrendering.

Three hundred bills for public buildings have been introduced in congress so far this session, calling for an appropriation of \$35,000,000.

Theodore Roosevelt said, in his speech accepting the vice presidential nomination in 1900: "To surrender the Philippines would be to surrender American territory."

Editor Berger of Santa Fe lingers in Washington, and it is said, has established a free lunch route. He may return to New Mexico in the spring when walking is good.

This territory contains several of the best off-hand liars in the world. This is clearly proven by the evidence submitted to the senate committee in the Governor Otero contest.

The military post to be located in this city should be named Fort McKinley. New Mexico has a McKinley county and it is proper to honor the memory of the great statesman in every possible way.

Ex-Governor Prince will contest his removal from the position of regent of the agricultural college. It is these political contests that add to the gaiety of Santa Fe and makes life tolerable in the ancient capital.

Twenty per cent. of Alabama's white voters disfranchised themselves by failing to pay their poll tax within the time limit. This was not what the framers of the new constitution of that state expected.

Epidemic of small pox, the most serious in many years, is raging all over the world. Health officers in all the large cities are taking unusual precautions to stamp out the disease, and vaccination is being enforced when necessary.

For several years the two weekly papers of Las Cruces have borne names almost similar, and exchange editors have had much trouble in giving proper credit to those papers. One of the papers has wisely concluded to change its name from Dona Ana County Republican to Las Cruces Progress.

The Colorado Springs Telegraph says: "The people of New Mexico are making a vigorous protest against changing the name of their state when statehood is conferred upon it. They are right about it. The plan of naming states after distinguished men, either living or dead, is not altogether to be commended."

Will some one please explain why Maggio, the alleged anarchist, is held in the jail of this county? There does not appear to be a particle of testimony against him, and yet he is kept in prison. Life and liberty is at a discount when a man can be confined in prison in this country without trial and at the whim of some federal official.

With the growth of population and of civilization even the inroads of the match makers and paper pulp pounders are assisting in the frightful decimation of American forests. It is stated today that the Diamond Match company has purchased 40,000 acres of timber land in California. The timber will be cut and shipped to the company's plants in foreign countries.

If statehood is defeated the result can be attributed to the dirty political methods of the rule or ruin crowd in the territory, who to accomplish their ends flooded Washington recently with falsehoods about conditions in New Mexico. Any one reading their statements would conclude that the people of this territory were more fit for the penitentiary than for state government.

In 1889 the first electric street railway in Massachusetts was operated. It represented fifty miles of main track. The railroad commissioners of the state have just filed their annual report, which shows that the electric street railways there now represent 2,177 miles of main track. These carried 433,526,935 passengers during the year, as against 134,478,379 passengers carried by the street railways operated in 1888 by horse power.

PENSIONS COMPARED.

The United States pays annually for pensions nearly six times as much as any other nation. The bill making pension appropriations for the next fiscal year carries \$139,842,230. France comes next with a little over \$26,000,000; Germany follows with almost \$23,000,000, and Great Britain with \$9,856,405, which is less than a dollar to every \$15 paid out by the United States. Russia is still more parsimonious. She has a fund of less than \$4,000,000, the interest on which is all she devotes to pensions. The United

States is the most lavishly generous of all the great nations to her soldiers.

WHEAT FOR ARID REGIONS.

Emmer is the name of a species of wheat which the department of agriculture is recommending for introduction in this country, particularly for cultivation in the semiarid regions of the west. The seeds are being obtained from Russia, where several provinces raise large quantities of this grain. In Abyssinia several varieties are grown at an altitude of 5,000 to 9,000 feet. Almost all varieties of emmer are drought-resistant and equally winter hardy. The uses of emmer are yet in an experimental stage in this country, but the indications so far are that it will become a regular and valuable crop for stock feeding. Emmer is being used extensively at the agricultural experiment stations for improving ordinary wheats. General vigor and hardiness are induced by its use. These features are exhibited in resistance to fungus attacks, drought resistance, increased fertility of the head, non-shattering, stiffness of straw and increase of gluten content of the grain.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for colds, coughs, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by Alvarado Pharmacy.

SANTA FE'S MAYOR.

Says He Is Not a Candidate for Re-election.

Mayor Amado Chavez, republican, announced that he is not a candidate for re-election. The republicans will probably nominate for mayor Jose Sena, now clerk of the territorial supreme court, or Librado Baca. The democrats will nominate either Judge N. B. Laughlin or J. H. Sloan. There is a strong movement to nominate a citizen's ticket, with Samuel Cartwright or Charles DuFour at its head.

The Last Heard Of It.

"My little boy took the croup one night and soon grew so bad you could hear him breathe all over the house," says F. D. Reynolds, Mansfield, Ohio. "We feared he would die, but a few boxes of One Minute Cough Cure quickly relieved him and he went to sleep. That's the last we heard of the croup. Now isn't a cough cure like that valuable?" One Minute Cough Cure is absolutely safe and acts immediately. For coughs, colds, croup, grip, bronchitis and all other throat and lung troubles it is a certain cure. Very pleasant to take. The little ones like it. J. H. O'Reilly & Co., B. H. Briggs & Co.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by all druggists.

Nineteen Years Ago.

In March, 1882, Major Fountain, commanding the militia, while on a hunt for cattle rustlers, who had committed many depredations, struck a band of them and in a fight three were killed and several captured.

S. M. Asenfelder jumped the Stepanson mine in April, 1883.

John Kinney was sentenced to the penitentiary for five years for cattle rustling.

On March 12, 1883, Albert J. Fountain was married to Miss Teresa Garcia at Mesilla.

Major Van Patten brought up from Chihuahua, one Charles Ray, a notorious cattle rustler.—Rio Grande Republican.

Clerk's Wise Suggestion.

"I have lately been much troubled with dyspepsia, belching and sour stomach," writes M. S. Mead, leading pharmacist of Attleboro, Mass. "I could eat hardly anything without suffering several hours. My clerk suggested I try Kodol Dyspepsia Cure, which I did with most happy results. I have had no more trouble and when one can go to eating mince pie, cheese, candy and nuts after such a time, their digestion must be pretty good. I endorse Kodol Dyspepsia Cure heartily. You don't have to diet. Eat all the good food you want but don't overload the stomach. Kodol Stomach Cure digests your food. J. H. O'Reilly & Co., B. H. Briggs & Co."

City Marshal Slashed.

City Marshal Ricardo Alarid was cut with a knife in the left wrist last night while taking Adelaide Warrick to the county jail. The prisoner was drunk and insolent and before Alarid could stop him had whipped out his knife and was slashing right and left with it. Dr. J. M. Diaz attended to Alarid's injury, but the city marshal is very weak yet from the loss of blood he sustained.—New Mexican.

Experience Convinces.

Prove its value by investing 10 cents in trial size of Ely's Cream Balm. Druggists supply it and we mail it. Full size 50 cents. ELY BROS., 56 Warren St., New York, Clifton, Arizona, Jan. 20, 1899.
Messrs. Ely Bros.:—Please send me a 50 cent bottle of Cream Balm. I find your remedy the quickest and most permanent cure for catarrh and cold in the head.
Dr. M. P. Porter, Gen. Mgr. Ariz. Gold M. Co., Mesquite, Ariz.:—I have been afflicted with catarrh for twenty years. It made me so weak I thought I had consumption. I got one bottle of Ely's Cream Balm and in three days the discharge stopped. It is the best me I have used for catarrh.
Proberts, Cal. FRANK E. KENDRICK.

THE ROCK ISLAND.

It Will Extend From Dawson, N. M. to Trinidad, Colorado.

THROUGH COAL FIELDS.

A Trinidad, Colo., writer, under date of February 1, says that since the appearance of a recent article regarding the Rock Island, developments have warranted the belief that the proposed point of Rock Island and Rio Grande connection would be Trinidad itself.

The Rock Island-Dawson coal road to be constructed this year will start from the Rock Island-Dawson coal fields in the northern portion of Colfax county, N. M., and, intersecting the Santa Fe between Maxwell City and Springer, joins the main Rock Island-El Paso line at Tucuman, N. M., 130 miles southwest.

The building, therefore, of the connecting link sixty miles between the Dawson coal fields and Trinidad would give the traffic United Rock Island and Rio Grande a Denver-Southwest short haul whose commercial importance alike to the roads themselves, Denver and the Inter-New Mexican, Arizona and Pacific coast trade, can scarcely be overestimated.

The new Rock Island-El Paso route is to be extended from El Paso to Yuma, the head of the Gulf of California, and the mouth of the Colorado river, and to San Diego, on the Pacific south coast. California coast, the connection from El Paso to Bialoe, Ariz. (via Deming, N. M.), to be made by the traffic requirement—or, mayhap, outright purchase—of the Phelps-Dodge copper roads.

This El Paso-Rock Island southwestern extension is to also include the Phelps-Dodge Mexican railroads with an ultimate reaching of a Mexican Pacific port, a Rock Island line of ocean steamers to ply between its Pacific ocean termini and the Philippines.

Strong coal connections also open to this grant system will be found at Deming, N. M., with both the Santa Fe and the Southern Pacific, while a branch of the system will, it is said, be built from the Nogales vicinity to Phoenix, Ariz.

As additional adjuncts to this new southwestern railroad radius are the early Rock Island junctions at Tucuman, N. M., with the Choctaw & Gulf and the Texas Central, thus bringing the great Southern cotton belt into new direct and daily touch with the gold and the grain, the coal and the copper, the sugar and the oil, the beef, mutton and wool, the lumber, building stone and brick, and potter clays, and the famous health, hunting, fishing and scenic resorts of the great Rocky mountain region and its tributary prairies.

The Rock Island extension of sixty miles from Dawson to Trinidad will pass through a rich region of coal, mineral and agricultural lands, the line of railroad meeting only minor engineering difficulties in railroad survey and construction.

The extension will bring that road to within thirty miles of its extensive coaling coal fields at Aguilar and enable the construction of a Trinidad-Aguilar-Rock Island branch for the full development of these great furnace fuel fields.

The few miles of railroad, therefore, to be laid between Dawson, N. M., and Trinidad, Colo., for a traffic unification of the Rock Island and the Rio Grande will give Trinidad new and multiplied traffic scope and importance and create a new southwestern commercial empire, with Denver as the northwestern crown and clearing house.

LAS VEGAS.

From the Record.

Justus Harris, who is quite low with typhoid fever, is reported a little better.

Mrs. B. Ifield, of Albuquerque, after few days spent in the city as the guest of Mrs. J. Judell, left on the flyer for Chicago.

Frank Roy has filed suit in the district court against the board of county commissioners of San Miguel county to recover the sum of \$1,000.

Edward F. Hobart and wife, of Santa Fe, have transferred to Olof E. Olson, a resident of San Miguel county, a parcel of land located in the vicinity of the experimental station. Consideration, \$200.

Mrs. Charles Watson received word that her brother, Carl Howard, was very ill and not expected to live, at Chickasha, Oklahoma. Mrs. Watson accompanied by her husband, left for that place.

Martin Lohman, of Las Cruces; C. L. Ballard, of Roswell; and W. C. Barnes, of Dorsey, were in the city attending a meeting of the cattle sanitary board, held in the office of Secretary J. A. La Rue.

A hearing will be held before George P. Monev, referee, in the consolidated mechanics' lien claims of Wagner & Myers, Ludwig Ifield, W. H. Jobe and the Muscatine Sash and Door company upon the Crockett building, Messrs. Spiess, Reed and Hayden represent the claimants, and A. A. Jones Mr. Crockett.

While Joe Sena and wife were out riding their house on Eighth street was entered and robbed, some money, jewelry and provisions being taken. A night or so ago two parties came again to the house, thinking nobody was at home. When they tried to force an entrance Mr. Sena shot through the door and the bullet hit one of the thieves as a trail of blood led towards the west side the next morning. No arrests have been made yet.

From the Optic.

James Duncan, Jr., is to be Postmaster Flood's deputy and not his clerk.

Judge Wooster appraised the fire damage on the prairie near Wright's ranch to be about \$15.

Fred Fornoff, deputy United States marshal, and C. L. Doran, postoffice inspector, left for Mora, where they will attend to government business in their respective capacities.

D. T. Hoskins, cashier of the San Miguel National bank, was released from quarantine. Dr. Mohr, in the absence of City Physician Black, signed the certificate of release.

Chief B. Ruppe, of Albuquerque, president of the New Mexico association of volunteer firemen, will be an honored guest of the E. Romero fire

Use Allen's Foot-Ease.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and damp, and get tired easily. If you have aching feet, try Allen's Foot-Ease. It rests the feet and makes new or tight shoes easy. Cures chilblains, swollen, aching feet, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe dealers, 25 cents. Trial package free. Address, Allen S. Olmstead, Le Roy, N. Y.

company at the carnival ball on the 21st.

The general postoffice inspector for this district, C. L. Doran, has been out looking after Uncle Sam's interests in the vicinity of the office lately robbed in the south country by the bloomin' hoodlums. He didn't return with pockets filled with banditti, but he would like to get hands on a few dozen bad highwaymen. May be he can induce his Uncle Samuel to put up some decent rewards for their heads.

REMINISCENT.

Of the officers of the recent military board which passed upon the location of the proposed new military posts: Generals Miles, Brooke, Otis, Young, MacArthur, Randall and Kobbie and Col. Randolph all served as volunteers in the civil war before their appointment in the regular establishment; General Bates having been appointed from civil life, without previous military service.

General Kobbie served in this territory after the civil war, and I met him at Fort Wingate during the winter of 1866-67, when he was lieutenant in the thirty-seventh United States infantry and acting as post adjutant.

Col. Wallace F. Randall, the present chief of artillery of the United States army, I knew at Richmond, Virginia, in the winter of 1863-64, where with hundreds of other Union officers, we partook of the hospitalities (?) of the Confederacy in its extensive hostelry, widely known as the "Libby prison," with Captain Winder, C. S. A., as host. Randolph was at that time a first lieutenant in the Fifth United States artillery; a fine fellow, and if my memory does not fail me, a member of the Libby minstrel combination, composed of young officers. Their music and antics were decidedly diverting, exciting much merriment and causing the balance of us—composing the audience—to forget for the time being, our privations and foreign surroundings. I find Randolph's name in my book of autographs of many of my fellow prisoners and written by them while in the prison.

H. R. WHITING.

Feb. 14th, 1902.

When you lack energy, do not relish your food, feel dull and stupid, after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. Sold by Alvarado Pharmacy.

The Cattle Sanitary Board.

The cattle sanitary board met Friday for the first time since the organization of the board a year ago, and took up the work of the annual meeting, says the Las Vegas Optic. The most important work was the reading of the report of the secretary on the work that had been done during the year just closed. The entire board was present and everything in connection with the secretary's office was found to be very satisfactory. The different cases which had been acted on during the year were taken up and carefully gone over, the correspondence being reviewed and the results of the cases noted. Then followed the action of the board in reference to the importation of Texas cattle from the panhandle country. Many of these cattle were infected with ticks, carrying germs of Texas fever. While the cattle were immune the ticks on them carried the infection of the disease and conveyed it to native cattle, which caught the disease and died in large numbers. A resolution was ordered drafted and the attorney for the board, C. A. Spiess, was instructed to draft the same and submit it for action to the board. The secretary's report, which is now being prepared, will be ready for publication soon.

SANTA FE.

From the New Mexican.

Testimony was taken before the referee R. C. Gortner, in the divorce case of Lucinda Ellison de Mares vs. Pablo Mares, of Pena Blanca. H. L. Ortiz, Esq., is attorney for the complainant, and Solicitor General E. L. Bartlett for the defendant.

Considerable complaint is made on account of bicyclists riding on the narrow foot path across the Guadalupe bridge over the Santa Fe river. Yesterday a woman was knocked down by a bicyclist and every once in a while accidents occur. Bicyclists should lead their bicycles across the bridge.

Thomas J. Roberts, George Alexander and High Brown, of Golden, southern Santa Fe county, arrived and are spending today in the capital. Mr. Roberts is a veteran of the civil war as well as a Rough Rider.

OFFICIAL MATTERS.

Emily P. B. Boyer, of Taos, Taos county, has been granted a pension of \$8 per month.

NOTARIES APPOINTED.

Governor Otero today appointed Julio Cisneros, of La Jota, Socorro county, and Emil Bibo, of Cubero, Valencia county, notaries public.

AGENT DESIGNATED.

The United States Fidelity and Guaranty company, of Baltimore, Maryland, designated Paul Wunschmann, of Santa Fe, its New Mexico agent.

TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn received from H. O. Bursum, superintendent of the territorial penitentiary, \$50, to be credited to the convicts earnings.

INCORPORATION.

The Crystal Ice and Cold Storage company, of Las Vegas, filed incorporation papers. Capital \$15,000, divided into 15,000 shares. The incorporators and directors of the company are Francisco A. Manzaneros, David A. Winternitz, Rudolph Volmer, John A. Schoen, Seymour R. Rogers.

The wool clip of New Mexico this year will be about 22,000,000 pounds.

RESOLUTIONS.

Board of Trustees of Gallup Act on Death of Judge Maxwell.

Resolutions of the board of trustees of the town of Gallup, New Mexico, with reference to the death of Judge Theodore Maxwell, passed at a special meeting of the board, held February 15, 1902:

Whereas, The angel of death having suddenly stricken down on February 14, 1902, our esteemed chairman, Theodore Maxwell, in the full tide of his usefulness in life; and

Whereas, The town of Gallup and the community at large has sustained an irreparable loss in the death of a good citizen, an honest man and a conscientious public official; and

Whereas, It is with a deep feeling of our loss in his death we desire to pay this tribute of respect to his memory:

Therefore, be it resolved by the board of trustees of the town of Gallup, That the death of Theodore Maxwell impresses us with a profound sense of the loss to the town of Gallup and the community at large, and a bereavement in social life.

That it was well for us that he lived among us, and that now dead we owe him the tribute of our gratitude, our praise, our love and undying remembrance.

That to his family, and most especially to his bereaved widow, we extend our most respectful and sincere sympathy.

That a copy of these resolutions be furnished the family of the deceased, and that those resolutions be spread upon the minutes of the town trustees, and for the end of publicity that the newspapers be requested to publish them.

Passed this 15th day of February, 1902.

T. C. DE SHON,

Chairman, pro tem.

Attest:

K. K. Scott, Clerk.

TWO YOUNG MEN DEAD.

Justice Harris and Carl Howard Answer the Summons in the Prime of Life.

Justus Harris died at his home on Fourth street at 5 p. m. yesterday. He had been a sufferer from typhoid fever for six weeks. He was employed as a passenger brakeman. He came to this city two years ago from Iowa. Marcellus, Illinois, was his home city and Mrs. Harris will take the remains to that place. She will start next Tuesday afternoon.

Justus Harris was 20 years of age. He was an enthusiastic member of the Las Vegas Gun club and was perhaps the surest shot in the club. Honors were about evenly divided between Harris and S. R. Dearth. First one would win the medal and the other. It has been several months since the club's last meet and on this occasion Harris won the medal. In his two years' stay here he made many friends who will deeply regret his loss.

Today C. G. Watson received a telegram announcing the death of Carl Howard, at Chickasha, I. T., at 10 o'clock Wednesday night. The young man was the son of Mr. and Mrs. J. M. B. Howard, now residents of Chickasha, but for many years residents of this city. The deceased young man was born in Kansas about 27 years ago. He came here with his parents in the early 80s and grew to manhood in this city, graduating from the public school here.

During the Spanish American war he enlisted in the First Colorado regiment and saw service in the Philippines, where he contracted the stomach trouble which ultimately caused his death.—Las Vegas Optic.

He Recommends Chamberlain's Cough Remedy.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitation in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by Alvarado Pharmacy.

Protest Against Change.

The republican central committee of Lincoln county at a meeting held at Lincoln, protested against the proposed change of name for the territory. The committee in its letter says:

"We as a people have become accustomed to the name through nearly four centuries and have loved to learn the name. To change it would be to break the strongest tie that binds the majority of the people of this part of the Union. We would rather live in the territory of New Mexico than in the state of Columbus, Montezuma, McKinley, Roosevelt, or anything else."

Bucklen's Arnica Salve.

The best and most famous compound in the world to conquer aches and kill pains. Cures cuts, burns and bruises, subdues inflammation, masters piles. Millions of boxes sold yearly. Works wonders in boils, ulcers, felons, skin eruptions. It cures or no pay. 25c at all druggists.

Mrs. Biehl Dead.

Mrs. E. Biehl died at the home of her son, Jake, in Denver last evening. Mrs. Biehl has been a resident of this city for the past six years and had

SICK MADE WELL; WEAK MADE STRONG

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy Is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty record of the past, as well as following modern experiments in the realm of medical science, Dr. James W. Kidd, 237 First National Bank building, Fort Wayne, Ind., makes the startling announcement that he has surely

DR. JAMES WILLIAM KIDD.

discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim, and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It covers nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures effected are very remarkable, and that for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headaches, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, scrofula and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

been in poor health for the past year. She was born in Bavaria, Germany, sixty-three years ago. Her husband preceded her to the grave before she came west. She leaves three sons and one daughter. Her son, Morris Biehl, and family, who reside here, left today for Denver where the funeral services will be held prior to shipping the remains to the old home in Dubuque, Iowa.—Las Vegas Optic.</

Railroad Topics

Engine No. 808 came in from the east, on route to the Santa Fe Pacific for service.

O. C. Straight has resigned his position as night freight clerk at the Williams depot.

The section hands on the Santa Fe Pacific, mostly Navajo Indians, are being replaced by Mexicans.

J. H. Simms has gone to Winslow for a short stay. He is foreman of the Santa Fe Pacific car yards.

Engineer J. W. Reynolds has returned to Gallup from his visit to California. His health is no better.

Conductor Lou King, who was injured at Starkville, one day last week, died in the hospital at La Junta.

Trains now moving over the Santa Fe carrying citrus fruits exclusively contain as high as forty-five cars.

Engineer C. C. Reynolds, of Raton, was called to Arizona on account of the dangerous illness of his brother.

General Superintendent Hurley, who was down south on an inspection tour, passed up the road going north last Saturday.

J. S. Hoyle has returned to Winslow, where he is in the employ of the Santa Fe Pacific, after a sojourn of a day or two here.

Roadmaster Oliphant is superintending the removing and laying of tracks in the local yards, especially near the depot and new hotel.

Jeff Leech, a passenger brakeman on this division, after a two months' visit to his parents in Erie, Pa., has returned to Las Vegas.

Alex. Bowie, Jr., of Gallup, has accepted the position of typographer in a surveying corps which is now engaged in running a line from Phoenix to Benson, Ariz.

S. F. Everett, an official of the Baltimore & Ohio road, passed through the city in a special car accompanied by his wife and children. He is on his way to California.

The Southern Pacific painting gang is busy at work giving the Lordsburg depot a fresh coat of paint. This does not look much like the promised enlargement of that depot.

Brakeman W. H. Strong, who has been in hospital and at San Jacinto Springs for treatment, has returned to Needles, ready to resume battle with box cars and "freezers."

Arthur Vaude Bryn, formerly chief clerk for the division foreman, R. G. Gibbons, at Las Vegas, left for Lamy, where he has accepted a position with the Grant engineering corps.

Fireman Devereaux has returned to Las Vegas from Lamy, where he has been working for a few days on the mountain, in place of Fireman Schultz, who has again reported for duty.

Engine No. 2197, formerly on the ice run at Las Vegas, has been sent down to the Waldo branch, to work in place of engine No. 2405, which has been sent in to the local shops for repairs.

L. M. Hardy succeeded H. O. Clark as general superintendent of the whole Missouri Pacific lines. He has had a large experience with both the Union Pacific and the Denver & Rio Grande roads.

The Southern Pacific company is preparing to build at least two more side tracks on the south side of their tracks in Deming. This will necessitate the moving of their cottages east of where they now are.

Freight Conductors Crawford and Tyler returned to San Marcial from Topeka, where they have been for several weeks on grievance committee business. Mrs. Tyler accompanied her husband home.

Vice President and Manager W. S. Hopewell and Chief Engineer A. G. Kennedy of the Santa Fe Central railway company, started out from Santa Fe yesterday on a trip over the proposed railroad.

J. W. McCoach, whose present official duties are that of auditing the accounts of station agents on the Juarez division of the Mexican Central railway, visited his family at San Marcial during the week.

The engineering corps of H. A. Sumner, chief engineer of the El Paso & Northeastern railway, passed through Las Vegas from Santa Rosa, en route to Springer, to work on the extension of the Rock Island.

An Associated Press dispatch from El Paso says that the Pecos Valley & Northeastern railway will be extended from Roswell to El Paso to compete with the recent Rock Island extension to El Paso.

Friends received word that Gustave Barth, formerly an employee at the Santa company's depot at Santa Fe, and now an engineer on the Santa Fe, Prescott & Phoenix railway, is to be married by Easter.

Engineer J. B. Girard, William H. Lockridge, Fred Hesse and M. J. Rouseville left Williams for Ash Fork, south of which point they will be engaged for some days on important work for the Santa Fe company.

William S. Goldworthy, who served several years as ticket agent for the Santa Fe system in this city, is now general passenger and ticket agent of the Santa Fe, Prescott & Phoenix railway company at Prescott, Ariz.

Superintendent Simmons of the Arizona & New Mexico road has sufficiently recovered from his attack of pneumonia to be out. He left Lordsburg for Los Angeles last week for a change of climate and a short rest.

The statisticians of the interstate commerce commission figure out that of every \$100 received by the railways, \$39 go to employees, \$27 for supplies, \$23 to interest and rentals, \$3 to taxes, and the residual \$8 to the stockholders.

The citizens of Tombstone, Ariz., are determined to have a railroad and if the El Paso & Southwestern does not build to that place from Fairbank, a movement will soon be started to build a road from El Paso, via Tombstone, to Tucson and Phoenix.

The San Marcial Bee says: "There is a health officer anywhere within a thousand miles, he could render the community a great service by compelling the push of the Harvey house system to suppress the sewer nuisance so rampant at their institution here."

Superintendent John Denair has

made a great success of his experiments in boring for water on the Mohave desert. He has put down wells at convenient points all along the Santa Fe Pacific, and as a result the company has all the water they can use.

A little flurry of excitement occurred at the Needles Harvey house the other evening. A man was extracting the shells from a Winchester rifle, when the weapon was discharged, the bullet passing through the floor uncomfortably close to those who were watching the process.

The Cerrillos Register says: The activity on the Santa Fe Central is making things lively in our town nowadays. A shipment of horses for the grading work arrives every few days and the town is filling up with men waiting for the work to start the first of the month.

The Atchison Globe is printing hints on etiquette for the Brakemen's Home Journal. Here is one of them: "If a gent takes a lady to a ball it is proper, about 11 o'clock, for him to couple up with her, switch her down to a restaurant and coal her up with an oyster stew."

Thirty-five cars of celery and seventy cars of oranges passed up the road the other day. They had been shipped by the Southern California Fruit Growers' association to the eastern markets. The truck farmers and horticulturists of California by organizing find no difficulty in disposing of their products.

Tom Hughes, who has been conductor on the Morenci Southern ever since trains ran over the road, was in the city the latter part of last week, en route to Bisbee for a visit. He was carrying a bullet which was caused by an accidentally discharged bullet from a gun he was handling, which scraped his foot—Lordsburg Liberal.

The Socorro Chieftain says: L. M. Lasley and W. Mitchell were in the city Tuesday. Mr. Lasley had just returned from a business trip east. He stated that there is now being constructed a transcontinental railroad to extend from Norfolk, Va., to San Diego, Cal., which will intersect the Santa Fe at or near Socorro.

The Williams News says: Frank Dawson, who was implicated in the charge of breaking a seal last October, was taken to Flagstaff last Sunday night by Constable Andrews, to await the action of the grand jury. With him went our last hope of ever getting the suit of clothes we won in the raffle. Frank still says we'll get it, though.

That popular brotherhood of railway employees, the Brotherhood of Locomotive Firemen, have engaged the Shaw building, San Marcial, for the evening of March 17, when they will give a ball that will be a social event, which dancers cannot afford to miss, if complete arrangements, good music and dance programs form an inducement.

Fred Davenport, who recently left Socorro to undertake the engineering work on a projected line of railroad from Cerrillos to some coal mines fifteen miles distant, is reported sorely afflicted with inflammatory rheumatism. During Mr. and Mrs. Davenport's stay in Socorro they made many friends who now express hearty sympathy for them in their affliction—Socorro Chieftain.

The switchmen in the Southern Pacific yards at Orange, Texas, put in a demand for a raise of wages recently and the answer the company gave them was to decrease their wages. The switchmen were getting \$2.25 and demanded a raise to \$2.40. The response to the request was an order reducing their wages to \$2. The switchmen refused to go to work and are now on a strike and not a wheel is moving in the S. P. yards at that place.

The Las Vegas Optic says: Charles W. Maier, third vice grand master of the Brotherhood of Locomotive Firemen; Myer Hurley, of the grievance committee of the Brotherhood of Locomotive Engineers; and Thomas Burke, of the grievance committee from the Firemen, arrived from the east and will visit the lodges of Firemen and Engineers at an important meeting which is called at the K. P. hall. The question under discussion seems to be that of wages for running compound engines.

Willie Howard left San Marcial for Tucson to enter the employ of the Southern Pacific road as a machinist. Commencing Tuesday of last week the Southern Pacific ran all chair cars, coaches, tourist and standard sleepers from San Francisco to New Orleans, and return, thus doing away with all changes at El Paso. This enables through passengers to pass El Paso without changing cars. A change of cars is always a nuisance, and the Southern Pacific is endeavoring to make its road as comfortable as possible to ride on.

Weak and nervous people should try a few doses of the Bitters. It will strengthen the nerves, restore vigor to the entire system and cure Indigestion, Dyspepsia, Liver and Kidney Troubles and Malaria, Fever and ague.

the many transcontinental passenger train propositions.

It is likely that the Rock island will in a few months establish a line of sleeping cars between Chicago and El Paso, Texas, with connection for the City of Mexico.

PRESS PROOFS RECEIVED.

Santa Fe Issuing an Expensive Booklet About Grand Canyon.

About seventy-five beautiful press proofs of the full-page half-tone cuts to appear in the forthcoming Santa Fe book about the Grand Canyon of Arizona were received at the office of General Passenger Agent W. J. Black, of the Santa Fe, Topeka.

These proofs comprise an entirely new and up-to-date series of pictures of the canyon, far surpassing any pictures heretofore issued by the Santa Fe.

The new book will be about the finest thing in the advertising line ever issued by the road—and the most expensive. It will be given to the interested through the fact that articles about the canyon are contributed by a number of celebrated authors and travelers.

Among these is Charles S. Gledhill, of Topeka, one of the directors of the Santa Fe road.

It is thought that the book will be ready for distribution within a month. It will cost the Santa Fe about fifty cents apiece to publish the books, and they will be distributed for a nominal sum.

SOLD TO GATES.

Colorado & Southern, According to Chicago Report, Has Passed Into New Hands.

John W. Gates, John J. Mitchell, Isaac Ellwood and those associated with them in the control of the Colorado Fuel & Iron company appear to have made another railroad venture, says a Chicago special dispatch.

It is learned from good authority that they have purchased a controlling interest in the Colorado & Southern. This road runs from Denver, Colo., to Texline, N. M., 326 miles, and its other division branches and extensions comprise a mileage of 755, making the total length of miles operated 1,142.

The company also owns a majority of the stock of the Denver & Fort Worth railroad and has a half interest in the Colorado Midland railway, which runs from Colorado Springs to Grand Junction, Colo. The Rio Grande Western owns the other half interest of the Midland.

The mines and plants of the Colorado Fuel & Iron company are all located on the line of the Colorado & Southern and the Denver & Rio Grande. By the acquisition of the Colorado & Southern, the Gates syndicate means to give all of its business to this road, and thus greatly increase its earnings.

INSURE CONDUCTORS.

New Association Being Organized for Dining Car Employees.

Hazen J. Titus, a dining car conductor running between St. Louis and Chicago on the Chicago & Alton, is organizing an association to be known as the Benevolent Association of Dining Car Conductors of the United States.

Representatives of almost all railroads of the country will meet at Chicago next week and elect officers. There are about 800 dining car conductors.

Mr. Titus said: "It is my desire to form a benevolent association issuing cheap insurance. The initiation fee probably will be \$5 and the dues for a year about as much more. In case of sickness \$8 a week will be paid the conductor while he is laid off, and in case of death his family will receive insurance."

"Aside from the benevolent feature the members of the association will be insured a home in almost every large city. When the organization is completed we will have club houses all over the country, where the members can stay when away from home."

"The association I have in mind will not in any way be antagonistic to the railroads, and I think that they will favor our plan."

"At the meeting next week I expect about 100 conductors. Later circulars will be sent to all railroads asking the dining car conductors to join the new organization."

MRS. MARTHA A. FORSYTH.

Her Death at Cerrillos Last Monday Morning.

Mrs. Martha A. Forsyth, widow of the late J. Ross Forsyth and for two years a resident of Cerrillos, died of Bright's disease on Monday, February 19, at 11 o'clock, says the Cerrillos Register.

Mr. and Mrs. Forsyth, with their son, Harry, came to Cerrillos about two years ago from Albuquerque, where they had resided about six months. They came to Albuquerque from Toronto, Ontario, Canada, Ohio, on account of the failing health of Mrs. Forsyth, from which place they came here, purchasing the drug store which Mr. Forsyth conducted until his death, August 28, 1901, the business then being carried on by Mrs. Forsyth until her fatal illness. Mrs. Forsyth had been ailing for two or three weeks before her death, but her condition was not considered serious, but on Sunday last she changed suddenly for the worse and the end came on Monday morning.

Her relatives at Toronto, Ohio, were immediately notified, and on the flyer, R. M. Sloan, nephew of the deceased, arrived and left the next night with the remains for the east. Harry Forsyth accompanied him.

Mr. Forsyth was a consistent member of the Methodist Episcopal church, holding her membership at her old home. At the time of her death she was 40 years of age. She leaves one son, Harry Ross Forsyth, 15 years of age.

TO AVERT WRECK.

New Device is Given a Successful Test on Milwaukee Road.

DEVICE ILLUMINATES TRACK.

A practical demonstration of the utility of a new departure, which, it is claimed by railway officials, will effectively prove the solution in a large degree of the railway collision problem, was made the other night on the Chicago, Milwaukee & St. Paul road near Chicago.

The device consists of an exceedingly powerful headlight, which not only perfectly illuminates the track with an intensely brilliant shaft of light for a distance of a mile, but also embraces the striking and novel feature of a beam of light of almost equal brilliancy penetrating over 700 feet above, which can be clearly seen ten miles distant. It is thereby possible for approaching trains to absolutely locate each other by this vertical shaft of light, though miles apart, and it is this feature which railway officials claim will eliminate the possibility of collision. This vertical beam will, in hilly country especially, where curves in the track are numerous, so positively fix the location of trains that nothing but carelessness on the part of the engineers will permit a collision.

The apparatus consists of a powerful electric arc headlight, a dynamo and steam motor, all of which occupy the space on the locomotive usually devoted to the headlight. The dynamo which generates the current for this veritable searchlight occupies a space of less than fifteen inches wide directly behind the headlight, and is operated by a motor driven by steam impact on a turbine wheel. The current is 5,000 candle power, which can be reduced to any degree of brilliancy at the will of the engineer.

PRACTICAL DEMONSTRATION.

One of the heaviest passenger engines on the Chicago, Milwaukee & St. Paul, experimentally equipped with this headlight, drew a special train a number of miles out of Chicago, and a practical demonstration

Mines and Minerals

Several of the smelting plants in Arizona are preparing to use oil for fuel.

The lessees of the San Francisco mine are taking out a mill run of ore at Golden.

John Pontarides will commence work next week on the San Pedro in the Rociada district.

Nearly all the coal mines in the Gallup district laid off two days last week on account of cars.

There is an increased demand for pig iron, which is predicted will result in advance of prices.

E. M. Purwell, a mining engineer from Lower California, is in El Paso on his way to Mexico.

The Lordsburg, N. M., smelter expects to again be running full blast by the first of next month.

Joe Lopez has received his new patent araser, at Golden. He has about ten tons of ore ready to run through.

Mrs. Sallie Douglas and Mrs. A. B. Lewis, of Kansas City, have located seven claims in the Tecolote district.

E. H. Talbert was at White Oaks from Jicarilla, purchasing supplies and materials for conducting his mining operations.

The Rio Tinto Copper company has closed its mine and smelter at Teracana, Chihuahua, on account of the low price of copper.

The department of the interior has decided that the Conney mining district, New Mexico, must remain in the Gila forest reserve.

The Don Carlos, in Rociada district, is working steadily, taking out rich galena ore which runs to 100 per cent, lead and 18 ounces silver.

S. B. Borsuth, after a two weeks' visit in El Paso, left for Anaconda, Mont., where he has secured employment in the smelter.

The difficulty between the coal miners and operators at Durango, Mexico, has not yet been settled and more trouble is apprehended.

A contract has been let for sinking a shaft and doing other development work on the Wandering Jew mine in Santa Cruz county, Ariz.

Phil Reasoner has struck a good vein of pay ore in his copper claim west of Monument Peak in the Jicarilla district, New Mexico.

Beatty and Kelley, of Rociada, expect to start work again on the Hoosier Girl mine. At present they have about eighty tons of ore on the dump.

T. T. Walsh, representing the Sullivan Mining Machinery company, of Denver, was in the city yesterday, interviewing local mine operators.

The Independencia and Morelos mines in the Parral district, Chihuahua, have been bonded to a large eastern syndicate for \$80,000 in gold.

Judge J. M. Abbott has returned to Lordsburg from his trip to Albuquerque, and is busy in the hills, showing his friends what is to be found there.

The electric plant at the Palmilla mines, Chihuahua, Mexico, has been completed and a large quantity of high grade silver ore is being shipped.

S. B. McKelroy started on a trip to the White Oaks country. He will visit several mining camps before returning to El Paso, and may invest in some claims.

Contrary to the recent dispatches to the Rocky Mountain News from Cerillos, the smelter has not yet been blown in and will not start until April 1.

Fred Grizmaker and Frank Clark have discovered a fine lead of gold-bearing quartz eight miles north of Tularosa. This is a very promising discovery.

S. T. Dupont, a mining expert from British Columbia, is in El Paso on his way to Arizona. Mr. Dupont will visit several mining districts before returning north.

There is a big boom in the mining industry in the Georgetown district, Colorado, and the Altitude company and others are spending large sums in prospect work.

The Copper Colbre Mining company, owning valuable copper properties in the Bradshaw mountains, Arizona, intends to soon begin the erection of a big smelting plant.

B. E. Simpson, of Denver, representing the company that put in the aerial tramway at the Molede, was at Las Cruces for the purpose of looking over the plant at the mine.

A quartz miner by the name of Green, on his way to Arizona, attempted to cross a train of cars at Gallup, and had his foot mangled by the drawbar. He was taken to the hospital.

Assayer Stevens has returned to the city after a visit to the mining districts of the Mogollon country, where he went to examine and report upon some properties for several eastern capitalists.

G. W. Williams & Son, of Clifton, have a contract from the Arizona Copper company for burning 150,000 bricks to be used in the construction of buildings to be erected by the company this year.

The Gold Hill Mining & Milling company has taken an option on a group of copper claims in Graham county, Ariz., and has begun driving three tunnels. The ore carries both copper and gold.

Joe Phillips found a piece of native copper near Duncan, Ariz., the first of last week, and now that section of the country is full of prospectors looking for the ledge from which this float came.

The Santa Fe Copper company's smelter, at San Pedro, under the new management, have laid off about forty men and claim to be turning out as much of the product as before the change.

A letter received in El Paso from the bank at Hillsboro, N. M., states that a good strike had been made in the Manie Richmond mine, owned by Mrs. E. F. Pearson, of El Paso, but who is now in Boston.

The San Marcial Bee says: Postmaster Oscar Wood and Mine Owner J. H. Robb, of Rosedale, were with us during the week. That camp is quiet at present, but scenes of former activity are expected soon. They report Frank Seiman as still on the sick list, and the

departure of Mr. and Mrs. Legg to California.

The Manganese mines near Bonell Ferry, Ariz., are said to be the richest deposits of the metal in the United States. The property has been bonded to a Chicago company that is now developing the property.

At the Boston Mining Exchange last week, 2,918 shares of Cochiti stock were sold at from 70 cents to \$1 per share. Of Santa Fe Gold & Copper company stock, 2,700 shares were sold at from \$3.25 to \$4 a share.

At the Boston Mining Exchange last week 1,719 shares of Cochiti stock were sold at from 50 cents to 75 cents a share. Of Santa Fe Gold & Copper company stock, 925 shares were sold at from \$3.50 to \$3.75 per share.

William L. Long, of Salem, Ore., claims to have discovered a process for extracting gold from ore much cheaper than the present system. His claim is similar to that of Professor Winn, who died recently at Denver.

O'Keefe & Watts, of Golden, N. M., who have been working the Gypsite Queen, at that place, expect to strike their contract vein in the next twenty feet and ought to strike the rich lode of ore which made the Gypsite famous.

The Lordsburg Liberal says: Colonel Bean came up from El Paso Tuesday, accompanied by J. A. Eddy, the railroad contractor, and took them out to Shakespeare to see the Atwood mines.

J. W. Orchard, of Lake Valley, is daily exposing representatives of the Duke Mining company. It is the intention of the company to put in hoisting machinery and sink the shaft to a depth of 500 feet before doing any stoping.

The double compartment shaft on the St. Louis mine, of the Burros, has been re-limbered to a depth of fifty feet from the surface. The hoist is being set up and a great deal of grading is being done for the placing of machinery.

The Gallup Republican says: B. B. Borden and his son, Fulton, did a little prospecting this week for oil, but the snow was too deep to accomplish much. They brought in a couple hundred pounds of oil-bearing rock for shipment east.

R. E. Spencer will have a car of copper ore in the railroad yards at Las Vegas next week, for the inspection of the public. This ore will be from the El Burro and will be on route to the Union Ore Extraction & Reduction company, Denver.

The silver city, N. M., reduction works are now running night and day. The Caladema mine in the Parral district, Mexico, has been leased by local parties, who have begun extensive operations. This is one of the biggest propositions in that section.

Dr. James Fulton, of St. Thomas, Canada, and Dr. M. C. Sinclair, of Grand Rapids, Mich., were at Lordsburg looking over the mining district south of town, and at St. John's Pass. They were greatly pleased with what they saw, and contemplate investing.

Gold prospectors are planning to invade the Navajo Indian lands south of the San Juan river in New Mexico. The country has hitherto been jealously guarded by the Indians, and some years ago several white miners were killed who trespassed on the reservation.

John McLaughlin, of Hillsboro, who has long been in the employ of Kell, Miller & Co., has resigned his position, resignation to take place April 1. Mr. and Mrs. McLaughlin are already preparing for their removal to Corpus Christi, where Mr. McLaughlin has interests.

Arthur Green, of White Oaks, has just completed 100 feet of tunnel work in the Crawford mine south of Three Rivers. It is likely that considerable more work will be done on this mine, as it is showing up nicely. R. L. Young, of Las Cruces, is in charge of the property.

Judge Mosheim, one of the heavy stockholders of the Lena Mining company, was in Lordsburg for a day or two, and the first of last week. The judge is greatly enamored with the climate of that section, and intends to come out next summer, bring his wife and stay several months.

The outlook for copper is better. It is reported that the Rio Tinto copper mines in Spain, the greatest copper producers in Europe, will reduce their copper output during the coming month by 20 per cent. That means considerable for the copper producing countries of this territory.

The Secorro Chieftain says: C. T. Brown returned Thursday from a ten days' absence in the Black Range. Mr. Brown brought with him from the New Bra mine some specimens of silver ore that shows the native silver in generous quantities. He reported deep snow in the vicinity of Sullivan's Hole.

A rich strike was made on the Mines company property near the old "Bridal Chamber," Lake Valley district. The ore assays 200 ounces silver from an average sample of a four foot of ore. Specimens show a great deal of horn silver and will without doubt lead to another of those famous "Bridal Chamber" pockets.

The Bearilla Placer company made a test run recently and the dirt yielded 53 cents per shovel, with the shovels set so as to carry but half of their capacity, which would give a return of \$1.06 for a full shovel. The dirt is much richer than had been estimated, as the company had figured on about 30 cents per shovel.

W. A. McIver, of Iowa and New Mexico Mining & Milling company, was in White Oaks from the company's Turkey creek properties. He says work is progressing satisfactorily and machinery is now on the road to be used in developing these mines. He says there are plenty of prospectors in the Bonito country and many claims are being located.

J. W. Akers has returned to Santa Fe from a several days' visit to the coal prospects four miles south of Kennedy, the new station at the junction point of the Santa Fe and the Santa Fe Central railways. The coal fields being five to six miles south of Galisteo. Considerable development work is being done by individual hold-

ers of claims and some large and fine coal banks have been opened.

Paul Michelon, an employee of the Old Dominion mine at Globe, A. T., has devised a swing frame for a cut-off saw for use in framing mine timbers. The saw swings on a pivot under the saw and is gauged by a graduated scale which enables the sawyer to cut an exact level at any required angle.

He has also devised gate bars at the collar of the shaft which are considered an improvement in protection devices against accidents.

The Silver City Reduction works, the pride of the town and the largest of their kind in New Mexico, are running night and day, and commencing with this week will be taxed to their fullest capacity. Superintendent Harms is very sanguine as to the outlook for the smelter, and thinks that indications are most favorable for another prosperous year. The smelter has three large furnaces with a capacity of 250 tons per day, and is Silver City's chief enterprise.—Enterprise.

The Flagstaff Sun says: W. D. Powell writes us from the Jerome country that the Black Rock prospects are showing up splendidly at fifty feet; that adjoining two detached claims a solid lode of rich ore has been struck, filling the bottom of the shaft at eighty-five feet. The new strike is on the same ledge with the Black Rock claims. He is of the opinion that he is very close to solid ore on the claims he is now working, and has been working through good ore all the way down.

Telegraph Mine Sold. This week Dr. J. P. Wallace, manager of the Monmouth Development company, purchased of James A. Smith and W. D. McElroy the Telegraph mine, on Burro Creek. The consideration for which the mine passed is not stated. The doctor has also bonded the Burro mine, an extension of the Telegraph, and will at once commence operations on the property. The office of the company in Kingman will be closed and Dr. Wallace will at once remove to the mine, where extensive work has been mapped out. The Burro and Telegraph mines are among the good properties of southern Mohave county and their sale to the Monmouth Development company marks a new era in the mining history of that section. A most thorough sampling of the mines show them to have an average value of more than \$10 in gold and silver. The vein is crossed by Burro creek, and at that stream flows through precipitous canyons and the fall of the stream is very great water power can easily be generated for all purposes. Mill sites have been located and a site for a dam and flume have been selected. It is the intention of the company to generate power from the stream for mining and milling purposes. Dr. Wallace, who will have charge of the work for the company, is a thorough mining man and the success of the venture is assured.—Kingman Miner.

EVIDENCES OF ARIZONA MINING. A Few Arizona Bonanzas That Passed the Prospect Stage.

It is never safe to condemn a mining prospect without fair exploring and exploitation. And nothing but intelligent development work will determine whether or not the prospect can be made into a mine. The history of every mining region proves this. Take the territory of Arizona. The great Congress mine, the deepest in Arizona, was accounted a "wildcat" at the depth of 150 feet; at the depth of 300 feet it was a bonanza and held at \$3,000,000. The Fortuna was worth \$100,000 at a depth of 150 feet and worth \$2,000,000 at a depth of 300 feet. At a depth of 100 feet the King of Arizona sold for \$30,000; when 500 feet deep it was worth \$1,000,000. The Crowned King mine was not considered worth being got out of debt when the workings were 155 feet deep; at a depth of 400 feet its value was \$1,000,000. The Pearce mine was sold for \$275,000 when down 100 feet; since then \$2,000,000 was refused for it.

These are but few in Arizona. Every other great producing section can tell a similar story.

NINE QUIT WORK. Victor Fuel Company President Says, However, That Hundred Remain.

Reports that all of the miners in the Walsenburg coal mining district were on a strike owing to the introduction of Japanese workers into the district by the Victor Fuel company, were characterized as gross exaggerations by Deles A. Chappell, president of the company, in Denver, says the Denver News.

"Eight miners and one driver struck at the Matfield mine," said Mr. Chappell, "and about 100 men remain working and do not object to the Japanese. The thirty-two Japanese who were driven out of Fremont county are working at the mines with the other men. Those are all of the Japanese we have working for us. There are Japanese working in other mines in the district. No trouble is anticipated on their account. A meeting of some of the miners working in other mines than ours was held at Walsenburg, but we anticipate no walkout of any more men in any of the mines."

More Coal Miners. The Colorado Fuel & Iron company have closed one of their mines at Gallup, N. M., for the present and brought their employees to Colorado to work in the properties of this district. One hundred and fifty of these laborers arrived in Trinidad this morning. A coach load went out over the Denver & Rio Grande to Walsenburg this afternoon, and another to Primer. The party consists of many nationalities, a few Americans, and many Italians, Austrians, Hungarians and negroes. A number of the men are married and have their families with them.—Trinidad Chronicle-News.

The Ill Wind. That blows nobody good is bent on errands of mischief in the fall and winter. It produces that most dangerous of common complaints a bad cold. Your cold will not become bronchitis, nor consumption if you make timely use of Allen's Lung Balm. Take it frequently until the cough and the stopped-up feeling in the chest are gone. Contains no opium and will not disturb digestion.

Engineer Denison and Fireman Jack Montgomery, who have been handling engine No. 159 on the mountain, temporarily will return to Las Vegas, being relieved by Engineer Collier and Fireman Snyder.

BOOMING TOWN.

Santa Rosa Has Natural Resources Back of Building Operations.

AGRICULTURE AND STOCK.

On the pinon clad slope of the Pecos river, with a charming vista of the more luxuriant emerald of lower lying meadows, is built the new Rock Island and New Mexican town of Santa Rosa, says a correspondent writing to the Denver News.

The Santa Rosa townsite is owned by the Comodoro, N. M. Townsite company, with C. H. Stearns as manager of the Santa Rosa ranch. Five hundred acres are embraced in the Santa Rosa townsite, with lots selling from \$10 to \$20. The townsite is platted around a "plaza," one side of the plaza square being reserved for the erection of a modern and model hotel. The handsome Rock Island passenger depot, now in process of construction, immediately faces the plaza, while the commodious freight depot will be close at hand.

The Rock Island has just struck, at a depth of thirty feet, a well with an active pumping capacity of 200,000 gallons of water every twenty-four hours. As this one water source is within the town plat limits, it is the forerunner of any desired number of wells for the townsite itself, thus assuring Santa Rosa of a super-abundant water supply for all city purposes.

The Santa Rosa sandstone quarries are already of wide name and fame, and half a dozen contracts have already been let for the erection of buildings to be constructed from this local stone, to cost from \$5,000 to \$10,000 per block, the builders including such well-known business men as Charles H. Hild of Las Vegas, the Gross-Richards company, G. B. Popp of Santa Fe and the Moise-Stern company, Michigan merchants.

The First National bank of Las Vegas will also erect a fine stone structure for branch banking purposes, while the big Coors-Moore Lumber company of the same city will put in a big Santa Rosa yard.

In the already local business buildings we find the Guadalupe County bank will erect a \$5,000 at least stone building, and C. H. Stearns, O. Shek & Poole and George H. Smith will erect blocks of similar construction and cost, while the new Steep hotel will cost at least \$30,000, and the arrangement for the Continental Oil company, tanks, yardage, etc., represents a handsome investment.

Reed & Hunter, the livery and transfer people, will also build extensively, as will the Menard & Eakin wholesale liquor house and the Healey bottling works.

BUILDING TO BE PUSHED. The Santa Rosa round house is to be primarily the largest on the system between El Paso and Topela, and will be so constructed as to allow of early extension.

The earliest of the above business buildings will begin by March 1, and the latest by May 1, the middle of the present summer seeing all of these big blocks completed.

In addition to its profuse local use, the superb Santa Rosa sandstone, including solid red, white and gray colors and variegated hues, is to develop a shipping industry of wide radius and profitable returns.

The already noted Santa Rosa oil fields comprise an area as far as yet prospected 75,000 acres and general well development will be active this season. Santa Rosa is practically in the midst of the field, thirty-five miles being the outside distance from the town to any given portion of the oil bearing strata.

The well of the Consolidated Oil & Fuel company, five miles from Santa Rosa, is now down about 700 feet, while machinery for several other companies is now on route, with drilling to begin as soon as may be.

The fields include developing capital from El Paso, Las Vegas, Las Cruces, Bakersfield, Cal., and the Standard Oil company itself, as well as more or less local money.

President Roosevelt is one of the long list of Santa Rosa oil investors, prominent New Mexicans figuring in the same field, including Governor Otero, Judges Long and Mills, Jefferson Reynolds, Charles Allen, R. V. Rice and Dr. Harrison, while Operator Kay, of Pennsylvania, has a \$55,000 option on Santa Rosa oil acres and will drill five wells this season, putting in also an asphalt paving plant.

OH, AND COAL. Millions of acres of oil-exuding rock have been located, while the oil itself is of high illuminating character.

Large coal deposits of wide seam and domestic measures are found, while 35 per cent. surface copper ore has been assayed.

The sheep values of the region are immense, it being estimated that between 3,000,000 and 4,000,000 pounds of wool will be shipped from Santa Rosa this season. The wool clips are of high average, and increase in weight and fineness as the original Mexican sheep of the region are being rapidly merged into high grade strains of both wool and mutton.

The tributary Santa Rosa agricultural area is large, with a very considerable portion of it still open to government entry. Crops flourish, with or without irrigation, more or less of the fertile farming areas being subject to a natural sub-soil irrigation which is prolific in harvest production.

Peaches, pears, grapes, alfalfa, melons, corn, sweet potatoes, peanuts and variegated vegetables yield in profusion, an especial and valuable vegetable growth being found in chile, the Santa Rosa vineyard annually yielding millions of pounds of this pungent and profitable product.

In coalition with the annually increasing alfalfa yield are fine qualities of native hay, natural meadows abounding.

The region is naturally susceptible of extended canal and storage reservoir irrigation, and will rapidly develop in this direction. Santa Rosa is ever busy with the hammer, saw and plane, the big Jackson-Galbraith lumber yards having all they can do to supply the present local building demand.

The new Rock Island-El Paso through passenger service will soon be on, and, with its Fort Worth and Denver and Colorado and Southern connections, bring Santa Rosa and the

upper Pecos valley into close and constantly appreciating civic and commercial relations with Denver.

In the Star, Santa Rosa has an exceptionally excellent weekly newspaper.

Santa Rosa sentiment is unanimous and enthusiastic for New Mexican statehood.

GEORGE R. CALDWELL.

STOCK NOTES.

The call has been issued for the second annual convention of the American Cattle Growers' Association, to be held in Denver, March 4, next.

John H. Miller's polled Durham cow, valued at \$2,000 died at Peru, Ind., February 6. The cow was awarded first prize at the Pan-American exposition.

The big Angus sale at Chicago February 5, was a great one. The imported bull Prince It sold for \$9,100 bought by Pierce & Son of Creston, Ill. An average of \$1,083.33 was made on the 48 head offered.

At Lelia, Texas, five or six 4-year-old steers, out of a small number being fed, died of a disease that was unknown, and an examination of the meat cake fed them disclosed numerous bits of steel in various shapes and sizes.

Cal D. B. Swearingen of Quanah, Texas, sold 2,000 O X 2-year-old steers to J. M. Sheldon of Fort Worth last week at \$27. This price shows there will not likely be any decline over last year's price. The cattle will be shipped to Montana in the spring.

The headquarters of the American Hereford Breeders' Association will not be removed from Kansas City, Chicago put in a good bid but Kansas City won a little better. Those breeders decided to continue their shows and sales and are beginning to work up the show for the St. Louis exposition.

Walter Williams of Cuchillo, N. M., recently shipped fifty-five head of well bred horses to his father in Cuba. Mr. Williams has found a market there for well-bred horses broken to ride at \$200 each. The expense of getting them there, however, is considerable and there is not much money in the business.

The Aberdeen Angus heifer, "Black Cap Judy," was sold at auction at the Union stock yards, Kansas City, February 5, to C. H. Gardner of Blandville, Ill., for \$6,300. She was bred by M. A. Judy of Williamsport, Ind. This makes the female record price of all breeds since 1873. The previous high record for an Angus was \$2,800.

February 25, 26 and 27 should be on every Hereford man's calendar in red figures, for these are the dates on which Giddell & Simpson, Scott & March, O. Morris, Steward & Hutchison, C. A. Stannard, Frank Rockefeller, Walter B. Waddell and Mrs. C. S. Cross announce that they will sell at Kansas City "the best 200 head of registered Herefords to be sold during the year."

Reports from northern New Mexico indicate poor enforcement of the law requiring the dipping of sheep. An Illinois buyer bargained for 4,000 head recently in that part of the territory, and the inspector would not allow him to ship but 500, the rest being unfit to ship on account of scab. An other bunch of 2,700 head purchaser at Watrous were refused shipment for the same reason.

Last Friday at New Castle, Wyoming, a cot was released from a prospect hole west of that town. The animal fed into the hole thirty days ago, passing ranchmen made several attempts to release the animal, but failed until last Friday. Heavy snows had furnished an abundance of water for the cot, but it is a mystery how it survived so long without food. When dragged to the surface the animal kicked up his heels and dashed off across the prairie.

The Colorado supreme court has rendered a decision upholding the live stock inspection law passed by the legislature of that state. The decision was rendered in the case of Edward H. Reid, who rushed cattle into Colorado from Texas for the purpose of testing the law. The sentence of six months in the county jail against Reid also is affirmed. Reid was backed by the live stock organization of the country, which claimed that the federal inspection laws superseded those of a state.

The Pacific Northwest Wool Growers in their meeting at Helena, Mont., last week endorsed the Grosvenor pure wool bill, now pending in congress, also endorsed the bill providing for a classified census of livestock every five years and asked congress to authorize federal inspectors to inspect sheep at any point and to provide severe penalties for a violation of the inspection laws. W. E. Skinner manager of the International Live Stock exposition at Chicago, was endorsed at this meeting for the position of manager of the live stock show at the St. Louis exposition, and F. M. Malone of Miles City, Mont., for superintendent of the same.

DEATH OF PRAIRIE DOGS. How to Effectually Rid the Range of the Pests.

This is the time of year when the farmers are thinking of exterminating the prairie dog, and the West Texas Stockman publishes the following recipe for a poison and guarantees it to do the work:

Dissolve 3 ounces strychnine and 1/2 lb. potassium cyanide in 1 quart boiling water; then add 2 quarts molasses and 1 teaspoonful of oil of anise and stir. Then place 1 bushel of wheat in a tight receptacle, so there will be no loss from leakage, and pour the above solution over it. It should then be well stirred while an assistant slowly sprinkles into the mixture four pounds finely ground cornmeal. Molasses renders the liquid adhesive so that it will cling to the grains of wheat. This preparation has been distributed in a very large town of dogs of 500 to 600. The result was very satisfactory, as it demonstrated that fully 90 per cent of all the dogs were killed at the first application. Within twenty-four hours there were large numbers of them lying dead on the ground. In doing this work the following instructions should be rigidly adhered to: In preparing the poison great care must be taken that the cyanide of potassium and strychnine are completely dissolved, and no more water and syrup are used than the recipe calls for, as one

bushel of wheat will not take up and carry more than that amount of liquid. It should be used the same day it is prepared in order to obtain the best results. The way to apply this is to take some of the poisoned wheat in a tin pail and sprinkle about a teaspoonful of it in and around each hole. Do not leave it in lumps or bunches, as cattle or other stock might possibly eat it. This best time to use this preparation is in the spring before grass starts.

FIRST DISTRICT COURT.

A Number of Legal Matters Came Up Before Judge McFie in Chambers.

In the case of Horace C. Longwell et al vs. The Board of County Commissioners of Taos county, to recover on coupons of bonds issued by the county of Taos, Judge McFie overruled the motion of the defendant to require each item of the account separately stated.

In the case of Daisy H. Ashton vs. The Pontiac Gold and Copper Mining company in the district court for Rio Arriba county, involving the possession of several mining claims in that county, Judge McFie, upon a motion to set aside judgment by default for irregularities in the proceedings could be made at any time within a year and the plaintiff was given time to secure proper affidavits in reply to the charge of irregularities alleged in the motion to set aside.

In the case of Reyes Gonzalez vs. J. Patrio Chavez et al, in the district court for Rio Arriba county, an action to quiet title to the Plaza de Colorado grant, exceptions were filed by L. B. Prince and E. A. Fiske to the report of the master. A. H. Renahan, and these were argued and submitted Monday afternoon.

MINERS FROM GALLUP. Going to Colorado From the Catalpa Mine.

A special dispatch to the Denver News from Gallup, says:

The Catalpa mine, operated by the Colorado Fuel and Iron company, has closed for an indefinite length of time. All of the miners were discharged and have left the camp. Two coach loads of men left for Colorado today. A number of miners were discharged at Otero and Clarkville.

The reason given by the company's managers here for this curtailment of production is that there is no demand for the coal.

Deles A. Chappell, head of the Victor Coal company, ascribes the closing of the Catalpa mine to over production. He said: "At this season of the year the demand for domestic coal as distinguished from steam coal is very small, and for this reason there is a general slackening in the demand. The closing of the mine must be due to over production, although I cannot say so positively. One of our men who was down there recently told me that it was expected that all the mines in that locality would soon close on account of lack of orders."

GOING TO THE COAST. Rock Island Railroad Party Coming This Way.

President Leeds and other high officials of the Rock Island railroad, departed in a private car from Chicago yesterday for El Paso, intending to be gone several weeks.

Gossip regarding the trip is to the effect that the Rock Island is in the market for \$100,000,000 with which to build the El Paso-Pacific line. It comes from well informed men of the southwest, among them a territorial judge, that the Rock Island is in back of the Phelps Dodge syndicate in much of the railroad building the latter is doing.

It is asserted that these new lines will be turned over to the Rock Island which will build from Phoenix to San Diego, the ultimate object being to make of San Diego a business rival of San Francisco. Supplementing this statement comes information that the government has recently made extensive surveys of the San Diego harbor with a view to spending a large appropriation in dredging the shallow portions.

Sheep Pasturage. The secretary of the interior has issued orders governing the pasturage of sheep on various western forest reservations for the present year. On the Big Horn, Wyo., reserve 150,000 head may be grazed between June 1 and September 1; 125,000 of these to be south of the thirteenth parallel, and 25,000 north of this line.

On the Uintah reserve, Utah, 150,000 head may be grazed between July 1 and October 1; on the Gila river, Ariz., reserve, 200,000 head during the season ending August 31, 50,000 of these to belong to residents on the reserve.

The secretary does not restrict the number of horses or cattle, as he says they do not injure the reserves.

Other reserves than those mentioned in the Rocky mountain region will be withheld entirely from sheep grazing.

Police Court. One Ed Vale was given sixty days in the county jail this morning, in Judge Crawford's court, for beating a board ball. Vale is an ex-switchman on the Santa Fe, who was let out of service about ten days ago, and has since been living on the strength of having been working as an once. He tried to jump town Monday, leaving a bail for \$21 and was caught in the act.

Albert Trackman also appeared in police court this morning for wife beating. Trackman, who lives down below the Santa Fe shops, got drunk Monday night, and abused his wife in a shameful manner, blacking one of her eyes. The neighbors threatened to lynch him, but to save them the trouble the judge gave him ninety days in the county jail to think it over.

On behalf of the board of trade A. B. Smith and M. W. Browne will go to Denver this week and investigate the ore reduction plant there. If Mr. McCaffrey's representations are found to be all right, the \$10,000 necessary for a smelter in Las Vegas will be raised in an hour after the two gentlemen return.—Las Vegas Record.

Santa Fe surveyors have been at work in the neighborhood of Kingman for the past two weeks straightening out the curves and lengthening out the side tracks in the yards. The company will make the entire line from

CITY COUNCIL.

Interesting Report of the Street Committee for Year 1901.

OTHER IMPORTANT NOTES.

The city council met last night in regular session with Mayor Marron and the following aldermen present: McMillin, McKee, Rogers, Beaven and Harrison.

New bills were read and referred to their respective committees. Alderman Harrison introduced a resolution recommending vitrified brick for sidewalks outside of the fire limits. The resolution was tabled on motion of Alderman Beaven.

The street committee made the following report:

To the City Council of the City of Albuquerque.

Gentlemen: The street committee, who were heretofore requested to furnish a report of the work of the committee for the year 1901, have the honor to submit the following report:

During the year there was expended for the use of teams and one horse and cart, this as per contract, \$3,638.40

Committee employed teams for ten days for which was expended \$80.00

There was expended for labor upon the streets, 1,286.70

Incidental expenses of the street committee as follows:

General overhauling white sprinker \$55.00

General overhauling water wagon 26.50

Lumber 128.28

Nails 21.45

Shovels 1.50

Axle Grease 3.50

Filing saws 1.25

Leathers for sprinker 2.00

New sprinker valve 8.80

150 ft. garden hose for street use 16.50

Repairs for wagon jack 50

One lock for tool house 2.50

Repairs to tools (chandeliers, etc.) 3.10

New pole for white sprinker, 6.00

One wire broom for streets, 2.00

Five gallons oil for burning worms out of trees 1.50

Repairs for both sprinklers, 8.20

\$5,201.78

During said time your committee has had flumes and br. gow constructed and put in place as follows:

60-foot box, 4 feet wide, two feet high, corner of Arno and Silver.

Double fifty-foot box at Edith and Simonds, each four feet wide.

Forty-foot box, three feet wide, twenty inches high, at Edith and Wheelock.

Put in new bridge on Railroad avenue, near Highland hotel.

New bridge West Railroad avenue near old town.

The following streets were graded and put in first class condition:

Block graded—Roma avenue, one block; Front avenue, one block; Marquette avenue, one block; Silver avenue, four blocks; Iron avenue, two and half blocks; North, Third street from Tijeras road to Railroad avenue, 100 feet of dirt; North Edith street, two blocks; South Edith street, three blocks.

During heavy rains which occurred in August and October a great deal of damage was caused to the streets and alleys in the Highlands and necessitated a great deal of labor in repairing of the same and, of course, caused considerable expense. We cite particularly the bad washes at the following places: Corner Walter and Silver, Edith and Silver, Edith and Lead, Edith and Coal, Edith and Iron, Edith and Wheelock (a fill of 100 feet long, from two to six feet deep washed out here), alley on Coal between Edith and Walter Iron avenue (three blocks, washes from one to five feet deep), Arno and Silver, Arno and Lead, Arno and Coal, Arno and Simonds, Arno and Wheelock, Broadway and Silver, Broadway and Coal, Broadway and Iron, Broadway and Simonds, Railroad and North Arno, Railroad between Walter and Arno, Railroad between St. John's and railroad track, St. John's between Iron and Coal at bridge.

During the rains before mentioned from two to eight inches of sand was deposited for one block on Arno street, same on Broadway for one block, same on Railroad avenue for one block, all of which cost a great deal of money to remove.

In connection with this we would say that from early spring until late in the fall it requires nearly all of the time of one team and several men to keep the sewers in proper condition and repair. That expense is included in the report of the street committee for teams.

During nearly all of the time it is necessary to keep one team on the sprinker for sprinkling the streets, and during the hot months of the summer it requires two teams on the sprinker. This also is considered as an expense to the city committee.

It can be seen from this that most of the time there is but one available team for actual repairs and new work on the streets, and from this report it can be seen that a great deal of work has been done.

Respectfully submitted, JOHN S. BEAVEN, Chairman Street Committee.

The city attorney was authorized to ask for bids for unbuild sidewalks on South Broadway and Edith streets.

The street committee recommended the repairing of sidewalks on Coal avenue, between Broadway and Arno street.

The city marshal's report for January was submitted and approved.

The police committee reported that the warrants ordering a sidewalk on the south side of Lead avenue had been served.

J. M. Aldrich addressed the council in behalf of his claim for damages to his property at the corner of Broadway and Coal avenue, resulting from the building of the viaduct. Mr. Aldrich's original claim was for \$1,000, and was referred to a special committee appointed for that purpose.

The committee, on investigating the matter found that Mr. Aldrich had raised the price of his property since it was certain that the viaduct would be built, and instead of damaging his

property had increased its value. The matter was referred to unfinished business.

On motion of the mayor the council adjourned.

KINGMAN MINING DISTRICT.

A Number of Good Properties Being Developed.

Work is progressing on the Patterson mine, in the Gold Basin country. The Schuyler mine is working a small force of men and getting some very good ore.

John Barry has a force of men at work on the Sunlight mine and has placed D. W. Aaron in charge of the property.

The lease on the Paymaster mine will soon send a shipment of ore to the smelter. The ore is very rich in gold and silver. Specimens from the mine are almost solid ruby silver.

We are informed that a Colorado man made an offer for four gold claims near the Sandy, below Signal, last week, proposing to pay \$8,000 cash, but it was declined.

The O. K. mill, in Gold Basin, is almost ready to start up. William Grant and Frank O'Dea have the property under lease and will work ore from the Eldorado mine.

A man in the old Placers, on the Santa Maria, known as "Mormon Pete," while dry washing, uncovered a small streak of quartz in the schist bedrock, that is said to be more than half gold.

Peter Davis has just completed hauling 100 tons of Catharine ore from the mine to the Shepherds mill for the test. It is made by the New Comstock Mining company. The mill will be started up on its run about the first of the week.

In chloride there is a rumor to the effect that it is the intention of the Security Development company to again resume operation on the Elkhardt mine. The company has set aside a large fund to be used in the development of the property.

O. E. Kuencer is at the Treadwell mines, where he is surveying and looking after the interests of the German-American company. The company has purchased the big hoisting plant now on the Payroll and will remove it at once to the Treadwell. A site is being graded out and much work on the property is being carried on.

In the north drift in the Tennessee mine, chloride, a new ore chute has been cut, the ore from which is very rich in silver and differs materially from that encountered in other parts of the mine. This ore, it is said, will run hundreds of ounces to the ton in silver. There is talk of starting up the mill in the near future, but nothing definite can be learned.

Report has it that the Homersake, now being exploited by R. J. Holmes, is opening up one of the largest and richest ore bodies in the Gold Road country. Every place where the vein is cut ore rich in gold is being shown up. In the shaft being sunk on the property are being exposed.

Mining men declare the mine one of the best in Arizona.

This week E. B. Pine came in from the Lucky mines, at Salt Springs, and reports that in finishing up the assessment work on these properties he opened up a splendid body of gold ore, much of which shows free gold. The mines are situated close to the Colorado river and the ore can readily be worked in a mill on the banks of the river, the cost of handling being but a few cents per ton. Mr. Luthy has done considerable development work on the mines and they are in good shape to begin producing. —Mohave County Miner.

BASE BALL NOTES.

Jack Holland will play with Des Moines this season.

Matt Stanley, who caught for the Browns during one year, has signed with the Pacific Northwest league.

Fred Raymer is playing with an independent team in Los Angeles. Rube Waddell is pitching for the same outfit.

The trouble in the National league has not been settled yet, but the warring factions will likely get together soon and settle their disputes.

Local ball lovers will welcome Snapper Hale back to the diamond. It is also reported that Ross Merritt will again don the spangles and prance around the left garden.

Bucky Franks, who caught for Albuquerque during one fair, has signed with Colorado Springs for the coming season. He has been playing in California since leaving here.

Should Silver City and El Paso reorganize this year there should be many games played here with visiting teams this year. Albuquerque always turn out in great numbers to see the neighboring teams play the Browns.

Santa Fe will undoubtedly organize again as strongly as they were last year, as nearly all of the players of their last year's team are working in the ancient city. It is understood that Joe Harris, the pitcher, will play with Santa Fe again this year.

Letters are being received here every day by ball players who have either played here or have heard of this city as a ball town wanting to know if they could be used this season. The latest is a letter from Harry Patterson, who pitched here last season for the Browns. He says he has a fast infielder with him.

There has been nothing done so far toward reorganizing the Browns, but there possibly will be soon. There is the nucleus for a first class team here, and the outlook is that it will start off stronger than ever before. Several new faces will be seen on the diamond and some of the older ones are going to return to the game.

Las Vegas should be able to organize a fine ball team this season. Young Charlie Rhodes, who pitched for that team last season should be staidier this year and win nearly all of his games. He has a good arm, and will develop into a wonder if he takes good care of himself. There are several other good players in Las Vegas.

Killed a Lion.

Messrs. Thomas Wagner and John Greely killed a mountain lion near Mr. Wagner's ranch last week. The gentlemen had struck the animal's trail and followed it to where the lion and a large bull had had an encounter. Judging from the appearance of the ground in the locality the lion had the worst of the fight and was compelled to retire. Shortly after he killed

a deer and had finished his feast when Mr. Wagner's dog located him. Upon the arrival of the gentleman his lionship was quickly dispatched with a bullet and the hide brought to town. It is a beauty and was immediately purchased by Dr. A. Tyroler, who sent it away a few days ago to be mounted. —Williams News.

GOING TO LAS VEGAS.

Chief Ruppe Will Attend E. Romero Hosiery Company's Anniversary.

Chief Ruppe will leave tonight for Las Vegas, where he will be the guest of the E. Romero hosiery company. The Las Vegas company will, on Saturday, celebrate the twentieth anniversary of its organization by a masquerade ball in Duncan's opera house. Prizes have been offered for costumes of various kinds and the company expects to make it the greatest celebration in its history.

Ludwig Hilde, Jr., a nephew of Bernard Hilde, of this city, is chief of the Romero company and one of the committee in charge of the affair.

While in Las Vegas, Mr. Ruppe will try to interest visiting local firemen in the New Mexico Association of Volunteer Firemen, of which he is the president.

The tournament will be held in June at Santa Fe and Mr. Ruppe wishes to double the membership by that time.

H. JAY STONE.

A Basket Brigade Agreeably Surprised Him Last Night.

H. Jay Stone was summoned by telephone last night to hurry home, in doing which he lost no time. On arriving at his residence the gentleman found about thirty-five young people, who had assembled in basket brigade for the purpose of giving himself and family a surprise. After greetings the brigade deposited two baskets, which were unpacked, revealing a delicious banquet of which all partook in due course.

The evening was passed in a pleasant manner, games and music being the order of entertainment.

The surprise was arranged by the young people of the Congregational church choir, of which Mr. Stone is a permanent member.

A SAD ACCIDENT.

Boy Killed While Target Shooting in Otero County.

While Mrs. McDaniel, recently married, and her nephew, M. Massey, were target shooting in the logging camp near Alamogordo, Otero county, the gun in the young woman's hand was accidentally discharged and the missile struck the boy, who was fixing the target, a tin can in the head. He died a few minutes afterwards. The bride of but a few days is distracted with grief at the occurrence.

LAS LUNAS.

Special Correspondence.

Las Lunas, Feb. 18.—A grand ball was given by the ladies of Helen to the members of the Hay-Boy club on the evening of the 15th, in recognition of the many treats the club has shown to the ladies in the past. A very pleasant time was had and different games were indulged in besides dancing, in the rooms of the club. Refreshments of different kinds were also served.

Mrs. S. Neustadt returned today from a two month visit at El Paso.

The court house looks fine after its thorough renovating inside and out.

Discharged from Asylum.

Romualdo Salazar, who was sent to the asylum from Lincoln county, has so far recovered as to be discharged from the institution. Jack Dalton who came down from Elizabethtown to the asylum, was also discharged. A number of other patients will be discharged in a few days, thus making room for the large number of patients, applications for whom have been in for some time. The institution is too small and too crowded, and the legislature should provide the means for building the necessary additions. —Las Vegas Optic.

Las Vegas Cavalry.

Lieut. A. P. Tarkington was last night assigned to the post of adjutant for the cavalry squadron on the staff of Major R. C. Rankin. Lieut. Robert Gross was assigned to the post of squadron quartermaster. Both young gentlemen rank as first lieutenants.

Other assignments were: Charles Cunningham to be chief trumpeter; James Duncan, Jr., to be ordnance sergeant and Arthur Judell to be color sergeant.

These young men will rank with the troop first sergeant. —Optic.

Jury Commissioners.

The jury commissioners to select the United States grand and petit juries for the second judicial district met at the court house this morning and made their selections. The commissioners were M. Mandell, of this city; C. N. Cotton, of Gallup; and E. B. Barajas, of San Rafael. The commissioners to select the territorial grand and petit juries are Hubb Leeds, of this city; A. Vigil, of Barajas, and Manuel Baca, of Pena Blanca. They were also in meeting at the court house this morning.

Brief Hints for Bright Young Girls.

Some one has suggested fifteen things that every girl can learn before she is fifteen. Not everyone can learn to play or sing or paint well enough to give pleasure to her friends, but the following "accomplishments" are within everybody's reach.

Shut the door, and shut it softly. Keep your own room in tasteful order.

Have an hour for rising, and rise. Learn to make bread as well as cake.

Never let a button stay off twenty-four hours.

Always know where your things are. Never come to breakfast without a collar.

Never go about with your shoes unbuttoned.

Speak clearly enough for everybody to understand.

Never fuss, nor fret, nor fidget. Never forget nor fume, so as to disturb others.

Never let a day pass without doing something to make somebody comfortable.

The Arizona & Utah engine has been fitted up and is now pulling trains between Kingman and Chloride. It made its first trip last Wednesday. The engine is one of the neatest pieces of machinery in the west.

CARE OF ALFALFA FIELDS.

Bulletin Issued by the New Mexico Agricultural College.

GOOD ARTICLE FOR FARMERS.

Alfalfa heads the list of forage crops in New Mexico. It forms one of the principal sources of revenue to the farmer of this section. Thousands of tons are shipped annually and it forms the bulk of the food for stock throughout this region. Other crops are slowly but surely giving place to it. The acreage in some sections is simply enormous.

So long as present prices rule, alfalfa will continue to be the dominant crop and the acreage may be expected to increase. The profit in growing alfalfa at present prices, reckoning cost of production and interest upon the investment, is such as to draw even the amateur into somewhat extensive operations.

These substantial profits, which have been realized for a number of years, has, it is believed, led to considerable carelessness and lack of diligence on the part of the farmer in the care of alfalfa fields. Alfalfa is grown with the greatest of ease and even in careless hands a field not too old returns fair profits. But the time may be expected to come when there will be somewhat sharper competition than is felt at the present time. The writer does not wish to give the impression that the farmer and ranchman will be driven out of the business, but believes that more study and care will be demanded if the present rate of profits is to continue.

One can hardly pass through a field without noticing the bare spots and soddy patches. The alfalfa has been drowned out or otherwise mismanaged, and the aggressive native grasses have taken its place. No one will contend for a moment that these grasses are equal to alfalfa. They sap the soil and encroach upon the alfalfa plants. The bare spots are objectionable, popular opinion to the contrary. Very coarse, woody alfalfa does not bring so good a price nor find so ready a sale as fine alfalfa. As competition increases, greater discrimination may be expected in this line, and the matter will be forced upon the alfalfa grower in a way that will command his attention.

It is not an extremely difficult matter to prevent the bare spots and the encroachment of wild grasses. Preventive measures will largely do away with this difficulty and prompt attention may be expected to eradicate the evils entirely.

Among the preventive means, the following may be mentioned:

First, through preparation of the land before seeding. The land should be perfectly level and properly bordered so that the water can be easily controlled.

Second, a perfect seed-bed should be formed so that the maximum germination may be reached.

Third, enough seed should be sown per acre to insure a perfect stand, even under somewhat adverse circumstances, should they appear; also the course crop, if one is used, should be chosen with discrimination.

Fourth, the time of seeding should be that which has proven to be best throughout a long period of time.

Fifth, the irrigation should be carried on with care as to season and frequency on the particular soil to be handled and the way the water is applied to all portions of the field. Alfalfa is very susceptible to injury from standing water during hot weather, and therefore, the greatest care should be exercised to prevent water from standing too long on low-lying portions of the field.

Sixth, never pasture short, especially in the winter. Alfalfa has wonderful recuperative powers, but continuous nibbling off of the crowns will damage the plants and eventually decrease the yield not a little. Horses are particularly hard on alfalfa fields used as winter pastures because they are able to crop close and not infrequently paw loose dirt away from the plants and bite off the crowns one-fourth or even one-half inch below the surface of the ground. It is not hard to understand that the loss of the bud or growing point may be detrimental to the growth and usefulness of the plants, causing many to die and resulting in bare spots later to be overgrown by obnoxious grasses.

After the damage is done there remains no remedy but to plow up the field and reseed, or to disc thoroughly and to reseed the bare spots. If the field has not deteriorated much, the latter is much to be preferred.

By diligence and careful handling, or prompt action closely following any encroachments upon the life of the plants, the quality and yield of alfalfa may be maintained and the profits relatively enhanced.

J. J. VERNON.

GOLDEN.

Special Correspondence.

Golden, Feb. 18.—Col. H. S. Farley, manager of the Interstate Placer Mining company, returned yesterday from Albuquerque.

Father O. Navarrete, of the Church of Our Lady of Guadalupe, in Santa Fe, held services in San Pedro and Golden.

R. S. McCaffery, general manager of the Santa Fe Gold & Copper Mining company, accompanied by Mr. Young, the assayer, were in Golden yesterday.

W. S. Rishworth, operating the Live Oak mine in the Dolores district, spent last Sunday with his family at Golden. Mr. Rishworth and some of the ore recently found in the Live Oak that pays \$40 per ton. The Cerrillos smelter is buying all the ore.

The Old Reliable Mining company's mill at Golden, which has been lately overhauled by Trotter, Belman & Wilson, started yesterday crushing ore ready for the mill. The mill and new concentrator lately put up in the mill will start up later after tomorrow.

Jesus Maria Baca, one of the oldest wood contractors of the Santa Fe Gold & Copper company, has taken the contract for all ties, telegraph poles and pilings that will be used by the Santa Fe Central railroad, between Ortiz and M. Monarty's ranch. The timber will be delivered along the route.

Edgar Moore, the able manager of the Industrial Placer Mining company, is still very busy doing quite an extensive development work in the pla-

cer grounds belonging to his company. Mr. Moore will have things in shape by early spring for the company to do some extensive work.

J. L. Lopez, of Las Vegas, has been busy all the week putting up his patent arrastra, that he received from Denver, Colo. The old reliable Mexican mill will be used in treating the ore taken out of the San Miguel mine, where some rich free milling ore has been found. By next week the arrastra will be grinding away.

Fred, Peteys, of Clear Creek county, Colo., has taken a long lease in the San Francisco mine. He has been getting the mine in shape to commence setting ore out, which Mr. Peteys intends selling to the Cerrillos smelters. Yesterday Mr. Peteys took down 2,500 pounds of ore to Cerrillos to test the values in the ore.

Miss Amelia Gutterman, the accomplished school teacher, under whose charge the Golden public school has been for the last three months, reports that several children have advanced considerably. The majority of the children have been kept away from school on account of an epidemic of the mumps now amongst the children. The school will be closed next Saturday on account of the funds being exhausted, and the people of Golden will feel sorry to see Miss Gutterman leave for Santa Fe, she having given the very best of satisfaction as a teacher.

BUILDING A TOWN.

Rapid Work at the New Colfax County Coal Mines.

At the Dawson coal fields in Colfax county, the Townsite company is erecting 400 dwelling houses and a number of store buildings. Two hundred coke ovens have been completed and the electric light plant is in operation. Wires are now being strung along the streets of the town. Sixty men are at work opening up the coal beds. A coal tippie has been finished. The ties are down on top of the ground. One vein, which cropped out of the ground, has been faced up and measures twelve feet in thickness. Timber and water are ample and the country round about is a rich agricultural, horticultural and grazing section. The Colorado and Southern railway has a number of surveying parties in the vicinity and in the Ponil Park and Castle Rock country with the expectation of extending the line from Catekill, beginning at Trinidad, to Dawson. The proposed extension will run into the first virgin timber lands on the Maxwell land grant. From Dawson the road is to be extended into the Moreno and Taos valleys.

WANT LOWER CATTLE RATE.

Between This Point and Deming—Present Rate is \$10 Per Ton.

The execution of a recent cattle contract for the shipment of 1,000 head of stock, the terms requiring that shipment be made from Deming instead of Silver City, on account of the rate of \$10 per car charged by the Santa Fe from this point to Deming, has again brought this subject to the attention of the merchants, cattlemen and people generally, and a movement is on foot to urge in a strong protest to the railroad officials, asking for relief from what is thought to be an exorbitant rate.

Cattle shipments from this section promise to be unusually heavy this spring and unless some action is taken it seems likely that many shipments which would naturally be made from Silver City, will go to Deming to save the \$10 a car charge. This means additional trouble and expense on the part of the seller and the loss of trade to the local merchants.

Up until a couple of years ago the rate was \$5, which was satisfactory to the shippers and certainly did not result in a loss to the railroad company. This is the rate that those interested would like to see restored. —Silver City Independent.

Learnin' by Example.

Precept is good but example is better. A man may preach a life time, but if his example is bad but little good will result from the preaching. Object lessons seem one most forceful in the hard practical affairs of life. It is so in business, in progress and all upward tendencies. We may well apply this principle to New Mexico, says the Las Vegas Optic. The oldest of the territories, she has not fully kept step to the music of real progress. She may well look across our northern border and catch inspiration from the Centennial state, great in everything. Her mountains reverberate with the boom of the thousands of blasts, driving the way down through dead rock to the precious metals below. Her beautiful fields glow with the sunshine of agricultural prosperity. Her immense reservoirs, and irrigation systems, proclaim the tremendous energy and restlessness of an unexcelled citizen-ship. Her railroad upon trainload of cantaloupes speeding to the eastern ocean shore continues to point the world to what may be done by Anglo-Saxon blood. Her multiplied orchards tell the story of thrifty horticulturists, living in luxury. The oil wells going down, the derricks being erected, too to us in New Mexico the story of a people quick to see the business advantages at their own door, and equally quick to make them productive. O ye sons of New Mexico, wake up and see your brothers are doing in other fields, do ye, also in those at your own doors.

WILL KEEP PROMISE.

That is What President Ripley Says the Santa Fe Company Will Do for Raton.

For the information of the citizens and good people of Raton it may be stated that Mayor Shuler and Juvan Houten had an interview with President Ripley of the Santa Fe last Thursday on board his private car in this city, he being en route to California. They interviewed him in regard to improvements and building at Raton and also requested him to authorize them to state to the press the substance of the interview, which was readily granted. Mr. Ripley stated that the promise had been made to the people of Raton through their committee at Topeka that the Santa Fe company would build a new depot, hotel, freight building and make other improvements and that the company usually kept its word. That owing to scarcity of men and material they had been unable thus far to begin the improvements, but expected to do so some time this spring, and that his desire was that the citizens of Raton

might be informed of these facts. Mr. Ripley was assured that the sewer system, which was a promise on the part of the city, is being rapidly carried to completion and also other improvements, at which he expressed gratification. —Raton Gazette.

COLONY OF OLD SOLDIERS.

Arrangements Being Perfected to Locate Them Near Geraldine, Texas.

During the latter part of this month the Rock Island will haul a share of 2,000 people to Geraldine, Texas, a colony being formed near Wichita Falls. It will be known as the American Tribune colony, and the promoter of the colonization scheme is Publisher Fitzgerald of the American Tribune, of Indianapolis, Ind., which has a large circulation among G. A. R. circles, and who was the founder of the Fitzgerald colony at Fitzgerald, Ga.

Notes from Correspondents

BELEN.

Special Correspondence.
Belen, N. M., Feb. 14.—On last Friday evening the Senators defeated the Night Owls in both games and on Tuesday evening the Stars won both games from the Crescents. The Stars have now won three out of four games played with the Crescents and the Senators have won three out of four games with the Owls. Following is Friday evening, February 7, score:

Senators	1st	2d
C. A. Dales	122	167
H. E. Davis	123	168
A. Dedier	123	168
John Becker	123	168
Mrs. C. Reinken	123	168
Mrs. M. Rigney	123	168
Mrs. L. Zinth	123	168
Mrs. D. Dechman	123	168
Ladies, "Blind"	123	168
Totals	1,255	1,226

The following is the score between the Stars and Crescents on Tuesday, February 11:

Stars	1st	2d
P. H. Dales	123	167
Mrs. Hoyerford	123	167
Ed. Kromer	123	167
Miss Rutz	123	167
L. C. Becker	123	167
Mrs. L. Brun	123	167
J. Velestich	123	167
Mrs. Oyster	123	167
O. M. Ziegler	123	167
Totals	1,154	1,027

The score of last night's contest between the Senators and Owls is as follows:

Senators	1st	2d
C. A. Dales	122	167
A. Dedier	123	168
H. E. Davis	123	168
John Becker	123	168
Mrs. Dorman	123	168
Mrs. C. Reinken	123	168
Mrs. L. Zinth	123	168
Ladies, "Blind"	123	168
Mrs. Rigney	123	168
Total	937	1,105

On next Tuesday evening the final games will be played. The team having the highest average for the six games played will be awarded the first prize. The contest is proving very interesting and exciting.

DEMING.

Special Correspondence.
Deming, N. M., Feb. 13.—The first through train from Bisbee over the new railroad will arrive this evening. The officials will be on the train, with the exception of Manager Choate, who is now here awaiting them. The train will start back to Bisbee tomorrow morning, bearing a crowd of excursionists from Deming and other towns.

Frank Hoffman, here from Chicago, left yesterday with Mr. Grier on a tour of the Diamond A ranches and the Animas valley, to be gone for about a week or ten days.

The Bisbee railroad has opened a freight and ticket office in the building occupied by the Deming Real Estate and Improvement company, and are now ready to do business with all comers. They will also put in a telegraph station there, and will occupy these offices until they can complete their new depot.

The work of installing electric lights in the stores and dwellings of Deming is now going rapidly forward and it looks as if the electric light company meant to keep their promise to have the lights going within three months after the charter was granted them. It also looks as if they were going to be well patronized.

Messrs. I. B. Stone and P. R. Smith, Jr., have entered into a partnership real estate business here, and have the handling of all the property of the Deming Real Estate and Improvement company. They will work under the name of Stone & Smith. There has also been formed here a new abstract company, under title of the Grant and Luna County Abstract, Title Guaranty and Trust company. They will use the Stone Tract-Index and Tablet System of Land Titles, to be under the personal supervision of Mr. I. B. Stone, the partner.

On Tuesday the election for village trustees was held and passed off quietly, although a large number of votes were cast, and Deming maintained its reputation as a law abiding, civilized town. The trustees elected were Thos. Carr, A. J. Clark, L. H. Brown, A. Beals and Seamen Field. These gentlemen are all representative citizens and should conduct themselves and the affairs of the town in a way that cannot fail to give satisfaction.

The Deming Real Estate and Im-

provement company made a transfer of their property on the corner of Pine and Zinc streets this week to George L. Shakespeare, consideration \$5,000. Real estate in Deming is booming and don't you forget it.

Deming, N. M., Feb. 17.—Saturday evening the Schubert Symphony club gave an excellent entertainment here to a crowded house. They gave a good performance and everyone was satisfied.

Miss Lillian Smith, daughter of Col. P. R. Smith, returned home last Sunday from El Paso, where she has been visiting for the last month.

Sunday evening Mrs. W. H. Grier, Miss Kurtz and some other young ladies and gentlemen met at the home of Mrs. Grier and formed a dramatic club to be known as the "Footlight club." The purpose of the organization is for the production of some of the more recent plays suitable to the talent of the club. The club is a private organization for the pleasure of its members, and it may be the delectation of their friends.

Tonight Mr. Keeler, the well known hypnotist exhibits here, and the expectations of all are raised to the highest. He will also give a second performance tomorrow night. Uncle Joseph Sprueby is to be here Wednesday evening and Friday night there is to be a masquerade ball. Saturday night the minstrel show here.

The Arizona & Southeastern railroad is now receiving about seventy-five cars of freight daily from Bisbee and Macon, and several cars of local freight. The telegraph line has just been completed through to Bisbee and the through connections are working smoothly. The telegraph office at this end has just been put in in the company's temporary office in the rear of the Deming Real Estate & Improvement company's offices. Work is now being done on the extension of the line east of here to El Paso.

The Ladies' Whist club met Saturday at Mrs. Beal's residence.

WINSLOW.

Special Correspondence.
Winslow, A. T., Feb. 14.—Hotel arrivals for the last half of the week are as follows: John, Klassen, Winslow; J. F. Holmes, Albuquerque; Alfred Randall Winslow; E. E. Greenleaf, J. B. Skinner, Albuquerque; Joe Slater, Chicago; J. H. Harrison and wife, E. A. Pinney, Gallup, N. M.

W. E. Weeks, engineer on the Santa Fe Pacific, is indisposed, and will likely have to remain in doors for a few days. He was expecting his wife this morning but she disappointed him and that makes him feel just that much worse. We hope Mrs. Weeks will arrive tomorrow.

Ruby chapter No. 3, O. E. S., of Winslow called a special meeting Wednesday of this week and initiated three candidates into the order: Mrs. Jessie Null, P. A. Ward, of Winslow, and Annie E. Griffith, of Gallup, N. M. The order is flourishing and is second to none anywhere. Refreshments were served.

Mrs. Annie E. Griffith, of Gallup, N. M., is visiting friends in Winslow this week. She is the guest of Mr. and Mrs. Walcott, on Kinsley avenue, and Mrs. Bert Ward goes around all smiles and hopes Miss Griffith will never go back.

Mrs. W. R. Carman, of Gallup, N. M., is visiting friends in Winslow this week. She is the guest of Mrs. Wm. Sileo, on Third street. Mrs. Carman is a former resident of Winslow.

George Miller has returned to Winslow and is now caring for customers at one of the chairs in John Drumm's barber shop, under the opera house on Railroad avenue. We were all glad to see George back and at work.

Mrs. T. J. O'Kelly is visiting friends in Williams, A. T., this week. She expects to meet Mr. O'Kelly on Wednesday of next week on his homeward trip from California, where he went to bury his brother Byron O'Kelly, who died here last week.

Charles L. Flynn, the mayor of Winslow, is indisposed, but is under the care of Dr. Tillet, who reports his condition as not serious and thinks the mayor will be out and around in a few days.

Mrs. J. F. Mahoney, the estimable wife of our police judge, is ill and is confined to her room on account of attacks of rheumatism. Mrs. Mahoney for years past has been troubled with rheumatism, but lately has been free from the disease and it is to be hoped that this attack will not amount to anything.

The Daily Citizen comes out with five beautiful cuts of Albuquerque public schools. To our mind there is no advertisement a paper can give to a city like the one the Albuquerque Citizen gives, the write-up of the public schools, for on the education of our children rests the future of our country. The Citizen deserves great credit.

J. X. Wood has returned from Washington, D. C., where he went as a delegate of the people of Winslow and Navajo county to try and induce the department of Indian affairs to locate the western Navajo Indian school at Winslow. We understand that Mr. Woods made an impression and that Winslow will be favorably considered when the school is built.

Our new probate judge, F. J. Watson, paid Winslow a business visit this week. Winslow welcomes Mr. Watson as head of the probate court and as county school superintendent. He bears the honors with dignity and grace.

Thos. H. Fee, who broke his arm some time ago, is out and around and is of course losing a lot of time by the accident. Tom don't like a broken arm.

BERNALILLO.

Special Correspondence.
Bernalillo, N. M., Feb. 15.—Colonel Williams went up to C. W. Givens' mine Tuesday.

Antonio Montoya went to his ranch to deliver some sheep.

The Santa Indiana started to work on the ditch this week.

Mr. Loomis was looking after Uncle Sam's business in Bernalillo on Friday.

Mrs. Pedro Perea and her son, Abel, are in Las Vegas visiting relatives.

Mrs. Perea's uncle, Romaldo Baca and Pedro Baca, died recently, and so Mrs. Perea went to Las Vegas on Monday. Both uncles were buried on Thursday. The family have the heartfelt sympathy of their friends.

G. Krause was looking after business interests for the Underhill company, of Denver.

G. S. Curry, representing the Hayden Kelsey woolen mills, Waco, Texas, was here Saturday.

E. D. Cobb, representing the Fair bank company, St. Louis, has been selling soap to Bernalillo merchants. Robert Putney spent Friday in Bernalillo.

Mrs. Francisco C. de Baca is improving under the skilled care of Dr. Lund.

Joe Castillo and Jesus Mendoza have found very valuable silver and gold property in the Santa Indiana mountains.

Jose Valles lost one of his twins yesterday. It was nine months old. The other one is dangerously ill.

Julius Seligman was bitten by a mad dog.

Mr. Freudenberg visited Albuquerque on business.

Mrs. Aurelia Lucero and Edward Tafava were married on February 11 and a dance was given in their honor that evening.

Mariano Perea sold his fine ranch to Miguel C. de Baca, who will soon take possession.

Now that the Lenten season has commenced I suppose we shall have no more weddings here for some time.

Mrs. Charles Lowenberg arrived in Bernalillo from Chihuahua, Mexico, on Monday afternoon to spend a few days with her relatives, Mr. and Mrs. Wisburn and Mr. and Mrs. Freudenberg. She left on the evening train Wednesday for New York city, where she will be absent about a month purchasing millinery goods.

Miss Ethel Gregg spent Saturday, Sunday and Monday in Albuquerque.

Miss May L. Kraft spent Sunday and Monday in Albuquerque.

Bernalillo merchants are having a rushing business.

SILVER CITY.

Special Correspondence.

Silver City, N. M., Feb. 13.—The mine operators and residents of the Cooney district in the Mogollon mountains recently sent a petition to Washington asking that that section be taken out of the Gila forest reserve.

In their petition they stated that as that section did not contain a great amount of timber, being mostly a mountainous country, and what small amount of timber there was in the district was necessary for fuel and mining timbers. By it being in the reserve a great hardship is imposed upon the operators of mines especially as they are unable to secure timbers to carry on the mining operations to any extent.

The department at Washington sent an expert out to look into the matter who reported after an examination that it was his opinion that the said district should be kept in the reserve and the department the other day notified the petitioners to that effect. Considerable complaint is being made by the residents there and it is hoped that they may yet be able to induce the department to grant their wishes in the matter.

Clyde Smith, the efficient office deputy at the court house, has been spending the past week in El Paso in hopes of improving his failing health.

Meeting of the city council resigned his position as marshal to take effect the last day of February. Mr. Laird has some extensive mining properties in the Burro mountains which he states will require his entire time in the future. Mr. Laird's successor has not as yet been appointed. Several applicants are after the position and among the prominent candidates mentioned is James Brent.

While the weather in this locality has been almost like summer for a week past an epidemic of pneumonia is going around. Several deaths have occurred from the disease in a very short time. Five deaths have occurred in this city in the past few days.

Miss Lida Taylor is confined to her bed with an attack of pneumonia and while there are some hopes for her recovery it is thought to be rather doubtful.

Silver City is getting ready for a building boom in the near future as numerous contracts are being let for the erection of houses this spring. Houses are in such a demand in this city and have been for several years that they bring a handsome return in rents and a number of investors are going to put up cottages which will pay well.

William Rivers and wife will leave the last of this week for Los Angeles on a pleasure trip to relatives.

GALLUP.

Gallup, Feb. 17.—Beautiful weather at Gallup, yet five days ago a friend in Kansas was seriously hurt by an accident while out sleighing.

The "show" presented by home talent on the evening of February 6, at the Kitchen opera house, was well attended. Several of the young people are developing histrionic talent in a marked degree.

The calico ball on the evening of February 10, at the Kitchen opera house, was a success socially. Quite a number of young folks of the Dancing class were present, doing credit to themselves and their instructors.

There was a Valentine party at the home of Hon. Alex. Bowie on the evening of the 14th, which is said to be one of the most enjoyable functions of the season. Guessing games, tests of memory, music, both vocal and instrumental, and several original ideas pleasingly carried out, contributed to the entertainment of the company. Especial mention should be made of a "Musical Romance," which was read in part, the pauses being filled by music, the title of the melody supplying the words omitted. The hero being "Robin Adair," the heroine "Sweet Marie." Nothing was omitted that could add to the pleasure of the guests and the Bowie house is noted for its hospitality.

The people of Gallup were surprised and pained to learn of the sudden death of Judge Maxwell, which occurred the evening of February 14, from heart failure. The brothers and sons of the deceased have been notified, and when they are heard from, the date of the funeral will be fixed. Our sincerest sympathies are with the bereaved family.

A grand exodus of miners and their

RHEUMATISM

A Demon of Pain

Rheumatism seems to take a fiendish delight in torturing its victims. No mode of punishment ever invented by man, or practiced by devil-possessed savage, has caused more bodily suffering, such deep, racking pains, as this pitiless disease. Rheumatism leaves in its trail distorted muscles, crooked and misshapen joints and limbs, and the intense pain and agony endured is reflected in the haggard and furrowed countenance of the sufferer. Rheumatism makes us grow old and decrepid before our time, and many an one in the full vigor of manhood has been suddenly

stricken by this ruthless disease, and made almost as helpless and dependent as an infant. Chained to the invalid's chair or hobbling about on crutches, and continually tormented with pain, the patient in desperation resorts to the use of opiates, which deaden the pain but lead to ruinous habits. There is no disease so aggressive as stubborn as Rheumatism after it becomes well entrenched or fixed in the system, and no liniment or other external application can check it or do any permanent good. Rheumatism is not due to outside influences or causes, but is a constitutional disease, an internal inflammation produced by a too acid condition of the blood. Waste matter that should have been cast out of the body is retained, fermentation takes place, Uric, Lactic and other acids form and are absorbed into the blood, and as it circulates through the system every joint, membrane, tissue and nerve is saturated with these corrosive, irritating acids; when exposure to cold and damp or a spell of indigestion will bring on a fierce attack that almost takes the breath by its suddenness and severity. The parts affected become inflamed and swollen, and every movement is attended with pains that seem to cut like a knife into the tender flesh and nerves. After Rheumatism becomes chronic there is always a soreness and weakness of the back and dull

throbbing pains in the muscles and joints and an ever increasing stiffness of the limbs. This Demon of Pain attacks the old and young, the strong and the weak—no one is exempt, but from middle life to old age is the time when its assaults become most frequent and severe. At this period the vital energies begin to wane, the blood grows weak and thin, and is easily chilled, the circulation becomes uncertain and slow and there is scarcely a moment's freedom from pain in some part of the body.

The treatment of Rheumatism must be internal; some remedy that can reach and neutralize the poisonous acids and cleanse the circulation. S. S. S., a purely vegetable medicine, acts promptly and surely in all Rheumatic cases, purifying and invigorating the impoverished blood, eradicating all impurities from the system, and sending a stream of rich new blood to wash out the irritating particles that are causing the inflammation and pains. In chronic cases, or those developing late in life, S. S. S. is especially effective; it warms and enriches the blood, restores nervous energy and stimulates the failing organs, improves the appetite and digestion, and builds up the general health, thus fortifying the system against the tortures of Rheumatism. Alkalies, Potash and mineral remedies have an opposite effect, destroying the delicate lining of the stomach and often permanently impairing the constitution. S. S. S. is guaranteed entirely vegetable, and a specific in all Rheumatic troubles. Our Physicians will gladly advise, without charge, all who write them about their case, and we will mail free our special book on Rheumatism.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

families from Catalpa and Clarkville to other points. Forty men were discharged from the Thatcher last Monday.

The B. T. L. Dancing class has rented the Odd Fellows hall for another month. On account of school and other duties, they devote only one evening each week to this study, yet they are progressing finely. Some of the parents are present each evening and their kindly words of encouragement are appreciated.

The beautiful new goods for spring and summer are being unpacked and placed on exhibition by our merchants. Gallup is still up to date, though times are dull financially.

The Ladies of the Guild were delightfully entertained at the home of Dr. Edmundson on February 6. Bishop Kendrick was present. Mrs. B. Holmes and Mrs. Bothwell combined to entertain them on the 13th. A dainty luncheon in courses was served at the Harvey house, after the usual working hours were over. Hereafter only the parents and relatives of the pupils of the B. T. L. Dancing class will be admitted to the hall during the hours of the lesson. Any one receiving an invitation from the proper source will also receive a card of admittance. "None others need apply." This is done for the best interests of the class. The pupils are "bound to learn" and the management is bound to give them a chance.

A deed containing over 10,000 words was received by the county recorder last week.

OFF THE TRACK.

Special Correspondence.

Algodones, N. M., Feb. 17.—Some of the farmers here are through planting their wheat and others are just planting.

Work on the ditch has commenced and will be done next week.

No snow fell here this winter, with the exception of a light flurry about three weeks ago which did not cover the ground.

The weather is very warm for the winter season, there being scarcely any frost at night, while there is none during the day.

School will close for the term on the last of February.

The new school house has been painted and supplied with two new closets, and a contract has been let to make desks and seats sufficient to supply the school. The latter item is not supplied by the county funds but by private enterprise, which speaks well for the people of this district.

There is but one American family here and strange to say they do not send their children to the public school.

Times are very quiet here at present but the farmers will be busy planting from this on.

Of Local Interest.

Cretone J. Franco Chavez, superintendent of public instruction, spent several days on official business in Albuquerque during the week.

P. E. Harroun will leave this evening for San Francisco, his future home. Harroun will be the guest for the next few weeks of Mr. Harroun's par-

ents, Dr. and Mrs. W. S. Harroun.

Mrs. A. A. Keen, wife of Land Commissioner Keen, after two weeks' sojourn in this city, has returned home to Albuquerque. Mr. Keen accompanied her to the latter city.

District Clerk A. M. Bergere returned yesterday noon from a visit to Albuquerque. Mrs. Bergere remains at the Duke City, the guest of Mrs. N. B. Field, she having recovered from a severe cold.—New Mexican.

Keep Your Eye on Williams. Williams promises to be the great railroad center of Arizona. She already has three roads and a fourth is on the tapis. This week Attorney H. F. Ashurst filed with County Recorder Phillips & Cretone Canyon Railroad company. The articles provide for the building of a railroad from Williams to Cataract canyon, which great scenic point cannot be reached at present except by wagon. Cataract canyon, while an adjunct of the Grand canyon, rivals and is thought by some to surpass the beauties of the parent canyon. In addition to the heavy tourist traffic that would result should be taken into consideration the benefits that would follow to mining enterprises in that locality.

A. L. Hall, A. B. Coit, H. L. Byrne, N. F. Bauer and Charles Hies are the incorporators and the amount of subscribed stock is \$30,000. Now, if you have any money to invest don't be afraid of Williams, for she is the coming town.—News.

S. F. P. Hospital Notes.

Trainman Stake, of Williams, who was recently operated on by Drs. Russ and Saylin for a tumor on the neck, is improving rapidly.

A. Conrad, from Flagstaff, who has been in the hospital about a week taking treatment for kidney trouble, returned to work last night.

K. Iwata, the Jap injured recently at Wynoke, is recovering rapidly.

A. Mander and A. Garcia, laborers, suffering from rheumatism, were received at the hospital yesterday.

Henry Krelman, suffering from rheumatism, has been transferred from the hospital at Los Angeles to Albuquerque.

W. J. Egan, the man operated on about a month ago, by Drs. Russ and Saylin, for blood poison in the foot, will soon be out again.

Martin Gates, who had a foot bruised at the local shops about two weeks ago, went back to work yesterday.

Quite Complimentary.

W. T. McCreight, Albuquerque Citizen, Albuquerque, N. M.

Denver, Colo., Feb. 15.—Please allow me to congratulate you and Mr. Hughes upon your success in giving to the public such a magnificent daily paper as you are now issuing. It is a credit to the town and the territory of New Mexico, as well as its publishers, being full of matter of general interest. Myself and family enjoy it very much.

With all good wishes for your continued success and prosperity, I beg to remain, very sincerely,

C. H. YOUNG.

Mr. Young is the division superintendent of the Wells, Fargo Express

REPEATED FAILURES, THEN RELIEF.

Mr. Wm. L. Hill, of Winston, N. C., at one time a traveling salesman and well known in North and South Carolina and Virginia, "Two years ago my blood was in wretched condition, and in addition to other bodily ailments, I suffered severely from Rheumatism. After repeated failures to secure relief from the use of other remedies, I began S. S. S., and it acted like a charm. The rheumatic pains left and my general health was built up as well. I have the highest opinion of S. S. S. for it is the only medicine that did me any good."

SAN MARCIAL.

From the Bee.
Mrs. Fred H. Smith, wife of our chief dispatcher, returned from a visit to Las Vegas, accompanied by her sister, Mrs. Reid.

The Methodist parsonage is more homelike since the arrival of a baby boy. Mrs. Williams is getting along nicely. Dr. C. G. Crickshank was the physician in attendance.

J. D. Chandler has purchased the opposition meat market of Avelor Silva, and again San Marcial has but one butcher shop. Mr. Chandler has moved into the premises vacated by Mr. Silva.

Frank Armstrong and C. G. Crickshank were in Socorro on business. Nearly every greeting they received was preceded by a political smile. In some cases it appears to be an office or death, with glowing indications in favor of the latter contingency.

Mesa Irrigation.

Editors Citizen:
Inasmuch as you ask if my opinion is that your mesa irrigation is practicable. A well of sufficient magnitude to demonstrate the fact can be put down, and should cost but a small fraction of what you say has already been expended in attempts at its redemption. I expect to remain a citizen, and as such, am at all times which can be spared, at your service to aid in the betterment of present conditions.

When I aid you I am bettering myself, and when your surroundings improve I also am helped. Respectfully,

PAUL B. PERKINS.

Ungrateful Hobo.

On a plea of sickness P. C. Cowles, a professional hobo, received medical attention from the city physician and was taken to the Ladies Home. He came down town yesterday and the kind hearted marshal collected a sum of money for him to procure necessities. Instead of doing so, he got on a wild trot and he landed in the city jail. Judge Wooster gave him his liberty long enough to leave the city this afternoon.—Record.

Every locomotive in the United States should be permitted to give 100 triumphant, jubilant toots on March 24 next. Every machine on the rails should be decked out in the gayest of bright livery on that day, for on March 24, 1892, the locomotive will be 100 years old. On that day, 100 years ago, Richard Trevithick and Andrew Vivian applied to the English government for a patent for steam engines for propelling vehicles.

C. D. Klumpp and wife left this morning for Lawton, O. T., where they will take possession of their homestead which they recently drew in Uncle Sam's lottery. Mr. Klumpp, for many years, was one of the faithful engineers on the Santa Fe Pacific, and many friends here will regret to note the departure of himself and wife from among them.

Gallup, Cerrillos and Bland

Newsy Notes
From
Exchanges

GALLUP.

From the Republican.
H. Neumann, the Guam trader, spent a couple of days here.

Mrs. J. B. Moore came in from her home on the reservation.

Peter Rossi, who was shot through the nose last week, is able to be out on the streets.

Mrs. Dr. Clayton, entertaining a young lady friend, Miss Hillmeyer, from Shulbass, Wis.

Engineer John Pitts, of Gibson, visited Algodones to attend his brother's wedding.

John H. Wood is moving his effects from Fort Wingate and will make his home in Gallup.

John Harris, the blacksmith, won \$370 at roulette, bought a ticket to Chicago and quit the country.

W. A. L. Tarr and his son Elwin spent a day in Gallup visiting friends. Elwin is in business at Jerome, A. T.

Gregory Page is improving his property adjoining his hotel by putting in a new front. Contractor Kennedy is doing the work.

Two Jim crow confidence men were given thirty days each in the county jail for turning a few small tricks. They gave their names as H. G. Morgan and Joseph Johnson.

The Whitson Music company, of Albuquerque sold four fine pianos in Gallup last week. The town must be all right when one or two pianos are sold here every week.

The county commissioners have ordered two steel cells with a five foot corridor. The cost delivered here will be \$2,960. They have also ordered a fence twelve feet high built around the jail.

The following members of Gallup Lodge No. 13, Knights of Pythias, were appointed on a committee on arrangements for an entertainment to be given on the evening of March 22, to celebrate the establishment of the lodge in Gallup: Messrs. W. F. Kucheneck, W. R. Risdon, Robert Hodgson, Wade H. Shaw and John Arm.

CERRILLOS.

From the Register.
C. E. Easley and W. S. Hopewell were in Cerrillos on business.

W. L. Leeka, photographer, is at his old stand in Madrid for a short time only.

A. L. Driskell was quite sick a few days the first of the week, but is now improving.

L. D. Sugar, of San Pedro, was a pleasant caller at this office. He says prospects are bright with the Argo company.

Rev. Robert Hodgson, presiding elder for this district, held quarterly meeting at the Methodist church Wednesday evening.

Zenon Sandoval went to Santa Fe as a witness in the case of Juvenita Ellison de Mares vs. Pablo Mares, which came up for hearing there.

Charles Kimball, of Wagon, bought a fine piano from Hall & Learnard, who Albuquerque music dealers, the first of this week, so we presume there will be music in the city at Waldo for a while now.

Dr. Walter Spargo, health officer of Wheeling, West Virginia, and George Larnard, of the firm of Hall & Learnard, music dealers of Albuquerque, were Cerrillos visitors a few days.

Those Hall, senior member of the firm of Hall & Learnard, of Albuquerque, will make his fifth semi-annual trip to this city in the near future. Owners of fine pianos appreciate Mr. Hall's ability as an expert and conscientious piano tuner.

At the Catholic church in this city Miss Simonita Martinez and Cruz Garcia, were married. Rev. Father Revell officiating. Following the ceremony a feast was given at the home of the bride's brother, Cleofes Martinez, and a grand ball at Hurt's hall in the evening.

BLAND.

From the Herald.
Miss Mabel Routledge entertained the Buay Bee society.

Mrs. David Norman was over from Albarque on business.

Tom Lynch now ornaments the box on the Bland stage. Tom is popular all along the line.

Master Joe Grace gave his young friends a party, which was an enjoyable event.

George Frane came in from Albuquerque and proceeded to Albarque the same day.

G. S. Ostrander was over from Peralta canyon the front end of the week trading.

Mrs. J. W. Carpenter and children came in from Albuquerque and are now domiciled in their cozy home in the northern part of town.

Mrs. W. H. Knight and little son, Chester, left for Prescott, A. T., where they will join Mr. Knight, who has a good position there.

H. L. Douthitt, who for the past few years has had charge of the Washington mine at this place, is now a resident of Santa Fe, having bought a nice home and removed his family there. Mr. Douthitt left to join his family.

Mrs. J. H. McLaughlin has been busy making preparations to leave for Santa Fe to join her husband. She expects to get away inside of the next day or two. We regret very much to lose this estimable family from our midst and commend them to the good people of Santa Rosa as being most excellent people.

SOCORRO.

From the Chieftain.
Mrs. Paul J. Terry expects soon to join her husband in Mexico, where he has accepted a desirable position in one of the Guggenheim smelters.

A. T. Harrison is now in El Paso, Texas, where he has real estate interests, and it is reported that he and his family will soon make their home in that city.

Miss Virginia Otero, of Santa Fe, niece of Governor Otero, and sister-in-law of Hon. Solomon Luna, is in the city as guest of her cousin, Sister Dolores, of Mt. Carmel convent, and numerous friends.

Married in this city Sunday evening.

This Will Interest Mothers.

Mother Gray's Sweet Powders for Children, successfully used by Mother Gray, a nurse in the Children's Hospital in New York, cure feverishness, bad stomach, teething disorders, irritability, the bowels and destroy worms. They are so pleasant to taste and harmless as milk. Children like them. Over 10,000 testimonials of cures. They never fail. Sold by all druggists. Ask today. Sample free. Address: Allen S. Olmstead, El Roy, N. Y.

register and probably got \$15 or \$20. Nothing else was touched. Mr. Lohman's greatest loss will be in repairing the cash register. The work was evidently done by some one acquainted with the premises.

A Thousand Dollars Thrown Away.
Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." Sold by Alvarado Pharmacy.

AN ASSAULTER OF WOMEN.
A Bad Man and His Peculiar Night's Work.

The full particulars of the assault upon Mrs. W. W. Fletcher, of San Marcel, are told by the Bee in the following article:
"The apprehension of the assailant of Mrs. W. W. Fletcher, on Thursday night of last week, is an event still to be brought about. This assault is even more mysterious than the one recorded two or three months ago upon Mrs. J. W. Crawford. Mrs. Crawford was found near her dwelling a little after dark with her face badly cut and a number of her teeth displaced. Mrs. Fletcher found a man in her house when she returned home between 10 and 11 o'clock at night. In the struggle that followed in the darkened room the man was forced from the house by the lady upon whom his evil designs were centered; but he persisted in his attempts to recover lost ground, and kept Mrs. Fletcher actively employed guarding the doors and windows with a hatchet until nearly 5 o'clock in the morning, and then disappeared, leaving no more positive means of identification than that of being a short, heavily built fellow with a bloated face. During the exciting struggle and thereafter when the man appeared likely to effect an entrance the second time, Mrs. Fletcher screamed for help, but without avail, and so the exciting attacks and repulses continued during the long and trying hours. His plan of attack and his apparent indifference to the possibility of succor in response to the screams and noise of the bombardment, would lead one to believe the marauder was either drunk or demented.

For Stomach Troubles.
"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger, of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by all druggists.

CALLER HENCE BY DEATH.
John Miller, a Well Known and Popular Resident, Died Early This Morning.

John Miller, for the past five years a resident of Santa Fe, who came here from New York city for his health, died this morning at 2:30 o'clock, at his home, the residence of Mr. and Mrs. Charles A. Haines. Early this week, while walking on the street, he had an unexpected and severe hemorrhage, since which time he has been sinking rapidly. Mrs. Miller, who had been east on the sad errand of attending the funeral of her mother, returned Wednesday evening, to be with her husband when the last summons came. Mr. Miller was well known and popular in Santa Fe and recently became a member of the local lodge of Elks. He had apparently recovered from his illness. He is survived by his parents, people of wealth, in New York city, and thither the remains will be taken on the train that leaves for the east to husband when the last summons came.

Favorite Nearly Everywhere.
Constipation means dullness, depression, headache, generally disordered health. DeWitt's Little Early Risers stimulate the liver, open the bowels and relieve this condition. Safe, speedy and thorough. They never gripe. Favorite pills.

The local police officers are on the hunt for C. M. Hamilton, formerly a second-hand dealer in this city, and who left for parts unknown several years ago after obtaining the proceeds of some junk, which he had shipped to El Paso for Charles Dennis, on the Mimbres. Hamilton went down to El Paso, after he had shipped the goods, and contrary to agreement, secured the money from the parties to whom they were consigned and then folded his tent and silently stole away. Nothing was heard of him until he was seen in this city Wednesday night, when the officers started on a search for him.—Silver City Enterprise.

ONLY A DRIVE.
Looking Up Army Sites But Not Officially.

The assertion, in certain quarters, that a committee was out yesterday and had selected a site for the proposed military post is false. The Citizen representative investigated and discovered that, when Major General MacArthur was here a few days ago, he told Mayor Maron to look around and have some data prepared for him on his return to the city and in order to comply with the request and Maron selected the following gentlemen: W. B. Childers, G. L. Brooks, P. F. McCanna, Pitt Ross and A. D. Macpherson to accompany him on a drive throughout the valley and the mesa. No site was selected; none was expected to be selected, but still, when the major general reaches the city, he will be supplied with the necessary data as to the location of a site for a big army post.

WATER ON THE MESA.

Its Feasibility Possible and Probable by Artificial Irrigation.

ARID SAND SLOPES.

Editors Citizen:

Upon the establishment of our station by the Santa Fe railway twenty-two years ago, began the influx of states people to what is now our city. Then commenced the agitation of an improved water system for irrigation purposes.

Up and down the valley for a width of six miles, and a length of twenty miles, is land as fertile appearing as it is extensive, as pretty appearing as it is barren and useless, because non-irrigable.

In all these years theoretical schemes have been advanced and attempted, for the redemption of the slope of the foot hills and of the mesa; and from the days of Brownwell and his two-bit boring device, through Robertson and his four-bit high line canal; to the more recent two two-thousand-dollar augur driven a few feet into the ground north of the city to the most recent twenty-thousand-dollar low line fake, nothing practicable has been attempted, and the only results have been the expending of about \$50,000.

These thoughts arose when I was commissioned to investigate the water question in connection with the Perkins plant in the valley, seven miles south. I found it situated on the slope of the hills. Found first a small engine room, at the rear of which was a hole about ten feet square, and nine feet below its surface, water, clear but slightly agitated. A scald dropped to the bottom indicated nine and one-half feet of water. In one corner stood a four-inch pipe connected with a main, and alongside two small pipes; that was all. Those pipes were afterward connected with a pair of air cylinders in the well.

An obliging young man came from the engine room and with him I entered it and saw a boiler, an engine and a lot of stuff he called nipples, elbows, collars, caps, unions, etc., which were as unfamiliar to me as engines are unfamiliar to a woman. They demonstrated what I wanted to see—water flowing over these sand slopes. I had wanted to see it as badly as for upward of twenty years. The Citizen has wanted to see a railroad through Tigra Canyon.

Shortly Mr. Perkins arrived, and it was demonstrated that our desert is subject to redemption; that in one part of our valley the twenty-third hour of the day of the cacti, the sage brush, the soap weed and the desert sand has been reached, and the first hour of the alfalfa, the cereal, the beet and the other vegetables, is approaching. Halt a minute, after the engine started a solid four-inch stream of water spouted itself into the air from a six-foot standpipe about fifty yards from the well. "If I was as young as I used to be," there would have been shouting and self-irrigation amongst all hands, by the elbow hoist and the downward flow, for the old heart was elated, the old eyes well pleased to see water, actual water, irrigating the desert sands.

In about twenty minutes, measuring the well, it contained six feet of water. Five minutes later this was reduced to one and one-half inches; the next five, one and one-half, and in another five, one inch. Then could be plainly seen a four-inch pipe from which flowed, naturally, a crystal stream spouting six inches above the pipe and falling in a two-foot circumference as steady and looking as clear as the globe we often see covering a waxen bouquet. This from a depth of only fifty-seven feet.

The water flow looked sufficient, but Mr. Perkins informed me that it was not enough to satisfactorily test the capacity of his power, but that he can easily increase the flow from the present pipe, and knowing now where the water is, the quantity is only a question of additional sources of supply. Air is the force used, and its application does not pertain to this report. The water can be brought from any depth and conveyed any distance.

Questioned as to the injury to the plant by the cutting sands, the response was that there were no valves to injure; no parts subject to destruction by such sands as are encountered here, and that they are the worst in an experience of more than 100 wells.

What I was sent to find was, whether the sands could be made fertile? The hill slopes can be irrigated without a low line canal and without regard to the Rio Grande.

Can the mesa be irrigated without the high line canal and without regard to the Rio Grande? I have always been satisfied that it can when the object is approached intelligently and it has been so thought by the intelligent method is now in the valley. But I am not satisfied as to the competency of my judgment. Mr. Perkins appears to be experienced in artificial irrigation and as a practical man. The Citizen should have his opinion on the question of the mesa irrigation.

Methodist Services.
The house was taxed to its utmost capacity last night at the Lead Avenue Methodist church, the occasion being a sermon by Dr. Bunker on "Abraham Lincoln." He spoke of his mother's influence, she being a noble and devout Christian woman; of the books he read in childhood, "Bunyan's Pilgrims Progress," "Aesop's Fables," and the "Life of Washington." He then spoke of the leading elements of his character, his loyalty to the common people, his honesty and integrity of character, his sympathy, tenderness and sadness relieved by a constant flow of humor and wit. He spoke of the fact that he never used tobacco or liquor in any form, even pledging a committee of politicians in cold water at the time of his first nomination. He spoke of his hatred of slavery and slowly developed abolition sentiment. And then he showed that he constantly read his Bible and daily prayer for wisdom and guidance in the affairs of state, and that he declared to many persons that "he thought more upon these subjects than upon all others and had done so for years," and that though he could not tell when he was converted "the process of crystallization had been going on for some time." And within a year of his death, at the close of a lengthy conversation upon this subject, he said: "It has been my

Pistol Practise

Is becoming more popular among women. The reason given is that a woman should know how to use the pistol for self protection. The theory should be carried farther. Where a woman is in danger from assault once she is in danger from disease every day of her life. Women have not only to run the risk of diseases which threaten husband, brother, and son, but they have also to guard against diseases which are peculiar to womanhood.

From these diseases Dr. Pierce's Favorite Prescription will effectively defend women. The use of this medicine preserves as well as restores the womanly health. It corrects irregularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I cannot say enough for Dr. Pierce's Favorite Prescription and Golden Medical Discovery," writes Mrs. J. M. Tutt of 48 Franklin Street, Brooklyn, Ind. "I could hardly walk alone or do my housework when I heard of your wonderful medicine. I used five bottles of each and several coils of your pleasant pills, and can say I am a well woman. I thank Dr. Pierce for his advice for he helped me to live. May many thousands of women take my advice and when in poor health of suffering from any female trouble take Dr. Pierce's wonderful medicines."

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The People's Common Sense Medical Advisor, a book containing 1008 pages, is given away. Send 21 one-cent stamps (expense of mailing only) for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

Intention for some time, at a suitable opportunity, to make a public religious profession. It was thus religiously working in a great nature that developed those characteristics that have so endeared him to men.

The Newton Entertainment.

A delightful card party occurred at the home of Mr. and Mrs. A. L. Newton on South Arno street Saturday night. The party, although a day late, was in honor of Jolly old St. Valentine. The rooms were tastefully decorated with Valentine hearts of various sizes and colors, on each of which was written a pretty verse of poetry. Progressive whist was the pastime of the evening, being played at four tables. The players found their partners in a very unique and pleasing manner. Each person was provided with a piece of card board heart, and to find your partner it was necessary to find the piece of heart that made your heart complete.

Mrs. Murray and Mrs. Barlydyt secured the first prize, pretty glass oil paintings. The hooby prizes, Valentines, were carried away by Mr. Bartlett and Mrs. Saxton. After the scoring the guests were ushered into the dining room, where delightful refreshments were served. Both vocal and instrumental music was enjoyed.

Those fortunate enough to be present at the enjoyable affair were: The Messrs. and Mesdames Bartlett, Saxton, Murray, Newton, Mrs. Alexander, Stevens, Misses Shimer and Newnan, and Messrs. Barlydyt and Parker.

Accidentally Shot.
John Becker and W. D. Radcliffe came in from Bolen this morning, bringing here the former's nephew, Julius Becker, who was accidentally shot yesterday. Julius is the son of Gustave Becker, the general merchant of Springerville, Arizona, and attended school in this city. Last Friday he visited his uncle at Bolen, to remain over until Monday, when he would return to continue his school duties. Yesterday he was cleaning a 38-calibre pistol when the weapon went off, the bullet entering the left leg several inches above the knee and lodged in the knee cap. This morning the ball was located at Dr. Tischer's office by the X-ray process and this afternoon it was extracted. In a few days Julius will be all right. Dr. Radcliffe and John Becker will return to Bolen tonight.

Cottonwood Grove Dance.
The dance given by Cottonwood grove No. 2, Woodmen Circle, at I. O. O. F. hall on Saturday night, was a decided success both socially and financially. A splendid program on sixteen regular and five extra dances was enjoyed. Delightful refreshments were served during the evening. The committee on arrangements was composed of the following ladies: Lucy Rummel, Lulu Hopping, P. A. Lillie, Julia Garrett and Grandman.

Mrs. Rose Berry, in her well known, pleasing manner, furnished the music.

Sunday Afternoon Race.
Ladies, who should take the race track for their races, had a fine tilt down Second street yesterday afternoon, and the little sorrel won over the bay horse. There were two buggies and of course two horses, and there were two ladies in each buggy. Marshal McMillin started after the sports, and on account of foot steam, gave up the race at the corner of Second street and Lead avenue. He has their names and if another such exhibition he will make them pay the usual fine for fast driving within the city limits.

F. E. Brockman Dead.
B. Ruppe, yesterday, received a telegram from Chicago, announcing the death there of Hon. F. E. Brockman, an ex-alderman of that city. The deceased spent two winters in this city for the benefit of his health, he suffering with some kind of acute stomach trouble. He was president of the Brockman Manufacturing company, of Chicago, and was otherwise prominent, connected with the commercial affairs of that great city.

Garcia's Mule Team.
About noon today the mule team belonging to Elias Garcia created a little excitement by running away with the rig to which they were hitched. The team was headed north and struck out at a "shell road" gait, going out North Seventh street to New York avenue, then turning about heading for Sixth street, when they were caught by an employe of Mr. Garcia. The only damage resulting from the runaway was the complete wrecking of the buggy pole.

ROSSELL EXTENSION.

General Manager Mudge Does Not

Think Line Will be Built Now.

IT HAS GREAT POSSIBILITIES.

General Manager H. U. Mudge does not think it likely that the Santa Fe is planning to build the 150 miles of line between Roswell, N. M., and El Paso, says the Topoka State Journal.

"I do not believe," says Mr. Mudge, "that Avery Turner made the statement attributed to him concerning the probable extension of the Pecos Valley line. It looks to me like the work of some imaginative newspaper correspondent."

Probably some time the extension will be built, but I do not believe that anything is to be done just now. Surveys of the territory between Roswell and El Paso were made by the Pecos Valley people before the Santa Fe bought the line and it was the original intention that the road should be extended through to El Paso. These surveys, of course, came into the possession of the Santa Fe, and the possibility of extending the line has not been lost sight of.

"I do not believe that for the present the amount of business at El Paso justifies the construction of another line there, though, of course, the way is open whenever it seems advisable to build."

The statement concerning the proposed extension, as reported Friday in a dispatch from El Paso, was as follows:

"The vice president and general manager of the Pecos Valley railroad has semi-officially announced that the Santa Fe, owner of the Pecos Valley road, will construct a line from Roswell, N. M., to El Paso, 150 miles, to compete with the newly completed Rock Island route, which made a cut of 222 miles over all lines now touching here."

Avery Turner is the general manager of the Pecos Valley, and it is probable that the dispatch refers to him as the authority for the statement.

The report of the extension aroused great interest in both Santa Fe and Rock Island circles. The Rock Island is interested because it has just completed its El Paso line and now has the shortest line from Kansas City to El Paso by over 200 miles. If the Santa Fe should construct the El Paso extension from Roswell, it would beat the Rock Island into El Paso by thirty-two miles.

The total length of the Rock Island line from Kansas City to El Paso is now 947.5 miles. If the Santa Fe should build its Roswell extension it would cover the distance over the Emporia cutoff and the Caldwell branch, in a total of 915.5 miles. The proposed extension has great possibilities.

It must be remembered, however, that the Pecos Valley line is not the same sort of a road that the main line of the Santa Fe is. It has not been worked as much, and is not, in railroad terms, "well established." It is not capable of sustaining so much travel, or such heavy travel as is sent over the Santa Fe main line. It would involve a large outlay for betterment of the Pecos Valley line if the Santa Fe were to send its El Paso business via the Pecos Valley and the proposed Roswell extension.

If nothing else, the humor of the decision to build the extension serves to menace the Rock Island's present claims of supremacy in the handling of El Paso traffic from Chicago and the east.

Considerable confidence is expressed in the truth of the report that Santa Fe officials have just completed the inspection of the Rio Grande & Sierra Madre from El Paso to Nueva Casas Grandes in Mexico and a deal is pending for its purchase.

The impression seems to be among railroad authorities that the Rock Island will make the alliance with the Mexican Central and this adds color to the rumor that the Santa Fe is in the field to buy the Casas Grandes line, which if extended from its present terminus to Concepcion and thence over the Sierra Madre to the harbor of Topolobampo, would give an equally efficacious outlet to the Pacific coast and the Orient, besides taking the Santa Fe into the great corn belt of Mexico, and into the coal fields and richly mineralized country known to be waiting a railroad or railroads, beyond the Sierra Madre mountains. There is a prophecy from the east that the movement of the Casas Grandes road will take place within the coming fortnight.

HILLSBORO.

From the Advocate.
Rev. A. J. Day arrived here to supply the Methodist Episcopal church charge. He will shortly move his family here.

County Commissioner Duran is suffering from a severe attack of paralysis. The entire right side is paralyzed. He is now in El Paso seeking treatment.

The beautiful weather which we are now enjoying and which is so characteristic of New Mexico, is sufficient to make the native Italian turn green with envy.

J. E. Hopkins was in town this week. He says Mrs. Hopkins has fully recovered from diphtheria which she contracted in El Paso while taking care of her sick brother.

Fred Master was awarded two mail contracts, one from Lake Valley to Kingston and from Lake Valley to Tierra Blanca. Hilario Chaves secured a contract from Arroyo to Hillsboro. Frank Calhoun secured the contract from Andrews to Hillsboro.

Death of Mayordomo.
Viviano Caraballal died at his home in old town Saturday afternoon from the effects of a severe attack of pneumonia. The deceased was 50 years of age and was born in Old Albuquerque, where he lived until the time of his death. He was honorable, well known and has held many positions of trust. At the time of his death he was the mayordomo of the aquila of old town. Funeral took place this forenoon.

S. M. Carley, superintendent of Pullman car service at El Paso, and F. E. Rice, superintendent of Pullman car service at St. Paul, Minn., spent yesterday in the city. Mr. Rice going west last night and Mr. Carley returning to El Paso.

Nasal CATARRH
In all its stages.
Ely's Cream Balm
cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.
Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ARIZONA TOWNS

WILLIAMS.

From the News.
Mrs. E. G. Dullis returned to the city after a visit of several days at Winslow.

Dr. A. G. Rounselle returned to the city from a trip to the southern portion of the territory.

Mr. and Mrs. J. Salzman and family returned to the city after an absence of some weeks at San Francisco and other points on the coast.

A. R. Kilgore began making preparations for the erection of his new carpenter shop on the site of that recently destroyed by fire.

R. A. Joyce, brother of Mrs. E. H. Simpson, arrived in Williams from Los Angeles, expecting to remain several days. This is his first visit here since the fatal fire and he is greatly impressed with the good, substantial buildings that have been erected.

George W. Matthews is sinking a well on his lot in the rear of the store. At a depth of ten feet the ground was showing good indications for water, and it is expected that five feet more will develop a sufficient flow. This will be used in case of fire and incidentally to irrigate their prospective garden.

W. D. Wilson is a recent arrival in the city from Hico, Texas. The gentleman said he thought he would like to visit a country where there raise something besides cotton and—here we supplied a word. He laughed and said they were not allowed to locate in the section from which he came.

Mr. and Mrs. J. Kaufman returned from Selman after an absence of several weeks. Mr. Kaufman has completed the repairs on the reservoir located at that place and says the dam now has a capacity of six million gallons.

The best dance so far this season occurred at the opera house under the auspices of the Williams Military band. The hall was filled almost to overflowing with a merry crowd of dancers, who availed themselves of the opportunity to dance till the small hours.

The music furnished by Messrs. Green, Waite, Miner, Simmons, Zani and Hester was superb, and late in the evening the entire band favored those assembled with two or three numbers. The boys did themselves proud and deserve much credit.

HOLBROOK.

From the Argus.

Mr. and Mrs. Fred Wetzel, Mrs. Boyer and Miss Maggie Jervis visited Mr. and Mrs. Frank Wallace at the Aztec headquarters.

Sheriff R. C. Kermode, of Montezuma county, Colo., arrived here, and departed with the prisoner, Bud McDonald, who is charged with horse stealing.

Frank L. Moore, who has been foreman of the Snips office at St. Johns, since the establishment of that paper, came down Sunday, having decided that life in the Apache county seat was getting too monotonous—since the local option went into effect. After a couple of days' visit at Holbrook he hit the pike for the west.

Sunday afternoon, February 9, occurred the marriage of L. D. Divelbess to Miss Lora Gardner, at Woodruff. The ceremony was performed by Bishop L. M. Savage, in presence of only relatives of the contracting parties. Dan Divelbess has lived, the greater part of his life in Holbrook, and at present has charge of the pumping station for the Santa Fe. He is a steady, industrious young man, and is held in high esteem by everyone.

FLAGSTAFF.

From the Sun.

Mrs. F. W. Smith, of Williams, is visiting relatives here.

Mrs. C. A. Greenlaw and children will leave for Los Angeles, where they expect to spend several weeks.

William R. Uher, deputy supreme chief ranger, independent Order of Foresters, and whose field is California and Arizona, is in the city in the interest of that order. Mr. Uher has been situated during the past year lodges in nearly every important town in the territory, and during his stay here will make an effort to increase the membership of Court Cocolino, No. 896.

David Mitchell, manager of the Arizona Sandstone company, spent several days here, leaving for Los Angeles. The company is shipping stone to Los Angeles to be used in the new postoffice building, now being erected in that city. Mr. Mitchell has secured a contract to furnish the stone for the finishing of stone work at San Pedro harbor. It will take four years to complete work.

WINSLOW.

From the Mail.

Dave Parker went to work as blacksmith in the local shops the latter part of last week.

Dr. O. Brown, who recently came to Winslow as the railroad physician comes to Winslow very highly recommended.

Winslow's base ball enthusiasts are already at work for the coming season, which promises to bring many good games to Winslow.

A car load of machinery passed through Winslow the other day for Mr. Voltz, the Indian trader at Canyon Diablo. It appears that Mr. Voltz is working some great changes at the village.

Winslow has experienced something akin to a soft coal famine the last week. Some of the local dealers could not scrape up two bits worth of coal to save their souls from the anger of the cook.

The population of Winslow is booming right at present. During the past ten days two young gentlemen started their varied career in Winslow, one the son of Mr. and Mrs. M. W. Pritchard, the other the son of Mr. and Mrs. Richard Doyle.

KINGMAN.

From the Miner.

Mr. and Mrs. J. F. Phelan and the children returned from a visit to relatives in Williams the first of the week. They will remain in town until Mr. Phelan has settled up business affairs, when they will visit friends and relatives in Los Angeles.

A large band of Wallapai Indians started for Hackberry, where they will

receive rations. We understand that this is the last issue that will be made to these Indians under a recent ruling of the Indian department.

Kingman property is on the beam. This week Messrs. Mulligan & Hubbs, of the Hotel Beale, were requested to set a price on that property by a syndicate of capitalists and offers were also made for other desirable property.

The proprietors of the Beale have no desire to sell, but will let go if the purchaser reaches their figures. In the next sixty days it is rumored that work on a new business block will be commenced and that eastern people will be at the head of some of Kingman enterprises.

An electric light plant will be installed some time this year and the town will take on metropolitan airs. The water supply of the town and its central location makes it a desirable residence place for mine superintendents and mine owners of the county, adding much to property values.

SILVER CITY.

Special Correspondence.
Silver City, N. M., Feb. 18.—Roy McDonald, the Mutual Life Insurance master of Albuquerque, has been spending the past few days in Silver City writing insurance.

The Elks lodge of this city are making great preparations for their fourth annual ball to be given at Newcomb hall on next Friday evening.

Mrs. J. W. Fleming left the first of the week on a pleasure and business trip combined to El Paso.

An action was taken by the Silver City Reduction works a few days ago, which greatly helps the operators of copper mines in this section, who are shipping ore to that works. Some time ago the smelter issued a notice that in the future they would only pay 75 per cent of the market price of copper at the time of their shipment and the balance some time later. In their new ruling they will pay the full price at the time of delivery of the shippers. This will greatly encourage the copper-producing mines in this locality, as it will insure the miners prompt payments and return for their ore.

The Schubert Symphony Concert company which gave a performance in Morrill opera house last evening under the auspices of the Normal school here, was an excellent entertainment. The opera house was crowded to its fullest capacity. The school will give a lecture on liquid air at the opera house on next Monday evening, which promises to be well attended.

Charles P. McLaughlin, of the well known firm of Cross, McLaughlin & Co., of St. Louis, is in the city and is looking at some of the copper properties in the Burros with the idea of investing.

It is reported that James S. Fielder, who a short time ago moved to El Paso to practice law, will return to New Mexico in the near future.

John F. Kilburn and family will leave Silver City the latter part of this week for El Paso, where they expect to make their future home. Mr. Kilburn will engage in business in that city.

The nomination of Artie E. Galloway as postmaster at this point was confirmed by the senate last week.

J. C. Curston has contracted for the delivery of 1,000 steers in May. The stock was purchased by American Live Stock & Loan company and brought a price of \$15, \$18 and \$21.

A Hurry-up Medicine.
Every housekeeper recognizes the need of effective remedies to be used in emergencies: when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Its mission of mercy began sixty years ago. It is used in all countries. There is but one Painkiller, Perry Davis'.

DANIELS LOSES.
Letter to Roosevelt Not Satisfactory and Nomination Will Be Revoked.

A special to the Denver News from Washington under date of February 17, says:

The nomination of Ben Daniels, an ex-Rough Rider, to be marshal of Arizona, confirmed by the senate before it had heard of his record as an ex-convict, a hold-up man and a brace game gambler, will be revoked by the president.

Daniels was a personal nominee of President Roosevelt. The president knew him as a brave soldier and decided to reward him a mere was ugly rumors in Washington about Daniels when his nomination was referred to the judiciary. After his nomination was confirmed the story came that Daniels had served a term in prison for larceny and a great row was raised in the senate because he had been confirmed without facts being brought to the knowledge of that body. President Roosevelt called on Daniels for explanation and the letter received in reply was not satisfactory.

COMER IS GENERAL MANAGER.
Young Man Given Important Position on Texas Road.

The directors of the Dallas division of the St. Louis & San Francisco met at Fort Worth and elected L. B. Comer to succeed W. B. King, who recently resigned, as vice president and general manager.

Mr. Comer is the youngest railroad general manager in this country, and has been in the employ of the Missouri, Kansas & Texas in St. Louis. His first official act was the appointment of W. Preston, general freight agent, and W. A. Tuley, general passenger agent, both now representing the "Prisco" as commercial agent and general agent of the passenger department in Texas, respectively, with headquarters at Dallas.

Shot a Burglar.
Shortly after 3 o'clock this morning, John H. Thompson was shot by C. H. Lawrence and painfully injured. He had just left the freight room of the Lawrence grocery on San Francisco

street. The wounded man admits that he went into the room for the purpose of stealing something to eat. Mr. Lawrence first discovered that someone was in the room by finding a door that is always kept locked during the night standing ajar.—El Paso Herald.

Trouble in the Florence School.
For several months past, a bad feeling has existed between some of the members of the Florence school board and Teacher F. H. St. John, and it culminated in open warfare, this week. From all that can be learned of the antecedents of the case, there has been considerable obstinacy and acrimony on both sides, and over what strikes an outsider as mere trifling. A majority of the board decided among themselves to summarily remove Mr. St. John and requested him to dismiss his school and deliver up the key to the school house. This Mr. St. John refused to do, claiming a contract to teach nine months, and refusing to go without a formal trial and proof of incompetency.

On Monday two of the trustees took matters into their own hands and nailed up the doors of the school house, with teacher and pupils inside. Of course, the imprisoned ones broke their way out, and Mr. St. John came to Carlsbad and put the matter in the hands of Gatewood & Bateman for legal redress. He will sue for performance of contract, which he has in writing, signed by all of the trustees, engaging him to teach nine months at a salary of \$75 per month.—Carlsbad Argus.

ATHLETIC SPORTS.

Two Interesting Bouts Enjoyed by the Elite Last Night.
A large and influential delegation of citizens, who once in a while allow their inclinations to remind them of the good old boyhood days, visited the Orchestration hall in old town last night where they set aside the cares of business and professional life for the time being and hugely enjoyed some rare sport prepared for their entertainment by the recently organized Albuquerque Athletic club.

The introductory bout was between two youngsters, named Tommy Deakin, a late arrival from the wilds of Arizona, and Arthur Ransom, who recently took up his residence in this city. Gila monsters and large sized rattlesnakes, upon which Deakin trained before coming to Albuquerque, had given him wonderful staying qualities, combined with hitting powers back of his right arm. He landed at will upon Ransom, and finally Albuquerque's representative, who showed that he had been using acrobatic water, gave up the bout in favor of his more scientific opponent.

The next attraction of the program was, as the posters announced, Prof. Jack Hogan, of Chicago, and Capt. James Wilson, of Albuquerque. Both of these advocates of the ring had trained faithfully for the past few weeks, and, on entering the arena, showed themselves to be in the pink of condition. Round one was a fine exhibition of the manly art, (how a person can defend himself with the boxing gloves) and the referee declared honors about even. In the second round, however, Wilson, who is a base ball player, and had more wind, commenced to demonstrate his superiority over the Chicago lad, and finally had him going, the referee declaring the bout in favor of Wilson. In justice to Hogan it must be said that he was not against an opponent who had the advantage of height and weight, but he nevertheless gave a good account of himself.

It is learned today that the club, composed of quite a number of young men, are considering the idea of incorporating, securing a hall some where in the city, and carry on a regular gymnasium, giving monthly exhibitions.

HALF DOG, HALF GOAT.

Strange Combination Animal Appears in Las Vegas.
Half dog and half goat. You could swear to that. So could anyone who saw the thing on the west side streets this morning as it limped, goat fashion, behind a rural Mexican's outfit.

The creature was a wonder for combination. It had a goat's body, but a dog's head. The head had a dog's eyes and a dog's ears, but under the ears, from a lank goat throat, fell long strands of yellow goat silk of unmistakable quality. The feet were those of neither dog nor goat. They were like the feet of a sheep. About the hoofs fell long shaggy bunches of fine soft silk and larger, shaggier strands of a finer texture adorned the body and the hind legs. The tail was a white fluffy stump, more like no tail at all than anything else. The dog-goat might as well have been born a rabbit so far as a caudal appendage is concerned. Except for the head not a person alive would have guessed that this goat was a dog. A number of dogs came up to make friends, but they invariably decided that the acquaintance would not be acceptable. The poor beast evidently did not understand one word of dog talk anyway. An accident to its left hip caused it to limp.—Las Vegas Optic.

An Obstreperous Drunk.

One lonely drunk appeared in the police court this morning. Joe Cronin, hailing from the southern country, got well organized in a down town saloon last night and started out to do things last night and did not get far before he ran into a very substantial article. In the shape of a police officer, who forthwith put him in his hands behind the bars. Cronin was so infuriated at his short bully life that he tried to break everything breakable in the jail and succeeded in smashing a coal bucket and breaking one incandescent light. He pleaded guilty to being drunk and disorderly, and was given thirty days in the county jail.

A Sad Case.

The subjoined and poetry of a young lady failing to keep her dates with the poet on the Journal Democrat, was published in that paper Tuesday morning:

"Meet me," she said, "at the garden gate.
With a red, red rose, as the sun goes down.
And here am I, and here is the rose,
And here is the gate, and the sun's gone down."

Up to 3:30 o'clock this afternoon the young lady had not appeared at the gate, and the boys at the Journal Democrat office are looking for the poet's suicide as the "sun goes down" this evening.

OFFICIAL MATTERS.

Notary Public Appointed—Territorial Funds—New Incorporations.

TIMBER CUTTING RULES.

Governor Otero appointed J. E. Culom, of Graham, Socorro county, a notary public.

TERRITORIAL FUNDS.

Territorial Treasurer J. H. Vaughn received from A. E. Burnam, treasurer of Colfax county, \$36.87 of 1901 taxes, and \$390.69 of 1901 taxes, from J. N. Jackson, treasurer of Otero county, \$241.49 of 1901 taxes, from H. O. Burnam, \$5.24 convicts' earnings.

INCORPORATIONS.

Eddy lodge, No. 21, I. O. O. F., filed incorporation papers at the office of the territorial secretary. The headquarters of the lodge are at Carlsbad, Eddy county, and the incorporators and trustees are James E. Lavery, George W. Larremore and F. M. Jump.

The Cabrito Lake Irrigation company filed incorporation papers. The incorporators and directors are Melquiades Rael, Benito Luis Ortiz, Eulio Rael, Francisco Rael, Rael and Jose Maria Cisneros of Questa, Taos county. The company intends to take a canal out of Cabrito creek, six and a half miles above Questa and extending two and a half miles west of Questa, to use the waters of the creek and of Cabrito, also. The capital is \$15,000, divided into 75 shares. The headquarters of the company are at Questa.

FOREST RESERVE TIMBER CUTTING REGULATIONS.
Superintendent of Forest Reserves in New Mexico J. B. Hanna has received from the secretary of the interior, the following regulations to govern the cutting of timber on the Gila and the Pecos forest reserves in New Mexico:

First—The matter is a privilege, and not a right. It may be refused to any person.

Second—Who can get timber under free-use provisions of law? It is usually granted to settlers, farmers, prospectors, and others residing within or in the neighborhood of a forest reserve.

Third—Who can get it? It is refused to corporations, companies, sawmill parties, the owners of large establishments who require larger quantities and are expected to purchase, and to non-residents of the state in which the reserve is located.

Fourth—How much is given, and by whom? Permits for an amount not exceeding \$20 in stumpage value may be granted by the forest supervisor. Permits for a larger amount, and within the stumpage value of \$200, are granted only by the secretary of the interior.

Fifth—How often the same person can apply? Not often than once a year.

Sixth—How long a permit holds good? Six months from the date when it was issued, or less time, in the discretion of the forest supervisor.

Seventh—What can be obtained? All kinds of timber; generally dry firewood, dry poles and logs; also, if really needed, green timber.

Eighth—How obtained? (a) Application must be made to the forest supervisor.

(b) Blank form of application is furnished by the forest officers and is filled out and signed by the applicant. If necessary, the forest officer will lend assistance in filling out the blank application.

(c) The timber must be located by a forest officer before any cutting is done.

Ninth—Terms of the privilege: (a) Only the timber applied for can be cut. For instance, no green timber may be taken if dry wood is applied for.

(b) Only so much can be cut as was applied for; and it must be measured, either standing or in the pile, before being hauled away.

(c) No unmarked live timber can be cut.

(d) There must be no cutting across the line of the area assumed. Cutting across the line is trespass.

(e) The rules about clearing up tops and brush must be obeyed. The cutting area must be left in good, clean condition.

(f) The rules generally governing forest reserves must be observed.

(g) The wood, timber, or material derived from it is to be used only at the place stated in the application. The use of it elsewhere, and especially the sale of it, makes the cutting a trespass, and the applicant becomes liable to suit and is always delinquent thereafter from the privilege of free use.

(h) The cutting of the timber by a local mill is permissible, but the sawing must be paid for in cash, and can not be done on shares. Moreover, the sawing and hauling of the lumber must be done in a manner required by the forest officer, and in such way as to enable him to determine whether or not the timber and lumber are really used in the place and manner promised in the application.

(i) In placing a valuation on timber given under the "free-use" act, \$1 per M for timber green or dry, and 25 cents per cord for fuel wood, will be the minimum price considered.

(k) Applications for "shakes," etc., involving a wasteful use of timber, will be refused wherever a more economical utilization and satisfactory cleaning up of the tops and logs is not guaranteed.

Married Lothario Is Spotted Now.

To the Record:—I desire to say to you and your readers that the young married man living out of the city, who has been in the habit of coming into this city, picking up certain young girls less than 6 years old and riding with them around the city and bringing up a certain wise words, had better look a "little out" or some day his wife and friends may read the sad report of a coroner's jury, which may read something like this:

"Died at the hands of a sorrowing and heart broken mother, in the wine room of —, in this city for the seduction of her daughter. The unanimous opinion of the jury is, served him right."

East Las Vegas, Feb. 18, 1902.

The above warning is taken from the Las Vegas Record, and should be read by two or three Railroad avenue bloods, who will, sooner or later, get them-

selves into serious trouble if they persist in parading themselves up and down the thoroughfares making "goo-goo" eyes at and attempting to attract the attention of certain married women and young girls. The movements of two or three men, whose business is either that of shuffling the cards or handling drinks, are quite noticeable, and The Citizen has been informed that these men are held responsible for the trouble brewing at certain homes and that the husbands thereof are laying in wait to get a good opportunity to crack the heads of these gay deepollers of happiness and homes.

FOREST RESERVES.

New and Better Rules for the Accommodation of Settlers.

There are many new regulations being made by the government relative to the management of forest reserves, and much of the red tape and verbiage of the old system is being done away with to the great advantage of settlers and residents in and adjacent to the reserves.

Too much time of the people and of the department in charge was heretofore taken up with the lesser details of the work, working hardship on the legitimate settlers who desire timber as fuel and to the stockmen in securing permits for grazing privileges. Many of these intangible features are being done away with, and authority is being vested in supervisors to grant the minor privileges without referring them to the department when the proper showing is made to them.

Applications for timber amounting to \$20 and under, stumpage value, are now handled by the supervisor who is allowed to grant a permit. This takes but a little time and permits of settlers securing timber for their immediate needs in a short time. The applications of settlers located within the reserve to graze horses and cattle in numbers not to exceed 100 horses may be granted by supervisors. Larger applications from persons living outside the reserves must go to the department. This is done that the settlers within the reserves may have first rights and their wants attended to without long delays.

There are but a few of the most important innovations and others are to follow until there can be no complaint from the people by delays.

The rules governing the reserves will be more strictly enforced and the flagrant violations will be punished, especially in the matter of stock grazing. Stockmen should care for their interests and see that they have permits, otherwise they will be prosecuted for trespass. It is the duty of forest officers to prosecute each case where stock of any kind is allowed on the reserves by their owner without first having secured a permit, and not their duty to let stockmen make applications for them. If the stockmen desire the privilege of grazing their stock they should ask for it, otherwise they subject themselves to a heavy fine and imprisonment for violating the rules of the reserves.

REAL ESTATE TRANSFERS.

Neill B. Field to Teofilo Romero, lot 4, block 2, N. J. Sanchez addition; \$50.

Edith I. Lewis and husband to Solomon Benjamin & Co., west 14 1/2 feet lot 27, lot 28 and east 10 1/2 feet of lot 29, block 50, N. M. T. Co.'s addition; \$263.

Claude Girard to Juan Garcia, a piece of land in precinct 13, Old Albuquerque; \$600.

G. Montero to Juan Serna, a piece of land in Pena Blanca, 48 1/2 x 28 1/2 yards; \$65.

M. Armijo to Juan Serna, a piece of land in Pena Blanca, 30 x 132 yards; \$48.

Simon Elito to Juan Serna, a piece of land and house in Pena Blanca, \$25.

M. W. Flournoy to Bernhard Bothe, lots 1, 2, 3, 4, 5, 6, in block 3, Paris addition; \$1.

Alphonse Simpler and wife to Jose Baca, a piece of land situated in precinct 5, Babelas; \$75.

Juan C. Zamora and wife to Jesus A. Zamora, a piece of land in Los Griegos, 40 x 200 yards; \$40.

Juan C. Sanchez to Micaela Sanchez, a piece of land in Ranchos de Atrisco, consideration, a little Indian girl.

Antonio Armijo and wife to Jose N. Galadon, a piece of land in Ranchos de Atrisco; \$84.

Pedro Romero and wife to Jose N. Galadon, a piece of land in Ranchos de Atrisco, 53 x 75 yards; \$23.

M. Warden to City of Albuquerque, release of all claims for damages on account of viaduct; \$250.

President Bart, of the Union Pacific, spent a few hours in Cheyenne, and in an interview stated that that company would build a club house in that city for employees. The building will cost between \$60,000 and \$100,000, and will be fitted with reading and club rooms and a gymnasium. Work on it will be commenced in the summer.

E. E. BURLINGAME & CO., ASSAY OFFICE AND CHEMICAL LABORATORY

Established in Colorado, 1866. Samples by mail or express will receive prompt and careful attention. Gold & Silver Bullion Refined, Melted and Assayed OR PURCHASED.

Concentration Tests. 100 lbs. or car load lots. Write for terms. 1736-1738 Lawrence St., Denver, Colo.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it

FIFTY THOUSAND DOLLARS

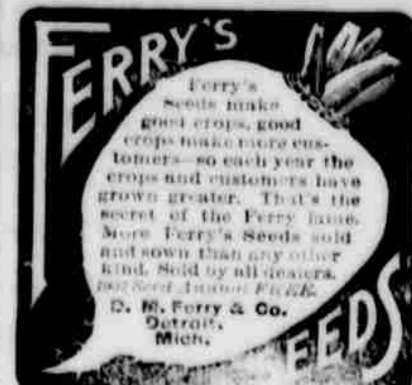

In development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are plying 100,000 shares of development stock at 25c per share. Capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth far inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, references, etc., address,

OSARK GOLD MINING & MILLING CO., MOSCOW, IDAHO.

TRUSTEE'S SALE.

Whereas, Aurelia Lombardo and Angelo Lombardo, her husband, in and by a certain deed of trust, dated the 28th day of August, 1899, and recorded in book 10, T. 1, page 21, records of Bernalillo county, New Mexico, conveyed to the undersigned, as trustee, the following described real estate, situated in the city of Albuquerque, county of Bernalillo, and territory of New Mexico, to-wit:

Lots numbered eleven (11) and twelve (12), in block letter "B", in the Mandel Building and Residence Addition, in the city of Albuquerque in the county of Bernalillo, and the territory of New Mexico, also sufficient ground to make for twelve (12) a full lot, fronting twenty-five (25) feet on Third street and one hundred and forty-two (142) feet on Carroll avenue. It said lot was extended west of Third street, as the said lots are known and designated on the map of the said Mandel Building and Residence Addition, filed in the office of the probate clerk and ex-officio recorder for said Bernalillo county, New Mexico, on the third day of February, A. D. 1902, said deed of trust being made to secure the payment of a certain promissory note therein described for twenty hundred and no dollars and no cents, due on demand, and having the said note on said note and all interest thereon and all costs and cost of executing this trust, including legal commission, to the trustee and attorney's fees as provided by said deed of trust. I will on Monday, the 18th day of February, A. D. 1902, at the hour of twelve o'clock noon, of said day at the front door of the court-house of said city of Albuquerque, New Mexico, sell the said real estate hereinafore described at public auction to the highest and best bidder for cash, to pay said indebtedness and all expenses.

M. W. FLOYD, Trustee.

Dated February 8th, 1902.

Overseers the said note is now past due and remains unpaid, and therefore, at the request of the legal holder of said note, and by virtue of the terms and conditions of said deed of trust, do hereby give notice that for the purpose of paying the balance due on said note and all interest thereon and all costs and cost of executing this trust, including legal commission, to the trustee and attorney's fees as provided by said deed of trust, I will on Monday, the 18th day of February, A. D. 1902, at the hour of twelve o'clock noon, of said day at the front door of the court-house of said city of Albuquerque, New Mexico, sell the said real estate hereinafore described at public auction to the highest and best bidder for cash, to pay said indebtedness and all expenses.
