VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, MARCH 8, 1902.

NUMBER 17

## NEW MEXICO TOWNS

### ROSWELL.

From the Register.  
Colonel Willson, superintendent of the New Mexico Military Institute at this place, received last week the diploma awarded the institute for the best exhibit of photos at Albuquerque last fall.

Mrs. Melinda C. Barton surprised and pleased her friends here by dropping in from Chicago, where she has lived for several years. Mrs. Barton has a farm at Hagerman and will reside most of the time at Roswell.

"Uncle George" White was in town from Hagerman last Saturday. He returned recently from Marlin, Texas, where he took baths in the hot water from a well 3,600 feet deep, and other treatment. He is much improved and has been out looking after his sheep herds since returning.

C. L. Ballard returned from Denver, where he went to visit the parents of Hal Sayre, Jr., the young man whose unfortunate death occurred here last week, during Mr. Ballard's necessary absence on business.

A man named Clark brought in one of R. F. Barnett's horses that was taken off in the lurch stolen by rustlers out of an alfalfa pasture some weeks ago.

The stockholders of Monte Vista college held a meeting at the real estate and insurance office of L. K. McGaffey in the Guilden block, and adopted a set of by-laws. The first annual meeting of stockholders will be held on the first Tuesday in March, for election of officers.

A high wind blew nearly all day Wednesday. It was a typical windy spring day in the arid region, and made the newcomers wonder what was coming next. The upper balastrade on Dr. Skipwith's porch, which was built twelve or fourteen years ago and was frail, blew down. The wind blew very hard all of Wednesday night and all day yesterday, making it very disagreeable out of doors.

We see from the Carlsbad Argus that Tom Barfield's father is making arrangements to take him to Big Springs, Texas, for treatment. Tom was taken ill while attending the military institute, and has been in the Carlsbad hospital since leaving there. The physicians at the hospital say he has dropsical affection.

### FROM THE RECORD.

C. G. and L. C. Walker, of Rockwell City, Iowa, are late arrivals who are looking for a good business opening. C. G. Walker was here a year and a half ago and has kept up to some extent with the growth of the town since, but said he was not prepared to see the improvements made. L. L. Walker is a son in law of James Dixon, who is heavily interested in real estate here.

The organizers of the Roswell Lumber company, have had two important meetings this week and the organization is now practically completed. The meetings have both been attended by all the stockholders and perfect harmony reigns. The capital stock has been fixed at \$20,000, about three-fourths of which has been subscribed. The books will be kept open until March 6, and if there is any stock not taken at that time the present stockholders will have the first opportunity of securing it. The board of directors are John Shaw, I. B. Rose, J. F. Hinkle, J. A. Cottingham, R. F. Barnett, J. W. James, H. Fitzgerald, J. G. Hedgcock, and R. W. Johnson. The officers elected by the board are: President, John Shaw; vice president, I. B. Rose; secretary, J. F. Hinkle; treasurer and manager, J. A. Cottingham.

### SAN MARCIAL.

From the Bee.  
The local Odd Fellows lodge is making a special effort to increase its membership, and few say nay to the benevolent features and true worth of such fellowship are understood.

The regular term of the public school closed Friday and the teachers are now running private schools, to be conducted just as long as the patronage justifies such enterprise. Miss Millard as principal and Miss McConch as primary teacher, have given entire satisfaction as instructors, if the absence of tireless complaints from children and parents may be taken as a guide.

L. J. Otto, who has been elected surveyor in this county a number of times, got weary of holding a position never coveted by others and one particularly barren of emolument, so he slid into retirement after the last election by not qualifying. Now there's work and money in sight for county surveyors, and it is said that the distinguished chairman of our board of county com-

missioners will soon declare a vacancy to exist in this office and request the appointment by Governor Otero of W. W. Jones, of this place.

### DEMING.

From the Headlight.  
James Phillips, a cattleman from Cook's peak was in town Thursday and Friday of last week. Jim is such a genial soul that his visits are like a ray of sunshine on a cloudy day.

Reed Watkins, of the 76 ranch, left for his old home at Gainesville, Texas. Reed will be gone about ten days and on his return it is expected that his father, A. J. Watkins, will be with him.

William Gibson and J. T. Good were visitors in Deming from Hatch. Both of these gentlemen are prominent stockmen in that part of the country, and are among the ever welcome visitors from that section.

Hen Tom Hughes, editor of the Albuquerque Citizen, spent last Tuesday in this city. Tom is ever a welcome guest in Deming, as the boys have not forgotten the favors of the past. He informs the Headlight that the Citizen is preparing a write-up of our city to be published in the near future, so if you are interested in learning what others think of the thriving little burg take the Albuquerque Citizen.

Died, in this city, Mrs. Krauter, the wife of a railroad man. Fortunately no children are left to mourn her loss. Mrs. Krauter was a good wife and kind neighbor and many will remember her. Born to Mr. William M. Lottler and wife of this city, Monday, March 3, a fine baby boy, tipping the scales at 12½ pounds. Mother doing well. Mr. Lottler was all alone in the house at the time, no physician being present, and his friends now insist on calling him "Dr. Lottler."

Constable Oglesby discovered three or four boxes of merchandise secreted in the brush near the ice works, and took the stuff to Judge Marshall's office, where the owner or owners can secure it. The boxes were evidently stolen from a freight car.

At a business meeting at Attorney Pollard's office, the trustees and elders of the Presbyterian church passed resolutions highly commending Pastor Maclean for his efficient and energetic church work during the year just passed, and recommending that he be retained another year. The congregation met in the church next night and endorsed this action, and the matter now goes for final result to the Presbytery of Rio Grande, which meets at Silver City on the 25th.

### SANTA FE.

From the New Mexican.  
J. E. Saint, secretary of the Santa Fe Central Railway company, attended the banquet and returned to Albuquerque in the evening.

Several citizens called at the New Mexican editorial office and in discussion about the bill introduced by Delegate Rodley, having for its purpose the establishment of an army sanitarium at Fort Marcy, declared that they were opposed to the measure.

Hon. Alfred Grunsfeld, of the firm of Grunsfeld Brothers, the leading wholesale dry goods establishment in the territory, who came up from Albuquerque to attend the banquet, has returned home, declaring the banquet to have been a grand success.

Col. J. Franco Chaves, superintendent of public instruction, left for Albuquerque, where he spent Saturday on official business. He goes to Los Lunas where he will remain during the week to attend to official business and also to be present at the opening session of the district court for Valencia county.

Hon. Arthur Seligman is making arrangements to erect a fine residence on Palace avenue, adjoining the home of Colonel and Mrs. George W. Knaebel.

Work on the fine new \$14,000 building of the Deaf and Dumb asylum will be pushed by Contractor Antonio Winsor as soon as the spring sets in. The building is being erected on the south side near the penitentiary.

A beautiful memorial window to the memory of the late Mr. and Mrs. William L. Jones is to be placed in the Church of the Holy Faith on Palace avenue.

Hon. Charles F. Easley, master, postponed the sale of the Santa Barbara grant in Taos county, until March 29, to give several prospective buyers a chance to reach Santa Fe and be at the sale.

Anniversary mass was celebrated at the cathedral in memory of the late Mrs. Isabelle B. de Luna. The mass was largely attended by relatives and friends of the deceased. Vicar General A. Fourcheu was the celebrant. T. Macbeth and W. W. Walton, of

Cleveland, Ohio, young men of means, who have been in Santa Fe several days, drove to M. J. Nagle's Sunny Pine Grove ranch, one mile southeast of this city. They inspected the place and signified their intention of buying it and transforming it into a large and modern sanitarium.

Invitations were received in this city to the wedding of City Engineer Wendell V. Hall to Miss Beale Gray, daughter of Mr. and Mrs. Samuel Gray, of Hastings, Ill., at whose home the wedding will take place at high noon on March 12. The couple will be at home at Santa Fe from March 15.

Word was received from Mrs. John O. Miller describing the funeral given her late husband Saturday a week ago at New York. The funeral took place from St. Francis Xavier church and the ceremonies were impressive.

News reached the city today of the death of Juan Jesus Rael, at Chihuahua, this county, on last Thursday. The deceased was a well known and worthy citizen who had reached the age of 75 years.

Napoleon's saloon on San Francisco street was broken into through a back door and about \$8 worth of wine stolen. Emillio Lobato was arrested and lodged in jail charged with the crime.

Francisco, an advocate, stenographer of the court of private land claims, has returned from a visit to Las Vegas, where he had gone on account of an operation on Saturday upon ex-Sheriff Hilario Romero of San Miguel county, successfully performed by Drs. W. R. Tipton and B. Hernandez.

C. S. Boyd, a business man of Aztec, San Juan county, is in Santa Fe to do duty as United States Juror on the petit jury. Mr. Boyd is very optimistic about the future of the San Juan country and especially of Aztec. He is making many friends in this city by his genial ways.

The deal of Atanasio Romero and Teleforo Rivera for the store of Dig and Pop at the corner of Bridge and Water streets, has been through and Messrs. Rivera and Romero will open a new store on San Francisco street. Dignio and Pop, however, have sold their lumber yard to Charles W. Wagner in order to make room for an enlargement of their grocery store.

Mrs. Adela M. Tucker, wife of Thomas M. Tucker, died of blood poisoning, following childbirth, complicated with an attack of pneumonia. She is survived by her husband and three children.

Hon. Frank A. Hubbell, superintendent of public schools of Bernalillo county, came up from Albuquerque and spent the day in the city on business with Forest Reserve Superintendent L. B. Hanna. Mr. Hubbell represents the Gila Forest Sheep Raisers' association, which has received a permit for the grazing of the sheep of its members on the Gila forest reserve in western New Mexico during the coming summer. There are fifty-nine members of the association. The number of sheep to be pastured on the reserve is to be limited to 250,000.

Mrs. J. M. Diaz last Thursday afternoon entertained a few friends at a farewell party to Mrs. H. B. Hersey of Berkeley, Cal., and formerly of Santa Fe. Mrs. Hersey has been the guest of Mrs. Diaz and Mrs. S. G. Cartwright the past few months and started for her home on last Friday. Those present at the party were Mesdames Prince, Cartwright, Rivenburg, Fiske, Warner, McPherson, Walker Davis and Harvey, besides the hostess and the guest of honor, Mrs. Hersey. Delightful refreshments were served and the afternoon was spent most delightfully.

The school at San Ildefonso in district No. 14, after a four months term, closed February 28, owing to a lack of funds. A number of Bland people have decided to locate in Santa Fe either to go into business or to work on the Santa Fe Central railway. Judge Anton of Coyote, Rio Arriba county, who is visiting friends in this city, reports that his general merchandise store at Coyote, burned down last Friday night.

Dr. J. M. Diaz and Charles Wagner, property owners on Water street, have employed an attorney to bring suit to compel the city to abate the nuisance of the open sewer on Water street. Superintendent C. J. Crandall reports that the two diphtheria cases at the pueblo of San Juan are convalescent, and owing to the stringent quarantine and sanitary measures which have been taken no new cases have made their appearance. Miss Diette, supervising teacher of the Pueblo Indian, will go to San Juan on Friday to superintend the disinfecting of the pueblo. Reports from the other Indian pueblos indicate that the diphtheria epidemic is on the wane. A Santa Fe physician this week applied to Superintendent Crandall for anti-toxin as he had a suspicious case that he believed would turn into diphtheria.

### TULAROSA.

From the Democrat.

At present we have no protestant ministers coming to this burg—cause, money scarce and walking bad. Good Lord, why hast Thou forsaken us?

Mr. Long, a mining man, went out to the gold strike eight miles from town and was favorably impressed. While capitalists are looking for a place to make investments, why not come this way? We believe we have the best prospects for mineral there is in the territory.

Judge J. M. Roberts and wife left for Estey City where they will take up their permanent residence. The judge and family are excellent citizens and Tularosa is sorry to see them leave.

### LAS VEGAS.

From the O. R.

Charlotta Ullbarri de Lopez made a quit claim deed in favor of William M. Rapp to a tract of land south of Las Vegas, between the Gallinas river and the railroad.

An indication of the standing which New Mexico financial institutions enjoy in the east was recently shown by an offer of a Boston man to loan \$50,000 long time, low interest, to the San Miguel National bank of this city. The loan was declined and the gentleman informed that there was plenty of money here.

Friday afternoon while George Ward was driving his flyer to the asylum the king bolt in the buggy broke and he was thrown out and his shoulder dislocated. He was bruised up considerably, and suffered considerable pain. Saturday morning he was resting as easily as could be expected and it seems that the accident, though painful, will not result seriously.

The certificate granted by the Albuquerque fair committee to the East Las Vegas public schools, is now framed and on exhibition in Undertaker Lewis' window, next to the post office.

Miguel Martinez came in from Mora to have his eyes treated by Dr. Luis Hernandez. Miguel has been blind for two months. He is stopping with his brother, Marcelino Martinez. He will probably be here for a month.

The local contest over the will of the late Dr. Adams of Kansas City, between Dr. Leon Rosewald, well known in this city, and the heirs of Dr. Adams, over the estate, valued at \$50,000 or \$75,000, is again up for hearing before Judge Tinsdale, of Kansas City.

G. M. Norton and family arrived in this city from Los Angeles county, Cal. They came in a wagon in three months and eleven days. Three weeks of this time were spent in camp on account of the sickness of Mrs. Norton. They came higher for her health. They want a few dollars with which to get to Trinidad.

Rev. J. T. French, of Roswell, made his first appearance before a Las Vegas audience at the Methodist church. He is an inspiring and magnetic speaker.

The patronage of the public library has been greater the past month than any month before. There were 258 books loaned and a total attendance of 1,376 visitors, an average of a little over forty-nine a day.

Adelaido Gonzales, proprietor of the Bank saloon, paid Sheriff Cleofes Romero \$650 license for school district No. 4, precinct 26. The public schools of this district now have in hand a fund of \$3,200.

Herman Myers, cashier of the First National bank of Santa Rosa, went to the Rock Island city on the stage. The building to be occupied by the new bank is now in process of construction.

Fred Olney, who has been breaking some coals to drive to his buggy, will quit the drug store and go to raising chickens on his father's farm. His place in the Center block drug store will be taken by Gus Knaebel, nurse at the Santa Fe hospital.

The treasurer of the territorial auxiliary to the McKinley memorial association has written to acknowledge a remittance of \$106.70 from Las Vegas. The precincts of this city are the only precincts of the county heard from as yet and other precincts are urged to report immediately. So far Valencia county has made the most generous response; Santa Fe comes second and San Miguel third.

Bert Frame has come down from Denver to take the position as foreman of the Las Vegas Steam laundry. Born to Mr. and Mrs. Dennis Burkholder, a little son, Mr. Burkholder is the new foreman of the Santa Fe preserving works here.

D. M. Salazar has accepted a position as bookkeeper and collector with L. W. Heford. He was for years with Browne & Manzaneros company.

The following appointments were made in the cavalry troop, Manuel Otero to be first sergeant, vice Robert Gross, promoted; W. Ludwig Rifin, P. Leivy, Carl Simms, to be sergeants; A. C. Erb, Manuel Henriquez, Thomas M. Tipton to be corporals; Joe Danziger to be troop clerk.

For two weeks Las Vegas has been living off her home grown eggs. If there had not been such a generous supply this city would have had an egg famine. The cold snap in the east, and the luteal season came on at the same time and the scarcity was great. Eggs sold for thirty-five cents a dozen in Kansas City.

### FROM THE RECORD.

Herman D. Myers, who will be cashier of the First National bank at Santa Rosa, arrived in the city from Canton, Ohio.

Judgment has been rendered against the San Miguel Title & Abstract company in favor of Daniel T. Hoskins for \$495.05 for a debt due a man named Shields, who assigned his claim to Mr. Hoskins.

Walter Sporleder and wife, after several days very pleasantly spent in the city as the guest of Mr. and Mrs. Sporleder, left for a ten days' visit to Deming, Tucson, Ariz., and El Paso, after which they will return to their home in La Junta.

The E. Romero Hose & Fire company boys cleared over \$300 on the ball they gave recently.

Rev. Mr. French, who will assist in the special meetings at the Methodist Episcopal church, has a flattering reputation as a preacher and lecturer in western Texas and New Mexico. Mr. French was a pastor of the Trinity Methodist church at El Paso, the strongest protestant church in the

city, for four years, which is as long as any one can serve as pastor of one charge in the church which he represents.

Sheriff Cleofes Romero went up to Springer to purchase some bulls for his ranch at El Cuervo.

H. M. Stecker left for his home in Silver City, being accompanied by Mrs. C. Waring as far as Albuquerque. Deputy Sheriff J. R. Trujillo left for southern points, in search of some jail birds who are flying around down there.

Juan Ortega had a Studebaker wagon stolen from his house, on the other side of the track. No clue to the robbers have yet been found.

It is very evident that large numbers of sheep are dying in the neighboring country, from the fact that four large wagon loads of sheep pelts were brought into the city yesterday afternoon.

Bert Ames, the demented soldier, left for his home in Muscatine, Iowa, being accompanied as far as Fort Madison by J. A. Jannish, at which place he will be turned over to his brother.

Albert Singer is in the city for a few days from Albuquerque. C. B. Teal, night clerk at the Castaneda hotel, who has been quite ill, is reported some better today.

The eldest daughter of Mr. and Mrs. Clarence Roberts, who was reported quite low with diphtheria, is some better today.

John Bauers and family, who have been spending the winter in Las Vegas, will leave Friday for their home at Lincoln, Neb.

Bishop Kendrick left on yesterday evening's train for Socorro, after several days spent in the city as the guest of Rev. George Selby.

Yesterday afternoon, about 4 o'clock, some one walked into W. E. Crites' house, on Columbia avenue, and stole a very handsome gold watch. No trace of the guilty party has yet been found. Ernest Fleck and the youngest son of Joe Norman, both about fourteen years of age, left their homes in this city yesterday and have not yet been heard from. Possibly they have gone out to see the world as tramps. Marshall Murphy wired both up and down the road today, but nothing has been heard of the boys.

The team of V. H. Jameson ran away yesterday afternoon on National street to the bridge, where the pole of the wagon came in contact with a portion of the bridge, breaking the pole into splinters and stopping the team.

### CARLSBAD.

From the Argus.  
Aubrey Gist, the Guadalupe Angora goat man, came down from his ranch, and shipped 1,600 pounds of mohair to New York.

The Pecos Irrigation company will supply water, this season for considerably over 10,000 acres of farm lands this being an increase of about 1,000 acres over that furnished last year. The ditches are cleaned and in good repair and the dams are full.

S. T. Ritting, acting as agent for various stockmen, hereabouts, closed a sale, this week, of 3,000 2s and 3s, to B. C. Ash and Carson Williams, of Pierre, South Dakota, and L. A. Allen of Kansas City. Delivery to be made by May 10. This is the first big sale of this season, and it is stated that a very good price was received.

J. J. Hagerman, the South Springs breeder of fine cattle, recently made a purchase of twenty-nine head of prize Shorthorn stock from H. P. Groom, the well known Panhandle breeder. The price paid is private, but is stated at about \$10,000. Before many years have passed, the South Springs herd will be one of the most famous in America, as Mr. Hagerman has already collected a splendid lot of thoroughbreds and is adding to them right along, sparing no expense to get the very best blood in the country.

### SOCORRO.

From the Chieftain.  
Joseph Merkin, of El Paso, has accepted a position as salesman with Price Bros. & Co.

N. A. Field, merchant and postmaster at Hurley, was in town on private business.

Samuel Locke, of Magdalena, the newly appointed cattle inspector for this district, was in Socorro Thursday.

The appointment of Mr. Locke as inspector gives very general satisfaction. C. T. Brown and Prof. F. A. Jones expect to start for a trip of a week or ten days to the Black Range.

A. D. Coon is making gratifying progress in his effort to raise money enough to bore for oil near Socorro. Work will not be begun until enough cash is pledged to be a depth of 1,000 feet.

Mrs. F. A. Jones closed her work at the private school she has been conducting for several months. The school will be continued by Miss Stelle Hamsey, who is an experienced teacher.

J. E. Coon died at his home in Oswego, N. Y., February 22, aged 79 years, of the effects of an attack of the grip. Deceased was the eldest brother of A. D. Coon of this city, who was expecting to make him a visit in the near future. This is the second brother Mr. Coon has lost in about a year.

The high wind that prevailed for three days in this city did but little damage compared with what was done in some localities. The smoke stack at the Illinois Brewing company's plant was blown down and the west chimney on the high school building suffered the same fate. Russell Howell was obliged to dislodge the pupils in his room Thursday as they became terrified at the shaking of the building under the force of the wind.

### MAGDALENA.

From Socorro Chieftain.  
Samuel Locke, the cattle sanitary board inspector for the seventh district, is about to remove from here to some more central point on the Santa Fe.

H. F. Santz has returned from Denver and will now operate the Grand Lodge mine and other properties with the support of the Lone Star Mining & Milling company.

H. S. Van Slyke came in from El Paso on the lookout for business as usual for the Santa Fe. He scored a point or two for future use with some of the sheep breeders in town.

Among the visitors in town on business are noticed N. A. Field and Robert H. Wille, of Hurley; Drs. Swisher and Kirtrell, El Paso; B. C. Thomas, Boland, A. Cortes, L. N. Barnes, and Teofilo Jaramillo, of Socorro, and Charles Chadwick, of Albuquerque.

Father Ed. Paulhan, of Monticello, escorted by Jules Grandjean, drifted in with the blizzard via the saddle trail, making the fifty-five miles from Noval Canyon in seven hours, while the west wind was driving the wet, adhesive snow in horizontal volleys at the rate of forty miles an hour. The propagation of the Holy Faith seems often to require as hard riding as cattle work does in New Mexico.

F. C. Eldred, of Wyoming, registered at the Allen house, is inspecting cavalry horses supplied by Jones Bros. of Frisco for shipment to South Africa. The first car load delivered consists of geldings chiefly, 5 to 8 years old, 14½ to 15 hands 1 inch high. On the whole this is an extra good lot of well broken young horses that some cattle outfit would have done well to secure and keep in the country for home use. The selling price is not made public. "Colonel" Agnew takes the lead to Manzanito, Colo., while Mr. Eldred goes south to receive another lot of "warriors" from Messrs. Baldwin, at Engle.

### FARMINGTON.

From the Times.  
M. M. Engelman is figuring on building a public hall 40x75 feet. It certainly is something that is needed in the town.

William Locke had the misfortune to fall from a load of hay the first of this week fracturing a rib and his nose, and receiving several other injuries. He is recovering rapidly.

Monroe Fields, acting as special envoy extraordinary for this county, has concluded a treaty of peace with La Plata county, Col., by the terms of which taxes on cattle ranged in Colorado and wintered here, are to be divided on equitable terms and the stockmen saved paying a double tax. This will be of advantage to nearly all the stockmen in the country. It was manifestly unfair to have this class of property taxed in both counties.

The weather is moderating and the trees are beginning to bud.

## Notes from Correspondents

### SILVER CITY.

Death From Consumption—Rural Mail Delivery—District Court.

Silver City, N. M., Feb. 28.—The death of Mrs. Thomas L. Lowe, wife of the coal merchant and also employed in the Silver City National bank, occurred at her home in this city of lung trouble last Tuesday afternoon. The remains were shipped back east to her former home in Alliance, Ohio. The deceased came to this city with her husband about three years ago from Ohio with the hope of curing the dread disease, but of no avail.

The Grant County Telephone company now has about 15 subscribers to telephones in this city and surrounding mining camps and are doing a fine business.

The first rural mail delivery to be established in this part of New Mexico has been granted by the government in the Lower Gila country. It was secured through the efforts of Delegate R. S. Roddy and while it is not yet in force things are being gotten in shape to install the system in that section.

Reports from the Mosheim mining district speak very promisingly of the extensive operations on a number of the famous mines in that section. The Silver Bar Mining company are now working a large force of miners on the Conner mine and have a seventy-ton capacity concentrator running on the ore taken from their mine and it is said that this company is making large sums of money out of the property. It is owned by Colorado mining men.

A number of out of town attorneys are arriving in the city to be in attendance at the opening of the district court in Silver City next Monday morning. There are several important murder cases to be tried, among them being the Childers case, for the murder of Thomas Holm, a prominent attorney of this city last December.

Mrs. Abe Abraham and daughter, Miss Esie, expect to leave in a few days for a several months' trip to California for the benefit of Mrs. Abraham's health, which has been failing lately.

The high winds the other day greatly damaged the lace here, blowing down part of the fence. The lace here is flourishing in repairing the damage. There is some talk of Silver City having a good ball team this year and it is hoped that someone will take it in hand and have some good games in Silver City this summer.

### DEMING.

Special Correspondence.  
Deming, N. M., March 2.—Albert Bende and wife left for a six weeks' trip to California last Thursday. Mr. Bende has been working pretty hard in his grocery business for some time past, and now feels that his efforts deserve a rest.

Tom Upton and bride returned from their tour in California last week and Tom says there is nothing like it. He advises all the young fellows to get married as soon as possible.

Mark Miller, of El Paso, is in Deming today on real estate business. He is connected with the Deming Real Estate and improvement company.

The special Deming edition of The Citizen on Saturday March 3, will give you all the information about Deming. Get your orders in for extra copies to send to your friends in other parts. When you get a good thing let your friends know about it. Do not keep it to yourself.

The Bishop road is contemplating an excursion to Bisbee from Deming, and will make arrangements with other roads that citizens of Albuquerque and other places may take advantage of the chance. They will give time to lay off at Deming and see the town. Don't miss this as you may lose an opportunity of a life time to invest in a prize lot.

Mr. Thirlow, of Boston, was here yesterday looking over the town. Mr. Thirlow is a property owner here, and although he intended to sell he now thinks he will hold on a while longer and take a good profit on his old investment.

Mr. Berkely, of El Paso, is here today with regard to establishing an agency for his pump, which won the prize at the El Paso carnival. He is also thinking of purchasing some property here.

Col. P. R. Smith has left for Chicago and New York to close up some mining deals, and the sanitarium proposition, lately made by wealthy Chicagoans.

### HOLBROOK.

Special Correspondence.

Holbrook, A. T., March 2.—The Navajo county institute convened in annual session on Wednesday, Thursday and Friday, and there were present teachers from all over the county, as follows: Joseph Peterson, Joseph W. Smith, Margaret Miller and Phila Frieble, of Snowflake; Martin R. Tanner and Annie Eckford, St. Joseph; Myron Young, Holbrook; Julia Tanner, St. Joseph; Nellie Smith, Snowflake; Constance Decker, of Taylor; Sam Smith, of Woodruff; Miss Minnie H. Brown, of Shumway. A good time is reported to have been had.

Mrs. Carl Brown, Mrs. Joseph Woods and son, Mrs. W. J. Harris, of Holbrook, visited the teachers institute held here on Wednesday, Thursday and Friday of this week.

Judge F. J. Watron was in town part of the week taking in the teachers institute. Mr. Watron is superintendent of schools.

J. J. Carney and C. C. Bryant, old time cattlemen, were in town this week with a drive of cattle, which they sold to Krentz & Wolff, the old reliable meat market. Mr. Bryant is an old resident of Winslow and the people were glad to see him.

Miss Annie Griffith, who has been visiting friends in Winslow the past two weeks, returned to Gallup Tuesday morning on No. 8.

Bert Ward expects to pay Gallup a visit very soon.

Miss Isabella Parr, who has been so sick the last two weeks or more, is still confined to her bed. The fever has all gone but rheumatism has taken

hold on her limbs, and she is unable to bear her own weight on her feet. The little miss, who is 11 years old, has been in poor health since a baby.

Letters are being received by W. A. Parr from Albuquerque asking him to return to that city and build homes for those who took a lancy to his work while there last summer.

Arthur Bancroft, who has been in the employ of Babott Bros., of this place the past six months, has taken a leave of absence and gone to work with W. A. Parr, the contractor.

We are glad to learn from the last issue of The Citizen that H. A. Simms has been transferred to Winslow as a carpenter foreman. Mr. Simms is a former resident of this town and will be welcomed back. His estimable wife is about to open a millinery store in the North block on Kinsley avenue. Success to her.

The wind is blowing a high gale today. It is the worst storm for years.

Winslow, it is reported on the streets, is to have an electric light plant. It is needed badly.

The members of Winslow lodge No. 13, A. F. and A. M., held a meeting Friday night and conferred the second degree. Homer Kendall was the victim.

The citizens of Winslow were treated with a lecture from Prof. A. N. Taylor, of the northern Arizona normal school at Flagstaff. Mr. Taylor is an educated gentleman and his lecture was a great treat to the teachers and citizens of Winslow.

Mrs. W. R. Carman leaves tomorrow for her home in Gallup after a three weeks' visit with friends at Winslow. Mrs. Carman is well known here and is a welcome visitor, coming here from Ohio about five years ago and marrying Mr. Carman, a young conductor on the Santa Fe Pacific railroad.

The death of San Francisco Romero took place Friday morning. He was buried at Winslow cemetery Saturday afternoon. Services were held from the Catholic church by Rev. Father Conley. Mr. Romero was a highly respected Spanish citizen. He leaves a wife and eight children to mourn his death.

T. J. O'Reilly is preparing to remove to Redlands, Cal., where he intends to make his home. Mr. O'Reilly is a freight conductor on the line of the Santa Fe Pacific, which position he is going to resign, and will take the agency of the New York Life Insurance company. We think he will do well. He knows nearly everybody on the road over which he is to canvass.

The home of E. M. French was made happy this week by the arrival of a baby girl. Mother and child are doing nicely.

The public school of Winslow is closed for the term, there not being money enough to run longer than five months. With a new county superintendent of schools who will take an interest in his duties we will expect to have at least nine months school next year.

The home of Mr. Herbert Taylor has been released from quarantine of the scarlet fever. Mr. Taylor lives on a ranch immediately east of Winslow.

The big engine, which so many of the local firemen refused to take out, still remains in shelter at the sound house. The boys say those big "hoes" are too much for one man to fire. We believe they are right.

### ALGODONES.

Special Correspondence.

Algodones, N. M., March 3.—The weather is fine, there being no snow or rain.

Everybody is preparing for spring planting. Wheat and peas have already been planted in most cases and preparations are being made for the other crops.

The trees are beginning to bud out and if this weather continues will be in bloom soon.

The school term closed here the last of February, which is too bad, as the children were getting along fine with their studies.

Messrs. Meyers and Edie passed through here on their way to Bland yesterday.

On March 1 all stock running loose were put in a herd and will be herded from now on for the season.

Miners who have come in from the mountains east of here say that their prospects are looking fine and several new finds have been made.

### OFFICIAL MATTERS.

Pension Granted—American Bonding Company incorporation.  
A pension of \$6 a month has been granted John H. Emmett, of Dillon, Colfax county.

INCORPORATION.

The American Building and Trust company, of Baltimore, Md., filed in corporation papers, the incorporators being John H. Emmett, Fredrick P. Stein, Napoleon R. Woodford, Geo. A. Hartman, Frederick Waldorf, Emanuel Herman, David Abernethy, R. Kemp Payne, Edward P. McDevitt. The capital of the company is \$200,000, divided into 4,000 shares. Its headquarters are at Baltimore, Md. Its New Mexico agent is F. H. Kent, with headquarters at Albuquerque.

### Want Him Retained.

A. B. Baea, who has been asked by the secretary of the cattle sanitary board to turn over his official paraphernalia to Sam Locke, of Magdalena, has forwarded to Governor Otero a strongly worded petition from Albuquerque, signed by Hild Bros., E. G.

## INDIGESTION

is the cause of more discomfort than any other ailment. If you eat the things that you want and that are good for you, you are distressed. Acker's Dyspepsia Tablets will make your digestion perfect and prevent dyspepsia and its attendant disagreeable symptoms. You can safely eat anything at any time, if you take one of these tablets afterward. Sold by all druggists under a positive guarantee. 25 cents. Money refunded if you are not satisfied. Send to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y.

To strengthen your stomach it is impossible to find a better medicine than the Bitters. It makes the digestion normal, builds the weak, cures flatulency, dyspepsia and indigestion.

### A SUCCESSFUL PASTORATE.

Dr. C. E. Lukens Again Elected Pastor of the Presbyterian Church of Roswell.

Dr. C. E. Lukens, who for several years was stationed among the Indians at Laguna and is well known in this city, leaving Laguna for Roswell to accept the pastorate of the Presbyterian church of that town, has again been elected pastor of the same church. The Roswell Register, in its last issue, says:

The regular quarterly congregation at Laguna and social was held at the First Presbyterian church on Monday night and was well attended. Rev. J. M. Gardiner was made moderator of the meeting. The principal matter of business to be transacted was the election of a pastor for the coming year. It did not take long to attend to that matter as Dr. Lukens, who has so ably filled the pulpit during the past year, was unanimously re-elected at a salary of \$1,200. At a recent meeting of the church session and the board of trustees, it was decided to make the church self-supporting and make an application to the board of home missions for aid, the amount received from that board last year being \$100. This action was ratified by the members of the church and congregation in the vote to pay Dr. Lukens a salary of \$1,200, all to be raised here at home. The social which followed the meeting was held for the purpose of welcoming the new members who had been admitted since the last communion preceding the one held last Sunday, at which time nineteen new members were admitted. In all, thirty-five new members have been admitted to the church roll during the past year. Dr. Lukens came in after the adjournment of the business meeting and received a warm welcome from all.

This church has a handsome, nicely furnished house of worship, is increasing in members and influence for good and does not owe a dollar. The record of the past year is one of which Dr. Lukens and the members are justly proud.

### THEY CROSSED TOGETHER.

Husband and Wife Pass Death's Divide Almost Hand in Hand.

David V. Newport, aged 28 years, died at the Ladies' home at 4 1/2 yesterday afternoon, says the Optic. The young man followed his wife to the grave in a manner singularly coincident. They died of a similar ailment within two days of each other. Death claimed her Wednesday of this week at Osage City, Kan. It was a case peculiarly sad and pitiable. Each knew the seriousness of the other's condition and each was painfully conscious of the cruel pitiless miles that stretched between them. Each knew the other to be dying, yet neither could so much as smooth the pillow or caress the brow as death's night drew apace. To be lying with the heart aflame with hunger for sight of each other, to be lying with the spirit yearning, yet helpless to give the least comfort to the other was enough to snap the slender, slender cord which bound them to the earth. But the pain of each is forever closed on whatever of care or sorrow life on this sorrowful star held for them. They know the wonder of all that lies beyond the shadow. It was given them to learn the new life together, to tread its new paths hand in hand. They were separated in their illness. They are reunited. At Osage City a little stranger, Mabel, the only child, looks out on the world that can never hold for her the sweetest of all loves, the love of a mother, or the tenderest of all guardianships, the care of a father. In dying the father no doubt wished above all that he might once again see and fondle and bless this baby. It was not to be in that way. But an angel saw so he sees her now. His brother-in-law started for Osage City this afternoon with the remains.

### DYNAMITE CAPS EXPLODE.

"Frenchy," the Dynamite Expert, Frightfully Injured on the Roswell Sewer Work.

Jim Smith, the big brawny fellow who is in the employ of Matt & Roberts, the sewer contractors, lies at his boarding place on Pecos avenue, back of Joyce, Fruit & Co.'s store, suffering from severe injuries caused by an unaccountable accident which happened to him last Friday afternoon about 5 o'clock. It does all the blasting on the sewer work and had something like seventy-five dynamite caps in his vest pocket. While he was at work in the trench, the caps, in some mysterious way, exploded. The left side of his vest and his hat rim were torn to shreds, his side bruised, burned and torn and the left side of his face and head terribly lacerated. Several of the caps penetrated his left arm and he was otherwise injured. The shock was terrific and it seems difficult to understand why he was not instantly killed. He is a man of most powerful build, which probably explains the secret of his surviving the accident which would without doubt have killed a man of less powerful physique. Dr. Kinsinger was called and took him to his boarding place in his buggy. All the material from the caps and fragments of clothing were carefully removed from the wounds and the latter dressed. Miss Ward, a skilled nurse, has been taking

care of him and he now seems to be doing well and it is expected will recover. "Frenchy," as he is called, lost his left eye in a dynamite explosion some years ago. He is unable to account for the accident.—Roswell Register.

### OF SCHOOL INTEREST.

Resolution Asking Mayor to Call Election for Bond Issue.

No meeting of the school board was held last night as no quorum was present.

Superintendent Hickey said the schools are in good condition, but an epidemic of colds has caused a decrease in the attendance. He also reported a gift to the library from Mr. and Mrs. R. W. S. Nogués of fifty-five volumes of history, biography, fiction and poetry.

The resolution adopted by the board requesting the mayor to call the question of a school bond issue to the people, recites the fact that the First, Second, Third and Fourth ward buildings must be enlarged and proper heating and sanitary arrangements made and estimates the cost at \$25,000. The resolution then says that bonds shall be issued in this amount for this purpose, "and bonds to bear interest at a rate not to exceed 6 per cent per annum, payable semi-annually, and to be payable not less than twenty years nor more than twenty years from the date of their issue."

### HE DID NOT LECTURE.

Owing to Train Delays Dr. Barrows Failed to Lecture.

There was great disappointment on Saturday night when it was found that Dr. Barrows, president of Oberlin college, had not arrived to deliver his lecture on "World's Millenarism" at the Congregational church.

Dr. Barrows expected to reach here on Saturday morning, but his train was delayed by the wreck in Arizona. All day Saturday it was expected that his train would get here in time so no notice was sent out. When it was finally found that it was impossible for Dr. Barrows to get here, a committee met the ticket holders at the depot and refunded their money. Those who still held tickets can have their money refunded by presenting them at the store of H. E. Fox or O. A. Matson. Dr. Barrows will be unable to deliver the lecture later on account of other engagements. The church has lost a good deal of money.

### "SMOKER" ENTERTAINMENT.

The Visiting Pennsylvania Capitalists Will Be Here Friday.

The visiting officers of the Santa Fe Central and Albuquerque Eastern roads, will be entertained at a smoker at the Commercial club on Friday evening. It was expected to banquet them but word was received from President Andrews stating that General Trenchard, Senator Kennedy and Lieutenant Governor Lyon will have to leave on the limited Friday night. The directors of the club have decided to entertain with a smoker from 8 to 11 Friday night. All business men of the city, whether members of the club or not, are invited to be present. The guests of the club will be Gen. Francis J. Torrence, Senator Arthur Kennedy, Lieutenant Governor Walter Lyon, President W. H. Andrews, Vice President W. S. Hopewell, R. V. McChance, Chief Engineer A. G. Kennedy and W. A. Bayor.

### NEEDS PAUL MORTON.

Roosevelt Said to Want Him for a Cabinet Position.

According to a well authenticated story that is current in Washington Paul Morton, of the Atchison, Topeka & Santa Fe railroad, has been asked whether or not he will accept the portfolio of commerce and labor, which will be created when the house of representatives passes the bill recently passed by the senate.

Mr. Morton and President Roosevelt are friends and the president has the highest opinion of the former's executive capacity and ability to organize and shape the policy and work of the new department. Mr. Morton has visited Washington several times since President Roosevelt became chief executive.

### Government Positions.

The United States civil service commission announces that on March 15, 1902, an examination will be held for positions of architectural draftsmen, Philippine service; on March 19, for the position of messenger boy; on March 25, 26 and 27, for the position of deck officer, in the coast and geologic survey; on April 2 and 3, for the position of local and assistant inspector of hulls in the steamboat inspector service, and some time during the spring of 1902 for the position of compositor in the government printing office, which includes legal residents of the states and territories of Arizona, Mississippi, New Mexico, North Carolina, Oregon, South Carolina, Texas, Wisconsin and Wyoming. Persons who desire to compete should at once apply to the United States civil service commission, Washington, D. C., for a copy of the manual of examinations and for application forms.

### Jim Blain Again.

Recently the Banco Minero, of Chihuahua, Mexico, wired Cashier Winsor, of the London National bank, at El Paso, if the check of W. W. Cox was good for \$500. Mr. Winsor wired back: "Yes, if genuine." The Mexico bank cashed the check and forwarded it to El Paso. It was returned counter-signed, "signature not genuine, forged," and the Banco Minero sent \$500 Mexican. The bank claims that the party who cashed the check identified himself, as they thought, absolutely. It is thought that Jim Blain, who last year "worked" Mr. Cox and some of our citizens for several hundred dollars, and later attempted to forge Mr. Cox's name to a check in Oklahoma, is the guilty one in this case.—Rio Grande Republican.

### Lambs Sold

Victor Sals, one of the latest and most successful sheep raisers of Valencia county, is in the city today with half a dozen of his herders. They reached the city late yesterday afternoon with 2,000 lambs from the ranges in the Oscura mountains, which Mr. Sals delivered today to the purchasers, Messrs. Woodhall & Garcia, of this city. The lambs are now held near the

## SCHOOL GIRLS.

'Tis a pretty age—that time in a girl's life when she has all the beauties of womanhood without the later lines of care and worry.

But here and there even among school girls appear pale and drawn faces.

Pale blood is at the bottom of the trouble and Scott's Emulsion can cure it.

Scott's Emulsion brings back the beauty to pale girls because it is blood food.

Send for Free Sample.

SCOTT & BOWNE, Chemists, 205 Pearl St., N. Y.

stock yards, but will be driven to pasture east of the city. Mr. Sals was at The Citizen office today and stated that he has about 2,000 fat wethers for sale. He reports the ranges of the Oscura mountains in fine condition and the sheep fat.

### Los Lunas Court.

Attorney John H. Stingle, George Lewis and Chas. Chadwick returned from Los Lunas this morning. Mr. Stingle, with Attorney Gillette, defended Roman Montoya in an assault and battery case. Montoya was cleared.

Several acquittal contest cases were also heard and settled.

Mrs. Charles Paxton, of Gallup, is in the metropolis today on business.

A party of six musicians serenaded residents of South Second street last night.

H. P. Y. Chavez, of San Rafael, is in the city today, coming in from the west last night.

W. H. Welch, G. A. Smith and J. V. Walker and wife are in the city today from Albuquerque.

Mrs. A. D. Whitman, who has been under the weather for the past week, is able to be out again.

Hon. F. A. Hubbell, county school superintendent, was a passenger for Santa Fe this morning.

Oscar Goebel, clerk at the Golden Rule dry goods store, spent Sunday with his parents at Belen.

Miss Erna Ferguson, daughter of Hon. H. B. Ferguson, spent Sunday with friends at Los Lunas.

Judge L. Loughery is reported on the sick list today and in consequence was unable to be at his office.

R. B. Thomas returned to Cerrillos this morning, after a pleasant visit over Sunday with his family here.

W. B. Childers, J. E. Saint and Alfred Grunsfeld, who were at Santa Fe on business, have returned to the city.

William Jerome, in the employ of the copper company at San Pedro, is in the city on a few days' rest up.

H. G. Wilson, southwestern manager of the Continental Oil company with headquarters here, has returned to the city.

After a pleasant visit to Mr. and Mrs. F. A. Hubbell, Mrs. Herbert Romero has returned to her home at Las Vegas.

The bicycle belonging to Dr. G. W. Grove, which was advertised as stolen, was found on the doctor's porch this morning.

Chas. Malcolm, assistant superintendent of the International Correspondence school, went to Santa Fe this morning.

Harry Gould, representing R. Blankenburg & Co., of Philadelphia, Pa., is around among dry goods merchants of the city today.

Nat Green, night mixer at Zeiger's Cafe, has received the sad news of the death of his father, which occurred in Boston last Friday.

Deputy United States Marshals R. E. Leatherman and George Kasseman went to Santa Fe this morning to open United States court.

Mrs. Garland V. Crosby and son, family of the deputy district clerk, returned Saturday night from an extended visit with Mrs. Crosby's mother in Chicago.

Edward Grunsfeld was a passenger for Springer, N. M., this morning, in the interest of the Equitable Life Assurance company. He expects to be gone about a week.

Mrs. A. Abraham and daughter, of Silver City, spent a few hours in Albuquerque this morning. They were en route from Silver City to Los Angeles, taking the flyer this morning.

Daniel Romero, the well known street car conductor and driver, and wife are the happy parents of twins, which arrived Saturday, at their home in old town. All concerned are reporting doing well.

W. F. Switzer, manager of the Hahn barber shop, is the latest victim of the bicycle thief. Saturday night between the hours of 9 and 11 his wheel disappeared from in front of the barber shop on Railroad avenue.

In accordance with a resolution adopted by the Ministerial association, one of the sermons preached yesterday in each church in town was on Sabbath observance. The non-observance of the law was generally condemned.

Chester D. Coram and wife, of Boston, are again here. Mr. Coram is a director in the Cochiti Gold Mining company and he is interested in the Navajo company, which is planning to build a mill at Blain to treat the ore from the Lone Star mine.

The annual entertainment of the Woman's Relief Corps will be given on Monday evening, March 17. A supper will be served, there will be dancing and every effort will be put forth to make the evening an enjoyable one. Admission will be \$1 a couple.

Quite a large party of friends of Mr. and Mrs. Henry E. Barracough were at the depot Saturday night to see them off on their departure for Los Angeles. Mr. and Mrs. Barracough have made a great many warm friends during their short stay in this city.

## TALKS ABOUT TRIP

Major General MacArthur has Returned to Denver Headquarters.

DISCUSSES IMPORTANT SUBJECTS

Major General Arthur MacArthur, commanding the department of the Colorado, returned yesterday from a tour of the army posts in New Mexico and Arizona, says the Denver Republican, March 3. He said that the trip was one of the most interesting, as well as instructive, that he had ever taken and that the affairs of the department were in splendid shape. The general was especially enthusiastic concerning the progress which is being made at the hospital maintained for the care of soldiers who contract consumption while in the army.

"Little is known of this work outside of army circles," said General MacArthur, "but the results which are accomplished are wonderful. The hospital has been fitted up at Fort Bayard, N. M., and is now one of the most complete institutions of its kind in the United States. It was established about four years ago and now has about 200 soldiers and a dozen officers as patients. It has been steadily enlarged and improved since it was first established and is now in splendid shape. A majority of the patients who are there now contracted consumption while in the Philippines.

"Curing consumption," the general says, "with the combination of climate and treatment actual cures are being effected in some very severe cases. One of the rules of the institution is that none of the patients must remain indoors on fair days. In fact, it is a violation of the regulations to stay in the house when the weather is good. In order that this rule may have plenty of air and sunshine on every day a large pavilion entirely of glass is being constructed, at a cost of \$15,000. It is now nearly finished, and in it the patients will be able to get all the air and sunshine needed without suffering from bad weather.

"Soldiers who contract the disease while in the government service are sent to this hospital and kept on the rolls for three months as enlisted men. At this time if the prognosis shows that they are in serious condition and that it may require two or three years to effect a cure, they are discharged, and are afterwards maintained by the Soldiers' Home at Washington. They may be kept there for years and are well cared for all the time. It is a great institution and it is doing splendid work for the soldiers. The doctors are all the time making original investigations which will be of great benefit to science.

"At Phoenix, Ariz., I visited the Indian school and was greatly impressed by the progress which is being made in educating the Apaches. About 600 Apache Indians, ranging in age from 3 to 23 years, are attending this school, and are being given an education as well as to perform all useful manual labor. The pupils at the school all turned out and gave us a great reception, and later the governor of the territory and I made a few remarks to the school. When you consider that the Apaches are the wildest Indians we have it is wonderful to observe the way the pupils of this school are learning to do useful work. I learned that the girls are in great demand for nurses, as they seem to have special aptitude for this branch of work.

"On my way home I stopped at Albuquerque, and found the citizens there very much excited over the new army post which they are to have. I went out on the mesa and looked over the sites which had been suggested for the post, not as a representative of the war department, but as commander of this department. I found that there were several good sites to be had for the post, which will be really as large as that at Fort Morgan. I also visited some big mines on my trip, among them the great United Verde, the Congress gold mine, and other properties."

General MacArthur was questioned concerning the rumor that changes in the department will cause his transfer either to Chicago or San Francisco. "That is something which I am not prepared to discuss at present," he said. "It is official business. Again, it is not yet a fact. For these reasons I can not talk about it at present."

Roswell Brass Band Disbands.

After more or less strenuous existence of three years or so, the Roswell Brass band has disbanded, dividing the \$3 remaining in the treasury and leaving the leader some \$50 odd back in his pay, says the Record. The instruments are to be turned over to the citizens who paid for them by popular subscription. The band had many competent members and attained a very considerable degree of efficiency, but disbanded at last to the spirit of selfishness that attacks eventually nearly every organization in the southwest.

Big Out-of-Season Snake.

Henry Fuller, a visiting headhunter, killed a big rattlesnake near the head of North Spring river last Saturday afternoon. The reptile was over six feet long and was adorned with eleven rattles and a button. He was stupid from the effects of his long winter's nap and cold, and was too lazy even to rattle when discovered.—Roswell Record.

The Williams News says: Dr. A. Taylor quietly left town, or thought he did, last Saturday evening, but there were those who had their eyes open. From his actions it was thought at first that his trip to Albuquerque was of a serious nature, but he returned to the city again, quietly, on Wednesday. "How" says the expected will take place some time in May.

The Citizen has received an inquiry from P. A. Eastridge, of Ashland, Ky., as to the whereabouts of his uncle, Newton R. Messer, who left Yazooville, Claiborne county, Tenn., some time in the earlier sixties, and was not heard of again but once, when he was reported to be west with the Indians. Messer was a fine scribe and a good business man.

N. E. Stevens, representing the Montezuma Savings, Loan and Building association, has returned to the city from a southern trip.

# STOCK NOTES

Aubrey Glat, of the Guadalupe Mount and, Eddy county, shipped 1,000 pounds of mohair from Carlsbad.

George M. Slaughter left Roswell for Chihuahua to visit Governor Ahumada in reference to the fair and live stock show and sale to be held there the coming fall.

W. C. Hyde, C. W. Hyde and M. E. Hyde, of Near Three Rivers, Otero county, have sold their entire herd of 400 graded cattle and will go into the sheep business.

J. J. Hargreaves, of South Springs, Chaves county, has purchased twenty-nine head of prize Shorthorn stock from H. P. Groom, of the Texas Panhandle. The price paid was \$10,000.

S. T. Bittling, of Carlsbad, representing various Pecos Valley cattle outfits, last week sold 2,000 2 and 3-year-olds to B. C. Ash and Carson Williams, of Pierre, S. D., and L. A. Allen, of Kansas City.

George Crougman, of Colorado, has been in New Mexico buying steers, yearlings, cows and calves, to be delivered in May. He says prices are about the same as last year and cattle are in good condition.

Oscar Hyde, of Three Rivers, Otero county, sold his White Mountain ranch and his entire stock in cattle, recently therefor 4,000 head of sheep which he will run on the Otero ranch he recently bought from G. F. Hyde and Bud Smith.

A shipper from southwest Missouri shipped twenty-three head of dead hogs into Kansas City on the 19th. The stock agent and company about the yards were puzzled over the arrivals until they were told that a local soap manufacturer had contracted for them at \$1.25 per cwt. for every hog.

William Childress, of San Angelo, Texas, bought of N. T. Wilson, what is known as the Howard Well ranch in Crockett county. It embraces 12,000 acres, 7,000 acres being wooded land, the balance being school and railroad lands. There are 4,000 cattle, 10,000 sheep, nearly 200 horses and mules and a bunch of goats. This property adjoins the Striding ranch which Mr. Childress also owns.

A decision of considerable importance to cattle commission dealers has been made by the Kansas City court of appeals. The court decides that the commission dealers cannot be compelled to pay for stolen cattle which they may have sold. Hundreds of cattle are sold at the stock yards annually. When the commission men have no means of ascertaining that the cattle offered to them for sale are stolen, it is a presumption that the cattle belong to the men shipping them. Under this decision the commission men are not liable for the sale of stolen cattle. This reverses the general practice at the stock yards. For years the purchasers of stock have been compelling the commission men to make good such losses.—Denver Record-Stockman.

In Lincoln and several other counties a number of cattlemen are going into the sheep business after disposing of their cattle. This has given rise to the impression that the sheep men are crowding the cattlemen from the range. The fact is that sheep raising and goat raising are better adapted to certain sections of New Mexico and therefore more profitable and that explains why cattle ranges in Lincoln, Guadalupe, Union and other counties are in many instances turned into sheep and goat ranges. As to the cattle industry being wiped out of existence in New Mexico there need be no fear, although the tendency at present runs to high grade stock kept in fenced pastures rather than to leaving low grade cattle roam at will winter and summer on the public range.

The Riverside Hereford Cattle company road their ranch and herd of registered Herefords at Ashland, Neb., recently to George A. Rickert, a banker of Quincy, Ill., for \$150,000. This transfer included 1,200 head of registered stock and the stock alone was estimated in the deal as worth \$200,000. The herd is headed by Admiral and Thickett, the latter costing \$2,100. The ranch consists of 5,700 acres of good river bottom land. The headquarters of Riverside Hereford Cattle company will hereafter be at Belton, Mo., where they still own 2,000 acres and 600 head of registered stock. This same company has a ranch in Old Mexico of 1,200,000 acres, with 12,000 head of select native cows, besides 12,000 native and other cows. About 500 registered bulls have been placed on this ranch within the past year.

## NEW FEEDER FOR SANTA FE.

Some of the Most Important Mining Camps of Southwest Reached by Rail.

The El Paso & Southwestern railroad, between Deming, N. M., and Douglas, Arizona, has been completed. It will be a most valuable feeder for the Santa Fe Lines of the El Paso & Southwestern railroad are already in operation between Benson and Naco and Bisbee, Arizona, and from Don Luis, a short distance south of Bisbee, to Douglas. The line of the Nacozari railroad, from Douglas south to Cos, in Sonora, Mexico, is also in operation, and it is understood that this company is closely associated with the El Paso & Southwestern. Construction work is in progress from Carrizillo to El Paso, and from Naco to Forest, and a line from Morenci to Guthrie is completed that will eventually be connected with the main east and west line at Hachita, New Mexico, via Lordsburg.

The railroad of the Cananea Consolidated Copper company, running from Naco, is a tributary line, and is in operation from Naco to Villa Verde, a distance of eighteen miles. The road is practically completed through to Cananea, twenty-two miles beyond. Some of the most important mining camps of the southwest will be brought into direct connection with the Santa Fe, via Deming, by these new lines, and a large interchange traffic will no doubt be established.

The Clifton, Bisbee, Morenci and Cananea mining districts are enormous producers, and there are many others in Old Mexico, New Mexico

and Arizona which will be served by this line. The machinery and supplies requisite for the operation of the mines will of themselves give the new road a very considerable tonnage, in addition to which a large passenger traffic is anticipated.

## SANTA IMPROVEMENTS.

Large Appropriations Made for Texas Line Betterments.

A dispatch from Chicago states that the expenditures authorized by the Santa Fe for betterments this year are larger than ever before. It is noticeable, however, that these expenditures are all in the way of increasing the carrying power of its lines and not for trackage.

Among the work to be done is the laying of 125 miles of new 75-pound steel rails on the Texas line. Thirty-one steel bridges on the same line are to be replaced by larger and stronger types, to provide for the heavier locomotives and long trains.

A large section of the Texas lines are to be equipped for burning fuel oil from the Beaumont fields. This involves the erection of a number of immense steel storage tanks, and the installation of pump supply plants from which the locomotives will take the oil. Of the recent purchases of locomotives, fifty-three are to be equipped for service on Texas lines. There are only a few examples of similar improvements on other portions of the system.

## DEATH OF G. E. THORNE.

Well Known Railroader Has Both Legs Cut Off in Texas.

Word was received in Denver at Colorado & Southern offices of the death of George E. Thorne, trainmaster of the Port Worth & Denver City and Wichita Falls, Texas, says the Republican. The news of the painful ending of the light young railroad man, who is a brother to First Vice President Thorne, of the Texas & Pacific, the Gould line, came in the nature of a shock. George Thorne was well known in Denver.

While attempting to board a passenger train Monday, Thorne fell under the wheels. Both legs were cleanly severed. It was impossible to save him, the loss of blood and shock proving too much for the surgeons.

Thorne had been for several years in the employ of the system and was steadily climbing toward the position of division superintendent. It is inferred that he missed his hold and fell between the platforms, while jumping on the moving train.

## Lock the Fact in the Face.

The progress of a bad cold toward galloping consumption may be terribly sudden. Don't let this ugly fact frighten you, but when you begin to cough take Allen's Lung Balsam, that stops the cough by curing the cold. Preparations containing opium merely quiet the cough for a time. There is no opiate drug in Allen's Lung Balsam. Sold by all druggists.

## RAILROAD NOTES.

There are over 200 trainmen on the Santa Fe pay roll at Las Vegas, exclusive of the engineers and firemen.

J. E. Allen went up to Raton to work as engineer on that place for a few weeks, between Raton and La Junta.

Engines No. 688, 696, 698 and 701, now in service on the Santa Fe Pacific, have been ordered to the Oklahoma division.

R. L. Richmond has been appointed agent for the company at the Bridge street office, Las Vegas, N. M., taking the place of W. H. Jobe.

Harry Crawford, a conductor on the San Marcial division, and family, stopped off here between trains while en route to their home at San Marcial.

The Santa Fe system has dispensed with the services of all yardmasters. The agents hereafter will look after the switching, says the Gallup Republican.

Eight large box cars were loaded with ties at the Santa Fe railway depot at Santa Fe. The inspector H. J. Ryan, of Las Vegas, with about twenty-five men, did the work.

Passenger engine No. 477, which has been out of service for several days for new driving wheels, was put out of the Las Vegas shops yesterday and given a trial trip on train No. 35.

Frank Harris, son of Mrs. H. V. Harris, is here on a visit from San Bernardino, Cal., where he is employed as stenographer in the railway offices. He will return west Saturday night.

The Santa Fe Central main office in the Cotton block at Santa Fe is being fitted up with a counter and railing, inside of which the desks of the chief clerk and assistant treasurer are located.

Seven firemen were discharged at Winslow the other day for refusing to go out on one of the big engines without a coal passer. They referred their case to the grievance committee and a satisfactory settlement will probably be made.

Will Nicholson and wife left for Newton, Kan., this morning, where Mr. Nicholson has accepted a position in the Santa Fe shops. He was formerly employed in the local shops, but was among the number that were discharged in the recent let out.

W. E. Hodges, general purchasing agent for the Atchison Topeka & Santa Fe railway system, arrived from the west this morning in special car No. 218, and will spend the day in the city. Mr. Hodges is accompanied by his nephew, J. S. Taylor, of Newport, Ind.

William Tasker and Frank Israel, former machinists in Topeka shops, but who have been in Albuquerque, N. M., a while, are here for an indefinite stay, having been among the number included in the lay off there.—Topeka Journal.

Marcelino Baca and Santos Ortiz, of Pecos Blanca, were in Santa Fe and closed a contract with Hon. Thomas B. Catron for cutting 100,000 ties on the Gabilan grant, covering the headwaters of the Tesuque. The ties are to be delivered to the Santa Fe Railway company.

The Santa Fe Railway company is having twenty-three large locomotives constructed at the Baldwin Locomotive

works at Philadelphia, which it will convert into oil burners as soon as the engines are delivered. The conversion will be made at San Bernardino, Cal. shops.

Letters from Tucuman people to friends in Las Vegas have a very jubilant tone. The chief engineer for the Chetco, Oklahoma & Gulf railroad, with a party of surveyors has been there. From what has leaked out it is believed that that road is heading for New Mexico point.

An accident happened at the Santa Fe rock quarries at Morley, Colo., which will probably result fatally for Hugh Roberts, one of the workmen. His injuries, sustained while blasting, includes the loss of one eye and the probable loss of the other, a fractured skull, a fracture of both arms and bad cuts and bruises about the face and body.

David Patterson, whose appointment to the position of master mechanic of the New Mexico and Rio Grande divisions of the Santa Fe, with headquarters at Raton, N. M., was announced Monday, has already taken charge, the circular, dated from the first of the month. He succeeded C. M. Taylor, who was recently made mechanical superintendent of the western grand division.

General Francis J. Torrance, Senator Arthur Kennedy, Lieutenant Governor Walter Lyon, Senator W. H. Andrews, Hon. W. S. Hopewell, R. V. McCance, Chief Engineer A. G. Kennedy and Chief Clerk W. A. Bayer are to be given a smoker at the Commercial club building tomorrow evening. They will arrive here tomorrow morning. General Torrance, Lieutenant Governor Lyon, Senator Arthur Kennedy and Senator Andrews will leave on the California flyer, the same evening for Chicago.

Cabinet matters have been much interested lately in a problem in arithmetic, which apparently contains a fallacy somewhere, so much so that the result of the figures differ from what would appear to be the fact at first thought. This is the example: A ship sails out to sea 6,000 miles at the rate of ten miles an hour, going and returning, another travels the same distance but out-bound its rate of speed is eight miles and in-bound twelve miles an hour. Which trip will require the longer time?

A committee of citizens of Santa Rosa last week went to Tucuman to meet Freight Traffic Manager J. M. Johnson, Second Vice President J. H. Conlin and General Freight and Passenger Agent J. H. Meyer. They asked for special freight rates for Santa Rosa as it is a convenient shipping point for the country for many miles around. They were promised that the company would do all in its power to give Santa Rosa the lowest freight rates possible and to push the town along whenever opportunity offered.

If the number of grade stakes which the company is sending out to the new southwest is any measure of the expansion which is to take place in the mileage of the road during the next summer, there is reason for believing that the coming year will be almost unparalleled in the history of the Santa Fe road. Every week for some time the storehouse at Topeka has been billing out from 25,000 to 30,000 stakes for the new parts of the system. Even at that rate it has been impossible for the mill men to keep up with the orders of this kind, and it will be some time before they can furnish all that are demanded.

San Pablo District Rich in Copper Ore. The San Pablo mining district, located on the Las Vegas grant, about eighteen miles northeast of town, shows evidence of fine copper ore, finer even than the Tecolote district. Active mining operations have been going on there for some time and the ore, which is found in large quantities, assays all the way from 3 to 25 per cent.

The ore is found in about the same formation as the Tecolote ore, although it shows less richness, more at a glance than the latter. There is a large mountain where the operations are being carried on, and the entire district has been staked with claims.

A French-American, who has been living near the mine, has been working a claim for a few weeks and has taken out some very fine ore.

If the proposed reduction mill is erected, there is no question about the great value of the find and of the success of those who are so fortunate as to have claims in the San Pablo district.—Record.

## Mining Company Officers Elected.

The stockholders of the St. Louis Copper Mining & Extraction company held a meeting this morning at 9 o'clock, and elected the following directors to serve for one year: W. R. Twitchell, B. J. O'Reilly, George W. H. Hutchins, Ralph W. Higgins and W. C. Reid.

After the stockholders' meeting had adjourned, the board of directors met and elected the following officers: W. B. Twitchell, president and general manager; George W. Hutchins, vice president; B. J. O'Reilly, secretary and treasurer; W. C. Reid, attorney, and Ralph W. Higgins, superintendent.—Las Vegas Record.

## Excellent Time.

It requires the E. Romero hose and fire company just six seconds to hitch their team with the new drop harness. The boys have been practicing on Sunday. W. O. Wood, Joe Young, Will Stapp and L. W. Hill did put the clothes on the team in this time Sunday. About 100 persons were present to watch the quick time practice. The horses stood back of the wagon. At the sound of the bell they sprang to their places like old fire fighters. The intelligent animals entered thoroughly into the spirit of the work.—Optic.

## Robbery at Los Alamos.

William Frank was again victimized by thieves Saturday night, says the Optic. Again the entrance was effected by prying open a window shutter and breaking the glass above the latch. Most of the goods stolen were fresh stock that had been received Saturday. Among the articles missing, Mr. Frank is able to enumerate four boxes of Winchester 44-40 cartridges, a pair of light buckskin gloves, a cheap watch and a number of miscellaneous articles of trivial nature. Mr. Frank's store had a similar visitation three months ago.

M. F. Meyers returned last night from a short business trip to Bland.

## NOW FOR A SMELTER.

This Paper Presents Interesting Facts on the Subject.

## PUSH THE PROPOSITION.

It is true that the number of dividend-paying mining companies in New Mexico at present is limited, but the number of mines that could produce largely under improved conditions of transportation is considerable, and as a whole but few western states or territories surpass us in the low cost of extraction, the mining of the ore. Whereas, the scarcity of water, at and near the mines, in a good many places, does not afford us the chance to mill the low grade or complex ores on the spot, there is at least the saving of expensive pumping. To bring such ore to the water requires railroad branches—narrow, broad gauge or train lines. One body which avails such transportation in New Mexico would be regarded as a great bonanza. In Colorado, where nearly every dump has a railroad at the foot of it. Then there is a very low tariff from Colorado to Missouri river points, whereas the haul from New Mexico requires the pull of cars over two ranges, the Gorieta and the Raton, before a Colorado point can be reached. Zinc ore or zinc concentrates are hauled from Leadville to New Orleans or Galveston at a lower tariff than we can ship to Colorado. The Santa Fe can get to said points from here only in a very roundabout way. This, of course, cannot be helped at present. Nor do we consider the rates on ore from New Mexico to Colorado excessive. Since the formation of the trust, ore from northern Arizona and northern New Mexico goes to Colorado, and everything south of Albuquerque to El Paso. Now, what we should like to see is the abandonment by the Santa Fe of the cheap haul of ore over the two ranges to Colorado or the shipment of the same to El Paso, and the centralization of the smelting of New Mexico and northern Arizona ores at Albuquerque, with freight rates that would pay the road handsomely and yet enable us to compete. The Citizen proposes to institute a thorough examination of the producing capacity of the various mining sections of the territory and what is required to make such capacity available. One friend in the south of the territory, Deming and Silver City, will gladly give us the preference where they do not require the ore for their own works. Silver City will always be a good point for the reduction of the copper ores of the vicinity and Deming will become quite an ore market with the new mines being tapped by the Deming-Hatch line. We would expect to get a share of the ore, though not in copper. The Orans will give us ore. So will the Magdalena. What the Santa Fe carries to El Paso she will probably not handle again in the form of bullion. The fact is the New Mexico ores can all be reduced cheaper in New Mexico than anywhere else and we claim the most central location on the lines of the Santa Fe: coaling coal is near, steam and other coal in plenty. For all these indisputable facts the Citizen will call for a smelter until we have one, and the only that just lacks a refining attachment, so that we can help other plants to separate their precious metal from the lead and send their pigs to the St. Louis market and make pipe or other articles of lead manufacture at home. It will require money, money, money, but it will make money, money, money, for the miner, the smelter, the merchant, the manufacturer, the foundry, the workman, and the railroad.

El Paso gets its coke and coal also from the Santa Fe, although Beaumont oil may break into that business with the new lines, being tapped by the Deming-Hatch line. As such coal and coke as pass by Albuquerque is a better smelting point for ores that now go by or through. The old story of the railroads preferring a long haul is only conditionally true. We do not believe the Santa Fe ever made a dollar on the haul of ore at a low rate over the Raton and Gorieta ranges. Just as copper ore tributary to Las Vegas can be most economically reduced at Las Vegas, so can and will be treated nearer at home the mineral products of central and southern New Mexico. The Santa Fe must know as well as we that a healthy mind can only dwell in a healthy body, that the prosperity of the railroad is dependent upon the prosperity of this great realm which she may justly call her own, so dependent are we upon her.

We ask the management to give this matter the consideration which it deserves. Our territory received a great blow in the demonization of silver, as the ruins of so many formerly prosperous mining towns plainly demonstrate. They are not seen from the straits. And now the manipulations of the trust propose to doom to poverty our lead mines. Only a few days ago the El Paso Times published an interview with Mr. Earle, the manager of the trust at El Paso, in which it was stated how much ore had been contracted there, chiefly lead ore, which is smelted in bond, so as to compel our miners to compete with the labor of Old Mexico. These are all facts, solemn truths. Let us all act in unison and change the state of affairs for the better. If New Mexico pulls as one man we shall draw the wagon out of the mud. If not we shall sink. There is no other choice.

## CERRILLOS.

Cerrillos, N. M., March 5.—Mr. H. J. Elliott has resigned his position as superintendent of the coal properties at Madrid, operated by the Colorado Fuel and Iron company, and left this morning for Grand Junction, Colorado, where he has a fine fruit ranch, which he will hereafter give his personal attention to. Mr. Elliott has been succeeded by Mr. Gus J. Johnson. Everyone liked Mr. Elliott and much regret has been expressed because of his going away, but while this is true Mr. Johnson also has a host of friends and if a change had to be made, a more agreeable one could not have been brought about. He is an old timer at Madrid and is widely known. There is no doubt but that he will be the same Gus Johnson as of old.

Mike Montoya fell from the top to

the bottom of a thirty foot well today. It's hard to hurt the truly good and Mike will be around again in a few days and will tell us how it happened. Mr. R. H. Thorne, manager, and Mr. J. L. Wells, superintendent of the Consolidated Mining and Smelting company, are spending a few days at the coal mine near Gorieta, which they are opening up. Report has it that the company has a good vein of coaling coal which is very valuable.

## MINING NOTES.

Work continues on the McKinley mine in St. Lazarus gulch, and the pay streak is good.

F. H. Peltz, mining and civil engineer, has returned to Las Cruces from a visit to Santa Rosa.

The Galles Brothers and Hartney are hoisting water from the American mine at Hillsboro, Sierra county.

Messrs. Harper and Rafter, of Hillsboro, have taken a lease on the Amigo mine on Trujillo creek, Sierra county.

All the coal miners at Madrid are at work again, the Cook & White mine being worked again to its fullest capacity.

Superintendent S. P. Conger, of the St. Lazarus Gold Mining company, has returned to Golden, after a few days' sojourn in Cerrillos.

C. T. Brown, of Socorro, has been elected a director of the International Miners' association whose headquarters are at El Paso, Texas.

There are a number of mines in the Golden district that will be regular shippers of ore as soon as the Santa Fe Central railway is completed.

John Kasser has commenced sinking a well in Cold Springs gulch, Sierra county, with a view of erecting a stamp mill if he finds sufficient water.

Ben Wooster and Frank Quinley are working their mine near Las Vegas. They left for the Tecolote district, carrying a week's provisions with them.

Mr. Harp and the Hunter Brothers have reached a depth of 150 feet with their tunnel and will soon know what is under the Oro Que peak, near Golden.

On account of closing the Catalpa mine the Colorado Fuel & Iron hospital at Gallup has been closed. Patients will hereafter be taken care of at Gibson.

Messrs. Twitchell, Hutchins, O'Reilly and Higgins, of Las Vegas, made a trip to the San Pablo mining district Sunday to inspect the work done on their property.

The Eagle has met a number of the boys and they all agree that miners' wages at White Oaks beat anything they have ever found in the way of employment anywhere else.

Murray B. Johnson, of Gallup, has sold his interest in the old diamond mine back to William Stewart. Mr. Johnson expects to leave for El Paso next week, to be absent some time.

The work of building a car of ore from the Montoya property, near Las Vegas, for the Union Ore Extraction company, of Denver, was begun yesterday. The car is being loaded at Ojito.

The main shaft on the El Oro mine at Andrews, Sierra county, has to be sunk from a depth of 300 feet to a depth of 500 feet. The mill is running constantly but is not catching up with the output of ore.

E. F. Kenney, of Gallup, left for Lavin, Cal. He has gone to look after some valuable mining property to which he felt heir a short time ago by the death of a wealthy uncle. He will return next Tuesday.

Colorado men have secured an option of D. S. Miller's claim and the property of William Keel and James Jobe at Lake Valley, Sierra county. It is their intention to purchase hoisting machinery and to sink a 400-foot shaft.

Work has commenced on the Gold Stand at Golden, on account of a cave of rock. Fortunately the cave occurred when the men were out of the mine, so no one was hurt. The owners of the mine being in business, have decided not to clear it out until warmer weather comes.

While at Hillsboro last week, Dr. A. G. Brower, of Ute, N. Y., completed arrangements with his partner, J. W. Orchard, to go ahead with the development of the Dude mine on the Macho, Sierra county. The machinery to sink 500 feet or more has been purchased.

The Cerrillos Register says: Professor Giltner came in from the Sandias mountains the first of the week, and brought some fine specimens of ore from the 150-foot level of his Macao mine. He says he has a two-foot vein of this ore, which assays high in silver and gold, besides the lead which runs about 30 per cent.

The mining fever is running riot around Las Vegas. Nearly everybody has a chunk of ore and dilates on his particular claim. Tecolote district claims 10 per cent ore, San Pablo 15 per cent and Burro hill higher still. If the fever will only hold out until substantial improvements in the way of a reduction, plant are made the citizens will feel repaid for the wind.

The Old Abe will resume work Monday morning. The White Oaks Eagle is not prepared to say what the new conditions are, but has been informed that the mine is expected to soon be working a larger force of men than the company has ever employed since the mine was opened. This means good times for White Oaks. Many of the old employees are returning to the city to take their places with the company. Friday evening at Belen, Valencia county, the stockholders of the Belen-Carrizito Development company elected the following directors: Chas. Reinken, John Becker, A. H. Hallett, M. Rigner, O. M. Zeigler and Paul B. Dalles. The directors elected Paul B. Dalles president, O. M. Zeigler vice president, and Carl A. Dalles secretary and treasurer. The company is working several claims in the Carrizito district in the Manzano mountains, Valencia county.

The Las Vegas Optic says: Col. F. A. Blake came down from his home on the Sapello and brought with him some ore from a mine, two miles above his house in the main canyon. On running in the side of the mountain for forty feet he found a peculiar colored ore, which he thinks carries gold, silver and lead, beside a kind of soft, white metal resembling nickel. He sent a specimen to Colorado to be tested. The metal is easily extracted and is very soft. Here's hoping the colonel has found something good.

## THAT ASSAULT.

The Young Lady Substantiates Article in The Citizen.

Another case of "sour grapes" was exhibited by our esteemed contemporary on West Gold avenue this morning, in its article about the assault on a young lady, wherein it attempts to discredit The Citizen's account which was published first and which was obtained from direct sources—not over the telephone.

Another reason, possibly, for the Journal Democrat's strange version of the affair is doubtless due to the fact that the young lady positively refused to have her name in print, while the gentleman at whose house she is employed also prohibited the use of his name in connection with the item.

The young lady announced this morning that she had read both articles and that The Citizen had told the assault as it had occurred. She was followed by a man, whom she recognized as a colored fellow; that he grabbed her by the arm, then the throat and threw her to the ground. That his designs were not put into execution, she firmly believed, is due to the fact that the street car coming to the new town, the driver and occupants of which would have heard her cries for help, had the desired tendency to frighten him away and in a twinkling he had disappeared from sight. The young lady admits that, on reaching her home, brushing the dirt from her clothing and the tears from her eyes, a few friends called on her to whom she told the story of the assault and engaged them in conversation a few minutes. She says that the man was not after her pocketbook and did not seize her hand, but first grabbed her arms, following it by seizing her throat. At that point she fought him desperately, resisting with all her strength, he threw her to the ground and was only frustrated in the accomplishment of his purposes by the timely appearance of the street car whose light glared in his face as it came toward him.

The young lady says she can identify her assailant, as she had a good opportunity to study his face and to investigate his general appearance. His description, as stated yesterday in The Citizen, is in the hands of Marshal McMillin and the marshal is closely scrutinizing certain individuals who are under suspicion.

A tough gang of "women throttlers" are now in the city, and the marshal has instructed his force of sleuth hounds to keep a close watch on all suspicious characters who lurk in the shadow of buildings and wait on dark corners for victims to pass by.

## HIS NEW HOME.

The Farr Meat Market Installed in New Quarters.

William Farr today commenced business in his remodeled market building on Second street. The new rooms are finished in light wood and are as snug as a can be. The building is now 125 feet long and has an L-shaped front which is thirty-five feet wide. The front room is seventy-five feet long and near the entrance is a roomy private office. Back of the main room is a large cooler built expressly for Mr. Farr and just behind it are the refrigerators, forty-six feet long.

The sausage factory is as it was before and the store room, reached by an elevator, is up stairs. A thirty-horse boiler has been put in the engine room. The external appearance of the building has been greatly improved.

## They Are Good Farmers.

The Pueblo Indians make good farmers and Carey D. Richards is here to get more to go to the Los Animas valley sugar beet farms. A year ago he took a number there and the experiment has been a great success. Good wages and a comfortable home will be given every able bodied man who goes. Mr. Richards believes that to get an Indian beyond the influence of his tribal relations is his salvation.

## Police Court.

A warlike native named Miceli, who was arrested last night for carrying deadly weapons, appeared before Judge Crawford this morning, pleaded guilty to the charge, and was given sixty days in the county jail.

Charles Reeves, who says that he built from Pratt, Kan., but has the appearance of having come from the Philippines, was given five days on the street gang.

## Reason Roswell Is Good.

The merchants of Roswell, always wide awake and progressive, are reading more and more the importance of advertising and especially in the newspapers. The Record has closed contracts within the past ten days for over 6,000 inches of space, and there are several more large deals pending. The readers of the Record can look for something interesting in the advertising line this year.—Record.

## Wants Divorce.

Mrs. Anna Treckman filed suit today at the court house for divorce against her husband, Albert Treckman, on the grounds of non-support and ill treatment. The plaintiff also asks the court to grant her possession and care of their 3-year old child. The defendant, Albert Treckman, is now doing ninety days in the county jail for wife beating.

## Date Cancelled.

This afternoon Manager Matsen, of the Colombo hall, received a telegram from the Daniel Frawley company, now at Los Angeles, cancelling the date of its performance here next Monday, giving as a reason lack of stage facilities here. The company, therefore, will pass through Albuquerque.

## Better Late Than Never.

The other day the Lordsburg post-office sold a money order for \$50, which was sent back east to pay a doctor's bill contracted more than thirty years ago. If the doctor who gets that money order, after all these many years, does not fall dead, it will be because he has a wonderful constitution.—Lordsburg Liberal.

## Two Picked Teams.

Two picked teams from the Albuquerque Guards will wage war at basket ball in Colombo hall next Friday night. The game promises to be a good one, for the reason that the boys are on to each others tricks, having played together. The teams will line up as follows: Stars—L. Albers, J. Tierney, Frank Yott, H. Benjamin, F. Parker, Crescents—M. Sheppard, G. Kelcher, E. Peliter, C. Watkins, D. Moore.

# ARIZONA TOWNS

## HOLBROOK.

From the Argus.  
Fred Wetzlar attended a meeting of the Elks at Winslow.

Our public scavenger, the Arizona sand storms, are getting in their work these days.

## ST. JOHNS.

From the Snips.  
Nutrisio is threatened with smallpox. St. Johns should take proper precautions to prevent the disease from gaining a foothold here.

Chris Thompson left for Salt Lake, from whence he will go to Texas on a two years' mission for the church of Jesus Christ of Latter Day Saints.

The Mormon church has presented a St. Johns academy with sufficient funds to continue their school two months longer than the public funds will run it.

Bishop Anderson accompanied Dr. Tanner and Mr. Summerhays to Snowflake, where these distinguished gentlemen will assist in holding the auxiliary conference of that stake.

## FLAGSTAFF.

From the Sun.  
Miss Agnes Todd has sold her millinery store and has accepted a position in Hahbitt Bros' dry goods department.

M. J. Riordan returned from a trip to Mexico. He visited nearly all the important points in that republic and had a pleasant and interesting trip.

Paul W. Hart, son of Mrs. R. F. Doney, died after an illness of nearly one year. Deceased was about 15 years of age. He leaves a mother, seven brothers and three sisters to mourn his loss. The funeral occurred from the residence of the family in old town.

A log cutter found the skeleton of a man on the west side of Marshall's mesa, a mile and a half from Greenlaw's mill. Word was sent to the coroner of the find, and Coroner J. C. Milligan and Sheriff Johnson summoned a coroner's jury to investigate the case, but nothing definite was ascertained, as nothing but the skeleton and a portion of a quilt remained. The verdict returned by the jury was that the body was unknown and the cause of death was unknown.

## WILLIAMS.

From the News.  
Work on the Sharpneck water power concentrating and milling plant on Kibblesh creek is progressing. It is estimated that next week they will be running.

The Arizona Central bank has installed a case of safety deposit boxes for use of customers and others who desire a fire and burglar proof place to leave valuables.

Mrs. Sarah B. Warren left for Lompoc, Cal., where she will visit for the next two or three months with her sister, Mrs. C. B. Cameron.

Ed Green, after a vacation of two weeks in the city visiting his mother and brothers, left for Needles to resume his duties.

Mrs. C. A. Greenlaw and daughter, of Flagstaff, accompanied by Miss Mabel Ingalls, for some time a resident of Williams, left for Los Angeles, where they will remain for several weeks.

Sam Withers returned to the city from a short business trip to Kingman. While there he made arrangements to put several men at work on his mining property in that vicinity, which is looking exceedingly well.

## WINSLOW.

From the Mail.  
After three years as principal of the Winslow public schools, Prof. A. R. Minkley has resigned.

The first rain of the season fell here last Saturday night.

Barney Shiles has returned from Tucson and will remain with us for a while.

Mr. and Mrs. French are rejoicing over the birth of a baby girl which arrived last Saturday.

Harry Anderson is improving his property, adding several rooms to his house.

Our public school closed for the season on last Tuesday.

Mr. and Mrs. Thomas made a trip to Los Angeles and returned this week.

Mrs. G. P. Sampson was a departure for California and the coast in search of a more beneficial climate.

Home Creswell is again able to be about after having undergone a severe stage of pneumonia.

Ernest Farrar, proprietor of the Vienna bakery, is building a storeroom and bottling works on the rear of his property, back of Hahbitt Bros' store.

Downs & Bowling have closed their saloon business. We understand that Mrs. Downs will open a millinery store in the room formerly occupied by the bar.

Mrs. J. H. Fenner and Mr. and Mrs. Thomas Isherwood, of Albuquerque, were in Winslow the latter part of last week visiting with Mr. and Mrs. Ernest Weiss. The party attended the engineer's ball and returned to Albuquerque last Sunday.

Miss Pearl Shuckhart entertained a number of young friends at the residence of E. E. Smith on last Wednesday evening, the occasion being her 16th birthday. Games and refreshments were the order of the gathering and a happy time was had. Miss Shuckhart will soon leave Winslow going to her home in New Mexico for the summer.

KINGMAN.

From the Miner.

L. H. Johnson had the misfortune to accidentally fall into the cellarway in the rear of the Luthy block and injure his leg so severely that he will be laid up for some time. He also was otherwise considerably bruised up.

Hon. Foster S. Dennis has patented a device for the reinforcement of the

backs of novels, magazines and other lightly bound books, which reinforcement can carry a small advertisement to become popular with the big publishing houses and the inventor ought to receive big profits for its use.

Last Friday evening Kingman lodge of Elks surprised John P. Phelan by calling him before the exalted ruler and presenting him with the very handsome of Elks charms. Mr. Phelan was expecting to be fined for something that he had or had not done and the presentation of the charm came as a complete surprise. The presentation was made by the exalted ruler in a neat little speech in which the good work of the recipient in the order was extolled. Mr. Phelan feelingly thanked the members for their gift.

Some weeks ago we saw the question asked in the Needles Eye, "Who is Uncle Josh?" Later we saw the same thing in the Arrow of Kingman. Last week the Williams News was asking the question. Now, for the benefit of these papers and the fraternity at large we will state that "Uncle Josh" is a fakir of the most pronounced type. His forte is a stereotyped write up of the business houses of a town, which is to appear in the local paper. The fakir has but to insert the name of the house, all the other matter being stereotyped slush of the most amateurish design. Before the matter gets to print your "Uncle Josh" proceeds to bowl you up and is soon "the world forgetting, by the world forgot," with the exception of the few creditors he may have touched up.

## SILVER CITY.

Special Correspondence.  
Silver City, N. M., March 4.—The city council, at their last meeting, appointed John Brent to fill the vacancy of city marshal. Marshal A. B. Laird, the former marshal, resigned a short time ago.

The district court convened in this city yesterday morning and business was immediately gotten down to the ground. Jury was made up the same day and their work was immediately commenced. District Attorney Llewellyn, Judge Parker and the other court officials arrived in town on Sunday's passenger train to open the present term of court.

Jo. E. Sheridan, United States coal mine inspector and wife, left on this evening's train for a trip through the northern part of the territory.

Will Samp, an old Silver City boy, returned from Chicago today to accept a position with E. M. Young.

Central City was the scene of another cutting and shooting affray the other day, when Frank McAlister, a young man who came to this section of the country from England a few months ago, cut an uncle of his, named McAlister, with a knife and then shot him with a six-shooter. The trouble arose over a drunken row. The injured man, it is said, will quite seriously injured, will recover.

Mrs. Abe Abraham and daughter, Miss Esie, left for a several months' pleasure trip to California, Monday evening.

A case which is creating considerable interest in this community, which is to come up before this term of court, is that of John Childers. Childers, it will be remembered, last December, shot and killed Thomas S. Hefflin in a saloon here, and as Mr. Hefflin was one of the most prominent lawyers in the territory, considerable feeling was felt toward Childers. Childers will be represented by some of the best lawyers to be procured in Texas, as his father is a well-to-do rancher in that state.

Although the copper market has not shown any decided movement to the better in the past few weeks, mine operators of that metal in this locality are getting ready to commence active developments on a number of mines in the Burro mountain district. They have confidence that copper will in a few months go back to a good paying figure.

## AFFAIRS AT DULCE.

The Fine New School Building on the Jicarilla Reservation is Completed.

Colonel N. S. Walpole, who is in Santa Fe on court business, reports that the fine new school building at the Jicarilla Apache Indian reservation in Rio Arriba county is completed. It will not be opened, however, until a water supply through the new pipe and ditch line from the Navajo river is secured, which will not be until the ice disappears from the river, toward the end of next month. The new reservoir holds 3,000,000 gallons, and will not only supply the school with water but will also furnish water for the irrigation of several hundred acres of land. The Apaches are making steady progress toward civilization. Their health is good and the death rate among them is low. The school has been built for 150 pupils, but next year a dormitory will probably be built, making room for 225 pupils. There is very deep snow on the western slope of the Continental divide in northern Rio Arriba county, and the Apaches look forward to a prosperous year.

## RIO COLORADO IRRIGATION CO.

Efforts Made to Interest George J. Gould in the Project.

Norman C. Raff, banker at 63 and 65 Wall street, New York, a cousin of the Reynolds brothers, and for ten years cashier of the First National bank at Albuquerque, is taking up with George J. Gould personally the Rio Grande Irrigation company's holdings, these lands lying directly in the way of the new proposed Fort Garland to Santa Fe line of railroad. Questa, Taos county, is the center locality of this rich new empire with Taos an equally important point. It is believed that Mr. Gould can be interested in the project and if he becomes so interested, with in a year, northern Taos county will be one of the busiest sections of New Mexico.

## A Comedy of Errors.

Christmas brought a lady health-seeker in Las Vegas a delightful surprise in the gift of a number of handsome books from a source unknown. After thanking three or four innocent friends for the gift they never sent, she decided to write the publisher for the name of her benefactor. The pub-

lisher very bluntly replied that she didn't have any benefactor, and that she should not have any books as the volumes were intended for another party of the same name and had sadly gone astray. Today the lady will start the books on their return journey from Las Vegas to a city in the south, but she is consoled inasmuch as she had already read every word of each volume.

## WINSLOW.

Special Correspondence.  
Winslow, Arizona, March 5, 1902.—W. J. Burk, who has been sick with pneumonia is up and around, but very weak. It will be a few days before Billie will be able to attend to business.

This is the climate for those suffering from diseases of the lungs. Dry and pure air. This beats Phoenix climate all hollow.

D. E. Hanks declares himself a candidate for town marshal. Mr. Hanks makes a good marshal.

Uncle Josh Sprucey play at the opera house Tuesday night was good. The citizens were well entertained.

Miss Esie J. Parr, who is attending the high school in Albuquerque, is expected home on No. 1 Saturday morning, to visit her sick sister, Miss Isabel.

The Independent Order of Foresters held an interesting meeting at Booth hall Monday night, and after adding twelve new members to the order, they elected officers for the coming year, as follows: C. D. H. Ranger, F. M. French; C. Ranger, G. A. Wolf; C. Ranger, W. A. Parr; Orator, A. K. Mickey; V. C. Ranger, Frank Jones; Phisitan, G. P. Sampson; Woodwards, Treasurer, J. I. Krentz; Secretary, H. H. Herr; T. H. Fox, A. A. Kaffon, Needles; F. A. Zuck and Frank Booth, Trustees; W. A. Parr and Bert Reberg. Meeting went off pleasantly.

D. S. R. W. R. Ober, was present and installed the officers and gave an address on the workings of the order and their growth.

Albert Newman and Miss Evangeline Green were united in marriage at the parsonage of the First Methodist Episcopal church, by the Rev. E. G. Decker. Congratulations to the newly wedded couple.

The Rev. S. A. Thompson will preach in First Methodist Episcopal church of this place next Sunday morning and evening. Mr. Thompson is a good man and the people will do well to hear him.

Mrs. Walters is very seriously ill, at her home on Williamson avenue. She is under the care of Dr. Sampson, who has done everything for her that a physician can, but now has no hopes of her recovery.

Tom Collins is down with pneumonia and is doing well under the care of Dr. Sampson.

Mrs. H. H. Herr is getting well from her long spell of sickness. It is hoped she will be out and around soon.

Mrs. H. A. Simms will open her millinery stock of goods at her millinery parlors in the Booth block, on Thursday, Friday and Saturday, where all the ladies are invited to call and inspect her stock of latest styles and patterns.

Ben Downs is reported to have an attack of grippe, but is getting better. He will be around in a few days.

The estimable wife of Frank Hicks was suddenly taken ill this week with pneumonia. It is reported that she is very serious. She being an elderly lady may go hard with her, but we hope that she will be better at next report.

J. X. Woods, the sheep man, is building himself a new barn upon the lot corner Kinley avenue and Oak street. W. A. Parr is the contractor.

Kennedy & Todd are doing a good business in their new stand in the Malch building. They have now one of the finest resorts in town.

Mrs. Smith, the wife of Mr. Smith, the Santa Fe dispatcher at this point, made their home happy by the arrival of a fine baby girl. All concerned are doing well. Mr. Smith was over with a big box of cigars at the dispatcher's office setting 'em up. We like to see our neighbors as well pleased as Mr. Smith was this morning.

The home of our popular engineer, Thomas Blackwood, on the corner of Winslow avenue and First street, was made happy the morning of February 3 by the arrival of a bouncing baby girl.

Miss Isabella Parr is one on the list of sick who is getting well. She is now able to sit up and make of courtment and will be out in a few days. She is under the care of Dr. Tillet.

E. A. Sawyer is in from his sheep ranch and reports sheep doing well, but would like to see rain or snow before the month passes.

Synopsis of annual statement for year ending December 31st, 1901. Springfield, Fire & Marine Insurance Co., of Springfield, Mass.  
Total assets ..... \$ 5,159,623.47  
Total liabilities ..... 3,249,489.06  
Net Surplus ..... 1,819,134.41

## DISTRICT COURT.

Several Interesting Suits Filed with Clerk Today.

The following suits were filed in the district clerk's office yesterday:

Thomas N. Wilkerson vs. Leonard Skinner, wherein the plaintiff sues for \$190.71 and costs. The plaintiff alleges that in 1895 the court granted a decision in favor of John W. Schofield, receiver for Albuquerque National bank, for judgment of \$98.55, no part of which has ever been paid, and he now asks for judgment with costs and interest, which amounts to \$190.71.

The second suit is similar to the first one, with the exception that W. P. Cunningham is the defendant and the amount, with interest and costs, is \$1,859.

The third suit is also similar to the first one, with the exception that the defendants are Leonard Skinner and Neil B. Field, and that the amount, with interest and costs, is \$360.92.

In the suit for divorce, Lupe Nieto de Lucero vs. Severiano Lucero, the plaintiff alleges in petition that the defendant is guilty of abuse and cruelty toward the plaintiff and asks that the court grant her divorce and care and custody of their child, 2 years old.

A Newspaper Incorporation.

The White Oaks Eagle, formerly published by S. M. Wharton, White Oaks, is now published by Wharton, May & Co. Mr. Wharton will remain editor, while Silas May will be business manager.

# IN JAIL ANYHOW.

## George Musgrove Behind the Bars.

## Career of the Noted Bandit and Outlaw.

## Arrest of the Rest of the Gang Expected Soon.

## LOCAL OFFICERS AMUSED.

El Paso, Texas, March 6.—George Musgrove, said to be the leader of a band of southwestern desperadoes and a brother of the noted "Black Jack," who was hanged at Clayton, N. M., a year ago, has been captured near Alamogordo, N. M., by Postoffice Inspector C. L. Doran, aided by the sheriff's men. Musgrove is wanted in New Mexico for murder and postoffice and train robbery. Among the other depredations committed was the robbery of the postoffice at Fort Sumner, where a half a dozen men were held up and a 12-year-old boy was killed. The arrest of Musgrove was followed by the capture, near Chilton, Ariz., of Wat Neill, J. Cook and Joe Roberts, supposed to be members of the same gang. They were rounded up by the Arizona rangers on the Blue river.

The El Paso News says on the subject: George Musgrove, one of the most noted outlaw leaders of the southwest, has just been captured at Alamogordo. He was taken into custody last Monday by Postoffice Inspector C. L. Doran of Denver, who had been on the trail of the bandit chief for many weeks. News of the capture reached the city today.

THE OUTLAW'S CAREER.  
George Musgrove, or Massagere, is charged with murder and robbery, being one of the eight men who held up the postoffice and store at Fort Sumner, N. M., about four weeks ago.

The bandit gang, of which Massagere was leader, also committed many crimes in eastern New Mexico, beginning with the sensational hold-up of ten citizens and the robbery of the postoffice at Revuelto, where they made a big haul, followed by holding up a saloon at Tucuman and the postoffice robbery and murder at Fort Sumner.

The outlaws were mounted and each carried a Winchester and brace of pistols. They stole horses and cattle, held up people on the highway and spread terror throughout that region for several weeks.

## ROBBERY AND KILLING AT FORT SUMNER.

In the Fort Sumner robbery, the bandits lined up—like Murrel, Jesse James and the Daltons—the fifteen or more customers in the Pecos mercantile store, where the postoffice is located. One of the men, failing to respond with alacrity to the demand for all hands to go up, was savagely clubbed over the head with a carbine until he fell to the floor, bleeding and insensible. Then the gang raided the store and postoffice, cleaning up \$500 in cash, large quantities of provisions for their rendezvous and over 1,000 rounds of ammunition.

## TWELVE-YEAR-OLD BOY KILLED.

A 12-year-old boy, named Felipe Beaubien, an assistant in the postoffice, was seized with abject fright when the outlaws entered the store, fled precipitately and was shot dead, the bullet coursing through his brain.

The news comes unquestionably and authoritatively to El Paso that Inspector Doran has secured a complete confession from Massagere, in the presence of Sheriff Hunter and deputy, of Otero county, and Town Marshal McFarland, of Tucuman.

## WILL NOT GIVE NAMES OF BAND.

The bandit refused to give the names of any members of his gang. He has been positively identified by three of the men who were in the postoffice when it was held up as the man who shot and killed the Beaubien boy.

His confession is said to be a thrilling narrative of the doings of the gang and one of the most sensational chapters of crime and outlawry ever recorded in the southwest. Inspector Doran refuses to divulge any details of this confession and has enjoined the other officers to secrecy.

Massagere is from Jack county, Tex., and went under the name of George Reilly.

## THE OLD STORY OF ADAM.

As women have, since the days of Adam, been the cause of man's undoing—as well as the inspiration of his best and greatest deeds—so was the capture of Massagere brought about by the unintentional influence, on her part, of a certain pretty and dashing girl of Oklahoma. In every outlaw band—mediaeval and modern—a woman has figured conspicuously; and it was in keeping with this precedent that Massagere fell in love with this maiden from Oklahoma. It was through their correspondence and by means of information furnished by some Indians at the Mesquero agency that Doran ran down the bandit who, being charged with murder, is held without bond.

## INTENDING MARRYING IN APRIL.

George Mas...ee had arranged with his sweetheart that they be married in April, and had he not been captured before the scheduled time for the wedding, doubtless, he would have taken the maid with him to the wild mountain fastnesses to become the princess of their outlaw camp.

## WENT INTO HIDING.

Massagere, or Musgrove, as he is known in the annals of outlawry, terrorized the territory for months, then several months ago went into hiding or left the country after the officers of that region had made it too hot to hold him. The hanging of his partner, Tom Ketchum, at Clayton, last year, may have had something to do

with his decision to quit his strenuous life and usual haunts.

It is the opinion of many in New Mexico that Massagere spent this interlude of quietude that prevailed there in Oklahoma and Indian Territory, for no sooner had he left New Mexico than outlaws began to crop out in the Indian and Oklahoma territories and Massagere may have been concerned in the raids. Moreover, it is probable that he met his Oklahoma sweetheart while away.

## RETURNS TO NEW MEXICO.

At any rate he and the living members of his band disappeared and were heard of no more until recently, when they crossed the southeastern section of New Mexico, headed toward the wild Capitan mountains, and left a bloody trail behind them.

After the Fort Sumner robbery and killing, at the Black ranch, near Capitan, the bandits held up the employees and exchanged their own jaded horses for fresh mounts, selecting the best to be found in the corral. They then made off toward the mountains, but passed long enough to loot several stores and terrorize the proprietors.

The appearance of the band of outlaws created great alarm throughout the sparsely settled section of that part of the territory and much uneasiness existed among ranchmen and storekeepers in the outlying districts, but the officers were determined to hunt down the bandits and again chase them out of the country.

Detective Ben Williams, of the Santa Fe railway, who was in El Paso recently, said there was little room to doubt that the outlaws were under the leadership of Musgrove, one of the most notorious and bloody bandits now extant in the southwest. He says that Wells Fargo as well as the civil authorities offered a large reward aggregating several thousand dollars for the capture of Musgrove, dead or alive, for the numerous crimes already committed. The band was variously estimated to number from eight to fifteen men.

## MARSHAL FORAKER GOES.

United States Marshal Foraker, of New Mexico, went to Alamogordo last night and will probably take Musgrove to the penitentiary at Santa Fe for safe keeping, on a charge of robbing a postoffice, going via Santa Rosa. Probably all members of Musgrove's gang will be picked up at Santa Rosa.

## LOCAL OFFICERS SMILE.

Officers at Marshal Foraker's office are highly amused over the Associated Press story. Marshal Foraker is now down where the gang has been operating and it is expected that all will be under arrest soon.

"It is true," said Deputy Marshal McKeehan, "that Musgrove is under arrest, but he was arrested by Sheriff Hunter, of Alamogordo, and not by Mr. Doran. Mr. Doran has no right or authority to arrest him. Sheriff Hunter made the arrest and Deputy Eornoff worked up the case. We received the telegram from Sheriff Hunter announcing the arrest on Saturday. That afternoon Mr. Doran came in the office and we told him of it. Sunday night he went down there and the next we knew was when we read in last night's Citizen that Doran did it. Mr. Foraker went on Monday. The men we want now are not in Arizona, but are in New Mexico. Some one is doing a good deal of guessing about this; and Mr. McKeehan laughed loud and long."

## One of the Gates Excursions.

One of the big Gates tourists trains, consisting of four sleeping cars, an observation car, dining car and baggage car, stepped here for an hour last night. Sixty-three people were on board, who have been on the road for a month, the greater part of which time has been spent in Mexico. City Agent Morrison, of El Paso, came this far with the enthusiastic party. Here they were met by W. H. Matson, of Los Angeles, traveling passenger agent, who will show them the Grand Canyon and then take two cars on to Los Angeles. The others will return east. Two other sections are due in the City of Mexico today and will pass through here on their return about April 1.

## Birthday Anniversary.

The twenty-eighth anniversary of the life of Mrs. J. F. Chillis, who lives at 908 South Third street, was the occasion of a delightful surprise party. The affair was very cleverly arranged by several of her nearest neighbors, who came in on the "victim" with well filled baskets. Mrs. Chillis was surprised so completely that it required several hours to realize what had occurred. Mr. Chillis says that he was surprised too, at it is intimated that he knew all about it. Those guilty of participating in the pleasant affair were Mesdames Rolles, Gehring, Alens, Wilson, Sheets and Chillis.

## Spring Races.

At the meeting of the Albuquerque Gentlemen's Driving association held over Zeigler's Cafe on Monday night, the following officers were elected for the ensuing year:

President—Dr. J. E. Pearce.  
Vice President—C. E. Newcomer.  
Secretary—Dr. J. R. Haynes.  
Treasurer—M. W. Flournoy.

The association will give its first spring race meet on Sunday, March 23. Four light harness races will constitute the program of the afternoon. The public is invited. No admission is to be charged.

## A Pleasant Party.

Mrs. A. Gannon, of Pender, Neb., was the guest of honor at a pleasant neighborhood party given yesterday afternoon at the home of her sister, Mrs. S. H. Roth, on South Arno street. The parlor was tastefully decorated with pot plants and cut flowers. The dining room, where delightful refreshments were served was a profusion of carnations, both red and white. Those present were Mesdames Thompson, Cole, H. S. Crocker, A. Harsch, F. E. Robinson, A. Fraser, E. Fournelle, C. M. Christensen and A. W. Hayden and Miss Bertha Crocker.

Dr. John Dienhart, who came here last Monday from Chicago, died at his rooms on the Highlands last evening about 8 o'clock of heart disease. The remains were taken to Borders' undertaking parlors, where they are being prepared for shipment. The deceased is about 40 years of age. A business card, found on his person, shows him to be deputy coroner of the city of Chicago. Mr. Borders received a telegram from Mrs. Dienhart, ordering the remains shipped to her at Chicago.

They will probably go out tomorrow morning.

## SILVER CITY.

## Special Correspondence.

Silver City, N. M., March 6.—At the last meeting of the city council C. F. Grayson presented a proposition to build a city hall for the city, on the corner of Main and Broadway streets. He stated that he would build the building and rent it to the city for a very nominal sum with the option of it being purchased at the cost of erecting it. The council has the matter under advisement and the proposition which is a very good one for the city, will undoubtedly be accepted. If Silver City had a few more men like Mr. Grayson in its midst, public institutions of this kind for the benefit of the town, would be more numerous and the town would be considerably better off.

Orders have been received at the office of the Silver City Reduction works that that institution will close on the first of April. This action has been taken by the officers of the company on account of the smelter being unable to secure certain kinds of sulphur ore, which are necessary to run the works. Since the recent slump in the price of copper the shipments of copper ore to the smelter have fallen off considerably, which greatly shortened the amount of ore shipments. It is, however, stated that the smelter will start up again in a short time or as soon as the copper market gets in shape again and the price gets to a figure that will insure the mine operators in this district of working their copper properties. The company will keep an ore buyer and sampler in this city and shipments will be made to the El Paso works for the time being, at a very little more cost to the shippers.

There are some well founded rumors floating around town that a number of Louisville capitalists, who are largely interested in mining properties in the Burro mountain district, will in a short time start to work building a large capacity mill in that district. From the present indications of the vast bod-los of ore in the mines opened up in those mountains, there is no question that such an enterprise would not return a handsome profit to the owners as they would be enabled to secure all the ore that they could handle.

General MacArthur, commander of the department of Colorado, made an official visit of inspection to the United States military sanitarium at Fort Ravid, a short distance from this city, last week. The general reported that the conditions and system adopted by Major Appel at the hospital were the most complete he had ever seen. Mayor Fleming endeavored to have the distinguished general to stop over in Silver City for a short stay, but the General was unable to do so as business of importance called him to Denver immediately.

Mayor J. W. Fleming states that he is in communication with some Colorado mining capitalists who are thinking very favorably of erecting a two hundred ton capacity mill in this city, for the treatment of ores from numerous surrounding mining camps. In view of the closing down of the smelter in this city this news is very gratifying to Silver City residents and the mine operators in Grant county.

## THE M'KINLEY FUND.

The Sum Total of Contributions Almost Reaches \$1,000.

Major R. J. Pelen, treasurer of the New Mexico Auxiliary committee of the McKinley Memorial association, yesterday made the following report of receipts up to March 5:

	\$662.02
Santa Fe county, additional	16.40
Santa Fe Co. schools, additional	7.55
Valencia county, additional	1.00
San Juan county	22.35
Rio Arriba county	51.32
Rio Arriba county schools	1.00
Manuelito	2.30
Dorsey	1.00
Carlsbad	12.30
Edo county	11.66
Las Cruces	29.00
White Oaks	11.00
Sierra county	14.65
San Miguel county	108.70
Socorro county	7.59

Total to March 5.....\$662.75

## SILVER CITY.

From the Independent.

Mrs. Jas. S. Fielder and little son, Forrest, came up from Deming last week

## NORMAL SCHOOL OF NEW MEXICO, LOCATED AT SILVER CITY.

On our trip to Silver City recently we made a very pleasant visit to the Normal school. After breakfast we climbed the Normal hill and found the president, Prof. C. M. Light, in his office and were pleasantly entertained by him, shown about the building and behind the various classes at that work. The time for the general exercises for the school having arrived we were invited into the assembly hall where we listened to a Washington birthday exercise of very unique character. It seemed that the freshmen class had planned a surprise for the faculty and the rest of the students. Rooms were selected to impersonate each member of the faculty. Those assembled early and when the faculty appeared on the scene they found their chairs already occupied. Miss Minerva Taft occupied the president's chair and admirably represented Prof. Light, especially in her lecture and announcement to the student body. Arnold Rosenfeld as Prof. Thomas, fully equaled that worthy gentleman in looks. Miss Carrie Carst acted as pianist and Miss Alicia Gillett acted as musical director instead of Miss Bailey. Miss Nina Turner allowed Miss Ellis to see herself as others see her, while Mr. Irvin slowly and sedately called the

games with other girls during the season. From the games that were held in Silver City \$50 was cleared. \$50 of this sum was expended in fitting the room above the office as a parlor and a dressing room for the girls. On February 10 the football team gave an entertainment musical and literary, at which they cleared \$50. This money will be used in the purchase of football uniforms.

**MANUAL TRAINING DEPARTMENT.**  
The manual training department of the school is quite thoroughly equipped and is doing good work. It was from it that the Normal training exercises, which attracted so much attention during the Territorial fair last October, was taken. The work is made obligatory for the sophomore and the freshmen classes. Its special character is that of tool work. The course is two years and consists in producing twenty-five models, which involve the use of a full set of tools and the production of every phase of joining. The making of all articles have these two motives which give the highest interest to effort. Both boys and girls take the same course.

**LITERARY SOCIETIES.**  
The school has two literary societies,

the capital and will attend the banquet tonight.

H. A. Buckley, of Albuquerque, was an arrival in Santa Fe on the noon train. Governor M. A. Otero, Assistant General W. H. Whitman and Colonel Venecio Jaramillo returned this noon from a visit to Albuquerque, where they attended the reception at the Commercial club to General Arthur MacArthur. —New Mexican, Feb. 28.

### New Methodist Church.

The plans for the new Methodist Episcopal church to be built by St. John's Methodist Episcopal congregation on Don Gaspar avenue, Santa Fe, are on exhibition in the office of H. S. Lutz, in that city. The building will be a very beautiful one built of brick with a mansard roof. The structure of the bell tower will be fifty-eight feet above the ground. The front of the church will be sixty-eight feet. It will have a basement and large Gothic windows and portal to which a wide stone stairway will lead.

### Much Ado About Nothing.

Pedro Lara has a mining claim at the head of Los Conchos, says the Las Vegas Optic. There is nothing very strange about that, for many others have claims there, too, but thereby hangs a tale. It has come about that Manuel Garcia also has a claim near the same place. The mine, came together one day lately and in speaking about their claims each thought the other was claiming his mine. One thing

### RELAY STATION.

#### Important Mid-Continent Quadruplex Station at La Junta.

#### THE TELEGRAPHIC DEPARTMENT.

Instead of having two relay stations for its Chicago-Los Angeles telegraph system as at present, the Santa Fe will take away the stations now located at Topeka and Las Vegas, and establish an important mid-continent quadruplex relay station at La Junta, says the Topeka State Journal. Quadruplex messages will then be sent from Chicago to the Pacific coast with only one relay.

Another relay station will be selected to handle the Gulf line telegraph business.

It is probable that an assistant superintendent of telegraph will be located at La Junta and another on the Gulf line. There is even a rumor that the office of the newly appointed superintendent of telegraph, C. H. Gaunt, will be removed from Topeka to La Junta.

This is part of the important plans for the installation of quadruplex telegraph on the whole Santa Fe system from Chicago to the Pacific and from Kansas City to the Gulf of Mexico. It is another big gain for La Junta.

NORMAL SCHOOL OF NEW MEXICO, LOCATED AT SILVER CITY.

roll and gave prof. Owen's favorite announcement. "I desire to meet the members of the first basketball team at 1:15 today."

The freshmen then rendered the following program:  
Our Country in War . . . Irvin Moore  
Our Country in Peace . . . George Utter  
Pole drill . . . Freshmen boys  
Our Country, It's Resources.

Annie Boone  
Our Country, It's People . . . Nina Turner  
Personal description of George Washington . . . Arnold Rosenfeld  
The whole class of twenty-nine now sang "The Star Spangled Banner" with gesture.

Eddie Hobart then presented the class. In enumerating their virtues he declared them to be the "largest, the whitest, the prettiest class in the history of the school."

This was followed by a presentation speech to Prof. Light by Miss Lillian Sheridan, as she offered him the constitution and by-laws of the class.

Miss Taft then adjourned the school for the day.

The program was well rendered and the interest was intense throughout. The freshmen will soon lead and long and too strong for the feeble efforts of the seniors.

We noticed many excellent features and facts of the Normal and give our space to a few of them.

#### THE NORMAL TRAINING SCHOOL.

This is in a separate building, which was erected last year. The rooms are beautifully finished and furnished. A pleasant change from the staid whitewashed hallways found in schoolrooms is seen in the tinted walls and treated steel ceilings. The department consists of five classes, the kindergarten, connecting class one, two and three year primary grades. Each year a new grade is added as the children are promoted to advanced grades so that in a short time the well equipped manual training department, which now occupies one of the rooms, will be obliged to seek new quarters. It is here that the members of the training class observe model lessons and study material. The latter part of the knowledge gained in observation by actually listening under the direction of the principal and lastly the department as a laboratory for the expression of the lines. Special attention is given to the correlation of the hand work to the more formal studies. Many interesting models are made by the pupils, proving the value of educational hand work.

#### ATHLETICS

Is another prominent feature of the Normal. All our readers remember the Normal basketball team which played the University of Arizona the holidays. The association of other schools. All organizations of the school, such as base ball, basketball and tennis clubs, are subject to the general rules of the association. Two tennis courts and basketball courts are located near the school. For match games of ball and for field days they have the use of the city athletic park grounds, which is fenced and has a good grand stand. From this it may be rightfully inferred that the management of the school encourages outdoor sports and games.

The basketball girls played six

times with other girls during the season. From the games that were held in Silver City \$50 was cleared. \$50 of this sum was expended in fitting the room above the office as a parlor and a dressing room for the girls. On February 10 the football team gave an entertainment musical and literary, at which they cleared \$50. This money will be used in the purchase of football uniforms.

#### NUMBER OF PUPILS.

The number of pupils enrolled this year, as shown by the secretary's report to the governor, is 156, and the average attendance is considerably larger than any previous year. Five counties of the territory are represented and more than one-half of the pupils are from other localities than Silver City. The school has been running eight years and has graduated thirty-eight persons. The senior class of the present year numbers thirteen, eleven girls and two boys, the girls graduating from the professional and the boys from the academic course. The names of the graduates are as follows: Mary Eddles, Edna Page, Kate Crawford, Mary Gill, Mervin Williams, Pearl Parks, Marie Tustin, Carrie Whitcomb, Edna McGregor, Edna Schütz, Dean Alexander and Eugene Cosgrove.

The corps of instructors of the Normal is exceptionally strong. No favoritism has been shown in the selection of any of the members of the faculty; each was chosen solely upon his merits; each is not a specialist in his particular line but has had successful experience in all classes of school work, both in teaching and superintending schools. All are graduates of normal schools and five have been trained in universities. With such teachers as these the school is prepared to meet the particular wants and the needs of all who come fully under its influence. This is the important consideration in every school. Magnificent buildings, costly apparatus and rich endowment are important elements in running a school, but these are nothing when compared with good teachers. It is a common thing to witness poor teaching in our higher institutions, because the professors are often more valuable for their service to science than for teaching.

Upon the whole the Normal is a very creditable institution to the territory and we are certain it deserves the strongest support and the most liberal patronage of the people.

#### Of Local Interest.

Judge Daniel H. McMillan returned this noon from Albuquerque.

Hon. W. B. Childers of Albuquerque, United States attorney for New Mexico, is in the city and will attend the banquet this evening.

J. E. Saint, of Albuquerque, secretary of the Santa Fe Central railway, arrived this noon to be present at the banquet this evening.

Judge John R. McPle returned this noon from Albuquerque, where he attended the banquet last evening given to General Arthur MacArthur.

Alfred Grunsfeld, a leading merchant of Albuquerque, and treasurer of the Bureau of Immigration, is a visitor in

led to another, some pretty hard things were said, and some pretty forcible arguments were used. Having a natural tendency for the law, any law, the men appealed to the strong arm made out their papers and summoned their witnesses. When the attorneys and witnesses examined the papers the startling discovery was made that the descriptions were not the same at all and the men had located their claims far away from each other.

#### OFFICIAL MATTERS.

##### PAPERS HELD UP.

Six companies have incorporation papers pending for filing in the office of the territorial secretary. The filings are held up owing to the fact that the incorporators have not yet met all the legal requirements necessary for filing.

##### FUNDS FROM LAND LEASES.

Land Commissioner A. A. Keen turned over to Territorial Treasurer J. H. Vaughn the handsome sum of \$312,256 received lately from leases of school lands and to be applied to the common school income fund, and \$2,377.09 to be applied to the credit of the permanent fund of the territorial insane asylum at Las Vegas.

##### WILL EXCHANGE PLACES.

Report has it that Forest Supervisor R. C. McClure of the Pecos forest reserve, and George Langenberg, supervisor of the Gila river forest reserve, will exchange places and that Mr. McClure will move to Silver City with his family, while Mr. Langenberg, who is unmarried, will go to Santa Fe. Forest Superintendent L. E. Hanna has not yet received from Washington the official confirmation of the proposed change.

##### St. Joseph Hospital Notes.

One of the larger private rooms in St. Joseph's sanitarium will be furnished by Mrs. Solomon Luna, of Los Lunas, in memory of her sister. Of the fourteen private rooms on the first floor, seven are now provided for. On the floor of each of these memorial rooms will be a plate on which will be the names of the one in whose memory the room was furnished and the name of the donor.

The furnishing of the little chapel will be entirely by gifts. Twelve pews are to be placed in the chapel and eight of these have been provided for. It is hoped the sanitarium will be opened by the middle of April.

##### The Wreck of the Limited.

The wreck of the California limited at Astor, Arizona, on Friday night, made all trains in here unusually late. No 2 passenger, which was due at 7:50 in the morning did not get here until 10 on Saturday night and No. 8 came in twenty-five minutes later. The wreck was worse than at first reported. The engine turned on complete overboard and lay on the side, and every car, except the observation car, left the track. No one was seriously hurt.

##### A DASTARDLY CRIME.

Sheriff Alexander Read in Santa Fe for Requisition Papers for Two Men. Sheriff Alexander Read, of Rio Arriba county, is in Santa Fe for requisition papers for Charles Grison and Claude Hume in jail at Pagosa Springs, Colo. The alleged crime of the two men is of such a filthy nature as to make a detailed description impossi-

ble. Suffice it to say that they are accused of criminal assault upon Mrs. Adelia Mace, who is to become a mother in about a month. The three were the sole occupants of the caboose of a lumber train which carried passengers from Lumberton, Rio Arriba county, to Edith, Colo., where the two men are employed in a lumber camp. The alleged crime was committed near the Colorado line, but in this territory. The men were arrested at Pagosa Springs.

#### LETTER LIST.

Following is the list of letters remaining un-called for in the postoffice at Albuquerque, New Mexico, for the week ending March 1, 1902:

##### MEN'S LIST.

Ash, Jas. L.	Jiron, Emeterio
Armijo, E.	Kemp, E. L.
Anstett, Gen.	Lento, Miguel
Argon, Donatiano	Lerma, Ascencion
Artwell, F. C. (2)	Loomis, W. H.
Allen, Jesse	Leslie, W. W.
Apodaca, Patricio	Murray, Wm
Barnes, Harry	Mahan, E. A.
Britz, J.	Martinez, Jose R.
Brown, R. H.	McKinney, Jno
Buoy, J. P.	Maguire, Ira
Burn, Bert H.	McKean, George
Butlock, Baker & Co	Moore, Harvey J.
Banning, E.	Means, C. H.
Broughton, H. F.	Mascoro, Nieves
Bonn, Homer	Martinez, Martin
Cleveland, Frank	McClung, Robert
Carnell, Johnny	Marsel, Silvestre
Castillo, Antonio	Miller, K. L.
Chaves, Elias	McMillan, Luther
Chaves, Miguel	Garfchaves, Jose Nua-
Colman, Mons. I.	Noan, P. E.
Crandall, Supt. J. C.	Quourke, M. J.
Casados, Ritor	Perea, Manuel
Cowan, Will	Poole, E. A.
Cowley, Will	Patterson, Aaron
Carpenter, J. J.	Perez, Gregorio R.
Calman, Jared R.	Phillips, J. I.
Callaway, T. H.	Peralta, Renerita
Carter, Samuel H.	Pachio, Frederico
Donevan, F. M.	Ransom, Arthur
Davis, Chas.	Romero, Abrian
Daney, W. J.	Reed, Teddy
Engel, Frank	Reid, Herman
Field, Bailey	Romero, Jose N.
Feltre, James	Sedillo, R. L.
Fellbaum, J. W.	Robinson, Nick
Foster, J. R.	Robertson, Taylor
Fowler, Myron J.	Ruffin, Severio
Ford, R. J.	Ruiz, Jose
Frank, Edward	Saracino, Clement
Gomez, Eliseo	to (2)
Goldschtein, John	Stephens, J. Edgar
Gary, A. K.	Sanchez, S.
Gutierrez, Andres	Saunders, L. R.
Gutierrez, R. R.	Smith, Luke
Grovin, Patrick	Salas, Amos
Gutierrez, Teodoro	Stevens, Harry E.
Gutierrez, Plazeros	Salcedra, Nieves
Garcia, Pedro	Stimms, Thomas
Garcia, C. B.	Scott, Walter W.
Gutierrez, Donica	Sanchez, Luis
no	Stewart, K.
Gallegos, Casimiro	Sutherland, Dr. J. R.
Griegio, Feliciano	Stafford, Mill Co
Gutierrez, Teodoro	Schindler, Joseph
Gonzales, Augustin	Torrieta, Manuel
Hall, John A.	Chaves, y
Holton, Dan H.	Thompson, Theo
Hayes, Alvah	Esher, George
Hollis, R. J.	Vanderburg, Bowey
Hunter, Frank	Valdez, Magdaleno
Hendley, Wm. I.	(2)
Harmon, I. D.	Woothery, H. B. (2)
Harris, Manly S.	Ward, James (2)
Howard, C. B.	Wagner, Augustine
Jaramillo, Manuel	Wilson, Theo
Jaramillo, J. J.	White, M. J.
Jaramillo, Manuel	Willis, H. O.
Jaramillo, Miguel	Wightman, Ed

##### LADIES' LIST.

Arias, Adolaida M.	Gladhill, Mrs. J. J.
Bush, Mrs. Mattie	Gurule, Nabora
Butler, Juanita	Hanson, Miss Tori
Burns, Mrs. Lula	Hinman, Madam
Begli, Anita B.	Horan, Mrs. J.
Beil, Miss Morrey	Jones, Mabel
Baca, Mrs. Emilia S.	Johnson, Mrs. Lizzie
de	Kerr, Mabelle
Brown, Mrs. Mary	Loverette, Edna
Brent, Mrs. Mary E.	Morley, Lizzie
Cholister, Dorcas	Miller, Mrs. Mattie
Cole, Mrs. Jas	Martinez, Dorotea
Clifford, Alma	Mitte, Mrs. Anna
Chaves, Mannelita	Morrissey, Anna
Nuanes de	Maddison, Mamie
Clay, Miss Mable (2)	Moya, Mrs. G. R.
Conner, Mrs. Jessie	Palma, Dolores
Clark, Angeline	Romero, Petrita
Callaway, Lettie	Romero, Reneranda
Chaves, Atargracia	Stearns, Mrs. B.
Cordova, Mrs. Vio	Sola, Pablita, Toled
toriana, I.	do de
Cumley, Lydia	Vaca, Rollitos
Duncan, Mrs. Lou	Welsh, Mrs. E.
Delang, Mrs. S. A.	Williams, Lizzie
Fleming, Maggie	Wilson, Mrs. E.
Gallegos, Eloisa	Toledo, Paulita
Garcia, Aniceta	Torres, Leonora

Persons calling for the above named letters will please say "advertised," and give the date of publication.

R. W. HOPKINS, Postmaster.

#### BASE BALL.

##### The Old Town Club Now Ready for Games.

The uniforms for the base ball club, the Old Town Tigers, arrived Saturday morning. They are black with yellow stripes. The club is now prepared to play any club in New Mexico. The officers are: T. Werner, president; J. Romero, treasurer; D. Perea, secretary; S. Gonzalez, manager.

The players are: Ramon Johnson, captain and shortstop; Willie Brown, catcher; Mariano Brown, right field; Pedro Mirabal, third base; Felix de Blasie, center field; Carlos Cervantez, first base; Frank Cervantez, second base; Juan Ruiz, right field; Mariano Lozano, second base; Joe Chaves, pitcher; J. N. Werner and N. de Blasie, mascots.

The eighth annual convention of the Oklahoma Live Stock association met in Wichita, Kan., February 11, and was in session three days. Jerry Simpson made the speech of welcome at the request of the mayor of the city. The whole affair was a great success from start to finish. Nearly 100 new members were enrolled making a membership of 550, and the wealth represented is estimated at \$10,000,000. The sales of live stock, cattle, swine and horses, were very gratifying, and it is believed that Wichita will rival Kansas City, St. Louis and other points as a place for holding large combination sales.

The Las Vegas Optic says: The sons of R. F. Spencer, working on the Montoya property, which was purchased by the Union Extraction company Saturday, have found some native copper which runs a high percentage to the ton. If it turns out as present indications promise it is one of the best

### Use Allen's Foot-Ease.

A powder to be shaken into the shoe. Your feet feel swollen, nervous and damp, and get tired easily. If you have aching feet, try Allen's Foot-Ease. It restores the feet and makes new or tight shoes comfortable. Try it today. Sold by all druggists and shoe dealers. 25 cents. Trial package free. Address, Allen S. Olmstead, 25 Bow, N. Y.

finds that has yet been made in the entire territory.

#### UNIVERSITY NOTES.

The past week has been a very busy one at the University and not only the students were busy but the wind has been very diligent in blowing out the large windows in the buildings.

Monday the girls gave a fudge party in the lunch room and the boys enjoyed their sweet company very much. At the noon hour Miss Hickey chaperoned the young ladies who held a dance in the gymnasium. The young men were not allowed, but in the near future the University girls are planning a dance to be given with the help of the teachers for the boys.

On Wednesday Dr. Bunker gave the first of his series of lectures on Biblical archeology, which was very interesting and instructive, and very much enjoyed by all the students.

Thursday the normals visited the city schools and observed the work of various teachers. They first saw the opening exercises in the eighth grade. Miss Coltraine's room; then they attended the High school first year American Literature class, where a Longfellow program had been prepared by Miss Anderson's students, which was fine and showed the excellent work of the teacher. We are proud to own Miss Anderson as a normal alumna. Miss Stevens' and Miss King's classes in geography were then visited as the methods class at the University have been studying methods in geography and were desirous to see the grade work. After the noon hour at the Central school the normals went to the Fourth ward school, where they visited the fifth and sixth geography classes. Miss Schimier's work is very commendable and the students of the University felt that they had gained much knowledge and an insight to the art of teaching from observing the remarkable tact and skill of the Fourth ward principal.

The ladies of the W. C. T. U. have presented the University with a fine picture of Miss Frances Willard, which the president has hung in the assembly hall. On Monday he spoke of Miss Willard's victorious life and command of her example to the students. Prof. Taint also read many extracts from her biography, also presented by the W. C. T. U. ladies for the University library.

Friday afternoon the students gave a joint program under the direction of the two literary societies, President Kelleher of the Athenaeum Literary society, presided and the program opened with a piano solo by Mr. Van Wagner, followed by two literary selections read by Miss Fox and Miss Tway. Miss Anderson sang a very pretty solo, being followed by Miss Morehead, a very fine elocutionist, who is in the city organizing a class and who very kindly consented to help the students with a few selections. We fully enjoyed Miss Morehead's first appearance among us and trust it will not be the last. A quartette composed of Prof. Hodge, Miss Anderson, Miss Johnson and Mr. Naper rendered a beautiful ode to Washington and the program closed with the reading of the Estrella society "Searcher" by Miss Marwarin, and the Athenaeum "Searchlight" by Mr. Shields. Both papers were sparkling with life, full of jokes and brim full of local puns on the student body. Hurrah for the literary societies!

#### OPERA HOUSE PROPOSITION.

Discussed by Elks Last Saturday Night Committee Appointed.

The Elks met Sat. eve evening and the opera house proposition was thoroughly canvassed and much enthusiasm aroused. It was decided to incorporate the lodge as a building organization and the regular trustees of the lodge, Charles Maudard, J. H. O'Reilly and W. B. Childers, will be trustees of the new incorporation. The committee in charge of this consists of T. N. Wilkerson, H. B. Ferguson and W. B. Childers.

The building committee appointed consists of D. J. Rankin, chairman; J. A. Lee, Frank McKee, W. B. Childers, Ernest Meyers, H. P. Ferguson, C. G. Bowman, G. P. Hill, Sol Luna and William McIntosh.

#### A DUCK STORY.

Chadwick Shot His Decoys All to Pieces.

A good story is told on Charles Chadwick, of Albuquerque, who has recently been hunting ducks on the Rio Grande, says the Socorro Chieftain. One evening Chadwick left half a dozen decoys at a convenient place on the river. The next morning he sallied forth to see how many ducks he had enticed within gun shot, but found after searching some time that he had lost his bearings. Suddenly, however, he espied a fine flock of the web-footed birds floating placidly on the river's bosom. As the distance was too great for a shot, he crawled cautiously and laboriously for two hundred yards through brush and mud to good shooting distance, rose and fired. Not a bird moved. He made haste to let go the second barrel and had the satisfaction of seeing three of four of them turn over on their backs apparently "dead ducks." Great was his astonishment to find on closer inspection that he had shot his own decoys into the semblance of nothing that exists in the heavens above, the earth beneath, or the waters under the earth.

The Bland Herald says: Mr. and Mrs. Frank Bruce and Mrs. Stella Williams left for Albuquerque a few days ago, while at Albuquerque, Miss Stella was accidentally struck in the mouth by a reckless boy and had several teeth broken. She has suffered so much pain in consequence that it became necessary for her to consult a dentist, and the trip to Albuquerque resulted. They go by private conveyance.

One lonely drunk appeared in police court this morning, pleaded guilty, to the charge and was given the usual five days.

# Railroad Topics

D. Patterson has been made master mechanic of the Santa Fe shops at Union.

The Illinois Central Railway company has adopted a telephone system for handling its trains.

Thomas M. Ramsdell, a well known railroadman with headquarters at Topeka, is in the city today.

E. W. Starbuck, traveling freight and passenger agent of the Pecos Lines, was at Roswell from Amarillo.

Some genius has invented a telephone to be used on railway trains, the telephone wires being used as conductors.

Seven of persons Sunday made trips to the stations on the Santa Fe Central railway between Santa Fe and Kennedy.

Fireman E. H. Bennett, who has been in the service of the company in north for a few weeks, has resigned his position.

The district freight and passenger agent of the Santa Fe, George E. Row, was at El Paso on business, has returned to El Paso.

The new foreman of the car department of the shops is George Wilson, who succeeded H. A. Simms, recently transferred to Winslow.

Engine No. 188 was sent down to the Santa Fe branch to relieve engine No. 614, which will be taken to the Las Vegas shops for repairs.

Engines No. 156 and 291 have been ordered from the Rio Grande division to the Gulf, Colorado & Santa Fe for service out of Pecos, J. T.

Jose G. Chavez, the live stock claim adjuster for the Santa Fe on this division, is in the city today, coming in from Los Lunas this morning.

Fireman Julian H. Brown, who has been off duty for the past two months, on account of sickness, is again able to resume his duties in the passenger service.

The round house force at Santa Rosa will consist of twenty-five men, all of whom will live in the town. The round house and rindup have been completed.

Fourteen thousand tons of 70-pound rails, the amount ordered by the Santa Fe Central Railway company, is sufficient to lay a single track 126 miles long.

The base ball boys of the local shops have received their new uniforms and they are happy. The boys are now ready to cross bats with any team in New Mexico.

The Santa Fe Pacific engineer, J. H. Bullion, and wife, have taken possession of their new home, No. 304 West 12th avenue, which they recently purchased from Dr. Easterday.

The Holbrook Argus says: Bert Woods, San Jose. He was on his way to the Albuquerque hospital, having been injured while working with the bridge a few days ago.

The following offices have recently been opened by the Postal Telegraph company in New Mexico on the El Paso-Northern road: Santa Rosa, Corona, Maricao, Paducah, Santa Rosa.

J. A. Jantish, an old time brakeman on this division, resigned from the service of the company and left Las Vegas for Des Moines, Iowa, where he will accept a position in a large brick or factory.

S. E. Houser, superintendent of the round house of the Santa Fe system, has announced that Hon. Will C. O'Connell will be at the Winslow open house, March 7, 1902, on the subject, "The Model Wife."

John S. Heavens, who recently purchased the South First street cottages from the railroad company, has commenced moving them off the ground, which will soon occupy the Clarksville Coal Yards.

Clinton B. Llewellyn has resigned his position as special agent of the Santa Fe Railway company, to accept a position in the surveyor general's office at Santa Fe. At least, so says the Las Cruces Progress.

C. S. Neal, of Parsons, Kan., formerly of Topeka, arrived at Roswell last Saturday to work in the railroad shops there. He is a cooper and smith and formerly worked under Mr. Boushield at Parsons.

Unusually heavy shipments of steel rails are being made over the Santa Fe now for the south and west. This material figures in the enormous expansion which the roads of that part of the country are experiencing.

Now that the steel for the Santa Fe Central has been ordered, construction will be pushed with might and main and by the middle of next September the first train of the Santa Fe Central will pull into Santa Fe from Torrance, Lincoln county.

The San Marcial Bee says: Mont. Wilson, who has been a very capable employee of the railroad company here for several months, ended his stay with the railway as night man and will return to his home in Kansas. Albie Howard has accepted the position.

The Brotherhood of Locomotive Firemen ball, March 17, at San Marcial, is all the talk in social circles. The two headlights to be placed at the approaches to the ball room will reveal a big crowd moving only in that direction, and killed for a good time.

The Chicago, Rock Island & Texas has placed an order with the Rodgers Industrial Car company for fifty standard convertible ballast and flat bottom gondola cars to be thirty-four feet in length and of 30,000 pounds capacity. The cars will be delivered in May.

The monster locomotives have come to stay. According to a current report the work of the new equipped engines which the Santa Fe lately received has given such good satisfaction that it has been decided to order seventy-five more of them at a cost of \$1,500,000.

J. M. Horn was at the capital city from the Santa Fe Central station on the Arroyo Hondo Saturday. He reports that an ample and fine supply of water has been struck at the depth of 124 feet in the well that has been bored near the waterworks at the station.

The Holbrook Argus says: Harry Carthy has been appointed section foreman at Homer, Cal., and says that his section is eight miles long and the grade so heavy that while riding on the handcar the oil can has to be car-

ried in his pocket to keep from spilling.

John Ross, traveling engineer for the Santa Fe, came down from Las Vegas last night to accept the following engines, which have been ordered transferred from this division to the Oklahoma division: Nos. 688, 692, 693, 701. They were found wanting in hill climbing.

A conference of Santa Fe citizens was held Saturday afternoon with the officials of the Santa Fe Railway company and a plot of ground was offered for a union depot. It seems as if Santa Fe would have a fine union depot for its three railroad lines before another year has passed.

Engineer John Beckler, who has been off the Santa Fe branch run for months, has again reported for duty. Engineer Al. Lane, who has been running on the branch during Engineer Beckler's absence, returned to the main line and will run between this city and Las Vegas.

Los Williams News says: Mr. and Mrs. O. C. Strait left for Albuquerque, where Mr. Strait has accepted a position with the railway company. Though they have been residents of Williams but a few months, during that time they have made many friends, who greatly regret their departure.

The San Bernardino Star says: Mrs. H. M. Peterson, Miss Tressie Peterson and Herbert Peterson were in town for a short time yesterday visiting friends. They were on their way to San Francisco, from whence they will go to Albuquerque, where Mrs. Peterson's sons are connected with the clerical department of the Santa Fe.

The Topeka State Journal says that J. W. Robins, trainmaster of the eastern division of the Santa Fe, has been appointed superintendent of the northern division of the Gulf, Colorado & Santa Fe, the Galveston line of the Santa Fe proper. Mr. Robins has many friends in this city who are pleased to hear of his promotion.

J. E. Saint, secretary of the Santa Fe Central Railway company, who was at Santa Fe, returns to the city with plenty of good news. He says the Santa Fe Central will surely be built the coming year, and that the Albuquerque Eastern will follow close in its tracks. He expects the Pennsylvania party here Thursday morning.

It has been announced that the officials of the Denver & Rio Grande road will make a broad gauge track out of their narrow road from Antonio to Santa Fe. This improvement, together with the construction of the Santa Fe Central from that city to a Rock Island connection, will give Santa Fe three competing lines to the east and two to the south.

At Somerville, Tex., where the Santa Fe has a plant for treating flow, it has lately put in a small reservoir in which the water is being given an immersion in crude oil for the purpose, if possible, of securing some idea as to its value as a preservative. Prof. Herman von Schrenck, of the Shaw school of botany at St. Louis, an authority on such matters, is watching the tests with much interest.

The Topeka State Journal says: George Groat, a blacksmith who worked for a long time in Topeka shops previous to eighteen months ago, when he left for the west, came in Thursday evening on No. 4 from San Bernardino, Cal. After quitting here Groat went to Albuquerque, N. M., and thence he went to California, where he has been since. He is a relative of Wayland Smith of the sheds.

The Roswell Register says: Avery Turner, vice president and general manager of the Pecos Valley Lines, came in Wednesday from Amarillo and stopped at the Shelby. Mr. Turner says the El Paso correspondent who quoted him as saying that the extension from Roswell to El Paso was to be built, got it all from his own vivid imagination, as he said nothing of the kind and was not even interviewed on the subject.

The Bland Herald says: A petition, signed by almost every man in Bland, was this week sent to Superintendent Fox of the Santa Fe road, asking that the hotel building at Thornton be left standing. It was the intention of the Santa Fe company to tear away the

## No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indescribable weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife used several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system, with very marked effect by way of improvement. We regard it a great tonic and blood purifier."—J. P. DUFE, Princeton, Mo.

S. S. S. is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

building and move it to Rincon, where the material would be used in the construction of a hotel at that place. What action will now be taken in the matter remains to be seen, but it is hoped that the company will forego its intention and let that building stand, a convenience to the traveling public.

General Francis J. Torrance, Senator W. H. Andrews, Senator Arthur Kennedy, Lieutenant Governor Walter Lyons and son, E. Lyons, H. L. McNamee, of Pittsburg, Hon. W. S. Hopewell, Chief Engineer A. G. Kennedy left Santa Fe today with teams over the proposed line of the Santa Fe Central railway. At Torrance, in Lincoln county, they will take a Rock Island train to El Paso, from where they will come to Albuquerque, arriving here probably on Wednesday or Thursday. From this city the party will go to Santa Fe again to spend several days, before the Pittsburg visitors will leave for their Pennsylvania home.

The project of a fine modern depot at Santa Fe is taking more definite shape, says the New Mexican. It is understood that the Santa Fe company is willing to give the ground for the depot, and that the Santa Fe Central and Denver & Rio Grande may put up the money for the building. In that case, the union depot would be located near where the present Santa Fe railway depot is situated, unless the people of Santa Fe should present the railroad companies with a more suitable piece of land, in which case the Santa Fe Railway company will probably contribute one-third of the amount needed for a union depot building.

According to the new Rock Island time table, passengers from Chicago, Kansas City or St. Louis will save twelve hours in coming to El Paso over the Rock Island compared with time made by any other railroad. The run from Kansas City is made in thirty-three hours and forty minutes. There will also be a saving in time to Los Angeles over any other transcontinental road. Through Pullmans will be run from Chicago to Los Angeles and San Francisco, while the through train for El Paso will be made up at Kansas City. The Rock Island will also run through tourist sleepers from Chicago to Los Angeles and San Francisco.

A. C. Needles, Fred J. Waters, aged 29 years, claiming residence at Corbin, Iowa, and employed as hostler's helper at Needles by the Santa Fe Pacific Railroad company, was run over by a switch engine and instantly killed. Waters stepped in front of the switch engine under cover of the darkness from the engine, landing on a trolley track, and was undoubtedly knocked down and killed without any warning reaching him. The coroner's jury exonerated the railroad company of blame. Waters was single and had only been in the employ of the company six weeks. He was a miner by occupation, and had lately gotten out a patent on a process of washing gravel.

Mrs. Mary B. Burch, as stated in The Citizen some time ago, has entered suit at San Bernardino against the Santa Fe company for \$3,000 damage. The complaint recites that the plaintiff boarded a Santa Fe train at San Bernardino for Anaheim on the 22nd of December of last year. As she alighted the train started and she was thrown violently to the ground. Her neck was wrenched and her liver confused and partially dislocated from its normal position, and two of her ribs were fractured. For these injuries and the mental anguish and pain resulting from them she asks and believes she is entitled to \$3,000 as damages and costs of suit.

The New Mexican says: General Francis J. Torrance and Senator W. H. Andrews, in a two-horse carriage, Senator Arthur Kennedy, Lieutenant Governor Walter Lyons, Hon. W. S. Hopewell, Chief Engineer A. G. Kennedy, of the Santa Fe Central Railway company, in a four-horse team, left yesterday morning at 3 o'clock for a trip over the surveyed line of the Santa Fe Central railway. The party expects to arrive at Torrance on Tuesday or Wednesday to be present when the first shovels will be turned for the grading work. From Torrance, the Rock Island train will be taken for El Paso, from where the party will go to Albuquerque, returning to Santa Fe on Sunday or next Monday.

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m. and closing time at night on January 25, 1901, A. F. Clark, druggist, Glade Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never had a medicine that sold better or gave better satisfaction to my customers." This remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of the grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. For sale by all druggists.

NO GENERAL INCREASE.

The Conference With Officials Ended in Partial Failure.

Here is what the Topeka State Journal has to say about the recent conference between grievance committees and Santa Fe officials at Topeka: All the efforts of the Santa Fe conductors and brakemen to secure a general increase in pay from the officials of the road have ended in failure. The long conference which has been in progress between the grievance committees of the railroad officers, and the officials, concluded at 4 o'clock Thursday afternoon. No increases in pay were granted except those which were allowed by General Manager H. U. Mudge some weeks ago, before the men appealed their case to Third vice President Kendrick.

Only three changes of importance were allowed, and those were all due to local conditions, according to the reports of the conference which are given out by General Manager Mudge. The rate of pay for freight conductors over the Raton mountains between La Junta and Raton is raised from 3 1/2 to 3 3/4 cents per mile, and the brakemen get 2 1/2 cents instead of 2 1/4 as before.

Local freight trains have been put on the New Mexico division, where no local freights have heretofore been run, and the pay for them is made 4 cents per mile for conductors and 3 cents for brakemen.

The pay of the three branch crews has been raised, the conductors from \$39 to \$40 and the brakemen from \$39 to \$40. It is not yet known what the conductors and brakemen will do. After the conference at the Santa Fe offices, adjourned yesterday, the men held a meeting at Secretary Hall, and discussed the work which had been done. No report of this meeting was made public.

There has been some rumor that a strike would result if the demands of the men were refused. This rumor is denied both by the men and the company. Publicly the men express themselves as well satisfied with the result of the conference.

Sick headache absolutely and permanently cured by using Moki Tea. A pleasant, rich drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25c and 50c. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample.

W. J. RITCHIE INJURED.

Victim of Accident at the Shops in San Bernardino.

While in Needles does not know, and who knowing him does not like "Dilly Ritchie," the popular foreman of the holtermakers, says the Eye. When he left Needles some months ago, to take a similar position in San Bernardino, the boys in the local shops tendered him a farewell entertainment and presented him with \$500 worth of diamonds.

Poor Ritchie is now lying in the hospital at Los Angeles in a comatose condition, and his friends there fear he may never recover. His condition and the cause of it is thus explained by the San Bernardino papers.

W. J. Ritchie, foreman of the local shops in a dangerous condition at the Santa Fe's hospital in Los Angeles, the result of a surgical operation performed to relieve an abscess on the brain, caused by a flying bit of steel which entered the ear cavity while Mr. Ritchie was at work in the local shops over a week ago. Several times yesterday reports came to the city that he was dead, so doubtful was his condition. At last news by telephone from Los Angeles last evening he was still living, though very low. The operation removed a portion of the skull three inches in diameter, laying bare the abscessed portion of the brain. Mrs. Ritchie has been at his bedside since his removal to the hospital.

His many friends in Needles have heard with sorrow this shocking news, and all of them sincerely hope that the jolly, public spirited, big hearted little holtermaker may yet pull through and recover his former health and good spirits.

Chronic Diarrhoea.

Mr. C. H. Winfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by all druggists.

ABSORBED BY WELLS, FARGO.

Gets Control of the Mexican National Express Company.

A dispatch from Monterey, Mexico, says that the interests of the Mexican National Express company are to be absorbed by the Wells, Fargo Express company. This will give the latter company an addition of 1,100 miles of track of the Mexican National Railroad company to operate over. It is understood that this absorption is one of the results of the reported transfer of the controlling interest in the Mexican National railroad to the Southern Pacific.

Pneumonia Follows a Cold.

But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

New Route to Yosemite.

The Santa Fe has established a new route to the famous Yosemite Valley, that, in addition to being the quickest, takes passengers directly through a grove of the wonderful big trees of California without divergence or side trip.

The stages connecting with Santa Fe trains at Merced, Cal., go into the valley by way of Merced Falls, the interesting mining town of Coulterville and the Merced grove of big trees. The terminus in the valley is at Sentinel Hotel, near Yosemite Falls. En route El Capitan, Bridal Veil Fall, Cathedral Spires, Sentinel Rock and the Three Brothers are passed. It is reported that arrangements will be made when the season opens for ticketing passengers through to Yosemite.

Lockjaw From Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at all druggists.

A Tour of Mexico.

The first Gates tour for 1902 passed through Chicago on February 6, en route to City of Mexico. The party consisted of about 100 passengers and occupied a special train of sleeping and dining cars. A second party, numbering 125, went west on February 26.

A tour of Mexico, that sunny land of the Aztecs, made so alluring by the genius of Prescott, is one of the pet schemes of a great many people with taste for foreign scenes. The present prosperous condition of the country has greatly increased Mexican travel. The railway report a phenomenal business. The Gates parties

W. J. RITCHIE INJURED.

Victim of Accident at the Shops in San Bernardino.

While in Needles does not know, and who knowing him does not like "Dilly Ritchie," the popular foreman of the holtermakers, says the Eye. When he left Needles some months ago, to take a similar position in San Bernardino, the boys in the local shops tendered him a farewell entertainment and presented him with \$500 worth of diamonds.

Poor Ritchie is now lying in the hospital at Los Angeles in a comatose condition, and his friends there fear he may never recover. His condition and the cause of it is thus explained by the San Bernardino papers.

W. J. Ritchie, foreman of the local shops in a dangerous condition at the Santa Fe's hospital in Los Angeles, the result of a surgical operation performed to relieve an abscess on the brain, caused by a flying bit of steel which entered the ear cavity while Mr. Ritchie was at work in the local shops over a week ago.

Several times yesterday reports came to the city that he was dead, so doubtful was his condition. At last news by telephone from Los Angeles last evening he was still living, though very low. The operation removed a portion of the skull three inches in diameter, laying bare the abscessed portion of the brain. Mrs. Ritchie has been at his bedside since his removal to the hospital.

His many friends in Needles have heard with sorrow this shocking news, and all of them sincerely hope that the jolly, public spirited, big hearted little holtermaker may yet pull through and recover his former health and good spirits.

Chronic Diarrhoea.

Mr. C. H. Winfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by all druggists.

ABSORBED BY WELLS, FARGO.

Gets Control of the Mexican National Express Company.

A dispatch from Monterey, Mexico, says that the interests of the Mexican National Express company are to be absorbed by the Wells, Fargo Express company. This will give the latter company an addition of 1,100 miles of track of the Mexican National Railroad company to operate over. It is understood that this absorption is one of the results of the reported transfer of the controlling interest in the Mexican National railroad to the Southern Pacific.

Pneumonia Follows a Cold.

But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes. Alvarado Pharmacy.

New Route to Yosemite.

The Santa Fe has established a new route to the famous Yosemite Valley, that, in addition to being the quickest, takes passengers directly through a grove of the wonderful big trees of California without divergence or side trip.

The stages connecting with Santa Fe trains at Merced, Cal., go into the valley by way of Merced Falls, the interesting mining town of Coulterville and the Merced grove of big trees. The terminus in the valley is at Sentinel Hotel, near Yosemite Falls. En route El Capitan, Bridal Veil Fall, Cathedral Spires, Sentinel Rock and the Three Brothers are passed. It is reported that arrangements will be made when the season opens for ticketing passengers through to Yosemite.

Lockjaw From Cobwebs.

Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at all druggists.
