Consolidation Discontinuance.

At this time of the White Oaks Eagle the paper will be consolidated with the Captain Progress and the publication continued as Captain under the name of the Captain News. This change is made purely for business reasons. The Eagle Printing Co. has acquired both the papers and business conditions do not warrant the continued publication of both papers in the county, hence the consolidation of both the plants. Captain has been selected because of its advantages as a central location for a county paper.

The proprietors of the Eagle Printing Co. are under obligations to the business men and to the loyal people of White Oaks for favors and kudosness shown the Eagle and for a patronage which has been extended in accordance with conditions governing their prosperity or adversity, as has been experienced in the life of the town.

In quitting White Oaks as the base of our operations, we do not intend to quit laboring for her interests and future welfare, but will continue the same and endeavor to aid her every enterprise, as we shall every other community in Lincoln county. We shall take a special pride in contributing, when in our power to do so, to the town's well being and to the welfare of all her inhabitants.

We feel that we rightfully appreciate the support that has been given us during the half a decade we have published the Eagle in White Oaks, and if we have accomplished anything good for the community we hope, at least that we have been amply compensated by the hearty cooperation, friendly and good will of all the best citizenship of the community. The good will and whatever share of the patriotic spirit that may be in our feeble hearts, we shall strive to show a just appreciation.

All suspended subscribers to the Eagle will have mail forwarded to the Captain News, which paper will be regularly forwarded to the Eagle's subscribers.

The Chapman-Ludlum Oil Well.

E. A. Ludlum learned Tuesday from the east, where he has been for some time looking after the affairs of the company, that White Oak's Ludlum Original No. 1. has been spudded, the bit having hit the sand on the 25th, and the well has been deepened to the 2700 feet. At this time the Ludlums are making a considerable effort to secure oil, and the indications are favorable, it will be one of the most important on Lincoln county ever experienced.

For the sake of the prosperity, unprejudiced and fair in its aims and purposes, and for the benefits to accrue to the people of this section, generally, the Eagle exercises on its every effort. John D. Brochtor, the old reliable well man, will continue to conduct the drilling operations.
