VOLUME 11 ALBUQUERQUE, NEW MEXICO, SATURDAY, MAY 10, 1902. NUMBER 26

## Territorial Topics

### SOCORRO.

From the Chieftain.

District court will convene in this city on the 19th inst.

Frank F. Smith came in from his cattle ranch near Monticello.

Mrs. Alta Morley arrived in the city from the Morley ranch west of Magdalena.

J. B. Squires and Jim Berry are rusticated on the Harsum and McMillan ranch during the busy season.

Mr. and Mrs. Udo S. Hammel, of Magdalena, were among the visitors in the city at the military ball.

Mr. and Mrs. Joseph Price are having a most enjoyable time at French Lick Springs, Ind., and both being much benefited.

Mrs. J. S. Macfarland, of Magdalena, was a west-bound passenger from Albuquerque, where she had been visiting several days.

Mrs. John E. Griffith is attending in a very capable manner to the duties of district clerk in the absence of Mr. Griffith in attending upon court at Lincoln.

W. H. Byerts is encountering some unforeseen difficulties in his drilling for artesian water on his fruit farm near the spring but his determination is unabated.

T. L. Mitchell and family, of Spokane, Wash., are guests at the Windsor hotel. Mr. Mitchell has charge of the transportation of the Timber Peak plant to Mexico.

Attorney W. E. Kelly had the misfortune to have one knee and ankle quite seriously injured by the sudden starting of the bus as he was about to take the train for Albuquerque.

An effort will be made to arrange a game of ball between the School of Mines team and the Santa Fe Champions on commencement day, May 23. If the arrangement is made there will be a game worth seeing.

Hon. E. V. Chavez, of Albuquerque, was in town to act as attorney for the defendant in the case of the Territory vs. Towle. The proceedings consisted simply in taking additional testimony by Miss Ruby Berry, who had been appointed by Judge McMillan for that purpose.

Company H is to have the new parade grounds opposite the Windsor hotel comfortably fitted up for the accommodation of the public, who will always be heartily welcomed at the drills. A flag pole will be raised and seats will be placed for the convenience of visitors.

### DEMING.

From the Herald.

Mrs. R. Scheidecker, mother of Mrs. Nate Heals, is now visiting her daughter in this city and expects to remain for the summer.

Walter Thomas, who suffered a severe hemorrhage some time ago, is now thought to be out of any immediate danger, although he is quite weak and very sick.

Mrs. W. R. Merrill and the younger children left for California, where they will spend the summer. Mrs. Merrill will be missed from the social circles of Deming while she is absent.

Barney Martin and Billy Carey are both suffering from sprained ankles; Mr. Martin slipped and sprained his, while a staging gave way with Billy and hurt him quite severely.

Mrs. T. F. Fendell left for Florence, Colo. The lady has gone to visit a brother and other relatives and will be absent about a month. During her temporary absence the rooming house will be in charge of good parties and all can be accommodated.

Rev. J. M. Ray left for Dallas, Texas, where he will attend the sessions of the national conference of the Methodist Episcopal church south. This conference only occurs once in four years and as it will hold for about three weeks Rev. Ray will be absent from his charge for two Sundays.

A. W. Pollard, one of Deming's bustling attorneys, received the alarming news that his infant daughter, but two weeks of age, was very sick at Portage, Wis. Mr. Pollard left on the first east-bound train and requested the head light to say to the public that during his absence his business will be in charge of Mr. Tempke, an attorney well qualified to attend to all seeking legal advice. A telegram received here the next day announced the death of the little babe.

From the Herald.

Otto Smith and Edward Powell, both erected wind mills at their residences this week.

Miss Georgia Scarborough has closed her school at Lake Valley and returned to her home here.

Mr. and Mrs. James S. Fielder were in the city this week visiting the family of J. N. Upton, Esq. The eminent

lawyer is looking well since he became a republican.

A large and hideous Gila monster, caught in the Mogollon country, is on exhibition at Byron's drug store.

Joanny Doran was slightly injured in the Santa Fe yards Friday, while loading a car, the bridge or gang plank falling down.

The Lyons & Campbell Cattle company have bought the Walker & Speed cattle and will ship them from Deming on the 10th inst. to pastures in Colorado.

The Luna County Teachers' Institute began its session last evening with twelve on roll. The institute will continue for two weeks from 4:15 to 5:30 every evening, and will be conducted by Prof. Stroup and Prof. Duff.

Brigadier General Seamon Field and wife returned Friday from the Confederate reunion at Dallas, Tex., looking as though they had been at a picnic.

Capt. John H. Lester returned last Wednesday ten years younger for having been there. The little maid of honor of the Deming post, Miss Laura Lester, did not return but went on a visit to her uncle in Alabama. Miss Birdie Kerr, sponsor for the post, has some visiting relatives in Oklahoma.

### SAN MARCIAL.

From the Bee.

Contractor Lane received another carload of lumber this week.

Geo. Sanchez, of Carthage, got his jaw broken by a rock hitting him. Dr. C. G. Chulickshank went to the coal camp and made the necessary repairs.

Mrs. Edwin Martin, of Rosedale, spent a few days in town. She escorted Mr. Martin's sister, who was en route to California, thus far on her trip.

Mrs. C. L. Hadley has gone to California, accompanied by an uncle and aunt. They will be absent about two months and no important place of interest will be overlooked.

The aged mother of Wm. H. McNew died on Friday and was interred here the next day. The husband of the deceased is also in poor health, and it is thought that his stay here below will not be of long duration.

Ramon Gonzales, an influential citizen of old town, has a card in the Bee announcing that from now on he will renounce democracy and become one of the great army of republican workers. Hon. Pablo Trujillo was Mr. Gonzales' companion when the latter called on the Bee to tell of his political conversion, and of course both gentlemen were in a happy frame of mind.

Capt. Jack Crawford's article in last week's Bee condemning the too common practice of carrying six shooters met with a favorable reception from the New Mexico press, and every day he is in receipt of letters congratulating him on the stand he has taken on a matter so vital to society and of such vast importance to the advancement of this great commonwealth.

The pistol toter must retire before the broad strokes of civilization.

### TOAS.

From the Crescent.

Over 100 men are now employed at Twining and the canyon puts on a lively appearance.

The Frazer Mountain Copper company is now employing directly about sixty-five men and indirectly quite a number more.

Lumber and other building material is ordered for dwelling and other houses which are soon to be erected in the Manby addition to Toas.

The local sawmill men have more orders for lumber than they can fill. Improvements are certainly the order of the day in Toas county this year.

Alfred Wuensch and Col. Williams, mining experts from Denver, visited the Cieneguilla camp last week; they examined thoroughly the Muller and Berry property.

The work of putting a new roof on the convent of the Sisters of Loreto is progressing. James Du Bor, the contractor, is doing a good job and making substantial improvements on the property.

Attorney A. B. Renshan, of Santa Fe, was in Toas and Twining most of the past week. He is the attorney for the Frazer Mountain Copper company and has been looking after their interests.

### LORDSBURG.

From the Liberal.

A covered porch has been built this week in front of the Bank Exchange and Dr. Crocker's office, which will make a very comfortable and cool resting place during the coming hot summer days.

Miss Bessie Pratt, who had charge of the primary department of the Lordsburg schools the past winter, left for

Silver City, to visit Mrs. C. E. Morgan, who was her classmate at the Stanford university.

Mrs. Herbert Wright, who has been in the hospital at El Paso for some weeks, returned, her health entirely recovered.

James B. Speed, who has been clerk in the Southern Pacific office here for several years, and is considered one of the most competent clerks on the division, has been advanced to the position of chief clerk in the Tucson office.

### SANTA FE.

From the New Mexican.

Probate Clerk Manuel Delgado recorded a deed by the City of Santa Fe to Josefa Borrego for three parcels of land.

The behavior of the Browns of Albuquerque was above reproach and Santa Fe was much pleased with the visitors.

On Wednesday the trustees and members of the session of the Presbyterian church will have their picture taken at the church for publication in the leading Presbyterian church journal.

Mrs. Henry C. Davis and son, and her sister, Miss Worthy, of America, Ga., arrived on Saturday evening and will remain in Santa Fe for the summer. They are stopping at the Gilder-sleeve house on Palace avenue.

Mr. and Mrs. E. Clark, of Plaza del Alcaide, are guests at the sanitarium. Mr. Clark reports that grasshoppers are very thick in the upper Rio Grande and Chama valleys and that the drought has dried up almost everything. Sheepmen are all heavy losers and only 15 to 25 per cent of lambs are likely to be saved.

The Literary and Debating society elected the following officers to serve for the ensuing six months: President, Fred Alford; vice president, Benigno Muniz; secretary, Ed. Tofaya; treasurer, T. Castillo; interpreter, B. Ortiz; critic, R. F. Sandoval; judge, Apolonio Pino; marshal, M. Ortiz. The new officers will be installed next Sunday afternoon at 2 o'clock, after which a banquet will be served.

The Elks deny that they are backers of the Santa Fe Central base ball team, the assertion of the Albuquerque Journal-Democrat to the contrary notwithstanding.

Work on the construction of a residence located on upper Palace avenue for Colonel Frost has commenced. Warren H. Wherry is the architect, who has charge of the construction work.

Any sort of a theatrical performance draws a good crowd in Santa Fe providing it is held at a convenient place with clean surroundings. That is a pointer that a good opera house or theater in Santa Fe would pay.

C. T. Brown, manager of the Associated Mine association, owning the New Era group of mines in the Black Range and who has been in the capital on business, returned to his Socorro home. He has just delivered a carload of ore that is said to run quite high to the smelter at Cerrillos.

Thomas Blair was arrested on the charge of having stolen a diamond ring belonging to J. A. Harris. Harris missed the ring some time ago and it was found in Blair's room. Blair is a hotel porter and claims he found the ring. He was given a hearing before Justice of the Peace C. M. Conklin. Judge A. J. Abbott represented the territory.

Mrs. Thompson and her niece, George M. Williams, of Canadaigua, N. Y.; Charles B. Hackley, of Hartford, Conn.; Emory W. Clark, of Chicago, and eight others who have been making a three months' tour of the south and west, stopped off at Santa Fe on their way from Los Angeles and the Grand Canyon to New York. They occupied a luxurious special car and while in Santa Fe were shown about the city by Mrs. A. M. Berger. Mrs. N. B. Field, of Albuquerque, was with the party on its trip, but did not accompany it to Santa Fe, but met it again at Lamy to accompany it to New York.

The local plumbers are about to form an association.

The appointment of Benjamin M. Read to be city attorney, meets with the approval of citizens generally.

District court for Rio Arriba county will convene on next Monday. Judge McEffe and the court officials will leave for Tierra Amarilla on Saturday morning of this week.

Faustin, the 14-year-old son of Faustin Garcia, of the south side, died. The funeral will take place Thursday morning. Garcia came in from a ranch a few days ago very low with blood poisoning, the result of a rattlesnake bite.

The erection of a handsome iron fence in front of the church of the Holy Faith on Palace avenue is in progress. Convicts from the territorial penitentiary are doing the work under the direction of Deputy Superintendent W. E. Martin.

Mr. and Mrs. Lester B. Laughlin, of San Cristoval, are visitors in Santa Fe. Mr. Laughlin is a son of Saron N. Laughlin, the owner of the Eaton grant, in southern Santa Fe county. San Cristoval is on the grant. Mr. Laughlin reports that he has a well drilling outfit at work. While the grant is very dry there is still an abundance of grass as the range has not been overstocked. Enough gramma grass was cut last year and stacked to feed the stock for fully a year if necessary.

Probate clerk Manuel Delgado recorded the following: A warranty deed by Teresita M. Gildersleeve et al to Florence E. Bartlett for a house and lot at the corner of Palace avenue, Grant avenue and Gold alley, in precinct No. 17, consideration \$500. A United States patent to C. Leon All-

son for a desert land entry of sixty-five acres, the SE 1/4 of the NW 1/4 of lot No. 3, section 3, township 16 north, range 3 east. Also a homestead patent for the SE 1/4 of the SW 1/4 and the W 1/4 of the SE 1/4 of section 2, township 16 north, range 3 east.

A company of infantry of the New Mexico national guard is to be organized in Santa Fe with R. L. Baca as captain.

The wooden pavements around the Fort Marcy reservation are in so dangerous a condition that it would be safer for pedestrians if the pavements were removed altogether. The city authorities should act in the matter.

Clinton J. Crandall, superintendent of the United States Indian school in this city has returned from a trip to Arizona. He brought with him nine Indian boys and four Indian girls from the Apache tribe in Arizona.

The Santa Fe Hook and Ladder company will give a dance on May 29 at Armory hall for the benefit of the company.

W. H. Pope, attorney for the Pueblo tribe of Indians, has filed an answer to the suit of A. R. Manby for quieting the title to the Antonio Martinez grant in Taos county. Mr. Pope acts for the Pueblo Indians of Taos, who claim three tracts of land on the grant.

Mr. and Mrs. Ward A. Butcher, of the United States Indian school in this city, have gone to the Pine Ridge Agency, South Dakota, where Mr. Butcher will take charge of the day school. Mrs. Butcher is from Louisville, Ky., is expected to arrive tonight to succeed Mr. Butcher at the Santa Fe school as teacher.

The funeral services over the remains of Mrs. Solomon Spiegelberg took place at the residence of the deceased, Marcus Eldred, high priest of Santa Fe Chapter, R. A. M., offered a prayer. The remains were taken to the Santa Fe depot to be sent to New York, where interment will be made in Cypress Hill cemetery, Long Island. A. F. Spiegelberg, a son of the deceased, accompanied the remains. The pall bearers were S. Spitz, Adolf Seligman, C. E. Basley, Fred Muller, Arthur Boyle, Samuel G. Cartwright, Marcus Eldred and George W. Knaebel.

### LAS CRUCES.

From the Progress.

Miss Ella Cordell and Miss Lulu Weeks were in town from Anthony.

Dr. McConnell is enjoying a visit from his brother, George, of Toronto, Canada.

Mr. and Mrs. Esquipulo Lucero expect to leave in a few days for an extended visit to Mexico.

Miss Elena Ronquillo, of El Paso, is visiting friends in Mesilla for awhile.

Col. J. R. DeMeier and wife left for a summer trip to Europe. Their first destination is Naples.

S. H. Newman, superintendent of the drilling for oil for the Consolidated Fuel and Oil company, came up from El Paso, accompanied by his son, to attend the field day. He reports that they have broken their tools at the well for the sixth time. Repairs had to come from the east, which has delayed the drilling somewhat. It is expected, however, to begin work again next week. The well is now down 775 feet and they are drilling in oil sand. Work has been slow for at least one or two hundred feet because of hard rock.

From the Republican.

Superintendent Rogers, of the Modoc and Torpedo mines, returned from a trip to Chicago.

Isaac Castaneda and wife expect to leave Saturday for a visit to Chihuahua, Santa Rosalia and other Mexico points.

E. E. Neal, the Alamogordo lawyer, who was temporarily debarred, was restored to practice by the supreme court. The papers in the case never reached the court.

Dr. Orrin H. Brown expects to leave in about two weeks for his old home in Wisconsin. He will be gone about three weeks and when he returns will bring a balance of the family.

### CLAYTON.

From the Enterprise.

Rev. J. C. Chapin filled the pulpit at Kenton last Sabbath.

Hon. Salome Garcia has just returned from a short business trip to Folsom.

R. P. Ervien returned from Ogontz, Pa., where he had been on a visit to his father.

F. H. Clark returned the first of the week from J. L. DeHaven's ranch, where he had spent a few days visiting.

Will May returned from a trip to the ranch, where he went to superintend the preparation of his land for alfalfa.

R. W. Lackey has purchased the Benito Menstas ranch on the Corrupa, where he intends taking about 500 head of cattle soon.

Col. J. L. DeHaven has been very sick this week at his ranch. He is suffering from a severe attack of erysipelas. Dr. S. L. North has been in attendance.

The Spanish-American Methodist church which was destroyed by the storm of last week, will be rebuilt. The lumber of the old building will be used as far as it will go.

J. D. Inman, until recently engaged as night manager of the water and light plant here, has resigned his position and gone to Spokane, Wash., where he thinks it is probable that he will reside in the future.

G. A. Franz, one of the firm of Franz Bros., of Lamar, Colo., has accepted the position of manager of the Lawrence Mercantile company's business at this point. Mr. Franz is a pleasant unassuming gentleman and we extend to him a welcome to Clayton. He will move his family here in a short time.

### LAS VEGAS.

From the Record.

B. R. Dodge went to Santa Fe on business.

Mrs. Roman Lopez left for Concho, Ariz., where she will make her future home.

The library has received a new lot of juvenile books, but they are not yet ready for giving out.

F. A. Edwards has made complaint against E. C. Mercer, of Las Vegas, for fishing out of season, up near Harvey's ranch.

Mrs. Myra Frost, of Albuquerque, is here visiting her parents, Judge and Mrs. Harkness, and attending the Sunday school convention.

At the gun club shoot Al. Quinley and Del Chambers tied, each making seventeen birds out of twenty-five. In the shoot-off Quinley won.

Died, at the Ladies' home, Mrs. Josefa Romero. Mrs. Romero was at one time reputed to be quite wealthy, but died without means and was buried as a charity patient in the old Catholic cemetery. She was about 30 years of age, and really died of old age. She had been at the home about a month.

Isaac Bacharach returned from Santa Fe, where he had been at the bedside of his wife's mother, Mrs. S. Spiegelberg.

Robert L. M. Ross, deputy treasurer and ex-officio collector, has been appointed by the finance committee of the city council, to audit the books and accounts of the city treasurer, clerk and marshal, and will begin work next week.

H. W. Kelly returned from his trip to Denver.

Mrs. Isador Stern will leave for St. Louis to visit relatives.

The Koss-troewee Wool Scouring company received a new engine and boiler for the plant.

Mrs. Arthur Cavanaugh is visiting friends here. She arrived Saturday evening.

Arthur Hild, who has been confined to his bed with a sprained ankle, is able to set up.

J. H. Fox and S. C. Brown went out hunting on the Teecolote river and killed a couple of coyotes.

P. B. Levy has been appointed temporary city engineer and those desiring grades for lots and sidewalks can get them at once.

Mrs. Dolan and daughter, Miss Gertrude, who had been sojourning in Las Vegas for several months, left for Colorado Springs.

W. E. Bartlett, who had been here about a year and is well and favorably known, returned to his home at Muncie, Ind., where he will remain.

Mark Topp, wife and daughter, Miss Lottie, of Muncie, Ind., relatives of Charles Dougherty, who had been in the city several months on account of Miss Topp's health, left for Colorado Springs.

Leroy Helfrich had a narrow escape Saturday night from serious injury as the fire department came out. The new harness was not perfectly adjusted and the team ran nearly over to the walk before they could be sharply turned.

Mr. Helfrich had started to run across the street, and slipped and fell, the heavy wagon just barely passing his body as it turned to go down the street. It was a very close call.

The home of James Young is quarantined on account of diphtheria, several of the children being down with that disease. Mary and John Young cannot go home and are quarantined out.

A telegram was received from El Paso announcing the fact that William Seewald, well known here, is critically ill. Mr. Seewald has been a paralytic for some time and is a son of W. H. Seewald, of this city.

A judgment has been given in favor of H. G. Coors in the district court in a suit to foreclose a mortgage against J. J. Crawford, on lot 4, block 33, East Las Vegas. The amount of the mortgage was \$122.43, given as security on a promissory note.

The defendants attorneys have given notice that a case involving the title of the alleged Sanguetulla grant will come up for trial at this May term of court. The case is quite an important one and involves evidence back from the days when this territory was a part of Mexico.

The musical given by Prof. E. E. W. Layton and pupils, assisted by other local musical talent, at the Normal chapel, was a very enjoyable affair. The program was a good one and the pupils executed their parts splendidly.

Father Pouget rendered "The Holy City" on a French horn in a fine manner and Miss Eunice Tamme's "Valse Brillante" on the piano was especially worthy of commendation. Many of the pupils are quite young, but they seemed to feel perfectly at home, and took their parts like real artists. The hall was packed by lovers of music and the musical was not only delightful but exceedingly creditable to Prof. Layton and his well trained class.

From the Optic.

There will be no services at the Jewish temple this evening, owing to the absence of Dr. Bontheim, who did not get back from Albuquerque.

The Ladies' guild, assisted by Mrs. Charles Kohn will give the "Chimes of Normandy" some time the last of June. A number of the leading musicians of the city and amateur actors will take part.

Mrs. Jerry Lahey, formerly Miss Mary O'Brien, left for her home at Raton, a number of her Las Vegas friends being at the depot to tell her good bye.

The Baptist young people's union has disbanded and over its ruins has sprung a Christian Endeavor society. This makes three societies of Christian Endeavor in Las Vegas.

At the meeting of the directors of

the Las Vegas & Hot Springs Electric Railroad, Light & Power company, only F. A. Manzanarez, vice president, was present.

The meeting was adjourned subject to call. V. J. Saunders and capitalists interested in this enterprise, will be here about the 12th inst.

Last night when the domestic at L. W. Hild's returned home she found two tramps prowling in the back part of the lot. She ran to the front door and by ringing the door bell vigorously roused Ludwig William, who grabbed his gun when the situation was explained to him and made for the back door, reaching it only in time to see the would-be miscreants climbing the back fence. Ludwig says the tramps who are found in his back yard after night may look for a dose of buckshot as he will be prepared for that service.

Dr. W. D. Rexford, who has opened an office at Deming, N. M., is known at Las Vegas, where he lived for many months in spite of the attempt at blackmail. He came here from Baltimore, Md., where he belonged to one of the best families in that city. He first came for his health and after remaining that sufficiently went to Santa Rosa and practiced medicine, meeting with great success. Dr. Rexford is a man of excellent attainments and a thorough gentleman. His friends in Las Vegas wish him well in his new field.

Olle Erickson has returned to work after his brief illness.

Jim Clay told down the cellar stairs at the barn and broke his thumb.

Complaint has been made by people living on Fifth street of the boys putting out wires to trip people as they pass.

Isaac Davis had a little fun with some folks who wanted to claim relationship and have him advance a little money. The relationship racket failed to work.

George Landenburg, supervisor of the Pecos river forest reserve, has changed his headquarters, by direction of Forest Superintendent L. B. Hanna from Glorieta, Santa Fe county, to El Porvenir, San Miguel county.

Frank Pope, who was injured in a wreck of the Santa Fe flyer twelve miles east of Trinidad on the 28th of December, 1898, the same in which Cy Boucher was injured, writes to friends that he is in New York still under the hands of a doctor, but that he hopes to return to Las Vegas in the not distant future.

Chief of Police Ulibarri, arrested Ricardo Garcia, charged with carrying concealed weapons and using a knife. He was tried before Judge Tafoya and ordered to jail to await the action of the grand jury.

Report has it that Parker Wells has traded his ranch and cattle for Colorado City property.

The board of directors for the insane asylum met to elect medical director, steward, matron and engineer, and to let contracts for supplies for the next six months.

Many here will remember the Ettelson boys who resided in this city a few years ago and were paper hangers and gamblers. One of these, Ben, made a sensation in Chicago the other day by confessing that he and his partner, Barney Guff, had burned a cigar store they were conducting, in order to get the insurance money. They stocked the store with a limited number of empty cigar boxes, insured it and then set it afire.

### RINCON.

From Las Cruces Progress.

Old Jim Johnson, "that good old soul," is setting out fruit trees up at his ranch.

There appears to be a considerable sickness in this vicinity at the present which keeps Dr. Brown on the move.

"Happy Jack" Jeffers returned from All Vegas hospital as good as new. Las had to see him again.

The Harvey house is slowly going up. They are working short handed and cannot keep carpenters. Pay too small, so they say.

There is plenty of water in the river hereabouts. Farmers report crops in a thriving growing condition. A good portion of the fruit was frost killed, but there is considerable left.

Mr. Jones, a well known stockman, has purchased the lots formerly owned by Cole Railroad, and is erecting a residence with the intention of moving his family here to reside permanently.

Since the loss of the Harvey house all of the other hash parlors have been run up to their capacity. The Rio Grande, also the American Kitchen, they being renovated in a thorough manner to please the patrons.

You Know What You Are Taking When you take Grove's Tasteless Chilli Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure, no pay. 50c.

### Northern Court Notes.

R. S. Good & Co., of Colfax county district court, have filed a suit of replevin against J. E. Collins to recover the sum of \$1,350 amount alleged to be due for stock and harness.

G. S. Good & Co., of Colfax county district court, have filed an attachment suit against W. B. Dupree to recover the sum of \$1,700, amount alleged to be due plaintiff for merchandise sold.

The trial of Telesfor Jimenez, for cattle stealing is on at Mora. Jimenez has fourteen indictments to answer. The prosecuting witness is down with the mumps and the jury had to go to his bedside to hear the evidence.

Contractors of Chicago and Terre Haute signed a contract to construct 265 miles of railroad in Oklahoma, an extension of the Missouri, Kansas & Texas. The contract price is \$2,000,000.

**Albuquerque Weekly Citizen**

Denver leads all American cities in deeds of crime.

No town ever made a cent abusing some other town.

It is definitely settled that the St. Louis World's fair will be postponed till 1904.

The Citizen is not in the "crushing" business, it wishes prosperity to every town in the territory.

The Citizen today is almost a complete reflex of the news of the whole territory of New Mexico.

If we continually slander ourselves we ought not to object to being slandered and vilified by outsiders.

Chicago has over 1,100 churches, several of which are what is known in ecclesiastical circles as "self supporting."

There are now only three widows left in the United States who are drawing pensions on account of the war of 1812.

If Delegate Rodey secures statehood for New Mexico he will deserve the lasting gratitude of the people of this territory.

The war with the Boers has already cost the British government more than a billion dollars, according to a report published recently.

The intemperance use of adjectives by a newspaper can at times do great injury to the town where such a newspaper is published.

The Citizen is working to draw the business of the whole territory to Albuquerque. It does not believe this can be done by abusing neighboring towns.

The average depth of the Texas spouting oil wells is a few feet more than a thousand, and the height to which oil is ejected is from sixty to 200 feet.

President Roosevelt says that if congress adjourns without adopting some measure of relief for Cuba he will order an immediate reassembling to finish the work.

Several American naval officers have been imprisoned for engaging in a street brawl in Venice. This fact knocks out the time worn story that there are no streets in Venice.

It is officially estimated that if the waters of our western states now unused were utilized for irrigation purposes a population of 80,000,000 more could be sustained in those states.

The present rabid controversy between the Las Vegas papers and the morning paper in Las Vegas is almost sure to injure both cities, and cannot possibly do either place any good.

One theory is that irrigation in the arid regions will temper the heat waves sweeping eastward and that the rainfall will be increased. A double return from irrigation would be profitable indeed.

Silver City fears to build an independent smelter because the smelter trust would crowd it to closing by unfair competition. The American people appear to be led hand and foot by the combined corporations.

Dr. Ettempl, of New York, is about to issue a grammar of the Tagalog or Philippine language, together with a dictionary, for the use of Americans going to the islands. This is the first work of the kind yet attempted.

There is a new industry in the production of corn oil, nearly 5,000,000 gallons being exported last year. It is used in making paint, soap, leather, dressing, artificial rubber, etc., and the oil cake, or residue, is valuable as a cattle food.

Contracts for supplying army posts with beef are lower this year than they were last, proving conclusively that a scarcity of beef on the hoof does not exist, either as to quantity or quality, for all government beef is inspected and must be good or it will not be paid for.

The newspapers of New Mexico waste their space denouncing each other. Better say good words about the territory. New Mexico has enough detractors along the Atlantic coast, who will do their whole duty in slandering the territory. They need no help from the local press.

The agricultural department recommends that the first flies which appear during the summer be summarily dealt with, as fly generations follow each other at ten day intervals with 120-fold increase. Therefore one original progenitor killed at the beginning of fly time is equal to several million later on.

Delegate Rodey has introduced bills to validate the bonds authorized by the last legislature by the Roswell Military Institute, the agricultural college and the insane asylum. These bonds were for the amount of \$25,000 for each school, and the proceeds of the sale of the bonds are to be used for additional buildings by these institutions.

The national biennial gathering of the Knights of Pythias, which is to be held in San Francisco, August 10 to 20, is probable destined to become memorable as the greatest fraternal gathering in the history of this country, in point of numbers as well as in splendor. The people of San Francisco and of California are determined that it shall eclipse all similar conventions ever held in the United States.

The war in the Philippines is much like the late wars with the Apaches in New Mexico and Arizona. Since Aguila

also was driven from Manila there has been a sort of lull. The rebel invariably flies before the American is within charging distance of the first trench, betakes himself to the nearest village, hides his arms, dons his military badges and assumes the role of amiable, only to change again when opportunity is offered for another ambush.

**MUNICIPAL OWNERSHIP.**  
The "Municipal Year Book" makes possible for the first time an accurate statement of the extent to which cities of the United States own their public utilities. The Engineering News condenses some of the facts given as follows:

Taking first a general view of the whole country, it appears that excluding cities which do not have the facilities, nearly every municipality owns its sewerage system, over half own their water supply, one-eighth or more own electric lighting plants. Very few places own gas works, only one city owns and operates a street railway system, and not a single municipal telephone exchange is reported. There are, however, some municipal telephone fire alarm, and possibly police, telegraph systems. Of the less common municipal services, a few cities own ferries, and a few others own conduits for underground wires, but none own commercial central heating stations.

**DECREASE OF CONSUMPTION.**  
An interesting statement on the decrease in the number of deaths from consumption in New York City has just been given out by Dr. Guilfoyle, registrar of the board of health. In 1881 the death rate from consumption was 1.27 a thousand population, and in 1901 it was only 2.5 a thousand. The doctor accordingly estimates that 3,787 lives were saved from 1881 to 1901 in Manhattan and the Bronx, and about 6,430 lives were saved in the entire greater city with a population of 3,600,000.

For the first quarter of this year Dr. Guilfoyle shows that there were 182 fewer deaths from consumption in New York than for the corresponding quarter of last year. The registrar attributes this decrease almost entirely to the spread of knowledge that consumption is a communicable disease and to the willingness of the people to co-operate with the health authorities in the preventive measures of cleanliness and disinfection.

The vital statistics for the last ten years, showing a diminution of tuberculosis all over the world, have removed all doubt as to scientific verity of Dr. Koch's discovery that consumption is a preventable disease, and is distinctly curable in its early stages. If the same progress in reducing the mortality from consumption is made during the next decade that has been made in the last decade there is no reason to doubt that what was once regarded as the most dreaded disease of the human race may be finally stamped out.

**UNDESIRABLE IMMIGRATION.**  
While congress is occupied with the proposition to exclude undesirable immigrants from entering the Pacific ports, that body appears to have overlooked the fact that the doors on the Atlantic side are wide open. Thousands of immigrants are pouring into the eastern cities every month. Recently one steamship brought to New York 2,692 foreigners, which was in excess of any previous record by 243, and in spite of any attempt to exercise careful inspection over the new arrivals, there are many of them who will not make the kind of citizens this country wants. There is no disposition to shut the doors against the best kind of immigrants who come to this country to better their circumstances and aid in the development of the country, but a large part of those who settle in the large cities is not of this kind. These should not be permitted to land, but as a matter of safety, they should be turned back. They enter all of the Atlantic ports practically without molestation, with no intention of ever becoming good Americans. The contract labor laws are regularly violated and the sum of Europe is allowed to enter every day.

It is a strange commentary on the attitude of the powerful labor organizations of this country that they do not see that their own interests, as well as the interests of the country at large, are affected by this immigration and take steps to restrict it. It is this very class of men who are responsible, in a large measure, for the strikes in the coal regions. They are ready by thousands to take the places of other workmen. How could it be otherwise with from ten to fifteen thousand men arriving in this country every month seeking employment? Oversupply cheapens everything, and when the supply of labor is in excess of the demand, labor becomes cheaper.

**CONDITIONS HOPEFUL.**  
The first of May passed with no very extensive labor struggles in the country. There are a number of local strikes but they are being rapidly adjusted. There was much reason to expect very serious strikes this spring, on account of the increased cost of living, making higher wages a necessity. In many lines of industry the

**CURING CONSUMPTION.**  
When Scott's Emulsion makes the consumptive gain flesh it is curing his consumption.

Exactly what goes on inside to make the consumptive gain weight when taking Scott's Emulsion is still a mystery.

Scott's Emulsion does something to the lungs too that reduces the cough. More weight and less cough always mean that consumption is losing its influence over the system.

Scott's Emulsion is a reliable help.

Send for Free Sample. SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

schedules of wages have been materially increased, but even this is not so important as the other feature—steadiness of employment. Throughout most portions of the country workmen are having continual engagement for their services, and are thus disposed to accept the conditions rather than if wages were higher but employment precarious.

**THE BEEF COMBINE.**  
No cattle are being shipped to Denver, Kansas City, Omaha or Chicago. All shipments have been ordered stopped. Many thousands of head are on the way to market, and three or four days will pass before the effect of the order is felt, but at the beginning of next week little or no stock will be offered at the packing centers.

Commission men and stock owners have taken this radical action because of the raid by the cattle trust on the price of stock. On Wednesday 16,000 head of cattle reached Chicago. The trust buyers dropped the price and purchased only 6,000 head, leaving 10,000 head to be carried over to market. The purchases consisted almost entirely of the highest grade of cattle which is shipped chilled for the export trade.

On Thursday the stock market in Chicago and the river cities was demoralized. Receipts was much heavier than sales, and the pens were filled with cattle, sheep and hogs, for which the packing house agents declined to make an offer.

The reason for the trust refusal to buy and its raid on prices is revealed in telegrams sent from Chicago to a number of all the western cattle associations, asking them to bring influence on their representatives in congress to choke off the inquiry into the beef trust, and to stop proposed procedure against the packing companies in the courts.

The meat trust evidently has become alarmed at proceedings against it and proposed to compel the producers of stock to come to its help. The trust claims that the larger part of the profit from the high price of meat has gone to the growers and feeders of cattle, hogs and sheep, and demands that they shall back it in fighting proceedings in congress and in the courts. It says that it pays to the sellers of stock practically the entire value of the meat and the tallow and the hide and that its profit is made from the by-products.

**THE EVENING NEWSPAPER.**  
Lee Starke, in an address before the board of directors of the American Association of Newspaper Publishers, held a few days ago in New York, held by stood by two general propositions which are of more than passing interest. First, advertising in the daily newspapers was productive of better results than advertising in the magazines; second, better results followed advertising in the evening than in the morning papers. He sustained the latter contention by saying that, seven-eighths of the supplies and furnishings purchased for consumption and use in the household were purchased by the feminine head of the establishment. The lady of the house has no time to read in the morning, therefore, she can barely glance over the news headings in the morning paper without a moment for the advertisements. The evening, however, is the time of rest and recreation. She can only read such portions of the news as interest her, but may completely digest the advertisements and make arrangements for her shopping next day. So far as the bulk of the population is concerned, it has no time during the day to read a paper. Its only opportunity is at night, after the labors of the day are over and the time for recreation and relaxation is upon them. As the evening paper prints the news on the day it happens, usually twelve to fourteen hours before the morning paper, it appeals for circulation to all of those who wish to keep fully abreast of the times, and, therefore, is sure of attaining a wide circulation and giving returns to the advertisers. In addition to all this it is a paper which is at the same time cleanly and enterprising; one that may safely be taken into the homes, it combines every element to secure subscribers and to richly repay an advertising investment. "To sum up, I believe I can claim, without successful contradiction," concluded Mr. Starke, "that in the average community the evening paper has the largest home circulation, prints the most local news, commands the most responsive class of readers, most satisfactorily makes business for the advertiser, and, in short, that from every viewpoint, the home evening daily is the king of all advertising mediums."

This is not merely plausible, but reasonable, and the conclusions are borne out by observation and experience.

A little life may be sacrificed to a sudden attack of croup, if you don't have Dr. Thomas' Electric Oil on hand for the emergency.

**High School Ball Boys.**  
The high school baseball team is now ready for business. The boys have received their new uniforms and "suits do look swell." They came this morning and are being broken in this afternoon in a game between the High school boys and a team from the government Indian school. The suits are pearl grey and will be worn with black belts and stockings. The caps are adorned with old gold and white—the High school colors. Last season the High school boys defeated every team in its class which it came in contact with and hope to do so again this season.

If you are troubled with impure blood, indicated by sores, pimples, headache, etc., we would recommend Aker's Blood Elixir, which we sell under a positive guarantee. It will always cure scrofulous or syphilitic poisons and all blood diseases. 50 cents and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

**British Horse Buyers.**  
E. W. Brown informs us that the buyers of horses for the British army who were here last week will return to San Marcial about May 20, prepared to buy everything that is up to the requirements in the line of horseflesh.

Capt. Jack Crawford, who represents George L. Golding & Co., of the Denver City Stock Yards, has distributed hand bills announcing that a horse buyer will be in San Marcial to buy saddle horses for the British government. He will pay \$35 to \$45 for horses when sound and well broken to ride.—San Marcial Bee.

**FOREST OF ENCHANTMENT**  
Trees That Flourished in Mesozoic Age, Transformed by Nature Into Precious Stones.  
GREAT PETRIFIED FOREST.

The passage in the lower house of congress a few days ago of a bill setting aside as a national park the great petrified forest of northern Arizona, came just in time to save from destruction a wonderful natural curiosity which has but one equal on this continent—that of the Grand Canyon of the Colorado.

In the Yellowstone national park in Wyoming, in California and northern Mexico, as well as in other portions of Arizona, have been found petrified trees, but none of them are to be compared to the immense fossilized forest which lies close to Holbrook, where the government protectorate is to be established.

The forest is in the midst of the great desert of Apache. Fifty miles to the northeast is the Navajo Indian reservation, some eighty-five miles to the northwest is the Grand Canyon of the Colorado, and intervening are several ancient Mohave pueblos, perched on their table land or mesas of stone.

Scientists state that the Arizona forest belongs far back in the Mesozoic time, probably to the Triassic formation, while the smaller forests found elsewhere are of the tertiary age. The difference in their antiquity is, therefore, probably many million years. The forest proper covers some two square miles, but petrified trees are to be seen in an area of fifty square miles. It is a remarkable sight. Charles Dudley Warner states that it is a spot where the most blasé globe trotter stands in mute wonder.

With the exception of a single cottonwood trunk, the trees are of an extinct coniferous species. They lie prone upon the ground. The sections or ends of the logs show brilliant red and yellow and dull blues. The bark is not brilliant, but dull, and wonderfully well preserved. Some trees show even the knots to perfection. Some of the petrified logs are four feet in diameter and from ten to twelve feet long. They have no branches, but the hundreds of small pieces, varying from a couple of inches to one foot in diameter, are probably the remains of branches.

Here and there are heaps of chips from the petrified trees, and the beauty of coloring is bewildering. There are literally thousands of bushels of chips that are red moss agate and may be beautifully polished. There are many times more chips of amethyst, gray topaz and variously hued agates showing the grain of the trees as they grew millions of years ago. One may obtain cross sections of logs, showing in complete detail the annual ring marks and separation of the bark from the trees. The stone is of the hardest and takes an incomparable polish.

Thousands of pounds of pieces from these trees, turned to agate, have been sent all over America and Europe, to be polished and sold for ornaments. Indeed, so rapid has grown the work of despoiling the forest that in many places scores of trees have been entirely removed.

The Zuni Indians told the United States surveyors about the spot where their polished agates came from, and Colonel John W. Stedman was probably the first white man who ever looked upon the petrified forest. That was in 1851, and two years later he told of his discovery in a New York newspaper. In July, 1852, Jules Marcou, another United States civil engineer, made a collection of specimens, and extensive mention is made of it in the government reports. The tourist and vandal did not get at it until near 1880, when the Santa Fe railroad was built. The stone was polished and manufactured at Sioux Falls, S. D., until a recent government order stopped the removal of the stone from the forest. The cost of cutting and polishing the petrification approaches that of treating diamonds, as it is calculated to be seven-tenths the hardness of a diamond.—Los Angeles Herald.

**The Game Tomorrow.**  
A letter was received from W. E. Martin, manager of the Santa Fe Central baseball team, saying that everything was in readiness for the game with the Albuquerque Browns, and that a big crowd would surely be in attendance at the game. He also said that the boys who are to be the Browns' competitors have sharpened up their spikes and tightened their belts with a determination of sustaining the record made by them last season. The

**THE WORK GOES ON.**  
Albuquerque People Are Interested—It Has Much to Do With Our Welfare. Never out of work. That's the case with the kidneys. Twenty-four hours to the day is the time they put in. They're equal to it when they're well, but they get sick. Stomping positions of the body, straining, a fall or over-exertion. Often makes the kidneys sick. But the work must go on. They ask for help through the back. The back aches. It's kidney ache. Doan's Kidney Pills are kidney helpers.

The daily work goes on. Mr. Jacob Wolfe, carpenter, of 1239 North Ninth street, St. Louis, Third ward, says: "When I first came to St. Louis there was not a bridge across the river, there was only a ferry. I helped to build the court house over forty years ago and worked on nearly all the old buildings in the city. There was not a railroad in St. Louis, so a word or two from me to my many friends and acquaintances should carry considerably more weight than I lived, say in the New England states. Mrs. Wolfe and I have had more than one attack of backache. Mine was not remarkably severe but it was annoying. Noticing Doan's Kidney Pills advertised induced me to get a supply and Mrs. Wolfe and I commenced the treatment. If it had not performed absolutely what I promised, if the action of the pills were not a long way ahead of anything we ever before used, I would be the last resident in St. Louis to publicly recommend them."

Drop into the Alvarado Pharmacy and ask what their customers report. For sale by all dealers: price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

**RATON OIL COMPANIES.**  
Drilling Machinery Expected to Arrive in a Few Days.

Dr. J. J. Shuler, one of the principal promoters of the Raton Oil Development company, went to Colorado Springs people who are interested with a view to the organization of the companies and to arrange all details preparatory to the shipment of drilling machinery for sinking a well near this city, says the Range. The machinery will be received here the first of next week and no time will be lost in commencing drilling operations after an expert locates the most favorable point for a well.

The plans were drafted to organize the New Mexico Land, Oil and Development company, which will have charge of all acreage and its development; and the Raton Oil and Gas company, which will have charge of the first development by drilling a well. These companies will be incorporated under the laws of New Mexico, the incorporation papers being sent to the territorial secretary yesterday. The majority of the directors in each company will be prominent citizens of Ra-

Browns will leave here tomorrow morning with the same determination. Who ever wins the people who see the same will know that they were to a base ball game and not a golf contest. Those who will go tomorrow morning are: Roy McDonald, John Haver, Jas. Cosgrove, Jas. Brown, Edward Hale, Bert Vorhes, Joe Chaves, Chas. Quier, Tony Ortiz, Orrie Smith, H. Brockmeyer and Harman Wynkoop. There are several others who are going to accompany the team as rooters.

**Impure Drinking Water**  
is always a source of danger; dysentery and bowel troubles follow its use, every person should have handy a bottle of Peppermint (Perry Davis'), which will quickly cure these distressing ailments. Be careful and see that the storekeeper does not pawn off some worthless substitute upon you as is sometimes done for the sake of a few cents extra profit. Large bottles 25 and 50 cents.

**FIRES SERIOUS IN RUSSIA.**  
No Electric Alarms—Fireman Watches in a Tower to See Blaze.

When a fire occurs in St. Petersburg the nearest citizen doesn't step to a red box and ring in an alarm for the engines by electricity. They haven't advanced so far yet. The Russian system of spreading news of a fire is the most primitive in Europe.

They don't send on any fire alarm at all in St. Petersburg until the fire has blazed out fierce and strong. In fact the fire department doesn't know it. One fireman in himself comprises the fire alarm system in St. Petersburg.

At all times a fireman is on duty in the tower of the city hall. He watches the city and when the fire blazes up he notices it, or is expected to do so.

If it is in the daytime he runs up a number of black balls on the outside of the tower, if it is in the night he uses red lanterns instead of the balls. The number of the balls or lanterns indicate the district in which is the fire.

On seeing the signal the firemen turn out.

Naturally this method is not productive of great speed in reaching the fire. From twenty minutes to half hour is good time, unless a fire occurs quite near an engine company's quarters.

The result is that the citizens of St. Petersburg try to do most of the fire extinguishing themselves and there is no order and no discipline the wild confusion usually prevails. At every hint of a fire no matter how slight the neighbors begin at once to strip their homes of everything of value. The police make no attempt to establish fire lines, so the mob hampers the firemen instead of helping them.

But all this is nothing beside the excitement of the progress of the engine or engines—there are 74 pieces of apparatus and 1,027 firemen in the city—to the fire. In snowtime the engines travel on runners instead of wheels. Beside the driver sits another man with a big bell ringing to warn other vehicles to keep out of the way.

After the engine five tenders follow, one after the other. One carries the hose, another the water tank, then comes three more all filled with firemen.

In the last century Russia has lost property to the amount of \$15,000,000,000 by fire. The loss averages \$150,000,000 a year.—New York Sun.

**HE LIKES HIS BEER.**  
A Clerical Gentleman Creates Sensation at White Oaks.

Quite a tempest in a teapot was stirred up in White Oaks this week over the fact that a visiting clerical gentleman partook of a glass of beer. Some others who claim to be traveling on the "straight and narrow way" objected and made remarks complimentary to such as drink beer, or enter saloons, in which the expression "saloon bum" is said to have figured quite prominently as being applicable to such as enter saloons. This aroused the gentleman about whom the remark was directly made, and some likely discussions followed as to the propriety of a clergyman indulging in that beverage. However, when the smoke had cleared away it seemed that honors were about even, and the visiting gentleman informed the local clergy that it was the judge as to such matters so far as they pertained to himself and that he would do as he pleased.—White Oaks Eagle.

**The Most Common Ailment.**  
More people suffer from rheumatism than from any other ailment. This is wholly unnecessary, too, for a cure may be effected at a very small cost. G. W. Wescott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.

While Andrew Michael's was digging a well on his property just west of the electric light station, in Iron mountain, Michigan, he struck a deposit of Bessemer ore. The attention of the steel trust has been called to the find and a force of men has been set to work to explore the property. The ore is believed to be a continuation of the Ludington vein.

Four years ago the Cananea copper mines in Mexico could have been bought for \$100,000. At present stock quotations they are worth \$27,000,000.

**THOUSANDS SAVED BY DR. KING'S NEW DISCOVERY**  
For Consumption, Coughs, Colds and all THROAT AND LUNG TROUBLES.

This wonderful medicine positively cures Consumption, Coughs, Colds, Bronchitis, Asthma, Pneumonia, Hay Fever, Pleurisy, LaGrippe, Hoarseness, Sore Throat and Whooping Cough. Every bottle guaranteed.

**NO CURE, NO PAY.**  
Once 50c. and \$1. TRIAL BOTTLES FREE.

**MICA AXLE GREASE**  
Makes short roads.  
And light loads.  
Good for everything that runs on wheels.  
Sold Everywhere.  
Made by STANDARD OIL CO.

ton. The first meeting of directors will be held in Raton, at which time officers of both companies will be elected, transfer of properties, options and leases made, offices established, etc.

The manager for the companies has been in a measure selected, who will have charge of the Raton office and ground operations. It is confidently expected that all details will be complete within one week, and it is the intention of the company to commence actual operations with as little delay as possible.

**Stand Like a Stone Wall**  
between your children and the tortures of itching and burning eczema, scald-head or other skin diseases. How? why, by using Bucklen's Arnica Salve, catnip's greatest healer. Quickest cure for ulcers, fever sores, salt rheum, cuts, burns and bruises. Infallible for piles. 25c at all druggists.

**COLONEL JAQUIN HERE!**  
An Ex-Representative and Prominent Cattleman of Kansas.

Col. C. L. Jaquin, ex-representative of Kansas, is spending a few days in the city. He arrived yesterday morning from Helen. The colonel has just finished an overland trip along the proposed Santa Fe short cut through One Pass. Mr. Jaquin says that Mr. Jones, the chief engineer, superintending the preliminary survey, told him that it was more than likely that the road, after coming through the mountains at One Pass, will follow the Rio Arriba to the Rio Grande, cross the river below Sabinal and follow the Rio Puerco to the Santa Fe Pacific.

Colonel Jaquin spent several days with John W. Corbett at the Rio Land company's headquarters. He reports himself well pleased with that part of the country and that the Rio Land company is making rapid progress in the civilization of the Manzano country. Mr. Jaquin's object in visiting New Mexico, is to study conditions, with a view of locating here. The colonel was a representative from the Seventh district of Kansas during the drought in 1892 and 1893, and the present drought in New Mexico will not turn his head and he will be able to make a favorable report when he returns east.

Sick headache absolutely and permanently cured by using Moki Tea. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25c and 50c. Write to W. H. Hooker & Co., Buffalo, N. Y., for free sample. J. H. O'Reilly & Co. and B. H. Briggs & Co.

**HE LIKES HIS BEER.**

## Notes from Correspondents

### BERNALILLO.

Special Correspondence.  
Bernalillo, May 3.—Miss Steele, one of the teachers of the Albuquerque Indian school, is visiting her friend, Miss Ethel Gregg, for a few days.

Quite a little excitement here as to who shall be our next postmaster. Last Wednesday evening, April 30, a very fine entertainment was given by the pupils of the Loretto public school and convent. The entertainment consisted of quite a number of very pretty drills, instrumental playing and recitations. The program was over two hours in length, but every number was so well executed that the attention of the audience was kept to the close. The convent sisters, indeed, deserve a great deal of credit for the excellent training of the children for the entertainment. The girls of the convent were very prettily dressed in pink, while others were in white. The Japanese costumes and the costumes for the interludes and plays were indeed very pretty and fascinating. It is seldom that Bernalillo has the pleasure of having such an entertainment.

Lawyer Burke of Albuquerque, spent several days at Placitas visiting Mr. Van Valkenburg. He stopped a few hours in Bernalillo.

A. Zostberg and I. Freudenberg visited Albuquerque during the past week.

Mr. Baker, an expert in mining from Denver, visited Mr. Givens' mine and is still examining the work done there. He has a very good opinion of the mining prospects of the Sandia mountains.

Mr. Kemp, from the Sandia mountains, brought down to Bernalillo some fine specimens of copper ore. It is called the Valley View mine. Mr. Blundin, well known in Albuquerque, is Mr. Kemp's partner.

Joseph Ghe and family and the Messrs. Stigman intend spending Sunday at Placitas.

Domingo Estrada came near getting killed the other day while riding horseback. He was trying to jump on and off his horse while it was going at full speed. The horse fell with him and he was thrown underneath it. He was quite badly hurt.

Jake Meyer, Esq., is doing a rushing business in his shoe shop.

Last Sunday Julius Seligman took a horseback ride to the Zia pueblo about twenty miles from here. While on the way back a terrible sandstorm came up, which almost suffocated him.

Mrs. Wiesbrun, mother of Mrs. I. Freudenberg, celebrated her thirty-fifth wedding anniversary on last Wednesday by giving a lovely dinner to all her relatives here.

Bernalillo, May 5.—Program of exercises of Loretto school April 30, 1902:  
Duet—"Rocking Chair."  
Flag Drill.  
Recitation—"Papa's Letter."  
Music—"Nearer My God to Thee."  
Dialogue—"Tienda Banata."  
Inst. Solo—"La Mosevita."  
Song—"The Bridge."  
Recitation—"A Sad Pilgrim."  
The Pearly Fountain, Piano and Mandolins.  
Song—"Our Flag."  
Recitation—"An Illustrated Story."  
Duet—"Happy Children."  
"Little Girl's Dream."  
"Zacatecas March," Piano and Mandolins.  
Minor Drill.  
Recitation—"Old Ironsides."  
Song—"Buttercups and Daisies."  
Duet—"Sousenir de Scotland."  
Dialogue—"Crowning of the May Queen."  
Song—"Home Sweet Home."  
Recitation—"The Brave Fireman."  
Music—"Woodland Echoes."  
Fan Drill.  
Trio—"Fisher's Hornpipe."  
Song—"Old Home Ain't What It Used To Be."  
Recitation—"The Angelus."  
Duet—"Fairy Queen Gallop."  
Flower Drill.  
"Musket Gallop," Piano and Mandolins.

### ALGODONES.

Special Correspondence.  
Algodones, May 2.—Crops of all kinds are looking well. Alfalfa will be fit to cut about May 15. Wheat is rather late this season on account of the trouble in getting the ditch ready. There is plenty of water for irrigation here. Fruit of all kinds will be a large crop, unless some untoward cause occurs. Sheepmen say this will be a good spring for lambing, but they claim that the ranges are very dry, no snow having fallen here last winter. The weather keeps very fine but everybody wants rain. May 1 was feast day with the San Felipe Indians. They had a big time and several people visited the pueblo to see the performance. There are reports in circulation here that the smelter is an assured fact, and that it will be built the coming summer. We are all in hopes that the report may prove true.

The Pitts Bros. are going to commence shearing their sheep next Monday. They have about 5,000 head, and all have wintered well. George F. Pitts says that he expects at least 80 per cent of the lambs and, possibly more this time.

Politics are very quiet here. Nobody seems to have anything to say, only all want to see statehood.

### WILLIAMS.

Special Correspondence.  
Williams, Ariz., May 1.—Senator Kearns of Utah, has introduced a bill asking that that part of Arizona lying north and west of the Colorado river be attached to Utah.

C. E. Boyce, of this place, says he can see where the senator is right. That strip of territory would be the finest locality in the world to start a colony on the old Mormon style of polygamy. On account of the unapproachable cliffs of the Grand Canyon of the Colorado United States marshal's would be unable to visit that isolated part of the continent, and in the event some work officer should come prowling around in that vicinity the many gorges, caves and chasms would afford valuable hiding places for the plural wives.

It would be a rank injustice to separate this bit of territory from Arizona

## DYSPEPSIA

To suffer from dyspepsia means that your stomach is too weak to properly digest the food taken into it. What you need is Hostetter's Stomach Bitters, the best medicine in the world to cure Dyspepsia, Indigestion, Insomnia, Nervousness, and malaria. Be sure to try it.

## HOSTETTER'S STOMACH BITTERS

Actively disguised under a mantle of pink roses and palms, the same color scheme being carried out in the house decorations, combined with carnations, ferns and smilax.

"The bride was crowned in white crepe de chine and carried lilacs of the valley. Old rose crepe de chine was worn by the maid of honor. Her bouquet and those of the bridesmaids were of pink roses. The gowns of the bridesmaids were pale blue silks, combined with white. Mr. and Mrs. Goodrich will receive their friends at 616 Washington boulevard after May 18.

### OBITUARY.

Mrs. Solomon Spiegelberg, Santa Fe, Answered the Last Summons.

The not unexpected death of Mrs. Solomon Spiegelberg occurred last night. Mrs. Spiegelberg had been suffering from weakness incident to old age for some time and had been gradually sinking the past few days. She was aged 75 years. Her maiden name was Floersheim and she was a native of Saxony. When 6 years of age she came to New York. From New York several decades ago she came to Santa Fe, where she has lived a quiet and retired life although she gained many friends and was well known in the city. She is survived by her husband, Captain Solomon Spiegelberg, and the following children, Mrs. Henrietta H. Field, and A. F. Spiegelberg, of Santa Fe, and William S. Spiegelberg, of New York. A number of grandchildren also remain to mourn the death of Mrs. Spiegelberg. The funeral will be private. The remains will be shipped to New York for interment. The family requests that flowers be omitted.—New Mexican.

## A BUSINESS BASIS.

Council Wants to Know What the Fixed Charges Are.

### LAST NIGHT'S MEETING.

Economy will be the watchword of Mayor Myers' administration. At last night's meeting of the council the finance committee made a report showing the receipts and disbursements of the city as based on last year's business. The committee was instructed to make a report at the next meeting of the fixed expense so that the council can know just how far it can go without exceeding the limit.

Mayor Myers presented the following nominations and the council confirmed them all:

Library commissioners from the Fourth ward—Mrs. Max Schuster, one year; W. P. Metcalf, two years.

Park commissioners—Louis Brooks and Mrs. F. W. Clancy.

City Engineer—V. V. Clark.

Sidewalks came to the front and Alderman Harrison presented a resolution which was adopted, making it optional with property owners outside of the fire limits whether they build of cement or vitrified brick. A petition for walks on Railroad avenue from Walter to High street was referred back to ascertain what kind of material is desired. A long list of sidewalk orders long ago but which have not been built was presented and the marshal was instructed to make a canvass and hurry the property owners up. Most of them are on Silver avenue between First and Third streets.

The marshal's report showed that during April 114 arrests were made, 395 meals were served and \$360 was collected in fines.

A petition for the extension of the water main on North First street from Tijeras road to the mountain road was referred to the water committee.

The recommendation was made that \$15 be spent on a dyke on East Railroad avenue to turn the flood water. The marshal was ordered to put a stop to the dumping of trash on the vacant lots between Broadway and Arno streets, and the street committee was instructed to find a remedy for the Santa Fe crossing on Railroad avenue.

Two are lights were ordered placed on the viaduct, to burn all night, including moonlight nights.

An ordinance amending section 4 of ordinance No. 77 was put upon its final passage and unanimously passed, by the terms of which every side show accompanying a circus, shall be made to pay a daily license of \$25, and lowering the license for theatrical companies from \$10 to \$5 for the first night and \$2.50 for each night thereafter.

Three bids were opened, offering to furnish the city with teams for street work during the coming year. The bid of J. W. Palmer, who agrees to furnish three two-horse teams, wagons and drivers at \$75.50 a month, and one horse and cart at \$62 a month, was accepted. Other bids were by Jerry Monahan and W. L. Trimble & Co.

New copper rules went into effect at the Metal exchange, New York, the other day. Under those rules all American copper can be traded in under the new standard contract, which is based on the contract under which business in copper is done in London.

Probate Clerk Manuel Delgado, of Santa Fe, recorded a mining location notice of I. R. Bradley and H. J. Cunningham for the Last Chance mining lode in the Gloria mining district.

The "Uncle Tom's Cabin" company had had luck at Cerrillos last Saturday. In the evening just before the performance began a wind storm blew down the tent, and no show could be given.

Bernard Fleisher, of the firm of Fleisher & Rosenwald, cigarmakers, left for a business trip to Deming and Silver City.

## MEMORIAL DAY.

Official Orders Issued By Department Commander J. W. Edwards.

### THE GETTYSBURG ADDRESS.

Memorial Day is now receiving the attention of Grand Army officers. The order relating to it by the commander-in-chief is a particularly beautiful one and in accordance with the instructions, Department Commander Edwards has issued his order. Mr. Edwards' first order was accepting the position of department commander and announcing his staff. His second is as follows:

Headquarters Grand Army of the Republic, Department of New Mexico, Albuquerque, N. M., May 1, General Orders No. 2.

In obedience to Memorial Day order issued by the commander-in-chief of the Grand Army of the Republic, and our duty as comrades, it is hereby ordered that the comrades of this department assemble at their several post halls, on Friday, May 30, 1902, and proceed to their different cemeteries or places of burial and there decorate the graves of our dead with flags and flowers, and if near a stream of water, strew flowers on the waters that the memory of those who went down to death in defense of their country.

Would that every comrade should read the commander-in-chief's memorial order. It is one of the most beautiful ever issued. I wish here to quote a portion of it.

"To every soldier of the Union, it is a day filled with sweet and precious memories. Unlike the dead of other wars, the memory of our comrades never fades. Though unseen by mortal eye, they still walk by our side, and their place in our hearts remains unfilled.

"We rejoice as the day approaches, and in ever diminishing numbers lovingly deck with flowers the multiplying graves of our comrades. In broken column and with unfeeling step we still carry the flag they loved so well, and march to the same music to which their loyal feet were attuned, our hearts pulsing with joyous pride as we realize that the memory of those who fell in defense of freedom and the right, is immortal.

"Posts will be particular to invite the schools of all denominations and sects and the young people to participate. No better lesson in patriotism can be taught. Where National Guards are stationed, they should be invited and asked to assist. The Woman's Relief Corps and other kindred organizations will always participate. The Thirtieth National Encampment provided that the reading of President Lincoln's address at Gettysburg, be made a special feature at all public memorial day exercises and is hereto attached.

Post commanders and chaplains are reminded that suitable arrangements should be made for public religious services on Memorial Sabbath, May 25. Posts should attend in a body. Let all the exercises and services on Memorial Sabbath and on Memorial day be full of love and patriotism. Ask that the children of the schools sing patriotic songs, give them flags to wave. It is expected that post commanders will make full report of Memorial day exercises to department commander.

President Lincoln's Address at Gettysburg, Nov. 19, 1863.

Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war; testing whether that nation or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we be highly resolved that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth.

### ABRAHAM LINCOLN.

By order of J. W. EDWARDS, Department Commander.

Official: W. W. McDONALD, Asst. Adj. Gen.

One lonely drunk and one weary bum appeared before Judge Crawford this morning. The drunk received ten days. The bum got time to get out of town.

J. H. Bearup and James Wilkerson, president and vice president of the Albuquerque wool scouring mills, came in this morning from Winslow, where they have been buying wool.

Pearl McMillin, who died at her rooms on Copper avenue yesterday morning was buried this afternoon at Fairview cemetery. Funeral services were held from Edwards' undertaking parlors.

Mrs. Romero, the venerable mother of Mrs. Al. Coleman and Jesus Romero, who has suffered intensely with stomach trouble, is up and around among friends, and yesterday visited the millinery stores.

The city fire department was called out about 11 o'clock last night by a still alarm which was turned in from 810 South Edith street. The blaze which was a very small affair was soon extinguished.

C. P. Owens, a business man of Seligman, Ariz., and Miss Lizzie Barrett, of this city, were quietly married in Los Angeles, Cal., April 30. The hap-

py couple expect to be at home soon at Seligman to their many friends.

There will be a meeting of the library commission at the library tonight at 7:30. The new commission will meet for organization at the same time. A full attendance is desired, since most important business is to be transacted.

Leon B. Hertzog, who is captain of the Albuquerque bowlers, says that the metropolitan will be represented by a fine team in their game against the Holy-day club at Belen next Sunday. The boys will leave for Belen Saturday night.

C. J. Crandall, superintendent of the Indian schools at Santa Fe, passed through the city this morning, going to Santa Fe. Mr. Crandall had with him nine Indian boys and four Indian girls from the Papago tribe of Arizona.

Miss Emilia Saxe, a well known trained nurse of this city, who has been at Al. Thelin's during the sickness of Mrs. Thelin, has herself been attacked by scarlet fever and is seriously ill at the Thelin home on North Third street.

The infant son of A. P. Klint, the Second street tailor, died at its home on the Highlands yesterday afternoon of infantile troubles. The funeral occurred this afternoon at 2:30 from the home. Interment was made at Fairview cemetery. Rev. Marsh, of the Congregational church, conducted the services.

Antonio Apache, of New York City, was in the city last night between trains. He came in from Winslow, Arizona, on No. 8, and returned west to Holbrook on No. 1. Mr. Apache spends several months in New Mexico and Arizona every spring, looking after his extensive sheep interests. He is also interested in some mining.

The big tent was packed again last night. Rev. Smith made quite a lengthy and interesting talk on the benefits of religion. The audience also enjoyed several vocal solos by Miss Augustine. Miss Augustine has an exceptionally sweet voice and beautiful expression. Meeting tonight at 7:30. Don't fail to hear Miss Augustine sing, if you do you will miss a treat.

S. Michael, who was a jeweler at Gallup, but sold out and came to Albuquerque, visited El Paso and is again here. He thinks El Paso all right, as far as El Paso and San Antonio streets are concerned, but outside of these two streets, for a certain distance, there is practically no business, hence his return here. He will engage in business in the territorial metropolis.

Toney Ortiz, of the firm of Ortiz & Co., met a citizen representative yesterday afternoon and announced that while he was at Santa Fe last Sunday, as a player of the Browns, he negotiated the sale of two sets of rubber tires for vehicles to Chas. Closson. Toney also says that the firm is doing a big business, and that five orders for so many different rigs were sent out last Saturday.

The wholesale liquor establishment of Bachechi & Glom, on First street, has greatly improved in appearance the past few days, and they say they intend to continue to improve. Plate glass has recently taken the place of cheap pieces of glass for the front windows, and these will be artistically signed by C. A. Hudson, the painter. The firm announce their business very good.

The "home" of N. E. Stevens, which is erecting on West Court avenue, will, when completed, be one of the nicest and most convenient in the city. Mr. and Mrs. Stevens planned the arrangements of the "home" themselves, and they planned well. The "home" is a two-story brick; the lower floor consisting of hallway, parlor, dining room, kitchen, with a fine basement, while upstairs there are rooms for Mr. and Mrs. Stevens, and one for each of the children—Mrs. Mabel Himoe, Miss Edith Stevens and Rolla Stevens. It is by all odds the nicest family residence in that neighborhood.

### Sunday School Workers.

The Albuquerque delegation to the territorial convention of Sunday school workers held at Las Vegas, returned last night. The delegation consisted of H. E. Fox, president of the association; Prof. C. E. Hodgins, Mrs. McSpadden and Messrs. Spencer and Norman. Prof. Hodgins paper on "Day School Methods in Sunday Schools" was published in full in the Optic. The address of President Fox and the papers by Prof. Norman and Mr. Spencer were highly spoken of.

Practically all of the ice house at Argentine, Kas., was destroyed by fire on Thursday, although there was a portion of one end that was not burned. The direct loss of ice was upward of 1,500 tons, though by the time the total is footed up it will be near 3,500. Nine refrigerators are being loaded, the boxes being filled so that the quantity stored may be retained as long as possible. This will be held at Argentine and used as fast as needed. The remainder will be boarded up and roofed, and every means possible used to save it. The lumber yard force at Topeka was on duty all Thursday night getting out the material for the structure.

Mrs. Lizzie Van Vleet, who is here on a visit to her mother, Mrs. Henry Lockhart, will leave in a few days for El Paso, where she will visit her sisters and brothers. Mr. Van Vleet, who is now in Florida, will join his wife at El Paso, and they will then leave for the Pacific coast cities. After a visit there they will return to Albuquerque, stopping over here a couple of days en route to Toledo, Ohio.

An eighty-five pound nugget running 82 per cent gold was recently discovered in Devil's gulch, Wichita mountains, near Guthrie, Oklahoma. It was found on the site of an ancient Spanish mine that had been covered up, as evidenced by the uncovering of several crucibles and appliances.

Seventeen cars of cattle for the Spear brothers were at Las Vegas yesterday, en route to Sheridan, Wyo., near which place the brothers have extensive cattle ranches. These are Mexican cattle and the Messrs. Spear are investing heavily in them.

Rev. Thompson, the missionary from Africa, who assisted Rev. C. A. Bunker with last Sunday's services at the Lead avenue Methodist Episcopal church, left for Trinidad, Colo.

## CONFLICTING ORDERS.

The Wiley Jap Arrested Here Escaped From Sheriff Farr.

### WAS PROBABLY RECAPTURED.

Policeman Salazar has gone to Walsenburg to act as a witness in the case of Koo Kunofo, the Jap arrested here. Mr. Salazar expected to leave on Saturday, but received a telegram not to come. Yesterday he received a second message to come. These conflicting instructions are probably explained by the following from a Trinidad paper:

Not long ago the Colorado Supply company's store near Walsenburg was entered and quite a number of articles carried off, principally razors, pocket knives, shears and the like.

Shortly after the robbery a Jap was arrested in Albuquerque, N. M., while trying to dispose of the missing property. That city's chief of police was asked to hold the man and an officer would be sent for him. Sheriff Farr, of Walsenburg, went to Denver, returning with the documents, but on presenting them to the New Mexico authorities at Albuquerque they were found to be defective. The error necessitated another set of papers, which were procured by the sheriff of Huerfano county, and a second trip was made by that officer to get possession of the coolie culprit. The second attempt was a winner and Mr. Farr started with the Jap for Walsenburg.

They arrived in Trinidad last evening on the Santa Fe and as the sheriff was about played out physically, by reason of his long journey after legal requirements, and his prisoner, he boarded a freight train bound for Walsenburg, thinking he would soon have his charge in jail at that place and be able to get some much needed rest himself. But the product of Japan argued differently, at least, so it seems. When the train reached the vicinity of Aguilar, Mr. Farr was wandering in the "land of nod" and his molasses finished companion was not in evidence. In reporting the sudden leaving-taking of his traveling companion, Mr. Farr did not say if any Japanese claims had been put up on the terminal journey, or that he had partaken of any of the coolie's liquid hospitality; just simply stated that his prisoner had gone. He is evidently going yet, at least, he has not been heard from since. Sheriff Farr has been mixed up with the Asiatic in this country often enough to become acquainted with the fact of a "Jap" being gotten up considerably like his native neighbor, the Chinaman, and that both are somewhat peculiar in their methods, these characteristics necessitating a greater degree of watchfulness on the part of those who wish to keep close on the animal. A bay horse is also reported missing in that country and if the "Jap" can be located within a reasonable length of time, it would not be surprising if the owner of the horse would recover his property as well.

## CHANGED HANDS.

The New Board Took Charge of the School Affairs.

### MR. HOPKINS RE-ELECTED.

The school board which has served the people of Albuquerque for the past year, last night officially died and the new board was sworn in. The balance on hand was \$2,422.33, but many warrants were ordered drawn. The old board ordered 274 joints of Oregon pine, as it will take some time to get them. President Hopkins thanked the board for its good work the past year and a vote of thanks was given Mr. Rankin and Mr. Stevens, the retiring members.

The recently elected members, Messrs. Hopkins, Alger, Newman and Pratt and Dr. L. H. Chamberlin as treasurer, were sworn in by Probate Clerk Summers. The holdovers are Messrs. Dodd, Isherwood, Ward and Keen.

The new board organized by electing Mr. Hopkins president, Mr. Pratt vice president and Ralph Hunt clerk. The bond of Dr. Chamberlin as treasurer was approved. The board informally discussed plans for the year's work and then adjourned until next Monday night, when the committees will be announced by President Hopkins.

### NECK AND NECK.

Pretty Race for Presidency of the Women's Clubs.

Los Angeles, Cal., May 6.—The political outlook this morning in the women's convention is that Mrs. Decker and Mrs. Denison, of New York, are running neck and neck for the presidency. Mrs. Decker's reiterated statement she would not interfere with the chances of the New York woman, has apparently had no effect on her following and state after state has offered its allegiance. Mrs. Denison is not at all perturbed over the change and would throw her influence to Mrs. Decker, if any one, and for still local reasons in every way trying to advance the interests of their candidate. The possibility of the presidency coming west, which was not marked at the opening of the convention, has unsettled the promoters of candidates for secondary offices. The nominating committee met at 5 o'clock this afternoon and all sorts of ineptuous booms are being started.

A second business session met this morning with the house crowded.

Two important measures, one referring to individual clubs and the other on the passage of the application of a club through the membership committee, were adopted. Both were part of the compromise amendment to one section which was accepted yesterday, to the especial satisfaction of the south, as against Massachusetts and the two other sections accepted today were likewise victories for the south.

Mat Kireh, who was the general merchant at San Rafael, has removed to Grants, and writes The Citizen that he is "running a hotel at Grants, and that anybody coming that way can find a good clean place to eat and sleep."

# Mines and Minerals

Wm. M. Robbins, of Hillsboro, Sierra county, has purchased one fourth of the old American mine near Hillsboro. Consideration, \$2,500.

Hillsboro, Sierra county, will this month give employment to about 180 men. Two companies and the Gates outfit will each give employment to about sixty men.

The Santa Rita district, New Mexico, is coming to the front and now attracting special attention. Several rich shipments of ore have recently been made to the El Paso smelter.

Reporters come to Las Vegas of rich copper finds at Pintado. Some considerable work is being done under the direction of G. Taggart and fine rich ores have been encountered.

At the Boston Mining Exchange last week 927 shares of Cochiti stock were sold at from 25 to 45 cents a share; and 1,419 shares of the Santa Fe Gold and Copper company's stock at \$3 a share.

The gold and silver tellurium ores are found on Trujillo creek, about six miles south of Kingston, Sierra county. It is found in small bunches near the surface; \$20,000 to \$30,000 has been sold already.

Extensive work has been done on the Clearwater group, Santa Rita district, New Mexico. Native copper has been encountered at a depth of twenty feet. The value of the ore body is increasing with depth.

It has been definitely decided that \$200,000 will be advanced to buy ore for the proposed smelter at Silver City, N. M. This proposition has been made by eastern capitalists. The first proposition made was \$100,000.

The Kingman Mineral Wealth survey. John Kay has struck a fine body of copper and gold ore on another of his mines at Mineral Park. It will make the smelter more profitable when they see this new feeder to their smelter.

F. C. Baker, A. R. Quinly and R. S. Morrison have recorded the following copper claims in the San Miguel county mining district: Copper Chief claims, Nos. 1 to 5; Copper Queen, Nos. 1 to 3, and Copper Cent, Nos. 1 and 2.

Margarito Romero reports excellent progress in his coal mine up the Galinas canyon near Las Vegas. In one of which a vein twenty-four inches thick has been found. The coal is of fine quality and will be an excellent coking material.

The splendid developments in the El Porvenir coal mines have caused the stock to take a jump of several cents. The issue is exhausted and there is no more stock for sale. The mining operations there are becoming quite extensive and those interested feel they have a little bonanza.

W. B. Twitcheell has returned to Las Vegas from his Denver and St. Louis trip and says everything looks rosy for the immediate construction of several reduction mills. Two mills will go in at once, he thinks; one at Fulton and one at Blake's. The mill at Tecolote is being held up a few days for a decision as to the size wanted.

At the Tecolote grant meeting at Tecolote, San Miguel county, it was decided to borrow the sum necessary, \$775, to pay the survey, or for running the lines and getting the boundaries of the grant determined. It will be money well spent, for after the boundaries are determined, a patent from the government can be secured.

The commissioners on the Tecolote grant survey in San Miguel county secured the necessary sum of \$775 for the payment of the surveyor from H. W. Kelly. Mr. Kelly liberally gave the gentlemen the amount without interest for eight months, after that time they will pay 6 per cent on the balance due until paid. The survey will be made once and titles in that district will be clear soon.

The Timber Peak plant complete has been sold to a company operating at Velarde, Durango, Mexico. T. L. Mitchell of Spokane, Wash., has charge of the dismantling and shipping of the plant. Ed Keeler and Jim Gibbons have taken a contract to deliver the dismantled plant on the cars at Water Canyon station. They will begin operations at once and expect to complete the work in about three weeks.

An important deal was made at Trinidad, Colo., by which B. F. Groomer and W. J. Murray, of Trinidad, and Dr. J. E. Lowry, of Sopris, Colo., became owners through bond and lease of the Free Gold claim of the Chickasaw Mining and Development company, four miles southeast of Red River and seven miles from Elizabethtown. The consideration was \$5,000, to be paid in five annual installments, with 10 per cent interest. The ore on the claim is a brown mass of hematite and assays from \$100 to \$300 per ton in gold. A 40 foot shaft and a tunnel of 175 feet constitute the development work. Mr. Groomer and associates have also purchased the Emerald mine adjoining the Free Gold.

## KINGMAN DISTRICT.

Few Paragraphs from One of the Best Best Districts in Arizona.

Work on the Great West mine is progressing nicely and the shaft is in good ore. Water is coming in large quantities in the mine and enough is now assured to supply the mill.

The King mine, owned by Mrs. John Kay, is said to be a world beater. Nearly a carload of very rich gold-silver ore has been taken from it in sinking and as yet the pay streak shows no diminution. Mrs. Kay has held on to this claim for years and her faith in it is meeting with a golden reward.

G. A. Wagner departed for Dawson, Northwest Territory, where he is largely interested in placer mining. Before leaving he contracted for the sinking of the main shaft of the Alexander 100 feet deeper and an upraise to the surface from the old works for air. The work, it is expected, will take about three months to complete. Mr. Wagner will be gone until about the first of August.

The Pyramid mill is running on Catherine and the plates are coating up well with gold. Heretofore the ore worked through the mill gave a poor amalgamating result, but showed

up well by cyanide treatment. Now the ore is amalgamating beautifully on the plates and it is considered unnecessary to use the cyanide treatment. There are thousands of tons of ore in sight in the mine and the mill will be kept pumping away for months to come.

We understand that O. F. Kuencer has resigned the superintendency of the German-American company, and will at once begin operations on the Ark and San Antonio mines near Mineral Peak. The Ark has a two compartment shaft several hundred feet deep, in the bottom of which there is exposed a large body of ore. In the drifts on the 200 level there is an ore chert exposed the full length of both drifts, a distance of about 200 feet. This ore carries values in gold, silver and copper.

The San Francisco mining district is fast filling up with prospectors. In fact so many are there in that country that water will soon become an important question to them for camp purposes.

In the country surrounding boundary. There are nearly five hundred men at work either prospecting or working in the mines. Hundreds of veins have been located and in fact there is not one available foot of ground for miles around that is not covered by a mining location. There are two saloons in the district and more are going in. At Gold Road camp Lovin & Withers have a branch store and another store is projected for the Fremontwell camp.

The Caddis & Perry company have received returns from a shipment of three sacks of ore recently sent to the Selby Smelting company from the General Harrison mine, owned by Ole Ingelbrezen, and which netted the sum of \$260, after deducting all expense. The ore gave a return of 78 ounces gold and 75 ounces silver the ton, a value of \$1,604. This ore comes from a small streak in the vein and Mr. Ingelbrezen takes it down separately. The other portions of the vein give good results and a shipment of fine class ore will soon be made. The mine is located in Todd Basin—Kluksman Miner.

## CONCENTRATION.

It Works Successfully in the Lordsburg Copper District.

A correspondent in the Denver News from Silver City, says:

The new concentrator, owned by the Lena Mining company at Lordsburg is doing excellent work. Three carloads of concentrates netted the company \$7,500.

A new vein of ore has been discovered in the carbonate mine, ten feet in width and assaying full width at \$20 per ton.

The directors of the Michigan-New Mexico Copper company inspected their property at Lordsburg last week. Those present were Dr. W. A. Dorland, and C. R. Lubon, of Grand Rapids; Albert Lakens, of Zealand, and A. R. Gibson, of Santa Fe.

The directors of the Last Chance mine have secured ground in Lordsburg for the erection of their concentrator with a capacity of fifty tons daily. There is about 15,000 tons of ore in sight ready for treatment.

Miner Engineer E. S. Daugherty, of the Colorado Fuel and Iron company, has definitely decided on many improvements to facilitate the handling of the ore for that company.

The American Consolidated Copper company is now producing 200 tons of ore daily, and will, with their new plant, care for the ore of Michigan-New Mexico people. Their mines are located in the Shakespeare district, and carry well in gold and silver, besides their copper values.

## THE ANACONDA BONDED.

Important Mine Deal Reported from Red River, Taos County.

George B. Paxton and a number of Pittsburgh capitalists have bonded and leased the Anaconda mine on Copper hill, just across the river from the postoffice, says a correspondent of the New Mexican from Red River. As operations were reached in the mine the gold and copper indications disappeared and gold has taken the place. Three shafts have been sunk, one 420 feet deep, which at a depth of 235 feet has a lead of quartzite and porphyry that averages \$2.10 a ton in gold until the depth of 420 feet was reached. Mr. Paxton says that this large body of low grade ore can be treated by the cyanide process for 50 cents a ton. The second shaft is down 300 feet. At 195 feet it cut the lead which is composed of tellurium quartz ten feet wide, averaging \$20 to the ton in gold, with a trace in silver and of copper. The third shaft is down 260 feet. At a depth of 195 feet the Anaconda lead was cut carrying \$2.75 in gold, a trace in silver and in copper. At a depth of 210 feet another lead was cut of fine looking quartz which has not yet been assayed but is over 50 feet wide. The company will not be troubled with water except surface water from the river.

## WORLD'S COFFEE CROP.

Constantly Increasing and the Surplus is Growing Every Year.

The world's production of coffee for the season of 1901, according to the best statistical information at hand, was 150,000 bags of 132 pounds each. Of this immense product Brazil's share was 11,500,000 bags. In other words, Brazil produces nearly four-fifths of the total crop, and in spite of the glutted markets, its production is increasing every year.

Santos is now exporting about two-thirds of the entire crop of Brazil. Although Rio de Janeiro is next to Santos, the greatest coffee port in the world, it is far surpassed in shipments by the smaller port south of it. The Central American states and Mexico, and the other South American republics, Venezuela, Colombia, Ecuador and Peru contributed to the markets 2,200,000 bags. For a little place the republic of Hayti is a remarkable contributor to the coffee supplies, its product last year amounting to 450,000 bags. The berry of Hayti is particularly esteemed in France, which takes two-thirds of the exports, very little com-

ing to our market, as Brazilian coffee is cheaper and gives larger profit to importers.

Porto Rico and Jamaica supplied 200,000 bags. Thus Latin America produced 15,500,000 bags, leaving 1,500,000 bags to come from the rest of the world. The other producers were the Dutch East Indies, 480,000 bags; British India, Ceylon and the Philippines, 315,000; Africa and Mocha, 225,000; and Padang and Celebes, 50,000.

The surplus over and above consumption was 1,342,380 bags. This large over-production is almost equal to the total annual consumption of France. As a consequence the price of the commodity is still low and coffee growers are complaining of hard times, though those of Brazil seem to suffer less than the planters of other countries. This is probably due to cheap production the result of the enormous plantations equipped with the very best machinery for producing the crop for market and branch roads running right from the coffee houses on the large plantations to the ports. Labor is also very cheap on the Brazil plantations.

It is predicted that the Brazilian growers, though they, too, are complaining of low prices, can stand the strain better than the small planters of other countries, many of whom are now reaping no profit and are soon likely to be compelled to give up the struggle and devote their lands to other crops.

## CRIME OF A WIFE.

Husband and Father Peaten and 1 ed on Railroad Tracks.

John Graham, a wealthy ranchman, seven miles west of El Paso, in New Mexico, and his wife, his 16 year old daughter and his daughter's fiancé, Jim Crow, are inmates of the county jail at Las Cruces, charged with assault to murder. Graham was beaten into insensibility by the prisoners, according to his story, and bound to the Southern Pacific railroad track to be mangled by the first passing train. An hour later he recovered and escaped. Crow fled from the sheriff at Las Cruces, into the hills, but, heavily armed, was captured at El Paso by four officers. He was with his sweetheart and her mother when arrested and offered no resistance. Graham declares that his family, aided by Crow and a negro tried to murder him to get possession of his money and property.

## The Latest Account.

Mrs. John Graham, her three daughters, James Crowe and the negro John Walkley, who were arrested yesterday morning on charges of attempting to do away with the husband of the first named at the Graham goat ranch, seven miles west of town, attempted to regain their liberty yesterday afternoon through habeas corpus proceedings before Judge Walthall, but failed. Uvalde Burns represented the defendants.

They then said they would not go back to New Mexico without requisition papers but afterwards reconsidered this decision and left last night over the Santa Fe for Las Cruces in charge of Sheriff Lucero and Deputy Sheriff Ryerson.

Deputy Sheriff Will Ryerson, who is on special duty at the Blabbe and Southern Pacific camps, returned this morning from Las Cruces.

He says that Graham was picked up last night and carried to Las Cruces on the same train with the prisoners but that Mrs. Graham would have nothing to say to him or do with him. Ryerson says Graham's condition is very dangerous and that it is extremely doubtful if he recovers.

The room in which Mrs. Graham, her three daughters and Crowe were arrested yesterday morning was rented by Crowe on Sunday.

There are two young Graham boys at work out at the camps and it is reported that they are very bitter against their mother and elder sister. The two other girls were quite young, and possibly were in ignorance.

Deputy Ryerson says that Crowe is not the name of the man at all, but that he had forgotten his real name. He says that he was arrested down near Denison, Texas, three or four years ago, and while being carried from one place to another in a buggy secured the sheriff's pistol, covered his shackles and escaped. Ryerson says he has a wife and perhaps some children down around Denison.

Crowe, or whatever his name is, has been a walking boss at Antonelli's camp on the Southern Pacific—El Paso Herald.

## NEW MEXICO SOIL.

An Experiment Which Proves That It is Superior to the Soil of California.

R. M. Hardin, director of the weather bureau station at Santa Fe, received the following account of a comparative experiment in New Mexico soil from A. J. Woodbury, postmaster, of Woodbury, in the Cochiti district, Bernalillo county:

"A year ago or more I sent a quantity of soil gathered a stone's throw from this station to my family in Los Angeles. One-half of a long box was filled with this soil and the other half with that of the garden which is as good as any in that city; without fertilization. Several varieties of seeds were planted, each receiving the same watering and care. The seeds in the New Mexican soil threw up their shoots from one to three days earlier than the other; some seeds being quicker of action than others; and in the vigor and growth the New Mexican soil was so far in advance that there was no comparison. The soil from here was decomposed lava, a cliff of which there are millions of train loads which can never be reached by irrigation."

## MISS MARGUERITA GARCIA.

She is a Fortune Teller and is Holding Sway in San Marcial.

Albuquerque is reaching out, with a new attraction, for the great sacks of silver dollars stored in the homes of our people. Miss Marguerita Garcia, a fortune teller, has been with us from that city. The boys are in love with her; the mature man thinks she is the cutest combination of shape, style and winsome smiles on the pike; while the old rounder (the only recognized authority in such matters) is growing cross-eyed gauging her best points at long range. Marguerita is doing a lively business in guessing at past and

future records, and her pictures of rich husbands and wives, castles in the air, and homes of barbaric splendor under the sea, must savor of the real thing, for a few of the boys were roped several times in one day, and others were found stationed on the steps leading to her rooms before the little charmer had partaken of her breakfast and found a light for the seductive cigarette.—San Marcial Bee.

## SIERRA COUNTY.

Items of General Interest from Hillsboro, Kingston and Fairview.

From the Advocate.

Hillsboro.

S. F. Keller has received a fine plat of the group of mines owned by the Mascot Mining company.

J. E. Hopkins was in town this week. He has a portable thirty-five horse power engine and boiler for sale at a bargain.

Will M. Robbins has purchased a one-fourth interest in the old American mine. The consideration is said to be \$2,500.

Oliver C. Connor, Sr., of Cincinnati, Ohio, is here looking into some mining propositions in the vicinity of Animas peak.

The man who can't say a good word for his own camp ought to move on. The "knocker" is a detriment to any community.

Grading for the mill site and other buildings by the Hillsboro Gold Mining and Milling company in Ready Pay gulch, is going on rapidly.

The ore body in the Cincinnati has increased to three feet and grows stronger with increased depth. Manager Hirsch while in El Paso last week selected hoisting machinery to be placed on this promising property.

Col. A. W. Harris has come in contact with some good ore in tunnel No. 5 of the Illinois mine, at Kingston. This tunnel is 700 feet in length and the ore, some of which will go 500 to 1,000 ounces silver per ton, has been exposed variously on the contact for a distance of forty feet.

## Kingston.

The watch that was stolen from the express office some time ago was discovered in the possession of Frank Lyons. The case was tried before Judge Bernard. Lyons pleaded guilty and was sent to jail for ten days.

Z. C. Silvers and S. Hurst, of Carpenter mining district, brought in some beautiful specimens of gold ore last week, which can be seen at the post office.

R. and Bert Cowley and wife came back from Arizona last week. The boys are back to do work on the Lone Star.

Anna Bucher returned to her home at Hillsboro last week. She has been visiting with her grandmother, Miss Judge West, for several days.

E. Armer was hastily called to the bedside of his little daughter, Mary, who is seriously ill with typhoid pneumonia. Dr. Given, of Hillsboro, was called and everything done to relieve the little sufferer.

Joseph and Robert Kensingler have a fine lot of young registered goats which are a credit to them as breeders. Their increase has been very successful.

## Fairview.

Messrs. Anderson and Swineheart, with their wives, arrived at Roundville from South Bend, Ind., recently. They are a part of the Oliver Mining company and are here to stay.

Ed James and Austin Crawford have some fine looking ore in the Nana tunnel, as a result of their recent workings.

B. S. Phillips is sinking a shaft on the Silver Monument west from the old one. C. B. Hullinger and Lew Kruse are his American working force, the balance being Mexicans.

Lee Terry is rushing the new double compartment shaft on the New Era. The machinery is fast getting in place.

C. D. Laidlaw arrived in the Range from El Paso, where he went from Las Cruces after being excused from jury service. He was accompanied by A. W. Gifford, secretary of the International Mining association of El Paso, who spent a few days looking over the camp so that he could speak intelligently of its resources. Mr. Gifford expressed himself as well pleased with the mineral showing of the Range.

Rumor of a deal on the Dreadnaught has reached here. Hope it is a go.

Henry S. Cloudman, of El Paso, recently and his mine at Ojo Caliente re-located, has arrangements pending for a deal by which considerable work will be done toward development, and he will probably visit the range in the next thirty days.

The Winston hold-up crowd is occasionally heard from but not by the parties who are hunting them.

The Colorado Iron and Fuel company, who are boring for coal a little below the second pump station in Fort McCreas gulch, are down over 1,500 feet. The first 1,000 feet is with two-inch core diamond drill and the last 500 or over one-inch. About one foot of coal was struck in the bore, but not being enough, work was continued. They are in sandstone and will continue the search as they are still in carboniferous strata. The flow of water struck at 200 feet still raises and is a valuable proposition even if nothing else is discovered.

John Widner has a fine lead proposition about twelve miles from Engle.

## TULAROSA.

From the Democrat.

Nicolas Sais has given bond for carrying the mail from Tularosa to the agency. If his bond is accepted at Washington his contract will commence July 1, 1902.

D. H. McGuire, of Taylor, Texas, is in Tularosa on a visit to his sister, Mrs. El Knight. After a stay of about a week he will return to El Paso and go to California, and will then return here to reside permanently.

F. C. Matteson, Captain's ambitious young attorney, formerly of Tularosa, is an aspirant for legislative honors, and has been pretty well over the district interviewing his friends in regard to the matter.

Charles Bromond, leaser from the agency, left here with several wagon loads of freight and also took out with him ten or twelve men to shear his sheep. He has the finest crop of lambs this year that he has ever raised. It will average 102 lambs to every 100 ewes.

Mrs. Maud Thayer, of Topeka, Kas., passed through Tularosa for the agen-

cy. She is the mother in law of Mrs. Hensley, the agency blacksmith, whose wife died a few weeks ago. She will remain at the agency permanently and keep house for Mr. Hensley.

There was a riot hot time in the old town the other day. A warrant was sworn out for Attorney Hutchinson for using undue familiarity with the deputy water boss in regard to the use of water, which the deputy claimed belonged to other parties. Also George Tullman for professional services, and some ore belonging to the mining company. Hutchinson has been representing now stored at the depot, but as the railroad company had \$50 against it, the constable concluded he could get along very well without it.

## LAS VEGAS.

From the Record.

After a tussle with the mumps for several days, Pablo Jaramillo, deputy probate clerk, is again on duty.

R. C. Oldham returned from Santa Rosa. He was there a week and says the town looks very desolate after the fire.

Mrs. Julius Graaf and her sister, Mrs. B. Hammerschlag, left for St. Louis for a visit. Mrs. Hammerschlag will go to Germany later.

Mrs. E. H. Shields has broken up housekeeping here and will go to Santa Fe in the next few days to make her home with her daughter, Mrs. J. L. Zimmerman.

Martin Garcia and Pedro Ortega filled up with tanglefoot and started to fight. They did not finish, as the police interfered and took them to the "cooler." They were given the penalty before Judge Bacon.

Ten recruits were added to the infantry company. The company had a good drill on the plaza and was topped up in new uniforms. The company will give a private dance at Buale hall next Thursday night, for the company only. In the near future it intends to give a public dance as a benefit.

C. D. Holman, of St. Louis, is here selling stationery. He takes the place of E. H. Wieland, who had made this territory for Holand for twenty odd years. Mr. Wieland and brother with Mr. Blackwell, have gone into business at St. Louis for themselves. Frank Wieland, who is well known here, will make this territory for his own firm.

From the Optic.

Rev. A. P. Morrison, superintendent of Methodist missions in the territory, whose home is at El Paso came in from the east.

Mrs. Noa Ifield, on her way from Denver to her home at Albuquerque, stopped off in the city to visit the families of her brother in law, Charles Ifield, and her sister in law, Mrs. Julius Ifield.

The Optic learns by telephone that the residence of Juan Trujillo, of Mora, was completely destroyed by fire last night. Nothing was saved. Miss Trujillo was to have been married today, but the fire caused the event to be postponed.

Senator Jewell, Al Quinly and Sam Landis went hunting, and between the railway hospital and town they killed forty-two doves and five ducks. Mr. Jewell is captain and ordnance officer of the Third regiment of the national guard of Missouri and is a crack shot, especially with the rifle.

## SANTA FE.

From the New Mexican.

Miss Teresa Gildersleeve has returned from Pueblo, where she has been studying and serving as a trained nurse at one of the hospitals.

E. Wesshart, formerly of Winslow, Ariz., is visiting friends in Santa Fe. He will remain about two weeks and will then go to Colorado to engage in business.

Probate Clerk Manuel Delgado received a deed by J. H. Walker to A. P. Benahan for one-twelfth interest in the Grand Mogul Montezuma and four other turquoise claims in southern Santa Fe county.

Santa Fe now has a Pennsylvania club with headquarters in the Thornton house on San Francisco street near the cathedral. Its members are the officials of the Santa Fe Central railway and the Pennsylvania Development companies.

Mr. and Mrs. J. P. McNulty, of Turkeys, arrived in Santa Fe. At Lamy they met Mrs. McNulty's sister, Miss L. C. Hawley, of London, England, who will make her home in New Mexico. She arrived recently on the Atlantic liner, Minnehaha.

Mr. and Mrs. S. S. Beatty arrived on the flyer from Chicago. Mr. Beatty is a well known business man from this city, who spent the past year traveling from California to New York. He was married last Tuesday at Chicago.

George Anton, the merchant in the Catron block, who has extensive sheep interests in Rio Arriba county, reports that out of 50,000 sheep in the vicinity of Coyote, in that county, there will be scarcely 6,000 lambs. Many of the old sheep are also dying owing to the lack of feed and water.

The Topeka State Journal says: William Charlton, who worked in the Topeka boiler shop a few months ago, but who since has been in that department at La Junta, was in town Saturday, leaving Saturday afternoon for Needles, Cal., where he will follow his trade. There is an exodus of tradesmen of all classes from that point right now on account of the intense heat which prevails during the summer months. It is considered the most unfavorable of any of the division points on the Santa Fe, so far as climate is concerned, and for that reason the company must pay its employees there the highest wages of anywhere. First class machinists and boiler-makers are getting \$3.75 a day. On account of the warm winters there it is not so difficult to find men to work.

There is some talk about the shops that a number of the departments will soon begin shutting down Saturday afternoon. This was practiced formerly during the summer months, but it was not in vogue last season.

William Barnes, formerly a foreman of the machine shop at Topeka, but sent to the American locomotive works at Pittsburg, Pa., a few months ago to inspect fifteen engines as they were built by that company, has been detailed to go to the Baldwin plant at Philadelphia, where the Santa Fe is getting seventy-five engines, and over-

## CLEANING SAN MARCIAL.

Ladies Organize for Purpose of Ridding Town of Filth.

A few ladies, representing the women of the town, met at the school house to consider the subject of ridding our town of filth, says the San Marcial Bee. After some deliberation it was decided to organize, and in the name of San Marcial Street Cleaning society, Mrs. Hanna was elected chairman, Mrs. May Roly first vice president, Mrs. C. G. Cruickshank second vice president and secretary, Mrs. Clark treasurer.

It was decided to ask a monthly contribution of 15 cents from each family to defray the expenses, said sum to be collected about the 20th of each month by a committee, viz: Mrs. D. W. Hitchcock, Mrs. Tyler, Mrs. DeHart, Mrs. Fisher.

It is expected that each family will provide themselves with a garbage receptacle into which all refuse shall be deposited, instead of the alleys receiving it as usual. The garbage will be collected and drawn away at the expense of the society.

Further, it is supposed that every member of the society (and that means every housekeeper in town) will resolve herself into a special committee, one to see that her premises are thoroughly cleaned and so kept. The date of the general cleaning will be announced in the Bee. By order of the society.

MRS. C. G. CRUICKSHANK, Secretary.

## COMMISSIONERS ORGANIZE.

Plans for Establishing Two New Departments in the University.

The commissioners of the Raynolds public library met last night in the reading room of the library building. The new board organized by electing Mayor Myers president, W. P. Stetson vice president, Mrs. G. W. Johnson secretary and Dr. J. W. Elder treasurer. It was decided to enter into negotiations with the regents of the university to lease to them the unused rooms in the building for a college of music. The proposition of the regents was that the university supply heat and light for the entire building and rent the rooms from year to year. A department of music and art will be established and it is probable next year will see both departments in full operation.

President Tight says no formal announcement will be made as yet, but the college of music will have no equal in the southwest. The course of study in the preparatory department has been extended to cover four years, instead of three.

*E. W. Dobson*

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day

## Rain at Las Vegas.

At last the rain has favored Las Vegas. A large, plump cloud got square over the city, and let go. The rain seems to have been general over the neighboring country. The benefit to the grazing lands will be enormous and our sheep owners will rejoice.—Record.

For the first time in about eight months, Las Vegas has received the blessing of a baptism of rain. It came down in gentle, continuous showers, and everyone is glad, while the thirsty earth smiles to heaven in its gratitude. It is to be hoped that the scope of the rain was widely extended, and that it will repeat itself on many days to come.—Optic.

The Choctaw put a new time card into effect Sunday, which will make connection with the Rock Island trains at El Reno, and the schedule will be slightly varied because of the several extensions recently built or bought.

## NOTICE OF SALE.

In the District Court, )  
(In the County of Bernalillo.)  
Territory of New Mexico. )

No. 5276.

E. L. Medler et al. vs. Tillie A. Sanchez et al.

Notice is hereby given that under and by virtue of the decree of said court in the above suit, dated January 3rd, 1902, and entered of record in said court on the 6th day of January, 1902, the undersigned, Special Master appointed in said decree, will on Tuesday, the 19th day of June, 1902, at 10 o'clock a. m., at the front door of the Court House of Bernalillo County, New Mexico, in Old Albuquerque, New Mexico, offer for sale and sell to the highest bidder for cash the premises hereinafter described to satisfy the indebtedness decreed to be due to the complainant, Amalia Ponke, from said defendants, to-wit: the sum of Eight Hundred Seventy-four and 80-100 Dollars (\$874.80), together with interest

# Gallup, Cerrillos and Bland

## News Notes From Exchanges

### GALLUP.

From the Republican.  
The new well at the round house has been completed. It is 450 feet deep.

Assessor Canavan is making a trip through the eastern part of the county on business.

Mrs. W. H. Wolff, who has been visiting in California for the past two months, is expected home next week.

Misses Clayton and Murphy are not applicants for positions as teachers in the public schools here next year.

On the 28th inst., Referee Salin heard the evidence in the divorce suit of Mrs. Lucella Miner vs. L. H. Miner.

Mr. Graner, a brother of the gentleman who was here last summer and who is interested in oil lands here, is spending a few days in Gallup.

Mrs. C. V. Imeson, wife of local master mechanic of the Colorado Fuel & Iron company, recently arrived from the east.

Two new base ball teams have been organized, one at Gibson and the other at Weaver. Tom McAllister is manager of the Gibson team.

Mrs. Whitson of the Whitson Music company, Albuquerque, is in town and is the guest of Mr. and Mrs. T. C. DeShon.

D. C. Russell, of the firm of Russell & Elsie, has purchased property at Point Richmond, Cal. and it is said the firm will move their stock of goods to that place shortly.

Mrs. M. E. White, wife of Joseph White, the Indian trader at Cienega, died on the 24th ult. after an illness of several months. The funeral took place at the home on Sunday last.

A sister of Mrs. John Rains arrived here from her home in Arkansas. Mr. Jones, a friend of the family, also arrived from the same place this morning.

A picked nine of Gallup ball players went to Fort Wingate last Sunday and made a score of 9 to Wingate's 16. Some of the boys tried to explain on their return how it happened, but they didn't seem to make anybody understand. They were treated in fine style by the soldier boys.

Miss Emma J. Campbell left here for the coast. She will stop off at Los Angeles and take in the sights at the floral carnival and then go by boat to her home in San Francisco.

George Sampson has purchased the Weidemeyer place at Cienega and has opened a general store, including liquors. In addition to the Indian trade at that place, J. H. Owen, the contractor, has about fifty men employed on the Catholic school buildings. The men are paid semi-monthly in cash, and the job will last six or eight months. Ed. Dugan has charge of Sampson's Rock Spring store.

### CERRILLOS.

From the Register.  
The Cerrillos schools closed last Friday.

Professor Giltner returned from his mines in the Sandias.

Tom Hull, of Las Vegas, was a business visitor in Cerrillos.

W. P. Gould, of Pecos, transacted business in Cerrillos.

R. H. Thomas left for a ten days' business trip to Chicago.

Mrs. W. H. Kennedy went to Albuquerque for a several days' visit with Mrs. W. E. Dame.

Charles Hull and mother and brother started on their overland trip to Kansas.

Joe Sheridan, territorial mine inspector, who had been transacting business at Madrid, took the train here for the south Saturday evening.

Rev. J. H. Messer returned from Watrous, where he had been to fill his regular appointment.

Miss Burt Rogers has taken up a select school since the public schools closed, which has an attendance of about a dozen.

Ed. McNulty, who has been spending the winter in Arizona, returned last week. Mrs. McNulty and the children remained at Gallup for a visit with friends there and at Gibson.

Messrs. Thomas Jones, Thomas De Lallo and a number of other small boys have organized a whistle band, and will give a band concert each evening through the summer.

John R. Humphrey and son were up from the Manzano mountains. They report the mining camps of that region booming. Mr. Humphrey says he considers that the richest copper region he has seen in the territory.

The picnic season was formally opened last Sunday by Messrs. Wells, Brown and Ede and their families and Henry Wesley, who spent the day out at San Marcos pueblo. This picnic is one of the most interesting in this region, and an ideal picnic ground, and the party reported a very enjoyable time notwithstanding the wind which was quite strong during the latter part of the day.

**The Best Prescription for Malaria.**  
Chills and fever is a bottle of Grove's Tasteless Chilli Tonic. It is simply iron and quinine in a tasteless form. No cure, no pay. Price, 50c.

### BLAND.

From the Herald.  
Phil J. Barber has gone to Santa Fe.

David Springer has returned from Santa Fe.

H. F. Bruce returned from Thornton. Real estate was on the move again this week.

Fred Grant was in from his ranch Saturday.

George Buck returned from Albuquerque.

Joseph Rontledge returned from a trip to Santa Fe and Glogieta.

Wayman Callendar went to Cerrillos and he will visit Santa Fe before returning.

George White, otherwise known as "Cockney," has left town, accompanied by his dog.

Wayman Callendar killed a large mesa hawk. It was an unusually fine specimen and measured four feet four inches from tip to tip.

The suit of Dr. Grace vs. Mrs. H. M. Reed was heard at Pena Blanca and resulted in a verdict for plaintiff. The case of H. H. Shaw vs. Mrs. Reed was in favor of plaintiff.

William Rogers returned from Santa

Fe, accompanied by his daughter, Miss Ora, who has been attending the mission school in territorial capital for the past several months.

### ST. LOUIS WORLD'S FAIR.

Chiefs of Departments Report on New Mexico Exhibit.

Two representatives of the St. Louis World's Fair have just returned to that city from a trip of 7,000 miles, visiting eight states, sixteen important cities, and conferred with seven governors, Frederic W. Taylor, chief of the department of agriculture, acting chief of the department of horticulture, and Charles M. Reeves, secretary of the committee on legislation, and give most encouraging news of the active interest in the exposition to be held throughout those parts of the west over which they traveled.

"We stopped first at Albuquerque, N. M.," said Mr. Taylor, "where we met Governor Miguel Otero and held a meeting with the New Mexico commission, who are alive to the importance of the exposition. Let me say here that throughout our trip we found that the people of the west have an abundance of patriotic sentiment and civic pride and believe in the great educational value of the exposition, they took upon the opportunity which the world's fair at St. Louis will offer as a business proposition of very great importance to them and purpose to make the fullest of it. Our conference with the commissioners proved to our satisfaction that New Mexico would make a strong showing of her mining interests, her agricultural and horticultural resources and a considerable display of her forestry products. The plans of the commission are well organized, and we have reason to look for a splendid representation."

### A CROOKED PREACHER.

Lordsburg Ministers Found Out His Record Just in Time.

Rev. Bruce Goddard, who has been stirring up communities in Arizona, dropped into Lordsburg the other day and intimated that he would like to hold a revival in Lordsburg and save many of the sinners who needed conversion. While the trustees of the Methodist church were considering the matter a friend handed one of them a copy of the Silver Belt, printed at Globe, Ariz., which devoted a little space to Mr. Goddard, intimating that he was a white washed preacher, and concluding with the local preacher for being caught by a man with such a record, but claiming the local preacher was not to be blamed, for Mr. Goddard carried such a front that he had deceived a bank cashier, let alone an unsophisticated preacher of the gospel. The paper was handed to Mr. Goddard, and he was asked if he was the same man. After reading the Silver Belt, Mr. Goddard withdrew his application for the use of the church and took the next train for the east, leaving the Lordsburg ministers to find salvation in some other manner.—Lordsburg Liberal.

### GATES GET MONON.

Will Combine It With the Louisville & Nashville.

A railway system embracing the Chicago, Indianapolis & Nashville (Monon), and the Louisville & Nashville, will, it is said, soon be in operation between Chicago and New Orleans. It was learned, according to the Daily News, that John W. Gates, and those working with him, have secured control of the Monon. This was done by buying \$3,000,000 worth of stock in the open market and by the purchase from Sam Thomas of \$6,000,000 additional stock at 72, gives the Gates syndicate \$9,000,000 of the \$15,000,000 capital stock of the road.

### GOOD WORK FOR KENDRICK.

Minneapolis Paper Speaks of Former Northern Pacific Man.

There is so much being said now about the radical changes on the Santa Fe, due to Third Vice President Kendrick, that the following item from the Minneapolis, Minn., Times is interesting:

"Under the general management of J. W. Kendrick, formerly of the Northern Pacific, increase in traffic, increment in earnings and decrease in expenses of the Atchison, Topeka & Santa Fe railway have been marked, and gratifying to the stockholders. There is nothing surprising in this to those who know Mr. Kendrick, his methods, his experience, his capacities, his keen intelligence as an executive."

### New Equipment for Choctaw.

The Choctaw system, recently purchased by the Rock Island, has filed with the secretary of Oklahoma a copy of a lease between the company, Edwin H. Smith, of Philadelphia, and the Grand Trust company, of Philadelphia, for the following rolling stock for the new Choctaw system: 1,200 cars of 60,000 pounds; 100 flat cars of 80,000 pounds; 500 coal cars of 80,000 pounds; 6 flat cars and 5 second class passenger coaches; 5 chair cars and 50 locomotive engines. These are for the Guthrie-Halleyville line, 143 miles long, the main line of the new system.

**Charged With Cattle Stealing.**  
Beclente Maestas was brought in yesterday from Los Pinabates, Union county, by Sheriff Romero. He is wanted in charge of stealing cattle in this county under an indictment found in 1893. He had been out of the country until just recently. Sheriff Romero got wind of his return and promptly nabbed him. He is now thinking over his dark past in a cell at the county jail. He will be tried this term of court.—Las Vegas Record.

**Little Child Shot.**  
Willie, the 4 year old son of Mr. and Mrs. Charles Beck, who are camped in a tent on Spring river, was shot in the foot by some person with more ammunition than caution or brains.

The mother of the child heard a shot

at some distance, but paid no attention to it until the child began to cry, when it was discovered that the little one had received the bullet in the right ankle, the ball passing clear through the member, shattering the bones, though not to such an extent as to imperil the use of the limb.

Dr. C. M. Vater was called and removed several pieces of bone and made the little fellow comfortable. In his opinion the use of the foot will not be affected unless some unforeseen complication sets in.—Roswell Record.

### GOLDEN.

Special Correspondence.  
Golden, May 7.—F. E. Pettys, and John Polinka, have taken a lease in the Pine Tree mine, and they will take out some ore for treatment.

The McKinley mine is being worked every day. The ore taken out now is all full of free gold. About 100 tons is now sorted and ready for the mill. It is now waiting for the starting of the Golden mill.

Messrs. Ryckman and Doran have been several days in the camp looking over some mining interests. Preparations will be made for starting the works of the Baird mining company. The well now eighty feet will be sunk to a greater depth, until sufficient water is found to run the thirty stamps now built in the ground and ready to run.

L. D. Sugar, general manager of the Argo Mining company, has let a contract to Alexander & Co. to sink the shaft in the Hazleton mine fifty feet deeper, thus making the total depth of 210 feet, where the body of copper ore is expected to be found, according to the surveys recently made by the geological surveyors of the camp.

In the New Mexico mining claim extensive work has been done in the different places lately worked by Mr. Morrison and company. The ore taken out shows free gold. Preparations for applying for a patent are being made before some very extensive work will be done in the New Mexico, where the showing now indicates large bodies of good free milling ores.

J. L. Lopez, after a long delay in getting the Mayo mill to treat the ores from the San Miguel mine, has made satisfactory arrangements with Mr. Mayo and is now hauling ore every day. The mill will start tomorrow grinding out the yellow metal. This means the running of the mill steady, as Mr. Lopez has enough ore in sight to keep the mill busy for several months.

James M. Lucas, the Puerto mill man, is running the mill steady with ores from his mines on the Ortiz mine grant. The ore treated now is not very high grade, but has enough values to pay very well for every day runs. The best ore, Mr. Lucas says, that runs way up in the thousands, is left in the mines, but will be run some time in the near future. Five thousand dollar ore is well worth having.

At the Perry Gulch Mr. McCullagh reports the finding of high grade copper ore in the Bob Ingersoll mine by H. H. Perry. The ore recently found was sent to the Cerrillos smelter for assaying. The returns show the ore to carry 24 per cent copper. Several tons of this ore will be taken out and shipped for treatment to the Cerrillos plant, or sent to some smelter in Colorado.

### Betrayed By His Wife.

Several days ago a barrel of whisky was stolen from the railroad company at Alamogordo. The barrel was buried, but later dug up and sold for the sum of \$50. A woman who has resided there for some time informed the officers that her husband was the thief, and Constable Newt Kemp and a deputy are on the fellow's trail. The thief had been forwarned and tried to get out of the country on horseback, but was pressed so closely by the pursuing officers that he abandoned his mount and crawled through the barbed wire fence, leaving his pursuers to chase him away on the opposite side. The horse, however, was taken and then chained and looked to a post. During the night the post was dug up and post, horse and thief could not be located.

Arrangements have been made for a reunion in Salt Lake City of the descendants of Brigham Young. In this connection it is interesting to note the fact that the members of the family of the late head of the Mormon church now make up the first definite statement as to the number of his progeny. Brigham Young, according to the complete returns and with all the outlying precincts heard from, was the father of fifty-six children, forty-seven of whom survived him. The number of his grandchildren was 294, and from these have sprung 745 grand grandchildren, making a total of nearly 1,000 descendants of the prophet, not counting the great great grandchildren, if there are any.

### The Territorial Fair.

General Fred Punnett presided O. N. Marron will attend the fair at Albuquerque next fall. Mr. Marron has just returned from Denver, where he went as a special representative of the fair association to extend the invitation. He will be accompanied by his entire staff and the troops at Fort Wingate will be ordered in during the fair and it is expected that four troops of cavalry will be there. The officers of the association are greatly pleased over the hearty acceptance.—San Marcial Bee.

### Hot Time at Tucumcari.

Last Sunday morning at 1 o'clock, Benjamin Slaughter, a cowboy, started a row in Shane's saloon at Tucumcari, Guadalupe county, and then proceeded to shoot up the town. A man named Castor interfered and a duel ensued in which bullets passed freely through bar, table, a large glass mirror and other fixtures in the saloon. Slaughter received a bullet through the hip, but was not fatally wounded.

**Stops the Cough and Works OFF the Cold.**  
Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25 cents.

### Settled Out of Court.

In the breach of promise case of Candelaria Duran vs. Jacobo Branch, of Mora, in which Candelaria asked \$5,000 for lacerated affections and a punctured heart, the matter was settled amicably and the case dismissed on the payment of a few thousand dollars less than the price demanded.

## BIOGRAPHICAL SKETCHES

OF S. M. Strickler and E. S. Stover of Early Days in Kansas.

### TWO OLD SETTLERS.

W. S. Strickler, vice president and cashier of the Bank of Commerce, has recently received a pamphlet copy of an address by George W. Martin, secretary of the Kansas State Historical society, delivered before the Old Settlers' Association of Geary county, September 23, 1901. The title of the address is "The Territorial and Military Combine at Fort Riley," and the Citizen reproduces from the pamphlet the brief biographical sketches of E. S. Stover, of this city, and S. M. Strickler, who resided here some years ago, but whose death occurred later in California.

### Samuel M. Strickler.

Samuel M. Strickler was born in Tennessee in 1832, but grew to manhood in Shelby county, Indiana. He obtained a good common school education, and attended Franklin college. He taught school, and then engaged in business in Alabama, coming to Kansas in 1869, and locating at Junction City. The firm of Streeter & Strickler purchased a merchandise stock from William Leaser, still living at Leas Ferry, and one of the most remarkable businesses ever conducted in Kansas began at Junction City. The firm did a contracting business, covering the entire plains to the Rocky mountains, reaching to every government post or military camp, and employing hundreds of the pioneers then scattered over western Kansas. The firm dissolved and retired from business about 1876. In 1882 Strickler was elected to the state senate, and he was a member of the house of representatives in 1871. He was in the early '60's the first three years of its existence.

Strickler and William K. Bartlett maintained the Junction City Union-Strickler was a great hearted and low. A. W. Callen was employed to close out the business of the firm, and he told the writer that the books showed as much as \$3,000 a year of charity given out and charged to Strickler's individual account. He removed to Leadville, Colo., in 1879, where he remained three years; thence to Albuquerque, N. M.; thence to Magdalena; finally settling on an orange ranch near Azusa, Cal. Here he died, April 21, 1894. His remains were brought to Junction City the following December, and laid to rest in Highland cemetery.

He was a strenuous man with a strenuous nerve, and did strenuous things. In the early days of the railroad he shipped a lot of quinquinae from Liverpool, England, to Kansas City by water. The railroad wanted more for hauling it from Kansas City to Junction City than it cost to Kansas City. Strickler sent his "bull train" to Kansas City and got the stuff to Junction City for less than the railroad rate offered.

### Elias Sleeper Stover.

Elias Sleeper Stover was born at Rockland, Me., November 22, 1836. He was educated in the schools of New England, but his father being a sea captain, he soon inherited a love of the sea water, and at 15 years of age he began as a common sailor. He visited nearly all the ports on the American seaboard, and many upon the coasts of Great Britain, France, South America, and the West Indies. Upon one of his visits at home, about 1858, he heard of the troubles in Kansas, and soon he landed at Junction City. Stover is credited with starting the first Sabbath school in Junction City. Between ocean trips he learned the trade of painter and glazier. In 1861 he enlisted in company B, Second Kansas, and participated in the battle of Wilson Creek. After three months he again enlisted, and was made first lieutenant company E, Second Kansas. He was mustered out as a captain in the fall of 1865, having participated in fifty-one different engagements, without being a day upon the sick list, or asking a leave of absence. In the fall of 1866 he was elected a representative in the legislature from Geary county. In 1867 he was appointed Kaw Indian agent. In 1870 he was elected state senator from Morris and adjoining counties. In 1872 he was elected lieutenant governor for two years, and during that time he presided over the joint convention made memorable by the exposure of Senator Pomeroy by Senator A. M. York. He received twenty-seven votes for United States senator in the legislature of 1874. He now resides in Albuquerque, N. M., where he has for many years been a prominent man.

### Mexican Central Buys a Line.

The following circular letter was received at the El Paso office of the Mexican Central railway:  
"Mexico, April 25.—The Mexican Central Railway company, limited, having purchased the Pachuca, Zacualpan, and Tancitaro railway, effective from the date, the authority of Mexican Central officials is hereby extended over same."

### "A. A. ROBINSON, President."

This new acquisition of the Mexican Central is about 200 miles in length and extends from Pachuca to Tampico, touching at Apasco, Zacualpan, Chilpancingo, Chontula and Oaxahuatlana. The road gives to the Mexican Central an almost direct line from the City of Mexico to the seaport at Tampico, and will open up for the road a very fertile section. The country traversed is said to be the finest coffee section in the republic, and that cattle raising is also a flourishing industry there.

### Cochiti District.

Mountains of gold and realms of silver. Great is Cochiti!  
It is now a certainty that the Navaho company will have a big plant in operation here about the first of July, so we are informed.  
It is safe to say that there is not another particular locality in the whole United States that will compare with Cochiti district in area and richness of ores.

If you want to see veins of ore seventy-five feet in width that will give an average of over \$100 per ton come to the Cochiti district and your desire will be gratified.  
In the case of M. C. de Baca et al vs. William Jenks, involving the ownership of the Buena Ventura mining prop-

erty in this district, the jury found for the defendant.

The money is up and the Woodbury will be put in shape to run in a few days. V. V. Clark is expected to arrive the first of next week, when the work will start.

There is a sufficient amount of ore in sight in the Cochiti district to keep a mill in constant operation for many years, and yet there is not a dozen mines in the camp below grass roots.—Bland Herald.

### ACCOMPLISHED MAN.

Father Hagerty, Who Will Lecture Here, Is Accomplished.

Rev. Father Thomas J. Hagerty, who will lecture in Colombo hall on Thursday evening, May 15, is thus spoken of by the Miner's Magazine:

"Father Hagerty is one of the most polished scholars in the American church. He speaks eight languages and is a scientist of eminent ability. Physicians of Cincinnati who met him while he was visiting there last year say that he is far superior to the average physician in his knowledge of medicine. In addition to this Father Hagerty is a splendid writer and an eloquent orator and a man of magnificent appearance." Father Hagerty will speak on "Economic Discontent and Its Remedy," and the lecture will be free to all.

### SAN MARCIAL.

Special Correspondence.  
San Marcial, N. M., May 8.—Stock trains are moving through here in numbers. On account of the Rock Island having trouble north, the Santa Fe is getting a lot of trade here the last few weeks.

Yesterday afternoon about 3 p. m. it began to rain, and turned into big big buckets, and the water coming off of the main washing sand and rocks on the track held all trains six to seven hours.

J. N. Broyles received a car of corn from Superior, Neb., today.

Uncle Tom's Cabin will show here this afternoon and evening.

E. W. Brown returned from his ranch yesterday and will stay here until the British government horse inspector arrives and probably ship some more horses.

The Broyles telephone line is now under construction to Clyde, about six miles. The line runs from Old San Marcial to Clyde.

C. T. Brown, of Socorro, made a flying trip down here on freight last night and returned on passenger this morning.

Sheriff Blackington is down here on special business.

Conductor Al Eitrim is back here again with his family making a regular run as conductor out of here.

### ROCK ISLAND GETS IT.

Contract for Carrying United States Troops Is Awarded.

It is announced that the contract of the government with the railroads for carrying the naval forces of the United States and their baggage and equipment from stations on one side of the continent to the other has been awarded. Among the middle western roads which have lines extending to the Rocky Mountains the competition was lively.

To make the complete route between the Atlantic and the Pacific coasts the contract this year includes the Rock Island, the Denver & Rio Grande and Southern Pacific in the west and the Chesapeake & Ohio and Big Four connections east of Chicago.

The contracts for moving naval and land forces of the government across the continent has grown since the beginning of the war with Spain to much larger proportions than it ever reached before that time.

Locomotive #24, the oil burner which was turned out for the Santa Fe several months ago, and since then has been in the hands of the experts at Topeka, left last Friday night under its own steam and taking train 29 behind it. Its destination is some point on the Santa Fe Pacific, probably Needles, Cal., although that is not definitely announced. Its success in the consumption of liquid fuel was in doubt for awhile, but after much experimenting the results were highly satisfactory and it has shown a tractive power to boot above all that could be looked behind it. John Gallivan, road master of engines on the southern California lines, who has been at Topeka several weeks watching the trials with the #24 accompanied it on its long trip to the west.

### Of Local Interest.

Mr. and Mrs. Bernard Hild, of Albuquerque, are visitors in Santa Fe.

Frank W. Clancy, Esq., attorney for the Second judicial district, and a mighty good official, spent yesterday in the capital on legal business.

Rev. R. M. Craig, of Albuquerque, superintendent of Presbyterian missions in New Mexico, arrived this noon with Rev. W. W. Artburg, of New York.—New Mexican.

Although it has been impossible as yet to compile figures from ticket reports to show the actual value of the spring settlers' movement which closed on April 30, the lines carrying the greater part of the traffic through the St. Paul gateway estimated that it numbered fully 50,000, an increase over last year of 14,000. Contrary to general belief, most of the settlement has not been in Pacific coast states. North Dakota is credited with more new settlers than all of the states from its western boundary to the Pacific coast.

Chief Engineer Sumner, of the El Paso-Rock Island railway, has returned to Alamogordo from a ten days' inspection trip of the Dawson railroad. He reports that next week connection will be made with the Santa Fe railway and then shipments of coal over that road to El Paso will begin. The stockyards on the El Paso-Rock Island are completed at El Paso and yards will also be maintained at Hueco, Otero county, and Ancho, Lincoln county.

Friday evening at the home of Mrs. William Rhodes, in Las Vegas, J. W. Burke, of the Brotherhood of Railway Trainmen, organized a Ladies' Auxiliary to the Brotherhood of Railway Trainmen. The following officers were elected: Mrs. Ida Rhodes, mistress; Mrs. Clara Bell, vice mistress; Mrs. Lizzie Wisler, secretary; Mrs. Margaret Yeakum, treasurer; J. W. Burke, coun-

cilman. There were sixteen charter members present.

Claim Adjuster Zimmerman, with headquarters in this city, was a west-bound passenger last night.

Two cars loaded with Italian immigrants, direct from Italy, passed through this city last night on their way to California.

Fourteen railroads reporting for the fourth period of April show aggregate earnings of \$3,960,162, a gain of \$555,197, or 16.8 per cent.

The new time card will go into effect on June 1. The mail trains for the west and south will depart several hours earlier than now.

The Rock Island railway is going to advertise El Paso with as much energy as if that corporation owned the town and had lots to sell.

Fred T. Pearce, of the oil department will have charge of the Petroleum Development company's lands at Bakersfield, recently acquired by President E. P. Ripley of the Santa Fe.

W. F. Klidder and E. W. Griffith, of the American Locomotive works, are in the city on business, and after a stay of a couple of days here, they will continue west to the Pacific coast.

Arthur Griffith, who was formerly connected with the roller shop at San Bernardino, but who has been located in New and Old Mexico for several months, has returned to that city.

The work of building transcontinental railroad lines continues. Senator Clark and his friends have all arrangements completed for a new line from Denver to Los Angeles via Salt Lake City.

The superintendent of construction of electric machinery at local shops, L. A. Gazin, who was out west on business, has returned and will be kept busy at the local shops for a few weeks.

W. H. Mann, who has been operator for the El Paso-Rock Island at Alamogordo, has resigned and gone to Jimulco, Mexico, where he will accept a position as second train dispatcher for the Mexican Central.

Santa Fe Pacific engineers and firemen are helping out the cattle rush on the Rio Grande division. Three stock trains from the south passed through the city, on passenger time, yesterday afternoon and last night.

The Chicago, Rock Island & Mexico railway will build an interlocking plant at its crossing with the Fort Worth & Denver City railway at Dalhart, Texas. The interlocking machine will have twenty-five working levers.

Elmer Jacquay, according to reports, is to quit his job as boss boiler maker for the Santa Fe at Raton, N. M., to take a similar place with another road. He was an employee of that department in Topeka about ten years ago.

The railroad company, fearing a repetition of serious washouts of track along the Rio Puerco, has the work train stationed in that vicinity repairing and preparing to meet any kind of a flood in the treacherous Rio Puerco.

Lory Barnes, of the roadmaster's office, San Bernardino, has tendered his resignation and will leave shortly for Salt Lake City. He goes to take a position with the chief surgeon of the Oregon Short Line, whose headquarters are in that city.

A car load of machinists from Denver went west from Deming to Canaan to take the place of the strikers there. There may be something doing when they reach the border for the strikers have determined that no imported machinists shall work.

Eight boiler makers are wanted on the western lines of the Santa Fe—four at Raton, N. M., and four at La Junta, Colo. There is a great demand for mechanics all over the country and the man who has a trade can find work on almost any western road.

William E. Symons, newly appointed mechanical superintendent of the Gulf, Colorado & Santa Fe lines, has retired from his position of superintendent of motive power for the Plant system at Savannah, Ga., and is now in control of affairs at Cleburne, Texas.

At Las Vegas a ladies' auxiliary to the Brotherhood of Trainmen has been organized with the following officers: Mrs. Ida Rhodes, mistress; Mrs. Clara Bell, vice mistress; Mrs. Lizzie Wisler, secretary; Mrs. Margaret Yeakum, treasurer; J. W. Burke, councilman.

Six of the fourteen patients in the Santa Fe Pacific hospital were discharged yesterday. The more serious cases were Jose Matta, who lost a leg under a switch engine here; Charles Illetta, a Jap, who lost a leg at Winslow; and Mike Chavez, whose foot was amputated.

Tuesday morning some time after the Rock Island train going to El Paso had passed, the long bridge at Pintado, eight miles south of Santa Rosa, was entirely consumed by fire. Freight traffic on this end of the road has been suspended and will remain so for several days until another can be built. The bridge was evidently set on fire by incendiaries

## LAMBS FOR PROFIT.

A new business for the farmers of the eastern end of Long Island is what is known as the raising of "hot-house" lambs for the early market, says the Philadelphia Ledger. At least three farmers are at present interested in this business, and they are making money on the venture.

Hot-house lambs are a luxury that but few can obtain. The demand began a few years ago for lambs out of season, and those with pocketbooks long enough were willing to pay any price to get them. Two years ago a Sayville farmer shipped about twenty to market, and the returns were so satisfactory that he made arrangements to go into the business more extensively. Last year he shipped fifty-seven. The shipments are made in the latter part of February and the first of March, and the fancy prices of \$8, \$10 and \$12 each are received for a very small lamb. The carcasses are never cut up. They are sold by the wholesaler direct to customers, who use them in big dinners.

He has the upper portion of his barn fitted with glass, and in this his breeding ewes, thirty-five in number now, are kept. On bright days the solar heat makes a summer's day in the place, and there the young lambs, twenty in number, frisk and gambol as merrily as on the hillside in July. He raises Dorsets and Southdowns.

### A Welsh Ram.

This ram, winner of the first prize at Cardiff show, 1901, is the property of Owen Price, Nantyrharn, Cray, Brecon.

### Lambs Did Not Balance Ration.

At the Michigan station a test was made during the winter of 1894 and 1895 which showed that ten lambs, being left to choose for themselves corn, wheat, oats or bran, consumed in thirteen weeks 556 pounds of corn, 189 pounds of wheat, 247 pounds of oats, 467 pounds of bran and during the time ate 924 pounds of clover hay. This indicates, says Professor H. W. Mumford, that when fattening lambs are left to choose for themselves between corn and the other grains mentioned, they will invariably consume a much larger amount of corn than of any other grain. By figuring out the nutritive ratio of the different feeds consumed in the experiment referred to above we find that the nutritive ration was 1:6.6, which is not very different from the standard nutritive ratio for fattening lambs, which varies all the way from 1:4.5 to 1:5.4. We are not warranted in drawing the conclusion from this that domestic animals when left to choose for themselves will necessarily consume feeds which would make up an ideal balanced ration, even were we quite certain that the palatability of the different feeds furnished the sheep is equal.

### Washing Sheep.

A correspondent of National Stockman desires to know whether it pays to wash sheep before shearing. That depends entirely on the way sheep are kept, the locality and, above all, the established method of handling wool in that locality. Washing sheep does not pay where they are housed and fed, having a large quantity of oil in the fleece, and where buyers will pay for wool according to its condition and shrinkage. But where sheep run outdoors most or all of the winter and where buyers insist on a discount of one-third on unwashed fleeces it is necessary to wash before shearing, because as usually washed there will not be a shrinkage of over 10 per cent in the fleece. Washing is injurious to the sheep, especially to the ewe suckling and to her lamb, and it should no longer be necessary anywhere.

### Not Enough Sheep.

It is said that there are 42,000,000 sheep in the United States, or one to each forty-five acres, not including Alaska. In Great Britain they have one to each three acres, in France one to each nine acres and in Germany one to each eleven acres. If we had sheep in proportion to Great Britain, or fifteen times as many as we now have, there would be no necessity of importing wool, and we should have mutton to export as well as beef. And yet we think there are but few farms that could not easily carry from four to six sheep for every head of cows they have and that would largely increase the number, and not only that, but the sheep would so much improve the productivity of the land as to soon double the amount of animals it would support now.—American Cultivator.

### Big Deal in Sheep.

J. R. Hamilton, the world famous mutton buyer, recently closed a deal with William Childress for 5,000 muttons, 1,500 dry ewes, 2,000 bred ewes and 1,500 yearlings at \$2.25 per head. These sheep belong to the Howard Well ranch, T. T. Thomason bought a flock of sheep from Mr. Thomas, of Bosque county for \$2 per head. The sheep are now ranging in Deer canyon on the Pecos.

### REFLECTIONS OF A BACHELOR.

It takes a good woman to make a bad woman hate her.  
An engaged girl never changes the color of her hair over night.  
The woman with an absent husband has no padlock on her fancy.  
What a woman doesn't tell about herself causes many a marriage.  
The seasoned love of a twice-made widow has its reminiscent periods.  
A widow just in mourning has a year to study the colors that will match her better than the old ones.—New York Times.

### A Glimpse of Cecil Rhodes.

A glimpse of the late Cecil Rhodes is had in a letter written from Kimberley, soon after the British occupation of the city. Rhodes one day in Kimberley was picturing the grandeur of British South Africa. Just then a Bitter was borne by. Rhodes' face was illuminated by enthusiasm. He had just said: "The cost of the struggle is

as nothing to the fruits that are to be reaped," he Bitter bearers paused to change their hold. The fair face of an English soldier had been turned toward Rhodes and the wounded boy's pain drawn lips moved. Sympathy changed the expression of Rhodes' face as he stepped down to the dying soldier. "I am not afraid to die," gasped the boy bravely, "but there is no one to take care of mother." "I will provide for her," said Rhodes simply, as he made note of the mother's name and address, and he strode quickly into the house, with tears in his eyes, muttering, "Oh, the cost of it, the cost of it all!"

"Neglected colds make fat graveyards," Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

### UNSELL-ROGERS.

Homer T. Unsell and Miss Belle Rogers Married at Las Vegas.  
One of the prettiest weddings that ever occurred in Las Vegas took place last night at the home of Mr. and Mrs. A. T. Rogers, it being the marriage of their popular and accomplished daughter, Miss Belle Rogers, to Homer T. Unsell, the cashier at Browne, Manzanera & Co., says the Las Vegas Record.

The ceremony was performed at 9 o'clock by Rev. Norman Skinner, the pastor of the Presbyterian church. The parlor was beautifully decorated and the happy couple stood under a lovely marriage bell, made of red and white carnations, which was suspended from an arch trimmed with smilax, interwoven with roses, carnations and orange blossoms. The arch was backed with palms, ferns and lilies, forming a veritable lower of beauty and an ideal place for the final enactment of cupid's sweet decree.

The bride was attired in a lovely gown of liberty silk over tulle, trimmed with duchess lace, with a bridal veil, and she wore a pearl brooch set with diamonds, presented by the groom. She wore orange blossoms in her hair and carried a beautiful bouquet of white roses.

The bridesmaid, Miss Lottie Fort, wore a lace trimmed white silk dress and carried a bouquet of American beauty roses.

The best man was the brother of the bride, A. T. Rogers, Jr.

A delicious wedding supper was served by Duval at the home. The dining room was beautifully decorated, a chain of smilax hanging from each corner of the room to the centerpiece in the middle. The room was lighted with candles and everything was merry as the traditional wedding bells.

Only the immediate friends of the family and a number of young ladies, friends of the bride, were present. Numerous telegrams of congratulations were received and many valuable presents, as evidences of the esteem in which the couple is held in by their large number of friends.

It was the intention to take a honeymoon trip to Missouri but certain business interests interfered, and the couple will take it later. In the meantime Mr. and Mrs. Unsell will stay at the Castaneda until their cottage on Fifth street is ready for occupancy.

### Dangerous if Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Tarry, Yanketown, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

### THE YOUNGER PUPILS.

Were Entertained by Miss Braithwaite and Miss Heimoeck.  
The Misses Braithwaite and Heimoeck gave a social for some of their younger pupils yesterday afternoon. The recital was held in the studio in the Commercial club building. The children acquitted themselves most creditably. After the recital a social time was enjoyed and dainty refreshments were served. The following is the program:  
"Morning Star Waltz".....Lanner  
Miss Elleen McMillan.  
"Birds of Summer Time".....A. Gabriel  
Miss Gertrude Walker.  
"Robin's Lullaby".....Krogmann  
Miss Regina Rosenwald.  
Valse Op. 64, No. 1.....Chopin  
Master Lawrence Hild.  
"Have You Seen My Kitten".....C. J. Bond  
"The Slumber Boat".....Jessie Gaynor  
Miss Elleen McMillan.  
"Tiny Tim".....Miss Dorothy McMillan.  
"Whistling Boy".....Ortle  
Miss Beatrice Hild.  
Turteltaubenchen.....Otto Schleuning  
Miss Gertrude Walker.  
"A Valentine".....J. R. Fairbank  
Master Lawrence Hild.

### Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. George H. Hansen, locomotive engineer, Lima, Ohio, writes: "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Alvarado Pharmacy.

### MINERS KILLED.

Two Men Crushed Under Fall of Roof in Coal Workings at Capitan.  
The falling in of the roof in mine No. 4, of the New Mexico Fuel company's coal workings at Capitan, resulted in the death of two miners, David Thompson and William Webb. The accident occurred just before the day shift came out, and it is thought to have been caused by heavy shooting. The bodies of the unfortunate men were rescued after several hours' digging. This is

the first accident of any consequence which has occurred in this mine since it was opened, over three years ago.

### Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. It's the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Grove-ton, N. H. "I never found anything else that acted so safely and quickly." J. H. O'Reilly & Co., B. H. Briggs & Co.

### LETTER LIST.

Following is the list of letters remaining uncalled for in the postoffice at Albuquerque, New Mexico, for the week ending May 3, 1902:

#### LADIES' LIST.

Baldonado, Petra Johnson, Lena  
Baca, Jesusita La Velle, Mrs C  
Cater, Mary Lopez, Encarnacion  
Cyonin, Mrs Maud S  
Guerin, Maria M de Mayo, Mrs J  
Gillen, Mrs Ed Newman, Mrs J  
Gonzales, Elvira Sherman, Mrs Bee  
Gary, Mrs Emma Stoner, Mrs John M  
Gutierrez, Mrs Isa Trujillo, Serafina  
bellita R de Woods, Jessie

#### MEN'S LIST.

Ackerman, C D Lyon, Jay  
Aguilar, Jose Murphy, John F(2)  
Amole, Jose Martinez, Juanito Jr  
Anon, Prof Robt Montoya, Bedardo  
Albuquerque Acad- Martinez, Francis-  
emy, Principal of co B  
Baca, Magdalena Morris, George  
Bullock, Ed Marquez, Juan  
Benton, Dr B R Morris, Henry  
Brentout, J Meyer, L S  
Bliss, Dr L W Perry, Harry  
Brown, Ora Pargan, Manuel  
Cumberworth, Wm Robbins, A  
H Ringley, Charlie  
Casey, Rev Father Rogers, Ernest  
Castro, Rafael Rose, Chas  
Castillo, Climaco Rossi & Corbet  
Chapin, F J Stapp, F P  
Dorn, Wm Smith, W Lee  
Diamond, Jas M Stephenson, Frank  
Donohue, James Shepard, Jerry W  
Dunning, Fred W Sweeney, John  
Epperson, J A Sanchez, Ambrosio  
Garcia, Alejo G Tasker, L E  
Guiseppie, Fornica Taylor, Hugh  
(3) Vallegos, Prudente  
Gray, G H Vallegos, Antonio  
Green, J W Watson, Wilbur  
Jordan, Alex Wallace, Dr E H  
Jervis, William (2) Kennedy, Harry

Persons calling for the above named letters will please say "Advertised," and give the date of publication.  
R. W. HOPKINS, Postmaster.

### No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to thrashers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the thrashers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by all druggists.

### Town of Tucumcari.

The Pathfinder says that the town contains:  
A bakery.  
Four doctors.  
A butcher shop.  
Nine new stores.  
A hardware store.  
One livery stable.  
One jewelry store.  
One millinery store.  
Plenty of free land.  
One furniture store.  
Four general stores.  
A shoemaker's shop.  
A big new coal chute.  
A good live newspaper.  
Two real estate offices.  
Three new restaurants.  
A population of about 500.  
Carpenter and paint shop.  
Two big new railroad lines.  
Two up-to-date drug stores.  
Two first class barber shops.  
One completed church building.  
A bank with \$25,000 capital stock.  
Three lumber yards with big stocks.  
Two hotels, both of which are new.  
One school house and another under construction.  
Extensive resources at over a hundred thousand dollars.

The board of trade is composed of twenty of the live business men of the city, and has been organized to make an active campaign to improve the city, locate industries and increase the business of the town.

### Won't Follow Advice After Paying For It.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by all druggists.

### Committed Suicide.

Shortly before noon yesterday Luis Morales shot himself twice with a large calibre six shooter. The wounds inflicted will in all probability prove fatal, although when last heard from he was still alive. Dr. Anderson, the attending physician, however, stated

Drying preparations simply developed catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and mists, and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 55 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed just ahead of catarrh and hay fever.

## Scrofula

### THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of tentacles sure swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

S. S. S. makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.  
THE SWIFT SPECIFIC CO., ATLANTA, GA.

that he did not believe the man had a chance to recover, although he might live for some time.  
Morales is a Chihuahua Mexican, and came to El Paso but a short time ago to visit his uncle and aunt, Pedro and Cecilia Morales, who reside in an adobe near the Santa Fe depot.—El Paso Times.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.  
"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by all druggists.

Installation of Officers.  
The following officers of Santa Fe commandery No. 1, Knights Templar, were installed at the regular monthly convocation held in the early part of this week by Past Grand Commander E. L. Bartlett:  
Eminent Commander—George W. Knaebel.  
Generalissimo—C. F. Easley.  
Captain General—John H. Walter.  
Prelate—Rev. W. A. Cooper.  
Recorder—F. S. Davis.  
Treasurer—H. B. Cartwright.  
Senior Warden—S. G. Cartwright.  
Junior Warden—E. L. Bartlett.  
Warder—W. E. Griffin.  
Sword Bearer—Dr. W. S. Harroun.  
Standard Bearer—Fred Muller.  
Sentinel—O. L. Merrill.  
First Guard—W. H. Kennedy.  
Second Guard—E. H. Bergmann.  
Third Guard—Samuel Eldred.

What Thin Folks Need  
is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve appetite, make healthy flesh. Only 25c at all druggists.

W. A. Melver has completed a deal for the sale of the Vera Cruz group of mines in the Nogal district, Lincoln county, the price being \$50,000. Chicago capitalists are the purchasers. The Vera Cruz property is located three miles north of Nogal and was discovered over twenty years ago, but has never been worked to any considerable extent. It is a low grade property of extensive deposits of free milling gold ores. The new company will erect a large cyanide plant at the mine to treat the ores.

A Lesson in Health.  
Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Alvarado Pharmacy.

A Benefactor of Mankind.  
All that was mortal of J. Sterling Morton, the man who originated "Arbor Day," was laid in the grave at Nebraska City. There remains in memory an illustration of the value of an idea. Some men leave money and some leave libraries, but that one who can leave behind for the benefit of his fellow men a beneficial idea, which is practical, and elevating, helpful and useful, is in no way inferior to the others in the excellence of his career.

Foley's Honey and Tar contains no opiates and can safely be given to children. Alvarado Pharmacy.

Mora County Court.  
The district court of Mora will not finish up this week, as expected, but will hold over until the middle of next week, most probably.

Telefor Jimenez has been indicted for cattle stealing in the Mora county district court. There was an even dozen indictments against him and his chances of breaking into the penitentiary are excellent.

Molybdenite Ore.  
A rich deposit of molybdenite ore has been found about twelve miles east of Florence, Ariz. A good grade of this ore is worth about \$200 a ton, but the demand is limited.

The People Pleased.  
The people of Guadalupe county adopted a set of resolutions extending their sincere thanks to Hon. Ringer Hermann, United States land commis-

sioner, for his wise and just efforts in opposing the lease law and ordering down fences on government lands. J. E. Curren, editor of the Pathfinder, was requested to telegraph the congratulations of the people to Mr. Hermann.

### MANY RECORDS BROKEN.

Field Day Exercises at the A. and M. College.  
The annual field day exercises of the A. and M. college at Mesilla Park were held on Saturday and a number of records were broken. A large crowd was present and there was great enthusiasm. The meet was a success in every particular.

The events were:  
100 Yard Dash—Danburg, first; Metcalf, second; Dissinger, third; Gamboa, fourth. Time, 19.4 seconds. Former record, 11 seconds.  
Standing Broad Jump—Foe, first; Danburg, second; Dissinger, third; Gamboa, fourth. Distance, 9 feet, 4 inches. Former record, 9 feet, 3 inches.  
Running Broad Jump—Hubbard, first; Danburg, second; Dissinger, third; Gamboa, fourth. Distance, 18 feet, 24 inches. College record, 19 feet, 34 inches.

Pole Vault—Metcalf, first; Hubbard, second; Dissinger, third; Danburg, fourth. Height, 9 feet, 5 inches, which is four inches below college record.  
220 Yard Dash—Danburg, first; Dissinger, second; Gamboa, third; Hubbard, fourth. Time, 25.45 seconds. Former record, 26.25 seconds.

Standing High Jump—Foe, first; Hubbard, second; Danburg, third; Metcalf, fourth. Height, 5 feet, 6 inches. College record has been 5 feet 1 inch since 1896.

120 Yard High Hurdles—Metcalf, first; Gamboa, second; Hubbard, third; Dissinger, fourth. Time, 18.45 seconds. College record, 17.25 seconds, made in 1894.

120 Pound Shot—Danburg, first; Pelphrey, second; Dissinger, third; Gamboa, fourth. Distance, 37 feet, 10 1/2 inches. Former record, 33 feet, 9 1/2 inches.

12 Pound Hammer—Metcalf, first; Gamboa, second; Dissinger, third; Hubbard, fourth. Distance, 82 feet 5 inches.

440 Yard Run—Dissinger, first; Pelphrey, second; Foe, third; Danburg, fourth. Time, 63 seconds.

880 Yard Run—(Special, not included in all around contest)—Nowberry, first; Mackeden, second. Time, 2 minutes.

THE CENTRALS BEATEN.  
The Albuquerque Browns Put Up a Good Game on the College Grounds.

In its article on the base ball game at Santa Fe on Sunday afternoon, when the "Champions" were laid to rest by the Albuquerque Browns, the New Mexican says:

The opening base ball game of the season was played yesterday afternoon on the College grounds and resulted in a defeat of the Santa Fe Central team by a score of 4 to 1, by the Browns of Albuquerque. Up to the fourth inning, when the pitcher, Waddell, was hurt, by a line ball from Quiler's bat, it was Santa Fe's game, but after Waddell retired and Shoemaker was put in the box, the infield seemed to go to pieces and by costly errors in the fifth, seventh and eighth innings, lost the game. The playing of the outfield, Otero, Catron and W. Parsons, especially the fly catches by Otero and Catron, were the features, and also the battery work of Waddell and G. Parsons, and Shoemaker and G. Parsons. On the visitors' side, the battery work of Haverly and McDonald was fine, as was their entire infield play, there being only two errors chargeable to the infield. Their team work was far better than that of the home team, but this should not discourage the Santa Fe boys as the game was lost when the pitcher was hurt and up to that time but one base hit was made off him.

Summary.  
1 2 3 4 5 6 7 8 9  
Albuquerque.....1 0 0 0 3 0 4 3 0—11  
Santa Fe.....1 1 0 0 1 0 1 0 0—4  
Bases on balls—Cosgrove, Waddell, Lyon; 2 base hits—McDonald, Ortiz; 3 base hit—Lyon; home run—W. Parsons; struck out—by Haverly, 9; by Waddell, 3; Shoemaker, 3. Time of game, 2 hours and 10 minutes. Umpire—R. C. Gortner.

Games have been arranged as follows: With the New Mexico Normal University at Las Vegas on Sunday, May 11. With the New Mexico School of Mines at Socorro at Santa Fe on Sunday, May 18.

Base ball ratios have been obtained and Santa Fe will be the base ball center of New Mexico this summer.

A Socorro Marriage.  
Mr. and Mrs. J. P. Kelly have issued invitations to the marriage of their daughter, Katherine, to Lewis K. Terry. The wedding will be celebrated Wednesday morning at the home of the bride's parents, in Socorro. Both of these young people are much liked in Socorro and will enter upon their married life with the best wishes of a host of friends.

Encouraging Returns.  
Messrs. Jackson and Edwards, of El Paso, are greatly encouraged over the results of an assay of ore from the bottom of the seventy-foot shaft of the Baking Powder mine in Big Rosy canyon, Rosedale district, New Mexico. The samples of ore sent to El Paso contain sylvanite and run nearly \$42 to the ton.

Col. J. Francisco Chavez, the territorial school superintendent, who was down at El Paso on business, passed up the road for Santa Fe Sunday morning.

INDIGESTION  
is the cause of more discomfort than any other ailment. If you eat the things that you want and that are good for you, you are distressed. Acker's Dyspepsia Tablets will make your digestion perfect and prevent dyspepsia and its attendant disagreeable symptoms. You can safely eat anything at any time, if you take one of these tablets afterward. Sold by all druggists under a positive guarantee. 25 cents. Money refunded if you are not satisfied. Send to us for a free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co. and B. H. Briggs & Co.

## RAILROAD OFFICIALS.

### They Meet at Alvarado and Discuss Summer Time Card.

MAIL TRAINS EARLIER.  
An important meeting of railroad officials was held at the Alvarado hotel this morning and afternoon, and the subject of summer passenger train schedule was thoroughly and practically discussed.

A citizen representative called at the hotel this afternoon, and on meeting Messrs. Hurley and Byrne in conversation with Levi A. Hughes, of Santa Fe, and George S. Arnold, of this city, asked the railroad officials if they had anything for publication.  
"Oh, nothing special," remarked Mr. Byrne, "we have been in discussion almost all day on the subject of a uniform time card for summer, and have concluded to make the No. 1 passenger train, going west, a fast mail train. It now arrives here at 10:10 p. m. and on the new time card, which will soon go into effect, it will get here about 7:15 p. m. No. 7, now arriving at 10:40 p. m. will get here about forty-five minutes earlier than usual."

The arrangements, as announced, will send the south-bound mail train considerably earlier to El Paso than now.

It was also learned that the trains going north will be about as now, except the limited, which, after June 1, will run as a semi-weekly instead of daily.

The following gentlemen were in the conference this morning and afternoon:  
The three general managers—H. U. Mudge, of Topeka; A. G. Wells, of Los Angeles, and W. C. Nixon, of Galveston; the two general passenger and ticket agents—W. J. Black, of Topeka, and J. J. Byrne, of Los Angeles; the two general superintendents—J. E. Hurley, of La Junta, and F. J. Sheppard, of Los Angeles, and the three division superintendents—F. C. Fox, of Las Vegas; J. F. McNally, of San Marcial, and L. L. Hubbard, of Winslow.

Messrs. Wells and Byrne are accompanied by their wives, and they, with the other western officials, expect to return west tonight.

Messrs. Mudge, Black and others will no doubt go north tonight.

HON. W. E. MARTIN.  
He Was Named for Assistant Superintendent of Territorial Penitentiary.

Hon. W. E. Martin, yesterday, appointed assistant superintendent of the territorial penitentiary, although a comparatively young man, has seen many years of varied public service. Though often a candidate for political office under adverse circumstances, he has never been defeated. He was born on February 16, 1867, at Fort Selden, Dona Ana county. He is the son of John Martin, who is remembered as having dug the well which saved many a life on the La Jornada del Muerto, or the so-called Journey of Death desert in Dona Ana, Socorro and Sierra counties. Mr. Martin is one of the best, if not the best, Spanish-English interpreter in the southwest. He has served as court interpreter in nearly every judicial district of the territory. He has been interpreter in the legislative council, chief clerk of the council of the thirty-third and thirty-fourth legislative assemblies. He has also been a member of the legislative house as well as of the council. For the past three years, Mr. Martin has been a trustee and valuable assistant as private secretary to Hon. H. O. Bursum, superintendent of the territorial penitentiary, and he is well fitted therefore to assume the responsible duty for which he was named today. Mr. Martin is an eloquent orator in Spanish and English, a successful politician, a hostler in whatever he undertakes and counts his friends by the legion who are all convinced that the future still holds many and higher honors in store for him.

### OPENED SUNDAY.

#### Santa Fe's Quadruplex Line to Purcell Is Now Completed.

On Sunday the Santa Fe opened up the quadruplex line through to Purcell. The work of stringing an additional copper wire from Arkansas City to Purcell is completed. As rapidly as possible the line will be extended to Galveston. The total cost of the copper wire on this new line in the neighborhood of \$25,000.

The copper wire for the new line from La Junta to Albuquerque is now on the way from the east to La Junta, and the work of stringing it will commence as soon as it arrives there.

Copper wire is costly stuff, and the wonder is that more of it is not stolen from the poles. A small coil of it which can be easily picked up in one hand is worth \$30.

At the Alvarado.  
The following arrivals were announced at the Alvarado last night and this morning, being assigned rooms: E. P. Ripley, wife, Francis Payson Ripley, Fred C. Ripley, of Chicago; A. G. Wells and wife, Los Angeles, Cal.; Miss A. M. Payson, Brooklyn, N. Y.; Bernie W. Saernan, Riverside, Ill.; F. J. Sheppard, Los Angeles; L. L. Hubbard, Winslow; R. S. Goodrich, Winslow; H. U. Mudge, Topeka; W. J. Black, Topeka; J. E. Hurley, La Junta; L. L. Sturges, Topeka; Mr. Sanders, wife and boy, Topeka; J. T. Barraclough and wife, Oakland, Cal.; Mrs. W. R. Chester and Miss F. H. Chester, Brookline, Mass.; John J. Byrne and wife, Los Angeles; Miss Sinclair, Racine, Wis.

Mr. Ripley and party left this morning on their return to Chicago.

The Elks of this city will this week organize a base ball club, every member of the club to be an Elk, and will challenge the Santa Fe Elks club to play a game in this city on Decoration day, the return game to be played in Santa Fe on the Fourth of July. The Elks of this city will also arrange a reception on the day of the game for all the visiting Elks from Santa Fe and elsewhere.

New Machinery.  
About 200 new tons of machinery are expected for the property of the Oro Mining company at the Manuela camp, New Mexico. Three hundred tons of machinery have already arrived and are being installed.

# Railroad Topics

The Santa Fe Central Railway company has received two carloads of Studebaker wagons and three sprinklers for its construction work.

Fred Resie, one of the bridge gang, got a leg broken while working on a bridge at Wagon Mound, by one of the heavy girders falling on him.

John McCrory, draughtsman, connected with the mechanical department of the Santa Fe at Denver, was in Raton, leaving for La Junta the next day.

The Washburn, Bayfield & Iron River railway of Wisconsin has been sold to the Northern Pacific. The consideration is said to have been \$145,000.

J. H. Johnson, assistant general freight agent of the Gulf, Colorado & Santa Fe, has resigned to take a position with the Galveston chamber of commerce.

The tests on the new wrecker, No. 5, have been eminently satisfactory and a crew will be assigned to it. The wrecker will be used between Raton and El Paso.

Engine 844 is receiving attention at the Las Vegas shops. It is one of the new tandem compounds lately assigned to this division. Engine 843 is also in for a few repairs.

It is said that more than 1,000 miles of railroad is now in course of construction in Oklahoma. The most of it is headed in a westerly direction for the handling of Texas and New Mexico.

The new Alvarado museum building will soon be completed. The fountain in the plaza has been started and before fall the surrounding lawns will be covered with a velvet carpet of blue grass.

Harry Holston, signal inspector, came in Monday evening from Raton, N. M., where he has been for several weeks working on the signal staff system, of signaling, and returned to the same place today.

The Santa Fe has made a fare and one-third on certificate plan for the round trip to Las Vegas on account of the Sunday school convention at that place, providing there are fifty or more in attendance.

A small bridge on the Lamy branch near Lamy was burned during Thursday night. Passengers and express had to be transferred around the bridge yesterday morning, causing a delay of about an hour.

G. W. Clason, fuel and ice contractor, for the Santa Fe, has started from Topeka on a tour of the western lines of the Santa Fe on business relating to his department. He will go as far south as Rincon, N. M.

Senator W. H. Andrews, president of the Santa Fe Central railroad, will leave for the east on business, connected with the road. He will visit Washington in the interests of New Mexico before returning.

Trouble is being experienced between the Santa Fe and its section foremen working under J. M. Sax, roadmaster of the western division, at La Junta. Half a dozen have quit, alleging mistreatment and overwork.

Mr. and Mrs. Frank Delbert are expected in Santa Fe from Pittsburgh. Mr. Delbert is assistant bookkeeper in the office of the Santa Fe Central Railroad company and left recently for the east on account of the illness of his wife.

The Topeka State Journal says: Word received from John Barnes, an apprentice boy who quit here recently and went to the shops of the Santa Fe at Albuquerque, N. M., indicates that he is pleased with the situation there.

Mrs. Mark Withers, widow of a switchman who was killed in Topeka one night several months ago, has received a beneficiary sum of \$1,200 from the Switchmen's Union of North America, of which her husband was a member.

M. H. Wickhorst, engineer of tests for the Chicago, Burlington & Quincy, is at Guthrie, Okla., where he will investigate the workings of the Santa Fe plant for removing incrustants from the water which it uses in its engine boilers.

W. J. Egand, a trainman who has been in the Santa Fe Pacific hospital for several months, troubled with rheumatism, and C. M. Gill, head nurse of that institution, will leave in a few days for St. Paul, Minn., to visit with relatives.

Art C. Turner, who has had charge of the commissary of the Santa Fe Central railway at Vega Blanca, was in Santa Fe. He has been promoted to the superintendency of painting all bridges and buildings along the company's line.

The Denver & Rio Grande train from Santa Fe Thursday will arrive at Santa Fe Thursday.

The Citizens' Union is in the highest bidder. It will go to the highest bidder.

Yesterday the last Sunday dinner in the old Harvey house was served and the old red building will be torn down soon. The only regrettable feature is in the passing of Manager Pellow, who by his courtesy and kindness has made a host of friends.

Milton Player, master mechanic of the Fort Worth & Denver at Fort Worth, Texas, was around the Topeka shops Monday. He assumed that position only a few weeks ago after resigning his place as master mechanic of the eastern division of the Santa Fe.

A. T. Parfitt, foreman of the Topeka boiler shop, has returned to that city from a trip to California on an inspection of boilers in use out of San Bernardino. Mr. Parfitt was accompanied by the foreman of the erecting shop of the Baldwin locomotive works at Philadelphia.

The Topeka State Journal says: William Deveny, who Wednesday was made temporary round house foreman, has been in the mechanical department of the Santa Fe for twelve years, previous to which he was a clerk in the bookkeeping department of the auditor of freight receipts at the general of

fices. In 1898 he worked at Albuquerque shops for about eight months. He learned the machinist's trade here, and is just a popular fellow among the men.

The San Marcelino says: Engineer Sid Hockett went as far as Newton and accompanied his wife and family, who were returning from St. Louis, to San Marcelino, arriving Wednesday morning. Miss Lena remained at Newton to visit with Mrs. E. J. Easley for a few weeks.

As the limit of time allowed the Blaine road in which to begin operations on the new depot in this city expires Monday it would seem that they would get a hustle on and begin to do something if they are desirous of obtaining the land offered them. Why this long delay?—Denning Headlight.

The Illinois Central Railway company has planted 250 acres in Louisiana, near New Orleans, with catalpa for railway ties. The number of trees set is 250,000. In fifteen years it is expected that 300,000 ties will be ready for use. If the trees flourish that number should be ready in ten years.

A company has been organized at Vinita, I. T., and is backed by the Frisco Railroad company to build a line seventy-five miles in length, uniting the main line of the Frisco at Vinita with the Frisco extension from Blackwell, Okla., to Coffeyville, Kan., joining the latter at Bartlesville, I. T.

John Lucas, agent for the Santa Fe at Emporia, has been obliged to leave his work again temporarily on account of an eye which has been troubling him for some time. He was in the hospital at Topeka several days to have a growth over the member removed and returned to his post of duty, but has been obliged to give it up.

Ben Manger, one of the popular Harvey eating house officials, was here for a few hours last Saturday afternoon and with J. Fred Kloos, of the local Harvey house, made a pleasant call at the Citizens office. Mr. Manger has looked over the local house—the new Alvarado—and says positively that no house on the Santa Fe road compares with it.

The Topeka State Journal says: William Fritts, a blacksmith who used to follow his trade in these shops but who three years ago went to the same department at Albuquerque, N. M., has returned from that place with his wife, and the two are visiting in Topeka for a few days. They are on the way to Kansas City, where Mr. Fritts has a job with the Union Pacific.

The New Mexican says: R. L. McCance, treasurer of the Pennsylvania Development company, has returned from Kennedy. He confirms the news that yesterday a gang of graders was set to work at the Galisteo crossing with scoops to grade toward Santa Fe. Next week two more gangs will be put to work and gradually the number of gangs will be increased to six with from 75 to 100 men and 25 teams in each gang.

Lee O. Paddock, a draftsman, has announced his intention of quitting the Santa Fe May 15, and thereafter will be in the employ of the St. Louis & San Francisco at Springfield, Mo., doing special drafting under George A. Hancock, superintendent of machinery for the Frisco system. Paddock is an experienced man in his line, having been with the company four years previous to that, having held a number of similar positions.

According to well-founded reports, John Salkeld, who for some time has been foreman of the boilermakers at La Junta, Colo., will retire from that place May 15. There is talk that a Topeka man may get the place, though nobody has yet been chosen. Salkeld's father was employed in that department of Topeka shops only a few months ago, and previous to that had been for a long time with the Gulf, Colorado & Santa Fe at Cleburne, Texas.

Visitors were entertained at the Alvarado yesterday in goodly numbers. It being the first day that the new hotel has been open to the public.

Words of praise and delight were to be heard on every side. There have been hotels furnished with conveniences of ease, comfort and luxury, but none with such interesting architecture, unique and comfortable furniture, rich and highly colored carpets and rugs, as are to be found in the Alvarado. A journey through this new and queer hostelry is one continual feast for the eye. Dinner will be served in the Alvarado, next Sunday, for the first time.

It is estimated that the Santa Fe will construct within this year, not less than 500 miles of road in the Indian Territory and Oklahoma. It will be the object of that road to gain control of the west lines in the order to cut off the Rock Island's eastern dispatches.

It is quickly ascertained that the miles ever known which are to be built. A greater number contemplated in New Mexico, to head off the Rock Island.

The Needles Eye, in commenting on C. F. Lape's resignation, says: At last C. F. Lape, division master mechanic, has resigned (by request). This is the official who, when appealed to for work by a man grown old in the service of the Santa Fe, and whose record with the company stands far above that of Mr. Lape, gave the applicant a scornful look and bade him begone with the parting words, "This is no old soldier's home."

THE CLEANING AND HEALING CURE FOR CATARRH

Elv's Cream Balm

Elv's Cream Balm

## SHAKE INTO YOUR SHOES

Allen's Foot Ease, a powder, it cures painful, smarting, nervous feet and improves nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all drug stores and shoe stores. Don't accept any substitute. By mail for 25c in stamps. Trial package free. Address Allen S. Olmstead, Le Roy, N. Y.

home. Mr. Lape says he has another job in sight. Let us hope so, for he is well along in years, and may possibly encounter men of his own type who do not wish to maintain an old soldier's home. The mills grind slow, but they grind.

Although no official announcement has been made, The Citizen learns from an authentic source, that Charles Wincheck, general foreman of the local Santa Fe Pacific shops, who recently resigned to accept another similar position on the Mexican Central, will be succeeded by Charles Jacobson, formerly employed on the Northern Pacific and located at Missoula, Montana. Mr. Jacobson has been in the city several weeks and for the past two has been serving as assistant foreman of the machine department, acquainting himself with the routine of business and surroundings. It is not yet known when Mr. Wincheck will leave to take charge of his new position, but it is thought that the general foremanship will pass into the hands of Mr. Jacobson the latter part of the week.

The San Bernardino Sun's prophecy of last Thursday morning, to the effect that unless J. R. Reniff, general foreman of the car department, squared himself with the proper officials before May day, his head would come off, has come true, and beginning this morning the gentleman who came here from the Windy City several months ago to take the position made vacant by the resignation of John Andrews, will have severed all connection with the Santa Fe company. Early this morning a bulletin will be posted announcing that until further notice Assistant Foreman A. A. Butterworth will be acting general foreman. It is whispered that there is a chance of Mr. Butterworth being appointed to that position permanently. Surely no better man could be found for the place, nor one who would be more suitable to the men under him. Mr. Reniff will go to Los Angeles today, where he will visit before returning to his home in the east.

Terrible plagues, those itching, peevish diseases of the skin. Put an end to misery. Doan's Ointment cures. At any drug store.

## WINCHECK WILL LEAVE.

General Foreman Will Leave in About Ten Days.

Charles Wincheck, general foreman of the local shops, will leave in the near future to take the position of division superintendent on the Mexican Central. He will have charge of the division out of Mexico City and it is a distinct advance for him.

Mr. Wincheck entered the service of the Santa Fe at Chicago about thirteen years ago. He was in the mechanical department on the then just completed extension from Kansas City under C. R. Nickerson, who is now vice president and general manager of the Mexican Central. From Chicago he was sent to Streator, Ill., Topeka and Fort Madison. He came here as general foreman about four years ago and for two years he had not missed a day at the shops. He has made a remarkable record for service and his departure will be generally regretted as he has won the highest regard and esteem of all with whom he has come in contact.

## What Is Foley's Kidney Cure?

Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Alvarado Pharmacy.

## FRATERNAL BROTHERHOOD.

This Growing Order Holds an Important Meeting.

Las Vegas lodge, No. 202, Fraternal Brotherhood, held a very interesting and enjoyable meeting at the Knights of Pythias hall Friday night. Four were initiated into the mysteries of the order and a number of applications were received.

A. L. Moon, general organizer for the district of Colorado, New Mexico and Arizona, was present and gave a very interesting and instructive talk on the plan and benefits of the order. A large number of members were in attendance and a good time was enjoyed by all. After the business of the lodge was transacted ice cream and cake was served.—Optic.

## Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—Leslie Pinkey Hall, Springfield, Ala. This remedy is for sale by all druggists.

## Interesting Court Items.

Judge N. B. Laughlin, of Santa Fe, attorney for the plaintiffs in the case of E. P. Ellis & Co. vs. the Timber Peak Mining company, which has been pending in the district court for Socorro county for two years, today stated that the case has been settled. Ellis sued to recover claim of \$15,000 against the defendants, while the latter presented a counter claim of \$20,000.

In the case of Arthur B. Manly vs. Basil Martinez and one hundred others, Judge N. B. Laughlin, Santa Fe, filed an answer on behalf of the plaintiff to the answer of the defendants to the complaint. The suit is to quiet title to the Antonio Martinez grant in Taos county.

## Tumbled to the Ground.

Friday morning at Rincon, B. S. Catlin, a customs inspector of El Paso, en route east with a train of bonded cat-

tle, was passing along the high trestle when a steer in one of the cars kicked some gravel in his eyes and he tumbled to the ground, a distance of about thirty-five feet below. He was taken to San Marcelino for treatment, and attended to by Dr. C. G. Cruickshank. He was able to return to El Paso on the delayed train the same morning.

## Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar in the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." Alvarado Pharmacy.

## LAWLESS GETS A PLACE.

General Foreman of Santa Fe Shops at Topeka Goes to Frisco.

William S. Lawless, formerly foreman of the state service department in the Santa Fe shops at Topeka, and until a month ago general foreman, has accepted the foremanship of the department having jurisdiction over stationary engines and machinery for the St. Louis & San Francisco railroad, with headquarters at Springfield, Mo., says the Topeka State Journal.

Mr. Lawless will leave Topeka in time to report for duty at that place Saturday morning. He will go first to Eureka Springs, Ark., to oversee the repairing of a heating plant in a large summer hotel which the Frisco road controls there.

Mr. Lawless was connected with the Santa Fe sixteen years, during which he gained a popularity among the men rarely known. Since his retirement to him of a costly diamond ring by those who so long had been associated with him.

His new work will throw him in touch with George A. Hancock, superintendent of machinery of that road, and formerly assistant superintendent of machinery for the Santa Fe. Besides Mr. Hancock, Mechanical Engineer Squires of the Frisco is an old Santa Fe man, as well as John French, foreman of the blacksmith shop.

## Reveals a Great Secret.

It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption. Here's the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-worn throat and lungs. Hard coughs and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all throat and lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at all druggists.

## RAILWAY COMPANY.

Santa Fe Must Pay for Not Feeding and Watering Stock.

Judgment for \$100 has been awarded against the Atchison, Topeka & Santa Fe Railroad company in the United States circuit court at Chicago, on proof by the government that the road had carried cattle for 108 hours without food or water.

The law requires that no railroad company shall carry cattle longer than twenty-eight hours without rest, food and drink, and that if the journey is longer than twenty-eight hours, the cattle shall be cared for every five hours thereafter. The action in this case grew out of the shipment of export cattle from Kansas City, Kan., to Watertown, Mass. As this was a first offense proved against the company, the minimum fine was imposed. A similar case is pending against the Indiana, Illinois & Iowa railroad.

## A Revelation.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure it. It never disappoints. Alvarado Pharmacy.

## REQUIRED THREE ENGINES.

Trainload of Oranges Pulled Up the Cajon Grade on Santa Fe.

In all the history of fruit handling in the valley of San Bernardino and the neighboring fruit centers, says the San Bernardino Sun, the largest orange train ever sent over the Cajon grade was pulled up that big incline Friday evening, when three of the Santa Fe's most powerful engines took in tow a string of 41 loaded cars, weighing in all 1,400 tons, landing them at Summit without a struggle. The train contained nothing but oranges, 20 freeters, 1000 lbs. and the remaining 21 without. The big delegation was in charge of Conductor J. J. Long. The engines which undertook the job were: No. 446, in charge of D. E. Hennessy; No. 788, Engineer J. J. Cave, and "Decky" No. 988, with Walter Reid at the throttle. The big train was bound for the eastern markets and its contents are among the last of the season's oranges.

## Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes George S. Marsh, well known attorney of Nocona, Texas. "I took quantities of pepsin and other medicines but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. J. H. O'Reilly & Co.; B. H. Briggs & Co.

## QUEER MR. CASSIN.

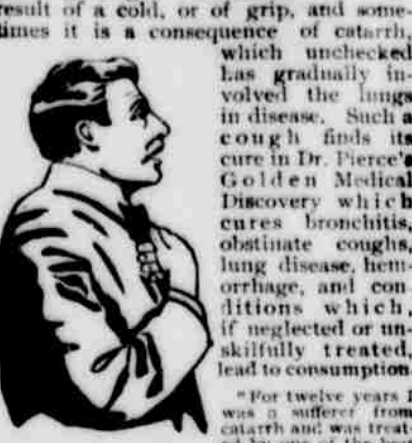

Funny Story About His Alleged "Resignation" as Roadmaster.

The San Bernardino Transcript hands out the following yarn in connection with the retirement of Foreman O. T. Cassin from the service of the Santa Fe.

Foreman O. T. Cassin has resigned this time sure enough, and after next Saturday evening will not be seen again as foreman of the Santa Fe yards. Several years ago Mr. Cassin was roadmaster of the Southern California road before its absorption by the Santa Fe. One day he was let out in

# HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unskillfully treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the remedy had reached my lungs," writes Mr. J. M. Patton of Clifton, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

favor of Walter Ferris. A sympathetic friend approached Cassin and said: "Well, Mr. Cassin, I see you have resigned." "It's a ——— lie," said the roadmaster. "I was fired." But this time he has resigned in order to take charge of a nice little orange grove which he has out at West Highland.

## Holds Up a Congressman.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter. Overworked, run-down men, weak, sickly women, gain, splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by all druggists."

## A SURPRISING DISCOVERY.

New Mexico Apaches Speak the Same Language as an Indian Tribe Near the Polar Circle.

An interesting ethnological discovery has just been made as a result of the observations of Father Jette, S. J., of Jesus, son of St. L. A. Jette, lieutenant governor of the province of Quebec, and published in the New York Sun. Father Jette is a missionary among the Nulato Indians, whose habitat is near the polar circle. He has made a careful study of their language, and in writing to some of his colleagues in New Mexico, he quoted words used by the Nulatos. To the great surprise of those who received Father Jette's letter the Nulato words were found to be identical with the words in the Apache tongue. The result was further correspondence, and ultimately the discovery that these two tribes of Indians, now living thousands of miles apart and in vastly different climates, have the same language. From this fact, the deduction has been made that the Apache of New Mexico originally came from the far north, thus tending to confirm the theory of a common Asiatic origin.

Foley's Money and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Alvarado Pharmacy.

## Rock Island Changes.

Charles A. Goodnow, the new general manager of the Rock Island railroad, is making a trip over the road, and has announced details of the plans for the reorganization of the operating department of that railroad. Hiram S. Cable, son of Chairman Cable, is appointed to be general superintendent of the lines of the Rock Island west of the Missouri river; W. H. Hobbs, general superintendent of lines east of that river; C. H. Hubbell, superintendent of terminals at Chicago; W. H. Stillwell, division superintendent of the Iowa division, headquarters at Des Moines; W. J. Lawrence, division superintendent of the southwestern division, headquarters at Trenton, Mo.; W. H. Givens, appointed at Des Moines; W. S. Tinsman, division superintendent of the Oklahoma division, headquarters at Chickasha. Other changes will follow. These changes are not regarded as promotions, but simply a shifting of positions to temporarily tide over circumstances until the opening of the new lines recently acquired by the Rock Island, under the operating department of the Rock Island and enables the management to shove the officials up as rewards positions of responsibility and trust.

## Even a Stoic Groans

under the torment of neuralgia, when every nerve in face or limb throbs and jumps. Philosophy cannot endure this agony but Perry Davis' Painkiller relieves it. Bathe the affected parts freely, keep them warm and do not expose yourself to cold and dampness. Medical science marches right along, but it has not found the equal of Painkiller in the treatment of neuralgia.

The Indians of Rosebud agency, Nebraska, think they have discovered a low grade gold mine on the reservation. One faction is holding possession, while another is watching an opportunity to swipe the property, an evidence that the red men are fast becoming civilized.

The new gasoline lamps, which so many business houses put in during the past few days, gave the streets, especially Railroad avenue, a decidedly bright appearance last night.

## ALBUQUERQUE VS. SANTA FE.

The Browns Win From the Santa Fe Central—Score, 11 to 4.

A large and enthusiastic crowd, pleasant weather and good luck greeted the ball boys at Santa Fe yesterday. Albuquerque won by a score of 11 to 4.

The Browns were handicapped to a certain extent by the absence of Hale and Brown, two of their heavy hitters. Hale was out on the road and Brown failed to make connections.

The game was a hot one from beginning to end.

Some good batting was done on both sides.

W. Parsons, Santa Fe's left fielder, got one over the right field fence, and of course made a home run.

Lyon, second baseman for Santa Fe, and Roy McDonald, catcher for the Browns, led in batting, each making two two-base hits.

Waddell, who is really Lembo, of the Colorado Springs Western league pitcher, Santa Fe's new man, was put out of the game in the first inning with an injured hand, hurt while stopping a liner, knocked by Quier. At this stage of the game the score stood 2 to 1 in favor of Santa Fe, and if not for the accident, the game might have been closer.

Shoemaker took "Waddell's" place and pitched a good steady game, but received poor support.

Shirk, Santa Fe's third baseman, made several costly errors which caused several runs.

Haverly, the eighteen year old boy who is pitching for the Browns, pitched a fine, steady game and had a number of scalps at his belt at the end of yesterday's game. He doesn't make a grand stand delivery but has wonderful control of the ball. He rarely gives a mar a base without he hits the ball. In bases on balls his record is almost clean since his playing with the Albuquerque team. His drops and shoots are hard to come up with.

Yesterday's line up was as follows:

Santa Fe Central—Lyon, second base; Shirk, third base; W. Parsons, left field; Alarid, short stop; G. Parsons, catcher; C. Catron, center field; C. Parsons, first base; M. Otero, right field; "Waddell," pitcher; Shoemaker, pitcher.

Albuquerque Browns—Roy McDonald, catcher; Vorhes, third base; Cosgrove, first base; Brown, second base; Ortiz, center field; Quier, left field; Smith, right field; Barrett, short stop; Haverly, pitcher.

## Summary.

Bases on Balls—Haverly, 2; Shoemaker, 1.

Two Base Hits—Lyon, McDonald, Ortiz.

Three Base Hit—Lyon.

Home Run—W. Parsons.

Hit by Pitched Ball—"Waddell," 1; Shoemaker, 2; Haverly, 2.

Struck Out—"Waddell," 3; Shoemaker, 3; Haverly, 5.

Passed Balls—McDonald, 3; Parsons, 2.

Umpire—Bob Gortner.

Score—Detelbach.

There was a great deal of joy in this city when the news came of the victory of the Browns.

W. E. Martin has bunched together a fine lot of ball players in his Santa Fe Central team.

The Albuquerque Browns will challenge El Paso, Silver City and Socorro clubs for a series of games.

The Elks of Santa Fe think of organizing a base ball team to play games with the Albuquerque and Las Vegas Elks.

The old hard feeling that has formerly existed between Santa Fe and Albuquerque ball players was not manifest yesterday, and some good games between the two teams may be expected this season.

The Santa Fe team and people generally treated the Browns royally and it will not be forgotten when Santa Fe comes to this city to play. The games are more pleasant to witness where there is a good natured rivalry and not a continual scrapping match.

The Santa Fe Central's play at Las Vegas next Sunday, and at one New Mexico School of Mines on the 29th of this month, which is commencement day at the institution, and the three days following this may be secured for Albuquerque. This would make them appear here on May 30 (Memorial day), which falls on Friday this year, and Saturday and Sunday, May 31 and June 1. They would be passing through the city on their way home from Socorro on the morning of the 30th. Harman Wynkoop has written to Martin trying to arrange for these dates in Albuquerque.

You never heard of any one using Foley's Money and Tar and not being satisfied. Alvarado Pharmacy.

## Going to Scotland.

Rev. and Mrs. Matthieson, of Socorro, expect to leave on Wednesday for New York city, where Mr. Matthieson goes as delegate from Rio Grande presbytery to the national convention of representatives of his church. On May 24 Mr. and Mrs. Matthieson will sail from New York on the steamer Anconia for Glasgow. They will spend some time in Scotland and Germany, returning home about the middle of August.

## Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Hedzue, Quincy, Ill. They never gripe or distress. Sure, safe pills. J. H. O'Reilly & Co.; B. H. Briggs & Co.

G. A. Gosser, of Las Vegas, is developing the Gypsy Queen mine on the Ortiz grant, fourteen miles from Cerillos. At a depth of eighty-five feet the mine shows rich ore.

## THE SURE WAY

to prevent pneumonia and consumption is to cure your cold when it first appears. A

## Town of Carlsbad

The article in regard to Carlsbad and place which has been published in several territorial exchanges without proper credit, was clipped from the Rocky Mountain News. It is a communication written by George R. Caldwell, and reads as follows:

The immediate and crying need of Carlsbad and vicinity is a creamery with an investment of from \$10,000 to \$15,000.

Carlsbad itself affords a market, per month for 2,000 pounds of butter, with a tributary creamery radius reaching on the one hand, to Pecos and on the other hand to Roswell, with a dozen or more intermediate towns—the aggregate rate of butter from a Carlsbad creamery counting at least 5,000 pounds per month, with a year around average of 25 cents per pound.

The dairy stock of the Carlsbad region includes Jerseys, Durham, Red Polls and Holsteins, with alfalfa, Kaffir corn, millet, blue grass, timothy, clover and milk producing factors.

Almost the entire market radius of a Carlsbad creamery is traversed by Pecos Valley railroad lines—thus assuring a daily produce distribution. The attached ice plant would command a large local patronage, aside from its creamery use, while the refuse milk would return high values in hog fattening.

The Pecos Valley Irrigation company has about completed its plans for the construction of a \$40,000 masonry aqueduct across the Pecos river, two miles above the city of Carlsbad. This aqueduct—replacing the present 12-year-old plank flume—will be 555 feet long, sixteen feet wide, eight feet deep, and thirty-two feet above the river bed.

The present flume has an irrigating capacity of 20,000 acres, of which 10,000 are now under cultivation. The new aqueduct will add 15,000 acres to the irrigating area of the company, or, in other words, on the completion of the aqueduct, the Pecos Valley Irrigation company will have all told, on the market 25,000 acres of new land with perpetual water rights attached—the aqueduct itself being probably completed this year.

The Pecos Valley Irrigation company has also in active contemplation of the early completion of an expenditure of \$1,000,000—of an immense system of tributary storage reservoirs, whose service waters will swell the irrigated area of the company to 100,000 acres.

The Carlsbad peach shipment, this season will run from twelve to fifteen car loads, or from 25 to 30 per cent in excess of any crop heretofore marketed from the region. The Superb, the Elberta and the Alexander, all famous table peaches, will, respectively, be heavily represented in this season's Carlsbad orchard yield.

The Carlsbad experiment of last year in the cultivation of irrigated cotton was a pronounced success, the yield averaging fully one bale per acre. Arrangements with Texas capitalists are now in progress for the pledging next year of 800 acres for cotton cropage—the Texas moneyed men engaging, on their part, to put in a local cotton gin with exhaustive by-product attachments. The illustrated article appearing last year in the Rocky Mountain News on Carlsbad and Pecos valley irrigated cotton culture attracted wide outside attention, as well as most favorable local comment.

It is estimated that the cattle shipments this year from Carlsbad and immediately tributary Pecos Valley railroad points, will reach 30,000 head, the cattle themselves comprising 1, 2, 3 and 4-year-old feeding steers, with an actual net money value of \$750,000.

Late developments indicate the early materialization of the \$250,000 sanitarium to be erected on Hagerman heights, overlooking Carlsbad, by a local and Chicago syndicate.

La Huerta, the haunt of residence suburb of Carlsbad, is being rapidly covered with elegant homes by eastern moneyed people seeking the health-restoring Carlsbad and Pecos valley climate.

The first of the annual four alfalfa cuttings of the Pecos valley is now in progress—this initial alfalfa growth measuring from thirty to thirty-five inches.

A notable peculiarity of the Carlsbad region is the native mesquite growing area and its agricultural area and adaptability. The mesquite has a heavy bushy growth and its wide spread and lightly furrowed roots furnish fine fuel for both kitchen and heating purposes. These roots command from \$2 to \$10 per wagon load delivered in town—this fuel sale always paying for the expense of clearing the land and frequently amounting in actual cash to the agricultural market value of the land itself.

The ornamental trees of the region include the catalpa, the North Carolina poplar, the silver leaf, the locust, and the yucca palm, or gigantic Spanish dagger.

The chrysanthemum is as ordinary as ornate, bush and climbing roses are everywhere, while other floral growths are as bewildering in enumeration as they are beautiful in blossom.

GEORGE R. CALDWELL.

### JOHN PLAYER QUITS.

He Will Permanently Abandon All Railroad Work.

The Topeka State Journal says that John Player, who for four months has been consulting superintendent of motive power of the Santa Fe, and nearly twelve years previous to that held the position of superintendent of machinery of the road, has resigned, effective June 1, and will move at once to Franklin, Pa., where he has extensive property interests. No mention has been made regarding a successor, and as the title which he last held was only created the first of the year it is probable that it will be allowed to lapse with the termination of Mr. Player's services.

Mr. Player has been in poor health a number of years and expects to retire from active work. Eighteen months ago he was taken to California in a condition that was regarded as serious but he rallied and about a year ago returned to Topeka and assumed the duties of his position as the head of the Santa Fe mechanical department. Since then he has been far from a well man and it was largely on this account

that he was obliged to give up the place which he held so long. His services were so much appreciated that when he applied President Ripley last November of his intention to quit, Mr. Ripley reached for a pen and pad and with his own hand wrote the circular announcing the retention of Mr. Player in an advisory capacity, and the appointment of George R. Henderson to succeed him as superintendent of machinery. The title was a little later changed to superintendent of motive power.

### GOLD NUGGETS.

Like Walnuts Exhibited at Tierra Amarilla.

A correspondent at Tierra Amarilla, writing to the Denver News under date of May 6, says:

Placido Mirales, a Mexican, set the few intimate friends to whom he exhibited his treasures wild with excitement when he carefully unrolled many folds of a big handanna handkerchief and revealed to their astonished gaze four great nuggets of pure gold, which he claimed to have obtained from the bed of a small stream, about twenty miles west of Tierra Amarilla. Being pressed for the particulars of his fortunate discovery, Placido told the following story:

He was on his way from Durango to Espanola to visit his family. He works in Durango, where he has been employed several years, and makes periodical visits by horseback. About twenty miles west of this place he camped for the night on a small stream running out of a little box canyon. The next morning, leading his horses down to water, he observed a shining object nearly buried in the sands of the creek. Digging it out he was astonished and delighted to find that it was a large nugget of pure gold. He looked for more, naturally, following the stream up into the little box canyon, which was surrounded by high walls of rock. The little stream gushed out of the cliff at the head of the canyon.

Placido's search was rewarded by finding three more large nuggets of the precious metal, about the same size as the first. All except one are, apparently solid, pure gold, each weighing over two ounces. In one of the nuggets a small piece of white quartz is embedded.

The lucky Mexican refused to give any directions so that the place could be found by others, saying he had staked several claims and was going back there as soon as he could go to Espanola and return. He was very reticent about the matter, exhibiting the nuggets at first only to Manager Lewis of Burns' store, an acquaintance of many years, whom he took to the rear of the store and with an air of great mystery carefully unrolled his handkerchief and turned out the big nuggets. Lewis estimates the four nuggets worth at least \$175.

The news spread and little knots of men were soon discussing the matter all over the town, and old residents told of other rich finds made years ago. It has long been believed that large deposits of precious metals exist in Rio Arriba county, but this is the "land of poco tiempo," and no active or thorough search has ever been made.

Placido Mirales will be fortunate, indeed, if he succeeds in getting to the scene of his rich discovery unobserved and unfollowed, for many eyes are watching his every movement, and already there have been mysterious flittings of adventurous citizens, and figures of men looming up ghostly in the bright moonlight have been observed riding silently and swiftly to the west. Their bulging saddle pockets and subdued tinkle of metal against metal are strongly suggestive of hard rations and prospecting tools.

### IF YOU HAVE RHEUMATISM

You May Be Glad to Know There Are 1,437 Remedies for It Up to Date.

The latest computation of the number of distinctly rheumatic cures puts it at 1,437. It is one of the peculiarities of rheumatism that the cures prescribed for it are more numerous even than the varieties of the ailment itself.

A brief enumeration of remedies includes horse chestnuts, wintergreen tablets, electric rings, bandages, white flannel is considered of no efficacy—goats' milk, calisaya, horse hair poultices, raw onions carried in coat pockets, and ice cream soda.

These are only a few of the best known remedies, and do not include several which owe their fame to combinations of sundry ingredients. One old fashioned cure is made up of a pint of old ale and a small measure of grated horse-radish put in a jar or demijohn and allowed to stand overnight, after which a glass is drunk before each meal.

In favor of many of the established whimsical rheumatism remedies, it is to be said that they are usually palatable, can be bought cheaply and are generally harmless, revealing in this particular the case of the patient for whom rock and rye was prescribed and who declared that it did him great benefit—even with the rock candy left out.

Rheumatism appears in so many forms, it affects or afflicts so many persons, it is so readily connected with weather conditions and the knowledge of its causes is so indefinite and on some points so much disputed, that the provocation to give remedies for rheumatism is readily understood, though this fact does not moderate the general conviction of acute sufferers from rheumatism that the remedy so freely offered them constitute an aggravation of the disease.—New York Sun.

### A Pythian Pilgrimage.

One of the big movements of history will be that of the Knights of Pythias of the United States in August next, when from all directions they will advance in San Francisco and California. The national convention of the order, which is held every two years, will take place in San Francisco, August 10 to 20, and great times are promised all the Knights and their ladies who get there at that time. Not only the members of the order in California, but the state and city officials are up and doing, and their greeting to the

visitors will be extended with a hospitality that will cause everyone glad he is a pilgrim. All sorts of address are planned, incidentally, including sights of the orange groves and the olive and prune and almond orchards of the great Pacific state, and glimpses of Lake Tahoe, one of the highest lakes in the world, way up in the Sierra; of far-famed Yosemite; of Hotel del Monte; of the Lick Observatory, and hundreds of other spots worth seeing and knowing about. Just now the nation with its oriental responsibilities is facing west, and the Pythians are wise to go as far as they can, and see and learn about the state that forms the nation's western front. The railroads will make especially reasonable rates for the assembly, and already prospective excursionists from this locality are making their railroad arrangements.

### SAD FLIGHT.

Business Dull at Las Vegas—Diphtheria Raging—A Married Man Doing Wrong.

There is a forest fire raging north of Roca, and it is doing considerable damage. Evidently it was a mistake to take off the forest rangers.—Record.

Complaint has been made that the Greiner family, colored, are not observing strictly their diphtheria quarantine but are running around town. The law says a \$50 fine is the penalty for this.—Record.

This is naturally the dull season, but is duller than usual and most of the merchants are complaining. Lambing season over and a few good soaking rains will liven things up perceptibly.—Record.

Business around town seems almost stagnant. The lambing season keeps a great many of the country people from coming to town to trade and the drought has tightened the purse string that is looking into the future.—Record.

There is a man in this city known to the reporter of this paper, who is deserting his wife and children and going out to meet another woman. Some day if things continue there will be an interesting scandal to report.—Optic.

People of this city should know that for each violation of the quarantine a fine of \$50 is the lowest that can be charged. There is one man who is breaking the quarantine who is known to the officers and will be nabbed so quickly some night that it will make his head swim.—Optic.

### ELLIOT-COLEMAN.

Popular Young People Marry in Las Cruces.

In the Las Cruces Baptist church, Sunday evening, April 27, 1902, by Rev. H. Collesser, Leander F. Elliott, of Rincon, N. M., and Miss Alberta Coleman, of Mesilla Park.

In commenting on the marriage, the Las Cruces Progress says: "The above announcement comes as a surprise to many of our people. The wedding was very quiet, only the members of the family being present. The bride wore a handsome traveling costume of one of the new French novelties. After the ceremony the wedding party returned to Mrs. Coleman's, where refreshments were served."

"Mr. Elliott is a member of the firm of Elliott & Brownrigg, of Rincon, and is well and favorably known in this county. He is a successful business man, having the leading trade of the northern part of the county. The bride, Miss Coleman, has just closed a most successful term of school at Dona Ana, where she has been teaching, and is one of the popular young ladies of Mesilla Park and this place. Mr. and Mrs. Elliott will be at home in Rincon after May 5."

### DEATH OF DAVID NORMAN.

A Former Bland Miner Dead at Prescott.

The sad news reached Bland Tuesday of the death of David Norman, which occurred near Prescott, Arizona, says the Herald. Pneumonia was the cause. Mr. Norman left Bland about six weeks ago in search of employment. He was in robust health and the news of his death came as a shock to all who knew him. Big hearted, whole souled Dave Norman, always generous to a fault, of a loving and kind disposition, he had many friends who regret his sudden demise. Mrs. Norman had no previous knowledge of his illness and it was only when a telegram came from W. H. Knight that she learned of his death. Monday night Mrs. Norman said that she dreamed that her husband was dead, and Tuesday morning she told her family of the strange dream. Tuesday evening the telegram came conveying the sad intelligence that Mr. Norman had died at 7:40 o'clock that morning. To the bereaved widow and relatives the Herald extends sympathy in this hour of their great grief. May He who notes even the sparrow's fall comfort them in their affliction.

### Civil Service Positions.

The United States civil service commission announces that on June 3, 1902, examinations will be held for the following government positions: Assistant engineer in the United States penitentiary service at Atlanta, Ga.; salary, \$900 per annum. Seamstress in the Shoshone school, Wyoming; salary, \$540 per annum. Physician at the White Earth agency, Minnesota; salary, \$900 per annum.

Assistant Matrons—At Cantonment Indian school, Oklahoma, salary \$400 per annum; Rapid City school, South Dakota, salary \$480 per annum; Carson school, Nevada, salary \$500 per annum.

Mechanical draughtsman, ordnance department at large, at the Frankford arsenal, Philadelphia, Pa.; salary, \$1,200 per annum. On June 10, there will be an examination for manual training teacher, male, at the Haskell institute, Kansas; salary, \$900 per annum.

These examinations are open to all citizens of the United States who comply with the requirements. Competitors will be rated without regard to any consideration other than the qualifications shown in their examination papers, and eligibles will be certified strictly in accordance with the civil service law and rules. Persons who desire to compete

should at once apply either to the United States civil service commission, Washington, D. C., or to the secretary of the local board of examiners for a copy of the manual of examinations and application forms. The application should be properly executed and filed with the commission at Washington prior to the hour of closing business on May 23.

### FIGHT IS ON.

National League Is Satisfied With the Pennsylvania Injunction.

That the National League intends to wage a vigorous base ball war is certain. The refusal of the St. Louis courts to enjoin certain players from playing with American League clubs makes no difference, so long as the Pennsylvania courts have granted one. A dispatch from Chicago says:

President Hart, of the Chicago National League club, and a member of the league's governing triumvirate, said today of the Pennsylvania decision in the Lajoie case:

"The injunction cannot be circumvented. Talk of carrying the case to the United States supreme court is ridiculous, as the Pennsylvania supreme court is the court of last resort in that state."

Speaking of the Missouri cases, Mr. Hart said: "The National League is in no way affected by the Missouri decision in any other state. Losing in any other state, we can simply go into Pennsylvania and secure injunctions which will prevent players of any club playing in Pennsylvania, and Philadelphia and Pittsburgh, two important ball cities, are in that state. You may be prepared to see a lot of injunctions. It may be that the players we go after will not strengthen our teams much, but the action will have a good effect on the future crop of players. Some of the men who have jumped will do no more about, but such men as Daly and Jones of the White Stockings will be enjoined, I believe."

Mr. Hart stated that the contract to which the Pennsylvania decision heads the players was drawn by the attorney for the Players' Protective association.

### DEATH OF A YOUNG WOMAN.

She Was Found Dead in Bed at the Taliaferro Home at White Oaks.

According to the Nogal Republican, Kitty Buford, an 18 year old girl of White Oaks, committed suicide last Saturday by taking carbolic acid. The White Oaks Eagle, however, tells a different and undoubtedly more truthful tale. It says: When the family at the Taliaferro home sat down to breakfast on Sunday morning Kitty Buford, the niece of Mrs. Taliaferro, had not made her appearance and several calls for her failed to elicit any response. Mrs. Taliaferro went up stairs and found the girl lying across the bed, partially uncovered and apparently dead. Dr. Padden was summoned but he could only state that the girl was dead and that the probable cause was rheumatism of the heart. During the past month she had worked very hard preparing for a teacher's certificate examination, but the work evidently proved too much for her. Miss Buford was born at White Oaks, but had spent her childhood at Watseka, Ill. A year ago she returned to White Oaks, where she made many friends.

### HUNT FOR GOLD.

Two Men Get Directions From Convict Where to Find Fabulous Riches.

Lon Jenkins, of Socorro, an old-time miner, and Barney Seertaint, also a mining man, have left Socorro for southwestern New Mexico to hunt the famous Adams diggings. The location of this bonanza was known to but one man, who was serving a term in the penitentiary at Santa Fe. The parents of this man were friends of the parents of Lon Jenkins, in the state of Alabama. These sent the prisoner papers, books, delicacies occasionally, in gratitude for which he sent Lon Jenkins a map and full description of the Adams diggings. Owing to the fact that so many had searched for these diggings without finding them, Jenkins thought they were legendary, and fled away the map. Three years ago the convict also gave a map to Seertaint, and description as well of the diggings, but he, too, gave no further thought to the matter until last week when he mentioned accidentally to Jenkins about this map. The two men compared the map and description, and found they tallied exactly, and they at once fitted out an expedition to find the diggings, and set out with it from Socorro.

### COMMITTED SUICIDE.

A. H. Schofield, secretary of Lumber Company, Kills Himself.

A. H. Schofield, secretary of the Caples Lumber company, El Paso, killed himself early Tuesday morning, by placing the muzzle of a 44-calibre Colt's revolver in his mouth and sending a bullet through his brain. Temporary insanity, due to overwork and business worry, is given as the cause of the deed. Schofield was a half brother to General Schofield, of the regular army. He came to El Paso from Missouri three years ago, and leaves a wife and four children. He disappeared at 6 o'clock Tuesday morning and was not found until noon, where he had hidden himself behind a pile of lumber before firing the fatal shot. A note bidding farewell to his wife was found beside the body.

### It Was a Good Article.

The Citizen reproduced from the San Marcial Bee, Capt. Jack Crawford's article on pistol carrying in the territory. Last Saturday this office received a letter from E. A. Clemens, of Magdalena, asking for extra copies. Mr. Clemens says: "If you have extra copies left please send me six of issue of Monday, April 28, containing Capt. Jack Crawford's denunciation of the carrying of six-shooters by the irresponsible, who aim to perform no duty nor to protect nor property with the aid of the weapon. It contains more condensed good sense on the subject than I have ever seen in print."

### Good Rains Up North.

Maxwell City and vicinity had a hard rain on Sunday and the irrigation ditches are well filled now. The rain was a great boon to the farmers thereabouts, and will bring the slow crops around it is hoped.

### FOUND DEAD.

A Passenger Falls From No. 21—No Clue to His Identity.

Section Foreman J. McMillan found a man lying dead Friday morning beside the railroad track, about two and a half miles this side of San Antonio. The man was about 75 years old, was dressed in a navy blue suit with brass buttons, but was without shoes or hat. On his person was found \$38 in money, but no papers giving any clue to his identity. The body is now at San Antonio. Rev. Gilchrist, of Las Vegas, who drove into the city this morning, saw the dead man where he was found and was of the opinion that the accident resulted from deceased's mistaking one of the side doors on the platform of a passenger train for another door and stepping off the train. Death seemed to have resulted from contusions on the face and forehead.—Socorro Chief.

### Boy's Head Cut Off.

David Marquez, 10 years old, was killed in the railroad yards at Alamogordo last week. The boy was assisting his father, A. F. Marquez, in track work. He was crossing the track to deliver a package of bolts and his foot caught under a rail and he fell. The switch engine was backing down the track at the same time and ran over Marquez and decapitated him in the sight of his father. A coroner's jury exonerated the railroad company from blame.

### TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box. 25c.

G. P. Wilson, who was obliged to give up his place as inspector of air brakes, in the field yard at Topeka a few weeks ago and go to the hospital on account of an attack of lung trouble, is now in Pueblo, Colo., having gone there from La Junta. His condition has improved from that which kept him confined to his bed at Topeka, so that he is able to walk a mile.

**Kodol Dyspepsia Cure**  
Digests what you eat.  
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It is unequalled for the stomach. Children with weak stomachs thrive on it. First dose relieves. A diet unnecessary.

**Cures all stomach troubles**  
Prepared only by E. C. DeWitt & Co., Chicago. The 51 bottles contain 51 times the 50c. size. J. H. O'Reilly & Co. and B. H. Briggs & Co.

**50 YEARS' EXPERIENCE**  
**PATENTS**  
TRADE MARKS, DESIGNS, COPYRIGHTS &c.  
Anyone sending a sketch and description will quickly ascertain our opinion free whether an invention is probably patentable. Communication confidential. Send sketch and description. FREE! Oldest agency for securing patents. Patents taken through E. C. DeWitt & Co., receive special notice, without charge, in the Scientific American.  
A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$5 a year; four months, \$1. Sold by all newsdealers.  
**MUNN & CO., 361 Broadway, New York**  
Branch Office, 625 F St., Washington, D. C.

**PATENTS**  
OCEAITS, TRADE MARKS, COPYRIGHTS AND DESIGNS.  
Send your business card to Washington, save time, cost less, better service.  
My office close to U. S. Patent Office. FREE preliminary examination. Also, for the sale of patents. PERSONAL ATTENTION GIVEN TO 10 YEARS. Also, for the sale of patents. PERSONAL ATTENTION GIVEN TO 10 YEARS. Also, for the sale of patents. PERSONAL ATTENTION GIVEN TO 10 YEARS.  
**E. C. SIGGERS, 915 F ST., N. W., WASHINGTON, D. C.**

**E. E. BURLINGAME & CO., ASSAY OFFICE AND CHEMICAL LABORATORY**  
Established in Colorado, 1866. Samples by mail or express and receive prompt and careful analysis. Gold & Silver Bullion Refined, Melted and Assayed OR PURCHASED.  
100 lbs. or car load lots. Write for terms.  
1736-1738 Lawrence St., Denver, Colo.

**A CHANCE IN A LIFE TIME**  
to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it FIFTY THOUSAND DOLLARS

in development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run.  
The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis.  
A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public.  
Do not lose this opportunity. It will never come again.  
For further particulars, prospectus, report on mine, references, etc., address,

**OZARK GOLD MINING & MILLING CO., MOSCOW, IDAHO.**

**FERRY'S SEEDS**  
For The Farmer The Gardener and The Housewife  
They cost a little more. They grow a great deal more than the ordinary kind. Sold everywhere. 100 annual trials.  
D. M. FERRY & CO., Detroit, Mich.

### Trustee's Sale.

Whereas heretofore on the 24th day of August, 1891, Aurelia Lombardo and Angelo Lombardo, her husband, executed and delivered to the undersigned trustee for the benefit of the First National Bank of Albuquerque their certain deed of trust of that date and thereby then and there conveyed to the undersigned as such trustee the following real estate situated in the County of Bernalillo, Territory of New Mexico, to-wit:

Lots numbered Eleven (11) and Twelve (12) in Block letter "B" in the Mandell Business and Residence Addition, in the city of Albuquerque in the County of Bernalillo and Territory of New Mexico, also sufficient ground to make lot 12 a full lot, fronting 25 feet on Third street and 142 feet on Carol Avenue, if said lot was extended west of Third street.

As the said lots are known and designated on the map of the said Mandell Business and Residence Addition, filed in the office of the Probate Clerk and ex-officio Recorder for said Bernalillo county, New Mexico, on the 3rd day of February, A. D. 1886.

Which said deed of trust is recorded in volume 10, page 21, of the record of deeds of trust of said county and was given to secure the payment of a certain promissory note dated June 29, 1890, for the sum of \$1,200.00 payable one day after date to the First National Bank of Albuquerque with interest from date at the rate of 12 per cent per annum until paid and 10 per cent additional if said note should be placed after maturity in the hands of an attorney for collection and

Whereas said deed of trust contained a condition that if the said Aurelia Lombardo and husband should pay and discharge the debt and interest expressed in said note according to the tenor and effect thereof then said deed should be void and said property released, but if said parties should refuse to pay the said debt and interest or any part thereof according to the tenor and effect of said note then said deed should remain in full force and the said trustee should at the request of the legal holder of said note sell the property above described or any part thereof at public vendue to the highest bidder at the front door of the Post Office in the City of Albuquerque, first giving thirty days public notice of the time, terms and place of sale and of the premises to be sold by advertisement in some newspaper printed and published in said city and upon such sale to execute a deed in fee simple of the property sold to the purchaser or purchasers, thereof and said trustee should receive the proceeds of such sale and out of the proceeds of such sale should pay first the costs and expenses of executing this trust including reasonable attorney's fees and compensation to the trustee for his services and next should apply the proceeds remaining over to the payment of said debt and interest or so much thereof as remains unpaid.

And whereas said note is past due and there will be due on the day of sale hereinafter mentioned on account of principal and interest on said promissory note the sum of \$195.00 besides the costs and expenses of executing said trust and the holder of said note has asked the undersigned trustee to make a sale of the above described premises in accordance with the provisions of the said deed of trust.

Now therefore I, the undersigned trustee, will on the 13th day of May 1902, at the hour of 12 o'clock M., of said day at the front door of the Post Office in the City of Albuquerque, sell the above described real estate at public vendue to the highest and best bidder for cash to satisfy said amount now due together with the costs and expenses of executing said trust.

M. W. FLOURNOY, Trustee  
Dated April 7, 1902.

**PROPOSALS FOR FRESH BEEF AND MUTTON**—Office chief commissary, Denver, Colorado, March 1, 1902.—Sealed proposals for furnishing and delivering fresh beef and mutton in block during fiscal year commencing July 1, 1902, will be received here and at offices of commissaries at the following posts until 11 a. m., standard mountain time, April 1, 1902, and then opened at: Forts Apache, Grant and Huachuca, Arizona; Bayard and Yngate, New Mexico. Proposals will be received and opened at same time for fresh beef and mutton, to be delivered at these posts at temperature not greater than 50 degrees Fahrenheit. Information furnished on application. Envelopes containing proposals should be marked "Proposals for fresh beef and mutton, and addressed to undersigned or to commissary at post to be supplied. The undersigned, Chief Commissary.
