Lesson: Personal notes and business letters are important forms of communication, documentation and records for historians and sociologists. Beginning with “Dear Colleagues” letters, our You and Your Rights lesson focuses on transgender student access to school bathrooms.

Difficulty: Medium

Classroom Worksheets:
1. From Me to You
2. Letters Take Many Forms
3. You and Your Rights

Alphabet books, the first books of letters for most children, introduce upper and lower case letters, sounds represented by letters, and the tie between those words and objects. Through the activities and reprints in this guide, students will consider the different uses of letters in their daily life, in the media and by authors. The Word Study, “A Word About Epistles, Communiqués and Letters,” moves from etymology to Epistles and epistolary novels. Students are asked to practice writing different notes of appreciation. This guide includes a dateline activity and KidsPost article for younger students. DeNeen Brown’s article about the Library of Congress collection of love letters and
letters from the Bush twins to the Obama daughters are used to give students practice in identifying the use of excerpts and selecting the passage to excerpt from a longer work.

“Dear Colleagues” letters sent by the Department of Education and Department of Justice introduce our You and Your Rights lesson focus on transgender student access to school bathrooms. Washington Post articles, editorial and guest commentary and additional resources including Title IX background are provided. The lesson was written by Maryam Ahranjani, Assistant Professor of Law at the University of New Mexico School of Law, where she teaches Constitutional Rights, Criminal Law, and Criminal Procedure.

Develop Vocabulary

*English, Journalism, Social Studies*

Vocabulary development includes an understanding of the origin of words and their meaning. “A Word About Epistles, Communiqués and Letters,” this guide's Word Study, presents students with the etymology of “letter” and “book,” distinguishing “epistle” from “Epistle,” and epistolary novels. Discussion questions are included.

In the Know contains terms used in the You and Your Rights resource guide. These terms are defined using legal and psychological glossaries. In addition, the lesson provides selected terms that are defined for student use.

Find a Place

*Geography, Journalism, Media Arts, Social Studies*

“Places in the News” introduces students to datelines in the form of a newspaper search. Teachers may do this activity using the print or online edition.
A geography element is added when students are asked to locate places on a map. Maps are provided at nie.washingtonpost.com in the More Resources section for use with this activity.

**Write a Friendly Letter**  
**English, Journalism, Media Literacy, Sociology**

Teachers may begin this activity with a discussion of letters that students have written and letters that their families receive. Have these been in the form of thank you notes?

Thank you notes (handwritten or sent by email) may be written to express personal and professional appreciation — for gifts, special occasions and opportunities, job interviews and assistance.

“Thank you, Grandma” is intended as an introduction to writing the personal thank you note. Four examples are provided, starting from the simplest to the more detailed. Questions are provided for discussion and application of guidelines.

Two letters of appreciation, written in 1903 and in 2016, were written to school officials. Note the context in which they were written. The third letter is an example of what may be sent to patrons and others in the community who assist school clubs, athletic and academic endeavors. These are meant to give students awareness of other people who would appreciate acknowledgement. Discussion questions and suggested writing activities are included in the handouts.

Also include is an article from a parent to her child’s teacher. Read and discuss “The letter I had to write to my child’s teacher.” What details are included in the letter that relate to the teacher’s classroom management?

**Look for Advocacy Letters**  
**English, Journalism, Media Arts, Media Literacy**

Businesses, organizations and individuals committed to a cause will buy advocacy advertisements in newspapers. The full-page advertisements, in particular, grab reader attention, succinctly take their stand and state their cause. Some can be very effective in their reaching their target audience.

They may appear in the form of a letter to thank customers, to acknowledge a position taken by the president or to urge action by members of congress. Show students examples of these advertisements to determine the target audience, the message and the effectiveness. Students may be asked several weeks in advance of this lesson (or after) to look for advertising in the form of a letter.

Understand History Through Letters
English, Social Studies, U.S. History

Letters are often appreciated at the time they are received, but their impact can go far beyond that day and year. Letters can be appreciated alone or in a collection. They can bring alive times of war and peace, enhance our understanding of historic and literary figures, and reflect cultures and the impact of decisions upon individuals.

Teachers can illustrate these concepts with letters in the National Archives and Library of Congress collections.

• Letters of Delegates to Congress, 1774-1789
• Poet and author Walt Whitman wrote letters for illiterate and injured soldiers during the Civil War
• In war-torn Syria letters have been written by and to children
  • “Syrian girl who tweeted from inside Aleppo” begs President Trump to save her friends
  • Letters from Syrian children
  • Letters from WWII refugees to Syrian children

Teacher are encouraged to use the letters in this month’s guide for students’ to practice using letters to illustrate an idea.

• Letter of appreciation, Stanhope Dodson, written 1903
• Letter written by Bush daughters to Obama daughters, 2017
The Library of Congress has sponsored a National Reading-Writing promotional program, Letters About Literature. Teachers might share the works of national and state winners. The LOC Center for the Book teaching guide offers tips for doing such a project.

**Know What to Excerpt**

**English, Social Studies**

Using letters to illustrate a point, to show understanding of a topic and to support a statement is done by students writing a research or position paper, reporters writing news and feature articles, and historians.

At the end of The Post article "The touching letter the Bush twins wrote to Sasha and Malia Obama" about being first daughters," the writer has included the entire letter sent to Sasha and Malia as their family prepared to leave residency in the White House. Teachers can give this letter to students to read and in small groups discuss the possible topics this letter could illustrate. After the group has decided on a topic, they should work together to select two to three passages to quote in their paper or oral presentation. When finished, ask each group to present their topic and to explain the passages they will excerpt. After this activity, teachers can give students the article written by Katie Mettler. Discuss the article’s content and the excerpts that Mettler used.

Excerpts form a large part of DeNeeen Brown’s “Ageless love letters.” Give The Post article to students to read. Which of the passages excerpted from the letters:

- Reveal attributes and character of the individuals?
- Indicate style of the letter writer?
- Communicate something about the mores of the time?

“Excerpts Add Depth” is provided for teachers to use to guide students through the process of deciding which passage(s) to select for excerpts.

G.G. v. Gloucester County School Board, a case involving a Virginia student’s rights was making its way to the U.S. Supreme Court until February 22, 2017, when it was remanded to the 4th Circuit Court.

This is one in a series of closer examination of students’ rights — and responsibilities, You and Your Rights. This guide relates to letters through the inclusion of "Dear Colleagues" letters that provide guidance and clarification to those who are to implement civil rights laws. Resources provided include Washington Post reprints and student handouts.

Timeline: Historical Background of G.G. v. Gloucester County School Board
Resource: Legal Background
Stakeholders: Perspectives on the Issue
Student Activity: Check Your Understanding
Student Activity: In Your School

This multi-stage exploration of the legal rights of students was prepared by Maryam Ahranjani, Assistant Professor of Law at the University of New Mexico School of Law, where she teaches Constitutional Rights, Criminal Law, and Criminal Procedure. Co-author of the textbook Youth Justice in America (2nd ed. 2014), Professor Ahranjani’s research and writing interests include students’ access to public education. Prior to teaching at UNM, Professor Ahranjani taught law in Guatemala, served as a rule of law consultant to USAID and State Department projects, and served as Associate Director of the National Marshall-Brennan Constitutional Literacy Project at American University Washington College of Law in Washington, D.C.

Post articles and guest commentary and links are provided in this guide. To read more on the topic of transgender student access to school bathrooms, here are some suggested titles:

SHORTER DISCUSSION OF THE TOPIC
Any section of the larger unit may be used by teachers. In addition, we provide these additional resources for a shorter study of the right of transgender students.

Read an Editorial
Health, Journalism, Government, Social Studies, U.S. History
The editorial board is separate from the reporting and feature writing staff. The editors present the point of view of the newspaper. Read and discuss Post Editorial, “Abandoning transgender students,” February 24, 2017. Teachers will note that a wider margin is provided to allow room to annotate the editorial as students read.

**Read the Editorial Cartoon**

*Art, English, Health, Journalism, Psychology, Social Studies*

Editorial cartoonists present visual commentary. Read the February 24, 2017, “Tom Toles | Trump’s New Security Guard.” Discussion questions are provided to aid analysis of the cartoon.

**Read KidsPost**

*English, Social Studies*

KidsPost, for our younger students, features Joe Maldonado, a 9-year-old from New Jersey. He has become the first openly transgender member of the Cub Scouts. Give students “Openly transgender boy welcomed into Cub Scouts.” Teachers who wish to discuss a change in community and organizational attitudes will find quotations from Joe’s mother, Joe and a statement from the national BSA.

**ANSWERS. Letter to a Patron.**

1. It is important to thank a patron in order to show that your organization values their contribution and/or service to you.
2. This letter helps HCHS Habitat for Humanity club because it shows that the organization cares about its projects, and it states details about the organization's stewardship of funds. The recipient may be willing to donate to future projects and tell others of the group's activities. This letter helps Mr. Lee because it provides him with written recognition for his donation and invites him to the event. Therefore, it is dually a thank you note and an invitation.
3. The tone of this letter is candid, formal, and informational. Camille uses professional language to sincerely express her thanks to Mr. Lee and provide him with more information about HCHS Habitat for Humanity, the summer trip, and the luncheon.
4. Answers will vary.
