BEAN DOPE

(From The Bean-Bag for February, St. Louis.)

The bean market in January has been very satisfactory to practically all parties concerned, with the possible exception of the mythical speculator who is supposed to have sold short. Prices have steadily risen with no spectacular sales or rises but more the steady ebb and flow with the market sticking a little higher each time it rose and declined. This price record would seem to be a good indication that at least the bean market is getting away from false values (heavy knows no one can call them "inflated values"), and is now holding its present level purely because the supply is such and such and the demand is so and so.

Michigan beans took a rise due to the expected sale to the American Relief Commission, but declined when this sale was not immediately consummated. Heavy buying in December and the early part of January depleted elevator stocks and filled up some terminal warehouses, but at this writing, February 4th, it seems as if there is no serious overloading of stocks by any group of wholesalers, and orders continue to flow in to shippers in a steady stream that shows a lack of speculative demand and only a healthy domestic market.

Pintos have risen in price as stocks were discovered to be very low. Conservative estimates ten days ago were that only 400 cars of the 1919 crop of this variety were in first and elevator hands. Deliveries from the growers in New Mexico have been slow and we do not believe that the price will stay at its present level if any pronounced demand is evidenced.

Michigan growers in some sections have delivered all their holdings to the elevators, while in other cities only a small percentage of holdings have been turned over to the elevators. The Michigan Bean Jobbers' Association estimates that as of January 23rd about six hundred cars were held by elevators with a total of 70 to 85 per cent of the 1919 crop shipped out of the state. With at least six or seven months until the new crop is on the market, we can see but one thing.

Oriental prices are still above the level dealers are ready to pay, and will likely stay where they are until buyers come to the prices offered. Oriental beans do not depend on the United States for a market now and can be more disposed to be independent. Pinks and colored beans have been in good demand. Heavy sales were made to Cuba in the early part of the month.

New York State holdings of 1919 crop are very light. One census of the elevators showed only four cars ready for immediate shipment. This is hardly the case at this time, but holdings are light in that state.

Greeley, Colo., Jan. 21.—The demand for choice, re-cleaned pinto beans has been more than active for the past ten days, and indications point to a rise in the market.

Growers that have been holding their stock in Northern Colorado for better prices are inclined to sell their beans at the present market price, and we anticipate that on the \$7 market, which we undoubtedly will have by the first of February, that the growers and dealers in Northern Colorado will be quite active.

We understand that New Mexico has practically cleaned up the larger portion of her stock, and that marketing conditions are showing quite an improvement in that district of late.

We are very much inclined to think that if our market closes at a good, strong price, that it will be quite an encouragement for our growers to put out a reasonably good acreage this spring, but on the other hand, if prices rule

low, the probabilities are that the acreage in Northern Colorado for 1920 will be greatly reduced.—The W. R. Northway Marketing Co., W. Marketing.

Denver, Colo., January 21.—From our observation pintos are going to bring good prices this season. Also we anticipate that the acreage that will be planted this year will be very small in comparison with former years.—Bartelde's Seed Company.

Denver, Colo., Jan. 30.—The Pinto Bean situation may be said to be quite satisfactory at this writing. The prospects for reasonable profits on the very limited stocks remaining in Colorado may be considered excellent and the possibility of loss seems very remote.

During the past week an increased number of sales of choice re-cleaned Pintos have been reported on basis of \$6.75. o. b. Colorado-New Mexico shipping points and shippers generally have advanced their quotations to the trade to a basis of 7 cents, and from a number of outside bean shipping districts we learn that all the offers under this figure are being turned down, and although no actual sales have been reported on this basis it is quite apparent that a better market is anticipated and may be counted on as an early possibility.—Mid-West Bean Co.

GET BUSY

Wichita, Feb. 9, 1920. Estancia News-Herald:—How about Estancia on the oil question? Are you going to lay quiet and not drill on the leased land and let Duran beat you to the riches that are waiting for you?

While the oil may wait for you, it seems that the sooner you bring it forth the sooner you would enjoy its wealth. While they don't seem to be going so fast at Duran, they are trying, and perhaps if Estancia would start she might catch up and come out in the lead. Getting busy and keeping so is what counts.—One Who is Interested.

MARRIED

Miss Lola Strong and Elmer Dial were married February 15th at Sunny Lane, the home of Judge and Mrs. W. D. Wasson, the Judge performing the ceremony.

The bride looked charming in a dress of white silk. The contracting parties are among the most popular and esteemed young people of the community, and a host of friends wish them a prosperous and happy married life.

The bride is a daughter of Rev. T. N. Strong, and the groom is a son of Mr. and Mrs. T. L. Dial.

Miss Elva Crenshaw and Lisle D. Jennings, prominent young people of the Mountain-air neighborhood, were married Monday morning by Judge Wasson in his office in Estancia.

J. P. COURT

Lincoln Chavez, who served eighty days in jail on a charge of carrying concealed weapons was arrested on his discharge last week on a charge of stealing a revolver, to which charge he entered a plea of guilty. The court gave him a sentence of 60 days in jail and a fine of \$50, but told him that if he would find a job and go to work the sentence would be suspended. One of the Lucrases gave him work and he was discharged on the suspended sentence. The woman who came here as Lincoln's wife returned to California when he was first locked up, a number of persons having interested themselves to find the funds for a ticket for her.

In the cases of the Garden-hires from Stanley who were before Justice Hine's court some time ago on charges of forgery as reported in these columns, the elder man was discharged and the young man forfeited his bond and is gone to parts unknown.

RED CROSS NURSE

READY TO HELP

New Mexico, through its State Department of Health, is combating the influenza. Dr. C. A. Waller, Commissioner of Health, is in charge of the work.

Upon request of the Department of Health, the American Red Cross has authorized Miss Magdalene Banzhof, New Mexico State Supervisor of Public Health, to render all possible assistance and cooperation.

Miss Banzhof represents the Mountain Division Bureau of Nursing. She has her head-

quarters with the Commissioner of Health in Santa Fe. The Red Cross and all other organizations throughout the state, which feel a need for nurses should communicate directly with the State Department of Health. If the department is unable to meet demands the Mountain Division of the Red Cross will render all possible service.

For Sale.

Thirty head grade Duroc pigs, 1 registered Duroc boar pig, 1 new light saddle, 1 set heavy work harness, 1 pair good chaps.—R. B. Cochrane.

ESTANCIA SCHOOL NEWS

Professor Wills is back in school after a long illness. He seemed pleased to find that the work had gone on so well under Mr. Trentman's supervision.

Dr. Wiggins visited the school Monday morning and sent home all the children from Mrs. Rousseau's Miss Morgan's and Mrs. Parrett's rooms as well as the junior high school. They were exposed to the influenza last Friday and all those who are still well may return Wednesday morning.

Miss Morgan is very ill with influenza. Mrs. Rousseau, Mrs. Parrett and Miss Weddige are under quarantine although they have not yet taken the dreaded disease.

Ethmer Jackson is still out of school because of the mumps.

The whole school is united in regret that Mr. Trentman will leave us so soon. Mrs. Rousseau will take his place in the science room, while Mr. Bolt of Capitan, N. M., will take Mrs. Rousseau's room.

The chemistry class is very busy studying acids and at last have learned that there is a difference between H₂O and H₂SO₄.

Monday, the 16th, the first year science and agriculture classes visited the Salt Lakes. Their object was to study the formation of these lakes. Of course they didn't spend all the time studying, for at Willard the freshies supplied themselves with candy and chewing gum and then one of the boys had to repair his car a few times so you see they had plenty of fun. Everyone was back in Estancia before sun down and the freshies were just a wee bit wiser than when they left.

The junior high school valentine party was enjoyed by all present. Those on the entertaining committee had planned some appropriate games which did not fail to appeal to the frolicsome juniors. Delicious refreshments were served and every one went home feeling rather sorry that the evening should have passed away so soon.

The grades also had a nice time in their own rooms where they had their valentine boxes decorated and well filled with pretty valentines.

Notice \$50.00 Reward.

For strayed or stolen, five head of colts from my place three miles northwest of Estancia, one coal black filley, blocky made, will bring colt in spring; one real dark iron gray mostly black, blocky made; one sorrel flax mane and tail; one bay, stands on feet like a mule; one small bay, stocking legs. Are You Standing In Your Own Light?

If so, you standing in the way, and proving a hindrance to your neighbor's success as well as a hindrance to the entire community.

From past experience, which is the only educator we have that can be depended upon absolutely, it is a proven fact that diversified farming is more certain than one crop, it is also a proven fact that a few good dairy cows and a pure bred pig, rightly cared for will tide you over every month in the year with living expenses and more, and when your crop is marketed, instead of owing every dollar to your bank, it will be yours to invest to your best advantage and the community's good.

Don't lose sight of the fact that a bank's first duty is to aid in all ways possible in the development of the community; also that you have a duty, to abet and aid in all ways possible, such development.

Help us, we will help you. The result is sure.

NEW HOME

Special Correspondence.
We all hope this nice weather continues.

There is some influenza in the Fairview community.

Claude Blackwell's family have been quarantined because of their oldest child having smallpox, but the quarantine was lifted Saturday and they attended church Sunday.

The Mann brothers who live on the C. M. Douglas place, are having quite a siege with the mumps.

Mrs. Mat Nidey and daughters, Dimple and Opal, visited Mrs. Ernest Glenn Saturday. Sister McNiece will preach at New Home Sunday and Sunday night.

Homer Douglas is home from Mountainair as the school is stopped there on account of influenza.

Herbert Heritage, Orvil Brown and Oscar Wingfield attended church at Estancia Sunday.

Several New Home people are being vaccinated for the different diseases which are in the county.

Mrs. Ed. Wingfield's father who has been visiting her, returned to his home in Texas Sunday. He and his family will return here soon to live, also two of his married children.

Mr. and Mrs. William Crawford have gone to Kansas to attend the funeral of Mrs. Crawford's father.

Mr. Castor and family visited at Grandpa Crawford's Sunday.

Homer Douglas visited Harry Nidey Sunday.

We are glad to report that some of the New Home people are through gathering corn.

Rev. Strong lost his last daughter last Sunday morning when Miss Lola Strong and Elmer Dial were married in Estancia. We all wish them a long and happy life.

IN ESTANCIA

Statements of Las Vegas Citizens Are Always of Interest to Our Readers.

To many of our readers the streets of Las Vegas are almost as familiar as those of our own town, and we are naturally interested to read of happenings there. The following report from a well-known and respected resident will be helpful to numbers of men and women here in Estancia.

W. A. Givens, retired real estate dealer, 1118 National Ave., E. Las Vegas, N. M., says: "I can certainly recommend Doan's Kidney Pills for they have proven their merit to me. I used to have frequent attacks of kidney trouble and I suffered with lame back and sharp pains across my loins. Doan's Kidney Pills went right to the seat of that trouble; stopping the pains in my back and ridding me of kidney complaint. Since then I have had several attacks but Doan's have always cured me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Givens had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

A "PAY-AS-YOU-GO" POLICY FOR ROADS

"Roads should be built to support the traffic of the community at an expense which the traffic justifies, considering the material, cost, the wealth of the community and the traffic requirements," quotes the Taxpayers' Association of New Mexico. If this principle meets with general acceptance, there still remain the questions as to methods of raising the necessary revenues to meet construction and improvement cost.

The state of New York may substitute the "pay-as-you-go" plan to defray the cost of highway construction and other permanent improvements for the present system of providing for expenditures of that character through long term bonds. "Every time we float a \$100,000,000 bond issue it means the expenditure of \$190,000,000 before amortization," said Speaker Thaddeus C. Sweet at a recent conference on highway construction and improvement. The majority of the conference seemed to favor a short term serial bond issue—a compromise between a strictly "pay-as-you-go" proposition and the 30 to 50 year bond issue.

"Long-time bonds should not and must not be used to build short-time roads. We cannot consent to any improvement paid for with borrowed money—money borrowed for a long period of time—that is not an improvement of a durable type. Any other plan would be extravagant waste."

With these words the State Highway Department of Pennsylvania last month refused the application of one of the counties of that state for permission to issue bonds for constructing cinder roads. There can be no question about the wisdom of that decision for this and every similar case. Such a practice would as surely bring a disastrous day of reckoning as would living beyond one's income and issuing notes for the deficit.

In the Building and Engineering News, of September 17th and 24th, 1919, attention is called to the fact that some roads costing \$12,000 per mile to build require \$1200, or ten per cent of construction cost, annually for maintenance. In ten years the taxpayers will have paid for maintenance an amount equivalent to the entire first cost. Supposing bonds had been issued for thirty years to build this road. In that period three times the cost of original construction would be paid out for maintenance.

In connection with these suggestions the following ditty clipped from the San Bernardino Index is apropos and should be kept in mind by the taxpayer.

"Hordes of autos now remind us
We should build our roads to stay;
When departing leave behind us
Kinds that rains don't wash away.
When our children pay the mortgage
Fathers' made to haul their loads,
Do not let them raise the question,
'Here's the bonds, but where's the roads?'"

Judge Neblett of the United States district court today cancelled Antonio A. Jaramillo's patent to 80 acres of land near Barton in the Estancia valley. Jaramillo had built a house on the homestead and cultivated the land, but had not lived there. That he had not fulfilled the residential requirement, however, was not discovered until after the patent had been issued.—New Mexican.

Dollars and Cents.

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

REAL ESTATE SALES

Estancia Realty Company reports the following sales made through their office.

To Alejandro Baca, the southwest quarter of section twenty-six, township four north of range eight east, owned by Mrs. Velma Carlisle.

To J. W. Easley, the south half of section twenty-one, Township six north of range eight east, owned by W. A. Cross.

To Walter F. Martin, the southwest quarter of section seventeen, township five north of range seven east, owned by A. N. Roach.

To Mrs. J. W. Williams, the north half of section eight, township six north of range eight east, owned by Gust Dallman.

To J. W. Easley, lease on school section sixteen, township six north of range eight east, owned by W. A. Cross.

To Dr. J. H. Wiggins, lots 1-2-3, block six, Central Addition to Estancia, the James Walker residence.

Mrs. Sallie Comer had the misfortune Sunday of stepping on an 8-penny nail, which made a bad wound. But she being aware of the dangers following such a wound, called a physician at once, and has industriously followed his directions. Otherwise, we are glad to report to her friends that Mrs. Comer's health, following her operation for goiter by the Mayo Bros. at Rochester, Minn., is better than for twenty years. She says that her health is in fact superb.

School in several of the Estancia grades resumed Wednesday morning after a dismissal of two days to await developments, Miss Morgan having taken influenza last week but her case not developing until after others had been exposed. Miss Weddige now has a case of it, and she and Miss Morgan are quarantined at the home of Dr. and Mrs. Parrett, who are also included in the quarantine. Consequently there are three substitute teachers.

The defendant, Juanita Trujillo Candelaria, is hereby notified that complaint has been filed against her in the District Court of the Third Judicial District of the State of New Mexico, within and for Torrance county, that being the county in which said cause is pending, by Lorenzo Candelaria, the said plaintiff.

The object of said cause is for divorce. And unless you enter your appearance in said cause on or before the 6th day of April, A. D. 1920, you will be adjudged in default and judgment will be rendered against you.

The name of plaintiff's attorney is W. D. Wasson, whose postoffice address is Estancia, New Mexico.

In witness whereof I have hereunto set my hand and seal of said District Court this, the 18th day of February, 1920.

JULIAN SALAS, County Clerk. By A. L. SALAS.

For the Children.

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.

E. W. Roberson was confined to his home several days last week by sickness, but is again at his post of duty in the Farmers and Stockmens Bank.

Walter Martin came up from Hot Springs Tuesday to attend a meeting of the county commissioners. He left Mrs. Martin just able to sit up a little, and returned as soon as he could get loose.

As will be seen by items printed elsewhere, there are a number of new cases of influenza this week. Those mentioned are all we can hear of—Miss Morgan, Miss Weddige, Mr. and Mrs. Estes in town, and the F. T. Meadows family in the country. None are reported to be in dangerous condition.

C. A. Swartz and son and son-in-law finally got their beans threshed and are hauling them to town. They got 1547 sacks, and say they lost fifty sacks in the strawpile because the beans were damp when threshed. They had 113 acres that averaged 950 pounds to the acre, and forty acres of this tract made 1130 pounds to the acre.

W. W. Haney has moved to his new home the Lacey place southwest of Estancia. His son, Ed. P. Haney has bought one of the Barth tracts just southwest of the Lacey place. Another son, O. C. Haney, who has been in Washington seven years, came in a couple of weeks ago and has rented land in the neighborhood. The elder Mr. Haney farmed last year on E. Pace's land, and says he never before made as much money farming single-handed as last year.

Miss Morgan, one of our teachers, has been quite ill with influenza, but we are glad to report that she is in line to soon be well again.

Mrs. O. W. Bay was over from Albuquerque the first of the week attending to business. She intends to move back to the ranch later in the spring.

Castulo Marquez of Duran was up this week attending to official duties as a member of the board of county commissioners. He has just recovered from an attack of influenza and is yet in a weakened state from the effects of his illness.

R. M. Bingaman of Trowbridge, Illinois, who was here visiting the L. D. Roberts family, has taken a position as bookkeeper for the Equity Exchange, and will remain at least for a time. Mrs. Bingaman and Mrs. Roberts are sisters.

Ewing Compton returned to his home in Oklahoma Monday after a visit of two weeks with his sister Mrs. Johnnie Stephens, and his parents, Mr. and Mrs. W. L. Compton. He grew up in Oklahoma and thinks that country is just right.

D. D. Smith is going to farm the McKinley place in the New Home district now owned by E. McGee, the coming season. He will also farm some other land of Mr. McGee's. He has rented part of his pasture land northeast of town to G. W. Felton.

Henry Cox and his brother E. L. Cox have bought the interest of the Ingle brothers in the Cox & Ingle Cash Store, which will now be known as Cox Bros. Cash Store. The Ingle boys couldn't withstand the call of the bean farms and will go back to the soil.

Attorney General Askren has issued an opinion in which he says that slot machines and punch boards come under the ban of the New Mexico anti-gambling law, and persons who operate them should be prosecuted vigorously. The opinion was given in response to an inquiry from District Attorney Craig of Albuquerque.

D. J. Bigbee of the Pintada country north of Encino, was in Estancia Wednesday looking after business. He has lately sold his interest in the ranch holdings there to his sons, leased his sawmill for several months, and will make a visit of several months at his old home in Missouri.
