CERRILLOS.

From the Register.
R. M. Carley and wife, of Golden, were Cerrillos visitors, returning home the next day.

Levi Hughes, of Santa Fe, was in town a few days on his regular annual wool buying trip through this part of the county.

Mr. and Mrs. A. S. Bundy, after closing a successful term of school at Madrid, left for Albuquerque, where they will spend their vacation, and will return in the fall and teach the school at the same place.

Andy Watta, who accidentally shot himself some time ago, returned from the hospital and went out to the Gipsy Queen mine. He has to use crutches yet, but is improving rapidly.

H. A. Neel, former editor of the Register, and his wife passed through here on their way to Colorado. Mr. Neel reports poor luck in the show business in Arizona, but hopes to do better south.

Judge Kendall is learning the uncertainty of chicken raising in New Mexico, by his experience as the coyotes came in to his yard and took six of his finest young chickens, which were nearly large enough for broilers.

BLAND.

From the Herald.
Ed Marksbury visited the Jemez country.

Charlie Strien was in from the Rogers ranch.

Henry Lockhart came in from Albuquerque.

Colonel Hixler, the merchant at the Sulphura, was in town.

Miss Jennie Arnold is visiting Miss Mary Springer this week.

Prize Otero and John Zimmerman returned to Santa Fe.

That fine cow recently purchased by Capt. T. H. Benson, is attracting considerable attention these days.

Born, to the wife of Joseph Root, house, a daughter. Mother and babe are doing well.

J. G. Creager, Ed Marksbury and Hank Ritter spent a day in Capone canyon, fishing. They had very good success.

Miss J. M. Hunter left on a visit to relatives in Texas and will be absent about three weeks. The editor accompanied her to El Paso.

M. H. Roseberry, of Thornton, has been awarded the contract for carrying the mail from Thornton to Bland and return. A number of our citizens put in bids, but lost.

GALLUP.

From the Republican.
Henry Dornes is running a saw at Cananea, Mexico, for \$5 per day.

Dave Morris left for Addington, I. T., where he will engage in business.

Ben Wilson is now filling the position of cashier of the Colorado Supply company's store in this city.

Henry Mack has been promoted to foreman for the Santa Fe at Bakerville, Cal., at a salary of \$125 per month.

A grand concert was given at the Clarkville school house by Mrs. Sloan, assisted by local talent.

Pablo Gonzales, a destitute Mexican, died in Gallup of pneumonia. The body was buried by the county.

A. B. Searls, formerly electrician here and at Clarkville, passed through town from Hanford, Cal., to Walsenburg, Colo.

John Hendle, who has been absent in Los Angeles for the past few months undergoing medical treatment, returned to Gallup greatly improved in health.

Martin Ghed returned from the desert. He visited Los Angeles and other coast points while absent. His father returned with him and continued east.

Miss Edith Baylis has been absent from her post of duty at the Gen. Grocery for the past few days, due to a light attack of rheumatism. Her sister, Miss Jennie, is filling her place temporarily.

Mrs. Lee Henderson and Mr. Henderson's mother leave here for Sunrise, Wyo., where they will join Mr. Henderson, who is manager of the Colorado Supply company's store at that place.

Mr. and Mrs. Alex Robinson entertained a few of their friends with what. Those present were: Mr. and Mrs. B. L. Holmes, Miss Harris, Miss Lawrence, Mr. Washburn, Mr. Mapel, delicious refreshments were served and a most pleasant evening was passed.

On Tuesday notice was received here that a term of district court would commence at Gallup on Monday, July 7, next. The following gentlemen were appointed jury commissioners: Hugh McGinn, T. C. DeShon, and S. E. Al-

senice of its mother. The little one got hold of the matches and set fire to itself. When the mother returned she found the baby a charred mass, lying on the floor.

SAN MARCIAL.

From the Bee.

It is reported that Joseph McQuillin has purchased the W. H. Kremls residence.

G. H. Sweet is visiting points in Kansas and expects to be about about two weeks.

The flour mill is grinding a few thousand pounds of wheat lately delivered.

Chas. E. Owings is figuring on moving to Belen, to take charge of John Becker's flour mill, about the first of the month.

San Marcial lodge No. 5, A. O. U. W., selected its present reading officers for another term. They are Francis Wilson, recorder; H. H. Howard, treasurer; W. G. Lane, receiver.

Park Phillips, a Chicago attorney, and C. B. Willard, a member of our legislature, that now controls the Arizona grange, were here looking over the grant. Improvements are contemplated and the first move may be the fencing of the entire grant.

The Armstrong Bros. have purchased the lots adjoining their business block. The long row of adobe rooms in the rear of the building occupied by the Drs. Crickshank as an office are to be put in good shape and partially used as a liquor warehouse. Other improvements will follow. This purchase places the Armstrongs in the lead as large holders of real estate in San Marcial.

LAS CRUCES.

From the Progress.

The little daughter of Mrs. L. C. Woodson is ill with a light attack of typhoid fever.

W. S. Gilliam and family have removed from Mesilla Park to their ranch near Earlsburg, where they will spend the summer.

Mrs. O. H. Brown and little daughter left for Modoc to spend a few weeks at that resort.

E. H. White, accompanied by his mother and the family of D. A. Creamer, left for a camping trip to the White mountains.

Mrs. A. Jacoby, accompanied by her daughter, Miss Clara and Lydia, left for southern California, where they will spend the summer.

J. H. Bailey killed a large wild cat on his ranch near Anthony, which is being mounted by Charles Wilkinson. The cat is one of the largest that has ever been seen in this part of the country.

The married men of Las Cruces have challenged the boys for a game of base ball on the Fourth of July, which will in all probability be pulled off if the married men can get up enough "Ginger."

Miss Lulu Weeks left for Chicago, where she will visit for several weeks before returning to her home in Clinton, Michigan. The boys in the valley are evidently pretty slow or they would never have let her go back. But there are rumors that the lucky man lives in Michigan, so that gives some excuse to our boys.

RATON.

From the Range.

Mrs. S. E. Leeman and son are home from La Junta.

Mrs. Will Mitchell, of Florence, Colorado, is visiting here with her mother, Mrs. Cox.

Miss Clemens, a teacher from Pittsburg, Pa., is visiting with her brothers and sister, Della, of this place.

A sight to delight the eyes of all lovers of flowers is the blossoming cactus in Mrs. Englewood's show window.

Mrs. M. Lechune, of Dawson, and Miss Marian Ellis, of Wichita, Kas., who have been teaching the Maxwell school during the last term, visited Miss Boggs in the city a few days this week. Miss Ellis contemplates spending the summer at Dawson the guest of her former school mate, Miss Maude Terhune.

Engene Shepherd, of Trenton, N. J., a friend of Miss Lizzie Boggs, of this city, arrived and left the next day for the Dane ranch, where he will remain all summer. He is here for the benefit of his health, and there is no doubt but that a few months residence in the dry, pine perfumed air of this country will make a new man of him.

DEMING.

From the Headlight.

James Kelly, who for the past year has been assistant postmaster at this place, left for his home in Indiana.

F. R. Pollard, who recently took a position with W. J. Wamel as bookkeeper left for Portage, Wis., having been offered a much more lucrative situation as cashier of a large lumber concern at that place.

Harry Harris, who for so long a time has been employed as a bartender at the Aquarium has resigned and gone to work at his trade, carpentering, for the Bisbee road. Mr. Harris' health was not good and he thought that out of door employment might be beneficial.

Sheriff Higgins, of Roswell, was a visitor in Deming this week. Mr. Higgins came here for the purpose of taking Walter McConigal over to Roswell for trial there. McConigal is charged with the same offense there as that he stood trial in this county. Obtaining money under false pretenses.

John Corbett, James Irvine and J. B. Hodgdon have during the past week had a cement sidewalk placed in front of their residences and now that part of Deming looks a whole lot better in

consequence. Mr. Corbett had a walk laid on the south side of his lot, 142 feet in length.

There has been within the past two months, over fifteen hundred feet of cement sidewalk laid in different parts of this city. It must be admitted by all that this is a pretty good showing for our town. And in addition to this amount placed there is about half as much more contracted for that will be "at down tails fall."

Henry Nordhaus met with more luck last Tuesday than falls to the lot of an ordinary mortal usually in one day.

First, he received a telegram announcing that he was a "grandpa" and then he succeeded in purchasing the lot just south of the one where he is at present doing business.

Mr. Nordhaus has wanted this lot for a number of years, and only last Tuesday succeeded in making satisfactory arrangements with Otto Smith, the former owner. The telegram referred to stated that on the morning of the 17th Mrs. Frank Ward, nee Nordhaus, had become the mother of a fine twelve pound girl, at her home in Kirkville, Mo. And now boys, don't forget that Morris is now "Uncle Morris."

SANTA FE.

From the New Mexican.

The local brewers are passing a subscription list to raise funds for a big Fourth of July celebration and floral parade this year.

Max Kaiter has resigned his position with S. J. Hagan Brothers, and will on August 1, take charge of the management of the dry goods store that John Deming will open on that date.

The concert by the Capital City band on the Plaza drew a large crowd last evening. The band played superbly. It is to be hoped that these Thursday evening concerts by the band will continue to be a feature of the summer months at Santa Fe.

Flower Day will be observed next Sunday at the penitentiaries. All who have any flowers to give for the occasion, are requested to send them to Mrs. Harvey on Johnson street, or send word to Mrs. Harvey, Mrs. Kinsell or Mrs. Warner, who will send for the flowers.

W. J. McPherson made a trip to his ranch in the Espanola valley. He reports that the valley will have an abundant fruit crop this year, but that grasshoppers are doing much damage, some alfalfa fields having been eaten off to the roots by the pest.

A. Dockweiler came over from Texas with some of the finest cherries seen here this season. He reports that the cherry crop is rather short and that the apple crop will be only medium as the frost late in May killed the fruit in many spots. There is still sufficient water in the Tesuque for irrigation purposes, although the country is as dry as tinder at present and a good soaking rain is much needed.

M. W. Mills, attorney and fruit raiser at Springdale, is in Santa Fe in consultation with Solicitor General E. L. Bartlett and Territorial Treasurer J. H. Vaughn in reference to the assignment of Juan Santistevan, proprietor of the Taos bank, which was one of the depositories of the territory. It is understood that a demand has been made upon Santistevan and Mills, who is Santistevan's bondsman, to return the territorial deposit loaned the Taos bank into the territorial treasury.

The Denver Post of Saturday prints an excellent picture of Miss Teatsie Call, of this city, who is visiting friends at Denver.

Miss Thompson, matron of the United States Indian school, is still confined to her bed suffering with a broken ankle. She is, however, slowly improving.

Mr. and Mrs. Pedro M. Espino left for Albuquerque to pass the Fourth of July in that city. After that date they will go to Flagstaff, Ariz., where they will make their future home.

Mrs. William M. Berger and daughter, Miss Ella May, left for Denver on a pleasure trip for a couple of weeks. They will attend the Sunday School convention in Denver and the Colorado-Texas Chautauqua at Boulder as well as visit friends in both cities.

Pettinola should be signed praying the county commissioners to levy a tax, the proceeds to be applied to the construction of a bridge on Don Gaspar avenue over the Santa Fe river. Such a bridge is of great necessity and the petition should be in readiness to be acted upon by the commissioners at their July meeting.

S. S. McKillen is meeting with fair success in soliciting subscriptions to build a good road over the gap in the road between Santa Fe and the Jemez Springs. The project is a good one and it will pay the business men to contribute to the project. The road when completed would also be a good one over which to reach the cliff dwellings.

Major Fred Muller received a letter from James Dean, a Rough Rider and former resident of this city, who is now in the Philippines and is doing very well, being deputy clerk and deputy collector of the province of Tayabas, and is promised a promotion to an \$1,800 a year position. Mr. Dean sent Major Muller several boxes of Philippine cigars of excellent flavor. W. R. Price was similarly remembered by Mr. Dean.

The shipment of new cable for the Santa Fe Telephone company was completed today by the receipt of a reel with two tons of cable upon it. The new telephone exchange will soon be ready for business.

Frank S. Davis burned his hand severely by taking hold of the rope of a swiftly descending elevator at the store of F. S. Davis company, because the brake refused to work. The injury is a very painful one.

Ralph McFie writes his father, Judge

John R. McFie, from Mantia, that Lieutenant Sherard Coleman and family had arrived in Mantia and that Mrs. Coleman and children are about to leave for the United States and can be expected to arrive very soon in Santa Fe.

Two important road projects should not be lost sight of by the people of Santa Fe, one is a continuation of the Canyon road, from Monument Rock over the divide to Macho canyon and the other is the construction of the link to complete the road from Santa Fe to Jemez Springs.

By the time the next legislature meets there should be good pavements all the way from the Plaza to the capitol, all the way up Palace avenue and all the way around the Fort Marcy reservation as well as on San Francisco street from the Cathedral to the Denver & Rio Grande railroad and on Bridge street from San Francisco street to the capitol. A start in that direction has been made, but it is merely a start thus far. An iron or stone bridge over the Santa Fe on the way to the capitol should also be under construction by that time.

Hon. Manuel Sanchez of Las Trampas, ex-member of the thirty-fourth legislative assembly, is in the capital on legal business. Upon returning home he will take with him his two sons, who have been attending St. Michael's college during the term just closed. He is well satisfied with the progress made by the boys during the school year. Mr. Sanchez reports crops in very fair condition in that section and says there is sufficient water for irrigation, but that in many other localities in Rio Arriba county water is scarce and crops are suffering. There are no grasshoppers in the vicinity of Las Trampas, but there are considerable numbers and are doing damage. He is accompanied by Juan Domingo Soria, also a resident of Las Trampas, who returns home with him.

SIERRA COUNTY.

From the Advocate.

Mrs. J. C. Plemons and Mrs. J. E. Hopkins are visiting friends at Hermosa.

Mrs. S. F. Keller left for California where she will remain for some time. Francisco Luna y Garcia and Miss Remedios Talavera will be married at Monticello next Monday. Mr. Luna is one of Sierra's brightest young men and has recently closed a most successful term of school at Cuchilla.

W. W. Williams went to Deming to meet his wife, who was on her way from El Paso to California, where she goes for the benefit of her health. Mrs. Williams has been in the hospital at El Paso for some weeks.

A base ball game has been arranged for the Fourth between the Wicks nine and the town nine. A good purse has been arranged for and the boys are preparing themselves for the occasion. Other games and sports will be arranged for the day.

At the last term of court the grand jury found a true bill against Felix Grady for making a gun play. Sheriff Rolins went out to the Placers last Sunday and brought him in and Grady spent the night in the county lockup. On Monday he gave bonds to the amount of \$1,000 for his appearance at the next term of court.

Kingston.

Remember the Fourth of July and get a twist on yourself.

John Bright has the largest pearling in town.

A new hotel is talked of as the storm clouds rise.

The post men are happy, confident and independent.

The heat has been so intense for the past few days that the native house is getting tender footed.

The "Sage of the Sierras" says that there are more recorded flights over water than over whisky in the Kingston district.

"Shuba" Hurst, the prospector, is now busy looking for a live volcano. He informs us that the rim rock on the east side of Sawyer's Peak is steaming but that the crack on the west side positively cold.

A forest fire has been raging for the past week on and around Sawyer's Peak. It is spreading in all directions and is now on the head of South Potosi in the vicinity of Wedgemood's goat ranch, and if no rain falls it will probably extend along the range for many miles, doing great damage to timber and grass.

Joseph Reed and Henry Brown have gone to the north end of the county on a hunting and prospecting trip. Several other parties are just now contemplating a tour through the range, believing that there is yet a great possibility of finding mines in a different formation from any heretofore discovered.

Frank P. States has secured the contract to clean out and keep open all the springs and water holes on the west end of the range for the N. A. N. Cattle company. During the drought here several years ago, when all the big cattle companies on this side of the range lost almost all their herds, Holstein of the N. A. N. put his whole outfit to digging and scraping for water and he lost but few head.

Reports from upper Cave Creek indicate a large crop of wild fruits and nuts. Stock doing fine with a fine calf crop. Mountain lions are also being found in good condition, fat and sleek.

The mines are not doing much, but by the first of September many of them will resume. Ed Pontius, the prophet, at the Eagle canyon, has found some very fine ore that will bear transportation to almost any smelting point.

A mountain lion got into Tom Wedgemood's angora goat herd on the

acid of South Potosi and night and killed six head and maimed several more. Robert Kinsinger and Jean Rouse, the lion chasers, took up the trail, but the trail being cold, did not succeed in catching him, although they saw where he had washed his face in from creek, and otherwise completed his toilet.

SAN JUAN COUNTY.

From the Times.

Miss May Rush left on the stage for Aztec, where she will visit her sister, Mrs. William Rufferty.

W. T. Butler took out two loads of loaded alfalfa in Jack Simpson Wednesday and returned yesterday. He had on three pounds and loaded up at the Hyde yard.

Orange Phillips estimates that his orchards will produce 75,000 pounds of apples this year. An apple crop will surprise Durango and the railroad people when we begin to unload on them.

The Spanish League meets every Friday evening. The officers are: President, Mrs. Florence D. Lewis; first vice president, Bert Wallis; second vice president, Mrs. I. M. Jarvis; third vice president, Miss Della Martin; secretary, Miss Clara Daniels; treasurer, Edmund Woods; organist, Miss Mamie Harwood.

Constable Milburn came around Monday morning about 7:30 and woke up Justice Schenck, telling him there were loose horses in the south part of town. So the justice got on a broncho and went after and impounded them.

S. R. Blake hunted up Synmonds after breakfast and talked sympathetically to him, advising someone of driving his horse out of his private lane and into town while he was peacefully sleeping. Mr. Blake does not want to be badly robbed and has three examined the town clerk's records and ascertained that the ordinance states that the marshal shall do the impounding act.

From the Herald.

Dr. McGowan reports the arrival of a big baby girl at the home of Mr. and Mrs. Frank Noel on the La Plata.

There will be millions of pounds of Fatmington peaches, pears and apples this year. The evaporator and distillery will both run from the beginning to the end of the season.

Winlow Wetherill brought in from Twentyfour Hills a fine bunch of fat cattle which Clayton Wetherill will drive up to the mountains. Mr. Wetherill reports business good at his trading store.

Manager George H. Browne returned from a three days' stay in Denver. He reports having sold a large quantity of curtains and blankets while there, and to have completed the deal for the entire output of the evaporator for this season. Browne is a hustler.

One of our model young men, a devout church attendant, was indulging in the momentary sport of racing a horse against a horse, and in order to urge the poor dumb brute on, jabbed his stick with a pair of nasty steel pointed spurs upon the animal was as bloody as a butchered hog. We should have a humane society.

From the Index.

W. C. Johnson, wife and son of Alton, Mo., arrived here and are located in the Palmer residence. Mr. Johnson was here last fall and then decided on this county as the proper place for a home.

Born, to Mr. and Mrs. J. W. Lane, a boy. John hasn't been up town since, but will doubtless be around in a day or two to receive his customary congratulations and get on-up as usual and according to Hoyle.

The Fourth of July will be more generally observed than usual in San Juan county this year. Fatmington, Aztec and La Plata having arranged for celebrations with other precincts set to come from. Parades are rampant and universal in San Juan.

Cherries are ripe all the way down the river. E. M. Light the stage man, brought some splendid specimens of this fruit to town his ranch at Farmington the other day and treated the boys around town to some of the cherries he had been able to save from the trees. They were fine.

Work on recondemnation for the court house is completed. The next of the stone work was done by William Coyne, of the La Plata, a skilled workman. Mr. Coyne worked at this trade for twenty-five years in the city of Chicago, prior to coming west and taking on farming as a pursuit and has been employed on several big building stone buildings in this section. The court house recondemnation is an excellent work. Work of laying the brick will commence in a short time and will be pushed as fast as possible.

You Know What You Are Taking.

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a pleasant form. No cure, no pay. No harm.

Let to Albuquerque Firm.

The contract has been let to an Albuquerque firm to put a steam heating apparatus in the State residence. It is understood that it will cost \$1,800 to do this. -New Mexican.

That firm is the Whitnes company, and it is a guarantee that the plumbing in the State residence will be first class in every respect.

Born, at 10 o'clock this morning, to Mr. and Mrs. H. G. Stoneman, a fine baby girl. Mrs. Stoneman is a daughter of Mr. and Mrs. F. W. Hamm. The father is a well known citizen of Globe, Arizona. The glad tidings have been wired him, and he is expected to reach this city tomorrow morning.

railway hospital, will arrive tonight from Los Angeles and will remain here in the future.

protecting himself from abuse and did the side step pretty. In the fourth round Donofrey came near making a foul by striking too low, which seemed to irritate his antagonist, whereupon the fight warmed up and at the opening of the fifth Bulloch came out with a determined look and within a few seconds had Donofrey under the rope. Bulloch weighed 125 pounds, while Donofrey's weight was 150.—Alamogordo News.

The game next Sunday at Santa Fe will be between the Antonio team, which stands at the head of the column of the San Luis Valley league in Colorado, and the Santa Fe Central, champions of New Mexico. The valley press is already shouting how badly Santa Fe will be beaten, but they must get out of the woods before they do much of it. If they don't believe it, now they will when they see Charles Rhodes right arm moving and dealing out the sphere with the different kinds of question marks he carries hidden in the muscles of that most powerful wing. Yet the home boys must bear in mind that they will not have such a picnic as they usually have when they play the Albuquerque Browns. They must be out and practice from now until the game is called at 3 o'clock p. m.

Thos. J. Helm, the popular Denver & Rio Grande agent, is arranging for an excursion on that date from Antonio and he will surely succeed. There will be a large crowd from the San Luis valley accompanying the Antonio team to their Waterloo. Mr. Helm states that an excursion will be given from this end also when Santa Fe returns the game.—New Mexican.

Learned Men Meet. Pittsburgh, Pa. June 24.—Scientists from all parts of America—representing chemical, geological, mathematical, astronomical, psychological and kindred societies—will gather in Pittsburgh next week to attend the fifty-first annual meeting of the American Association for the Advancement of Science. As regards both the number and high professional standing of the participants, this gathering will be the most notable of its kind ever held in this country. The sessions are to continue through the week and the discussions will cover a wide range of scientific subjects.

Wingate Wants Game. B. Frank Fillmore is in receipt of a letter from his brother, who is a member of the strong Fourteenth cavalry ball team, in which he says that that club would like games with the Albuquerque Browns. President O'Reilly of the Fair association, saw the soldier boys play and says they are about as good as any amateur team he has ever seen. The manager of the Browns has written to the soldier boys that they could have games here and has offered them reasonable inducements. This would be a very good attraction and would in all probability be good games.

Good Ball Teams. There will be some fine ball playing witnessed on the Gallup diamond this season if all reports in circulation be true. The Gibson club, the Clarkvilles and the Hey Rules all claim they are going to have the best ball team and carry off the medal. The fair association will do well to secure these teams for the tournament this fall. There are no flies on the McKinley county league composed of Gallup, Fort Wingate, Gibson and Clarkville.

Women's Tennis Championship. Philadelphia, June 24.—The annual lawn tennis tournament for the women's national championship in singles and doubles opened auspiciously today on the courts of the Philadelphia Cricket club at Wissahickon heights. There are more than the usual number of contestants and they represent nearly all sections of the country. The play is expected to continue through the greater part of the week.

Bennett vs. Zeigler. Savannah, Ga. June 24.—The Southern Athletic club expects a big crowd on hand tonight to see Jack Bennett, the McKeesport Pa. welterweight, and Owen Zeigler, of Philadelphia, mix it up in what is scheduled to be a twenty-round bout. The two last met in the ring before and furnished interesting bouts and as both are in prime condition they are expected to put up a lively contest tonight. The purse is for a purse of \$1,000 and a side bet of \$500.

Great Western Circuit. Joliet, Ill. June 24.—The season of the Great Western circuit was inaugurated auspiciously today with the opening of the meeting at the Joliet Driving club. Racing continues three days and judging from the liberality of the purses and the large number of entries in the various events the meeting will be the most successful ever held here.

Stops the Cough and Works Off the Cold. Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25 cents.

William McIntosh, the well known and extensive Marine sheep raiser of the Manzano mountains, is in the city, arriving from the range Saturday afternoon. Mr. McIntosh has just completed the shearing of his immense flock of sheep, and states that he will have his spring clip of wool here in a very short time. His wool always commands the top notch in price, and buyers will bid high for the McIntosh clip of wool.

New York-Portland Train Service. Since June 1, through daily train service was inaugurated today between New York city and Maine points by way of the Boston & Maine and New York, New Haven & Hartford roads. The service is the first of its kind and is for the convenience of summer visitors to Bar Harbor and other resorts in the Pine Tree state.

ALGODONES. Special Correspondence. Algodones, N. M. June 22.—Wagons heavily laden with wool from the shearing camps pass through here almost daily. The weather continues hot and dry. Grass is poor on account of the drought and stock are not doing as well as usual. There is still sufficient water in the river for irrigation purposes, but the river is very low and will undoubtedly go dry below this point in a very short time, but the fr-

rigating ditches which head near here never lack for water at any time. But from Alamogordo down the river will soon be dry. The second cutting of alfalfa will soon commence. The crop is good, but the price is low. The fruit crop is simply immense. Corn is doing well. Wheat is not so good. The Sisters of Loretto are building a chapel on the Santa Ana Indian reservation. The Franciscan Fathers are building a house for their use in the San Felipe Indian pueblo. The smelter has not yet been commenced. We are anxious to see something done. Your correspondent stated in a former letter that Helcomber and another boy had taken two of Balcon's horses and left for parts unknown. The kids went out on a lark without leave, but were back here again in two or three days. There was a big ball here last night. Everything passed off pleasantly and a good time was had. We are all anxious to see work commence on the smelter.

YOUNG TO WED. Boy of Sixteen and Girl of Thirteen Married After They Had Lied About Their Age. A sensational marriage occurred at Farmington Sunday, when Rev. J. C. Lord united in marriage Charles J. Quelf and Dolly de Lusche, the latter the daughter of the postmaster at Jewett, and both of that place. It develops that it was a runaway match, and that the boy is 16 and the girl 13. The preacher, on request of the father of the girl, has written the boy that the marriage is illegal. They represented to Mr. Lord that they were of proper age and that the marriage was agreeable to the parents of both sides.

Lingering Death by Fall from Horse. R. D. Waggoner died at Farmington Saturday night and was buried Sunday. He had lingered in an unconscious state from the time he was thrown from his horse until his death. He was at the time of the accident that led to his death associated with W. C. Chapin, an oil expert of the Southern Pacific railroad, and engaged in surveying, locating and in other ways developing the oil lands of San Juan county. He was a civil engineer, and he and his brother were engaged in seeking an oil well about one mile from Farmington. He was 35 years old. His father is a practicing physician at Sacramento, Cal.

Fell from a Building. Will Reagan, a carpenter, received a knockout of short duration Tuesday afternoon, by falling from the second floor of the Quindlen building which is under course of construction near the new office. Reagan, who is well known, saved the falling sensation of light, but he was badly hurt. He was not seriously injured, but he was not seriously injured. He was not seriously injured, but he was not seriously injured.

Baby Burned Alive. The house of a Mexican family was destroyed by fire early Thursday morning and in it was a 3-months-old infant. It seems that the father who is a day laborer in this city, had gone to work and the mother had stepped out to seek with a neighbor and during her absence the house caught fire through some reason, with the above result. The fire was supposed to have originated from a stick of burning wood falling from the stove.—Alamogordo News.

Sunday School Workers at Denver. Denver, Colo. June 25.—Arriving trains brought hundreds of delegates to the Tenth International Sunday School convention, which begins tomorrow morning with Rev. Hoke Smith of Georgia presiding. The delegates are to be largely attended by Sunday school workers from all parts of the United States and Canada. The convention will be held at the Denver Hotel and will continue for several days.

Tells of the Death of a Hero. Prof. P. P. Carney has received a letter from John Clapham, who is in the Philippines, and who was a comrade of Prof. Carney's son, Joe. The letter contains some of the details of Joe's death by drowning, which occurred in those islands some time since. Following is an extract from it: "You can well be proud of your boy. They were forcing a very swift river, and Joe got acrossed right, but on looking back, saw Lieutenant Lums being carried down by the current. Joe at once plunged himself and pony back into the water to try and help the lieutenant, and lost his own life in an attempt to save another's."

The death of this bright young boy, comes very nearly to the people of Clayton, where his parents have resided for years, and always have been among our most respected citizens, and where Joe was known since his boyhood.—Clayton Enterprise.

Snyder Returns to Roswell. Karl A. Snyder, the attorney, who went to New York city to attend the Presbyterian general assembly, as a delegate from the First Presbyterian church of this place, returned Monday. From New York he went to Washington, D. C., where he remained one day and saw Senators Quay and Elkins and Delegate Rodey, all of whom were in favor of statehood for New Mexico, Oklahoma and Arizona, and also in favor of the creation of the Sixth judicial district for this territory. He says Delegate Rodey has the reputation of being a tireless worker. He also saw ex-Senator Andrews, president of the Santa Fe Central railway, who said that if the people of Roswell would ask him to do so, he would make a survey of the proposed route from Torrance to Roswell, to determine the probable cost of the road. Mr. Snyder also visited his boyhood home, Mercer, Pa., arriving there on Decoration Day. From there, he visited other portions of Pennsylvania, including the oil region, and had a pleasant and enjoyable trip throughout except the heat at several places.—Roswell Register.

Committed Suicide. Francisco Marquez, a Western Union telegraph operator in Juarez, committed suicide this morning by shooting himself. Marquez lived in Juarez and the shooting occurred at his home there. It is said that Marquez was very jealous and that he had been drinking, and that those causes led to his taking his own life. The unfortunate man attempted to kill his wife last night, it is stated, but was prevented.—El Paso News.

His Skull Fractured. Meleton Narvalis was arrested yesterday afternoon charged with assault with intent to murder. It is charged that Narvalis assaulted, without provo-

cation, J. D. Cordova, with a revolver, beating him over the head and fracturing his skull. Cordova has been clerking for S. I. Andrusky and has been a very quiet and inoffensive man. Very little hope of his life is entertained and Narvalis will not be given a hearing until the results of his injuries are ascertained.—Raton Reporter.

Antiered Herd at Oshkosh. Oshkosh, Wis. June 25.—This city was invaded by Elks today from all parts of the state, who came to attend the first convention of the state body of the order. The day was devoted principally to receiving the delegates who arrived in large numbers from Milwaukee, Waukegan, Ashland, and other cities of the state. The visitors found the city elaborately decorated in their honor, public buildings and business houses being covered with flags and bunting and emblems of the order. The first business meeting takes place tonight, and tomorrow comes the big parade and other festivities arranged by the local committee.

Texas Real Estate Men. Greenville, Texas, June 25.—Members of the Texas Real Estate and Industrial association gathered here in force today for their fifth annual convention, which will be in session until Friday. J. W. Higgins, of Waco, is the presiding officer, and A. N. Evans, of Fort Worth, secretary. The program for the gathering is one of particular interest. Ways and means for promoting the industrial development of the state will be discussed from every point of view and the conclusions of the convention will be of interest to businessmen and financiers throughout Texas.

Retires After 37 Years. Philadelphia, Pa. June 25.—Mrs. Fanny Jackson Coppin, who has been the principal of the Institute for Colored Youth for the past thirty-seven years, severed her connection with the institution today at the close of the school year. Mrs. Coppin is the most widely known woman educator of her race. In October she will accompany her husband, Bishop L. J. Coppin, to South Africa, and will assist him in the development of Bethel college, which he has founded at Cape Town.

Virginia Military Institute. Lexington, Va. June 25.—Commencement exercises at the Virginia Military Institute today was made notable by the participation of a number of distinguished guests. After the delivery of diplomas and degrees the graduates listened to an address by Congressman De Armond of Missouri. Governor Montague was present and officiated at the delivery of the Jackson-Hope medals.

Lady Pouncefote's Departure. Washington, June 25.—Lady Pouncefote and the Honorable Misses Pouncefote left Washington today, en route to England to make the necessary preparations for the reception of Lord Pouncefote's remains at the late ambassador's ancestral home at Preston. The body will be carried to England on the cruiser Brooklyn, now being made ready for sea at the New York navy yard.

Commencement at Oberlin. Oberlin, Ohio, June 25.—The sixty-fifth annual commencement of Oberlin college was held today. The address was delivered by Rev. S. Parkes Cadman, D. D., of Brooklyn, who took as his subject, "The Spiritual Value of Scripture." The exercises were followed by the alumni dinner and the presentation in the college of the new Warner gymnasium.

G. L. Pfundstein, traveling auditor of the Santa Fe, is here from La Junta. A. M. Thorpe is now the boss of the steam pump gang at the local railway shops.

George Zifhut, a machinist apprentice at the local shops, has returned to work after a short lay off.

Adolf Larson, of the local shops, will leave next week for San Diego, Cal., where he will enjoy his vacation.

The trolley line at the local shops is completed, and a test yesterday afternoon proved that it worked all right.

GOLDEN.

Interesting Notes About the Mines of a Good District.

Golden, N. M., June 24.—Prof. L. Griswold, accompanied by Mr. Fisher, of Boston, a stock owner of the Industrial Placer Mining company, are getting several hundred tons of cement from the industrial placer ground, the same will be treated in the Mayo mill.

Mr. Belcher, of Boston, also, arrived today and will also examine the industrial property, he being also interested in the same company. Mr. Belcher will try another process to determine the value of the cement beds and will find out the kind of machinery needed to save the values.

The Baird Mining company, under the able management of W. S. Rishworth, is having a shaft sunk to the 200 foot level, where the company expects to find enough water to run the thirty stamp mill now on the ground.

The McKinley company had a mill run made at Golden of thirty tons of ore, running \$18 per ton. Messrs. Hall and Lofbeck have started getting more ore. The mine is now in first class shape and will produce lots of ore.

A. Lopez is working the San Miguel mine and running his arrastra mill every day. Free gold ore has been struck in the mine as the work goes down. The present indications of the mine shows that she will be a heavy producer as depth is gained.

The James Lucas mines and mill are shut down at present. The mines are situated on the Ortiz mine grant and this ore is getting so refractory that the values cannot be saved in the free milling mill. Mr. Lucas claims that besides the sulphates the ore contains some other ingredients which makes it impossible to save more than 10 per cent of the real values.

SILVER CITY.

Fourth of July Program—Sam Agee to Marry—Elks Practicing Base Ball.

Silver City, N. M., June 24.—The comic opera "Princess Bonita," which was given at Merrill opera house last week will be given again on next Thursday night. The proceeds are for the benefit of the Episcopal rectory. The performance which is given by local talent was said to be the best ever put on the stage in this city by local talent.

Messrs. Burnside & Lindauer, the dry goods merchants of this city, have dissolved partnership and H. T. Harris has bought a half interest with Mr. Lindauer.

The official program of the Fourth of July celebration has been published and the long list of events will undoubtedly draw a large crowd from the surrounding country to Silver City on the Fourth and Fifth of July. The Elks are making preparation to have everything imaginable for the entertainment of visitors and residents of this city, and from present indications there will be a glorious time in this burg.

Sam Agee, a popular member of the Sage Drug company, left the other day for Texas, where he will be married to a charming young lady. They will return to this city about the first of next month and will make their future home here.

The Normal base ball team and the Deming team crossed bats at Deming last Sunday afternoon, and the score resulted in 11 to 88 in favor of the Deming team.

The Third battalion band has been giving afternoon concerts during the past week, which are thoroughly enjoyed.

During the past few days we have noticed several of the large fat members of the Elk herd in this city out practicing base ball and the Albuquerque Elks had better look to their laurels or they will be wiped off the face of the earth on the fifth of July, when they are to go up against the Silver City Elks.

Fred Bush, the editor of the Enterprise, has returned from a several weeks' trip to his old home in Indiana, the latter part of last week.

The City council met as a board of equalization the other day and made a number of raises in this city on valuation of property. The office of city attorney was declared vacant and R. M. Turner was appointed to the position.

SOCORRO.

Few Interesting Mining Notes—The New Postmaster—National Guard—Merchants Interviewed.

Socorro, N. M., June 24.—Our citizens should subscribe for the Daily Citizen. It is published twelve hours later than any of the morning papers with the latest telegraphic news, and reaches this city first with its latest news.

The Daily Citizen is always on file at the Windsor hotel, as Landlord Yunior prides himself on handling the latest and best always.

The weather has been very warm this week and our vicinity is very much in need of rain. Farmers and fruit growers are fearful of injury to alfalfa and fruit should the drought last much longer.

Walter E. Locke, commonly known as "Wally," formerly in business in Albuquerque, and late of El Paso, Texas, has returned to Socorro, his old stamping ground, and has gone into business. He has also brought his little daughter here from El Paso. Wally says it feels good to get back among old friends.

Doctors Swisher and Duncan, who do most of the practice for the city, are vicinity report business in their line very dull, notwithstanding the hot weather.

The wheat crop of the valley in the vicinity of Socorro is ripening fast and soon the sound of the threshing will be heard on all sides. The crop is fine and promises a large yield.

Hon. Solomon Luna was a guest of the Windsor on Monday, and went on to his ranch in the western part of the county.

C. E. Van Brunt, a prominent business man of Minneapolis, Minn., was a visitor to the Socorro city this week and seemed much pleased with his visit to this part of the Rio Grande valley.

J. M. Well, of San Francisco, Cal., was seen on our streets this week and spoke very highly of the fruit laden orchards and golden wheat fields in our vicinity. This coming from a California man speaks well for this part of the valley.

Capt. J. W. Gathright, of Colorado Springs, Colo., who has large mining interests in the southern part of this county, stopped over one day this week to visit with his old friend, Captain Matthews, and a jolly good time was shown him while here, and no doubt the captain will have many kind words for Socorro when he reaches his Colorado home.

A. Roulier, county commissioner, merchant and sheep raiser from south Socorro county, passed up to Magdalena this week to look after a large wool shipment from one of his western ranches.

Dr. L. E. Kittrell, the newly appointed postmaster here, promises many improvements in our postoffice. The doctor is a hustler and no doubt will keep his promise and thereby secure the good will of a long suffering public.

Captain Cooney, the veteran miner and ranchman, has just come in from his ranches in the west and reports the range very much in need of rain. The captain is a strong statehood advocate and complains loudly at being deprived of the right to vote for the chief magistrate of our nation after so many years of patient waiting.

C. T. Brown is in the Black range mining district, looking after his large interests there.

Company H, national guard, of this city, are waiting orders to go into encampment near this city for one week for garrison and field drill. Captain Matthews and his officers are working hard to have an up-to-date company here, and desire every encouragement from the hands of the department. The boys have a fine drill grounds and have erected in the center a large flag pole and have the grounds beautifully lighted for evening drills, which have become very popular with our citizens.

Your correspondent on a visit to the town merchants this week gleaned the following replies to his various questions about business:

J. E. Smith, the lumberman: Good, good; more building this season than for several years.

Price Bros. Bankers' and merchants' business a little slow this week, owing to the busy harvest of hay and grain; prospects are bright for a heavy fall trade and we expect a big season.

M. Chamber and C. E. Spelling, the grocery men: All we want to do this warm weather.

August Winkler, the city baker: Business good; I don't ever have time to go fishing this year, as I have done before.

Abraham Aboytia, the general merchant: Farmers and sheepmen are all busy now, but soon we will have all the trade we can handle.

W. H. Byerts, general merchant and ranchman: Business a little slow just now, but I am glad of it; it gives me a little chance to look after my ranches and to take care of my hay and early fruit crop.

Aboytia & Co. Everything O. K.; don't want too much work this hot weather.

Taking it as a whole we find a happy and contented lot.

LAS VEGAS.

Miss Lottie Haywar is on the indisposed list.

Frank Barney, the assistant at the postoffice, is expected home from his vacation at Branson, Mo., the last of the week.

Justin Council, a brakeman, has gone to Raton and will run on a freight out of there this way.

H. J. Ahers, the conductor, has taken his baggage to La Junta and will call that burg his "home" after this.

E. C. Thomas had his two horses stray from his camp above Rociada last week and he returned with them yesterday to camp. He says that they are hunting "bat" in that neck of the woods and having a good time.

Mr. and Mrs. A. T. Bennett, of Denver, will stop off here tomorrow while on their way to California and have a match shoot with the local gun club.

Mrs. Bennett is a friend of Mrs. Ludwig Field, and is a crack shot with a gun, and the ladies are especially invited to be present at 4 o'clock across in the grand stand from the depot.

The boobies are repairing the culverts on Railroad avenue this morning.

Benito Parallo, the six months' old boy of Benadito Parallo, died yesterday of fever. The infant was buried today.

Carlos Rivera, one of the Las Vegas boys at Pueblo, got "touched" for his watch and a suit of clothes a few days ago, about \$25 worth in all. Such is life in Colorado.

Yesterday was the hottest day recorded by the weather man in three and a half years, it being 93 in the shade, with a minimum of 54. The mean humidity was 27. Today promises to be even hotter, and it is hoped rain will relieve the heated atmosphere soon.

Mrs. Byron Mills will entertain a few friends at cards tomorrow afternoon.

The Ladies' Guild of the Episcopal church had a most pleasant affair at their social last night at the chapel, though the crowd out was rather small. Ice cream, strawberries and cake were served as refreshments.

The Young Ladies' Whist club will meet tomorrow afternoon with Miss Locke Post.

City Engineer Levy gave the grade to a few residents on Railroad avenue this morning for new sidewalks.

A Mr. Patterson, of Boston, is in the city and it is rumored that he will go into the real estate business here. He was en route to California, but stopped off to see the city and concluded to go no further as Paradise had been found.

G. Varkas, the music man of Albuquerque, is in the city.

The infant son of Jose Moldanado died yesterday and was buried today. The child had brain fever and was only two months old.

Mrs. North and Mrs. Crimmins left today for Aurora, Ill., to visit with their brother. They will be gone several weeks.

Mrs. Ned Fugate came down from Raton and has gone on out to Gascon to attend the wedding.

Miss Marion Blackwell, of Raton, is here to visit the families of E. L. and M. W. Browne.

The Best Prescription for Malaria. Chills and fever is a bottle of Grove's Tasteless Chilli Tonic. It is simply iron and quinine in a tasteless form. No cure, no pay. Price, 50c.

GALLUP.

Congregational Sunday School—The Fourth of July Exercises.

Special Correspondence.

Gallup, N. M., June 24.—The managers of the Congregational Sunday school are giving a picnic to the little folks on the 25th. Three covered wagons have been engaged and an extra rig for the lunch, ice, etc. Site: The place where the union held its picnic last year.

The ladies of the Methodist church are preparing an entertainment to be given on the evening of the first of July. The girls of Mrs. Aldrich's mission class are eager to assist her and a pleasant evening is assured.

About 10 p. m. on Monday an alarm of fire was given. It was found to be in Wm. Kuchenbecker's warehouse. Their nice new survey, on which there was no insurance, was spoiled as to looks, if not utterly ruined. The balance of the property was insured in the Royal.

The Montezuma band are practicing on a new arrangement of patriotic music for the Fourth. The band plays well. It would add greatly to the appearance of the members if a set of uniforms could be procured, but times are quite dull, most of the members quite young, so that current expenses, rent, music, etc., is about all they can manage at present.

W. W. Risdon is still in Pueblo. He will return the first of next week. Mr. Risdon reports a fine display at the Elks carnival. That lodge never does things by halves.

Miss Myrtle Smith and her mother spent a short time at the Grand canyon. Miss Cora Rocklett is filling Miss Myrtle's place at "central" during her absence.

The Gallup Dancing club held their weekly session on Saturday evening. A good time was reported. Gentlemen \$1.50 per month, ladies free.

The B. T. L. Dancing club meet for practice every Thursday evening from 8 to 11. Monthly dues, \$1.25 each. The class is large and the young folks enjoy themselves thoroughly.

The grand stand at the base ball grounds is completed and adds much to the enjoyment of a game for the many spectators.

Two dollars buys a ticket entitling a person to a seat for every performance during the season.

Mr. Spiers, Misses Munkholland and Trixie and Miss Nella Spiers visited Gibson on the afternoon of the 24th.

The fund for Fourth of July expenses was quickly subscribed and preparations are going forward for a jolly celebration of the day in Gallup.

The result of Sunday's ball game was 23 to 17 in favor of the Gibson team over the Gallup team.

Charley Cotton is expected home from college this week and his presence will add to the pleasure of the young people. The girls are preparing to welcome him in a fitting manner.

Miss Annie McConnell is expected home next week, accompanied by her sister and husband. Miss Zaczinski has been filling her engagement for the dancing class during her absence.

Mr. and Mrs. J. S. Moore, of Chinatown, are rejoicing over the recent addition to their family—a little son—born June 7. Mrs. Moore was formerly Miss Bertha Roper, one of the most popular girls in Gallup.

There are rumors of a change in management, or rather of ownership, of the popular Brown market.

A report was sent to Pueblo, Colo., that the brickette plant and the Caladonian mines were shut down. Not that the residents are aware of.

SAN MARCIAL.

The Leper at San Marcial—Several Society Notes.

Special Correspondence.

San Marcial, N. M., June 24.—Joel Harlan and Eddie Nichols, both students at the St. Michael's college, of Santa Fe, returned home last Sunday morning.

Miss Lulu Nichols returned from the school at Las Cruces last Friday bringing with her Miss Louise Friend, who will spend a few weeks here.

A Chinaman landed here yesterday in a very bad condition. It is thought that he has leprosy, and this morning he got on board a train headed north and went to Albuquerque.

The O. R. Literary society gave an ice cream social at the residence of Mrs. Sid Hockett. Among those present were: Misses Rena and Mamie Shaw, Lulu Nichols, Louise Friend, May Crawford, Mable and Maggie Tweed, Lizzie Hockett and Hallie Broyles, and Messrs. James Hitchcock, Frank Tibbets, Sidney Hockett, Chas. Hanna, Frank Hitchcock and Lawrence Broyles.

John Barton, who has been out to Rosedale for a few days has returned to work at the store of J. N. Broyles.

J. R. Larson, fireman on the Piere run, is up here on a lay off for a few days.

Chas. E. Owings, who for the past six months has been head miler in the San Marcial flour mill, has resigned to accept a position with Mr. Hockett in Hoken. His family will go as soon as Mr. Owings purchases a house.

A few carloads of fair looking horses bound for Wyoming passed through here Sunday.

L. C. Brown returned from Deming this morning where he has been for the past few days relieving W. A. Greenwood.

The L. O. R. society gave another party at the residence of Mrs. Hayes last night in which all present had a fine time. Those present were: Misses Bessie Hitchcock, Minnie McCooch, Mabel and Maggie Tweed, Rena and Mable Shaw, Rosa Lee, Annie and Katie Horn, Hallie Broyles, Della Barton, Lulu Nichols, Louise Friend, May Crawford, Lizzie Hockett, and Masters Keller Johnson, John Barton, Charles Hanna, Sidney Hockett, Frank Tibbets, Frank Hitchcock, Eddie Nichols, Lawrence Broyles, James Hitchcock, Jack Haylan. The old folks present were: Mr. and Mrs. Nisbet, Mrs. R. A. Shaw, Mr. and Mrs. Hayes.

Mrs. Alex. Cruikshank gave birth to another boy last night.

Miss Minnie McCooch, who has been in Rosedale for quite a while returned home last Saturday evening.

Wm. Young, a resident of old town, is very ill with dypsy.

Arnold, the merchant at Old San Marcial, has been on the sick list the last few days.

It is said among the farmers that all the crops growing at present will have a very poor chance to bear this summer if the season don't change and rain.

Mrs. Rena Shaw, proprietress of the postoffice drug store, and her two daughters, Mable and Rena, will leave tonight for San Jose, Cal.

ITEMS FROM KENNEDY.

What the Santa Fe Central People Are Doing.

Special Correspondence.

Kennedy, N. M., June 24.—The telegraph outfit was ordered in from El Rancho, about seventy-five miles, where they were digging holes for the poles, with orders to start at once to complete the line from Santa Fe here as soon as possible. They raised the first pole here at 7 o'clock this morning. Work will be rushed.

Camp No. 1 has moved several miles nearer to Santa Fe.

A new pile driver was put in the field last week, under Foreman Johnson, and they are now at Arroyo Honda, while pile driver No. 1 is driving piling in the Galliste.

Camp No. 3 started last Friday at Clark, fourteen miles south, on a large rock cut.

The Santa Fe company had their pile driver out yesterday fixing several piles in bridges that were broken, north of the store.

S. G. Bentley, superintendent of the Santa Fe Central telegraph department, spent yesterday in Santa Fe.

Louis Oreat, who was in Albuquerque on Sunday, has returned for work again.

Resolutions Were Received.

In reply to a resolution regarding the statehood bill, recently passed by the Las Vegas city council, Senator Beveridge sent Mayor Goodall the following letter:

"Washington, D. C., June 17.—My Dear Mayor Goodall: I beg to acknowledge receipt of resolutions of the city council of Las Vegas, N. M., concerning the omnibus statehood bill. As you know by this time, the senate committee on territories in its meeting last Saturday adopted a motion made by Senator Nelson, that the committee take up the house bill admitting the territories of New Mexico, Arizona and Oklahoma to statehood early in

CHARGED WITH THEFT.

John I. Lewis, of New Mexico, in Jail at El Paso.

John I. Lewis was brought to the county jail yesterday by Officer Ryherson and locked up on a charge of theft as bail. He was held for the day and then taken to New Mexico by the officer.

Lewis is charged with converting time checks to his own use that were entrusted in his care. The checks were issued by the Nelson Construction company.

There is also a charge of forgery pending against him. It is alleged that he signed other men's names to the checks as a means to get them cashed.

Lewis emphatically denies his guilt and states that whatever he did, he had full authority, and that he will have no trouble whatever in proving his innocence. He says he has plenty of friends and can secure all the money he desires without resorting to such means to obtain it.

However, it is said that there is strong evidence against him, and it is alleged that he has been in trouble before.—Times.

KEEP AWAY.

Advice to Laborers to Shun Colorado Sugar Beet Fields.

A letter from John L. Stephens, of the old town of Albuquerque, to El Indio, the Spanish paper, gives a tough account of their work and treatment in the sugar beet fields of Colorado. They were obliged to pay their railway fare, after having been promised free passage. They worked three weeks on hands and knees among the beets and when they quit they had from \$1.50 to \$3 per man. On feast days they had meat, but it caused most of them to be sick. The other day the diet was varied—canned beans and corn. Stephens and eight others quit, including Eduardo Baca, Bonifacio Lugo, Gregorio Murphy and Francisco Garcia, and went to Pueblo, where they secured work on the railroad.

Stephens in closing warns all his young men friends who wish to go to Colorado from Albuquerque and vicinity, to keep away from the beet fields, and that a poor man in them can never get ahead.

BISBEE SMELTER.

It Was Barely Saved From a Big Fire.

A special dispatch from Bisbee, A. T., dated June 25, says: Fire destroyed property valued at \$12,000 near the Czar shaft. The change house was burned with the clothing of miners. The fire also destroyed the cable house where cables are made and repaired. A new water supply just in from Nacon was all that saved the entire plant and the great Copper Queen smelter. Superintendent Douglas and his assistants made a great fight. If the fire had not been checked the whole city would have been in great danger. Citizens joined employees in fighting the fire.

Committed Suicide.

A young man in charge of the stationery department of the Harvey eating house at Ash Fork committed suicide last week by shooting himself in the head. The cause of his rash act is not known. He was of a morose, melancholy disposition and had but little to say to anyone around him. He retired as usual at night and the next morning his body was found in his room cold in death with a bullet hole through his head. No one in the building heard the shot fired.

LORDSBURG.

From the Liberal.

Mrs. Grant L. Guther returned from Oklahoma, where she had been visiting with relatives.

Mr. and Mrs. W. E. Armstrong were up from Sevier. Mr. Armstrong is engaged in the mercantile business at Sevier in partnership with J. D. Weems.

John Roligan came near to death the other day. He was at work in his well about thirty feet deep when a piece of board about two feet long dropped down. It is not known whether the board hit the ladder, and so had its speed arrested, or hit him a glancing blow. It did hit him on the head, cutting a slash about four inches long and knocking him out. If the board had hit straight and hit him square, it would have crushed his skull. A Mexican who was working with him went down the ladder tied a rope around him and brought him up. He was brought to town, where the doctor sewed him up, and the next day he was back to the well at work again.

CARLSBAD.

From the Arizona.

A Mexican boy, whose name is not obtainable, was drowned in Dark Canyon, while swimming in a pool just west of the county road down the valley.

M. V. Johnson, formerly of Frankfort, Ky., brought last week from V. S. Allen his ranch at Seven Rivers, private terms. The farm comprises 450 acres, with private water rights. The price paid was \$25,000.

Water was turned back into the canal early Sunday morning, after being out about a week. The ditches and laterals were thoroughly cleaned of mud, and the dams are full of water, thus assuring an abundant supply for irrigation during the rest of the season.

Miss Katherine Clark left for Chicago, and is now under expert medical treatment at the German hospital. She is suffering from severe burns on the legs below the knees, caused by the accidental leaving of hot water bottles on a table while undergoing operation for appendicitis.

Mrs. George Lucas was brought down from Roswell, suffering from a release of peritonitis. For several months past she has been critically ill with that disease, but when she left for Roswell seemed to be convalescing nicely. Her condition is very serious.

Reports from Rocky Arroyo state that Monday evening's rain and hail storm did much damage in that section, killing turkeys and chickens and

utterly demolishing the fruit crop. The trees themselves were badly torn and shattered, and there is hardly enough fruit left to make a pie. This section seems to be about the only sufferers from the storm, the hail being small and harmless which fell about Carlsbad and the adjoining section south of here.

A heavy rain storm, with a hail accompaniment, struck this section late Monday afternoon, and gave the country a much-needed, though soaking, shower. The hail was not large and did very little damage to fruit, though it broke a few skylights. Hackberry Draw and Rocky Arroyo were very high, the former flooding several houses in the southern part of town, forcing the residents, in some instances, to wade out. Rocky is stated to have reached the highest flood point in its history. However, the good accomplished by the downpour far out-weighs the slight harm done, and farmers and stockmen are smiling contentedly.

ROSSELL.

From the Register.

Early peaches in this vicinity are turning red and will soon be on the market. Early apples are getting so that they can be used with discretion.

Hal Colcan, who has been in the employ of J. J. Hagerman at South Spring for about two years, resigned and took a position with the Porter-Kewell Mercantile company in their big store.

STOCK NOTES

Feeder sheep are worth from \$2.25 to \$2.50 on the range and, when fat, sell for \$4 on the market.

Mrs. J. Williams of Menard county, Texas, recently sold 972 steer yearlings at \$12.50 apiece.

A. T. Hopting shipped two cars of goats to Kansas City, to be transhipped there to some point in Iowa.

Paul Krieger was in carload from San Antonio, and reports that he lost about 300 sheep in the recent hail storm.

Donchinson can sell all the cow pigs they have these days at good prices, say \$20 to \$25 and up, according to grade.

George Slaughter, of Roswell, sold J. M. Broadman 4,000 two-year-olds, which were from the slaughter ranch at Roswell to Montana.

Louis Farmer and Buck Stobaugh, of Blaine county, bought the entire herd of 40 horses, last week, about 100 head, at \$8 per head.

A. H. Turk, of Garfield, bought 1,000 sheep from Zack Wood, at \$1.00 from Fred Miller and 700 from Joe Chambers, at \$2 and \$2.50.

Major G. W. Littlefield is said to be the cattle king of Texas. He owns 400,000 acres of ranch land in the state and a ranch in New Mexico.

At the Sacramento mountains of O. to county the Angora goat men have a scheme of branding their goats and running them together at less expense. Before kidding time they separate them.

Russell Brothers, of Menardville, Texas, have shipped 6,000 cattle, purchased at Roswell, from that town to Billings, Montana. From Billings they will be driven up the trail to the ranges near the Canadian border.

The cowboys of Routt and Rio Blanco counties, Colorado, had a wild roundup and chased in fifty-six head which were sold at auction for \$12. Twenty men were employed for two weeks and the expenses of the expedition amounted to \$290.

Bill McFadden has just completed his task of delivering 350 head of horses to Williamson & Walter at McMillan, El Paso county, for northern buyers. They were sold at good prices, about \$25 per head. There are no flies on the horsesmen these days.

Operation of vaccination on animals for blackleg need not consume one minute. In November last 113 animals on the Marshall Field ranch near Stanton, Nebraska, was vaccinated with blackleg in exactly thirty minutes. This represents an average of three vaccinations a minute and is believed to be the record time for such a performance.

A second dipping should be given for Texas tick within ten days after the first. Cattle mange parasites hatch in four to seven days after the eggs have been laid and the young begin to lay eggs at fourteen to seventeen days old. This being true, if cattle are dipped on the ninth or tenth day after the first dipping all the young will be destroyed before they lay a new batch of eggs.

A hog's natural life is twenty-five years while some have been known to live longer. Some may breed successfully up to twelve years. Mr. Dykster, Luis, of Powers county, Colorado, once owned a pure bred Poland China sow for ten years and she farrowed thirteen litters of pigs in nine years. The highest number to a litter was thirteen and the lowest was five, which was the first litter.

John Nelson, of Larimer county, Colorado, who recently sold shorn lambs in Chicago for \$5.85 received enough for the wool to make the lambs bring him \$7.85. The shewings were Wyoming, weighing ninety-three pounds each. Each sheared six and three-quarters pounds of wool, which sold at 14 cents. This virtually topped the market and lets a little light in on the subject of shearing the wool before selling the carcasses.

A Dutchman on losing his horse, paroled his home paper by putting in the following notice: "You nite de offer day ven I was been away from my sheep, I hear sumtings vat I tink was not chert right in my barn, so I out jumps to bed and runs out the stable out and ven I was done come, I see dat my pig run gray ware he was been too loose and run out de stable out. Now when ever will back bring, I will shot pay so much as has been customary."—Exchange.

The owners of a farm near Kansas City have invested more than \$50,000 in pedigree and registered dogs for the purpose of ascertaining whether breeding such stock exclusively can be made profitable. They have no other live stock to demand their attention except 100 cows and the dairy is used as auxiliary to the hog farm, every quart of milk being used to feed pigs. The farm contains 1,800 acres with twenty barns. There are 600 registered animals and some of the horses cost as much as pedigree bulls at home.

The Denver Field and Farm man says that the sheep business is pretty good here and the view the field, it is only to say that the lamb trade is coming out pretty well, when all things are taken into consideration. It is a good business and the market has been strong upward turn, for the lamb business will hard for last money. Many of them are as much as 100 cents, and they were about ready to throw up the sponge. As it is Colorado will probably get a head 70,000 lambs in the last week next fall as well as a good many more sheep to be fed on the last pulp and alfalfa.

No need to fear sudden attacks of cholera (intestine dysentery) diarrhoea or summer complaint, if you have Dr. Fowles' Extract of Wild Sassafras in the "old chest."

Clear Paces Mile in 2:24.

While everybody is crying about the scarcity of cattle and the high price of meat, a new danger threatens the beef supply. Heretofore, it has always been considered that the steer was constantly marching toward the slaughter house and the market, but now a new and novel use appears to be opening up for it. A man up in the north park

has one which he has trained to pace at the rate of a mile in 2:24. This steed footed by the way an eighth of a mile in eight seconds. The steer is a yearling and is considered a wonder. If this steer racing should become general our fair will have the 2:20, 2:19 class, and then there would be the Short-horn, Hereford, Angus and gateway classes and the free for all, back out for the coming race steer—Denver Field and Farm.

Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies, when they and their mothers should be given a few doses of White's Cream Vermifuge for children's trouble. It will stimulate and facilitate the digestion of the baby, so that they grow healthy, strong, healthy and active. 25c at C. S. Metropolitan Pharmacy, R. R. R.

A Cattleman Killed.

W. A. Hall, a cattleman of Portales, Chaves county, was killed on the railroad between Texline and Delbart, Texas, recently. He was in charge of a cattle train of Cowden and Pemberton, which left Portales, Chaves county, just week for the north.

Leads Them All.

"One Minute Cough Cure" beats all other medicines I ever tried for coughs, colds, croup and throat and lung troubles," says Dr. D. Scott Curran, of Lancaster, Pa. "One Minute Cough Cure" is the only absolutely safe cough remedy which acts immediately. Mothers everywhere testify to the good it has done their little ones. Croup is so sudden in its attacks that the doctor often arrives too late. It yields at once to One Minute Cough Cure. Pleasant to take. Children like it. Sure cure for grip, bronchitis, coughs. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Weekly Crop Bulletin.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, N. M., June 17, 1902.

The past week has been unusually warm, with scattered showers over northern sections but dry in the south. As a rule irrigation water is still plentiful, and crops under ditch have made very favorable progress. On temporal lands rain is badly needed especially in the southwestern counties, where wells and springs are lower than usual at this time of the year. In southwestern Socorro county the drought is becoming serious and cattle are in poor condition. In all northern sections much improvement has been made since the rains of the latter part of May. Temporal lands have been planted to corn and beans, grass on the ranges has grown very rapidly and all stock interests have greatly benefited.

Alfalfa cutting the first crop, is now general in all northern sections, and the yield is fair, although in parts of the northeast not up to the average. Wheat, corn, oats, beans and peas, although somewhat backward on account of the late frosts in May and the cold nights of that period, are coming on rapidly under the favorable influence of the warm weather of the past two weeks. There is every indication of an abundant fruit crop. Strawberries and early cherries are in local northern markets. There is some complaint of the grasshoppers, but not general.

The following remarks are extracted from the reports of correspondents to show conditions more in detail.

Albert H. M. Hanson, Range, now in good condition and all kinds of stock doing well. One light shower during the week freshened vegetation. Some late planting still going on, principally beans. Summer heat is setting in. Highest temperature, 90; lowest, 60; rain, 0.55.

Arabela, A. M. Richardson, Showers weather and vegetation is growing nicely. Grass is getting good. Highest temperature, 89; lowest, 46; rain, 0.60.

Bel Ranch, C. M. O'Donnell, Good rains during the last of May, and the first of this month have put the range in good condition. A severe hailstorm on the 1st instant considerably damaged fruits and also alfalfa which was being cut. Rain, 1.12.

East Las Vegas, John Thornhill, Fine weather during the past week but with a few hot days, and a severe wind storm on evening of the 10th. Corn and oats now planted. The first crop of alfalfa being cut is very short. Excepting on irrigated lands crops are greatly in need of water, and even irrigation water is getting scarce.

Eastview, John W. Corbett, Good showers, heavier west and south. Although somewhat backward all crops are doing well. Gramma grass is just getting a good start, and with rains at the usual time will make an abundant crop. Highest temperature, 91; lowest, 51; rain, 0.76.

El Rito, P. Lopez, The good showers of the latter part of May have kept things growing and crops and grass are looking well. Stock are showing improvement. Shearing is about finished, with little loss. Sheep are in good condition. The result of lambing was quite favorable, with 75 to 95 per cent.

Folsom, Jackson Tabor, Favorable weather for all crops during the past week. Alfalfa is much better than was expected before the rains. Grass on the ranges is good, and all stock doing well. Highest temperature, 85; lowest, 44; rain, 0.57.

Episco, Clement Hightower, Dry and hot, with cold nights, and crops

On that occasion she wore a belt that cost \$1, and a dress made by a town dressmaker.

Virulent Cancer Cured.

Starting point of a wonderful advance in medicine is given by druggist G. W. Roberts, or Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and malarial poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at all druggists.

Sorting Postmasters.

In the readjustment of the salaries of postmasters at presidential postoffices, just completed, 2,939 postmasters on July 1 next will receive increased salaries aggregating \$252,200.

The number of increases this year is 259 in excess of last year and is the largest in the history of the postal service.

There will be 219 reductions, aggregating \$25,800. This number is larger than for either 1899 or 1900, but is not low the average.

The number of offices in each class at present is: First class, 220; second class, 1,025; third class, 3,495. The average salary of postmasters will be increased this year from \$1,742 to \$1,746.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. Las Cruces Base Ballists.

A meeting was held in the office of R. L. Young of those interested in forming a Las Cruces base ball club. A goodly number were present and T. R. Young, Jr. was elected as manager and W. M. Danbury as captain of the team. There is plenty of good material available and the prospects are good for a first class team. A diamond will be laid out on the vacant lot back of the depot and practice will begin at once. It is hoped to arrange for a game for the Fourth.—Progress.

Wonderful Feat of Bridge Moving.

We are always a little suspicious of the man who wears silk mittens on his voice.

If you inherited only hair from your ancestors, you got more than most people got from theirs.

After a girl reaches 20 she acts toward her mother as if she had been charged with the job of bringing her up.

It is funny, but there isn't half as much ceremony and red tape to marrying these days as there is to graduating.

An Atchison woman who is 50 years old, and who weighs 300 pounds, was down town today wearing a dress out-toned up the back.

We have noticed that no one is so eloquent as the attention we owe the graves of the dead as the man who has a monument or flowers to sell.

When a man dies, and the preacher wants to know what was his favorite hymn, the widow invents one in order not to scandalize the neighbors.

A girl of sixteen in Atchison has so badly overdone the timid fawn look that the men are afraid to look at her, fearing that she may disappear in the woods.

An Atchison man who never had rheumatism put a buckeye in his pocket. Within a week he had rheumatism. Of course, the buckeye had to do something.

A few days ago the Globe suggested that Mrs. Smith Wilkins' new spring hat was too young. Mrs. Wilkins has taken the hint kindly, and is again wearing a sunbonnet. Mrs. Wilkins says she does not often dress up, but once she dressed up and attended a funeral, and people wondered why she was not there. On that occasion she wore a belt that cost \$1, and a dress made by a town dressmaker.

Virulent Cancer Cured.

Starting point of a wonderful advance in medicine is given by druggist G. W. Roberts, or Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and malarial poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at all druggists.

Sorting Postmasters.

In the readjustment of the salaries of postmasters at presidential postoffices, just completed, 2,939 postmasters on July 1 next will receive increased salaries aggregating \$252,200.

The number of increases this year is 259 in excess of last year and is the largest in the history of the postal service.

There will be 219 reductions, aggregating \$25,800. This number is larger than for either 1899 or 1900, but is not low the average.

The number of offices in each class at present is: First class, 220; second class, 1,025; third class, 3,495. The average salary of postmasters will be increased this year from \$1,742 to \$1,746.

Las Cruces Base Ballists.

A meeting was held in the office of R. L. Young of those interested in forming a Las Cruces base ball club. A goodly number were present and T. R. Young, Jr. was elected as manager and W. M. Danbury as captain of the team. There is plenty of good material available and the prospects are good for a first class team. A diamond will be laid out on the vacant lot back of the depot and practice will begin at once. It is hoped to arrange for a game for the Fourth.—Progress.

Thomas F. Moran celebrated his admission to the bar by entertaining a number of friends at dinner at the Hotel Weatherford. The affair was an enjoyable one and the event will long be remembered by those present.

Hon. Mark Smith has received his health and is back in Washington. In a letter to H. C. Allen, received yesterday, Mr. Smith says: "I have had a hard fight to keep Utah from getting away with what is left of Colorado county. I have had a strong fight before both committees, and had an adverse report from the committee of the house, so that fixes the bill so far as this congress is concerned."

HOT WEATHER WEAKNESS.

If you feel lagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to the liver. This, Herbine will do. It is a tonic, laxative and regenerative. H. J. Freeland, proprietor Grand View Hotel, Cheney, Kan., writes: "I have used Herbine for the last 12 years and nothing on earth can beat it. It is recommended to me by Dr. Newton, Newton, Kan." 20c at Cosmopolitan Pharmacy, B. Rappes.

ST. JOHNS.

From the Herald.

Sheriff Ortega has just returned from an assessing trip to southern parts of the county. He has the assessing practically finished.

J. H. Stansford and son, Benjamin, passed through the city on their way to Fortland, N. M. Mr. Stansford is one of Alpha's foremost citizens.

R. Schuster left for Concho, where his cousin, Bernard, of El Paso, Texas, will meet him. The Schusters have bought the two principal stores in Concho.

The Sisters of the Blessed Sacrament for Indians and Colored People have bought a 16-acre tract of land from C. E. Glosier of Fort Defiance. They intend putting up suitable buildings for a mission school.

Wiley E. Berry, the promising son of ex-Sheriff W. W. Berry, of this city, returned home from Provo, Utah, where he spent the last two years in school. The young man has done good work and is now prepared to enter the normal at life.

Elmer Plumb has returned home from Thatchers academy, where he has had charge of part of the primary work of that school for the past term, and at the same time took the work of the graduating class and now has his diploma as a proof of his efficient work.

Misses Charlotte Kempe and Laura Greer, who stood the examination recently, each received second grade territorial certificates. Miss Sherwood, who stood the same examination, fell short of the required per cent. She averaged 97 per cent.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

KINGMAN.

From the Miner.

The salary of the postmaster at Kingman has been increased from \$1,200 to \$1,400 per annum in the recent adjustment of postmasters' salaries. Kingman office shows a steady increase of business over the preceding year.

W. E. Wulsten died at a Los Angeles hospital and the cause of death was assigned as Bright's disease. Mr. Wul-

sten went to Los Angeles in search of health and his many friends in Chino and Kingman were strongly in hopes that he would soon return entirely cured, and they were deeply shocked to learn of his death.

Miss Bertha Beecher was graduated from the Northern Arizona Normal school with high honors. Miss Beecher is one of the brightest young women in the territory and the people of Kingman are proud of her record. She has been engaged to teach the public school at Williams during the ensuing term.

The postal department has designated Kingman postoffice as an international money order office, and on and after July 1 orders can be drawn on any country in this or the old world. This will be found quite a convenience to the public, as it will obviate exchange and other vexations in the sending of money out of the country.

The Gun club of Chino has arranged quite an extensive program for the Fourth of July and has sent out invitations to all the gun clubs of the neighborhood to participate. The men composing the club are all true sportsmen and will give the boys the time of their lives. Young Krider, of the Chino team, is one of the best trap shots in this part of Arizona.

Fred Ferguson had a narrow escape from serious injury at the Saginaw & Manistee Lumber company's yards. He was standing on the elevated tramway and stepping on a rotten board, was precipitated to the ground, a distance of about twenty feet. Fortunately he escaped with only a good shaking up.

Cholera Morbus a Dangerous Disease.

In many instances attacks of cholera morbus terminate fatally before medicine can be procured or a physician summoned. The safe way is to keep at hand a reliable medicine for use in such cases. For this purpose there is nothing so sure as Chamberlain's Colic, Cholera and Diarrhoea Remedy. W. E. Bosworth, of Lafayette, Ala., says: "In June, 1900, I had a serious attack of cholera morbus and one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy gave me relief in fifteen minutes." For sale by all druggists.

THE FLORAL REALM.

Very much of the beauty of flower beds and borders depends upon keeping them scrupulously clean and neat. The Dutch or scuffle hoe is the best of all tools for hoeing and stirring the ground around the plants.

A new carnation, Marie Chabaud, possesses the most desirable qualities of climbing true from seed and of blooming in six months after sowing. The color is pure canary yellow. Other new carnations are the Enfant de Nice, improved giant flowered, and the perpetual carnation Sparkling, both of which bloom in six months from seed.

The flowers of the new double imperial Japanese morning glory are of exquisite beauty in form and coloring and of enormous size, often five to six inches in diameter. They are easily cultivated and grow rapidly to a height of thirty or forty feet. The colors vary from pure white to rose, crimson and carmine, through blues and purples to almost black, some being mottled, striped, pencilled and bordered in infinite variety and diversity.

Caladiums are often used with cannae, because of their great leaves they should be given a place in the back ground. Other flowering plants are used as a center of a group. Dahlias, because of their tall growth, are very effective, as is also the Golden Glow Rudbeckia. For bright colors use coleus in yellow and various shades of red and crimson. Gray centaureas are excellent in combination with colors of any color. Golden feather pyrethrum of greenish yellow is another very satisfactory plant for use with the coleus.

Tuberous begonias can be grown in New Mexico. They will not stand hot, dry winds, nor full exposure to the sun in this dry climate, hence they should be planted in a partly sheltered situation where they are shaded during the hottest part of the day. They must not be watered overhead, but must be kept liberally supplied with moisture and heavy mulching must be given to retain it. For cut flowers the blossoms are splendid, especially the doubles. The keeping qualities of the cut blooms being wonderful. To increase the stock, cut down between two eyes of the tuber while the plant is growing gently press the two halves apart without disturbing the roots and sift some fine dry sand in the cut thus made.

It has been said that the dahlia can never take the place of the chrysanthemum. This is very true, but it is also true that the rose can not take the place of the lily, nor the carnation supplant the violet. There are seasons and places for all of these and a wide gap between the fading roses of early summer and the blooming chrysanthemums of autumn. It is just this season that the dahlia fills with its radiant hue. Its ease of culture assures an ever-widening popularity, for its requirements are so simple that an amateur cannot err in growing it. The tubers should be rather deeply planted in thoroughly tilled, richly fertilized soil, one sprout only allowed to grow in a hill and this should be pinched back to make the plant stocky.

A warm, well drained spot, sheltered from sweeping winds but unshaded by trees or buildings, is the best place to grow roses in which to grow roses. The rose does best on virgin soil. In planting the bed in the lawn, take up the sod and lay it at one side. Take off four inches of sod for use. Then excavate ten or twelve inches of earth. Put into the excavation four inches of good fertilizer, packed down. Fill up the trench with dry litter and tread down. Next lay on the sod upside down, trawell and run on water to cover the sod and leaves. When the water has settled away put on top of the sod the four inches of sod that was saved, in which plant the small roses. Do not use any fertilizer in the top dressing until the shrub has commenced to grow. Then cover the top of the bed with two inches of good, strong, rotted manure and tread down solid, not letting it touch the rosebush. If the weather is very drying, water the roses for an hour every morning so as to keep the ground moist but not too wet.

Read it in His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that his paper always advertises only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by all druggists.

In Girlhood

There is a great need of motherly watchfulness and care. A growing girl needs all her strength, and if she is nervous and melancholy and loses appetite there is surely something wrong. This is especially true as the young girl approaches that important period of change when the womanly function is established. Timely care and proper treatment at this period may save much after suffering.

The best medicine for young girls who are nervous, melancholy and irregular of appetite, is Dr. Pierce's Favorite Prescription. It cures nervousness, dizziness, promotes the appetite, and gives the body robust health. There is no alcohol in "Favorite Prescription" and it is entirely free from opium, cocaine and all other narcotics.

"My daughter was troubled with nervousness and was very nervous for five years," writes Mrs. M. Carter, of 17th Street, N. W., Washington, D. C. "I tried several doctors but they gave her no relief. At times she would eat nothing, had green and purple streaks under her eyes and was melancholy. A woman friend of mine told me to try your Favorite Prescription and Pleasant Pellets. After taking one bottle of each she began to improve and is still improving. People said she looked as though she were going into a decline. She is twelve years old. There are no circles around her eyes now and she is healthy and robust and as much as any child and is growing faster every day."

Dr. Pierce's Pellets regulate the bowels.

land on a mortgage." "Gloss you are about right," replied the farmer, "but will you tell me how in Sam Hill you found that out?" "Easy enough," said the cheerful ragman as he settled back on his peddling wagon. "I notice that these old pants are completely played out so far as the part you sit on is concerned, but they show mighty little wear anywhere else."

Interesting to Asthma Sufferers.

Daniel Bante, of Ottumville, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all." Alvarado Pharmacy.

Was Wasting Away.

The following letter from Robert R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Alvarado Pharmacy.

Had Good Bail.

The drying up of the Rio Grande has left numerous fish in deep holes along the river, and fishermen are busy with hook and seine, catching many big catfish. One day early in the morning last week Jack Chambers and Billy Reed begged some liver and fat bacon from one of the butcher shops to be used as bait, and started down the river just as the sun was creeping up over the Sandia mountains. Their first mishap was the losing of their hooks in a pile of brush, and then wet feet, sore and hungry and several miles from home they built a fire and made a breakfast of their bait. They say that if they had not lost their hooks they would have caught a number of whooping big catfish.

SPENT \$1,000,000 FOR DINNER

England Gave Sumptuous Coronation Feast Eighty Years Ago.

Now that the approaching coronation of King Edward VII. of England is one of the principal themes of public gossip, it is interesting to recall one great incident of the coronation of one of King Edward's predecessors. He put out everything of the kind that had ever taken place before his time and part of a coronation feast, and it has never been equalled since in amount of material used or in the price that it cost. That incident was the coronation dinner of George VI. A took place in Westminster hall eighty years ago.

Soups—Eighty turkeys of turtle, 40 of rice, 40 of vermicelli.

Fish—Eighty dishes of turbot, 40 of trout, 40 of salmon.

Meats—Eighty dishes of venison, 40 of roast beef, 40 of roast mutton, 40 of roast beef, 40 of roast mutton and veal.

Accompaniments—One hundred and sixty dishes of vegetables, 180 silver bowls of sauce, 210 lobsters, 30 boxes of butter, and 120 of milk.

Eighty dishes of braised ham, 80 of savory pies, 80 of a la daube, 2 in each dish; 80 of savory cakes, 80 of braised beef, 130 of braised capons, 2 in each dish; 130 of dishes, 80 of lobsters, 80 of cray fish, 161 of roast fowls, 80 of house lamb.

Champagne, 100 dozen quarts; Barandy, 20 dozen; claret, 50 dozen; beer, 50 dozen; Moselle, 50 dozen; sherry and port, 300 dozen; feed punch 100 gallons.

Three hundred and twenty dishes of mounted pastry, 400 of jellies and creams, 260 pineapples, 410 pines.

As the size of the "dishes" is not specified in the bill of fare, a pretty good idea can be had of what a big banquet this coronation feast was from the total quantities of all the edibles. They amounted as follows:

Beef, 7,422 pounds; veal, 7,113; mutton, 2,474; house lamb, 20 quarters; less of lamb, 20; lamb, 5 saddles; grass lambs, 55 quarters; lamb sweet breads, 400; cow heels, 209; calves' feet, two of each, 250 pounds; cheese, 1,610; fowls for stock, 520; bacon, 1,730 pounds; lard, 550 pounds; butter, 912 pounds; eggs, 8,000.

This grand feast and the other coronation incidentals cost \$1,340,000. A good estimate of what the banquet alone cost can be made by considering that the cost of the coronation of William IV., some years afterward, when there was no banquet, was only \$250,000.

The Summer Season

is full of dangers particularly for the children, who not knowing the result of eating unripe fruit, indulge themselves with the usual gripe pain in the stomach as a consequence; mothers should have on hand at all times a bottle of Painkiller (Perry Davis) which will at once relieve the sufferer; it is a safe, simple remedy and it should be kept in every house. Large bottles 25 and 50 cents.

Ever the American Girl.

"We may conquer the men of America," an observant British officer long ago disparagingly cried, "but what can we do with the women?"

That the revolutionary dame's fervid patriotism has not departed from her female descendants is proved by a true tale of the late Spanish war, as related by a Chicago traveler who returned home last week.

The United States consul at the capital of one of the smaller South American republics had been joined by his daughter, just out of a western state university. The Spanish party in this city was large, and in the spring of 1938 it became confrontations and vituperative. The American consul became the target of so much Spanish billingsgate whenever he appeared on the streets that the authorities became alarmed for his safety and detailed four soldiers to accompany him wherever he went.

The feeling against the United States can so high that the president of the republic sent a personal request to the consul to keep himself as secluded as possible. Being a good-humored and peaceable man, the consul was about to accept this friendly suggestion. Then up rose his daughter and told her father that he should do nothing of the kind. She knew he was not a coward, and she was resolved that he should not appear one, even to accommodate all the Spaniards from Cuba to Cape Horn.

So the consul and his daughter called on the president socially that evening. They were cordially received, and the president renewed his suggestion. The consul answered that, while he was greatly obliged both for the suggestion and for the four soldiers who were following him around, he did not really think there was any danger, and would continue to go about his business as usual.

The president again insisted that there was danger of a most unpleasant episode, and even hinted that the consul's life might be taken by some insane partisan of a gain.

"Well," the president rejoined the consul, "I know of at least six men in my own state of Iowa who stand ready to take my post should it become vacant. And if I should be killed I am afraid I could prove the most expensive Yankee you have ever met. Besides, my girl here thinks I would be a coward if I stayed in the house merely because some people use hard words about me."

Whereupon the president gave up the problem, just as the British officer did, and complimented his fair antagonist in very similar language. That closed the incident. The consul went about his business as usual, and was never molested. Thanks to his daughter's courage, his own was never questioned, and his country's enemies had not the satisfaction of saying that they had frightened even an American.

Thus the American girl abroad in war time justifies the fame of her ancestors, and proved that the republic's honor is never safer than in the hands of its loyal women.—Chicago Inter-Ocean.

THE ROCK ISLAND.

The System Now Embraces Seven Thousand Miles of Track.

THE WORK OF EXTENSION.

The announcement made a short time ago that the Rock Island system is to be extended to the Gulf of Mexico, has been the subject of much discussion. The extension of the line to the Gulf of Mexico, which will be a long and arduous task, is being undertaken by the Rock Island system, which is now the largest and most powerful of the great trunk lines of the country. The extension of the line to the Gulf of Mexico, which will be a long and arduous task, is being undertaken by the Rock Island system, which is now the largest and most powerful of the great trunk lines of the country.

It was first the Chicago & Rock Island Railroad company, chartered in 1852, whose single track 150 miles long reached the Mississippi in July, 1857, and in 1860 it had reached the Gulf of Mexico. The line was then extended to the Gulf of Mexico, and in 1860 it had reached the Gulf of Mexico. The line was then extended to the Gulf of Mexico, and in 1860 it had reached the Gulf of Mexico.

After an interval of years the Chicago, Kansas & Nebraska Railway company took up the work of extension beyond the Missouri into Kansas and beyond and was absorbed into the present company in 1891, the combined road having developed by this time into the "Great Rock Island Route."

Still later the Chicago, Rock Island & Texas gave title to a long extension to southwestern points, and the Chicago, Rock Island & Mexico and subordinate companies have but recently carried the line on to the Mexican border, a straight distance of 1,465 miles from Chicago. Meantime the growth has been going on west, north and south, by construction and purchase, until the old tap root from Chicago to Rock Island has spread out into many lines, reaching from Illinois into Iowa, Missouri, Kansas, Nebraska, Oklahoma, Indian Territory, Texas, New Mexico, Colorado, Minnesota, South Dakota, Arkansas, and Tennessee.

The little city of Rock Island, which formed the terminus of the original line, is now a way station through which pours the traffic of 7,000 miles of road, but is still honored and advertised to the world by giving its name to the "Rock Island System," to whose growth no bounds now seem to be set. The little Rock Island road of 180 miles in 1854, which had increased to 4,200 miles at the beginning of the present year, has within a few weeks added nearly 2,700 miles more, and the aggregation now foots up as follows:

Miles.
C. R. I. & P., east of Missouri river 1,706
West of the Missouri river 2,597
Recent additions—
Choctaw, Oklahoma & Gulf 1,165
Burlington, Cedar Rapids & Northern 1,287
Rock Island & Peoria 119
St. Louis, Kansas City & Colorado 105
Total Rock Island system 6,979

Adds Allied Roads to Bond.

The treasury department has granted the Chicago, Rock Island & Pacific Railway company permission to add the following roads to the list of railroads embodied in the bond of that company as a common carrier for transportation of unappraised merchandise from the port of El Paso, Denver & Rio Grande, Chicago, Rock Island & El Paso, El Paso & Northwestern, El Paso & Northwestern, El Paso & Rock Island, Rock Island & Peoria, St. Louis, Kansas City & Colorado, Choctaw, Oklahoma & Gulf, Kansas City Southern, St. Joseph & Grand Island, Missouri Pacific, St. Louis & San Francisco, Chicago, Rock Island & Gulf, Colorado & Gulf, and the Colorado & Gulf.

Monopoly in Hot Spots Travel.

With the acquisition of the Choctaw, Oklahoma & Gulf railroad the Rock Island has also secured the line from Mayfield to Hot Springs, Ark. This road has practically a monopoly on the Hot Springs business. During the last five years the Hot Springs road has operated from 10 to 15 trains each way daily and much of the business has been done in connection with the St. Louis, Iron Mountain & Southern Railway at Mayfield.

WHITE OAKS.

From the Globe.
T. F. Chapman is afflicted with an infantile fever and has been confined to his room the past week. Mr. Chapman suffered some months ago with this same trouble, but has been able to look after business for some time and it was thought the ailment had been eradicated.

It is reported here that L. B. Hurst and wife were tried by the justice court Wednesday at Neale for the abduction and forcible detention of two

young girls—daughters of Miles May and Jerry Dalton—both being bound over to await the action of the grand jury in the case of \$2,000 each.

Conroy Bros. have completed a well for Lin Henson, eight mile north-east of Alamo station. The well was tested and showed a strength of 1,100 gallons per hour without apparently weakening the flow. The well will water the Henson place, Conroy Bros. are happy, as is the owner of the well.

Water was struck at a depth of forty feet, but the well was sunk to about five feet. Mr. Henson is buying the beer by the bottle today.

H. C. Cray, the original discoverer of the Comanche mine and solely to whom is due the honor of giving it to White Oaks, though he was compelled through force of circumstances to sell his interest, being unable to fight the suit instituted against him by B. H. Day, is rejoicing over the victory. His action with regard to this property, as well as his whole conduct in this camp, is an exemplification of character worthy of emulation.

HAGERMAN.

From Roswell Register.
This has been one of the finest business weeks for our merchants that they have had in the history of the town.

Drew Williamson, a former resident of this place, now living at Canyon City, Texas, was a visitor here.

Among Roswell visitors were George C. Stanton, Walter Woodman, Henry French, W. T. Waldrup and Teddy Burr.

Rev. Hamilton, of Fortale, preached here last Sunday. Mr. Hamilton is an able man and his remarks were well received, as they will help anyone who will follow them.

W. C. McMurtry, who has been here for some time, has returned to Hale county, Texas, from where he will go to Riber, Ark., to make his home. Mr. McMurtry was well pleased at the sickness of his sister in Hale county takes him away.

Town Burned.

Salt Lake, Utah, June 25.—A telephone message from Mercury, the second largest mining camp in the state, says that 80 per cent of the town was destroyed by fire.

Ben Williams, special officer, was here yesterday. He left for the north this morning.

FIRE THIS AFTERNOON.

Two Buildings on South Fourth Street Totally Destroyed.

The two frame buildings on South Fourth street, opposite the Commercial club, were almost totally destroyed by fire this afternoon.

About 3 o'clock fire was discovered in the board sidewalk at the southeast corner of Gold avenue and Fourth street and an alarm was hurriedly sent in. But before the fire department could respond, and in less than two minutes, the flames had spread over the entire sidewalk and the two frame buildings were burning.

The buildings were owned by J. C. Haldridge, and were occupied by the families of Fred Parish and Mr. Anaya, and the carpenter shop of Dwight Wheeler. Very few of the contents of the buildings were saved.

Mr. Haldridge at first thought there was no insurance on the buildings, but afterwards informed the reporter that he had found a policy for \$500.

It is thought the fire originated from a lighted match thrown on the sidewalk which was covered with cotton from the trees and caused the fire to spread so rapidly.

The fire department made a good run and received valuable assistance from several citizens, but they were handicapped in having only one line of hose and the large surface of two buildings to play upon.

Several amusing features occurred during the fire, one of which was the grand spectacular performance of Captain Hanlon and Charlie Quier in their double back somersault from the top of the rear building.

The fire ladders fought heroically and deserve credit for their perseverance.

RAILROAD OFFICIALS.

Messrs. Taylor, McNally, Patterson and Others Here.

The following well known and popular railroad officials are in the city today: C. M. Taylor, mechanical superintendent from Newton, Kansas, south; J. M. McNally, division superintendent, San Marcial; David Patterson, division master mechanic, Raton; D. W. Hitchcock, foreman round house, San Marcial, and J. A. Ross, in charge of road engines, Las Vegas.

Messrs. Taylor, Patterson and Hitchcock came in from the south, where they had been on a tour of inspection. With Mr. McNally today they inspected the lower yards and shops, and also looked over engine No. 8, which was in the wreck the other day at the brewery switch.

It is understood that the engine had been condemned at La Junta but was, nevertheless, sent south drawing a train, and at this point was to have gone into the shops for a general overhauling. It went "dead" in a wreck just before entering the local yards, and the tender part will now go into the dump pile.

Mr. McNally has been here the past two days holding an investigation into the stock yards accident, and Brake-man Cook's name, who signalled the freight engine at the wreck, has been sent out from the pay roll.

Messrs. Taylor, Patterson and Ross, will go north tonight, while Messrs. McNally and Hitchcock will go south.

SANTA FE.

From the New Mexican.

The Elks elected A. Digneo, Charles Catron and Reginald McKenzie to membership. They will be initiated on Saturday evening.

A. B. Kencham entered appearance in the district court for Taos county, for George Berry, Jr., indicted at the last term of court in Taos county, for the murder of Felipe Esencia Ortega. Berry is out on bond.

The excursion on Sunday will start from Alamosa, Colo., and the fare for the round trip will be only \$2, less than one-third of the regular single fare. It is expected that 500 Coloradoans will come to Santa Fe that day to root for the Antonio base ball team, which is declared to be a very strong aggregation of ball players. The Santa Fe boys will have to work hard to prevent their laurels going to Antonio.

Hon. W. H. Pope arrived from his trip to the national capital, New York, Atlanta and other points. At Washington he met Delegate H. S. Rodey and Senator W. H. Andrews, who were in conference at that time with Senator Hoies Penrose, of Pennsylvania, on the statehood question. Mr. Pope will leave tomorrow evening at 6:20 o'clock for San Francisco, where he will set sail for Manila on the arrival transport Kihpatrick on July 1. He will be judge of the court of the first instance in the Philippines.

RED RIVER.

From the Prospector.

Dr. E. H. Sherran and Andy Manson came in from Trinidad to look after their mining interests. They moved the first of the week to the Columbine to do the annual work on the General Shelby, a fine copper property.

W. J. Floyd, justice of the peace, returned from Trinidad, where he and Mrs. Floyd were visiting their old friends. She will return in two or three weeks. Joe, who has been spending the winter in Denver and vicinity, returned with his father, improved some in health.

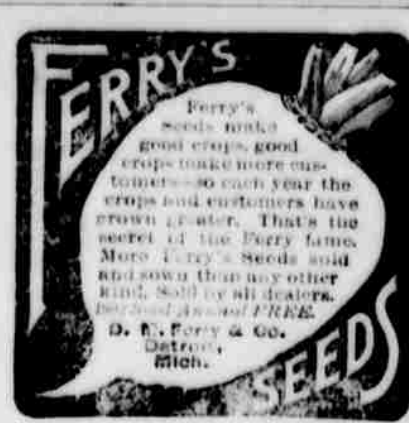

Hon. L. C. Collins, county judge of Cook county, and Frank Floyd, of Chicago, visited the district the past week. They are here looking after the irrigation scheme at Questa and the Jayhawk mining deal. They are well pleased with the properties. In the mining deal they take Ed Hutton's interest in the mining property for a large interest in the new company. They have first class property and we predict a pay mine with a little more development.

J. E. Kirk, of Good Hope, who has had over fourteen years experience in mining, was up to Anchor the past week examining the Keystone group for the company which is being organized to develop that property. He says that Cripple Creek never had a property that with the same amount of development work, produced as fine and as good looking ore as the Keystone. He further says that there is no doubt in his opinion but what the company will take the property and push the development. C. H. Olson has had six or eight men employed for a month putting the property in shape for inspection and more extensive development.

The Citizen yesterday mentioned the arrival here of A. P. Maginnis, Mr. Maginnis was once the land and tax commissioner of the Santa Fe Pacific, and a few weeks ago there was a rumor that he had been called upon to again assume the position of land and tax commissioner. This the gentleman denied emphatically yesterday, and stated that he was now too busy looking after his oil land interests to think about returning to railroad duties. Mr. Maginnis is interested with a syndicate of capitalists in Mexican oil land, and he left for the south last night.

Hon. W. S. Hopewell, vice president of the Santa Fe Central, is in the city from the Kennedy camp. He reports work progressing satisfactorily on the new road.

J. A. Mercer was here yesterday on business. He returned to Los Lunas, where he is the railway agent and operator, last night.
