Territorial Topics

RATON.

From the Range.
Mrs. E. W. Taggart, of Cline, Ill., will arrive here on July 2 for a visit to her son, A. O. Taggart.

Miss Mary Neville has completed her term of school near Jansen, Colo., and is visiting friends in Raton.

Frank Bonner returned home after an eastern visit of two months. He will go to Topeka soon to meet Mrs. Bonner and accompany her home.

W. A. Chapman left for Ponil Park, where he has been engaged to assist in surveying the boundaries of a large tract recently purchased by Mr. Bartlett from the Maxwell Land Grant company.

Rev. Sam Magill returned last week after an absence of many weeks, during which he made two trips entirely across the continent, first going to the Pacific coast and then going to the Atlantic seaboard. He is looking in splendid health and has enjoyed his vacation, but is glad to get back to Raton's dry and invigorating atmosphere.

The Northern New Mexico Crude Oil company, organized wholly by home people, will file its articles of incorporation the first of July. This company controls a large amount of land in the oil belt, and will sell a limited amount of stock for development purposes. Among other tracts of land held by the company is the Bell ranch, which adjoins the land where the first well of the Raton oil development company will be sunk.

C. R. Van Houten arrived in the city recently, and returned to Carrizozo, his 20,000 acre ranch in Ponil Park, Saturday. He says grass and water are abundant, that the cattle are accumulating flesh rapidly, and that his crops of oats, timothy and millet are looking fine. He recently moved 250 to 300 head of cattle to the Moreno valley near Elizabethtown, for summer grazing, in order to give his range a rest. Mr. Van Houten has one of the finest cattle ranches in the county, on which he has a commodious home fitted up elegantly and for comfort. He has a good sized library, keeps well supplied with choice cigars, and, being a lover of good literature, as well as of good tobacco, he gets about as much real enjoyment out of living as any man in the country.

From the Gazette.
D. B. Merry has some splendid specimens of oil bearing rock taken from oil fields near town. Oil will drop from these specimens when broken apart.

Harry Roseberry and Mr. Smyre went down to Las Vegas to attend the nuptials of Miss Emma Dunn and A. G. Adams, which took place at Rockada.

Hugh Fletcher returned home from Maxwell City, where he had been the past two months in the employ of the William Van Bruggen Mercantile company.

Mr. and Mrs. J. A. McClure, of Crawfordville, Ind., relatives of Mrs. Geo. J. Pace arrived. They came for Mr. McClure's health and will remain for several months.

Mrs. W. H. Mogg and Miss Mogg will leave in a few days for the east. They will first go to Chicago for a visit to relatives and friends. From Chicago they join Mr. Mogg in Wisconsin where he has taken up a permanent residence.

B. F. Troy, of Central, Kas., is here visiting the Troy brothers. He is an old soldier, enlisting in the Union army in 1861, and was wounded at Champion hills, on May 16, 1863, losing both of his feet. He is happy and cheerful and enjoys himself with the many friends he meets both here and elsewhere.

Miss Emma Rachman, of Berlin, Germany, arrived here this week on a visit to her sister, Mrs. S. I. Andrusky. She will remain here about a week and then leave for Montrose, Colo., where she will visit with another sister, Miss Rachman is a beautiful, and accomplished young lady of 17 summers, and possessed of all the freshness of her native country. She seems disappointed with Raton, as she expected to see a city as lively as Berlin.

MAGDALENA.

From Socorro C. train.

Stockmen in this vicinity are complaining bitterly of the heat and drought. Stock is suffering sadly.

The employees of the Becker-Blackwell company, with the assistance of several public spirited citizens, have purchased a building and fitted it up as a club room. A pool room and a bowling alley are among the principal features.

J. S. Macavish and N. A. Field left for a two weeks' trip over the western

part of the county as far as the Arizona line.

The Becker-Blackwell company a few days ago sold 225,000 pounds of wool to the proprietor of a Connecticut woolen mill. The price ranged between 11 and 12 cents a pound.

Magdalena will celebrate the Fourth by a grand ball Friday night. A large crowd is expected to be present. Supper will be served at the Allen house, which is a sufficient guarantee of its quality.

Dr. L. E. Kittrell, Socorro's new postmaster, was in town receiving the congratulations of his many friends here and attending to professional business.

A band of 6,000 sheep was started from here a few days ago for Arizona. The drivers expected to be not less than six weeks on the road.

SAN MARCIAL.

From the Bee.

Joe Sweeney is quite a sick man, from some kind of kidney trouble. John Moore, wife and baby are in the San Mateo mountains for an outing.

Mrs. S. G. Hanna and children joined the Rosedale colony of campers. Fred Schey will leave in a few days for Winslow, California and New York, to be absent several months.

Miss Lois Friend accompanied Miss Lulu Nichols home from Las Cruces and will be her guest this summer.

Dr. and Mrs. Alex. Cruickshank are the proud and happy parents of an eight and a half pound boy, the second. He was born Monday, June 23.

Miss J. M. Hunt, of St. Louis, arrived here on her way to California. The lady was the guest of Mrs. Sydney Hockett for a day, and then visited El Paso in the company of Mrs. Hockett. The Catholic ladies have engaged the old town band to discourse music on the street in front of their hall, on the evening of the Fourth of July.

W. A. Sheppard, who is now located on a ranch near Capitan, is in town for a few days. He is not clear of that Texas murder charge yet, although the authorities have no positive evidence to connect him with the crime.

Mrs. R. A. Shaw, after a residence in San Marcial, of eighteen years, left with her two daughters for San Jose, Cal., where she will make her home. Her many friends deeply regret her departure but join in wishing her prosperity and happiness in her new abode.

A. R. Cordova, of San Acacia, who secured the Rosedale and Paraje mail routes at scandalously low figures, was in Rosedale, San Marcial and Paraje this week, evidently sizing up his prizes. He takes the routes July 1 and is willing to sublet providing he can clean up about 15 cents on each one.

SANTA FE.

From the New Mexican.

Thomas Tucker is critically ill at his home on Bridge street near the capital.

The Santa Fe postoffice will receive a canceling machine to be operated by power in the near future.

The federal officials of this city are doing the preliminary work on their annual reports as the fiscal year ends on June 30.

In the district court for Santa Fe county a suit was filed by the Acquia del Cano et al. vs. The Acquia del Llano et al. praying for an injunction to restrain the defendants from taking more than their just and proportionate share of the water out of the Nambe river.

The directors of the Capital Water and Light company organized yesterday by electing Daniel W. Miller, of Toledo, Ohio, president; John P. Connor, vice president; Hershell E. Gibson of Santa Fe, secretary; and Antonio Windsor, of Santa Fe, treasurer. The preliminary work for the establishment of the power plant on the Pecos river will be commenced in the course of ten or fifteen days.

A letter addressed to A. M. Bergere is held at the postoffice for postage, and a letter addressed to Mrs. Guillermo is held for more explicit address.

Several families are employing girls from the government Indian school in this city as house servants. The girls are docile, quiet and learn housework rapidly.

A petition is being circulated and is being extensively signed, asking the board of county commissioners to place the bridge over the Santa Fe river on Bridge street in good repair.

Miss Doyle, Eduardo M. Otero and four children of Mr. and Mrs. Bergere, left for the Pecos to camp. They will be followed by Miss Nina Otero, Miss Freeman and Manuel Otero.

Hon. Matthew G. Reynolds, United States attorney of the court of private

land claims, arrived from St. Louis with his son, Matthew G., Jr. Mr. Reynolds will study up some of the details in the office of the court formerly attended to by W. H. Pope, who has left for the Philippines. On Thursday, he will leave with a party for the Conejos river on a fishing trip. Mr. Reynolds says that owing to the fact that the business of the court of private land claims is very nearly all disposed of, and the existence of the court expires next year, no assistant United States attorney will be named in Mr. Pope's place.

The two-horse team of Hon. E. F. Hobart ran away from in front of the public library. The horses dashed out to the corral building and back to the Plaza, where Guard Sturgess of the penitentiary, by a dexterous movement stopped the team which was running at a high speed. At the same time, a porter of the Palace hotel had climbed into the wagon to stop the horses if possible. Several people were thrown in trying to stop the team and little Helen Winters occupied the wagon, but all escaped without injury. A moment later there would have been a collision with another team and the little girl in the wagon would have been seriously injured if not killed. The wagon was slightly damaged.

Geo. E. Ellis and family moved into one of the Hickney cottages on Johnson street.

Clarence Pierce, formerly employed by J. H. Gerdies, has accepted a position in Sullivan Bros. store.

The runaway yesterday afternoon of Hon. E. F. Hobart's horses was caused by one of the horses breaking the iron snap of the halter with which it was tied.

Superintendent of County Schools John V. Conway has sent out circulars to all those interested in education calling attention to the summer school which will be held at Santa Fe next month.

Hon. B. M. Read has presented to his daughter, Mrs. J. Pablo Delgado, who was recently married, the house and lot at the corner of Manhattan avenue and Cerrillos road, at present occupied by R. H. Bowler and family.

William Schneppe, a Rough Rider, and a popular young man, who has been employed as clerk in the store of the E. S. Davis company, left for Kailash, Mont., where he has accepted a position in a large mercantile establishment.

Sarah Callahan was fined by Police Judge C. M. Conklin \$5 and costs for stealing silverware, etc., from Miss Nellie P. Crane. The Callahan woman promised to leave the city at once and therefore was let off easy.

S. S. McKibben informs the New Mexican that the building of a good road to the Jemez springs has been assured, in fact Hon. M. S. Otero has already commenced the construction of the road from Jemez, and Santa Fe people have subscribed very nearly sufficient to construct the necessary link between Buckman's and the road being built by Mr. Otero.

LAS CRUCES.

From the Progress.

Messrs. Stoes, Young and their families and Maughis Brown are on their way back from their Ruidoso trip. Mr. Stoes has to his credit a huge cinnamon bear that he killed near camp.

Prof. F. E. Lester has returned from a visit to Chihuahua to see his old students in that city. While there he was the guest of Mr. Calderon and was entertained in royal style by the old stenographers who are holding positions there which they took upon leaving the college.

The brother of Sam French who went to Mexico to investigate the death of Sam returned this week. It seems that Sam, who was a railroad conductor, while waiting for his train to pull out, crawled under a box car to escape the heat of the sun. An engine backed up against the car and he was hit on the back of the head, killing him almost instantly. He was not mangled or crushed in any way. The railroad men took charge of the body and gave him a decent burial.

P. C. Braley has purchased the interest of C. J. Hafey in the telephone line recently erected by them. Mr. Braley will continue the business, keeping it up to date all the time. Nicholas Gales will fill the position of superintendent for the system and Mr. Hammond, who is an expert electrician, will have charge of the mechanical department. The gentlemen who installed the plant have done even better than they expected at first. They have in the neighborhood of fifty phones installed now, and are constantly adding to the number.

SOCORRO.

From the Chieftain.

Both Mr. and Mrs. J. J. Leeson have been sick and both are now improving.

Mrs. C. T. Brown and children are taking their summer vacation in Water canyon.

Mrs. Homer Hill and children returned home from visiting Mrs. Hill's sister, Mrs. Cipriano Baca, of Deming. Mr. and Mrs. Russell B. Howell expect to leave for the Black Range, where they will open a hotel in one of the mining camps of that district.

Mrs. Kate M. Sleight and daughter Beatrice and Mrs. J. M. Robinson and daughter, Johnnie, went out to Water canyon for an outing.

Leo Cortes reached home Thursday morning in time for his father's funeral. He has been employed as a time keeper about five miles out of El Paso.

A traveling man from Texas who was in town one day last week gave excellent reasons for believing that the stranger who was killed by lightning

in Socorro on the 27th day of last July was a man named Linnen whom he knew in Texas.

Fred Davenport writes from Albuquerque under date of the 26th inst., that he is the father of a fine ten pound girl and that mother and daughter are doing well.

W. R. Morley arrived in town from New York City, where he has just graduated at Columbia. Mr. Morley won enviable distinction both in the classroom and on the foot ball field.

The oldest resident says that for twenty years Socorro has not experienced another such "spell of weather" as has prevailed for ten days. The temperature has climbed to 106 above zero, there has been no rain for weeks, and scorching winds and sand storms are frequent day and night.

One of the features of the encampment of company H will be the bestowal of bronze medals upon those members of the company who have not failed in attendance upon drill. There will be a medal for those who have not failed during the first six months, another for those who have not failed during the second six months and finally a medal of honor for those who have not failed during the year. The medals will be on exhibition next week at Frank Abeytia's jewelry store. Captain Matthews is determined to bring his company to a high state of proficiency.

RINCON.

From Las Cruces Progress.

Preparations are progressing for the Fourth of July barbecue and other events.

The extra gangs together with the steam shovel, having finished their work here, have gone north.

The depot hotel is finished lunch room is open, and well supplied with everything necessary to run a well equipped feed emporium.

Miss Mary Lyons has been ordered to the Pacific coast by her physician as a last resort to recover her health. She will leave soon accompanied by her mother.

Conductor Watlington, of the Lake Valley accommodation train, brought down 414 head of steers that were sold by T. F. Kerr, of Lake Valley, to G. H. Chessman, of Denver, Colo., at a good price.

Desiderio Cariaga died at the home of his daughter, Mrs. R. Widner, after suffering a long illness. He was one of the best known old settlers in this valley, and he was about 75 years of age.

CARLSBAD.

Scabby Sheep in Eddy County—Caterpillars Now at Work.

From the Argus.

George E. French, of the Current, is on the sick list, suffering from an attack of lead poison, or "printer's cramps."

Word comes that Dr. C. M. Whicher was married to Miss Sue Darlington Copeland, of Charlton, Iowa, and that the young people have gone east on their honeymoon. They will be home about July 15.

A. S. Crozier and wife came in from Arizona, and expect to remain permanently. Mrs. Crozier is the son of Mrs. M. P. Kerr and at one time was a resident of Carlsbad. Many friends are glad to welcome them back.

Caterpillars are commencing their annual depredations on the town cottonwoods and everybody should get out their torches and go to burning them out while the nuisance is in its incipency. Hotel Schlitz and some of the merchants on Canyon street have a man employed destroying the pests in the trees hereabout.

A letter from the territorial sheep sanitary board to the Sheep Association of Eddy county, is to the effect that the board is not satisfied with the manner in which the seal proposition has been handled in this county, and will hereafter take the matter in its own hands, no longer working in conjunction with the county association. The board passes some very plain criticisms upon the local organization and its inspector. The eradication of seal, while in truth a very simple matter, seems to be most difficult by reason of the neglect and apparent indifference of many owners, and if the territorial board can force these recalcitrants to do what they should do, the majority of the sheep men of Eddy county will tender the board a hearty vote of thanks. The territorial board cannot begin operations any too soon, and the more stringent its requirements and the harder it prosecutes its work, the better.

GALLUP.

Lodges Elect New Officers—Surprise Party to Allen Aldrich.

From the Republican.

Miss Florence Flahive is visiting at the Boone ranch near Thorau.

Mrs. J. L. Morris and daughter have gone to Brazil, Ind., on a visit to relatives.

Richard Morris has gone back to his old home in Indiana and will probably not return to Gallup.

Mrs. G. W. Wells and her grandson, Ralph Kotner, returned from a visit to the coast.

R. C. Hight, inventor and manager of the Briquette plant, returned from the east.

Thomas Edmundson returned from his old home in Missouri where he had been on a short visit to relatives. He reports the climate too hot for him in that locality.

Manuelito tribe No. 9, Improved Order of Red Men, elected the following chiefs at its regular sleep held Wednesday night: Sachem, W. A. Kreamer; senior sagamore, H. P. Jordan; junior

sagamore, W. A. Welsh; prophet, E. F. Kenny; chief of records, W. T. Henderson; keeper of wampum, Dr. C. C. Fouka; trustee, W. A. Kreamer.

Two Mexicans from Clarkville were brought before Judge Brown charged with fighting. They paid \$5 and costs each.

Mabel Anderson, assistant principal of the Albuquerque schools, is here on a visit to friends. She has been in California for the past few weeks.

Fidelity lodge No. 10, I. O. O. F., elected the following officers for the next term at its meeting last Tuesday night: Noble grand, O. Raffard; vice grand, J. M. Jacobson; secretary, J. H. Brady; financial secretary, E. Willmunder; treasurer, Alex. Bowie; grand lodge representative, W. A. Kreamer; alternate, E. Willmunder.

A surprise party was given to Master Allen Aldrich last Wednesday evening by a number of his small friends. The evening was pleasantly passed in games and later, excellent refreshments were served. Those present to assist in the evening's enjoyment were Grace Brown, Blanche Graffius, Mary Graffius, Myrtle Kreamer; Elsie Piney, Cora Tammany, Katie Carretta, Maggie Carretta, Marcella Risdon, Frank Brown, Frank Beddow, Willie Kreamer, Harry Palmer, Eddie Morris, Allen Aldrich, Ray Aldrich, Bud Smith, Claude Kreamer.

CERRILLOS.

The Bennett-Forsyth Marriage—Old Miner Dead—Personal Notes.

From the Register.

W. H. Musgrave made a business trip to Santa Fe.

Charles Ratliff, of San Pedro, was a Cerrillos visitor.

S. Golding, of San Pedro, was a Cerrillos visitor.

Mrs. Nancy Jackson returned from her Santa Fe visit.

Mrs. A. L. Kendall went to Santa Fe to attend the funeral of John Forsyth.

Henry Monte has returned from the Pecos and has gone to work in the blacksmith shop at the smelter.

Miss Berta Rogers returned from Lamy, where she has been visiting her sister, Mrs. E. E. Herrmann.

Fred Davenport, civil engineer for the Smelter company, has gone to the Faywood springs on account of rheumatism.

Mrs. E. E. Herrmann, of Lamy, and her sister, Miss Berta Rogers, of this place, expect to leave for Los Angeles for an extended visit.

F. C. Buell returned from Belen and has accepted a position as bookkeeper for the Santa Fe Gold and Copper company at San Pedro, where he went Monday morning.

Last Wednesday forenoon at the Methodist parsonage in this city, Rev. J. A. Messer pronounced the words which united for life Miss Isabel Forsyth, of Toronto, Ohio, and Edwin F. Bennett, of this place.

Miss Fannie McNulty, who has been teaching school at Gibson, near Gallup, has returned home. She was accompanied by her sister, Mrs. Albert Kohler, of El Paso, who came for a visit with home folks.

Jacob Krebs, an old miner of this camp, who received injuries in the explosion of the White Ash mine some years ago, from which he never entirely recovered, died at the sanitarium in Santa Fe.

Georgia Lawyers Meet.

Warm Springs, Ga., July 3.—The Georgia bar association opened a three days' session here today, it being the nineteenth annual meeting of the association. There are about 150 attorneys from all parts of the state present. The annual address of the president, Charlton E. Battle, of Columbus, was the feature of the opening session. The report of the treasurer, the election of new members, the report of the committee on memorials and other routine business occupied the remainder of the first session. This evening the convention listens to a review of the year's work of the association by Secretary Orville A. Park, of Macon, to be followed by an address by Chancellor Walter B. Hill, of the State university of Georgia.

There are several questions to be discussed that promise to make the present meeting one of the most interesting in the history of the association. The proposed change in the judicial system so as to bring the courts in greater harmony and at the same time relieve the labors of the supreme court will be discussed at length. The proposition to adopt the Torrens system of registration of real estate titles will be discussed and another matter to receive attention is the question of requiring graduates of the law schools to stand examination before the board of law examiners.

Ninety-Mile Trolley Road.

New Orleans, La., July 3.—Governor Heard will officiate tomorrow at the breaking of ground for the New Orleans & Southwestern railroad, the first interurban long distance electric railroad in the south. It will be ninety miles long, running from New Orleans, through Baton Rouge, Vacherie, Thibodaux, Houma and other towns of the sugar district to a place on the gulf coast where there is eighteen feet of water.

Montana's New Capitol.

Helena, Mont., July 3.—Tomorrow will be a red letter day for Montana and for Helena in particular. The new state capitol, which has been in progress of construction for the past three years, will be dedicated with imposing ceremonies. Delegations of visitors are arriving from all quarters of the state and the crowd promises to be the largest ever entertained in Helena. The attendance will be swelled by the presence of several

thousand members of the Modern Woodmen, who are to hold a big log rolling. The other visitors include mayors and other officials of the chief cities of the state, military organizations and other societies which are to assist in the ceremonies and take part in the big parade.

The dedicatory exercises are to be held in the afternoon and will be presided over by Governor Toole. United States Senators Clark and Gibson are to take part and the other speakers will include Secretary of State George M. Hays, former Governor Smith, ex-Senator Sanders and Chief Justice Theodore Brantly.

CHINESE ROMANCE.

Highbinders, Kidnaping and Ransom intermingled in This Wedding.

New York, July 4.—Gay, reckless, rollicking Coney Island has been the scene of all sorts of events, but never, perhaps, in its long and unique career, has the world famous resort witnessed anything quite so quaint as the wedding scheduled for tonight at Gold Dollars Dancing pavilion, when little Miss Ling Foy, a wealthy magnate of Pell street, The marriage is the end of a romance which had its beginning in Hong Kong and in which highbinders, kidnaping and ransom are freely intermingled.

The bride-to-be is a mere slip of a girl. Last February she was purchased from her father in her native land by an agent of Ling Foy and brought here to become his bride. She was landed at Vancouver, B. C., and subsequently brought to New York. Shortly after her arrival here she was kidnaped by the highbinders and held for a ransom. From one city to another she was taken under guard. At every town where she stopped she was placed in a dark, dismal room and kept under the closest surveillance. Ling Foy was furious over his loss and spared no expense to recover his prospective bride. From New York to Boston she was traced with her abductors, thence to Philadelphia, and finally to Chicago, where she was located in an opium joint in South Clark street. After considerable negotiation Ling Foy paid her captors \$500 and the girl was released and returned to New York.

Plans on an elaborate scale have been completed for the wedding ceremony. It will be conducted with all the ceremonies and weird rites known to the almond-eyed sons of the Flowery Kingdom. The bride will be raily arrayed. Her tiny feet will be encased in satin shoes, and down the front of her satin bridal suit a gorgeous golden dragon will wander undulatingly. The master of ceremonies is to be Marty Martin, the "mayor of Chinatown," and the bridesmaids two white girls who have wedded Chinamen. At the conclusion of the ceremony the guests will be ushered into the dining hall, where, under a thousand lanterns and garlands of paper flowers, the happy couple will be congratulated and feasted and toasted until the rising of the morning sun. The bridegroom has promised his friends that the festive board will literally groan with its load of bird's nest soup, shark-fin soup, specially prepared pig-tails from porkers raised in China, rice wine and everything else that tickles the palate and makes glad the heart of a Mongolian.

To Lay Nebraska's Keel.

Seattle, Wash., July 3.—Plans are completed for the laying of the keel of the battleship Nebraska tomorrow with elaborate ceremonies. There will be a big civic celebration in which Governor Savage and other eminent representatives of the state of Nebraska will take part. The ceremonies will be held at the ship yards of Moran Brothers, the builders of the battleship.

Kansas Socialists.

Emporia, Kan., July 3.—A number of delegates are here for the state convention of socialists which is to be held tomorrow. The convention will nominate a full state ticket and arrange plans for pushing a vigorous campaign throughout the state.

There are 135 companies who have signed the "per diem" agreement, representing 1,345,000 cars.

The new trainmaster of the Mexico City division of the Mexican Central is Moses Dillon, formerly collector of customs at El Paso.

After a shut down of two weeks, the Alamogordo shops were reopened on Tuesday, July 1. About 200 men are employed in all the departments.

Along the Rio Grande river below Rincon, N. M., the Santa Fe tracks have been raised about seven feet to prevent damage from the floods.

The general freight offices of the Santa Fe will shortly be moved from Topeka to Kansas City and Chicago. The vice president, general attorney, general manager, and general passenger agent will remain in Topeka.

According to a railroad paper the Santa Fe will build a drawbridge in San Francisco to cost \$70,000. It will be over Channel street on the line of Third, and the necessary concession has been made already by the city.

The Santa Fe freight department on this division report that the traffic has picked up considerably during the past few weeks and that it is almost as good as it was last season at this time. Last year's business was particularly heavy.

The Union Pacific officials have reinstated Conductor Thornborg, of Junction City, who was discharged by Assistant Superintendent Vickroy, recently for carrying railroad men without transportation.

Weekly Citizen, 1 year, \$2.00

Scholar Andrews has been in a good friend of New Mexico. He was in Washington and had influence enough to secure the Pennsylvania delegation for the statehood bill.

When this city wishes something done with promptness and dispatch, Senator Thomas S. Hulbert is called upon to perform his duty, and he has never failed upon any occasion.

The Las Vegas papers are the most contrived sheets in the territory. They cannot print a paragraph in praise of their own town without abusing all surrounding localities.

During the month of May the driest place in New Mexico was Mesilla Park. This city was the second driest locality in the territory, with only a trace of rain during the whole month.

The Durango Democrat says the destruction of timber in Colorado for commercial purposes is fast rendering agriculture a guess instead of a certainty as to water for irrigation.

The new Philippine law allows citizens of that possession all the privileges secured in the "bill of rights" of the constitution excepting the right to bear arms and the right to a trial by jury.

Let's hold a big statehood convention in this city during the territorial fair and invite Arizona and Oklahoma to attend, at which time plans can be perfected for pushing the bill through the senate in December.

Governor Otero's excellent administration is endorsed by the people of the territory. There are a few disappointed political place hunters who try to work up opposition, but their misguided efforts attract very little attention.

The New Mexican says that in all political and human probability the Fourth of July, 1903, will be the date upon which this territory will enter the sisterhood of states. If this happens, and there is every reason to believe that it will, it will be a glorious Fourth indeed.

Regarding the statehood situation the Denver Post says that inasmuch as both republican and democratic national conventions endorsed the measure in their platforms, it is difficult to see how any serious, organized opposition can be developed, and it is therefore altogether likely that the friends of statehood will be triumphant at the next congress—thanks largely to the firm and consistent stand taken by Senator Quay.

THE ARID REGION.

The national irrigation act will add an empire to the populated area of the United States as great as was held by the thirteen colonies at the battle of Lexington. Recently stated, the arid lands of the United States extend westward from the 100th meridian to the Pacific. They include a large part of all the states and the territories, beginning with the western ends of the two Dakotas, Nebraska, Kansas, Oklahoma and Texas, arid stretching onward almost to the great ocean. East of that line most of the country is classed as humid. It has twenty or more inches of average annual rainfall. West of that line most of the region has a rainfall of less than twenty inches. That is the region which is covered by the irrigation bill which has just been enacted.

THE MAN OVER FIFTY.

The name of Senator Pettus, of Alabama, may be added to the list of those who dissent from the dictum that the present age was nothing for a man to do after he passes the meridian of life. He said to an interviewer the other day: "I am 57, and healthy and happy as a boy. I notice that all of my neighbors, who got rich and retired are dead. I never got rich and I never retired. I tell you, young man, the most fatal disease I know of is to quit work. It kills every time, keep working and you'll keep alive." This is cheerful, sane and wholesome.

One of the boasts of the present age of the world is that it is an age in which the science of sanitation has multiplied the average duration of human life. Surely the very time when there are and are to be more old men in the world than ever in its history, the very time when the science of sanitation has multiplied the average duration of human life.

NEW MEXICO'S HARD LUCK.

Delegate Rodey of New Mexico, is dissatisfied at the failure of the omnibus territorial bill to pass congress this session, but he is hardly justified in feeling discouraged over the outlook or in responding to the other territorial delegates that they shall all resign on account of the treatment, says the St. Louis Globe-Democrat. New Mexico has had a longer territorial probation than any other community has had in the whole history of the country except, of course, the District of Columbia, which is sometimes called a territory, but which never expects to attain any other status.

Utah's woes in this direction were mourned by many persons outside as well as inside of that locality, but Utah has far less cause to complain than has New Mexico. Both of these were organized as territories together, about fifty-two years ago, the acts under which they were created being part of the series of deals collectively called the compromise of 1850, but Utah has been a state since 1896. More than half a century ago a statehood bill for New Mexico was introduced in congress. Forty-six statehood bills altogether have been introduced for that territory. Eighteen times has such bill passed one or the other branch of congress, and in 1876 one of them passed both branches, but it failed in the conference committee. The bill of 1902, which was expected to pass before this time, has been postponed to December.

But there is no need for discouragement at the outlook. The chances are that the territorial admission bill will pass next winter. The principal reason for its postponement was the lack of time at the present session to consider it. The Cuban, Philippine and Isthmian canal bills have taken up much time, and, of course, the regular appropriation bills and other routine measures had to be attended to. All of these except the appropriation bill will be out of the way for good by the close of the present session, which the republican leaders are anxious will end early in July. The prospects are that all the territories will be admitted at the coming session.

IT IS DUE HIM.

The El Paso News, an independent democratic paper, says:

"The agency concerning statehood for New Mexico is now over. With the status of the bill and the circumstances surrounding it, the territory is more likely to get there at the next congress than ever before."

The republicans are in power in New Mexico. They have repeatedly promised the people through their platform to give the territory her rights as an independent and sovereign state, but they have never had a representative in congress who by persistent and sincere effort did more to bring about success on the republican side than R. S. Rodey, present delegate to congress.

"This paper did not admire Mr. Rodey at the outset of his incumbency, but he has been so sincere in his advocacy for statehood and, has done so much, and so consistently, that prejudice is the only cause that could deny him his right to succeed himself and finish the job."

"The republicans certainly owe Mr. Rodey a re-nomination and sincere support. Rodey may be a bit theatrical once in a while, but as delegate to congress he has done what all others have failed to accomplish."

WORK FOR STATEHOOD.

The Denver Republican has made a good fight for statehood for the territories, and says of the present status of the admission bill:

"The indications are favorable for its passage next winter, for it seems that there are thirteen republican senators who are prepared to take the bill up immediately. This indicates considerable strength for the measure, and it is probable that many more republican votes can be secured by the time the bill comes up for action."

"There are so many considerations demanding the admission of the proposed states that there should be no difficulty in securing the passage of an enabling act embracing them all. The opposition of certain republican senators to Senator Quay's resolution does not necessarily indicate that they will oppose admission when the matter comes to a final vote. They may have simply been unwilling to force action at this time by taking the matter out of the hands of the committee to which the bill had been referred."

"Between now and the winter session the friends of statehood should push a campaign of education among the eastern members of the senate. They will find no lack of arguments in favor of admission, and this should be true especially in respect to appeals to republicans. For New Mexico and Oklahoma can be counted on practically certain for the republican party. It would be bad policy for the republicans to vote against admission and besides simple justice to the inhabitants of the territories in question demands that they be allowed to erect state government."

SETTLED BEYOND APPEAL.

The democratic idea of permitting any part of the United States to set up an independent government of its own was settled beyond appeal in the case of the rebellion against the government some thirty-seven years ago. It was not contended at that time that the United States ought to assist in the establishment of a separate government for a part of its people and surrender its sovereignty over them. It was only contended that the people occupying a part of our territory should be permitted to establish a separate government for themselves. The decision in the case was against separation and our territory was not divided.

The present demand that we not only permit, but help or even more than that, that we ourselves establish a separate government upon our own territory in the Philippine archipelago and then surrender our territory and all of our authority over it to the inhabitants residing thereon is the reversal of the old settled case in an aggravated form.

It is difficult to understand why anyone who opposed separation or secession forty years ago, should now consider the cause contended against then. The question has not changed. It is the same old case. Our title to the Philippines is as good as our title to Florida but we did not permit Florida to become a part of a separate government, neither did we permit any part of the Louisiana purchase to become a part of a separate and foreign government. Our title to the Philippines is as good as our title to the territory ceded to us by Mexico, and it was acquired in just the same way, and we have never permitted any part of that territory to set up separate and independent governments. If California, Nevada, New Mexico, Arizona or Utah, separately, or all of them collectively should ask us to establish a stable government for them and then surrender all our authority over them, and introduce them to the world as a new nation we would have a case that would be exactly in keeping with the program proposed by our democrat and popular friends for the Philippines. Impotency and loss of memory is a bad disease.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas Electric Oil. At any drug store.

OFFICIAL MATTERS.

Governor Otero has appointed William B. Bunker, of East Las Vegas, a notary public.

Land Office Business.

Homestead Entries—Francisco Martinez, Cuba, 160 acres, Rio Arriba county; Leopoldo Alacon, Villanueva, 160 acres, San Miguel county. The annual report that is being prepared at the federal land office in

There often comes a time in the struggle with pulmonary disease when the victim loses heart and gives up hope. The ambition to be up and around gives way before growing weakness, and the sufferer keeps to the bed.

No one who suffers from lung disease should lose heart or give up hope while there is a possibility of cure. In many cases Dr. Pierce's Golden Medical Discovery has cured lung "trouble" when the cough was obstinate and deep seated, with hemorrhage, emaciation, night sweats and general weakness. A great many men and women are living to-day in the full enjoyment of health and happiness who had been "given up" by doctors, but found a perfect and permanent cure in the use of "Golden Medical Discovery."

"My wife had hemorrhage of the lungs," writes W. A. Sanders, of Hiram, Mass. Co. Va. "She had ten hemorrhages, and the people all around here said she would never be well again. But she began to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and flesh. After taking ten bottles she was as well as usual. Should you think this would do you any good to publish just now, and if any one doubts the merits of this almost omnipotent medicine they may enclose self-addressed envelope with stamp and I will answer, the same as written in this letter."

FREE. Dr. Pierce's Common Sense Medical Advice is sent for on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Santa Fe shows that during the fiscal year that ends this evening, there has been a large increase in the number of homestead entries in the Santa Fe land district, compared to previous years, but there has been a slight falling off in the cash sales, especially of coal lands, although the number of declaratory coal statements has greatly increased in numbers.

Repulsive Features.

Blackheads, pimples, greasy faces and muddy complexions, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. See at Cosmopolitan Pharmacy, R. Ruppel.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Alvarado Pharmacy.

Maryland Teachers.

Ocean City, Md., June 20.—The Maryland State Teachers' association began its annual convention at the Atlantic hotel today with Dr. James H. Van Sickle presiding. The sessions are to continue through Thursday and at their close a large number of the participants will depart for Minneapolis to attend the convention of the National Educational association.

Vacation Days.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used DeWitt's Witch Hazel Salve for aches, cuts and bruises," says L. B. Johnson, of Swift, Texas. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. J. H. O'Reilly & Co., B. H. Briggs & Co.

Waterville Chataqua.

Waterville, Minn., June 28.—The annual Chataqua assembly opened today under favorable conditions. An excellent program covering eight days has been arranged, the speakers to be heard including among others Henry Waterson, William J. Bryan and Sam P. Jones.

Bronchitis for Twenty Years.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." Alvarado Pharmacy.

Brakeman W. D. C. Meyers, of San Marcial, has gone to his home in Kansas City, Kan., to spend a three weeks' vacation.

Ira Henry, well known here as formerly a machinist in the local railway shops, is now working at the Kansas state insane asylum at Topeka.

The Rock Island's new acquisition, the Choctaw, Oklahoma & Gulf road, seems to be giving a pretty good account of itself in the way of earnings. For five months ended March 31 its gross earnings were \$2,509,568; operating expenses, \$1,779,312; net earnings, \$729,256; charges and taxes, \$275,520; surplus, \$453,734.

W. J. McKee has been appointed superintendent of the Missouri Pacific, with jurisdiction of the line between Holington, Kas., and Pueblo, Colo., effective July 1. The position of division superintendent is abolished and Mr. McKee's position is a newly created one. He was formerly superintendent of the Iron Mountain road at Little Rock.

COMMENTS OF STATEHOOD.

What the Leading Papers Say About the Omnibus Bill.

St. Louis Globe-Democrat. In voting all the territories together in one bill Oklahoma's admission has been delayed a few months. If Oklahoma's appeal had come before congress separately, it would undoubtedly have been granted immediately, but in linking her fortunes with the other territories she has been kept out a little longer than was expected. Nevertheless Oklahoma and the other two will be admitted next winter. The pressure of important legislation prevented adequate consideration of the omnibus bill this summer, but there will be less urgent work on hand when the short session begins next December and then the territories will all be let in.

Quay's Fight for Statehood.

Kansas City Star. The people of the west in general, and of Arizona, New Mexico and Oklahoma in particular, cannot but feel grateful to Senator Quay, of Pennsylvania, for the determined stand he has taken in favor of the statehood affecting the three named territories. Mr. Quay has exposed the insincerity, the veritable hypocrisy of his party by recalling at this time the platform declarations in favor of statehood for these territories and by contrasting with these professions the attitude of a large number of senators at this time.

Senator Quay's skill as a fighter, his absolute familiarity with the weak spots in the opposition, and the evidence that he is determined to make his contest on the floor of the senate, are all encouraging. The Pennsylvania is an exceedingly resourceful. He is a masterful politician. His recent triumph over his enemies in Pennsylvania was one of the most remarkable personal victories witnessed in the political arena in a long time. With Quay as the friend of statehood, there is still a chance that the omnibus bill passed by the house will be approved by the senate.

Quay and the Three Territories.

Chicago Record-Herald. It is said that one of Senator Quay's political lieutenants named Andrews has emigrated from Pennsylvania to New Mexico, that he is ambitious to become senator from New Mexico and that this explains Quay's fight for the omnibus statehood bill which has been repudiated by the republican steering committee and voted an indefinite postponement by the senate committee on territories.

The motive of Mr. Quay is very likely the one ascribed to him, but the lie should be brought before the senate nevertheless and it should be passed. Oklahoma has a population larger than eight of the existing states, New Mexico a larger population than four of them and Arizona a larger population than two of them. Furthermore, Arizona, the smaller of the three, has a larger population than most of the states and when they were admitted a much larger population than many of them. The precedents are for the admission of the entire group, and it is evident also that there never was a time when so little was to be feared from the evils of admission as now. Only the three territories remain. They will bring the territorial history to an end without leaving others to found claims upon their example.

Of course much has been said that is derogatory to the character of the people of Arizona and New Mexico, but the danger on this score has been grossly exaggerated, and their rejection will be regarded as an unjust move in the game of party politics. Whatever his personal objects may be Senator Quay is playing that game much better than the majority of his republican colleagues.

Republican Error on Statehood.

Denver Times. Although unable to enforce consideration of the statehood bill at the present session of congress the friends of statehood have gained a great advantage by securing a concession from the senate committee, which has agreed that a report will be made on the bill on the third day of the next session. It is also agreed that the bill will be made unfinished business on and after December 19 until disposed of. This should insure the enactment of a law by this congress admitting the three territories to the union. The democratic senators are solid for the measure and it is supported by a considerable number of republicans. There is danger, however, that the republican opposition to the bill will endeavor to defeat it by amendments admitting only one or two of the territories. The friends of statehood, therefore, must not relax in their efforts to secure the passage of the bill as it stands. Arizona, New Mexico and Oklahoma are all fitted for statehood and are entitled to recognition. If republicans are making a mistake in opposing the measure, politics should not be considered in discussing the question, but since the objecting republicans are actuated by partisan feelings it may be well to show them that their position is bad politics as well as an injustice. What over the political complexion of the territories may be today it may be altered by the treatment received from representatives of the two political parties in congress.

No Substitute Wanted.

No! I did not ask for a bottle any cheaper, or twice as large, or one made by yourselves. I did ask for and will have no substitute for Perry Davis' Painkiller. I have used it, my father used it and I would not be surprised if my grandpater's did so too; there is no imitation that can equal it. That I am sure of—for stomach ache.

DEPOT BURNED.

Santa Fe Building at Laguna Was Entirely Destroyed. Incoming passengers last night took of the burning of the Santa Fe station at Laguna. The building caught fire from sparks from the engine of west bound freight No. 33. M. H. Jones, the agent, saved the company books, but lost all of his furniture as he lived in the building. The fire spread under the platform and in twenty minutes the entire structure was in flames. Six cars of merchandise that were near the building were saved.

The Misses Gibson and Miss Gaston.

of this city, were visiting Mrs. Jones and lost all their baggage, consisting of four trunks.

MAGNIFICENT SERVICE.

New Roman Catholic Cathedral Opened at Westminster.

London, June 28.—Arrangements have been completed for the formal opening tomorrow of the new Roman Catholic cathedral at Westminster. The opening ceremony will be carried out on a scale of the greatest magnificence. Cardinal Vaughan will preside and the service will include an elaborate musical program. The Vatican will be especially represented and the principal sees of Europe and America in communion with Rome will also be represented.

The new cathedral is one of the most superb church edifices erected since St. Peter's at Rome or St. Paul's in London. It stands in the heart of Westminster on the site of the old Tenthild Fields prison, about half a mile from Hyde Park corner and quite near to Victoria street. The area in which it rises, and which it adorns, embraces the houses of parliament, the royal palaces, the government edifices and other great buildings.

In dimensions it compares favorably with the other great cathedrals of the world. Its entire length is 350 feet, and its greatest width 136 feet. Its height is ninety feet. The nave is an inspiring and spacious place, 240 feet in length, sixty feet wide, with the traditional transepts, aisles and side chapels. On the raised floor of the Apse is the monk's choir, and in the sanctuary the altar strikes the visitor who first enters the great nave, and other inspiring images and architectural decorations lead to the interior of the temple of the Roman faith in many lands. In style the sacred edifice is Byzantine. The total cost of this superb pile was nearly \$1,000,000.

JEMEZ MOUNTAINS.

Trip From Algodones to the Sulphur and Jemez Springs. Special Correspondence.

Jemez Hot Springs, June 26.—Our party left the Rio Grande valley last Monday, came by the way of Bland, stopping at the Benson hotel over night. We were all surprised at the size and prosperous outlook for the town. Leaving Bland we struck our high places on the Jemez mountains. Taking in the view through our field glasses, our eastern companions were astonished and delighted at the view of the surrounding country from the mountain tops. Their scenery is beyond description. We were surprised at the beautiful pine timber, grasses, mills and valleys, flowing streams and large flocks of sheep we saw on one way from the mountain tops to the sulphur and Jemez springs.

Dr. Bizley and his good looking son, Jimmy, who manage the sulphur springs, seem to fill the bill perfectly; set a good table, entertain their guests and see that they get sulphur water externally and internally.

Today we arrived here and found quite a number camping at the Steam hotel. Mrs. Cushman and Miss Campbell kept the hotel and all the guests seem well satisfied with the management. Good beds, good living at the hotel and fine baths at the bath house are all first class.

W. R. Orley, a gentleman 74 years old, from New York City and R. G. Balcumb, from Algodones, are here looking over the country and seem well pleased and delighted with the country and the fine accommodations at the resort.

They leave tomorrow for the north and will travel over the country between New Mexico and Colorado. There is a wonderful future for this beautiful country. All it needs is cash and capital to develop the natural resources.

A VISITOR.

THE WORK GOES ON.

Albuquerque People Interested—It Has Much to do With Our Welfare.

Never out of work. That's the case with the kidneys. Twenty-four hours to the day is the time they put in.

They're equal to it when they're well. But they get sick. Stomping positions of the body. Straining a fall or over-exertion. Often makes the kidneys sick. But the work must go on. They ask for help through the back. The back aches. It's kidney ache. Doan's Kidney Pills are kidney helpers.

The daily work goes on. Mr. Jacob Wolfe, carpenter, of 1239 North Ninth street, Third ward, St. Louis, says: "When I first came to St. Louis there was not a bridge across the river, there was only a ferry. I helped to build the court house over forty years ago and worked on nearly all the old buildings in the city. There was not a railroad in St. Louis, so a word or two from me to my many friends and acquaintances should carry considerable more weight than I have, say in the New England states. Mrs. Wolfe and I have had more than one attack of backache. Mine was not remarkably severe but it was annoying. Noticing Doan's Kidney Pills advertised I wanted to get a supply and Mrs. Wolfe and I commenced the treatment. If it had not performed absolutely what it promised, if the action of the pills were not a long way ahead of anything we ever before used, I would be the last resident in St. Louis to publicly recommend them."

Dropped into the Alvarado Pharmacy and ask what their customers report. For sale by all dealers. Price, 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Heavy Batteries.

The battery for the Albuquerque Elks in the game of base ball at Silver City for championship of the United States will be Hon. M. S. Otero catcher and Sheriff Thos. S. Hulbert pitcher. The Silver City battery, it is rumored, will be Andy Laird catcher and Judge Ashenfelter pitcher.

Postmaster Seventy-Four Years.

North Lansing, N. Y., June 28.—Roswell Beardsley, of this place, claims the distinction of being the oldest postmaster in point of service in the United States. Today he rounded out his

seventy-fourth year in the service. He was appointed by John Quincy Adams. The first year his salary was \$19.53, and it has never exceeded \$200. Fortunately Postmaster Beardsley does not depend upon his office for a living, as he has a fortune of \$150,000.

INDIAN SCHOOL NOTES.

School Closed—Progress Made—Improvements—Short Resume.

Special Correspondence. Again we are privileged to chronicle the closing of this school provided by the government for the training of the Indian youths in the various industries of the American people and thus preparing the government wards for full citizenship.

The work of the year has been carried along on the various branches prescribed by the superintendent of Indian schools and special stress has been placed on the industrial side of their education.

The progress made along the various lines of work is plainly shown by the exhibit which has been prepared and sent to the National Educational association. This exhibit is expected back in time for the territorial fair next October.

There has been a number of changes in the employees during the year and at present an able and efficient corps of employees are in charge.

There have been a number of improvements made during the past year. Among those deserving mention are the new shops' building, where all the shops will be under one roof, where the children will be taught blacksmithing, carpentering, harness and shoe making and tailoring. This is a neat building and will be well equipped for the various branches to be taught.

Another improvement is a fine commodious warehouse, where all the goods for the institution will be stored. The work on these two buildings has been done entirely by the pupils of the school under the direction of the employees who have them in charge.

And last but not least of the improvements is the new boiler house, with boiler, engine, pump and water complete, which is just completed to day by the Whitney company of Los Angeles.

The money for all these improvements as well as for a great many supplies for the school, has gone to the business men of the city. For some reason there has not been as much interest in sports at the school as usual. Our boys have not been able to maintain the place they had won so seem to have become discouraged. The girls have won laurels in basket ball and have been able to maintain the championship of the territory, as they were not defeated during the past year.

The people of the city have been kind and cordial to the children and employees and we are under a debt of gratitude to the press of the city as they have generously given space for the mentioning of the happenings at the school.

When Other Medicines Have Failed. Take Foley's Kidney Cure. It has cured when everything else has disappointed. Alvarado Pharmacy.

KROONLAND LAUNCHED.

Biggest Vessel Ever Built in America Was Floated.

New York, June 28.—There was a great tooting of whistles along the North river today as the new American line steamship, Kroonland, the biggest vessel ever built in America, departed on its first trip across the Atlantic. The ship was built by the Cramp, of Philadelphia, and so confident are they of her ability to meet contract requirements that the right of preliminary tests has been waived, and the voyage begun today is also a trial trip of the big ship. The Kroonland's sister ship, the Finland, has just been launched at Philadelphia, and as soon as completed will be put on the Transatlantic route, running opposite to the Kroonland. The two ships are twenty feet longer and of four hundred tons displacement greater than the St. Louis and New York, also built by the Cramps for the American line. They are luxuriously equipped, and are of moderate speed, being designed to make the trip across the Atlantic in eight days.

Don't Fail to Try This.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems. Electric Bitters positively cures kidney and liver troubles, stomach disorders, nervousness, sleeplessness, rheumatism, neuralgia, and expels malaria. Satisfaction guaranteed by all druggists. Only 50 cents.

WILL PUSH IT.

Building of the Santa Fe Cut-Off Will Be Rushed.

The official announcement that the Santa Fe will at once build its cut off from Portales to this city has caused great satisfaction in this city. The announcement confirms the statement of this contemplated move which was first given in The Citizen several months ago. The cut off will mean much for Albuquerque as it will give direct communication with a new part of the territory.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entire satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by all druggists.

The San Marcial Bee says: Fireman R. E. Tracey was married at West side, Iowa, June 11. A feature of the affair was a grand ball, followed by a reception at his father's residence, in Batavia, on the 14th. This information is from J. P. McMurray, who is now at Salina, Kan., and will return home about July 10.

STOCK NOTES

Calvin M. Houston sold his ranch on Long Arroyo last week to a Mr. Robb of Carlsbad for \$2,200.

J. P. Havemkamp of Fort Worth, Tex., sold nine Shorthorn cows recently for the nice little sum of \$2,700.

Col. W. T. McIntire secretary of the American Angora Goat Breeders' association has established a 100 milk goat dairy at Kansas City.

Over 61,000 head of mutton sheep had been shipped from San Angelo up to May 31. About 100,000 head, it is claimed, will be shipped during the season.

The Live Stock Inspector says: For about a week or ten days before killing, the feed of the poultry should be confined to grain so as to improve the flavor of the meat.

George Slaughter, of the Slaughter ranch at Roswell, recently sold 4,099 25 to J. M. Boardman, the Montana buyer who bought the 5200 HAT steers. They were shipped to Montana pastures.

R. L. Owens, of Hope, was at Roswell. He recently bought 9,000 weathers of Spence brothers, of Lincoln county, and also a ranch, with a well on it. He expects to make his home at White Oaks.

J. W. Stockard, one of the proprietors of the Grand Central hotel, Roswell, bought fifty head of thoroughbred cows and calves from the L. F. D. stock farm, and sent them out to his ranch. Consideration, \$45 per head.

Young chickens should not be given any food until they are twenty-four hours old. Never feed them raw corn meal under the age of two weeks. The best food when very young is stale light bread soaked in milk and squeezed dry and crumbled.

J. D. Cooley, manager for the Cass Land & Cattle company was at Roswell the other day. He said a heavy hail storm on the Wylie arroyo last Monday night killed 200 sheep for Walter Long and crippled 100 more, that would probably die.

About 1,800 head of cattle were shipped out of Otero county last week and 2,500 head from the Sacramento range altogether. The Nations Newman Cattle company, of El Paso, were the buyers and the stock was shipped from Roswell to Wyoming.

I. S. Osborne has returned to Carlsbad from Kansas City, where he had been to market some fat steers. He reports striking rather a dull market, getting only \$5 for his beef, but at that he has cleared a good profit on his feeding experiment. He will go into the business again next fall.

George Robertson recently delivered 2000 yearlings to the HAT ranch in Eddy county, driving them overland from the company's H ranch in Crosby county, Texas. They stood the trip in good shape and are intended to replace the recent heavy shipment of 25 and 35 from the HAT range.

The directors of the American Angus Cattle Breeders' association, decided to participate in the American Royal cattle and swine show to be held in Kansas City October 20 to 27. The sum of \$25,000 was appropriated for prizes to be distributed among six in individual, four herd and group classes.

The most notable sales made at Carlsbad this spring are: 5,200 head of 25 and 35 by the HAT ranch to J. M. Boardman, of Glendale, Mo., 3,500 25 and 35, by S. T. Bittling to B. C. Ash, of Pierre, S. D., 1,500 steers to Wyoming and Kansas parties. For 25 the price was \$21.50 to \$22; for 35, \$22.50 to \$23.50.

Lampasas, Tex., is boasting of a big wool deal. W. P. Darby sold in one lot 400,000 pounds of wool at 16 cents a pound. Buyers seek that market for they find there the finest Merino wool. Wethers are bringing \$5 a head and several train loads have recently been shipped from that point north, so says the Texas Stock Journal.

The American Hereford Breeders' association, soon to establish headquarters in Chicago, has a membership of nearly 2,000. Illinois leads with 299 members; Missouri, 281; Kansas, 253; Iowa, 227; Texas, 118; Nebraska, 100. The remainder of the states and territories have less than 100. The aggregate wealth of the members of this association is said to be near \$50,000,000.

C. C. Fidler, of Creason, Tex., sold in Chicago, Texas cattle from below the quarantine line at \$7. This is the highest price ever paid for straight Texas cattle. There were twenty head and they weighed 1,287 pounds. The cattle were put on feed last November on an allowance of five pounds of oil cake a day, and the feed was increased a little in March. They were well graded Shorthorns and Herefords.

The Roswell Record says: Thomas J. Pridmore, range manager for Jay El Capitan Land & Cattle company, of Lincoln county, returned from Kansas City, where he sold to Connors brothers, all the two year old steers he can gather. He left Sunday for the range where he recently turned loose a large herd of steers in charge of line riders. The cattle was delivered June 25, on the Rock Island road. He expects to deliver from 2,500 to 3,000. As soon as he delivers the cattle, he will return to Roswell to buy some fine bulls.

All the cattle thus far shipped from Carlsbad, or passing through, have been 25 and 35, with a slight sprinkling of aged steers. Scarcely any yearlings have been sold at Carlsbad, nor has there been any demand there for. There are now, it is estimated, about 20,000 yearlings for sale in that vicinity, well bred up for the most part and in good order, but there seems to be no market for them this season. Last year and the year preceding the demand was almost confined to yearlings, not only at Carlsbad, but in west Texas also, and the utter absence of calls for young stock, this season, is hard to account for.

Seawanhaka Trial Races. Bridgeport, Conn., June 30.—A half dozen crack American yachts are taking part in the trial races which began off Black Rock harbor today and the craft that proves itself the fastest of the lot will have the honor of competing for the Seawanhaka cup at Lake

St. Louis, near Montreal next August. The cup is now held by the Royal St. Lawrence Yacht club. The only western club represented in the trial races is the White Bear Yacht club of St. Paul.

EDUCATORS MEET.

Twelfth Annual Meeting of Southern Teachers at Chattanooga.

Chattanooga, Tenn., June 30.—Chattanooga is filling with teachers from all parts of the south, who come to attend the twelfth annual convention of the Southern Educational association. The convention opens tomorrow and continues through the remainder of the week. From present indications it will be the largest and most representative gathering of educators ever held in this part of the country. The territory covered by the association includes every southern state, from Texas to Maryland, and Missouri also comes within its jurisdiction. Heretofore the association's conventions have been held in December, and the change to nearly summer is expected to result in a much larger attendance.

Among those who will be present and take part in the proceedings are: Dr. J. W. Nicholson, of the University of Louisiana; Dr. R. N. Roark, State college, Lexington, Ky.; W. T. Carrington, state superintendent of public schools of Missouri; President George H. Denny, of Washington and Lee university; President E. A. Alderman, of Tulane university; Superintendent J. H. Hineman, of Pine Bluff, Ark.; J. B. Cunningham, of Birmingham; Dr. William A. Read, of the University of Arkansas; H. L. Whitfield, state superintendent of public instruction of Mississippi; President E. C. Dowman, of Emory college; Superintendent John W. Hopkins, of Galveston; Superintendent J. Reese Linn of Natchez; Professor Archibald Belcher, of Houston; President Lyman Hall, of the Georgia School of Technology; Dr. Junius Jordan, of the University of Arkansas; President M. C. Wilson, of the Alabama State Normal college; President Charles W. Dabney, of the University of Tennessee; and Professor M. C. S. Noble, of the University of North Carolina.

The officers of the association who will preside over the convention are: President, W. N. Sheats, Tallahassee, Fla.; Vice president, G. R. Glenn, Atlanta, Ga.; Treasurer, F. M. Smith, Concord, Tenn.; Secretary, P. P. Clayton, Knoxville, Tenn.

FINE GAME.

Santa Fe Centrals Defeat a Colorado Ball Team.

At Santa Fe yesterday afternoon the Centrals won another victory, but they had to fight to a finish to reach the result.

The team from Antonio, Colorado, is composed of lusty young men and with more practice they can defeat the Centrals.

Charlie Rhodes, the Santa Fe pitcher, played a remarkably fine game and he stated at the end of the game that the Antonio boys were the heaviest batters he had ever faced.

One of the features of the exciting game was the remarkable lung power of the 400 rooters from Antonio. They drowned out the Santa Fe boys in volleys of cheers for their team, and made the game exciting to the close.

Billy Martin is justly proud of his excellent Santa Fe champions. They play good ball and are gentlemanly in their treatment of visiting clubs.

The game was 10 to 8 in favor of the Santa Fe Centrals.

The Boss Worm Medicine.

H. P. Kumpke, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 115 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at Cosmopolitan Pharmacy, B. Ruppe.

Young People at Winona.

Warsaw, Ind., June 30.—Notable for the number and prominence of its participants is the young people's Christian conference, which began at Lake Winona today under the direction of Rev. J. Wilbur Chapman, D. D., of New York city. Among the speakers to be heard are Rev. W. E. Blodsworth, of Monticello, Ind.; S. D. Gordon, of Cleveland, and Rev. Clarence E. Eberman, D. D., field secretary of the United Society of Christian Endeavor.

Hives are a terrible torment to the little folks, and to some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

ALAMOGORDO.

From the News. Alamogordo Improvement company will receive propositions for leasing farming and garden lands for the year 1902.

Abbott & Carson will raise a fifty-two foot flag pole in the park, from which hereafter will float "Old Glory" when occasions require.

Both of the saw mills have been running this week. Large quantities of logs are coming down from the mountains and steady runs are expected.

The Liberty Van, being designed and built by Abbott & Carson, to lead our Fourth of July parade will certainly be a beautiful and attractive caravan within itself. It will reflect credit upon the skill and designing ability of this enterprising firm. The carrying capacity of the van will be about sixty persons and it is to be costumed in a most tasty manner in colors of our great and noble nation.

Monday evening last Mr. and Mrs. A. J. King celebrated their twenty-fifth anniversary at their place of residence in this city. Quite a number of visiting guests being among their many friends who were present upon the occasion and until a late hour merriment and enjoyment reigned supreme. A

most pleasing feature was a luncheon tendered Mr. and Mrs. King by A. S. Greig in his private car. They were also given a little treat by the Alamogordo corner band in the way of a serenade.

SIERRA COUNTY.

Hillaboro.

From the Advocate.

The timber fire on the range is about exhausted.

Mrs. Reingaert will move to Kennedy, on the Santa Fe Central railway, in about two weeks.

L. W. Galles is cleaning up the Porter mill preparatory to making a run on ore from the American mine.

Mrs. R. W. Fulchum and daughter, Mildred, passed through here to visit Mr. and Mrs. Jay Barnes.

Miss Nona Murphy, who has just graduated from the Denver Conservatory of Music, is expected home about the fourth.

Charlie Anderson sold his Battle sea mining claim to E. J. Fender. Mr. Anderson left for Chicago, where it is said he owns valuable real estate.

Fred Mister, who has the mail contract from Lake Valley to Tierra Blanca, and from Lake Valley to Hillaboro and Kingston, has purchased J. W. Orchar's horses, wagons, etc. Fred's contract begins July 1.

On Wednesday last R. H. Hopper showed us a fine gold specimen from the Snake mine. Mr. Hopper is having the road to the mines repaired and is putting on men as fast as room can be made for them. Quite a quantity of mining timber has been ordered.

While there is no regular program arranged for the Fourth, Hillaboro will celebrate the occasion. A ball game between the town boys and the Wicks mine boys is assured and other sports will be arranged for. A ball in the evening will be one of the chief attractions.

Dr. Given returned from Hermosa, where he went to attend Mrs. Nichol, who had the misfortune to break her leg. The limb was broken just above the ankle. The accident happened two weeks ago tonight, but the injury was of such a nature that it was thought to be only a sprain.

It is reported that the El Oro and Trippie mines have been sold. It is said that the Conner Bros. are interested in the deal—in fact the purchasers. However, we are informed by one of the Conner brothers that he has not purchased the El Oro. This was on Tuesday. What may have transpired since we do not know. However, it is persistently reported that the property, consisting of mines, mill, store, etc., will be turned over to the Conner Bros. this week.

Kingston.

New potatoes have made their appearance.

The postiferous politicians are just now combing their eye brows.

Jas. Ross has moved his family up from Lake Valley for the summer.

Judge Julian Caves was in town with a load of apples and vegetables from his Animas ranch.

The Kingston school board has received many applications from school teachers in various parts of the country for the fall and winter term.

Fred Mister has bought the Chapman barn and moved it to Lake Valley where he will rebuild and use it for a stage barn.

Mrs. Armer, of North Perciba, has been called to Globe, Arizona, where her father, Mr. McAvoy, lies at the point of death. She left at once, hoping to reach there before his demise.

James Ross and Light Townsend are delivering their hay crop from the Italian ranch. Mr. Spark, the merchant, has bought many tons and will store it.

Tom Robinson left with a pack outfit loaded with supplies for his ranch on Iron creek. Mrs. Jane Parker accompanied him to take some snap shots at his mine and camp.

The June squirrel crop is ripe and the crack shot kids are after their scalps with stones and guns.

It is reported here that a former Kingston girl, well known to everyone, is engaged to one of the million dollar gold bugs of Colorado Springs and will be married in the fall and spend the winter in sunny Italy.

Shorty Honsinger, the expert well digger, has just completed a twenty-five foot bore in his yard with great success. The water is good and plentiful.

Miss Laurabel Spark and Miss Laura Slinkard drove to the county seat last Sunday. They were the guests of Mr. and Mrs. Herring.

A surprise party was given to Bert Slinkard on his twenty-first mile post. Mr. Slinkard has been here but a short time but has made many friends who wish him many returns of the day.

UP TO WASHINGTON.

Instructions Asked About Where to Take the Chinaman.

Lu Wah the Chinaman still occupies his furniture car. The papers ordering his deportation arrived from Washington this morning and Marshal Forker wired for instructions as to take him. No reply had been received up to late this afternoon.

It was deemed best to let him remain in the car and to this the railroad company consented. All possible care and attention is being given him.

DISTRIBUTE STOCK.

Rock Island Directors Will Give Per Cent of Holdings.

New York, July 1.—At a meeting of directors of the Chicago, Rock Island & Pacific Railway company here today, it was voted to distribute to stockholders 1 1/2 per cent of their holdings in new stock at par.

May Import Men.

Omaha, Neb., July 1.—The only new feature of the Union Pacific strike today was a report the company is preparing to import machinists and boiler-makers from the east to take the places of strikers in this city and Cheyenne. It could not be confirmed at Union Pacific headquarters.

The Santa Fe has changed the name of the Earlham station to Vado.

T. F. Moran, formerly operator at the Williams depot, but now located at Winslow, was admitted to the bar last Thursday. The occasion was celebrated by his entertaining a number of friends at the Hotel Weatherford in Flagstaff.

The Kidneys

When strong and healthy, filter the blood and remove all poisons and impurities from it, but if weak or diseased these impurities are allowed to remain and sickness follows. Stimulate the Kidneys with Hostetter's Stomach Bitters. It is the best known remedy for them and never fails to cure. It will also cure stomach complaints. Try it. Our private stamp is over the neck of the bottle.

HOSTETTER'S STOMACH BITTERS

LONGEST BALL GAMES

In the History of the Great National Sport.

It was a great base ball day for Chicago Sunday, June 21, perhaps the greatest in the history of the national game. While on the west side the local National league team was winning its sensational nineteenth inning contest with Pittsburg, the White Sox on the American league grounds lost to Baltimore in a double header which totaled twenty-one innings.

Between 10,000 and 11,000 fans witnessed the west side contest, while the crowd at the Comiskey park was estimated at 16,000. According to these figures over 26,000 base ball enthusiasts saw forty innings of major league base ball, in which but thirteen runs were scored. An incident probably unique in the history of the professional game.

The game on the west side breaks all records for the National league, and according to the best of authority, sets a new mark in the major league contests.

Until the game of June 21 the longest game in the history of the National league was a contest played at Providence, R. I., on August 18, 1882. Providence winning from Detroit by Radbourne's home run in the eighteenth inning. The opposing batteries were Ward and Neva for Providence, Walde and Trot for Detroit.

The next longest game in the National league was played on the west side grounds here on September 21, 1901, between Boston and Chicago. In this game the batteries were Hughes and Kahoe for Chicago and Dinneen and Moran for Boston. "Pete" Childs single sent Dexter home from third with the first and winning run in the last half of the seventeenth inning, the score ending 1 to 0.

The longest game on record in the American league was also a seventeen inning contest, which was played on the south side grounds on August 19, the star pitching of "Rube" Waddell giving Milwaukee a victory over the White Sox by a score of 3 to 2. Immediately after the game Waddell pitched another five inning contest, again defeating Chicago, 5 to 0. The record of twenty-two innings of continued pitching set a new mark for major league pitching.

The longest game of base ball of the minor leagues was played at Boston on May 11, 1877, the Manchester, N. H., professional and Harvard college teams playing twenty-four innings without a run. The last ten innings were played with a very soft ball, however.

The second longest contest was played at Tacoma, Wash., May 16, 1891, Tacoma defeating Seattle, 6 to 5, in twenty-two innings.

OF UNTOLD VALUE.

The Information Contained in This Gentleman's Statement is Priceless.

The hale, hearty, strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Albuquerque who has spent a mint of money and hours of excruciating torture caused by kidney complaint, will stand in his own light if he does not follow the valuable advice offered by—

Mr. J. R. Miller, of 414 West Colfax avenue, in the Colfax Real Estate Insurance & Rental company, Denver, Colo., who says: "My first acquaintance with Doan's Kidney Pills was made while reading the Pittsburg Dispatch. I was living in Toledo, Ohio, at the time, and called the attention of my druggist to them. He procured them for me, and they were most effective in ridding me of slight kidney complaint which had annoyed me for some time. Since then, not only from experience but from observation, I have always noticed Doan's Kidney Pills very highly recommended, and only recently I purchased a box at Scholtz's drug store, opposite the Tabor opera house. I have sent more than one friend and acquaintance to that drug store for a supply simply because I know Doan's Kidney Pills can be depended upon to act as represented."

Ask the Alvaredo Pharmacy what their customers report about this preparation. For sale by all dealers. Price, 50 cents. Foster-McMillen Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

TO GET A TEAM.

Secretary McCanna Will Try to Get the Great Lajoie.

Secretary F. F. McCanna, of the Fair association, will leave tomorrow night for the east and will be gone for several weeks. He will get together a ball team that will be a corker while he is east and "Topsy" Hartzell, who was a great favorite last fall, will come out again. Two others he is after are Larry Lajoie, who is playing second base for Cleveland and drawing \$7,000 for the season, and Pitcher Bernard. Lajoie will make a tour of the coast states this fall and it is believed he can be secured. Lajoie is a wonder and draws great crowds. He is a very large man and as graceful as a dancing professor and active as a kitten.

Tom Hughes Hurt.

Albuquerqueans will remember Tom Hughes, who pitched for the Browns last fall against the El Paso team, and who was at that time touted to be the coming great pitcher of the world, he just a few weeks prior to that time winning a game from Boston in which but one run was scored in seventeen innings. This performance caused him to be signed by Baltimore with a salary of \$3,500 a season of six months. He was considered Baltimore's pre-

mier pitcher until last week when he had the misfortune to break a tendon in his pitching arm, and it is feared that this will cause him to abandon the National game. However, he may be made an outfielder and still be a valuable man to any team, as his hitting is remarkably fine for a pitcher.

CHARGED WITH RAPE.

A Man Arrested This Morning by Constable Smith.

This morning, at 9:30 o'clock, Constable James Smith arrested a man, who claims to be a night blacksmith at the local shops, and charged him with a criminal assault upon a young native girl, named Lucia Garcia, aged about 13 years. The complaint is sworn to by Maria Garcia, an aunt, who says the man called at her house this morning, grabbed the girl, and after hugging and trying to commit an assault, the screams of the girl frightened the man and he left the house in a hurry. The aunt reported these facts to the constable, and he found the "John Doe" in the garret of the railroad office building on South Second street. The man, who failed to give his right name to the constable, will have a hearing before Judge Borchert tomorrow morning at 10 o'clock.

FIRE THIS AFTERNOON.

A Small Frame Building, Used for Storage Purposes, Burned.

This afternoon, at 3:20 o'clock, an alarm of fire was turned in and the fire department responded to the burning frame building in the rear of the Lindell house on South First street. When the firemen arrived the building was thoroughly enveloped in flames, but two streams of water soon had the fire extinguished. The Methodist college building, just across the alley, was at one time in danger from fire, but the firemen saved this building by several applications of water.

The burned building was used as storage quarters by the W. V. Futrell Furniture company, and quite a lot of furniture, mattresses, stoves, etc., are damaged by fire and water. At present Mr. Futrell is out of the city, and The Citizen is unable, this afternoon, to publish an estimate of the loss sustained or the amount of insurance carried.

YATEMAN A DEFAULTER.

Shortage of \$18,000 Was Discovered After His Death.

Washington, July 1.—United States District Attorney Gould today announced in probate court that William S. Yateman, formerly disbursing clerk in the war department, was at the time of his death, on April 20, 1902, a defaulter. So far as known the alleged delinquency amounts to about \$18,000. The government will take steps to recover the full amount. The delinquency, Gould announced, was only recently discovered and was effected through the manipulation of vouchers.

WILL STOP IT.

Prize Fight Set for St. Louis Will Be Prevented.

St. Louis, Mo., July 1.—Circuit Attorney Folk today, in a communication to the chief of police, calls attention to the proposed prize fight scheduled for Thursday night at the West End Coliseum between Young Corbett and Dave Sullivan, and says it comes under the Missouri statute prohibiting public exhibitions. The circuit attorney says it is his duty to prosecute all who may participate, aid or abet the contest.

Reappointed Commissioner.

This morning, Judge B. S. Baker reappointed H. R. Whiting, United States commissioner for this judicial district, and the reappointment will meet with the hearty approval of the people of this city and district. Mr. Whiting was the commissioner for the past four years, and previously held the office for twenty-six years until congress, in 1890, enacted a law that legislated all the United States commissioners, out of office. Mr. Whiting is thoroughly conversant with the duties of a commissioner, and The Citizen is pleased over the reappointment.

John F. Daugherty.

John F. Daugherty, of Corning, N. Y., died yesterday afternoon at St. Joseph's sanitarium. He was 26 years old and came here alone. The remains were taken charge of by Undertaker Borders and they will be buried here. It is expected the funeral will be from the church of Immaculate Conception tomorrow morning.

Cantaloupes Here.

Cantaloupes are coming into the market but not in great quantities as yet. Many are going through daily to the eastern markets. An unusually fine melon is grown in the Coachilla valley in California which is pronounced by many to be superior to the Colorado melons.

Order was Obeyed.

Birmingham, Ala., July 1.—According to the report of President Flynn, of the United Mine Workers, about 11,000 miners in the Birmingham district have obeyed the strike order which went into effect last night.

A. A. Keen, the territorial land commissioner, returned to the capital this morning.

W. E. Myers, a well known citizen of the Cochiti mining district, is here today from Bland.

There was but one solitary drunk in police court this morning and he was given ten days.

W. S. Rishwold, a well known miner and mine operator of the Golden district, was here yesterday.

During the slight indisposition of Policeman Frank Ross, ex-Policeman Charles Mainz is officiating.

Mrs. T. A. Whitten and Mrs. E. J. Barnum leave this evening for San Diego, Cal., to be gone six weeks.

Hon. T. B. Catron, of Santa Fe, has returned from Washington, and says that statehood is almost certain next winter.

Robert Putney and Frank Kister have been added to the Elks base ball team that will visit Silver City on the Fourth.

J. H. Duran, who was clerk for J. M. Moore for a long time, will open up a

SHAKE INTO YOUR SHOES

Allen's Foot Ease, a powder, it cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all drug stores and shoe stores. Don't accept any substitutes. By mail for 25c in stamps. Trial package free. Address Allen S. Olmstead, La. Ray, N. Y.

real estate office at No. 208 1/2 West Gold avenue.

Joe Merkins, formerly with Price Bros., of Socorro, is the name of the new collector for L. B. Stern, the dry goods merchant.

James H. Owen, who is doing some government work at Fort Defiance, Ariz., is in the city today. He wants ten stone masons.

There was a heavy fall of rain yesterday afternoon at Deming. Incoming passengers say there was a heavy rain at Rison also.

Dr. Tom Taggart of Bakerfield, Cal., a friend of Mr. and Mrs. A. Borders, passed through this morning on his way to Sparta, Ill.

This evening, Mrs. Alfred Grunfeld and daughters will leave for San Francisco, where they will enjoy the ocean atmosphere for a few days.

W. R. Utley and A. J. Frank, interested in improving and developing certain enterprises at Algodones, were north bound passengers this morning.

Mrs. R. E. Putney and children will leave tomorrow night for southern California, where they will enjoy the delightful sea atmosphere for a few weeks.

There are rumors afloat in the city that Manuel D. Gonzalez, a well known native citizen up the river, is dead at his ranch near the Indian village of San Felipe.

Charles Graham, an attorney of City of Mexico, who was at St. Louis on professional matters, came in last night, and continued south to Mexico several hours later.

A. E. Laidenslager, who represents H. R. Cartwright & Bros., the wholesale merchants of Santa Fe, went up to Bland and other small towns north of the city this morning.

H. J. Ramer, the wealthy cattle raiser of Watrous, N. M., and who has good cattle ranges in Arizona, is here today on business. He says northern New Mexico has been blessed with some mighty good rains the past few weeks.

W. C. Leonard, wife and daughter, who have been sojourning in Los Angeles the past winter came in from the west this morning, and will continue east to Middleboro, Mass., tonight. They will spend the summer at the New England state resorts.

The members of the Mutual Protective society of old town have received their uniforms, ordered through Simon Stern. They will appear in the Fourth of July parade in old town.

The entertainment committee of Harmony lodge, No. 17, I. O. O. F., invite all members of the order to be present at their installation exercises tonight. Come early and get a good seat.

W. F. Nagle and E. O. Morningstar, who are interested with T. A. Lister in the development of some good mining property in Luna county, were passengers for their home at Shamokin, Pa., last night.

Simon Bibb, the senior member of the Bibb Mercantile company at Laguna and other western towns, was here yesterday, having in charge Solomon and Irving Bibb, relatives from San Francisco.

SCHOOL TRUSTEES.

Another Ladv Teacher Elected by the Las Vegas Board.

SEQUEL OF A MARRIAGE.

Special Correspondence.

Las Vegas, July 1.—Miss Murray, one of the Methodist missionaries, left yesterday afternoon for Albuquerque.

Wynne Glassford left this afternoon for Annapolis, where he will enter the naval academy next September. In the meantime he is doing preliminary work.

Dr. N. W. Judd, of the Montezuma, left yesterday afternoon for Kansas for a few days, and will later return to Colorado, where he will be met by W. C. Sturges, professor of botany in the Yale university, and his family, all of whom have been staying at the sanatorium for the past six months, and they will take a two months' camping trip in Colorado.

Miss Jessie Lawton, one of the nurses at the Montezuma, left yesterday afternoon for a visit in Chicago. She has resigned at the Montezuma and on her return will locate in Las Vegas.

Word has been received from Dr. R. D. Black, from Chicago, that he will return here next Thursday and that he will bring his mother with him, who will make her home here.

All our merchants today that handle tobacco are taking an invoice of the stock on hand so as to avail themselves of the rebate the government allows on stock left over on which there has been paid a war tax. All over 200 pounds on hand the revenue collector will refund the war tax paid on the same at the rate of 3 and 6-10ths cents per pound, the tax having been repaid by Congress.

Colonel R. E. Twitchell returned from his trip down the road yesterday.

Dr. Shaw has returned from Buchan and reports Prof. Chickell much better. The cause of the professor's sickness was from being overheated from a long and arduous walk.

Mrs. Mason and Miss Rose, who have been spending several months in our city from Minneapolis, left yesterday evening for Roswell, where they will spend the summer.

Brakeman J. L. Wiser has a lay off for a few days and will take to the mountains.

The board of education held a meeting last night and transacted considerable business. The other high school teacher was appointed, Miss Coffey, of Herrington, Kan., being the appointee. She is a graduate of the Kansas normal and comes well recommended. She will receive a salary of \$70 per month.

There was quite a little fight on the advisability of putting another woman in as teacher, and the vote was close, three to four. Some of the members object to the public schools being an entirely Adamesian place, and thought a man should be put in the high school.

Antonio Linares was employed to teach Spanish one hour each day in the high school. The Spanish will be in the freshmen year, and it is expected to add another year of the language later on.

The building committee report on grounds was accepted, and a cement walk will be put down on Back avenue in front of the grounds. Gravel walks will be put inside of the grounds and up to the building.

Two closets were ordered constructed, with a compass. The closets will be temporary only, as the board figures on other arrangements when the sewerage system is put in.

A large outfit is ready for shipment by the Alameda Mining company, operating in the Burro mountains. The new shaft of the Gettysburg mine is down now about 150 feet, and an average of five tons per day of good sulphide ore is being taken out. A contract for a 1,000-foot tunnel has been let on the Victoria mine, and this has also reached a depth of fifty feet. A new force of men has been employed, and work is being pushed very energetically.

The rich veins of gold ore in the Mountain Key properties are being opened up with a view to speculation. A large force will be employed directly, and more prosperity added to the camp at Pine Alton.

H. W. Wink arrived in Stein's pass this week, to superintend some work on the Mustang Works lead properties, and on the Beck group of gold and silver properties.

The ore blue of the Wilson Mining company are stocked to their utmost capacity with \$75 ore values ready for shipment, and a second brick of gold-silver bullion was shipped this week by the company.

Stops the Cough and Works Off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25 cents.

Destructive Grasshoppers.

Ex. Gov. L. B. Prince has returned to Santa Fe from his ranch in the Espanola valley. He reports that the grasshoppers are doing much damage. He finds that ducks are greatest destroyers of the pest and he has now over eighty ducks on the ranch that are growing fat on the grasshopper diet.

The Chama river is dry out there is still plenty of water in the Rio Grande river for irrigation purposes.

P. Sheely, who has served the Southern Pacific in Los Angeles for years as master mechanic of the Los Angeles division of that road, has been promoted to the position of superintendent of motive power of the Coast, Los Angeles, San Joaquin, Tucson and Sonora divisions. He succeeds H. J. Small, who has been given the place of general superintendent of motive power of the Southern Pacific system. The changes are effective July 1.

Col. Jenkins at Santa Fe.

Colonel R. M. Jenkins, of Lexington, Ky., arrived in Santa Fe Tuesday night and will remain there a month or six weeks partly on business and partly for the benefit of his health. Colonel Jenkins is a war veteran and fought on the side of "Cousin Sally," as the boys in Gray used to denominate the Confederate states, in 1835, under the first Cleveland administration, his name was considered by President Cleveland for appointment as governor of New Mexico, but he did not care to make an

Ky., will arrive here tomorrow to visit her sister, Mrs. E. H. Pierce.

Frank Kennedy, the check boy at the trainmaster's office, resigned this noon. The boy has to walk from the Santa Fe hospital every day and it was too much.

The changes billed to take place in the Santa Fe dispatcher's office here will not go into effect for a couple of weeks yet, it is thought. The change is in the nature of a reduction of the force from thirteen men to four men, the other nine going to La Junta. It is made on account of a change in the relay offices, the dispatches being relayed from La Junta to Los Angeles. The new system of duplex and quadruplex wires make the change advisable and more economical. The oldest men here will be given the preference in the change, and it is not known who will be the ones to go yet. The men left will divide the twenty-four hours into an eight hour shift and the extra will work when the work is heavy.

Miss Fitzhugh, one of the normal teachers, left this afternoon for her home in Los Angeles, where she will spend the summer.

Mr. and Mrs. T. G. Merrill will entertain tonight a number of friends at cards.

In Judge Wooten's court yesterday the case of Leonora Christie, who was charged with disturbing a religious meeting by Mrs. Toombs, was settled by the complaining witness letting the man off with only the payment of costs, he being poor and promised to behave himself in the future.

Another case was Mrs. George Marchant's complaint against her husband for non-support. The matter was settled by the husband and signing a contract to pay his wife \$5 every Monday.

Miss Wheeler, one of the attendants at the asylum, is laying off a few days on account of being indisposed.

A deposition of the evidence of C. W. Givens was taken before Commissioner Bunker this morning in the divorce case of Eliza H. Freeland vs. Albert N. Freeland, her husband. A number of our citizens will remember the man, Freeland. He was here about a year ago, and was noted as a rather worthless cuss. He, it is claimed, has four wives in different parts of the country and one of them living in New York is trying to get shed of her part of the bargain by divorce.

DOWN SOUTH.

Good Values Reported From Mines Near Stein's Pass.

A correspondent, writing from Silver City, to the Denver News, says: R. R. Lee, the recent inventor of a successful concentrator, has gone on a trip to Old Mexico.

The Mammoth mill, at Pines Altos, has been started up again by Walter Branda, for the handling of custom ore.

An excellent strike of high grade ore was made on the Arizona mine last week. In the bottom of the new working shaft, as well as the drifts and stopes connecting the shaft.

J. R. Waite, an experienced mining man from Calumet, Mich., arrived in this city Sunday, to take charge of the operations at the Arizona mine.

Gold values at Stein's pass are as follows: From \$8 to \$16 and \$18, at a depth of less than fifty feet, and in silver as high as 142 ounces. Also copper ore are carrying 49 per cent copper and 100 ounces to silver at the same depth. The lead ore carry 5 to 10 per cent lead, and have \$100 in silver values.

The granite lead mine, at Stein's pass, has been purchased by a New York syndicate, the consideration being \$10,000.

A large outfit is ready for shipment by the Alameda Mining company, operating in the Burro mountains. The new shaft of the Gettysburg mine is down now about 150 feet, and an average of five tons per day of good sulphide ore is being taken out. A contract for a 1,000-foot tunnel has been let on the Victoria mine, and this has also reached a depth of fifty feet. A new force of men has been employed, and work is being pushed very energetically.

The rich veins of gold ore in the Mountain Key properties are being opened up with a view to speculation. A large force will be employed directly, and more prosperity added to the camp at Pine Alton.

H. W. Wink arrived in Stein's pass this week, to superintend some work on the Mustang Works lead properties, and on the Beck group of gold and silver properties.

The ore blue of the Wilson Mining company are stocked to their utmost capacity with \$75 ore values ready for shipment, and a second brick of gold-silver bullion was shipped this week by the company.

Stops the Cough and Works Off the Cold.

Col. Jenkins at Santa Fe.

Colonel R. M. Jenkins, of Lexington, Ky., arrived in Santa Fe Tuesday night and will remain there a month or six weeks partly on business and partly for the benefit of his health. Colonel Jenkins is a war veteran and fought on the side of "Cousin Sally," as the boys in Gray used to denominate the Confederate states, in 1835, under the first Cleveland administration, his name was considered by President Cleveland for appointment as governor of New Mexico, but he did not care to make an

active fight for the position and begs Edmund G. Ross was appointed governor of this territory in that year.

GEORGIA DEMOCRATS.

Ratify All the Selections Made at the Primaries.

Atlanta, Ga., July 2.—The democrats of Georgia met in state convention here at noon today to nominate a full state ticket. All the nominees, headed by James M. Terrell, of Greenville, for governor, were determined upon in a primary election held on June 5, though the names of Col. James H. East, of Savannah, and Dupont Guerrey, of Macon, will probably be presented for the gubernatorial nomination. It is practically certain, however, the convention will ratify the primary selections and will endorse United States Senator Alexander S. Clay for reelection.

The convention ratified the results of the primaries. The ticket is as follows: Governor, Joseph M. Terrell; secretary of state, Phil Cook; treasurer, Robert E. Pack; comptroller, Gen. William A. Wright; attorney general, John C. Hart; prison commissioner, Thomas C. Hart; commissioner of agriculture, O. Stevens; state school commissioner, W. B. Merritt; associate justices of the supreme court, A. J. Cobb and Samuel Lumpkin; United States senator, A. S. Clay.

The platform will deal mainly with state issues, and there is considerable doubt whether either Bryan or the Kansas City platform will be mentioned.

CONTINUES TO IMPROVE.

East Indian Troops Were Reviewed by the Queen.

London, July 2.—The review of East Indian troops today was largely a repetition of yesterday's function, but the varied coloring of the uniforms of representative corps from all parts of Hindustan formed an altogether more picturesque spectacle. Queen Alexandra was again the central figure of proceedings and the public welcomed the opportunity to testify once more its sympathy with her on account of the recent anxiety and her congratulations on the good news regarding King Edward's condition.

At Buckingham Palace the following was issued at ten this morning: "The king had another excellent night and is making steady progress in all respects. The wound is much less troublesome and is beginning to heal."

The following was issued from Buckingham Palace at 7 p. m.: "The king maintains steady progress. The local pain being less and the day passed with greater comfort."

ENGINE EXPLODED.

Fire at the Stock Yards Too Great a Strain.

The gasoline engine which was used to pump water at the stock yards fire was worked overtime so that just as the flames were dying out, it exploded with terrific force. Fortunately Engineer Haynes escaped without any injury. The explosion set fire to the oil house, the pump house and the wind mill. There were two five-gallon cans of gasoline in the oil house and Mr. Haynes plunged in and removed them in safety. While the cans did not explode, the gasoline fumes made Mr. Haynes ill for several hours.

There was absolutely no way of getting water on the flames and the buildings were destroyed. The yards and buildings will be rebuilt at once.

The engine had been condemned for service on another part of the system and sent here, where the work was only occasional.

CATTLE SUFFER.

Stockmen of Southern New Mexico Becoming Alarmed at Continued Drought.

A telegram from El Paso to the Denver News, says: Dry weather in the southwest and in Mexico is causing no little concern among cattlemen.

"The drought in the southwest is growing alarming," said J. G. Hall, of the live stock commission firm of Cox & Hall.

"The situation on the ranges south of Lordsburg, N. M., is worse than in any other portion. Cattle are beginning to die and unless rain comes pretty soon there will be heavy losses. I was down at Colonia Juarez, Mexico, a few days ago, and found cattle in bad shape, but the trouble is that the ranges were overstocked in the winter."

BROKE IT UP.

Striking Telephone Girls Caused the Company to Sell.

Des Moines, Iowa, July 2.—The Mutual Telephone company of the independent system, having nearly 2,000 subscribers, is no longer a mutual exchange. Most of the stock has been purchased by a private company. Hereafter, each subscriber was a stockholder, the company having been organized to compete with the Bell system.

The sale was occasioned by the strike of the central girls, electricians and linemen. The new management has issued an ultimatum to the strikers and the latter announced the fight will be waged with greater exertion than before.

BOUND OVER.

William A. Anderson is Charged With Attempted Assault.

This morning the employee of the Santa Fe Pacific shops who was arrested as John Doe yesterday for assault, was bound over to the grand jury by Judge Berchert under \$200 bond. The warrant was sworn out by Maria Garcia and charged an attempted assault on her niece, Lucia Garcia, who is 14 years old.

The man gave his name as William A. Anderson. The story of the attempted assault was told by the girl and her aunt and in default of bond, Anderson was sent back to jail.

A Railroad Wreck.

Bennington, Vt., July 2.—As the result of a wreck of the Dearing Troy-Montreal express on the Rutland road, at a switch at Hoosick, N. Y., near this city, today, about twenty-five people were injured, five seriously, and one probably fatally. Allen Hucksens, of Philadelphia, 14 years of age, was injured in the back and will probably die.

JUDGE M'MILLAN.

He Was at Washington and Will Answer Charges.

OTHER WESTERN NOTES.

A special dispatch to the Denver Republican from Washington, under date of June 30, says:

Friends of Judge McMillan, of New Mexico, who is now at his home in Buffalo, N. Y., state that he will return here this week to answer charges which have been filed against him in the department of justice and which involve his moral character while performing the duties of his position in New Mexico. Judge McMillan's friends assert that the charges are without foundation and that they were made so that political opponents in New Mexico will be able to secure the position he now holds.

Argues for Statehood.

The senate committee on territories held a meeting this morning for consideration of the statehood bill, at which Delegate Flynn, of Oklahoma, spoke in behalf of the omnibus measure for the admission of Oklahoma, New Mexico and Arizona.

The next meeting of the committee will be during the recess and at Indianapolis, Ind., as time for the meeting has not been definitely fixed, but will be made to suit the convenience of the various members of the territories committee.

Timber Lands.

In the senate today Patterson objected to consideration of the house bill granting authority to the interior department to sell timber land in New Mexico in tracts of 25,000 acres, and granting Maricopa county, Ariz., authority to issue bonds for an irrigation project. Patterson's speaking of the objection later, said that as the territories would undoubtedly be admitted as states early next session, the questions involved in the bills objected to should be held for settlement by them.

The senate today passed the house bill adjusting the rights of settlers on the Navajo Indian reservation, and providing that patents shall be granted settlers for lands occupied by them on the reservation prior to the executive order of January 6, 1889, extending the boundaries of the reservation.

STABBED WITH SHEARS.

Sensational Suicide and Attempted Murder at Juarez.

Crazed by jealousy Jose Velasquez yesterday attempted to kill his wife and then killed himself.

The tragedy occurred in Juarez in the rooming house of C. Contreras, situated in the rear of the customs house. The woman used was a widow, Velasquez, the woman in her right arm. Her cries attracted people in the vicinity. When he saw that his murderous attempt would be frustrated he turned on the scissors in his hand and plunged them into his breast.

A policeman arrived on the scene, seized him and started with him to the car. Before they had gone many steps Velasquez fell upon his face, blood gushing from his wounds. He expired within a few moments afterward.

His funeral took place at 4 o'clock this afternoon.

The suicide was a photographer and recently came from California to Juarez to change in the photograph business. He was a man of about 40 years and of prepossessing appearance. Gossipers it is alleged, around his labors by telling him that his wife was receiving attentions from other men. She was taken to the Juarez hospital, and is not seriously injured.

—El Paso Herald.

TWO INJUNCTIONS.

Another Move Made in the Brewery Company Cases.

Another suit was brought this morning in the case of Harry Rankin et al. to enjoin the Southwestern Brewery & Ice company. The first injunction asked is to restrain the company from making any purchases of ice machines which will cause the ineffectiveness of the company to exceed the amount of paid in capital stock. An order is also asked to restrain the majority of directors from holding a meeting to complete any such contract. The court will hear arguments later.

A suit was also filed by Mary A. Cardin, widow of James S. Cardin, who died in Denver, June 1, 1901. She now lives in Spokane, Wash., and the other heirs are her two daughters, Margarita A. Cardin, 13, and Ruth, aged 10. A part of the estate consists of two lots in this city and a tract of land in San Diego canyon, near Jones Hot Springs. These she wants to sell.

A GOOD BOY SUICIDES.

Samuel Martinez Was His Name and He Blew Out His Brains.

The young man, about 20 years old, named Samuel Martinez, who disappeared from his home at Holman on the 17th inst., committed suicide at Taos, N. M., on the 19th by blowing out his brains with a 38 calibre revolver. His motive for taking his own life is not known by his parents. He was a good boy, of a very quiet disposition and nobody ever dreamed he would do such a rash act. His father, Antonio Martinez, his mother and two married sisters live at Holman and are well known and respected people. Samuel was the youngest of the family and unmarried.

New York Teachers.

Saratoga, N. Y., July 2.—Convention hall was filled to overflowing at 10 o'clock this morning when the forty-seventh annual meeting of the New York State Teachers' association was called to order by the president, Henry P. Emerson of Buffalo. After the address of welcome and responses had been delivered the convention listened to addresses by Prof. Paul H. Hanus, of Harvard university, on "Some Essential Characteristics of Good Teaching," and by Mrs. Anna Eggleston Friedman, of Buffalo, who took as her subject "The Life and Work of Col. Francis W. Parker." This afternoon the convention divided into sectional conferences for the consideration of matters pertaining to various lines of

educational work. Professor Edmund J. James, of the University of Chicago, is one of the prominent educators on the program. This evening officers for the coming year will be chosen tomorrow.

NEW MAINE.

Unofficial Trial Trip of the New Battleship.

Philadelphia, Pa., July 2.—About 9 o'clock tomorrow morning the Maine, one of the most powerful battleships ever built for the United States navy, will leave her dock in Cramp's shipyard for her builders' trial trip. She will be under the general supervision of Edwin S. Cramp, with James A. Clamplitt as pilot. The trial spin will be over the builders' course, which extends twenty-one miles from the Delaware capes to the Southwest lightship, eleven and one-fourth miles from the Southwest lightship to the Northeast lightship, and twenty-one miles from the Southwest lightship back to the capes.

Her trial will be made to determine how well she steams, whether her machinery works smoothly and approximately what her speed is. That she will meet and exceed the requirements of the contract is regarded as a certainty by naval experts who have closely watched her progress from the time her keel was laid. During the trip she will be manned by a crew of 250 picked men from Cramp's yards. The conditions under which this trial will be made will differ to some extent from her government trial this fall, inasmuch as she is not now in a finished condition. She is designed to have a speed of eighteen knots an hour, which is considerably in excess of the speed of the Alabama and other crack battleships of the navy. That she will do even better than her contract speed there is no doubt. In fact, it is believed that she will have plenty to spare along this line.

Much sentiment is attached to this huge fighting machine, named after the original Maine, which was destroyed in Havana harbor more than four years ago. The keel was laid February 15, 1898, one year after the destruction of her namesake. In size and armament the new vessel is vastly superior to the old. The old Maine was a second class battleship, built in the New York navy yard. The new one is a first class battleship of 12,500 tons displacement. Her main battery will consist of four twelve-inch guns, and her secondary battery will be twelve six-inch guns. The new ship is fifty feet longer than the old Maine, her engines will have an indicated horsepower of 16,000 as against 9,250 of the old ship. Her armor is twelve-inch "Krupps" as against the twelve-inch Harveyized steel used on the old ship, and her coal bunkers carry 2,900 tons, giving a steaming radius of 10,000 knots at a cruising speed of ten knots an hour.

Gideons at Cedar Rapids.

Cedar Rapids, Iowa, July 3.—In the hotels and other public places of Cedar Rapids were seen today many strangers wearing in the lapels of their coats peculiar buttons. Upon the button was engraved a white pitcher out of which projected a flaming torch. The button is the insignia of the Gideons, or Christian Traveling Men's association, and the wearers are members of the order who have gathered here for their third annual national convention. The meeting formally opens tomorrow and continues through Sunday. Wisconsin, the birthplace of the order, Illinois, Minnesota, Iowa, Nebraska, Michigan and a number of other states, have sent delegations. Reports to be presented to the convention show that the membership is increasing by leaps and bounds, and the order is expected soon to have a following in every state and territory of the union.

Pennsylvania Teachers.

Pittsburg, Pa., July 2.—More than fifteen hundred teachers are here attending the forty-seventh annual session of the Pennsylvania State Educational association. Nearly every city and town in the state is represented, and it is said to be the largest meeting ever held by the association.

The opening session in the Alvin theatre this morning was begun with a prayer by the Rev. H. H. Harlin, of the Fourth United Presbyterian church. Reverend J. O. Brown, W. H. McKelvy, president of the Central board of education, and Samuel Andrews, superintendent of city schools, delivered addresses of welcome. Responses on behalf of the visitors were made by Dr. O. L. Waller, principal of the Indiana State Normal school; Superintendent L. E. McGinnis, of Steelton, and President Henry T. Spangler, of Urbana college. Following these formalities there were papers and discussions in which leading educators from various parts of the state took part.

The program for the evening session includes the presidential address by Dr. J. P. Fickinger and an address by President Chas. E. Tawney, of Western Reserve university.

Town Wiped Out.

La Grange, Ind., July 2.—The town of Shipshewer in the northwest corner of Indiana county, was nearly wiped out by fire early today. Seven business places, a bank and the postoffice being destroyed. The loss is heavy and only partially insured.

Delegate Redey's Return.

Her Frank A. Hubbell has telegraphed to Delegate Redey to ask the exact date of his return with the idea of giving him a reception. Mr. Redey sent the following telegram to Mr. Hubbell yesterday:

"Congress adjourned today. The nation knows the territory better than it ever did before."

Odd Fellow Officers.

The Odd Fellows last night enjoyed a banquet, good music and a pleasant evening. It was to celebrate the installation of the following elective officers by Deputy S. Vann:

Harry Strong, N. G.; H. E. Fox, V. G.; O. W. Pillsbury, secretary; H. Brockmeyer, treasurer; S. T. Vann, S. P. G.

A new car shop 24x100 feet in dimensions is among the contemplated improvements to be made by the Santa Fe at La Junta. The material has already arrived, and work is to be commenced at once.

General Manager Avery Turner, of the Pecos valley road, is also authority for the statement that the Santa Fe road will soon commence the construction of the cut off from some point on the Pecos Valley road to Albuquerque. This is an important piece of work for the company and will put that section in much closer connection with the territorial metropolis.

An express fare of \$8 per ticket is charged on the new twenty-four trains between New York and Chicago. There seems to be a question as to whether rebates should be paid passengers when the trains are late. If they are to be paid, many of the passengers would have something coming to them at the end of their journey during the severe winter time when most all trains are delayed.

The Carlisle Argus says: It is learned on positive authority that C. B. Eddy is not interested, directly or indirectly, in financing the proposed branch railway from Roswell to Torrey, connecting the Pecos Valley with the El Paso & Rock Island. This news is to be regretted, both for Roswell and the entire valley's sake, for has Mr. Eddy taken the matter in hand it would have been pushed to a speedy and successful termination.

The Rock Island has formulated plans to enter St. Paul and Minneapolis and actively compete for the traffic between the twin cities and Chicago. The absorption of the Burlington, Cedar Rapids & Northern will be completed in a few weeks, and in advance of the Rock Island's entrance into St. Paul and Minneapolis over its own tracks it will put its agents into the field to secure a larger share of the business than it has been getting heretofore.

NEW MAINE.

Unofficial Trial Trip of the New Battleship.

Philadelphia, Pa., July 2.—About 9 o'clock tomorrow morning the Maine, one of the most powerful battleships ever built for the United States navy, will leave her dock in Cramp's shipyard for her builders' trial trip. She will be under the general supervision of Edwin S. Cramp, with James A. Clamplitt as pilot. The trial spin will be over the builders' course, which extends twenty-one miles from the Delaware capes to the Southwest lightship, eleven and one-fourth miles from the Southwest lightship to the Northeast lightship, and twenty-one miles from the Southwest lightship back to the capes.

Her trial will be made to determine how well she steams, whether her machinery works smoothly and approximately what her speed is. That she will meet and exceed the requirements of the contract is regarded as a certainty by naval experts who have closely watched her progress from the time her keel was laid. During the trip she will be manned by a crew of 250 picked men from Cramp's yards. The conditions under which this trial will be made will differ to some extent from her government trial this fall, inasmuch as she is not now in a finished condition. She is designed to have a speed of eighteen knots an hour, which is considerably in excess of the speed of the Alabama and other crack battleships of the navy. That she will do even better than her contract speed there is no doubt. In fact, it is believed that she will have plenty to spare along this line.

Much sentiment is attached to this huge fighting machine, named after the original Maine, which was destroyed in Havana harbor more than four years ago. The keel was laid February 15, 1898, one year after the destruction of her namesake. In size and armament the new vessel is vastly superior to the old. The old Maine was a second class battleship, built in the New York navy yard. The new one is a first class battleship of 12,500 tons displacement. Her main battery will consist of four twelve-inch guns, and her secondary battery will be twelve six-inch guns. The new ship is fifty feet longer than the old Maine, her engines will have an indicated horsepower of 16,000 as against 9,250 of the old ship. Her armor is twelve-inch "Krupps" as against the twelve-inch Harveyized steel used on the old ship, and her coal bunkers carry 2,900 tons, giving a steaming radius of 10,000 knots at a cruising speed of ten knots an hour.

Gideons at Cedar Rapids.

Cedar Rapids, Iowa, July 3.—In the hotels and other public places of Cedar Rapids were seen today many strangers wearing in the lapels of their coats peculiar buttons. Upon the button was engraved a white pitcher out of which projected a flaming torch. The button is the insignia of the Gideons, or Christian Traveling Men's association, and the wearers are members of the order who have gathered here for their third annual national convention. The meeting formally opens tomorrow and continues through Sunday. Wisconsin, the birthplace of the order, Illinois, Minnesota, Iowa, Nebraska, Michigan and a number of other states, have sent delegations. Reports to be presented to the convention show that the membership is increasing by leaps and bounds, and the order is expected soon to have a following in every state and territory of the union.

Pennsylvania Teachers.

Pittsburg, Pa., July 2.—More than fifteen hundred teachers are here attending the forty-seventh annual session of the Pennsylvania State Educational association. Nearly every city and town in the state is represented, and it is said to be the largest meeting ever held by the association.

The opening session in the Alvin theatre this morning was begun with a prayer by the Rev. H. H. Harlin, of the Fourth United Presbyterian church. Reverend J. O. Brown, W. H. McKelvy, president of the Central board of education, and Samuel Andrews, superintendent of city schools, delivered addresses of welcome. Responses on behalf of the visitors were made by Dr. O. L. Waller, principal of the Indiana State Normal school; Superintendent L. E. McGinnis, of Steelton, and President Henry T. Spangler, of Urbana college. Following these formalities there were papers and discussions in which leading educators from various parts of the state took part.

The program for the evening session includes the presidential address by Dr. J. P. Fickinger and an address by President Chas. E. Tawney, of Western Reserve university.

RAILWAY MILEAGE.

An Interesting Article Showing Railroad Progress.

NEW MEXICO TO FRONT.

The Citizen has received the advance sheet from the Railway Age, of Chicago, giving some interesting data regarding railroad building in the United States. The following is of general interest, showing New Mexico to be up among the big leaders:

"The railway mileage of the United States has passed the 200,000-mile mark. The figures at the close of 1901 were approximately 199,525 miles, and the construction for the first six months of 1902 brings this total up to 201,839 miles, the track laid during the first half of this year on 155 lines aggregating 2,314 miles. This is nearly 500 miles in excess of the new mileage for the first six months of 1901, when 1,917 miles were built. The total for the twelve months last year was 5,222 miles, and if the same ratio is maintained this year it will readily be seen that the construction for the year 1902 will easily exceed 6,000 miles. Track laying thus far this year has been distributed throughout forty-one states and territories, the following states reporting no new mileage, although lines are under construction in all of these with the exception of two or three New England states: New Hampshire, Massachusetts, Rhode Island, New Jersey, Delaware, Wyoming, Nevada and Idaho.

Texas shows the largest new mileage, with 230 miles; Oklahoma and the Indian Territory are tied for second place with 211 miles each, and New Mexico is fourth with 190 miles. Other states showing 100 miles or over are: Arkansas, 126 miles; Georgia, 125 miles; Louisiana, 192 miles; and Illinois, 161 miles. Florida being near the 100-mile mark with 97 miles to her credit.

While the new mileage is widely distributed, the greater portion of it is located in the southwest, the five states and territories of Arkansas, Texas, New Mexico, the Indian Territory and Oklahoma Territory contributing no less than 984 miles. The eight states and territories which are usually classed as southwestern states have built 1,143 miles of new line, which is nearly half of the mileage for the entire country. Other groupings are as follows: New England states, 21 miles; Middle states, 121 miles; Central northern states, 190 miles; South Atlantic states, 287 miles; Gulf and Mississippi Valley states, 191 miles; Northwestern states, 183 miles; Pacific states, 172 miles. The states west of the Mississippi river have built 1,613 miles, and states south of the Ohio and east of the Mississippi 380 miles, making a total of 1,993 miles of new line completed in the states south of the Ohio and west of the Mississippi river.

"The work of grading is being pushed on several thousand miles of new lines in various sections of the country, and track laying is just commencing or will begin during July in many places. A good many lines report difficulty in securing rails and this is the only thing that will prevent the completion of 5,000 miles or over of new road during the calendar year 1902."

STENOGRAPHY CLASS.

Of the Agricultural College are in demand.

Miss Little Fountain, of Mesilla, who completed the work in English and Spanish stenography at the college during the past year, left last week for Chihuahua, Mexico, to take a position as English-Spanish stenographer with the copper company there at a salary of \$100 a month, gold, save the Las Cruces Progress. Nearly all the students of the stenography class of the year just closed have already taken positions, including the following: Miss Alice Stanley, with the American bank, Mexico City; Miss Florence Dennis, with the Mexican Central railroad, Mexico City; Miss Laura Davis, in Santa Fe, N. M.; George Horton, at Zacatecas, Mexico; George V. Howard, with the packing house at Chihuahua; Rafael Calderon, a stenographer to the superintendent of the Mexican Central railroad, Chihuahua; Ricardo Hernandez, with Ketchikan & Douglas, Parral, Mexico; Charles Everett with the same railroad at Jimenez, Mexico; S. C. Hume, at Orizaba, Mexico; Lawson Lowe, with the Santa Fe railroad at El Paso; N. C. Flint, with M. Camp at Hatch, N. M.; Miss Johnson will leave in a week or two for a position in the City of Mexico, and others are expected to take positions within a few days. The stenography department is doing a good work in placing these young people on the high road to a successful business career.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on the box. 25c.

McMILLAN'S ACCUSER.

Elfege Baca Pretty Well Known Himself.

Elfege Baca, the attorney who recently had a little to do with Judge McMillan at Socorro, is now working with a vengeance trying to secure some evidence in support of his charges against the judge, but it is understood he is meeting with but little success. The people of the district realize that his suddenly developed animosity to the judge is the result of a personal grievance and inspired by selfish motives and are not inclined to take any stock in the matter. This is as it should be, if Baca is sure of his grounds why don't he prefer charges against the judge himself instead of trying to bring disinterested parties into the controversy as he is endeavoring to do?—Captain Progress.

Lawyers Listen to Addresses. Lexington, Ky., July 3.—Members of the Kentucky State Bar association, in annual session here today, listened to the reading of papers as follows: "Restraints Upon Alienation of Real Estate, with Especial Reference to the Kentucky Decisions," by C. M. Lindsay, of Louisville; "The So-called Political Deliverances of the Court of Appeals of Kentucky," A. P. Humphrey,

of Louisville; "The Glorious Uncertainties of the Law," Hon. C. U. McElroy, of Bowling Green. The convention, which has been a decided success, comes to a close with a banquet at the Phoenix hotel tonight.

DELEGATE RODEY.

Pleads for the Retention of "Drift" Fences.

A special dispatch to the Denver Republican, from Washington, July 1, says: Delegate Rodey, of New Mexico, had a conference with President Roosevelt this morning to present the side of the cattlemen in the western land grazing cases.

The secretary of the interior has ordered the taking down of fences erected on public lands by cattlemen, enclosing large areas for their private use. The cattlemen have ordered the temporary withholding of the official order so far as "drift" fences are concerned. These are barriers erected at distances of about twenty-five miles, to prevent great herds from wandering beyond their accustomed grazing grounds.

Mr. Rodey's request on behalf of his constituents will be taken under consideration, but no official assurance could be given him that enforcement of Secretary Hitchcock's order would be delayed. However, on the plea that great hardship would result to large interests involved if the law should be literally and immediately enforced, Delegate Rodey's request may secure favorable action.

Ward's Murder Is Averted.

Henry Ward, murdered last week in the Sierra Madre, has been avenged.

Punishment of the two laborers who shot and robbed their employer was swift and sure.

They were followed by a posse of mining men and overtaken in the mountain wilds, ten miles away.

The murderers refused to surrender, and the officers shot and killed both the men on spot notices. They only found \$7.50 in cash on the person of the two men. It is not known what they did with the money they took from Ward.

Henry Ward was well known in Northern Chihuahua and New Mexico. El Paso News.

Frank James Dead.

Frank James, the ex-outlaw, is dead. He passed away last week from a natural cause at his home in Carthage, Mo., and a dispatch to the St. Louis Post-Dispatch describes Carthage as deep in mourning with all business suspended. On the day of James' funeral, his brother Jesse, the leader, met his fate a great many years ago. Bob Ford, the man who killed Jesse James, ran a saloon on Bridge street, Las Vegas, a dozen years ago or more, later going to Colorado, where he was killed in a saloon brawl.

Toronto Summer School.

Toronto, Ont., July 3.—With a view to giving teachers some elementary instruction in certain departments of technical education, a summer school, under the direction of the minister of education, opened at the Toronto normal school today. The course of study embraces manual training, domestic science, nature study, drawing and music.

Odd Fellows' Reunion.

Locustport, Ind., July 3.—The ninth annual reunion of the Fifth regiment of Patriotic Militant Order of Odd Fellows of Indiana opened today in Spencer Park on the banks of Red river. One of the chief features of the three days' program will be the competitive drill in which cantons from Indianapolis, Elwood and other cities of the state will take part.

Steamer Service to Brazil.

New York, July 3.—The new steamship service between New York and North Brazil was inaugurated today with the sailing of the steamship Huron. The service is operated by the Hamburg-American company.

George E. Briggs and wife are here from Harrow, Texas, and will remain a few days.

Grand picnic, ball and exhibition at Badminton's summer garden on July 4. Everybody invited.

After a stay of a few weeks at the Camp Whitcomb resort, Miss Single returned to the city yesterday.

The Spanish-American War Veterans' booth camp, will hold an important meeting this evening over Zeiger's Cafe at 7:30 p. m.

Regular meeting of Degree of Honor at 7:15. All members requested to be present. By order of the C. of H. Etta B. Allison, recorder.

Regular meeting of Albuquerque tent No. 1, K. O. T. M., will be held this evening in K. of P. hall at 8 p. m. B. Ruppe, commander.

Policeman Frank Rossi and family left this morning for the mountains, where they will rest up from the city heat and dust for a short time.

Rev. Mr. Renison will deliver an address tonight at the Lead Avenue Methodist church. All are invited to attend. Service begins at 8 o'clock.

The Elks who are going to the Silver City celebration and Elks carnival will leave this city tomorrow evening at 11 o'clock p. m. in a special sleeper.

After a rest of a week, George L. Hopping, formerly of the job printing firm of Hopping & Vorhes, will take back his old position at the Journal-Democrat.

It is reported that The Citizen office this afternoon that F. W. Hamm, a bookkeeper at the Phoenix store, is better today. He is confined to his bed with pneumonia.

Ten Indian boys and girls who attended the Phoenix, Ariz., Indian school, were brought to the city this morning by J. R. Abner, and from here will go to their various homes.

Judge Benjamin S. Baker will be one of the Elks base ball team at Silver City. He will do the coaching for the team, and will help do all the necessary kicking at the umpire.

Mrs. W. N. Withrow is dangerously ill at No. 115 South Arno street. Last night her brother, Dr. Harvey Spangler, arrived from St. Johns, New Brunswick. The visitor is an osteopath.

Herman Bluecher and others, of a party which left here last Friday for

the Ellis ranch near Bernalillo, returned to the city last night. Mrs. Korber, Alberts and others remain at the ranch.

D. D. Graham, the government farmer at the Zuni village Indian school, came in from the west last night, and left this morning for the east, where he will visit and enjoy a needed recreation for a few weeks.

Capt. A. B. Fitch, of the Graphic mine and smelter, who is thoroughly well known in central and southern New Mexico, came in from the south this morning and continued north to Cerrillos, where he goes to look over the smelter of that town.

News reaches the city that J. Fred Fleischner, formerly of this city, but recently employed in the store house department of the Santa Fe Pacific at Needles, has resigned his position at that place and will return to Albuquerque in the near future.

S. D. Anderson, who spent the past three months as the guest of his sister, Mrs. A. W. Hayden, and husband, left last night for his home in Boston, Mass. It is understood that when Mr. Anderson returns in the fall he will be accompanied by his family. He is a thorough carpenter and contractor.

J. A. Beal, who enjoyed his vacation on the Pacific coast, visiting San Francisco and the resorts of southern California, returned to the city this morning, and he reports having had a fine time. Mr. Beal says the sun at the beach did him lots of good, and he feels as lively as a young Jayhawker direct from the wheat fields of Kansas.

Mayor Ernest Meyers, one of the Elks' base ball players, who was down to alternate as pitcher and catcher in the Silver City game on July 4, telephoned to The Citizen office at noon today that he cannot make the trip to Silver City, but that his partner, D. J. Abel, who is a world famed pitcher and catcher, has been substituted and will be ready to make the trip to Silver City tomorrow night.

W. Q. Fawcett, a well known contractor and builder of Captain, with his wife and son, arrived here yesterday, overland, and for a few days will be the guests of Mr. and Mrs. O. H. Scott. Mr. Fawcett is driving overland, and on leaving here will proceed to Trinidad, Colo., where they will visit for a few weeks and then return overland to Captain. En route to this city the Fawcetts have subsisted on game and all have enjoyed the finest kind of health.

BIG SHOE STRIKE.

Employees of Four Big Factories Refuse to Work.

Burlington, N. J., July 3.—Four of the seven shoe factories in Burlington are idle today because of a strike of 700 employees which is expected to extend to the remaining three establishments tonight. The plants affected are the Bud Baby Shoe company, said to be the most extensive manufacturers of baby shoes in the world, R. T. Wood & Co., the Standard Shoe company and the Eastman Shoe company. The seven factories employ more than 1,500 men and women. Shoemaking is the principal industry of Burlington.

The strike is the result of a notice announcing that when the works are reopened next Monday none but union men will be employed. The strikers assert the recent scale of wages has been reduced gradually until now they are receiving 50 per cent less than ten years ago. In consequence of this reduction they joined the union for the purpose of securing better conditions. They have, however, made no demands on the manufacturers.

MORE SERIOUS.

Carbuilders, Blacksmiths and Helpers May Join the Machinists.

Ogden, Neb., July 3.—The strike of machinists and boiler-makers on the Union Pacific railroad took on more serious proportions today when the carbuilders, blacksmiths and helpers, numbering 225 men, declared themselves as opposed to the piece work system being inaugurated in the shops. A week ago it was announced the carbuilders had settled their differences, but they declared they would not mention piece work. If the company insists on enforcing the new system, it is probable the carbuilders, blacksmiths and helpers will join the strikers.

PHILIPPINE AFFAIRS.

Civil Government Now Operating Over All Civilized Peoples.

Washington, July 3.—Secretary Root has received the following from Acting Governor Wright of the Philippines: "A provincial government was inaugurated in Laguna July 1, thus completing the establishment of civil government over all civilized people of the archipelago. Acceptance of American authority and general pacification is complete."

Final Instructions.

Rome, July 3.—Judge William H. Taft, civil governor of the Philippine islands, today received a long cablegram from Secretary Root, containing the department's final instructions concerning the note relating to the disposition of the friar's lands in the islands, which was drawn up here Tuesday. This afternoon Major Porter delivered the note to Cardinal Rampolla, the papal secretary of state.

MANY IMPROVEMENTS.

Contract Let for an Addition to St. Mary's.

Yesterday the contract was let by Architect J. A. La Driere to Wallace Hechelsden for a substantial two story brick addition to the Immaculate Conception school, commonly known as St. Mary's. On the first floor of the new part will be three large class rooms, and a library and separate quarters for boys and girls. The second floor will consist of a hall almost as large as Colombo hall with stage and furniture. The new building will be 90x38. The plans show an unusually light building with the latest improvements in heating, plumbing and ventilation. It will be finished soon after school opens in the fall. Next year the school will admit boys and girls of all faiths.

The southern Pacific has reduced passenger fares in Oregon from 4 to 3 cents per mile.

CRUSHED UNDER CAR.

E. C. Weidner Met a Horrible Death This Afternoon.

WAS REPAIRING CAR.

The Citizen is called upon this afternoon to chronicle the death of E. C. Weidner, which occurred this afternoon at 1:45 o'clock under extremely sad circumstances.

Mr. Weidner was in the employ of the car repairing department of the Santa Fe railway at the local shops, and a few moments before his death was at work on a coal car on track No. 6. The trucks had been removed and the car was receiving a thorough overhauling. The car was held up by tripods and jacks, when it slid off, the end of the car at which Mr. Weidner was at work catching him underneath.

A few seconds later the accident was observed by other workmen and they rushed to his assistance. The car was jerked back on the tripods and the unfortunate man, unconscious and dying, was tenderly lifted from beneath the car.

Dr. Wroth was hurriedly summoned, and when he arrived, about fifteen minutes after the accident, Mr. Weidner was pronounced dead and the body was then moved to the undertaking parlors of O. W. Secord & Sons.

The left side of the body, from the neck down shows many bruises. Dr. Wroth states that the ribs on this side of the body were all crushed in and the back broken. It is also the opinion of the doctor, without giving the remains a thorough examination, that the neck was also broken.

A telegram was sent to his daughter, Mrs. J. J. Jackson, of Union City, Ind., informing her of the tragic death of her father; also to Judge H. H. Ribble, who is an uncle of Mr. Weidner and who is at present at San Diego, Cal. Telegrams have also been sent to Fort Wayne, Ind., relatives.

The deceased was one of the oldest employees of the Santa Fe railway company, and before taking the position as a car repairer at the shops here, for years held several important positions in the train service on the road running west from this city. He was considered a trustworthy, thorough employee, and his tragic death, without a moment's warning, will be mourned by a host of friends, and the sympathy of the whole town will go out to the bereaved wife, who is now almost prostrated at her home on South Fourth street, near Leard avenue.

The deceased was a Mason in High standing, belonging to the Knights Templar, Royal Arch chapter and Blue lodge. Mr. Weidner recently sold his Gold avenue property to T. A. Whitten and, it is understood, that he and wife had arranged to leave the city in a very short time, probably August, to visit their daughter at Union City, Ind., and then take up their future home at Fort Wayne, Ind.

Owing to the condition of the wife, Mrs. Weidner, who is still in the city, the Citizen is unable to state what a condition will be made of the remains, but it is thought by intimate friends of the family that the body will be taken to Fort Wayne, Ind., for permanent burial.

RAIN AND WIND.

Great Damage Wrought in Both Michigan and Illinois.

Grand Rapids, Mich., July 3.—A tremendous downpour of rain early today which amounted almost to a cloudburst, wrought great damage throughout southwestern Michigan. The fruit crop suffered tremendous losses. Wires are down to the north-west, where the storm was most severe and information is meager. All railroads running out of Grand Rapids except the Pere Marquette east, are tied up by washouts and damage to wires and trolleys. The Grand Rapids & Indiana passenger train was wrecked by a washout at Belmont and the engineer was seriously injured.

What Detroit Says.

Detroit, Mich., July 3.—A rainstorm of continental proportions swept over the lower peninsula last night and early today, doing tremendous damage. Crops suffered severely and there are numerous washouts on the railroads. Trains are late on all roads. In the southwestern part of the state the storm assumed the proportions of a tornado and several persons were fatally injured in wrecks of houses and barns. Great damage was done in western Michigan to fruit crops. At Flint the rainfall caused Swartz and Threlkeld to overflow and the southern portion of the city was flooded. Several factories on the bank of the river were submerged. The Flint river is also out of its banks and the Lewis paper mill is under water and in danger of being swept away. Two bridges across the river are in danger. Post Huron is without means of transport in or out of the city, the railroads and interurban lines being tied up by washouts. The southern portion of Grosse Ile is flooded and the damage will be heavy there. The total loss will aggregate nearly \$100,000. In Rochester the foundations of the Western Knitting mill are washed out. Other buildings are damaged and the power house of the Detroit United railway is threatened. The river is higher than ever known before.

Twelve Injured.

Kankakee, Ill., July 3.—High wind storms in the neighborhood of Monmouth last night and early this morning blew down several barns and railroad buildings and injured twelve persons. None are reported fatally hurt.

OBJECTED TO PIECE WORK.

Strike May Be Called on the Baltimore & Ohio.

Chicago, Ill., July 3.—A strike of the 700 machinists employed at the Baltimore & Ohio shops will be called unless the company abolishes the piece work system, is the statement made today by Business Agent Roderick, of the railway branch of the International Association of Machinists. The union demands a minimum scale of 30 cents an hour.

The Cotton Crop.

Washington, July 3.—The monthly report of the statistics by the department of agriculture will show the av-

erage condition of the cotton on June 25 to have been 84.7, as compared with 84.1 in 1901. With the exception of North Carolina and Virginia every cotton producing state shows a decline during the month, the decline being greatest in Texas, where it amounts to 22 points.

AT THE NEXT SESSION.

Payne Believes Congress Will Act on Cuban Reciprocity.

Washington, July 3.—Chairman Payne of the house committee on ways and means today conferred with President Roosevelt in regard to Cuban reciprocity. Upon leaving the executive quarters, Mr. Payne said he was satisfied reciprocity with Cuba will be effected at the next session of congress with an almost unanimous vote in both houses.

Trackman at Santa Fe.

Albert Trackman, who had been in Santa Fe several days cleaning clothes, left yesterday after selling some of the clothes which had been given him to clean. He was located at Cerrillos and John V. Conway last evening swore out a warrant for his arrest. Deputy Sheriff Delgado went down to make the arrest—New Mexico.

This fellow, Albert Trackman, is thoroughly well known here as a very worthless cuss, and has been up before the police court on several occasions for drunkenness and wife beating. He should be passed around as a dangerous individual and promptly kept on the move from every town he visits.

Mrs. Stockton Dead.

A few weeks ago The Citizen mentioned the fact that, on account of religion, Mrs. Mannelita Baca de Stockton, wife of R. M. Stockton, a farmer of Belen, had gone crazy. The woman was brought to this city and adjudged insane by Judge Baker. She was taken to the insane asylum at Las Vegas, and on June 18 she died. The body was sent to Belen, where burial took place this afternoon. The deceased was 45 years old, and leaves a large circle of relatives and friends.

The King's Condition.

London, July 3.—The following bulletin on King Edward's condition at 10 o'clock this morning was issued from Buckingham Palace:

"The king slept well. Nothing occurred to mar the excellent progress his majesty is now making."

The following bulletin was posted at Buckingham Palace at 7 p. m.:

"His majesty had a comfortable day. His condition is still further improved, and the wound now causes comparatively little pain."

A Hartford Fire.

Hartford, Conn., July 3.—Fanned by a brisk wind, the fire that started early this morning in the big plant of the Cape Well Horse Nail company spread rapidly and soon destroyed the entire plant. The loss is estimated at between \$300,000 and \$400,000, which is nearly covered by insurance.

Su Wah Still Here.

Su Wah, the Chinaman, is still in the city. Telegrams have been received from the Southern Pacific refusing to transport him and this makes it impossible to take him to San Francisco. Further instructions were asked from Washington. The department's instructions have thus far been of little avail and the next contribution is anxiously awaited.

The Smelter Proposition.

The committee of the Commercial club which was appointed to investigate the smelter proposition reported last night that more time was necessary. No action was taken and the committee was continued.

George C. Ellis, proprietor of Ellis' ranch, is in the city. He says there is lots of water and shade at his place, which is being absorbed by a good many of Albuquerque's best citizens, who are taking their outings at his place. Mr. Ellis' son, Angle, killed a large black bear near their place last week and expects to kill another soon. Mr. Ellis will be in town two or three days.

Mrs. W. M. Wenner and son, of Gallup, who stopped over here for a few days, have continued on their trip to Pueblo, Colo., where they will reside in the future. Mr. Wenner being there in the employ of the Colorado Fuel and Iron company.

You Know What You Are Taking.

When you take Grove's Tasteless Chilli Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay. 50c.

Ten men are now working in the Fletcher & Rosenwald cigar factory. As the Fourth of July is near at hand, Mayor Myers asks the citizens to clean up their premises of all inflammable stuff.

Seventy-five native Indians, picked up in the valley, left this morning to work on the Santa Fe railway on the section north of Trinidad.

Tomorrow morning, attorney A. B. McMillen, wife and children, accompanied by Mrs. E. P. Nelson and daughter, Miss Euphemia, will leave for an outing of a few weeks on the Rio Pecos.

It is stated today that Joe Barnett is expected home from California either tonight or tomorrow morning, when it is thought the difficulty arising out of the wreck of the B. Ruppe drug store will be amicably settled.

Yesterday, Gus Thelin, of Thelin brothers, sheep raisers, sold to the Albuquerque auctioneer a little over 12,000 pounds of wool. W. H. Hahn, of George A. Kaseman & Co., sheep raisers also negotiated the sale of 29,000 pounds of wool to Gross, Kelly & Co. These clips brought good prices.

July 4th the W. C. T. U. will hold a basket picnic for members and friends at the home of Mr. Pitt Ross on Barlas road. McSpadden's wagon will stop at the corner of Coal and Arno and at the west end of the viaduct from 9:30 till 10 to convey all who desire to go, returning there in the evening.

Jerome Malette, the efficient pharmacist of the B. Ruppe drug store, finished his week's lay off in time to put in some extra hours. Half an hour after the drug store was wrecked, Jerome was noticed busily engaged

in assisting Mr. Ruppe to get things in some shape for the reopening of business.

Luke Walsh has assumed charge of the Metropolitan saloon, corner of Railroad avenue and First street, as proprietor. David E. Strachan, who is also well known, will be one of the mixologists of the place. Mr. Walsh will conduct one of the best resorts in the city, and he will furnish regular free lunch.

L. M. Fee, the manipulator at the soda water fountain of J. H. O'Reilly & Co., expects his wife and three children, and other relatives to arrive tomorrow night from Springfield, Ill. Mr. Fee has rented a nice residence on the Highlands, and this city, for the time being at least, will be their home in the future.

Ed. S. Gleason, who, with others, recently secured a franchise for an electric street railway system in this city, writes to E. H. Mitchell that he will be here, accompanied by a well known New York civil engineer and surveyor, in a few days when work will be commenced on the street railway as soon thereafter as possible.

Judge T. C. Gutierrez is in the city from his ranch home a few miles up the river. When asked regarding the report of the terrible treatment of Manuel D. Gonzalez by a party of San Felipe Indians and his subsequent death, Mr. Gutierrez stated that he had heard the report but could not, personally, substantiate the report as correct. He believed, however, that there must be something in the report, for the reason that the first rumor to reach him came almost direct from the San Felipe Indians.

ROCK ISLAND PROMOTIONS.

Two New Offices Are Created for Mr. Sebastian and Mr. Mather.

In addition to the announcement of the promotion of John Sebastian to be passenger traffic manager of the Rock Island, circulars have been issued announcing the appointment of Robert Mather to be general counsel of the Rock Island in addition to his duties as second vice president.

It is understood that the changes in the titles of these two officials have been made to provide for their general oversight over the lines of the various roads recently acquired by the Rock Island and now a part of the Rock Island system.

John Sebastian is well known in Kansas, as he is all over the country. He was born in Covington, Ky., and formerly lived at Emporia. He is the inventor of the coupon railway ticket that is in use by practically every railroad in the world. Mr. Sebastian's father was a director in the Santa Fe, and he began his railway career as a clerk in the office of General Freight Agent M. J. Sargent at Topeka. He was later promoted to be chief clerk to W. F. White, of the passenger department. He later went to the Rock Island as a station agent and in 1894 was appointed to be general passenger agent.

Mr. Mather now outranks Mr. Low in the legal department. Heretofore they both had the title of general attorney.

Monument to a Patriot.

Sycamore, Ill., July 3.—The memory of Abner Powers, one of the few soldiers of the revolutionary war buried in Illinois, is to be honored by the unveiling of a monument at Lily City tomorrow.

Powers in 1776 enlisted in the colonial army as a drummer boy. In 1780 he served two years, then enlisted as a soldier and served in General John Stark's regiment. First New Hampshire Continentals. He had seven brothers in the war, and all came out unharmed. The monument to his memory is a tall shaft of Barre granite. It is inscribed with the names of the four engagements in which he participated—Barnston, Saratoga, Valley Forge and Yorktown.

Ocean Grove Will Celebrate.

Ocean Grove, N. J., July 3.—The Ocean Grove assembly will hold its thirty-second annual celebration of independence day tomorrow, and it promises to be as successful as any of the previous occasions. Bishop J. N. Phelan will preside at the exercises, which will be held in the Auditorium, and the oration of the day will be delivered by Congressman R. Wayne Parker.

Veterans of Late War.

Appleton, Wis., July 3.—Veterans of the Spanish-American war opened their first annual state encampment in Appleton today and the city is festooned with flags and bunting in their honor. Milwaukee, Ripon, Oshkosh, La Crosse, Beloit, Racine, Manitowish, Oconto, Fond du Lac, Sheboygan and other cities of the state are well represented among the visitors. The host of Charles O. Bauer camp, No. 28, are the hosts of the occasion and nothing is being left undone in the way of providing for the comfort and pleasure of the visitors.

Tomorrow will be the big day of the encampment. Governor La Follette, Governor Beardsley and other eminent visitors will be here and there will be a street parade, prize drills and other features.

Miles to Deliver Oration.

Philadelphia, Pa., July 3.—Lieutenant General Miles is to be the orator at the Fourth of July exercises in Independence hall tomorrow. He arrived in the city today and was received with distinguished honors. Besides the oration the exercises will include patriotic music by a military band and the reading of the Declaration of Independence.

The Fourth in Germany.

ARIZONA TOWNS

HOLBROOK.

From the Argus.
Julius Wetzler and Mrs. Fred Wetzler left for Los Angeles.
Dr. E. G. Decker, of Winslow, conducted services here Wednesday evening.

Wm. Scorse is down from Shov. Low, and says he is contemplating a trip across the Atlantic.
Judge F. J. Watron returned from Los Angeles. He reports his family well, except the two little girls, who are having a time with the whooping cough.

J. L. Driscoll, postoffice inspector, was here Wednesday. He informed us that Arizona had been placed in the Denver district, and that he would be transferred to California July 1.

Mrs. J. T. Lesueur and sons, Charles and Walter, of St. Johns, left for Denver, on an extended visit to relatives. J. T. Lesueur, who drove them down, returned home.

Mr. and Mrs. Dr. W. M. Ridd and three daughters came down from Flagstaff, where they had been attending the commencement exercises at the normal and left for their home at Springville. Miss Virginia was a graduate this year and the other two will attend another year.

No Longer than Your Hand.
is the sign in your back directly effected by lumbago. But it is not enough to prostrate you until some kind friend rubs Perry Davis' Painkiller into your aching flesh. Then the throbbing pain, which has been as bad as toothache dies away. Painkiller is equally good in relieving sciatica and the various forms of rheumatism. 25 and 50 cent bottles.

WINSLOW.

From the Mail.
Creswell Bros. are busy cutting their crop of alfalfa and expect to harvest about 100 tons.

Fred French has finished cutting his crop of hay and he expects the yield to reach something like 300 tons.

The La Prade ranch of 320 acres promises to yield an immense crop of hay at the first harvest this season.

Messrs. Noble & Blye have shipped ten cars of sheep, 2,500 in all, to Kansas City markets. Mr. Noble accompanied them to their destination.

Merritt Thomas, who has been doing the mechanical work on the Mail left for Denver. P. A. Skinner, of Albuquerque, has succeeded him.

E. A. Sawyer and E. J. Wolff, two prominent business men of this place, have returned from their sheep ranch and report that water on the ranges is becoming very scarce, and if rain does not fall shortly grass as well as water will not be as plentiful as it should be, but up to the present time all kinds of stock are doing nicely.

J. H. O'Reilly and C. W. Medler, of Albuquerque, representing the Washington Life Insurance company, were here this week. They did considerable insurance business and used their spare time talking up the territorial fair, to be held October 14 to 18. It is understood that arrangements will be made to have pay day come three or four days earlier to give the people from here a chance to attend.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

KINGMAN.

From the Miner.
Wesley Frazee and family passed through Kingman on their way from Chloride to Prescott, near which place Mr. Frazee will have a position with a mining company.

Mrs. Joseph Prisk came over from Chloride to meet her daughter, Mrs. Ellen German, who was about to depart for California. Mrs. German and husband have gone to Los Angeles, where they will reside in future.

Kingman school trustees have engaged the services of Miss Sarah Finley and Mrs. M. B. Eggers for the forthcoming term of school. These teachers gave excellent satisfaction last year and the trustees did the right thing in retaining their services.

Harry Williams, the genial manager of the Postal Telegraph company at this place, who has been ill for the past two months with an attack of rheumatism, returned home from California. He has improved very much and his many friends in Kingman are correspondingly pleased.

The people of Chloride have raised a large amount of money, which will be used in the proper celebration of the nation's natal day. A program has been made up and committees appointed to see that everything is carried out to the letter. Posters are being hung in every business house in Kingman and in fact all along the line of the railroad, advertising the events. The main thing of interest is the gun club shoot at which will participate "Needles, Marvel, Kingman and Chloride gun clubs. Needles club now holds the trophy, but Chloride hopes to take it at this meet.

WILLIAMS.

From the News.
P. G. Champagne, since the consolidation of the Deanda and De Mard lumber companies is now located at Maine—a change of late from Chandler.

Miss Susie B., daughter of Judge and Mrs. Joseph Johnston, who has been attending school at Albuquerque during the past winter, returned home for the summer vacation.

County Assessor J. H. Lind has paid to County Treasurer George Hoxworth for the present year the sum of \$11,414.37 taxes collected on real and personal property; also the sum of \$1,892.50 on poll taxes collected.

Mart Little visited in Prescott on business relative to his mining claims south of Peach Springs. The property consists of two groups of five claims each and the parties who took a year's bond will shortly commence work.

Nine young men who claim to be the Williams bull team went down to Winslow and got skinned to the tune of 26 to 7. Better practice a little more, boys, before making another

trip from home and before you can be recognized as the Williams base ball team.

Every voter in Williams must be newly registered prior to voting at the next election. The fact that a voter was registered for the last previous election cuts no figure. A new law, now in effect, requires the voter to register every two years.

August Landstrom and daughter, Leona, arrived from Los Angeles. The young lady has been attending the Southern California University during the winter. Amos, who has also been in Los Angeles for the past five months, receiving eye treatment, will probably not return for a month yet, as his sight is still in a precarious condition.

The Perfect Liver Medicine.

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at Cosmopolitan Pharmacy, R. Ruppel.

FLAGSTAFF.

From the Sun.
County Recorder Hibben reports 583 voters have registered to date. Of this number 424 register from Flagstaff and 159 from Williams precinct.

Wm. B. Kent, an expert forester, recently head ranger on the Black Hills forest reserve, has been transferred to Arizona as head ranger under Supervisor F. S. Brown.

E. S. Clark has formed a co-partnership with T. C. Jobs, of Prescott. Mr. Clark will live in Prescott and left Thursday for that place, and his family will join him next week.

Spice Holder, a sheepman of Tonto Basin, was here. He was one of the sheep owners who was indicted at the recent term of the United States district court at Prescott for trespass on the forest reserve. He gave bond for his appearance at the next term of court.

J. H. O'Reilly, general manager of the Washington Life Insurance company for New Mexico and Arizona with headquarters at Albuquerque, was in town. Mr. O'Reilly is also president of the Albuquerque fair, and is incidentally booming the big fair to be held in that city from October 14 to 18.

W. F. Dermont, manager of the Saginaw & Manistee Lumber company, and Wm. Weute, one of the directors of the company, from Saginaw, Mich., were in town. They paid the taxes of the Saginaw-Manistee Lumber company at a valuation of \$250 per acre, amounting to \$1,800. They made no objection to the rate and believed it to be a fair one as between the county and the company.

Seven years ago Godfrey Sykes sent to the London Graphic a sketch and a short narrative of the Moqui snake dance. The sketch was accepted and paid for at the time of its receipt. The January number of the Graphic contained a half page sketch and the descriptive article, and recently Mr. Sykes received the amount of shillings allowed for the latter. He is of the opinion that English publishers are just a little slow.

From the Gem.

J. E. Jones was appointed administrator of the estate of Lon Hill, deceased.

The registration of voters this year will be as large as usual, if not larger than any previous registration since the organization of the county.

Gus Reimer sold his entire bands of sheep, ranches, etc., to Campbell & Francis. Mr. Reimer has been in the sheep business for quite a number of years.

The reception at the normal school was a complete success in every sense of the word. Nearly every citizen of Flagstaff was present, as well as many from abroad. The program of music and recitations was good and the refreshments were excellent.

The entries in the base ball games at the Albuquerque fair this year are open to the world. That lets the Flagstaff team in as a purse of \$1,500 is given, why not our boys contest for it.

Cocooning will be a first class county as soon as the assessment for the present year is equalized. The assessment as it now stands foots up \$4,527,439.55. An equalized assessment of \$3,000,000 would place it in the list of first class counties.

"I am using a box of Chamberlain's Stomach and Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, justice of the peace, Loomis, Mich. These tablets not only correct disorders of the bowels but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by all druggists.

500,000 Immigrants.

New York, June 30.—There is no truer indication of national prosperity than the volume of immigration. As the conditions of prosperity in this country have become more and more pronounced during the last few years there has been a steady increase in the number of immigrants. Figures for the fiscal year ending today at

Experience Convinces.

Prove its value by investing 10 cents in trial size of Ely's Cream Balm. Druggists supply it and we mail it. Full size 50 cents. ELY BROS., 55 Warren St., New York, Clifton, Arizona, Jan. 20, 1899.

Messrs. Ely Bros.—Please send me a 50 cent bottle of Cream Balm. I and your remedy the quickest and most permanent cure for catarrh and cold in the head.

DINA M. PORTER, Gen. Mgr. Ariz. Gold M. Co. Messrs. Ely Bros.—I have been afflicted with catarrh for twenty years. It made me so weak I thought I had consumption. I got one bottle of Ely's Cream Balm and in three days the discharge stopped. It is the best medicine I have used for catarrh. Proberts, Cal. FRANK E. KIDDERPARK.

Ellis Island show that nearly 500,000 aliens have landed at this port, the present month alone bringing more than 50,000 from the various countries of Europe. A noticeable fact is the increase in the number of Italian arrivals, due in all probability to the unprecedented volume of railroad construction, which employs large numbers of the newcomers from King Victor Emmanuel's domain.

Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pains and general ill health, due primarily to indigestion," says L. W. Spaulding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of 76, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. J. H. O'Reilly & Co., B. H. Briggs & Co.

New Revenue Law.

Washington, July 1.—The amount of federal taxes paid by the people of the United States is lessened to the extent of about \$77,000,000 annually by virtue of the new revenue law which went into effect today. The new measure amounts to a virtual repeal of all the Spanish war revenue taxes except the tax on mixed flour. The duty on tea remains until January 1 next to enable those who have stocks on hand to dispose of them before the repeal takes effect.

With the going into effect of the new measure the war revenue tax is repealed on the following: Bankers, brokers, dealers in grain, securities, etc., pawnbrokers, custom house brokers, proprietors of circuses, theatres and other public exhibitions, proprietors of bowling alleys and billiard rooms, dealers in leaf tobacco, dealers in tobacco, manufacturers of tobacco, manufacturers of cigars, instruments, papers or documents, delivers or transfers of stock, sales and agreements of sales or agreements to sell stocks, products or merchandise, wines, seats in parlor or palace cars and berths in sleeping cars, legacies and distributive shares of personal property, excise taxes on persons, firms, companies and corporations engaged in refining petroleum and sugar.

On the following articles the tax is reduced: Fermented liquors, to \$1 per barrel; snuff and tobacco, to 6 cents per pound; cigarettes weighing more than three pounds per 1,000 reduced to \$3 per thousand.

The tax on mixed flour and oleomargarine, not being war revenue tax, is not effected by the new law.

No False Claims.

The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. Alvarado Pharmacy.

University Convocation.

Albany, N. Y., June 30.—A number of distinguished educators are here to take part in the fortieth annual convocation of the University of the State of New York. Today was devoted to receiving the visitors and arranging the final details of the program. At the state capitol tonight President Nicholas Murray Butler, of Columbia university opens the proceedings with an address on "Fundamental Principles of Education in the United States." Other prominent participants are President Schurman, of Cornell university; President Campbell, of the College of Saint Francis Xavier, and Prof. George E. Vincent, of the University of Chicago.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. Dr. Ely's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. J. H. O'Reilly & Co., B. H. Briggs & Co.

Red Men at Sioux Falls.

Sioux Falls, S. D., June 30.—This city experienced an invasion of Red Men today in the persons of some 200 delegates to the annual meeting of the grand lodge of the order. The visitors were royally received by the members of the local council and nothing was left unattended to in order to insure the enjoyment of the occasion. After the formalities of receiving the visitors were concluded the delegates went into executive session to transact business pertaining to the affairs of the order in South Dakota. Officers' reports, though not officially given out, are understood to show a gratifying increase in membership during the last twelve months.

Foss-Chisum Wedding.

J. R. Foss and Miss Lela Chisum, the pretty and popular daughter of Mrs. J. D. Herbert, of Magdalena, were married at the home of the bride Sunday, June 22, in the presence of members of the family only, says the Chieftain. The groom holds a responsible position with the Becker-Blackwell company and is much liked by those who know him best. Mr. and Mrs. Foss enter upon their married life under favorable auspices and with the best wishes of a large circle of friends and acquaintances.

Last Resting Place.

Annapolis, Md., July 1.—Simple ceremonies accompanied the transfer of the remains of Lord Pauncefote, which arrived by special train from Washington today, to the cruiser Brooklyn, which is to bear them to England. A detachment of cadets and marines escorted the coffin aboard the ship and as the latter sailed down Chesapeake bay a salute of guns was fired from the batteries on shore.

Interchangeable Mileage.

Omaha, Neb., July 1.—The system of interchangeable mileage recently agreed upon by general passenger

agents of prominent western railroads was put into effect today. The territory covered by the agreement extends from the Mississippi and Missouri rivers west to the Rocky mountains and from the Canadian line south to the Gulf of Mexico.

There are seventy-five railroads of all kinds operating in Mexico under concessions from the general government.

Thirty-six railroads reporting for the second week of June show aggregate earnings of \$6,865,918, a gain of \$425,826, or 6.61 per cent.

The round house of the Southern Pacific railroad at Fresno, Cal., and twelve locomotives were destroyed by fire; estimated loss, \$200,000.

The Surveyors of the Prescott and Eastern road are now within a few miles of Benson, and expect to be through with the work this month.

Col. R. E. Twitchell, assistant counsel of the Santa Fe, is in the city today consulting with Hon. W. B. Childers on business of the railroad company.

The yard men on the Arizona and New Mexico railroad at Clinton struck the other day for shorter hours. The train crews will probably join them.

Three hundred car cleaners, employees of the Pullman company, are out on a strike, and as a consequence that company's cars do not present the usual neat appearance.

The Santa Fe Central telegraph line is within five miles of Santa Fe and will reach that city next Monday, as the wires are being stretched as rapidly as the poles are erected.

E. Alexander, who has been master mechanic at the Lordsburg Southern Pacific shops, left the first of the week for Tucson. He was succeeded by A. L. Munn, formerly of El Paso.

Vere Boyle, of Santa Fe, has accepted a position with the Santa Fe Central Railway company at Kennedy, and Charles Guterman will work on the telegraph line of the company.

Judge Sloan has decided that the law passed by the last legislature providing that the Santa Fe railroad lands in northern Arizona be assessed at 75 cents an acre, is unconstitutional.

A new engine crew is to be put to work on the Lamy branch, traffic being too heavy for the one crew. That will mean several more residents for Santa Fe. "Dad" Ames will be the engineer.

The Santa Fe Central telegraph line is being constructed rapidly. Several miles of line are already completed between Kennedy and Santa Fe and the line will reach Santa Fe by next week.

Foreman Chamberlain, of the air brake department of the Santa Fe shops at Albuquerque, N. M., is at Topeka getting "pointers" on that work while the air construction car is in Topeka.

J. E. McLeod, chief clerk in the office of General Storekeeper Hilton, of Topeka, was at his desk after having been absent two or three weeks, checking up invoice lists at division points as far west as Albuquerque, N. M.

Philip J. Barber, employed by the Santa Fe Central railway at Kennedy, is in Santa Fe for treatment for an insect bite on his forehead. The bite was probably by a tarantula and it was necessary to cauterize the wound.

With the railroad improvements still incomplete, and the force not all in yet, there are eighty-four employees on the pay roll at Santa Rosa at the present time, permanently located. This does not include any of the crews that run in and out.

Hon. W. S. Hopewell, vice president of the Santa Fe Central, left for Denver. Upon his return he will be accompanied by Mrs. Hopewell, who has been at a Denver hospital and has recovered sufficiently to be able to return to the territory.

T. B. Sweet, trainmaster for the Santa Fe at Marceline, Mo., has been transferred to Las Vegas, N. M., where he will take the position of trainmaster for the New Mexico division. His place at Marceline will be taken by Chief Dispatcher Johnson, of Chillicothe, Ill. Trainmaster Bristol at Las Vegas has sent in his resignation, and will accept a position on a California road.

John R. Weldon is visiting old acquaintances in El Paso. Mr. Weldon is an old railroad conductor and has worked for various roads in the west. For several months in 1899 he was yardmaster for the Southern Pacific at Lordsburg. He is now manager of a sugar plantation for J. D. Spreckels in the Hawaiian islands and is off on a leave of absence. After a few days at El Paso he will leave for his old home in the east for a visit to relatives. Mr. Weldon gives a glowing report of the Hawaiian islands and says that it is the finest country under the sun.

Direct Connection.—Topeka is now in direct connection with Galveston through the new Santa Fe quadruplex wires which went into service day before yesterday. In the language of the telegraphers, Topeka now "works through to Galveston." This is the first time in the history of the Santa Fe road that this has been possible. Before the "quad" system was introduced, the messages from Galveston had to be relayed at Temple, Purcell and Cleburne, making a considerable waste of time in the transmission. General Superintendent Gaunt of the Santa Fe telegraph department, has one of the Galveston instruments connected up on a loop and placed on a desk, so that he can watch the working of the wire and detect any flaws in its transmission.

Mammoth Car Works.—A mammoth car and locomotive works, costing in the neighborhood of \$5,000,000, will probably be built in Denver by the Chicago, Rock Island & Pacific railroad in conjunction with other western lines. It is understood that the matter has progressed as far as securing options on a large tract of land for the plant, the organizing of an independent iron company to supply the material and the securing of the co-operation of other railroads.

Freight Men Meet.—The following members of the Trans-Missouri freight bureau, W. A. Poteet, chairman, Kansas City, Mo.; W. L. Knight, Missouri Pacific railway; C. J. Lane, Union Pacific railway; Fred Montgomery, Burlington & Missouri railway; F. J. Shubert, Rock Island railway; R. G. Urewick, Santa Fe railway; H. F. Lambert, Colorado Southern; W. M. Lambton, Denver & Rio Grande, and Mr.

Tuttle, of the Oregon Short Line, met in Denver at the Brown Palace hotel for the purpose of adjusting a number of technical questions as to minimum weight of live stock from the western country.

Conductor Injured.—The Raton Gazette says: Conductor J. M. Clara met with an accident at Wooten Thursday afternoon that cost him his left hand. He was in charge of freight train No. 39, and was in the act of stepping off a car when the hand broke loose throwing him to the ground, and in an effort to save himself his left hand got on the track, the trucks of one car passing over it and crushing it. Engineer Goodyear coupled his engine onto the way car and brought Mr. Clara to Raton. The company's surgeon amputated the hand at the wrist. The wound is healing nicely.

Presented with a Check.—Recognizing the heroic intentions of Miss Bertha Matter in flagging the St. Joseph passenger train at Rock Creek, Kan., three weeks ago last Saturday evening, the Santa Fe has presented her with \$25. The voucher was made out by General Manager Mudge and delivered to the young woman by Roadmaster T. S. Cafferty. It was more money than the young woman had ever possessed, and she was accordingly much pleased at receiving it.

New Divorce Law.

Providence, R. I., July 1.—Heretofore it has been almost as easy a matter to obtain divorce in Rhode Island as in the Dakotas, but the conditions in this regard are radically changed by the new divorce law which went into effect today. The most important clause in the new law is that requiring a bona fide residence in the state of at least two years before applying for a divorce. This is expected to put a stop to the practice of wealthy women of New York and elsewhere coming to Newport, establishing a so-called residence and in a few months obtaining an annulment of the marriage contract on the ground of non-support.

Jubilee Pilgrimage.

New York, July 1.—There was a great waving of hats and handkerchiefs from the crowd assembled on the Hoboken docks this morning to witness the departure of the steamer North America, carrying the first section of the Roman Catholic jubilee pilgrimage to Rome. The party numbers more than one thousand clergy and laymen and is under the spiritual direction of the Very Rev. E. H. Porcile, of Brooklyn. The second section is scheduled to sail the latter part of the week. The two sections will form a junction at some European point and sail to Rome together.

Assistant Superintendent.

Springfield, Ill., July 1.—Captain J. H. Freeman, who for six years has occupied the position of assistant state superintendent of public instruction, retired from the office today to assume his new duties as superintendent of the institution for the blind at Jacksonville. Captain Freeman's successor in the office of state superintendent of public instruction is Jos. E. Bangs, of Pontiac.

George W. Merrill, who is confined in jail in Juarez on a charge of forging checks, was formerly traveling freight and passenger agent of the El Paso-Rock Island, with headquarters in El Paso. He has been train dispatcher for the Mexican Central at Chihuahua for the past six months, he having gone to that position soon after resigning his position as traveling freight and passenger agent of the El Paso-Rock Island.

Illinois Prohibitionists.

Peoria, Ill., July 1.—The prohibition state convention was called to order here shortly after 1 o'clock this afternoon by Hale Johnson, chairman of the state central committee. The convention will place in nomination candidates for the state officers to be voted for at the fall election, and also candidates for congress and for the legislature in all the districts in the state.

Increased Salaries.

Washington, D. C., July 1.—In the readjustments of salaries of postmasters at presidential offices, effective today, 2,630 postmasters receive increased salaries aggregating \$252,200. The number of increases this year is 259 in excess of last year and is the largest in the history of the postal service.

Changes in Snuff Company.

New York, July 1.—E. D. Christian today became treasurer of the American Snuff company, succeeding George D. Woodside, who recently resigned. The new treasurer has been connected with the combination for some time.

Twelve men were sent out of Phoenix over the Maricopa & Phoenix for Nevada, where they go to work on the new railroad now being constructed. The company promises three years' work at \$2.25 per day, which is quite an inducement to these out of work.

C. S. Miller has resigned his position as assistant yardmaster in the El Paso-Rock Island yards at El Paso, and though no appointment has been made, George Hall has been made engine foreman and as such is discharging the former duties of Mr. Miller.

DEMING.

From the Headlight.
It is authentically announced that Prof. W. W. Robertson will be in Deming now in a very few days to attend to some business which requires his special attention.

Mrs. John Decker will leave for San Francisco, Cal. Mrs. Decker will take with her the son of Volney Ehrmann, young Volney, and will remain for some time visiting friends and relatives in California.

While working at a wire fence on his ranch near Eden, Henry Brock slipped and fell back on a stake, breaking a rib and otherwise injuring himself quite severely. Dr. Rexford, of this city, went down and attended to Mr. Brock's injuries and at this time he is reported as doing all right.

The large adobe rooming house that is being erected by John Lester on the corner of Spruce street and Copper avenue, is fast assuming shape and will, ere long, add greatly to that part of town. When it is completed Mr. Lester will have one of the best and most desirable houses in the southwest.

A couple of long haired individuals

ACKER'S DYSPEPSIA TABLETS

cure dyspepsia and all disorders arising from indigestion. Endorsed by physicians everywhere. Sold by all druggists. No cure, no pay. 25 cents. Trial package free by writing to W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co., and B. H. Briggs & Co.

have been preaching on the streets of this city for the past week. Some say they are Mormon elders. Whatever their religious tendencies may be they have not succeeded so far in creating any great amount of enthusiasm from a religious point of view. A few stand around nightly and listen and then wander away, so by the time their harangue is finished they are talking to the empty air and a few Mexicans, who probably do not understand a word of what is said. They are probably not doing any harm, and it is certain that they are not doing any good.

At its annual meeting held the other day the Adelpi club elected the following officers for the ensuing year: President, Lou H. Brown; vice president, Rodney G. Clark; secretary, Arthur Rathel; treasurer, Frank L. Nordhaus; executive committee, Seamon Field, Geo. A. Shepard and C. J. Kelly. The secretary reported that the financial condition of the club was of the best, there being over \$500 in the hands of the treasurer and all debts paid. It is now expected that within a short time after Mr. Brown, the president, returns home some important improvements will be added to the club that will make it more attractive than ever.

QUEEN WENT OUT.

Attended the Review With the Prince of Wales.

London, July 1.—The reappearance of Queen Alexandra as a participant in a public ceremony practically marks the end of the period of anxiety caused by King Edward's condition. Her presence at review of colonial troops by Prince of Wales greatly increased public enthusiasm over what in itself was a picturesque and interesting event. Upwards of 2,500 colonials were brought in from the various encampments and marched through great crowds. The queen was greeted with cheers. The most picturesque feature of the day was the giving of three cheers for the king, started by the Duke of Connaught, who rode at the head of the troops. The sound of cheering must have reached almost to the royal sick room, a half mile away. The following bulletin of the condition of King Edward was posted at 10 o'clock this morning:

"The king passed an excellent night in natural sleep. He gained in strength and has made a substantial improvement in all respects."

The following was posted at Buckingham Palace at 4 p. m.:

"The advancement in the king's condition is maintained. His appetite is improving and the dressing of his wound is less painful. His majesty is still easily fatigued on the least exertion."

At 5:15 p. m. the Associated Press learns that King Edward spent an excellent day and he continues to improve. Sir Frederick Treves this afternoon expressed satisfaction on the patient's condition.

SUNDAY'S BENEFIT.

Arrangements Being Completed for a Fine Day's Program.

Everything is moving along smoothly for the grand benefit to be given Johnnie Haberle at the fair grounds on Sunday afternoon next and the boys out with tickets are meeting with much encouragement from merchants and citizens generally, which insures a fine crowd. The day's sports will be as good as ever seen in this city, except during the fair, and will be as good as local talent can make it. The cause is a worthy one and no one has refused to help in their way—some by buying tickets and others by furnishing amusements.

An effort will be made to have the Italian band discourse music during the afternoon in the cool of the grand stand, their new uniforms will be here and this will be their first appearance. The Gentlemen's Driving association will also be asked to furnish some races. These, in connection with the ball game, and possibly other features, will help pass away an afternoon well worth putting in. The team which will oppose the Browns is the Old Town Reds, who are managed by Modesto Ortiz. The Browns will have the following players: Anderson, Dewey, Cogrove, Vorhes, Hellweg, Barrett, Ortiz, Quier, Smith, Lampman, Neher and Patterson.

MUCH FURNITURE.

Special Train of Thirty-Two Cars Consigned to One House.

A unique train was started out from here this afternoon which was known as the "Emporium Special." It consisted of thirty-two cars of furniture, all consigned to The Emporium, one of the big retail houses of San Francisco. These cars have been arriving here by twos and threes for several days and all were held here to make up the special train. The cars were covered with banners giving the name of the train, its destination, the contents of the cars and all about it.

D. C. Russell, the probate clerk of McKinley county, and his deputy, W. W. Risdon, are here today, the former coming in this morning from Gallup, and the latter returning from his visit to Pueblo and other Colorado towns. They expect to return to Gallup tonight.

THOUSANDS SAVED BY

DR. KING'S NEW DISCOVERY For Consumption, Coughs, Colds

How Irrigation Law Operates

The following is the full text of the new irrigation measure as passed by congress last week:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That all moneys received from the sale and disposal of public lands in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming, beginning with the fiscal year ending June 30, 1901, including the surplus of fees and commissions in excess of allowances to registers and receivers, and excepting the 5 per centum of the proceeds of the sales of public lands in the above state set aside by law for educational and other purposes, shall be, and the same are hereby reserved, set aside, and appropriated as a special fund in the treasury to be known as the "reclamation fund," to be used in the examination and survey for and the construction and maintenance of irrigation works for the storage, diversion, and development of waters for the reclamation of arid and semi-arid lands in the said states and territories, and for the payment of all other expenditures provided for in this act.

Provided, That in case the receipts from the sale and disposal of lands referred to in this section are insufficient to meet the requirements for the support of agricultural colleges in the several states and territories, under the act of August 30, 1890, entitled "An act to apply a portion of the proceeds of the public lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts, established under the provisions of an act of congress approved July 2, 1862," the deficiency, if any, in the sum necessary for the support of the said colleges shall be provided for from any moneys in the treasury not otherwise appropriated.

Beginning of Work.

Section 2. That the secretary of the interior is hereby authorized and directed to make examinations and surveys for, and to locate and construct, as herein provided, irrigation works for the storage, diversion, and development of waters, including artesian wells, and to report to congress at the beginning of each regular session as to the results of such examinations and surveys, giving estimates of cost of all contemplated works, the quantity and location of the lands which can be irrigated therefrom, and all facts relative to the practicability of each irrigation project; also the cost of works in process of construction as well as of those which have been completed.

Sec. 3. That the secretary of the interior shall, before giving the public notice provided for in section 4 of this act, withdraw from public entry the lands required for any irrigation works contemplated under the provisions of this act, and shall restore to public entry any of the lands so withdrawn when, in his judgment, such lands are not required for the purposes of this act, and the secretary of the interior is hereby authorized at or immediately prior to the time of beginning the surveys for any contemplated irrigation works, to withdraw from entry, except under the homestead laws, any public lands believed to be susceptible of irrigation from said works. Provided, That all lands entered and entries made under the homestead laws within areas so withdrawn during such withdrawal shall be subject to all the provisions, limitations, charges, terms, and conditions of this act, that said surveys shall be prosecuted diligently to completion, and upon the completion thereof, and of the necessary maps, plans, and estimates of cost, the secretary of the interior shall determine whether or not said project is practicable and advisable, and if determined to be impracticable or unadvisable he shall thereupon restore said lands to entry; that public lands which it is proposed to irrigate by means of any contemplated works shall be subject to entry only under the provisions of the homestead laws in tracts of not less than 40 nor more than 160 acres, and shall be subject to the limitations, charges, terms and conditions herein provided. Provided, That the commutation provisions of the homestead laws shall not apply to entries made under this act.

Letting of Contracts, Etc.

Sec. 4. That upon the determination by the secretary of the interior that any irrigation project is practicable, he may cause to be let contracts for the construction of the same, in such portions or sections as it may be practicable to construct and complete as parts of the whole project, providing the necessary funds for such portions or sections are available in the reclamation fund, and thereupon he shall give public notice of the lands irrigable under such project, and limit of area per entry, which limit shall represent the acreage which, in the opinion of the secretary, may be reasonably required for the support of a family upon the lands in question, also of the charges which shall be made per acre upon the said entries, and upon lands in private ownership which may be irrigated by the waters of the said irrigation project, and the number of annual installments, not exceeding 10, in which such charges shall be paid and the time when such payments shall commence. The said charges shall be determined with a view of returning to the reclamation fund the estimated cost of construction of the project, and shall be apportioned equitably. Provided, That in all construction work eight hours shall constitute a day's work, and no Mongolian labor shall be employed thereon.

Duties of the Entryman.

Sec. 5. That the entryman upon lands to be irrigated by such works shall, in addition to compliance with the homestead laws, reclaim at least one-half of the total irrigable area of his entry for agricultural purposes, and before receiving patent for the lands covered by his entry shall pay to the government the charges apportioned against such tract, as provided in section 4. No right to the use of water for land in private ownership shall be sold for a tract exceeding 160 acres to any one landowner, and no

such sale shall be made to any landowner unless he be an actual bona fide resident on such land, or occupant thereof residing in the neighborhood of said land, and no such right shall permanently attach until all payments thereon are made. The annual installments shall be paid to the receiver of the local land office of the district in which the land is situated, and a failure to make any two payments when due shall render the entry subject to cancellation, with the forfeiture of all rights under this act, as well as of any moneys already paid thereon. All moneys received from the above sources shall be paid into the reclamation fund. Registers and receivers shall be allowed the usual commissions on all moneys paid for lands entered under this act.

Sec. 6. That the secretary of the interior is hereby authorized and directed to use the reclamation fund for the operation and maintenance of all reservoirs and irrigation works constructed under the provisions of this act. Provided, That when the payments required by this act are made for the major portion of the lands irrigated from the waters of any of the works herein provided for, then the management and operation of such irrigation works shall pass to the owners of the lands irrigated thereby, to be maintained at their expense under such form of organization and under such rules and regulations as may be acceptable to the secretary of the interior. Provided, That the title to the reservoirs and the works necessary for their protection and operation shall remain in the government until otherwise provided by congress.

Duties of the Attorney General.

Sec. 7. That where in carrying out the provisions of this act it becomes necessary to acquire any rights or property, the secretary of the interior is hereby authorized to acquire the same for the United States by purchase or by condemnation under judicial process, and to pay from the reclamation fund the sums which may be needed for that purpose, and it shall be the duty of the attorney general of the United States upon every application of the secretary of the interior, under this act, to cause proceedings to be commenced for condemnation within thirty days from the receipt of the application at the department of justice.

Sec. 8. That nothing in this act shall be construed as affecting or intended to affect or to in any way interfere with the laws of any state or territory relating to the control, appropriation, use, or distribution of water used in irrigation, or any vested right acquired thereunder, and the secretary of the interior, in carrying out the provisions of this act, shall proceed in conformity with such laws and nothing herein shall in any way affect any right of any state or of the federal government or of any land owner, proprietor, or user of water in, to, or from any interstate stream or the waters thereof. Provided, That the right to the use of water acquired under the provisions of this act shall be appurtenant to the land irrigated, and beneficial use shall be the basis, the measure, and the limit of the right.

Apportionment of Funds.

Sec. 9. That it is hereby declared to be the duty of the secretary of the interior in carrying out the provisions of this act, so far as the same may be practicable, and subject to the existence of feasible irrigation projects, to expend the major portion of the funds arising from the sale of public lands within each state and territory hereinbefore named for the benefit of arid and semi-arid lands within the limits of such state or territory. Provided, That the secretary may temporarily use such portion of said funds for the benefit of arid or semi-arid lands in any particular state or territory hereinbefore named as he may deem advisable, but when so used the excess shall be restored to the fund as soon as practicable to the end that ultimately, and in any event, within each ten-year period after the passage of this act, the expenditures for the benefit of the said states or territories shall be equalized according to the proportions and subject to the conditions as to practicability and feasibility aforesaid.

Sec. 10. That the secretary of the interior is hereby authorized to perform any and all acts and to make such rules and regulations as may be necessary and proper for the purpose of carrying the provisions of this act into full force and effect.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, N. Y., writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment, the first application giving my first relief, and the second, entire relief. I can give it unqualified recommendation. Price 25c and 50c at Cosmopolitan Pharmacy, B. Rupp."

Big Crops for Canada.

Ottawa, Ontario, June 28.—Reports of crop conditions throughout Canada are the best ever received at this time of the year. All through Canada the wheat is in a strong, healthy, forward condition. In Manitoba, where the wheat crop is two weeks ahead of last year, the grain is reported as developing rapidly, and the largest crop in the history of the country is expected. The latest advices from Winnipeg estimate a yield of hard wheat for Manitoba and the Canada Northwest Territory.

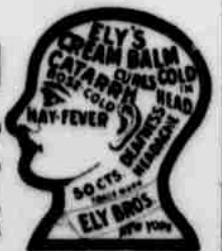

Nasal CATARRH

In all its stages.

Ely's Cream Balm

clears, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drugstore or by mail; Trial Size, 10 cents.

tory of 70,000,000 bushels. The railway companies are jubilant over the prospects of big earnings for another year.

A Good Reputation.

The way to gain a good reputation is to endeavor to be what you desire to appear. That is precisely the way in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard claimed for it. People have found that it can always be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take. For sale by all druggists.

DEATH OF MRS. CHRISTY.

Occurred at Las Cruces Last Thursday Evening.

Mrs. Sophie Christy, widow of the late Albert L. Christy, died at her home, Thursday evening, about 6 o'clock, after a long and painful illness, of consumption, says the Las Cruces Republican. For more than a year Mrs. Christy's health has been in a precarious condition, and her friends have scarcely dared to hope she could recover from so serious a malady. However, such strenuous efforts have been brought to bear on the part of a loving family, careful nurses and watchful physicians that she rallied a few months ago and seemed on the ultimate road to recovery. The tax of a too great illness proved too much, however, and finally she succumbed to a renewed attack of the disease, with added complications.

Mrs. Christy, and Sophie French, came to Las Cruces with her parents when but a young girl. About ten years ago she married Albert L. Christy, whose death occurred five years since. Three little children—Sophie, Albert and Sam—are thus orphaned, and are objects of pity and compassion from all who know them.

To the parents, who in the death of Mrs. Christy sustain the second heavy loss within so short a time, as their grief over the sudden death of Sam French is still fresh, the Republican extends sincere sympathy in their double bereavement.

A. R. Baser, of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. Alvarado Pharmacy.

QUICK TIME.

Fire Department at the Shops Did Good Work.

The Santa Fe Pacific fire department turned out in a hurry at 2 o'clock this morning and in a minute and three-quarters from the time the whistle blew had a stream playing on a fire in the underground shaft leading to the blacksmith shop. It was quickly extinguished.

A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this remedy in the house, especially in summer time.—Lansing, Iowa, Journal. For sale by all druggists.

Went to Coyote.

A jolly party left the city early yesterday morning in Jumbo and reached Coyote Springs before sunrise. The entire day was spent there and the best time possible was enjoyed. Those in the party were: M. Mandell and family, Mrs. K. Mandell, Mr. and Mrs. A. Borders, Misses Grace Hawks, Brunella Mandell, Alice and Nell Wetter, Katherine Dolan, of Chicago; Messrs. Dave Wollis, C. E. Newcomer, Leon Hertzog and William Spencer.

Saves a Woman's Life.

To have given up would have meant death for Mrs. Louis Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from coughs, colds, throat and lung trouble need this grand remedy for it never disappoints. Cure is guaranteed by all druggists. Price 50 cents and \$1. Trial bottle free.

Georgia Wedding.

Dalton, Ga., June 30.—Two descendants of Virginia's most illustrious colonial governors were united in marriage today when Miss Anne Pauline Carter became the bride of J. Campbell Mason, Jr., of New York city. The wedding took place at the historic home of the bride's family, at Carter's, near this city. After their wedding tour Mr. and Mrs. Mason will take up their residence at Birmingham, Ala.

If a Man Lie to You.

And say some other false, ointment, lotion, oil or alleged healer is as good as Bucklen's Arnica salve, tell him 30 years of marvelous cures of piles, burns, boils, corns, feline, ulcers, cuts, scalds, bruises and skin eruptions prove its the best and cheapest. 25c at all drug stores.

Canadian Immigration.

Ottawa, Ont., June 30.—Figures given out by the Canadian department of immigration show that the arrivals of immigrants for the year ending today were 65,000, an increase of more than 15,000 over last year. The increase is principally from Great Britain and the United States.

Cut this out and take it to all druggists and get a box of Chamberlain's Stomach and Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

John Player, formerly superintendent of machinery for the Santa Fe, has been granted a patent on a sliding door for railway cars. It is stated that the invention is an excellent one and that Mr. Player will receive a handsome sum for the invention.

WON BY POSTAL.

It Beats Western Union in Securing Pennsylvania Railway Lines.

Manager Craggan, of the local Postal Telegraph company's office, last Saturday, submitted the following article to The Citizen and asked that it be published in full:

An agreement has been consummated between the Postal Telegraph company and the Pennsylvania Railroad company under which the former acquires the exclusive right to transact commercial telegraph business on the lines belonging to the railroad system east of Pittsburgh and Erie, Pa., and to string wires on the railroad company's poles and rights of way.

The agreement is expected to take effect July 1, and transfer of offices to the Postal system will be made as rapidly as possible after that date. It is understood that similar agreements covering the remainder of the railroad company's system will be put in force as soon as the existing contracts with the Western Union expire.

The agreement just consummated will take away from the Western Union and add to the Postal large revenue from commercial telegraph business, but incidentally will put the Western Union company to heavy expense in removing poles and lines from the railroad right of way and rebuilding its lines. While this is the most serious blow that the one-time monopoly has ever received, it is not the only recent one.

The Postal Telegraph & Commercial Cable company's victory in connection with the Pacific cables, in which fight the Western Union is said to have expended large sums of money, involved the loss to the Western Union of very considerable future revenue. Even the Cuban cable fight, although nominally a victory for the Western Union, really resulted in a loss to them because it compelled a heavy reduction in rates.

The Postal Telegraph & Commercial Cable company's comparatively recent connection with the new German cables and also the Halifax and Bermuda cables from West India cable have resulted in diverting a very considerable business from the other company. The completion of the Pacific cable, now under construction, will also result in large increase of the Postal company's business.

The Postal has within the last two years, made substantial gains in various other directions, notably in the acquiring of branch offices in all the principal hotels of the country.

The company has recently opened offices in every important hotel on the St. Lawrence river, and has made numerous connections with railroads, particularly with roads extending into the newly developed copper and coal producing territories of the south and southwest. It has also won numerous condemnation suits in various states, thus establishing its right to construct its lines upon railroad rights of way, and destroying the most valuable exclusive feature of the Western Union railroad contracts. It has also within the past few years, secured long term leases in the most desirable locations in the larger cities with new and improved apparatus, and is expending over a million dollars a year in rapidly extending its lines in all directions.

Treat your Kidneys for Rheumatism.

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polar, Wis., says: "After unsuccessful doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." Alvarado Pharmacy.

A NEW ROAD.

Proposition to Connect With the Denver & Rio Grande.

A proposition of Charles J. Hartigan and other Philadelphia capitalists to build a railroad to this city from Buckman's Landing on the Denver & Rio Grande road, sixty miles distant, was submitted to the Commercial club Saturday evening by Geo. W. Stubbs. It is also proposed to build a branch to the Cochiti district and build a 500 ton smelter there. A good committee, of which E. W. Clancy is chairman, was named to make a counter proposition to the company.

It is proposed to put the offices and shops here and this city will be asked to take a certain amount of stock.

The Best Liniment for Strains.

Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by all druggists.

Minnesota Republicans.

St. Paul, Minn., June 30.—Governor Van Sant will have a walkover in the matter of securing a renomination at the hands of the republican state convention tomorrow, and as little diffi-

culty is expected in filling the remaining places on the ticket the gathering bids fair to be a harmonious one. Among the delegates and other politicians already on the field considerable talk is heard regarding an endorsement of President Roosevelt's reciprocity policy and the discussion of this matter may tend to liven up the proceedings on the convention floor tomorrow.

Acts Immediately.

Colds are sometimes more troublesome in summer than in winter, it is so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. J. H. O'Reilly & Co.; B. H. Briggs & Co.

Another Rough Rider in Office.

Pen. S. Hildreth, who a year or so ago was a resident of Kingman, has been appointed register of the land office at Prescott, vice Fred Tittle, whose term of office had expired. Mr. Hildreth is a most capable young man and his many friends here are pained with the selection. He was a member of the Roosevelt Rough Riders and in this way came under the personal acquaintance of the president, J. M. W. Moore, the old republican warhorse of Yavapai county, has been appointed receiver in place of J. M. Martin. The outgoing officials are excellent men and their friends will regret their retirement.—Mohave County Miner.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

Southern Negroes.

Galveston, Texas, July 1.—With the object of creating a better feeling between the races and fostering any move for the uplifting of the negro, several hundred delegates from all parts of the south assembled here today for the second annual conference of the Southern Negro congress. Since the move was inaugurated at a meeting held last year at Jackson, Miss., it has enlisted the hearty co-operation of many of the most prominent negroes of the south and the large and representative attendance at the present meeting is evidence of the widespread interest which the congress has awakened. The chief matters scheduled for discussion at the four days' sessions are the education question, outrages and lynchings and the negro in politics.

McKi Tea Positively Cures Sick Head.

Indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion or money refunded. 25c and 50c. Write to us for free sample, W. H. Hooker & Co., Buffalo, N. Y., J. H. O'Reilly & Co. and B. H. Briggs & Co.

Manual Training Teachers.

Pittsburg, Pa., July 1.—Manual training teachers from Detroit, Cleveland, Dayton, Philadelphia, New York, Washington and numerous other cities were present today when the Eastern Manual Training association opened its ninth annual meeting in Allegheny. During the day papers treating of various questions of interest to those engaged in manual training work were presented by Superintendent Hallman of Dayton, Ohio, Superintendent R. G. Boone of Cincinnati, Dr. John A. Brashers of Western University, and Prof. Charles P. Buns of New York city.

In conjunction with the meeting there is an elaborate display of the work of manual training classes throughout the country.

Foley's Kidney Cure purifies the blood by straining out impurities and tones up the whole system. Cures kidney and bladder troubles. Alvarado Pharmacy.

Oleomargarine Tax.

Chicago, Ill., July 1.—The Grant bill providing for an increase in the tax on colored oleomargarine from two to ten cents per pound went into effect today. While it is a serious blow to the big packers who have been making millions through their butterine product they have no idea of succumbing without a struggle. The Armour Packing company has devised a scheme to circumvent the provisions of the law.

No External Symptoms.

The blood may be in bad condition, yet with no external signs, no skin eruption or sores to indicate it. The symptoms in such cases being a variable appetite, poor digestion, an indigestible weakness and nervousness, loss of flesh and a general run-down condition of the system—clearly showing the blood has lost its nutritive qualities, has become thin and watery. It is in just such cases that S. S. S. has done some of its quickest and most effective work by building up the blood and supplying the elements lacking to make it strong and vigorous.

"My wife and several bottles of S. S. S. as a blood purifier and to tone up a weak and emaciated system with very marked effect by way of improvement. We regard it a great tonic and blood purifier."—J. F. Dunn, Princeton, Mo.

S. S. S. is the greatest of all tonics, and you will find the appetite improves at once, strength returns, and nervousness vanishes as new rich pure blood once more circulates through all parts of the system.

S. S. S. is the only purely vegetable blood purifier known. It contains no minerals whatever. Send for our free book on blood and skin diseases and write our physicians for any information or advice wanted. No charge for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.

CONSUMPTION

the most dreaded and deadly of all diseases, as well as pneumonia, and all lung troubles are relieved at once and cured by Ackers English Remedy "the king of all cough cures." Cures coughs and colds in a day 25 cents. Your money back if dissatisfied. Write for free sample. W. H. Hooker & Co., Buffalo, N. Y., J. H. O'Reilly & Co., and B. H. Briggs & Co.

and if the plans prove successful it will be followed by the other packers. While supplying the oleomargarine uncolored, the tax on which is but one-quarter of a cent per pound, the company purposes to "burnish" dealers the coloring matter—in convenient, law evading capsules. When a pound of the product is sold a capsule is to be given the purchaser. The new law permits families to buy the uncolored product and color it at home, but the privilege is not extended to hotels or restaurants.

Need More Sleep.

Often the over-taxed organs of digestion cry out for help by dyspepsia's pains, nausea, dizziness, headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25 cents at drug stores.

SILVER CITY.

A Good Rain—Lowe Breaks Arm—Other Items.

Special Correspondence. Silver City, N. M., June 30.—This section of the country had a fine rain this afternoon and from all appearances it was pretty general in the surrounding section. This is the first rain of the season and everything was beginning to look dry. The stock on the ranges were in very bad shape and in a number of cases large numbers of old cows have died. The heavy rain of today will, however, start the rainy season and put everything in good shape.

John Kioms, who has been in California looking for a business location for the past few weeks, returned home today.

Jo E. Sheridan and wife and two daughters were passengers on today's incoming train. Mrs. Sheridan and daughters have been spending the past four months in California.

The committees who have the different events for the celebration on the Fourth and Fifth of July in charge are very busy these days making the final arrangements and are doing everything possible to insure everybody a magnificent time who attends.

Tom Lowe, the popular bank employee and transfer man, broke his arm the other day and at the present time is in a very disagreeable frame of mind, but the arm is getting along all right.

Dr. Lane and wife and J. M. Kinner and wife returned Saturday from a six weeks' camping trip on the Upper Gila. They report that trout fishing is better than ever in that stream this year.

George Ball has sold his interest in the Club House saloon to Con Whitehill. The deal was consummated today.

Dr. Bullock has moved his office up to the sanitarium at the Sisters' hospital.

The grand ball on the night of July 31st, which closes the Elks celebration, from the present plans, will undoubtedly be a grand success.

Acker's Blood Elixir positively cures chronic blood poisoning and all scrofulous affections. At all times a matchless system tonic purifier. Money refunded if you are not satisfied. 50c and \$1. J. H. O'Reilly & Co. and B. H. Briggs & Co.

KENNEDY ITEMS.

Special Correspondence.

Kennedy, June 29.—Bridge 70 was completed yesterday, it being the first bridge completed on the Santa Fe Central. The carpenters are working on No. 69 today.

Eighteen miles of wire is strung, and expect to have the line into Santa Fe some time next week.

Nearly fifty new men went to work this morning. L. H. O'Roar, of Albuquerque, came up on No. 2 yesterday and is working with the pile driver.

George E. Perry, material yard foreman, was called home on account of his wife being very sick.

Steam pile driver has moved to the other side of the Gallatin.

J. E. Saint is on an inspection trip down the line to Torrance.

Met Wagner and his team were put to work on grade last week.

"Tadpole" Hord has been transferred from commissary here to take charge of the Willard store.

August Rehnardt, boss carpenter, was in Santa Fe yesterday.

Sound kidneys are safeguards of life. Make the kidneys healthy with Foley's Kidney Cure. Alvarado Pharmacy.

OFFICIAL MATTERS.
