DEMING.

From the Headlight.

J. T. Givens returned from a pleasure trip to the coast.

Dr. Swope and family have returned from a brief sojourn to Pacific coast pleasure resorts, accompanied by the doctor's mother.

John Corbett has been laid up with rheumatism for the past week, and Frank Wyman has been handling the trotting on the ice wagon in his stead.

Electric lights have been put in the opera house of this city, and the patrons of that place will be under many obligations to Manager Irvine for the improvement.

Mrs. Ransom, a popular society lady of the El Paso, Texas, exclusive circle, arrived, and will be the guest for some time of her friend, Miss Lillie Lawton.

The bell for the new Catholic church that is being built in this city has arrived, and last Tuesday George Chester came near stampeding the town by ringing it. The bell has a beautiful, clear tone, and while Chester was showing it to Father Morin, he rang it loud and long. Everybody in the vicinity of the bank corner rushed out to see where the fire was.

Nordhaus & Son have closed a contract with Rosch & Leopold for the erection of a \$3,000 building on their new lot adjoining their present store. When completed this enterprising firm will have fifty feet of plate glass front on Gold avenue. The contract calls for the completion of the building at the earliest possible moment.

Attorney A. W. Pollard had a severe hemorrhage while riding near the Sunset Dairy last Sunday evening. Mrs. Pollard secured the assistance of Mr. Russell and family and Mr. Pollard was taken to their residence, where he remained until Wednesday, when he was brought to town. At this writing Mr. Pollard is slowly regaining his strength, and will in a few days be able to come down town again.

SOCORRO.

From the Chieftain.

Elfezo Baca and family will soon make their home in El Paso.

Abraham Abeyta sold a lot of goats the first of the week at \$1.50 each.

The Crown Mill company of this city purchased 60,000 pounds of wheat the other day.

Misses Annie and Kate Horn, of San Marcial, are guests of Mrs. W. Morgan of this city.

C. L. Brown and Haynes Howell left for a ten days' trip to the Black Range.

Miss May Schwalbe, of Albuquerque, is the guest of her uncle, P. N. Yunker, and wife at the Windsor hotel.

Mrs. J. M. Robinson, son and daughter, Johnnie and Julia, and Grady Harrison, returned from their outing in Water canyon.

Sheriff Blackington reports good rains in many localities in the western part of the county, also at his ranch east of the river.

Conrado A. Baca has accepted the position of clerk of the territorial penitentiary at Santa Fe. Mr. Baca will visit his mother in Frisco before assuming the duties of the position.

Mrs. Ella F. Winkler received a deed to the E. W. Monroe property at the southeast corner of the plaza. This purchase gives Mrs. Winkler a frontage of over 800 feet on the plaza and a depth of nearly 200 feet.

A movement is on foot to dispose of a considerable area of the city's lands. Abraham Abeyta holds about \$2,000 of the city's securities and he offers to give these in payment for lands belonging to the city at an appraised valuation. Messrs. Joseph E. Smith, H. R. Harris, and Camillo Baca have been appointed by the city council as a committee to appraise the lands.

SAN MARCIAL.

From the Bee.

Mrs. and Miss Grey, of Raton, are visiting with Mrs. W. H. Tyler.

Miss Winnie Taft, of Silver City, is here on a visit to her aunt, Mrs. D. C. Anderson.

W. W. Sentman is making preparations to spend a couple of months at the Armstrong ranch.

L. M. Lanley is forced to use a cane these days, owing to quite a severe attack of sciatic rheumatism.

R. J. Nisbet is to take the measurements of the river for the boundary commission, when there is any evidence of water at this point.

Rain has fallen in abundance to the north, south, east and west of us, but San Marcial is still in the free zone. However, the hovering clouds may bring relief at almost any hour.

In a note to the local A. O. U. W. financier, J. K. Hartline, of Gallup, speaks of an injury to his left hand on July 18. Two fingers were badly torn, and one of them may lose, in addition to a period of enforced idleness.

Capt. Jack Crawford will leave San Marcial about the 5th of next month on a tour of the middle and eastern states to "Four the full tide of eloquence along, serenely pure, and yet divinely strong." His first date is at Rocky Ford, August 15, but he may appear on the platform at intermediate points, if satisfactory arrangements are perfected.

The ore shipped from the Virginia mine to El Paso by Copp & Thompson is assaying not less than 20 per cent, and some much higher.

The big plant at Graham will be re-

opened if silver continues to advance, and at an early date. J. T. Graham, general manager, insists that the shut-down is only temporary, owing to the slump in silver.

E. McIntosh of the Mogollon mining district left last week for Cape Nome, Alaska, to superintend some mining matters.

FARMINGTON.

From the Hustler.

Excess travel and express has necessitated the putting of two stages on the line between here and Durango.

It will be a business proposition for the voters of San Juan county to this year elect the entire republican ticket.

The special 5-mill school levy voted on by our citizens Monday was carried, only three dissenting votes being cast.

Our town is badly in need of a town hall. Scarcely a week passes but what it could be utilized to good advantage for public purposes.

Woolman Waggoner and associates engaged drilling for oil on the Blake property, are making splendid headway. The machinery is working to perfection, every hour adding to the well's depth.

George C. Bowman, who was recently appointed deputy revenue collector for Arizona, is making his last round in this section, as gauger. We will miss Mr. Bowman's cheery countenance, but congratulate him on his promotion. He is an all round good officer.

CERRILLOS.

From the Hustler.

Re Graham, of Albuquerque, was in town.

James Lucas and wife were Albuquerque visitors the first of the week. Mr. Gomez, a wealthy ranchman of Galisteo, was a business visitor in our town Saturday.

Mert Waggoner passed through here with his freight outfit, en route to El Paso.

E. R. Swain, of El Paso, was in our town a few days this week on business with the smelter people.

Charles Behringer's bridge outfit is stationed here for a short time rebuilding some bridges near town.

R. C. Uptegrove returned from Los Lunas and expects to move his family down there soon.

Travelers passing through Golden state that the activity in mining matters there continues, two mills are now running regularly. The Mayo steam mill on ore from the grounds of the Industrial, and a horse power mill on the high grade ore from the San Miguel mine, owned by Hon. J. L. Lopez.

DEMING.

From the Herald.

This week P. J. Bennett bought two residence lots in the Merck addition to the city.

It is rumored that a certain baker in town was robbed of \$400 Saturday night.

One of the largest water tanks ever turned out at the Mahoney shops has just been delivered to the Deming Ice works.

A foundation to T. B. Birnberg's residence water tank gave way Saturday, the tank turning over and flooding the entire back yard.

Hon. J. A. Mahoney has gone to Denver on a business trip and when he returns he will travel a month in California with his family.

Since the Smelter trust gobbled the Deming Sampling works and assay office, there is no place in town where the value of ore can be tested.

Last Friday, a few miles east of this city, Santa Fe trains killed four head of cattle. One head belonged to J. H. Tracy, one head to Walter Jones and two head to rank Peters.

While tinkering with a loaded shotgun Saturday morning, I. Mayfield, the ranchman, shot one of his toes off and lacerated four others. Dr. Cassella is attending to him.

The pretty home of Mrs. J. P. Byron was the scene of a very enjoyable gathering, being the regular monthly meeting of the Woman's Home and Foreign Missionary society of the First Presbyterian church. Sixteen ladies were present.

GALLUP.

From McKinley County Republican.

Gregory Page shipped three cars of ice this week, one each to Winslow, Flagstaff and Williams.

The taxes for McKinley county for this year will be 3.89 in the town of Gallup and 2.88 for the balance of the county.

The private car Estelle brought in a party of capitalists from the east. Among them were Messrs. DeHoney and McDunn. They secured carriages from Coddington and spent yesterday in the oil fields east of here.

Miss Rebecca Brown, one of the popular teachers of the Gallup schools, has been attending Berkeley college in California for the past two months. She has just been appointed one of the teachers of the public schools in San Francisco.

James Rudy, a dishwasher at the European, got away on Sunday last with one of William's bicycles, and a pistol and comb belonging to one of his fellow workers. He was caught at Wingate by Sheriff Smith and the property recovered. Rudy got thirty days and costs on the bicycle and \$5

fine on the pistol.

The case of the territory against four young men charged with stoning freight trains and assaulting railroad employees, was concluded in Judge Welch's court. Two of the men were discharged. C. B. Gillam was given ninety days and \$100 fine. John Roy got sixty days or \$50 fine. Both men were committed to jail.

This office turned out this week 100 copies of the semi-annual report of Defender lodge, No. 20, to the grand lodge of New Mexico, I. O. O. F. The report shows that the lodge had on January 1, 1902, sixty-nine members. It initiated during the past term fourteen, and reinstated ten, making a total of ninety-three. From this number they lost by card two, suspended for non-payment of dues one, expelled one, leaving them with a net membership of eighty-nine. The lodge has real estate and personal property valued at \$1,088.75, and cash on hand, \$524.92. Defender lodge can be proud of its report.

TUCUMCARI.

From the Pathfinder.

W. D. Merrill, of Geneva, Neb., was selling fruit trees and ornamental shrubs in Tucumcari and vicinity this week.

Felipe Venabides, of Pajarito, on Thursday, sold 10,000 pounds of wool to Goldenberg & Co., receiving therefor 12 cents per pound.

At the last meeting of the Tucumcari Townsite & Investment company, W. B. Jarrell was elected vice president.

It is expected that the First Methodist Episcopal church of Tucumcari will be dedicated Sunday, September 14. Rev. A. P. Morrison will officiate.

The First National bank of Tucumcari is only a month old, and its statement shows that they have on hand an excess of cash of over 70 per cent of the deposit money.

The political pot is already on in Guadalupe county. Tucumcari has some good material, while there is an abundance of it scattered around.

Manuel Garcia, of Lenape, twenty miles south of here, sold his crop of wool to Goldenberg & Co., Monday. The crop amounted to 50,000 pounds. He received 12 cents per pound.

Jose Apodaca, of Pajarito, sold his crop of wool, amounting to 10,000 pounds, Friday, to Goldenberg & Co., for which he received 12 cents a pound, a price that will compare with that paid in any part of the territory.

It is so healthy in Tucumcari that the medicine men are kicking.

SANTA FE.

From the New Mexican.

A disgraceful and bloody fight occurred last evening on San Francisco street. No arrests were made.

Over a score of Santa Fe people are going to Santo Domingo to witness the annual fiesta on Monday, August 4.

Assessor Anastacio Gonzales and assistants expect to have the assessment rolls for Santa Fe county completed by Saturday evening.

R. L. McCance and Fred L. Orady left this morning for Vega Blanca, where Mr. Orady will take a position on the engineering corps of the Santa Fe Central railway.

The telegraph line of the Santa Fe Central railway is complete and is being pushed rapidly from Torrance to Clark. The line is to be completed in two weeks.

A letter received from District Clerk A. M. Bergere last evening has it that he is recovering nicely from the result of an operation at the German hospital at Kansas City and that he expects to be home in about two weeks.

Jesus Gutierrez was given a hearing this forenoon before United States Commissioner John P. Victory on the charge of herding goats on the Pecos river forest reserve. Supervisor George Langenberg was the prosecuting witness and Assistant United States Attorney W. C. Reid, of Las Vegas, represented the United States. Commissioner Victory held the defendant for the United States grand jury of the Fourth judicial district in the sum of \$100.

Land Court Next Week—Earnings of Convicts—Drouth in County.

Hon. Matthew G. Reynolds, of St. Louis, United States attorney of the court of private land claims, will arrive in Santa Fe on Sunday or Monday to be present at the session of the court which convenes next Tuesday in that city.

M. T. Moriarity, of Moriarity's ranch in southern Santa Fe county, is a visitor in the territorial capital. He says that the drouth in southern Santa Fe county is shriveling the leaves on the trees and many trees are dying in his orchard.

An operation was performed upon Mrs. Celestino Ortiz, of Santa Fe, last Saturday at a Kansas City hospital. She is recovering nicely, according to the latest report. Mrs. W. N. Townsend is at the same hospital also recovering nicely from her illness.

Prof. H. A. Owen and bride arrived at Santa Fe from Worthington, Ind., and are guests for a few days of Prof. and Mrs. J. A. Wood. Next week they will leave for their future home at Silver City.

During the fiscal year which ended on June 30, the convicts at the penitentiary earned \$16,095.34 in cash, which was paid into the territorial treasury. If account were taken of the improvements made at the penitentiary and other public works by the convicts the above amount would be more than doubled. Besides the con-

victs raised all the vegetables, etc., which are used at the penitentiary.

Mrs. Marta Torres de Jaramillo, formerly of Santa Fe, but now living at Abiquiu, has been doubly afflicted lately. Only a few days ago her husband, Ramon Jaramillo, 28 years of age, died, and last Saturday their only surviving child followed the father to the grave. The child's name was Epifanio and was 1 year old. Mrs. Jaramillo is the daughter of Cornelio Torres, an old and respected resident of Santa Fe and a veteran of the civil war.

LAS CRUCES.

From the Progress.

Mr. and Mrs. J. W. Kezer left for southern California for a visit with relatives. They expect to be gone several weeks.

Mr. and Mrs. Fry and little daughter arrived in Las Cruces. Mr. Fry will fill the pulpit at the Presbyterian church. He comes from Albuquerque.

The band has succeeded in raising enough money to defray the expenses of concerts every Sunday night for the next month or so. The band is doing better on every appearance.

Newberry & Forbes, who are running the stage to Modoc, state that they are now running through to Van Patter's. This will be a great convenience to the people of the valley who wish to visit the Major's resort.

The late rains seem to have been fairly general. Heavy rains are reported at El Paso and both east and west of that place. Heavy rains are also reported in northwestern Chihuahua, and northwestern Sonora. The northern part of New Mexico got a hard rain as did Alamogordo and the Pecos valley. On the Rio Grande rain seems to have been scarce between here and Albuquerque.

From the Citizen.

H. I. Cleveland, associate editor of the Record-Herald, Chicago, and wife, who were guests of Major and Mrs. W. H. H. Llewellyn while here, are now rusticated at Van Patten's dripping springs.

Word was received here from A. A. Breece, an old time resident of this county, now living at Seattle, Wash., stating that his younger brother, W. L. Breece, was killed by Tracy, the outlaw. Mr. Breece was one of the many who joined in the hunt for Tracy.

From the Republican.

Patrick Breen left for Deming. H. D. Bowman returned from a two weeks' trip to the Pacific coast.

H. O. Crane, president of the Modoc Mining company, came in from Modoc and left the same evening for Chicago.

Mrs. F. C. Barker is still at Hotel Diet and continues to improve. She is now able to go out for a drive. Her daughter, Mrs. Browning, is with her.

Cipriano Baca, sheriff of Luna county, was here after a prisoner who skipped from Deming with another man's wagon and team. He was caught near the river by our officers.

Professor Herrick spent a day in Las Cruces, on his way back from his work laying out an irrigation system for the White Mountain Irrigation company, near Tularosa, in which Major Llewellyn, Judge Parker, M. Lohman, Mrs. Friend and others are interested.

ANOTHER MAN BITTEN.

He Has in His Possession a Batch of Worthless Santa Fe Street Railway Stock.

For the second time this year H. S. Lutz, the efficient agent in this city of the Santa Fe railway company, has had inquiries from men who have bought Santa Fe street railway stock in good faith, because it was represented to them that the city of Santa Fe had guaranteed the interest on the fraudulent bond issue from the proceeds of which the street railway company was to have been built at Santa Fe two years ago but never was built. The last inquiry he received was in the shape of the following letter:

Chicago, July 19, 1902.—Gentlemen: I am in possession of 500 shares of your railroad stock and want to convert it into money, and as same says on face of it that it is worth \$1,000 per share, I herewith ask if you will take the same off my hands. Kindly let me hear from you by return mail and oblige.

Yours truly,

J. W. REED.

With the Cook county department of the insurance company of the State of Illinois.

As the letter was addressed to the Santa Fe Railroad company, Santa Fe, the letter was delivered to Mr. Lutz.—New Mexican.

Horticulturists at Tucumcari.

Tucumcari, Neb., July 30.—The Nebraska State Horticultural society began its summer meeting in Tucumcari today with a large attendance, including well known fruit growers from many parts of the state. The meeting opened at 9 o'clock this morning with an invocation by Rev. C. F. McMann, followed by an address of welcome by Mayor Robb. The response was embodied in the annual address of the president, L. M. Russell, of Lincoln. Following these formalities the convention listened to interesting papers on horticultural topics, among them the following: "The Growing of Small Fruit on the Farm," H. J. Snyder, of Auburn; "Renovation of the Orchard," Prof. R. A. Emerson, of Lincoln; "Pruning the Orchard," T. E. Snodgrass, of Johnson; "Small Fruits for Profit and the Home Table," Mrs. O. A. Corbin, of Vesta; "Growing Ever-

greens from Seed," C. S. Harrison, of York. The convention will conclude its sessions tomorrow.

Marquette Chautauqua.

Marquette, Wis., July 31.—Notwithstanding the fact that a number of additional cottages have been erected since last year the accommodations are scarcely adequate for the crowds in attendance on the sixth annual session of the Northern Chautauqua assembly, which opened today. The record breaking attendance is due largely to the excellence of the program offered for the twelve days of the assembly. Among the prominent lecturers and speakers to be heard are Captain Hobson, Miss Ellen M. Stone, Congressman Champ Clark, of Missouri; Congressman Charles B. Landie, of Indiana; Miss Belle Kearney, of Mississippi; and Prof. P. M. Pearson, of Harvard university.

For Cowhiding Minister.

Richmond, Va., July 31.—At Amherst today Judge Clarence J. Campbell was arraigned for trial on a charge of felonious assault on Rev. C. W. Crawford, whom he horsewhipped in front of the court house at the June term of his court. The case has attracted wide attention, owing to the prominence of the parties, and the trial will be followed, with much interest.

Rev. Mr. Crawford is editor of the Christian Federation, a paper published in this city in the interest of the anti-saloon movement. Some time ago the editor criticized Judge Campbell for dismissing the case against a man charged with selling liquor in Amherst. Mr. Crawford asked in his paper, which was doctored the most, the whisky or the judge. Judge Campbell had the minister arraigned for contempt of court but discharged him. Afterward the two men met and Mr. Crawford held out his hand to Judge Campbell. The judge drew a cowhide and struck the minister several blows about the head and face.

Negro Christian Congress.

Atlanta, Ga., July 31.—Rev. J. W. E. Bowen, secretary of the Negro Young People's Christian and Educational congress, is in receipt of advices indicating an attendance of at least 5,000 visitors at the meeting of the congress to be held here next week. The delegates will come from all sections of the country and will represent all religious denominations and all walks of life. The chief object of the gathering, which is the first of its kind, is to ascertain the true moral, intellectual and spiritual condition among the colored people in all parts of the country and to inspire and stimulate aggressive Christian work among the young people and in the homes among the children. Prominent among those interested in the movement are I. Garland Penn, Booker T. Washington, Bishop W. J. Gaines, Bishop B. W. Arnett, Bishop Walters and Bishop Clinton.

Confederate Veterans.

Owensboro, Ky., July 31.—Owensboro is keeping open house in honor of the veterans of the Second brigade, United Confederate Veterans, whose

North Dakota Democrats.

Fargo, N. D., July 31.—Democrats of North Dakota assembled in state convention in Fargo today and were called to order by B. S. Brynjolfson, of Grand Forks. The convention will place in nomination candidates for governor and other state officials to be chosen this fall.

Politics in New Jersey.

Passaic, N. J., July 31.—The republican congressional convention of the sixth district is in session here today with a full attendance of delegates from Bergen, Passaic, and Sussex, the three counties comprised in the district under the new apportionment. There are several republican candidates, who are opposed to Congressman James F. Stewart, the present incumbent, notably, William M. Johnson, a prominent state senator and assistant postmaster general in McKinley's cabinet; W. C. Breckinridge, the state committeeman from the district, William Barbour, and Sheffield Phelps, son of the late William Walter Phelps. While the combination against Stewart is strong and there are other elements in the field against him, the indications point to his renomination, though not without a lively contest.

annual reunion began here today. At 10 o'clock this morning the visitors were escorted to Chautauqua, where the exercises of the day were held. There was an address of welcome by Major Haycraft and a response by Gen. J. B. Briggs, after which all formalities were laid aside and the veterans renewed acquaintances, exchanged reminiscences of war days and listened to informal talks by several speakers of prominence. Tomorrow there will be a parade, followed by the formal dedication of the Chautauqua.

Montana M. E. Conference.

Great Falls, Mont., July 31.—There is a large attendance of divines and laymen on the annual session of the Northern Montana M. E. church conference in session here with Bishop Merrill, of Chicago, presiding. The conference was formally opened in the First M. E. church this morning with devotional services, followed by the sacrament of the Lord's supper. This afternoon the annual missionary sermon was preached by Rev. W. A. Winters. The assignments will be announced later in the week.

Carnegie Gift.

Washington, July 31.—The trustees of the proposed national university are looking forward with pleasure to

receiving tomorrow the first installment of interest, amounting to \$250,000, on Andrew Carnegie's endowment consisting of \$10,000,000 of United

Double Hanging.

Wise, Va., July 31.—There is to be a double hanging here tomorrow, the first in the history of the county. The prospective victims are Charlie Blackman and Robert Foy, both colored. Blackman was convicted of the murder of Thomas Bates at Tom's Creek last month, while Foy's crime was the killing of a man named Dayton Miller at the same place last winter.

To Discuss Life Saving.

Paris, July 31.—A dispatch from Nantes says that several representatives of America are attending the international congress of life saving, preservation of health and maritime security, which opened in that city today under the auspices of the Society of Life Savers of Brittany. The congress will consider life saving in water and from fire, piloting in fog, life saving on board steamships, the moral and physical development of sailors and fishermen, and several kindred subjects.

Public Ownership Party.

St. Louis, Mo., July 31.—Followers of the public ownership party, the chief promoter of which is Leo Meriwether, the labor leader of this city, met in conference today to discuss plans for perfecting a thorough state organization and adopting a platform of principles. The new party is an offshoot of the allied party which was organized by Meriwether and others last year at Kansas City. It is purposed to interest in the movement all voters who believe in direct legislation and public ownership, and to carry out the principles of the Missouri State Federation of Labor.

Happy Surprise.

On Monday the birthday anniversary of Miss Lyon was happily celebrated at her home on South High street. A number of her friends called on her to her intense surprise, and a most enjoyable evening was spent.

Choral Union.

The choral union met last night and took up the study of "Gypsy Life." The meeting was at the home of Mr. and Mrs. T. Y. Maynard and Mr. Maynard acted as conductor.

Asphyxiated Dogs.

Albuquerque's homeless dogs go the asphyxiated route. Some of the city's officers have contrived an apparatus by which the unfortunate canines will be disposed of in a humane manner. A large sheet iron boiler has been provided. One end is air tight and the other is arranged so that a good sized dog can be admitted, whence no canine ever returns. After the dog is put in, the open end is closed and the gas is turned on. A few minutes does the work. As dog catcher George's appetite enticed him into the county jail, the dogs of the city will likely enjoy a needed rest.

Rock River Assembly.

Dixon, Ill., July 30.—The annual meeting of the Rock River Chautauqua Assembly opened today and will continue two weeks. A varied and highly interesting program has been arranged, including discussions and papers on living scientific, religious and social questions, and an unusually successful season is expected.

New Pacific Steamship.

New York, July 30.—With a full cargo the new twin screw steamship Nebraska sailed today on her maiden deep sea voyage to San Francisco. The Nebraska is one of three sister ships which have been built at Camden, N. J., for the American-Hawaiian steamship company. All three vessels are fitted with furnaces in which either oil or coal can be used as fuel.

Appointed General Agent.

A. C. de Baca, Jr., who has made his home in Mexico for the last five years, has been appointed general agent for the Republic of Mexico for the Hydro Carbon Light company. Mr. de Baca arrived in the city three weeks ago on a visit to his parents. While a resident of Mexico, he held several positions of trust, being once appointed interpreter by Senor Masical for the session of the Pan-American congress, which position he resigned on account of ill health. He was also employed under Colonel Hampton, the railroad magnate of Mexico. He was also traveling agent for the American Type Foundry, an institution doing business in Mexico with a capital of \$14,000,000. He also established the cosmopolitan agency in the City of Mexico in partnership with L. F. Fritzsche, of Amsterdam, Germany, and B. P. Northup, of New York. From this firm he retired two years ago to enter into mining business, connected with Hidalgo Mining & Smelting company at Sultepec, Mexico, of which company he was superintendent. He goes now as exclusive agent for the Hydro Carbon Light company, and his relations in that country with the high authorities there, are such as to enable him to establish for himself and the company an unlimited success.

Irrigation Suit.

In the district court for San Juan county a suit was filed at Santa Fe by the Independent Irrigating Ditch vs. The Halford Irrigating Ditch, being a dispute over water rights between Flora Vista and Farmington in San Juan county, the water being taken out of the Las Animas river.

Territorial Republican Central Committee Call.

To the members of the Territorial Republican Central Committee of New Mexico:

You are hereby notified that a meeting of the territorial republican central committee of the territory of New Mexico will be held in Albuquerque on Friday, August 22, 1902, for the purpose of fixing the date and place to hold the territorial republican convention to nominate a candidate for delegate to the Fifty-eighth congress of the United States and for the consideration of such other matters as may properly come before said committee. It is hoped that all members will be present at said meeting, as matters of importance for the interest of the republican party of the territory will be considered. Very truly yours,

FRANK A. HUBBELL,
Chairman Territorial Republican Central Committee.

It is safe to assert that O. N. Marron will not be a candidate for delegate to congress on the democratic ticket.

The El Paso Times says: "Albuquerque people are good hustlers and they are going to make a success of their fair."

It is almost certain that the territorial republican convention will be held at Raton in the first week of next October.

In addition to peace and British rule, Johannesburg is to have a big match factory, operated by the Diamond Match trust of this country.

A convention of delegates to the republican party of Arizona has been called to meet in Phoenix on Wednesday, September 17, 1902, for the nomination of a delegate to congress, for the selection of a republican territorial central committee, and for the transaction of such other business as may come before the convention. The total number of delegates apportioned among the several counties is 154.

The Denver News says that the experiments of the Edison company upon the black sands of New Mexico in the effort to save the gold therein contained by the application of electricity have been abandoned for the present. The cost up to date exceeds \$250,000, with no explanation from Edison or his partners as to the apparent failure of wherein the plant failed to meet expectations.

SUICIDAL MOVE.

The democrats of New Mexico are attempting a move, which, if carried into effect, will be a serious mistake, says the Denver Times. At the meeting of their territorial central committee August 3, it is intended to make certain demands regarding representation on the election boards, and, if not conceded, to the democrats will vote in opposing the admission of the republicans to the union. They state that they want a "fair" representation in

every precinct, but they are to be the judges of what is fair. Human nature is inclined to think that nothing short of all that it wants is just, and we suppose that the New Mexican democracy is quite human. If the republicans do not give them fairness according to the democratic measure they threaten to keep the territory out of the union.

Although there has been some opposition in the east to the admission of New Mexico, Arizona and Oklahoma, and the omnibus statehood bill was hung up until the next session of congress adjourns. But if the democrats of New Mexico execute their professed purpose they may succeed in defeating the passage of the bill. Hitherto the people of the three territories have acted in unison and have made a very strong showing of the justice of their claims to both congress and the country. Division means danger, and it will be very unfortunate if the democrats of one of the territories imperil the rights of all three territories by resorting to bulldozing tactics over a local political question.

The democratic politicians may accomplish their purpose to the extent of having the central committee endorse their scheme, but it is doubtful if the territorial convention can be forced to adopt an anti-statehood resolution. It is not likely that the mass of the democratic voters can be led into committing so foolish an act that will endanger their own interests.

FAIR ELECTIONS.

There is no disposition on the part of the republicans to take any illegal advantage of the democrats in the matter of suppressing frauds at elections. Both political parties are vitally interested and should work harmoniously together to secure fair elections. During the past twenty years the republicans of this city have had much trouble in preventing illegal attempts on the part of the democrats stuffing the ballot boxes. In 1882 they cast over 1,200 illegal votes at one voting precinct in this city. Ever since, they have tried to steal the elections. For force of habit it is almost second nature for a democrat to try to commit fraud upon the ballot. If they now desire to reform themselves, the republicans should meet the sinners more than half way, and help the wayward brethren to lead honest political lives.

HOW CRIMINALS ARE MADE.

The attorney general of Indiana, replying to an inquiry from the town board of Bourbon, that state, as to the validity of their curfew ordinance, said: "The right of towns and cities to regulate the running about of children after certain hours has been upheld by the supreme courts of all the states. It is within the police power of cities and towns, and a reasonable ordinance is a most excellent rule of conduct. I would not presume to advise upon the proposition as to when children should be called in. It may be said as a general proposition that the children who run the streets are the children who make the criminals, and after a very extensive experience in criminal prosecutions, I am convinced that fully 80 per cent of all criminals can be traced to the unrestrained liberty of children up to manhood in running about the streets, saloons and saloons."

PHILIPPINE CASUALTIES.

Major Parker's full report on the casualties in the Philippines contains some interesting figures. He gives the number of deaths from action in the field and from disease, and the number of wounded. The total of killed and wounded is 4,470; the total of deaths from disease is 47 officers and 2,535 enlisted men.

The total number of officers and men engaged in the Philippines was about 125,000, and the average number there at one time was about 40,000. Major Parker figures that the proportion of killed and wounded to the strength of the army was 9.7 per cent.

The comparatively small number of deaths from disease speaks volumes for the sanitation of the Americans and also for their physical condition. We can tell from these figures, without any detailed report, that the hospital service and the commissariat of the American army must have been excellent.

RODEY IS DESERVING.

The republicans of New Mexico are strongly in favor of the re-election of Delegate B. S. Rodey. His congressional career is a credit to him and reflects honor upon the territory. His fight in the house for statehood attracted the attention of the whole country and commanded the respect of congress. In addition to his earnest work for statehood, Mr. Rodey has not neglected any of the many other interests of New Mexico. No portion of the territory has been neglected by this untiring worker.

The seventeen delegates in the next territorial convention from this banner republican county will be a unit in favor of the re-nomination of Mr. Rodey. He deserves the unanimous vote of the people at the election next November.

FRIENDLY SUGGESTION.

The Las Vegas Optic suggests that Chairman Marron present to the republican committee a written request for a written agreement between the two territorial committees to the effect, that in all democratic counties the republicans shall be given in each precinct a minority representation on the boards of registration and election and in republican counties the democrats be given a like representation, and that the members of the board who represent the minority shall

be selected by the committee representing the minority party.

If a majority of a registration or election board is democratic, it is right that the opposite party should have a representation in whom it has perfect confidence and vice versa. Let the rule work both ways.

This suggestion is timely and if made by the democratic committee should be cheerfully considered by the republican committee.

Fair elections are necessary in New Mexico. There is no desire on the part of the republicans to take any unfair advantage and it is to the best interest of all concerned to protect the purity of the ballot. In no other way can a republican form of government be maintained.

RECLAIMING THE DESERT.

Another large area of public land has been withdrawn from public entry, this time in southern Arizona, from Needles down to the Mexican line and along the Colorado river. It is expected that the government will undertake some irrigation enterprises at this point in the near future. The country is strictly desert, but those small portions of it that have already been irrigated give bountiful crops in return.

STRIKE LEADER.

John Mitchell, president of the United Mine Workers of America, is leading one of the greatest strikes in history—that of the anthracite miners of Pennsylvania for an increase of wages. Opposed to the strikers is the combination of mine owners, which appears to be impregnable. Mr. Mitchell may lose in the strike now on, but he has raised himself greatly in public estimation by his manly advice against a sympathetic strike of the bituminous coal miners who have no grievance against their employers.

COPPER MARKET.

The fact that the month of June last broke all records for output of copper from the mines and smelters, has caused a renewed discussion of the copper market. The aggregate production of the metal last month was 26,740 tons (of 2,240 pounds each) against 25,703 tons in May, and 22,400 in June, 1901. The financial reviews agree in the conclusion that there is an immediate prospect of an advance, and on the other hand a further decline is not looked for. The market is practically dominated by the so called copper trust—the Amalgamated Copper company, and comments on the situation are based upon the business and policy of that company.

MINERAL REGION.

The country penetrated by the Santa Fe Central railroad, now in course of construction, is one of the most remarkable mineral regions in the United States. Along the route, a distance of only 117 miles, is found gold, silver, copper, lead, coal, turquoise, petroleum, salt and other valuable minerals. The whole region is richly mineralized, and millions of dollars have been taken from the mines, which are only partially developed.

It would be wisdom on the part of the officers of the Santa Fe Central to have a large exhibit of the wealth of the country along that road exhibited at the territorial fair. Messrs. Howell and Saint would be the proper men to have charge of such an exhibit.

CONVINCING PROOF.

The Average Albuquerque Citizen Must Accept the Following Proof.

The great Sir Isaac Newton, one of the most profound reasoners the world ever produced, once cut a large hole in a board fence to allow a favorite cat access to two gardens, and cut a smaller hole to allow her kitten to follow her. The weakness manifested in Sir Isaac's action was due to want of thought. Any reader who mentally debates the proof offered here about Doan's Kidney Pills arrives at any other conclusion than that stated in this citizen's statement, is as short of reasoning powers as the philosopher when he turned carpenter.

Mr. J. S. Wood, act., in the St. Louis Label Works, living at 306 Morgan street, St. Louis, says: "My old home is in Quincy, Ill., a place where Doan's Kidney Pills are a household necessity. When I first came to St. Louis several druggists on whom I called did not have them in stock, and I sent to an old friend, a pharmacist in Quincy, for them. I had attacks of kidney complaint for five or six years, causing my back to ache just across the loins. I found that Doan's Kidney Pills acted as represented and when I noticed them advertised at 'Wolf-Wilson's,' corner Sixth and Washington streets, I went there for a box, not that I required them at the time, but I thought it was a good opportunity to adopt precautionary methods."

Just such emphatic endorsement can be had right here in Albuquerque. Drop into the Alvarado Pharmacy and ask their customers report.

Sold by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

The man who is caged in or cooped up day after day without sufficient exercise is sure to suffer for it. Quite often the liver is the first organ which becomes disordered, and constipation, biliousness, sick headache and general physical torpor make life miserable. There's only one way to deal with liver "trouble" and that is to go to the root of the disease, and cure it once for all. Such cures of the disordered or diseased liver almost always follow the use of Dr. Pierce's Golden Medical Discovery. It always helps. It almost always cures. It regulates the liver, strengthens the stomach, and purifies the blood.

"Dr. Pierce's Golden Medical Discovery is the best medicine made," writes Michael Maher, of Littlefield, N. Y. (see Card 84). "I had yellow bile and liver trouble in November, 1900. Was almost dead, lost sixteen pounds in three weeks and my whole body was as yellow as gold, and I was sick and my stomach all the time. I tried three doctors and they gave me labels and pills and another one some other stuff, but I went to Messrs. O'Rourke and Hurley's drug store and got your Golden Medical Discovery. One bottle cured me and I thank it and God that I am a well man."

North Pacific Saengerfest.

Seattle, Wash., July 26.—Arriving trains today brought hundreds of German singers for the North Pacific Saengerfest. They come from Portland, Spokane, Tacoma, Walla Walla, Vancouver and other cities and Seattle is decorated with the German and American colors in their honor. The program will be ushered in this evening with a big concert in the Seattle Theatre under the direction of Prof. Alfred Lueben.

Chinese Minister Coming.

London, July 26.—Prince Chen, who came to London as the special representative of China at the coronation, sailed for New York on the steamship Philadelphia today. He is accompanied by his suite, which includes Sir Liang Cheng, the new minister to the United States, who probably will not return to China before assuming his official duties at Washington.

Winnipeg's Oarsmen.

Winnipeg, Man., July 26.—The Winnipeg Rowing club's representatives for the C. A. A. O. regatta leave today for Brockville. The four-oared crew is represented by Riley (stroke), Johnston, Bole and Richards (bow). The oarsmen are in good condition and have high hopes of returning with honors.

A Few Personal Paragraphs From a Good Southern Town.

San Marcial, N. M., July 26.—M. Cooney and wife, of Socorro, came down and paid us another short visit today.

H. S. Lohman, living on the other side of the bridge, is shipping quite a lot of nice honey in all directions.

Charles Hanna has resigned as clerk for S. G. Hanna & Co., and gone firing on the railroad. He made his first trip yesterday and seems to like it very well.

S. G. Hanna & Co. purchased the dwelling house and lots vacated by J. H. Tweed.

Albino Chaves, formerly merchant in the grocery business in old town, has sold out to A. Armijo. This makes A. Armijo the only grocery merchant in old town.

Ed LeBreton and family went for an outing for a few days to Saw Mill canyon. Will Howard and James Hitchcock are running the store while Ed is gone.

J. W. McCoach made another flying visit to his family yesterday.

The Santa Fe reading room has been moved from the company house to where Ed Zinc lived a few years ago, and Mr. Harlan has his office upstairs.

Court Brown, formerly switchman in the local yards here, is now at Doming acting as yardmaster. Mr. Lamm takes Brown's place as switchman.

Practical now.

We still maintain that the Navajo Indians should be given some aid in the way of work, by the government, the canal plan being the only feasible one. Thus far we have heard of no one taking any action in the matter other than Manager Browne, of the Hyde company, who has written Delegate Rodey earnestly urging him to intercede.—Farmington Hustler.

Official confirmation of this change could not be secured, for the reason that as yet General Superintendent D. E. Cain has not secured a successor to Mr. Eiler, and no arrangements will be made for changing Mr. Eiler to Topoka until Mr. Cain finds some one for the place. Until these various details are arranged, the officials of the Santa Fe refuse to confirm the report.

TWITCHELL AT THE BAT.

Base Ball at Las Vegas—El Porvenir Coal Fields.

THE TECELOTE GRANT.

Special Correspondence.

Las Vegas, N. M., July 28.—Quite a fair crowd turned out yesterday afternoon to the ball game to see the contest between two local teams, and, on the whole, a fair game was put up. The batteries were Gross and Clark on one side and W. B. Twitchell and Butterfield on the other. On Gross' side the score was eleven and on Twitchell's it was nine. The side on which Gross pitched was made principally of the regular team, but the teams were divided up to make an even game. The surprise of the day was Twitchell's pitching, there being really only three earned runs off his twirling. If he had had good support, he would have won the game. Mr. Twitchell has not pitched for years, but is an old time ball player and can hold down a regular game in the box if necessary. There were a whole barrel full of errors, but there was no doubt talent in the lot and there will be a splendid team here. Next Sunday there is a game on with the Albuquerque team, and on August 5 and 6 Lamar, Colo., will play here. Las Vegas will undoubtedly have good ball from now on and the team deserves united support.

The diamond drill at the El Porvenir coal fields was started yesterday and the expert says he does not think he will have to go over fifty feet to get the thickness of coal necessary to make the mining profitable. It is the plan of the company to put the drill down in numerous places over their land and find just where the vein extends and how to intelligently work it. The power for the drill has been furnished by horses, but it was found it was not sufficient and an engine was telegraphed for Saturday, to be rushed out to hurry the work. Mr. Romero says the work will be pushed just as well as day when the engine comes, and time will not even be taken for lunch, but another crew be put on to work. The company certainly means business, for on the showing made depends the running of the electric line to Porvenir, in a great measure.

W. E. Kelley, a lawyer of Socorro, arrived this afternoon for a visit to the local lodge. A banquet will be tendered him tonight by the lodge.

Charles Candy is a new employee at the shops. He works on the repair track.

The patent for the government for the Tecelote grant has at last been received here, and now a number of our mining men are on the anxious seat as to how the matter of claims there will be settled. The patent was granted in 1858, but had not been received here on account of the money for the survey not having been paid. A commission of a number of Tecelote's prominent citizens were elected some time ago to settle the survey and patent matter, and now report success. The disposition of the land is now the question. A large amount of the land comprised in the grant has already been taken up by claims and home-owners, but their title is more or less in doubt, and it is quite possible considerable litigation will result. In 1872 congress passed an act allowing the election of a commission to settle the matter of partitioning the grant, and that seems to hold good as an act passed by the territorial legislature some time ago setting forth that the commission should appoint that commission was nullified by the supreme court, leaving the matter where congress placed it, to the election of a commission by the citizens resident in the grant. The latter mode of procedure seems to be the most popular with many of the people interested in getting the partition settled, and will probably hold. It is to be hoped that it will soon be settled as the delay in partitioning and the question of titles is holding back greatly the development of the mines in the ground in question.

Heavy Rains Give Plenty of Water for Irrigation.

Special Correspondence.

Algodones, N. M., July 28.—Heavy rains north of here makes plenty of water in the river for irrigation purposes. This place has been lucky about water, at no time has there been a scarcity for irrigating crops.

The third cutting of alfalfa will soon commence.

Wheat is all harvested and threshed out and has given a very good yield. Corn looks fine and will make a good crop this season.

The fruit crop is simply immense. Most fruits are now ripe, with the exception of grapes and late peaches.

A ghastly discovery was made by Julian Fair the other day while leveling off some ground of an old corner in the south end of town. He found the skeleton of a man whose head had been crushed in with some blunt instrument. It had evidently been buried for some years. No person seemed to remember of anybody having disappeared for many years, and the general opinion is that the body is that of a stranger.

There was a Mexican circus in town last week and gave a very creditable performance.

WON AND LOST

"Lanky Bob" Had the Ponderous Boilermaker Bleeding But Could Not Knock Him Out.

BIG MAN STILL CHAMPION.

Arena, San Francisco, July 25.—After fighting a battle of eight rounds that was fraught with brilliant and courageous work, Robert Fitzsimmons tonight forfeited his last claim upon the heavy weight championship. He was knocked to the floor by James Jeffries and counted out after he had so badly punished the champion that it was a foregone conclusion among the spectators that the Cornishman must win. Bleeding from a number of gashes in the face, apparently weakening and clearly unable to cope with Fitzsimmons' superior skill, Jeffries delivered two lucky punches as Fitz paused in his fighting to speak to him and turned the tide. The battle was brief but it was noteworthy and will live in pugilistic history. Fitz tried once to arise from the mat but sat down again in helplessness and heard himself counted out, where, but a moment before, he had apparently all the best of it.

"I will never fight again," said the battle-scarred veteran of the ring when he had sufficiently recovered to talk. "The fight was fairly won and to the best man belongs the laurels."

"You are the most dangerous man alive," said Jeff in return, "and I consider myself lucky to have won as I did."

Fitz had been fighting at a furious gait, but was cool and deliberate and was chopping the champion to pieces with those terrific rights and lefts that have made him famous. It was a horse and the racer from the tap of the gong. When the men came together Fitz appeared rather worried, but upon the opening of the first round he assumed an air of absolute confidence and fought with a deliberation of a general. As early as the second round Fitz had Jeff bleeding profusely from the mouth and nose. Again and again he landed on his bulky opponent and kept getting away in such clever manner that it brought down the great house with cheers. It seemed, indeed, that Jeff could not weather out the gale.

Then came the eighth round and under a series of hot exchanges, Fitz paused with his guard down and spoke to the champion. The latter's reply consisted of two terrific blows that brought back to him the feeling of championship and forever removed veteran Fitz from the flat arena.

Fitz took his defeat with amazing coolness and good cheer. He walked to the center of the ring and raising his hand addressed the multitude, saying:

"The best man has won. Had I beaten Jeff tonight I should have conceded him the championship and forever retired from the ring. I retire now, just the same, but without having accomplished my ambition. I am satisfied."

After the fight Champion Jeffries was seen in his dressing room. He was jubilant over his success despite the terrible scars of battle. He said to the Associated Press:

"Well, I have won, just as I expected to. It was a fierce fight, the fiercest I ever had, but I won. Yes, I got a good beating as far as marks of battle count, but then I rather expected that. I knew that Fitz had a cutting punch and would land it at some time during the fight. But a few marks and the loss of a little blood won't hurt a man. I took my punishment and only waited for an opening to land my punch. I never was tired at any stage, and was stronger than Fitz at all stages. You saw that he wore heavy bandages and it was these that cut me up. I wore no bandages. Fitz is certainly a wonder. He is the greatest fighter of his weight that ever lived. As old as he is he is the shiftest and cleverest, and hardest hitting man I ever met. I want to give him the credit as I know that all who saw it will, for the great fight he put up. I have no plans for the immediate future as I have not thought of anything but this fight. For some time and I won't do anything for a long period. I will take a rest after the long siege of hard training. I think that Fitz can yet defeat any other man than myself."

At 10:05 p. m., Bob Fitzsimmons stepped into the ring, carrying his gloves and dressed in a long light blue bath robe. Following came Clark Ball, Hank Griffin, George Dawson and a bottle holder. At 10:06 p. m., Jeffries stepped into the ring dressed in a long overcoat, sweater and Panama hat, bandages and passing them without comment. Both men were given a warm reception.

Jim Corbett sent a challenge to fight the winner. This was received with applause, but when a moment later the announcer stated that Sharkey had sent a challenge there was considerable hooting and jeering.

Both men wore bandages on both hands but Jeff wore none. Fitz took his stool and sat quietly chewing gum. He looked well, slightly older than when he last fought in San Francisco, but much the same otherwise.

Ben Solomon was timekeeper for the club, Edward Heller for Fitz and Billy Gallagher for Jeff. When Jeff stripped off his sweater he showed up to perfection. He looked as if he had taken off considerable weight, but his muscles stood out firm and hard. His flesh was as brown as a berry, showing the effects of hard work.

Fitz was announced first and was given quite as hearty a greeting as that which was accorded the champion a moment later. Bob doffed his dressing gown, showing up in splendid shape. He wore short lavender tights and a belt of the American flag.

Jeffries wore black tights and a belt of the American flag.

Fitz has announced that he was fairly licked and has retired permanently from the ring. He announced that in the event of his winning he would have given the championship to Jeff.

A conservative estimate of the amount realized from the sale of tickets places the sum at \$35,000.

Election of Officers.
The fourth quarterly conference of

the Lead Avenue Methodist church met last evening, Dr. Morrison, the superintendent of missions, in the chair. The following officers were elected for the ensuing year:

Stewards—David Stewart, R. M. Ball, H. S. Grout, George Dent, S. Houghton, Frank Boyer, J. B. Fian, J. W. Edwards, Mrs. W. H. Jenne, Mrs. E. Downs, Mrs. G. H. Wilson.

Recording Secretary—J. B. Fish.

Trustees—F. G. Pratt, B. H. Ives, O. W. Strong, B. F. Davis, J. W. Anderson, Thomas Hall.

Dr. Bunker reported seventeen received by letter and three dismissed by letter during the last quarter and a net gain of about fifty full members during the last two years.

The conference decided to cut off the last \$100 of missionary money and so become entirely self-supporting.

The conference passed appreciative resolutions with reference to Dr. Bunker and invited him to return for another year.

BEATEN TO DEATH.

Well Known Citizen of Tucson Killed Last Night.

Tucson, Ariz., July 25.—Late last night Vincente Arena, one of the best known Spanish citizens of Tucson, was held up while on his way home by five Mexicans and cruelly beaten to death. Three men were arrested.

Mine Suits.

A suit was filed in the district court for Santa Fe county yesterday by Thomas B. Catron vs. J. P. O'Brien and Lizale P. O'Brien, asking for an accounting of the sale of certain mining properties, the proceeds to be applied to the payment of a lien held by Mr. Catron, and judgment for the amount of the lien above the proceeds. Mr. Catron advanced for development work of the mining properties in question \$13,456.31, which with interest on September 30, 1895, amounted to \$20,895.36. He has a lien on the one-half interest in the Mountain King, Good Hope and Summit, one-half of the three fourth interest in the Galena King and Silver King, and one-half of the three-sixteenth interest in the Parnell mining lodes in the new placers district, Santa Fe county.

LOCAL PARAGRAPHS.

Hon. B. M. Read and two daughters were in the metropolis yesterday. They went north to Santa Fe this morning.

G. Vargas, traveling representative of Hall & Leonard, the music dealers, came in from the south and reports good sales.

Mrs. F. A. Hubbell, who has been visiting relatives and friends the past few weeks in Socorro county, has returned home.

Associate Justice Daniel H. McMillan, who has been spending a couple of days in the city, was a passenger for Santa Fe this morning. The judge expects to be in Socorro Wednesday night.

Capt. A. B. Fitch stopped off in the city this morning while en route from his home at Magdalena to Colorado. Captain Fitch reports dry weather at Magdalena, only one light rain having fallen.

In the absence of Police Judge Crawford, Justice Borchert presided at the judicial bench in police court this morning. The cases of four vagrants were dispensed with. Two were discharged and two were fined \$10 or ten days.

The Williams News says: Miss Maude Hill and sister, Mrs. Harry Ainsworth, of Albuquerque, who have been visiting on the coast for some time past, came in Sunday evening and will visit relatives here until about the middle of September.

Architect La Driere, having in charge Joe Barnett's new three story building, commenced tearing down the adobe walls of the old Jacob Weinmann building adjoining, this morning, and hopes to start on the excavation of that addition in a very short time.

Messrs. H. B. and Harry Cloudman passed through the city this morning en route from El Paso, where they are connected with the El Paso smelter, to the state of Maine, where they will visit for a couple of months. Harry Cloudman is one of New Mexico's old timers.

Alfred Grunfeld, of Grunfeld Bros., wholesale dry goods merchants, who, with Mrs. Grunfeld, has been enjoying a pleasant visit in San Francisco and southern California, returned home last night. Mrs. Grunfeld will remain at the Golden Gate city some weeks longer.

Frank L. Hall, the deputy United States marshal, has let the contract for a handsome brick residence of six rooms on Marquette avenue between Fifth and Sixth streets, to John Hart, and the contractor says he hopes to have the stone foundation started tomorrow. The architect is La Driere.

Dr. C. G. Foukis, the well known dentist of Gallup, who was on a visit to Mississippi relatives and friends the past two months, came in from the south this morning and was a pleasant caller at this office a few hours later. The doctor says he had a fine time, and enjoyed the past week of his visit fishing at Beloxi, Miss. He will continue west to Gallup tonight.

Department Commander J. W. Edwards will go to Arton tonight to inspect the G. A. R. post at that place. After the inspection of the post at Raton Mr. Edwards while returning from Raton will stop off at both Las Vegas and Santa Fe and inspect the post at those places. He expects to do a little national encampment excursion talking while making the northern posts.

Frank Vajo's new two story brick rooming house, at 311 South First street is finished and is being furnished with elegant new furniture and carpets. It is modern in every appointment, being equipped with a fine system of sanitary plumbing. The upper story will be devoted entirely to sleeping rooms, and real cozy they are. On the ground floor will be the Arcade saloon. Everything is bright, neat, new and clean. Mr. Vajo expects to be ready for business about August 2.

OLD ABE MINE.

News of Its Purchase by the Eagle Mining Company Confirmed.

OTHER PURCHASES ANNOUNCED.

From the White Oaks Eagle.

Wednesday morning, J. M. Rice, of the Eagle Mining company, and the following parties, all stockholders in his company, arrived in White Oaks from Nogal and Parsons mining districts, where they had spent the past week in looking over those districts: C. Studebaker, William Toepp, South Bend, Ind.; Rudolph A. Kamm, Mishawaka, Ind.; C. A. Davis, George D. Lint, Samuel Anderson, E. M. Albright, Goshen, Ind.; J. H. Lloyd, Momence, Ind.; F. F. Parsons and Thomas B. Garret, Parsons, N. M.

The day was spent in examination of the Old Abe properties, including the gold mine, stamp mill, cyanide plant, pumping machinery and the coal mine. Captain Lloyd, the company expert, reported favorably on both the gold and coal properties, and the stockholders expressed themselves highly pleased with the situation, and state without reserve that they have purchased the properties and would charge the first of the month. Captain Lloyd is considered one of the ablest experts in the east, and the Eagle Mining company is running no risk on the big purchase made on his report. Parsons, Nogal and White Oaks, all together, represent a large amount of capital.

The sale of the Old Abe gold and coal mines came about in this way: John V. Hewitt, president of the Old Abe company, laid the plan before Mr. Rice, who went to Chicago and detailed the deal to his company, on which showing the company authorized the purchase; all this Mr. Rice accomplished in less than thirty days, which shows the tremendous business capacity of the man who is doing so much for the mining interests of Lincoln county.

The instituting of an electric power plant at the coal mines to operate the machinery of the mines of this district has been discussed, and the proposition was given the Estey Mining & Milling company by H. C. Cray, who was trying to interest that company here one year ago. The scheme was to run a wire to Estey mining district to propel the machinery of the company's leaching plant and smelter. However, the proposition has assumed greater magnitude since, and a plant, with power enough to operate the Eagle Mining company's machinery here, at Nogal and at Parsons, is under consideration.

This is one of the biggest enterprises ever fostered in this section of New Mexico, and will revolutionize the mining industry of this entire White Oaks country.

The Parsons group is known to be a mountain of low grade ore and a property that will remain a steady producer for many years to come. The American, Helen Rae and the Rockford group at Nogal, which will all be operated at once, the area treated by one big smelting plant and the same process, is an enterprise in itself of inestimable value, while the Old Abe, as a steady producer, carrying greater values with each hundred feet of depth, with its own fuel at hand, added to the company's properties at Parsons and Nogal, makes Mr. Rice's enterprise the greatest scope and value in the entire mining region of the southwest.

White Oaks, with her adjacent districts, is now taking on a new lease of life. Our coal will now be operated extensively and ultimately reach outside markets. Following the institution of electricity as power, a trolley line will connect us with the railroad, giving greater and much needed freight and transportation facilities, on the heels of which will come a demand for our resources of iron, marble, sulphur, fire-clay, copper, building stone, etc.

While the town for several years has been held up by the production of the Old Abe, alone, the prospects for other valuable properties to begin producing again has passed the uncertain period, and litigation, which has hampered and stifled the camp for several years, is now practically cleared up, and instead of having one producing gold mine and one coal mine in operation, several will be going before the first of the year.

The Helen Rae, which has been heretofore mentioned, has just been added to the company's properties at Nogal, and its development already begun. This insures prosperity for the Nogal district and will keep things humming there in the future.

Owing to the fact that the Eagle was unable to get the information desired concerning the purchase of the Old Abe properties until this morning, our make-up was finished and the paper of, necessitating a supplement, and limiting us to a briefly stated review of the situation, in order to reach the afternoon mails. However, we will keep track of the development of this and every other mining district of this section of New Mexico, and give our readers the facts as promptly as diligent effort can secure them.

Released from Prison.
Michigan City, Ind., July 25.—By virtue of a commutation of sentence granted by President Roosevelt, Isaac Sloan, the last federal convict in the Indiana state prison, was given his release today. Sloan was sent up for life in 1895 from Kentucky for killing a secret service agent.

Deadwood Making Merry.
Deadwood, S. D., July 25.—The Deadwood carnival which opened today fulfills all the expectations of the enthusiastic folks who promoted it. The city is in holiday attire and delighted visitors from far and near fill the streets and patronize the many attractions offered. With favorable weather there will be five days of merry-making such as Deadwood never before has seen. Chief Ned Cloud and a party of Indians and a troop of the Thirtieth United States cavalry are among the participants.

OTERO COUNTY EXHIBIT

Fine Exhibit Coming From That Enterprising County.

LUM HALL AT WORK.

C. C. Hall, the Albuquerque fair missionary, arrived in El Paso last night from Alamogordo, where he has been exhorting the people of Otero county not to hide their light under a bushel, but to pitch in and help Superintendent Greig and Superintendent Alexander make that Otero exhibit to the fair one that will spread the fame of the county, says the El Paso Herald. They promised to heed his admonitions and will be "there with the goods" when the fair comes off. He also extended them the hand of fellowship and invited them to get in line and come to the fair with the rest of the people of New Mexico. The Alamogordo brass band, one of the best in the territory, declared their intention of going in a body to make a few strains of melody for the big fair. They will buy brand new uniforms to wear on the trip.

The base ball feature, Mr. Hall said, was of great interest to the Alamogordo people, and El Paso can expect to get a big crowd from that town when the teams come down here to play. The base ball feature will be one of the greatest attractions of the fair and the management assures the people that better ball was never seen in the west than will be played at the fair and in El Paso. The suggestion that racing be added to the ball games in El Paso has been received with enthusiasm, and Mr. Hall states that if it is decided to have races in El Paso he will do all in his power to get all the good performers from the fair to come here, and the rest of the fair management can be counted upon to do the same.

James Martin introduced at The Citizen office this morning Theodore Graf, whose wife is a sister of Mrs. Martin and to whom he was married in Old Albuquerque over twenty years ago. Mrs. Graf and daughter, Miss Juanita, accompanied the husband and father to the city. The gentleman is the editor of Volksblatt, published at Hermann, Mo. They are here to remain a week or ten days.

THE MACKAY FUNERAL.

Requiem Mass in St. Mary's Roman Catholic Church.

London, July 25.—Many American and English friends of the family were present today at the requiem mass in St. Mary's Roman Catholic church, Cadogan square, for the repose of the soul of John W. Mackay. Mrs. Mackay, who is still prostrated, remained at home. The Countess Telfer is quite ill at Walsingham hotel.

Mr. Mackay's body was taken last evening to Nottinghill convent, where it will remain until taken to America in September or October.

Word comes from the Jemez hot springs that Hubb Leeds is dangerously ill, and fears are entertained for his recovery.

Several Were Injured.

Chicago, Ill., July 25.—Several persons were injured in a fire here today that damaged the twine warehouse of the McCormick Harvesting Machine company \$75,000 worth. It is not thought any one was fatally hurt.

LYNCH TRIAL ENDED.

British Officer Who is Accused of High Treason.

London, July 25.—The case of the government against Col. Arthur Lynch, elected to represent Galway City in the house of commons, and accused of high treason, ended in police court today. Lynch was remanded to give his counsel an opportunity to review the evidence. Two Americans testified they were arrested by Boers, charged with being British spies, and that Colonel Lynch was the public prosecutor.

Hank Thomas, who has been suffering with rheumatism the past few weeks, left this morning for the Jemez hot springs, and during his absence John S. Neeland will attend to his watch at Sturges' European bar.

Socialist Nominations.

Bozeman, Mont., July 25.—The socialist state convention nominated George B. Sprule, of Helena, for congressman, and J. V. Cameron, of Chico, for associate justice.

Robert Hennessy and A. Scheurich.

Two well known Bland citizens, are at the territorial capital on business.

Chamberlain Cheered.

London, July 25.—Colonial Secretary Chamberlain appeared in the house of commons this afternoon for the first time since his recent accident. He was greeted with hearty cheering.

SERIOUS CONDITIONS.

High Water Again Causes Much Trouble in Texas.

Dallas, Texas, July 25.—The trouble from the floods has shifted to the more southern portions of the state. Reports from Hearne and Calvert show more heavy rains fell last night and today, and conditions are becoming serious. Washouts are reported on the Missouri, Kansas & Texas railroad and also on the Santa Fe. The Cotton Belt railroad is cut off from McGregor on account of high water. The International & Great Northern track is washed away at High Bank. The town of Boque, west of Waco, is surrounded by water. No loss of life is reported.

SPALDING RELEASED.

Writ of Habeas Corpus Issued by Judge Dunne.

Chicago, Ill., July 25.—Judge Dunne, today, issued a writ of habeas corpus for Charles W. Spalding, formerly treasurer of the University of Illinois, and president of the defunct Globe Savings bank, now serving a term in the state prison at Joliet, for embezzlement.

The plea in behalf of Spalding is that the law under which he was convicted was special legislation and therefore unconstitutional.

Supreme Officers.

On Thursday night the officers of the supreme lodge Knights of Pythias will pass through here on their way to San Francisco. They will remain here about an hour and will be met by local members of the order.

Postmaster Hopkins has received a letter of inquiry from J. E. Allen, of Seattle, Washington, asking for information of the whereabouts of Miss Myrtle Brackney, a cousin of the writer, who was to have married a man by the name of Idle, reported to be living somewhere in central New Mexico. Mr. Allen has been seeking to find his cousin the past four years as information of great importance awaits her at Seattle.

WREN'S DEATH.

Paralyzed in This City Ten Years Ago—Died in Santa Fe.

Edward W. Wren died at the St. Vincent hospital, Santa Fe, the other evening. His funeral was preached by Rev. W. Hayes Moore, of the Presbyterian church, with interment in the Fairview cemetery of that city. About ten years ago, while a bartender at one of the Railroad avenue resorts (now known as the St. Elmo), Wren was stricken with paralysis. He remained here for a few days and on showing no improvement in his health he was sent to the St. Vincent hospital at Santa Fe. There he has been ever since, never recovering the use of his limbs, and now his death has occurred. Wren was a great sufferer. He was known to have had rich eastern relatives, and it is hoped that they looked after his wants during his long confinement at the hospital as an invalid.

Excursion to Santa Fe.

The Elks of this city are arranging a big excursion to Santa Fe some Sunday in August. The intention is to arrange a base ball game between the Elks, a picnic and other amusements at Santa Fe. A low round trip rate has been granted by the Santa Fe road. The special train will leave this city at 7 o'clock in the morning and leave Santa Fe at about 8 o'clock in the evening. A committee from the Elks lodge of this city will soon confer with the Elks of Santa Fe and agree upon the program of amusements of the day. This will be the only big cheap excursion that this city can secure this summer, and it is expected that at least 500 people will visit the Capital City on that occasion. The regular fare to Santa Fe and return is \$6.50. The excursion rate will be only \$2.50 for the round trip.

SOUGHT SHELTER.

Lieutenant of Coal and Iron Police was Attacked.

Shenandoah, July 25.—Thomas Tosh, lieutenant of coal and iron police, was attacked by strikers today and compelled to seek shelter. The strikers say Tosh was active in attempting to induce mine workers to return to the collieries. Last night a workman was severely beaten by a mob.

SELF GOVERNMENT.

Chamberlain Outlines Plans of Great Britain About Africa.

London, July 25.—Sir Henry Campbell Bannerman today asked information as to the colonial conference. He expressed the hope that lenient treatment would be extended to the Boers. Mr. Chamberlain replied the one spirit animating the members of the conference was the desire to draw closer together the constituent parts of the empire. The government reserved to itself the important right in the new colonies to refuse to allow to return or to keep watch over persons who showed themselves inimical to good order and peace. The colonial secretary said the imperial government had established a crown colony in the strictest sense. The next step would be to add a nominated official element. Thereafter there would be elected an official element and then nothing but circumstances and time would separate the new colonies from full self government, the ultimate goal of their ambition. That consummation would not be delayed.

Incorporations.

The Tucumcari Electric Light & Water company was incorporated by Alex. D. Goldenberg, J. A. Street, C. H. Rankin, Jacob Wertheim and T. W. Heman. The capital is \$10,000, divided into 2,000 shares. The headquarters are at Tucumcari, Guadalupe county. The officers of the company are C. H. Rankin, president; J. A. Street, vice president; T. W. Heman, secretary; Jacob Wertheim, treasurer. The directors are C. H. Rankin, J. A. Street, T. W. Heman, Alex. D. Goldenberg and Jacob Wertheim.

The Barnett & Morrow Land, Irrigation & Orchard company filed incorporation papers, the incorporators being Richard B. Barnett, Hugh R. Morrow, John Barnett, Mary P. Morrow and Lizale Barnett. Capital, \$50,000, divided into 5,000 shares. Headquarters at Roswell, Chaves county. The company will build an irrigation canal three miles long, taking water out of the Rio Felix in Chaves county to irrigate land in sections 3 and 12 of township 14 south, range 26 east, in Chaves county. The directors are Richard B. Barnett, Hugh R. Morrow and John Barnett.

King Humbert's Memory.

Rome, July 25.—The second anniversary of the tragic death of King Humbert, who was assassinated at Monza, July 29, 1900, by Gaetano Bresci, an anarchist, was observed today by commemorative services throughout the kingdom. Rome was the center of the observances, there being hundreds of visitors here on a pilgrimage to the tomb of the dead monarch in the Pantheon. There were music and religious services and the delegations filed past the vault containing the remains of King Humbert and there deposited magnificent wreaths in the name of the various provinces of Italy and of civil, military and labor organizations.

FOR SENATORS.

Governor Otero and De'legate Rodey Mentioned as Aspirants.

THE OTHER TERRITORIES.

A special dispatch to the St. Louis Globe-Democrat from Washington, D. C., says:

The resignation of B. S. McGuire, assistant United States attorney for Oklahoma, was received by the attorney general today and will be promptly accepted. Mr. McGuire has been nominated for delegate from Oklahoma by the republicans to succeed Dennis Flynn, who declined a renomination. Mr. Flynn has undoubtedly assurances from the republican leaders of both houses that the question of statehood for the territories will be taken up just as soon as congress assembles in December, and that Oklahoma will be admitted as a state. With this assurance Mr. Flynn, who has been long the republican leader of the territory, is laying his plans to come to the senate. He is devoting his time to seeing that friends are nominated in the different counties for the legislature, and doing everything in his power to be sure that a republican legislature is elected.

Much of the same aim, which animates the democrats and republicans in Oklahoma is possessing the two parties in Arizona and New Mexico, where the prospects for statehood are regarded as just as bright as for Oklahoma. Delegate Rodey, republican, of New Mexico, has senatorial aspirations. So has Delegate Mark Smith, democrat, of Arizona. Mr. Smith is not putting up as lively an anticipatory campaign as his republican friends in the other territories, and is going to Europe for the summer. Governor Otero, of New Mexico, will be a candidate for the senate from that territory, if it is admitted to statehood, and the outlook for Rodey and Otero as the senatorial team is said here to be good. New Mexico being admittedly a republican stronghold under ordinary conditions.

MANY WRECKS.

Cyclone Played Havoc Along the Gulf of California.

Tucson, Ariz., July 25.—A cyclone visited the Gulf of California coast Thursday night, wrecking vessels and damaging buildings. The winds have been down, delaying the news. At Guaymas five vessels, including two large steamers, were dashed ashore. At Magatlan a passenger steamer was sunk and five passengers drowned. Much wreckage has washed ashore along the coast and it is believed many lives were lost in shipwrecks.

Mrs. J. W. Anderson and nephew, Carl Faust, will leave this evening for a four months' visit with relatives in Boston and other eastern cities.

The Gentlemen's Driving association will hold a meeting up stairs over Zeiger's Cafe tonight to arrange a matinee of races for next Sunday afternoon.

W. L. Bradley, for the past year operator at the local office of the Western Union Telegraph company, left today for the south. His objective point is El Paso.

Mr. and Mrs. Harvey Jones and daughter, Miss Pearl, who have been visiting with the family of H. E. Rogers the past few weeks, left last night for their home at Ames, Iowa.

A. R. Gibson, of the American Consolidated Copper company and of the Gibson Development company, operating mines in southern New Mexico and Arizona, passed up the road yesterday for Santa Fe.

J. B. Jones and W. L. Harris, two gentlemen from Williams, Arizona, are here today, and tomorrow they will take charge of the "Horse Shoe" saloon, having purchased the resort from Branaugh & Kellerman.

The Lamar, Colo., base ball team has written for dates with the Browns. They are booked for Las Vegas on August 5 and 6, Santa Fe, August 7 and 8 and want the next two dates at Albuquerque. The Browns can get all the games they want, but do not care to make any arrangements until a pitcher can be secured.

Thomas C. Cooper, a contractor and builder from Philadelphia, died this morning at his room on West Lead avenue from tuberculosis. Deceased was 29 years of age and came here a few days ago from Phoenix, Arizona. The body is being embalmed by Undertaker Borders and it will probably be shipped back east for burial.

J. H. O'Reilly, president of the New Mexico Fair association, and wife were treated to a delightful vocal serenade at their home on West Tijeras avenue last night. After a couple of songs, beautifully rendered under the window, the merry makers were invited on the inside, where appropriate refreshments were served. The Apollo quartet, composed of Messrs. Hunt, Bell, Bullard and Burg made the music.

LAS VEGAS LOCALS.

Freight Trains Wreck - Base Ball Enthusiasm.

ODD FELLOWS BANQUET.

Special Correspondence.

Las Vegas, N. M., July 29.—Considerable enthusiasm is being worked up over the ball games to be played here. Colonel Twitchell is demonstrating that he is the proper person to manage a first class team. It is understood Albuquerque will come loaded for the game next Sunday. They will come in Saturday evening, and it is expected that they will bring along a crowd of "rooters."

Died, yesterday evening, at the Ladies' home, George Rucker, colored. The deceased died of tuberculosis and was a young man. He had been porter in B. M. Blauvelt's barber shop some time ago, and was quite popular among the local colored people. He has a brother living in Topoka, where he hails from, and a friend is expected in this evening to care for the remains.

John York is taking his Sunday school class, composed of W. G. Haydon, J. N. Furlong and J. A. Dick out to Kroenig's lakes this afternoon to teach them the first rudiments of the piscatorial art. They will stay over night and try to catch the fish while they are asleep.

There was quite a serious wreck on the other side of Wootton on the Raton mountain about 6 o'clock this morning, in which twenty-eight cars loaded with merchandise were ditched, including the two engines. No one was hurt except Engineer Leason, who had a leg broken. The cause of the wreck was the breaking in two of the train, ditching the train which afterwards caught fire and was almost entirely burned up. The wrecking crew was immediately telegraphed for and left here at 8 o'clock with a forty-five mile per hour schedule. The particulars were not received here in full, for it being on the other division, they were telegraphed through to Superintendent Fox, who was up the road. The wreck is one of the worst freight wrecks that has occurred on the road for some time, and the loss is considerable, not only on account of the cars being burned, but upon the destroyed merchandise. The trains from the north, Nos. 3 and 7 are expected to arrive here at 6:10 and 7:10, as at present calculated, but as the wreck was not clear until 2 o'clock it most probably will be later.

Mrs. H. W. Kelly will entertain a number of friends on Thursday evening.

T. B. Catron is here from Santa Fe seeing the sights of the Meadow city and jolly up his political friends.

W. C. Nones and grandson departed this afternoon for their home in Louisville, after a pleasant visit in the city. Mr. Nones is president of the Agun Pura company here, and has many friends in the city. F. H. Pierce accompanied Mr. Nones up the road as far as La Junta.

Capt. E. G. Austen returned this afternoon from his trip over the Dawson railroad adjustment case.

Dr. E. L. Epperson and brother, with the architect and engineer, went out to the power house site for the new electric railway and laid out the stakes for the building this afternoon.

J. Kartheim, the popular wool buyer who has been in the city for the past two months, departed today for his home in Boston, Mass.

The meeting of the Odd Fellows' lodge last night to meet Grand Master W. E. Kelley, of Socorro, was largely attended. A regular meeting was held and Mr. Kelley was very much pleased with the showing made by the local lodge and the increase in membership since his last visit. After the regular lodge meeting the Rebecca's joined in and there were a number of addresses made. Mr. Kelley made a neat address; also talks were made by H. T. Unsell, Mrs. Garlio and others. After the talks came a fine banquet served by the Rebecca's, and the gentlemen are particularly unstinted in their praise of the supper. Mr. Kelley left this afternoon for Raton on a further inspection of the lodges of the territory.

A number of natives went against the purple bowl too hard yesterday evening and became incapacitated for further work. One of them also got too free with some lady and they both were run in and spent the night in jail.

Gay Gatchel, who has been in bed threatened with appendicitis, is able to be at work again, though not entirely well.

What might have been a fatal accident happened to Mrs. Fetterman this morning on Sixth street, opposite to Mrs. Waring's. She was driving a buggy when the horses became frightened at a bicycle and, turning quickly, threw Mrs. Fetterman over the dashboard, injuring her considerably. Mrs. Fetterman is quite an elderly lady and the bruises she received will make her lame for some time. No bones were broken, fortunately, but some serious bruises were received. The horse stopped immediately after the accident.

G. A. Gumpert, who has been on a six weeks' vacation in Kansas City, will return tomorrow and take back his chair at Gregory's barber shop.

Cured Paralysis.
W. S. Bally, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." Loc. 50c and \$1.00 bottles at Cosmopolitan Pharmacy—B. Rupp.

Killed at El Paso.
There was a double accident on the Santa Fe near the smelter last evening at 6:45 o'clock in which one man lost his life and another was seriously injured. Luz Basquez is the dead man and Francisco Fierro the injured.

The men were hit by a work train in charge of Conductor Watlington, who says that they were drunk on the track. They were lugging each other, he says, and paid not the least attention to the whistle or bell. After the engineer saw that they were not going to move, he made a great effort to stop, but failed to do so and both men were run over. Basquez was killed and Fierro badly hurt. The body of the dead man was brought to the city and Fierro was turned over to his family near the smelter. Deceased was about 30 years of age and the injured man was some younger. —El Paso Herald.

A Cure for Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwater, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by all druggists.

Mosby's Men in Reunion.
Leesburg, Va., July 30.—Survivors of Col. John S. Mosby's famous band of Confederate fighters met in annual reunion in Leesburg today. The town was decorated in their honor and the citizens kept open house. The court house green was the scene of the day's festivities. The formal exercises included a cordial address of greeting from Col. E. V. White, to which response was made by Col. John H. Alexander, president of the veterans' association. The ranks of the veterans are being rapidly thinned by death and scarcely a handful remain to take part in the annual reunions.

Many persons in this community are suffering from kidney complaint who could avoid fatal results by using Foley's Kidney Cure.

WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Station.

Santa Fe, N. M., July 29.—Warm, cloudy weather, with light scattered showers, characterized the past week. Southern and southeastern sections, and the mountains of the north, have been blessed with very fair showers, but the absence of a general rain, or of even the frequent showers customary at this season, over the prairies of central and northern counties is causing some anxiety for the second and third crop of alfalfa, nor is the improvement expected at this season noticeable in the general condition of stock. These conditions, however, are by no means universal over the prairies, many localities reporting good showers and marked improvement. Neither have the rains been sufficient to create a steady water supply in the rivers, excepting in a few instances, and there is a very general scarcity of irrigation water in the ditches. Where the water has not failed the crops under ditch are making very satisfactory progress, but on temporal lands, especially away from the mountains, the little planting that was done has almost entirely dried up in a great many localities. Corn, beans, peas, late wheat, oats and garden crops, in general, being as a rule under ditch and entitled to first water, seem fairly promising, but much of the second growth of alfalfa in northern sections was hardly worth the cutting, and at present the third growth is coming very slowly. Grass on many of the central and eastern stock ranges is as dry as in midwinter, and there is a general lack of outside water, but, notwithstanding the seeming contradiction, reports indicate that stock as a rule are still doing fairly well. Wheat harvest has begun in the northern Rio Grande valley; although the stand is somewhat short it is believed the quality is very good. Early peaches are coming into northern markets; later varieties of peaches, and plums and cantaloupes, are being shipped from southern markets.

The following remarks are extracted from the reports of crop correspondents:

Alamogordo—James C. Dunn: Crops under ditch have done well but on account of the extreme drought the range was in very poor condition, and stock was getting thin. The rains of last week, however, will entirely change the conditions. Young trees have had a hard time to struggle through the season, but fruits are in first class shape.

Albert—H. M. Hanson: The drought has been but slightly relieved by the light, scattered showers. A remarkable season so far for the rare occurrence of thunder storms, there being but one well developed thunder storm in this vicinity this summer. Third crop of alfalfa will be very light, and prairie hay, if any at all, will be very light and confined to regular weas. Highest temperature, 92; lowest, 55; rain, 0.41.

Arabela—A. M. Richardson: Good showers have seemingly broken the drought, and corn begins to look very well. Highest temperature, 87; lowest, 66; rain, 0.68.

East Las Vegas—John Thornhill: The storm of the 19th with its wind and hail, stripped trees of fruit and foliage, greatly damaged fields and gardens in its path, and killed many sheep, goats and calves. Corn and oats are looking fairly well. Second alfalfa is secured, but scarcely one farmer in ten had any to cut. River is still low and irrigation ditches dry.

Eastview—J. W. Corbett: Drought continues unbroken. Beans and vines generally look well, but corn will be almost a total failure. Farther east good showers have fallen and grass is growing nicely. Highest temperature, 84; lowest, 42; no rain.

El Rito—P. Lopez: No rain during the week, and the high winds have made it disagreeably dusty.

Espanola—P. H. Leese: Drought is at last broken but what will be a poor yield, and on account of the drought and grasshoppers second alfalfa is very light. Corn looks well, and fruit is fine. Plums and Alexander peaches ripe. Plenty of water in the ditches during the past ten days and crops have been fairly well irrigated.

Folsom—Jackson Taber: Drought continues; the light rains being purely local and doing little good. Grass is as dry as in midwinter, but stock continues to look well. In this neighborhood the springs are holding out fairly well. Second alfalfa is about ready to cut, and is a fairly good crop considering the drought. All kinds of fruits doing well. Highest temperature, 84; lowest, 44; rain, 0.25.

Geronimo—N. M. Nelson: The heavy storm of the 19th did considerable damage to crops east of the Tecolote.

Hohart—W. H. Hough: Heavy rains during the week have furnished plenty of water. Corn and other crops are doing well. Wheat harvest will begin next week, and promises well.

Lower Penasco—H. W. Cresswell, Jr.: Good rains during the whole month; range grass is fine but there is not much stock water. Second alfalfa all secured and third growth doing well. Corn in tassels; a good crop assured. Cane very promising. Early peaches ripe, and a large crop.

Medilla Park—R. H. Hart: Slow, soaking rains have refreshed vegetation and have been of some benefit to crops. Roasting ears are on the market; some cantaloupes have been shipped. Highest temperature, 92; lowest, 60; rain, 0.90.

Ojo Caliente—Antonio Joseph: The long and disastrous drought has at last been broken by two copious showers during the past week, and this with the rains in the mountains have replenished the streams. Grass is coming up nicely, and if the rains continue water feed for the stock is assured. Highest temperature, 90; lowest, 65.

Santa Fe—United States Weather Bureau: Some good showers in the vicinity, but very light at station. Corn is now growing rapidly, and third alfalfa promises a heavy crop. A fine quality of early peaches is ripe. The recent rains have greatly improved the fruits. Prairies are comparatively green, and there is plenty of irrigation water. Highest temperature, 89; lowest, 51; rain, 0.05.

Sapello—M. A. D. Rivers: Fine

rains the latter part of last week have caused great improvement. Crops advancing rapidly, grass is good, and stock looking well.

Woodbury—A. J. Woodbury: Highest temperature, 85; lowest, 52; rain, 0.04. R. M. HARDINGE, Section Director.

A Worm Killer.
J. A. J. Montgomery, Puxico, Wayne Co., Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c. at Cosmopolitan Pharmacy—B. League Players Assured.
The Independent is happy to announce that El Paso will have a base ball team at the New Mexico territorial fair. A week ago it looked as if nothing could be done in this direction, and there was a feeling, too, that Albuquerque had by foresight and energy secured a class of players that could not be equaled by any city could send there. But while Albuquerqueans are energetic they are also generous and have clearly shown that they desire nothing but an equal chance. And for this they should receive all praise.—El Paso Independent.

Eczema, scald head, hives, itchiness of the skin of any sort instantly relieved, permanently cured. Doan's Ointment. At any drug store.

The new line from Lordsburg to Hachita, on the El Paso & Southwestern line has been completed and is ready for the service to begin on it, but until September 1 it will be in operation only for a freight contract which the Arizona Copper company, operating at Clifton, had with the Southern Pacific company which reaches to that date. The trains from Clifton, starting September 1 will pass through Lordsburg to Hachita, where freight and passengers will be delivered to and received from the El Paso & Southwestern railroad.

Croup instantly relieved. Dr. Thomas's Electric Oil. Perfectly safe. Never fails. At any drug store.

FROM ALGODONES.
Family of A. J. Frank Arrived—Brick Making—Other Items. Special Correspondence.

Algodones, N. M., July 29.—A. J. Frank's family, Mrs. Frank, Miss Edna and Dorothy, arrived here this morning from California, and will make their home here in the future. Mr. Frank is building a \$2,500 residence, which will be finished in September. C. H. Briggs, proprietor of the Highland hotel, came in today, and will spend several days here, with an eye for business, and says he is delighted with the place.

The brick gang are making brick every day and will burn the first kiln in about ten days.

The smelter company are waiting for the railroad company to put in siding, when material will arrive and building will be rushed at a lively rate.

Consumption Threatened.
"I was troubled with a hacking cough for a year and I thought I had consumption," says C. Unger, 211 Maple St., Champaign, Ill. "I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of Foley's Honey and Tar. It cured me, and I have not been troubled since."

New Towns in Texas.

Dallas, Texas, July 31.—The construction of the new Fort Worth division of the International & Great Northern has resulted in the building of many new towns in the productive territory of Waco. The country traversed is very rich and is also a heavy freight producing section, so that the new towns constructed along the line do a good business from the start. A good example is found in the town of Mart, which in less than a year has grown from a farm house, store and cotton gin to a thriving city of 1,500 inhabitants.

EAGLE MINING COMPANY.

Buying Up Good Mines in Several Good Districts.

BIG ENTERPRISES.

A special dispatch to the Denver News from Captain, under date of July 29, says:

The Eagle Mining & Improvement company is gradually getting its large Parsons enterprise under headway. The managers have now practically accomplished everything they set out to do except the construction of their large cyanide plant. They are, however, working on this, and it is thought they will have it in operation in the course of a few months. The big task they had on hand of getting control of a sufficient supply of water through the purchase of water rights along the Rio Bonito has been successfully accomplished, and this company now controls the flow of that stream from Parsons down to Angus postoffice.

This company, however, does not intend to confine its operations to the Parsons district, as is shown by the fact that a deal has been closed whereby they have come into control of the Old Abe mine, at White Oaks, together with 320 acres of coal land near that place. It is not thought that the Eagle stockholders have purchased this mine so much for its value as a mine as to get possession of the vast coal deposits controlled by the Old Abe company. The Eagle company has been endeavoring for some time past to get hold of some coal land, to be operated in conjunction with their gold properties for the purpose of insuring an adequate supply of fuel at all times. While the New Mexico Fuel company, at this place, could have supplied them with all the coal they needed, they preferred to own their own coal mines.

If the present plans of the Eagle company are carried out, electricity will be the only power used at their Parsons and Nogal mines. This will be generated by a plant erected at their newly acquired coal mines, and transmitted by wires. John M. Rice, manager, is in Chicago, but is expected back soon, when it is thought he will rush the construction of the cyanide plant.

J. W. Salmon, of this place, returned yesterday from a prospecting trip in the White mountains. He was this morning exhibiting one of the finest specimens of gold bearing rock ever found in this part of the territory. While the piece which he is showing is no larger than a turkey egg, several dollars worth of pure gold as ever came from a crucible is to be seen clinging to the sides of the rock. The rock was picked up on Eagle creek, one of the tributaries of the Bonito.

The Rita Consolidated Gold Mining company is a new organization of capital that has been effected to exploit Lincoln county mineral deposits. The capital for this new company is supplied by St. Louis men, and was promoted by B. H. Dye, of White Oaks. The company will work the Rita, Lady Godiva, Little Nell, Solitaire and Largo Hopes claims, in the White Oaks district.

Physician and Druggists.
Ford & Sturgeon, a prominent drug firm at Rocky Hill Station, Ky., writes: "We were requested by Dr. G. B. Snigley to send for Herbine for the benefit of our customers. We ordered three dozen in December, and we are glad to say, Herbine has given such a great satisfaction that we have duplicated this order three times, and today we gave your salesman another order. We beg to say Dr. G. B. Snigley takes pleasure in recommending Herbine." 50c. bottle at Cosmopolitan Pharmacy—B. Ruppe.

Klutz Renominated.
Wilkesboro, N. C., July 30.—The democratic congressional convention of the Eighth district here today resulted in the renomination of Congressman Klutz without opposition.

AN OPEN LETTER.
President Mitchell Will Reply to a Recent Criticism.

Wilkesbarre, Pa., Aug. 1.—President Mitchell of the Miners' union, started to work early today upon a reply to the open letter addressed to him yesterday by the Citizens' Alliance, a Wilkesbarre organization of business and professional men and others. Mr. Mitchell recently criticized the Alliance because he asserted it wanted to prosecute all miners who violated the law, but overlooked many violations of law committed every day by the coal combination. The Alliance, in an open letter enumerated many outrages said to have been committed by the strikers and others and Mitchell was called upon to issue a proclamation to his followers warning them to keep on the side of law and order. In reply Mitchell takes the ground that he always has been a staunch defender of law and order and his followers know it.

It Needs a Tonic.

There are times when your liver needs a tonic. Don't get purgatives that gripe and weaken. De Witt's Little Early Risers expel all poison from the system and act as tonic to the liver. W. Scott, 621 Highland avenue, Milton, Pa., says: "I have carried De Witt's Little Early Risers with me for several years and would not be without them." Small and easy to take. Purely vegetable. They never gripe or distress. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Peace Reigns Everywhere.
Shenandoah, Pa., Aug. 1.—Peace reigns everywhere in the coal region. The soldiers have settled down for a period of enjoyable camp life.

Was Hattie Wingfield Injured in a Fall or Otherwise.

Hattie Wingfield, the ten year old daughter of Mrs. Robert West, living at the corner of Lead avenue and Fifth street, is severely injured and has the appearance of having been run by some inhuman brute. The flesh and skin is badly torn and the injuries extend into the interior of the body. The little girl says that she was hurt by falling from the top of a board fence, but the hurt is of such nature that it could not have been made in any such manner. The doctor says that the case looks suspicious. The little girl suffered considerably during the night and has not regained consciousness. Hattie says that the accident occurred about 7 o'clock last night but as the injuries did not pain her much she did not complain, and it was about 9 o'clock when she was discovered in the yard back of the house. Mrs. West was down town between 6 and 6:30 o'clock. When she returned Hattie was playing in the front yard with two little native girls about her own age. About 7:30 o'clock the three girls passed through the house into the back yard.

The native girls tell two stories. They say they saw her fall and helped her up and then later denied that they helped her up and said that they did not see her fall on the fence.

around Quinlan on Tuesday, and were rescued with difficulty on the following morning with boats brought from Greenville and Paris. Considerable damage resulted from the flood. The water was still over the Texas Midland tracks at Quinlan last night, but no lives lost there. Rivers are falling everywhere except in the extreme southern part of the state, where the flood is being augmented by small tributaries. General Manager Nixon, of the Gulf, Colorado & Santa Fe, estimates its loss at \$10,000.

Thomas S. Payne, a Chicago, Rock Island & Pacific passenger conductor, shot himself in the forehead at his home at Trenton, Mo. He was contemplating from an attack of typhoid fever and is supposed to have been mentally unbalanced. Physicians say he cannot recover. Mr. Payne is about 40 years old.

OFFICIAL CIRCULARS.

All the Santa Fe Coast Line Officials Reappointed.

California railway corporations that include 1,188 miles of track and necessary equipment went out of legal existence July 1, and the fact failed to create even passing interest. The transfer removes the Santa Fe Pacific, that extends from Albuquerque to Barstow, and the San Francisco & San Joaquin Valley railway, operating from Point Richmond south to Eureka. The first named road is 818 miles, and the last named embraces 310 miles of main track and about sixty miles of branch lines. The Santa Fe now owns both roads in fact, as it has for years in name, having merged the roads affected, as is provided in the law enacted for the purpose by the legislature of California three years ago. The future name of the merged properties will be the Santa Fe system coast lines.

President E. P. Ripley, in an official circular received at Santa Fe local headquarters, announces the change as follows:

"The company having acquired by purchase the properties of the Santa Fe Pacific Railroad company and the San Francisco & San Joaquin Valley Railway company, the same will be operated from and after this date as the Atchison, Topeka & Santa Fe Railway company."

In addition to the above, Third Vice President J. W. Kendrick has issued the following, dated Chicago, which is endorsed by President Ripley:

"Effective July 1, 1902, A. G. Wells is appointed general manager of the coast lines of the Atchison, Topeka & Santa Fe Railway company, with headquarters at Los Angeles."

In order to complete the merger, General Manager Wells has reappointed his bureau chiefs in the following, dated July 1:

"Effective this date the following appointments are made: F. J. Shepard, general superintendent; R. B. Burns, chief engineer, and G. R. Joughins, mechanical superintendent."

Circulars announcing the above is the first official document issued by Manager Wells bearing authority of the coast lines of the Atchison, Topeka & Santa Fe Railway company. Manager Wells' order is approved by Third Vice President J. W. Kendrick.

A Necessary Precaution.
Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. B. H. Briggs & Co. and J. H. O'Reilly & Co.

Big Corn Stories.—Railroad men are coming in loaded down with big corn stories, says the Topeka State Journal. Thus far they have launched out by expressing it in general terms, but hereafter the immensity of the probable crop will be expressed in a more definite manner. An engineer who runs east of here says that about two miles west of Carrollton, Mo., a farmer broke up an old pasture last fall and planted it to corn this spring. Now the stalks stand—he is ready to swear—ten feet above the fence posts, and in the evening when it is quiet the peculiar odor arising from the pollen of the plant is so thick in the air that it is almost sickening. Another engineer driver says that the stories about the damage which the recent overflow of the Kaw river wrought has been much exaggerated. He has not been able to see more than twenty or thirty acres of corn altogether between Topeka and Kansas City that was washed away by the high water.

MOVING PLATFORM.

One May be Installed on the Brooklyn Bridge.

NEW YORK NOTES.

New York, Aug. 1.—One of the first things visitors to New York ask to see, as a general rule, is Brooklyn Bridge. If there are other sights of so much interest they are either Grant's Tomb, Central Park, St. Patrick's Cathedral or one of the many famous residential dwellings on Fifth Avenue; but in nine cases out of ten Brooklyn bridge will be asked for first. This famous structure will become of increased interest to visitors, if a moving platform is installed on the bridge as has been proposed, everybody will want to take at least one ride on a moving platform and a half mile long, for that would be its length in crossing the bridge and its approaching twice. The proposed platform would be in three parts. The outer rim would move very slowly. The traveler would step on this first, and then to a middle section running twice as fast. From this it would be easy to step to the last section, running ten miles an hour. If the plan is carried out seats and shelter will be provided, also posts by which the timid and infirm might steady themselves in passing from one moving section to another. Arrangements are hoped to be made by which the trolley cars will withdraw from the bridge, but with such a close connection that the cost of transportation may be covered for the same five cents.

Speaking of Brooklyn that borough is the field of operations of a gang of desperate burglars who have thus far been successful in eluding capture. The citizens have good reason to complain, too. There are only 1,628 patrolmen in Brooklyn, which has a population of a million and a quarter, or one to every 770 inhabitants. Other boroughs of Greater New York that have not one quarter of Brooklyn's population have nearly half as many policemen, and this is causing bitter protestation on the part of Brooklynites.

The coming Republican State Convention of New York will find itself forced to take a stand almost unprecedented in its history owing to the adoption of certain resolutions in other States of the Union. New York republicans will be compelled to endorse president Roosevelt for renomination in 1904, for a failure to do so after the explicit and warm commendations of the President by seven or eight leading States would be regarded as distinctly hostile to Mr. Roosevelt. The Republican Convention of the President's own State to be held in September will, therefore endorse him.

Following the footsteps of the other political parties, the Prohibitionists will hold their State Convention in New York to nominate a Governor and other candidates under the emblem of the Fountain at Saratoga on September 5.

Much interest has been excited here among all classes of politicians in Ex-Chief Devery's campaign for Tammany leadership in the Ninth Assembly District. Devery is making a picturesque fight and his friends say that he will eventually work up to the place of Boss held by Richard Croker for seventeen years, but Senator "Tim" Sullivan, who is about as slick a politician as the city possesses, is throwing his entire influence against Devery, and intends to put him effectually "out of the game."

There is great activity among the members of the Professional Woman's League these days in view of the fact that extensive preparations are being made for the Woman's Exhibition which will be given in Madison Square Garden from October 6 to 18 under the auspices of the league. During the exhibition the Garden will be in the hands of a petticoat brigade for over three thousand attaches will be employed in the various departments of the great fair, and not one of the number will be of the opposite sex. The exhibition is intended to show the work of women through out the world and women of all nations will be shown in pursuit of characteristic employments.

The influence of woman is constantly being extended to the trades as well as arts and sciences. Mrs. Jennie Packer, who a year ago was appointed receiver of a business firm in this city whose parents had disagreed and wanted to separate, has, instead of closing up the business, continued it, paid bills and put it in such a prosperous condition that the partners have become reconciled, and she has just been discharged with the gratitude of all concerned.

By fall it is hoped that electricity will be installed on all of the elevated railroads of the city. Certainly the "electrification" of the Manhattan Elevated Railway system is progressing steadily. Except during the rush hours in the morning and evening steam has been abolished completely from the Second avenue line. On the Third, Sixth and Ninth avenue lines the third rail is going on rapidly, cars are being built and autumn will find these lines equipped with the electric system.

The creation of real estate companies is something of a new development in New York and it opens to investors of moderate means an opportunity to invest in valuable city property by purchases of another large flatiron building, similar to that which has caused little less than a sensation at Twenty-third street and Broadway, and which has been spoken of before in these letters, have been made public. The building will be on a plot at the juncture of Wall, Pearl and Beaver streets and will be twenty stories high.

A subscription has been started by the National Arts club of New York in aid of the reconstruction of the old bell tower on the plaza of San Marco, Venice, which fell recently. A committee of five with Spencer Trask, the

banker, as the treasurer, has been formed to solicit subscriptions in this country.

The roof gardens are now in their glory and the theaters are closed, except the few which are presenting light comic operas. This is no longer the time of serious dramas all the year around. Theatrical managers have awakened to the realization of the wants of the people and are content to supply the demand instead of trying to regulate the people's taste.

There is to be another conference of women in regard to the question of an improved street railway service and it is proposed that a committee of representative women of this city be appointed to investigate systems in other cities to ascertain whether overcrowding cars is merely local or general. K. G. M.

Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton, Ohio, can do so now, though for years he couldn't, because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a godsend to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the stomach, liver and kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by all druggists.

STORING COAL FOR WINTER.

Santa Fe Will Accumulate 3,000 Tons at Wellington.

C. W. Closson, fuel contractor for the Santa Fe system, is at Wellington, Kan., and with him came the first shipment of the road's winter supply of coal. A little over 3,000 tons will be delivered in Wellington which will provide against any scarcity of fuel this coming winter on the Panhandle division. The trouble between the strikers and coal barons in Pennsylvania gives promise to send the price of coal skyward and the Santa Fe deemed it advisable to put in the stock of winter coal now. Steady shipments of coal will continue now until the winter supply is stored. It is being done all over the system and at every division point, Dodge City, Newton, Arkansas City, Topeka, etc., coal is being stored.

The Santa Fe ships Cerrillos coal from Colorado entirely. It is available at a more reasonable figure than eastern fuel and has proved a better burning quality.

Mr. Closson says it will require several weeks' time to complete the work of storing coal here.

"I had diabetes in its worst form," writes Marion Lee, of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man."

ARE EXAGGERATED.

Reports of the California Earthquake Damage were Overdrawn.

Lompoc, Cal., Aug. 1.—The most severe earthquake shock here since Sunday night, occurred shortly after 7 o'clock last night. While the populace is in a state of extreme anxiety and considerable damage has been done in various localities, it is the impression of the Associated Press correspondent on the scene that the reports from Los Alamos have been overdrawn. A great deal of damage actually done must unquestionably be attributed to faulty masonry and the unfitness of structures to withstand even the slightest earthquake. Since the initial shock on Sunday last, vibrations have continued with unabated vigor at close intervals. There is no panic here yet. Heavy landslides are reported from the mountains north of here, with no damage done beyond the closing of two roads.

OLD TOWN REPUBLICANS.

They Met Last Night, Organized and Elected Officers.

A well attended and enthusiastic meeting of old town republicans was held in the court house last night. Jesus Romero presided with H. R. Whiting and Nestor Montoya as vice presidents, and S. Crollott as secretary. It was unanimously voted to dissolve the McKinley club and organize the McKinley-Roosevelt club, and the following officers were unanimously chosen by the new organization:

President—Nestor Montoya.
Vice Presidents—Jesus Romero and Tomas Werner.

Secretary—Seferino Crollott.
Sergeant at Arms—David Perez.
Executive Committee—C. D. Murphy, H. R. Whiting, M. C. Ortiz, M. Springer, G. Armito, C. Gonzales and M. Duran.

DIVORCE SUIT.

Unhappy Las Vegas Couple—A Gambling Debt Compromised.

LOCAL HAPPENINGS.

Special Correspondence.

Las Vegas, N. M., July 25.—A decree has been rendered in the divorce suit of Mrs. Cleofes Gallegos Medina against her husband, Guadalupe Medina, by Judge Mills, granting the divorce and making the defendant pay the costs of \$20. In her petition for divorce Mrs. Medina alleged that her husband "led her a dog's life" and was cruel and inhuman. Evidently the judge thought so, too, for now they are at liberty to try a matrimonial venture again, they being "free and single."

In the case of B. F. Forsythe and Mrs. Evelyn Lowry against R. A. Morris, for a gambling debt of \$600, which the defendant refused to pay, the case was dismissed upon defendant compromising the matter by paying \$250.

High mass will be celebrated tomorrow morning at Agua Zarca, in the picturesque little chapel there. After the mass there will be a picnic in the canyon.

Jimmy O'Reilly, the wire pants-hanger peddler, is in trouble again for getting drunk. Jimmy insists on owning the town, and the marshal insists that he shall not. Jimmy is really working now; is handling a shovel on the streets. Another hobo is keeping him company.

Thomas Burns has filed suit against the Raton Coal and Coke company for \$5,000 damages. Thomas was running a hack line between Raton and Gardner and, he alleges in his complaint, that the company caused the arrest of the driver, confiscated his team for twenty hours, and in general caused injury to his business, and he feels \$5,000 would about average his grief and loss of business. Evidently the hack business in Raton is a bonanza.

S. B. Davis, Jr., who returned from Santa Rosa last evening, where he took evidence before E. R. Wright in the land case of L. M. Shelly vs. Felipe Baca, says that a mill and lake were washed out at Salano, near Apache Springs Saturday night, and considerable damage done.

Miss Bessie Cooley has invitations out for a card party on the evening of the 31st.

Miss Dorothy Money entertained a number of her little friends today in honor of her 6th birthday. The little folks had a big time.

Mrs. Jefferson Reynolds, accompanied by Mrs. Clark, her sister, went down to Santa Fe this afternoon for a short visit.

Fred Fornoff, the deputy United States marshal, went down to Glorieta this afternoon on official business.

W. B. Twitchell came up from Glorieta last night. Mr. Twitchell is opening up some fine properties down there. He represents some Chicago capitalists and says he has a "good thing" in the ore line at Ribera.

The cavalry and infantry companies will have a little sham battle up the canyon Sunday. The infantry will defend the canyon.

Mrs. Onderdonk and children, accompanied by Mrs. James Van Cleave, came down from Denver this afternoon for a visit here with friends.

Dr. J. C. St. John and wife are here from Colorado Springs to find a place for their son, who is affected with lung trouble. Mr. St. John is a member of the council in Colorado Springs and was the contractor here for some of the plumbing on the new school building.

S. T. Kline is on the indisposed list today and has knocked off work.

Mrs. Loti, a sister of Mrs. G. H. Rhodes, arrived yesterday evening from Muncie, Ind., for a visit here.

T. J. Gavin is down from Cleveland today seeing friends and talking business.

C. Porter is here from Thatcher, Colorado, seeing the sights of the Meadow city.

Z. S. Longman is the name of the new postmaster at Mora. He took charge a few days ago.

Phocion Howard, a special correspondent in Washington, went through on No. 7 this evening en route to El Paso to see P. F. Garrett, the collector there.

Miss Nellie Parish returned to San visit here with T. F. Clay and family. Watrous and Shoemaker even have got it—ping pong. J. K. Martin abetted the case by making the boards for the devotees.

Mrs. H. A. Hannon, who has been quite ill with typhoid fever, is able to sit up and is convalescent.

Professor Cockrell and wife went out to Blake's ranch today for an outing.

A number of the normal graduates are figuring on going on a big camping expedition the first of next week. They will probably leave Monday.

Mrs. James A. Dick gave one of the most pleasant parties of the season yesterday afternoon at her home on Fifth street. The amusement was six-handed euchre. Mrs. Charles A. Spleas carried off the first prize, Mrs. R. G. Head the second and Mrs. F. E. Olney the consolation. There were about fifty guests present to partake of Mrs. Dick's hospitality and dainty refreshments. Mrs. Dick is noted for her enjoyable parties and her splendid reputation as a good hostess was fully maintained by yesterday's affair.

It was a large crowd from here that attended the consecration ceremonies of Bishop J. B. Pittival at Santa Fe today. The ceremonies were very elaborate and many of the reverend fathers from all over the territory were in attendance. Father Henry Pouget of this city presided at the organ.

G. B. Larrasolo, the attorney who was injured in the ball game, is getting along fairly well, but it will be some time before he will be able to get about, or use the broken limb.

The plans for the new fountain in the park have been heartily approved by all those who have seen them, especially the subscribers to the fund for the fountain. It will be a beautiful addition to the beauty of the park.

Anthony B. Chaves, as attorney for the defendant in the divorce case of Thomas Kennedy vs. Mary Kennedy, has had a motion asking plaintiff to amend, coming up to allow the

filing of a demurrer or answer. Mr. Kennedy, a big strong man, alleges cruel and inhuman treatment from his wife, a wee, modest little woman. The parties live in East Las Vegas.

The maximum temperature yesterday was 59, the minimum 51, and mean, 70. The mean humidity was 48.

SOME GOOD STRIKES.

Several important Discoveries Located in Southern New Mexico. A correspondent of the Denver News writing from Silver City, says:

The General Concentrate company, of New York, operating at Cook's peak, have resumed work there and purchased two new mines. A fifty-ton plant is being erected at present, forty men being employed in its construction. Custom ore will be handled as well as their own product.

A rich strike of high grade carbonate ore has been made in the last few days on the Montezuma mine, leased by J. Hitchens. Ore from this mine is being constantly shipped by the lessee.

At a depth of 200 feet, last week, Charles Poe, in charge of the operations of the Cook's Peak Mining company, encountered a body of high grade carbonate. This is the first strike of consequence in this immediate vicinity, and prospectors are greatly enthused.

The Kansas City Smelting & Refining company are keeping up the reputation of their properties as steady producers. A car load every other day is being shipped, which output could be doubled but for the lack of teams to haul the ore to the loading point. This property alone has yielded fully \$2,000,000 in the last ten years.

At the 160-foot level of the Gettyburg mine, in the Burros, the ore has changed in character from a carbonate to a pure sulphide, the vein assuming immense proportions and still widening. The ore is exceedingly rich. The mine is owned by the Alamosa Mining company, of which L. P. Deming is general manager.

FROM LAS VEGAS.

Changes at Las Vegas Freight Office—Annual Encampment of Militia Companies.

Special Correspondence. Las Vegas, N. M., July 27.—Quite a little change took effect in the Santa Fe freight offices Saturday evening. Aaron Banne has resigned as night ticket agent and left for Chicago. H. S. Haskell takes his place in the ticket office, Theodore Thompson takes Haskell's place in the freight office and W. R. Cameron takes Thompson's place as yard clerk.

About fifteen carriage loads of citizens from Las Vegas attended high mass at Agua Zarca Saturday. The little chapel at Agua Zarca is one of the most picturesque in the neighborhood, and the Catholic congregation is very devout. The celebration today was an interesting event and was followed by a picnic.

The power at the coal mines at El Porvenir has proven insufficient to handle the machinery, so the company has ordered a ten-horse power engine from Aurora, Illinois, as well as other machinery. The company is gradually collecting a valuable lot of machinery and the development is being pushed as fast as money can do it.

M. B. Goldenberg & Co. have entered the following suits in the Guadalupe county district court: Against M. T. Moore, an attachment suit to recover the sum of \$148.66, amount alleged due for merchandise sold; against Harry Edwards, a suit to recover judgment in the sum of \$106.15; against J. W. Garvey & Bro., a suit in attachment to recover judgment in the sum of \$2,232.69. Evidently Mr. Goldenberg is cleaning off the old books.

An effort is being made by some of the captains of the militia companies in the territory to make arrangements for an annual encampment of all the militia companies, as is done in all the states. At the encampments the companies are put through valuable drills and taught new maneuvers, besides having a good outing. The encampments are really invaluable to the discipline and training of the militia, and it is hoped there will be one in this territory. Captain Da Costa proposes that his company shall have a week in camp, anyway, and has billed a big infantry dance at Rosenthal hall for August 5 to raise funds for the expense of the commissary. The tents can be furnished by the adjutant general and the company proposes to have a week's encampment and the taste of army life in September.

Considerable enthusiasm is being worked up over the first class ball team organized here. Charles Rhodes, the pitcher who has been playing with Santa Fe, has decided to remain with his home team and hold down the box here. The diamond and outfield have been scraped and put in readiness for the season's work. The uniforms will be here at the end of next week. The boys have been putting in good time practicing, and the team is rounding into good shape.

J. F. Paulsen entered a replevin suit against the First National bank of Raton and a decision was given in favor of the plaintiff. A motion for a new trial was made and allowed, and the case will get a second hearing.

R. C. Reid returned Friday afternoon from his several months' sojourn in Topeka, where he received treatment for his injured limb. He is not well yet and still uses crutches, although he hopes to soon discard them.

Everybody is talking street railway now and the reporters are eagerly queried as to new developments. The promoters say the work will be pushed to completion as fast as energy and push, backed by money, can do it.

Samuel Sproul entered a suit against Peter Longuigney in Colfax county, to restrain him from using the water of the Sugarite river. A temporary injunction was granted to the plaintiff, granting him exclusive permission to use the water.

George Niemeyer and wife, who have been visiting the family of A. S. Moyer, returned Saturday afternoon to their home in Cincinnati.

Mr. Smith, member of the firm of Jones & Smith, returned to Los Lunas last night.

Mrs. A. C. Whitford came down from Raton last evening where she made a short visit.

Mrs. A. C. Whitford and family returned Saturday afternoon from her extended visit in Los Lunas.

George Hubbell left Saturday morning for his home in Los Conchas, after a few days' sojourn here and Santa Fe. Col. R. G. Head left this afternoon for a trip to Kansas. He will be gone about a week.

W. H. Kelly came up this afternoon from Mexico for a stay in the Meadow city.

Joe Richley and daughter, who have been in Guadalajara, Mexico, arrived here today for a visit.

Hon. Charles A. Spleas and Hon. J. S. Duncan returned this afternoon from their trip over on the Dawson railway, where they were helping adjust the damages incident to their taking land for a right of way.

The chain gang jumped the town this morning, having worked a few days for the city. Every hobo that stays in town a few hours has to pay a poll tax. It is a plan that works splendidly in riding the town of the tramp pest.

Mrs. S. Stalley and her four children are here visiting Mrs. W. Cheatham at the Castaneda.

Thomas Delgado returned to Santa Fe this afternoon after a short stay in the Meadow city.

STONED TO DEATH.

Luis Romero Found Alejandro Seba with His Wife.

San Fe, N. M., July 29.—Alejandro Seba was stoned to death last night by Luis Romero. Romero had left his house to be gone five days, but returned before the time expired and found Seba with his wife. Romero reported the murder to the authorities and gave himself up. Seba's body was dragged 300 yards through wire fences and over stones to his own home. Seba was a widower with three children.

Bernalillo Base Ball.

Special to The Citizen. Bernalillo, N. M., July 28.—Yesterday there was a good game of ball between the Reds and the Blues here. At the end of the tenth inning the score was 4 to 4 and the game was called. On August 10, a game will be played with an outside team, but it has not yet been decided which one.

Resist Importation.

Omaha, Neb., July 29.—Secretary Samuel Grace, of the Machinists' union, received from the United States Immigration bureau information that any attempt to import men from foreign countries to take the places of striking shopmen on the railroads of the country would receive the immediate attention of the government.

DENIES IT.

Governor Odell Will Not Go with the Union Pacific.

Omaha, Neb., July 29.—At the Union Pacific headquarters it was stated today nothing definitely is known of the coming of Governor Odell, who is reported to have accepted a position with the road.

One of the officials is quoted as saying if Odell is to be connected with the Union Pacific it probably will be in the capacity of financier or general counsel.

Odell Says No.

Albany, N. Y., July 29.—Governor Odell, today, declared the report that he intends to accept a position as general eastern representative of the Harriman railroad interests as absolutely without foundation.

Valuable Buildings Burned.

Pittsburg, Pa., July 29.—The Denoon and Stewart buildings, eight-story brown stone structures, were burned this morning. The adjoining building at 923 Liberty avenue, occupied by S. Ewart & Co., wholesale grocers, was badly damaged. The loss is estimated at \$300,000. Several firemen were injured by explosions, but will recover.

Earthquake General.

Omaha, Neb., July 29.—Reports from points in northern and western Nebraska indicate yesterday's earthquake was more general than first reported and in quite severe complications. The breaking of windows and dishes and cracking of plaster was the extent of damage.

Su Wah's Car Gone North.

Santa Fe furniture car No. 7479 has gone at last and the local railroad men have a breathing spell. No. 7479 came up from El Paso yesterday morning and went north last night on fast freight No. 33. The local switchmen handled it with gloves, not because they were afraid it would be broken, but because it has the reputation of being a "onah," whenever hanging around. It was Su Wah's car.

Y. M. C. A. Conference.

Mobile, Ala., July 29.—A notable conference of the general secretaries, physical directors and salaried officials of the Young Men's Christian association opened in Mobile today. Alabama, Louisiana and Mississippi are represented. The sessions continue two days, during which time many questions relating to the welfare and development of the organization are to be discussed.

John W. Ross Dead.

Washington, July 29.—John W. Ross, for twelve years a member of the board of commissioners of the District of Columbia, died this morning, after a lingering illness. He was born in 1841 at Lewistown, Ill., and removed to Washington in 1873.

A Jelly May Ride.

A merry crowd of young people loaded themselves into a wagon loaded with hay last evening and went out on the mesa for a drive. The wagon stopped high upon the mesa and the party unloaded and devoured six delicious watermelons, that had been provided for the occasion. They were Misses Minnie Cecil, Mamie Tierney, Mary Telfer, Helen Finch, Bertha Lobbs, Belle Savers and Ethel Oatlin, Messrs. Tom Hughes, Pinks, Maloy, Foley, Jack Nicholson, Scott, Winchester, John Hughes, Glen and Bernalillo Edwards and the party was accompanied by Misses Nellie Reaser and Lillie Wah.

PAINE'S CELERY COMPOUND. NATURE'S SUMMER HEALTH GIVER.

It Purifies the Blood and Multiplies the Number of Vital Red Corpuscles, Feeds the Nerves and Tissues and Gives True Physical Strength.

Weak nerves, exhausted tissue, poor, thin blood, impaired digestion and sleepless nights, account for much of the present existing summer misery and suffering.

Dear reader, if you are unfortunately numbered amongst the sickly and weak mortals of today, it is now time to awake to a true realization of your danger. The weakening and depressing hot weather will only add to your miseries if you are careless and indifferent.

There is absolute relief and a positive cure for you in Paine's Celery Compound. This wonder-working medicine is successfully conquering such troubles as yours every day. It is a thousandfold testimonial that Paine's Celery Compound makes new, pure, blood, builds up the nervous system, regulates digestion, whets the appetite and gives vigor and strength to combat the discomforts of the heated term.

Mrs. J. N. Morgan, secretary, Md., used Paine's Celery Compound to banish nervous prostration, heart palpitation and insomnia. The great medicine quickly restored physical strength by purifying the blood, bracing the nerves and building up tissue; she says:

"When I began the use of Paine's Celery Compound I was suffering with nervous prostration, had palpitation of the heart and could not sleep. When I first went to bed I would sleep one or two hours, but would wake with a start. I would get up in the morning feeling worse than when I went to bed. Now, after using Paine's Celery Compound, I can eat and sleep well and wake up in the morning feeling refreshed and strong."

ASSASSINATION CHARGED. General Delgado Now Under Arrest at Havana.

New York, July 29.—General Delgado is under arrest at Havana, says a World dispatch, charged with the assassination of Antonio Acosta, a nephew of Colonel Baldomero Acosta. Delgado was acting chief of police of Punta Pravia, where Acosta was arrested and disappeared. Young Acosta was aide-de-camp to Delgado during the war.

Boston Wool. Boston, Mass., July 29.—The position of wool this week is strong with the outlook favorable for higher prices. In wool growing districts the situation is firmer and prices reported to be generally advancing. As high as 16 1/2 cents has been paid for good clips there, which is fully 3 cents a pound higher than paid for same clips a year ago.

Subway Blast. New York, July 29.—As the result of a premature blast in the rapid transit subway at Park avenue and Forty-first street today four men were seriously hurt, two of whom it is thought will die.

DESPERATE FROM HUNGER. Yaqui Indians Made a Fierce Attack on a Ranch.

Tucson, Ariz., July 29.—Driven to desperation by hunger thirty Yaquis, half of them women, swooped down upon the Carman ranch near Hermosillo. A fierce fight followed. When a patrol of Mexican troops came to the rescue two women and five men lay dead. The Yaquis were overwhelmed and captured.

Wisconsin Opticians. Oshkosh, Wis., July 29.—Men of prosperous and learned appearance filled the corridors of the Athearn hotel today and talked of kilometers and ophthalmoscopes and other things of which the ordinary man knows as much as the cow does of Hebrew. They were members of the Wisconsin State Optical society and the occasion is their third annual meeting, which began this afternoon with the annual address of the president, Alva Snider, of Beloit, and the reports of the other officers, all of which tended to show the flourishing condition of the society. Tomorrow the convention will take up the discussion of technical subjects of interest to the profession.

For Good Roads. Greenville, Mich., July 29.—The good roads movement undoubtedly will receive a great impetus from the state convention which began here today under the auspices of the national good roads association. Accredited delegates are here from many parts of the state to listen to addresses by Martin Dodge and other good roads experts and to witness practical demonstrations of good road construction and repair. The gathering will be in session until the end of the week.

Gathering of Pythians. Albany, N. Y., July 29.—The grand lodge meeting of the Knights of Pythias in session here in one of the largest gatherings ever held by the order in this state. Delegates from all the local lodges in the state were present today when the meeting was formally opened in Odd Fellows' hall. Routine business occupied the greater part of the day. Tomorrow there will be a big parade and prize drill.

Reed Meet at Friend. Friend, Neb., July 29.—A three day race meet opened here today under favorable auspices. The track is in splendid condition and all indications point to one of the best meetings in the state.

A CHANCE IN A LIFE TIME
to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it FIFTY THOUSAND DOLLARS in development on the ledge and a complete five-stamp mill, with all other necessary machinery ready to run. The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at \$50 per share, capital stock 1,000,000 shares, (par value \$1 each), fully paid and non-assessable, to further develop and put the property on a paying basis. A property lying near the Ozark, with southern as good a showing and very little development, sold last week to a New York syndicate for \$500,000. The Ozark will pay dividends and be worth far more in six months. This is the best investment for the money that has ever been offered to the investing public. Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, references, etc., address: **OZARK GOLD MINING & MILLING CO.,** MOORE, MISSOURI.

Judge D. H. McMillan

CHARGES TO BE INVESTIGATED

A large and representative crowd of Carlsbad's citizens held a mass meeting in the court house, Wednesday evening, to take action in the matter of the grave charges of immoral conduct made against Hon. D. H. McMillan, judge of the Fifth judicial district, says the Argus.

Shortly after 8 o'clock Mayor D. H. Lucas called the convention to order, and C. H. McEnanthen was elected chairman, and A. D. Greene, secretary. In a short, concise and eloquent speech, Chairman McEnanthen stated the object of the meeting to be the investigation of the charges against Judge McMillan, and if, in the judgment of the people, sufficient evidence was adduced to justify an investigation, to lay formal protest before the president against his continuance on the supreme bench of New Mexico, unless exonerated upon a full and searching investigation.

On motion of Judge A. A. Freeman, duly seconded, the chair appointed the following committee to examine into the charges and to report a set of resolutions embodying the sentiments of this community: A. H. Pratt, D. H. Lucas, A. C. Heard, A. A. Freeman, W. A. Finlay, Sam B. Smith, F. G. Tracy, L. O. Fuller, E. B. Berner, J. E. Lavery and M. P. Kerr.

After a recess of about fifteen or twenty minutes the above committee reported the following resolutions, and upon motion of G. H. Hutchins they were adopted by the meeting:

Mr. Chairman: Your committee has had under consideration the following resolution, to-wit:

Resolved, That a committee be appointed to report on the condition of district court affairs in this county; and also on certain charges relating to the personal conduct of the presiding judge of this judicial district, the Hon. Daniel H. McMillan, and it be left to report as follows:

First—For the last year or more the work of the court in this county has been extremely unsatisfactory. This condition has been the result of a number of causes. In the first place, while the law of congress requires the judge to reside in the district over which he presides, yet Judge McMillan has persistently declined and still declines to obey this law, keeping his territorial residence in the city of Santa Fe, 737 miles distant, by nearest railroad connection, from the county seat of this county, thus rendering it extremely inconvenient, and sometimes impossible to reach him in the ordinary course of business.

Second—He has been guilty of conduct unbecoming to one occupying his high and responsible position, in that he has associated himself in an improper manner with a woman who is not his wife, in support of which we submit the following specifications:

Here follows the eight separate and distinct allegations of people in Lincoln county, who saw certain specified acts that tend to establish the guilt of Judge McMillan. Those testifying include Bert Rowland, Emil Fritz, ex-sheriff of Lincoln county; Mr. Hulbert, hotel keeper; Mrs. Baca, at whose house the woman had rooms; Mr. Mooler, a reputable merchant; Mr. Lutz, county treasurer; James Brent, of Silver City, formerly sheriff of Lincoln county, and several others whose testimony is all corroborative. The last specification mentioned the accusation in open court by Attorney Baca, of Socorro. The woman went by the name of Mrs. Helen Parks.]

A number of lawyers of this district, in view of these facts and circumstances, united in a memorial to him asking that he court an investigation of these charges, but learning that such memorial was being prepared, he went to the city of Washington, where, it is believed, he has been engaged for some time past in an effort to forestall investigation, by having press dispatches published to the effect that these charges are prompted by political opposition and by a desire on the part of his accusers to supplant him in his office.

We here append to and make a part of this report a statement published in the Las Vegas Daily Optic, under date of July 7, 1902, which is as follows:

[The article that here follows was published in the Argus two weeks ago, and also in various other papers all over the country. It purports to be an interview with Judge McMillan, in which he denies the charges and states that they are prompted by political enmity.]

We hereby declare that the foregoing statement that these charges have emanated from political opponents who desire to succeed to his office is not only false, but absurd.

Your committee is advised and believe the fact to be that a demand for an investigation of these charges would have been made more than a year ago when these offenses first came to public notice, but for three reasons, to-wit:

First—Democratic lawyers declined to take an active part because they feared they would be met with just such statements as the foregoing press dispatches.

Second—Practically all the republican lawyers of the district are prospective candidates for the place, and each of them has feared that any active part taken by him would be regarded as an objection to his appointment.

Third—But in the third place, it ought to be said in behalf of the bar that a lawyer representing matters involving the life, liberty or property of his client, hesitates a long time before incurring the displeasure of an officer, who to a large measure controls such interests.

It may be further observed that as further shown by the press dispatches which we have quoted, it has been freely represented, throughout the territory, and especially in this district, that the said Judge McMillan has been him very strong administrative influence in the state of New York, and that he has been very active in the state of New York, without reference to the state of his conduct, and for this reason also lawyers and litigants have hesitated to incur the displeasure of him by incurring his displeasure.

In view of the premises, and the further fact that all reports issuing

from Washington are to the effect that the department of justice will take no notice of the charges, your committee is of the opinion that the president should be requested to at once cause an investigation to be made, by an agent, who will not suffer himself to be influenced by any ulterior motives, but will without fear or favor ascertain and report the truth, the whole truth and nothing but the truth, and we therefore recommend the adoption of the following resolution, to-wit:

Resolved, That the president of the United States be, and he hereby is, respectfully requested to cause an investigation to be made of the condition of the courts of the Fifth judicial district of the territory of New Mexico; and that said investigation shall include an inquiry into the official and personal conduct of the Hon. D. H. McMillan, judge of said district, and that the agent making such investigation shall be required to report all the facts that may come to his knowledge, giving the names of and the testimony of each witness examined by him.

Second—Be it further resolved that the chairman of this meeting cause this report and this resolution to be sent to the president of the United States, that a copy thereof be sent to Hon. B. S. Rodey, our delegate to congress, with the request that he aid us in procuring this investigation, and that a copy be sent to the Hon. Daniel H. McMillan.

Rural Mails Hurt Trade.
Washington, July 29.—The rural mail delivery was hailed with delight when it was first placed into operation, but there promises to develop a lively opposition to its further extension. The country storekeeper declares that it is ruining his business and he is calling upon his congressman for redress. Under the old postal regulations the farmer went to the village for his mail, and just so sure as he went he left some money with the storekeeper. Now he remains at home, never going to the village except in cases of necessity, enlisting the services of the mail carrier to do some little chores which he desires.

State Bank Examiners.
Detroit, Mich., July 29.—A national association of state bank examiners and financial officials is expected to result from the conference here today in compliance with the call of S. T. Johnson, state bank examiner of Minnesota. The intention of the new organization is to adopt uniform rules for the management of banks and to advise among themselves as to legislation that may be needed and the effect of existing legislation, and to secure the enactment of such new laws as may be considered necessary for the greater protection of investments and the investing public and the states generally.

Mr. Hette is a brother-in-law of ex-Superintendent C. F. Resseguie, and is an experienced railroad man. He has held responsible positions with some of the best roads in the country, and has a good record in his present position.

Death in the White Sands.
The sheriff of Alamogordo received notice that the body of a man had been found east of the chalk hills in the White Sands desert near the San Andres mountains. A justice of the peace acted as coroner, empaneled a jury and left for the scene to hold an inquest. It is supposed the remains are those of Patricio Herrera, the aged man who started to walk from Las Cruces to Tularosa on the 27th of June and has not been heard of since. The old man probably perished from fatigue and heat.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles.

Mr. A. E. Kelly, of Urbana, O., writes: "I had a sore on my hand and it was very painful. I used S. S. S. and it cured it. I had a sore on my leg and it was very painful. I used S. S. S. and it cured it. I had a sore on my arm and it was very painful. I used S. S. S. and it cured it."

Mr. J. E. Smith, of Chicago, Ill., writes: "I had a sore on my face and it was very painful. I used S. S. S. and it cured it. I had a sore on my neck and it was very painful. I used S. S. S. and it cured it. I had a sore on my chest and it was very painful. I used S. S. S. and it cured it."

PEACH SPRINGS' MURDER.

Jose Maria Aguirre, While Asleep, Meets His Doom.

Last Sunday night a Mexican by the name of Jose Maria Aguirre, was killed while asleep and Antonio Gutierrez is charged with the crime. It appears that the Mexicans, who are employed by the railroad under contract, obtained a supply of whisky from Beligman Sunday evening and they proceeded to make merry. Several of them got very drunk and among these was Gutierrez. Conflicting stories are told regarding the manner in which Aguirre was killed but there is no doubt that while the unfortunate man slept he had his head beaten in with a club. A Mexican woman made the statement that before midnight Gutierrez knocked at her door and asked for admission and that when he received no answer he went on to the end of the house where Aguirre slept; that she went out shortly after and found Aguirre dead and Gutierrez asleep a short distance away. She accused him of the crime and he said: "I do not know; forgive me." This was not the story she told at the preliminary and since that time she tells conflicting stories. It may be that the murder was committed by other parties and that the woman is trying to shield them. She and her husband are being held to await investigation of the matter.

Notable Wedding.

Newport, R. I., July 26.—A wedding of note took place at Jamestown today, the bride being Miss Elsie L. Bleeker, daughter of Captain John V. B. Bleeker, United States Navy, and the bridegroom Captain E. G. Waymouth of the British Army. The ceremony was performed by Bishop McVicker, assisted by the Rev. Charles D. Burrows, rector of St. Matthew's church. The best man was Captain Wakefield, a fellow officer of the bridegroom, and the maid of honor was Miss Mount of New York.

Old Home Week.

Boston, Mass., July 26.—Old home week begins tomorrow, and thousands of the sons and daughters of the old Bay State are on the way to pay their annual visit to their native heath. Every town from Cape Cod to the Berkshire Hills has made preparations to welcome and entertain them. Included among the visitors will be many from Illinois, Indiana, Iowa, Wisconsin, Colorado, Missouri and other parts of the West.

Ball Players to Confer.

New York, July 26.—A meeting of the Players' Protective Association, the first since the ball season opened, is to be held tomorrow at the Sturtevant House and owing to the importance of the subjects to be considered it will attract considerable attention from lovers of the game. It is expected that the meeting will be attended by representatives of twelve of the sixteen American and National League clubs, the players of the remaining four clubs being unable to attend because they are at present in the West. Existing relations between the two leagues will be discussed, and the probable result to the ball player. The possibility of peace being declared between the two organizations and the consequent cutting of salaries will be discussed and measures planned to bolster up the weak point. Contract jumping will also receive attention and it is possible that some steps to punish players who jump their contracts may be taken by the association.

Lik Preparations.

The Elks Saturday night initiated J. E. Saint and John McGilivray. It was decided that all members of the lodge be urged to be at the depot on Friday morning, August 8, to extend courtesies to the El Paso Elks. It is thought that about twenty-five from here will join the Queen Sabé club.

Youngstown Holds Carnival.

Youngstown, Ohio, July 28.—Carnival week, for which the local aerle of the Fraternal Order of Eagles, aided by the citizens generally, has been preparing for several months past, opened in a blaze of glory today. The public square and down town streets are elaborately decorated and the city is rapidly filling with visitors. The street shows are of a high class and together with the numerous other attractions and a large attendance of visitors the carnival bids fair to eclipse anything of the kind previously seen in this part of the state.

Delightful Dinner.

Sheriff T. B. Hubbell yesterday entertained a party of friends at dinner in honor of his birthday at his home on West Railroad avenue. Those present were Messrs. W. B. Childers, F. A. Hubbell, C. E. Newcomer, H. S. Knight, H. P. Owen, M. Mandell, Thos. McMillan, G. V. Crosby, Nestor Montoya, Chas. Hubbell, G. F. Albright, J. A. Summers, Capt. W. E. Dame.

AN OBSERVER.

Kirk Bryan Writes of Delegate Rodey and His Good Work.

Kirk Bryan, aged 14 years, is one of the brightest boys in this city. He is spending his vacation in the east, and is a New Mexico university student. He is one of the coming democratic statesmen of New Mexico. He writes as follows to his father, R. W. D. Bryan:

"When I was in Washington I met Congressman Lester, of New York, one of the youngest men in the house and the man who beat Perry Belmont, the millionaire. He talked very enthusiastically about Mr. Rodey, saying that the omnibus bill would never have passed the house if it had not been for Mr. Rodey. He said that of course he (Rodey) had to be turned down a little like all westerners, but that everybody could see that he was in earnest. He, himself, had been opposed to the bill on account of Arizona, but that Mr. Rodey had got hold of him and persuaded him to vote for him. He also told me how Mr. Rodey had gone up to and secured the vote of one of the big congressmen after he had offended him by being a little too persistent. All this and more leads me to think that Mr. Rodey is the right man for the place, in spite of his politics."

A large crowd of lovers of music congregated at R. Ruppel's drug store Saturday night to enjoy a fine concert given by the Santa Fe Pacific orchestra.

A PAINT SUIT.

Poor Quality of Paint Used—Plaintiff Won Case.

A case of quality took up the greater part of two days of Judge Crawford's time last week. The firm of DePriest & Sayers sued Carl Hoffman and wife for \$69.10, the balance due for the painting of the Hoffman house on North Second street. A long array of witnesses were heard on both sides and some of the tricks of the painter's trade, used in cheapening the cost of material used in painting, were aired. The house was painted under the direction of Mr. DePriest. The first coat of paint or the priming coat, was yellow. Mr. Hoffman changed his mind as to the color he wished to have his house painted and directed the painter to put a dark color over a light priming. In some places the first coat of paint, which was yellow, showed up through the last coat, which is of a dark color. Mr. Hoffman did not think it was a good job and had been told that a poor quality of paint had been used, and refused to pay the money due, hence the suit. A decision was reached in favor of the plaintiff.

Felix Lester was attorney for Carl Hoffman and City Attorney J. H. Stingle represented the firm of DePriest & Sayers.

GOLDEN DISTRICT.

Interesting Mining Notes From Golden and Vicinity.

Special Correspondence.
Golden, N. M., July 26.—W. S. Rishworth, manager for the Baird Mining company, reports having struck water at the 175 foot level.

James Lucas is having his five stamp mill repaired and will commence stamping ore from the Black Prince mine next week, where he has several tons of good ore out.

Prof. L. Griewold is still getting some cement out of the Industrial Placer Mining company's property, and having it run in the Old Reliable Mining company's mill at Golden.

The McKinley Mining company received 5,000 feet of lumber last Thursday to timber the main shaft to the sixty foot level. Free gold ore has been taken out since the last mill run was made.

Lloyd Augustine and Lionel Tuck, interested in the Black Hawk and Capital mining claims, in this district, came down from Colorado and have done this year's assessment work on both claims.

Frank White has struck some good copper ore in the Gold King mine. Some of the ore was tested at San Francisco last week.

The shows 18 and 20 per cent besides a good percentage of D. A. Lyon, after weeks in Golden, giving the cement beds of the Cor Mining company yesterday at noon for Cal. Messrs. Griewold still remain in Golden more tests will be in supervision.

OLD MINER KILLED.

James Thomas Run Over and Killed by the Cars.

An old miner about 40 years old, named James Thomas, was killed by being run over by the cars near Plente station the other morning, says the Kingman Miner. The man had been at work at Searchlight, and had come to Goff's, where he filled up with whiskey until in a drunken craze he imagined some unknown men were trying to kill him. The people about Goff's thought he had at last gone to sleep somewhere. It seems he boarded N. 1, and in some manner fell under the wheels. Parts of his body were scattered along the track for nearly 200 feet, and were a most gruesome sight when picked up by the crew of No. 2. The remains were taken to Needles and buried.

JEMEZ HOT SPRINGS.

Mrs. C. A. Hawks Captures a Young Fawn—Other Items.

Special Correspondence.
Jemez Hot Springs, July 25.—Mrs. C. A. Hawks, who arrived about two weeks ago, has so much improved that she run down a young fawn yesterday. She will have the animal crated and taken to her home in Albuquerque. Messrs. Althelm, Lix, Di Mauro, Leeds and Mrs. Hawks, of Albuquerque, and Mr. Burke, of Winslow, Arizona, are among the latest arrivals.

A large party of Santa Fe people passed through westward bound. Lots of apples now ripe and good demand from the visitors who all declare they never saw such nice flavored fruit and so free from worms.

J. B. Block opens his hotel for the traveling public today.

Both bath houses have been very busy all this month.

We have a nice shower of rain most every afternoon, which refreshes everything greatly.

Block's stage carries the United States mail and always comes in on time.

Vegas Wool Here.

On the tracks of the Wool Scouring mills are twenty car loads of wool, of which sixteen comes from Las Vegas. A wool scouring mill has been in operation there for many years.

Delightful Concert.

Saturday evening those around the depot and the Alvarado were given a musical treat while the west bound train was here. A large party was headed for the Coronado Hotel, California, from St. Paul and Minneapolis.

With the party was a mixed quartet forming the leading choir of Minneapolis. They will provide the music at the Coronado Beach hotel during August and while here they sang several selections to the great delight of the crowd.

Good for Carrillos.

A report has it that the smelter at Carrillos is to resume in a few days and that the plans have been completed for the building of a 100-ton concentrator to treat the ore from the Magdalena, Socorro county, and the Carrillos districts. The plans have been accepted by the smelting company. The successor of J. L. Wells, lately superintendent of the smelter, will arrive at Carrillos next week.

Railroad Topics

Brakeman Frank Flomerfelt is taking a much needed lay off.

Mrs. Fred Saxton has returned to her home at San Marcel after a pleasant visit with Albuquerque friends.

N. M. Rice, assistant general storekeeper for the Santa Fe, is touring the coast lines inspecting storehouses and supplies.

The San Bernardino Sun says that Frank R. Harris, of the master mechanic's office, is entertaining his sister, Miss Louise and Lolita Harris, of Albuquerque.

James Dargitz, who twisted broken on the Topeka division two years ago, but who now captains a train out of Ratons, N. M., is in Topeka for a brief renewal of acquaintances.

Machinist Sherman was in Topeka Friday from San Luis Potosi, Mexico, where he has been following his trade for the Mexican Central. His services have been engaged by the Santa Fe, and he will be sent to Ratons, N. M., to work.

R. R. Hammond, superintendent of maintenance of the Frisco system, has resigned to accept service with the Missouri, Kansas & Texas Railroad company as assistant general manager. The resignation is effective August 1.

The Santa Fe is completing the construction of the new sixteen-stall addition to the present round house, making in all thirty stalls. The new brick storehouse, 60x90 feet, and the oil house, 18x20 feet, are also about finished.

Mr. and Mrs. T. H. Walsh were in the city yesterday visiting with friends. They are from Albuquerque and will spend their vacation in Santa Monica. Mr. Walsh is connected with the Santa Fe offices in the New Mexican town.—San Bernardino Sun.

Mr. Etter was appointed chief clerk by Mr. Hurley when the western division was created, and his appointment to the same position under Mr. Hurley at Topeka is in line with the usual custom of railway officials, who prefer to keep their accustomed deputies about them.

Great preparations are being made by the different railroads for the accommodations and conveniences of those who wish to attend the national meeting of the P. O. of R.

Mr. Clark, of the Forks, will also be a member of the party, which will leave within the next few weeks.

According to the Journal Official of France, there are 478,115 miles of railway in the world. America stands at the head with 249,676 miles. Europe comes next with 175,785 miles of track. Asia has 25,650 miles, Africa 11,450 and Oceania 15,594 miles. The latter includes Australia and New Zealand, of course.

The Winslow Mail says: Harvey Powell, formerly of Albuquerque, but who for the past two months has been holding down a position in the railroad offices at Ash Fork, stopped off in Winslow a good part of the week and visited with his brother before returning to Albuquerque, where he goes to reside indefinitely.

The Topeka Journal says: Frank Russell, formerly a hammerman in these shops, is here from Albuquerque, N. M., where he is working for the Santa Fe in a like capacity. Russell left here seven months ago on account of poor health, and since going west has been much improved. He was in Topeka about three and a half years.

Passengers on No. 22, which arrived from the south this morning, experienced considerable trouble in reaching the depot and hotel, through the fault of some of the local yard employees. A long string of freight cars were left standing on the new passenger depot track and as No. 22 stopped on the main track, the passengers were compelled to walk around this freight train to get to the station.

In order to perfect the plan of amalgamation decided July 1 by the Santa Fe for simpler operating of its coast lines, General Superintendent F. J. Shepard has reappointed L. L. Hibbard, superintendent of Albuquerque division; John Denair, superintendent of Arizona division; A. D. Schindler, superintendent of Valley division; S. M. Saltmarsh, car accountant; H. J. Franklin, claim agent; N. M. Rice, assistant general storekeeper.

Fix Up Difficulties.—General Manager Nixon, of the Gulf, Colorado & Santa Fe road, and Third Vice President Mulberry, of the International Association of Machinists, held a conference at Cleburne, Texas, and when seen Mr. Mulberry stated that he thought the strike difficulties, involving 400 men, could be adjusted soon. The machinists' association will insist upon all the men being taken back first; then, if there are other grievances they will be settled later.

Sore on Santa Fe.—Friendly relations between the Santa Fe and the Southern Pacific are said to have become badly strained on account of rivalry over freight business in California, in a 1 to the 10 ratio.

President Harriman, who has been sojourning in Albuquerque since last October, left last night for Los Angeles. After spending a couple of months on the coast he will return to this city and be joined by Mr. Dunsmuir, who will come out from New York.

effect at once. Merchants who have given trade to the Santa Fe, it is said, will be called upon to explain their preference, and be given to understand that Southern Pacific special privileges will be taken from them unless they decide that it would be more to their interest to use that line.

May Organize a Labor Board.—General Manager H. U. Mudge, of the Santa Fe, is at a meeting in Chicago where the general managers of the railroads entering in Chicago are considering the advisability of establishing a general labor board, whose individual members will be empowered to act for the railroads they represent. Should the plan be carried out an attempt will also be made to induce the labor unions to organize a similar board to treat with the railway board on grievances. The plan has not been fully outlined, and there are certain difficulties in the way of its being carried out. Several of the executive officials of the big systems, however, are interesting themselves in the matter in the hope that such boards will be found to be practicable. The object of the plan is to save expense and time for both the railroad officials and the employees.

Robinson Moved to St. Louis.—The Mexican Central Railway company, limited, has issued an official circular announcing that the office of president of the company has been transferred to St. Louis, with headquarters in the Bank of Commerce building. A. A. Robinson, president, will divide his time between St. Louis and the City of Mexico. His home is in Topeka, Kan. The through traffic arrangement between the Rock Island and the Mexican Central, negotiations for which have been under way for some time, as previously announced, will be completed soon, after which time the Rock Island, like the Katy, will run through trains from St. Louis to the City of Mexico.

Electric Car Competition.—The Chicago & Eastern Illinois road has announced that on and after Sunday next it will discontinue its suburban train service from Archer avenue, Forty-seventh street, Fifty-fifth street and Fifty-ninth street stations.

speaking of the big excursion of Santa Fe men to Redondo, says:

"The striking bolshermakers did not go on the employees' excursion to Redondo. But they were all at the station to see the trains pull out this morning. Two of the bolshermakers went to the office of G. R. Joughins yesterday. It is believed, for the purpose of arranging for transportation for the strikers to Redondo. They did not see Mr. Joughins, and it is understood from reliable authority that they did not ask to see him after they got on the second floor of the green house on the hill. They had a few words with the chief clerk, and as the conversation had no bearing on the strike, it is thought that they were after transportation to Redondo. It was given out at the mechanical superintendent's office that all tickets for the excursion were being issued by Master Mechanic Park, through heads of the various departments. Whether the bolshermakers were disappointed or not no one seems inclined to decide, but they didn't go, although they were all at the station."

RATON OIL WELL.

A Depth of Over 1700 Feet Has Been Reached—Prospect for Oil Good.

Work on the oil well near Raton is rapidly going forward day and night and up to this writing a depth of over 1700 feet has been reached. The drill is still in shale, there is a considerable showing of oil in each bailing and the odor of oil is very strong. This odor has been present ever since a depth of about 500 feet was reached, but has been growing in strength as the drill went down until now the smell would not be much stronger from pure petroleum, while globules of oil float upon the water drawn from the well.

It is generally believed that the drill will penetrate the shale within the next twenty-four hours, and then a strike of oil is anticipated, though it may be that other strata may have to be penetrated before the strike is made—if it is made.

The indications are so strong that there seems to be little doubt about oil being struck—but a few days longer will decide the matter.—Raton Range.

J. E. Saint, of the Santa Fe Central, is in the city visiting with his family. Mr. Saint has just returned from an overland trip to Pinos Wells. He reports that the company's tie contracts in the Manzano mountains, are getting out ties at the rate of 4,000 a month.

SENATOR ANDREWS.

What He Says About His Visit to Roswell.

EN ROUTE TO CAPITAL.

Senator W. H. Andrews, president of the Santa Fe Central and Albuquerque Eastern roads, passed through the city this morning en route from Roswell to the Santa Fe Central's general offices at Santa Fe.

Senator Andrews went to Roswell a few days ago accompanied by W. S. Hopewell, vice president of the company, and Major W. H. H. Llewellyn, of Las Cruces. In interest of the extension of the Santa Fe Central from Torrance, the Santa Fe Central terminus on the Rock Island, to Roswell.

"We were given a warm reception," said Senator Andrews, this morning. "The Roswell people are enthusiastic over the proposition. The proposed extension will be built. Captain Lee showed us over the country and it is as fine a farming country as I ever saw. The soil is fertile and with a little water, will bloom. It is a great fruit country, too. Apples grow large and have an excellent flavor. I visited some of the large apple and alfalfa farms and a few of the big stock ranches. The Milne-Bush people have an exceptionally fine ranch."

Mr. Hopewell is returning to Santa Fe overland, along the line of the Santa Fe Central. Mr. Llewellyn returned to his home at Las Cruces.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

New Political Party.

New Haven, Conn., July 30.—At a conference here today preliminary steps were taken for the organization of a new state political party to be known as the Economic League. As is indicated in its name the new party will concern itself chiefly with labor and industrial questions. Chief among the promoters of the movement are Mayor Sullivan, of Hartford, and Mayor Charters, of Ansonia. A state platform is to be prepared and a general scheme formulated for putting some of its principles into effect. The platform probably will contain a clause favoring the initiative and referendum, the municipal and national ownership of public utilities and planks aimed at the professional politicians.

Went to Visit His Sister.

A. J. Cottingham, who went to Washington County, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by all druggists.

New K. P. Lodge.

Monday night Harmony lodge, No. 6, Knights of Pythias of Raton, went out to Blossburg and instituted a new Knights of Pythias lodge at the latter place, with a charter membership of twenty-five. W. M. Berger, past grand chancellor commander, and Grand Chancellor Commander Kilpatrick, of Madrid, were present and made it their special duty to see that the goat was properly groomed and instructed in the very latest perquisites to knighthood. "Billy" was undoubtedly of the Rocky Mountain species, as he was not relieved of duty until after Sol had made his appearance Tuesday morning; yet he was frisky and looking for more worlds to conquer.

The Blossburg lodge will have a membership of at least fifty within a short time.—Raton Gazette.

Just Look at Her.

Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. "He looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result.—all organs active, digestion good, no headaches, no chance for "blues." Try them yourself. Only 25c. at all druggists.

TWO ROADS CONSOLIDATE.

Will Be Known as the Cincinnati, Indianapolis & Western.
Indianapolis, Ind., July 31.—The Cincinnati, Hamilton & Indianapolis and the Indiana, Decatur & Western railroads were consolidated here today at a meeting of directors of the two properties which hereafter will be known as the Cincinnati, Indianapolis & Western.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours of three days she was upon her feet and at the end of one week was entirely well." For sale by all druggists.

Mrs. A. D. Whitson, of the Whitson Steamship Company, was a passenger south last night.

GOOD FOR SIERRA COUNTY.

It Shows a Good Increase in Its Assessed Valuation and a Low Tax Rate.

Sierra county assessment returns even last year already showed a per capita assessment of almost \$400, exceeded only by Chaves and Eddy counties. This paper always asserts that a just assessed valuation means a lower tax rate and that is borne out by the tax rates of Luna and Sierra counties, the latter having probably the lowest tax rate of any tax rate in the territory. It having been 27.29 mills last year and this year it was fixed at 27.24 mills, the assessed valuation since last year having been increased from \$1,306,925.85 to \$1,469,094.97.

The El Paso & Southwestern railroad is completed to within a few miles of Strauss, N. M., from Deming. Practically all that stands between the road and El Paso are the tunnel and bridge just west of El Paso.

Contractor Scott, of El Paso, and a gang of men passed through the city this morning en route to Colorado, where they will do grade work on the Denver & Northwestern railroad.

The Union Pacific railroad has made an immigrant fare of \$32 from Chicago to the Pacific coast towns.
